

First Strong 1501

Chapter 1501 - Ants

Shen Lang heard a frown, what is the theory of ghosts? Is moral kidnapping?

Seeing that he hesitated, the few people of course took him and then continued to press.

“Whether you are a **** in the East or a superhero in the West, you are human! It is human beings who will serve all humanity!”

“Yes! We belong to the same earth, everyone is human, you can’t be eccentric!”

“When our superheroes fight against alien invasions, will you care about your East?”

“The city monitoring here has been ruined, but my cell phone has electricity, I will shoot you!”

“Yes! If you don’t save us, expose your ugliness and let the world know your ugly face!”

As they said, they really took out their mobile phones and made a move against Shen Lang.

In fact, in order to be afraid of no electricity, they should be on the turn. Only one mobile phone is turned on, and the others are kept off. Now I am thinking about being able to leave, so I picked it up and turned it on.

“You are pushing me?” Shen Lang asked slowly.

“Not that we force you, but you as a superhero, you should have your responsibility!”

“You can’t help but save us!”

Some people are tough, and some people sing red-faced tempering tone: “You want to search for the Chinese Asian mindset. We can understand it, but they may have left. The whole city is a dead city, and we are still alive. “”

“Yeah, since you are here to save people, compared with people who may still be, we should be the most important.”

“Because you are alive, I see you again, so I have to save you?”

Shen Lang asked a question.

They have not heard that the tone of Shen Lang has changed.

“You saved us, we will thank you and preach for you, let the media all over the world know about you.”

The one that talked is that the phone is turned on. He is really shooting, and the other is that the phone has just turned on.

“Then you are still dead! If you die, you don’t need me to save!”

Shen Lang just moved, the person’s mobile phone directly exploded!

Although the power of the mobile phone is limited, but everyone is pulling the waves, it is close to each other, they are shocked, and quickly retreat.

Then they took a closer look, the same very deep waves, and no damage, just the explosion seems to be oriented, directly blow the face of that person!

“You...you...you killed him!”

They were shocked to see the waves, although it was just a cell phone battery explosion, but it was also a coincidence, it is more likely that this superhero is a ghost!

“You are all dead too!”

The waves shook, not only the ground they stood on, the whole building began to collapse!

Those few people could only have time to protect their heads and run without a place to run. They were immediately smashed by the falling walls and then buried in the rubble.

Shen Lang has been suspended outside, looking at it all coldly.

“Good and ferocious means!”

“You seem to be a superpower in the East, actually killing ordinary people!”

Inside the other building ruins in the city, three superpowers emerged, quickly forming a circle of swells on the nearby roof.

Obviously, they have just seen the situation here.

Shen Lang certainly knows their existence, but he doesn't care.

This is the three A-level superpowers, which is equivalent to the real world. And the current Shen Lang, it is too far apart.

It is also because they are A-level, if it is the S-class superpower equivalent to the realm of the gods, even if you have not been to the non-return to the sea, you should also know the Shen Lang.

“What you said also makes sense. Killing ordinary people, like pinching dead ants, is really without feeling. If you kill you, how much will be like walking on a dead cockroach.”

Shen Lang glanced at them.

“Fuck! You actually treat us as a beggar!”

“You are a murderous superman who kills people like ants!”

“Are you with the monster!”

They were angry, but they didn't do it, because the sinking waves floated in the air, and the collapse of a building just after the lame, showed extraordinary strength. And they simply can't see through and dare not take risks.

“In front of me, they are ants! The ants dare to attack me, they are already looking for death! I let them go, threaten me, and find death!”

Shen Lang sneered and asked again: “Do you want to find death too?”

“...”

Three people in different directions exchanged their eyes.

Of course, they also don't see ordinary people. They have certain approvals for Shen Lang's words. However, they still have principle constraints. They still feel that ordinary people can't kill them any more.

On the other hand, Shen Lang asked if they were looking for death, and they were very upset. They are also ants?

Seeing that they hesitated, no excessive words continue to offend, Shen Lang is too lazy to see them again, hands up, directly grabbed three people over the sky!

This time, it was a surprise to three people.

They realized that the strength of the other side is not weak, above them, but they imagined that the other party might be an S-class superpower. If three people can't win, they can exert pressure.

But now that the other party is moving, they are completely uncontrollable and caught. The difference is really too big, just like a hi-hat.

Do not! 蟑螂 is also very flexible, not so easy to step on, they can't move now!

After a while, the three people were brought together.

“I am not what you can afford, let the old man roll a little farther!”

After saying this sentence, Shen Lang directly threw out three people.

Poor these three A-level superpowers, put the country is also a master of the real world, so that the three people together, without any resistance, so far thrown out of the thousands!

After the throwing, Shen Lang did not pay attention to their end. If there was a lurking body that was still lurking there, it was their own bad luck.

This is also to understand a little bit of this situation He is now a big fairy, this little episode will not affect his mood.

When he rushed to the Zhengjiayuan suburb, he had not arrived yet and he had already discovered the situation!

Zheng Yuqing, as a descendant of Zheng Man, is also a comprehension family. Although not big, it is still mysterious and powerful compared to ordinary people.

It is a pity that the Zheng family has already fallen. Except for the granddaughter Zheng Yumeng, no one is willing to cultivate. However, Zheng Yuqing has always been in peace, not living in the city, just to facilitate the transformation.

Their manor, from a distant intersection, has monitoring. The villa house is also an air defense basement that is far superior to the average person.

But this time the enemy is not the gang of ethnicity, nor the local superpower, but the behemoth!

At the moment when Shen Lang arrived, there are already many behemoths in Zhengjia Manor, which directly slammed the villa!

Chapter 1502 - Siege

Zheng Yuqing, a district, certainly cannot confront the behemoth.

Besides, just a Zheng Yuqing, not to mention the inability to attract monsters, is the superpower of this side, too lazy to hit his idea.

Now it is possible to let the behemoths besiege the Zheng family because there are many people gathered here!

The key, of course, is due to Dorothy and Zheng Yumeng!

Some of the Zheng family are not in the local area or in the city. They have already withdrawn. Zheng Yuqing is sticking to this manor. This is their “home” overseas.

This “home” can be maintained because there is still him alive, this manor is a form of existence. If it is destroyed here, then it can no longer continue, it is divided into small families.

Zheng Yumeng is of course going back to protect his grandfather.

Dorothy is also back together.

They all fought with the behemoths, knowing the power of the behemoths, the last time they could hold on to the back of the waves, it was because everyone was together.

Nowadays, there are only two of them, and there is no such thing as a canoe, a rain, and so on. The strength is greatly reduced, and if they are separated, they are even more dilute.

So I have been negotiating for a long time. After Dorothy came over, I went to the vampires and the superpowers and quickly gathered them together. Together, we will guard the confrontation here.

Their original intention is to imagine that all the forces can be gathered together on the Pacific Island that day, and they can be guarded even more.

But what I didn't expect was that, instead, let these giant bets stare at everyone!

If it was scattered, one place would be only one or two of the self-cultivators and superpowers. The behemoths would not pay attention to that much and would be treated like other ordinary people.

But when they got together, they let the beasts feel it. There are a group of people with extraordinary spiritual power, which is naturally the resource they are striving for.

