

## First Strong 1421

Chapter 1421 - Abduction of the Emperor

Shen Lang said that it is not powerful, of course it is the truth, those are ordinary pet dogs.

However, this is not the same in the ears of the Emperor's behemoth. I feel that "they are also very powerful, but they are not yet powerful." I don't know if there is any deliberate low, even if it is true, the number cannot be held. How much!

Looking at the waves again, its eyes have become very complicated.

"Shen friends. You... are you really not malicious to our world?"

Shen Lang said very seriously: "Of course not. Otherwise, if you look at it, I will come alone, which means that we come with goodwill."

"But your kindness is to let you come here to develop our resources!" The Emperor's behemoth is a bit ridiculous.

"Look at what you said, there are gods and you are guarding, who dares to come. We are also worried that you will carry the army to invade us."

What Shen Lang said is still the truth.

But now, for the human world, there are already great fears of the Emperor and the Great Beast. Of course, I don't believe it, I still feel that it is to numb it.

"If this is the case, then can we close the crack in that space? This will not affect each other, we don't have to worry about you, you don't have to worry about us."

Shen Lang laughed and said nothing.

The purpose of his coming is for this!

“This is also possible, but the formation of space cracks is very complicated, and the impact is very large. It is almost impossible for an individual to want to close it.”

In his sentence, there is no doubt about the Emperor.

If the human world is really powerful enough to manipulate space cracks, they can open the invasion at any time. This time, there is no need to arrange people to test, close directly, waiting for them to forget to open the invasion.

“Then, do you have any better suggestions?” The Emperor’s behemoth has put his posture below the sinking wave unconsciously.

Shen Lang nodded. “There is a suggestion, but... This is a godsend and can be connected with the outside world. Perhaps the tens of thousands of years ago, the predecessors, have no chance, do you really feel pity?”

When this is said, the Emperor’s beast is entangled.

This is the case, for such an opportunity, in its long career, it is finally seen. And it is almost at the top here, but also hope to see a new world, can have the possibility of climbing higher peaks.

But just looking at the situation in the human world, it feels dangerous to go. And it is revered as the Emperor, and no matter how can it sell the whole world.

“If you really don’t care, I can help you, even if you can’t destroy it, you can hide it.”

“No, no... this is not appropriate.”

The Emperor’s behemoth immediately refused.

joke! Cover it up, no matter what method you use, that is your way!

The cover of the time is just for us. If you want to enter, you will be very passive!

“What do you mean?”

Shen Lang can't be forced too tightly. Now it can have such an effect, and it has exceeded expectations.

The Emperor's behemoth thought about it and then earnestly.

“I will go with you! Go with you to your world. If you confirm that you really don't threaten us, then keep it.”

This is the way it breaks down after thinking fast, and following it, it satisfies both its wishes and a personal temptation. It feels that it will not be killed in the past.

Shen Lang nodded: “There is no problem. The Emperor of the Emperor is on our side and can definitely feel our sincerity. Maybe I don't want to come back. There are so many lords who look after it, and they must develop very well.”

This words fell in the ears of the Emperor's behemoth, and it was inevitable that he began to be suspicious again.

What does it mean?

After it left, other beast gods suffered mainly from the human world.

It is both the strongest and spiritual leader in the world. Only the Emperor of this can win all the different race behemoths, or else other beasts may not be convinced of each other.

If you really don't have the leader of it, the super powerful human world will attack, and it will be a mess of sand.

This made it entangled again. If you don't go there, it will not be reconciled and not at ease.

But if it is gone, the whole world is not at ease.

“Not as good as... I left you here as a guest, then I used to look at your world?” The Emperor’s behemoth tempted to pass this idea to Shen Lang.

“No problem, I like it very much.”

“...”

Originally as the Emperor, it is said to be unique in this world. Many are world-class events that will blend and make decisions directly.

But today, now, facing this little human, it makes it very tangled and becomes indecisive.

It doesn’t like this feeling very much, but the human being in front of it can’t let it see through, especially the human world behind it, making it too shocking.

If you really leave it here, unless you are directly imprisoned, otherwise you will feel that other beasts and lords will not be his opponents. If you are not good, you will be divided.

If you are imprisoned, it will mean tearing your face. How do you know if he has any means to inform the human world?

If you don’t catch it if you have already passed it, you will be embarrassed.

“Still forget it, sink friends, please come back, we are not convenient to entertain you here. I don’t want to go to your world anymore!”

Soon, the Emperor and the Great Beast made a helpless decision.

Compared to personal curiosity and future direction, it must still focus on the world.

This is the result that Shen Lang wants!

Even if you can’t close the crack in this space, you can scare them. This will be a real restricted area. You won’t be able to take a behemoth visit in the future.

Just like no return to hell, everyone will have a shadow. Of course, after a few hundred years, I can't say but the problem can be solved now.

However, seeing the entanglement of the Emperor's behemoth, Shen Lang gave a suggestion.

"The Emperor, if you are not like this, I will come to you with a private contract. You can't hurt each other, or you will directly affect yourself. I will take you to other worlds, and you will need help when I need help." Help me, after all, you are much better than me."

The Emperor's behemoth looked at Shen Lang and thought about this suggestion. Obviously, he was full of doubts.

"Reassured! I can guarantee that you will leave, and no one will attack this. Of course, you must also restrain everyone, and no one should provoke offense."

"Can you be the master?"

The Emperor's behemoth couldn't help but ask, if it can really guarantee and restrain, as it expects, it can leave and it will not be affected here, which is undoubtedly the best of both worlds.

Chapter 1422 - Chaotic space

Shen Lang nodded seriously to it.

"No! The contract you said, stipulates that you can't hurt each other, or you will affect yourself. This just constrains me!"

"Of course! Because you are much stronger than me, if you are upset, kill me directly? So I need a constraint. But as I said later, I need to rely on you for help!"

Shen Lang did not evade and looked directly at its gaze.

The Emperor's behemoth did not speak.

“Don’t worry! I can still represent my world. I promise that no one will attack this place. And you leave with me, just help me when I need it. I can take you to other worlds. ”

Shen Lang continues to be puzzled. If you can deceive this great god-level \*\*\*\*\* into a thug, it is really rampant.

“Just like you don’t dare to break into the space crack directly, the shuttle space is not so easy, I have experience. You follow me, absolutely no problem.”

He is still a little regrettable. Although the Emperor’s behemoth is derived from a pet dog, it can be done now without getting some dog food. As the master of a world, it must be attracted enough to make it heart.

“Even... I can take you into the space between the world and the world.”

“The space between the world and the world?”

This made the Emperor a little surprised, and I didn’t understand it.

Shen Lang gave him a pretentious smile.

It’s just another world. It’s very attractive to the Emperor’s behemoth, because it’s a lifetime, such a long life, just in this world, there is a chance to look at another world, it’s already very attractive. It is.

Listening to this now, human beings can still go to more than one world, and the space between the world and the world...

Under the heart, you can’t say more when you look at Shen Lang. It is estimated that you can’t say it clearly. You have to be personally aware of it.

It has the heart to let Shen Lang give it a look at the picture, but recalling the picture that Shen Lang just showed, it is already very magical.

