

First Strong 1461

Chapter 1461 - proposal

Not only verbally apologized, but also became the one-armed Wusong ancestors, regardless of the wound treatment, stood up and bowed to Shen Lang, in order to express the sincerity of the apology.

Sitting down on the ground, Qi Ming felt that his beliefs had collapsed. When he was a child, Master was already a great fairy, and he was admired by everyone. I have never been so stunned, but now I have to apologize to Shen Lang and a shit!

He looked at Shen Lang again, and there was a bit of grievance in his eyes!

He began to hate himself, and if it weren't for him to bring back the waves, there would be no such thing.

Master Yang Hao died because of him. Master's arm is because he didn't, and Master's dignity is also because he lost it!

Of course, bringing Shen Lang back, he is also well thought out and has had discussions with other people. Otherwise, after the plan is slowed down, he can no longer appear.

The purpose of bringing back Shen Lang naturally has many advantages. For example, he can't hold the waves and bring him back to Master. From Shen Lang here, I know more and more in-depth information on the side of the Han Dynasty, and perhaps from his body, I know the secret of breaking through the realm of Daxian at a young age.

Those are opportunities for a thousand years, and he is not for personal reasons.

But now he regrets, and Shen Lang is so squandered and so bad that he directly killed his brother! Seriously hurt Master's insult!

Of course he won't hate a dog, or even hate a dog, he will still count the account on Shen Lang's head.

He fell to the ground at this moment, the whole person is in a state of collapse, and of course there is nothing to conceal.

The hateful eyes, the diffuse hatred, let Shen Lang, the Wusong ancestors and the Emperor's behemoth feel it.

Shen Lang secretly frowned, he can understand Qi Ming's mind, the relationship between the two of them, far from the masters and brothers of the people, this hatred is very normal.

The Emperor's behemoth does not think so much. Before Yang Lan was with a strong resentment, and now Qiming is also the same, let it feel that this is the problem that should be solved.

The old ancestors of Wuhuan secretly complained, is he not resentful?

Why do you feel sorry for his apology?

The situation is stronger than people, and I have to bow my head!

Qi Ming was only in his thirties, and he was affected by a huge impact. He could not understand the mentality. I will apologize before decisively, that is, I am afraid that Qi Ming will cause trouble again.

Now, if you let Shen Lang and the beast ***** take out because of Qi Ming's attitude, then he will apologize in vain!

"Qi Ming!"

The Wuhua ancestors immediately whispered a sigh: "Apologize to Shen Lang Daxian!"

Qi Ming's eyes moved over and corresponded to Master's eyes.

From Master's harsh eyes, he did not see humiliation, but also a tenacity and tolerance, as well as deep concern for him.

Qi Ming's heart trembled fiercely!

Can someone who can cultivate in the realm of Daxian in his thirties be ordinary?

In addition to the famous teacher from a small point, a large amount of resources perfusion, the key is personal talent.

Although the heart is not able to keep up with the talent of the body, but in the end it is followed by the big man exercise, but also the focus of the Wuji ancestors.

So he still came back to God.

Master's intentions do not need to be clearly stated, and I will understand immediately.

He also realized that if he expressed his hatred again, he would not only recruit himself to kill himself, but he would also be tired of Master and even the whole city!

"Shen Daxian, I am sorry, I am rude."

Shen Lang shook his head: "You don't need to apologize to me. You didn't do anything wrong just now. But one thing to remind you... This is an opportunity for you. How do you choose what to do, it is related to your future achievements. ""

He didn't want to intervene, he had to sing his own enlightenment, but just the blame, let him decide to point it out and see if Qi Ming can accept it.

Many enemies, Shen Lang is indifferent, here is a different world, after he left, Qi Ming wants to find him there is no place to find.

Qi Ming is misunderstood!

In his feelings at the moment, he felt that Shen Lang's sentence was a hint that he would abandon Master's side and hold the thighs of Shen Lang! With such a choice, there will be more achievements in the future.

This makes him very uncomfortable...

who are you? Even if there is a very powerful beast **** pet, what about it?

How old are you? Pointing me on the tone of an old predecessor?

Let me choose!

However, he was angry and angry, and he still rationally chose to bow to the “bad forces.”

Master must bow his head. What else can he do?

Continue the hard bar, but also have the strength bar!

“You are right, I remember.”

Qi Ming is very conscientious, and Shen Lang can certainly hear it. He is too lazy to manage, and the point is also to look at the opportunity. If the other party does not accept the point, then he can only rely on his master to instill the influence.

Wusong ancestors quickly rushed to the round for Qi Ming.

“Da Xian came from afar. It was our guest of honor. Wusong specially came to visit. Qi Ming has a place where there is no greeting. I also hope that Shen Daxian will speak directly. I will arrange a better hospitality immediately.”

Although Wusong has already been a high-ranking person, he is respectful to others, but he is familiar with all aspects of his age. At this moment, the topic is introduced to the daily entertainment, that is, the big things are small things. Let Shen Lang have no intention to go and compare with Qi Ming.

“There is nothing to say, I am still very satisfied.”

Shen Lang smiled lightly, and then directly put forward a suggestion: “But it is boring here, let me walk around in the city, or... go to other cities, martial arts, what to visit?”

This proposal immediately made the Wusong ancestors smash.

With Shen Lang and the strength of this beast god, it is basically rampant in the city. Where else can it stop him?

And want to go to other cities, martial art, just visit? Obviously, don't have a picture!

The city is respected by him and he must be guarded. Other cities, if they are released because of him, are equal to the disaster.

It can neither harm the local nor harm other places, but also test his decision.

The Wusong ancestors hesitated and did not say anything, and Shen Lang immediately laughed.

“Well, I also feel that this kind of request is a bit unreasonable. If you don't, you should also know that those people who have been mistaken before are my people, let me bring them back, stay in It is also white here.”

When this is said, the look of the Wusong ancestors is even more embarrassing.

The group of people, although they have nothing to gain, but after all, are outsiders, and always have research value. If he could shut up Shen Lang now, he wouldn't care about those people.

However, Shen Lang and this dog are simply not sure. Now I have to take those people away. Isn't it a stealing of chickens?

But to say that eclipse, he actually eclipsed an apprentice, the value is far more than those outsiders.

Chapter 1462 - Re-enter the ground

Shen Lang just had such an opening. It is really not very interesting to this side. To say that you want to go to other cities and martial art is just to put a little pressure on the Wuji ancestors.

Knowing that he would not be so easy to agree, so he said the real purpose.

But this purpose is not so easy to agree.

For the ancestors of Wuhuan, it is really empty to let this group of outsiders be taken away by the waves.

Qi Ming next to it did not speak, but no doubt more resentful.

He came back with Shen Lang and wanted to deceive a useful research goal. Now that the research goal is going to run, and everyone else has to run with it, this is still blamed on him!

“Of course... since they are the people of Shenlang Daxian, we certainly respect your meaning, if you want to take them away, take it away!”

Although Wuzi's ancestors hesitated, they still let themselves smile and promised.

“However?” Shen Lang asked again.

“What?”

“I think the ancestor should have a turning point, so I asked you first.”

Wusong's ancestors stunned again: “There is no turning point, but they have been here for a while. This is not what I arranged. Although I can influence this aspect of the local area, there are some procedures to go through.”

Shen Lang laughed and said nothing.

“So, this has to bother Daxian waiting, I will arrange it very quickly and will not let you wait.”

“Nothing. Then arrange it!”

