

## First Strong 1441

Chapter 1441 - Eve of the decisive battle

Both Qi Ming and Shen Lang said so, everyone is relieved.

The two young elites of the Great Xian class did not regard everyone as an ant, or they would have scruples about everyone's life. If you choose to go to an open space outside the city, you can naturally avoid it, so as not to accidentally hurt people and buildings.

The unsatisfactory degree of Qi Mingfei is to give everyone a chance to keep up. Ever since, the strength of the above-mentioned gods, basically directly followed by flying away.

Other weaker ones gave up, because the outside of the city is too large, and the two great immortals can't be close to each other. It may not be clear when they are far away. If there is danger, they will not be able to withdraw.

Shen Lang is of course carrying a dog and leaving directly.

Ji Qiandao, who was supposed to arrange the next battle, is also following the crowd.

It's not too fast to keep Qi Ming, but for security reasons, he has left very far.

Eventually I reached the edge of a mountain, and then spoke to the monks who followed.

"Please go to the mountains, you can see farther."

He is still more cautious. If there is any ambush, it should be in a place like a mountain. By arranging the array method and the like, he himself does not go, and he will fight in the flat and let the audience go to the mountains.

It is indifferent to Shen Lang. He has just arrived in Tiandu City today. How could there be any ambush?

Qi Ming was in the ring before, so this is the place he chose, and there will be no ambush.

Qi Ming floated in the air, and did not directly land. After other people listened to his words, they immediately rushed to the front of the mountain.

In the mountains, you can not only look farther, look better, but also give people a sense of security.

When everyone was on the road, Shen Lang was also floating in the air, and Qi Ming kept a confrontation of several tens of meters.

“Shen Daxian! We support you!”

When Ji Qian passed the road, he shouted aloud.

This was originally his personal cheering as a friend, but when others heard it, it detonated the mood.

Originally, everyone felt that it was a long-lasting loss. I hope that someone can come out to clean up this arrogant outsider. Now I heard Ji Qian's words and immediately called it up.

“Shen Daxian! We support you!”

At first, there was a bit of chaos. After a few sentences, everyone became screaming in unison. In the wilderness outside the city, it also spread far.

Qi Ming kept a calm smile and waited until everyone went to the mountain. He didn't call again, he said to Shen Lang.

“It seems that Xiongtai is very popular, and everyone supports you very much.”

“Fortunately. The first in the city.” Shen Lang is not welcome.

“But your popularity is based on what they want to beat me. Because they can’t play against me, I hope someone can come out and replace them with me.”

When Qi Ming said this, it was still very peaceful, and there was no such disdain.

“Do you know? Before every one of them had the courage to compete with me, I got more or less similar support from them. And the next one...”

The words behind him did not say directly, but smiled at the waves.

The subtext is obvious – once you lose, they won’t support you anymore!

Shen Lang doesn’t care about shrugging: “The king is defeated. Everywhere, everyone is worshipping the strong. If I win you, the natural momentum will rise. If you lose, no one supports or even is cast, it is normal. .”

Qi Ming was a little surprised.

Originally, he felt that Shen Lang was so young, he must be a genius, and he went all the way, and grew up in compliments and praises.

However, just this did not affect his emotions at all, but he himself understood very clearly.

“That’s not necessarily. I won so many people here, and I didn’t see them worshiping me.”

“That’s because you are the invader’s role, you are thinking about putting others under your feet. My appearance, for them, is a defender of dignity.”

“I appreciate you very much.”

“I also appreciate you.”

“But I won’t be merciful. You are destined to defend their dignity, and I will continue to level you all the way.”

“I will be merciful, I will catch you, and then I will ask you about your situation and how you came over.”

The two people said nothing, but there was no embarrassment, but the voice did not deliberately depress. The ability to follow the fun was at least to restore the strength of the gods, so even in the mountains, it can be heard clearly.

They said it very easily, but everyone was watching the excitement but secretly sweating.

Because everyone knows very well, this is just the tranquility before the storm. The clouds of the Great Immortals are light, because there is no cultivation, and there is no saying that “kill you”.

Once you stop talking, you will immediately start the storm.

Ji Qiandao is now with a group of people, all of whom were before the Ji family asked Shen Lang to come forward.

They have more research on both sides than purely crowded people.

Just two people seem to have a calm dialogue. When they hear it, there are some mysteries.

Although Qi Ming saw it very much, there was still a slight regret. Because he has been on the stage for many days, he has shown his strength again and again, and he is still very well controlled and has not hurt anything.

But he did not get the worship and support he had!

On the contrary, Shen Lang, a younger person, arrived in Tiandu today and immediately got everyone’s heartfelt support.

This is the identity of identity, which is the so-called home advantage.

But this does not affect his mood but later, there is a little difference.

Qi Ming said, “I will not be merciful.” This can be understood as “I will not release water, I will defeat you”, or can be understood as “I will do my best.”

And Shen Lang said that “I will be merciful”, directly “I can win you, I will let you a horse”, showing the winner’s posture in advance.

Although strictly calculated, this is only the stage of the mouth gun, but since the two people are quite equal, they are all masters of such a state, and the subtle mentality difference may have a certain impact.

Even Ji Qiandao, they all felt this, and Qi Ming’s people could think of it, and Qi Ming himself was also aware of it.

And he immediately alerted the latter sentence of Shen Lang!

Originally, Shen Lang’s essays, in his view, whether defending dignity or out of the limelight, are all young and strong in the Han Dynasty.

Now that I hear the latter sentence, the purpose of this sloshing is clear, not only to defeat his honorary reputation, but to know more about him!

This is not the same.

He had won well, but he also learned from losing. After all, as an outsider, there is no understanding of their situation at all. There is no burden of honor, and winning or losing is famous here.

However, Shen Lang had to grasp the information he asked him, and he felt a sense of crisis.

Chapter 1442 - Close combat

“Since the audience is ready, let’s start?”

Qi Ming kept polite and consulted Shen Lang's opinion.

During the conversation, Shen Lang felt the sly energy field and directly blocked everything around him.

However, he was also prepared, and the field was touched. In the twinkling of an eye, the two people's fields came with an invisible touch!

Although everyone else is watching the fun on the mountain, it is just like the moment of sudden cardiac arrest and suffocation!

Although this feeling disappeared at a glance, it also made them all have snacks and cold sweats.

Everyone understands that the two great immortals have already played secretly once.

The confrontation between Shen Lang and Qi Ming is fleeting because both sides can feel it. Everyone has the same realm and cannot control the opponent through the field.

Unless you succeed in getting started, if you don't want to, you will be distracted and control the field. If you are not careful, you may suffer.

"Okay."

When Shen Lang spoke, the two men had already completed this round of confrontation. Both sides saw a tacit understanding from the other's eyes, that is, the field class was abandoned.

Qi Ming because of the words of Shen Lang, let him have a sense of crisis, so just open the inquiry, first want to manipulate the field.

Now that he has decided not to use the field, he is not polite, and he is the first to get started.

Anyway, he is a guest here, nothing embarrassed.

Qi Ming's hand suddenly appeared a long shot. The distance between him and Shen Lang was several tens of meters. When the gun started, he immediately picked it up in front of Shen Lang!

Because the degree is too fast, it seems that in the distant mountains, even the afterimages are not, it is simply the feeling of jumping frames.

The monks on the mountain were secretly surprised. With the strength of the Great Immortal, this gun was tied and it was finished!

However, because the degree is too fast, their surprise has just begun to emerge, and the scene has already had a big change.

