

First Strong 1481

Chapter 1481 - Why not be a giant?

The front facing the front of the tough front is a large shop facade, but in the back, there is also a backyard, the place is large, not inferior to the general inn.

On weekdays, they are not easy, they are red-hot, and there are employees of Tingfeng who have to stay here, and this is also a point of Qiu Lin Jianzong in Tangcheng.

Although there is not a long time to go back to the mountain, if a disciple is sent out to work, he can't go back and forth every day, that is, he settles here.

It is easy to arrange for people to prepare the best rooms and invite Shen Lang to stay.

From the street all the way, he did not mention the matter of this afternoon, Shen Lang did not say much.

After the check-in, it was easy to arrange a dinner soon.

Because the dog **** ate the dragon elephant beast, it really had no appetite. The whole became lazy, and wanted to lie down and sleep, not with Shen Lang.

The dinner is very rich, but people can only be accompanied by one person.

After the three patrols of the wines that were not eagerly greeted, they began to get to the point: "Shen Daxian, there was a fire in the city today..."

Shen Lang looked at him like a smile.

It's easy to see.

It's easy to go back to the mountains before I asked for it. It's just that Mo Fei's flow is not there. For this question, other teachers and elders are not good at making decisions.

Moreover, the status of Shen Lang is special, that is, Mo Feiliu must be respectful, and other elders, how can they be more than nothing, come to the front of Shen Lang, naturally also to be respectful.

As a result of their status, it is natural for a young man in his twenties to be so embarrassed, but he cannot do it.

So the best way to do this is to not face the sinking waves directly.

Since it is easy to receive now, and I have known Shen Lang before, then I will be handed over to him.

I can't run without it, and I have to face the waves.

"I won't turn, I know that today's business is what you do. Your attack on the Nine Gates is to avenge the innocent people who died in the VIP building. I also admire this, I can't do it myself. ""

After saying this, he did a glass of wine.

In the realm of his own, of course, there is no need to use wine to courage, this is just a gesture.

"I know that you don't look at my attitude, but I still have to persuade you. This is really too much!"

Easy to work hard to show sincere bitterness: "Today can be so smooth, because every family did not think that there are many masters, but also went to the ruins, and like our ancestors, they stayed there and did not come back. ""

"Once they come back, do you think they can breathe this breath?"

"How about that?" Shen Lang faintly asked.

"..." is easy to be caught.

so what?

so what!

When the ancestors of the family come back, it will definitely be your knife!

Once you take the knife, we can't sit back and ignore it, naturally it will be hurt!

But this is not easy for him to say directly. He can only look at Shen Lang and express his euphemistic protest with silence.

Shen Lang is funny, "Oh, I understand your kindness. But the bigger trouble may be the tired Qiu Lin Jianzong. When I leave, you will be blamed."

"I don't mean this... I..." I said it before, and I mentioned it. It is easy to explain.

Shen Lang interrupted him and continued: "However, do you think they really have this strength?"

Seeing that it is easy to understand, he said it is more straightforward.

"You Qiu Lin Jianzong, no matter how long the history of retrospection, in fact, is the two cold years, Lin Biao's two hits!"

"Tangcheng has already had major forces, and Qiu Lin Jianzong is a latecomer, relying on his fist to stand firm."

"Where is the anger now? If you look forward to it, where is the enthusiasm of a certain ancestor?"

This is not easy to say, but there is nothing wrong with it.

The founder is the big man of the founding school. In fact, what ordinary people can compare?

He has this power and he has to have this strength.

If you have the strength and strength, then you can't open the Zongli faction, and it will be the name of Qingshi.

"I have already helped you to sweep all the factions. I have not been tired of you, no name, no one even saw me. If you are discouraged, take the opportunity to kill all their factions, and then Tangcheng, autumn. Lin Jianzong is a unique giant!"

If you are in the dark, it's a bit confusing.

At present, Qiulin Jianzong is a major force in Tangcheng, but it is also juxtaposed with other nine sects. It will be one of the strongest ones, and it will not be the first in Tangcheng.

This has nothing to do with strength. After all, there is no open comprehensive test, but other people's historical heritage is stronger, and nature can also be ahead.

If all the other nine factions can be stepped on, then Qiu Lin Jianzong is really the only giant.

"Afraid?" Shen Lang joked.

It's easy to laugh and say: "This is not a problem that is not afraid of fear. Everyone is right, it's not very good."

Shen Lang snorted: "Don't you have two ancestors who are evil factions? When you came to Tangcheng, you didn't open a sky on someone else's territory! Didn't you eliminate other forces?"

This question is easy to answer, and he is not very clear about things hundreds of years ago. The current history of the martial art is naturally beautified. As a core disciple who

has been cultivated, he knows more about the inside story. In the past, the two ancestors really came out with a path.

“The times are different.”

“It’s not the same The predecessors want to fight the world on a zero basis. You can keep the world from the very beginning, and you don’t think about progress.”

It’s easy to laugh: “It’s not that you don’t think about making progress, but that other people’s homes are also very powerful. We can’t do it anymore.”

“I can do all the steps of the nine factions, can’t you do it?” Shen Lang taunted.

It’s easy to hesitate: “Shen Daxian, don’t say that I’m disrespectful to you, you’re great, but they’re not being attacked. They’re not as powerful as Fan Shu’s family. If they’re big, they won’t So easy to do.”

“How is Baiyu Village?” Shen Lang said proudly: “When I got to the back, two of them have already got the wind to hide. Bai Jiayuan is a little bit, they also got the news, except for the evacuation, Bai Yucun waited alone. I!”

Easy to move slightly.

Baiyu Village is the old-fashioned Daxian. The last time he was with nine people and twenty people, Shang Qiu Lin Jianzong, and Mo Zonghuo dare to negotiate.

If you don’t see the waves and the sound of laughter, he even has to worry about whether the waves will happen.

“I have already killed him.”

“When...” is giving me a sigh of sorrow, and I was shocked and shook my hand. The lid of the jug fell.

“The White House has a guardian beast. I don’t know if you have heard of it.”

“It is said that there are great supernaturals on Baijiazuo, and they have received a dragon-like beast god. After their death, they have been lurking near the white house and guarding the descendants of the white family. Is it true?”

Shen Lang nodded: “I have already killed it.”

“Dangdang!”

The easy-to-do jug also fell on the table.

Chapter 1482 - Fear

Shen Lang’s sly look is easy: “You don’t believe it?”

It’s easy to be awkward and laugh a little, to pack the jug to resolve the embarrassment.

At this time, Shen Lang directly passed the sacred armor. On the top of the table, he cast a light and shadow, and the picture of Bai Yucun feeding the dog, as well as the appearance of the dragon elephant behemoth, and finally his killing.

The Holy Ghost can record everything, and it is multifaceted, including close-ups. All he needs is to intercept a part of the picture, causing Bai Yucun to be killed and thrown to feed the dog.

The dragon elephant beast, in addition to its appearance, also showed its picture of moving the mountain, and then cut to death.

Falling in the eyes of easy and unreasonable, all of this is done by Shen Lang.

Shen Lang is not for the purpose of stealing the dog god, nor for bragging, but to hide the dog god.

Whether it is Qi Ming, the Wusong ancestors, or today and Bai Yucun, hiding the dog gods, they can well achieve the purpose of playing pigs and eating tigers.

If everyone else knows that he is beside a beast that is comparable to the Great God, he will be prepared for him or run away.

Looking at the front of the realistic picture disappeared, it is easy to avoid the head.

He felt that it was incredible, and did not say that Shen Lang could easily kill the old Daxian, and he could kill the guardian beast that had hidden for many centuries. The scene just presented is unbelievable!

He does not have the concept of technological civilization. He can only guess whether Shen Lang shared the ideas he saw and gave him the same picture as the perspective of Shen Lang.