The result was that the behemoths rushed over and ravaged the city, then searched for it and trapped them directly.

When Shen Lang arrived, both Dorothy and Zheng Yumeng were guarded at the two ends of the roof. Others, whether it is Zheng Yuqing or vampires, superpowers, are in the villa.

This is not the shame of others, but only the two of them are the most powerful. Others who go to guard and attack will only become rations of giant beasts.

The result is that the two of them want to protect everyone else, let them struggle, and it seems that the behemoths are different from the previous ones. This is not a attack, or an attack, but they want to pressure them to ask for help. To attract more comprehensions to come over!

These behemoths are commanded by the beasts and are more intelligent. Under the siege, they will not rush together in the past, but will rush over from time to time.

When Dorothy or Zheng Yumeng attacked the past, they immediately retired.

They did not dare to chase, or else they would have drowned the villa directly.

In front of such a group of giant beasts, Zheng's villa is as vulnerable as a hut!

Every impact of the behemoths is not only the consumption of their two physical stamina, but also the pressure on other people in the house.

Their purpose is to make these humans unable to withstand the pressure, and then they will ask for help – although they do not know the way of telephone, then there will be more people coming over.

After seeing this situation, Shen Lang flew directly past and slowly descended from the sky.

His appearance, the giant beasts did not stop, let him close, let it enter the encirclement.

They even pretend to be undetected, lest this rush to rescue. Until Shen Lang descended from the sky, they were relieved.

And Dorothy and Zheng Yumeng immediately felt the familiar atmosphere. Seeing that it was coming, the two people were a little bit excited and a little relaxed.

Last time against the behemoths, there are a group of sisters, as well as global masters of comprehension. This time, they are two of them, others need their protection.

So the time of this trap is not so long, but the two of them are already physically and mentally exhausted.

Even they could not ask for help from the canoe far away on the other side of the earth, because it can be seen that this time the behemoths are stronger and more strategic, and they are encircling them. Help will equal them!

The last time they didn't know when Shen Lang came back, it could only be hard support, and there was no time to look forward to.

This time, I know that Shen Lang will definitely come back soon. Even if I have been in the past for a long time, as long as I have not encountered danger, I will still come back after all. What I need is to hold on.

Looking forward to expecting, Shen Lang is finally here!

For a moment, they even suspected that they were their own illusions.

The super-powerful people and vampires in the house, although not so aware of the situation, but because of Dorothy's relationship, the information about Shen Lang is more concerned. I saw a seemingly more powerful oriental monk, and immediately thought of Shen. wave.

In the past days, Shen Lang became the information of the world's strongest, and only the world's strongest group of monks knew that they were not qualified to know.

However, they are Dorothy people, but they can be launched from the strength of Dorothy!

Since that year, Dorothy has grown to such a strong position in just a few years, at least it is already S+. Naturally, because of the deep waves, the Shenlang will certainly not be bad.

Zheng Yuqing is the grandfather of Zheng Yumeng, of course he knows a little more.

So when I saw Shen Lang appear, I let his tears rise and fall. Before relying on his granddaughter to resist outside, he was very ashamed, but he was incapable.

Now there is finally a strong person who can share the pressure.

Shen Lang descended from the sky, and fell on the top of the villa. He did not look at other behemoths and stared directly at one of them – the beast god.

The only thing that can make him jealous is the beast god. This is a behemoth comparable to the Daxian level. Others are even the king's level beasts, and now he can not care.

“Do you know me?”

The arrival of Shen LangThe behemoths are undoubtedly excited. This new rescued human being is obviously much more powerful. This is the resource they need.

It's just that they certainly can't recognize the waves, and many beasts don't necessarily see the waves, let alone the behemoths.

Besides, the two sides mentioned that the difference is so big, not in-depth contact, how can they be impressed?

Just like humans see small animals.

Therefore, when Shen Lang suddenly said this sentence in the animal language, they were directly shocked.

"Who are you? How can you speak our language?" The beast was alert.

Needless to say, it is also associated with a person, only the human beings who have reached their world will be their language.

And that human being, he left with the Emperor. And just a short time ago, there was information from the Emperor...

Chapter 1503 - Leading the beast into the city

For the information of the Emperor, the hurricane beast has already notified them that it is controlled by the human world, and everyone must try to expand the influence to save the Emperor.

This beast is still besieged here with the behemoths, and when it is necessary to think about it, it may be a hostage of exchange.

As for the situation of the Emperor, everyone is still waiting for the information of the hurricane beast.

Now, here I saw the human being who cheated the Emperor!

The beasts of the beasts skyrocketed, and immediately the other behemoths were scared to lean over. The superpowers and vampires in the villas were all shivering.

Dorothy and Zheng Yumeng also felt the pressure, but there were still waves, they still felt very safe.

“You have been used by the Hurricane Beast! I and the Emperor were not in this world before, just came here, and found that you did not obey the order...”

“presumptuous!”

The words of Shen Lang have not spoken yet, and the beast will come out.

“Where is the Emperor of the Emperor? Let’s hand over the Emperor! I will contact the Hurricane!”

Shen Lang immediately frowned.

The beast will feel that he has swindled the Emperor’s beast. It is not surprising that this is the temptation of the hurricane beast; it will not be surprising to find his situation and report it to the hurricane beast.

But the problem is that Shen Lang now has the power of Daxian, and it is not difficult to deal with the behemoths, but against the beasts of the beast ***** level, they can only deal with one.

The dog ***** does not know where to go. If it has found the hurricane beast, of course it is best. If it is not found, and the hurricane beast is not far from nearby, then it is worse to call a number of beasts.

“I take them away, you are all zero, scattered away from here, don’t gather again!”

Shen Lang quickly passed the sound to Dorothy and Zheng Yumeng, and then immediately flew away to fly away!

The beast ***** has just gained momentum, but in fact it is ready to fight.

Before the strength of Shen Lang, although everyone has not seen it, but also heard it, so I dare not underestimate him.

Especially on other people's sites, if even the Emperor is arrested, they are even more dangerous.

At this moment, seeing Shen Lang does not respond to it, but directly left, it immediately called on other behemoths to catch up!

After Shen Lang came over, he did not directly greet Dorothy and Zheng Yumeng. After so many experiences, they were not girls who had no experience in the past. Even if they were relaxed and relaxed, they did not greet them.

So in the view of the beast, Shen Lang is because they come here, not for these humans.

At this moment, it was forced to ask the Emperor's message, and Shen Lang ran away, naturally it was a guilty conscience.

Compared with the safety of the Emperor, these human beings are not worth mentioning. When it opens, other giant beasts have to hurry to catch up.

The beast **** and several giant beasts rushed at the same time, and they trembled directly like an earthquake.

Just after the arrival of Shen Lang, I brought hope to everyone, but I don't know what Shen Lang and the monsters are screaming. I can easily guess that it is communicating. At this moment, the behemoths are rushing to catch up with the waves, but they are all I saw it.

Everyone was nervous and relieved.

The tension is that these monsters seem to lose their temper, and they are swarming up, much more powerful than the previous single attack.

With a sigh of relief, it is natural that the target of chasing now is Shen Lang, and everyone is temporarily safe.

