

First Strong 1391

Chapter 1391 - Pinched

“Who!”

Gu Yuanjiang couldn't help but scream, then touched his face, feeling very painful, and made him a bit licking.

But the speed was just too fast, and almost no one could see what was going on, as if it was flashing.

“Don't you see it clearly? It's your grandfather!”

When Shen Lang spoke, everyone's eyes were concentrated.

“Look at it this time!”

Then he stood up and walked over step by step, so that everyone could clearly see it, and then the slap of “啪-” continued to hit the face of the ancient Yuanjiang.

The face of Gu Yuanjiang was beaten to the side, Gu Xianliang and the other two generals, as well as a large number of soldiers, all looked at it.

They have never seen it... No, it's never been thought that someone dared to play the ear of the ancient faraway in public!

Jiang Yan and Aso are also deeply shocked.

Shen Lang is Shen Lang, Tai Te is a cow!

On the same day they were crushed in public, it was a great humiliation, and now looking at the ancient Yuanjiang generals, so slap in the face of public humiliation, only shock, there is a trace of excitement.

“Do you see clearly?”

When Shen Lang asked about the opening, the person had already slap in the face of Gu Xianliang!

“Bold!”

“Hurricane!”

The two generals woke up like a dream, and then screamed: “You are all dead? Kill me for him!”

The soldiers who had just entered, were busy aiming the muzzle at the waves. As long as they don’t start with Bihai, they have no pressure.

Bi Haihuan suddenly stood up!

But this time, she heard the sound of Shen Lang in her ear.

“Sit well, let me fix this.”

Bi Haihuan has just been an instinctive reaction. She is more confident than everyone in the strength of Shen Lang.

“shot!”

Shen Lang hit a finger, all the guns of the soldiers were uncontrolled, aiming at them four people!

“Don’t stop!”

The orders of the two generals went down to the general, and found that the muzzle aimed at themselves, as well as the ancient Yuanjiang generals, immediately frightened, and quickly changed their mouth.

The soldiers were also scared. They really started to shoot when they could hardly control them. They watched to kill the ancient generals and they were scared. Fortunately, the whole person and the guns were fixed.

“Your military field is it?”

Shen Lang took one hand and grabbed the two generals, then pressed them face to face and mouth to mouth!

“Do you like to force others to be together? Come, come together and get together!”

He said, while letting their two faces rub hard.

These two seats that can go to the generals are of course a certain age. At this time, the face and lips, nose and their own face rubbing, so that they are disgusting to spit out.

After rubbing for a while, Shen Lang opened their heads, and then slammed into each other, struggling back and forth. After a few seconds, the two men had already collided with each other!

“stop!”

Gu Yuanjiang was initially beaten. I didn't expect anyone to attack him so fast, and the second slap was a little dizzy. When I looked at this scene, I was screamed.

“Bihai Huan, let him stop!”

“Shen Lang! You move again, I immediately ordered, kill all of them in Fengyuegu!”

Gu Xianliang also spoke, and he directly threatened with the life of Feng Yuegu and all other sergeants.

“is it?”

Shen Lang's fingers moved, and the soldiers who aimed at him, one of them could not control a shot, and directly hit the chest of Gu Xianliang!

Gu Xianliang was shocked. He had a sacred armor. The gun was still blocked, but if all the guns were bombarded, he would be in trouble, especially if the eyes were not protected.

“Do you want to move again?”

Shen Lang just grabbed the heads of the two generals and they were shaking. At this moment, the hands of the two generals were directly pulled out!

Suddenly the two people's heads were torn off. This picture is already very bloody. Now the blood they squirted was not splashed around, but all of them went to Gu Xianliang and Gu Yuanjiang, and they got them. A blood on one face.

All the soldiers were already imprisoned, and they looked at the top generals in their military fields, so they pulled their heads in front of them and were scared!

Now their muzzle is still aimed at Gu Xianliang and Gu Yuanjiang, which makes them frightened, if they are not careful...

The Shen Lang hand shook again, and the two heads fell on the two people of Gu Xianliang and Gu Yuanjiang.

This time, both of them directly trembled.

With their education, naturally, the strength is very high, and they are not afraid of any bloodiness. But this situation still makes them unbearable. I just talked with them, and the two big men in the military field were screwed around!

Aso and Jiang Yan two people, but the back is cold, can not help but exchange a look, are very fortunate.

They were glad that they were in the Bihai Chuntang on the same day, and they immediately recognized it. Otherwise, they would use the fierce strength of Shenlang. It was estimated that they had screwed their necks in front of Bihai Chuntang.

“I... I am joking. Of course I will not be unfavorable to General Maple. They are friendly to the Bihai family...”

Holding the head of the general, the ancient sages trembled and changed their mouths.

In fact, through the Holy Grail, he can order without speaking. However, Shen Lang not only pinched the two generals by hand, but also controlled other soldiers. It did not affect his ability to display psionic power. Then he did not dare to anger, and his neck was also screwed down...

At this time in ancient times, the brain is also spinning fast, how do you want to ease the atmosphere. Then I saw Aso, and I was busy making eyes to him and let Aso come forward to persuade.

Aso had just been beaten up in the round. Now Shen Lang is so fierce, and he dares to speak.

“They just said that I have to feed my dog, I can’t waste them...”

Shen Lang said to himself, and then directly opened the mouth of Gu Xianliang, one of the broken trachea or something, directly to his mouth!

Feed the dog!

Gu Xianliang reacted, this is to use the general’s body to feed him this “dog”!

Compared with the insult of this metaphor, a trachea was stuffed in, which made him vomit.

“Shen Lang Master! Sure enough, it is a person who can fight against the demon outside the world. We have planted it. You can go now, I will never stop it!”

Already lost two generals, Gu Yuanjiang can no longer watch his son die in front of him, decisively admit defeat, as long as today, he can also ask the Bihai family for justice.

“Is it easy to ask God to send God?”

Shen Lang reached out and took a shot, directly stunned Gu Xianliang, and then seized the head of the ancient Yuanjiang.

Chapter 1392 - Calm

After the fear of Jiang Yan Aso two, back to God, began to worry about it will be too much?

If Shen Lang only kills a few soldiers, it will have no effect, but the two generals have just killed. And now look at this meaning, I don't want to let go of the ancient family. If you kill two of the ancient family, the consequences will be much more serious.

It's just that the two of them can't say anything in front of Shen Lang. It's still worth seeing the blue sea, but Bi Haihuan has no meaning to restrain the waves...

After Shen Lang grabbed the ancient Yuanjiang, he directly manipulated his thinking, and through his sacred armor, he ordered all the officers in the base to concentrate.

Then there were the monitoring and imprisonment of Feng Yuegu and others, all of which were withdrawn; the control of the Bihai family spaceship warships was also withdrawn.

Shen Lang then operated the soldiers and directed their guns at themselves, and they shot themselves!

After fixing these things, Shen Lang loosened the ancient Yuanjiang, and then grasped the head of Gu Xianliang.

“You are right to me...” After the restoration of consciousness in the ancient Yuanjiang, it was still a bit embarrassing. The first thought was whether Shen Lang had poisoned his hands, not the traces of the Holy Grail.

But looking at Shen Lang's hand on the head of Gu Xianliang, he immediately shut up with interest. If you say anything more, it will be troublesome to provoke Shen Lang to kill his son.

Then he saw the soldiers of that team!

This made it tremble. The control here has no effect on Shen Lang. Even these soldiers who are foolproof have all controlled suicide!

Jiang Yan and Aso are also difficult to understand, because they can't display psionic power until now. I don't know how Shen Lang did it. It can only be said that Shen Lang is far better than their power.