Since it is the perspective of Shen Lang, it is the memory of Shen Lang, then there will be no fake.

Shen Lang, not only really achieves the realm of Daxian, but also can easily kill the old Daxian!

This is really horrible!

He also thought that it was the ancestors who raised Shenlang to the realm of Daxian in Zhoushan. Now it seems that it may be even more complicated.

If it is really the ancestor's shot, can the ancestors pay such attention, can their relationship be normal? Already far better than the outstanding disciple of Qiu Lin Jianzong!

Even if the best disciple of Qiu Lin Jianzong, for example, he is considered to be a good leader, it is estimated that the ancestors will not achieve this effect.

Looking at the gaze of Shen Lang, I am already full of awe.

The previous respect, more because of the respect of identity, know that he has become a big fairy, only have respect for strength.

Now, Shen Lang can easily kill an old big fairy, but also to kill the old beast, it is likely that the strength has reached the level of the sovereign!

Can you be awed?

It's easy to think of the blunder of Shen Lang before, even a little cold sweat.

"I don't think that Daxian is already so powerful. It's no wonder that I don't fear the nine sects." I don't feel sincerely.

"So, what do you dare? Do you think Mo Feiliu will be worse than me?"

If it is normal, it is a bit unnatural to hear Shen Lang directly call the name of the lord "Mo Feiliu", but it is no longer an idea. Not to mention the special identity of Shen Lang, the strength of light may be equal to the sovereign.

"but....."

Shen Langhehe smiled: "I will say this too. Anyway, I will leave soon, Qiu Lin Jianzong is yours, rise to become a giant, or continue as before, is your choice. Opportunity is accompanied by risk!"

After that, Shen Lang didn't say anything anymore, and he took care of himself.

It is easy to accompany, but eating and drinking has the same taste and chewing wax.

He hurried back to the mountain today, only to find the elders report, but there is no plan for him, or let him decide. And the meaning is obvious, you can't get tired of the martial art! Can't offend the waves!

When I returned to Tangcheng, I heard that Fan Jia and Huang Jia were destroyed and they were burning.

When he heard that he was a big man, he knew that it must be dry.

The result is that I haven't thought of what to do, 6 continued to have news back, one after another was picked!

For a time, everyone in Tangcheng was in danger and made a mess. Like the guests of the tough front, they rushed away. Whether it is local or foreign, I dare not just go outside, and go back to the enemy.

No one knows who is doing it. No one knows what the target is, and I don't know when there will be the next one.

If it is for the entire Tangcheng comprehension world, then after the major sects have been picked, it is natural to turn to other smaller forces.

And even the powerful local forces can kill, what are the politeness of the foreign merchants?

They are all worried that they will become the next one. The city patrol has arranged people, but they are all warlike.

It is easy to know that it is Shen Lang. According to the news, I know that he must have picked the nine sects, so he finally waited for him to return to the city.

There were two people who were injured in the back, but they were destroyed by the family business. It is easy to get back to the wind. I guess the white family should also be such a result.

Therefore, even if the wind and the river are all soldiers, he can still calmly meet Shen Lang to the tough front, but also a feast.

Now I know that the result of Baijia is worse than other homes. The strength of Shenlang is better than his guess!

Before I was afraid, I was worried about the smashing of the waves I want Qiu Lin Jianzong to support him, but now I have another feeling – when the lord is not there, he is in trouble, and Shen Lang can support him. !

Is there any effort?

If this matter is completed, even if he is not comparable to the founders of the founding school, but also an important figure in the master of the light, the disciples after a hundred years, will remember that he is easy!

This thought made his heartbeat add up.

The attraction of becoming a great man is too great...

In fact, Shen Lang is just saying this. In turn, it's easy to ridicule, and I don't know what his mind is.

After eating, Shen Lang went back to rest.

Originally, the purpose of coming over this time was very simple. As a result, I was surprised to learn about the VIP building, and then I knew the master of Zhi'an and let Shen Lang go away.

But after all the nine sects had been rounded, his anger was over.

The next step is the normal arrangement, and the purchase of some weapon magic weapons and the like to bring back to the earth.

After a restful night, Shen Lang's look at the dog ***** is also the rest of the eyes.

The dog ***** is definitely not sick, this guy is eating!

Then the big dragon like a beast eats it, don't know how long it will absorb it.

Ask if it should go out, the dog ***** is also interested.

Shen Lang came out by himself.

As a result, I saw that it was easy to walk around the yard.

“Is there something?” Shen Lang looked at him strangely.

It is easy to get up and practice the bends. And he is the highest general manager here. Something makes him entangled, and it can only be related to Shen Lang.

It's easy to laugh at it immediately: “The big thing is not good!”

Chapter 1483 - Public enemy

Shen Lang nodded and motioned to him directly.

I don't have to explain the long story shortly.

Yesterday afternoon to the evening, Shen Lang continued to pick up nine sects. In addition to the destruction of various headquarters, there were also a large number of casualties.

But the masters of each family are not all at home, there are two sects, and they are successfully avoided.

Therefore, these survivors who did not have any injuries immediately began the search and arrest of the whole city and wanted to find out the enemy.

They are also interoperable, sharing information, and the efficiency is far better than the routine tour of the city.

Combining the information of all parties, even if there is no direct recognition of Shen Lang like Bai Yucun, they still find common ground. There is a young man with a dog, which has appeared in many cases!

Under the hearts of the people of Tangcheng, everyone was closed and kept a high degree of alert. Under such a state, the search for the nine sects was also more convenient.

They had already investigated it last night. The Bai family was seriously injured. Not only was Baijiazhuang ruined, Baiyu Village was said to have lost its life, and it seemed that

before the death, the white guardian beast was summoned and the result was still dried. flipped.

When Shen Lang came back, he went to the city to find an inn, and then he was not welcome to come forward and returned to the tough front.

Even though there were a lot of people on the street at that time, there were always people, or there were people watching in the house. The information went to the nine sects, and the image and time were right.

A dog is naturally ignored by everyone, but the image of the young people, together with the easy to come together, was immediately guessed to be the previous wave of the festival.

Since it is a deep wave, then everything is explained. It is not that all the major sects in Tangcheng have been attacked, but they have had nine festivals! &1t;i>i>

And some people think of the fire in the VIP building, which corresponds to the current revenge.

As a result, everyone is eyeing Qiu Lin Jianzong!

This thing must be given to Qiu Lin Jianzong to give a confession!

It's just... the last time the various factions of the big gongs on the Qiu Lin Jianzong encounter, but also vividly.

Like Fan Shu, there was always going. Afterwards, everyone agreed not to disclose the information, but they are still clear.

However, the last shot was the ancestors of Qiu Lin Jianzong who could not be seen in the world. Now I heard that they are not coming back from Zhoushan. This has room for manipulation.

They did not rush, and one night they created an atmosphere of attack on the whole city, and then began to dispatch troops!

Whether or not there is an attack at home, on the whole, what can be mobilized now is still near Tangcheng, and it is too late to be too far apart. &1t;i>i>

For example, some sects and ancestors, but also in the mountains, the letter can not be able to pass letters, and can not let them come to rescue.

However, the nine martial arts families, and the big forces of Tangcheng, the foundations are still there, all add up, the number is more objective!

By the early morning of the day, they all came outside the tough front. Directly with dozens of people, silently lined up, directly to the tough front and Qiulin Jianzong pressure.

Shen Lang did not care about them at all, and did not pay attention to the outside movement. But it is easy to not care, and someone immediately reported it to him.

It is easy to collect information from all parties, and it is impossible to go out to face everyone alone.

“This is what you said is not good?” Shen Lang snorted.

