

First Strong 1371

Chapter 1371 - Under Mawei?

After Bi Haihuan heard his father's introduction, he immediately woke up, and today's grandfather's summoning may have other meanings.

She immediately used Shen Lang to teach her the method of pronunciation, and quickly introduced these two people with Shen Lang.

Whether it is the Aso of the ancient Lucheng State or the Jiangyan of the city of the river basin, it is a legendary figure. It is recognized as the first one for a long time!

In this world, the Master of Psionics can be greatly respected and the number is very small. But there is a larger population base than the Earth, even if the ratio is very small, the absolute number is quite large.

The first person who has been recognized for decades, naturally has two brushes.

It's just that their status is generally not going to be dispatched. It is only the big family that the city-state dominates.

This kind of information has little effect on Shen Lang, and he can actually think more than Bihai. For example, the appearance of these two people is most likely because of his relationship!

Originally, both of them were recognized as the first of a city-state, and they were fabulous legends.

However, after the last days of the fierce battle outside the real world, Bi Haihuan quickly rose, and the impact is not limited to the river city. Under the influence of the Bihai family, her influence has been growing, and she has taken another wave.

This does not grab someone else's business!

They may not be able to absorb the power of faith, and certainly not so wide public awareness, but the rise of Bihaihuan is directly beyond all directions. The general public, the psionic masters, the major families... This is a loss of interest that they cannot accept, so they will take the initiative to contact the Bihai family.

Even if the overall level of the psionic masters here is not good, but the entire city-state can be the first, and for a long time, it must be quite powerful.

They can become the guests of Bihai Chuntang, and they certainly prove their strength.

Now, Bihai Chuntang will meet with Shen Lang, but let them have two guests. Naturally, there is a mutual understanding of each other.

When Bi Haihuan introduced the introduction of the voice, Shen Lang just nodded to the two of them and responded.

The atmosphere at the scene is a cold spot.

Bihai Chengtian introduced the identity of the two of them to Shen Lang. It was originally given the steps. Normally, looking at his face, the two sides will also be on the surface.

I didn't expect those two to lean on the old and sell old, and obviously deliberately just nodded.

I did not expect that Shen Lang would not eat this set, and did not give anyone a face.

"Young people, are you Shen Lang? Can beat the extraterrestrial demon, and there are two things."

"Our older generation should not be seen by you?"

Under the cold spot, Bihai Chuntang did not speak the round field, and Bihai did not know what to say, so they could only find a topic.

This is obviously still relying on old sellers, and there is a blame for Shen Lang's disrespect for their older generations.

"The devil outside the area, why not hang the teeth?"

Up to now, Bihai Chuntang and Bihai have not invited Shen Lang to sit in the room. He sat down directly, just opposite Bihai Chuntang.

"Your sorrow is young and full of enthusiasm, and the devils outside the domain are all hanged their teeth..." Jiang Xiaozui sneered, when Shen Lang was loading.

Aso also wants to ridicule, but has not said it, has been interrupted by Shen Lang.

"Nothing young, older generation, not being seen in the eyes, mainly because the strength is too poor. Poor strength should have the awareness of poor strength, running the noise in front of others, it is irritating."

This said that Jiang Yan and Aso directly changed their faces.

They are the first psionic masters of the two city-states. They are simply the top of the world. Even the great patriarchs like Bihai Chuntang treat them with courtesy.

The opening of Shen Lang directly said that their strength is poor, so it is very face-lifting.

And they have not yet come out, Shen Lang continues to fire, this time is aimed at Bihai Chuntang!

"The Bihai patriarch invited me today, but let these two people be here, is it necessary to give me the Mawei?"

Bihai Chuntang and Bihai are all smashed.

They naturally attach importance to Shen Lang, but Shen Lang has no trace of it, and it is not convenient to follow up and explore. It is also a teacher of Bi Haihuan, not a person of the Bihai family.

In short, it can't be used for me. I can only take advantage of it. And Bihaihuan still needs time to build momentum. At this time, the signature of the first old psionic master of the city state is of course more useful. As long as it is profitable, it can also earn them income.

Let them come out to face today, not to count Mawei, just show their chips in their hands, let Shen Lang understand that they will not rely on him so much, so that he is not so embarrassed.

So when they were both provocative, Bihai Chuntang also pretended not to react, and did not interfere.

But I did not expect that Shen Lang actually directed the muzzle at him!

“Master Shen Lang misunderstood, coincides with the two masters here, thinking that you are all high-ranking people, should be more topical, so they are invited.”

Bihai Chuntang will not show up even if it is embarrassing or uncomfortable, and the sea is full of rounds.

“Kids! You are too much! We are disrespectful to us. We will not care about you, but you are so disrespectful to the Bihai patriarchs is a crime of death!”

After all, Jiang Yan is the first psionic master of the river city, or more to maintain or fear the blue sea family.

This will start directly from the filming!

Aso is not far behind, and he is worried about it.

“We will give you an opportunity to apologize, otherwise you will pay for it no matter what big person behind you!”

When the two people just finished speaking, they found that they could not move the whole person!

They just started to shoot, but they were imprisoned when they were in the normal position, so they maintained a half-standing posture.

“you you.....”

Both of them stuttered up and wanted to say “what evil method you used”, but they are the first psionic masters. If you can’t even see what other people use, is it even more shameful? ?

Bihai Chengtian and Bihai Chuntang are watching the lively side, this time is a mutual temptation.

Aso and Jiang Yan are famous figures. It was not so easy to win over them. It is their pride. I will come here now and show their strength. But compared with Shen Lang, in the end, how much difference, everyone’s strength gap, they ordinary people can not compare.

Let them meet three today, no matter who is the most powerful, you can better focus.

But the current situation, but let their father and son two, but also stunned.

Originally in their estimation analysis, Aso and Jiang Yan, even if they are not between Shen Lang and Bo Zhong, the two people should be able to suppress the waves.

However, Shen Lang directly said that they are too weak, and now they have not seen how to start, directly to people!

Chapter 1372 - You also match

“As far as you are... also to talk to me?”

Shen Lang disdainfully sneered, and revoked the imprisonment for them.

As soon as he came in, he already felt that there were two psionic masters who were stronger than the psionic masters he had seen here before.

I thought that this was just the heart-warming bodyguard of Bihai Chuntang. With his emperor's general status, there are two big masters around him, which is completely normal.

After the results approached, from their attitude, and Bi Haihuan said their origins, they also know that this game is a bit different today.

The first strong city in the city and the ancient city of Lucheng, in the Shenlang here, are inconspicuous!

First of all, objectively speaking, the two of them are also quite powerful. There should be no practice of cultivation, but there are many resources. Therefore, they reached the first level of the city-state, and they were comparable to those on the earth.

These two are almost all in the middle of the realm of the gods, and they are a level of Joe. In terms of height, it is still not as good as the contemporary level of the earth. At least the earth and the Pope have reached the level of half a fairy, and there may be half of the celestial being hidden.

In the mid-term of their divination, they will be able to show that they are no stronger in the first few decades, because when they become famous, they may only be in the early days of the gods.

However, the territory here is extremely large and has a large population. It is also possible to indulge in the psionic masters of fame and fortune.

No matter what, in the midst of the current situation of Shen Lang Da Xian, the middle of the two realities of the gods can really only be regarded as "districts".