There is nothing to say to them, and they look at Wusong’s ancestors, and Qi Ming has been bowing his head, and Shen Lang feels meaningless. &1t;i>i>

As for the ancestors of Wuhuan, it is really their business to really go through the procedure or to ask for a rescue.

After that, he took the dog ***** back to the room.

The dog ***** just ate a big fairy, and also ate an arm of the peak, and was very satisfied. Going back did not pay more attention to the rest of the food, but closed his eyes and rested.

After they left, Wusong’s ancestors and Qi Ming were still in the hall, but they naturally isolated the eavesdropping outside and privately negotiated something.

Shen Lang didn’t care, but he was prepared for the upcoming situation, so as not to be caught off guard.

But it is also a preparation, there is a dog god, but also what means to worry about the Wusong ancestors?

Absolute strength is that all intrigues can’t be countered! &1t;i>i>

This point is a very clear point in the previous world.

As for the earth monks, he also has two plans, if it can be resolved peacefully, then take everyone back together.

If the other side's opinions are so powerful that it is not easy to go together, it is just to bring a few familiar Chinese monks, such as Qiao Yuxian, to leave. As for those in other countries, there is no way to take care of that much.

Shen Lang did not rush, nor did he always pay attention to Qi Ming's every move. Just prepared, this is to give them time. Whether it is going through the process or not, please help me, it is such a process.

Even if you come to a group of helpers, it is a one-time solution.

Shen Lang quietly stayed, and spent the night.

During the period, Qi Ming did not look at Shen Lang again, but according to the previous instructions, they were sent a lot of food to feed the dog. <i>

Of course, this can also be understood. If you are a friend and a guest, you will kill the people and you will be blamed for not having emotions.

However, it is impossible to eat the medicine, because the general poison has no effect on the level of Shenlang, but instead adds a handle.

The next morning, Wu Wu's ancestors came to Qi Ming's home again, and then Qi Ming personally came to report.

"Shen Lang Daxian, the teacher has arranged everything, please go to a trip."

Qi Ming should have completed the psychological construction, and there has been no eyes of yesterday's grievances, and the whole person has become very peaceful.

It's just keeping pure courtesy, but it's really a bit of a guest and a friend.

Shen Lang nodded, took the dog god, went out to meet the Wusong ancestors. <i>

Seeing Shen Lang and the dog ***** again, the Wusong ancestor is still more respectful than Qi Ming.

“Shen Lang Daxian, please, I will personally bring you to meet them.”

Wusong ancestors have changed their clothes, empty sleeves, covering the broken arm wounds, I don't know how the situation is.

However, from his look, it is not too much to break an arm.

Qi Ming leads the way in front, and the Wusong ancestors accompanied Shen Lang and the dog god.

After coming out, the aircraft was ready, and after inviting to go up, it flew to the prison that had been there that day.

In fact, flying a few times, I can already understand the layout of the city. The building of the prison is already on the edge of the city.

But it was supposed to be used not to be a prison. It was only because of the detention of their relationship that they were temporarily prisoned. &1t;i>

The last time it was brought by Qi Ming, there was not much battle, and the receptionist was arranged to lead.

Now Wuhuan ancestors came here, many people here greeted and then sent them into the lift.

Wusong ancestors waved without them to follow them, and he personally escorted Shen Lang with Qi Ming.

In his capacity, personally accompanying him to the cell, this is indeed full of sincerity.

If you don't let other people accompany you, you can understand that you are afraid of offending the dog god.

However, when going down, Shen Lang still has a little thought.

When I came here, he didn't have any concern for the people of Han because he didn't know what was going on.

So I did not explore the following situation, just follow it.

Now it is the knowledge of the underground cell, and the result is now blocked by a layer of protection, and can not be found.

There was no comparison last time, and it was not certain that the cell would have been protected, or it was added now.

But this one now also gives him a little more vigilance.

"The Emperor, we have to be careful later, if they can't do anything, they will ambush." Shen Lang secretly gave a thought to the Emperor.

The dog ***** doesn't care: "It's okay. If they don't respect us, I ate him!"

"..."

There are dog gods, and Shen Lang is just vigilant, not nervous.

The lift here is a bit slower, but the basement is not too deep and it will soon arrive.

When they came out, Qi Ming walked in front and took them directly to the cell.

Shen Lang and the Wuji ancestors walked into the cell together, and the situation inside was clear at a glance.

Dozens of earth monks are no longer there. There are six people in them, sitting or sitting casually, watching them together.

Shen Lang smiled lightly: "This is your arrangement? Eight Great Immortals hit me?"

Chapter 1463 - The dog is angry

Already here, Shen Lang will certainly not back down.

Six of them are Daxian-level, and one of them is Fengxian Daxian. This lineup still surprised him.

Like in the Han Dynasty, there is no big fairy in the daily life. The last time there was a ruin of the millennium, only so many big immortals appeared.

Here, Wu Hao's ancestors, just one day, gathered six great immortals to help out!

It can be seen that the number of Daxian here is not so small. Probably the overall strength is stronger, or the base of comprehension is larger.

Six big sages, plus two of them, two of them are Fengxian Daxian, so the lineup is really powerful enough.

I believe that Wusong's ancestors and Qi Ming were in-depth discussions, and asked in detail about the process of Qi Ming and Shen Lang's fight, so judging that Shen Lang may not be as strong as he suspects.

If Shen Lang is not the ***** of playing pigs and eating tigers, but only has a powerful beast ***** pet, then they can concentrate more on the big fairy, which can be won.

A sinking wave is a good research object.

And the value of this beast is also not lost to Shen Lang.

In comparison, the group of earth monks, that is, some bait.

“Are you afraid?”

Whether the Wuhuan ancestors blocked the Shenlang behind, but took Qiming directly into the cell.

He chose to use the radical method to directly leave the back door to Shen Lang. If you want to go, it will not stop.

Are you afraid?

As long as there are people with temper, I am embarrassed to choose to run away.

However, according to the character of Shen Lang, in fact, it will not be stimulated. Even if it is the views of the various factions on the earth, he does not care, not to mention the future.

It's just different now, there is a dog god, he is sure to get these big fairy.

“Afraid? I don't know what is afraid!”

Shen Lang took the Emperor's behemoth and followed him into the cell.

After the Wusong ancestors entered, they had been separated from Qi Ming. Others had occupied the seat at random, and this time they moved quickly.

Immediately eight people formed an encirclement, encircling the dark waves in this cell.

This cell is large in size. There were dozens of earth monks here and there were no problems with the beds. There are only nine people, and of course it will not be crowded.

“As for you guys, do you want to give yourself a chance to introduce yourself? If you do it later, you may have no chance.”

Shen Lang glanced around and directly spoke the provocative words.

“The murderer from the Han Dynasty! This is not the place where you are doing evil. Today you will know that the Han Dynasty is just a group of infertile people in the backcountry!”

He is talking about another big peak, and the two of them are the strongest in the field, and they represent the other people.

“Give you the opportunity to leave a name, but also say so much nonsense!”

Shen Lang shook his head and continued to say: “Give you another chance, together, let’s take the shot! Don’t bully you!”

Just the peak of the big fairy, was smashed by Shen Lang, his face is not good.

Originally he was ready to say a little scene, and then began to let everyone work together.

Whether it is an arm of the Wusong ancestors or the life of Yang Lan, they are the reasons for them to be besieged together.

But just the words of Shen Lang, let them go together, let them first shot, and said “don’t talk about bullying” them, this is very not a taste.

Which of them is not a big fairy on the famous side?

And besides Qi Ming’s youngest, everyone else is over 100 years old, who doesn’t want to face!