When Qi Ming's rifle appeared in his hand, Shen Lang was already ready, and the iron rod appeared in his hand.

Qi Ming's long gun can quickly pick him in front of him, in addition to fast, but because Shen Lang did not dodge in advance!

When the long gun approached, the iron bar that had just appeared in his hand suddenly rose up and directly hit the front of Qi Ming, and his body began to retreat!

There was a weapon in his hand, and Qi Ming also saw it, but did not expect the weapon to grow longer, so when the iron bar suddenly came to the front, he had to quickly evade to the side.

At the same time, the long gun in the hand was smashed to the side, and the iron rod was knocked open.

When the pike and the iron bar hit together, the lively audience on the mountain was shaken by the dull and harsh voice.

Because it is very fast, in the eyes of everyone, the two people are separated immediately after they are almost close. It is almost impossible for them to see the contact clearly, and the sound is transmitted to everyone's ears a little bit later than the picture.

At the moment of hearing the sound, the two of them had already smashed the left and right sides and separated them by tens of meters.

And Shen Lang just stayed below the air, the large lawn has been cut open. This is the power of Qi Ming that looks like a random shot!

After the separation, the two people did not stop, and once again continued to wave weapons to fight past.

The long gun and the iron rod are attacking each other quickly. In just one moment, it has been dozens of impacts!

Because it is too fast, when the sound spreads to everyone's ears, it is like a continuous, harsh sound.

Two people are fighting in the air, and that piece of nature is covered with strong enthusiasm. Although everyone can't see it, they can almost feel it.

There are also some manifestations of the edge, that is, the lawns and sands on the ground are flying fast, and they are constantly going to the distance. The ground was also stimulated by a crack, as if it were a plowed gully.

The audience on the mountain, in fact, was a bit puzzled at first.

Since they are all level powers in the realm of the Great Immortals, you should be able to control the field directly to control the opponent, or to fight the opponent far away, and attack the opponent with powerful spells.

How can you wave a weapon close to melee like a low-ranking warrior? That is not very high-end.

However, I only saw it for a while, and everyone realized it.

Regardless of the field or the spell, maybe everyone is in the middle of the game. If you want to do that, you should maintain a draw, and the process will be dull and boring.

By using the power of strength and using weapons to fight melee, it is able to break this balance and be able to have many more variables. For example, if a person is weaker, he may be finished, and whoever is slower is also finished.

Slow strength and weak strength can lead to different endings.

They don't need to discuss, one eye can reach such a consensus, indicating that each other is clear, and that both sides do not want to draw a tie, they want to win!

This is now, let everyone secretly squeezed a sweat.

Through attacks such as stagnation and spells, as long as you seize the opportunity and attack to a certain extent, you can force the other party. Even if they are evenly matched, everyone can still handle it.

Before the challenge of Qi Ming, basically this is the end, the loss is only the face, the end is not very bad but the direct weapon close combat is different, with the power and degree of their realm, Basically it is difficult to close the hand, a little one does not prevent it, it may directly hit the commandment!

Everyone started to sweat for Shen Lang. After a while, they started to sweat for themselves!

Because the battle between the two of them is too fast, every second is dozens of attacks, and the attack range of both sides is gradually widening.

At the beginning, it is in the range of tens of meters, then 100 meters, a few hundred meters. According to this trend, everyone is really worried about whether it will spread to the mountains here.

Both Shen Lang and Qi Ming are both brave and brave. Both sides have entered a state of excitement from the beginning of the temptation!

When the strength is strong, it is not so easy to find a rival with the same strength.

For example, Qi Ming has reached the realm of Daxian in his thirties, and he does not have the same opponent at the same age.

Some of the great immortals in the Han Dynasty are one or two hundred years old. How can they put a few hundred rounds with a young man?

To this level of predecessors, to communicate, is also the machine of the Zen language, and explore some theoretical, open-minded things. It's too hard to fight directly.

It is the half-sex, the peak and the half-sex that have challenged him before, and they all have the same mentality.

So now I can have a young mindset, and he really let go of all the battles, so Qi Ming is very excited.

The same is true for Shen Lang.

He and Qi Ming have no enmity, and do not want to kill each other; this is a challenge, but not afraid of the other side and helpers together. So there is no need to use all kinds of means, it is purely a simple war.

Chapter 1443 - Paishan

It is not only Shen Lang and Qi Ming that are evenly matched, but also long guns and iron bars.

If the weapons of two people are high or low, don't say anything, they will be cut off, and at least they will not be able to withstand high-density impacts.

Under the infusion of the strength of the two great immortals, the two weapons directly hit hard and tens of thousands, and there was no damage except the ears of the audience.

Therefore, both of them are magic weapons of the same level.

Shen Lang did not know that Qi Ming had no other magic weapon, but he was willing to continue to use the iron bar.

If he uses the dead water whip, the rifle is directly eroded; or if the other party has something to break his iron rod, then everyone will be very boring.

From the beginning, both people have to win, but it is not simple to win this goal, but to enjoy the process.

Now that we are fighting hard, everyone is more enjoying the feeling of such an opponent.

Only the ground has been ravaged, from the beginning of tens of meters, a few hundred meters, to the extent of the spread of the latter. Because it is in the wilderness, it is only the influence of the ground. If it is in the capital city, it may be that half of the city's buildings have been destroyed!

The speed of their shots is too fast, so that everyone should be overwhelmed, and hitting the back, the speed began to slow down, and the attack method began to change a bit.

Qi Ming's long gun tip, a faint white awning, with his rapid attack, can be shot from the gunpoint!

Of course, Shen Lang will not be hit, some fly far into the air, and some fall into the ground, like the effect of shells, directly open a big hole.

This is obviously above the weapon attack, adding the use of spells.

Shen Lang also began to change a bit. After his iron rod was taken out, it was extended to the length and thickness of the long gun.

But now he let the iron bar continue to grow bigger and longer, and the handshake is better. The bigger the front, the more tens of meters long to the front, and the diameter of a few meters!

A big, small, and long iron tens of tens of meters, and suddenly changed, it is still quite strange.

And to be honest, the speed and flexibility of the operation is still somewhat influential. It just gets so big, and when you don't ask for speed, you can still have a little more shocking effect.

I don't know if there is any shocking effect on Qi Ming. The audience is shocked first...

Because they are all in the air, the speed is very fast, so the destruction of the ground is affected. Now that his iron rod is tens of meters long, it is not far from the impact, but it is directly affected. Ground up.

So it looks like it's on the mountain, like Shen Lang holding a big stick and playing the hamster, constantly knocking the ground out of a big pit.

Coupled with the pits that the guns were blown out, they quickly made a large piece of land, like a battlefield.

Qi Ming changed the method of warfare. He enjoyed the hearty and quick-drying. He wanted to see other ways and could win the waves.

But before Shen Lang did not change the tactics, if he had the use of the spell, he might have been too fat, and he was already fat.

So it can only be a little change, and at the same time he starts to dodge, pull the distance, and get more time.

Originally everyone was watching the fun on the mountain. Even if they expanded the battle circle, they did not go to the mountain side, but now they are not the same distance.

At the speed of Daxian, if you want to dodge with all your strength, it will be a matter of time. Although it is not deliberately directed at the mountains, there are several directions in the front, back, left and right, and you will always encounter this side.

The Shen Lang, which was chased by a big stick, followed closely. In just a short while, the two men chased the mountain side and made everyone nervous.

