

First Strong 1451

Chapter 1451 - Conspiracy

Qi Ming smiled and said: “Of course I am not such a person, Shen Daxian, you can believe me, dare to follow me, can I live up to trust?”

Then he raised his hand and invited Shen Lang to walk over with them.

Although those people are very calm on the surface, they undoubtedly regard Shen Lang as an outsider and there is no sincere enthusiasm.

No matter what relationship they have with Qi Ming, Shen Lang defeated the strongest representatives of them, just like Tiandu, they also feel lost face.

Now, in the past ten days or so, it is not easy to accept this opponent. How much enthusiasm can it be.

However, just after the conversation between Shen Lang and Qi Ming, they are also listening to the ear. Shen Lang said, “You are not that kind of person.” This is trust, and it is also a sigh of the opponents who only have one side, so that they are very satisfied.

As for the words that Shen Lang said that they can kill them, it is just ignored when they are arrogant.

“They are... forget it, you can't be friends, I won't introduce them one by one.”

Qi Ming originally wanted to introduce the people politely, but after thinking about it, the two sides did not mean to make friends with each other. They didn't have to do anything. They also wanted everyone to pretend to be a guest.

“I will briefly introduce this place. This place is an interoperable point. We come out from here and can go back from here.”

“But this point, this road is unilateral and can only be opened from our side. So we have come over successfully. The days of going back are already in advance, that is today.”

“Time is up, we have to wait here. Once you miss it, you are in trouble!”

Shen Lang nodded, this is understandable.

It is impossible to open it once in a while to see if there is any, because starting such a transmission array consumes resources on the one hand, and on the other hand, the spatial fluctuation caused by it may be perceived by the strong side here, and the result is dangerous. !

And there is no idea when the person who missed will arrive, and the final result can only wait for the next batch of people who come here.

They used to come to this side from the sea of innocence and follow the method of Yuxianmen. The same is true.

This is also why Shen Langqiu Qiao Yuxian they want to contact everyone, because he has another way to go back, others rely on the ship magic weapon to go back, people who missed, can only wait for the next time there are people coming from the earth .

“In fact, we have been coming to Han Guo. There are some simple general understandings of the situation here. The predecessors are very low-key, and of course the time is also staggered for a long time, so they are not aware.”

“This time I chose a high profile. In addition to my personal wildness, I want to challenge the strong people of the Han Dynasty. There is also a better excuse.”

“Don’t be ruined?”

“Yes, after coming over, we also learned a lot of information and learned about the ruins.”

Shen Lang nodded, and there were many people in Tiandu City, especially the migrant population. As he was, he was the first red man after dinner.

These are all public information. They don't need intelligence agencies at all. They just need a teahouse pub. If you pay more attention to the inn's dining hall, you can know about it.

And for these outsiders, they are the secrets that can be used.

Therefore, Qi Ming's high-profile appearance, stepping on this point in time, does not require them to guide, everyone directly goes to the relics of Lenovo, guessing whether they have never been relicted.

Of course, they will not answer the guesses and inquiries from the outside world, but the more they do not answer, the more people guess into this aspect, and only this possibility is the greatest.

"The last time I didn't lose in the hands of Shen Daxian, it will be my last battle. Because the high-profile is enough, if you continue, there should be some old people who will personally pick me up, haha..."

Qi Ming is still awake, not really empty-minded.

His challenge in Tiandu's collapse is tantamount to touching the bottom of the Han Dynasty!

The predecessors who used to come over there were only secretly collecting information, because the relationship between time and channel is some public information.

And Qi Ming is now directly aware of the core level of combat power!

If they want to invade the Han Dynasty on the other side, it is not enough to be ordinary information. It can only be regarded as a secret observation on this side.

Really want to invade a country – here the Kingdom of China is simply a territory of the world, must have a clear understanding of the core combat power.

The core combat power, no matter which big door, will not be open. It is not necessarily clear to each other, and it is often based on the level of the family, combined with information such as peers and peers, and comprehensive estimates for decades.

These are the foundations of the various factions. Even if they leave the intelligence personnel on this side for a long time, they cannot collect this deep level.

This time, it's smashed, but it's broken directly!

He seems to be wild and arrogant, but in fact it is savvy and decisive. This can even be regarded as a bait for himself, directly fishing for the younger generation of Han nationality fish. Through a part of the opponents, infer the strength of the younger generation, and then infer the strength of the overall high-level powerhouse.

Shen Lang laughs and doesn't speak. The other party can tell him this. On the one hand, he should think that he can see it. On the other hand, he thinks that he has followed the past and it is difficult to come back.

And he does not matter, through the words, he has basically confirmed, this is a transmission array!

With the vastness of this territory, if it is not the other side of the world, it will be millions of miles, thousands of miles away, and it is also a very powerful transmission.

However, Shen Lang has already been verified. After the integration, the Kunlun mirror of the new Three Realms, as long as it is in a world, can pass through quickly.

Even if it is the same time dimension, to another space world, it is possible to cross the past.

Qi Ming, they can be precise for a month or days, indicating that they have been verified from generation to generation, and the time is the same.

So Shen Lang is very determined.

Qi Ming is also laughing. If there are some more in-depth words, it is not convenient to say.

Then I chatted a few more times, and someone called him to be prepared, and then everyone retired.

Shen Lang looked at it. In the middle of the valley, there was a wave of space, and the scope of this fluctuation was suppressed so small that it is estimated that it will not leave this mountainous area!

This made him admire, and the world created a transmission array, it is really a big **** figure, in order to achieve such concealment.

With such a small range, unless there is a strong person nearby, or there is a big **** in the capital city, otherwise it will not be noticed.

“go!”

Qi Ming greeted him and, along with others, immediately went to the transmission line that appeared.

Shen Lang also took the Emperor and the Great Beast and passed together.

Chapter 1452 - It's so smart

From the transmission array, what you see in the dark is a spectacular building!

It looks like it is in a huge temple, and this transmission array is in the middle.

As for the dog god, because I have never seen the world, I am very excited to see a building that is much more spectacular than the sky.

“Welcome to our world.”

Qi Ming took them out and smiled and said something.

He was paying attention to the reaction of Shen Lang, but he was a bit disappointed, because Shen Lang seems to be only a little surprised, and the surprise seems to be “there are also such buildings here” rather than “there are such magnificent buildings.”

Just transferred, you will see a magnificent temple-like building surrounded by twenty or thirty stories.

And Qi Ming took them out and looked at the appearance, it was even more magnificent, because this is only part of the building, there are other buildings next to it, it is a group of buildings.

He also intentionally took it to the sun and wanted to see the surprised look of Shen Lang.

However, he was still disappointed. He did not see the surprised look of Shen Lang, and he saw the surprised look of the dog.

Shen Lang's knowledge spread a bit and made a general understanding of the surrounding situation.

Although it was only a flashback, it also had a general understanding.

It is not in the wilderness valley, but in the center of the city!

In this city, this group of buildings is also representative, and quite a bit sacred.

Although Shen Lang is still unclear about the specific situation, he can guess a rough one.

This world, or the country, is ahead of the Han Dynasty in terms of population density and exhibition. However, there is still a long way to go from the height of the science and civilization on the big 6 of the city.

From the simple point of view, in terms of architecture, it is far from the contemporary level of the earth, and it is probably comparable to the state of the early 20th century.

