

First Strong 1521

Chapter 1521 - break the balance

Surprisingly, Shen Lang also carefully observed the three of them.

From the appearance of light, in fact, Shen Lang can not see who is specifically, can only be determined to be the aborigines of the Americas.

However, to achieve this strength, it should be a few hundred years old. According to this calculation, is this Indian? Still more ancient Maya?

If it is the elders and priests of these peoples, they should have similar identities before, and the difference in strength will not be worse.

Then why did the whites invade the Americas when they saw them?

If the Mayans are so powerful, how can they watch the demise?

When I said that it was too late, all the thoughts were just flashing in the brains of Shen Lang. When others landed in the air, the speed slowed down a bit.

Originally, the two sides confronted each other, that is, reached a balance. Whoever took the initiative to take the shot, the result may be a death of both losses, so it has been deadlocked.

The dog ***** and the hurricane beast god, through the mind, all the beasts and behemoths on the earth are called together, naturally "call" is called a helper.

If they are too far apart, these strong earth might not be able to sense it, but they have reached the Antarctic continent, and the speed is getting closer and closer, and they should naturally be able to sense it.

The stalemate of balance, with a large number of helpers coming over, even if the strength is weaker, can immediately break the balance, and if the number is large, it can even form a huge crisis for them!

At this time, before the beasts, there is a top human being, and there is naturally another impact on the situation at the scene.

Even if these three people have never seen Shen Lang, they do not know what his identity is, but everyone is human, this is in the home of mankind, it is naturally an ally against the behemoth!

For a time, all three of them were inspired.

As for the strength of Shen Lang, in fact, they are still unclear, but this is the Antarctic continent. Since this person can suddenly appear at such a super high speed, it is bound to be overpowered.

As long as the strong human beings can resist the giant beasts that have come over, then there will be no pressure on them, and they can continue to balance.

The Emperor's behemoth is also a spirit!

It does not need to wait until it is clear, and it has already felt the breath of the waves. How to say that Shen Lang is also a friend, and these human beings are enemies. If Shen Lang helps, then it will win.

It really feels that Shen Lang will help!

Because it has helped Shen Lang to deal with strong enemies several times before, now it is hard to meet the need to help, if Shen Lang does not help, it is not enough.

Besides, isn't Shen Lang hope that peace between the two circles? As long as it can restrain other behemoths and no longer confuse humans, these three humans will be nothing.

Although later, through the dense population of a city, it can also feel the population of this world.

It's just that the death of three people is nothing. It's a business that you can get. I believe that Shen Lang is willing.

The hurricane beast **** is different. It does not know the swell of the waves. After all, in the eyes of the behemoth, human beings are all the same. The last time Shen Lang went to the world of giant beasts, the strength was not as good as it is now.

So it was the only one on the scene that became nervous and wary, and then quickly urged the behemoths and beasts to come over.

In the process of sinking the waves, it is slowing down, but how to slow down, the overall is still very fast.

In the face of the stalemate on the scene, he is very clear about his arrival and will break the balance.

Calm water, throwing a stone down, it will sway. Inside the calm hot oil pan, drop a drop of water, and the frying pan will splash countless oil!

What Shen Lang is doing now is to try not to fry the pan.

So he directly put himself into the whirlpool and landed in the middle of their confrontation!

This is undoubtedly a dangerous move.

The three human beings don't know each other. They don't know what the origins are. They don't even know what other worlds are. In that case, his rush into the market will inspire his shot.

The same is true of the two giant beasts. The hurricane beast does not need to say, and does not know it at all. It will only treat him as an enemy of the adult. And the dog gods can fight alongside the Hurricane Beast, and of course they will give priority to those who support them.

Therefore, Shen Lang directly intervened among them, and the worst possibility was that both sides attacked him!

Of course, he also has this concern. After all, every one of the scenes is not under his strength. Don't say that five people attack together, that is, the dog ***** wants to attack him, and he can't resist it.

Shen Lang is not easy to rebuild to the peak of Daxian, and further, return to the realm of the Great God, can you die here?