It’s easy to laugh: “Shen Daxian, for you, maybe this is a trivial matter. For me, it’s really a big deal. And they don’t need direct hands-on, they’re already there. The public opinion has given us tremendous pressure.”&1t;i>i>

He sighed: “After one night yesterday, everyone was awkward, worried that there would be a strong field. But now that they see their battle, they will soon be re-judged. We will become a public enemy of Tangcheng!”

Shen Lang does not care: “What about public enemies? If you are not afraid of their nine sects, are you afraid of other miscellaneous? They have all been suppressed, who dares to publicize you? Only support you!”

Easy to stop.

He didn't actually sleep very much last night and has been thinking about this problem. Do you want to be a great man of the martial art?

This matter is definitely not to discuss with the elders, Shen Lang can talk to him, he is not sure to convince the elders.

To do it, he decides himself. However, with his strength, he still can't do it. He can only ask for help from Shen Lang.

Now a word of Shen Lang, let him hold it, and then suddenly! <i>

Just as the elders are not willing to face the waves, they don't want to take responsibility. If he is tired of Qiu Lin Jianzong, everyone will blame him, if it is to bring huge benefits to the martial art?

"Shen Daxian, are you willing to support me?"

Shen Lang looked at him and did not say anything directly.

"I am determined!"

"Let me see your determination." Shen Lang smiled.

Easy to resolutely bow to a ceremony, then immediately left quickly.

Shen Lang is slowly moving to the front of the tough front.

The staff of the tough front are the disciples of Qiu Lin Jianzong. They also understand that the identity of this young man is honorable. It is necessary for the director of the company to accept the reception. They dare not talk about anything.

Shen Lang came to the second floor of the tough front, and looked at the outside situation in front of the window facing the street. <i>

There are forty or fifty people coming from different sects. However, in addition to Baiyu Village has been eaten, other heads, homeowners and ordinary elders are only hurt by the dog god, rest and recuperation for one night, no big problem.

Among them, except for a few who are the peaks of the gods, they are basically semi-sacred, and there are a few big immortals and peaks and half cents.

To put it simply, both the quantity and the overall strength are stronger than the last time they were in the autumn.

And the last time I came to the site of Qiu Lin Jianzong, now it is in the front street of the tough front, so many people can open up, basically can achieve the effect of occupying the street, it is more powerful.

Shen Lang is upstairs. You can see a lot of people watching from the nearby to the distance. Some of them are on the other floor and on the roof.

Tough Feng is a famous shop in Tangcheng. It is also known that there is a great source. Nowadays, the major gates in the city are gathered in front of the tough front. This is a big event to be born.

Yesterday's situation made everyone uneasy, but now it seems that the incident has pointed the finger at the tough front of the Qiu Lin Jianzong background, and that is still the contradiction within Tangcheng.

When Shen Lang appeared, he immediately gathered everyone's eyes, and then the flame of hatred came out.

“Shen Lang! It's you!”

“Yesterday is that you attacked us!”

“You are a scum! Have the ability to fight with me!”

“Shen Lang! I am still alive!”

What I could have come today is also the representative figure of each faction. It has status and status. But when I saw Shen Lang, I thought that the family martial art was destroyed, so many casualties, I couldn't stop the pressure again, and I immediately drank it.

After one took the lead, more people immediately joined the drink.

Shen Lang is watching them with a smile.

Chapter 1484 - Hands-on

The smile of Shen Lang is more provocative to everyone, and everyone feels angry in the fire.

But angry and angry, they are not people without a brain!

The last time I went to find Shenlang together, it was also through the opening of the information, the value of this young man, I thought that the Qiulin swordsmanship should be exclusive.

Now they come to the Qiu Lin Jianzong to pressure people, can keep silent and not chaos, but also because the total has been negotiated.

It is possible to turn them over and over again, and the strength of Shen Lang has at least reached the realm of Daxian!

From the situation of the scene, there are many of their heads are injured, it is very likely that he still holds a powerful artifact!

Therefore, they came here to force the Qiu Lin Jianzong to make a statement and then decide how to deal with Shen Lang.

However, I didn't expect to be easy to avoid, and Shen Lang's appearance was overwhelming. &1t;i>

They have forty or fifty people, and there will always be children and disciples who are injured and killed. When someone opens their mouth, the herd effect will come out, and everyone will complain.

“The old man is a yang zonglong all over the sea! Please ask Shen Lang, an explanation for the attacks on our factions yesterday!”

Long Sihai is the patriarch of a Yangzong, and it is also one of the few who has reached the realm of Daxian. There is no Baiyu Village here, and he is standing up to represent everyone.

The others immediately quieted down and waited for the words.

“Dragon and the sea is it? Which of your eyes saw me attacking your various factions? The evidence came out and I looked.” Shen Lang looked at him with a smile.

Everyone listened to this and they were very upset.

“Does this require evidence?”

“It’s obviously you, except who you are!”

“You still want to argue!”

For the sound of drinking, Long Sihai raised his hand and signaled everyone to be quiet.

“Shen Lang’s lord is not a small person. It’s not a small person. Do you dare not do it?” He deliberately sighed.

There are no white people in the people on the scene.

They must have contacted the Bai family, but the Bai family witnessed the horrible scene, and Bai Yucun suddenly “disappeared”, leaving them without a group, no one dared to come out.

This is one of the reasons why other sects don't dare to rush, but most of them still don't believe in Bai's words. They don't believe that a dog in Shenlang is so powerful.

"Don't dare to do it? I first asked, there is a VIP building in the city, once burned by a big fire. It is said that there are comprehensions to intercept the guards, not to save the fire, not to escape, and finally burned the store and guests. More than one hundred people."

Shen Lang looked at the dragon and the sea coldly: "Do you dare to do it?"

When the words were spoken, the scene was a bit embarrassing.

For them, they all thought that this was nothing, and it has been a long time. If I didn't think of it last night, I wouldn't care.

However, privately, you can not say the life of ordinary people and low-level comprehensors, but you can't say it publicly. That is not true, and it will also cause public anger.

Now Shen Lang asked in public, Long Sihai could not answer this question.

He can't recognize this because he dares to do it.

"I wonder why you are attacking our various factions. It turned out that there is this misunderstanding! I don't know what the VIP building is. If you know it, it should be such a thing, but it will never be ours." "

Long Sihai opened his arms and said seriously: "We are all famous! This is a look at the city."

Just after the words of Shen Lang, it is spreading, letting the surrounding people see the association and discussion, so he also needs to clarify publicly.

Shen Lang faintly smiled: "Then I am strange. You are stuck in the tough front. It is said that the tough front and the Qiu Lin Jianzong are not famous. What are the enemy who

attacked you? Shouldn't you look for the city to check? You have identified the autumn. Lin Jiansong?"

This made the dragon and the sea stunned again.

The decent name is what he must confirm in order to make everyone believe. Today, it has been publicly pressured on the Qilin swords, that is, to force them to come out. But still can't directly say that Qilin Jiansong is an enemy group, then there is no room for maneuver.

"Shen Lang! Don't want to confuse, we believe that the enemy is you!"

It's hard to answer the dragon and the sea, and someone in the crowd immediately yelled.

Shen Lang glanced at the man and said, "Why would I be your enemy? I challenged you so many famous people for no reason?"

Looking at the crowds of the crowds, just listening to the words of both sides, there are also various tendencies.

Most people are inclined to say that if they are nine sects, they are not doing such a ferocious thing. How can Shen Lang not attack them without attack? Isn't this asking for trouble?

But why should Shen Lang avenge a person in an inn?

sense of justice?

Everyone does not believe in pure sense of justice.

Long Sihai is now entangled, and Shen Lang has this point. If they do not admit that they have destroyed the VIP building, there is no reason to retaliate against them. If you admit it, then everyone will not be disgraced and will be despised by countless people.