Fortunately, Qi Ming is not an escape. It is a way to find a way to open the distance. It is not to look for cover in the crowd, so even if it is on the side of the mountain, it is also the hill next to it, and it is not on the mountain where most of the audience are located. .

An acceleration of Shen Lang Meng, immediately crossed a few hundred meters, and quickly swept the past!

Although it is on another mountain, everyone feels awkward and breathless.

Seeing Qi Ming is about to be hit by this accelerated stick, his body is suddenly rising straight up a hundred meters!

Shen Lang himself accelerated, and the stick that was swung out also accelerated. It is too late to change it to the top.

At this time, he just wants to collect the stick, it is too late, the front end of the iron rod has already hit the mountain directly!

Ever since, the audience on the other mountain directly saw the entire top of the mountain, and was smashed by a wave and directly flattened!

This makes everyone breathe a sigh of relief. Usually, they will say that they are breaking rocks and arranging mountains, but it is extremely difficult to really dump a mountain.

Although I just took the top of the mountain, it is also a mountain!

With the huge momentum coming, everyone is stunned. As long as Shen Lang thinks, it is only a matter of time to shovel a mountain.

But even if they were shocked, they didn't have more time to be shocked. When the ear just heard the sound of Lushan The eyes have already seen the air in the air and attacked it!

He just pulled up a hundred meters, just avoiding the stick of Shen Lang, and then attacked it with a long gun.

His rifle is also a few meters, not as long as a smashing iron rod, but when he flew down from the air, a gun shot came from the gun, and the guns had fallen. The waves are shrouded!

All the people who watched are holding their breath and secretly praying for the dark waves.

The power of the slight white light guns, everyone saw it, just falling can open the ground to a big hole. Now a large number of successively fell, the speed has been fast, completely shrouded.

Even if Shen Lang has time to cope with these, Qi Ming can directly make up a shot.

Everyone hopes that Shen Lang can meet up and hope that he will evade.

At the speed of Shen Lang, according to the truth, it should still be able to dodge. But seeing the sinking waves I saw, but neither greeted or evaded!

Everyone is in a hurry, I don't know if Shen Lang is a big one or a confusing person.

The 100-meter spurt down, the time is just a little bit, but it is not enough for the audience to think clearly.

Then, all the eyes saw a large number of guns covering the top of the mountain where the waves were scattered, and then a large number of blasts, and the top of the mountain that had just been leveled by a stick was blown up and collapsed a lot.

However, Qi Ming did not continue to attack at this time, but turned to another direction.

When everyone was sweating for Shen Lang, as they looked at the past, they found that the waves were attacking at the gun, and they didn't know what happened. They had disappeared from the hill and went directly to another hill. On top!

Chapter 1444 - Fighting

Qi Ming is of course the fastest one to react, but he did not see how Shen Lang left!

So he changed his direction and hesitated a little when he returned to the past with a gun.

There is no dodge and counterattack just after Shen Lang. Of course, it won't be embarrassing. It's not that the mountain is running out of power, but he is also trying other ways.

At that moment, he immediately entered the state of harmony between man and nature, and merged with the surrounding mountains, so he did not need to fly and move directly from the hill to the hill.

At the moment, when Qi Ming turned to the gun, he was still waiting quietly. When the distance was close to several tens of meters, it disappeared directly!

This time, everyone saw it clearly. The waves suddenly moved from a mountaintop to another mountaintop!

Although everyone does not know how to do it, but their strength is not as good as it is, of course, will not go to think more and guess more, it is not normal for people to do it.

But Qi Ming is a bit cold and sweaty!

Because he just hesitated, let this time be a little slower, the purpose is to find out whether Shen Lang will not dodge, especially to see how he did it.

Just that time, he attacked from the top, and there were a lot of gun attacks, so if you didn't pay attention to it, you can understand it. But now this time, he actually put the attack in the second place, and the observation is placed first.

As a result, he still did not see any clues!

Shen Lang suddenly disappeared from the eyes he was staring at. There was no movement track. He did not see it, nor did he feel it.

He instinctively twisted his body in the air and quickly watched the past.

Sure enough, Shen Lang went to another mountaintop and looked at him leisurely.

Qi Ming's mentality is inevitably a little fluctuating. Although he is the active offensive side, the opponent's current dodge is more chic than he has just been, and he is more calm and determined.

More importantly, he actually can't see how the other side is doing this step!

Doesn't that mean that Shen Lang is really stronger than him?

"Shen Lang Daxian, I have to change an attack method!"

Qi Ming was not an ordinary person. He immediately stabilized his mentality and fell directly on the top of the mountain where Shen Lang left, as if he was such a natural past, and then he spoke first.

Just now he opened the distance, that is, to slow down the rhythm, change the new tactics, and join the gun mans is the change.

Now that Shen Lang has also opened the distance, he is just taking advantage of the opportunity to change the way.

Everyone looked at the two of them standing on the top of the two hills. Listening to this meaning, but also wanting to switch to a spell attack, it is a spirit.

After all, the Battle of the Great Immortals, for whom they have been willing to see it once in a lifetime.

I have already realized the dazzling quick attack. Their eyes can't keep up. If they continue, they will be a little tired of aesthetics. Change to a spell attack, you can see more meaning.

Some people have secretly retired, although everyone is on different hills, it seems that the distance is not too short, but the waves can instantly reach another hill from one hill!

What if they have a wider range of spells? This distance for everyone is also considered a dangerous wall.

However, it is still striking. Among them are the peaks and half cents, and the quick initiative, everyone together to support a protective cover!

Forming a protective cover with vital energy can provide a certain degree of protection, but if you encounter a powerful attack than yourself, it is often unbearable.

In addition to the half-centre and the peaks and half-sacred scenes, there are still some levels of virtual reality, and now they are defending the attack of two great immortals!

This requires joint efforts, otherwise no one can resist it.

There was no time to discuss it. Several peaks and half sensational forces together, immediately propped up a protective cover and covered the entire hill.

There are big leaders to take the lead, and of course others will cooperate quickly, or else they will have an accident, they are definitely the worst.

Ever since, everyone has joined in, and together they have joined together to support a large protective cover.

Although Qi Ming and Shen Lang did not intentionally attack them, but in the end is the battle of the Great Immortal, the war that has been unintentional, may be unbearable, just like a wave of a stick can shovel the hill.

Therefore, even if it is a peak and a half, there is no defense.

Now they are taking the lead, and the protective cover that everyone has jointly supported is what makes everyone feel at ease.

This is like pushing a door. A small force is a door that can't stop the power. But a hundred small forces together can hold the door and block the power.

Of course, specific to their protective cover, it is still necessary to see Shen Lang and Qi Ming do not attack them, but the defense is affected, if the direct attack, it may still fall apart!

Because when an attack comes over, many weak ones will be afraid, and they will be unable to bear it. When they are withdrawn, even if there are still a group of people staring, they may be chaotic, and they will soon collapse.

Their entire process has been very fast, because the two great immortals will not wait for them.

After Qi Ming greeted Shen Lang with a graceful manner, he began to prepare.

In addition to preparing for a spell attack, he also needs to prepare for the sneak attack on him.

However, in another mountain of the waves, the smile raised his hand and gestured to him that although he attacked this attitude made Qi Ming a little calm...

Even if you say a few words and say a few words, it means that you value it.

What is this now? A senior senior is waiting for someone else to shoot first!

However, his mood is still very stable, and he is not mad at the posture of Shen Lang, but he is concentrating on attacking!

After the monks fixed the protective cover, Qi Ming was also ready.

Although everyone is now distracted to support the protective cover, but do not need to worry about safety, but also more assured watching.

