

First Strong 1381

Chapter 1381 - Attack of the heart

The second wave of Shen Lang did not shoot, because they are all prepared, Bihaihuan's weapons are also used very well, so the number of insects that are not so many, fast enough, is basically killed.

There was a different wave of waves in the back. The third wave was the sudden emergence of the vines in the desert, which quickly entangled them. The fourth wave was the sinking of the sediment...

Jiang Yan and his wife have had several experiences. They are prepared for these things, and Shen Lang is nothing but pediatrics for these things.

Therefore, the whole process is basically an open eye for Bihai, and everyone can't even count on it. And because of the lead of Shen Lang, Jiang Yan also realized that as long as the offensive is strong enough, it can end the attack ahead of time.

Can be resolved as soon as possible, of course, no one will be willing to spend an hour.

"The last wave, this will be a bit weird, everyone must not care!"

"There will be devilish devils, be sure to resist!"

The last wave of attacks was the sudden emergence of dark clouds in the sky.

But this dark cloud is unusual, it appears to be obscured, and the light is dim and dark.

After listening to the warnings of both of them, Shen Lang has probably understood what is going on.

In front of them, a wave of stronger attacks than a wave is still testing the strength of the coming people, and at this last level, it is a test of spiritual strength and willpower!

This can confuse people, in fact, it is the impact on the spirit. If you can't get rid of it, it doesn't make sense to lose yourself.

The two of them have experience, and Shen Lang would not care about their safety. The key concern is the blue sea.

So when the dark clouds came over, he immediately reached out and took Bihaihuan's hand.

The warmth of the blue sea is warm, this time is dangerous, she has never experienced it, and naturally it is a bit uneasy. After all, her genius is a step up, not to mention fighting, that is, the experience of cultivation is not solid enough.

But as long as there are deep waves, even if it is dark, she will not be afraid.

At this time, she heard the sound of Shen Lang.

"This will attack you mentally, let you have hallucinations, and you will be afraid, fearful, or greedy. You need to keep your mind clear, this is also an exercise for you, you continue to practice, spiritual aspects. Need more trials."

Bi Haihuan is full of energy. The teacher has asked her to do this. There must be a reason for this. She will not ask why, just do it.

Last time, she helped her to upgrade to the realm of the gods. For this state of mind and spiritual strength, she taught the mind and experience. This time, it has strengthened the guidance in this regard.

Now this is also her chance to actually fight, and the "opportunity" is coming so fast!

Not waiting for Bihaihuan to do more preparations, the surrounding has entered the darkness, she can not see the situation around.

And these darkness is not just the shade of the clouds, but a lot of yellow sand flying and hovering!

Therefore, no matter how you can't see it, in order not to be blinded, you must quickly close your eyes.

In this case of being attacked, the eyes are closed, and it is very insecure. It must be defended by feeling.

After closing my eyes, I immediately felt the darkness and sand, and seemed to lurk in the extraterrestrial demon, and I was approaching step by step!

Then there is a consciousness in my mind. It seems that here is the place where the demon outside the domain appears. It is flowing out from here. Now it is also necessary to swallow them...

She is about to reach out to defend the enemy, and wants to open her eyes, but with a hand, she immediately touched the hand of Shen Lang.

Suddenly, Bi Haihuan was sober.

Illusion!

It's not just an illusion, it also affects the feeling, making her as bizarre as she was when she dreamed, but she felt very realistic.

When she had this conscious consciousness, the feeling just felt could not affect her. It is clear that the extraterrestrial demon has been solved. Here is the Xiaoxian Island that Jiang Yan has visited. There will be no extraterrestrial demon.

Shen Lang... Yes, there is a teacher around, the teacher will protect her!

Her heart was full of warmth, and she did not feel fear at all. Instead, she felt that Shen Lang could hold her hand so affectionately, and the two people were really connected.

She began to enjoy this process, and she didn't even hope that the pass would go so fast, for an hour, what a good memory.

A little bit of time lost, she seems to have been here for a long time, and then suddenly woke up, feeling that no longer holding the hands of Shen Lang!

Then, she felt that she had become old, and the long years had left marks on her body.

And she seems to have traversed thousands of miles, stepping into a city-state, in every corner of the world, looking for a teacher, but there is no trace.

How far has it been searched for, how long it has been looking for, it is already very vague, as if it has been gone for countless years, even stepping into one world after another...

She feels that she is alone in the darkness, why is it dark? It seems to be a time and space channel, it seems that people are in the universe...

The feeling of loneliness, the feeling of never seeing the waves, made her cry.

She secretly sighs It is better to go back!

If life is over, you may be able to meet another teacher in another space. At least, you don't have to endure endless thoughts and endless loneliness...

Just as she was so desperate to die, she suddenly felt a cold, this cold came from the arm, and then directly poured into the top like ice water, let her whole people get excited.

Why am I here?

What is this place?

Is this the depth of the universe?

That coldness made her feel amazed, and it seemed to be sunny, and soon made him wake up a lot.

Yes, this is in the desert!

Bihaihuan seemed to wake up from a long dream and began to recall where she was and thought about why she was here. Then there is a dark cold sweat!

It's hard to prevent! What makes her fear is far from the extraterrestrial demon, it is just the shadow of the past, and the deeper inside is even more afraid of what the teacher said before!

But she also knows that the teacher just reminded her to call her back, otherwise she might be lost. Once the mind is willing to die, the person has no soul and can't live.

Bi Haihuan was re- alert, and did not avoid the inner fear, but let her always be awake, to face, to understand, to receive... a little bit down, her whole person began to clear the heart.

“Yes, it is over.”

Hearing the sound of the deep waves, it seems to be coming from the distant sky, and it seems to be the call of the ear, which makes Bi Haihuan open his eyes.

“This is... is it finished?” She saw that everyone was still in the desert, there was no yellow sand, and there was no black cloud.

Chapter 1382 - Is this a secret?

Not only did Bihaihuan “wake up”, but Jiang Yan and Aso were both awake and relieved.

It can be seen that even if there is experience, and it is still a long time of cultivation, the two of them are fighting against this wave, which is also a great effort.

After all, the hearts of the people are infinite.

They will not have the desires and thoughts pursued by young people and the weak, but they also have their obsessions and their hearts. Once the demons are motivated, they need to fight with all their strength.

Looking at the calm waves, Jiang Yan could not help but ask.

“Master Shen, this time...we seem to be completely resistant...an hour?”

“Yes.” Shen Lang nodded.

“...”

Jiang Yan has nothing to say.

is not that right? Even if Shen Lang is even more powerful, there is no way for this piece.

In fact, Shen Lang certainly has a way, but he did not intervene!

Because of the previous attack, he shot from the first wave of his strong, the purpose is not to delay too much time.

But this time is different. It is not a time of delay. It is a rare opportunity for actual combat. It is a scene that can temper the sea and sea, so he did not intervene, but only concerned about the situation of Bihaihuan.

“Everyone is ready, it will appear!” Aso immediately opened the topic, lest the waves be angry and angry.