Both Dorothy and Zheng Yumeng are undoubtedly deep concerns.

But they are more aware that if they keep up, they will not only be unable to help Shen Lang, but will delay their legs.

Since Shen Lang has already led the giant beasts out, it is to let them save people. If they can't do it, let him be busy.

Therefore, they can only grit their teeth and let everyone evacuate, especially to convince Zheng Yuqing who is unwilling to leave.

Shen Lang just left without saying anything, he must maintain such an attitude, but in terms of speed, he has done a certain degree of temperance, they must wait for them to keep them up to date.

If he swiftly smashed them up, the beast **** should be in contact with the hurricane beast and report the direction of his escape, and he might stop to destroy the Zheng family.

The direction in which Shen Lang left, did not go far, nor went to the countryside, but went to the city!

Recently, the behemoths have been destroyed by densely populated cities. The villages and mountains are sparsely populated, and there is not much damage. When the population in the city fled, part of it was driving to a more inland area, and some of them could not escape. It is very likely to hide in the countryside, mountains and the like.

He has just stopped in the city, although there are still such residuals, but the number is very small. Leading to other places, if you kill a lot of ordinary people who are hiding, it is not good.

On the other hand, the various high-rise buildings in the city are very good for the human body, and for the body of the behemoth, it is a variety of obstacles.

In addition to summoning other behemoths, the beast **** is the first to bear the brunt of it, and definitely does not let Shen Lang run.

Seeing such a small human being, but the speed is so fast, it is also a little depressed, always feel that you can dry up the waves with a sigh of relief, but always catch up.

Seeing the dark waves entering the city, the beast ***** realized this. Once he was hidden, it would be much more troublesome to find. When they are looking for, the other party may escape with cover!

“Roar—!”

The beast ***** immediately gave a roar, commanding other behemoths to keep up, and to open a siege of Shen Lang.

And while it's own, it has already spurted a strong airflow!

This airflow range is not too big, basically the extent of its mouth is wide, but after the ejection, its speed is very amazing, directly approaching the back of Shen Lang!

Moreover, the power is also very amazing. The glass on the surface of the building, which is tens of meters away from the surrounding area, has been shocked and burstped. The close-up things are directly washed away.

Seeing that Shen Lang was hit by this airflow Beast God is also a spirit of recovery, chasing the past in speed.

But at this time, it saw the front of the waves, as if it was pushed by the airflow it spewed, the speed actually increased, but it opened its distance!

Did not kill the swells, but was used, which made the beast ***** very uncomfortable, and at this moment Shen Lang has bypassed a tall building in front, and was blocked from sight.

The beast ***** is worried about this, it immediately no longer pursues in a straight line, and directly slammed into the side and slammed into the building that blocked the line of sight!

Although this will be blocked by the building, but the diagonal line chasing the right angle, it can be copied a little.

A tens of tiered building was directly smashed out by the huge body of the beast god, and the whole piece of the building body flew forward!

Other behemoths have the same kind of learning, no matter what the road is, and they are rampant against all kinds of buildings, and they are surrounded by the fastest.

Chapter 1504 - Bigger than what?

A series of buildings were collided and collapsed. These buildings are high and low, and some have been hit, so they are even more vulnerable.

The result is not only a lot of sound, but also a lot of dust, and it is scattered in this dead city.

The beast is the fastest one, but it knocked down the building and rushed over, but did not see the dark waves.

The other behemoths also came from different angles and smashed the buildings of several streets. They surrounded the Shenlang and it was supposed to be trapped.

However, the beast **** is the beast **** after all. Its **** consciousness is strong enough to completely lock the surrounding area. If Shen Lang leaves, it should be able to detect the fluctuation.

Therefore, it is more inclined to sneak in the corner where the building collapses and the dust is in the sky.

Just when it was found in the search for a inch of inch, suddenly there was an object from the dust suddenly becoming bigger and higher!

Kill the warrior!

Shen Lang was flashing under the body of a giant beast, and then it was released.

When controlling the killing warriors to become taller and bigger, they have already attacked the behemoths.

So when the beasts and other behemoths were discovered, it was actually turned over by the sneaked behemoth.

However, the body of the behemoth is really strong enough, and it also has a king level, which is equivalent to half a fairy. So even if the killing warrior turned over, there was no commandment.

Now the killing warriors, in the end, the core energy has been taken away by the cold autumn, the strength is greatly reduced.

However, it was able to press the big fairy before, not purely by the flames, its own huge body and speed, but also a very terrifying force.

Nowadays, when it is displayed, after a monster is turned over, its body has grown to be taller than the behemoths, and is still stretching rapidly. It is a robot deformation, and the whole speed is very fast.

Wait until the beasts and other behemoths see it clearly, it has reached the height of hundreds of meters!

In order to keep it faster and more agile, Shen Lang did not let it stretch to the limit of a few kilometers, and now the height is also suppressing these monsters, like a super skyscraper.

“Roar!”

The beast ***** immediately screamed and directed all the beasts to attack the killing warriors.

In their view, this should be the change of Shen Lang, so they did not look for traces of Shen Lang.

Even if human beings can change so much, they are only virtual shells, and their strength should be vulnerable. Therefore, they immediately attacked “Shen Lang” in a crazy way.

The height of a few hundred meters, although formed by these giant beasts, is not enough to make them fear.

The killing warrior is the crystallization of the future of the river city. It is said to be steel. In fact, it does not know what the specific material is. Its reinforced iron bone is a very powerful weapon.

And it is also very agile, for the small speed and fast enough, there is a bit of helplessness, but for these same big behemoths, it is very flexible.

Therefore, a number of giant beasts attacked together, and it was easy to cope with it. In addition to the attacks that were used by both hands and feet, they also reached out and grabbed a tall building that had not collapsed. It was used as a weapon to shoot the head of a giant beast. past!

Although the giant beasts can collide with the building, it is the whole body to resist. It is not a problem for them with thick tonnage.

But a building was directly caught and smashed to the head, which is another matter.

It’s like a lot of people can knock on a door, but if you pick up a door and smash your head...

The behemoths are actually very rough, and they are often good at using the advantages of the body. The higher the evolution, the more intelligent and understandable.

This is also the reason why the dog gods can be honored as gods for generations, because its ancestors have human methods and wisdom.

But today, they have encountered robots that are as rough as they are!

The killing warrior will not hurt and will not be injured. As long as it does not attack its key points, even if it breaks its entire huge arm, it will not feel pain.

And its huge, it is also destined that it does not need too many skills, such as grabbing a building as a weapon, if it is a human being, it can directly sweep thousands of people, planes, ships can fly and smash .

The behemoth that was picked up by it, also directly suffered a huge impact, almost fainted.

And it will not just be a moment, the other hand, and the feet, are combined in the offensive, but the moment of effort, has directly turned a giant beast, and stunned.

The condition of the beast ***** is much better. It keeps the distance not close, but it also finds a problem, that is, attacking this monster, it seems that there is no effect at all!

What makes them even more shocking is that there are no flesh and blood on the body, as if they are monsters, they are much taller than them, but they can jump up!

Leaping can not only avoid their attacks, but also volley them.

Even now, even with the containment of the beasts, they can only compete with the killing warriors!