“I promise!”

After it decided, it immediately added: “I believe your guarantee, if your guarantee does not work, it will affect my life, I will not let you go!”

Since the decision is going, it will also put the life out.

This was originally an exploration of the unknown world. More than a hundred behemoths sent out before, which one did not excuse his life?

Shen Lang nodded, and then passed a method to let it know that each other with blood to maintain a contract.

In fact, the key to such an equality contract is to have similar strengths. If the strengths are very different, the strong side can still be ignored.

But all he wants is to let the Emperor’s behemoth flicker first, and as long as it believes, it will naturally be constrained.

“What are you doing now?”

“If you want to, you can take it with you now. Anyway, I don’t have much interest in your world, just because you offended, I will return.”

The more Shen Lang feels that there is no attempt to the world, the more the Emperor is not so simple.

But now that the contract has been completed, you can only choose to believe it.

“Let’s leave!”

“You don’t need to arrange it?”

“...”

The Emperor's behemoth is also excited, just want to see another world as soon as possible.

After receiving the reminder of Shen Lang, it began to convey its meaning to the beasts of the various territories through the way of the world, and assigned people to be responsible for future major affairs decisions.

On the other side of the restricted area, it is to supervise the cloud mound and beast gods, and regard it as a restricted area, not to let people out, not to let people in.

After doing all this, it and Shen Lang, from Yokoyama, tens of thousands of miles away, returned to the restricted area by the forest lake.

There were only two of them on the scene, and no other behemoths were close.

"Please!" Shen Lang made an invitation gesture.

"You won't hurt me?"

The Emperor's behemoth is still skeptical. Perhaps the giant beasts before him were not killed by him, but by the crack in the space, or seriously injured.

Now I'm cheating on it, and I'm not trying to use space cracks to hurt it!

"I have come over, isn't it safe?"

Shen Lang is a little helpless. "Then you shrink a little, I will go in with you at the same time!"

This suggestion, the Emperor Beast is satisfied, immediately narrowed to the level of a big dog, and then entered the space crack with Shen Lang!

At the moment of entering, Shen Lang grabbed its dog's head and had to let the dog \*\*\*\* share the pressure of space impact. After entering the chaotic space, it cannot be dispersed.

When I came over, I had another trajectory and re-entered the chaotic space. Shenlang had more information.

However, for the Emperor and the Great Beast, it is a little panicked.

With such a level of strength, it is invisible, inaudible, and even the gods can not be extended, so that it is very horrified, do not know what the thick fog in front of it exists.

When I first entered the space crack, Shen Lang grabbed its dog's head and made it very uncomfortable. This is a great disrespect.

But now, there is a little peace of mind, at least you can feel the waves, and will not be embarrassed by this human.

When Shen Lang was doing this plan, he had already considered the road behind him.

When I used to see the image of the Emperor's behemoth, I used it to use the high-tech city of the river basin to smash it. If I let it go to the earth, I found that all of them are weak chicken humans. If they do, they will return to the invasion.

So it is best to bring it to a whole new world!

However, although this chaotic space extends in all directions, he is blind, and the scope of exploration is extremely small. It is impossible to determine where there are space cracks.

This fog is almost impossible to explore. Their cracks are close to the cracks in the sea. It is also because the giant beasts are huge and unconsciously move in, otherwise they have to search, and they are close at hand. not easy.

Besides, If you are obedient, you will be a good helper. It's a bit too much to throw it into a new world. And Shen Lang can't live in the other beasts of the behemoth world.

So the result is still taking it to the mainland of the island.

Nakajima mainland now knows that there are two space cracks. One is to use the magic weapon of Yuxianmen. It can sail better in this dense fog, and then go to the exit according to the previous trajectory.

But now that the spacecraft has given them to Qiao Yuxian, they have to rely on themselves to “walk” past, but it is not so simple, it is likely to be very offset, and time does not know how long.

It can only be another way.

But the other road is going through a huge minefield, which is another thing that Shen Lang doesn't want.

Because he conquered Leiyuan, he used it when dealing with the behemoths. He hasn't played much effect yet. If it wants to stay there, is it a loss?

Chapter 1423 - Leiyuan pair

But think about it again, Leiyuan is not a good thing, if you don't give it a little sweetness, how can you let it be willing to follow?

So take it to see and see the real kind, maybe not necessarily take root right away.

So, Shen Lang began to land below the dog's head of the Emperor's behemoth.

This drop is not known to the tens of thousands of meters, which lasted for a long time.

When I finally got to the ground, the Emperor's behemoth couldn't help but jump a few times.

“Where is this? This is your world?”

It was discovered before, and it was impossible to communicate through consciousness and swaying waves, and even the sound of screaming could not be issued, but now it is already ok.

Shen Lang smiled slightly: “Welcome to the space between the world and the world I said!”

The Emperor’s beast is bright.

It turns out that this is the space between the world and the world!

It looks far and wide, looking in all directions, looking over the air, but unfortunately, can see that the range is very short!

Here, there is a thick fog, and there is still a little space around, but even the great \*\*\*\* can’t break through these strange fogs.

“Here... here... what is it like?”

After trying it out, I found that there was no effect, so that it pulled my head a bit and had to rely on the calm waves.

Shen Lang raised his finger around: “This is a unique space, probably a lot of contact with the world. The space cracks in your world are here, and the same in our world.”

The gods and behemoths understand this, and their world is not directly related to the human world!

It has just experienced the magic of dense fog. It is not so easy for human beings to come here. It’s no wonder that Shen Lang said that there is no malice. It is not so easy to want to invade.

At this time, it has neglected the situation of the previous monsters. Such a mysterious and magical environment is already a space that it has not encountered before and has not imagined.

So now what it needs to do is to cherish every moment and remember and study the surrounding environment as much as possible.

It has to rely entirely on Shen Lang until now, of course, it is a bit unwilling, and in case Shen Lang has smashed it?

It is the Emperor!

It must of course have its dignity and try to master everything by yourself.

“Follow me!”

Shen Lang re-leads the road, along the track recorded before the holy armor, and then rushes forward.

It is difficult to speed up the road here. If something goes wrong, it is more likely to go around. And with a fresh visitor, the overall speed is not too fast.

However, this is also relative. Now Shen Lang is the realm of Daxian, with the big god, naturally it is much faster than the first time to come with the real people of Fuyang.

Along the way, Shen Lang is a light car, and the Emperor is very curious, want to study anything. Both the line of sight and the perceived distance are too short to allow it to explore a wider range.

When he came to the minefield, the palm of Shen Lang began to shake.

Leiyuan has already felt the same kind of breath!

This minefield also has induction, and the obvious lightning is even stronger.

When Shen Lang approached the minefield, he smiled and said hello.

“Old friend! Still me. This time I brought you a new friend!”

The Emperor’s behemoth thought it was it, and immediately wanted to get bigger.

It is also very curious now, what is there in this minefield.

The result is that the palms are thundering out!

Lei Yuan even quickly leapt from his palm, and then greeted the original minefield, and instantly thundered!

This picture, the gods and behemoths look at each other, the heart said that this human kid will what?