After all, there are some things that can't be done, or they can't be said.

But if you can't let Shen Lang admit that they attacked them, there is no reason to attack the board. This is also related to Qiu Lin Jianzong who has not expressed his position.

"I saw it!" Someone in the crowd yelled. "It's you! With a dog, it attacked us!"

"Yes! I saw it too! You destroyed our home and killed us!"

Someone immediately yelled This is the time, even if it is lively, I know that this is intentional. Otherwise, the beginning of the question of Shen Lang, Long Sihai will not answer.

However, the momentum has come out, their wishes are obvious, you are not saying that no one sees it? Then everyone stood up and proved that they saw it!

"The murderer! The tough front handed over the murderer!"

Someone immediately took the lead and shouted.

"The murderer! The tough front handed over the murderer!"

This is not a temporary intention, but it has already been negotiated.

Deliberately stressed is the "tough front", because people are in the tough front, can not avoid. But the tough front is just a weapon line, but the industry of Qiu Lin Jianzong cannot represent Qiu Lin Jianzong.

This is a big difference from shouting "Qiu Lin Jianzong".

"The tough front has always been confusing!"

A sound sounded, coming from the top of the tough front.

Everyone looked at the past and saw that it was easy to stand on the roof.

I saw him looking at the dozens of masters below with a look of justice.

“But some people want to take the opportunity to do things and destroy my foothold. The tough front is not afraid of things! Hands-on!”

The nearby merchants and the like are familiar with the tough front and the easy to be. I also know that there are unwritten rules and I can't make trouble in the tough front.

Now he is so pretentious to stand up and let the merchants feel that they represent them and fight against the local forces.

However, whether it is the nine sects, or nearby merchants, and all the fun. I feel that it is easy to say a few words, then everyone will give in and go in to negotiate the outcome.

Unexpectedly, he actually shouted “hands-on”!

Chapter 1485 - Chaos

The words “hands-on” have just been finished, and everyone immediately saw the appearance of the figure from the different directions of the window, roof, and gate of the tough front!

Everyone did not say anything, and directly attacked dozens of comprehension strongmen outside the door!

Light “hands-on” was shocked to everyone, doubting that it was easy to accidentally say something out of the heart, I did not expect it to be really an order!

These hands-on Qiu Ling Jianzong disciples are not personally in the battle, but the use of the tough weapon of the tough front!

The weapons and magic weapons of the tough front are notoriously good. Because they have specialized designers and refiners, not only the door, but also invite other famous people to serve.

But after you buy it, you won't use it regularly.

At this moment, it is the tough weapon of the tough front. All the weapons that are rarely seen by everyone are directly presented. Everyone is bombarded against the outside without any cost.

This is no wonder that it is easy and unreasonable. After all, there are forty or fifty outside, and some are stronger than his strength, let alone other disciples, and they need to make an assault.

When it is easy to say goodbye to Shen Lang in the backyard, he has already made up his mind and must let Shen Lang see his determination!

Therefore, he quickly passed, and the Qiu Lin Jianzong was a strong disciple of the tough front, and quickly assembled, and then distributed weapons and weapons.

When Shen Lang appeared, it attracted the attention of all the factions. Everyone was negotiating with him and staring at him for fear of running.

After all, no one thought that it would be easy to turn them over!

The result is to give them the opportunity to prepare. At this moment, it is easy to open the door, and all the weapons and weapons are ready to open.

At the time, all kinds of attack magic weapons were all presented.

Some are like bombs, fly out and burst into the surrounding area immediately!

Some, like the nebula chains, have the attributes of ice, fire, etc. Once they are touched, they are easily controlled.

Others can affect the surrounding scenes and create effects similar to smoke bombs.

There are also a large range of weapons like the torrential pear needles...

On the basis of the number and strength of both sides, the tough front cannot be compared, it is simply a difference in magnitude.

But because of this, the people outside the major sects did not put them in their eyes. There is no direct action on the tough front, purely to look at the face of Qiu Lin Jianzong.

The result is such a group of people they can't see, go straight to death!

These weapons and magic weapons attacks, if normal, they can basically be defended.

But now all the indignation is thinking about doing the dry waves, but I didn't expect to attack them in all directions, but I was at a loss.

The fighters are changing rapidly. Even if the people of Qiu Lin Jianzong are worse, there are still some semi-sense levels. Together with the weapon magic weapon, the effect will come out.

And Shen Lang is also full of attention, when it is easy to come out, he knows that it is easy to figure out.

Since I don't want to do a big job, he certainly doesn't mind to join in the fun!

Therefore, in the moment when it is easy to shout out the hands-on, Shen Lang directly released the eight-needle of the moon, and the target is a few big fairy such as Long Sihai!

The strongest of them are in the center of the crowd, facing the door of the tough front. This is both a symbol of identity and the center of unity.

But now, it is the goal of easy attack!

The eight-needle is a tactical attack. The more and stronger, the more the Shenlang is now. Even if a big singer attacks multiple big sects, it still keeps them around.

For the Yueyue needle, Long Sihai and others naturally do not understand, but the encirclement formed by the eight needles has already attacked the power, but they are clearly felt.

At this time, the attack launched by the tough front, they feel that it is nothing, the key is to deal with the attack of Shen Lang.

The result is that there is no big fairy to help suppress, the result is the unprepared half-ministers, and they are tired of dealing with the magic weapon.

I don't have to stand on the roof and force it. He has a sword. The roof is both for the momentum of speaking and for occupying the commanding heights.

After shouting "hands-on", he did not hesitate to hesitate, and he had already swayed a sword array!

Under the bonus of the sword, he is a sword and a squad with a peak and a half. The power is not the same, and it directly covers the forty or fifty strong people on the street.

The purpose of easy and unreasonable is also very clear. He does not feel that he can get all four or fifty people together. Even if Shen Lang is shot, it is impossible to do it.

He just wants to trap them, so that they can't escape, and let them one more layer!

The result is very obvious, these powerful people, not only have to deal with a heavy weapon magic weapon attack, but also have to deal with the above-mentioned swordsmanship, it is even more fussy.

The outside movement has already disturbed the dog ***** who closed his eyes. It immediately rushed to the side of Shen Lang.

Look at this posture, needless to say, it also knows that this is the revenge of those people yesterday!

Yesterday, except for the last dragon elephant beast is Shen Lang, the other is the dog ***** shot In its view, revenge should of course be revenge on it.

The current situation is that Shen Lang and his friends are kneeling together for him.

Shen Lang didn't call it, didn't want to disturb it, and would rather be jealous of himself and other human beings. What a fun friend!

The dog ***** moved for a while, looked at Shen Lang, the meaning is very obvious, want to play!

In the eyes of the dog god, it is some chickens and dogs.

Although there are many in quantity, the overall strength is still worse than that of the Wudai ancestors, their eight great immortals and the peaks. It still doesn't need too much movement, and you can get them all with a single scorpion.

Shen Lang quickly distracted and stopped it!

"The Emperor! There are many ordinary people here. They are irrelevant. They don't do evil. If you shoot, you will hurt too much innocence, including all kinds of buildings."

"You will do me a favor, control them all, so that they can't fight back!"

Because there is no need to say it verbally, Shen Lang's idea will let the dog ***** understand his arrangement.

After the dog ***** understood it, he immediately intervened to help.

In fact, for it, the shot is an indiscriminate attack. If you want to not hurt the innocent, you have to be careful, it is also a troublesome thing.

Since it is only assistance, it is much easier.

For the field and the like, the half of the scene, the big fairy, are too late to control, and the dog ***** is the ***** level, even if they control in advance, it can also quickly reverse!