It is also because of the great difference in strength, so the two of them can not see through the depth of the waves.

If Shen Lang is the level of the peak of the gods, let them feel the pressure, can peep into the analysis to be stronger than them, they may still be honest.

The imprisonment just made them both embarrassed by the two who had to stand up and get angry. Now they suddenly retracted, let them pause, and felt the strength dissipated. They all fell back and sat back in their seats.

“I have you letting you sit down? Do you have your seat in front of me? Go and go!”

Shen Lang frowned, seemed to be very dissatisfied with their behavior, and then waved his hand uncomfortably, and the two immediately fell out with a stool.

This time, it was the complete shock of Aso and Jiang Yan!

Just being imprisoned, they did not feel that the strengths were very different, but they felt that they were being attacked. I was sighing and thinking about counterattacking.

The result is now again, Shen Lang waved, they fell back without resistance. Until now, I realized how strong this swell is!

No, they can't even determine how powerful the other is, and can only be sure that they are better than themselves.

Bihai Chuntang, Bihai Chengtian and his son, are once again shocked!

Just after Shen Lang took control of both of them, they could still feel it, but they were not very clear about the specifics. They could only confirm that Shen Lang was stronger than the two of them.

Now that Shen Lang Ming Ming has let go of them once again, it is still easy to let them have no room for resistance, it is not stronger.

Both of them secretly smiled and realized that they had made a very stupid decision.

People from Xiandao can't be underestimated!

I don't know if I have not shown real strength before, or because I am still making rapid progress.

Now they are a little bit smashed, and the strong waves mean that they can get more benefits by relying on Bihaihuan, but they are afraid that today's move will offend Shenlang.

“As far as your level is concerned, it is not as good as my students. I dare to scream with me?”

When Shen Lang said this, his eyes were on Bihai Chuntang.

Bihai Chuntang and Bihai Chengtian are all considerations of interests and other aspects. Bihaihuan is worried about the safety of Shenlang, but at the same time has great confidence in him.

So watching him easily crush the city's first strong, she did not have much surprise, under the Shen Lang shot, as if everything is taken for granted.

Under the bitter smile of Bihai Chuntang, I heard a word and quickly apologized.

“Master Shen, I am waiting for a mortal, limited knowledge, did not arrange today's meeting, I am very sorry! The two masters did not offend, but also hope to anger.”

Shen Lang can't be offended. The two of them are also extremely helpful, so even if they apologize, they can help them.

Aso and Jiang Yan two, with the stool fell to the ground, still can not move, so that they are very embarrassed, this time is not afraid to say anything.

The strength of each other is far better than them.

At this time their embarrassment is simply impossible to add. Although it has not been seen by more people, it will not necessarily be spread out. But now it is seen by the patriarchs and future patriarchs of the Bihai family, which directly affects their position in the high-level circle.

In the future, it can only be left in a dingy way. Do you still need a monk like Shen Lang? Even if you still leave them, are you still qualified to talk about the conditions?

Shen Lang's hand flipped over, and the two men who fell on the stool turned over and became squatting on the floor, and the stool pressed against them.

“What do you say?”

Assassin shy, sighed, and then said: “I have eyes without beads do not know your means ...”

Jiang Yan saw the blue sea Chuntang and the blue sea, and he was the first strongest in the city. It was almost double embarrassing. Now flip it over and let them be stunned, let his head get hot. The moment when the imprisonment dissipated, the momentum suddenly skyrocketed!

In an instant, a large piece of the whole area was controlled by Jiang Yan!

He still has a trace of luck, and he feels that even if he is stronger than them, if he sneak attacks, he should still be able to fight.

Just now, everyone on the scene felt it, and his eyes hit him.

Bi Haihuan is very confident about Shen Lang, but he is afraid that the older grandfather will be shocked and hurry to guard.

“Kid! Don't think that there are two things...”

“Hey...”

Shen Lang's fingers, gently tapping on the table, just felt the opportunity to turn over Jiang Yan, immediately felt a kind of overwhelming pressure.

This time, he felt desperate!

Because this invisible power is not what he can resist at all. He has just controlled the surrounding environment, but he has not been able to use it before, and he is easily disintegrated. The force that has been suppressed at this moment directly causes him to become shackled and become Stumbled on the ground!

After a while, he was already sweating, as if every inch of bone in his body, every organ was being crushed, and it would soon be broken.

“Big, Master... I want you to spare Jiang Yan, it’s damn...”

Aso is probably the sad mood of the rabbit dead fox. If Jiang Yan is crushed and killed, he should not spare him, so he hurry for mercy.

“You said that he is damn, what else?”

The voice of Shen Lang just fell, Jiang Yan immediately spit a blood out.

Chapter 1373 - Another reason

The first psionic master who has been famous for decades in the river basin, in front of Shen Lang, has no chance to shoot. The result of struggling is also the friction on the ground like a dead dog...

This picture makes the three generations of the Bihai family infinite.

The Master of Psionics is the awe of winning ordinary people, including Bi Haihuan. But in fact, in the eyes of the people of the Bihai family, like her brother Bihai chasing, they will not feel much more powerful.

Masters of Psionics, in their eyes, are just a group of people with stronger personal strengths. They can be used.

There are no psionic masters who can fight these big families. Just like in the military, they all have teams dedicated to the Master of Psionics.

Even the first psionic masters of the city state have to succumb to their power.

The surging of Shen Lang, especially the battle with the extraterrestrial demon, the armored team with complete weapons and equipment is uncertain, but it can be handled by him personally.

Now compare Jiang Yan, they can kill with his fingers. It is a full explanation of the fact that when he is so powerful that it is so incredible, even the army can not help him!

Shen Lang is of course also paying attention to the reaction of all of them. Aso is sweating and afraid to persuade more.

After waiting for a while, after giving them pressure, he took the momentum and left Jiang's life.

The purpose of the apes has been reached, and it doesn't matter if you kill the chicken.

"Thank you for the master of Shen Lang... don't kill the grace!"

Jiang Yan just wanted to fight now, and now the ghost door is gone, it has completely awakened. Regardless of breathlessness, hurry up and thank you. During the conversation, another blood spit out.

Aso dare not say anything, and bowed up next to him.

"Your so-called first, in my eyes, nothing. I am in the eyes of the mighty God, nothing. The world is big, there is nothing strange. There are days outside the sky, people outside."

Shen Lang has no need to say anything at this moment, and he said a cloudless voice.

The winner is the king who loses, and the people who crush them, what they say, they can only listen.

But just this sentence is to make them both shocked!

How long! They have long become the first city-state, and the concept of using the earth is the first in the country. The city-states here are extremely large and have a large population. So even if you can't fight the real power, you have the power.

For a long time, they have become accustomed to the high. In addition to the identity of Bihai Chuntang, it is difficult for ordinary people to let them bow their heads.

Today, they were shot into the dust from the clouds, letting them lower their high heads. At this time, people who have heard the victory, say so philosophical words, like a slap in the face.

This is no longer a philosophical one. People must have seen a broader world and be so calm.

At this point, they also believe that this young man is not swindling, but it may be someone from Xiandao!

“Thank you for your guidance!”

Bihai Chuntang is also a gentle applause: “There is a heaven outside, there are people outside, and Shen has a great vision and ambition!”

As a power-holder, he and Jiang Yan have different interpretations. When he heard it, there are other city-states outside the city-state. There are other continents outside the mainland. It is a vast world, a territory that can be conquered!

