

First Strong 1491

Chapter 1491 - I will do it myself!

Yang Baotian's thoughts are of course well thought out. It's nothing more than turning the unpredictable drag into an open drag.

As long as Mo Fei flows back, Qiu Lin Jianzong is not afraid of any challenges.

However, his suggestion was immediately taken down by Long Hao and Mu Xiyang.

"When Mo Fei flows back, will you give us a confession?"

"You want to wait for Mo Fei to flow back, and then kill us all together?"

"Where, everyone has been a Tangcheng, you and I can be regarded as the same generation, how can it be." Yang Baotian shook his head.

"Let's talk nonsense! Hand over the easy and unsettled and Shen Lang! We have the head debt and have the Lord, will not be tired of the Qiu Lin Jianzong."

"If you don't hand it out, don't blame us for being rude!"

"Don't think that we don't know, the disciples of Qiu Lin Jianzong are scattered in the city, can you hide in the past?"

"Your guardian is big, but we don't want to be jealous, it's not a piece of iron!"

If you say a word to me, you will show the show directly.

Both Yang Baotian and Su Lun secretly complained.

They dare not fight, and the fear is that both lose. Now come out against, and further confirm the strength of the other side.

Both of them are in the realm of Daxian, and shepherd Xiyang is similar to them. However, Long Hao does not know whether it has been upgraded for a long time, or has recently been harvested in the past, and it seems to have reached the peak of Daxian!

If it is only two big fairy realms, with them two, plus Shen Lang, it is not a problem.

Now that the other side has a big peak, then they will crush them.

“Dragon brother...”

Yang Baotian also wants to persuade that Long Hao has interrupted his words. &1t;i>i>

“Who is your dragon brother! Don’t call your brother!”

“When you unite outsiders and kill us brutally, we have not used us as brothers. You have already fallen into scum!”

Shen Lang listened to them saying something that was not nutritious, and didn’t want to continue listening to them.

“I will interrupt, you are a group of people who are hundreds of years old. Would you be so bored?”

“Yang elders, let the big mountain guards open, I will come to them for a while! Say so much nonsense.”

“...”

This statement makes Yang Baotian very helpless.

You thought I thought about it! When the moat was opened, others came in and could not protect other disciples.

This is to avenge, saying that as long as you two, who knows if they will take the opportunity to destroy the Qiu Lin sword? &1t;i>i>

Even the districts are easy to avoid, and they dare to eliminate the nine sects of the people. What about the dragons of the Great Xian?

“Okay, I will come by myself!”

Shen Lang saw his concerns, and he also knew that the strength of Long Yu and the husband of Xiyang, if pressed by reason, may not kill innocent people. Once they are red-eyed, it is difficult to say.

As soon as the words are finished, when Yang Baotian is wondering, Shen Lang has already arrived in the air!

It is not strange that people are in the air. The range of protection of the mountain guards is very large, but Shen Lang is now outside the array, and is close to the dragons and the husband Xiyang!

Yang Baotian, Su Lun and Yi Yong are both secretly complaining.

Shen Lang has strength, they know it, but the other side is now a big fairy, a peak big fairy, so if the two join hands, even if there is Mo Fei flow will have some pressure. &1t;i>i>

Shen Lang is now rushing out like this, directly looking for death!

If Shen Lang is in Qiu Lin Jianzong here, how can they explain to Gao Hanqiu and Mo Feiliu?

Yang Baotian and Su Lun exchanged one look, and quickly went to open the guardian big array, even if it would bring danger to the division, at least they have to go out for a help, can not see the Shenlang to an enemy.

There is no way for it to be easy, and he will figure it out, but it will not help anything. Instead, he will become a hostage and delay his leg.

However, he has a busy can help, is to operate the opening of the guardian mountain array, let Yang Baotian and Su Lun go out, and then immediately close again.

Long Hao and Mu Xiyang, two people, were preparing to drink another stimuli. I didn't expect Shen Lang to appear in front!

They did not feel the closure of the Qiu Lin Jianzong guardian mountain array, and Shen Lang actually came out, which made them all stunned...

After returning yesterday, Long Hao has also inquired about all aspects, but he has not found any party.

It is said that all the factions are attacked by Shen Lang. At the battle of the tough front, Shen Lang does not seem to attack. Instead, it helps everyone to attack the tough front.

But they do not believe that the district is easy to do, and they can kill so many people, especially when Shen Lang lets them confess and squat, this must be controlled.

Combined with their incomplete information, I feel that Shen Lang is likely to reach the realm of Daxian!

But even so, in the eyes of both of them, this age of Shen Lang can't compare with them.

Who gave him the guts?

Just because it is on the site of the Jianlin Jianzong?

Looking at the waves that made them wrong, the two people quickly returned to God.

"Kids! Just dare to come out with you, I will give you a good time, just kill you and pay homage to all the dead, will not torture you!"

Long Hao said slowly, then looked at the mountain.

Easy to disappear, in their view, this is hiding easy to run is not a monk can not run the temple, after all, can still find him in the autumn forest Jianzong. And this Shen Lang is said to be a mysterious foreigner, this is the second time in Tangcheng.

So definitely can't let him run!

So the two people are not looking at the following Yang Baotian and Su Lun, ready to take advantage of them, they have not yet opened the Hushan big array, first grab the Shen Lang!

Long Hao does not need to say anything more, directly locked the Shen Lang, and Mu Xiyang is very cooperative to the other side, forming a simple before and after the Shen Lang.

“Dragon... Hey, isn't it? I want to ask, what are your nine sects, and how many old ghosts are alive?”

Suddenly the problem of Shen Lang, let the dragon stunned, I don't know why I asked this.

Then he and Mu Xiyang feel a little uncomfortable!

Although they claim to be old ghosts and old monsters, they are often respected as ancestors, whether they are their own disciples or others. This is both a strength and an embodiment of the age.

Now Shen Lang, a young man, directly calls them old ghosts, which is very disrespectful.

“It's like this. You come here one by one. It's too much trouble for me. I have time to be precious. I can't wait here every day to take revenge. I want to ask, if there is, it's best. Sexuality, let me solve it together.”

Shen Lang said it was very gentle, but this tone directly caused the two old ghosts to blow up!

what is this? Let them work together and solve them all at once!

How much is this discriminating against their strength!

“You will regret it for your words. I just said to give you a happy, now the old ghost I took back.” Long Hao stressed a sentence.

Chapter 1492 - Civilization 1 point

Long Hao actually didn't want to talk nonsense, but he was still very sensible.

He felt that Shen Lang's words were most likely to be deliberately said to anger him!

If you are really angry, you will be counted. Therefore, he is calming himself by speaking.

The tone of the sentence, his intentional peace, and the slowing of the language are a process of psychological adjustment.

After the completion of the talk, Long Hao has recovered calm.

At this time, Mu Xiyang has also been successfully placed.

At this time, everyone felt a wave of fluctuations in the air around!

As I looked at the past, I saw Yang Baotian and Su Lun, and I quickly leapt over and over the scope of the Hushan array.

Then, the air once again fluctuated, shutting down the big mountain guard, and once again opened.

Long Hao knows this, just not easy to hide, and Yang Baotian and Su Lun are not watching the fun next to them, but waiting for the opportunity to come out.

“We Qiulin Jianzong has always been not actively attacking others. But others are bullying the door, and we are not afraid. The two are rude to our guests here, so we no wonder we are asking for advice.”

When Yang Baotian flew up, the voice has slowly passed over, and he and Su Lun, Xun directly approached Shen Lang's side.

Although Long Yu and Mu Xiyang sent the Shen Lang to the attack, but only two people, in fact, can not really "surround", so they can only see their three confluence together.

The face of Mu Xiyang was a bit bad at the moment.

He can feel that Hulun should be similar to his strength, and Yang Huantian is also a big fairy realm, but he is deeper than him.

Adding Shen Lang is also suspected to be the realm of Daxian, the other side is the realm of three great fairy!