Shen Lang secretly nodded, this is the strength of the killing warrior!

When I was not at the beginning of the week, the two or three-meter-high flame giants directly chased them, including him, including Yao Chi and several other big immortals. Finally, Gao Hanqiu rushed to solve the problem.

Not long ago, when I was in Baijia, I also fought with the guardian beast of the Great God level. Now it is just a beast and some behemoths, of course.

However, Shen Lang himself is also seeing itching!

Besides, the beast ***** has reported the situation here to the hurricane beast, and the hurricane beast will definitely arrange more beasts and monsters to come over.

From its situation, the loyalty to the Emperor is still not enough. Killing them as soon as possible can reduce the number of enemies.

Shen Langben is among the dust caused by the collapsed buildings. Now that they are fighting, they have joined them!

“I am coming too!”

Shen Lang also made his body bigger and then the iron bar continued to grow bigger!

In the past, he relied on the transformation of the gene therapy of swallowing the sky. Now that Daxian is in the realm, it can also be made bigger and smaller.

So this time, the thickening of the Shenlang is far better than before, reaching directly to the height of tens of meters, and then holding the same huge iron rod, facing the giant beasts, starting a stick of the mammoth past !

Simple and rude!

Everyone uses a simple and rude method!

The behemoths were once again shocked, and they never thought that this inconspicuous human being would have become bigger than them, and there was such a huge weapon.

The iron bars of Shenlang will not be bigger than a building, but if a building goes down, it will be broken and collapsed. The iron bar is not only powerful, but also a magic weapon. It will not be bad. , can continue to be fast and mammoth!

Not a moment, there will be a huge beast directly, and it will be plunged into the ground by Shen Lang!

Chapter 1505 - Live catching beast

Originally a killing warrior, it is enough for them to eat a pot, and now add a sinking wave, immediately formed a suppression of the giant beasts.

After throwing a knock into the ground, Shen Lang slammed another stick and hit another monster!

This stick is the use of the power of the Great Immortal Realm, the use of heaven and earth domineering, coupled with the “Da Shou Mi Long Xiang Shen Gong”, its power is huge, directly let the king of the king level beast, like a kicked ball The same fast fly out!

However, the body of the behemoth is far from being comparable to the ball. With its huge size and weight, after directly blasting it, it will destroy the building of a large block!

The killing warriors are not too much to let, but also the beasts have nowhere to dodge.

Under the joint force of two people, but after a while, all the behemoths were solved, and the last beast was left.

In addition to being more powerful than the Great Immortal, the Beast God is more powerful, and because its wisdom is stronger, when it was a melee, it directed other giant beasts to attack, and it was safe first.

When I saw a headed beast falling down, it immediately realized that the killing warrior and the Shenlang teamed up, it would not be an adversary, so decisively left and left!

However, this time, Shen Lang will certainly not let it leave, directly with a huge body, display “Phantom Meteor Step”, and quickly catch up.

In terms of speed and agility alone, Shen Lang surpassed the behemoth, plus the “Phantom Meteor Step”, even if the body is huge now, it still catches up with the beast ***** and rushes to the front of it.

However, in a few seconds, they have already moved to the other end of the city, and in the process of chasing and escaping, they have hit countless buildings in the city.

This is not just the huge body of the beast god. The footsteps of each step of Shen Lang, the touch of the body, legs and feet, can make many buildings dump.

The killing warriors are chasing them from behind, and they are hitting other high-rise buildings that have not collapsed.

In general, the city has been ravaged before, and people have almost escaped and become a dead city.

This time, it is because of the scuffle of a group of behemoths and the pursuit of the beasts, directly destroying the city buildings into ruins.

Looking at the sinking waves and chasing the front, the beast ***** realized that he couldn't escape. He immediately roared and slammed the ground, and immediately collapsed a large number of buildings in front, and cracks appeared on the ground!

This is the place where Shen Lang is based, and immediately makes Shen Lang stand unstable.

At the same time, with its roar, in addition to the strong airflow, a large number of building debris flew around, and a hundred pounds and thousands of pounds smashed into the past!

Then, it stepped on the ground again, this time for the back direction, so that the killing soldiers who followed closely were disturbed.

After the current attack and interference, the body of the beast ***** quickly and quickly narrowed down with the dust of the sky, letting yourself hide in the dust around!

This kind of routine has just been used by Shen Lang, and of course it will not let it succeed.

The killing warrior is not by eye. Its camera can be accumulated by various technologies such as infrared rays and heat. Even if the object is blocked, it has no effect, let alone just some dust.

Shen Lang even guessed that it would leave and locked it.

The result of this is to let Shen Lang and the killing warriors, the two bullied.

After discovering that he was getting smaller, he was blocked like a street mouse, and the beast ***** immediately regretted it.

However, it is somewhat convenient, that is, it is more agile because of shrinking, and then it bursts into a vast mental impact!

Its spiritual strength is comparable to that of Daxian, and it will not be affected by the change of volume. It directly covers the past with Shenlang and the killing warriors.

It's just that for such an attack, the killing warrior does not have any feelings. It is only a smart system, but it is not self-conscious, and naturally it will not be affected by mental power.

And Shen Lang is also prepared for the beast god. When the mental power hits, he is not defensive, but directly absorbs the other's attack!

The beasts are screaming around, trying to avoid their locks. It speeds up to the fastest, and tries to drill into the ruins of various buildings. Even if it is locked and attacked, there is a blockage of the building, and you can fight for a little time.

The iron rod in the hands of Shen Lang, poked down to the ground!

The beast ***** did not panic, although the momentum was embarrassing, but the iron rod was huge, when it was poked on the ground, it had already escaped, and it would have to be lifted up and down, and it would go further.

At this time, it suddenly felt completely blocked by a circle of lightning!

Shen Lang just had a stick, not to attack it with iron bars, but a layer of surface attacks, in fact, the use of lightning to conduct the past.

Although this attack is not a source of lightning, it is only his own attack, but he now has the strength of the Great Immortal, and it is also an ambush of the beast god, the effect is of course very good.

Although the beast ***** was not directly killed by lightning, at that moment, it was also paralyzed.

However, as a giant beast, there is still a huge advantage in the body. The evolution to the realm of the beast god, at least one or two thousand years, so even if it was bombarded with such lightning, it just made it paralyzed, and soon resumed to escape.

Just killing it now is Shen Lang and the killing warrior. There is a zero and a few seconds, and they are enough for them to do a lot of things.

After the recovery, its speed has also been affected a little, and the result is that it has not been pulled far, it has been nailed to the palm of the killing warrior, and then firmly grasped.

Shen Lang did not lean over, but directly supported the arm of the killing warrior.

In the realm of the beast god, even the high-tech steel arm can not trap its body.

However, when Shen Lang came, he immediately applied a constant lightning strike to it!

The beast ***** can just be sure that it was attacked by the thunder and lightning. Now it is caught by the killing warrior, and it is caught in the palm of the hand. It is also a kind of protection for it. attack.

The result was that when it was fully cracked, it was bombarded by lightning.

This time, there is a lack of defense, and the acidity is even better...

More importantly, just at the moment of its paralysis, Shen Lang seized the opportunity this time, did not give it a recovery, and directly invaded its consciousness!