This means that it did not come to mind, and it seems that it is not simple.

Shen Lang can now confirm that both of these should belong to the same category of Leiyuan, but he is not sure that the two sides can coexist peacefully, see similar partners, or compete with each other and seize resources.

So now he is ready to run!

Just when the Emperor's behemoth wanted to study this minefield in the past, I felt the meaning of Shenlang.

"The range of minefields is extremely large, and the roads are not circumvented. The power is extraordinary, but we have not been too difficult in the past. It's just that I brought a similar kind of it, and it will be troublesome!"

"What should I do?" The Emperor's behemoth is a bit speechless.

It is comparable to the strength of human beings, and naturally has its own confidence. No matter whether it is a beast or a human being, it is not a problem.

But now this is a minefield that doesn't know much!

How does this make it attack?

It can't do anything about it now, and it can only rely on the waves.

Shen Lang is also a bit helpless: "Don't get close, be prepared to run. In case I have a friend of thunder and lightning, I can't beat the thunder and lightning friends here. Or if they unite to engage us, then they will only run."

"..."

The \*\*\*\*\* of the beast has already opened!

Now that you know that they might fight, and you might join together, why are you coming here?

Why are you coming here with lightning? Why don't you go in other directions?

After Shen Lang smashed it, he did not pay attention to it, but concentrated on the minefield.

The thunder and lightning here is already a special natural energy, not a cloud rain and lightning on the earth.

Now when the two sources of ray are entangled together, it is naturally more unimaginable.

Shen Lang is here to temper the power of lightning, and has more understanding of this.

Now the gods and monsters of the great gods, seeing the lightning reaction here, is inexplicable and completely without any awareness.

But for Shen Lang, it is like watching two powerful masters, he is studying and studying next to him!

Whether these two sources are exchanges or competition, he is not known. But all the way down He faintly felt the two images, the flow of the two images, with countless lightning.

These are difficult to name, so that Shen Lang retells others, it is not retelling, but for himself, there is a feeling of very charm!

Just like writing, you can use the oral guidance to write the words of the correct strokes, but you can't dictate the excellent calligraphy works.

Excellent calligraphy, Linyi is just a start, in the end, it is necessary to look at the master's work, it is best to look at the process of master writing, try to understand that the charm of the charm, can be turned into their own use.

Shen Yun's now-recognized revelation has a feeling that makes him suddenly clear. The use of this special lightning energy will greatly exceed a level.

After he was immersed in it, he even forgot the time. I don't know how long it took for the minefield to calm down.

At this time, Lei Yuan was flashing again, and returned to the palm of Shen Lang!

Chapter 1424 - Destroyed place

Leiyuan will come back again. This is what Shen Lang didn't think of.

The original state, whether it is communication or competition, always feels that this should be an unusual place, and this Leiyuan may choose to stay here.

However, it can come back, indicating that you still want to see more places. Shenlang is of course satisfied, and will not ask anything more.

Lei Yuan and its similar ditch passed, and did not communicate with Shen Lang, so calmly rested in the palm of his hand.

Shen Lang couldn't help but measure the evil. It wouldn't be that they were a yin and a yang, a male and a female. Was it just a circle of forks?

Since he has calmly solved this problem, his own gains are not small, and of course he will not stop.

He immediately took the Emperor's behemoth and passed the minefield.

This time it was very calm, and there was no lightning to greet them!

On the one hand, it may have just been the "communication" of the two sources, or what it has consumed, or let it feel like a person. On the other hand, when the previous waves came over, they used and absorbed the power of lightning to make it feel cheap.

The Emperor and the Great Beast also maintained their guard to survive the minefield.

At this point, it has a layer of admiration for Shen Lang, and even a little awe!

Because of the exchange between the two sources, let it realize that it will never be under it. And Shen Lang, a human who is not as good as it, can suppress the source of Lei!

This shows that he certainly has a lot of backhands that have not been displayed, perhaps only a small part of it is seen on the surface.

How deep is hidden... The human mind is terrible!

Fortunately, it has not acted rashly, or else it may have been in trouble for a long time.

After crossing the minefield, the Emperor's behemoth is more respectful to Shen Lang, and honestly follows him and no longer has anything to say.

Shen Lang did not think that the problem of Lei Yuan actually affected the Emperor's behemoth.

With the Emperor's beast, I came to another small space crack, and when I put it into it, I came out from the middle of the waterfall, and the Emperor's behemoth was an eye-opener.

The previous experience, let it have a shadow on the space shuttle, thinking that it is in the fog, I did not expect this time so relaxed.

“Experience it. Isn’t the environment worse than yours?”

After falling from the waterfall, Shen Lang tweeted.

The Emperor’s beast seriously nodded, and the aura of the island world is indeed much better than the world dominated by their beasts.

This is exactly what other worlds you want to see!

“I will show you more, you will be with me.”

“no problem.”

The Emperor’s behemoth is now completely convinced of Shen Lang, and it has indeed made it unimaginable.

Moreover, the environment here is better, and it is not necessarily true that they will be greedy for their world. If it is not arranged before the behemoths, perhaps people will not return.

For the first time, Shen Lang buried the Fuyang real person here and went to Yuxianmen. It took more than ten days.

Now the strength is far better than the original, plus with the Emperor and the behemoth, not afraid that it can not keep up, directly with the sacred armies to fly at a very fast speed.

The first stop where Shen Lang is going is still Yuxianmen.

His current strength is far better than that of Wei Qingcheng and Huoshan elders, and he will not go to smother and humiliate them. And it’s a revisit of the place!

After all, he left here last time, counted a few retreats, and felt that time has been a long time.

And this was the first stop that came here that year, and it was still a little sentimental. I was visiting friends.

Yuxianmen is already in the border of Han Dynasty. It is far away from other sects. Even if it is forbidden in Jinyu Valley, it is still far away. It is generally a place that is not very attractive.

This is also the small sect of them, which can occupy the door of a space for a long time. The people who catch other worlds from the inside are grazing, and there is no reason for others to pay attention.

But this time, Shen Lang came here with the Emperor's behemoth, but he saw a completely different Yuxianmen!

Yuxianmen also has a small town, the mountain gate is on the side of the mountain, and the city is also a disciple of Yuxianmen to maintain law and order.

Originally here, it is also a peaceful place like a paradise.

The last time Shen Lang came back with the earth, and launched a mass attack on Yuxianmen. Everyone was also targeting Yuxianmen, but did not move ordinary people in the city.

But now that I have just arrived, I have seen the entire city, and it has become a ruin!

The imperial gates that are linked together are also the wreckage.

"What is the situation?" The Emperor's behemoth did not understand the situation, but also saw that it was a sign of war.

Shen Lang nodded, and the gods quickly enveloped the surroundings and searched for every detail.

In the ruins of the city, there are a large number of bodies, all ordinary residents. They are not self-cultivators, they don't need any kind of attacks, and just the collapse of houses can kill them.

The current signs should be that there are super strong people who have launched a large-scale indiscriminate attack on the entire small town, so that they can't escape, directly attacked, and indirectly caused by the collapse of houses.