Of course, he does not feel that he can conquer the whole world by himself, but he has sons and grandchildren. As long as the blue sea family is getting stronger and stronger, one day, he can rule the whole world.

Without the restraint of Shen Lang, Aso got the only one. After he bowed his head, he got up and raised the injured Jiang Yan.

Jiang Yan is also a strong man. He was crushed by a strong man who was far better than him, but after he let go of him, he can still hold it.

However, since Shen Lang is overlooking their height, of course they are not interested in making friends with them.

“Take him to treat it!”

This is what Mr. Aso said. Aso would like to know and hurry and nod.

In fact, they are embarrassed and embarrassed to stay. They can only be laughed at, but they must be trembled. If they are not careful, they may offend the waves.

However, being sent away, still a little lost. After all, such a strong person, there are not many opportunities to get close, let them leave, which means that others do not want to take care of it, there will be no chance in the future.

At this moment, both people regret it. I knew why today, I must know that Shen Lang is so powerful. I should just put a good attitude in the first place and hold my thighs.

Jiang Yan and Aso are not just here, there are also guards outside the garden, so they don't need to be accompanied by Bihai.

After the two of them left, they left the three generations of the Bihai family and Shen Lang.

“Master Shen, I should apologize to you, I am thinking about owing a week, or else I will not let them both here. I thought they were strong, and you can talk to you, I did not expect their strength and attitude... ..”

Bihai Chuntang had already apologized before, and of course, the blue sea could not let his father speak again, so he took the initiative to apologize again, in order to dispel the evil feelings of Shen Lang.

Originally, he still wanted to win the eyes of Bihai, but after thinking about it, Shen Lang was originally because of the relationship between Bihaihuan. If this time, he would let Bihaihuan open his mouth and persuade him to be considered to be using his daughter. Living.

Bihai Chuntang also revealed a sincere look once again apologize.

“Master Shen, this time we are really wrong, the people of the common sense are not aware of it, but there is absolutely no disrespect for you, but also Haihan.”

Bi Hai Huan is very embarrassing.

For such an arrangement, after knowing the identity of the two people, she was also worried about the tension, and the arrangement for her grandfather was very unhappy. Fortunately, the Shen Lang is very powerful and easy to solve.

But now her father and grandfather apologize to Shen Lang, she is not good to blame them, she is more embarrassed in the middle.

Shen Lang waved his hand: “Okay, don’t need to apologize to me. They don’t respect me, I want to kill them, just raise my hand.”

“Yes, yes, the masters have made great achievements.” Bihai Chuntang and Bihai are busy with each other.

The expression is also a bit embarrassing, because this is said to be Jiang Yan, and the subtext can be counted as the Bihai family!

“Simply say it! I will come to see the patriarch, not to greet the benefits of the Bihai family, just because you are the elders of Bihaihuan. So, you don’t need to spend much thought on me, they are useful to you, and you are in the cage.” ”

This is his attitude, but this time he said it directly in front of them.

“Yes, yes, understand.” Bihai nodded in a row: “This is our problem, but… it really has something to do, and it is also related to them.”

“Well?” Shen Lang signaled that he had something to say.

“It is like this. They can have today’s achievements. They have a common origin. Considering that they may be helpful to the masters and joys, we will make a lot of money and ask the news from them...” Bihai said in a busy day.

Chapter 1374 - Under understanding 1

According to the meaning of Bihai Chengtian, they are doing good for the sake of the sea, for the sake of the blue sea.

Because through their channels, they learned that Aso and Jiang Yan, who became the first psionic masters in the city-state, had been to a place in the early years, where there was a huge gain, so that they would leap to the gantry and lead the others. Master of psionics.

But the place, for them, of course, is confidential in the secret, it is not to tell the outsiders casually. And people who should know, may not be able to arrive, and they may not be able to retreat.

In terms of the large base of the population size, there should have been some of the past, and the top psionic masters who can be one of the best. It is not a life of nine deaths. It may be one of the best in the world.

The Bihai family invited them to come over. It is not only their personal ability, but also the secret place they want to know from them, so that Bihaihuan can reach a higher level, even let More children of the Bihai family became masters of psionics.

The Bihai family did not follow the psionic master’s route before, just because they couldn’t see it. This is just like a group of martial artists. They can be manipulated and used.

The emergence of Shen Lang made them realize that the Master of Spirits can be so powerful, even... threatening them. Bihaihuan is not willing to disclose the practice of Shenlang to the family. Shenlang is probably a person from Xiandao, and he is not willing to investigate.

The top psionic masters in the country are the second choice for them.

In the end, it is for the benefit of the Bihai family. Now it is said that it may be helpful to Shen Lang and Bi Hai. Because other people are not masters of psionics now, they can be said.

“Not interested in.”

After listening to Shen Lang, I responded with a touch of faintness.

Can he not know the deeper meaning of the Bihai family? For the ordinary people of the Bihai family, it may be helpful to become a psionic master. For him, there is no point.

“Bihai Huan’s cultivation for a few years is no less than their first psionic masters, and their secret place is no different.”

This made the Bihai Chuntang and the blue sea all the same, and it was a dark smile.

Shen Lang helped Bihai Huan to make rapid progress. They knew it, but they said that they have already caught up with the city’s first psionic masters for a few years now. They don’t believe it.

And this is for the long-term interests of the Bihai family.

“Master Shen, you are a god, we don’t dare to compare. But after the joy, the road is still long, and you can’t rely on your help, or you need to grow up, it will work for her. Then again...”

Bihai hesitated for a long time: “Happiness can grow fast. In addition to your direct help, the advanced exercises you provide are also extremely important reasons. Jiang Yan, before that, is the ordinary psionic master.”

Shen Lang’s eyes are moving.

This is to let him think a little more, if that place, can let the ordinary psionic masters, advanced to the top level of the city state, it is really not ordinary.

Just like the monks on the earth, Yuezhengnan and other Pingxi, for the rest of their lives, they are mostly getting started, and they can break through to the virtual world.

This is the limitation of the cultivation environment, exercises, resources, etc. The children of the Qiao family in Beihai are different. Qiao Shuyu is only in his thirties. When he meets, he has become a young master of the real world. The future will certainly be able to break through to the realm of the gods.

Now Jiang Yan and Aso's encounters are equal to the return to the realm of the gods! Although this process is not a day, it is a long-term process. But it is very unusual for them to let the fish jump to the gantry and realize the evolution of the "class" of cultivation.

"Let's take a look!"

Shen Lang knows the meaning of the blue sea, although it is for the blue sea, but if you let Bihai go alone, they are still not at ease. This is a special good seedling of the family, which can't be broken there.

To remove non-sinking waves!

Bi Haihuan opened her mouth, and in front of her father, she was not open to object. However, the eyes are clearly revealed to Shen Lang, so that he does not need to be for himself.

Shen Lang smiled at her and comforted her.

Nakajima is not a mountain in the mainland. It is a half-seven or even a big fairy. It still needs the rest of the great gods. He even smashed it. What dangerous places can there be on the riverside city?

However, since he is a "God of Man" style, of course, there is no need to say so much, so it is mysterious.

I got the answer from Shen Lang, and Bihai was a little excited.

"Thank you Master Shen! We have already reached a deal with them, and paid a great price, let them give all the information, and originally wanted to let them work together, you see..."