The siege of a young big fairy is already a bit of a face, and now the other side still said that it is obviously counter-talk.

“Since all of you have said this, then we are not old-fashioned with the old waste of our chickens and puppies!”

The old ancestors of Wuhuan are the official words of Shen Lang!

Other people are afraid of losing face, but his face has been thrown away yesterday, and I don’t mind a little more.

He took the initiative to admit the scorn of Shen Lang, and he ordered it, and the influence of the reputation was also borne by him, while others could relax.

Then he passed the sound and stunned everyone again.

“Let’s attack together! Don’t give them a chance, the dog is a very powerful beast, don’t care!”

Having said that, the others are still a little hesitant. Only Qi Ming is completely obeying the orders of the Wusong ancestors. They are both masters and apprentices, and they take the lead in attacking!

The two of them are the hatred of Yang Lan, the pain of the black-winged ancestors, and the direct shot is the lore!

Yesterday, Yang Lan’s end, the two of them saw it with their own eyes. If you give the other party a chance, you can’t do it yourself, so be sure to kill it!

The goal of both of them is the Emperor’s behemoth that makes them deeply jealous.

The other big immortals did not react slowly. Since the ancestors of Wuhuan personally took the lead, they had nothing to say, and they immediately followed them.

However, they considered the face and other aspects, but they chose to attack the big wave of Shen Lang.

To put it bluntly They still don’t believe that the dog is so powerful, even if it is a beast, it is similar to the big fairy. Regardless of the death of Yang Lan, or the broken arm of the Wusong ancestors, they must have been underestimated by their own.

As for the beast god, it is to face the face, in order not to make yourself seem so incompetent.

It’s all old guys, and I can still get it.

At this moment, the two of them attacked the Emperor's behemoth together. In other people's eyes, they wanted to vent their anger, and solved this very good beast **** as soon as possible, thus saving a little face.

So they chose the same shot for Shen Lang!

The reaction of their Eight Great Immortals has a different understanding of the Emperor.

The two ancestors of Wuhuan attacked it and brought so many people. This is to find revenge, and of course it will not let them go.

And the other six great immortals, they all choose to attack Shen Lang instead of attacking it!

what is this? Can't look down on it?

Because it is now shrinking, do you think it is strong?

It is a magnificent behemoth! It is the **** of all beasts!

In an instant, the dog is angry!

In its anger, the body quickly became bigger and restored the scale of the Emperor's behemoth. The Shenlang, which was next to it, was directly put on his back to avoid hitting him.

In the process of restoring the original shape of the body, no matter whether it is a black-and-white sorcerer or other people's attacks, all of them are endured by it.

But it doesn't care at all. It's just like itching it, it doesn't affect him.

After getting bigger, it glared at the surrounding fairy, and told them with their eyes:

Let your dog eyes look low! See clearly, this is the original appearance of Laozi!

Chapter 1464 - Great God

The eight great immortals attacked together, even if only the Wusong ancestors and Qi Ming both used their full strength, the combined attack power was also very powerful.

If the target of their attack is a big fairy, they may be killed directly. Even if they are the big peak, they are enough to drink a pot.

However, a spirited dog that they did not pay much attention to in their eyes was completely attacked by them!

As for its body becoming bigger, it is not too shocking. After all, it is only a large scale, and its shape is still a dog.

It was just that it was attacked and there was nothing at all, or that everyone was still stunned.

“Roar—!”

The dog ***** did not have too complicated an attack, just a mad rush.

At first glance, this is just the most common way for a beast to show momentum, but in reality it is a massive impact!

Their eight great immortals decided to swindle Shen Lang into this cell to decide the battle. Of course, they have been arranged in advance.

Just as Shen Lang was on the lift, it was not possible to sense the condition of the cell. Here, the array was isolated. It's not just isolation, it's also a solid protection.

The power of the protective array that can withstand the attack power of the Great Immortal can be imagined.

They are afraid that the battle in the city will be too innocent, and it is too easy to be suspicious if they want to lead the waves into the countryside, so they will disappear in the ground.

But just like the dog god, not only the eight great immortals of them have received a massive attack power, it is the protective array of the interior of the prison, but also directly destroyed by violence!

And its impact is still not right, directly overturning the entire underground cell around!

A moment's work, the people above, have felt a strong earthquake, the building began to collapse, the ground burst open...

The swell of the gods on the back of the beast, but the tranquility of the whirlpool of the eyes, he was not affected at all. It can be clearly seen that the invisible array collapses, the surrounding walls burst open, and all other cells are broken and broken, directly impacting the place where there is no excavation, and sinking deep into the ground.

The burst above is a blast from above.

The great immortals in the storm did not care about the destruction of these buildings, because they are now self-sufficient, just let them take a break and let them resist with all their strength.

It's just that there is no commandment. After a while, the six great immortals can't stand it anymore, and they vomit blood one by one.

The two peaks of the Great Fairy are also biting their teeth.

The Wusong ancestor who had just broken his arm yesterday broke the wound and the sleeves were red.

Great God!

Shen Lang is in the world of giant beasts, and he feels the monks of the gods and monsters comparable to the gods.

But this side includes the Wusong ancestors who personally suffered losses, and did not think that this beast **** has reached such a realm. He thought that it would be similar to the big peak of the peak, and it might be stronger than him at most, so as long as there are many people, you can still win.

Now they understand that the strength of this dog is far better than their imagination!

A dog in Shen Lang is so powerful, how powerful is he himself?

At this time, they are all struggling to support the dog god, and the Shen Lang standing on the back of the dog **** is calm and free-spirited!

In fact, Shen Lang is going to “Fox and Tiger”, borrowing the dog’s power; and the dog **** makes Shen Lang standing on its back, also for a better offense, can completely avoid him from being shocked.

However, in the eyes of the eight great immortals, it is felt that the dog **** is completely willing to surrender to Shen Lang, is a pet of Shen Lang, or how can he just let a person stand on it?

And if it is not stronger than it, how can it be accepted?

They are in the realm of Daxian, and they will only surrender to the peak of the Great Immortal.

The calm and calm look of Shen Lang is of course an example of the impact that they just can’t bear, and the Shen Lang is not affected at all.

So you know how terrible he is!

The strong who can control the gods of the great gods, they must be the gods!

At this moment, let alone the other six big immortals who have no direct grievances, even if they are Wusong ancestors and Qi Ming, they have no temper in an instant.

People are great gods, even pet dogs are also gods of the gods level, they should be careful to accompany the smiley face, just before Yang Hao's offense, do not kill it.

In exchange for a half-sex attitude towards them, even if they don't kill, they will certainly learn the lesson.

In the current situation, as the sinking waves of the human god, the attitude and temper are still good, but the beast is not so good to speak, and people are eaten directly.

At this moment, they also believe that Shen Lang said that it should really be constrained by the beast god, or else both of them may have suffered yesterday!

Then Wuhuan ancestors secretly smiled.

Yesterday, I have already offended Shen Lang and the beast god. I had the death of Yang Lan and one of his arms. Even if it is, the people who want it are just a group of outsiders.

Now it's better They not only transferred people, but also invited six big immortals to ambush!

This is another provocation to the great god!

Qi Ming is suffering in my heart.

No wonder it seems that it is only in his twenties. It turned out to be the disguise of the Great God. Naturally, no one can understand it.

However, you are a great god, why do you want to play pigs and eat tigers? Is it fun to play us?

If you know that Shen Lang and that dog have such strength, he certainly will not provoke it, and will not bring it back here. Isn't this a trouble?