This is nothing to Long Yao, but it is a great threat to him.

Long Hao has reached the peak of the Great Immortal, and it is a bit sturdy for Shen Lang, and he still dare not care, still keep calm.

Now two more big singers come over. Although he is not afraid, he is more cautious.

"Yang Baotian, Sulun, you want to be clear! When you come to fight, it is equal to the Qiu Lin Jianzong involved!"

"Yes! All we want is the killer and the murderer, and the two are not easy to die. You don't want to be dead with the sword of the autumn forest. You don't want to be a sinner of history!"

Seeing Long Yao said, Mu Xiyang immediately followed the drink and made a sentence.

The sinner of history!

This is indeed a big hat, which is something that people must carefully measure.

However, Yang Baotian and Su Lun, these days have already been considered clearly.

It's easy to do "historical sinners", but that's the history of Tangcheng. For the history of Qiulin's swords, this is a strong ink!

They have already considered it clearly, and things have already reached this point. If they drag on their backs, they will become the "sinners of history" of Jianzong.

So it was just a decisive flight to the sky, and now for both warnings, it is completely unintentional.

"History is written by the winner."

Shen Lang said slowly: "Do you think that Qiu Lin Jianzong, or Shepherd, Yiyangzong, and the ancestors are pure and incomparable?"

"Oh! You can make a meritorious deed in Tangcheng, and you must be the master of the world. When your father-in-law creates a foundation, you don't say that blood flows into the river, but also on the bones of other families."

His words made the four old predecessors on the scene a big surprise.

When they reached this age, they reached this realm, and most of the secrets in the martial art were clear. Long Yu was once the head of a patriarch of Yangzong, and nature is more clear.

What Shen Lang said is completely true. No matter how he hangs on his ancestors and beautifies his history, he starts by hitting it!

Now Shen Lang, it is also necessary to "play the world" for them!

This is the same effect for them.

Yang Baotian and Sulun themselves have basically accepted it, but they did not think so far.

For Long Yu and Mu Xiyang, isn't it the time to re-play the world?

For a time, four old monsters are full of excitement about falling to each other.

"You! Don't be so excited, even if you can kill the other person, don't forget that I am the center of gravity! The purpose of both of you is to kill me, and the two of you are going to help me." Clap your hands and let them pay attention.

All four people frowned and didn't know what else the kid had to say.

However, there is a layer of vigilance in my heart, thinking that I can't let Shen Lang give brainwashing.

"There is a big mountain guardian, Qiu Lin Jianzong will not be affected. But you are here to open a school, naturally because the environment is good. Once the surrounding mountains and ruins are destroyed, the Qiulin swords, the entire Tangcheng The environment is a big destruction..."

"What do you want to say?" Long Hao interrupted the words of Shen Lang.

Shen Lang smiled slightly: "I want to say that the most juniors, including me, are considered to be Daxian and above, and they are all strong in the whole of China. It should be civilized. Don't put it in order to blame yourself. Lingxiu treasure land was destroyed."

"So the younger generation will marry us!"

This is said, let everyone be silent.

"Hey! When you ruin our ancestral homes Why don't you think that the younger generation will poke your spine? When it is the turn of the sword, you have to be careful? Is it civilized?"

Mu Xiyang immediately sneered.

“You have to fight together, I don’t care, you can accompany you to the end. You should all know that I am not local to Tangcheng, will I leave here at any time?”

Muxi Xiyang was a slogan.

This is indeed known, Shen Lang is not local, playing here is not good, when he patted the **** and left. It is they who have died for Tangcheng and for future generations.

“Don’t talk nonsense! What do you say directly!”

“Everyone is a little civilized, I will make a bet.” After Shen Lang finished, he asked Yang Baotian and Su Lun: “Two, can I represent Qiu Lin Jianzong?”

Mu Xiyang and Long Yao also looked at Yang Baotian and did not know what attitude they would be.

Su Lun is a younger brother. This is in front of outsiders, of course, listening to the brothers.

Yang Baotian was also more reliable, but it was tangled.

The other party is obviously a stronger player. If you don’t let the representative of Shen Lang, then you will be guilty.

Moreover, Shen Lang is talking with Gao Zu Shi Ping, and it is also qualified to represent it.

But if you let Shen Lang represent, with such a young man, who knows what kind of demon moth?

When he went to attack the major sects, he did not discuss anything with everyone. When he was not murderous, he did not ask for your consent.

But think again, will Shen Lang suffer?

Did a person attack the nine sects, did he not win?

You can't do it, don't you help control the situation, and give you the opportunity to be the leader of Qiu Lin Jianzong in public?

Chapter 1493 - Gamble

"Of course, Shen Daxian is our guest and can represent us."

Yang Baotian is still a shrewd old ghost. This sentence is said to be dripping.

Corresponding to Shen Lang's words, it seems to be a promise, allowing Shen Lang to represent Qiu Lin Jianzong.

But if there is anything wrong, there are many articles that can be done.

For example, he said that "Shen Daxian" is not a related name for the elders and elders of the division. This is a guest of foreigners, and it is emphasized that it is a guest.

In addition, it is said to "represent us", this we can express as "we Qiulin sect", can also be expressed as "two of us."

Of course, Shen Lang saw his tricks, but he would not reveal anything.

And Long Hao and Mu Xiyang were shocked by Yang Baotian's statement.

I just heard the problem of Shen Lang, I feel that this kid is too arrogant, and how Qiu Lin Jianzong pays attention to him, and he is not allowed to represent Qiu Lin Jianzong. This is simply the identity of the "master of the door."

Yang Baotian's hesitation, they also feel normal, and then will be euphemistically rejected.

I did not expect that Yang Baotian actually agreed directly!

What is the reason for this kid?

Both people are very curious.

They used to be in a state of retreat, and this little thing about Shen Lang in Tangcheng, of course they could not be concerned.

While Bai Yucun, Long Sihai and others were eating here, everyone did not say anything because of their faces, and they did not find a complaint from their ancestors.

Therefore, they knew about a bit of grievances about Shen Lang, who was temporarily inquired, and knew that Qiu Lin Jianzong was protecting him, and that was all.

Now even the characters like Yang Baotian say that he can represent Qiu Lin Jianzong. Is this kid an illegitimate son of Mo Feiliu?

They can only think of this layer...&1t;i>i>

“What gambling?” Long Hao asked again.

“We will come to a simple, civilized confrontation. If you win, Qiu Lin Jianzong immediately withdraws the guardian big array and is occupied by you. After that, Tangcheng is yours!”

“Hey...” Yang Baotian and Su Lun were shocked and hurriedly called.

When I heard that there was such a good thing, Long Hao and Mu Xiyang certainly rushed to promise.

“bet!”

“bet!”

“Shen Daxian!” Yang Baotian’s face is ugly.

Although he had made an ambush in the language in advance, he was afraid of it. He did not expect that Shen Lang actually came directly more than he expected.

It almost drowned them from the air.

Long Hao almost laughed! &1t;i>i>

Shen Lang's move, in his opinion, is a pig teammate who has expanded to the extreme! Because of the success of the attack on the various headquarters, he thought that Tangcheng was invincible, and now it is tied together with Qiulin.

But of course he is happy to see it.

Originally, as long as the waves and the ease are not, it is a helpless decision, because I am not sure that I have played the Mo Feiliu, that is a lot of old ghosts than he has cultivated.

But now that there is a chance, Shen Lang represents the Qiu Lin Jianzong, and if he loses, then it is not a plot against Qiu Lin Jianzong, it is a win-win situation.

Can take the headquarters of the Qiulin swordsmanship, even if they can not kill them, this is also a full-fledged revenge.

“You don't listen to the situation you lost?” Shen Lang said faintly.

“Since you have pressed Qiu Lin Jianzong, what else do we have to be emotional? It doesn't matter, the conditions are whatever you look at!” &1t;i>i>

Long Yu said that there is no objection to Muyang.