But now in the face of Qi Ming, Shen Lang is not convenient to detect their world too straightforward, or wait for his introduction.

Those who were with Qi Ming, after they came out, greeted him and left.

“I am the first outsider to come to your world?” Shen Lang asked casually.

Since it is a one-way transmission array here, people in the Han Dynasty should not come here. However, he is not a native of Han, so he used “outsiders.”

Qi Ming was a mysterious smile and shook his head.

“Are there people who have been here before me?”

“You can’t even count the second and tenth.”

“...”

Looking at the silent words, Qi Ming smiled and said: “I seem to tell you, in fact, some people have been here before. This is before, not long ago.”

“Not long ago?” Shen Lang chewed his words.

“It’s just so clever! When we opened the past, we were opposite the valley. There was a group of people who were there to discuss something, and then all were sent over!”

“...”

Shen Lang is speechless again.

In the valley where the ordinary can no longer be ordinary, and the vast territory outside the capital of Tiandu, it would be coincidental that there is just a group of people who are negotiating things in that valley, and have just encountered this year and do not know how many years of exploration.

Is this too fake?

Qi Ming is also a helpless spreader: "I really didn't lie to you, it's so smart!"

"..."

"At the time, we were all scared and jumped, as if we were enemies. I thought it was being seen at the entrance, thinking that they were there to study how to open from the opposite side. So I tried to move them out and control them."

In order to convince Shen Lang, Qi Ming even unintentionally revealed some of the situation.

Look at him like this, Shen Lang can only believe. The two people also had the last side of the relationship, there is no need for people to lie to him, and there is no possibility to swear for him.

"Then you... will you control me too?" Shen Lang made a joke.

Qi Ming shook his head: "No, you can't leave even if you know this place. If you want to leave, you can only get our permission. Otherwise, even if you use violence to hold on, you can't achieve the goal. Let's not Don't worry."

This is also imaginable. The array is definitely not open at all. It should be in the hands of the dignitaries, and may even be completed by more than one person, so they are sure.

However, Shen Lang is not worried about this, he does not even have to bother to crack the array.

Shen Lang nodded: "I think so too, but since I am here, I will definitely not think about leaving, or I have to take a good look at you, just like you lived in the sky for a while."

"Do you want to open a ring? I support you!" Qi Ming laughed.

Shen Lang is posing with a wave of hands: “I am free. I don’t know anything about your situation here. If you walk around the world, isn’t it that I am miserable? I am still a low-key one, let’s see it.” ”

Qi Ming keeps a polite smile, and his eyes are with a hint of approval This big fairy who is younger than him always makes him feel unseen, not like a young man, all kinds of The form is very calm.

“Then I will take you to see and see those who came to this world before you, huh, it also proves that I did not lie to you.”

“it is good.”

In the city of the river basin, it is possible to deal with everything in advance by means of a sacred armor and other means of connecting the network with a miniature bionic light brain. This is naturally impossible.

Qi Ming has just returned. This is already at least a month. For those who have been before, it should not be clear. It is only possible to take a quiet wave to visit with such a certainty!

That is, before he came back, he had already made arrangements. The people who had just left were left, and they had already dealt with them accordingly, and then contacted them through their methods.

There is no doubt that Shen Lang does not have any explanations.

Two people and one dog, walking along the street. Not many passers-by, and soon, a simple aircraft appeared in front of them.

“There are restrictions on individual actions and unified scheduling. Please!” Qi Ming explained briefly and invited them to the aircraft.

The size of this aircraft is not large, probably the size of the helicopter’s cabin, but it does not have a wing-type propeller and the like, it should be here to show the combination of repair technology.

After going up, you can fly directly, the dog ***** has not experienced it, or feel very novel.

However, for Shen Lang, let's not say that the aircrafts of the scientific and technological civilizations of the river basins are the same as those of the earth. Of course, they are very calm.

These Qiming are all in the eyes, so that he feels that he can't see through this young man. The younger generation of Han Dynasty has such a character. It is really rare!

Chapter 1453 - incredible

The simplistic aircraft is not too fast, but it does not travel long distances, just flying in the city, and walking from the air is much faster than walking on the ground.

Qiming also introduced the situation of the city along the way. Probably not a big city here, unlike the big cities where the days are in Seoul.

This is undoubtedly a desire to make a comparison, let the friends from the Han Kingdom, recognize the gap between the two sides.

Because this is not a big city, in terms of architecture, population, area, etc., it is all over the sky.

Shen Lang also has the knowledge to search the following situation, the population density is indeed ok, in addition to some of the self-cultivators, there are a large number of civilians.

But for these, he is not shocked, because it is nothing compared to the earth exploding.

The flight is in a tall building in the city, bigger than the previous building, and after entering, you can feel the protection and feel like a prison.

However, before Qi Ming also made it clear, they just opened the array, and the result was sent to a group of people, saying that it was purely coincidental, who can believe?

It's all right, and it's normal to hold them back for review.

However, from this point of view, it is a coincidence that the number of people is quite large, and the strength should not be too high, otherwise it will not be so easy to be arrested.

After confirming Qi Ming's words, Shen Lang also suspected that there were some big shackles. In fact, they had mastered their spies in Tiandu and other places, so they found them there and tried to crack them.

But in that case, it must be a group of top-ranking powerhouses. It is the elite of the various units. Even if it happens to happen, it should be prepared, and it will not be caught.

But now that I have arrived here, Shen Lang has also raised doubts, just follow Qi Ming.

Qi Ming first entertained them to sit down and rest, and then he advanced to communicate with someone.

There is no doubt that he is an identifiable one. The big sage in his thirties is placed anywhere and is a genius! If it is not the sinking waves of the great God, he may be the first day.

However, he still communicated for half an hour before returning.

Shen Lang estimates that in addition to communicating with those in the Han Dynasty, it is more important to report his situation to the relevant personnel!

After all, if you come back from abroad, you have not been approved. Even if he has this authority, he needs to report it. It may have let other people breathe first, but they also need to report it themselves.

When Qi Ming appeared again, he smiled and said something to him first.

“Shen Daxian is our guest, but there are still some procedural problems that need to be solved, otherwise there will be some trouble. But now there is no problem, now let's go to see the friends who came to China!”

They took the elevator to the ground and the cell was below the ground.

“Because we can’t figure out their identity, let them stay in one place for the time being. I also hope that we can do more with this trip. But...”

Qi Ming shrugged, saying that they did not find out more information.

“So Shen Daxian knows and knows their identity information and is helpful to everyone.”

Shen Lang smiled.

The original enthusiasm of Qi Ming is because of this, but I think about it. It is purely to prove that he is not lying. Is there really a group of people who have come together and can you prove it? In their capacity, with the friendship of their face, do you need to care?

“If I know it, I will tell you the truth.”

Shen Lang also responded with enthusiasm. In my heart, it was funny. He was the first red man this day. He was simply fired in the troubles of heaven and earth. The people he knew in Heaven and even in the whole of Han Dynasty were limited.

During the talk, the lift had reached the basement and the receptionist took them to the cell.

Because Qi Ming is the strength of Daxian, the reception staff did not have heavy handles, but with the past, they waved.

Qi Ming opened the door with Shen Lang and the dog god, and then introduced it.

“It’s a bit like a prison cell, but in fact all aspects of treatment are very good, only temporarily limiting their freedom.”

After entering, he introduced it, in addition to a large event area, there are bathrooms, toilets, etc., and people are also served.