When it was said that it was too late, the roar of the dog gods was maintained for a few seconds. They had already turned their entire way, and the entire underground cell, including the above buildings, was overturned.

But the whole process, for the eight great immortals, is an unbearable impact, and in just a few seconds, it seems as long as a few years.

Six directly vomited blood, the two ancestors of Wuhuan ancestors, also the cold sweat, until all the impact stops, it is a secret relief.

“Just you still need to play?”

Shen Lang took a circle on it and asked a faint question.

Although it is a temptation, it is also a bit of a fox, but it does not need to be shot by itself, but it can be a very cool feeling of suppressing a group of strong people.

He “abducted” the dog god, just want to act as a hitter, now this time, play more slippery, so that he can follow suit.

All eight big fairy smiles.

play!

They just put down the face of Daxian, and the eight people joined together. It was almost a blow to destroy the land. For others, just play!

You have a dog shouting, it has already suppressed us, how to play? How dare we play?

Everyone is depressed, but I don't know what to say.

Chapter 1465 - Daxian

The words of Shen Lang let these big buddies secretly smile, and they are speechless.

Although the Emperor's behemoth does not understand what Shen Lang said is specific, but in this case, the approximate meaning can still be guessed.

It can be guessed that it is definitely the communication between Shen Lang and them. It is not very smooth. These human beings are still not honest enough!

As a qualified partner, it certainly does not mind to continue to help the pressure of the waves, after all, it is just a little effort.

Ever since, without everyone's voice, the dog **** broke out again!

Just that time, because there is still the protection of the array, the external impact is the aftermath; the Daxian are also in an offensive state and can resist.

This time there was no sign, and the Great Immortals did not think that it would suddenly attack. So although they did not improve their strength, they still gave them a crit!

Between the time of the day, the eight great immortals, the peaks of the great fairy, all were shocked to the surrounding blast, and broke into the ruins that just flew out!

The fragmented pieces of the surrounding buildings were once again squeezed out strongly and penetrated deep into the surrounding earth.

The buildings above to the ground and then to the top have just been destroyed. After the impact, some collapsed to the surroundings, and some fell to the bottom.

At this moment, the impact of the strong, directly let all the collapsed buildings, completely out into the distance, the air.

Its powerful power not only destroys many buildings, but even powder dust, it is completely forced away.

For this city, it seems to have experienced a very small local earthquake. A magnificent building was directly blown up, dust, debris, etc., and it was forced to a distant place.

If you look at it from a height, it is about a few hundred meters around that building, it has been razed to the ground, and there is a big pit!

The eight great celestial beings were embedded in the underground mud together with the ruins, resulting in a huge dog in the entire pit, and the deep waves standing above.

Shen Lang is not worried about the earth's monks. Since they have transferred people, they should not stay in the next door or upstairs, so it is easy to find him.

As for the comprehension here, will it be hurt and innocent, he will not manage so much.

“Boom!”

The first ancestral ancestors broke free from the underground ruins, and leaped over, and squatted in front of the Emperor.

“We know it is wrong, ask the gods not to hurt the innocent city people!”

Just now, the dog god's casual screams have already wiped out this building. The staff here are naturally too late to escape. The nearby buildings and people are too far away to escape.

If they want to be angry again, they must ruin the whole city, and they must destroy all the people, but it will take only a little while.

This is the site of Wusong's ancestors, and not to mention irrelevant people, ordinary people, all his disciples and grandchildren are here. Once the city is destroyed, his martial art is completely destroyed!

Therefore, regardless of the injury, he struggled for the first time, and when he flew over, he was already kneeling, in order to express that he was not going to fight back.

Finally, the knees were heavy on the ground, but the swearing face of the face was apologized.

After yesterday, Wuzuo's ancestors also thought about turning over the market, calling more people, revenge, and smashing the waves and the dog **** to vent their anger and gain more benefits.

But now, he has only one idea – try to reduce losses!

The second strike just made other big buddies become very awake.

The strength of the other side is far better than them, and they will not tell them so much. Although Shen Lang does not do it himself, it is not the same to let the beasts start.

If they are still entangled in the face, the result is that today is going to be killed!

In addition to Qi Ming, they are all a hundred or two-year-old Daxian, Yufeng Daxian, which is a personal talent and opportunity, a large number of resources of the martial family, and a long and painstaking work.

In the process, they did not know how many people had been eliminated, left behind, and even died in large numbers.

Even if they hope, they will be willing to use it for decades and hundreds of years.

How can I die?

Therefore, the face of the great fairy is dignified, and under absolute pressure, it is quickly abandoned to the side. Coupled with the example of Wuhuan's ancestors, everyone is struggling to get together and kneel down for mercy!

“It is our offense, ask God to forgive!”

Everyone is almost unanimously begging for mercy.

And the posture they kneel down, although in a hurry, is also a bit exquisite.

Another peak, Daxian, was found beside the Wusong ancestors. The other five old Daxians are together in a row behind them. The most acquainted Qi Ming is alone at the end.

“Great God, beast god, Qi Ming has no eyes, no more offense before, but also hope Haihan, do not care with the junior!”

This result, Shen Lang looked satisfied.

Relying on the dog god’s power, the fox and tiger weiwei enjoyed the worship of a big fairy and a great fairy.

However, how to deal with them, Shen Lang is a little bit tangled. If you follow the attitude of the dog god, naturally they are eaten tonic. With such a batch of great immortals going down, the harvest for the dog ***** is huge. It may help it evolve over centuries and millennia.

You can’t harvest anything yourself!

He couldn’t say that the dog ***** had stunned them, and then he took it slowly and refining it. That would be of great benefit to him, and the dog ***** would not be fooled.

To put it simply, the light makes the dog ***** benefit, and the swell is not dry; the light makes him benefit, and the dog ***** certainly has opinions.

Not suffering from unequalness.

And one person divided into four “eat”, and it seems too evil.

Another one, what the dog ***** does depends entirely on his mood, and Shen Lang must be far-sighted.

The people here are opening a back door in Han Guo!

If they kill all the eight great immortals, such as the Wusong ancestors, and swallow them, even if there is no big god-level powerhouse discovered for a while. It will not take long for the information to spread out.

In the record of their information, Shen Lang is the strongest of the Han Dynasty. At that time, in order to avenge and dignity, it is to provoke two wars. The Han Dynasty will be innocently connected.

Of course, the priority of Shen Lang is the earth, which is the real hometown.

In the former Han Dynasty, the name of the former, including the name of the Han Dynasty, can be seen as inextricably linked to the Chinese comprehension.

In addition to the hundreds of years of non-returned sea prisons, Gao Hanqiu and Lin Biao's many people have arrived in the Han Dynasty. There are still many "flying" gods in history, all of which are in the Han Dynasty.

Including Shen Lang himself, I also gained a lot in Han, and I also know a lot of friends. Not counting the second hometown, but also having a certain feeling, do not want to see the destruction.

And now, even if the dog ***** is completely obeyed, he can't challenge all the powerful people in the world.

See you soon!

Chapter 1466 - Sincerely

"Apologize, will you?"

After Shen Lang thought about it, he slowly opened his mouth.

Instead of directly asking for his own request, he showed his gesture and kicked the ball to themselves.

When Wu Hao's ancestors had just been begging for mercy, they were already thinking about the next countermeasures. There were speculations about the requirements of Shen Lang.

“Qi Ming! Go immediately to bring the people of Shen Lang Da Shen!”

“Yes!”

Wusong ancestors quickly told me that after Qi Ming agreed, he got up and respectfully retreated, and after a little distance, he flew away.