In an instant, Shen Lang has successfully controlled the beastly consciousness of this behemoth, and then let the killing warrior loose his hand.

The next moment, Shen Lang replaced the killing warrior and seized the opportunity to beast. By controlling consciousness, he quickly read its memory, and then began to imitate the way that the dog ***** helped him to use it!

Devouring the power of the beast!

Chapter 1506 - Helicopter

When Shen Lang used the Ba Tian Tower to refine the enemy, he still felt cruel and hurtful. If it is not an enemy of murderous haze, it will not be used in this way.

But undoubtedly, the mood of this world has been greatly affected at that time, and there is also a morality that has been cultivated since childhood. By now, the realm has improved, and many crises have been experienced, and there have been many changes in the state of mind.

Although it has not yet reached the peak of past life, it is far better than the average monk, so watching life will be even more different.

Just like ordinary people see killing dogs and killing cats, they can't stand it. They feel too cruel, and they are less likely to commit suicide.

But when you step on an ant and take a mosquito, there is no self-condemnation.

The last time the dog ***** instilled the power of the peaks of the Great Dragon and the Great Sin Mayang, and let Shen Lang spend more than a month, hitting the peak of the Great.

His state is different. In such a realm, if you do not rob the resources, it is necessary to prepare for hundreds of years for thousands of years.

Now he wants to move behemoths, not humans, and there is no psychological barrier.

The realm of this beast is comparable to that of the Great Immortal, plus the strength of the body, and some aspects are even stronger than the general Daxian.

However, Shen Lang is already the peak of Daxian, so no matter how hard it is to fight these giant beasts or to contain the beasts, it does not take much effort.

It is now easier to absorb its mental power and all its power than the last time.

The last time it was a snake swallow, the lower level of strength, was instilled far more than the ultimate energy. So it took more than a month and it was very dangerous.

Now it is like swallowing snakes, and nature is much easier.

In addition to letting the killing warriors guard the surroundings, Shen Lang also let it collect all the behemoths.

Some of these behemoths were killed, and some were unconscious.

It is also very troublesome to deal with. If the body is left here, it will inevitably be taken away by the military and scientific researchers. The genes of other worlds are of great value.

According to the routines in science fiction movies, scientists and politicians will want to use new genes to create war machines and prepare for the dominance of the earth.

Shen Lang doesn't want this ending, but he can't finish it. Can't pack it and send it back to the world of monsters?

Therefore, he took the time to completely ***** all the beasts and make it a dry body, then break it into powder and mix it into the surrounding dust ruins.

The killing warrior's physique is so huge that it is only a matter of time to catch the giant beasts.

But because they are too big, they are completely blocked around the waves.

Shen Lang is now in a stronger state, and has had an experience. The speed of absorbing the beast ***** is naturally much faster, but after all, it consumes a lot of time, and it can not be solved in a few minutes.

The other behemoths behind are faster, but the longs add up and the time needs a lot.

Surrounded by the dust after their war, the Shenlang also intentionally let the dust continue, all the body powder, mixed into the dust ruins.

If you know this layer, you might still be able to extract DNA, but if you don't know, no one can imagine a monster as big as it is actually turned into powder in the dust.

In order to be safe, he also determined that no one in the surrounding city looked at it, and that it was confirmed by the Holy Grail that there was no monitoring device still running.

As you continue, the last monster is left.

This behemoth was shot in a coma, probably a little longer in the past, let it wake up!

But you don't need to wave the waves, killing the warrior has killed the pig, and hold it firmly on the ground.

Shen Lang is the same as the law, and it is necessary to extract all its power.

At this time, there was a movement in the distance!

Multiple helicopters!

It seems that the local military has received news, or routine inspections and rescues of the city.

It's too late to hide the killing warriors, and there's a monster, which has already been observed by the other side.

Under the cover of dust, it is calm to restore your body to its original shape, to avoid being used as a monster.

When the helicopters flew over, for a hundred-meter-high Ferris robot, there was a giant beast. No matter what the situation, it immediately fired directly!

This communication does not communicate with the attitude, so that Shen Lang is very upset, immediately gave instructions to the killing soldiers, you can kill them!

The soldiers on the helicopter, watching this huge robot, are very excited, because this looks like a technology product!

Powerful technology products will only make people admire, and the creatures that are completely absent from the behemoth will make people fear.

Such a giant robot, no matter where it comes from, won the turn of the country, is a huge achievement!

In the past few days, everyone knows very well that it is very difficult to kill those huge monsters. No one has done it at all. Instead, a lot of force has been damaged.

In comparison, this robot should be better.

For robots, as long as the key instruments are exploding, they should be able to stop, even if it will affect the research, but this is equivalent to “live catching”, but also a great achievement.

When they were close, they saw that the behemoth was not moving. It seemed that they were killed by this giant robot, and they were even more excited.

As long as you take this robot down, you will have two great achievements at the same time!

Therefore, the entire helicopter battle group, like the chicken blood, directly against the killing soldiers, launched a full-scale attack.

They are also shooting at different angles and at different heights, in different parts that seem important, hoping to hit the core.

After getting permission from Shen Lang, the killing warriors will be welcome!

At first, the helicopter battle group will feel that the robot is good to get because it stands still, guarding the Shenlang is its mission.

Now that it is allowed to fight back, it immediately moves. At its speed, it is the beast-level behemoth that is hard to match, let alone a helicopter?

Helicopters have a high degree of superiority to the ground, but with regard to flexibility, even a strong pilot can't make the aircraft as flexible as a human.

The result is that the killing warriors have one hand, but for a moment, they are completely crushed!

There is a distance farther away. After seeing the first one being crushed, I scared and turned around and ran!

It has already pulled the speed to the fastest, but the killing warrior does not need to catch up with it. He directly grabs a hand and pulls half of the building and smashes it in the air!

Less than ten seconds before and after, all helicopters are destroyed!

Chapter 1507 - Fighter

This result makes Shen Lang a little frown.

Not to mention the previous behemoths, the last giant beast, they have seen, there should be shooting, the picture here is definitely transmitted to the base.

That behemoth can no longer be treated like this.

And the result just now will inevitably allow the local military to arrange more combatants to come over!

A giant robot, a behemoth, light is a huge value!

Not waiting for more analysis of Shen Lang, immediately in the distance, there have been aircraft.

This time, the fighter is coming!

The attack power and speed of the fighter are not comparable to those of the helicopter. The Shenlang does not have so much time to consider.

He flew directly into the air and began to intentionally slow down to do something.

One is to **** the giant beast on the ground into the air and then inhale it into the tower.

The other one is to let the killing warriors shrink, then fly into the air and receive the storage space together.

The reason for slowing down is to let the fighters record this picture, and they will naturally transmit to the base synchronously.

This is to tell the government that both the robot and the behemoth are in his hands!

Shen Lang's move is to avoid finding the DNA in the city.

Because he intentionally slowed down this action, it was that many fighters had already fired a shell!

Their target of attack is still that huge robot.

Because the behemoth seems to be dead, it is necessary to get the body as soon as possible and start research. And this robot is a huge threat.

Not long ago, they directly knew the scene of the helicopter, so they did not dare to show their mercy.