He dares to risk the fryer, and of course he has his own dependence, that is, the world of heaven.

If you really encounter an attack from both sides, then he will hide in the space of Tianshu for the first time. Even if this secret is discovered, it is safe to be the first!

Fortunately, the things he worried about did not appear because when landing, you can feel an invisible huge pressure circle, but with his landing, the pressure circle is rapidly shrinking.

Everything is centered on him, and then both sides withdrew the pressure. The state of balance was originally recovered from both sides, as if he had separated the two sides.

“Everyone is calm! Let's talk first.”

After Shen Lang said to the three people, he said it to the dog ***** again in the animal language.

The three people still have nothing to say, and the hurricane beast ***** first roared!

“You murderer! You killed more than a dozen of our brothers! Now tell me calm? Ask the Emperor to kill this shameless man!”

The dog ***** does not think much because he knows the waves.

The Hurricane Beast God regards him as an enemy of mankind, and he is ready to fight and even take the lead. When he landed, he followed the other party and the Emperor retracted and revoked.

But when Shen Lang spoke, he immediately felt the breath of the behemoth from him.

The message that the beast ***** sent before was that other beasts and monsters that it dispatched went to attack the waves.

Now I feel the sigh of the giant beast, and the animal language, the answer is ready to come out – this is to leave the human with the emperor, but also has killed more than a dozen beasts, beasts!

It broke out directly, and the atmosphere that was originally gentle was immediately strained.

The three human beings are also very surprised to say that the Shenlang will speak the animal language. They are always wary, and the roar of the hurricane beast, even if they can't understand the animal language, they can see that it is angry and they are ready to fight. Preparation.

“shut up!”

The dog ***** opened the mouth and made the hurricane beast god, and then directly looked at the Shen Lang, and communicated with him with his thoughts.

Chapter 1522 - What are you going to talk about?

“Shen Lang! What is going on here? Have you killed more than a dozen of us?”

The Hurricane Beast God can sense that the Emperor's behemoth can of course be sensed, but it has not been thought of in this regard before.

Shen Lang directly admitted: “After you left, I also rushed over. They destroyed a lot of cities, and many people have been killed and injured. I have to stop it.

“So you killed them? You also swallowed them!”

The dog **** is really angry, it has already felt it, and Shen Lang is swallowing them all! Including all their cultivation and spiritual strength!

This way, before it was perfused with Shen Lang, it is very likely that Shen Lang has the same kind of learning. This counts, it is that they harm them!

As the Emperor of the Emperor, it is the supreme king of the world of giant beasts. Those giant beasts are likened by human beings, even if they are not their people, they are also general ministers.

Now it may be because of its indirect relationship that they are all broken, and they are swallowed up!

Shen Lang sighed: “The Emperor, there is nothing to say. In your opinion, human beings have died thousands of tens of thousands. It is nothing. You have trampled on a large house and city. It is not worth mentioning. You The life of a behemoth is precious every word. But I am human!”

The Emperor’s behemoth is the Emperor’s behemoth. On that day, he was the emperor who watched the death of Yunqiu beast and could calmly negotiate.

After that, it knows the source of the ancestors, that is, from human beings, and for the human races – at least this human race representing the source of the waves, is more of a good feeling.

Then followed by Shen Lang, it is considered to have gone two or three worlds. I have seen many people, have eaten a lot of human food, and have swallowed the Great Immortal, swallowing almost the same level of dragon elephant behemoth.

All of this makes it special for the feelings of Shen Lang.

Just because it is a god-level emperor, in the world of giant beasts, it is a thousand years, and there is almost nothing new. Two months with Shen Lang, it has experienced a variety of rich experience.

So now, even if angry, still keep calm and rational.

In other words, it is said by others that it is swallowed or smashed directly.

However, the words of Shen Lang have made it understandable by others.

There is nothing wrong with the truth. It is outside the behemoth camp. For the death of more than ten beasts, it is angry and feels responsible for revenge for them.