Between the time of the time, the Fifty and Fifty Men of the Nine Gates, including Long Sihai and other big immortals, felt that the whole street was distorted, as if the buildings on both sides were rapidly dumping, and they were to be squeezed together...

Chapter 1486 - personal show

With their strength, let alone the big fairy, even if it is a god, it is not afraid of being crushed to death by the house.

But the picture I saw now is too strange. The houses on both sides are not collapsed, but the whole is distorted. As the sky is distorted, it is necessary to wrap them together.

That gives them the illusion that they are going to be compressed in a dark space!

At the same time, they felt their feet seem to be solidified, and they could not escape if they wanted to escape!

In the next moment, everyone felt that there was a feeling of being trapped in the quagmire. It was very difficult to move.

This time, everyone is shocked.

This is no longer a magic weapon attack, and the tough front here, even if it is the most powerful and easy to use, it will definitely not achieve this effect.

Especially those big fairy, they have to look at the object to do this. Like now to control them dozens of people, including these big fairy, they can only point out that Shen Lang is stronger than them!

Shen Lang is probably the peak of the big fairy!

Although this conjecture is very crazy, it is incredible. But the facts are so crazy, they can't believe it...

Dogs are a little tricky, and they have no way.

Not only other weapons and magic weapons, they are attacking them with the trend.

The swell of the moon and the moon, it is a miraculous effect, directly pierced several big buds, and some other people around it were even affected.

“Everyone is calm!”

When Shen Lang spoke, he jumped out of the second floor and fell directly into the street, to the side of several people in Longsihai.

In the eyes of those who watched the battle in the distance, Shen Lang jumped into the encirclement of being attacked at this moment, and it was asking for trouble, and it seems that he is helping other weapons that block weapons.

But in fact, he is taking advantage of the short-term attacks on them in the next month, and the rapid close control of their bodies, with a very fast degree, directly take the mental power of several big immortals to take time!

It's hard to really take the time, but it's also a 7788.

The whole degree is very fast, and the Shenlang is in the shape of a barrier to cross the crowd. As a result, the half-scented, the peaks and the half-sweeds controlled by the dog gods are all taken out of the spirit.

Their recent encounters are making them frightened and desperate, so that Shen Lang can easily break through.

And in such a circle, except for a few fish that leaked the net, most of the mental power was pumped by Shen Lang!

On the surface, Shen Lang blocked a lot of attacks for them, so that they did not die on the street.

The pressure on the upper sword array is not easy, and it is a bit puzzling to see the behavior of Shen Lang.

However, Shen Lang is not only very powerful, but also his intelligence is deeply admired. Coupled with the special relationship between the two parties, and the relationship between Shen Lang and the enemy of the other side, he believes that Shen Lang cannot be betrayed.

So I immediately ordered all the people in the tough front to stop the attack.

The result of this result is like the dissatisfaction of the tough fronts, so they directly attacked and maintained the dignity of the tough front. And Shen Lang complained with the Germans, and helped to save everyone, and let the tough front stop the attack.

This ending made the onlookers sigh.

This is the real decent!

The behavior of Shen Lang, let them firmly believe that Shen Lang said, I think their nine sects may have done the inhumane things.

In this way, Shen Lang became an image of chivalry that is unfair to ordinary people.

Onlookers, naturally, it is impossible for the nine sects. They are either outsiders or small sects. They all have a sense of identity. The people including the bottom layer are deeply impressed by this rare.

For a time, they all poured out the power of faith and went straight to the waves.

Shen Lang originally wanted to provoke Qiu Lin Jianzong, and destroyed all of their nine sects. They could not be destroyed. This is also his further revenge.

It was just a random plunder to plunder their mental power, which is already a huge gain.

Unexpectedly, there is still a lot of faith coming in!

Everyone here is not weak in strength. Even if it is not at the level of Daxian and Banxian, it is also a big deal.

Their power of faith is no less than the sincerity of all the top powers on the planet.

These unexpected gains made Shen Lang decide to perform again.

“Let’s stop! Don’t be evil, don’t be good or small. Even if it’s just an ordinary buddy, a low-level comprehension, they have the same lofty soul as all of us!”

“If you have been blaming human life, you should be punished. God’s punishment is often based on the hands of some people!”

“Today is my replacement for God, to collect your punishment.”

“If you have to reverse the meaning of heaven, you really have to break into the magic!”

Shen Lang spoke a little bit, basically speaking to the crowd watching the crowd, that is, his personal performance show.

“Let’s do it! You want to confess, you really can’t say it. You all kneel down and confess to the innocent dead, even if it is finished.”

This is an action to express an apology but if you confess, is not equal to the recognition of disguise?

Everyone is very curious. I don’t know if the masters of these nine sects will really regret it.

This is equivalent to seeing whether Shen Lang has this strength to suppress them.

The result is a burst of “sounding” sound, the scene of forty or fifty people, except for a few big fairy, all smashed!

Everyone was amazed and felt that since they were all embarrassed, it was equal to indirect recognition!

Only they themselves know that they are involuntarily, not to mention rebellion. Now they can't even speak and defend. They can only watch others being oppressed and stumbled like themselves.

“Knowledge can improve Mo Dazhen, repentance, or a good person.”

Shen Lang sighed again, and said that the voice just fell, a few big fairy also smashed!

Of course, this is not because the big singers are stronger. In fact, under the control of the dog god, they have essentially collapsed.

And just after Shen Lang has drawn their spiritual strength, it is easy to overthrow them at this moment.

The reason why they did not completely fall down together is to give the outside world an illusion that this is not a strait that forces them to promise, but a decision in desperation.

The big fairy, pay more attention to face, so it took a while to swear.

“Oh! Your sincerity, I understand. I am also very pleased. After all, you are not a very wicked person, at least... you know that you admit your mistakes. The dead, you can be comforted. I will no longer mix you... ..”

After Shen Lang finished, he jumped to the second floor.

The attitude is very obvious, his problems have been solved and put down, the rest is the grudges of them and the tough front!

Chapter 1487 - kill

Qiu Lin Jianzong disciples who are easy to do with other tough fronts are incredible, but they all understand that all this is achieved by Shen Lang, which also makes Shen Lang mysterious and powerful.

Easy to do but did not let this opportunity, has already landed from the roof.

“I don’t care what you are famous! We are not easy to buy, and we have bought the best materials. The corporal of Li Xian invited the best refiners and craftsmen from all over the country to create the best products!”

“You guys, do you want to bully us and bully us?”

“Our merchants, our craftsmen, all our buddies, are also dignified!”

In the end, I don’t know how many years I have been doing business here. I have a certain influence, and I know how everyone feels and is confused. It is still in place.

In this case, most of the onlookers were drawn to a camp.

And from his expression, the tough front is also a vulnerable group oppressed by these big gates!

“That’s it! The big door can’t let it go!”

“Can’t be jealous!”

“They are killing people!”

“Kill them!”

After some people bravely supported a sentence, more people immediately joined them, and then shouted more intensely.

Soon, merchants from far and near parties are in a state of solidarity.

For them, they are also fighting for their own interests. Anyway, they are now in the forefront of the fortune, not jeopardizing them, shouting.

“Today, I am easy to do, just make a big wicked person!”

It is easy to know that Shen Lang has created opportunities for him, but after personally landing, he has been in close contact and is sure that these people have become weak and resisting difficulties.

So he directly executed the bold decision he had made!

kill!

In the hands of the sword, the flying dance quickly, the sword swiftly swept through a circle, and immediately the trapped strong people, one by one to harvest their lives!

“Would you like to eat it for you?” Shen Lang and the dog **** communicated.

This one, still relying on the dog god, must be considered for it, so many strong, you can also eat a meal.

The dog **** shook his head and refused.

It looks like a dragon like a behemoth, and its supply is too big. Now it is like a person after a gluttony, and there is no appetite for others.