A Yangzong and her husband have been driven out of Tangcheng, the headquarters was destroyed, and all hopes were pressed against their ancestors.

If they lose, then they are completely embarrassed. What else is lost?

Since this is already the case, of course, before Yang Baotian's opposition, they decided to make a decisive decision. At this moment, they can be said to be very generous.

"Very good. Then I can't overdo it. If you don't even bother you, Yangzizong, the rest of the shepherd, you will have two lives. But don't you?"

Shen Lang's follow-up and temptation is to lead them to the hook.

Long Yu and Mu Xiyang are relieved. It seems that even if this child is progressing fast, he is young, and he is inflated and does not know the depth.

"If I lose, my husband and I Xiyang's life will be handled by you!"

"I have no problem." Mu Xiyang is also very decisive.

Of course, there is no problem with Muiyang. If it is himself, he may not be able to say it. But Long Hao has reached the peak of Daxian, even if it is not as good as Mo Feiliu, can it be worse than a young boy?

This is completely impossible!

Yang Baotian and Su Lun heard this, they are very helpless, and it is too late to overthrow.

Yang Baotian can only secretly make up his mind. If Shen Lang loses, then he will use the method prepared in the past to pay the bill, and he will lose both of them!

Even if you hate the waves again, the noisy guilt in the face will only affect the wave of Shen Lang. Turn the possible loss into a certain loss.

"What is the specific gamble?"

Long Hao was impatient before. He felt that Shen Lang wanted to delay the time. Now he is very excited and wants to know what sneak gambles.

Others are also a bit curious. What kind of “civilized” confrontation is squinting in the end, can he be confident that he will dare to open such a gamble?

“Look at your age, there are no two hundred years old, and a hundred. I will find you all over the place to find your teeth Even if you don’t kill you, you will be ashamed to commit suicide...”

“...”

In the words of Shen Lang, the two dragons are so good and funny, and the extent to which this kid is inflated, dare to have such an illusion!

Do you think that ordinary young people are ordinary old people?

There are many factors that determine the level of cultivation, and one of them is the length of cultivation time.

“So, don’t say I bully you. I have a dog, as long as you can hold for thirty seconds, even if you win!”

Shen Lang finally opened his conditions.

Long Yu is the peak of Daxian. Of course, he will not be insured. Even if he can win, he may lose both.

Since there is a dog god, this dogleg is a beater, of course, make full use of it.

However, it was suggested at the beginning. If you don’t, Long Hao will be shocked and run away.

So he step by step and ask for it.

When you hear the waves, don’t say Long Yao, that is, Muxi Yang, Yang Baotian, and Su Lun, and they all understand.

A dog that Shen Lang said must be a powerful beast, or may have reached the level of the beast god. He just wants to rely on the beast to win the dragon!

“Shen Lang, you think you don’t want to bully the old man, my old man doesn’t want to bully your little boy. You don’t need to graze Xiyang, just me, as long as your dog can hold for thirty seconds, even if you win! ”

“Old man, you are a bit arrogant, this will be dead!” Shen Lang frowned.

“Haha! That’s it, but I have to tell you clearly. Within 30 seconds, your dog may be dead first, but don’t blame me for not having mercy!”

“I have no problem.” Mu Xiyang still strongly supports Long Hao, and he is very confident to give his life to Long Hao.

Chapter 1494 - Shocked

Yang Baotian, two people, have no hope, and the only thing they want now is how to rely on them later.

Now that you have decided to retire, you will not persuade Shen Lang and let this kid go crazy.

Shen Langma uploaded the idea to the dog ***** and called it over.

The dog ***** does not care much about the outside world. It is just the arrival of a peak, and it will not be able to alarm him. So after waiting for the call of Shen Lang, it only appeared lazily.

Yang Baotian and Su Lun were shocked.

How did Shen Lang go out before, they have not figured out, now a dog can easily pass through the Hushan array!

When did the autumn forest swordsman’s mountain guards become a big mess?

The dog ***** came to the side of Shen Lang, looking at the dragon.

Although it does not understand the situation, the scene can put pressure on the Shenlang, and this is the case.

In fact, I have seen Shenlang against the dragon elephant beast. It even thinks that this person can't make pressure on Shen Lang. It should be said that this person can make it interested in eating it!

“What are you going to do?”

The attitude of the dog ***** is relatively simple, what should I do?

Swallowed?

Still stay alive?

“The Emperor, I made a bet with him. If he can hold it in front of you for thirty seconds, then he and the life behind him will be handed over to you.”

“Do you still use gambling?” The dog ***** is very strange.

“Of course he doesn't believe it. He said that if you can hold him in front of him for thirty seconds, then I will win. He will kill you within thirty seconds!”

“When did you start?” The dog ***** asked directly.

Shen Lang said to Long Yao: “My dog has come out, now regret it, but it is too late!”

Long Hao looked at the dog's ability to appear quickly, but also a little vigilant, it is estimated that this is not a general beast.

He also decided to exert his full strength. There is no need to do a single blow and he will not give the other party an opportunity. Otherwise, he will be dragged after thirty seconds.

“Get started! Let your dog start first!”

Shen Lang put a hand on the dog god: “Up!”

The dog ***** did not roar this time, but flew directly to the dragon!

The most common thing about the beast is the physical attack. The dragonfly is a little relaxed. If this is the case, it will not cause any harm to him.

When he was about to cast a spell to kill the dog, he suddenly saw that the whole person was imprisoned!

The surrounding space seems to have no slight aura, and the strength of one’s own body can’t be used at all.

His body is still in the air, others can’t see what is wrong with him, but he can understand this kind of helplessness!

Shen Lang?

impossible! Even if Shen Lang can attack, he can’t have this strength!

Mo Feiliu?

Correct! Only Mo Fei may be coming back!

This old thief! I am obsessed with the face, I am embarrassed to come out, use this way to secretly attack!

Long Hao immediately wanted to swear, but the mouth was open, and even the words could not be said!

He could only watch the dog rush to his side, then looked at him and bit his waist...

Everyone is also shocked!

Long Hao actually had no resistance, so he was taken to the side of Shen Lang by that dog!

Su Lun couldn't help but blinked and suspected that he was worried about the waves and had an illusion.

Mu Xiyang and Yang Baotian also shook their heads and tried to suspect that they were wrong.

After the dragon was bitten, he lost consciousness and was directly slammed into the front of Shen Lang.

This time, the dog **** did not change back to its original shape. In the shape of a dog, it was even more horrible.

And this is very good for Shen Lang face, as if it is really a dog to the owner to smash something like that, in front of Shen Lang, the dragon scorpion was sent to his hand.

“Not bad, he really can't hold on for a few seconds.”

Shen Lang called it a dog god, and he can only be in his own heart. He can't really laugh at the dog's head.

So at this moment, he reached out and patted the dragon's head, expressing his praise for the dog god.

However, when I first came into contact with the dragon's head, the hand suddenly seemed to be stuck!

Shen Lang was taken aback, but on the surface still held back, did not reveal any unusual look.

The dog ***** will not harm him – to kill him, he can be full of light; under the attack of the dog god, it is impossible to play tricks. Before the two peaks and the big fairy plus six great immortals, it is not enough for it. what.

So even if he was surprised, he calmed himself down.

Soon, he understood what it was all about!

The dog ***** who ate the dragon elephant beast is still in a state of satisfaction, and has no interest in eating dragons.

And it also understands that it is a pity to waste, so the dragon is coming over, it is intentional contact with Shen Lang, the purpose is to force the dragon's mana, all to Shen Lang!

This is a bit fierce!

To infuse the vitality to others, it is necessary to force others out of their strengths. As long as the strength is disparity, it is not difficult to do it.

However, the former is costly and the latter is not humane, so such means are rare.

Like the help of Shen Lang before the Yue Zhennan, Mo Qi and so on, but also because the difference is too far, the consumption of that point is nothing.

an come back at any time.

Now the dog ***** is different. This is to directly force a mana of a big peak, and then instill it on him!