However, Shen Lang is the top powerhouse of the human camp. It seems that his hometown, thousands of human beings have lost their lives, and a large number of housing cities have been destroyed. It will also be angry and revenge.

It was originally angry, it felt that it had its responsibility, and Shen Lang was not enough friends, did not give it face, after all, it said that it would bring everyone back.

Now from the perspective of Shen Lang, he is not wrong, if not blocked, they will kill more damage.

All the thoughts are just a moment, and the Emperor's behemoth will have a decision.

"I said I will take them away! Aren't they all here? You can't wait a little longer?"

Shen Lang is also very sincere: "On the one hand, I don't know this. On the other hand, except for what I have encountered, more is the command of the hurricane beast to encircle me – they know me, know that I am carrying you. When I get here, I want to hide your message and let everyone continue to obey its command! Just push all the blame on my head and let them mistakenly think that the information you release is helpless under our imprisonment."

This is their communication of consciousness, and they are not afraid to say in the face of the hurricane beast.

This section immediately made the Emperor's behemoth somewhat similar to the frowning emotion. It also learned this before, so I left.

But after finding the Hurricane Beast, the Hurricane Beast immediately confronted it with a sincere attitude, and still respected the Emperor, and explained it because it was worried about its comfort.

The Hurricane Beast God then said that all the beasts would be withdrawn, and then they would encounter the top three human powers.

Therefore, the dog ***** did not worry about it anymore, and the focus was on dealing with these three humans. Otherwise, the behemoths and beast gods of more than a dozen were swallowed up. It should be more clearly sensed than the hurricane beast.

Now that Shen Lang is once again clarified, the dog spirit is a bit complicated.

On the one hand, the hurricane beast ***** is its veteran, the time of understanding and trust, counted on the millennium, while the other side of the wave is only two months.

On the other hand, Shen Lang is indeed not ordinary, not the beast gods can compare.

This is a suspicion of provocation, but it is also a big truth.

Otherwise, it has already said that the beasts will be taken away, and the waves will not be able to venture into the beasts.

However, all of this can be temporarily stranded. The problem that needs to be solved now is the current problem.

The three human powers in front of us are already very powerful, or forced or led, bringing them to this snow and ice, and everyone is forming a balanced stalemate.

Now there is a more tidal wave, and the balance has been tilted. The hurricane beast ***** directly provokes it, which is equivalent to pushing the Shen Lang, which can be an ally, to the enemy camp!

Shen Lang and it can be regarded as friends, but with the opposite, but the same race, with a natural sense of belonging How do you talk? ”

Their conscious communication was short-lived, and the Emperor’s behemoth seemed to have considered it for himself and then smashed it out.

It is to throw the problem to Shen Lang and see what better solution for Shen Lang. In terms of wisdom, it still admire this human being.

After the hurricane beast was quieted by the dog god, it was not interrupted at this time.

It can be the second in the world of giant beasts, and it can be “hearted” and certainly wise. Just the wrath, not really care about the death and injury of other behemoths, more performances!

With its wisdom, of course, it will not be thought that after pushing the waves, it will form its own disadvantages.

But the problem is that Shen Lang is a human being. Even if the Emperor says it is a friend, it is only a friend of the Emperor, not a friend of it!

And from the current point of view, this human being will provoke dissension and let the Emperor come to clean it up. It is worse than it to provoke dissension first, so that the Emperor and their human power are in the same position!

Besides, it only needs to delay a little time. Other monsters and beasts will arrive soon, and it will not be too big a disadvantage.

Once the war begins, the main force of one’s own side must be the Emperor, and the core of the other side’s attack will also be the Emperor. If it can make them lose both sides, it will be able to take profits again!

So at this moment, the Emperor asked what to say, and the hurricane beast did not refuel, but waited to delay the time.

Shen Lang glanced at the two of them. Yu Guang looked at the three human powerhouses and then replied: "We have died a lot of people, and the losses are huge. You also have losses. Just forget it! You are leaving, everyone is peaceful. get along."

After that, he said it again in human language and let the three strong men understand his intentions.