In addition to the fence blockade, this cell has a bed for prisoners to rest, and it is indeed a humane prison.

Of course, this fence can be seen at a glance, just like an ordinary iron fence, but there must be other options to limit the number of people inside.

The Han Chinese intruders who were imprisoned inside were meditating in their respective beds. But now that someone is coming in, everyone is open to see the situation.

Shen Lang originally did not care much, that is, to understand the situation here. So I started to pay attention to the introduction of Qi Ming. Now I look at the past and I am speechless.

The dozens of people inside are also jumping up, and then looking at this side with a little excitement, it is hard to say anything.

“Shen Daxian, these Han Chinese monks, can you know? It is said that they don’t say that they come from Hemen He faction, insisting that they are from a place, but obviously they are not a martial art When Qi Ming asked, the look of Shen Lang was a bit strange. I immediately looked at it and looked at the reactions of these people on the spot.

They know!

Whether it is the reaction of Shen Lang or the reaction of the Han people, they all know that they know!

Qi Ming smiled with confidence. For whatever reason, you should be able to get some information from Shen Lang.

At this time, everyone inside, heard the words of Qi Ming, more excited.

“Shen... Master Shen... Is it really you?”

“Shen... Daxian?”

“Shen brother! You come to save us! Where have we been, you can always come to save us!”

In addition to some people trying to ask, Qiao Yuxian also asked excitedly.

There is no doubt that Qiao Yuxian and Nanliuchuan are familiar with Shen Lang, and it is hard to believe that they can see Shen Lang here.

Because they all know that it was because of a coincidence that they were sent to another place, which is different from that of Han, and this is obviously not going back.

Even if Shen Lang returned to Tiandu safely from the ruins of the past, he would not know their information. There was no trace at all, and no one noticed. How could he find it here?

So even if we saw Shen Lang just now, everyone was excited, but the first reaction was to feel that the other party had turned a sinking wave to take their information. It should be that someone has been drawn from memory, and it is not surprising to know that there is such a person as Shen Lang.

Until I heard Qi Ming called “Shen Daxian”, but now excited to ask, in fact, still with a dubious doubt.

That’s right, this group of coincidences that are unbelievable to all parties is the earth monk such as Qiao Yuxian!

Chapter 1454 - Suspicion

After recognizing that these people are the masters of the earth, Shen Lang will understand.

If this is a month ago, it should be that Qiao Yuxian unites with others and is ready to discuss whether to return to Earth.

Of course, they can’t be in Tiandu. Because of the relationship between Bao Puzong and the other, because they are all low-key and separate, that day should be coincidentally to go away from a valley in the city. As a result, it is so skillful to meet this side to open the transmission array.

The strongest of them is the Pope, who is half-sex, and the Pope and Paul Archbishop are not here. Others are basically a god.

Come here, be treated as a big enemy, not to mention the big fairy shot, even if there are a few peaks and half of the shots, it is easy to grab them all.

And their confession is actually no problem. It does not belong to which family and martial art in Han Dynasty, and everyone is from the same place.

But the earth is its own secret, and it is more likely to bring disaster to the homeland – Bao Puzong is an example, so this can not be described.

So getting their confession here will feel very fake and completely impossible to explain.

When Qi Ming was in Tiandu City, it was also an indirect wind. A group of dozens of monks have disappeared, and there are still many different sects. According to the truth, they should be discussed. They cannot know the news.

But this is a group of monks from the earth, Tiandu City is concerned about Shen Lang, they all think that it is the followers of Shen Lang, so the discussion of Shen Lang, it also represents them, who cares about some followers?

The result is that they have not received any relevant information, even if they are set to collapse, there is no information fermenting in this regard.

“Let’s do it! I have to admit, it’s a coincidence. They, I know, and I can assure you that they are completely ignorant of your situation. It is purely coincidental.”

Shen Lang waved to them and then introduced Qi Ming seriously.

“You should understand that it is just this... I can’t cross the difference.” Qi Ming smiled.

Shen Lang understands and nods. “It’s a long story. I believe you all know that they don’t seem to come from a martial art. There are different ways of practicing exercises, but they

should claim to be from the same place. And their realm is actually far from invading you.”

Qi Ming did not evade and nodded directly.

“I am not afraid to tell you that they are from the same place with me. Our situation is a bit complicated. It is a little different from the general martial art. You can understand it as an alliance.”

Since they are so coincidental here, can you know if they are clear? Still counted together.

Qi Ming was a little surprised. I didn’t think that the answer to Shen Lang was actually with them.

“You also saw their look and attitude towards me. But now, I guess they have a lot of doubts about whether I am really me, or you disguised me.” Shen Lang laughed.

Qi Ming nodded again.

Judging from everyone’s reaction, I really recognized Shen Lang, or I would not be surprised to jump out of bed. Moreover, it is also called “Shen Master”, “Shen Daxian” and “Shen Brother”. It shows the true understanding and familiarity.

“Let me talk to them!”

“Uh.....”

The request of Shen Lang makes Qi Ming a bit embarrassed.

Originally, according to the plan, he took a look at Shen Lang. If he could recognize the identity of these people, he would tell him.

Now this is going to go in and talk to them, in case...

“I am going into your cage, what else is it not?” Shen Lang asked.

Qi Ming is a bit awkward, yeah, this is the initiative to enter the cage, and still not assured?

“Haha! Of course, don’t worry, you are a big singer who is better than me. If you want to take it apart, we can’t stop you.”

In a joke, he said his concerns.

If these are really acquaintances of Shen Lang, it is even more necessary to clarify the attitude of Shen Lang. Otherwise, if a big fairy is able to withstand it, there may be other unexpected twists and turns.

“Don’t worry, I won’t be like this. If you treat me like a guest, I will of course treat you with courtesy.” Shen Lang gave him a reassurance.

“Of course, I trust Shen Daxian!”

Qi Ming expressed trust, let the confessing personnel open the cell control office and let Shen Lang enter.

In order to show true trust, he did not even make the slightest alert, and smiled and the receptionist, together with the staff, retired from the cell, not looking at them.

Entering the cell, Shen Lang is full of emotion.

Originally, these are the strongest elites on the planet, and they are the strongest of all factions. After the world came, they have repeatedly relied on his life.

“You... is it really a sinking brother?” Nan Liuchuan asked half-heartedly.

Everyone else looked at Shen Lang with a skeptical attitude, because they just matched them!

This made them even more skeptical that this is a paradox of disguise, because it knows the memory of Shen Lang.

“They didn’t extract my memory, let me verify it!” Qiao Yuxian lined up everyone, and then directly asked: “Well, what is the name of my grandson? www.mtlnovel.com~”

Shen Lang’s eyes, but still responded to him: “Qiao Shuyu.”

“I have secrets with the brothers of Shen Lang. Do you know?” Nan Liuchuan also asked.

Shen Lang looked at him: “Before you have come here, your two brothers will be counted and almost avoided. I saved you. Want me to tell which enemy? Is it bad? ”

“No, no, no.”

Nan Liuchuan hurriedly said that they had been smashed. This is really only Shen Lang knows. If it is not Shen Lang’s own person, he does not know these secrets. Qiao Yuxian does not know these friends.

Of course, the premise is that they have confirmed that their memory has not been extracted.

If everyone is extracted without knowing it, then no one can rely on the question to verify it!