Moreover, the dog ***** is too simple and rude, and even the greeting does not make a sound, so that Shen Lang is speechless.

This is too much to see me!

Losing his experience, and his mental strength is far better than the general, this time also harvested a lot of spiritual power, with the spirit of reaching the peak of the fairy. Otherwise, it is necessary to shock him directly...

This is simply pouring a river into a well!

However, at this time, Shen Lang did not vomit the dog god, and quickly absorbed the whole God's alert.

Yang Baotian, Su Lun and Mu Xiyang are all unbelievable.

However, everyone thought that this was the intention of Long Hao, waiting to see him back.

Unexpectedly, Long Hao was still motionless, and after Shen Lang was holding his head, it was still motionless.

This picture is so strange that they all realize that something is wrong and they don't understand what is wrong.

However, Mu Xiyang was the first to react.

Just got a gamble!

Shen Lang said that Long Hao can hold for thirty seconds to win, Long Yao said that the dog can hold for thirty seconds to win.

Now that Long Hao has been bitten and unable to move, is it lost?

And his life of Xiyang, but he gave it to Long Yao, once he lost, his life should be disposed of casually!

At this moment, seeing the waves and moving, he immediately fled to the distance!

“Don’t escape!”

Yang Baotian and Su Lun are also waking up, which shows that Shen Lang won!

Shepherd Xiyang is scared, of course they are pleasant surprises, and this can’t be seen watching Muxi Yang run.

Chapter 1495 - peak

However, Muxi Xiyang is also a big fairy. Under the degree of escape, leading a second, it is a long distance. Yang Baotian and Su Lun chased it, and they couldn’t catch up, and they didn’t chase again.

Because they don’t know how the situation of Shen Lang is now, compared with catching Xiyang, it is more important to guard the safety of Shen Lang.

However, when they returned to the side of Shen Lang, it was surprising that Mu Xiyang came back even faster than he left!

And at this moment, Mu Xiyang, like Long Yao, lost consciousness, and when he came over, he was connected with Long Yao.

Yang Baotian vaguely understood something.

He realized that Shen Lang should be using a method that can take the repair of others!

This is naturally a sinister law, perhaps this is the secret that Shen Lang can make rapid progress!

However, the evil law is not evil, and Shen Lang is his own person, and he has just solved two big problems. Can’t he be treated as a cultist?

Therefore, the two of them immediately separated a little distance to protect the law.

In fact, they want to persuade Shen Lang, this can bring people back to Qiu Lin Jianzong slowly.

If you do this in the air, it is too much to be promoted.

Fortunately, there will be no outsiders coming here, and the disciples of Qiu Lin Jianzong have already been banned from hiding.

But what if you come to an ancestor...

What they don't know is that this really can't blame the deep waves, and the Shen Lang is also passively perfused by the dog god.

At this moment, Shen Lang had no intention of paying attention to everything around him. Not to mention the departure of Mu Xiyang, even if someone looked at him with a knife, he would not notice it.

He can only be madly absorbed and instilled, and once he is slower, he will be hit by problems.

And after the dog god, the animal husbandry Xiyang is also caught, and directly let the animal husbandry Xiyang and the dragonfly together, it is equal to the blood transfusion of Shen Lang!

The cultivation of a peak big fairy is not enough for Shen Lang to bear, let alone another big fairy...

The result is that Shen Lang can only absorb the madness without stopping.

Fortunately, he himself had the experience of the Great God before, and with this world, he also experienced such a leapfrog, and he did not fear it.

Compared to Shen Wang's preoccupation, the dog ***** is much easier.

This is not a difficult thing at all. I feel that the escape of Mu Xiyang is also a slight distraction, and he directly grabbed him back.

Soon it noticed the reaction of Yang Baotian and Su Lun, watching them in the air as the enemy's defense, directly with Shen Lang and two connected people, returned to the Jianzong Building.

Yang Baotian and Su Lun are speechless, but they are long and relieved.

At this moment, they still don't know. It is a very powerful dog. I thought it was Shen Lang who took them back together!

After the two of them returned, they reopened the guardian array and then asked seriously, no matter what else to call, don't bother!

The first big thing now is to let Shen Lang complete this process safely. This is a major retreat. Once it is disturbed, it may be ruined.

After the dog ***** brought it back, it was also calmly controlled, keeping the sinking waves from being "sustained."

This support... is more than a month!

For the dog god, there is no time concept, it has a life span of at least several thousand years, and it is not clear for itself for many years.

In comparison, for more than a month, it feels like a nap.

But for the Qiu Lin Jianzong's easy to do, Yang Baotian and so on, it is very heart-felt.

Two days a day is normal, more than a month, I really worried about going wrong.

But in fact, this is already very short.

After all, this is a big fairy, plus a big fairy!

Such strength, all pressure to infuse into another person's body, is a big thing, the key depends on the level of the recipient.

Shen Lang only has the realm of Daxian. It can't bear so much energy, and the degree is not so fast.

The final result is that the dog ***** controls the progress, helps the Shenlang to accumulate strength, and at the same time he himself hits the peak of Daxian.

When he reached the peak of Daxian, he was able to withstand it, and the degree was getting faster.

Although a person's strength is completely transferred, and can not be 100%, but Long Hao plus a Muiyang, even if there is a problem of utilization, it is definitely a full strength of a dragon.

When the Shenlang exits, the dog ***** will be relieved to keep his eyes closed.

It can force the dragon to come out, but the dragon elephant can only slowly digest and absorb it.

"Thank you, Emperor! You really gave me a big surprise!"

"You're welcome, you also gave me a lot of benefits."

The dog ***** also knows how to set it off.

"Let's go out and see, they seem to have something, very anxious."

The dog ***** can know everything outside, but it is too lazy to care so much.

Just seeing the easy to wait for others, often anxiously walking around the door, only to remind Shen Lang.

“Good! We are friends, I will not be polite with you. I will go see!”

Shen Lang first raised his hand and shattered the two dead bodies into powder, which was sent directly to the distance. Then I took a shower and went out to find it.

“Shen, Shen Daxian, you are out!”

It is easy to see the waves, and it is unfavorable to be excited when the whole person speaks.

“What happened? I see you seem very anxious.”

Shen Lang faintly asked, now there is no more ancestors, no need for the dog ***** shot, he is no problem.

It's easy to take a long breath: “Nothing, nothing! We are worried about your accident, more than a month, and the time is too long.”

Shen Lang knows that time has passed so long.

In fact, his own process is also very long, but there is no time to consider the issue of time.

“To break through to the peak of the big fairy, it is not too long for more than a month.”

The faint sentence of Shen Lang is unintentionally loaded, and it is easy to stay straight.

“You, you...”

He has nothing to say directly. It turns out that people have closed for a month, and they have reached the peak of Daxian!

I thought that when I saw Shen Lang, I was still far from him. When I met again, he was still in the same place, and others had already opened him. Now it is a direct leap from watching the waves!

“There are no ancestors of other sects to seek revenge?” Shen Lang asked again.

It’s easy to take back the shock and answer it earnestly: “No, there’s two things, Muxi and Long Yu, we didn’t publicize it.”

Then I told you that the city has stabilized and basically returned to normal. Although they did not preach, but did not know whether it was spread by a Yangzong and herdsmen, the two ancestors also came to find Qiu Lin Jianzong.

However, Qiu Lin Jianzong is as usual, and the two ancestors have no movements. Everyone can guess what the consequences are.

The other sects naturally jumped out to support the Qiulin swords and honored them as the unique giants of Tangcheng. Everyone said they would surrender to Qiu Lin Jianzong.

Other sects still have no ancestors, but others are not very clear.

Whether it is not in the mountains, it is not known.

After all, like Qiulin Jianzong, it is clear that Gao Hanqiu and Mo Feiliu went to Zhoushan, but they could not be contacted. Other gangs could not communicate with each other.