I saw that the rifle of Qi Ming had already been collected, and stood on the top of the mountain, then raised his hands with his hands, and then slowly closed, his expression has become very solemn!

Everyone's eyes are turning fast, look at Qi Ming, and look at the other waves on the hill.

At this time, something that everyone didn't think of appeared!

From a hill beside their hills, they were directly pulled out! There is also a mountain on the opposite side pulled up!

This is in the angle of Qi Ming, that is, on the left and right sides, his hands are being manipulated, and when lifted, the two hills are directly carried.

Then as he folded his hands, the two hills smashed into the waves!

Except for the two parties, the scene was not shocked, only one person... Hey, it should be said to be a dog.

The Emperor's behemoth is now a dog's gesture. Ji Qiandao knows that this is a "small pet", so take care of it. On the way and here, I will bring it to the crowd.

It also got the indication of Shen Lang, this is not an enemy, does not need it to help out.

Chapter 1445 - Sword array

Qi Ming will choose to "move the mountain", in fact, it is somewhat more powerful.

Because a wave of Shen Lang just flew a mountain directly, it was very spectacular in terms of momentum.

Although he knows that he can do it, they may not know what they are watching.

Now he is carrying two hills directly to Shen Lang, and he is going to win back in the momentum!

But on the actual attack power, the goals of the two hills are too big, and the degree is not fast. This is suitable for the large-scale destruction of a city and a martial art. It is a faint trick to use this master.

But now they are not a life-and-death fight, but a discussion. There has been a round of duel just now, there is no direct distinction between winning and losing. Now, the way of changing the fighting method will leave time for each other.

When Qi Ming moved to the mountains, he was also looking forward to seeing how Shen Lang would cope. Seeing the style of different strong people is one of the purposes of his design.

But at this time, there was a situation that made him and surprised everyone!

When the two hills were closed together, Shen Lang actually disappeared from the hill, and then appeared behind Qi Ming!

Qi Ming certainly felt it right away, which made him unable to get bigger.

Now his two hills are going down, but it's just empty. And Shen Lang is behind him, this time to attack him, he is difficult to guard against.

Shen Lang raised his finger and made a plunge on his back!

Those who Qi Ming together, when they saw Shen Lang appear behind Qi Ming, have already shouted.

“Despicable! How can you sneak like this!”

“stop!”

“It's too mean! You should be a big attack!”

They can only scream like this, because they have no way to help Qi Ming, and they can only be in the protective cover with everyone.

However, their screaming is not only to vent their anger, but to hope that they can affect the feelings of Shen Lang.

Daxian still has to be ashamed?

Qi Ming still has no way...

Normally, he felt that Shen Lang would not attack him in such a way. Even if it was not a sneak attack, it would break the tacit understanding. However, he does not dare to gamble, this may directly gamble on his own cultivation and life.

So he had to revoke the control of the two hills and quickly returned to save himself.

The result has not yet waited for him to come back, there is nothing to come and not, I already feel that Shen Lang left!

There is almost no time difference, and the Shenlang people have appeared in the middle of the two hills, and their hands are gently stroked.

The two hills are the sounds of Qi Ming's cast, and they are carried out by the power of the Great Immortal. But he has just withdrawn, lost support, and naturally fell down.

Now that the Shenlang people are in the air, they don't need a little force at all. They just make a gesture, as if they have pressed the two hills.

I felt that Shen Lang had left from behind, and Qi Ming did not need to continue to turn around, so I also saw the scene in front of me.

Other people who watched the excitement also understood that the two hills had just been pressed down by the swaying waves, but he reflected this feeling, and then cooperated with people in the air, looking far away from the distance, quite Immortal feelings.

Everyone also understands that just Shen Lang just poked a bit, if it really wants to sneak attack, Qi Ming is too late to react.

Therefore, these two hills, he is not a winning victory, but fully shows his strength.

Qi Ming certainly understands this truth more, but he is still a bit unscrupulous.

Because in his opinion, just everyone has already had a tacit understanding, although Shen Lang did not speak, but the attitude of letting him shot should be to agree to the use of the attack.

However, this is still using an incredible body, even if the body is his ability, but that is his strengths, unfair!

“boom—!”

The two hills fell to the valley below, and there was a loud noise, which also caused the surrounding to feel the vibration.

The waves of people in the air, smiled slightly.

“Now it’s your turn to pick me up!”

His iron rod has already been collected, and now he holds the willow sword.

When you heard the waves, Qi Ming gave a slight glimpse.

Just that is to pick him up?

However, it is ok to do this. If someone else has to use another way to crack it, it is not necessary to have a hard time with him.

When they come and go, they are also civilized and disciplined.

“please!”

Qi Ming also immediately maintained his demeanor and pressed down the setback.

Shen Lang directly swings the sword in the air!

“Hey! Hey!”

At the beginning, with the wave of his sword and sword, the sound of Jian Xiao appeared in the air, but soon, his degree became faster and faster, everyone began to see clearly, and the sound was connected because it was too fast. Can't tell.

Everyone watching the battle on the mountain saw Shen Lang swinging his sword in the air.

The willow sword is slim and soft, not as thick as a steel stick, and waving too fast, it is simply not clear.

But for Qi Ming, it is a pretentious alert!

Because every sword comes from him, the faster the sword is, the more attacks he will have!

The Liu Yejian that Shen Lang waved, Qi Ming is basically able to capture, even if it is fast, he can always catch traces. At the same time, he also propped up a protective cover, blocking the attack of Jianqi around him This is not because he is big, but because Shenlang does not directly attack, just the sword of the air. Let him feel that he should be able to protect it.

The sword that came in front of him was really blocked by him.

But he did not dare to relax at all!

One law is universal, although he does not understand the swordsmanship of Shen Lang, it seems that it is just a sword with no rules. But he always feels that Shen Lang is not a chaotic sword, but it is probably a set. Comprehensive sword array!

In fact, this is the case. The sword in front is just a tentative attack, or paralyzing the enemy and disrupting the rhythm. After the continuous swing of the sword, it is a woven sword net!

Liu Yejian is as soft as a willow leaf. In the hands of the female sword fairy, how can I wave, Shen Lang has not seen it. But in his hands, it has a great effect.

This is the sword he used in his previous life. Even if it is useless, it is now a light car.

The biggest magical effect of soft sword in Shen Lang's hands is that it can be deformed at any time!

For example, a sword stabbed in the past and was blocked by the enemy with weapons. The general sword can only be withdrawn and re-attacked, and the Liuye sword in the hands of Shen Lang can be bent around.

When using the sword net sword array in the air, Liu Yejian also has this effect. In addition to different swords such as swords, slashes, and stabs, there are different sizes of swords!

This sword array is also the proud work of Shen Lang. In the past, because of its strength, there were no strong opponents, and there was basically no opportunity for practical use.

Now it is his first formal release. When the whole sword formation is formed, in an instant, as if the heavens and the earth have changed color!

#### Chapter 1446 - Gun and sword

The sword that Shen Lang just started is a sword attacking Qi Ming, and when the sword formation is formed, it is not only his personal swordsmanship, but the surrounding environment, even the power of heaven and earth!

In the process of weaving, the sword array has already passed through the swords of the road, and guided the power of the surrounding mountains and rivers into the sword array. When it finally bursts out, it is like running through the sky.

In this way, let alone the hill where Qi Ming is located, all the mountains and rivers around it seem to be shrouded.

Some of the people watching the battle have already couldn't help but tremble. It feels like the whole world is covered. All the mountains will be torn at any time, and their protective cover is nothing.