In fact, for Shen Lang, this is not a big problem at all. They just created a field-like environment through technology, so control is in their hands.

However, Shen Lang is now in the realm of Daxian. This level of field does not control him at all, so it is not a problem at all.

"You... what are the conditions? Please open it directly!"

Gu Yuanjiang calmed himself down, thinking of Shen Lang saying "please ask God to send God easily" and immediately realized that the other party would not leave directly.

Now to say this, it is to let Shen Lang give the conditions, but also to divert the attention of Shen Lang, do not move his son again.

"I want to talk to me about the conditions now?"

Shen Lang looked at him coldly.

Gu Yuanjiang felt cold and sweaty, and he still had a head in his hand. If he threw it, he would anger the Shenlang. And looking at Gu Xianliang's hand also has a head, this scene is creepy.

Now Shen Lang's hand is still placed on the head of Gu Xianliang, and it seems that he will unscrew his head at any time.

"What do you want? What is the status of our ancient family in the ancient Lucheng City? You should be very clear. If you dare to move us, this is to provoke two city-state wars!"

He did not consciously use the words that Bihaihua had told him before.

Only now the situation on both sides has been greatly reversed. When he said this, he was already a bit guilty.

Shen Lang shook his head: "You are not correct. The ancient family has a status in the ancient Lucheng city. You have forgotten the position of the blue sea family in the river city. When you move it, you will provoke the city-state war. Then I screwed them two dog heads. Don't you already have a war? Then I will leave you doing it?"

The ancient Yuanjiang is full of sweat, but it is just threatening. It is a bit unreasonable. Should it be soft and beg for mercy?

"If you kneel for mercy, I can also consider letting you go. You are still trying to threaten me at this time. Are you saying you are looking for death?"

Shen Lang's manual operation, Gu Xianliang's head followed.

Gu Xianliang has been stunned, so his head will move as soon as he moves. However, when the ancient Yuanjiang looked at it, it was a big jump, and it quickly slammed down.

"Please, please... don't kill us..."

"Are you not high on the top? Forced us to stop and force the blue sea to marry this waste?" Shen Lang taunted.

Gu Yuanjiang smiled and explained it quickly: "In fact, because Miss Bihai is too high in reputation and strong in strength, many families have a marriage. Virtue is the leader of the younger generation of our family. We also have the heart to contribute to the world. The general expressed his will..."

Listening to his explanation, Shen Lang and Bi Haihuan understand this.

Suddenly stopping people, where is a marriage, is simply a thief and a woman. It turned out that the value of Bi Haihuan is now prominent, so that all parties want to marry, and they also expressed to the blue sea, but it should be rejected.

Now I want to take advantage of this opportunity to cook raw rice, or to create opportunities to make them like blind date and get along.

Probably also because they are very confident in the excellence of Gu Xianliang, they will use such radical means, and feel that as long as they seize the opportunity to make Gu Xianliang win the heart of Bi Haihuan, things will become.

I did not expect to let the wrath of the waves directly.

“...this, we really want to give Miss Bi Hai a little surprise experience is not offended...”

As I spoke, the sound of knocking on the door was ringing outside.

Shen Lang directly opened: “Come in!”

Immediately after the door opened, a large group of people came in, all of them were base officers.

The forced landing of the Bi Hai family has been a major event in the entire military field. Dozens of warships have been vacated, and the following are also ready. All the officers have no rest.

When they talked inside, the outside world also guarded Feng Yuegu and others, guarding the fleet of the Bi Hai family. Therefore, after Shen Lang manipulated the orders of the ancient Yuanjiang, they quickly rushed over.

This is to show everyone's qualities in front of the Bihai family. Therefore, the officers are all outside the door. After the quick gathering, they knock on the door and then come in quickly.

After the results came in, the situation was completely different from what they imagined.

It was not the ancient generals who asked them to show the level to Bihaihuan, but the two generals had already been killed. The ancient generals were holding a head and the ground, and the ancient sages were also unknown.

"Bold madman! Let go of the good son!"

Someone responded quickly, and immediately screamed, then pulled the gun and aimed at Shen Lang. The level of these officers is really high, even if the management is old, they are quickly aiming at the waves.

There are still some savvy ones. I think that targeting the Shenlang may not be enough, aiming at Bihaihuan. Since this is a person of Bihaihuan, it is sure to be a rat.

"Stop! Everyone puts down their weapons!" Gu Yuanjiang was busy calling.

Just a team of professional soldiers have been paralyzed. These officers are not necessarily able to shoot, but they are more likely to anger the Shen Lang.

Chapter 1393 - How to get it

The response of the ancient Yuanjiang did not surprise everyone. After all, Gu Xianliang is still in the hands of the other party.

However, these officers, although they saw that they held the head, did not see the **** side of the head directly, and did not understand the strength and means of Shen Lang.

And they are the military field, the officers of this base, the two generals who were desecrated, they are the direct leaders here, the feelings and influences, even stronger than the two ancient families.

At this moment, a large number of people are thinking about revenge for the two generals. Some people want to make meritorious deeds and save the ancient sages.

Ancient Yuanjiang did not dare to take risks, but if they could save people, they would take no risks.

These officers are all kinds of theories, exercises, and actual combat. The responsiveness may have passed the peak, not comparable to the young special forces, but they have greater autonomy in terms of judgment and determination.

So at the moment when Gu Yuanjiang let everyone put down their weapons, there are still four or five people shooting!

Their goal is of course Shen Lang, and Bi Hai Huan can only be used for threats. And now Gu Xianliang is also in the hands of Shen Lang, need to solve the sinking waves, in order to save people.

The ancient Yuanjiang, who had been squatting, heard the sound of gunshots and fell down on the ground. I closed my eyes and didn't dare to look at it. I was afraid to see Shen Lang twisting the neck of Gu Xianliang!

The ancient Yuanjiang, who just closed his eyes, immediately heard a burst of exclamation!

Although I couldn't bear to see the picture and expected a miracle, I couldn't help but open my eyes. However, he still cherishes himself. The pleading for mercy is already the limit. It is impossible to replace himself with his son.

But after opening his eyes, he was surprised. Because the spectacle seen in the eye is the reason why everyone exclaimed, but it is not that Shen Lang twisted the neck of Gu Xianliang, but the bullet that was just shot, even stopped in the air!

After the five men opened the bullets, the bullets came directly toward the sinking waves. The Shenlang did not evade and did not attack those people. Instead, they stopped the bullets directly in the air, a few feet away from him, not close. Did not fall down.

This picture is undoubtedly very strange, like a movie picture, the bullets are stopped in the air, as if there is any support.

Just exclaimed, those officers came out.

Originally, the ancient Yuanjiang had issued an order, even if they wanted to avenge the generals, but after all, they belonged to the ancient family, and the ancient dialects could not be disobeyed.

At the moment, watching the pictures of the five people's "fire", they let their hearts.

Since the other party can solidify the five bullets in the air, it should be the same effect if they are replaced by ten or twenty. Others are afraid to shoot again.

They can plan such a big event today, of course, after they passed by that day, they have already obtained intelligence information and know who is mainly there.

As it is good to say, in the end is the ancient deer city state, Jiang Yan is also general. But the Shen Lang is different, it is a real monk!

The outsiders worshiped Bihaihan, that is because of her identity as a big Miss Bihai family, young and beautiful, and in line with the conditions of idols. However, the high-level people have thoroughly studied the images of the battles with the extraterrestrial demon. They all know that Shen Lang is the key figure.

This is also the reason why they will set up an energy field here, but the picture just has no doubt proved invalid.