Mo Feiliu and Gao Hanqiu did not return, nor did they pass the letter when they would return.

Shen Lang will not continue to wait here.

It is already a surprise to be able to break through to the peak of the Great Fairy, and it is also a huge gain for the collection of the nine sects.

Now he has to leave Tangcheng, and he has to return to Earth!

The reason why I dare to go back to the earth is because I have been getting along with the dog, and I have a good friendship with the dog god. Especially this time, the dog **** helped him to ascend to the peak of Daxian. It is really not so good for the average Master.

Therefore, he is also embarrassed to continue to guard against others, but should take a look at the earth.

After all, everyone is a neighbor, and what people want to go is the human world of the earth.

After understanding the situation, Shen Lang directly turned to the easy to leave.

I am not too excited to be excited about the fact that Shen Lang has become a peak, and I did not expect that he will leave soon.

This made him feel depressed.

“Oh, what are you doing? It seems like I can’t bear to be like me.” Shen Lang made a joke.

I don’t want to laugh too hard.

“If I am a friend, I am not qualified to be friends with you. We didn’t really get along very much during this time, but you really affected my life! Because of your encouragement, I made a great decision. This is related to The millennium of our swords!”

Now, in the past two months, Qiu Lin Jianzong has become accustomed to it and started the road of hegemony. The outside world also showed a gesture of peace, but in fact it has begun to work hard to become the hegemon of Tangcheng.

It is easy to make this decision. Although he has made a big wicked person, it has greatly enhanced his prestige internally.

Although there was a cultivation of the lord before, after all, his strength was still lacking. He did not have much convincing power in the realm of Daxian. Although he managed the tough front very well the inside and outside food is also handled very well.

But this time, everyone is very convinced. Even if the current sect mainly designated him as a successor, no one has any opinions.

Even recently, he has been very respectful to him. Some of his peers and elders will respect his opinions and treat him as a master.

This is something that I dare not think before, or I dare to think that this is at least twenty years later.

The changes now make him hard to imagine.

And all this, because of the nobles of Shen Lang!

If it wasn't for Shen Lang to make up his mind, he would be the general manager of the tough front. In the next ten or twenty years, it would be such a life.

So he thinks that Shen Lang is very important, like his master.

Originally, I wanted to entertain and serve for a while. It was also a thank-you. I didn't expect Shen Lang to leave now.

"This is that you have this heart. If not, I can't wake up."

Shen Lang smiled and said: "After the Qiulin sword, you still have to look at your young people."

This is actually grotesque, because Shen Lang is only in his twenties, and it is easy to be seven and eighty. It seems to be a middle-aged person.

However, Shen Lang is very natural, and it is natural to listen to it. For this young man, he thinks it is a senior.

"What other materials do you need? I will prepare for you, even if it is a little gift for us. You have a hard time to come, if you don't give a little gift, the sovereign will blame us!"

Shen Lang shook his head: “I have gotten a lot, much better than I expected.”

Compared with the last time, he also got a few hundred times. At that time, Gao Hanqiu took into account his feelings of self-respect, and also let Mo Fei pay attention to the size, not dare to send too much, too good.

Chapter 1496 - Earth crisis

The first thousand four hundred and ninety-six chapters of the Earth crisis

Before Shen Lang left, when he said goodbye to Yang Baotian and others, he also told them about Qi Ming.

After all, this is related to the entire Han Dynasty. The Ji family still can't afford such a big responsibility. One more Qiu Lin Jianzong can at least increase the credibility of this information.

Then he left the Qiu Lin Jianzong with the dog god, did not go to Tiandu, and did not go to the situation of Yuxianmen.

After Shen Lang took the dog ***** to a wasteland, he manipulated the Kunlun mirror of the Three Realms, opened a door to a small space, and wore the dog ***** together.

In order to let the dog ***** see it, Shen Lang's “intentional positioning” is directly in the middle of a city.

It is a pity that for the big cities on the earth, Shen Lang had seen more in the film and television before, and did not go one by one. Where he has not been to, he is unable to pass through.

However, in this way, the dog ***** has been greatly shocked.

There is still an ancient backward appearance on the Nakajima Big 6, and the dog gods seem to have no sharp difference from the human society on their side.

In the cities of the earth, it is really shocking to see the dense buildings in the perspective of dogs.

This is what I saw in the Shenlang projection. If I don't see it myself, it is doubtful whether it is a picture created by Shen Lang.

Shen Lang went directly to the dog **** to eat.

Anyway, it doesn't need to be expensive for it. As long as you take a snack street or something, you can calmly satisfy its appetite.

For a variety of foods that have never been seen before, even if there is no appetite recently, the dog **** can eat a lot of food.

Shen Lang left so long, the phone has no electricity, but when taking the dog **** to eat snacks, by the way bought a charging treasure to hang on the charge.

Looking at the appetite of the dog god, Shen Lang is also put down with it, often a variety of snack foods for ordinary people.

It is also common for hyenas to eat, and no one feels anything different.

However, after eating all the way, Shen Lang always felt that the atmosphere was a bit wrong, but what was wrong, but could not say it.

Is the charge more expensive?

This should not be a mistake. He used to live mainly in Pingxi City. He did not know much about the consumption level of various places, let alone many years passed.

When I had enough to eat and drink, the phone was charged more than half, and then I looked at WeChat. No one gave him any information. After all, they all knew that he went to a place where there was no signal.

Then I browsed the news, but let Shen Lang understand it. What is wrong with it.

Behemoth!

It has been almost two months since Shen Lang left the Great Beast with the Emperor's behemoth, most of which was the month he was instilled to raise the peak of Daxian.

Probably because time passed the expectation of the behemoth world, and suspected that the Emperor was deceived by the deceitful human being. So they once again passed through the space crack and searched for the earth!

They have sent two probes from the least to the past, although they have not returned.

However, Shen Lang's visits let them understand that it is feasible and must pass through another world, a world where human beings can cultivate a very strong world.

They also have indigenous humans in this world, but for them, it is only the early food, and they are too lazy to eat later, and the effect is too low.

Shen Lang undoubtedly let them see new hopes, human beings who cultivated very powerfully. If the number is still very large, then they are huge evolutionary resources!

Therefore, it is impossible to attack aggressively.

The current news information says that a few days ago, a large number of powerful behemoths appeared from the Pacific Ocean.

Last time, the realm of comprehension was timely, then went to the encirclement and was finally besieged, because the timely arrival of Shen Lang was eliminated.

This time, because of the speed and quantity, many giant beasts have crossed the sea to the edge of the coastline.

Therefore, it was discovered by human beings and arranged for military attacks.

However, with the strength of these giant beasts, the Pacific Ocean is the best dilemma. Because it is big, they don't know which way to go. If it is too long, there will be no result, and it may change direction. This is trapped in the Pacific Ocean.

Once they are brought close to the coastline, they have specific goals.

The behemoths have their way of contact, and all of them are in the direction of the current coastline.

What makes Shen Lang slightly fortunate is that the first to reach the coastline is the west coast of the Americas, not the domestic coast.

The countries along the Pacific coast are all guarded by God. The West Coast of the Americas has suffered a mad attack from the behemoths. The army has been dispatched in large quantities.

According to the existing news information, the general idea is that the giant beast appeared near the coastline, causing panic and allowing the military to attack.

And they are extremely strong, and when they are killed, they have already caused a lot of damage, and the information has spread.

When the government appeased the public to panic, a large number of giant beasts continued to arrive.

This situation is far beyond the government's prediction. Scientists from all walks of life are busy studying whether this is a prehistoric creature on the seabed, but there is no clue. There is nothing that has ever happened.

Everyone doesn't know where to come from, and I don't know how many will appear. I only know that there are huge monsters, and the destructive power is very amazing.

And even if the army has strong modern weapons support, it is too late to be dispatched because of the lack of estimates. The people did not have time to leave, and the result was extremely tragic.

Under the cost of a group of dead and wounded, a group of giant beasts successfully climbed into the city, entered the coastal cities, and immediately began to destroy.