“Those friends are the people of Shen Lang, we are not allowed to keep, we must respectfully send away. For their time here, we are treated with courtesy, without any disrespect.”

Is there any disrespect in the underground cell?

However, Shen Lang did not care about these. Compared to Yuxianmen and Haizu, the treatment here is indeed much more civilized.

Shen Lang looked down on them and did not express his position.

The Wuhua ancestors bowed their heads for a while and felt that the light was not enough to let Shen Lang let go.

At this moment they are in front of the Emperor’s behemoth, so close, to express sincerity. But this is very dangerous. If the beast ***** wants to eat them, he can’t escape, and he will escape.

“For our disrespect, I am willing to apologize in good faith!”

After the Wuhua ancestors finished speaking, there was a thread in his hand, which was respectfully presented.

Other big fairy people, of course, feel it.

It is still a little reluctant to ask them to pay a spiritual pulse, but compared with their lives, the best things are things outside the body. If they have no life, how can they be used?

Besides, if people kill you, can't everything be lighted up?

Therefore, less than half a second of consideration, all the big fairy are presented with a thread.

Everyone has already put up their sincerity to pay for the redemption, and then wait for Shen Lang to express his position.

Wusong ancestors hesitated a moment, Qi Ming is gone, but it is estimated that it is also a redemption price, or Shen Lang will certainly not let him go!

So he took another thread and presented it together.

Looking at the veins they showed, the Emperor's behemoth immediately moved his mind, and it was clear that this was a good thing.

However, in the end it is the master of a world, or to face, must maintain the attitude of seeing the world, so waiting for the waves to negotiate, and did not interfere.

"Good! Since you are willing to give sincerity and apologize, I can accept it."

Shen Lang raised his hand and collected all eight spirits.

"The other innocent city people in the city..."

Wusong ancestors still cautiously asked more.

Just like the tone of Shen Lang, it seems that I just want to let them go. It is necessary to destroy the city, leaving them alone, and it is also a very embarrassing big problem.

Shen Lang just paid attention to their expressions. Seeing that they took out the spirits, they were very painful, that is, when they were redeemed, they had to take it out.

It can be seen that even if they still have, there will be no more.

In this way, if you want to ask for more, it will make them desperate. The wages of avarice is death!

There are dog gods, of course, not afraid of them desperately, but like the previous concerns, killing them all, can not destroy the world's strong country, and eventually will lead to war.

"I won't hurt my innocence. If you don't force you again and again, I am like a friend to you."

Shen Lang would not have been able to massacre the city, so he made a good man by boat.

"Hey, hey, it's old and ruthless, and he is kind to the great god!" The old ancestors of Wuhua immediately thanked him again.

Shen Lang's words gave him a reassurance. People who are in this position, as long as they don't anger again, should not be reluctant to hurt and innocent.

Shen Lang gave the Emperor the Great Beast an idea to let it retract the figure.

The Emperor's beast is not a huge change. This is the strength of its body, which is more comfortable.

However, it also understands that it maintains this state, and it looks like a battle in the other side, so it is also obedient to put away the figure.

Shen Lang is in accordance with the press in the void, as if to press it down, and people are also next to it.

He has just collected the eight spiritual veins, and at this moment he directly throws a spiritual pulse into front of the dog god.

The dog ***** has just been coveted, and it is still calm. At this moment, the sinking waves are directly thrown into the mouth, and they are swallowed by the unwelcome one.

Shen Lang will give it a lot, it is not clear for the time being, but give it directly, let it be satisfied and quiet.

These fall in the eyes of the Great Immortals, and undoubtedly it is a deep earthquake.

Great God is the Great God!

It doesn't matter if you have a pulse, just like feeding a dog like a meat buns!

They were forced to contribute to the dog, and they were all distressed by Shen Lang.

“Get up!”

After Shen Lang's opening, Wu Hao's ancestors and others dared to rise.

“The Great God is still going to play around, or do you want to go back?” Wu Hao's ancestors cautiously asked.

This is his territory. Everyone else is here to help him. This must be his mouth.

It is now easy for God to send God. He certainly wants to leave quickly, but from the conditions of yesterday's Shenlang, it is very likely that he will go to other places.

Now he is also in a dilemma. On the one hand, he hopes to send this fierce ***** quickly. On the other hand, he has lost a lot of money here The face is also lost, not afraid of it any more, if Shen Lang wants to go again In other places, things will be fermented and spread, and will attract the gods!

“Do you want me to stay?”

Shen Lang satirized and smiled. Everyone was very embarrassed to laugh and dare not say anything.

“Forget it, go back! Take me to your place where the transmission is going. When other people come, I will take them away.”

This statement made Wu Huan’s ancestors and others all secretly breathe a sigh of relief!

He finally decided to go!

Wusong ancestors do not have to entangle, and sent away, anyway, this is the case.

“You please!”

He didn’t dare to ask more, lest the Shen Lang changed his mind and quickly asked Shen Lang to leave.

The city originally used aircraft, and it was forbidden to fly. However, Qi Ming also flew away directly, and now they are a group of big immortals, the highest master here, of course, can ignore the rules.

These big fairy, usually high above, out of reach, legendary characters. But today it is very embarrassing. All of them have been injured just now. People are embedded in the underground soil. The clothes are naturally contaminated with mud. Many of them are directly vomiting blood on the chest.

But at this moment, no one has been accidentally shaped. Seven people respectfully accompanied Shen Lang and the dog ***** and came to the building like the huge temple.

Of course, Wusong ancestors also had his way to inform Qi Ming. After they arrived, Qi Ming took a large group of earth monks and rushed over.

He was relieved to see that Shen Lang was leaving.

But think about the fight between Tiandu and Shenlang before, let him secretly smile, thought that you can lure a big fairy to come over and control, did not expect to lead the wolf into the room!

Chapter 1467 - Goodbye to earth

The monks of the earth, after being detained for a month, were transferred to the bad attitude, and they thought that this time was awful. Shen Lang's estimate was not fixed. There are also big fairy powers here.

They have already made the worst plans, and they did not expect that they just brought them here.

Moreover, the sound of Qi Ming in the realm of Daxian is very embarrassing, so that they also look forward to it.

Seeing the waves, there are a lot of powerful people, everyone is excited.

Is this still used? Obviously, Shen Lang is trying to save them, and he has done a great job with the big sages here!

And no doubt, it was Shen Lang who won them!

In addition to the good relationship between Chaucer and Shenlang, others can be regarded as non-intimate with Shen Lang. Many of them are not even one country, but Shen Lang has not abandoned them!

Originally, once and twice, it will make people get used to it for the third time. But this time because they are desperate, how can they not think that Shen Lang will come here, but did not expect that Shen Lang can harden a wave of immortals.

So when I saw Shen Lang's moment, I didn't speak under the excitement, but all of them had a strong belief!

At this moment, their worship of Shen Lang has really reached the level of the gods and ancestors they worship.

The power of pure faith came over, and Shen Lang was also very pleased.

Although these giants of the earth did not help him, they were like the burden of dragging oil, but this time they saved them, and it was also by the way. And they didn't take it for granted, not a white-eyed wolf.

The Wusong ancestors personally arranged the opening method and waited for them to leave.

This array is very large, and all of them are sent away at once.

Once again, it is in the valley.

“Come back! Come back!”

Everyone was excited and cheered.

Then everyone came back to God and excitedly thanked Shen Lang.

“Thank you for the master of Shen Lang... Daxian rescue!”

“Thank you for the rescue of Shen Lang Daxian!”

In addition to the verbal thanks, the power of faith is also very pure.