Soon, not far from them, the yellow sand began to flow quickly.

This time the quicksand was flowing around and then there was a bunker.

Looking at the quicksand, Jiang Yan and two took the lead over the bunker.

“It’s here. The first ten waves of attack have passed, and this thing will happen. When we first time, it basically fell into it.”

They said, taking the lead and jumping.

Shen Lang and Bi Haihuan also followed.

This time, there is no big change like jumping from the top of the hill to the desert. The foot is still on the sand, and everyone is still in the sand pit.

“Slightly wait a moment.” I was afraid that Shen Lang would ask questions, and they explained it immediately.

Probably waiting for them to come in. After a few seconds, the yellow sand above began to fly, and the top of the bunker was covered.

“It’s okay, this time it won’t attack us.”

Although Jiang Yan said so, they are hard to talk about here, and the experience is limited several times, so they are still on guard.

The yellow sand fluttered for a few tens of seconds and then stopped. Just in the process, no sand fell into the bunker. This bunker is like protecting them.

After the yellow sand stopped flying, the outside scene has changed dramatically.

Jiang Yan, who was familiar with the road, jumped out of the bunker. What he saw was not a desert, but an oasis.

They introduced a little ostentatiously: “There has been a huge change in the desert. It is now safe and there will be no dangerous attacks.”

Shen Lang is secretly funny. In fact, it is just the entrance to a transmission array. It is to transfer them from the desert scene to this oasis.

He did not say much, but looked at the surrounding environment.

This oasis has mountains and waters, and forests and grasslands. It is more like an island scene that is bird's eye view.

If this is the original face of Xiaoxian Island, it is that the desert just before was transmitted separately.

But it doesn't matter, it's always a small world, and it's still a small world with many circles.

Seeing that Shen Lang did not speak, they also laughed a bit and then began to talk about business.

“Master Shen, Miss Huan, please come with us!”

They searched for something while walking, but did not say what reference to rely on, but also want to hide.

All the way to a mountain, and then with them over, until they reached a valley. Between the lush flowers and trees, I found a pool of water.

This pool is not too big, there is no living water, no streams, it is a fixed pool.

Not yet close, everyone can feel the chill of the cold, the cold is from the pool.

“This is a cold pool. Although there is no ice, the temperature of the water is very low. It is frozen if you accidentally.” Jiang Yan said while stopping in advance.

Aso was also ready, and then began to introduce it.

“Our harvest here, the secret is in this cold pool! Inside the cold pool, there is a kind of strange fish, after eating, you can make people's psionic power increase!”

Jiang Yan raised his hand to signal that they all stopped, and then he was carefully guarded to get close to the past.

When it was near the edge of the pool, fish immediately jumped out of the pool.

Shen Lang is a glimpse, this is the secret?

Just heard what Aso said, he did not have any accidents. They can get the items that enhance their vitality here. It is nothing more than a treasure of heaven and earth, including the beast of the beast, and it will be normal.

But when these strange fishes flew out of the water at the moment, he saw a real cut, and it was almost the same as the flying fish in the glaciers of Zhoushan.

There is the glaciers This is the cold pool, even if there is no direct connection, at least the living environment is similar.

“This strange fish has a strong attack!”

Jiang Yan and Aso stunned.

Just Jiang Yan’s approach is to let them look at it. There is not too much introduction. I didn’t expect it to break.

“Yes! These strange fishes are sharper than the sharp arrows, and the stones can be pierced directly.”

“When we first came over, we were looking for water, and then someone was in a hurry. It was quickly smashed by a strange fish and pierced.”

“At the time, the flesh and blood immediately became red and a large piece, and soon they were eaten up, leaving clothes.”

“In the end...we can only find a way to take water and. Later, I tried to catch the fish and found that it was unexpectedly discovered.”

When they said it, it was still a bit embarrassing. It was already a matter of decades ago. At that time, the partners who died together could not remember clearly. But the incident itself, impressed them as if it were still yesterday.

When he spoke, Jiang Yan had already retired, but he did not feel completely, but quickly took out the same item. After the ejection, it was a small fishing net!

Then he stepped closer to the waterhole, and then when the flying fish jumped up and attacked him, he was prepared, quickly buckled to a fish, and quickly retreated.

The flying fish is sharp and sharp, but the fishing net has holes. Naturally, it is stabbed with an empty space. The silk thread of the fishing net should also be a special material, and it will firmly bind its body.

Moreover, after the fishing net caught the flying fish, it immediately closed and contracted, and then the arc flashed, and the sudden high-voltage electricity directly stunned the flying fish!

Chapter 1383 - Fishing plan

Looking at this scene, Shen Lang could not help but secretly.

Sure enough, different civilizations will have different directions.

When I was going through the glaciers in Zhoushan, everyone thought of using the magic weapon to protect the body. It is estimated that most people have used this method to pass.

Here is the development of science and technology civilization, Jiang Yan, these top psionic masters, but also far less than half of the fairy, here is more suppressed to the real world. But they can combine this situation and design a technology grid to fish.

After the fish arrived, Jiang Yan immediately returned to their front.

There is no living close to the cold pool, and the flying fish sinks into the water.

“This is the strange fish.”

When the fishing net had not been opened, Aso was on the side of the ring, fearing that it would wake up.

“This strange fish is hard, but there are not many meats that can be eaten. The first time, we are going to starve to death, and we have finally caught one, and we can’t take care of it. We eat it directly.”

When the grid was turned on, the two people worked together and used a special sharp knife to directly smash the fish on the belly of the flying fish!

The flying fish is so hard that it can pierce the steel. Of course, it is not so easy to kill the cut. Its weakness is a small piece in the abdomen.

After the corona, they just gave them the opportunity, but if they want to complete the abdomen and kill, they must be very fast, or they will inevitably collide after awakening.

So just two people are working together, although it is still a few times, but it is basically a quick solution.

“The fish we started eating and found that the recovery effect was very good, we tried to find more ways, and later found out the evolutionary help for the psionic energy. But after more experience, we understand the key points.”

They said that they had already picked up the dug out of the fish and found a small white group from the inside.

This may not be considered a “group” can only be particles, probably the size of the little finger, mixed in the fish, and is raw, often swallowed directly. It is true that only eating too much, changing the way to eat can be found.

“Fish is fish, and it works because of this.”

They wiped the small particles and handed them over to Shen Lang and Bi Hai Huan.

“Why can’t we tell the secrets of the Bihai patriarchs not for personal gain. But this is really impossible to say. If you don’t see it with your own eyes, probably no one really

believes that there is such a strange fish, and it is not believed that this is a small point. The role of fish.”

“I also hope that Miss Huan will go back and explain to the Bihai patriarch and General Bihai.”

Shen Lang is a bit speechless, and they actually have explanations.

However, if you think about it carefully, it is also true. If you don’t see it with Bihaihuan, you can tell the Bihai family to catch some fish on Xiaoxian Island, and you can become a powerful psionic master. This fish can also wear steel. Who can believe?