Soon, everyone thought of this possibility, and then looked at the sinking waves, or the state of entanglement.

At this time, Shen Lang was beckoning, indicating that everyone gathered closer, and then arranged a soundproof cover.

This soundproof cover, he still has to pay attention to it, because with or without monitoring equipment, there is a big fairy outside, it is difficult to avoid.

“I am Shen Lang, saved you from several waves. I also transferred the way home to Lao Qiao. How did you go to the valley at that time?”

Shen Lang asked directly.

Hearing his tone and attitude, everyone was a little relieved.

“You should be a sinking brother! If they really extract our memories in our uninformed state, they will not be able to do anything.” Qiao Yuxian figured it out.

Everyone’s eyes are bright, this is the truth.

Chapter 1455 - Ins and outs

If you extract their memories, pretend to be a deep wave, just to find out more secrets.

But if you really extract the memory, what else needs to be inquired? Even if they insist on not saying the earth, they all know it clearly!

Even Qiao Yuxian, even how to return to the earth’s route, is also clear. What else do you need to pretend to do?

After I understand this, everyone is warming up for Shen Lang.

“Master Shen! It’s really you, you really are gods, you can find us everywhere.”

“Master Shen, this time I still hope that you can save us, or we will be in trouble.”

“You just didn’t hear it? It should be called Shen Daxian!”

“Yes, yes, Shen Daxian!”

Qiao Yuxian raised his hand and raised his hand. “Don’t rush to chill, time is limited, we will focus on it!”

Because he has the road to go home, the Pope and Paul Archbishop, the two powerful suppressors, have not been with you all the way, so that Qiao Yuxian has become the core of everyone after Shen Lang.

He said this, everyone else was quiet, waiting for him to speak.

And he himself, there is not much nonsense, simply telling about their situation.

After Shen Lang and Bao Puzong got up, they were very nervous. Qiao Yuxian and others are also trying to get in touch with everyone, so that everyone can keep in touch, but low-key distraction, to avoid being caught in the city.

Afterwards, Weiyang and Zhou Wei came to let Shen Lang “catch away”, so that they are all more nervous, and they dare not take the lead.

Everyone chose to leave Tiandu City and go outside to cultivate in the mountains. It is also an refuge.

They used to have a lot of gains in the Golden Mile. The aura of the world here is far better than the earth. It is also very suitable for cultivation.

But everyone also knows that no return to **** is shrinking, and it will take a long time to re-close, so if you want to go back, you can't cultivate with peace of mind, but you should try to bring more resources back.

After all, these are the masters of the teacher, the family, or the home of the earth.

However, they will also be embarrassed. The ordinary wilderness, the mountainous areas, the abundant aura, the medicinal materials of the heavenly treasures, the beasts and the beasts are also available, but the territory is very large and the chances of encounter are very low.

If you want to be more intensive, you can only go to the forbidden place like Jinjiu Valley!

The Golden Valley is far apart, and everyone is deeply aware of the dangers.

However, in the days of the capital, these old guys also have different ways to inquire about the news, get together, and get some useful information.

For example, in the vicinity of Tiandu, there is also a forbidden place!

The earliest Han Chinese factions will build a city in Tiandu. Of course, it is not for no reason. It is convenient to go to many places here. It is similar to a central hub, where many people rest and rest.

And will need a break, will come, pass here, because of the nearby forbidden land!

Many of them went to this forbidden place to take risks. Later, they developed here. A lot of resources have come from this forbidden place.

Of course, this neighborhood is also relative, in fact, it is also a little distance.

They did not have a better way, and they couldn't stand it for a long time. They didn't want to practice and went to the forbidden area together.

Have had the experience of Kim Jong-gu, so that they should be much more calm.

This time, there are no weaker ones, and this forbidden land is close to the capital. It should be the most forbidden land that has the most development and the most daily access to the practitioners.

Going to more people and developing more, naturally means less resources.

But in turn, there is a benefit to such a forbidden place, that is, the danger is much smaller, and many dangers have already been stepped on.

For the earth, the requirements of everyone are different.

For example, the local monks who came to the adventures and searched for resources were invisible to many of the peripheral medicines. But for the current situation on the earth, it is all precious in the level of heaven and earth, they are happy to pick.

In this way, they are ignoring something that others don't want, which is both safe and efficient, and quite a bit of fun.

Finally, because the number of picks is a bit large, everyone got together and thought that they could go to Tiandu City and sell a lot of them. After changing the Lingshi, they bought some higher grades, including those on the earth. Dan medicine, weapons, etc.

In the same way, time has passed for a long time, and they also want to know how the situation of Shen Lang is going.

When they came back, they stopped in a valley when they were about to arrive in Tiandu City.

They didn't lie, they stopped to discuss things.

Because it is a "meeting", everyone is also close together. The matter of negotiation is whether you should send one or two spies to the city to get to know the situation.

If Shen Lang has already had an accident, Bao Puzong will definitely search for them, and everyone will enter the city with great influence, which is very dangerous.

However, the work of this spy is also risky, and if it is not done, it will be caught.

Usually everyone is a big man, for fame and fortune, life and death seems to be very calm, but it is really a matter of life and death, or will die.

After all, they are far from the opponents of Shen Lang, and Shen Lang in front of the other side, can only be a share of escape!

Besides, this time everyone has gained a lot. If they are poor, they may be able to get rid of them and earn a net worth. Of course they all want to bring back to help the teachers and families. That is the glory of history.

Another problem is that these earth monks come from all over the world. The big areas will be divided into east and west camps. In concrete, there will be more branches.

It is more troublesome to let anyone go and not let anyone go.

For example, if you let a certain skin color, you may deduct a racial discrimination; let a person born in a small country say that you are bullying.

Of course, there is no reason for Huaxia to jump into the fire pit.

In the end, there is no debate, and it is necessary to use the oldest method of “grabbing” to decide.

As a result, when they had not yet produced results, suddenly the valleys fluctuated and sent them directly to them.

The people here have found that a large group of Han people have come over, and they are immediately enemies, and the masters are working together!

Needless to say, the results were directly controlled by all of them. This is still the strength of Daxian and Qifeng Banxian is far better than them. They can be well controlled and they are not killed.

The last thing is to imprison them and let them confess.

The content they confessed was not to satisfy the people here, and they felt that they were lying.

Fortunately, this is still a civilization, and there is no such thing as the immortality of the imperial concubine, nor is it like the sea people to support them as a coolie.

But here, they have no freedom and no hope, but they are also very desperate.

Chapter 1456 - Retreat

Qiao Yuxian simply said a short story about their situation.

Because they fled the city of Tiandu when they were in stealth, they did not know about killing Zhou Wei and Wei Yangzi behind Shen Lang.

So I suddenly saw Shen Lang here, and I was revered as a big fairy, so that they all felt that their brains were not enough.

It's not been a long time to separate, how do you feel that change is so big? Each of them has changed, but it is limited.

“My situation is more complicated. In short, I became very bullish. I killed the master of Bao Puzong and the head of Chaotianmen. Then there was an ancient ruins here, and I followed. Then I became stronger again, and I killed the boss of Bao Puzong and the former generation of Chaotianmen.”

When Shen Lang briefly describes his process, he has to say a little longer than Joe.

However, these few words have already shocked everyone.

On the same day, Shen Lang killed Zhou Shaojun and others. Everyone was cheering for him on the spot. It was confirmed that he had this strength.