He said that the great price, of course, is bragging, but it can make Jiang Yan and Aso willing, and certainly give a satisfactory price.

However, now that the waves are coming, they also confirmed that Shen Langyuan is better than Jiang Yan by the comparison of three people. How to arrange this, we must listen to Shen Lang.

“Since it has already paid a great price can’t be cheaper, let them lead the way!”

Shen Lang does not care about the two of them. In his current realm, even if they want to count him, they are not in the words. And there are them, after all, is a person who has gone through a glimpse, how much can provide a little information.

“Okay, I will talk to them right away. I have a message for the specific information, and I will see it later.”

Bihai listened a bit stunned, thinking about it, it was a bit stunned.

When I first gave her this information, she didn’t say so clearly, so she didn’t care too much. Now I know what it is.

They understand very well that Shen Lang does not have much to talk about with them. I just said it more clearly. When I come to see Bihai Chuntang, I look at the face of Bihaihuan.

So the business has already been finished, and the father and son are simply a set of guests, and they are sent to let them go back.

Bihai is still in need of communication with Jiang Yan and Aso, so after leaving the palace, let Bihai Huan leave with the waves.

“Teacher, I am sorry, I didn’t think they would... I don’t know...”

The two were alone, and Bi Haihuan quickly expressed her apologies.

She is trapped in the middle of the dilemma, if I know in advance that this will be the case, then directly to find an excuse to refuse.

“It doesn’t matter. I am here, I haven’t gone to many places. If there is such a place, let’s explore together!”

Shen Lang is also a bit curious now, creating a place where Jiang Yan and others are in the end.

After Bihaihuan took him back, he found out the information he had given him, and presented a shadow of the screen in the house, projecting all relevant information.

Chapter 1375 - Xiaoxian Island

The information contained in the previous holy armor made Shen Lang have a general impression of the territory of the whole world, but there is no specific understanding. The information now presented to them is to mark the location of the entire continent, and as the zoom in advances, the step by step details are reflected.

That place is not in a river city, but in a distant place.

It does not belong to any city-state, it is a remote island that nobody is too lazy to control.

According to Jiang Yan’s message, it is said that the island is banned from entering by any other means, but does not restrict the entry of the human body. That is to say, aircraft and vessels cannot land on land, but people can.

Because it is an island, plus this nature is somewhat similar to the Central Fairy Island, so there is a nickname, called Xiaoxian Island.

However, the scope of this small fairy island is not large, and aircraft that cannot be landed can also scan all the information of the entire range.

As for what is on the island and how to make them leap, they have not said so far, but they just want to accompany them.

Bi Haihuan began to get this information from her father. She thought she was going to train her and let her go to challenge the island. Now I know that there is Xiaoxian Island.

This information, of course, is not enough for Shen Lang and Bi Hai to understand Xiaoxian Island.

“Teacher, you said... will there be fraud?” Bi Haihua analyzed it carefully.

Shen Lang shook his head: “If it is now, it may be fraudulent because I have cleaned up their meal. But this is what they have done with you, and they will not dare to harm the Bihai family.”

It is also reasonable to think about the blue sea, even if their personal strength is very strong, they can't fight the army of the blue sea family.

“Then why do they have to go in person? According to the statement, the island should be very dangerous. Otherwise, their past days should go more than once.”

Shen Lang smiled slightly: “This is very understandable. The island is very dangerous. It may be that they only say it out, scare people from entering. They monopolize the opportunity, and the benefits can be maximized. Otherwise, countless people will go, even if they die. Most, and some people will share the benefits.”

“In the past days, they should have been there, and no one knows it anyway. Escorting you and running oneself is not only a matter of convenience, but also avoids revealing more information to you.”

With that said, Bi Haihuan will understand.

If they make everything clear, then the value of use will be small, and personally escorted her to travel, which in turn can win the interests of the Bihai family.

“Then we still bring them together, in case they make you bad...”

Bi Haihuan is still a little worried. Jiang Yan may not intentionally harm him, but now Shen Lang has humiliated them. This is not the same as hatred. In the event of a smashing of the waves, it is tantamount to her indirect harm.

“Just rely on them? Rest assured! To be honest, just because they escorted you, I am not at ease.”

Bihai Chengtian should have communicated with Jiang Yan and Aso, and sent a letter to Bi Hai Huan, saying that as long as they are ready, they can leave at any time.

This time, Shen Lang does not need to upgrade the strength of Bihaihuan. Since she has encountered this incident, she escorted her to run a little earlier.

There are some natural resources arranged by the sea, and you can mobilize almost all the resources of the Bihai family. Of course, you don't need to prepare for them. The inquiry is only to seek the advice of Shen Lang, and Shen Lang decides the departure time.

After confirming, he set off quickly, first flew to the base of Haotiancheng, and then arrived at a spaceship.

Because this time, I have already left the site of the Bihai family. For safety, there is also a flight fleet to escort. As for passing the city-state diplomacy, there are of course special personnel.

Shen Lang, Bi Hai Huan, and Jiang Yan and Aso are all on top of a spaceship.

The temporary captain of this spaceship is also an old friend familiar with Shen Lang – General Feng Yuegu. This is a trusted confidant who can bring the safety of Bi Hai Huan to his hands.

Due to the long distance, the flight time is longer than that of the previous Shenlang to Tiancheng. To enter other city-state sites, it is also necessary to accept the speed requirements of others.

Throughout the process, it is indifferent to have a blue sea, and she can be very happy as long as she is together with Shen Lang.

Jiang Yan and Aso are two awkward.

They were originally the first psionic masters of the city-state. They were seen at the level of the generals. They were also respectful, but they were rubbed by Shen Lang and saw him again. Of course, it was unnatural.

But they couldn't show it, and they didn't dare to be mistaken for the dissatisfaction. Fortunately, the spacecraft was also very big. After they greeted the war, they excused a bit of a halo flying boat and found a place to close their eyes.

When a person came over before Shen Lang, he had already enjoyed the scenery of the city-states in the river basin. Now he is flying farther and there are more places.

Therefore, he still took the time to communicate with Bihai and let her know more about the "Yin and Yang Bo Ruzhen". www.mtlnovel.com~ In the days when he was not there, she would have to understand through her own breakthrough. .

Now, Bihai has been slowed down. Anyway, in the next few decades and a hundred years, it will be enough to see Shenlang. She has not thought about whether she can become a ***** after hundreds of years and after a thousand years, but she thinks that she can't be far away from Shen Lang.

Jiang Yan's name, even if she was not a psionic master before, is also a slap in the face, a character she knew from an early age. This is the first time I saw it. I didn't expect such a character to be crushed by the teacher, which shows the teacher's magic.

Of course, she will not forget when she saw Shen Lang, when she was younger than she is now, and like a wild man, she definitely has no strength.

These she will not talk to the family, but she is very clear – the teacher is also making rapid progress!

Although the Bihai family's squadrons will cause a lot of conjectures, they will basically give face without conflict. Other city-states will even keep a safe distance and send out battleships to escort!

Because the above is the wind and the sea, if you encounter an attack on your own site, the generals of the local military field will encounter a ***** pot that cannot be opened.

Under such a heavy protection, the fleet crossed the extremely vast continent and came to the waters of Xiaoxian Island.