Shen Lang's hand waved, and the five bullets already in the air in front of him immediately changed direction, fixed in the air and turned to the ancient sage!

"Don't! Don't!"

Ancient Yuanjiang quickly yelled.

Gu Xianliang has a sacred armor, but now he is in a coma, unable to manipulate more defenses. If these five bullets hit the head of his face, it will be dead.

The five who had just fired the gun could not help but let go of their hands. There were still guns falling on the ground.

They want to rescue the ancient son, but now they cause the ancient son to die under their bullets, which is a big problem.

“Please let me go through the ancient son!”

After watching the bullets shift, they stopped in front of Gu Xianliang, and there was no direct shooting. The five people decisively collapsed.

“Please let me go through the ancient son!”

The other officers also reacted and went down to Shen Lang.

At this time, there is no face and no face. The two highest generals are already dead. The ancient far-off generals of the ancient family are all squatting. What other faces can they have?

“Let’s let go of the ancient son? How about using your life?”

Shen Lang smiled slightly, and the bullet flew up from the front of Gu Xianliang, and turned to the five people who just shot.

The five people already knew the consequences, and they also recognized the situation. It is impossible to make this powerful psionic master. And if Gu Xianliang died, even if they are lucky enough to live, can the ancient Yuanjiang let them go?

“I wish to make a life on behalf of the ancient son!”

One person shouted out and made a state of waiting for death.

“I wish to make a life on behalf of the ancient son!”

The other four people also went to die.

Shen Lang gently hit a ring finger, one of the bullets, immediately running high, but not directly into the head of the head, but a spin, ahead from the left head, then fly out from the right head !

The whole degree is very fast is not a person, but a bullet to make them all five heads!

As the blood source of the bullets fluttered in the air, it did not fall down and appeared in front of them all, adding a horrible atmosphere.

“The ancient general, do you think that the lives of several of them can compare with your son’s life?”

The scene just happened to shock the ancient Yuanjiang. I thought that there were five people who came out to be dead ghosts. It should have been enough. I didn’t expect Shenlang to be a bullet to solve them!

This not only shows his strength, but also represents more of what he wants!

From the heart, the ancient Yuanjiang certainly feels that the lives of other people are not comparable to his son. Even if Gu Xianliang is not his son, as a child of the ancient family, it is not comparable to outsiders.

The prince can be a general, and the general can not be a prince.

But now, in the presence of so many officers, he can’t say this, or else it will be cold. And if it is said, it means that five people are still not dead enough!

“Master Shen, you have killed our two great generals and just killed our five outstanding officers. How much more do you want?”

Gu Yuanjiang sighed and closed his eyes, letting himself make a fearless death.

“If you really don’t think it’s enough, take my life! The name of the dog is not worth the sacrifice.”

The soldiers are the most passionate loyalty. Everyone is as loyal to the ancient family as the royal family. Now the ancient Yuanjiang prefers to die by themselves. Don’t squash other officers. The words are “robes” and “sacrifice”. Everyone is excited. Woke up.

Chapter 1394 - Off, then destroy

They stood up and then took a step forward!

“If you kill, kill us!”

“If you kill, kill us!”

“If you kill, kill us!”

They did not embrace it, because in such a chaotic state, it is likely that it will cause Shen Lang to start with the ancient sages, and now there are four bullets suspended in the air in front of them.

So the collective stand up and take a step forward, just an attitude, a pressure.

When the first sentence was shouted out, there was still a bit of unevenness. When the last two sentences were followed, they became louder and louder.

Gu Yuanjiang opened his eyes and looked at the officers with a sad face. This is of course the result he wants, but it is still a bit moving to see so many officers going to die.

“The ancient general, you can hear, they asked me to kill them. Although such a request is a bit strange, but I have encountered a lot, I generally help others, are happy to fulfill them...”

Shen Lang said helplessly.

The ancient Yuanjiang secretly concealed him, obviously it was everyone who jointly pressured him and said what he asked for.

He is also betting now, gambling on the waves does not dare to kill all the officers!

After all, he has already killed two generals and killed five other officers. Even during the war, it was a huge loss. It has greatly challenged the ancient family and the ancient Lucheng.

After Shen Lang finished speaking, the other four bullets immediately swung up. When they all fought fiercely, as before, they quickly penetrated the heads of their different people!

The blood that floated out of the five people just after wearing the head was still controlled to float in the air. Now there is a large amount of blood coming out and suspended in the air, making the picture even more strange.

The pupils of ancient Yuanjiang violently contracted.

He gambled against the waves and did not dare to kill. He did not expect that Shen Lang would actually kill him, and he did not even threaten the warnings. He did not talk about the conditions and killed them directly!

As a result, he was very scared in his heart. According to the current trend, what else does this kid dare to kill?

So many officers kill like mosquitoes, will they let them go?

I just didn't move the ancient sages. If I didn't move him, it's not a concern, but I want to torture him for a while!

"You, you take them..."

The ancient Yuanjiang murmured, then turned and looked at Bihaihuan.

"Miss Bihai, don't you care? He killed all the officers here, are you watching?"

Bi Haihuan was also shocked by the behavior of Shen Lang.

She has seen blood and life, but it was a time of war with other city-states. Now it is directly killing such a large group of officers, and has already killed a group of soldiers.

This is already dozens of people. This is a close look at the killing, headshot, and twisting of the neck. This is more profound than the mech and battleship shelling.

But this is Shen Lang, she is unconditionally supported!

Besides, the anger of Shen Lang is also for her, because they first forced everyone down and forced her to marry the ancient sage.

“Master Shen is in my heart, it is God! What he wants to do is not to ask anyone for advice, and no one can interfere with it. The ancient generals have turned you upside down and have not reviewed your question!”

This is said to let the ancient far-off, which has already been sitting on the ground, desperate.

This Shen Lang is so powerful, and still so strong, even Bi Haihuan can not control him, Aso, Jiang Yan is even more unconstrained.

However, when people are desperate, they always have a strong desire for life, and they can immediately become wise.

Just now he was able to take the initiative to kneel, it was already a concession, and after a group of officers, still thought that there could be a little change, so I waited and watched.

But now it is the last moment. If you can't let Shen Lang let go, it's not just his son, even if he estimates that he can't go.

Gu Yuanjiang immediately threw the head in his hand to the side, and then he corrected it again, and bowed to Shen Lang.

“Master Shen, I know it is wrong. This time we are reckless, offended you, offended Miss Bihai, please give me a chance to redeem! The ancient family is still a little bit of a secret, I am willing to pay all to redeem, I hope you can Open the conditions, and dare not violate the rules.”

His attitude this time has become very good. It is not only a sincere apology, but also the foundation of the ancient family, and emphasizes the redemption.

When he spoke, the bodies of the commanding officers fell one by one.

“It’s late! I gave you a chance, but you are not upright.”

Shen Lang said a faint sentence, the hand moved, just killed all the bullets of the officers, and one flew over, immediately pierced the head of Gu Xianliang!

Gu Yuanjiang stared at Shen Lang, and he was afraid that he would kneel down. At this time, his son was also pierced like other officers, and his eyes were full of anger.

“Shen Lang! You represent the Bihai family now? Is this going to fight our ancient family?”

He also suddenly stood up direct hairpin and Shen Lang hard.

At this point, he should have asked for mercy, and he has no effect. If he continues to squat, it will not have any effect. The son is dead, he is too late to be sad, he must face himself as the last ending.

“Bihai Huan! I can face the sea today, but you indulge him to kill so many people, have you faced the ancient family?”

Bihaihuan is undecided.

Shen Lang just nodded. “Your words are reminding me that I should kill the people of the ancient family. I think it makes sense. I can make such an idiot like you. There is no need for the ancient family. What is the deer?” I should be very happy to see that I am destroying you!”