Time is not long, but it has already attracted a global debate.

The degree of information on the earth is not comparable to that of Nakajima. Everyone has a mobile phone, so that anyone can record it at any time and put it on the network at any time.

And because this is not a creature on earth, we don't know it, and there have been baptisms of countless monsters. Even if we first saw the behemoth, some people will think that it is fake, making movies, and even many people are excited to shoot.

Who can think of being as powerful as it is, so many people, and even thinking about eating people when they come up.

Therefore, many experienced people have completed the earliest image recording with the cost of life.

These spread quickly across the globe on the Internet.

For a time, the sea of giant beasts appeared, and the nearby cities rushed to escape. The result was congestion of various routes.

Other regions and countries have also responded immediately, and a large number of troops have assembled.

Because it is not clear what the situation is, so many ships and flights have stopped.

Countries are also meeting to exchange information and enter the state of readiness.

Although it is not present in China, it is also in such a state that it directly affects the attitude of every ordinary person, even the most common snacks, and the price has risen sharply.

Chapter 1497 - Global chaos

The first thousand four hundred and ninety-seven chapters of global chaos

After browsing for an approximation, Shen Lang immediately contacted Feng Fengji.

The first sentence of Feng Wuji is “You are finally back”, and then quickly told him more.

The facts are even more serious than the external news information!

Because this time there are a lot of behemoths coming, and the degree is fast. Although there is monitoring in the comprehension world, there are no people who are stationed in the middle of the Pacific.

In addition, there is no unified organization and scheduling in the world of comprehension, and ultimately there is no response.

When they reached the coast of the Americas and clash with the local army, which attracted the attention of the whole world, it was inconvenient for the comprehension community to intervene.

What the parties can do is to influence the government of their own country through their own channels, including mentioning some information about the behemoths, and suggesting that the comprehension community should intervene.

However, before such a crisis, no government of any country would believe that some villagers and villagers, even if there are some families with great talents, can even find the high-level there, just listen to it as a reference for a small road.

Under the high attention of all governments and ready to be prepared, the realm of cultivation can only be regarded as a wall. If it appears rashly, it will only turn itself into a target.

Without the checks and balances of the real strong, the result is a mess.

This is not to say that modern weapons do not work, but each has its own focus. Just like the high-tech weapons of the river city, it is also difficult for the extraterrestrial world.

Regardless of the weapon or the army, the corresponding enemy is a human being. It is stronger, like an elephant, a shark, etc., that is, the difference in strength. If it is hit, it will bleed and die.

Like the dinosaurs in the movie, it is already a very horrible force. Modern weapons are going to destroy them, and there is no need for missiles.

But these giant beasts are different. They not only have a body larger than the Tyrannosaurus Rex, but also have a very fast degree. They can also fly at a certain distance, and can also perform “magic” attacks, and have a strong defense...

All of this is not a regular fight, so that the military is invincible, and it has caused great harm in the process of collecting and analyzing their skills and combat effectiveness.

A more serious problem is that many of them disappeared after they were 6!

The military and police use positioning, monitoring and other technologies, and a large amount of human and material resources to search for search, because of their body shape, search is also easy.

And the top level of the comprehension world knows a possibility...

Although the comprehensions on the earth nowadays, there are very few peaks in the realm of the gods, and there can be half a cents, which may not be hidden for many years. There is no such thing as the Great Immortal, and the beasts and beasts are even rarer.

However, there are some legends that still know. For example, if the beastly beast reaches the beast level, it can be transformed to some extent!

There are two types of formation, one is to become smaller or larger, and the other is to have another shape.

There are a lot of powerful beast gods, who will become adult and learn human cultivation. This is such a process.

So these disappearing behemoths, the comprehension community knows that they are not hidden in a certain building, or underground.

If they shrink the body, such as becoming a mouse, they are generally ignored, and they can be safely transferred.

And if it can be turned into other species, even human appearance, it is even more difficult to find.

However, this possibility reflects the past and is also regarded as a demon to confuse the public!

As a result, it can be imagined that the area of a few hundred miles is nothing to their degree. Not long after, they spread to a wide range of human cities.

Up to now, on the other side of the ocean, there have been several big countries and many states have fallen, and many other small countries have also suffered from Philippine.

This time, there was a beast ***** to lead the team, and after the transformation to other cities, the original appearance was restored, and the city was rampant. Many buildings were destroyed at random, and many people were directly swallowed.

And the purpose of their coming to the earth is for resources. It doesn't work for ordinary humans to eat. In their view, if they don't find the right one, they will move to a farther place and destroy it in other cities and countries.

Such a degree of transfer will make the parties even more invincible. Now, apart from the fact that all parties in the Americas are on the verge of enemies, the rest of the world is also highly alert.

We are a big country with a large population. If such a giant beast attack occurs, it is extremely harmful. Therefore, the country also attaches great importance to it, that is, it strictly guards against foreign countries and closely monitors along the coast.

There is still a certain traditional influence on the cultivation of the country. Therefore, leaders have begun to listen to the voice of the comprehension community.

Shen Lang already has a general understanding. For such a situation, he is also very helpless.

Originally, I left with the dog god, and I didn't expect that I would go there for two months. There will be changes there, and I can't blame the dog god's influence.

With the strength of the earth, it is not a problem to destroy the behemoths, including the beast **** level. However, there is no way to have a beast that can be shaped.

When they are hiding in a city Do you want to bomb the entire city?

Especially their degree is so fast, it may take an hour or two, it is already far apart, and it is too late to make a precise blow.

Shen Lang thought about it, and this thing had to be handled by the dog god.

They are in the world of giant beasts, and they have contact information. Even on the earth, in the realm of dog gods, there should be ways to inform all behemoths.

As long as it is confirmed that it is safe, other behemoths will also obey the command of the withdrawal.

Shen Lang immediately communicated this idea to the dog god.

The dog ***** is obviously also very surprised, and it is still very confident about its own influence. This is followed by Shen Lang, and suddenly magically passed to another world. It is familiar with the freshness here, and did not expect the giant beasts to have attacked here.

“You can rest assured! I will call them right away!”

“and many more!”

Shen Lang quickly stopped.

According to the information, these behemoths led by the beasts have caused the world to be chaotic, but mainly in the Americas.

Now the dog ***** is in the country. If it is so summoned, all the beasts and behemoths will gather from the other side of the ocean and from all over the world, but the domestic pit will be big!

Even if the dog gods are ordered to stop eating people, they really do not eat people, but as long as they collide, they will also hurt a lot of damage.

Moreover, if such a large-scale transfer to the country is inevitable, the relevant departments will be vigilant to open fire. They cannot fight without counterattack, and things cannot be cleaned up.

“Don’t bring them together. You have already seen them. Actually, they are all ordinary people. It doesn’t matter to you. It’s all right to go back!”

Shen Lang is very cautious.

Chapter 1498 - Hurricane Incident

The dog ***** is just still eating all kinds of food here, and of course it is clear that those who make food are ordinary people.

Although it does not know all human beings, it does not feel any human beings that can threaten it when it reaches the city.

Strictly speaking, no one can cause it a little interest.

So it also understands that Shen Lang is not a lie, it is really worthless. Purely just eating meat, then their world is not lacking.

“You can rest assured! I will let them withdraw immediately. This is a misunderstanding.”

The dog ***** did not shy away from the waves and immediately entered another state.

They have their way of contact, and Shen Lang is not easy to find out, just waiting for its news.

It is basically impossible to have any problems with the Emperor's behemoth. The only thing that is a bit worried is that in the environment of the earth, the dog **** can't reach such a distant place.

After a while, Shen Lang felt that the expression of the dog **** seemed a bit wrong, and immediately took care of it.

“what's the situation?”

The dog god's mood is wrong, “a little bit of a situation...”

The meaning of the dog **** passed, let Shen Lang also be serious.

It wasn't that it couldn't sense all the behemoths, but it just found another problem when it was in contact with other beasts.