Shen Lang is now a leader of an old predecessor. He smiled and nodded to everyone, and accepted their thanks.

Everyone already knows what happened. Although they will not pass them back, they dare not negotiate in this valley and switch to the mountains.

“Shen brother, what arrangements do you have? We all listen to you.”

Qiao Yuxian represents everyone and asked this question.

After he considered it, he decided to call the “Shen Brothers”. This is a rare opportunity to hold a thigh. If you are so up because of the strength of others, you will be constrained, but miss the opportunity.

Shen Lang saw them all, seeing the eyes that everyone is looking forward to, and said a few more.

“I don’t know your business. It used to be purely coincidental. So, as before, you plan something else.”

When this is said, let everyone hope that it will fall through.

In fact, after Shen Lang left yesterday, they also negotiated with each other. However, the point of concern at the time was whether Shen Lang could save everyone.

Now that I have been rescued, I will worry about the problem.

But the meaning of Shen Lang is already obvious, he does not want to bring them together!

Everyone is not surprised. When the first wave came to the side, it was already because everyone had gotten the “benefit fee” and asked him to come. Otherwise, his strength is comparable to that of the Pope. He has the information that everyone does not have and can be enjoyed exclusively.

Now, people are already in the realm of the Great Immortals. The places to be swayed and the people who interact with them are not a class with them.

Take their own personal example, for the real thing, will it be a matter of reason, willing to take a group of still playing in the virtual world?

The gap between the two sides is too big, in fact, tired for everyone!

From a psychological point of view, the weaker side, of course, wants to mix with the strong, especially in such a dangerous place.

But in turn, following the strong, the risk factor encountered is completely different!

For example, following Shen Lang, if he is fighting with Daxian, what should they do? Don't say help, you may not be able to escape when you escape!

"What you said makes sense. After we separated, we also survived. It is also planned. It was originally intended to trade some of the harvested materials into the sky, and then we may go to the edge of the forbidden land."

Qiao Yuxian was not too disappointed, and calmly talked about their previous plans.

After the expectations fell, everyone calmed down. Before the Shenlang was separated from everyone.

"That's good. There is no danger in Tiandu City. I have already solved the previous enemy. But you still have a low-key one. If you act in unison, you will be more eye-catching."

"Yes!"

Everyone knows the strength of Shen Lang now, and understands that Tiandu City will not chase the outsiders of the earth, and rest assured.

"but....."

Shen Lang hesitated.

Qiao Yuxian immediately listened to him.

Shen Lang said that he had killed the longevity son to Yuxianmen.

“So, now that we know that road, we can go back. We can’t be sure if there is any information flowing out. And there are all kinds of changes If you get the same, go back as soon as possible! ”

“Understood, thank you for your information.”

Everyone also thanked Chaucer.

On the side of Bao Puzong, the information was leaked by Ge Luting. But now they are dozens of people, in fact, there are still some scattered and not connected.

For example, like the Pope and Archbishop Paul, after coming to the capital city, there is no more news.

Who knows these people, have they found their martial art to rely on mountains and the like? If the information is flowed out, the variables will be big.

There is also Bao Puzong, has it leaked to more people?

Shen Lang is so strong that one can’t restrain too many people, and everyone will return to it as soon as possible.

Especially this time, it was closed for another month, so that they were all worried.

The first time I entered the sea of innocence, I was inexplicably shackled.

The second time was to return to the Pacific Ocean, and it was inexplicably shackled on the seabed.

This time, it’s even worse. Just stop in a valley and discuss things, and it will hit such a clever thing.

Nothing is more than three. Everyone feels that this should be the revelation of heaven, let them leave early, and can no longer be greedy.

“Now I am in Tiandu, there are still some fame. But if you bear my fame, you must accept the connection, so you will not show you publicly. Take care of each other, we see you on earth!”

After Shen Lang’s confession was over, he left with the dog god. Before leaving, he swung the sword in the air and opened the big “Ten” in the valley. It was a mark. After all, the valley was too ordinary.

Others are going to Heaven, and his direction is also the same.

This matter is still to be spread out, and it can be regarded as a reward for the Han Dynasty.

Chapter 1468 - Amazed by the place

Shen Lang found Ji Qiandao in Tiandu.

Ji Qiandao learned that Shen Lang had followed Qi Ming and they went to the other end of Zhoushan, and could not help but be shocked.

Shen Lang is also simply telling him about the situation there.

There was a back door near Tiandu. I didn’t know how many hundred years ago, but no one knew it. This is undoubtedly a shocking message.

Shen Lang gave this information to Ji Jia, including the logo he made.

As for the Ji family who is cooperating with other major sects to discuss countermeasures, or if they want to enjoy this secret alone, he will not care.

After all, this is a crisis in the Han Dynasty, and there are people from the native of Han to decide.

Besides, he also gave a warning to all the sects of the Han Dynasty, letting them know that others may have one or even more backdoors here, or there may be spies on this side for a long time, don’t think about peace of mind.

The transmission array in the valley near Tiandu City is very likely, and the other party will give up.

Because this time, Shen Lang used the dog ***** to crush the other side, representing the Han nationality, the Wusong ancestors and others, will reassess the comprehensive strength of the Han Dynasty.

If you want to attack there, you will definitely consider it carefully.

And this transmission array has already let Shen Lang know, and the other party can no longer quietly observe it. It is likely to be abandoned in a few hundred years.

After giving this information to Ji Qiandao, Shen Lang left Tiandu.

He took the dog ***** and decided to go to Tangcheng again.

This is a dog ***** to see, but also a farewell, may not come again in the future. Of course, Tangcheng is the core, the number of transactions is not as good as that of Tiandu, but in the high-end quality, it is still better.

Therefore, he also wants to make a good purchase and bring it back to Earth.

I don't know how the retreat is going on in the cold autumn. If you don't take a year and a half in Zhoushan and retreat in ten or eight years, you can't say goodbye.

However, that does not mean that there is no chance to see you again. He can also pass through the Kunlun mirror of the Three Realms.

So this embarrassing mentality is very relaxed.

On the road, Shen Lang took out the seven spiritual veins directly.

“The Emperor! This time, it depends on your help. If it is mine, it will be me, and they will compensate for these spirits. All of them should be given to you!”

The dog ***** was immediately surprised.

At that time, it was the strongest on the scene, and in order to maintain the grace, it did not reveal anything. And Shen Lang immediately gave a thread to it to eat, let it feel that Shen Lang is enough meaning, on the road, and did not mention anything.

But still did not think that Shen Lang would actually give it all.

“You give me all, how am I. If it is not the layout of your dealings with them, how can we go there, not that you control the rhythm, I might have eaten them all at once, and I can’t wait for them to rescue the soldiers. “”

“You have this intention, I am very happy, indicating that you are really friends, not because I am with you, non-ethnic, not a world.”

After expressing the meaning, the dog ***** took a mouth and swallowed three of them into the abdomen.

“That’s it, half of one person! If you insist, you are afraid that I am not happy, that is, don’t treat me as a friend!”

Shen Lang shrugged: “Okay! Since the Emperor, you have said so, if I have to insist, I seem to look down on you. However, since it is a friend, I personally ask you to eat one, right?”

He put away three veins and threw the remaining one to the dog god.

The dog ***** swallowed it, “Friends please me, this I can accept!”

Looking at the sinking wave, he is very happy. As for the guest, it seems to be the same as asking him to eat all kinds of food. – Ji Qiandao, Qi Ming arranged for people to buy, because it is Shen Lang opening, of course, it is considered the body of Shen Lang.