Gu Yuanjiang seems to look at Shen Lang like an idiot. What did you say?

Kill the ancient family clean? Killed the ancient family?

He thought who he was!

However, looking at the dark waves, the ancient Yuanjiang was trembling, but it was no longer possible to say anything. For a madman who is clamoring to destroy the ancient family, he will only die faster. But he can also issue commands to the outside through the sacred connection of consciousness!

Although the senior officers have been eliminated, but the middle of the base, all the soldiers are still on the post, as long as everyone is bombarded here, even if he still will die, at least can come to the same end!

“Want to ask for help?” Shen Lang suddenly smiled, and then transferred a light screen, quickly operated, and presented a large holographic image on the scene.

Everyone looked at the past and saw that the situation inside this house has been passed out through high-definition surveillance.

Ancient Yuanjiang is a big change in his face.

Chapter 1395 - Shock the world

Ancient Yuanjiang was left with one hand. When the two generals turned their heads and threw them over, he had no time to dispatch the manpower, but he immediately cut out the distress signal, so the situation that happened here has already been transmitted to the ancient family!

When Shen Lang was manipulating his consciousness, he had already issued a series of instructions to the base. Of course, he also knew the hands and feet of the ancient Yuanjiang.

Therefore, he used the authority of the ancient Yuanjiang, and also cut the live broadcast, but it was the media giants of the major city-states!

Now that the ancient Yuanjiang wants to dispatch troops, he discovers that he has been taken over by the holy armor system.

Although they are all the same type of products, the system of the Bihai family and the ancient family is definitely different, and this is a core secret and will not be openly compatible. It is more difficult to take over the replacement.

However, the sacred armor of Shen Lang is now ahead of the present era. This is a system that upgrades the future, which is different from the previous Bihai family.

In addition to being more advanced, when he controlled the ancient Yuanjiang, he also quickly connected all the core information such as the authority, so that the ultra-high-speed operation of the holy armor system would be completed in an instant.

Therefore, at this moment, the commanding power of this base is equal to the hands of Shen Lang, and even other places in the military territory that the ancient Yuan can command, and more places, he can deploy.

A session request occurred at this time.

Shen Lang was connected, and it appeared in the light and shadow, it was a serious old face.

“Shenlang, what are the things to discuss! You can talk about the problems in the ancient Yuanjiang. You have already killed so many people and killed the ancient sages. Isn't it enough? I have already talked with the Bihai Chuntang patriarch! ”

Shen Lang has controlled the consciousness of the ancient Yuanjiang, and of course knows who this person is.

The father of Gu Yuanjiang, the patriarch of the ancient family, can almost be regarded as one of the most powerful people in the ancient Lucheng City – Gu Yongxin.

When Aso saw Gu Yongxin, the whole person was nervous. He was the first psionic master of the ancient Lucheng City. Now he is with the people of the river basin, who is here to harm the ancient family. Gu Yongxin will not vent his anger. ?

“Sure enough, there is a tradition. The teachings of the ancient faraways are not square. There is no way for your godsons. You still don’t know who is holding the place now, but also use the Bihai Chuntang patriarch to press me?”

Shen Lang directly reduced his picture and then connected a batch of media conversations.

“Don’t talk! You are not interviewing. Just listen to me. Just what happened here, you should have seen it. But the reason is not very well understood. I will simply say that Miss Bi Haihuan passed the ancient Lucheng city. At the time, by the ancient Yuanjiang, Gu Xianliang father and son, personally led dozens of air battleships to stop!”

“And their purpose is to force Miss Bihai to stay and marry Gu Xianliang!”

“The guards of the Bihai family have been arrested, the spaceship battleships have been detained, and you have seen how many of them there, and there is an energy field for the psionic masters. If it is not strong enough for us, we all must have Listen to their arrangements!”

Shen Lang did not give everyone the opportunity to ask questions. He unilaterally told the process a bit, stressed that it was the other party’s problem, and they are now in the military base of the ancient Lucheng State. Everyone saw the previous pictures. Now they are also a large number of soldiers and officers. The body.

In addition to these, his means and strength are even more frightening to everyone, even if it is transmitted by a million miles, he does not dare to disobey his request.

Finally, Shen Lang chose a lucky one, which is regarded as the representative of the media.

“The conversation between Gu Yongxin and me just now was cut to you, did you see it?”

“Look, see.” The anchor over there was very excited. This media is a city-state in the river basin, so it is also filled with indignation: “The ancient deer city is too shameless! I want to grab the Miss Bihaihuan!”

“They blocked our signal, and now they use the signals of their base to communicate with each other. So the information here needs to be spread out to you. Including the Bihai family, we have not had time to send a distress signal.”

“Must be sure! We must let the world know their ugly face!”

“There must be a clear expression, Miss Bi Haihuan, although very fearful and angry, but always maintain restraint. On-site watershed city state first psionic master Jiang Yan, the ancient deer city state first psionic master Aso, can testify. ”

“The only one is me! Miss Bihai is afraid of triggering the battle between the two city-states, and the innocent people. Now I am coming out of this anger! If the ancient family does not give a statement, then I will be alone, take their ancient family up and down Kill all!”

Shen Lang issued his declaration to the whole world, keeping the heroic image for Bihaihuan, and the wicked man to do it. It is also a clear-cut for the Bihai family, to avoid the battle of hundreds of millions of people.

He wants to get angry. It is enough to kill the ancient Yuanjiang and the ancient sages. If Gu Yongxin and other ancient families are not willing to do so, then they will add other ancient families. The power here has changed, and naturally there are deer families and other rushing to participate.

Gu Yongxin’s conversation is still online, and he can still see his angry expression, just the opportunity for Shen Lang not to talk to him.

After doing all this, Shen Lang controlled a bullet and hit the head of the ancient Yuanjiang!

In fact, when I was just dealing with Gu Yongxin and the media, Shenlang has been multi-tasking. Through the Shengjia system, before the ancient family has not had time to modify and withdraw all the authority of the ancient Yuanjiang, it has started a series of Strike the order!

The military missiles that he can control are all started with the final key, all of them rushing to the city where the ancient family base is located!

After the ancient Yuanjiang issued a call for help, the ancient family was also manipulated in other places, and the nearest army of the military field was mobilized to the base to come to reinforce.

At this time, of course, the base of the missiles released a large number one by one, directly blasted out!

This day, the later history became the “day of shock.”

No one thought of the ancient Yuanjiang ancient Yinliang father and son, even want to forcibly grab the blue sea joy. No one even thought that a mysterious psionic master who had come to control a military base, killed all the high-ranking military officers in the military field and killed two generations of the ancient family.

If this is only a small scope, then he has broadcasted the most powerful sounds that have shaken the world, directly affecting the pattern of the ancient Lucheng state, affecting the whole world against the city, the blue sea family, and even the master of the psionics. the opinion of.

After the ancient Yuanjiang was settled, Shen Lang was not interested in continuing to joke. Cut off the connection and take them directly with them.

Bi Haihuan has already contacted Fengyuegu, shielding the signal of the Bihai family and spreading it. In the short distance nearby, it can still spread. Just now Shen Lang had already withdrawn the order to monitor them, and the warships also withdrew the guards.

Feng Yuegu has already organized other people and re-boarded the battleship spacecraft, waiting for them to leave.

However, when they came out, all the soldiers in the base were at different angles, aiming at Shen Lang and others with weapons!

Chapter 1396 - Complete extinction

“Focus surrender! Otherwise all guns will come together!”

A serious voice was transmitted through the loudspeaker. In addition to a lot of guns aimed at, there are many control in the turret and so on.