This small town of Yuxianmen is not too big, but how can there be tens of thousands or even tens of thousands of people, and this will become a ruin, and it is also a bit moving for Shen Lang.

After all, this is the place he has seen. Although he was also the first to come to the cause of damage, but also caused death and injury, but this directly destroyed a city, or cruel.

There are no signs of survivors in the city, and time is not just happening.

Shen Lang immediately flew to the location of Yuxianmen. Between the broken walls, the place where the former head guard Qingcheng lived was faintly identifiable, and there was no trace of the place where he and the canoe had been retained.

There is no living here, but the careful investigation of Shen Lang is not found any body!

He searched for the place where the elders of Huoshan lived, and did not see them.

Who attacked Yuxianmen?

Why have all the innocent people in the city been wiped out?

Yuxianmen also almost destroyed that all the doormen?

There is no body here, is it taken away?

Shen Lang also has a lot of understanding of the world here. It seems that there is no evil force. It will do the looting of the entire sect.

Besides, compared with other big gates, Yuxianmen is not too rich. Even if you go to the core area of Jinjiu Valley to take risks, the harvest will be bigger than the end of Yuxianmen.

“There are signs of life over there!”

The Emperor and the Great Beast are also following, do not need to say, it also knows that Shen Lang is looking for a live fish that has no nets.

At this time, its more powerful strength has been revealed, pointing directly to Shen Lang in one direction.

Shen Lang looked at the past and immediately saw it.

Chapter 1425 - You betray us

The place where the Emperor's behemoth was discovered is actually a place that Shen Lang is very familiar with, that is, the first to enter the pastoral garden.

The pastoral garden is on the edge of the city, and there is a guardianship of the array. It is the place where Yuxianmen used to hold other world monks who were arrested.

They used these monks as scorpions to refine spiritual bubbles, such as grazing in captivity.

When Shen Lang was chased by Jing Rufeng and turned into a giant, and rushed here with a canoe, other earth monks have been held here for nearly a month.

Just now, Shen Lang was looking at the situation in the city, and then rushed to understand the situation of Yuxianmen, and ignored the pastoral garden.

Now there is a reminder of the Emperor's behemoth, and immediately rushed to the pasture with it.

The setting of the animal husbandry formation method is easy to enter. It was mainly a restriction on the detainees inside, and he was finally able to take them out with him.

When he entered, he was intentionally guided to rush in.

Now, with the realm of Shen Lang and the Emperor's behemoth, it is of course even more important to go in.

When they entered, the pastures that were not visible outside were presented, and there were many comprehensions scattered around the wide range.

Needless to say, these are basically disciples of Yuxianmen.

From the point of view of the difficulty of easy access, they should not be here to avoid disaster, but be held here.

When the two of them came in, the pasture immediately caused a small fluctuation, and no matter who was in the direction, they were nervously looking over.

Shen Lang's knowledge has swept away the situation and quickly locked the person he was looking for.

The imperial disciples in the pastoral garden, like the monks who had been here for a long time, were devastated and weak.

Among them, Huoshan's elders and the main guard, Qingcheng, did not see the trace.

Shen Lang locked in another acquaintance, squatting in the sky.

In Yuxianmen, in addition to Weiqingcheng and Huoshan, it is familiar with the sky and Jingrufeng. Of course it is just familiar and not friendly.

But now compared with other people, of course, it is better to deal with it.

Shen Lang directly flashed to the front of the sky.

In the eyes of others, the sudden emergence of one person and one dog is to make them nervous.

However, Shen Lang, a person who has had two big fights here, has not been so strongly impressed by the fact that he has been directly hit hard like Jing Feng.

At the moment of weakness, everyone is in a state of tension, and of course they have not recognized him.

“You are... Shen Lang?”

The sky is very resentful for Shen Lang. Although it is a bit old-fashioned because of weakness, it is quickly recognized.

“How come you can be like this? What happened? The guardian?”

Shen Lang asked a few questions, but the sky was Huo Ran grabbed the clothes of Shen Lang!

The Emperor's behemoth is now convinced by Shen Lang. If you are willing to please, you don't need to be told, and you don't need it to do it. If you directly think of it, you will fly out of the sky!

“And slow!”

Shen Lang gave it a thought of stopping, but it was too late. However, he reacted very quickly and directly solved the crisis of the sky and pulled it back.

The sky is no longer the sky of the year.

And even if he is the first peak of the sky, it is actually the late stage of the gods.

When Shen Lang came back for the second time, there was already a qualification for direct dialogue between Wei Qingcheng and Huoshan, and Changkong was no longer qualified.

Not to mention coming back now, it is even more distanced from him.

Therefore, there is no need for the Emperor's behemoth to shoot, and it is impossible for the sky to touch the waves.

"You, you, this demon! Kill us all!"

"Kill us all!"

There were a few \*\*\*\* and daring disciples who immediately yelled at the sky.

There is also one, cold and cold came directly, staring at the sinking waves, purely a threat to the eyes.

This is the Jingru style that was broken down by Shen Lang. I don't know how much it will be restored later, but it is obviously very weak now.

"It's my friend... I made you like this?"

Shen Lang didn't come back again, they would become like this and don't know why.

But the reaction to seeing the sky seems to have something to do with him. There is only one possibility, that is, other earth monks have done it.

On the same day in Tiandu City, he has been separated from other people. Will there be other people who will come back to Yuxianmen for revenge? It is also uncertain.

As for the last time, with the Pope as the head, plus Shen Lang himself, I can barely compete with Yu Xianmen. There is no Shenlang, and a group of weaker ones have been sent back. Some of them have been lost in Jinyu Valley. How can it be done like Yuxianmen?

However, Shen Lang himself has already had tremendous improvements and changes. It is not impossible for other people to have any adventures and the like.

In particular, the Pope, who was originally a semi-prestigious realm, has never been with everyone. If he does not know what secrets he has, what inheritance has been obtained here.

It's also possible to come back and kill Yu Xianmen's film. And now it is obvious to use the method of Yuxianmen to exploit their spiritual strength.

This may be experienced in the Pope. In addition to Shen Lang, only they can use it.

"You demon! The doorkeeper and the elder are not bad for you, why ruin us!"

Yu Chang continued to complain: "You have stolen our secrets, you have benefited, why should you sell us!"

"Bell selling? What am I selling you?"

Shen Lang is a bit puzzling.

If it is the monks from the earth, then everyone knows it together. At most, he regards him as a group of hates. How can he sell him?

Because of the accusation of the sky, plus whether it was the Emperor or the Shenlang, it did not hurt the sky, let other people be more courageous, and began to complain about me.

"If it wasn't for your betrayal, how would you know our secrets when you were separated by 100,000 miles?"

"And with the help of Bao Puzong, it is your people! Do you dare to say that you have nothing to do with you?"

"You devils kill so many innocent people, hold us all as animals, oppress our spiritual strength, you will be retribution!"

“You must not die!”

In the ears of Shen Lang, listening to the comments of all parties, I began to have a little understanding.

Bao Puzong?

If you don't have a child on the day, don't you want to know the information about the door to Earth?

At that time, he passed the message to Qiao Yuxian, let Qiao Yuxian, Nanliuchuan them, with Liu Shuchang and other acquaintances, and other earth monks left.