The Liu Yejian, originally in the Shenlang hand, is far away, and the wave is too fast to see clearly. Now Shen Lang seems to be a giant, standing in the sky, holding a giant sword, as long as a sword comes down, all The mountains will be broken into powder! &1t;i>i>

Qi Ming could no longer count on his protective cover, and the sword in front could be blocked. Now the power of this sword can directly crush the protective cover.

However, he is also the realm of the Great Immortal. It is natural to have extraordinary achievements when he can pass through the mountains.

When the current sword array is like a sky net, the rifle reappears in his hand, and the protective cover is to fight for a little more time for him.

Qi Ming's face remained solemn, and those who were with him did not dare to speak, so as not to affect him, they were all nervous and secretly encouraged him.

Shen Lang is giving Qi Ming the time to prepare, and then Liu Yejian gently pointed, the sword array that has been densely packed in the air, immediately swept the pressure, directly to the top of Qi Ming's network!

At this time, Qi Ming is also ready, the long gun in his hand, a poke directly to the sky! &1t;i>i>

Everyone looked at it from afar, and felt the power of the smashing of the smashing of the sky. Seeing that Qi Ming also used a long gun to confront him, he felt that he had lost this time, and it was like hitting a stone with an egg.

When he had a long shot and a straight poke, it was like a gunman, and he looked very small.

But for a moment, there was a different situation.

The tip of the gun burst into a dazzling light!

The guns he used before were all white and white, and the effect was like a bomb. But now, it is very dazzling, and it continues to burst into the front, tearing away to the sword array!

When the gun was blown out, the original feeling of smallness suddenly disappeared. As if in an instant, Qi Ming has also become a giant, a giant who can rival the Shen Lang sword array.

Even if the hearts of the audience are on the side of Shen Lang, seeing this scene is also a refreshing spirit. <i>

The battle for even rivalry is what they want to see. Before that, Qi Ming was able to quickly crush the local strong, making them feel very frustrated. But if Shen Lang is also able to crush Qi Ming so easily, it is also a bit disappointing.

Now that Qi Ming has the power to resist, everyone is looking forward to seeing a blow from the sky!

There was no urgency in the guns and swords, but it was only a little bit of time. The moment the two sides met, it seemed to hit the air directly.

There was no loud noise, but there was a harsh bass that directly made everyone feel dizzy.

The dazzling guns and awns were directly blocking the sword array that was like the suppression of the sky!

Although everyone feels dizzy, they still insist on seeing clearly and cannot miss history. It's just a little hard to get hurt for a while, and it's hard to see after this confrontation. <i>

Qiming under the dazzling guns can be seen faintly, but also supported by efforts.

Everyone is also holding their breath. The current situation is that both sides have enlarged their enrollment, and they have already directly rushed to the top, and it depends on who can hold on for a long time.

At this time, everyone's eyes are on Qi Ming, because the confrontation is above his head.

However, some people have noticed the changes in the side of Shen Lang. At this moment, although Shen Lang is also infused with spirit in the sword array, it is not so solemn, and he has waved the sword in his hand.

It is like a willow sword that is light and gentle like a willow, but this is a switch starter that controls the entire sword array!

As the sword of his hand waved, the sword array, which was stunned by the stunned guns, began to shake like a solid body.

Originally, it was already barely supported by Qi Ming. Immediately, his face changed and his pressure was much greater. &1t;i>i>

In the next moment, the sword array that had been supported by him suddenly collapsed!

Originally like a huge sword net, now it is completely decoupled, turned into a million swords, directly against the Qi Ming blast!

Qi Ming companions could not help but scream, and others were also staring at the scene.

Qi Ming was also taken aback by this change. The long pistol of the poke was quickly received, and then the dazzling guns were turned into a protective cover to protect the body around him.

In an instant, countless swords hit the gun, as if a sword was hit on a shield.

The gun mans were dazzling, but after thousands of swords hit, its light became weaker and weaker.

Although everyone does not understand the specific situation, but from the surface point of view, can also guess a general, once the light dissipates, Jianqi directly hit Qiming's body. &1t;i>i>

Qi Ming also understands that Shen Lang will not kill him. These swords are not enough to make him hit hard, but like the hill he manipulated before. As long as it is encountered, it means it has been weak. .

He can't allow himself to be hit!

He immediately screamed a long shout, resounding through the clouds and spreading thousands of miles!

The guns that had been dimmed were immediately shining!

In addition to the expansion of the protective cover formed by the gun man, he also began to slowly swing the long gun in his hand. He is outside the defense, letting himself take the initiative to attack these swords so that he can better grasp the initiative.

Qi Ming's morale has risen after he has manipulated the gun. What he had just supported was the sword array that contained the strength of heaven and earth. Once he collapsed into a thousand swords, he did not worry.

At this moment, under the active counterattack, I feel that the swordsmanship has collapsed.

However, at this time, a fierce sword, from the Liu Yang sword in the hands of Shen Lang came from!

This sword is completely different from the others. It is directly from the front of the Liuye sword, but there is no pause. It is a continuous attack on the past.

It seems that a 100-meter-long sword stabbed Qi Ming's side!

And this sword gas also contains lightning electrical interest, giving people a feeling of cold.

Qi Ming immediately leaped from the top of the hill, and then the cover of the gun mans, continued to shoot the sword before the sword, but also avoided a new blow.

But in the air, he is now, the continuous sword, as if he has grown his eyes, moves directly along with his body, and it is still continuous.

Because it is a sword, so you don't need to dodge, just need to adjust the angle slightly in the air to continue to his side.

Qi Ming has a hunch that this sword is hard to block...

Chapter 1447 - Admit defeat

Qi Ming took the opportunity to make a decision, using the protective cover to fight against the residual sword, and then the gun in the hand followed the sword gas up!

At this moment, the gun mans directly above the tip of the gun, against a sword that Shen Lang just hit.

The guns that were scattered around him were able to block the attack of thousands of swords. The audience who saw this situation felt that there should be no problem.

The result is that it reminds me of the sound of the bursting sound. The swords of Shen Lang are whistling, and the thunder is caught. The guns are directly slammed, and the dazzling light is suddenly dimmed.

Undoubtedly, this sword is far more powerful than the swordsmanship of the previous swords.

However, Qi Ming is also psychologically prepared, so once again fully driven, so that the guns of the retreat once again bloomed.

It's just that Shen Lang's sword is not a hit, but a continuous attack!

Therefore, the guns that re-emerged were once again pressed back.

In the distance, it looks like two confrontations of light. Qi Ming is like a shield with a gun, and Shen Lang seems to be a long sword of several kilometers!

“The two are high-ranking people, it is better to be a tie!”

The people on the side of Qi Ming have already seen that the pressure of Qi Ming is greater than that of Shen Lang. Shen Lang’s sword is separated by a few kilometers and can be controlled in front of him, and he is only passive defense.

If you continue, Qi Ming is likely to lose.

At this time, a draw is proposed, which is undoubtedly wanting to help Qi Ming, so that he can be decent, without losing face.

Qi Ming was engrossed at this moment, and even if he heard what he wanted to say, he was distracted.

In the previous game, Shen Lang was a good one, but it was easy to break him.

Now that he has no other way to make it happen, if he wants to continue, the result is likely to be a failure.

Therefore, he also acquiesced to what the person just said. If Shen Lang can stop this, he is happy to see it.

It is a pity that others can see that Shen Lang has the upper hand, and Shen Lang himself will not know? Can you send a cheaper in vain?