Xiaoxian Island is not far from the mainland. It is far from the central fairy island. The spaceship fleet can also pass nearby and over the sky, but it cannot be close to and landed.

They also had the presuppositions on the terrain. Feng Yuegu personally made a calculation plan. Under the protection of other warships, they landed at the maximum limit where the spacecraft could approach and let them land on the island.

Chapter 1376 - Fight against the big array

The sea area that the spacecraft can no longer be close to, is actually a long way from this small fairy island.

When I saw Shen Lang, Jiang Yan did not dare to hide, and already said how to go to the island. After talking about it, technology products have been banned, only to swim in the past!

On the side of Fengyuegu, there is also a wetsuit that is ready for the whole body.

However, Shen Lang still feels trying it. When Jiang Yan and Aso traveled in the water, he grabbed the hands of Bi Haihuan and stepped on the sea directly, stepping on the water step by step to the island!

Jiang Yan and Aso did not dare to be so big, just relying on swimming and not using any psionic power.

Shen Lang is also ready, with Bi Hai Huan, if it is really banned, then it is not too late to swim.

According to the Central Fairy Island, this should also be a form of law protection. Although not as huge as the world-class array of fairy islands, this small island can ban all warships, ships, etc., but also has extraordinary power.

Of course, there are very few people here, the scope and interests are too small, and it has not led to the development of major city-states.

Shen Lang took the blue sea and walked forward, and soon felt the resistance!

This kind of resistance is invisible, the front is sea water, there is still a distance from the island, and there is no barrier, but the invisible resistance is quite a bit of “stronger and stronger”.

Shen Lang tried to use the spirit to fight, and the result was a greater suppression!

“You also swam over, pay attention, give up the confrontation, and travel purely from the perspective of ordinary people.”

“Yes!”

Shen Lang smashed Bihaihuan and let her swim.

Whether it is Jiang Yan and Aso in the sea, or Feng Yuegu watching it, the attention is on the body of Shen Lang. Seeing that he has not taken a few steps, let the blue sea swim in the sea and everyone’s minds are different.

Feng Yuegu is a bit of a sigh, and Shen Lang master can’t fight the magic here. And Jiang Yan and Aso are two, not to mention that my heart is full of gloating!

The static waves crushed them, and the strength is naturally far better than them. But now I don’t listen to them, I want to fight against Xiaoxian Island, and finally I find that I still fight against it. Although it is not their merits, it also makes them dark.

But soon, the situation is out of everyone’s expectations!

Shen Lang just let Bihai Huan swim in the water, and he did not follow it, but continued to walk over the sea!

This keeps everyone’s attention on him.

He released the blue sea joy, obviously afraid of being tired of her, this is to fight against the end!

Regardless of the minds of Jiang Yan, they have to take the courage of Shen Lang.

In exchange for them, for this powerful and totally irresistible existence, only the known rules can be observed. Shen Lang's dissatisfaction with the beginning was not to believe in them, so when they let the blue sea bloom, they gloated.

But now it is different. Shen Lang has already clearly felt this pressure, but still does not give up the challenge. "There are people who know that there are tigers leaning toward Hushan." This kind of spirit is not something that ordinary people can have.

For a time, everyone's minds began to become the same, and they all expected that Shen Lang could create miracles.

Of course, Bihaihuan is not to mention, she is full of confidence in Shenlang, and he is worried that he will be in danger, and he is ready to meet him in the water.

Step by step and step by step, stepping on the water and walking towards the island with the strength of the Great Immortal.

The pressure he felt at this time was the power of crushing the big fairy!

When he took the blue sea joy, he just tried it, and now he is doing his best. If she still carries Bihai Huan on the side, she will also have to bear the power of crushing the Great Immortal, and naturally she can't stand it.

Every step, in the eyes of everyone, is so arduous, as if it is a difficulty across a mountain.

Everyone secretly worked hard for him, hoping that he could take a few more steps. This is a challenge to Xiandao!

When I reached the fifth step, Shen Lang felt that it had reached the limit.

To put it simply, the stronger the pressure, the first warning to him, after one step and one step, it will be upgraded and strengthened quickly!

Warships and the like can be stopped in advance, also because of the detection of threats.

Shen Lang is now step by step to the fifth step. It has already brought the personal strength to the extreme and the consequences of full force confrontation. But now, just like the previous series of crushing **** in the Bihai family, it seems that all the skin and bones of the whole body The feeling of being crushed.

Just now he can stick to the fifth step, but it is also a temptation. After releasing Bihaihuan, he can be without any scruples. But I don't care about life and death, so now, he has stopped.

If you stick to the sixth step, he will vomit blood directly. If you can walk out of the seventh step, you may stumble on the sea!

At this moment, Shen Lang can't reduce the difficulty of confrontation.

Because he just relied on the strength of Daxian, he can go to the fifth step. With the power of half a fairy or the power of the gods, the natural pressure is much smaller, but it is impossible to go the fifth step.

He is now riding a tiger, unless he gives up all the confrontation and swims directly into the water as an ordinary person. Otherwise, reduce the power of confrontation to the realm of the gods not the pressure of Xiaoxian Island to weaken, but will directly crush him!

After all, Shen Lang is Shen Lang!

Whether it is strength or experience, it is far from what Jiang Yan can compare.

At that moment, neither the withdrawal of power nor the direct abandonment of the put, but a new perspective!

Shen Lang's "Yin and Yang Bozhengzheng" has been cultivated to the eighth weight. The key to the eighth is to truly achieve the "Heaven and Man"!

This is not to absorb the unity of the heaven and earth cosmic energy, but to completely integrate itself with the universe and the universe.

In the past, he integrated the directors of various factions and created the “Yin Yang Bo Ruozhen”, in fact, he also cultivated to the eighth weight, let him become the master of cultivation, and reached Chengdu, which caused the robbery.

The highest ninth weight is just a deduction. He has not enough in-depth verification and reinforcement. Of course, now he can't understand temptations, and he must reach the realm of great deity.

However, the eighth heaven and man are one, but now they can be used.

Just as his confrontation is like pressing against the water, the pressure will increase the buoyancy. Now it is not against the water, but to make yourself a part of the water!

It is easier said than done. It is really adventurous to let one's “Heaven and Man” be merged with this big array. Because this is not the same as the general fixed environment, this is full of danger. If one does not do well, it is directly crushed by the impact.

However, Shen Lang decided to try it out and let himself and the big battle merge into one, but he was also prepared. Once he failed, he gave up the water, and he was injured most and not fatal.

Chapter 1377 - Heaven and Man

The whole process is very complicated and very dangerous, but it is only time, but it is completed in a flash. Of course, it is also because of the short and complicated and dangerous, if the time can be extended slowly, it will be much easier.

Shen Lang's re-construction of “Yin and Yang Bo Ruozhen” is much better than the previous one. Because there is no other foundation, starting from a blank sheet of paper, it is very pure.

This practice is accompanied by his daily life. When he is standing and lying, even eating and drinking, Lazarus is running automatically, so he is very familiar with him.

The cultivation to the eighth weight was also completed in the retreat of Tiandu City. After that, it was not Zhoushan and his party. It was also experienced a lot, and once again, the time was not short.

Therefore, at this moment, he is fully guarded by the gods, and then at the crucial moment, completely non-relaxing, letting his “yin and yang wave really swear” and the whole big array merge into one.