Whether it is together, scattered, or agreed to return to the time, you should avoid Bao Puzong.

But even if I avoided it, I decided to rely on Bao Puzong's Ge Luting, I don't know the specific “route”, there is no spacecraft magic weapon, at least I know that all this is from Shen Yumen.

It's no surprise that Bao Puzong went directly to Yuxianmen.

Chapter 1426 - Begging

What is the patriarchal flow of Bao Puzong is the semi-fair realm, and the Weiyangzi who came later is already a peak and a half.

There are huge gaps between the peaks and the half fairs. At that time, Shen Lang had already killed more than half of the celestial beings, and encountered the two peaks and half cents of Weiyangzi and Zhouyi, and only escaped.

Later, he retired and practiced “two years”. He used the heavens and the earth to refine and refine a thousand Yuan Lingshi, and he was promoted to the peak and half of the Xian, and then he came back with a canoe and others.

The small sect of this remote area of Yuxianmen also has a low-key “bullying” of other monks who wandered into chaotic space in the world. This does not know what their ancestors have any magical power to do.

But their overall strength is not strong, the door guard Weicheng and Huoshan elders, that is, the semi-fair realm.

With such a gap, in simple terms, Bao Puzong only needs to come to a peak of Xianxian, which is to turn over Yuxianmen. If you come to two, you can easily destroy the Imperial Gate.

Last time in Tiandu, Weiyangzi had been killed. If they will arrange for people to come out again, there may be other semi-Xianfeng peaks, and it is also possible to go straight to the big fairy!

Daxian's horse is even more suspenseful.

Want to understand this, Shen Lang glanced around.

I just dared to complain about Shen Lang, and when I saw it with his eyes, I was quiet, and many of them were worried.

"It turns out that you are like this, you can tell you that it has nothing to do with me."

"On the contrary, if your news is well-informed, you should know that some time ago, in Tiandu City, I killed a banquet and a half-song of Bao Puzong and killed them."

In the case of Shen Lang, they are unbelievable. On the one hand, their news is not well-informed. On the other hand, they have seen the level of Shenlang. They feel that they are the most similar to the doorkeeper. How can they kill the peak and the half, how can they win the bantam of Baozong? !

"I don't need to explain anything to you, and I don't want to blame you. This time I came here, that is, passing the old spot."

In the case of Shen Lang, other people can hardly believe it, but Yu Changkong has already believed a few points.

Although he is a lot weaker, he just felt that he had already felt it. He didn't seem to have shot at all. He flew out, and if it wasn't for the protection and pulling back, he might be seriously injured.

Therefore, the side can be judged, and Shen Lang is sure that the strength has improved a lot.

Of course, it is too exaggerated to be able to kill the peaks and half cents, but still can only believe a few points, not to believe in all.

“There is still one thing. Do you still have a face saying that I am being avenged? You have today's ending, isn't it your retribution? Think about how you are against us, scorpion! This is the pastoral garden you built, now, you It's also a bitch!”

Shen Lang sneered.

I have to say that when this sentence is said, he is still a little happy.

This is really a bad news, how many monks have been dried up in the Yuxianmen circle, and now their entire sects are indulging to the extent that they are drained by others.

The disciples of Yuxianmen were very angry at the beginning. Now, after listening to this, they cannot refute.

In their own situation, they are more clear than anyone else. Now, this encounter can really be described by retribution.

When I was in the sky, it was already a lot calmer.

“Shen Lang! Can you talk alone or two?”

Shen Lang looked at him and looked around.

“There is no problem with the dialogue. You can let me talk a few words and see the value of your words.”

When Shen Lang spoke, he directly separated the other people completely, and formed a protective cover for him and the sky.

As for the Emperor's behemoth, it does not reject it, let it listen on the side, and there is no need to hide it anyway.

The Emperor's behemoth is now showing the appearance of a pet dog. I don't think much about it in the sky, I think it is probably a pet beast of Shen Lang.

"Shen Lang, can you rescue our doorkeepers and elders?"

There is no nonsense in the sky, and it is straightforward.

Shen Lang smiled lightly and didn't need to talk.

Why?

He and Wei Qingcheng and Huo Shan are not good friends. They have to look at them and have already treated them as mature people. How can they rescue them?

"I know that this request is very presumptuous, but we have no other way. And... Bao Puzong has you, even if it is not you, it has something to do with you."

You can only continue to persuade in the sky.

"I rescue them, what are the benefits?" Shen Lang did not circle with him, directly interrupted his words.

I have already prepared for the sky, "I don't have any benefit for you, but if you save the doorkeeper and the elders, they are good for you!"

"Oh." Empty gloves white wolf, Shen Lang will certainly not accept.

If the door and the elders are fallen, then all the disciples of the whole sect will have no hope, and the imperial door will be cut off.

Ever since, he ignored the resentment and unhappiness of Shen Lang before, and stumbled directly.

“I beg you to help! I beg you to help save the door and the elders! Master Shen Lang! I beg you!”

When I saw it for the first time, it was the state of hostility, the same as Jingrufeng. Instead, Wei Qingcheng and Huoshan, because of the problems of vision and pattern, communicated better with Shen Lang.

Now, the sky will ask him for the sky, but Shen Lang did not think of it.

However, there is nothing so unexpected. Now everyone in Yuxianmen is like the one who was the first one. Like the earth monks who are here, if they can't save, they will be tortured to death.

At this level, it's not a big deal.

Chapter 1427 - Doubt

With Shen Lang's friendship with Yu Xianmen, especially in front of this long sky, he is ruined and will not be scornful.

However, this incident involves Bao Puzong, and the purpose of Bao Puzong has long been clear, that is, they did not give up the invasion of the “ancestral land” of the Earth!

In particular, there is also a Gelu Pavilion, and Shen Lang did not kill them. Ge Luting is a globe monk who knows a lot of information.

For example, he exposed the information of Yuxianmen and let Bao Puzong directly kill him here.

If they really rushed back to the earth, Ge Luting will reveal other information about Shen Lang, and that Bao Puzong will be avenged by the Weiyang, and the vengeance of the drugstore will naturally kill the relatives and friends of Shen Lang!

Look at the encounters in Yuxianmen. Their style is very ruthless.

Thousands of ordinary people in the city pool who have no value can be slaughtered in one fell swoop!

The disciples of Yuxianmen are draining the surplus value and exploiting it to death!

According to this style of thinking, once they are on the road to the earth, there is a big fairy, and it is not a problem to conquer the unified earth.

At that time, the revenge against the waves, it is likely that the Tianshan swords will be destroyed, the entire Pingxi city will be destroyed, and the females such as Luo Yu and others will be imprisoned and killed!

Although this is only a guess, Shen Lang can't make this possibility happen.

To do this, he must understand more about the situation and stop Bao Puzong.

That is to save the Qingcheng and Huoshan, it is a matter of convenience, but also get the news of the renewed willingness from the sky.

“Get up. Tell me about the situation, don't miss it!”

“Yes Yes!”

I was a little excited when I was in the sky. Although he had just stepped out, Shen Lang did not agree if he did not agree. After all, there was no friendship before.