Chapter 1523 - Giant beast

The three strong human beings are also ups and downs about the arrival of Shen Lang. At first I felt that I had come to a powerful human helper, so I could deal with the behemoth that was about to arrive.

However, when Shen Lang opened his mouth, he could talk to the other side in a beast language. It seemed to be a familiar friend, which made them difficult to understand and immediately maintained a high degree of alert.

As a result, the attitude of the hurricane beast ***** has changed again, allowing the three of them to remain calm and change.

Now that Shen Langxian's animal language has been expressed in the human language, they have not made any statements, and they still listen to it.

Shen Lang's request is just to drive away these giant beasts, which is not very strong. But humanity is now completely slain and cannot be strong.

Even if they quoted the other side to the Antarctic 6, they could not let the countries shoot nuclear bombs. The great destruction of the Antarctic will directly affect the ecology of the Earth. It is impossible to use it. &1t;i>i>

Therefore, under such a premise, if Shen Lang can let the other party leave and live in peace, it is already the best situation.

Of course, the three of them did not believe that the other party would leave with the words of Shen Lang.

They are watching, and the dog ***** is thinking about it.

Originally evacuated, this is what it agrees, and it is no big deal, because it has personally touched the human city. The human beings here are too weak, far from the powerful humans of the previous world, and cannot be used to swallow evolution.

The other world's comprehension resources, the world is also very scarce, far less than the previous world.

Simply put, it feels like walking from a scenic spot to a slum, and walking is very refreshing.

But the problem is that Shen Lang said to him alone, only two of them. Now it is in the presence of the hurricane beast, and three humans say it. <i></i>

If it promises, don't let these three humans look down on it?

What authority is there to lead the hurricane beasts?

On the other hand, it can promise before because there is no loss, but the world has been affected. But now Shen Lang has killed so many behemoths and beasts. As a god, it can't be regarded as nothing.

When Shen Lang retelled in human language, the Emperor's gaze looked at the hurricane beast and wanted to see if it had any good suggestions.

After all, Hurricane Beast God has always been its right arm, and many things are the advice and implementation of the Hurricane God, so that it is also a habit.

The hurricane beast ***** is here, but pretend not to see it.

Its posture is obvious, are you not coming back to re-lead? Then you decide for yourself! If you decide bad, I will speak again! <i></i>

The problem returned to the dog ***** here, making it very uncomfortable.

But after a while hesitating, there is a new breakthrough!

The fastest beast ***** has already appeared in everyone's field of vision!

On the ice sheet, the beasts and the beasts are coming over quickly.

The Emperor's behemoth looked at it. It took more time to think, and more behemoths rushed over and increased the weight on their side. When negotiating, they could have a bigger advantage.

In addition to watching the hurricane beasts of the lively state of mind, the three human powers, including the expression of Shen Lang, are more serious.

These giant beasts are coming over, no doubt to make the situation more chaotic.

However, this is the end of the matter, unless they are directly involved, they must wait for them to arrive. Even if you do it directly, it is impossible to separate the results in a short time, they can still participate. <i>

Three human powerhouses, this time can not help but pay more attention to the Shen Lang, I hope that this young people who have exchanges with the behemoths can restrict the giant beasts.

The beast ***** who first came over, gave a roar!

The behemoths from the near to the far followed the roar, and for a time, roared, and spread in the icefield.

The beast gods who came over saw that the emperor was safe and sound, and together with the hurricane beast, they were very excited. This is the expression of their unity.

The behemoths that have been rushed over in succession 6 are all arranged behind the ends of them.

Those who can invade the earth, at least the king-level behemoths, have some wisdom.

Called from thousands of miles away, it is to help confrontation. Now I can see that the Emperor and the Hurricane Beast are all in the same position as the enemy. They certainly understand the seriousness of the situation. &1t;i>i>

So even in the back, it's patchy, not directly behind their huge body, so that they can be attacked and charged at any time.

When everyone is summoned, the distance is far and near, and the degree of the road must be fast and slow. However, after crossing the sea to reach the South 6th, it may be because of security considerations that everyone seems to have come together.