Suddenly, the impact of the turbulent waves was infused in an instant!

His relaxation and integration is tantamount to self-breaking, directly letting all the pressures come down!

However, at that moment, his self-destruction was not on the one hand, but completely released!

That is to say, the “flood” comes along the levee, but it does not reside in the scouring, and there is no even scouring, just over it.

Then he was already integrated into the big squad, and the raging pressure could not find the target, and naturally dissipated invisible.

After a high degree of tension, the successful integration makes Shen Lang have an indescribable sense of pleasure.

At this moment, it is like squatting in the sea, as if it is connected with the sea. I am the sea and the sea is me. All the energy of the sea can be used for me!

Originally invisible and invisible, the island has a connection with him, and he seems to be able to feel its life and vitality.

Every time he breathes every heartbeat, he is integrated with this big array, and he is integrated with the whole small fairy island. And this Xiajian Island seems to be one with this huge world...

These are the personal experiences of Shen Lang. Others can't feel it. In him, time has become different. It can be extended indefinitely or extremely shortened.

In the eyes of others, Shen Lang took the sixth step carefully after five steps. The sixth step, it is not so difficult to cross the past, but began to float easily on the surface of the sea, like a fairy, leisurely drifting forward, directly to the small fairy island in the distance!

Jiang Yan and Aso both, almost the eyes are shocked!

Although at that moment, it is also secretly cheering for the waves, but the power here is very deep, and even unforgettable. Why is Shen Lang able to do so freely?

Then they thought of another legend, saying that Shen Lang was from Xiandao. Compared with the fairy islands that the whole world can't snoop, this little fairy island is hardly worth mentioning.

The gods of Xiandao, to set foot on this little fairy island, should be described as "falling"!

That Shen Lang can not easily move forward at first, naturally it is just a small temptation, and now has successfully managed this Xiaoxian Island.

Suddenly, everyone's admiration for Shen Lang is like a sea of water!

Shen Lang has already drifted to Xiaoxian Island, and Jiang Yan and Aso have also rushed forward. Bihai Huan is even more excited, but also rushed to accelerate past.

Looking at this scene of Fengyuegu, it is even more sighing, this psionic master, shocked him more than once!

Shen Lang is naturally drifting to Xiandao, do not need to go, completely freewheeling. His mind is mainly divided into two parts, one part is the feeling of being united with the big one.

This time, the situation is much more magical than the average. In this respect, gaining experience is more than other times, and there can be a lot of help.

On the other hand, he also wants to feel the situation of this small fairy island through this big array.

The specific situation on the island, Jiang Yan and the two have not elaborated, still keep their secrets. Since Shen Lang let them go, they did not get it by taking their memory.

So now if you can learn more about this situation on Xiaoxian Island from this big battle, it is of course much better.

Floating on the island of Xiaoxian, Shen Lang fell on a huge stone.

That big array is a protection for the island. Without the scope of the island, it will be suppressed. After arriving on the island, it is a sudden drop in pressure, but there will still be a large ban.

According to Shen Lang's estimate, it is almost the strength that suppresses the level of the real world. If it is strong, it will lead to repression.

Such a design may be afraid of having some powerful entry into the island, and the resources and resources will be easily taken away.

Not long after, Jiang Yan, Aso and Bi Haihuan also swam to the island.

“Master Shen!”

They took off their wetsuits outside and came over to the front of the boulder.

Shen Lang jumped down.

“Lead the way!”

“Yes.”

They both agreed to give up.

Bi Haihuan looked at Shen Lang carefully and confirmed that he did not have any serious problems. It was the real relief.

“Master Shen, there is some information we didn’t say before, it is not intentional confidentiality, but it is not convenient, because it is said that others will not believe it. For example, the invisible suppression just now, and on the island, do you also think... ..”

Jiang Yan did not speak this time but was opened by Aso.

Shen Lang looked at the astonished Aso and nodded directly: “Yes, the crackdown is not only for the battleship, but also for the psionic master. On the island, although not so strict, but the power is also played, Being suppressed to a very low state.”

Bi Haihuan was able to react when he heard what he said now.

Jiang Yan and Aso are quite familiar with this situation. I know that this is indeed the case. Just now, just try to see the waves and see if Shen Lang is also obeying the rules here.

After all, he was able to ignore the crackdown and flutter directly, so that they were shocked.

Now that I heard this, they immediately settled down. It seems that Shen Lang is also subject to the rules here, and the same level as they are!

However, Jiang Yan and two people are just a little relieved. They feel that they are equal, and they don’t mean to start with Shen Lang.

Because everyone has reached a level, the two of them have an advantage over Shen Lang, but there is also a sea of happiness, Bi Haihuan may not be as good as them, but now everyone is suppressed, it is the same.

Two to two draw, and there is no win, then you can’t offend the blue sea family.

“In addition to these incomprehensible, there is another point, that is, the small island that can be detected by the outside world is not the same as the actual situation! If we say it, everyone may not believe it, and we will feel that we are deceiving. Only in person. When you get there, you can understand the actual situation!”

Jiang Yan pointed to the front.

Shen Lang and Bi Hai Huan looked at the past and saw the same picture as scanned on the spacecraft.

Chapter 1378 - Desert sand man

This little fairy island can make them reborn, and there are naturally extraordinary places. However, the situation detected by the outside is actually different from the actual situation, but it is a bit unexpected to let Shen Lang.

Jiang Yan and Aso lead the way, and the two follow the past.

Just landed on the island, just the edge of the coastline, the coastline and the hillside in front, the same as watching on the battleship. But as you roll over the hills together, there is another scene that has a hole in the sky!

In fact, the bird's-eye view of the entire island is abbreviated. Shenlang did not look at the research carefully, and of course it could not be accurately compared.

I can see at a glance that this is really a completely different scene, because standing on this hill and looking into the eye is an endless yellow sand!

As I saw before, it is like an ordinary island. There are mountains and trees and rocks. Now I see the desert. There is no need for comparison.

“How could this be?” Bihai was surprised.

She just listened to them and guessed what was different. I didn't expect to see it.

Then I look back at the beach and see it like swimming. There is no difference.

“Like a layer of protection around, what everyone sees outside and in the sky is just an illusion, a cover for the outside world.”

“Yes! We were unbelievable at first. I guessed this secret and it is also a protection here. So please ask Miss Huan to explain to Bihai General and Bihai Patriarch, we are really inconvenient and not good to say.”

Jiang Yan and Aso, who still wanted to see Shen Lang surprised, like Bi Haihuan, did not expect him to be surprised at all, and at first glance saw the key.

Bi Haihuan nodded again and again, she has not seen such a situation, if she did not see it with her own eyes, she would also suspect that others were cheating on her.

But seeing the eyes of Shen Lang, Jiang Yan and the two did not dare to say anything else, and quickly introduced the road ahead.

“What we are going to enter now is this desert. It is very big. I don’t know how big it is, but it is certain that it is far bigger than the island I saw outside!”

“After entering this desert, there will be various crises. What is included in the specifics is also unclear and what it is. Our current strength is suppressed, but it is better than the average psionic master.”

“The general psionic masters go in, and only wait for the death. We can come back alive, almost all miracles.”

“Yeah, I didn’t want to be alone, but I was with a group of friends. As a result, they all disappeared into the desert, and I lived alone.”

The two of you introduced me in one word, but the situation in the desert did not say too clearly, but instead was feeling guilty.