He was originally responsible for the affairs of the sect inside and outside the house, so it is also very familiar with this situation.

The attack of Bao Puzong came suddenly.

Yu Xianmen, who was in a sigh of relief, did not offend any land at all. For the arrival of Bao Puzong, Wei Qingcheng and Huoshan personally received the reception.

Moreover, there is a big fairy, with a lot of people, such as Banxian Peak, Half Fairy, etc., almost the most expensive guest to Yuxianmen for many years.

The big fairy is the eldest son of Bao Puzong's present lord. He is the detailed address of the door to the space of Wei Qingcheng directly, and the plan already in it.

Wei Qingcheng did not understand what the situation was, of course, he was quick to find an excuse to dodge.

As a result, the eldest son did not talk to him about nonsense, and raised his hand directly to destroy the entire city!

If it is half a fairy, even a peak and a half, Wei Qingcheng and Huoshan, there is still the courage to join hands. But in the face of a big fairy, they did not have the power to fight back.

As a result, Wei Qingcheng truthfully told them that although they had mastered the specific location of a space door, they also had certain rules for the situation inside, but did not know how to reach the earth world.

This is the truth. What they do is to keep the cheap work, not to go to the earth, and not to think about invading other worlds – with their strength, they can't do it.

To let him say how to reach the world of the earth, there is really no way, only a rough area.

But in the eyes of the longevity, this is the fact that Wei Qingcheng is not honest.

Ever since, the next moment, the long-lived son once again personally shot, and turned the imperial door to a heaven and earth.

In the case of the pastoral garden, Ge Luting must have said it with Bao Puzong, so the longevity son grabbed all the disciples of Yuxianmen and directly extracted their spiritual strength and made them vulnerable.

Then they were all locked into the pastoral garden, and the animal husbandry's formation method was adjusted. The same easy entry and difficulty, but only Bao Puzong can be opened.

If Wei Qingcheng can't give him the information he wants, then all the disciples of Yuxianmen will endure the crushed spirit bubble to the end of death.

In the latter case, I don't know when I was in the sky, because he was also being taken to the pasture. The chief of Huoshan and the owner of Weiqingcheng should be taken away by Bao Puzong.

From time to time, Yu Changkong said that it should have been a while, they have been tortured, and there are people from Bao Puzong to collect spiritual bubbles.

But I have never seen the doorkeeper and the elders. Now he is only asking for the rescue of Shenlang, but he does not know how to save and where to save.

After Shen Lang finished listening, it was a bit helpless. What kind of information is this?

The information provided by Changkong is basically a running account, and because of the crushing of the longevity, basically there are not many rounds to say.

"What else can be provided." Shen Lang can only ask one more question.

It's a bit embarrassing to look at the sky, and with this information, it's not enough to want people to save the door and the elders, not to mention the long time passed.

"They will definitely go to the door of space, you know exactly where it is."

Shen Lang nodded, but what is the use? If they have already gone there, and Wei Qingcheng and Huoshan personally took Bao Puzong to find the earth, they have already found it.

However, when he went to the world of giant beasts, he started from no return to Hell. At that time, it was the invasion of giant beasts, and no case of Bao Puzong was found.

When I came back with the Emperor's behemoth, I didn't seem to find anything. But it was quickly staggered, and it might not be.

In short, you still have to go back to Earth earlier, staying there waiting for the rabbit.

But in that case, I don't know how long it will take, and it will also make the earth a battlefield, causing a lot of unnecessary trouble.

It is best that Bao Puzong has not left, can block them here, and that is much better.

Seeing that Shen Lang did not speak, I thought about it for a long time, and took another breath, only slowly said.

"There is still a way..."

Shen Lang looked at him.

"Our Yuxianmen, there is a special method of ancestral ancestors, can predict and spy on distant places, even ... heavenly!"

When Shen Lang heard this, he couldn't help but swear.

Tianji... He thought of the Xiangyang sect of Tianji Zong The ancestors of Fuyang's predecessors came over hundreds of years ago, and they also sent some information about chaotic space back.

When they first came over, the road they were looking for was based on the clues of Fuyang's real people. It's just that Fuyang's real person died because of the space attack.

Combined with this information, isn't the predecessor of Tianji Zong who founded Yuxianmen?

Or when I came over that year, I joined Yuxianmen?

And they can perceive that there is someone in the chaotic space, able to search for fishing, is it because of the magical technique of the celestial machine?

Long sky thought that Shen Lang did not believe, and quickly continued to explain.

“Although that is the secret technique that can be mastered by the head, I know that there is a place that can still be borrowed. If you dare not say anything else, you should find the location where the head is located. There should be no problem, I promise!”

Chapter 1428 - rescue

If Yuxianmen is related to the Tianzong, then the real person in Fuyang is really too embarrassed, or else he may feel the signs for the first time.

But these are not important, and now it is important to be able to find their location in Weiqingcheng.

According to Yu Changkong, there is still a way to search for the position of the gatekeeper, and knowing the location of Weiqingcheng should be the location where Bao Parkong lived.

“What do you mean, I will take you out, will you take me to find?”

Hearing the question of Shen Lang, Yan Changkong was slightly awkward, but continued to say: “If ... can save all of us, it is better.”

Shen Lang looked around. “No one is guarding here. There is no one outside. Why don’t you leave yourself?”

He looked at Shen Lang with hopeful eyes, because Shen Lang used to go out here. Since it can break the door of Xianmen, it should not be a big problem.

“Now no one is guarding because they have just scraped our spiritual bubbles once and not the next time.”

Shen Lang nodded in understanding.

Didn't Yuxianmen do this before?

Only because their base is here, so some people are guarding, Bao Puzong is not convenient to arrange too many people to wait here, since it is trapped, it is time to harvest.

"In fact, you should be allowed to accept retribution."

Shen Lang sighed. Think about how many self-cultivators they have ever killed in the past, and now they should accept such retribution.

It's also awkward to look at the sky.

During their time in prison, they made a scorpion and realized the humiliation of the animals.

But everyone did not intend to avoid this problem. They would not think about the evil things that their martial art had done before. After all, every piece of snow would not be considered the culprit of the avalanche. It is a normal reaction to the outside world.

However, Shen Lang will not have the mentality of the Savior, nor will he have the mentality of the Judge.

The problem before Yuxianmen, that is a historical issue, as long as it is not involved, it will not take revenge. Besides, the last time with the earth monks, I have come to avenge once and finally reconciled.

If you want to pursue it now, it will be a downfall.

Besides, they have retribution, and they have already been punished.

So he didn't say anything more, untied the soundproof cover, and directly studied how to open this array.

Other people, such as Jing Confucian, can't hear the dialogue between Shen Lang and Chang Chang. It is not a taste to see the sky and the eagerness and the squat.

But I also understand that it matters a lot. If you don't say it is no longer a taste, you must also endure it, so as not to confuse the plan of the sky.

But now, they don't know what the decision of Shen Lang is. Just look at the expression of Shen Lang and simply can't judge anything.

Fortunately, the sky has revealed the joy of expectation, and let everyone feel relieved.