On the other hand, it is also seen that in this technological civilization, even if the psionic master is respected, the power is limited, and it is impossible to compare with the giants who master the power.

“How many fish are there? Are you staying here for a long time?”

The problem of Shen Lang immediately made them both serious.

“Master Shen, although we don’t know how much, but still follow the rules, we only arrest a few people and dare not use electricity or bombing to kill the whole fish in the waterhole.”

“And we tried it too. We wanted to bring it out to raise it, but we left the environment of this cold pool and soon died.”

Electric fish, fried fish and poisonous fish are all indiscriminate attacks. The more the small fish can’t bear it, the fishing method that belongs to the broken grandson is the strict prohibition in the hometown of Shenlang.

Of course, he did not think about killing the fish in the entire pool. The last time he had received several million deaths, but they had to cross the river and they had to absorb it. Otherwise, others would have to carry out the attack.

Speaking of it, he hasn't seen how the flying fish refining in the Batian Tower. It was purely for the sake of crossing the river. It seems that it will not be rubbish.

If you don't fly the fish in the mountains, like the flying fish here, there are small particles that can enhance the spiritual power. The accumulation of millions of giants will be a very large quantity. So refining, how awkward Dan pill!

However, Shen Lang does not have the mind to look at it now, but first considers the present.

"Reassured, I didn't mean to destroy the ecology here. Tell me about your plans!"

In fact, Shen Lang did not care too much, because in addition to his one-time large-scale trapping of the Ba Tian Tower, everyone was suppressed in the real world, even if it was prepared, it could be captured.

And they also have this awareness, they will control greed, so even if they can bring a batch out, it will not be a large number.

And its effect, in fact, is equivalent to a small inner Dan, or a small point of Nedan. Jiang Yan, they feel magic, because this aspect is only very scarce and does not understand the application.

Here, a large number of Lingshi, only as a crystal ore, is used in technology products, as an energy power, Nedan is also known as spar.

And the method of extracting Lingshi energy, he was taught to Bihaihuan, including Nei Dan.

Therefore, it is not necessary to worry too much about the personal growth of Bihaihuan. This point of flying fish energy has not reached the surprise.

"We have prepared tools and experience, and it is basically safe to capture a batch of strange fish."

“If you have a rough job, you don’t need two hands-on hands. Let’s do it, and when it comes to Miss Bihai.”

Both people are very respectful, but in fact they are also with a little selfishness, because this is not something that can be exercised regularly. They have also had many experiences over the past decades.

Switch to someone else, the first time you are not good, the danger is devastated by the strange fish.

But if this person is Bihaihuan, they will have to protect her safety and assist her to complete. That way, it is equivalent to helping her exercise. Then, the next time, they will have no value, and Bi Haihuan can completely bring people to get it.

So now they take the initiative to “dry and work”, that is to maintain the advantage of this.

Bi Haihuan has nothing to say about this. Jiang Yan and two are the top prix masters in the city state. They are old predecessors. Let them do a rough job. She is already a little embarrassed, and of course she will not support anything.

Shen Lang also nodded: “Come on your plan! Come here to learn, I will go around.”

Jiang Yan, they think about it, they made it in their own capacity. They have won the blue sea, but they also feel that they are not swaying. I am worried that Shen Lang wants them to help let Bihai Huan come to operate, it is a bit embarrassing.

I didn’t expect him to recognize it so easily, and he left to go shopping, so their pressure was small.

“You can rest assured! We will definitely make the key points clear with Miss Huan.”

Bi Haihuan also knows that it is a resource point in the future. The teacher can’t keep guarding. She needs her to study by herself. It is also very hard.

Chapter 1384 - Soul out

Shen Lang is of course also assured of the safety of Bihaihuan, and does not say that he is still here, on the way, both of them are respectful and called “Miss Huan”, and repeatedly

let Bihai Huan convey the interpretation of the Bihai family, you can see The status of both parties is poor.

To put it simply, the two of them are afraid to harm the blue sea, and the flying fish here, they also have experience, and there is no danger, and they will first protect the sea.

Besides, they took the initiative to ask, not to let Bihaihuan have more “fishing” experience, but also to avoid her risk.

So Shen Lang can naturally leave the cold pool and leave the valley.

He came to the top of a mountain and then took a bird’s eye view.

When they landed on the island, they just turned over a mountain, not far from the beach, but after the desert, they were transferred to this oasis, and the environment was different.

Now on the top of the mountain, you can confirm that it is different from the scene you saw on the spaceship. You can’t see the beach here, and the mountain or the mountain in the distance.

Shen Lang once again calmed himself down, using the eighth weight of “Yin and Yang Bo Ruozhen”, letting Heaven and Man unite and trying to integrate with this small world.

When he was at the beach, he needed to communicate with a large array of islands. It was dangerous. He was killed by accident.

Now it is a fusion with the surrounding nature, the danger is much smaller, and the big deal is not communicated.

But in addition to the danger, the difficulty is much bigger!

Because now the whole small world is likely to be one. If you want to merge, it is not a mountain, a land, but the whole island and the whole world.

Shen Lang does not have an exact goal.

However, he always feels that this small fairy island has such a large array, and there are various rules to test and transmit the array. It is inevitable that the **** of the true creator has made rules.

The rule is tested against people. There are many restrictions and prohibitions, but it does not limit everything to death. Instead, it leaves a door for people to follow the rules. After passing the test, they may be rewarded.

If there are no restrictions, the major city-states with tens of billions of people may soon take the resources out of here; if the restrictions are too dead, then the ecology here will not continue.

For example, like flying fish, some people need to kill them to maintain their ecological balance.

Since such a big island, it is impossible to just be a cold pool, a group of flying fish this resource!

Shen Lang is not sure what else, but he is trying to find out and see what other resources there are. The light flying fish is really not worthy of letting the blue sea move forward and come again and again. The use of Lingshi and Nei Dan can be far better than here.

This time the experience of the experience, Shen Lang does not know how long the past. Not to mention that he is now suppressed to the peak of the real world, even if it is a big fairy, compared with the world on the island, it is also dwarfed.

Therefore, he does not have much obsession, everything goes with the flow, if it can be integrated, of course, it will not be integrated.

I don't know how long it took, Shen Lang's body seems to float!

It was originally on the top of the mountain, but the range from which it can be seen is still limited. Now slowly drifting to the sky, I can begin to see the whole world below.

Of course, under such a state, he can't know all the details well. But overall, there are still some feelings.

One of the corners seems to have something that is attracting him in the past!

The deep waves that are integrated with the world are actually not clear whether it is resources or dangers that attract him. However, he still followed, as if the body in the air drifted past and fell directly to that place.

At the moment of landing, Shen Lang suddenly opened his eyes.

His meaning is very clear. The realm of harmony between man and nature that I just entered is the fusion of consciousness and the environment. It is not his nakedness but the sight of the soul. .

According to this, he continued to "float" here, and only the soul came out. This can be regarded as an extension of the appreciation of the gods. The scope of the knowledge of the gods is limited, and the soul can go farther.