At this moment, the killing warrior has disappeared, and the shells naturally hit the surrounding waves.

However, the size of the killing warrior was huge, and it was easy to aim. Now Shen Lang is much smaller, and the shell will not touch him directly.

The pilots on the fighter planes are now entangled. In addition to the synchronized images of the aircraft, they must also promptly ask if they want to attack this human.

As for whether this is human or not, these are not what they can temporarily consider.

At this time, Shen Lang waved in the air.

The shells that had arrived near him immediately began to circle a circle and then continued to fly to a frame of fighters!

The pilots were shocked!

Originally they were going to take a circle in the air, at the speed of the fighter, as long as they were not close, they should not be hit by the giant robot, and then wait for the order.

I didn't expect the shells that had just been sent out, I would know to change the route and follow them!

When I found this change, I wanted to dodge and defend again. It was too late.

Ever since, a fighter jet was bombarded by shells that he shot himself, and fireworks were released!

The fighters were all bombed, and the officers of the base were naturally very angry.

However, the scene just now was also transmitted back through the monitoring screens on different planes. Basically, it can be confirmed that it is possible to control the shells without touching them!

And even huge monsters and giant robots can be put away.

This is beyond the reach of the Earth!

Who is this?

Intruders from alien planets?

Before they could figure it out, they dared not continue to send fighters and soldiers to die.

After finishing the second batch, after completing the performance show, Shen Lang immediately left the city and once again came to the Zheng family.

In the recent time, Zheng Yumeng and Dorothy have already executed his arrangement, letting everyone disperse quickly and leave here.

Dorothy is better controlled, because she was taken over by both parties. At the beginning, she may not be convinced of her age and seniority. Later, every time she came back, she was strong and the others were completely obedient.

Now, this time, not to mention, it is the old bats like the bats, which are no longer able to look back.

So the direct command goes on, and everyone naturally follows the execution.

But Zheng Yuqing is more difficult to do.

At this age, he would have been stubborn, and he was obsessed with obsessiveness. He felt that this was the ancestral home of Zheng's move abroad. Once destroyed, Zheng's family died in name only.

He insisted on staying here, even if he and the Zheng family live together, Zheng Yumeng is a granddaughter, can not order, can only be good words and persuasion.

At the moment, Shen Lang came back, she was still persuading Zheng Yumeng, and Dorothy was on the alert.

“How does Zheng Man have such a sinister offspring?”

A word of Shen Lang, let Zheng Yuqing tremble!

Originally, Zheng Yuqing’s respect for Shen Lang was based on strength. On the one hand, it was because of the care of Zheng Yumeng. At that time, it was said that Zheng Man and Shen Lang’s teachers were old.

Later, after Shen Lang said a few of them with their identity, this relationship was of course also told by Zheng Yumeng.

Zheng Yumeng did not talk to Zheng Yuqing, but now her strength has reached the level that Zheng Yuqing can only look up to. She knows that Shenlangzu can be called the first strongest person in the earth, so she naturally becomes awe.

They were besieged by giant beasts. When the waves came, they alone led all the beasts away. This strength and strength made him worship.

Therefore, the words of Shen Lang directly put him under great pressure.

“Is Zheng Jia here? Isn’t your Zheng family starting from Zheng Man? Is Zheng Man a Pingxi?”

Shen Lang’s words, Zheng Yuqing did not know how to answer.

“Where is home? Where is it not home? As long as you are strong enough, this earth can be just a hometown that has stayed. These giant beasts are from another world. What is the significance of waiting for you to step?”

“What you said... also makes sense.” Zheng Yuqing said.

His appearance is obvious, not really convinced by Shen Lang, but because Shen Lang's strength is stronger, he has to serve.

"Do you keep it? You left, there is no one here, the behemoth will not come. Forget it, too lazy to talk nonsense with you, simply I will dismantle you first!"

Shen Lang calculated the time. If there are already huge beasts and beasts, they will not want to smash again.

Upon listening to this, Zheng Yuqing panicked.

With the strength of Shen Lang, it is not a matter of taking the house apart. If it has already been destroyed, what is the significance of his persistence?

"I am leaving, I am leaving! I am leaving now! I will pack up and go now!"

Shen Lang snorted: "What else is it? You are here in the whole city Are you packing your bags?"

Say directly to the situation in the city now, a bird's eye view of them.

Zheng Yuqing stayed with the whole person. This is the home he devoted his life to. He has carefully crafted it, and certainly can't bear to ruin it. But the TV pictures I saw before were all other places, and there was no local situation. I only knew that many people had fled.

Now that the whole city has become ruined, it is not a big thing for him personally.

"Take him to leave, go to your family, or go back to China, you will discuss it again. Give it to me!"

Shen Lang did not arrange for them so much, but I remember to give them all the magic weapons and let them bring them back to others.

The blood and marrow fluid obtained from the dragon elephant beast was also given to Dorothy. Although the dog **** should be able to settle everything, it is still necessary to let them improve their strength as much as possible to be safer.

Chapter 1508 - 4 beasts

After sending them away, Shen Lang did not stay in the Zheng family.

If you fight here, it will inevitably destroy the Zheng family's property.

But before the beast **** sent a signal here, if other behemoths are positioned according to this, then it is still here, if he leaves far, it will be destroyed.

So he left the Zheng family, but he did not go far, to ensure that the behemoth came to sense his position.

Shen Lang did not wait, he has already sucked the power of the beast gods and the giant beasts, especially the beast gods, but also has absorbed the spiritual power, including the memory.

Now he is also an automatic refining, while going into the memory of the beast, to see what can be used.

He can communicate in the language of the beast, but in a similar way, but the previous get is the general behemoth, this time is the beast god, the harvest is not the same.

In general, the behemoths' thinking is still much simpler, and in addition to their genetic talent, they also have a long process of growth and evolution.

During the growth of the behemoth, the memories of hundreds of years and thousands of years are very simple. Therefore, the memory of the beast **** is much simpler than that of the human being.

Through complete integration, Shen Lang is not only the thing in the world of the behemoth, but even the feelings are obviously different.

What is the principle, he is not clear, because the beast gods are natural, and there is no perfect theory, it is even more difficult to understand after the acceptance of the dark waves.

But now there is a benefit, that is, he can basically be like the beast god, can sense other behemoths within a certain range!

The most direct manifestation is that I have already felt that there are many behemoths, and I am coming from different directions to this side!

And if it is not a fusion with the memory of the beast, relying on his own feelings, he must wait until he reaches a certain level to know.

This discovery makes Shen Lang feel a lot better.

Originally, he had no clue, and he came to the Americas only to be random. Finally, I know that Dorothy and Zheng Yumeng are here, so I rushed over.

Just now he is ready to wait here. If he can't find it, then wait for the other party to come to the door.

The current discovery can be used in advance!

He silently inducted it carefully, and determined that it was not a single action, but a beast ***** with a king behemoth, which also proved to be the unified dispatch after the hurricane beast command.

If you come together so much, even if he can be unbeaten and win, he will have to pay a relatively large price.

The best way to deal with them is to take advantage of them, and to break them one by one before they have merged!

Now he has been able to sense their approximate position and, based on the movement, can make a rough inference of speed.