Shen Lang ignored other people, including the Emperor, but went directly to study this formation.

This is not a big problem for him. He has studied this method before and took everyone out.

Now the pasture is still in place, and there is no change, which is enough to show that the longevity does not move its foundation.

It is also a cumbersome and laborious task to re-create a formation. Since there are ready-made ones, of course, only a part of it has been adjusted.

Simply put, this array is like a password lock for a safe. The practice of Bao Puzong's eldest son is not to change a new safe, but to change the password.

Only for the people of Yuxianmen, perhaps only the door owner is qualified to master the knowledge of the "modification password", others only know to open the application.

There is no Wei Qingcheng and no Huoshan here. Others, including the sky, must have tried it. But they can't clear the password reset, they can only try the password, and they won't be able to open it.

Shen Lang is like a locksmith who will crack. Whether it is the password set by Wei Qingcheng or the password modified by the eldest son, it is the same for him.

The “this password lock” is that he has already cracked it. Now the strength is better than the original, and the natural car is more familiar.

Everyone in Yuxianmen looked at Shenlang, and they were full of expectations. I hope that others will break the door lock of their own home, but also helpless.

However, when Shen Lang was so relaxed, he cracked the array and directly shocked everyone in Yuxianmen.

This is their place, but a thief, but more familiar than they are!

“Go!”

When Shen Lang’s hand was lifted, he directly pulled the sky into the sky and grabbed him and went outside.

When others saw it, they rushed to the exit and rushed to the past. The days when they were enslaved here are already enough. As long as they can escape, they will have a chance.

He himself followed Shen Lang and went to find the door owner.

Others don’t know much about it, but since Shen Lang can put everyone down, it shouldn’t be a long-term sacrifice that one can do.

It’s been this time, and everyone hasn’t had so many thoughts, and they have to escape. And this is not an escape, there is a noble reason – for the continuation of the sect of incense!

When Shen Lang grabbed the sky, he did not threaten him, nor was he afraid that he would flicker. Now he is the owner of the sky who wants to save them.

Mainly because he is weak now, can’t keep up with the speed of Shen Lang, and has no patience to play with him slowly.

Shen Lang directly rescued everyone, and let the sky also completely let go of the past grievances, full of gratitude to Shen Lang.

He is also very interested did not say anything nonsense, direct guidance to Shen Lang to find the secret place.

That place was not in the head of the residence, but in the vicinity of the great elders Huoshan!

The place where Huoshan lived has been destroyed, but there is a huge stone in the vicinity, engraved with the word

This is not surprising. This is the place of Yuxianmen. There are many such signs here and in the city.

“Master Shen, please move this stone away!” Changkong has stood up and said seriously.

The Emperor Beast, who just wanted to express his performance, did not succeed. He only showed half of it. Now he is showing up in front of Shen Lang. Once he lifts his foot, he does not need to touch it. He directly turns the huge stone shovel open. More than ten meters away.

Look at the sky, a little cold sweat, a pet dog in the waves, so powerful!

“Master, look!”

Chapter 1429 - Crack the \*\*\*\* beads

When Shen Lang opened the boulder, his eyes had already seen the following situation.

This boulder is not simply placed there, but it is elegant, it is to cover an underground entrance.

Originally so huge, it is not easy to move, but it is placed here in the elders. Naturally, there will be no disciples to explore.

And this covered entrance is where the sky is said.

You know this in the sky, probably because he is a highly cultivated person. In the future, even if he does not inherit the door, he will become an elder-level, so he still knows the secrets of some sects.

For example, the “explosive body robbing” that is trapped in Yuxianmen, he knows more than Jingrufeng.

Shen Lang nodded, and he jumped into the sky and led the way.

Shen Lang gestured to the Emperor’s behemoth and let it stand outside.

Although the Emperor’s behemoth does not understand the situation here, there is still such wisdom. Knowing that this human being will not threaten the sinking waves, the following should not be threatened. Instead, there may be a strong person outside, it must be guarded outside.

Followed by the sky, but it is a depth of tens of meters!

Perhaps this is also the relationship, not being noticed.

“Sorry, I have not come in, not very clear about the situation here.”

I was a little embarrassed in the sky, trying to experiment in front, and soon, he lit something and made it shine.

Shen Lang carefully looked at it. Under this tens of meters, there is an abbot room, and the light comes from a pearl.

This pearl is in the middle of the room, inlaid on a support table, in addition to the faint soft light, there is nothing else.

“This is it!”

“This is a \*\*\*\*\* bead left by the founder. Through its induction, you can know a lot of secrets! For example...”

I looked at Shen Lang with a bit of awkward look: “You appear in that space because you can feel it here, so you can arrange people to fish in the past. The same is true of other worlds.”

Shen Lang is slightly a bit strange. If this is used to predict the prediction, he can still understand, can actually sense the situation of chaotic space?

“I don’t know what the principle is. I don’t know which masterpiece is the masterpiece. In fact, we have never seen it. Only the gatekeeper and the elder are qualified to understand.”

“This \*\*\*\*\* is controlled by a big elder. The elders can be integrated with the gods. You don’t need to go down here personally, you can use its power. When it comes to predicting the opportunity, the elders will know it right away.” , let us know and go.”

I don’t understand the specific principles in the sky, and he is the first time to see this god, but it is undoubtedly very revered.

If this is a spiritual god, he will not doubt at all.

“Trace it! Time has passed for a long time, hurry.”

Shen Lang is not interested in listening to so many nonsense, no matter whether it has anything to do with the founder of Tianji Zong, it does not matter.

After all, the real people in Fuyang have already died, and the leaves and bamboos have long been abolished, and they have not yet received the true biography. It may be that it is to be broken, and there is a continuation here.

As an outsider, he can’t say anything, and there is nothing to prove.

Hearing his words, he looked at the sky and looked up.

“That... I don’t know how to trace it, because I have never seen the gods, and I don’t know how to manipulate them.”

“You play me?”

Shen Lang gave him a sigh of relief.

郗 Changkong quickly shook his head. “No, no, I only know this information. After all, it is the elders and the doorkeepers. But you are different!”

“What do you mean?”

“You can unlock the animal husbandry, but you can also pass on the problem of solving the problem of blasting the singer. Naturally, it is knowledgeable, and perhaps there should be a way.”

He looked at the dark waves, and the eyes of the moment were really full of hope.

It’s hard to imagine that this person was full of hatred for Shen Lang...

Shen Lang slightly frowned: “This is the secret of your martial art. You said that only the door owner and the elders know, what can I do?”

Shen Lang did not speak, looked at the \*\*\*\*\* beads, thinking about it.

You saved them back, they must...”

He is in Yuxianmen, which is similar to the role of Tianshan Jianzong. It is the manager of the actual execution. Even if he is partial, he knows how to be human.

Shen Lang and Wei Qingcheng, they have no friendly relationship, the last time they can reconcile, but also because of the benefits.

Now I want to save him, but I can only make a profit.

What he has mastered is limited, and he can still get it. It is impossible to impress the waves. The \*\*\*\* of the sect of the sect in front of him, left here, but there is no value.

Shen Lang waved his hand and interrupted his words.