But now he opened his eyes, but he saw that the flesh has arrived here!

That is to say, although he came here from the state of the soul, the last "floating", in fact, his body, has also moved directly from the top of the mountain in the distance.

This makes Shen Lang a bit surprised, surprised not because of this behavior. Rather, he is now being suppressed in the realm of the realm, even if it is the realm of the Great Immortal, it can not do so for thousands of miles. Only when you reach the realm of the gods can you do what you want.

Just like the days when the mountains were not in the mountains, the cold autumn brought them a few people, and they were able to go from a hundred miles away to the scene of the fire giant.

However, he quickly relieved, this should be the effect of "Heaven and Man"!

Just now he has been associated with the entire environment of Xiandao. As long as he is in this environment, moving to another point has no effect and does not require his personal strength to complete.

After opening his eyes, Shen Lang has also separated from the state of harmony between man and nature. Now it is carefully looking at the surrounding environment with his eyes.

Just in the state of the soul, I looked at it in the air, but there was only one feeling, and I didn't see it clearly.

Looking at it now, it is a bit strange.

Here is a place similar to the tiankeng, surrounded by mountains, with neat depressions in the middle.

The tiankeng is often formed by natural causes such as crustal movement and underground river, but the feeling here is like human beings!

Except for the very regular rules around, and the neat quadrilateral cut. In the middle of this square tiankeng, there is a strange thing standing up.

In terms of scale, there is a big pillar, but in terms of shape, the bottom is big and the tip is sharp, and it is like a huge needle.

Now Shen Lang is next to this one who doesn't know whether it is a pillar or a giant needle. If you look at this thing carefully, you can't tell whether it is a stone or a metal. It is like gold and gold, like stone and stone.

But one thing he is sure of, it is this pillar that appeals to him, so he came directly to this side.

Shen Lang walked a few steps forward and came to the pillar of non-Golden stone. He reached out and touched it. He wanted to feel it again and tried to communicate with it to see what attracted him. Come.

Just as he had just touched the pillar, he thundered and thundered. He touched the contact point and greeted him directly. Moreover, the point of contact directly sucked him, so that he could not open it, and he was constantly subjected to Thunder electric shock!

Chapter 1385 - Lei

Shen Lang was really surprised this time, because he had just stood so close, and did not feel the slightest lightning, until the moment of contact, but it is too late to withdraw.

But now is not the time to consider this, now what he needs is to solve the problem.

If it is an ordinary person – like Jiang Yan, they are also suppressed to the psionic masters who live in the peak of the real world, and this will be directly hanged.

Because the power of this Thunder electric shock is very large, and it is beyond the defense, the physical strength of the real world can not resist.

But the Shen Lang is different!

Once in that chaotic space, Shen Lang was walking through the minefield several times, letting himself take the initiative to smash the thunder, greatly tempered the flesh, and finally absorbed the skills of lightning.

So now he has not directly killed him, and his resistance has given him more time to think about countermeasures.

Whether it is the thunder and lightning in the chaotic space minefield, or the lightning that is now encountered, in fact, the lightning of the cloud rain on the earth is not the same nature, they are more like the thunder of the robbery!

The power of the thunder of the robbery, the body of the great gods of Shen Lang, did not end up in the end.

This is the first time when he encountered a minefield in the same year, he will take the risk test. I want to quench my body to the limit, and I am as familiar as possible with lightning, so that I can be more calm in the future when I encounter the catastrophe.

I did not expect to encounter a similar problem here.

In an instant, he already knows the current situation. This needle-shaped column contains incomparable lightning, and it converges very well, and the contact will be immediately activated.

And it was also confirmed that it was this power of thunder and lightning that gave him a resonance feedback, so that he could not help but attract it.

The first thing to do now is to save your life!

Therefore, when the body can be hard-pressed, Shen Lang began to transfer the skills learned in the chaotic space minefield, while letting these lightning strikes to kill him, guiding some to quench the flesh, and trying to put them on the other side. The energy is absorbed!

This is certainly not a simple matter. In the minefield, it was prepared in advance, but now it is passive.

However, before the repeated use of the “Yin and Yang Bo Ruozhen” eighth heaven and man combined experience, this time gave a lot of help to Shen Lang.

In addition to being more calm and multi-purpose, it also actively integrates with the pillars of this thunderbolt to communicate!

This time the degree of danger is even stronger than that big one! Because the big array is mainly repressive, as long as he immediately gives up the water, he can still let go. And this thunder and lightning is directly killing him.

Of course, from another point of view, the fusion with the big array is the first attempt of Shen Lang. Now on this island, I am more familiar with it. Thunder and lightning are also familiar areas, so the danger is dangerous, but it is more calm.

In the twinkling of an eye, the lightning was fully upgraded. He was completely wrapped up and replaced by other people. It was not only killed, but also burnt.

What makes Shen Lang a little surprised is that at this moment, he vaguely felt a majestic anger!

Anger?

This should be because his use of lightning has been used to quench the flesh. It can be regarded as a kind of injury. It is also true, but if you want to absorb the energy of lightning, it is really the use of encroachment.

This anger indicates that it is similar to that minefield. This pillar of lightning has a sense of dominance!

If it is purely a natural attack under the rules, there is no way to circumvent it. Now that I am conscious, Shen Lang has a lot of peace of mind. I began to distract my heart and try to communicate with it to see if I can communicate.

However, this “Raytheon” does not have any awareness of communication with Shenlang. Seeing that he is still using it, he has continuously increased the attack!

If a bird or a chicken wants to communicate with people, even if it is called again, people can’t understand it, and they don’t care.

If it is a mosquito, a dragonfly, if you want to communicate with people, it will be slap and slippers.

Although human beings and this lightning awareness are not directly analogous, they do have the strength of strength and the obstacles that cannot be communicated.

For example, animals and humans, cats and dogs and other pets, communication is more smooth than other small animals, and some people can better compare dogs and cats.

And if you can directly know their thoughts?

Aside from the fearful emotions, naturally, you can communicate better.

The fusion of Shen Lang, a kind of “Heaven and Man”, is a kind of communication similar to the spirit. It is not through language, but through the consciousness to let the other party understand the mind.

And he can feel majesty and anger, which is a kind of communication.

However, the progress is not smooth now, and the other party’s continued attacks have made it impossible for the waves to withstand the limitations of the real world.

Once the unstoppable outbreak confrontation can be overcome, it will certainly be a lot easier if Shen Lang can return to the original Daxian realm. But it is sure to be immediately suppressed by the world of this island!

Now this piece, in this tiankeng, is the “site” of the other party. Therefore, he wants to introduce underground and can’t do it Only when he continues to try to communicate, while speeding up the power of absorbing lightning, only more absorption can reduce the damage.

Fortunately, in the minefield of chaotic space, there were three times before and after the Shenlang. The last time I used it, I was disgusted with Raytheon, and I was not allowed to take advantage of it.

Now even if the realm is suppressed, the tempered body is still there.

“You can’t help me!”

“You have strengthened and strengthened, and it hurts me.”