Shen Lang will not stop, watching the easy to not all people, including Long Sihai and others, have been cut!

He is also quite a bit embarrassed. Once a person has great greed, he can really do anything!

What is easy to be greedy is the opportunity to become a great man of the martial art.

Therefore, he can directly kill dozens of people in the street, and is also a key member of the major sects.

Although it is easy to be unscrupulous, it is red-eyed, but he is another kind of understanding.

He felt that these strong men were all controlled by Shen Lang, otherwise he could not kill them one by one.

So from this point of view, both the mastermind and the murderer should be Shen Lang!

He himself...just an executioner.

When the executioner is not so psychologically burdened.

Therefore, it is easy to avoid the instantaneous work, has already killed the blood into a river, and the streets in front of the tough front are red.

It's scary to watch the fun!

Originally they were screaming "killing them", but it was a bit like a hatred and a strong enemy, shouting.

They also don't feel that they can do it and do it.

Can really look at dozens of people in front of being killed one by one, or fear.

"Tangcheng is not looking at the faces of their major sects. They are squandering their lives, and they have no qualifications to be a decent!" The self-proclaimed domineering forces should push them!"

"The whole Tangcheng, I feel qualified to be called the decent, that is, Qiu Lin Jianzong!"

"Qiu Lin Jianzong!"

"Qiu Lin Jianzong!"

It is easy to create momentum, and the people of the tough front are the disciples of Qiu Lin Jianzong, and of course they immediately cooperated.

I heard them saying “Qiu Lin Jianzong” in unison, watching the crowds, only to understand. After all, people still have to seize power from each other!

For a time, everyone did not dare to mix too much, and did not dare to talk casually.

However, compared with the nine sects who burned more than 100 people, the Qiu Lin Jianzong had the most toughness and could barely count as “profiteers”, but the quality is really good, and there is nothing wrong with it.

Although they are not convenient to follow the Qiu Lin Jianzong, but basically the default is easy to do not.

It is easy to arrange people to clean up the bodies on the ground.

“Everybody, Xiongtai! I am very sorry about what happened here today. But I can’t help but say it loudly here. It’s always safest for me to be here. It’s forbidden to commit anyone.”

“Today, dozens of people are bullying the door. I have been hiding for a long time. I can’t bear it. If we don’t resist, they will buckle the hat to us at will. Maybe we will burn the tough front tonight and kill us all.” !”

“And the next one, who might be? This home, that home! They don’t look good, every one is impossible!”

It’s easy to say this let other merchants be secretly scared.

Although they instinctively felt that the major sects should have certain clues and evidence, the tough front was not so innocent. But what if?

Besides, Yi is not a strong now, it is a winner.

At this time, they are more admired for Shen Lang!

Besieged by besieging, and finally to help them stop the attack, people are really good people, complaining with morality.

Easy to be a mere.

“In order to give everyone a crush, all the products of our tough front can be used for 20% today!”

It is easy to represent the tough front, and directly gives a big discount, the concession is the most real.

But now I am still collecting the body, naturally no one will come in. In addition to the original purchase of weapon magic, the average merchant, local guests, will not be impulsive consumption, 20% off is not cheap!

The second wave of Shen Lang laughed.

A lot of the power of faith, let him feel the “people’s heart”, and easily bear the image of “killing king.”

However, this is also to ask for the benevolence, easy to not want to become an important role in the history of Qiu Lin Jianzong, you must pay a sufficient price.

The greater the notoriety that bears now, the more he can be named in the martial art.

He did not continue here, but took the dog **** back to rest.

Of course, the unscrupulous mind is not in the tough front, and it is handed over to the management of the red wind. He himself immediately took the person and started the next step!

However, after all, he was not murderous. He did not squander the Fan family and the shepherd, but began to spread the news. Call each other and let them make a decision, either return to Qiu Linjian, or leave Tangcheng!

Since it has already been done, it will naturally be thorough and directly dispel the nine factions.

Chapter 1488 - Great harvest

It's still a little tricky. He brings people back to the bodies of each family.

When the bodies of Fan Shu and others were thrown in front of the Fan family, the body of Long Sihai was thrown in front of a Yangzong. The factions that had been ruined by the headquarters could not bear the impact.

Even if there is a **** person who wants to work hard, it is also pulled by other rational people.

This fall, almost the heads and elders of the various factions, suddenly lost the backbone of the heart, facing the aggressiveness of the Qiulin sword, everyone chose to bow.

If you continue to be in Tangcheng, you will return to Shunqiu Linzong, and the days will not be easy.

It is said that it is shun, it is estimated to be slavery, and it will be slowly excused by it!

Therefore, everyone basically chose the latter road, bowed down and softened, confirmed that they immediately quit Tangcheng, left home, never come back.

In fact, for this road, they also suspect that there is danger. The biggest possibility is that Qiu Lin Jianzong will send people to chase!

Staying here, you will be slowly looking for opportunities to kill, which is a more stable control.

If you leave, you will encounter direct killing, but now the nine factions go together, and Qiu Lin Jianzong is also difficult to control, there are still many variables.

So they choose to leave, it is also a gamble, betting someone is worse than themselves!

The people of the Nine Schools verbally agreed that it was easy and unreasonable. They said that their bodies would be buried and they would leave as soon as possible.

In fact, when you are easy to leave, you will organize everyone and divide into several ways to escape from Tangcheng!

Tangcheng is still very big. Even if the people of the Nine Gates rushed away, there was no escape.

However, what happened these two days has made them all the focus of the outside world.

Moreover, the headquarters was destroyed, and whether they lived in other hospitals or inns, they would be surrounded by people around them.

Therefore, their departure, not only the spies who specialize in inquiring about the news, but many residents of Tangcheng also paid attention to it.

And this information, through the spread of everyone, quickly spread, and soon spread in the city.

After easy and unreasonable confirmation, there are no white people in the forty or fifty people.

And he still did not trust, specifically rushed to the white home to search for it.

As a result, Baijiazhuang, built on the mountain, could not be found, leaving only the deep pits that the giant beasts climbed out, and the ruins after the battle.

In the back hill, he also saw the mountain peak that was collapsed, and the mountain peak that was lifted up. Everything confirmed the information that Shen Lang showed him.

This made him more awe of Shen Lang.

However, the people of Baijia are not looking for it anymore. Ordinary villagers may be mixed into villages near Tangcheng, and the rest of the Bai family should have escaped one step ahead of other factions.

This result is also to make you feel satisfied.

However, between the day, he is easy to sweep the Tang City nine sects!

This undoubtedly made him a bit fluttering.

Although this credit relies on the deep waves, Shen Lang also said that he is not a person of Qiu Lin Jianzong and will not stay. In the future, the history of the Qing Dynasty will only be his easy!

With this result, it is easy to continue to sit in the town, let Qiu Lin Jianzong eyes wide open eyes, always pay attention to change.

He is also maintaining a high degree of alert. Once there is a sign of counterattack, he can immediately fight.

At the same time, let the red wind quickly return to the mountain to report this information to the elders of Jianzong.

On the one hand, let Qiu Lin Jianzong maintain a wartime state, and others will sneak into their nest at any time.

On the other hand, it is also necessary for the elders to arrange more powerful people to come to the city to take over the nine sects, or to have strong support.

This information was passed back, and it was undoubtedly the Qiu Jianjian to the deep earthquake.

It's basically the same as the elders, and they don't care much about things. But when they are so big, they still blow them out and have to face them.

The brothers and sisters of his peers are the backbone of the door. Although they do not agree with such a decision, they have already made it possible to make Qiu Lin Jianzong become the only giant in Tangcheng. They are still very excited.

When the mountains are noisy, it is easy for me to report all the situation to Shen Lang.