Of course, Shen Lang is also very happy. This time, the harvest is really dependent on the dog god, otherwise he will be trapped like other earth monks.

So I just didn't retreat. I really want to give all the spirits to the dog god. He still has the hand and can get it generously.

And a few times down, I can see that the dog **** is really very interesting, do not need him to speak, are willing to take the initiative.

Also by the potential of others, the big force forced a lot.

So now he is also willing to treat.

After you came to me like this, the relationship between the two people was closer and a little more friendship.

All the way along the position of the record of the holy armor, Shen Lang took the dog god, and traveled to the mountains to enjoy the water.

Once again, Shen Lang is also a bit embarrassed. When I was at the beginning, the strength was not enough. I was defeated by Xu Yuyue and Count Dracula.

At that time, I met the ten-year Tangcheng Group, which was mainly a grand event for young beginners, especially those who lacked resources.

At that time, Shen Lang was still trying to earn a little spiritual stone. After talking with the masters of the pulpit, the masters of Zhian, they began to teach.

And what he told, after he ran out, let many people scold him.

Now, here, Shen Lang has changed a lot.

After all, he is still an old man, whether it is Zheng Man, Xu Haoyue, etc. of the previous life, or Yue Zhennan of this world So after arriving here, I thought about going to the VIP building last stay. Look, see if the boss still recognizes him, he still vaguely remembers that the guy who was specializing in them was Yan Xiaoqi.

The last time it was because of the group meeting, many people from outside the country, now it is a lot colder.

Shen Lang directly searched for the VIP Building Inn, and the result was a ruin!

Because it is not in the city's Wang District, the VIP building covers a large area, and there is a yard behind it. It is also in the backyard on the same day. Now the whole is all ruins, it seems to have been burned by the fire, and it has been a long time.

"Excuse me, there wasn't there a VIP building inn there? How was it like a fire?"

Shen Lang found a nearby store to inquire.

"Are you from a foreign country?" The store saw that he was a self-cultivator. Although he did not give anything, he also had a good attitude.

"Well. I have been there before, I lived in the VIP building. It feels good. I want to live here, but I didn't expect it to be gone."

"It's gone!" The store opened the voice and began to talk.

"When the Premier League was held, there was a young master from a foreign country who lived in the VIP building. At one time, it attracted many people to come here. The business was good. But unfortunately it didn't last long, and soon the group would pass."

Shen Lang nodded, the group will end, and there will be fewer outsiders. When he leaves, the flow of passengers will naturally be less.

"But the reputation of the VIP building has already been made, and the business is actually fine. The problem is..."

The store lowered the voice: "The young master offended the local giants. It is said to have offended the sect of the group. The master is doing it, I don't know, but the VIP building was also angered. After the group meeting, a The fire is swept!"

Chapter 1469 - angry

“Is it arson?” Shen Lang frowned.

“Isn’t it? And the master keeps the Quartet and does not let one escape. The innkeeper, the man, the cook, including the guest, burned more than 100 people!”

The store lowered the voice and did not dare to say too loud. However, because time has passed for a long time, he does not have much scruples, purely a subconscious whisper.

“At that time, we found fire in the vicinity, we have to go to the fire. Then we found that there are a lot of masters guarding, we are not allowed to come close. We also said that we don’t want to be burned, we will go back.”

“There is daring, hiding and peeking. It is said that no one has escaped. All of them burned out. The next day, the city patrolled, and an accidental fire was fixed. The body was cleaned up, and the rest remained intact. “”

“Who would like to accept such an ending? So this film has been empty until now.”

“I also blame the young master, he should live in those big inns. The VIP building was hurt, and we were tired of this piece of business. Now the business is not good, people are not coming here.”

This store, I may have seen Shenlang at the beginning, but it is not as impressive as the inn guys and bosses. Naturally, I can’t recognize Shen Lang.

Otherwise, borrowing his ten courage, he dare not complain face to face.

After listening to these things, the whole person has already gloomy.

He has no friendship with the VIP building, and he is only going to visit a business again. But now the accidental discovery, after he left, actually tired of the entire inn, including the subsequent guests died more than 100 people!

And still burn alive!

How can he not be angry?

Who is the starter, although the store can only say one, but it is not difficult to guess.

At the beginning, the organizers wanted to give him “please”, and the people sent out were dealt with by the governor of the tough front. The other seven people were killed by Shen Lang with a monthly needle.

Afterwards, they had nine families, the heads of the martial art, and the elders, and went to Qiu Lin Jianzong to discuss.

At that time, Mo Feiliu wanted to tell them reason, and Gao Hanqiu directly took a sword, and all of them were severely crushed and then thrown out of the mountains for dozens of miles.

After Shen Lang left with a canoe, Xu Haoyue and Count Dracula stayed. When I came back again, I had already learned some information from Weiqingcheng. Qiulin’s Jianzong had already released the wind, so that everyone knows that Shenlang is a guest of Qiulin’s sword.

Therefore, whether at that time or after, Shen Lang thought that those sects had anger and could only be suppressed. There is a cold autumn, there are Mo Feiliu, they are afraid of how.

And he doesn’t always be in Tangcheng, and he never thought about being retaliated by them.

I didn’t think of it, they would have angered the inn that he lived in, and they were so embarrassed that they directly ruined so many people.

This matter is easy to know afterwards, but anyway, the inn is an ordinary person who lives in the VIP building. It should also be some low-level foreign monks who come here.

Qiu Lin Jianzong will not be in their heads.

If Shen Lang doesn't know about this, he is still in a good mood in Tangcheng. At this time, he should also go to the major stores, including the tough front.

But now, this incident makes him very unhappy, he must ask for a fair!

He is not a saint. He will not say that the life of an ordinary person is a fate. If he is irrelevant to him, even he himself will hurt his innocence.

He can't accept others being hurt by him!

The problem came to him. Those people also felt psychologically revenge for him because of this anger.

He must let them pay the price!

The information of Shen Lang is just a gossip of a passer-by shop. But because it is a passer-by, there is no interest at all. Instead, it can be said to be more objective, even if the inside story of his understanding is very limited.

What the city patrols does not need to know, let alone clear the information, perhaps there is no record at all.

What Shen Lang wants is to ask for it, who is the one who shot it.

This thing, he has to deal with it!

In the realm of the dog god, of course, you can clearly feel the emotional changes of Shen Lang. It can't understand people's words, but combined with the environmental conditions here, you can guess a general.

Therefore, it did not say that it conveyed an idea that absolutely supported him.

Shen Lang took the dog ***** and left the VIP building area and went straight to the tough front.

Tough front is quite famous in Tangcheng.

In the eyes of consumers and foreigners, this is a large-scale large-scale weapon props manufacturer.

In the eyes of local sects and big families, it is clear that this is the industry of Qiulin.

So no one has ever dared to make trouble in the tough front. The last time Fan Yunduan, they waited for the Shenlang to come out and make trouble again.

Now that Shen Lang has arrived, just go straight up!

The person who received the following may have seen it last time, but he does not remember Shen Lang, so he looked at his posture and invited him to take a seat on the second floor.

“I still come by myself...”

Shen Lang did not want to embarrass them. After the talk, under the inexplicable reception staff, they often screamed.

“I don’t want to be, isn’t there?”

In fact, when he first came in, his knowledge had already been swept, knowing that it was easy to be in the office of the top floor general manager.

“Easy General Manager is now...” The receptionist stuttered and found no excuses. Someone came out.

“What is it?” is the official red wind.

He just heard the call for easy, and for the name of “easy and not”, let him immediately rushed over.