“You should be very clear. Here, my strength is suppressed. Otherwise, you have no room for display.”

“This is your territory, and I have been greatly suppressed. This is not a fair battle. You have occupied various advantages, but you can’t help me, but you have lost!”

“I don’t have any malice, just come out of curiosity. If you want to continue to attack me, then I will continue to fight against it. You should know that it will only continue to force me and make me grow stronger.” ”

Shen Lang passed the thought of his thoughts to the past, and did not know whether this “Raytheon” could be perceived.

In the beginning, he was in a state of seeking peace, and now he began to irritate the other side, and put the actual situation one by one.

What he said is not a lie, it is not a fair war, he is indeed a party to benefit. Of course, this must be the premise that he can hold on. If you can’t hold it, it will be destroyed directly by Raytheon.

Now that he wants to show it, he can continue to grow, and will grow stronger as time goes by. The other party is full of anger, and naturally he will not see him “feeding and growing”.

Chapter 1386 - For my use

This Raytheon is not so good and flickering. It also has great confidence in its own strength.

For the communication of Shen Lang, it does not mean to relax, but continuously increase the intensity of the attack!

Shen Lang can only endure the Thunder electric shock and continue to exert influence.

However, this situation is both a huge danger and pressure for him, but it is also a huge exercise!

Because it is related to life, there is no turning back, no laziness, and even big attacks must be supported. So tempered by the edge of life and death, the effect is far better than the daily, better than the effect of the chaotic space.

After accumulating to a certain extent, qualitative changes began to appear.

Shen Lang did not know how long it had been, as if he suddenly came to a place and opened a valve to make him suddenly clear.

His body has been tempered to have a qualitative leap, and it is very easy to withstand Thunder electric shock.

He absorbs the lightning energy, and it is also complementary to the physical body's quenching, helping the body to withstand. Now that the body has made a leap, the ability to withstand and absorb is greatly increased!

In this way, Shen Lang will not be anxious to let the other party close their hands, but will be able to use the lightning attack to cultivate.

After a while, the other party started to stop...

Originally, it wanted to intensify its efforts to get rid of the deep waves. As a result, this is not only a continuation of the past, but it has been absorbed more quickly. If it goes on, it will be helpful.

This time, there is no need to talk about the waves and communication, and the lightning suddenly disappeared.

The swaying wave is still unfinished, the hand has not left, or it is placed on the pillar.

"Continue, there is no one here. You are here, I will come with you, and you will continue to attack me."

A burst of anger.

"To be honest, I just got a little benefit, but not enough. Anyway, your energy is endless, it's better to help me."

A burst of anger.

"What the **** are you? Is it the demon that suppresses it here?"

A burst of anger.

“Do you want me to save you? As long as you obey me and use it for me, I can take you out of here. It’s boring here, I will take you to see the world of flowers and flowers.”

A burst of anger.

At the end of the wave is also speechless, no matter what consciousness he passed, the other side is a burst of anger. Can’t you be kind?

However, in view of the here and the chaotic space minefield, he slowly analyzed something.

This kind of thunder and lightning is not a general lightning. It is a special form of energy, and it is natural that it has passed through countless years. And their existence should be similar to the Lingmai, let’s call it “Ray Source”.

It’s hard to say that it’s not fixed in one place, but if you can take it away like a spiritual pulse and use it for me, it will be a very horrible overbearing weapon!

Shen Lang has absorbed some lightning energy and mastered a little attack power, which makes his body far better than other people, and the lightning that is attacked is also quite powerful. If this mine can become a weapon, it is really the gods who are not afraid.

“Why do you have our breath?”

When Shen Lang was about to give up, he suddenly felt a consciousness.

This is the other party finally responded.

“Your breath? Are you talking about thunder and lightning? Of course, I have seen similar things elsewhere, and people have helped me with all my heart. If I have nothing to gain, is it not to live up to others?”

“Where?”

This thunder is identifiable. This human being has almost the same thunder and lightning, and it is certainly not born.

“You feel lonely, want to find the same kind?” Shen Lang immediately confused: “You leave me, I can take you to more worlds, see more things, including your kind “”

“You have been here, don’t you feel bored? Anyway, you don’t have a lifespan, just go back and play, and it’s just a tiny part of your career. Maybe... your environment, Better than you.”

Before saying that the world of flowers and flowers, there is no impression and no feeling for this Raytheon. But now with its kind of environment, it starts to make it feel a little bit moving.

When you see a mountain, you want to see what is happening on the mountain. Even if the scenery is still better here, you will expect it before you have gone.

This is the heart of the people.

This Leiyuan has a spiritual awareness, and naturally there will be greed.

The environment here is very good, but what if the environment is better? Is it possible to make it even stronger?

“In fact, you should be very clear. I can resist you at most, and then use your energy. In fact, you are much stronger than me, so what I use for me is just to let you give you some benefits.” For you, you are just having some fun.”

Shen Lang continues to confuse it.

“You will be a long time, you don’t want to cultivate and shape? You don’t want to be stronger, want to go anywhere and do whatever you want?”

“If you want yourself, you can’t leave, you don’t know where to go. I can take you away. All you need is a little bit of benefit for me. After all, if there is no benefit, why should I help you?”

“Moreover, I don’t want any benefit, you don’t need to give me energy, use it for me, you should worry about whether I am murdering you I am a human being, and I want to be stronger than me. The existence of the transaction, of course, is to put the ugly words in front, but also express my sincerity.”

Continued to say a few words, that Leiyuan no longer react.

Shen Lang decided to retreat.

“Do it, don’t bother you.”

He took the initiative to withdraw his hand, stepped back a few steps, then looked around and made a move to find a way to leave.

“You... a little human, why can you take me away?”

“I... a little human can come to you.”

“...”

If you are in the dark, let it have nothing to say.

Even if it does not look at human strength, humans can come here, but it cannot leave.

“Forget it, I am just a small human being. If you want to keep listening to me, you can’t do it. You can’t kill me, I will go first!”

“Wait!”

Seeing that Shen Lang really wants to go, it has uploaded consciousness to the horse. Here, it does not need to touch and communicate with Shen Lang.

“Humans, I will not listen to you for a long time. I can do it!”

Shen Lang frowned. “Our Shouyuan is really far from being able to compare with you. But you think about it. If you don’t mess, I have to restrict you and listen to me.”

“Hey! How do you take me?”

Shen Lang directly scratched his fingers, and then quickly depicted in the palm of his hand.

“You hide in my palm. Cover you with my blood, you can take you away, as a contract, as long as I am alive, you have to listen to my constraints.”

Leiyuan is silent, and it is really a bit skeptical to let it leave like this.

“My blood is very solid, think about it!”

Shen Lang reminded me.

Chapter 1387 - Received Raytheon

In the case of Shen Lang, Lei Yuan had to make a decision immediately. It also realized that if he dragged again, this human being might have left.

“it is good.”

When this consciousness just came, Shen Lang felt a strong suction, and let him go straight to the side of the pillar, and then the palm rested on the pillar.