Just the time when Shen Lang manipulated the authority of the ancient Yuanjiang, it was the highest level of missiles at the base, like ordinary soldiers, artillery shells on the other side, and so far away from him.

And now that they are aiming at them, these are the soldiers and weapons.

Shen Lang's former officers are also high-ranking officers, and they cannot concentrate all of them.

But in the middle, there are also some who dare to take responsibility, or who are responsible for monitoring, and found the situation inside. In a short time, it is possible to hang up all the high-level generals and organize such a siege. It is also a good efficiency.

When Shen Lang glanced around, the voice rang again.

"Please surrender quickly! Otherwise you will be bombarded, and all the warships in the city will be shelled!"

The middle-ranking officers of this command, in order to express their determination, just fell, and arranged a shot in the air.

"I miss you as innocent people, and I will not be involved in you. But do you think that life is more important than the ancient Yuanjiang, or do you think that I can't kill more people? I really want to die for the ancient family. I don't mind killing a few more. !"

Shen Lang talked and raised his hand.

In an instant, lightning and lightning, the building of a building, the tower of the blockhouse was collapsed!

Shen Lang This is the experiment to use the Leiyuan, the effect is still satisfactory. For these people, he is only a small punishment, although there will be death and injury, but it is not targeted at the intensive population.

“fire!”

The means in the conference room before Shen Lang should only be known to some middle-level officers. Most of the scenes were only shaken up, knowing that they were faced with the master of psionics, but to what extent they did not know.

Just in public, this is to let everyone see the ability of Shen Lang.

But the officer who is now commanding is still resolutely ordered!

Today all the high-ranking officers, generals, and even the ancient Yuanjiang and Gu Xianliang are dead. If they can't leave the murderer, they will not be able to explain to the ancient family.

Both sides are dead, and the battle can be beaten.

All the soldiers were ready. When the commanders were negotiating, they were ready to attack. Now that they heard the order, there is no time to consider other, instinctive direct shooting.

For a time, there were intensive artillery fires from all over the place!

After coming out of it, Jiang Yan and Aso can also use the power of psionic power. In the face of so many guns and shells, they can't attack, they can only focus on the defense.

At the moment the gunfire attacked, they had joined forces to support a protective cover and protect all four of them!

However, they soon discovered that all the bullet shells had stopped and detonated at a distance further. Obviously there is a bigger shield!

Needless to say, this is naturally a handwriting of Shen Lang. They have already seen it in Xiaoxian Island, and they have no excuse, but they continue to support their protective

cover. It is equal to one more inner ring in the outer ring. If it is broken, it can be protected by one more layer.

“court death!”

With the cold drink of Shen Lang, the gunfire that was intensively launched suddenly stopped, became sparse, and then completely stopped.

At this time, Feng Yuegu, who controlled the battleship spacecraft, also brought people to bombard it.

“Go!”

Shen Lang went directly to the Wang Fei boat, and Bi Haihuan followed him. Aso and Jiang Yan two, a little uneasy and quickly catch up.

They just had to hold a protective cover, which is a double force. Under the movement, they can't do such a large range and intensity, so now they are afraid that they will continue to be attacked.

As a result, there was no more attack. The entire base was bombarded with the battleship of the Bihai family!

“Shen, Master Shen, their soldiers...”

“I gave them the opportunity, since they are not looking for death. Then die! But not dead, the ancient family may not let them go.”

Shen Lang was attacked by mental power. Where can these ordinary people bear the mental attack of a big fairy? So no matter where you hide, you are bombarded indiscriminately.

After everyone got on the spaceship, Shen Lang immediately let Feng Yuegu quickly arrange to drive away.

Although he had fired rounds of rounds of artillery shells through ancient Yuanjiang, it was a one-time attack. To fight against the target, it was necessary to manipulate and adjust it at a distance.

And whether it is the city where the ancient family is located, or the fighters who have come to reinforce the reinforcements, they are certainly not vegetarian. They will be intercepted by missiles and the like.

So on the whole, it is mainly a momentum that may not be able to hit anything.

Now they are on the site of the ancient Lucheng State, there is still a long way to fly to the city. Therefore, it is necessary to go as far as possible before the ancient family mobilizes more airpower in the military field.

In fact, Shen Lang's own plan wants to let Feng Yuegu bring them back, and he stays, goes to the ancient family alone, finds Gu Yongxin and other ancient families, and quickly kills their core. It will enable the deer and other ancient deer city states to take over.

Only in this way can we avoid a large-scale war in the ancient Lucheng and the city-states!

Shen Lang has no feelings for the people of this world. He does not want to have a city-level world war. He mainly thinks about the future of Bihaihuan. He grew up as a world-class female hero in the city-state war.

History and the future may be affected, but they don't want to push so fast.

"Thank you teacher." When the spacecraft sailed quickly, Bi Haihuan thanked Shen Lang.

At the moment just now, Shen Lang was for her to stand up, because the plan of the ancient Yuanjiang, the frivolity of the ancient sage, the spur of the rushing crown, the anger, for her export gas, and the ancient power of the ancient city of Lulu .

Shen Lang smiled slightly: "The strength is strong, and the people are also inflated. But we are practicing against the sky, suffering bitterly, enduring long-term loneliness, risking all kinds of dangers, having strength, not just to protect ourselves, Protect the people you want to protect?"

Although the ultimate goal is to seek a longer life and a farther heaven, the foundation of all this is to be able to protect ourselves.

In ancient Yuanjiang, they are just ordinary people, dare to do whatever they want for Bihai, but they are not inferior to the forces of the Bihai family!

According to their plan, as long as Gu Xianliang won the blue sea joy, raw rice cooked mature rice, even if the Bihai family is very uncomfortable, can not turn his face, can only laugh and marry.

In this world, Shen Lang cares about her alone. When is she not waiting for her?

Chapter 1397 - Crisis PR

Originally they were flying fast, and now they are in danger. They are pushing the speed to the limit and choosing the nearest route.

They have already turned their faces with the ancient Lucheng City, so they do not need to follow a fixed voyage. It is the key to returning to the river basin at the fastest speed.

However, along the way, there will be a large number of military bases in the ancient Lucheng City. At any time, there may be warplanes flying up, and there may be ground-to-air missile attacks, so that they are highly alert throughout the journey.

The fleet that has been arranged to ***** has already prepared for sacrifice. If there is danger, they will take the initiative to stop.

Shen Lang did not propose to act alone. He could not rest assured that he did not return to the watershed city.

It is now at an altitude of tens of thousands of meters. It is really encountering a large number of missile attacks. His protection is limited. But other people can't manage that much, and the spaceship may not be able to protect it, but at least he can protect Bihaihuan.

“It's my father!”

Leaving their blockade, of course there is a signal. Bihai Huan has a call to pick up, first talked with Shen Lang, and then cut out the light screen, do not avoid talking with the waves.

“father.”

Looking at his father’s light and shadow, Bihai screamed with a serious voice.

Bihai is also very serious, and she was relieved to see her safe and sound.

“Hello, are you all right? Master Shen, this time thanks to you! We really want to thank you.”

After he asked his daughter, he saw Shen Lang beside him, and he thanked Shen Langdao directly.

Shen Lang smiled slightly: “General Bihai, don’t thank you so early, I have dug a big pit for you. When the ancient family, even the ancient Lucheng State, you have to do it with you, you will hate me.”

“No, no, we are up and down the family of the Bihai, and even the owners of our city, are grateful masters! You have protected the joy, but also protected the face of our Bihai family and the river city!”

Bihai sighs sincerely, and the other party will use such a means of not being able to use the countertops. He did not think of it.