These behemoths will be attacked in a big way. It is really related to the fact that the Emperor's beast has not returned for a long time, but this information is also used!

Simply put, dog gods are unique in the world of their behemoths. But it is not without challenges, but there are other powerful beasts that want to replace them.

No matter which world is the same, power is played by strength. The ancestors of the dog gods have also encountered challenges.

But they also rely on wisdom and strength to suppress all other behemoths.

This generation has a lord of beasts. For centuries, he has been loyal to the Emperor and the Great Beast. It is a powerful assistant to the governor. He has also received some guidance from it, and now he has reached a very powerful realm.

Before this departure, the dog **** gave the command of the whole world to the hurricane beast god.

Originally, it felt completely reliable. The hurricane beast must take care of the whole world and will strictly guard the space cracks according to his shackles.

The result is that after it leaves, the Hurricane Beast has begun to rectify the whole world!

The original world is a single one, and everyone's obedience to the Emperor's behemoth is also a natural habit. The Hurricane Beast God originally had the authorization of the Emperor's behemoth, and naturally took power.

For a while, in the name of the Emperor's behemoth, it turned the beasts and behemoths of other ethnic groups into recognition and acceptance. A few who have questioned it are cleared up by excuses.

After the complete control, the Hurricane Beast received an excuse to receive a signal that the Emperor's behemoth had a crisis.

Everyone was obeying the Emperor's behemoth. He wanted to wait for it to come back and accept the order. However, the Hurricane Beast had already claimed the information and was originally authorized.

For a time, all the beasts and gods accepted the assignment. But for a strange world, everyone is not a **** one.

There may be huge gains, this is the place to attract them, but the previous batches have not gone back, and the Emperor's behemoths have not returned, which also makes them feel very dangerous.

The final arrangement of the Hurricane Beast is a group of beasts and behemoths who are more loyal to the Emperor's beast, staying in their world, while others have some beasts and behemoths that directly invade it. .

The Hurricane Beast God also had a close-up to send the Emperor's behemoth and Shen Lang to leave, and saw the Shenlang to make the Emperor's beast become smaller.

It is also the opposite. By letting the behemoths and beasts become smaller, they can enter more at once.

Although they are not directly connected, they are more numerous and share the space impact. In particular, the bearing power of many beasts is much stronger than the average beast.

Finally, the beasts and behemoths who came here this time, at the same time, were basically not injured and injured. Finally, some of them remained in the chaotic space, and most of them entered the entrance to the earth next to them.

The latter situation is the same as Shen Lang knows. After they arrived, they explored one direction, eventually landed, and then quickly spread.

When eating humans has no effect, they all think that they have not encountered effective humans, so continue to expand the scope and eat more people from different places, especially people of different races.

Just like human beings will feel that “black chicken” is more complementary.

“Now you have to control the hurricane beast to regain control of all other behemoths?”

“The hurricane has already told them some things in advance. Now I feel my letter, they all feel that I am controlled by this side, so...”

“So, now you contact them, but instead make them feel that the hurricane is right, more **** want to save you?”

The dog **** defaulted to this fact, and immediately said: “Reassured, I solved it quickly!”

After just expressing it to Shen Lang, Shen Lang had not had time to discuss with him more, and the dog **** disappeared immediately!

Shen Lang is speechless.

Although he has now ascended to the realm of Daxian, the dog **** is comparable to the realm of the gods, once he is fully committed, he can not be traced.

Shen Lang deliberately thought that the hurricane beast should also land on the other side of the ocean. It is because of its higher intelligence and various commands that other beasts and behemoths can compete with the human army.

He couldn't feel the hurricane beasts, but he could get closer even if he chased the battlefield over there.

Shen Lang immediately let Feng Jiji collect the latest information, and the speed is fast. He himself travels directly to the Americas on the other side of the ocean through the super-sonic flight of the Holy Grail.

The result leaped over the Pacific Ocean has not waited to board the mainland, Shen Lang felt a danger.

After his sense of crisis, the defense system of the holy armor was immediately detected, and a missile was attacking him!

Shen Lang is quite speechless. He came here to help, and he could even say "save the world", but the country here did not even say hello, and directly attacked him on the missile!

He can't do it to the people of the earth, and he can't let them attack. Since he was discovered, he can only explain it by letter.

However, when it is necessary to send a message, it will be reflected. The current holy armor is the black technology product of the river city. In the river city, even in other cities in the world, the network can be used.

But now this is the earth. The only thing that has been injected before is the ordinary database. Even if it is advanced, it can't control the data that has never been touched.

The other country should have issued a warning, but the signal of transmission was not accepted and analyzed.

Chapter 1499 - Doomsday

In the past, Shen Lang only asked the Holy Ghost to collect some civilian data that the Internet could collect, and did not provoke the military and technology giants to avoid being targeted.

Now if you want to let the holy armor crack the analysis and then black into the military system of other countries, it should be theoretically possible, and it will not be too troublesome to deal with it.

To explain, this is hard to tell. For his existence like this, countries will be jealous!

Nowadays, the world is in the preparation stage, and the invasion of the holy armor may be discovered, which will trigger a chain reaction!

At that time, it may not be the country that is entering now, but all the major countries in the world may attack him together!

Because the current situation is already very dangerous and chaotic, such a super hacker suddenly appears, other big countries will naturally be suspected targets, in order to prove that they are not what they do, everyone will attack immediately.

Shen Lang does not want to spend the spirit to deal with the attacks of major countries around the world, nor can it cause such a situation. Otherwise, it means that he has helped the giant beasts to attract global firepower!

Time is urgent, and he has no more time to think about it.

As a matter of urgency, what needs to be solved is the missile in front of you!

Perhaps the warning has no effect. After the first missile, more missiles are intercepted one after another!

The current speed of Shen Lang, for the reconnaissance of the Earth, seems to be an intercontinental missile, and it is still unclear that cannot be detected, so it is very easy to trigger international speculation.

However, for Shen Lang, it is not difficult to avoid missile attacks.

The missile defense system, ground-to-air missile interception, etc., are actually very accurate, but that all comes from the calculation after the flight data is measured.

When the calculation can be accurate to the meter, the strike will of course be very accurate, and the bigger the target, the more accurate.

But there is a premise, no matter what intercontinental missiles are being fired, the speed of propulsion, etc., there are data that can be analyzed and referenced, and then combined with observation data.

Now Shen Lang has reached the speed of intercontinental missiles with the Holy Grail, but it is still flexible. It can change the route at any time, and can also adjust the height and speed.

For the sky, he only needs to adjust it to avoid the intercepting missiles with fixed tracks. Some tracking missiles are a little troublesome.

However, for the sacred armor, this is not a problem. It can directly erase all the traces, and even an analog camouflage is unfolded in the outer layer, so that the radar can not be monitored, and the “invisible” effect is truly achieved.

As a result, for the ground military, that high-speed unidentified object, completely disappeared, no matter what reconnaissance has no effect!

This result, the military of the country is highly valued, and thus is associated with a possible alien ship like UFO!

If this is the case, then it is not the danger that one country and one army can resist, nor the danger of one region and one country, but the crisis of all humanity in the world.

As a result, the information was quickly reported to the UN Security Council, and all countries came together to attach great importance to this human crisis.

After the “invisible” boarded the American continent, Shen Lang did not have a specific target, but also a substantial speed reduction. Starting from the coastline, he began to inspect inland.

Along the way, he also saw the truth.

Some tourist cities that were originally along the coast, even if he had never seen them, can be seen, and there have been big changes.

Not only did there be a lot of traces after the disaster, but no one saw the people again. The crowd fled to the distance.

When Shen Lang stopped to accept the latest information from Feng Youji, he got a message.

Zheng Yumeng and Dorothy are here!

Zheng Man’s descendants, such as Zheng Yumeng’s grandfather Zheng Yuqing and others, are overseas.