Another Thunder electric shock!

This time, Shen Lang is prepared, the body has to evolve, and there is no slight confusion.

The state is not as bad as it used to be, although it is still a Thunder electric shock, but it is only a natural state, and there is no crazy attack on him. Later, he felt that Leiyuan had entered his palm and merged with the blood in his palm.

Just like this, he has already felt that there is a powerful existence that is in his hands.

This source of lightning, let him take the form of fooling and abducting.

The lifespan of human life is nothing to it, but for Shen Lang, it is a great good thing to be able to be a weapon and be a hitter.

After receiving the Leiyuan, this pillar with the same needle, the attraction to him, disappeared.

And Shen Lang even felt that this small world has made a wave of waves.

Jiang Yan, who blew up the cold-tank fishing, was worried that there would be problems. He directly abducted a source of lightning, and may also lead to the anger of the will of the island.

Therefore, Shen Lang did not leave immediately, but was prepared to wait for a while. If there is a huge suppression penalty, let it go directly.

“Raytheon, I respect you very much, and call you Raytheon. Whenever I don’t call you, you will keep sleeping. After all, taking you out of here and entering other worlds may lead to world-class space rules. I don’t know what the consequences will be.”

While waiting, Shen Lang continued to communicate with Leiyuan.

“it is good.”

For Shen Lang, Lei Yuan did not care too much. Originally, it just wanted to see other similar environments, and it would not be of interest to the human world and human life. It is not comfortable to call it.

Shen Lang agreed with it on how to summon, etc. The time has passed a little. There is no big change in this tiankeng. The world seems to be only a slight wave, and it doesn't last long.

This made him feel relieved. After confirming that Leiyuan was asleep, he once again used the eighth weight of "Yin and Yang Bo Ruozhen", and it was easy to have a combination of heaven and man.

It's now more handy, and soon, as it came, it's straight from here and back to the top of the mountain.

After returning to the top of the mountain, Shen Lang did not investigate other resources.

Obviously, there are many resources in this world, but they are not necessarily suitable for him.

Just as the soul was in the air before, only this Leiyuan attracted him especially. If other people don't help him a lot, even if the value is high, they can't take risks.

Another point worth worrying about is that he just took Leiyuan away, and the world immediately has a glimmer of hope, which means at least knowing this.

For whatever reason, there is no investigation, no matter what, perhaps the world does not care so much, just like you have mine all the minerals on the earth, the earth will have geological, climate and other reactions, but it will not directly affect you. .

But if you don't content, greedy picks more, if you don't do well, it will make a big change in the world. It may not be easy to leave when you leave.

Conquering a "Raytheon" as a thug, what else is not satisfied?

Being a person can't be too greedy.

Shen Lang then came down from the top of the mountain and then went back to the valley of the cold pool.

“Teacher! You are back!”

When the deep waves appeared in the valley, the blue sea was amazed.

Shen Lang looked at the three of them, meditation in different corners, and could not help but frown slightly.

“Are you injured?”

“No!” Bihaihuan was a bit stunned. I don’t know why he asked.

“With the help of the two masters, we have collected a lot of strange fish particles. But if you don’t go back, we are very worried, I really want to go looking for it, I am afraid that I will miss it, I can only wait for you here. ”

This is a bit of a sigh of sorrow, what is it going to go back? I just left for a while.

wrong! They have completed the work of collecting flying fish pellets and are still meditating here. That should be a while!

Shen Lang only contacted and adjusted the time of the holy armor. After comparing him, he has already passed five days!

The days here may not be the same as outside. To be precise, it is about a hundred hours.

“I’m fine. Going a little farther, I may have lost my way!”

Shen Lang understands that it should be that when he first began to integrate the surrounding environment at the top of the mountain, time flies and is not aware. It may also be the time in the process of cultivating the physical body during the confrontation with Raytheon.

No matter what, it’s nothing for five days.

Aso and Jiang Yan also came over.

After they finished the work here, they did not wait until Shen Lang came back. Of course, they urged Bihai to not look for it because the scope is too big and the dangers are too much. If they accidentally fall into trouble then they will not be able to go back. To the Bihai family.

If you just say that they are not protecting well, this is not a big deal. It is not a big deal to get the resources of the Bihai family. If Bihai Chuntang, if they mistakenly think that they have harmed Bihaihuan, then it is too much trouble.

Therefore, they are excuses for the possibility of coming back at any time. When they don't see her, they will be anxious, and they will be able to persuade Bihai.

They are also here, relatively safe cultivation, but also directly let Bihai Huan take the particles of a flying fish. And they did not approach her to avoid suspicion.

Shen Lang probably understood this situation. The number of flying fish granules was about one hundred, which was given to Bihai. It is unclear how much they have hidden themselves.

He doesn't care much about this, but it is a small inner Dan, and it can also make the blue sea happy.

"Not bad, it's going very well. Two masters, what plans are there?"

When I heard the inquiry and address of Shen Lang, the two people even called "Don't dare to be".

"With Master Shen, the road goes smoothly. How can we not return as soon as possible?"
What they want is smooth.

Surprise what is not, as long as there is no demon moth, safely go back, even if there is a confession to the Bihai family. If you can get the approval of Bihaihuan, you will naturally win the trust of Bihai Chuntang, and your future status will be different.

However, they dare not decide, but still have to ask Shen Lang.

Shen Lang can't see their gains, but his own harvest is enough, and he wants to leave early. By the way, if you leave with Leiyuan, will it be suppressed by the guardian big array.

“Let's go!”

Chapter 1388 - Surrounded by fleet

The route back and forth, Jiang Yan, they have experience, or find the bunker when they come.

“After so many days, it has not disappeared. Is it going back to the desert?”

“Probably fixed, whether it is a day or a hundred days, as long as it does not go back, it will always exist, and after entering, it will disappear.”

“But not going back to the desert, but going straight back to the beach.”

Jiang Yan explained them, and then called everyone to jump into the pit.

Soon, the bunker started the transmission array again. This time it appeared on the top of the mountain where they had just boarded the island.

Every time they come here, it is not possible to enter in this place. It can be seen that this transmission array is to send them to the place where they come in, that is, the transfer point where they enter the desert.

After they came out, they looked down and still saw a desert, but turned back to see the sea.

Everyone followed the way, took a wetsuit and went to swim in the distance.

The fleet of Fengyuegu is still waiting to see them, and naturally rushes to wait at sea.

Shen Lang is letting them go first, he is still ready to “float” the past.

However, the last question was that I didn’t know if I could pass it. The problem now is that I don’t know if this big array will “remain” him.

This can be regarded as a thief who has stolen the important resources on the island.

After waiting for them to leave quite far, it is estimated that there will be no movement affecting them. Shen Lang will only move to the sea, and when the big battles are suppressed, the integration of heaven and humanity will be re-established.

The result was very smooth, and the big battle was still the same as before, but it was not because he took the source of Ray, but the other angered him.

In the end, Shen Lang was still leisurely and elegant and returned to the battleship, waiting for them to come back.