Gu Xianliang won his daughter’s heart, he felt that it is unlikely, but if they use other means of cooking, raw rice cooked mature rice, it will be difficult to do. Do you want to get back to justice? Do you want to fight with the ancient Lucheng City?

Now it is different. Shen Lang organized in advance, and killed the ancient Yuanjiang, frustrated the ancient family, and even broadcasted it to the whole world. It is the ancient family that lost face and lost.

He emphasized the face of the family and the city state, and made Shen Lang a little uncomfortable. As a father, shouldn't it be angry? However, he will not be in contact with the blue sea anyway, and he has not said anything.

“Right, there is good news. Gu Yongxin has apologized to our family and publicly clarified that this incident is a plot of the two fathers and sons of the ancient Yuanjiang. The ancient family did not know, and almost made a big mistake. As for them Two, that is dead and awkward!”

This news, it is a bit unexpected to let Shen Lang.

“You said that Gu Yongxin... has already apologized to you, and publicly acknowledged the mistake?”

Shen Lang remembers that he was very angry just now. After all, Gu Yuanjiang was his son, and Gu Xianliang was his grandson. Even if he has a lot of children and grandchildren, it is also a matter of affecting the face of the ancient family. How can he swallow this breath?

Bihai Chengtian was a little helpless and sighed.

“Of course it is a play. This old fox... Because the master directly spread the news to all the media, so the public opinion immediately fermented, and in a short time, billions of people protested on the Internet and denounced the ancient family.”

This makes sense. Under pressure from public opinion, Gu Yongxin had to come out to apologize and push all the problems to the dead ancient father and son.

When people die, they can also play an emotional card, shaping the ancient family to be just right, the six parents do not recognize, and the Shenlang into a murderous demon.

“As for their real purpose, we will continue to pay attention and will be ready to fight. But at least for now, they should not dare to pursue the world.”

After listening to the blue sea, I showed a gratifying smile. They are in the sky, in the enemy's territory, when they are attacked by several times of military power, then everyone is likely to be finished!

She is so young, she is a good family, and she is now a well-known hero. She has not enjoyed enough life. Of course she is afraid of death.

And Shen Lang is still here. If she is dead here because of her relationship, then she can't forgive herself.

Just now she has been thinking about a problem. The future that I didn't want to say about Shen Lang's future is now rather than that, so that they can all pass this.

At the same time, she is a bit contradictory, because being able to die with Shen Lang is also a very rare opportunity for her.

Now that the temporary crisis has been lifted, she is gratified and has a hint of regret.

"Please rest assured that we have arranged for the past from the side army, they still want to do it, it is not so easy. The Bihai family will not be afraid of anyone!"

Bihai Chengtian expressed his gratitude to Shen Lang, and later expressed his gratitude to Jiang Yan and Aso. He has already reported from Feng Yuegu that they do not have any wall grass. On the site of ancient Yuanjiang, they are forced to press down. At the time, there was no anti-water.

Jiang Yan two, of course, is a modest humility, saying that they have not helped, completely relying on Shen Lang.

This is also the fact, if there is not a monk next to them, they will not say it is difficult to say There are Shen Lang, the anti-water was first killed!

Of course, they are all happy. They are also afraid. Fortunately, they did not make unwise decisions.

After the end of the conversation with the blue sea, Feng Yuegu sent a video and said that it was received by the ancient family.

Under the play of Bi Haihuan, I saw a video recorded by Gu Yongxin himself.

In the video, Gu Yongxin and the previous conversation with Shen Lang, there is a big difference. It is exactly the appearance of a kindly elder, and it is a painful rejection of the actions of ancient Yuanjiang and Guxianliang. I apologize for the panic caused by Bihaihuan and said that I will communicate with the Bihai family as soon as possible.

Finally, I said some clichés. The idea is that the ancient family is the core of the ancient Lucheng State. The Bihai family is the core of the river city. We will cooperate sincerely in the future. I hope that it will not affect the impression of Bihaihuan on the ancient Lucheng State. If there is time, She is also welcome to visit the ancient Lucheng City, and will certainly do the best of the landlord.

“Call. Now they are at the cusp of the wind, they will take the initiative to apologize.” Bihai swayed and shook his head. Although she was not involved in political aspects, she would not believe Gu Yongxin’s statement after a long dialogue.

Shen Lang smiled lightly: “This is called crisis public relations. If you don’t help the game to spread out, it will be that they have mastered the initiative. I killed Gu Yuanjiang and others and will let everyone rebuke us to support them. Now it is positive. Instead, he needs the public relations of this image.”

Seeing that she doesn’t care, Shen Lang reminded me: “In your capacity, there will be more and more opportunities to deal with major events in the future, and you need to understand this truth in order to grasp the initiative.”

Bihai nodded as if she understood it.

Chapter 1398 - Behind the battle

In order to show sincerity, the ancient family allowed the battleships of the Bihai family to fly to the boundary of the ancient Lucheng State and “greet” (protect) in advance.

With more fighter escorts, the fleet is also safer to fly back to the river basin.

Back to the home site, everyone is really relieved.

It doesn't matter if Shen Lang doesn't care, Bi Haihuan is Shen's general confidence in Shen Lang, but Jiang Yan and Aso are still local psionic masters, but they are not high-tech.

And Feng Yuegu and so on are even more nervous, ready to swear to protect the preparation of Miss.

With the protection of the army and returning to the city of the river basin, they felt the pressure loose.

Although it is allowed, in fact, it is impossible for large-scale troops to go, so that others will not be relieved. If you bombard with a mobile hand, you will attack others.

Of course, the blue sea is also very aware of this degree, avoiding the scene of the confrontation between the two armies, so only a few elite special forces traveled.

After returning to the city of the river basin, there can be a **** of a truly large-scale army.

After returning, there is a coordinated protection of the military domain. In fact, it does not need a large-scale fleet air escort, but the sea is full of this order, and the military field along the way provides a large number of fighter escorts!

In the eyes of Bi Haihuan and Jiang Yan Aso, they all think that General Bihai is a lover of love and fears of another crisis.

But when Shen Lang pondered it, I thought it was just a signal!

On the site of the Bihai family, under the hot spot of the sensational world, no matter which side of the military field is awkward, it is sure to personally dispatch troops, always staring, and let the fleet of Bihaihuan safely pass the boundary.

In other words, there is absolutely no problem with security. No one can dare to make problems in their own boundaries.

But the blue sea is in the sky, still have to do big scenes, that is, we must continue to speculate on the outside world!

Gu Yongxin calmed down for the first time. His son's grandson's life and a base were destroyed. He could suppress it. He looked sincerely to the Bihai family and apologized to the outside world.

The purpose is of course to suppress the limelight. Like their family, which has been extended for thousands of years, it is basically a dynasty royal family. The head of the rudder is the king of the imperial empire. It must have a big picture and be unbeaten for the family.

As long as the wind has passed, it will not trigger the world's denunciation of the ancient family. Revenge or not, it's not too late for ten or eight years, and there are other means to complete it.

This is a high-tech civilization. It is really a crisis, not as simple as a war. For example, the major families of various city-states, due to the political correctness of the trend, and the severance of economic, trade, science and technology exchanges with the ancient and ancient Lucheng counties, is a great blow.

The other families in the ancient Lucheng City, for their own interests, will certainly put pressure on the ancient family, and even jointly sold out the ancient home.

Gu Yongxin has a big picture. He clarified and apologized for the first time, and he was not in the position of a powerful family ruling person. He was not only regaining the initiative but also sympathizing with the attitude of an old man who had just lost his son and lost his grandson. .