When Zhou Wei and Wei Yangzi shot, they did not have the power to fight back. They quickly escaped from stealth. They also knew in the crowd.

From the gossip of the surrounding people, I know the identity of these two people, and I know that they are the peak and the half.

With such a gap, how did Shen Lang become a cow quickly and then kill them?

Then go to an ancient ruins, you can become stronger again, and you can kill the boss of Bao Puzong and the former generation of Chaotianmen.

It sounds like a little play.

However, they did not dare to question the Shen Lang, because Shen Lang is not a person who is bragging to brag, or that the people who are forced to blow and blow, all of which have been implemented.

Re-associated with the name of Qi Ming just now, everyone's heartbeat accelerated.

"So... Shen, Shen... Are you a big fairy now?" Someone asked cautiously.

"Not bad." Shen Lang calmly agreed.

Everyone took a sip of cool!

When coming together, Shen Lang seems to be a semi-fairy realm. It is already the height that they can't hope for. In this life, I hope to have an adventure here, or to advance.

However, how long has it been before, Shen Lang has broken through the peaks and half cents, and then broke through the big fairy!

These old people feel that their age is alive on the dog...

It is confirmed that Shen Lang has reached the realm of Daxian, and everyone has raised hope. When Shen Lang's strength was not so strong, he could save them several times. Now it's Daxian, should it be easier?

However, everyone is also very embarrassed. They are all veterans of various factions. The result is that it takes a young man to save again and again. It is really shameful.

It's better to lose people than to lose your life!

Everyone looked at the waves with pleading eyes.

Since Shen Lang met, and came to see them, of course, I also planned to save them.

“I played with a big fairy on their side once, and came here to be a guest. Speaking of a group of people coming over, but they are not clear, I did not expect you.”

Shen Lang simply said: “Do not worry! I will negotiate with them and try to bring you back. Of course, I can’t guarantee anything, because I can’t go back.”

Everyone used to suspect that Shen Lang was a fake. Now I understand that it was originally a guest. And the other party let Shen Lang come, just want to see if you can know the identity of everyone.

However, the words of Shen Lang also let everyone have a hint of gloom.

Yes, Shen Lang has become a great fairy, and it is awesome. But others also have big fairy!

And before, whether it was Yuxianmen, or the enemy like Bao Puzong and Chaotianmen, it was just a martial art. Now the situation here is to deal with the whole world.

Shen Lang is the strongest and is not invincible.

“Shen brother... Brother, you don’t have a burden, you can save us. Everyone is very touched. If there is no way, then you go back alone, everyone is equally grateful.”

Qiao Yuxian habitually called “Shen Brother”, and felt a bit wrong, now people are Daxian.

“Yeah, we have come here inexplicably. It is very likely that no one will ever know this end. It is already very lucky to meet you again.” Nan Liuchuan also said.

“Yeah, yeah. You don’t have to worry about Shen Daxian, everything is convenient for you.”

“We are very grateful to you.”

Seeing that Qiao Yuxian took the lead in saying this, everyone else has also met.

They all know the style of Shen Lang. When he asked him to lead the way, he also came together to benefit. Now to save everyone back, naturally it is to give benefits!

However, people are now Daxian, and the things they have harvested outside the forbidden area have not entered the eyes of others.

Therefore, at this time, we can only retreat.

Besides, this is also true. They are too clever, or too far-off. It is a matter of so many monks who have come and gone for thousands of years. If it wasn't for the sudden wave, it's really impossible to bring it back.

There have been several experiences of group slaves, and this time they have calmed down a lot. Of course, this is also more humanitarian to them.

Shen Lang did not have much of what they were, and they didn't make a big move because they were retreating.

He can leave by himself because there is another way back, but obviously it is impossible to leave with dozens of people repeated transmissions again and again, and not to mention whether it will affect performance, his own spirit The power is not enough, the time is needed more, and the other side will find it, then it will be more troublesome.

Out of the cell, the people who received them, quickly blocked the past. But the prisoners inside are very honest.

Qi Ming is waiting outside for the waves.

"How?" Qi Ming did not have a polite turn, asked directly.

Shen Lang shrugged: "As you can see, they count as my people."

"Your people?" Qi Ming smiled, but apparently did not believe, I felt that Shen Lang wanted to help them to save them.

“Don’t you have inquired about all kinds of information in the sky? Some other confidential information may not be known, but before you set up the stage, I should be the hottest topic topic.”

Shen Lang reminded me.

Qi Ming immediately thought about it. Shen Lang was indeed the most famous name before he appeared.

On the day when Shen Lang appeared, the whole city was sensational, and the public was expecting Shen Lang to come out and challenge him. Because of this, he would not wait for it to fight.

In the more than ten days, they also collected more information about Shen Lang.

However, the earth’s males were concealed by the glory of the swells. They only appeared when they first entered the city. After that, they did not share their deeds about Shenlang.

Qi Ming, they have not experienced it, relying on indirect information, of course, the impression is even lighter. Now I think carefully, only to think of it. It seems that Shen Lang first appeared in front of the ring, and there was a group of people cheering for him. It seems to be his followers!

Later, the gangs came because of the enemies who were offended by Shen Lang, and they were scattered. Everyone did not pay attention to them. Are these people?

Chapter 1457 - Strong visit

Looking at his expression, Shen Lang suspected that he should have remembered it, but there was no image material on the side of Han, so it was impossible to check.

“You should also know that I had offended some people there and suffered from the killing. They couldn’t help me, they dismissed them, and I ran away.”

“They went to the periphery of the forbidden area. Some time ago, they were ready to return to the day to understand the situation. Because they were worried that they were

also being chased, in the valley, they talked to several people to inquire about the news. This is what they called deliberation. ”

Shen Lang was very helpless to explain to them, this is really very speechless, coincidence to this extent, let alone Qi Ming, he is hard to believe.

If they were not acquaintances such as Qiao Yuxian, they would be replaced by any other monk in Han Dynasty.

“This is really...”

Qi Ming also smiled and sighed. Shen Lang is not like a fake. It is also corresponding to the confession of those people.

However, he will not promise anything, even if it is a coincidence, things are born, a group of outsiders mistakenly entered their world, it is impossible to return with politeness.

Just like Shen Lang can't send the monsters back and forth.

From the lift back to the ground, Qi Ming did not take the big waves with the waves, but took him away from the building.

When I came out again, there was already a person who had been together before, and I prepared an aircraft to wait for them.

After I got on the plane together, I didn't fly very far this time and landed in front of a building.

Then the man whispered something to Qi Ming and left.

Qi Ming took Shen Lang and entered this building.

“This is the place where I live. They come in advance to arrange for people to arrange their accommodation. Don't disappoint Shen Daxian, just stay here. The conditions of the inn are not good. Please!”

Qi Ming briefly introduced it and led him upstairs.

Shen Lang calmly agreed.

I want to get it, he is a big fairy, can you let him stay in the inn, just run it? What if you hurt someone?

I live here in Qiming because Qiming is still at least able to see it.

This building is also luxurious and tall, and it is a luxury house in the city. However, there are no people in it, and basically everything that is needed for life is confessed by Qi Ming.

It is estimated that Qi Ming is not willing to be disturbed, so he lives alone, so someone needs to come and pick it up in advance.

There is also a possibility that the first-time person will drive away the others, so as not to be considered as adult quality by Shen Lang.