The problems in these data can be calculated immediately for the holy armor, and will not delay anything. What he needs is the super high-speed rush to intercept!

After the decision, Shen Lang immediately took action.

According to the “positioning” sensed in the brain, he quickly came to the location of the recent wave of behemoths.

When he waited for the speed drop, he immediately found a problem.

This is a military base!

Helicopters and fighters before the appearance were all taken from this base.

The base is now in a state of preparation, and the target does not need to be said, naturally it is a behemoth.

Now the bulls are coming over at high speed, so that the entire base is already on high alert and ready to go.

At this time, Shen Lang suddenly appeared from the other side, let them panic.

Even if you don't see the specifics in the air, you can suddenly appear in the air, and it must be the former “suspected aliens.”

The high-level base is suddenly big... From the previous situation, this “alien” seems to be not with the giant monster, and now it is being attacked by two forces!

The best thing is to let them both kill each other, but who can communicate with aliens and monsters?

Even if someone can communicate, it can't be done in a short time.

“Don’t stupidly fire at me! I am a superpower on earth, to help you fight monsters!”

Shen Lang was unable to communicate with their military system, and did not want to be involved.

However, I have already been photographed by the fighters. I believe that the other party already has video information for him, so I will simply announce my identity and stand up as a self-cultivator or superpower. Even if it will be investigated afterwards, at least temporarily it will not be regarded as a giant. A group of beasts.

After all, they are all people on earth. He doesn’t care about killing a few planes, but he really wants to kill in large quantities, but he still doesn’t want to.

When this sentence was said, Shen Lang did not pay attention to the following. His voice was enough for most of the following people to hear. If they did not believe and insisted on attacking him, then don’t blame him for his ruthlessness.

Now his attention is on the front of the behemoth!

In front of the four beasts, they have four heads, they can go in different directions at any time, and any direction is forward.

The current king of the four beasts is the rushing beast, and now it is rushing with two heads and four beasts rushing to the front.

This information naturally comes from the memory of the beast gods before, and Shen Lang knows more. Because of the relationship between the four heads, they are almost equal to all-round observation, no visual dead angle, and very sensitive.

The beast **** is also a powerful beast in the forefront of the world of giant beasts.

According to Shen Lang’s own comparison, even if the torrent of beasts did not reach the level of the peak, it is stronger than the general.

Coupled with their physical superiority, as well as the four-headed beasts of the two kings, Shen Lang did not dare to underestimate them.

They rushed to the ground, and there was a goal. But now that the beasts and behemoths are dead, they lose their position and can only search along the approximate target.

Now I see that this military base and the deep waves in the air are not in the eyes, it is the ordinary person who blocks the road. Like other towns, they are directly rushing through and rolling down a smash.

So there is no end to madness, no intention of slowing down!

At their speed, stepping on the base is a matter of seconds.

On the base side, various weapons have already been targeted, but it was just because of the sudden appearance of Shen Lang.

Now Shen Lang said that he is a superpower of the earth. On the base side, he can only believe him first and then order the attack!

The distance is already very close, and all the shells should have been able to strike with precision, but in front of the rushing beasts, all the attacks directly bounce back!

This time, the base was messed up, and it was too late to intercept it. It was suddenly blown up by his own shells, and at the same time the giant beast had been trampled over...

Chapter 1509 - Fight up and down

The base of the fort and the like, it is too late to adjust the angle, other than the armored car, the aircraft or something, want to drive is too late.

At the time of the preparation of the behemoths, a number of fighter planes flew up in the air and took a circle to prepare for a joint attack.

But just because of the sudden generals of Shen Lang, let the command department miss the best order, now if you want to attack, you have to re-adjust the angle, and the behemoth has already rushed to the base, and it is not convenient to bomb again.

The officers in the layer-protected headquarters are also under great pressure!

After all, this is only a small base, the level of protection is limited, and this is not on the edge of the border, and there is no strong enemy of defense at all times.

Their military's modern high-tech weapons are very slippery. Generally, there are attacks that can strike in advance in a precise manner. Even if there is a shell attack, they can successfully intercept and not hit the command.

Now these giant beasts, because of the sudden and rapid speed, are too late at this moment. Can all the buildings of the base, including the headquarters, withstand the pressure of their trampling?

The soldiers outside, this time is desperately running away, and when they can't run, they shoot the guns in their hands.

At this moment, they are desperate, because the information in the past few days has been fully shown. The general bullets can't hurt these monsters at all, and even it is difficult to damage them with armor-piercing bullets.

Their current shooting is basically a kind of hopeless death against hopelessness.

Just at the moment when everyone was desperate, suddenly, the giant beasts who had stepped on the base were as if they were suspended!

The three-headed four-headed beast has formed a sense of hiding the sky for the angle below the base. Stopping in the air, it is even more shocking.

“return to!”

With the scream of the swell of the waves, the three giant beasts suddenly stood still in the air, tumbling out to the back!

At this moment, all the people below realized that the just pause was like a static pause. It was not the problems of these giant beasts, but the human superpowers who blocked them with great power!

Such huge monsters can use their own power to solidify them in the air and turn them out in the air! What a power!

Because they are four-headed beasts, they are still in a normal state after being turned over.

In the air, they vent their dissatisfaction with the fighters who came back, or they squirted their claws or spurted a strong airflow, so that the fighters who were looking around for opportunities in the circle were all beaten. It fell.

When the three giant beasts landed, the ground was trembled.

What everyone, including Shen Lang, didn't think was that after the four-headed beast landed, it was quickly plunged into the ground!

They are very large and powerful, and the ordinary mud surface is like a tofu, they are drilled into the soil at a visible speed, and then drilled into the base.

The rushing beast **** did not join it, but flew back again, this time its goal is to sink the waves!

Originally they did not attack here, but they just passed by. However, the attack on them by the base has already angered them, and it is extremely necessary to eradicate it.

It is the deep waves that irritate them even more!

But just the first hand of Shen Lang, has let the rushing beast realize that it must be careful and careful, the other behemoths are not opponents at all. So let them drill the ground to deal with the base, and it will deal with Shen Lang by itself.

These behemoths are underground, so that the base is too late to adjust the tactics, and they are too fast, almost a moment to the bottom of the base!

Although the base has a thick foundation and is reinforced concrete, for them, it may be the difference between water tofu and dried tofu, and quickly smashed the base.

House construction, tank armored vehicles, airplanes, etc. were all picked up in the air and then fell. Needless to say, many people were directly buried in the ruins of the broken wall, some fell into the ground with the ground crack, and some were eaten by the four beasts and four mouths!

Shen Lang was held back by the rushing beasts, and it was too late to save them.

The rushing is a powerful beast, and the power of control is stronger than the beast that was killed before. Moreover, it has four heads, and the airflow from the mouths of the mouths is already four, entangled with each other, forming a layer of vortex, and instantly wraps up the deep waves in the air!

At this moment, the air is like a torrent of water, and the swell is like a boat, ready to be swallowed by a huge monster!

Below the torrent, it is turned upside down in armored vehicles, airplanes, etc., and below is the cracked ground, and the chaotic base.

Under such circumstances, Shen Lang is as stable as the sea ***** pin!

There was a smashing iron rod in his hand, and without any skill, he waved straight out to the front stick!