Therefore, he still laughs and does not speak, and then through the willow sword, continue to spur the sword.

This time, following the sword, there is more obvious lightning!

In fact, Qi Ming’s guns and Shen Lang’s swords are essentially one type, which is formed by the release of vitality. Therefore, the dispersion is weak and the alliance is strong.

But how can he do the lightning in the sword?

This is why Qi Ming can't understand it. Is there a thunder in the body of Shen Lang?

But this time, he can't think so much, he has to do it, he must fight immediately!

All he can do is to support the guns to the maximum and the strongest defense against the strongest attacks.

However, the other side's swordsmanship, not only continuous attacks, but also increasingly strong lightning, so that guns can not stand up quickly.

The remnants of the tens of thousands of swords, and now, are constantly impacting his protective cover, so that he is going to have a fire in the backyard.

At this time, in addition to holding a sword, Shen Lang waved another hand, and immediately a lightning bolt bypassed the gun men, and directly slammed into the head of Qi Ming!

Qi Ming's head is also inside the protective cover, and this thunder is still caught.

However, Jianqi plus lightning, the effect is multiplied, directly defeated his protective cover!

At the time, there were some residual swords and he greeted him directly.

And when the waves waved, another lightning came!

Qi Ming could not help but sigh, and this continued to attack, he is already unable to parry.

If he wants to continue to lick his guns, even if he is swearing, he can't resist the lightning.

If he is distracted against lightning, then the gun can't stand it.

Between the time, Qi Ming suddenly violently retreat, let yourself retreat a few hundred meters to go out!

Losing the resistance, let the swords of Shen Lang continue to skyrocket, plus that lightning, they blasted on the top of the mountain. When it collapsed, it collapsed most of the time!

Shen Lang also timely received his hand, looking at Qi Ming.

“But! You still win me!”

When the top of the mountain collapsed, Qi Ming had already flown back from a few hundred meters, and continued to slowly come to the side of Shen Lang, and his mouth was also generous.

Hearing this sentence, watching the crowds, cheering up!

In the realm of Daxian, plus the words of the public, if you admit defeat, you will admit defeat, and you will not be attacked again.

So they can undo the protective cover that covers the entire top of the mountain, and everyone can breathe a sigh of relief.

What they support is the Shenlang that represents the locality. Qiming admits defeat, which is the victory of Shenlang, which is the victory of the Han Dynasty. Everyone has the honor. Many people cheered for the waves directly.

A few happy couples, followed by a few people in Qiming, were frustrated because of his admittance.

However, they are not too lost. After all, the situation has been critical, and some people have already could not help but ask for peace.

Although Qi Ming has now conceded, but at least people have nothing to do.

In order to avoid misunderstandings, Qi Ming waited until the words were finished, and then accelerated to fly over.

Shen Lang also took the sword and then flew with him to the hill where everyone is.

On this mountain, everyone is very excited, although the whole process is not too long. For the two big immortals, but they have only slightly studied, and after knowing each other, they stopped, and there is no life and death. But it is already rare.

It was this simple squad that had already caused a large expanse of wilderness in the vicinity, and there were a lot of potholes and caves, and several hills collapsed.

“Shen Daxian! We know that you are the best!”

“You are in your twenties, you have such an achievement, it is amazing!”

“You are really the light of our Han Dynasty! We are proud of you!”

“Shen Daxian, do you remember me?”

Everyone has set up with Shen Lang, and some have climbed.

Before the local strong people have fallen, everyone looked very embarrassed, this time can finally raise their eyes. In particular, some of the scenes were still defeated by Qi Ming, and they felt revenge for them.

The people who came together with Qi Ming also surrounded him, but he couldn't say anything comforting.

Shen Lang saw Ji Qiandao with the Emperor's behemoth, and could not help but nod to them.

The ability to Ji Qiandao is also secretly admired.

He was actually worried about the Emperor's behemoth, not worried about its safety or lost, but afraid that it did not control the runaway!

You must know that this guy is the strongest on the spot. Once you are annoyed with it, you can directly eat these half-scented, peaks and half-sweeps, and that's a big event.

Now looking at Ji Qiandao is to wait for it, it is relieved.

“Shen Daxian, I admire your strength. Although I have not promised you anything, but... if you have anything to know, I am willing to tell you!”

In addition to the generous admit defeat, Qi Ming also volunteered to fulfill his promise.

At that time, Shen Lang said that he would know their information from him.

Chapter 1448 - Another road

What Shen Lang wants to know is Qi Ming's coming world, to see how they crossed the mountain, but this secret, Qi Ming will certainly not openly say, he does not want too many people to know.

Therefore, after Qi Ming expressed his willingness to dialogue, he will let everyone return to Tiandu City.

Other people are also interested, no matter what they want to talk about, they will not let them hear. If you don't leave, you will be driven away, so you will leave without saying goodbye.

Ji Qiandao also went back, let Shen Lang go back to Jijiafang.

“That dog” certainly stayed here, after all, I thought it was a pet of Shen Lang.

Qi Ming followed the same people, he also hit them back to Tiandu City.

With the departure of everyone, the top of the scene, there are two waves of Shen Lang and Qi Ming, and there is a dog, everyone is looking at the direction of Tiandu.

This is in the barren hills, unlike the people everywhere in the city, with their realm, you can confirm whether anyone is hiding. So there is a dialogue behind, and there is no deliberate addition of sound insulation.

“Shen Daxian seems to be very interested in our world?” Qi Ming broke the silence.

“Not bad.” Shen Lang directly admitted, and looked at him.

Qi Ming also understood what he meant and smiled: “Yes, I am also very interested in your world, or else I will not come specifically.”

“Now you know a lot about us, we don’t know anything about you.”

Shen Lang bluntly said: “You should have imagined that, in the near future, there will always be some older people who can’t help but come to you.”

Qi Ming nodded: “Yes, so I am thinking about whether to leave first, low-key for a while.”

Shen Lang looked at him again and didn’t talk. If Qi Ming said, he didn’t need to ask more questions, and the other party would say.

If you don’t want to say it, then his questioning will also be a lie, only through extraordinary means.

“You are called Han Guo here. I don’t know anything about us because we can’t reach us.”

Seeing that he cut into the subject, Shen Lang also responded: “The old saying goes, the far-reaching places are the sea of infinite. Only one direction is not the sea, but it is unattainable and not blocked.”

“So old legend?”

“So old legend, I have not passed.”

“...”

Qi Ming did not expect Shen Lang to be so honest, stunned, and then smiled: “Also, how big the world is, want to go around, it also takes too much time, since there are predecessors who have passed, naturally it will not Need to go again.”

Shen Lang is undecided. In fact, he did not go around because it was not a person from the Han Kingdom. The time here was very limited.

“But...the predecessors may not have traveled all the way! Maybe someone has gone in one direction, and someone else has gone through another direction, or someone has really traveled all over the place, but there are always some omissions.”

Qi Ming smiled and laughed and hit a machine front.

Shen Lang immediately thought about it. What does this mean?

Even if you travel all over the place, there are some omissions?

Is the passage in the territory of the Han Kingdom?

He immediately brightened his eyes!

Perhaps in a corner that is unknown, there is a way to transmit over long distances, and you can directly cross the mountains. There may also be another space crack, Qiming they may come from another world!

Looking at the reaction of Shen Lang, Qi Ming smiled and nodded.

“You guessed it. You have a lot of people who guess that we have crossed the mountain, or there is no secret passage in the depths of the mountains. Maybe, but we are not coming in that way.”