After all, the dozens of them are now hostages from the Han Kingdom!

After he settled down, Qi Ming did not stare at him at all times, but let Shen Lang take a break. After he came back, there are still some things to deal with, and some guests will meet.

Shen Lang also makes him feel free, no need to worry, he will not have any inconvenience.

In fact, coming to this side, for Shen Lang, it is to satisfy a psychological expectation.

When people see a mountain, they always want to know what is happening on the mountain side, but in fact, after they have actually been there, they may not be so, and may not even be as good as the scenery there.

Now he is such a psychology. If you want to come over, you will be obsessed. If you look at the other side of Zhoushan, you will have more abundant resources and more benefits.

After seeing it, it should be disappointing more.

Because of the scientific and technological civilization, it is not as good as the earth here, let alone the scale of the city.

On the basis of comprehending resources, and regardless of the level of comprehension here, there is more population. In the tens of thousands of years of time and space, it will inevitably consume more, and may not be able to get there.

It's just a while to come and see the city, but I'm able to figure out the state of the world, just as he is in the world of behemoths.

After being quiet, the Emperor's behemoth is a bit depressed.

When it comes to a new city and sees a more brilliant building of mankind, it is very exciting. According to this progress, Shen Lang will definitely take it to see the place of the very tall and magical building.

However, in the days of the capital, it ate a lot of human food, so that it got a lot of enjoyment, now come to this place, but there is nothing to entertain it.

Feeling its emotions, Shen Lang laughed.

This guy is not an ordinary spirit beast. If you let this dog **** feel uncomfortable, once it is powerful, there will be unimaginable consequences.

Shen Lang will not be polite with Qi Ming, let him find someone to buy some food to eat, it is best to buy some kinds of classes.

Qi Ming is really surprised by this request.

Shen Lang is already a great fairy, and will care about the common food?

But think again, the realm of Shen Lang is higher, after all, the age is only so big, to a brand new place, perhaps still want to taste the fresh.

This alignment is not a thing, he can contact people to do these things.

When things were sent, Shen Lang also tasted it, but still felt that it was far worse than the earth, but it was more refined than the Han Dynasty .

For the dog god, of course, it is a great meal, let it experience more delicious.

Shen Lang is thinking about how to save the earth monks?

He has no interest in exploring it here, and he is leaving at any time. Now, a lot of people are more troublesome.

The appetite of the dog god, of course, can be eaten very much, but it is also interesting, not too ugly, or a little tasting.

When it has not finished eating, Shen Lang feels a strong breath approaching!

This is a strong atmosphere that is undisguised. The other party is interested in revealing his strength, and the light from this feeling feels stronger than the Daxian!

However, Shen Lang can also confirm that this should not reach the realm of the Great God, it should be the level of Daxian Peak, and Mo Feiliu is similar.

There is no doubt that this is a strong local, perhaps the strongest to defend the city.

Such a strong person to visit Qi Ming, would it be just a visit?

Obviously the target is his outsider who is pinned here!

Soon the strong man of the Great Xianfeng has come in. Soon after, it was Qi Ming.

“Shen Daxian, after the family teacher knows about you, the old man came to visit him personally to show his sincerity. Please go to the living room!”

Qi Ming’s master, everything is right.

“it is good.”

Shen Lang naturally pulled the dog god. The dog ***** is still eating and being pulled away. It is a little emotional.

However, it is comparable to the realm of the great gods. It is naturally felt for the breath of the big fairy, but it is not in the eyes. Now that Shen Lang is pulling it away, he understands that there is still pressure on the Shenlang. It can only be followed by cooperation.

Chapter 1458 - Evil dog

In the living room, there are already two guests, one of whom is an old man, and one is a middle-aged person.

This old man is the peak of the big sensation that makes Shen Lang feel a lot of pressure, and the other middle-aged and old-fashioned is also the strength of the big fairy.

This lineup came out and let Shen Lang have no temper.

Needless to say, the Earth, even in the same Chinese island of the Nakajima, has three great immortals, and there is also a big fairy peak, which is also a big sect.

Take Qiu Lin Jianzong, let’s put aside the cold autumn that everyone thought was dead for hundreds of years. It was Mo Feiliu, and everyone thought that it had been dead for a long time. As for the other big fairy, Shen Lang is not very clear.

Like the Chaotianmen, Baopuzong, it is also a famous gate, and Zhou Yucun and Changshengzi are the realm of Daxian. The other peaks and half centuries are very strong.

If they are really a martial art, the old man himself has a great peak, and two disciples have reached the realm of Daxian, which is undoubtedly very cattle.

“Shen Daxian, this is my master’s respect – Wusong ancestors, this is my brother Yang Lan.” Qi Ming’s introduction confirmed the conjecture of Shen Lang.

There are three great immortals in one door. What level is there on this side?

Shen Lang smiled and arched his hand: “I have seen Wudai Daxian, Yang Lan Daxian, I am an outsider, I don’t know the situation here, so I don’t talk about the long-awaited guest.”

Wusong’s ancestors nodded and expressed his approval of his attitude.

Yang Lan is a bit unhappy.

“Shen Daxian is so young, it is amazing and admirable. But for the world, there is still a slight lack of it. Come to see my master, even bring a dog, this is disrespectful!”

He was only a little unhappy, and when he said that, the tone became severe.

Qi Ming is next to it, quite awkward.

Because this is related to his master, and he is open to his brother, he is inconvenient to disobey.

On the other hand, Shen Lang was taken back by him. Now, not talking about friends, but also the name of the guest, it is so difficult, so that his master’s face is not good.

Qi Ming’s gaze can only be seen by his master. If he is in the round, he is inconvenient and can only be said by his master.

However, the ancestors of Wuhuan did not mean the round field. They only looked up and down the waves, and the cold eyes seemed to see through the waves.

“If you can’t say this, this is your master. Your respect is incomparable. But for me to be a stranger, of course it is not as important as my dog. How can you be disrespectful?”

Shen Lang softly took a hard back.

Originally, Yang Lan was looking for an excuse to lay down Ma Wei. In his view, Shen Lang should have an apology of interest, and the momentum was naturally suppressed.

Now this is the top, not only Yang Lan, but the face of Qi Ming has become more ugly, and the look of Wu Hao’s ancestors are also colder.

In terms of reason, this also has some truth, but it also directly expresses that the Wusong ancestor is not as important as a dog!

As a disciple, how can you not be angry?

“presumptuous!”

Qi Ming still resisted without opening, but looked at Shen Lang with his embarrassed eyes, and Yang Lan directly screamed.

“Find out who you are on the ground! You still dare to take a dog to humiliate your teacher, you are impatient, right?”

Yang Lan’s words were just finished, and I heard a shit!

Of course, the Emperor’s behemoth is not really a shit, but it looks like it is now, and others will be called dogs.

It was already a bit reluctant to eat and was interrupted.

Although I can’t understand people’s words now, with its wisdom, I know that the other side is in a dilemma, and Yang Lan is very direct, so that it also realizes that it may be because of its relationship.

So at the moment, I'm going to Yang's teeth directly.

"Oh! Sure enough! What kind of quality master, there are any quality dogs! Even the dog has no quality!"

Although Yang Lan is very uncomfortable, but everyday is not too bad words, at this moment, I chose to refer to a dog to refer to the mulberry. To beat the dog, I have to look at the owner. The dog is the same as the squat.