From their words, Shen Lang has already had a lot of information.

The great danger is for the general psionic masters, perhaps to return to the Yuan and the virtual level.

The two of them are now suppressed to the level of the real world, which is better than others, naturally indicating that they have come here again.

As for how they survived, the word miracle of course includes too many things. Perhaps it is the use of other friends to pad the back, perhaps with deeper tricks, more embarrassing, and may actually have luck and other ingredients.

It's a bit uncomfortable for Shen Lang to be up to now, and they have not said what specific dangers they will encounter and what they have gained. This is not the explanation just made.

Of course, Shen Lang will not ask them anything humbly. This Xiaoxian Island is probably a small world with a large array of hidden entrances. Whether it is harvesting or dangerous, he is not too eyeing.

“Go!”

They stopped their nostalgia, and after Shen Lang finished, they jumped straight down the hillside with Bihaihuan.

Jiang Yan and Aso both looked at each other and had their own eyes. They did not say anything and immediately followed.

The desert that was seen on the top of the hill was below the hillside, but in fact it just jumped and fell on the desert immediately, and the surrounding scene has changed!

It seems that I am now in a desert, and I can't see the mountains around.

As they say, this desert will be larger than the entire island, because it is already a small world.

For Shen Lang, this is of course commonplace. Bi Haihuan was just surprised, and after Shen Lang explained it, it was already clear. She used to go to a small world like the “Death Forest”, not without knowledge.

Followed by Jiang Yan, watching Shen Lang was not surprised, even Bi Haihuan was calm and calm, could not help but secretly smile.

Still stunned them both!

“Master Shen, Miss Huan, we have no direction now, not only without reference, the direction here is very different from the outside world.”

Also just finished, Jiang Yan quickly rushed to say.

“But don’t worry about the two, we have been here. Knowing the general situation, as long as we follow one direction and can break the 10-wave attack, there will be an exit!”

“Ten wave attack?” Shen Lang slightly surprised According to saying such a place, very large, there will be various dangers, all normal. Generally speaking, it is necessary to go to a certain place in order to find rare resources.

However, according to them, it is an arbitrary attack in any direction. As long as they can withstand ten waves of attacks, they will appear to be exporting. That means not random, even if it is not artificial control, there are such rules.

“Basically this is the case.” Jiang Yan nodded, and this also proves that they have come more than once.

“But...” Also looked grim: “The attack will be stronger than a wave. It must not be taken lightly because it is relatively simple. Many people die here!”

Shen Lang nodded.

In the realm of his great fairyland, where Jiang and Liang can survive, there is no pressure. But now that everyone has been banned from playing at the peak of the highest level of truth, it can’t be careless.

However, he is only cautious, there will be no tension, and both of them are fine. Of course, it is not a problem for him!

“Let’s go!”

The voice just fell, not waiting to determine a direction, a lot of floating sand on the ground, rapid flow, and then gathered together, turned into a human form!

Is this a sand man?

The first wave of attacks?

Shen Lang saw it at a glance, and the sand people who appeared around them continued to add more.

“Can’t be entangled with them!” Jiang Yan screamed, and immediately pushed a palm forward, shot the two sand people in front of him, and immediately rushed out to the front.

Aso is also the same. At this time, they are all guarded by God, and they cannot take care of the waves and the sea.

Chapter 1379 - First wave

Jiang Yan and Aso are both here. They have experience here, and Bihai Huan’s combat experience is more of a battlefield. But for Shen Lang, this is nothing at all.

The sand people are a bit strange, but the lethality is still weak. After all, this is the first wave of attacks, or the weakest wave.

Shen Lang is pulling the blue sea and cheering, let her follow them behind, it is protected in the middle.

Bi Haihuan did not dare to be polite at this moment, and decided to follow up decisively. Because the first two open the way forward, if she does not hurry to catch up, immediately there will be sand people to make up.

The Shen Lang was behind, swaying left and right, and smashing all the sand people without any effort.

However, these sand people also have their characteristics, that is, “not dead”!

Because they are not people, just the combination of yellow sand accumulation, even more difficult than the encounter with Shen Lang in the meditation. When the smashing is broken, it will not be entangled again, but after the sand is broken into sand, it will soon be regrouped.

This will allow them all to maintain a state of quick fix.

Jiang Yan, they are all waiting for the enemy, and Bi Haihuan tries to use the skills she has learned to help attack these sand people.

Soon everyone has moved a few tens of meters, but it is still surrounded by sand people.

Because they are originally in the desert, the most important thing is sand, so the sand people do not need to catch up, it is possible to have new raw materials anytime, anywhere.

“This is the first wave, how long will it last?”

Shen Lang asked what he said.

For the sake of persistence, he does not feel how much deterrence these sand people can form. The only thing he wants to know is time.

“About an hour or so.”

Jiang Yan talked very quickly and did not dare to care about it. He continued to attack these sand people.

“...”

Shen Lang is completely speechless.

I thought it was just a batch, crushing them, or going far, to solve the problem. It's really a bit big to hear it now for an hour.

No wonder they just thought it was very serious, and regarded this as a difficult test. It turned out to be difficult for a long time!

To deal with a few sand people, Shen Lang is very easy, but to repeat an hour, it is very boring, very helpless.

Their attack power is not fast, but they are wrapped up. If they cannot be dispelled in time, the sand will soon be entangled, and then with other sand people, with all the yellow sand, one person, one person Completely dragged into the yellow sand to bury.

After such a long time, even if the strength of Bihaihuan is now suppressed, it will be suppressed at the peak level of the real world. Without sufficient experience, or for a long time, it may fall into this.

Those who are weaker and less knowledgeable are scared when they see this picture, and they are quickly swallowed up by Huang Sha.

“Shen Shen please rest assured that these yellow sands are not the most powerful, as long as we insist on breaking them down.”

Feeling the unhappy feelings of Shen Lang, Jiang Yan was busy comforting a sentence, and then took the time to crush the sand people next to him, not to be close to Bihai Huan.

At this time, they landed on the ground, and they began to emerge from the sand!

These sand people seem to climb out of the swamp, only to appear half body, they go directly to their feet.

Fortunately, the speed of response of all of them was OK, and the big kick kicked out quickly, so that the sand people were kicked one by one.

However, in addition to the air, it is difficult to wrap up the sand people in all directions.

Under the frown of Shen Lang, the iron stick of the iron rod was taken out and turned into a large bowl, and the length was a few feet.

Then he swung up quickly!

The sand people “crawled” from the yellow sand on the ground. The whole speed was very fast, but now he swept the past with a stick, that is, a large piece was all crushed!

His wave is a left stick, a right stick, two large fan-shaped attack circles, clearing the sand people around a big circle around everyone!

Of course, those sand people continued to breed and the sticks of Shen Lang did not stop. They continued to have a stick on the left and a stick on the right, so that they just rolled their heads and crushed them.

In this way, the three of them only need to kick the kick out of their feet.

Shen Lang suddenly had more weapons, and the power was so great. Seeing that he waved a thick, a few feet of iron bars, it seemed that the strength was not consumed, and Jiang Yan was shocked.

Both people are a little scared. Fortunately, there is no disagreement after going to the island. If you want to murder the waves here, it is estimated that two people have been killed.