Qi Ming said that he pointed to one direction: “In the place not far from the city, there is a road that can lead directly to our world. We are from there!” &1t;

Shen Lang noticed that he used the “world” instead of “the country”, but he couldn’t confirm whether it was another world, or not from the other side of Zhoushan.

“It turns out that, can I be lucky enough to be a guest in your world?” Shen Lang asked directly.

It is the transmission matrix or the door of space. As long as he personally feels it, he can confirm it.

But in either case, the other party should not be willing to accept it.

Just as he does not want the behemoths to be a guest on the earth, he even puts the Emperor’s behemoth here and does not bring it to the earth.

Just as Shen Lang thought about how to exchange, in order to let Qi Ming promise, he heard an unexpected answer.

“Of course. In fact, many of you in our country have come to our world.”

“...”

A trace of surprise in Shen Lang, let Qi Ming catch it.

“You don’t believe it? I don’t have to lie to you.”

Shen Lang thought for a moment: “After they passed, they can’t just come back?”

“After all, such a door is of great importance. Of course, people can’t just go back and forth. Right?” Qi Ming showed a smile.

Shen Lang also smiled: “So, you are telling me that if I want to go in the past, I have to be prepared to get back?”

Qi Ming asked one sentence: "If you can't come back, do you dare to go? Or... Are you still interested?"

He stared at the eyes of Shen Lang and wanted to get an answer from it.

Shen Lang smiled slightly: "When you came, are you ready to go back?"

"..." Qi Ming did not answer this question, nor did he use the way of asking questions.

"In fact, everything is the same. For example, some time ago, we went to Zhoushan, and we are ready to go back."

The words of Shen Lang are felt.

Because he came here from the earth, when he first came, he was also ready to go back. And then traveled to other worlds, there are also the same risks.

However, he did not worry too much about Qi Ming's question. Because now he has a lot of experience, the opportunity to come back is still very big Qi Ming looked at the waves for a while, then sighed.

"You and others are really different."

"Haha, don't you! You shouldn't talk to anyone about this level."

"The idea of other people is to leave me and then get my memory and know more. Of course, they all fail. You are talking to me well, and you are not afraid."

Shen Lang nodded and endured his praise, and his heart began to watch out.

Everyone is an opponent. Even if it was just a battle, it is quite a bit sympathetic, but the safety of the whole world will not change easily.

Just like now he has a good impression of the Emperor, but he will not let the Earth World take risks.

“So, if you like, I can send you in the past!”

“Really?” He said so aggressively, Shen Lang certainly didn’t believe it.

“But we have time to open it. It can’t be opened here. We can only go back when we open it on our side.”

“When will it be?” Shen Lang asked without a look.

Qi Ming roughly calculated: “There are ten...two days. After twelve days, you come here, I can take you there!”

Genius one second to remember the address of this station:. Mobile version reading URL:

Chapter 1449 - Worry on the 12th

The communication between Shen Lang and Qi Ming is as simple as that.

This is Qi Ming’s initiative and he is leading.

He intentionally released the news to Shen Lang. He also believed that Shen Lang was dubious, and perhaps also wanted to let Shen Lang come to dispel the thought through the way he was suspected.

But for Shen Lang, he made up his mind to understand something.

Because the Nakajima Big 6 Han State side, do not say that it has gone all the way, at least has a rough impression. If you can still go to the other side of Zhoushan, it is of course excellent, and there are limited opportunities.

As for Qi Ming’s intentions, he didn’t care too much, because he was so half-truthful about the Emperor’s behemoth, and he was really suspicious.

As for Qi Ming's claim that it will take twelve days, it may be a pretext for him, but before there is no better way, Shen Lang can only wait. <i></i>

According to Qi Ming, there is a transmission array method near Tiandu City – since it can be turned off, it will not be a space crack.

The transmission array method is two-way, but it can only be opened in that world, so they want to go back and wait until the agreed time.

Tiandu City is surrounded by a vast range of wilderness. If there is no exact news, it is extremely difficult to confirm the target through carpet search.

And from the current situation, when there is no transmission array on there, there is no sign here, and the search is also white.

So after the talks were over, Shen Lang took the Emperor's behemoth and returned to Tiandu City with Qi Ming.

He returned to the Ji family, and Qi Ming went back to the inn.

There is a joy in the city. Those who are lower-level, unable to follow the past to see the lively monks, are very excited to know the result. <i></i>

There are also some younger ones, and they are directly looking for celebrations of firecrackers and the like.

A variety of teahouse restaurants, this time has been lively, some have seen the scene, could not help but began to brag about it. The battle of the Great Immortals, the background of light, is enough to make them repeat again and again in the years to come.

Shen Lang, the first red man in the city of Tiandu, this time is the attitude of the return of the king, and the reputation has soared again.

The defeat of the king, originally because of the external provocateurs, has already let everyone invisibly crowded out, dare to anger and dare to speak Qi Ming, now being arranged in various ways, has become a stepping stone for Shen Lang's reputation.

However, these Shen Lang will not care, I believe that Qi Ming will not care.

Shen Lang and Ji Qiandao discussed this matter.

They are the issues negotiated between Daxian, and they involve the world outside of Zhoushan. Shenlang can still tell him that Ji Qiandao was really flattered and he was seriously helping to analyze. &1t;i>i>

Ji Qiandao has information on collecting and arranging them, but it is traceable to him, that is, it appears in Tiandu. Some of the cities and sects that are closer to Tiandu, he also inquired about it, and there is no trace of their appearance.

As for how far away from Zhoushan is from here, Shen Lang himself is very clear, and there are millions of miles.

If they really come through the mountains and the mountains because of the ruthless relationship, it will take a long time to get here. No one brings, no map, and it is impossible to come to heaven with precision.

However, no one has ever seen it. They first appeared in the vicinity of Tiandu City. This is a great possibility. It is an indirect testimony of Qi Ming.

These days, by buying the innkeeper, arranging people to pretend to be guests, etc., he is also allowed to align with Ming and others to have further details.

Although there is no more specific information, it does appear to be from the surroundings. &1t;i>i>

These were originally the information that made Ji Qiandao guilty, because there was a clear contradiction with speculation. If it really appears near Tiandu City, it is much more reasonable.

However, this result also surprised and worried him.

If there is such a road, and it is still a road controlled by others, then it is possible to arrange a group of strong people to attack Tiandu at any time!

Heaven can be prosperous for hundreds of years, not because of the power of the city, but because of the many sects, there are industries here; many sects also need such a large trading platform city.

So this is the result of a common balance between the forces of the parties. Just like the shops in the core street, everyone agrees.

Such a big environment has caused people to dare to make big mistakes. Personal grievances, such as Zhou Shaojun and Shen Lang's appointment, that is nothing, but if anyone wants to suddenly eliminate others, they will commit public anger. &1t;i>

Of course, Shen Lang is also an example, the opposite example.

In short, the strength of Tiandu is the balance of all parties, not how many big immortals and even the great gods sit here.

And the resource trading here is very abundant!

If suddenly a strong team, then the world next door walks through, the sky will inevitably have no resistance, and all the material will be collected, then the loss will be big!

However, this step has already arrived. Ji Qiandao also said that he will not speak out. He will continue to arrange people to inquire about many different details from different angles.

I hope that in the next 12 days, I can make a better road for Shen Lang, and I will not be led by Qi Ming.

Shen Lang did not polite with him even let him find out the information of the earth monks.