All the big guys understand this set, but ordinary people need to be fooled.

Bihai Chengtian also deeply understands, but the other party has already lost a lot of money. Now he sincerely apologizes for mercy. If Bihaihuan does not have any injuries, if he does not rely on it, he will be easily pushed to the opposite side.

The truth is in the hands of a few people, occupying the vast majority of ordinary people, always easy to blindly obey and easy to manipulate.

Therefore, he now protects Bihaihuan with great fanfare, and will also put some targeted materials through the media of the city of the river basin. It is precisely the side that makes things bigger and makes the people who do not know the truth feel that Miss Bihai has been greatly frightened. Always in fear.

And now it is home, it is the spontaneous protection of the river sergeant!

This concept is easy to strengthen the sense of belonging to the community, so that everyone in the city can feel the feelings of the family, spontaneously for the blue sea.

To put it simply, the Bihai family needs to incite the people of the river basin to create an enemy hatred for the ancient Lucheng and the ancient family. It is better to be able to influence more city-states.

After returning to the boundaries of the city-states, there are no restrictions, the information is smoother, and Shen Lang also browsed the news hotspots in this area.

Similar to his analysis, it has been fermented almost, the ancient family wants to cool down, and the Bihai family is constantly adding fuel and the methods of both sides are mature.

In addition to creating momentum and fueling the waves, Bihai Chengtian has quickly donated a few large sums of money in the name of Bi Haihuan, which are used to protect the rights and interests of women and children, and to help the elderly, the sick and the disabled.

And not just the river city, including the entire international community. She was already a heroine who fought against the demon in the field, and now she is relying on the role of the Virgin.

As a result, everyone will be moved when they see that they have so much money for real money. Moreover, she felt that she was definitely treated with great unfair treatment and fright, and she was committed to the protection of women, children and the weak.

The re-developed civilization must also occupy a large number of civilians and the weak, and there are only a handful of powers at the top of the pyramid. The protection of the

elderly, the sick, the disabled, the women and children, and the protection of their rights and interests are always popular.

In addition to making the heroic image of Bihai Huan even more great Bihai family also gave Shen Lang “washing white”!

The live video that had spread out before, there was a side of **** killing, he made a wicked person, and the ancient family also arranged for people to speculate on this point.

There are pictures with truth, and videos have more truth.

But in fact, both the picture and the video can be edited! Just show you a part, or some specific angle, it is likely to be a far cry from the truth!

For example, there was a big public opinion dispute on the earth. Some people posted a map for a public welfare relief organization in the field. Three different people held the same little girl, and the hair and clothes did not change. So they came to find The actors are posing, different rescues are actually the same little actor.

The conclusion is of course that this battlefield public welfare rescue organization is a fraudulent institution that deceives the world and swindles money. Everyone is angry.

However, there was a reversal in the back. The original three photos were all intentionally intercepted. Not the three rescues. The panoramic photo shows that the same time, three people and little girls have appeared at the same time.

The truth is that the first is a rescue team member who just rescued the little girl from the broken wall and handed it to the volunteers in the back (and then continued to search). The second volunteer took it out and went to the third. The medical volunteer (and then went back to continue the relay) the third volunteer was sent to the ambulance.

Therefore, the same scene, with a small section alone, can compose a story of “different people and different places, holding a small actor posing.”

Ordinary people can’t know all the information, and they see the angry netizens who made the rumors. If they don’t see the reversal of the truth, then they will always feel that the public welfare organization is a liar.

Chapter 1399 - Return attempt

The ancient family reproduces the killing of Shen Lang, and the blue sea is the whitewashing of Shen Lang. The angle he chooses is to intercept the pictures of those who face the waves with guns!

Rendering the neck and headshot is ***** and cruel; the rendering is forced by a large number of guns, and it is shot first, that is, forced to fight back against self-defense.

On the other hand, when they came out, they were surrounded by soldiers from the base, and later they were bombarded with a lot of artillery.

Feng Yuegu has already boarded the spaceship, and these pictures have been recorded. This is announced as the guilt of the ancient family.

Ordinary people will not be aware of the specific differences. They only know that Bihaihuan was bombarded with guns by hundreds of people. If it is not a sacred wave, it has already been fragrant!

The last killing of all the soldiers by Shen Lang was a mental attack, which was not recorded.

Therefore, in the version they told, it was the ancient home base that was besieging the blue sea and cheering them. It really took a huge danger. It is already not easy for Shen Lang to fight against the attack on the entire base.

Do you still have to stun them one by one? Have this ability, but also have this time!

This is also the fact that there is a video. In contrast, the ancient family said that all the soldiers on the entire base were killed by the waves, there is no direct evidence. In the feeling of everyone, the ancient family is also a smashing black wave.

In addition to finding a reasonable “washing white” for Shen Lang’s behavior, Bihai is also intended to highlight his strength.

Before the video screen against the extraterrestrial demon, everyone is familiar with it, and now you can use it again. And the use of a protective cover against a myriad of artillery shells is even more powerful for ordinary people.

Coupled with the two princes of the first city-states, Aso and Ginger, they can't help much at the side. Such a contrast is even more powerful.

The more ordinary people, the easier it is to worship the strong.

It is a kind of heart projection, but also a kind of comfort.

In this high-tech civilized world, the Master of Spirits can be respected by everyone, and it is derived from the worship of the strongest in nature.

Now Shen Lang, it is not only the strong can describe it, even the first psionic masters in the city and the ancient city of Lulu, like the level of primary school students in front of him, this is simply a god!

In addition, before Bihaihuan has always been fascinating and admiring the Shenlang, for a time, Shenlang is also a prestige.

Everyone thinks that he is the undisputed world's strongest!

For this reason, Shen Lang clearly feels that the power of faith is constantly increasing.

The power of faith in this world was there before, but he and Bihaihuan's identity were different, and they did not show up again, and slowly faded.

This time because it is above the hot spot, and Bihaihuan has already had a very high degree of attention, so it is driven by the worldwide hot theory. After being made up by the blue sea, the power of belief gained by Shen Lang is increasing.

This is also an unexpected gain, which he did not expect before.

As for the battle between the two families, Shen Lang did not participate much. Anyway, all aspects are mature and do not require him to give pointers. These big men, whether in politics, public opinion or other aspects, have mature experience.

Of course, at their level, there is no need for a single decision. There are a large number of behind-the-scenes teams. Naturally, a lot of plans will be made, and then the best ones will be selected. They will also collect a large amount of information and adjust the direction according to the information at any time. .

The blue sea family and the ancient family, the river city and the ancient Lucheng city, will not be directly attacked by this matter, and Shen Lang will be relieved. For the time being, there has not been a sudden change in the world process, and it has not led to the burning of souls.

However, although Shen Lang has benefited, he has not been greedy for the benefits brought by the Bihai family. On the one hand, the power of faith depends on the base, and on the other hand, it depends on continuity.

At the current scale, the base of the world is very huge, but it is difficult to last long after the hot events. In general, it is suitable for the long-term development of Bihaihuan.

He can't make a ***** of "showing his face" here for a long time.

So he quickly gave a speech to Bi Haihuan.

Bi Haihuan can also guess such a result, just let Shen Lang remember what he said, have time to come to see him, but also take him to his hometown to see.

But now she can't leave. Now the Bihai family needs to use her banner. Donations can be done in her name, but some need to be shown in person.

The last step is to split the road, Bihaihuan continues to return to Tiancheng, and Shenlang takes the spaceship to the forest.

Shen Lang's coming and going here is also anxious. After returning to Earth, there is no direct return home.

After arriving at the forest, Shen Lang had a new idea and wanted to verify it.