“The situation is like this. They are beaten up by snoring. But today’s departure, it is estimated that they are holding the green hills and they are not afraid of burning wood. They must have revenge.”

“So I still need Shen Daxian to sit down and support me, or else we can’t resist it.”

Shen Lang looked at the ease, today’s decision, let him look at each other.

“Is this wanting me to be your hitter?”

“Don’t dare, don’t dare! You are a high-ranking person, a high-ranking person who we admire from top to bottom, including the sovereign. Of course, you don’t have to understand that you can’t waste time.”

Easy to go on, I promised the benefits immediately: “We are developing the ruins of the headquarters of the nine sects. I believe they are too late to evacuate. There are still many resources buried in the ruins. After these harvests, I will present them one by one. For you!”

Being able to control the forces of the nine sects is already a huge gain for the Qiulin swords. In the future, the financial resources will roll, and this will not be accumulated in the past.

“And, this is collected from dozens of them.”

It is easy to put on a large storage bag.

The bodies of those dozens of people were collected by him Before they were handed over to the various factions, of course, they all buckled their storage bags.

Now all in a large storage bag, not that he has chosen once, but for dozens of too cumbersome, so unified classification.

Shen Lang took a look at it. Several of them are Daxian, and many of them are heads and homeowners. The material reserves inside are really huge.

“Do these all give me?”

I am not too busy to accompany the laughter: “Yes, it should be, if it is not for you, I am not their opponent. No, if you don’t have your point, I don’t have this power at all!”

“Do you know that Qiu Lin Jian Zong will not punish you?” Shen Lang looked at him like a smile, can guess the attitude of the older generation.

It’s easy to be true: “I am willing to punish me! This is a good thing for Jianzong’s great career. As I said before, let me be the big wicked!”

“Yes, you made me see the determination, so I will help you. These... I will accept it. Others you have dug up and found it, I will give it to you.” Shen Lang took the storage bag away.

This is the reserve of the nine sects and families. Although the Fan family is more watery, it is also a big sect of the central Tangcheng. It is a huge gain, and he is already satisfied.

“Well? Other industries of the major sects will still be taken over by us, and all the interests of Tangcheng in the future, we have already taken advantage of it...”

“It’s just that. I will be supporting you for a while.”

Shen Lang waved his hand.

Get his promise of this, it is easy to worry about it.

Although Jianzong still has a big fairy, but now he does not know the attitude of the elders, if there is a counterattack, or Shen Lang is reliable.

Chapter 1489 - Old ancest

In fact, the old predecessors of Qiu Lin Jianzong, although roaring and easy to play before, but in the face of the “cooked rice cooked rice” situation, can only help a good aftermath.

And they can also guess that this thing should be the temptation of Shen Lang, or else it will not be such an adventurous thing with the ease and stability.

Many of them are not in the world, and they are not quite a bit cultivated for the successors.

But in the face of such a big event, such an old generation, the experience is still more reliable.

After they totaled, they immediately sent a group of backbone forces to Tangcheng to maintain stability.

Since Qiu Lin Jianzong has now become the only big sect, it must become a giant immediately, and can not give other two or three sects to grab the site to expand the opportunity.

However, their layout is to let everyone distract, not to concentrate on the tough front, including a number of good things of the tough front, but also to evacuate, to avoid being one-handed.

Because the shots of Shen Lang are under the defense of the Nine Gates, they directly put the headquarters in the end, and the losses are huge, and the hearts of the people are scattered.

They are scattered in Tangcheng, which can better control the stability situation and avoid the fixed-point blows of other ancestors who come back for revenge.

The elders of the Daxian class all went out to guard the Qiulin Mountain gate.

Including the easy to do, this murder of dozens of people, will inevitably be the goal of the other party's revenge, but also withdraw him.

Of course, Shen Lang also wants to come back to be a guest.

The initiators of this incident and the people behind them are all Shen Lang, and they will also be the key targets of revenge. This is also the need for Qiu Lin Jianzong to protect.

Just like they are fighting against each other's headquarters, if the other side wants revenge, the tough front is second, and the Qiu Shan Jianzong's Shanmen headquarters will be the focus, and this is impossible to move away.

In addition to concentrating on the strongest strength defense, there are also attempts to contact Mo Feiliu.

Other martial arts families are also well-received. The contemporary head may not be the strongest. For example, if Mo Feifei will pass the sovereign position to the future, it is because he is suitable to be the sovereign, not the strongest. .

Those ancestors who have been fascinated for many years are the big men of the various finalists.

But like the cold autumn and Mo Feiliu, the other ancestors have also gone to the ruins. How to harvest and not to say, at least not come back, may be trapped, more likely to be rewarded and retired.

The sects have suffered from the catastrophe, and it is easy and unreasonable to do so. When they flee, they will certainly find a way to report.

Even if the head can contact the ancestors, the weaker contact can't be reached, and the things born here will still spread out from other channels. If they are not good, they will be known by the other ancestors.

What Qiu Jianjian needs now is waiting to be guarded.

As long as Mo Fei flows back, it is basically stable. And if Gao Hanqiu, the real ancestor, is back, it will be easy to destroy them.

They didn't want to be respectful and respectful to Shen Lang before, so they didn't go to Tangcheng to reconcile, so they couldn't decide everything.

But now it is different. Shen Lang does not need their help, and directly picks up the major sects. The strength is no less than any of them. Especially, it is easy to kill Bai Yucun and Baijia Guardian beasts, but they have already beaten them. A lot, it is estimated that only Mo Zongzhu can be overpowered!

In this way, of course, they are also convinced, compared to their stronger people, even if they are younger, there is nothing to lose face.

After Shen Lang arrived on the mountain, it was also a guest.

It's not the same as before. Now this time is everyone's inner respect.

The old predecessors are the strength to fear him. The disciples in the middle and lower levels are because of the great handwriting of Shen Lang and the help of things that are easy and unreasonable.

It is easy to bring a good weapon weapon of the tough front back to the mountain. It is also to let Shen Lang pick it up. If he needs it, he will give it to him first.

Shen Lang did not polite with him.

Originally, he was going to purchase. This time, they helped them to annex the nine sects. These industries and the Tangcheng power structure, etc., in the long run, it is a great interest. It is not a big deal to collect a little weapon.

Shen Lang is also very satisfied with this environment.

After all, this time here, he is also to circumvent the Emperor's behemoth and let it not go to the earth.

Now that everyone is familiar with it, and after the dog ***** swallowed the white jade village and the dragon elephant behemoth, it is already very satisfying and has become lazy, preferring to stay still.

On the same day, Shen Lang extracted the mental strength of forty or fifty strong people, plus some of the power of faith, is a huge gain, but also a burden!

Because the dog ***** is not the same system, it takes time to slowly digest and absorb.

Shen Lang absorbs the mental energy. If it is not absorbed as soon as possible, it may affect the reaction to itself.

After all, it includes a few large immortals, peaks and half cents, and a group of half-sex, the spiritual power of the peak of the gods, adding up is a huge volume.

In the autumn forest Jianzong, he can also rest assured that retreat cultivation, anyway, Qiu Lin Jianzong now opened the guardian big array.

After a period of time, Shen Lang refining and absorbing all the spiritual and belief powers, which directly helped him greatly enhance the realm.

To put it simply, from the spiritual realm, he already has the strength to attack the peak of the Great. However, in terms of vitality, there are still a lot of shortcomings.

This is also very helpful for Shen Lang For example, the realm of harmony between man and nature, the passage of the Kunlun mirror of the Three Realms, and even the use of Leiyuan, etc., require the consumption of mental energy. Strong.

The dog ***** also spent a lot of time in peace.

Then Shen Lang was a little idle, and the situation in Tangcheng should be stable. Those so-called ancestors of all factions, if they really exist, even if they are far away from the mountains, they should know the news.