Shen Lang is now like a hamster, but it is playing a large group of hamsters, and his way is not to wait for the hamster to slap and hit the past, but directly smeared the surroundings!

After such a round of rounds, the speed at which the sand people condensed their heads began to slow down.

This made him start to know what he was doing.

Jiang Yan, they are talking about an hour or so. But is it not only a time limit, or a fixed number of sand people in a fixed time?

If it's just time, then as long as the number is a little more, everyone's back-to-back assistance does not need to move. Just stick to the past, is it OK?

If there is a fixed amount, like those cockroaches and flying fish, as long as they destroy a large number of them in a short time, it will not be so easy to breed again.

The attack of everyone just now is only to crush the close, the passive, and the subsequent attacks.

The way to use it now is to quickly clear the batch, which is only a little while, and it has begun to bear fruit.

Looking at this effect, the speed of Shen Lang is faster. Basically, I just got a little bit of a shot and I was flattened. There is absolutely no sand person to take the lead.

After a while, Huang Sha seemed to understand his attack range, formed a sand man outside a few feet, and then rushed over to them!

It is a pity that the iron bars that Shen Lang waved will not only be destroyed when touched, but the hurricane will destroy the entire large sand people.

And after discovering their intentions, the iron bar was extended by one or two feet, and the scope of the attack was even bigger!

In this way, the desire to form a sand person can only be outside the larger circle, and even if it is formed, it cannot come close.

Will it take an hour to do this?

After a while, the desert began to change!

A whirlwind rushed and immediately blew a sand dune and quickly moved over to them, and there was a lot of dust coming in and out, forming sand people in the air, and rushing over them from above!

Chapter 1380 - Insect attack

Faced with the yellow sand above, and the sand dunes that are coming, Jiang Yan and Aso both secretly complained.

This mood seems to be like a roller coaster ride. Originally, they insisted on an hour, and as a result, Shen Lang's shot quickly solved all the sand people and made them very happy.

But now the problem is coming. The cyclone and the dunes are all they have not encountered before. This is obviously the act of Shen Lang, which annoyed the gods here...

A hill-like sand dune came over, and that was the tens of thousands of sand people. It was inevitable.

Shen Lang is a slight sneer, and he is always on the palm of his hand. Even if he is now suppressing the peak of the real world, the strong hurricane is enough to disperse these sand people who are not very lethal.

At the same time, the iron bar that he waved with another hand has grown bigger and went straight to the sand dunes!

Jiang Yan and others looked at Shen Lang with a stunned look. The end of the iron stick in his hand has shrunk to the size of a general weapon stick, which is convenient for one-handed operation, while the other end is getting bigger and bigger. It takes a few people to hold it so big.

This iron stick can become bigger and smaller, longer and shorter, and it has already surprised people, and he can dance quickly with one hand!

As the iron bar slammed, but for a moment, the sand dunes that were approaching quickly, were smashed and turned into a lot of yellow sand.

Shen Lang can be so calm, because he was induced at the beginning, although the realm has been suppressed, but mainly mana and vitality can not be displayed, strength, magic weapon and the like, can still be used.

Just as they can't fly over the island through mana, but they can swim with ordinary physical energy, but they can go ashore.

Of course, the realm is suppressed to the peak of the highest level of truth, and the power of Shen Lang is not likely to reach the level of Daxian, but it is far better than Jiang Yan and others. Not to mention that he also cultivated the domineering of the heavens and the earth, as well as the "Da Shou Mi Long Xiang Shen Gong" and so on.

So don't look at the single-handed stick that he just had a very strong fit, but the power is not the same.

After shattering the sand dunes, Shen Lang has not stood with them again, letting them cope with the sand people around them, and he jumped up in the air, raising his big hands with his hands and going straight to the ground. Satay's smashed out!

A stone stirs up a thousand waves!

Shen Lang's stick went down, and immediately the ground was filled with yellow sand, and a deep ditch was sputtered.

Following the continuation of a stick and a stick, the top of the desert was made out of a deep ditch. The scene was very chaotic.

Of course, this is only within a hundred meters. For the entire desert, this damage is not worth mentioning. It only takes a gust of wind, and a sandstorm will immediately smooth everything.

However, the "sand people" here are not active in the entire desert, that is, dozens of meters around them!

In other words, this is similar to arrays, spells, and follow their active areas alone, not the entire desert.

The sniper of a wave of sticks and sticks is a targeted destruction.

So mammoth, the “sand people” are honest, and there are no new sand people.

“You, you are afraid of all the sand people... I dare not come out again?” Jiang Yan asked in a trembling battle.

Aso is also a very pleasant surprise. I didn’t expect that Shen Lang could still come hard, and passed through this way.

“Don’t be too happy, if the first wave is destroyed, it means that the second wave is coming soon!”

Shen Lang stood by the stick and waited for the change of the desert.

In his words, the faces of Jiang Yan and Aso changed greatly.

Normally they were going to hold the past for almost an hour, these sand people will die, and then the second wave of attacks.

Now that the time has been greatly shortened, they are not ready to cope with the second wave.

“The second wave is a bug! But every time the bugs are different!”

“The same! We have to spend an hour...”

The two of them have not finished yet, and there are already some bugs that have emerged from the yellow sand, showing a round worm with a big head like a plate!

These bugs appear much slower than the sand people, the number is much less, not so dense, and the speed of crawling is slow.

Just a glance, Shen Lang has already seen through it. The rulers here have also been considered. The sand people will be broken when they hit it, but this bug is not so easy. If it is dense, don't say an hour, maybe it will be a while. Crawled with bugs.

With the scale that is now appearing, it will still be a very serious challenge for low-level comprehensions and psionic masters such as Guiyuan. However, they are now being suppressed in the peak of existence, the highest existence that can be achieved here, and it is natural to deal with these bugs.

But still that problem, it takes an hour... too boring!

Jiang Yan and Aso were both prepared for weapons, and they were all taken out at this time.

Appeared in the hand, it was a small ball, but it quickly began to pop out in a section and became a thin long gun. The tip is very sharp.

They have been here and know what they will encounter, even if the bugs are different every time, but after all, they are all bugs, and people are close to melee. It will not be so refreshing, so this is specifically designed.

It was all done by Shen Lang just now. Now they are not lazy, they leaped straight out, one shot, and killed a large disc.

Their shots are very neat, they can be easily killed with a shot, of course, they are full of vitality, control the insects around, so that they can not move, or else it is not so easy to stab.

The back shell of this worm seems to be very hard. If it is not their special sharp lance, it may not be easy to penetrate.

Just compared to dancing iron bars before Shen Lang, they are not worth mentioning now.

Looking at the two of them, Shen Lang also nodded with approval, and then signaled Bihai to pay attention to his feet.

There are three of them, of course, they will protect Bihaihuan, but this worm comes out of the yellow sand, and it has no regularity. It may also emerge from the sand under the feet like the sand people just now. If it is stabbed to the legs and feet, it will be poisoned.

Bi Haihuan did not have any strength just because the sand people were quite surprised, and Shen Lang played too well. Looking at the worms now, she immediately took out the weapon.

Her weapon is a gun!

This is not specially prepared for these kinds of bugs, but she is specially trained in the shooting method, the accuracy is very high, and as her self-defense weapon, the bullet power is not bad.

They have two quick flashing stabs, while Bihaihuan only needs to move the arm to aim at it. Basically, it is also a shot of a bug.