The merged Kunlun mirror of the Three Realms allows him to shuttle directly from the mainland of the Nakajima to the Earth, but also to return from the Earth, but not directly to the city.

Last time he ran directly to the top of the waterfall and then went down the water from this array.

Now I want to verify that I can shuttle back to the Earth from the watershed city.

The earth and the mainland of the island, and the city-states of the basin can all come and go, and the time has not changed but they are in the same world, but it seems to be 80,000 years apart.

What is this paradox because of the fact that Shen Lang has no answer and no longer thinks about it. Now just verify that the Earth and the rivers can not directly cross the city.

If you can, on the one hand, you don't have to worry about the opening of the billions of ring arrays. On the other hand, it can be more convenient.

Although this is more than a billions of rings, it consumes a lot of mental energy. But if you can save time, you can recover.

The forest has been protected by the blue sea family, with military bases guarding and the spacecraft not flying close.

In general, when he was there, the Bihai family maintained a good sincerity. When you are not there, you don't know if you have another exploration.

After confirming that there was no tracking and monitoring, Shen Lang opened the Kunlun mirror of the Three Realms and tried to cross the home of Pingxi.

The result is the same as the attempt on the other side of the mountain, here can not directly cross the earth!

This situation is a bit weird.

The earth and the mainland of the island can be connected to the chaotic space through the return of the sea, so they can shuttle to each other.

I have been to the mainland of the island and the current city of the city. There seems to be a time gap. The world does not have any contact information now. Can not cross, can also understand.

But the earth and the city of the river basin can be traversed through this billions of ring roads, and it should be able to pass through the truth.

However, since it does not work, he will not try again and again, after all, it takes a lot of energy. And this must have its rules and regulations. If it doesn't work, then it can only go the way.

Chapter 1400 - Family

From the hundreds of millions of ring arrays, this time Shen Lang has taken a shortcut.

At the bottom of the mountain, he directly tried the way of harmony between man and nature, blending the environment, and instantly transferred to the top of the waterfall, without going out along the dark river, and then going downstream.

But after he came back, he hesitated and returned.

This time, he added a few layers of arrays at the entrance, hiding directly from the underground river entrance!

Because this billion-billion ring array was handed down from the Nantian family, the Nan brothers have come once by his help.

They may not come back later because the harvest is not too big. It is very dangerous to open the array alone. When they come over, they will encounter a beast. Other gains are not available, and the price is not high.

Before they were so obsessed, mainly because of the secrets circulated among generations, they all want to know what is behind them.

Really know, but it is. If you harvest this light, it is better to go to the dead forest safely. And everyone went to the mainland of Nakajima, and I will pay attention to it here.

But after all, this is the secret they know, it will spread and leak out.

And the Black Dragon King also knew that they had traveled to this area to explore, but did not know the specifics.

Now Shen Lang directly hides it, and he monopolizes this transmission.

Come back, Shen Lang naturally took out his mobile phone.

This time I have been going for a long time, and there have been many years of retreat, that is, the battery is also used up, and the parts are not bad. It is natural that it can't be opened.

However, he is not in a hurry. Considering that he is going back to Pingxi is also a long distance, and he did not fly with the sacred armies. He used the Kunlun mirror of the Three Realms to cross the Pingxi home.

After arriving home, Shen Lang was a bit surprised.

Everyone is not there!

It is understandable to go back to the Tianshan Ice Palace when it rains and falls, and everyone else should be there.

Did you just meet Dorothy and Zheng Yumeng and went back to the other side of the ocean, and the wind did not return to Ji?

Then he realized his movements and immediately sensed that his parents were still at the opposite home. They both are now used to cultivation.

Shen Lang immediately hang up the phone to charge, and then passed the parents.

When Shen Lang came back, Shen Nan and Han Fengying were a little excited. However, it is different from ordinary parents, or to them before.

Seeing my son now, besides being excited, there are obvious births and barriers, and it is difficult to get close.

This is because they began to cultivate, knowing that cultivation is not easy, it requires talent, exercises and long time, but the son can easily help them reach a high level.

And a group of more and more “children and daughters” are also very powerful, so that they can be willing to follow, can imagine how strong Shenlang is.

Therefore, I usually think about it. Once I really meet, I will be cautious.

Shen Lang slightly sighed, but I also knew that there would be such a day.

Not to mention the gap in his current gap, even if it becomes a provincial high-ranking official or a super-rich, it is enough to make family members, relatives and friends cautious, and may even be a pleasing attitude.

This is a gesture that has been used for most of my life and is difficult to change.

Shen Lang is not too close to behave, it will only make parents more cramped.

This road has come down. On the one hand, he has been more influenced by his past life, and as the realm is getting higher and higher, many things will begin to look down.

Classmates and friends are the first to leave, and parents will certainly not kneel down, but everyone has already had a huge difference, and they are slowly replaced by courtesy.

Just as many of the executives in large cities have developed their business, parents are still willing to live in their hometowns. If they want to bring them into their own circles, they will be very embarrassing and stressful.

Everyone meets and meets during the Chinese New Year, but it is better way to get along with each other.

Han Fengying immediately made a meal for Shen Lang, and his son did not return for a long time. The first thing he thought of as a mother was to give him a good meal.

Shen Lang is also happy to accept that in this realm, it is irrelevant to eat or not to eat, but this is the mother's intention.

This is also an opportunity for their father and son to chat.

Shennan had not had much contact with Shen Lang. He used to work outside, but men must be more rational and calm.

After he had been cautious for a while, he immediately talked about the business.

"The girls have lived opposite the same time, and they have been with us from time to time. But what seems to have happened recently, everyone left together, just to take care of ourselves and say that they will come back as soon as possible."

"How long?"

Shen Lang asked casually, they have something, it must be a matter of comprehension, and it should be a big event to let them leave together.

However, a few of them are all in the realm of more than half a cent, placed on the mainland of the island, and there are many opponents. But on earth, it is definitely the strongest group. Think of the Pope.

So basically don't worry about their safety, or stay with their parents.

“A few days.” Shen Nan smiled a little embarrassedly: “There have been leisure days in these years. I don’t need to remember so much. I don’t remember the specific days.”

Shen Lang also smiled, and then helped his father check the progress of the cultivation. There were some confusion problems, and they also helped them to answer it. But this time, he did not improve the realm for them.

After all, they are ordinary people, and he uses resources to help them change their qualifications and carry them up. But at this age, the state of mind is very difficult to change, and then forced to promote, but dangerous.

Besides, for his parents’ life, his plan is to make them healthy and long-lived without illness.

But they can’t live too long, because now they are very lonely, and they will be more lonely when they live with their relatives and friends.

How about it, can’t let them go too far on the road to the sky.

I ate a meal with my parents, then chatted for a while, and Shen Lang returned to the opposite house.

The phone is fully charged, but most of it is spam after booting, including >

Like Canoe, Zheng Yumeng, etc., they all know that he is not in a place where he can’t receive information, and naturally he will not leave a message for him.

Simply cleaned up the useless information, and Shen Lang was finally attracted by one.

The person who sent the message is Yue Zhennan.

Yue Zhennan also understands that the gap between the people is getting bigger and bigger. Although the Yue family is only a family in a small place in Pingxi, he also has his own pride.

When everyone is not too big, they are still willing to hold the thighs, but when they are far apart, they will consciously stop thinking. Shen Lang has given him enough help, including the Yue family, he can not rely on Shen Lang for life.

Anyway, he did not fight for the heart of the world, just in Pingxi, now the strength is enough.

So he will leave a message, Shen Lang knows that there must be something important, maybe it is not his own business, and then look at the time, just a few days ago, let him immediately open.