However, although the dog **** can't understand people's words, it is comparable to the realm of the great god. It is very sensitive to emotions. A little change is also experienced. I immediately know what I just said and is abusing it.

According to the agreement, it is to help Shen Lang deal with stronger enemies, but they get along with each other and are familiar with each other. It also knows that if Shen Lang can cope with it, he does not want it to be shot.

Therefore, even if I feel the strength of the Wusong ancestors, it does not rush, and wait for the order of Shen Lang.

However, Yang Lan's speeches were directed at it. Now it is even more insulting to it. Is it a god-like god, can you stand it?

At this time, Shen Lang patted its head, which gave it a comfort, and also indicated that it would bear forbearance.

"Yang Yang Daxian, I personally suggest that you apologize to my dog, otherwise it will be annoyed, and there are serious consequences, I am not responsible."

Qi Ming listened to the side and couldn't help but smile.

The brothers are really a bit aggressive, not a civilized hospitality, but in terms of both sides, it can be said to be true.

Shen Lang did not have a correct attitude at all, or brought him in a state of esteemed by thousands of people. Insult to his master, it is already a big problem; now I have to go to a dog Apologize, even threaten the brothers, is this not looking for abuse?

He and Shen Lang are also one side of the relationship, even if they are cherished, they can't compare with the teacher's friendship.

At this moment, I feel that Shen Lang is killing, and naturally I don't want to play round the field. It's enough to say that I haven't fallen into the grave.

"You? Want me to apologize to a dog?"

Yang Lan also seems to hear the most incredible words of his life, repeating it directly, suspecting that he has got it wrong.

"I doubt you are also a dog brain?"

Dog gods don't understand people, but just mentioned "dogs" several times. It already knows that it is saying it, and it may be insulting.

At this moment, Yang Lan said this again and again, it is a scornful tone, and let it realize what it is.

"Shen Lang, let me eat him!"

It passed a thought to Shen Lang, and it was still asking for advice from Shen Lang, so as not to eat the people who should not eat.

Shen Lang also gave it a thought: "Don't eat it, you can play it and let him know that you are amazing."

At the same time, he patted the dog's head and raised his hand as if to direct the dog to the front.

There is a big **** level of thugs, of course, to come in handy, but also to fox and tiger, so that the other party can not despise him.

Both Yang Lan and Qi Ming feel that Shen Lang is crazy!

On someone else's site, it's okay to ask for it cheaply, and even dare to direct the vicious dog to attack others!

Is this really not looking for death?

However, Wusong's ancestors still felt a bit wrong, and frowned slightly, but he could not tell where it was wrong.

Chapter 1459 - Good taste

Looking at the evil dog who didn't know how to live, he really came to him. Yang Lan couldn't help but snorted and grabbed the dog's head with one hand!

Playing the dog depends on the owner. This principle is of course similar. Since Shen Lang does not know how to lift, he is also welcome.

If you directly abuse the Shen Lang, how much will make Qi Ming's face look bad, after all, it is a guest. On the other hand, he can't do it.

However, it is not a problem to abuse a dog. He is completely confident to pinch his dog's head!

Just pinching the dog's head, even if it is a pet beast, it is not too rude, but can completely warn this sinking wave.

Dignified with a savage shot, of course, it is a very fierce blow, even if it seems to be just an ordinary catch, but in fact has completely blocked the space around the dog god!

The purpose of his blockade is not to fear that this dog can hurt him, or to escape, mainly to avoid the sinking of the waves to save.

Since he wants to shoot, he must win it. This is a collision of confrontation. Who wins and who loses is on this dog.

Everything is just in an instant.

Whether it is Wu Wu's ancestors or Qi Ming, their two minds are placed on Shen Lang's body.

They can't let Shen Lang intervene!

If Shen Lang intervenes, and Yang Lan can't take a dog in one fell swoop, it will be a huge blow to Yang Lan's face, and they think this may be the purpose of Shen Lang.

To this end, they must be optimistic about Shen Lang, can not let him destroy, let Yang Hao successfully solve this dog problem.

But what they didn't think was that Shen Lang was calm and aside, and didn't even look at the dog, as if he didn't worry about its safety.

And of course the result is coming out right away...

"This this....."

Qi Ming people are on the side, even if you pay attention to the waves, you can see the situation of Yang Lan. Wuhuan is on the opposite side, all paying attention to the Shenlang, but it is slower.

Qi Ming saw that the dog had opened his mouth directly, and the brother went to grab the dog's head, as if it was squatting into its mouth, and then was directly bitten by a bit, leaving only the lower half of the shoulder. !

He really can't believe the picture he saw with his own eyes.

The brother is a big fairy, and it is a veteran big fairy. The strength is much higher than him. Even if you start with Shen Lang, you will definitely win. Dealing with a dog, even if

it is a light enemy, is also a hand to come, how can it be like a normal person, directly bitten by a dog?

However, the reality is like this. One of Yang's arms was completely bitten, and together with the blood, was chewed and swallowed by the dog. A few inches of arm remained, looking very awkward.

Yang Lan is also very shocked, even the pain has been forgotten.

The scene just happened, so he did not know how to describe it. Obviously, he controlled the situation and locked everything around him. The result was that he couldn't move. He could only watch the evil dog swallow his arm directly!

Wu Hao's ancestors' minds are all in the dark waves. He's definitely not coming from Shen Lang, so he must be optimistic. You can't let Shen Lang sneak up on Yang Lan.

Unexpectedly, this dog exceeded the imagination, and even directly smashed Yang Hao's arm.

Although he is a little late, but with the strength of his peak, the reaction speed is naturally slow.

"Look at me bursting your dog!"

Wusong ancestors also used the same method as Yang Lan, and directly grasped the head of the dog god.

The apprentice is ugly in this way. He should have avoided it more, but for his realm, this is a shame! He wants to wash this humiliation, he must use the same way to abuse each other!

Of course, he will be more cautious, and it seems that the means are the same, different emphasis on different realms to display, in fact, the power is ten times different!

This time, the old-fashioned ancestor of Wuhuan did not mean any kind of grievances. He would not consider what was rude and not rude, not just pinch the dog's head, but to crush the dog directly!

The big disciple of his widowed ancestors was actually on his own territory, and he was bitten by a spiritual dog. If this is said, if you spread it out, what is your face!

This time, Qi Ming's gaze was all on the dog's body. Yang Lan also couldn't take care of his injury, while silently closing the wound and paying attention to Master's shot.

They don't think that Shen Lang can sneak into Master, and they don't think that Master will be hurt by this evil dog. What I want to see now is that Master has smashed the dog directly!

But the picture once again shocked them, incredible, unbelievable emotions in various situations.

Shen Lang always maintains a faint smile. For him, the result is of course an accident.

Attacking the dog god's black ancestors in the same way, also fell the same end with Yang Lan – the entire arm was smashed!

“The ancestors' arms seem to have a more mouthfeel, let it chew a few more mouthfuls, and they are quite excited and want to have a few more mouths.”

Shen Lang's comment on the side directly makes Qi Ming and Yang Lan glare!

Who is this! The master's arm was eaten by the shit actually said that the taste is good, is there anything to say in Fengliang?

The old ancestors of Wuhuan were deeply shocked.

The way he just used is the same as Yang Lan, but both the size of the shot and the degree of his attention make this attack much stronger.