The task of Fengyuegu is to **** Bihaihuan to come over. For the specific implementation of the mission, he will not ask more questions. When everyone returns safely, his first half of the mission will be completed. The next step is to ***** them back. It is.

Originally, Jiang Yan and two were crushed by the waves in the Bihai Chuntang. When they came, it was very unnatural. This time, everyone is a happy cooperation, and the situation is much better.

However, the two of them are also very interesting. Like the five days that Shen Lang left, how far is the distance explored, and what is happening now, they want to know, but they still hold back and ask, after all, people are getting better. .

When they saw them, Fengyuegu had already reported the Bihai family, so they soon contacted the sea and congratulated them, saying that they would wait to return to the banquet.

Shen Lang has a meaning!

I have seen Bihaihuan already seen, and the instructions have already been pointed out. I can say that I can't say it. This time, she accompanied her to this Xiaoxian Island, and then went back to the Bihai family.

In this case, it is better to wait until after returning to the river city, and send him directly to the forest, so there is no need to return to Tiancheng.

However, Bihaihuan is a bit sullen, looking at her, it should be felt, or guessed the idea of Shen Lang.

This made Shen Lang sigh a bit, and may not see it again in the future, that is what he himself said. Although the latter analysis also feels that there should be no problem in the next few decades, but after looking at her current mood, she decided to go back to her for a few days.

The fleet went all the way back, and after passing through the ancient Lucheng State, it was the river city.

"Master Aso, this is the ancient Lucheng City where you are? Are you the first psionic master of the ancient Lucheng City?"

Shen Lang's inquiries and words made Aso flattered and said quickly.

"In front of Master Shen, how can we call the first, we are just a humble psionic master. I used to live in the ancient Lucheng city, and later I will do things for the blue sea family. I am going to the river city."

Chapter 1389 - Forced to descend the ancient city of Lucheng

The fleet of ancient Lucheng City has reached more than eight times the number of the Bihai family fleet!

The fleet of the Bihai family has passed by once, the number, the level and the model, which is the data that the other party already knows. Passing through other people's sites, surrounded by preparations, directly let the two sides have no suspense.

Feng Yuegu originally let everyone sit down, he still has information to get the place to commit.

At that time, I thought it was a special organization, and that would not be a great force. With their equipment, it would certainly be able to fight the past, at least to support the ancient Lucheng.

Now there is no way, the number is so disparate, and it is the pressure on the official face, so there is no way to fight.

Although he was the commander, he still made a request to Bi Haihuan.

Bi Haihuan authorized him to negotiate a dialogue.

The ancient Lucheng State is also controlled by several large families, of which the most powerful and powerful are the ancient family and the deer family. This is also the origin of the name of the ancient Lucheng State. Before a long time ago, these two families dominated this country.

Although there are more family members in the present, they occupy a certain range, but in the main body, they are still two ancient deer. Especially the ancient family, can be regarded as the only big, the same as the blue sea family in the city.

The ancient Lucheng City Fleet that escorted them last time, and the fleet that now surrounds them, are all ancient houses from the point of view.

Feng Yuegu is a brave warrior and is not afraid of death. However, as a pacific family of the blue sea family, he must give priority to protecting the safety of Bihaihuan.

Secondly, this time, it is very important to **** the lady to visit Xiaoxian Island. It is necessary to bring the harvest back.

Therefore, he could not directly fight hard. After obtaining the authorization of Bi Haihuan, he got a dialogue with the commander of the fleet surrounding them.

At the same time, there was a message for help, but the Bihai family was far away from the city of the river basin, and it could not be hydrolyzed, and it could only delay the time.

However, the strength of the enemy and the enemy is now very different. There are also key people like Bi Haihuan on the spaceship. There is not much room for negotiation, and they are directly requested by the other party to land!

The other party will choose to pack the forced landing here because the bottom is a base of a large military domain, which can be supported by all aspects. So many spaceship warships are also coming from the base. And here is far from the city, that is, the fleet of the Bihai family chooses to fight the dead net, and it will not have any big impact on the ancient deer city.

The situation is stronger than the people. Bihaihuan and Fengyuegu agreed to the forced landing. The fleet was under the surveillance of the other side and landed at the base of the military field below.

This is a very helpless reality. If they do not land, they will face eight times the attack in the air, which does not include ground-to-air attacks.

Now, after the fall, the crisis is a direct upgrade, and a large number of turrets on the ground have locked all the battleships.

This is the chance that even the fish will die.

Under the threat of the other party, Feng Yuegu can only order the sergeants on all the warships to come down, and all the people of their spaceship must also come down, which is equivalent to being completely disarmed.

Disarmed and arrested, even if there is no room for negotiation, there is at least the ability to bargain. The ancient family still has to consider the power of the Bihai family. For whatever purpose, it should not kill Bihaihuan.

However, if you fight directly, it may lead to accidental injury or even death by bombing.

“Miss Bihai, welcome to Guluchengbang to be a guest!”

When they came out of the spaceship, a group of people came to welcome the base, and most of them were generals of military uniforms.

It is a middle-aged person who speaks where he stands in the crowd and should be the highest.

In fact, when they were surrounded, they were also blocked by signals. Whether the information for help was immediately transmitted was not very certain. When they landed here, their signals were completely blocked by the shield.

However, like the sacrificial armor has a large amount of offline storage, Shen Lang scanned it, or searched for the person's information.

This middle-aged man is called the ancient Yuanjiang. He is an important member of the ancient family. Compared with the blue sea family, it is almost like the identity of the sea.

This time they stopped the children of the Bihai family, the granddaughter of Bihai Chuntang, the daughter of Bihai Chengtian, not the vase, but the recent blue-and-green joy of the wind, and of course the ancient far-reaching level of this kind of in person, the town Can live the scene.

"I have seen the ancient general."

Bihaihuan first ritual soldiers: "But the ancient generals welcome the ceremony, but the younger generation can't afford it. It almost leads to the misunderstanding of the battle between the two city states!"

Battle between two city states!

This is already very heavy, and the word "misunderstanding" has room for it, and there are steps.

Shen Lang nodded secretly, and Bi Haihuan was trained in diplomacy and negotiation.

"Miss Bihai is serious. We are warmly welcoming, but the way people use it is a bit polite. I am not here to plead guilty!"

The ancient Yuanjiang was a haha smile, and the fluttering of the topic opened.

“It’s not polite to let your guests speak here, let’s talk to another place please!”

Bi Haihuan also knows that such an occasion is not convenient for in-depth negotiations. In public, it will only make the other party unable to get down and become stiff, or should talk in private.

When he was about to leave, Gu Yuanjiang had commanded several generals to let them greet General Feng Yue and other sergeants!

This is a bit sensitive, it is equal to separate them, and these soldiers such as Feng Yuegu are taken care of!

“The ancient general, you guys...”

Fengyuegu has not finished yet, Shenlang has already said: “General Feng Yue, you go with them, settle down everyone. Miss I will take care of it!”