Everyday Zheng Yumeng can be at home, but if you encounter such a thing, you will certainly have to go back to protect your family.

Dorothy is the western vampire family. Only because her father did not care about her life and death, she was deeply disappointed, even if she inherited the family, she did not care.

But now, she should be coming back.

When Zheng Yumeng transferred the surviving Shennan couple overseas, Shen Lang used to pick them up and went to the Zheng family. It was also the Dorothy who met at that time.

At that time, the sacred armor he used was not the latest and most advanced, but the alternate holy armor of Bihaihuan, but the data was transferred to him.

So now it is also possible to find the trajectory, and the wind has no information except for the information, but also sent their position.

According to the latest information collected by Feng Wuji, the behemoths are still on the mainland, and there is no law at all, so she can not explain the specific theater.

However, according to their contact with Zheng Yumeng, the city where Zheng's family is located is in the midst of an attack!

The area where the Dorothy family is located and controlled is not far from that area, so at this time, the two of them are also together.

For the time being, I can't tell where the hurricane beast is. Then I will go to Zheng Yu Meng Dorothy to see it.

Originally, Shen Lang did not worry about safety for them. It is impossible for the monks on the earth to threaten their safety. If they join hands, they will be foolproof.

But now this time is different. Even the dog god, the information that is now harvested is still limited. It is impossible to determine how many monsters and how many lords are actually coming.

If it is the leader of the beast ***** level, it is equivalent to the realm of the Great Immortal, it is Dorothy and Zheng Yumeng, not an opponent.

Shen Lang originally had no specific purpose. He probably came across the Pacific Ocean in the direction. Now he is positioning the city where Zheng Jia is located, and flying over the supersonic speed.

When it comes to this place that has been here, Shen Lang is completely strange!

Although it has been a long time , but after all, I have been here once, and it was a time when I was here in the New Year. It is a completely unfamiliar city. It is a certain impression.

But now I see what I see, but it is like a last-world scene!

There are collapsed buildings everywhere in the city. Many roads also have a lot of potholes. It is obvious that they have been devastated by giant beasts, and in terms of degree and density, more than one behemoth should have been ravaged here.

There are already traces of people in the city, but there are some bloodstains everywhere, as well as some broken limbs. These should all be caused by being hit by a beggar, or else the beast will open his mouth and there will be no trace at all.

Shen Lang just flew from above, then stayed at a high point in the remaining buildings in the city, ready to patrol to see if there were any traces of giant beasts in the city.

Already here, he does not have to race against the past Zheng family, to find the giant beast is the key.

At this time, there was a wave in the air, and rows of bullets ran towards his body!

Chapter 1500 - Discrimination?

Shen Lang's personal dealings with modern hot weapons are not too many, but with his current big fairy realm, a direct idea has clearly clarified all the conditions.

Bullets come from one direction, but not from the same gun, but multiple guns are fired at the same time.

The people who shot were all ordinary people, some of whom were local survivors, some were military, and they were hiding in a building.

They may not be able to transfer and escape, or they may cover other people's evacuation or have the dream of attacking monsters.

With their firepower, for the behemoths, it certainly has no effect. I just saw that Shen Lang is flying directly in the air. This is not what humans can do. It is like a monster, thinking about being smaller or killing.

When it was said that it was too late, Shen Lang immediately understood the direction of the bullet source, and at the same time, all the bullets that had been taken out of the air were blocked in the air.

Then he didn't even need to wave his hand, all the bullets that were blocked in the air, and immediately turned back and returned!

Because the time was too short, those people had just had time to launch, and even the bullets could not be seen in the air, but then the bullets turned back to the front, it was frightening them!

These bullets have come to the front and are in the air, which is obviously the bullet they shot themselves!

Such an incredible scene directly trembles everyone.

At first, I saw that Shen Lang could fly. They also thought that it would be strong first. After all, all the bullets were hit through the distance, and they could still be sieved before the other party approached.

But now others' "super powers" have already made them have no temper.

Everyone has a kind of fear, as if they are always looking at the bullets to make themselves headshot!

Their people are shaking and unintentionally aiming at them, their eyes are focused on the bullets in front of them.

After a while, there was a shadow in front of them, which made their eyes shift.

I saw the mysterious human being, just standing in the air outside and looking directly at them.

“People”... Someone threw the gun down and fell down, then bowed to Shen Lang.

Immediately everyone else fell down.

At first they didn't have time to look at it. Now it's close to seeing it. Although it is an oriental, it is not a monster. And if there is malicious, it should let the bullets kill them directly, without having to stop in the air.

miracle!

This is the **** of the East!

Shen Lang let all the bullets fall by their side.

“Get up, tell me what is going on.”

Shen Lang stepped from the air and went to the building where they were hiding.

“Yes, yes... God, God... Are you the messenger of the **** of the East?”

“We have been hit by a huge monster here, and the whole city has been ravaged.”

“A lot of cities have suffered, and we are more serious than other cities!”

“Some people have fled, some people have died, we want to unite and save ourselves, but our strength is not enough...”

As they talked about it, Shen Lang basically understood a general.

The beasts that have been encountered here are more than other cities, and there are as many monsters as they come. They are also unclear and can only be sure that there will be more than one.

Shen Lang is estimated to be related to the environment!

This area can be regarded as the site of Dorothy. It accepts the vampire family and some superpowers.

For the behemoths, these human beings who have more power than ordinary people are the resources they are looking for!

All are ordinary people's cities, and the giant beasts are really passing by, at most searching for them, looking for valuable humans, ordinary people are too lazy to eat so much.

The large number of deaths that occurred was mainly caused by stamping, collision, and collapse of buildings, or some annoyances that wanted to counterattack were eaten.

But there are some superpowers here that have attracted more attention.

After the discovery of the beast, perhaps more monsters will be called over, and then the carpet search will begin, so the city has suffered a lot of destructive power.

The rest of them are relying on the weapons left by the soldiers.

But in the end, the guns just gave them a psychological comfort. Really survive because they are lucky.

The beasts rushed to the past, and it was directly that several streets were crushed. The places where they were hiding, if they were hit, they would be finished.

Now the city is like this, they can find a car, but there is no way to drive out. Moving and ringing may attract monsters, but they will kill them, so they have been hiding here.

Just now, watching Shen Lang compared with other giant beasts is a "very small monster", so I dare to start with a strong one.

Shen Lang asked them again and there was no useful information. They are all harbored here, and the big noises can only be heard a little, and they can't see more.

"Are you coming to save us?"

"I finally waited for the rescue!"

"We should be the only survivor, please let us go."

They looked forward to watching the waves, although they did not see the helicopter, but if they can fly away from the city with them, they don't mind taking a chance to experience it.

"I am passing by. You will continue to wait for the rescue!"

After Shen Lang finished speaking, he turned and left.

Those people couldn't help but rushed forward and pulled the waves away and prevented him from leaving.

"You can't leave us alone!"

"No matter what ethnicity, everyone is human."

"You can't save your Asian Chinese, don't save us from racism!"

"Yes! You don't save us, we have to accuse you of racial discrimination!"

They thought that Shen Lang only saved Chinese people and quickly buckled out the best used hat.

Racial discrimination is a very serious complaint. Once it spreads, it will have a great impact. People from all walks of life will be pressured by public opinion. That is very incorrect. Anyone will avoid such a result.

This is best used only to say let Shen Lang frowned.

Racial discrimination? Complaint?

Shen Lang sneered aloud: “Do you think that I am your government to help you? Are you racist, I am going through the people who have attacked me, I haven’t found you yet! Why save you!”

This made them stunned and did not expect that Shen Lang would spray them directly.

“You, you... Whether you are a ***** or a superhero, the greater the ability, the greater the responsibility!”

“Yes! You have to save the world and save all human beings. We are the most in need of salvation.”

“You see that we are trapped and not saved, can your conscience pass? If we have an accident, this is what you caused!”

They continue to put pressure on Shen Lang, and they must not let this superhero who brought hope run away.