The current Shenlang is not as big as before, and the iron bars in his hand are also ordinary length. Such a stick is not worth mentioning in the eyes of the beastly god.

Judging from the situation at the scene, it is like a pontoon pole in a torrent of torrents.

However, when this stick went out, it was a powerful force!

The iron bar did not become thicker as before, but it was still a stick of ordinary length, but the spurt of the explosion was directly torn the front vortex, and it was directly sent to the front of the beast!

When the power of this stick was felt, the rushing beast was also taken aback, but it did not linger, but the spurt of the four mouths continued.

However, the effect is very obvious Shen Lang this stick's power, although it did not defeat its four airflow, but has successfully opened the gap, and hit it in front of it.

The head that was facing it was hit by the strength of this stick and pulled straight down.

But now it is a bit strange, the torrent of beasts because there are four heads, now it seems that only one head is stunned, and the other three heads can continue to be awake!

Just four airstreams can't make a sinking wave. Now there is one less. It also understands that it is even more impossible to make a difference, so it immediately changed the strategy.

Take the attack as a guard!

The rushing beast of a head stunned directly to the side of Shen Lang, replaced by another head, swallowed the past against the Shen Lang, and its other heads and claws also cooperated to attack the Shen Lang.

Shen Lang is the body quickly moving forward, actually ushered in its mouth, the long iron sticks in the hand, and directly withstood its captain!

Chapter 1510 - Rolling

Under the captain of it, Shen Lang is not going to poke its throat, but directly into the holy armor bombarded multiple shells into it!

The four beasts are still very strange. One head stunned and the other three heads were still attacking normally. But now Shen Lang directly blasted a batch of shells from one of the mouths and one of the throats, just in it. Blasted.

The behemoths are not afraid of bullets, because the skin on the surface is too thick, not to mention the scales. And they work hard, not only the skin, the muscles below can become the back of the copper wall.

But these surface things are to protect the safety of the internal organs, and it is impossible to make the internal organs like steel.

Because of the huge relationship between the body, the bombs of the sinking waves are not blocked at all, and they are easily inserted into the abdominal cavity from the throat, and then exploded in the belly!

The whole process was done in one go, and after the bomb was fired, he immediately withdrew, letting the mouth of the beasting gods close.

The rushing beast gods can realize that this base has some threats of shells, but I did not expect that Shen Lang can do the same, so I did not expect this before the explosion.

Suddenly the explosion, immediately smashed its abdominal cavity!

Its powerful muscles and muscles are originally protective for the internal organs. Now, on the contrary, the impact of the bomb can not be leaked, and it is directly from the inside to the outside.

Such severe pain hurts, so that the torrent of beasts can't stand it. It is now desperate, falling directly from the sky, and then rolling over.

It is a pity that this is an internal bombing pain. No matter how hard it is, it can't be alleviated, but it is even more painful.

The two kings of the underground, the four-headed beast, have already rushed up, and they have discovered the condition of the rushing beasts. They can't help but scream!

The ravages of the two giant beasts have already made the base unbearable, and the madness of the rushing beasts has even rolled everything down.

The two kings of the four beasts directly attacked the waves!

Their strength is even worse, and their wisdom is even more inadequate. Just now, they did not see how Shen Lang was defeated. They just felt weird. They certainly did not use formal means, so they only wanted revenge at the moment.

“Give me a slap!”

The waves of people in the air sighed at them.

I have already fought once before, and he doesn't want to continue playing, he has to break through one by one, and he has to fight quickly.

At the moment when the two beasts were violent, he directly attacked their consciousness with a strong mental force and instantly defeated them.

The two huge four-headed beasts just jumped up and fell down, pressing over the base, and the whole consciousness was blurred.

The strength of Shenlang to the peak of the Great Immortal is that they can directly crush them, but they can't do this for the torrent of beasts, so at this moment, it still continues to roll, but to take the power of these two beasts first.

The tumbling of the beast ***** is due to the unconsciousness of pain, in fact it is all about trying to repair.

Just a few bombs were thrown in the stomach by the waves, how can this be repaired?

Basically, it is also supported by a strong realm and tenacious willpower, or else it will hang directly.

After Shen Lang has drained the power of the two king beasts, he will go down with a stick!

This time, one of the giants was hit, but under the force, the entire rushing beast was stunned!

It's not so easy to ***** the rushing beasts, and the sinking waves will take them all together and take them away.

This base has become a ruin. I don't know how many people are still there. Shen Lang has no time to rescue them. The danger has been lifted and they have saved themselves.

He now senses other behemoths that have come over and must continue to intercept in advance.

In the air after leaving the base, Shen Lang crushed the bodies of the two giant beasts and floated at high altitude.

The signal of the beast ***** had disappeared before, and now Shen Lang can sense them, they can not sense the sinking waves, which also has a chain reaction.

Losing the “positioning” and the monsters who have come over are not so accurate and the speed is reduced.

Shen Lang rushed to the front of the second wave of beasts, stopped at a mountaintop, and began to absorb the power of the beast.

The rushing is a more powerful beast. In addition to its strength, its memory is also valuable, and the waves are not missed.

Before the rushing beast is completely absorbed, other beasts can feel its existence and even feel weak.

In addition to speeding up the speed of the beasts that are coming in front of them, they also let other giant beasts heading for Zheng’s direction adjust their direction to come here.

After the experience, Shen Lang absorbed a lot faster, and when the wave of beasts arrived, he successfully drained the beast.

Then in front of them, the ruined ruin that broke it into powder!

That wave of behemoths is undoubtedly irritated, but their strength is even weaker than the four beasts. For the deep waves of the great fairy, it is easier to crush them!

Shen Lang’s handling is still the same. Although it seems that I am a little sorry for the dog gods, I can’t let them fall into the hands of all parties’ military and political affairs.

By the end of the night, he had already killed three waves of behemoths!

Before and after, it also absorbed the power of the four beast gods and more than ten kings!

This is undoubtedly a huge gain for Shen Lang. Even if he has reached the peak, he is a bit supportive.

After that, I did not feel that other beasts and monsters came.

Perhaps in the eyes of the hurricane beast, arranging three batches of giant beasts should be enough to eliminate the swells.

What about the hurricane beast?

What about dog gods?

Shen Lang is a bit puzzled. He can't sense other monsters. He can't sense the hurricane beasts and can't sense the information of the emperor's behemoth.

Compared to the search for the entire American continent or wait for the rabbit to be better. There are no messages in successive batches, and the hurricane beast should be able to feel the problem, and it will change whether you come in person or arrange it again.

Of course, if the dog **** has already fixed the hurricane beast, it is undoubtedly the best situation.

While waiting, Shen Lang himself is also taking the time to cultivate, refining the power of so many beasts and beasts, and also synthesizing the memory of the beasts and learning more information.

So wait until dawn, and after a night, the sensor does not sense the information of the behemoth.

Shen Lang can't determine the specific range of sensing, but in the vastness of the world of giant beasts, it is reasonable to know where the other side of the earth can be touched.

I can only think of the good side – the dog ***** has already conquered the hurricane beast and summoned the monsters back!

When retracting the sense of the behemoth, Shen Lang had another problem, and a large number of troops surrounded him!