However, those earth monks, although following him, cheered him in front of the downfall, but they did not become celebrities themselves. Ji Qiandao was also troublesome to find. &1t;i>i>

Shen Lang did not urge anything. The information he returned today has already spread throughout the city. In addition, there is still a battle with Qi Ming, and the news will inevitably spread out quickly.

Qiao Yuxian and Nanliuchuan, as long as they have not returned to the earth, or have not been to the forbidden land such as the Golden Valley, and have not been to the remote places of Yuxianmen, they should be able to hear this information.

Knowing that Shen Lang now has the realm of Daxian, it naturally has the strength to protect them. They can do it without having to hold their tails. They can come back to look for him.

Twelve days is a good buffer time.

As for himself, anyway, these days are waiting for news. If nothing happens, he will go out with the Emperor's behemoth to "walk the dog." The Emperor's behemoth eats the food of the human world, and he is quite a bit happy. He is willing to follow the Shenlang.

Twelve days passed quickly. Ji Qiandao reported to Jijia that Shen Lang was not known, but at least he did not spread the news in Tiandu.

On the appointed day, Ji Qiandao did not take the liberty of his peers. He went to the mountains of the day of the battle, and once again came to the top of the mountain, waiting for Qi Ming.

Shen Lang also communicated with the Emperor's behemoth, and took it to see the new place.

As long as it is a transmission array, Shen Lang will be relieved a lot, and there are gods and behemoths around, not afraid to meet experts there.

The question now is... Can Qi Ming come or not? Is that true?

## Chapter 1450 - Set up?

The worry of Shen Lang is not without reason.

Because Qiming was very high-profile before, everyone knows which inn they live in. Like Ji Qiandao, there are arrangements for people to observe. Other big family members should also buy folks and insert guests to observe.

After the defeat of that day, Ji Qiandao also worried that they would not slip, so people pay more attention to it, and everything goes as usual.

Qi Ming and other people are still appearing in public. The same was true for the next few days, and it was put aside.

But I did not expect that after seven or eight days, they disappeared!

In the last few days, it did not appear again, and the information of the innkeepers said that they did not leave any luggage, but only left a fee.

From this point of view, they just know that everyone will pay attention to it. First, they will paralyze all the people in the sky, and then wait until everyone's attention is lowered, and then suddenly disappear. &1t;i>i>

But for most people in Tiandu, this is just one more topic to talk about.

But there are some big sects who are ordered to monitor them and want to know what they are doing. The sect behind the door is eager to align the singers and want to know how they came.

However, they are all the great immortals of the older generation. They have to take care of their identity and face. It is not good to come directly. After Shen Lang broke the deadlock, everyone was waiting to see if there was any gain in Shen Lang, and that other people did not start first.

At this time, the target suddenly disappeared, and naturally, the city was hurrying to find and exchange.

As a result, from the channel of Ji Qiandao, everyone did not have any clues. No one in Tiandu City saw them leave, as if they suddenly disappeared.

Qi Ming is a big fairy. A few of them are followed by half a fairy. The number is not much. If you want to leave, you have to leave quietly. It is really easy to do. <i>

Shen Lang also considered that Qi Ming's day was so good, it might be a plan to slow down. However, he guessed that everyone was staring, and he didn't need to go to the guard himself. He didn't expect the other party to leave.

But today, he still came to the last mountain.

Qi Ming is not a trustworthy person, is there really a transmission array in the vicinity, just look at today.

Shen Lang can use the record of the Holy Grail to find out the specific time of the battle here on the same day.

However, Qi Ming may not be so punctual. At that time, it was said that after 12 days, he did not elaborate on the specifics. This made him wait for a day, and he might have to wait a day to confirm that the other party could not come.

Fortunately, Shen Lang is waiting for it, and will not feel tormented. He can also talk to the gods and beasts.

The Emperor's behemoth said that he is still very satisfied with the human life. <i>

It feels that people in this city will be too happy to make so many patterns and tastes of food. However, it also delayed the cultivation, resulting in a general weakness.

Shen Lang tells it, it is still too rough, it is not a level at all, and there are some places where food is much more refined.

The Emperor and the Great Beast also saw the images, and felt that they should be the places of tall buildings. It is also very much expected in this regard.

Although in its realm, this should not be greedy for food, but it has just been touched, it is simply the feeling that the taste bud has just been opened, and it is still not tired of these.

Time passed by.

Finally, a figure appeared on the wasteland!

The figure came very quickly, just appeared in the line of sight of Shen Lang, it was clear and identifiable soon after, it was Qi Ming! <i></i>

The spirit of Shen Lang was alive, this guy did not slip away, but dared to come here, at least to be trustworthy. Can you go to their world, is it not the other side of Zhoushan?

“Shen Daxian is willing to believe in me and let Qi Ming feel very gratified!”

Qi Ming came to the mountain and greeted Shen Lang with a smile.

“Qi Daxian has already left Tiandu City, and can still keep the letter, so that Shen Lang is more gratified.”

Shen Lang also returned to him.

Qi Ming nodded to the Emperor’s behemoth and said hello to it.

He always felt that the dog of Shen Lang was not simple, but there was nothing wrong with it.

But with his great fairy, he greeted a pet beast, but he felt very natural and had no illusion of losing his identity.

“Since Shen Daxian came here, I must have considered it in depth, and confirmed that I have to go?” <i></i>

Shen Lang nodded: “Not bad.”

“Then please!”

Qi Ming did not have more nonsense, and when he finished, he flew in the direction of Shen Lang.

Shen Lang used the sacred armor to compare it. If Tiandu City is used as a reference, the mountain in the decisive battle is on the east side, and the direction of going now is on the north side, which is a bend.

Wherever I go, the city of Tiandu is farther away than this mountain, and it is separated by a long wasteland.

It is precisely because of such an environment that it is generally used to fly from the sky using magic weapons, while ordinary people, low-level comprehensions, and the use of animal cars, etc., have a fixed route.

So no one will pay attention to it, and it is difficult to do a carpet search.

Followed by Qi Ming is a very ordinary valley, ordinary to not to position, once come, may not remember the next time, A and B are similar. &1t;i>

When they landed in the air, they have already seen it clearly. In the valley, there are now several people waiting, it is the people who followed Qiming Qiming obviously passed with them. So, when I saw two people flying over, they didn't have any surprises, and there was no such dissatisfaction. They were obviously calm and calm.

“right here?”

Shen Lang still couldn't help but ask, this place is too ordinary, all aspects are ordinary.

“Actually... we are ambushing people here, waiting to lie to you, and then killing you. I am not enough, plus them, it should be almost.”

Qi Ming smiled and looked at Shen Lang.

Shen Lang snorted: “You are not such a person. Besides, it is not so easy to kill me. It is not easy for you all to die here.”

Of course, he knows that Qi Ming is a joke, unless they still have a big squat here, or else they will have more than a half of a fairy, a peak and a half, and they will not ambush a big fairy.

Daxian is not so easy to beat each other, it is even harder to want to die. There are a few more helpers, and the impact will definitely be there, but if a big fairy wants to escape, it will be difficult to stop.

Just like in the mysterious valley, several beasts, the two great immortals want to escape, can also do it.

When Qi Ming last played, he was also suppressed by Shen Lang. Naturally, this truth is not enough for a few people to win.

Besides, I really want to have such a mind, and I won't even say it directly. Isn't that the time to guard against others and escape?

However, what Shen Lang said is not a joke!

If it really hurts his life, and does not say that the Emperor and the Great Beast can swallow them all, he has a lot of means to kill them!