Feng Yuegu was slightly embarrassed to him, and he did not say anything in front of outsiders.

He is very clear about the strength of Shen Lang. Now they are disarmed in other people’s sites. They will also cheer for it. What they really want to protect is far less useful than Shen Lang.

Ancient Yuanjiang deeply glanced at Shen Lang, and Feng Yuegu listened to the command of Shen Lang Shen Lang. Bi Haihuan also took it for granted. Of course, it can express a lot of meaning.

Separated by Feng Yuegu and others, the rest with Bi Haihuan, in addition to Shen Lang, is the two psionic masters Jiang Yan and Aso.

Jiang Yan is a little better. He is the first psionic master in the city of the river basin. This is naturally a boat with the Bihai family.

Aso is the first psionic master in the ancient city of Lucheng. Now, together with the people of the Bihai family in the city, he is stopped by the ancient city of Gulu.

Fortunately for him, Bihai did not doubt and blame him, and there was no public questioning about him.

As the ancient Yuanjiang came to the interior, some of the generals also left, and only a few people accompanied the same, basically keeping the same number of people on both sides.

Chapter 1390 - Old house purpose

“The ancient general, you cut us down, what purpose, you can talk straight.” After the seat, Bi Haihuan went straight again.

Ancient Yuanjiang smiled slightly. “Miss Bihai really misunderstood. Our ancient family and the Bihai family have always been good. We also know from the ancient Lucheng State last time.”

Bihai joyful eyebrows.

“Oh, then I will not circle, just let me know a little bit. In fact, I invited Miss Bihai to be closer to the Bihai family.”

Bihaihuan said faintly: “If it is cooperation, our Bihai family is very welcome. The specific general should talk to my father or other related people. I am a little woman, but I can’t do the big thing.”

“No, no, this is not a general cooperation. It is to want to go deeper, and this is what Miss Bihai can do.”

When ancient Yuanjiang said it here, he smiled mysteriously, then raised his hand and told him: “Xianliang!”

Among the four people left by the ancient family, there are two generals who seem to be the military domain, and one is a young man. I haven’t introduced it before, but basically everyone can guess.

Young people can appear here along with the ancient Yuanjiang. This must be the younger brother of the ancient family. It is followed by negotiations to see the world.

The “sage” he now speaks is this young man.

He stood up and smiled at Bihai: “Miss Bihaihuan, my name is Gu Xianliang. I saw that Miss Huai was very admired for the battle of the demon outside the field. After that, she kept paying attention to Miss Huan’s every move. I am... I am deeply in love with Miss Huan!”

“...”

Originally, the ancient Yuanjiang did not go on, let a young child come out, and Bihaihuan felt that it was a request for excessive cooperation. Let them start the young people first, and they couldn’t talk about it, and let their elders talk.

I did not expect this ancient sage to say something, but it is such a saying.

She and Shen Lang are speechless, Jiang Yan and Aso are also eye-popping, I did not expect that Gu Xianliang is actually showing love!

“This time we rushed to invite Miss Huan to be a guest, just want to express admiration to Miss Huan. If we can, we can also agree on a wedding time...”

His words have not been finished yet, and Shen Lang has been politely squandered.

“Knot you paralyzed!”

When this was said, everyone’s face changed and their eyes fell on Shen Lang’s body.

Jiang Yan and Aso exchanged a look. At this time, their practice of literacy should be nothing, and there is a silent silence in the middle.

But when they went to the Bihai family, they were already drawn by the handwriting of Bihai Chuntang. At this time, if nothing is said, there will be a knot in the aftermath, and the information of Xiaoxian Island will be contributed in vain.

Aso was stunned by the people of the ancient Lucheng City. He bit his teeth and opened his head on his scalp.

“The Virtuous Son is one of the best in the younger generation of the ancient Lucheng City. It is also the same as the Queen of the Golden Boys, but everyone meets for the first time. It is too hasty to talk about marriage.”

When he heard his opening, Gu Xianliang and Gu Yuanjiang were very satisfied and felt that he was speaking for Gu Xianliang.

Waiting to hear the last sentence, it is a bit uncomfortable.

“I don’t know where the kid is rude. Isn’t you a gluttonous thing to eat and drink, and dare to be rude and rude?” A general slammed the table directly.

Ancient Yuanjiang and Gu Xianliang certainly maintain their demeanor, and such things do not require them to do it themselves.

Another general, it was a cold smile, and the yin threatened.

“Hurry? Then let Miss Bihai stay, cultivate the relationship with the good son, very simple thing!” &1t; /

“Peace your paralysis!”

Shen Lang is another reprimand of the past.

In fact, they did not directly confront Shen Lang, not because they all cultivated well, but just four words, one second was finished, they did not respond, just to protest.

Now I sighed again, only to react to the words of my mother.

“What are you special about? Dare to speak in the military field of Laozi, believe it or not, I will smash you up and feed your dog?”

The hot general who took the table once again pointed the gun at the sinking waves and saw the fierce light.

“Just by your pig’s head? How do I smash you now?” Shen Lang sneered, didn’t look at it, his gaze was to look at the ancient Yuanjiang.

Shooting people first shoot the horse, and the thief first smashes the king.

The other party was able to force Maple Moon to land today because of the approval of Bihaihuan.

If they want to leave, they will of course take the ancient far-off.

At this time, Gu Xianliang still kept a smile.

“This should be the master of Shen Lang, the teacher of Miss Huan, and the war of the extraterrestrial world, I have also seen it.” &1t; /

Then his smile became awkward.

“Master Shen, and these two Masters of Psionics, did you feel that something was wrong after you came in?”

The yin-stricken general also ridiculed: “Jiang Yan is the first psionic master in the city, and Aso is the first psionic master in the ancient city of Lucheng. You two are psionic masters who can fight against the demon outside the world. We Can you talk to us without the guards, do you think we are confused?”

Jiang Yan and Aso quickly changed their faces.

“Not good! Master Shen There are weird things here, and our psionic powers can’t be displayed!”

Looking at their expressions and hearing their exclamation, several people showed a smile.

This room has been specially laid out, and it has a design for the psionic master. The energy field is used to control the environment, so that the psionic master can’t wave it out.

Without psionics, they are just ordinary people.

One of the generals patted the palm of his hand, and a door opened quickly. Then there was a team of guards, all aiming at Bi Haihuan and others.

“Noisy! Don’t be rude to Miss Bihai, your guns are careful.”

The ancient Yuanjiang frowns a sigh of relief, but the meaning is actually more obvious, indicating that everyone shot, do not kill Bihaihuan, others can kill!

Bi Haihuan’s face is unchanged, coldly said: “The ancient general, you hold us down, is to force me to marry the ancient wise?” &1t;

“Miss Bihai... I still call you a virtuous woman. Of course, I will not force you to marry a good man. But you are similar in age, there should be many topics, and you should always love you. Everyone is right, if we are married to the Bihai family. That must be a grand event! You can understand it first...”

When Gu Yuanjiang just said it, he felt a slap in the face and then a red and red handprint appeared on his face.