He is also seeking a blow, but the result is instantaneous. He can't control the situation at all. He can only watch his arm bite!

At that moment he was very shocked and had a hint of fear!

There is only one possibility, that is, this dog is far stronger than they think, even more powerful than him, or else it will not be out of control.

A dog is actually stronger than his peak big fairy? !

Is this still a dog?

The beast ***** is just that, right?

Can be such a powerful beast, how can a dog like a pet do the waves?

There is only one possibility – the strength of Shen Lang is far better than what they think!

A dog is so powerful, may he just be similar to Qi Ming?

The age at which the surface looks is definitely fake. It is definitely a superpower of Han Guo disguised!

“The Emperor is slow, you are scared to see them, for the time being, I will let them change their attitude towards you.”

Shen Lang calmed the dog ***** and let it back first.

The dog ***** has just been out of this, and the arm of the peak of the fairy is not a touch, but it is very complementary, so it is also satisfactory obedient.

But some people can't hold it!

Yang Lan has lost an arm of his own. It is already very angry and annoyed. If Master helps to kill the evil dog, it can be considered anger. Not only now, even Master lost an arm.

Where can he endure?

Chapter 1460 - collapse

Under Yang Hao's anger, he immediately took out the same weapon. It was a golden gun. Once it appeared in his separate hand, he smashed directly into the Emperor!

His technique and Qi Ming are all the way, but if you look at the gun, you can see that it is better than Qi Ming's gun, and the shot that is quickly summoned is far better than Qi Ming!

Of course, in addition to his cultivation and experience over Qi Ming, but also because Qi Ming and Shen Lang are contests, and now he is a revenge for the Emperor of the Emperor.

Shen Lang has just communicated with the dog god, let it stop for a while, do not continue to attack, the dog **** is also giving him face.

However, Yang Lan did not know how to attack it at this time, and it certainly could not sit idly by.

Even if it doesn't attack, you can let Yang Lan not hurt it, but it is an offense!

So when Yang Lan swiftly shot his back, the dog **** suddenly screamed!

This snoring directly shocked everyone on the scene.

But even so close, when the sounds they heard, the results have come out...

It is not aimed at everyone, everyone feels the shock, but it is by the way, it is directly against Yang Lan.

The first to bear the brunt of Yang Lan's attack, the power of a quick shot, just a sigh of relief from it, completely blown away.

Then he was too late for him to resist and defend, and he was surrounded by a sacred behemoth. Even if he is a veteran Daxian, he will not be able to resist a god-level attack of the gods at this time.

It is no longer an attack of sound waves. The voice is just an imposing manner, expressing anger, and all-round is the pressure of the ***** level!

So when everyone was shocked, the eyes looked at Yang Lan's body exploding!

This type of explosion is different from the explosion from the inside out, but it is an explosion that cannot be withstood from the outside.

The explosion of the former is to the left to blow to the left, the right to blow to the right, and the latter to the opposite, to be squeezed into the other direction.

All the flesh and blood, all the bones and bones, were crushed and burst at once, and instantly became a blood man. Strictly speaking, there is only a little human form...

And with the snoring stop, the dog ***** took a breath, Yang Yan burst open the body, completely inhaled its mouth, even a drop of blood did not remain!

Its current body is like a dog, but it directly engulfs a person, but there is no problem at all, including the golden gun, which is directly swallowed.

For a time, Qi Ming was sluggish.

He finally understood it!

Why do you see this dog, you will feel a bit wrong, and you will unconsciously respect the dog. It is because of its invisible pressure!

The Wuji ancestors have just confirmed that the feeling of something wrong is from this dog, and it is suspected that Shen Lang is playing pigs and eating tigers, and the surface strength is intentionally revealed to confuse people.

I didn't expect Yang Hao to stand up. The result was a face-to-face, and it was swallowed by the dog...

Yang Lan is his proud disciple, although in the perspective of talent, it is better to Qi Ming. But as a big disciple, the time to follow him is the longest, and the feelings are like fathers and sons.

At this moment, I was directly killed in front of me. Even a piece of minced meat and a drop of blood did not remain. It is not sad to say that it is a fake.

However, in the end, it is the peak of the Great Immortal, one or two hundred years of spiritual cultivation, so that he can look very weak about life and death, for hatred.

In the current situation, sadness is useless, and anger and anger will cause even greater danger!

Yang Lan was directly swallowed. His arm of the ancestors of Wuhuan was also bitten by the inability to resist. Can you expect Qi Ming to resist?

If Qi Ming also resists, the result is that Qi Ming has also been swallowed!

The old ancestors of Wuhua have lost important disciples, and they cannot lose sight of another important disciple.

It depends on his attitude now!

He must immediately express his position. Otherwise, even if he knows that he is not an opponent, he must also avenge his brother. It will be late.

"Please stop!"

The Wuji ancestor raised another hand. After he finished speaking, he sighed: "I admit defeat!"

Qi Ming was really shocked by the scene.

Although he has the realm of Daxian, but after all, young, even if there are many targeted training, it is still lacking.

If it is a general situation, he can be very calm, but he is a master of the gods, brother, one bite of an arm, one is directly swallowed ... This is too much impact on him.

There is no direct collapse, it is already his heart.

However, the reaction was still a bit slow, and after the opening of Master, it was the return of God, and looked at everything in front of him.

Master... confessed?

More than ten days ago, he himself decided to admit defeat to Shen Lang. But that is just a discussion, and it is in the sky, he does not want to be high-profile for too long, the purpose has been reached, the appropriate bow is nothing.

But how can Master admit defeat to Shen Lang?

And strictly speaking, Shen Lang has not yet shot, just a shot of his dog!

Ok... the dog didn't shoot, just opened his mouth a few times.

This really subverts his belief in life – www.mtlnovel.com ~ let him almost squat.

Wusong's ancestors have just quickly expressed their disappointment, that is, to convey his meaning, so that Shen Lang should not rush to kill, but also let Qi Ming not act rashly.

At this moment, the state of almost collapsed, he certainly looked in the eyes, but there is no time to comfort anything.

“Shenlang Daxian is too low-key, and we have a few sorrows for our masters and apprentices. Wusong apologizes to Daxian and the dog god! Yang Lan is self-sufficient, and his death is completely self-defeating.”

Qi Ming heard this and fell directly to the ground...

Just after Master's admitting defeat, he has already been about to collapse. Now Master is apologetic and sincere and apologizes to Shen Lang, saying that the brother's death is self-defeating and even apologizes to a dog!

This directly became the last straw to crush his belief in collapse.

Shen Lang's impression of Qi Ming is still good, and he does not want to look at the young people. However, he did not say anything. Qi Ming, if this is not enough, then his talented and intelligent age will break through to Daxian, and this life will come to an end.

These need to be taken by himself, and they need to go through it. Of course, Shen Lang will not participate in anything.

“The old ancestors of Wuhuan are heavy, and the sincerity of Qiming Daxian, I can feel it, you are also very polite. Yang Lan Daxian is a bit violent, I did not expect it, in fact, I have stopped.”

Shen Lang was relieved that he accepted his apology.

The Wuji ancestors gave a little comfort, at least the surface of the waves and the beast, will not continue to attack them, he and Qi Ming are safe.

As for whether Shen Lang has prevented the dog from doing evil, it is no longer important. Yang Lan has been broken and eaten. Now it is necessary to restrain Qi Ming to avoid recurrence.