Shen Lang called it easy and asked about it. He said that he could not wait here all the time. Without his ancestors, he might have to leave.

The result is easy to be unscrupulous but a look of embarrassment.

“Actually... Yesterday, there is already a challenge book. It is the former lord of the Yangzong.”

“What is the situation?” Shen Lang has an interest.

It’s easy to introduce it in detail.

I don’t know if the person who left it has a way to send a letter, or what other way it is caused, or is it just that Long Yao is back.

In short, Long Hao knew about this matter. Under the wrath, he directly smashed the main store of Tingfeng!

Fortunately, according to the previous strategy, the people of Qiu Lin Jianzong did not stay in the tough front, but the weaker disciples, and the first time to escape when there is a problem.

In the near future, even if the tense front hit a 20% discount, the business is not good. Everyone is worried that this situation will arise.

The result is that the tough front has also been destroyed.

Everyone immediately spread the information out. The Jianlin Jianzong disciples in Tangcheng were careful not to show up casually, but also reported to Shanmen.

Then Long Yao has already arrived at Qiulin.

The strategy pursued by Qiu Lin Jianzong is to hang high-free war cards, not to go out to fight, to open the guardian big array, and temporarily can stop it.

Chapter 1490 - Short

After the Dragon Swordsman opened the guardian mountain array in Longlin, there was no hard attack, but it was called outside, so that Qiu Lin Jianzong handed over Yi Yong and Shen Lang.

After all, the tough front is a tough front, and it is not a ruin. If you attack the Qiulin sword directly, it will not end.

Not to mention that they know that the cold and autumn are still alive, just fly, you can hold them.

If we can hand over the easy and unsettled waves, things can be regarded as a confession. Everyone can go back to reconstruction, loss and humiliation, and they can only bear it.

Qiulin's Jianzong chose to "drag" and tried to drag it back to the sovereign. That would be much easier. Otherwise, if they go out to fight directly, it is likely that both sides will suffer.

The key is that for the former ancestor of the Yangzong ancestor, the predecessor of the sacred ancestor of Qiu Lin Jianzong, he is not sure that he can deal with it!

When Long Hao was the patriarch, it was Daxian. Now the dragon is also a big fairy. After several decades, who knows if he has reached the peak realm.

After the easy to say, sighed.

"Now dragging is also a double-edged sword. If the lord and the ancestors come back, of course everything is fine. But we can't contact, no one can confirm when the sovereign and the ancestors will come back. In case..."

He hesitated a bit, still said.

"In case, Long Hao has contact with the ancestors of other sects, it is even more troublesome to drag on."

Shen Lang nodded and said: "Why don't you fight with him?"

It's easy to be embarrassed. He has already indicated the reason, but he still has to say that he is afraid to fight it?

"I am here! Don't you want me to support you? I am not staying for you to support you? Why don't you say it early!"

The problem of Shen Lang makes it easy for you to know how to respond.

Before he begged Shen Lang to stay, because he did not know the attitude of the elders of the division, so he needed a reliable support.

Later, I retired here, and the elders made a decision together, both inside and outside.

Although he has severe criticism of him, he will also protect him. Therefore, he did not want to support the waves, and it is a guest.

Yesterday, Long Yao came to the battle, this challenge is Qiu Lin Jianzong. They dare not fight, but also ask Shen Lang to come out. Naturally, they feel that they have no face.

If it wasn't for Shen Lang who just asked him to ask, it would not be easy to say.

"Do you feel embarrassed? Hehe! I am talking with your grandfather and grandfather! In my opinion, Mo Feiliu can be considered a junior."

It's ridiculous to say this at the age of Shen Lang, but it's easy to understand. Although I don't know the details, I know that Shen Lang does not lie.

"I didn't have the strength before, don't say that I am protecting you, I still need to rely on you a lot. Now I have recovered a little strength, and I can always do something."

After Shen Lang faintly said, he made a direct decision: "If the dragon comes again, let me go out and deal with him!"

"But, if you have any mistakes in Daxian..." I don't want to agree.

Just like that day, he would persuade the sinking waves, and let Shen Lang go to challenge the major sects. He could not let him take risks, or he could not explain to the ancestors.

“I will not lose if you die!” Shen Lang eyes.

Easy to be a little sweaty, “I mean...”

“Your meaning is not important, just do what I want!”

Shen Lang directly waved.

Easy to go, you can only bow down.

He didn't dare to violate the waves, but it was a big deal. He still had to go back and discuss with the elders.

Before Shen Lang was in the spirit of refining and refining, and did not pay attention to the situation outside, now that I know this, I will pay more attention to it.

Not long after, it sensed that there was a strong presence outside, and then there was a sound in the mountains.

“Qiu Lin Jianzong, hand over Yi Yong and Shen Lang! Otherwise, don't blame me for turning my face!”

Dragonfly is coming again!

Shen Lang also wants to ask him if he wants to go, and go out directly.

When I came outside, I saw two figures in the air outside the mountain. It was their figure.

The guardian big array is invisible. If the approach is not blocked, it will also block the knowledge of the inside, but it is nearby and can be seen by the naked eye.

Before the Qiulin swordsmanship, it seemed that no one was at home, and he ignored the dragon's call.

Now that the waves are coming out, their attention immediately focuses on the past.

In the identity of Long Yao, of course, I have never seen Shen Lang, but this time I came to revenge, and I definitely got detailed information, including what Shen Lang looks like.

So I recognized it.

“Shen Lang! You dare to come out!”

Shen Lang snorted: “Don't you let me out? I came out, and blame me for coming out?”

Long Yu suddenly said, then said coldly: “You dare to destroy me a Yangzong, there is a kind of do not shrink in the Qiulin sword, come out!”

“And our herdsmen! The old husband and husband Xiyang will not spare you!”

Mu Xiyang, you can guess that it is the ancestor of the shepherd.

When they talked, Yi Yong and Qiu Lin Jianzong two elders who reached the realm of Daxian also came out together.

“Easy! You are a bad thief! Even colluding with outsiders, ruining my Tangcheng foundation! You are worthy of the founder of Qiu Lin Jianzong!”

Seeing that it is easy, they can't help but scream at it Compared to Shen Lang, it is easy to be regarded as a guy who eats outside. Moreover, it is easy to kill four or fifty masters in public.

“The two predecessors asked for anger. Is there any misunderstanding...” I don't want to keep a smile, and I greeted the two people in the air.

“Misunderstanding! You have publicly killed so many people and told me misunderstanding!”

The dragon screamed and screamed. “I will kill you Qiu Lin Jianzong and tell you about misunderstanding?”

An elder of Qiulin’s Jianzong immediately sighed: “Dragon! Please talk and pay attention to your position. You are the provocation of our Qiulin sword!”

“Sulun! Your disciple of Qiu Lin Jianzong, even the lords of my Yangzong are killed in public, and the heads of the various factions. You don’t think this is a selection of our major sects? I think you are right in one sentence. The provocation of Qiu Lin Jianzong?”

Long Hao sneered: “You Qiulin, the great power, you are so arrogant, do you know?”

“Dragon 蛻! Easy to shoot, it is because dozens of people from your major sects have blocked the door of the tough front! Just like you are coming over to us now, blame us?”

“Moreover, your lords are dozens of people, not as good as a disciple in our Qiulin Jianzong district. Are you too good to protect your short?”

This elder of Sulun is an uncle who is unscrupulous, but it is a sharp tooth.

The other one is the unscrupulous Master, called Yang Baotian.

He is more serious: “Dragon brother, shepherd brother, have given birth to so many things, we do not want to see this. I am also old, can not do what the Lord, it is better to wait until our sovereign returns, and give you a confession?” ”