Just asked a sentence, I saw Shen Lang.

At the beginning, he was the first to discover the deep waves, and with the introduction to the easy, it is of course impressive to Shen Lang.

“It’s you! Master Shen, hello!”

The red wind immediately respected it.

The receptionist heard the sound of the red wind, and it was a relief. Finally, they had a support, otherwise they would not be offended by the customer I thought the red wind management would be tougher. At that time, I didn’t expect to see the red wind, and I was so stunned.

“It turned out that Master Shen came from afar! Please don’t miss it!”

After the red wind had just taken a word, it was easy to get down quickly.

They are up to the second floor, so the guests on the second floor of the first floor have heard the movement here.

Originally thought that it was just a foreign-born bun guest, many people wanted to see the hard posture of the red wind. Local guests in Tangcheng always have some sense of superiority.

I didn’t expect the red wind to become respectful, but I didn’t even think that it was easy to rush over, and I was sincere and fearful. I used the honor of the “master”, and like the juniors, they called themselves “nothing.”

So they all stunned. They just looked at the excitement, and they all concentrated on it. They stared at Shen Lang and tried to figure out what the big guy was.

Chapter 1470 - Tremble

“Speak above.”

After the simple sentence of Shen Lang, with the dog god, the person has disappeared and rushed to the office where it is easy.

Easy to make a look to the red wind, indicating that he settled in other busy guests, and quickly went up.

“Shen Master...”

After being easy to come in, he was very respectful and he was not very convenient.

“I didn’t expect you to come to Tangcheng...”

There is sound insulation here, and Shen Lang is not polite, just sit down and let him sit down and talk.

“Your lords, have they never come back from Zhoushan?”

Already here, Shen Lang did not rush to ask the VIP building directly, so I would like to ask my friends first.

“Return to the master’s words, after the ruins of the past, the lord and the two nobles, along with the Gaozu division, went to the mountains, and have not returned yet.”

After a respectful answer, I asked with awkward and careful question: “Hearing... You have also traveled to the ruins of Zhoushan. Should there be simple ancestors and sovereigns?”

Every day there are such rumors, and naturally it will be passed to Tangcheng. What’s more, Shen Lang still thinks that Qiu Lin Jianzong is helping him in the back. It is estimated that Mo Fei has sent a letter back.

Shen Lang nodded: “Nature has seen it. So I asked you if they came back.”

“As you know, the lords and the ancestors did not know where to return after they closed the house in Zhoushan.”

In the view of Yi Yong, Shen Lang came to Tangcheng and found the tough front. He should also want to inquire about this news.

Although he is not very clear about the specific situation, but Mo Feiliu has confessed to these core disciples, Shen Lang is the old friend of Gao Zu Shi.

Even if it is very difficult to understand, this identity is also unacceptable, so he must be careful to wait.

Since people are dealing with the high ancestors, they have a general attitude towards the lord, and naturally they will not find him easily.

“I will also ask, come here, is looking for you.”

“There is something for you, but please tell me.” Easy and unrepentant response, guessing whether Shen Lang is a weapon weapon.

In this respect, Mo Zongzhu personally passed it, as long as Shen Lang wants, no matter how expensive, all free gifts!

He had already prepared for such a day, and there were even some good things that were specially selected for Shen Lang.

“The matter of the VIP building. Who did it?”

“Guibin Building?”

After listening to it, I can't help it.

He was preparing to respond to the weapon magic weapon, suddenly came to a VIP building, so that he could not think of what it was.

Shen Lang shook his head slightly. For the big guys who are not so easy, more than 100 people are just a number. Anyway, they are ordinary people and low-level foreign monks.

“I stayed in the inn last year. After I left, I was burned by a fire. It is said that there are many people who are strong and guarded. They are not allowed to save fire. They are not allowed to escape. From the staff to the guests, more than one hundred people live. It was burned to death.”

I don't really think about it, I don't remember it at all. Hearing the silence and telling the story, he immediately understood his intentions.

“Master Shen, that thing... I also heard about it. The result of the investigation on the city patrol is an accident. It should not be someone...”

“Do you believe?” Shen Lang sneered.

It is easy to be silent for a while.

He didn't want to cover the murderers, but he didn't want to make things big. Anyway, things have been going on for so long, so everyone is fine.

“Say!”

When Shen Lang's sentence was said, it was easy to feel that the heart had stopped suddenly and was immediately taken aback.

His just respectful attitude towards Shen Lang was entirely the lord's sorrow, saying that Shen Lang was the old friend of Gao Zu Shi. Whether this is a good friend or a late friend, it is not important. Anyone who values the importance of the ancestors must be respected.

However, he did not pay much attention to the changes of Shen Lang, and thought it was the sinking wave of the year.

At that time, Shen Lang still needed him to help shelter, but when he said it, he even made him feel timid!

It's easy to pay attention to the situation of Shen Lang. Under this look, I couldn't help but be surprised again!

Before the Sovereign had information over there, let Qiu Lin Jianzong publicize, saying that Shen Lang had an adventure in the ruins of the past, and has reached the realm of Daxian.

But he did not believe it. He thought that just like the last time, he only helped the Shenlang to build momentum, so that some people in the field would offend Shenlang.

But the feeling that Shen Lang gave him, but it seems to be really powerful, and now the observation, let him realize that Shen Lang has been stronger than him, perhaps really reached the realm of Daxian!

It is easy to be the general manager of the tough front, and it is also one of the most important disciples of Qiulin's Jianzong. It has also reached the peak and the half. The person who makes him feel guilty is naturally at least a big fairy.

It's only after a long time that the singer's eyes are on the lookout. It's been a long time since then, and the sudden changes in the waves have really made him unbelievable.

At this time, the dog ***** looked at him hesitantly did not speak, could not help but whispered.

Fortunately, the dog ***** from the emotions of Shen Lang, knowing that this is not an enemy, so just slap him, but not to hurt him.

But the dog ***** is the realm of the gods, even so, let the easy to scare the urine.

“Big, big... Shen Daxian, of course I don't believe it. I have also investigated this matter.”

He unconsciously changed the master to a great immortal, and then did not dare to conceal and told him what he knew.

On the same day, the high-cold autumn smashed the sword and directly shocked the heads and elders of the nine factions directly, and then threw them out for dozens of miles.

That thing is not as good as them. Everyone stopped talking, didn't go to their own ancestors, and didn't look for Qiu Lin Jianzong again.

However, after the wind swelled, Shen Lang also left for a period of time. They could not find the sorrow and anger, and they did not dare to find Qiu Lin Jianzong. They also angered the people associated with Shen Lang.

Not only the VIP building was burned by more than 100 people, but also the masters of Zhian who helped the Shenlang in the pulpit, on the road, and in the opening ceremony, also killed together!

Of course, there is no notice to Yi Yong If you do that, it is a demonstration of Qiu Lin Jianzong.

Only after the incident happened, Qiu Lin Jianzong will naturally be greeted by the wind, and it is easy to inquire about it, and know what is going on.

For these two things, it is easy to choose not to report Mo Feiliu.

Although this can be regarded as the anger of Shen Lang, but after all, VIP Building and Master Zhian, there is no direct relationship with Shen Lang, it can be an accident.

Qiu Lin Jianzong's singularity of the local nine forces is already very arrogant. It's inconvenient and the other local sects have made the relationship stiff.

Since it is an irrelevant person to vent their anger, then it will be considered, but will not avenge Shen Lang.

After that, Shen Lang did not appear again, and other people have calmed down this matter.

But he did not expect that Shen Lang came over today, and it was for the VIP building.