“Since I have encountered this and promised you, I will try my best. Go ahead! I will study this bead.”

After a while, I glanced again: “I won’t steal it!”

I laughed in the sky: “No, no, you are an expert.”

Of course, he is also afraid that Shen Lang will take it away, but think again, what about taking it away?

With the strength of Shen Lang now, with the weakness of all of them, they can all be destroyed, let alone this god.

Besides, if they can’t save the doorkeeper and the elders, they can’t keep anything.

When he went up in the sky, Shen Lang gave the Emperor the Great Beast an idea, to prevent the dog \*\*\*\* from killing the sky.

Then his mind was placed on the “God”.

The problem of Yuxianmen is a bit complicated Besides being partial to one another, they don’t have a big fairy realm, it is the trouble of the explosion.

In other words, the highest level of practice is flawed, lacking better exercises, but also has their own unique stunts.

These are also quite consistent with the image of the Tianji Zong.

It’s just... Shen Lang doesn’t know anything about Tianji Zong!

Even if it was measured in the direction of the day, it was all done by Fuyang himself, and he did not learn anything.

But now there is not so much to think about it, at most it is nothing, then look for it from the door of space, or go back to the Earth Pacific.

Thinking of this, Shen Lang directly handles the hand to the \*\*\*\*\* bead, and the idea is quickly integrated into it. Using the eighth heaven and man of the “Yin and Yang Bo Ruozhen”, try to merge it with it. See if there is a way.

Chapter 1430 - Macro world

According to the analysis of Shen Lang, this bead cannot be really so god. It should only serve as a medium. The key is whether they have any secrets.

But since this is a medium, there should be traces to follow.

Since Changkong said that this can query the location of Weiqingcheng, it should be related to this, similar to the Emperor of the Black Dragon King.

Therefore, Shen Lang directly integrates himself and Shenzhu to see if he can sense the location of Weiqingcheng without the secret technique.

The integration of heaven and man, for the current Shenlang, is already a light car, and before the world in Bihai, they can be integrated with the big array of Xiaoxian Island and even with Xiandao.

It's just such a bead. I thought it was just a small thing that came hand-in-hand, but I didn't expect it to be very difficult!

This bead seems to be wrapped very tightly and has the protection of a solid soup. If you don't get access, you can't integrate with it.

And if it is not the perception of Shen Lang, and it will be changed to the average person, it will be just a shining pearl.

However, for Shen Lang, after discovering its peculiarity, it has become more and more powerful.

A bead can be more difficult to overcome than the entire island?

Shen Lang relaxes his state, makes himself feel like he is wrapped in the surface of the beads, and then penetrates into it a little bit!

After a little bit of experimentation, he felt that the whole consciousness had completely changed, as if it had become very small and became a tiny particle, so it was attached to the bead.

Then, with the penetration, try hard to experience and feel the difference in the surface of the beads.

At the moment, at the angle of the particles, the beads are no longer as big as a bowl, but as huge as a planet!

And Shen Lang also began to feel a vast atmosphere!

This breath should come from the beads, perhaps because he is now microscopic enough to understand the vastness of the trace. It may also be stimulated during the infiltration process.

This vast atmosphere, do not know how, actually gave Shen Lang a familiar feeling.

But he also said that it is not clear where this familiarity comes from. According to the truth, he has never been exposed to this god, and there is no similar thing.

I don't know how long it took, Shen Lang feels that thousands of particles have been infiltrated into the surface of the beads.

This further feeling also gave him more confidence.

At this time, he suddenly realized that he had come up.

That vast familiar feeling is not from elsewhere, but it seems to be in the fog of chaotic space!

I will never think of it because the fog in the chaotic space has been greatly suppressed in all aspects, and the feeling is very weak. And now he is entering a microscopic state, which is to enlarge that feeling.

Chaotic space?

He understood something about it. This bead, no matter what it was originally, is estimated to be from chaotic space and then polished to the present.

Perhaps this is the reason why it can sense the chaotic space, but I don't know how the predecessors of Yuxianmen did it.

After roughly understanding the source, Shen Lang has a better idea.

He still recalls and simulates the state in the chaotic space. Sure enough, with such preparation, it is easier to infiltrate with this bead.

However, after all, he is still a thousand microscopic particles, which is a little bit infiltrated into this bead.

In the end, I don't know how long it takes to have a feeling of finally blending with the beads!

After the fusion of this \*\*\*\*\* bead, Shen Lang immediately had a sense of thought overlooking the heavens and the earth!

Just as he has just changed from an extremely microscopic world to an extremely macroscopic world.

The original person is like a dust, and this \*\*\*\*\* is like a giant planet.

Nowadays, people like the universe, depending on the world, are as small as mud.

In this moment of observation, it has surpassed the practice of Shen Lang for a long time, and he has greatly improved his realm of harmony between man and nature.

At this moment, as if his heart has included the entire mainland of the island, it is not only a great breakthrough in thinking and spirit, but also as a moment to absorb the nutrition of the whole world.

Shen Lang almost forgot what he was going to do. This feeling made him very good, and he was deeply attracted.

It's like trying hard to get to the top of the mountain step by step, watching the beautiful scenery, enjoying the breeze after climbing, and not thinking about other things.

Not to mention the attraction of this kind, it is irresistible, and it is the attraction of magnificent power.

But it is a pity that this process is only a moment!

He can only use the medium of this \*\*\*\*\* pearl to open the macro door of a world in a flash, which seems to be a long time, but it is actually very short.

Because it is not easy to maintain such a state.

After all, this is equal to his spiritual strength, to shake the universe of heaven and earth!

However, this is enough, and it is not a small gain for Shen Lang.

With the disappearance of that feeling, Shen Lang also resumed his will and began to try to sense the traces of Wei Qingcheng and Huoshan.

Wei Qingcheng is the master of the door. The elders of Huoshan are in charge of guarding this god. They all know the secret technique of communicating with this god.

Shen Lang believes that with their realm, it should not reach the height of his moment, but the secret of Yuxianmen allows them to use the power of the gods.

With this layer of thought, a lot of pictures soon appeared.

The images of Wei Qingcheng and Huoshan appeared, and near the door of that space, their state was very wilting, and then they were imprisoned.

There are still some people around them who should be the people who hold the Park.

It's just that the images that Shen Lang can perceive are only those that are specific. What you can say is unspeakable.

Of course, this is enough. Knowing where they are and not entering the door to space is enough.

However, it is necessary to take back the mind from the gods.

Shenlang is still a bit reluctant, because he just entered it.

But after thinking about it for a while, he recovered his mind.

Still need to save the world!

After seeing it again, the gods are still in the middle of the house. He has nothing to change, just a hand on it.

And compared to the time of the record of the holy armor, he just felt that it was a long time, but it was a moment!

After hesitating, Shen Lang took the \*\*\*\*\* beads and received it.

He rescued Xianmen and rescued Qingcheng. Of course, they are pleasing to the people. The key is not to let the longevity son take Bao Puzong into the earth world.

I also said that I will not steal their beads, but now I have discovered its extraordinary, but still moved my mind. After all, it is very helpful for him to comprehend the world.