So now when the rushing over, the beast gods are one step faster, but the king behemoths are also here.

For a time, behind the dog ***** and the hurricane beast, there were more than 20 behemoths!

Such a scale is enough to level the earth Undoubtedly let them be full of power, looking down on the four small humans, they seem to be able to crush them at any time.

However, the three strong earth powers are also very powerful. There is no embarrassment to deal with the dog gods. No more beasts have been seen.

It's just that they are unable to reverse this situation. They can only wait and see what happens, and see if Shen Lang can create miracles.

All the beasts have a certain connection, even if they are not clear about the specifics, but now they can feel the familiar atmosphere from Shen Lang, and then guess a fact.

Ever since, the more than twenty behemoths and beasts that have arrived together have roared to Shen Lang!

This change made the three Earth powers a little surprised. I guess this young man should have killed the behemoths to make them so angry.

But this is not to please them, but to have more concerns.

Single click to kill the behemoth, they can do it, the key is to let them leave! Either they can kill them all, otherwise they will only lead to a strong revenge flame.

In the process of their confluence, the dog **** has already had complete thoughts.

After the monsters were arrogant, it made a noise, let everyone calm down, and then slowly opened.

“Shen Lang! You killed me more than a dozen giant beast brothers, this thing can’t be done like this!”

As soon as this statement came out, the three powerful planets could not help but be surprised.

Shen Lang is also a little surprised, the physique of the Emperor’s behemoth, slowly speaking, there is also a roaring roar, but this time it is not a beast, but a human language!

It actually speaks!

Then, the behemoths also slowed down, and the Emperor actually said human language!

Chapter 1524 - condition

Shen Lang was just surprised, and soon it was relieved.

The Emperor’s behemoth is already comparable to the human monk in the realm of the Great God. It is not difficult to learn to understand the human language itself. In the past, it also directly devours the strong man of the great fairyland such as the Emperor of Bao Puzong.

Just like Shen Lang has already understood the language of the beast, it will understand that people are normal, but they are both consciously communicating with Shen Lang, and have not said the opportunity before.

The other three human powerhouses also quickly figured out this layer.

However, the giant beasts, but do not know so much, feel that the gods have known the human language so quickly, they feel that it is very powerful.

Only the hurricane beast is a little depressed.

Because now the Emperor's behemoth communicates with the people and they communicate with each other, it does not understand what it is!

Other behemoths don't need to understand. When they see the Emperor's innocence, they still support it. The hurricane beast, who is playing the Emperor's banner, is still back to the assistant's seat.

However, the Hurricane Beast God himself wants to "squat". Under the current situation, the best way is to provoke the Emperor and the human power to die.

However, the Emperor actually used human words to communicate with human beings, and it was very unchanged. Many information could not be mastered, let alone provocative.

The three human powers have just been surprised by the dog gods, but after they figured it out, they were once again surprised by the content. It can even be said that it is shocking!

A dozen heads!

They thought that Shen Lang had killed the behemoths, so they were all hateful to him, but they did not expect to kill more than a dozen.

Killing one end, not both at the end, killing a dozen or so, is equal to half of all the scales here!

And the behemoths who have just come from the season can also see that some of them are at the level of the beast god, and the dozens of killing of the waves, certainly several of them are beasts.

It is precisely because of this that they will make them so hateful.

In this way, they could not help but look at Shen Lang.

The strength of this young man exceeds their expectations!

Before I watched the changes, I wanted to see what the relationship between Shen Lang and these behemoths could be. But now it seems that its own strength is also worth looking forward to.

Of course, even if Shen Lang can kill more than a dozen giant beasts, it should not be a one-off, but just rushed over, it is already double the number.

In short, the strength of the other side is still above humanity, they are going to fall into the wind...

“Well. Emperor, what do you think is handled?”

Shen Lang did not evade. The explanation, he had already explained it privately with the Emperor, and now it is difficult to reconcile it.

However, after he responded, he was a bit puzzled.

If the dog ***** can't accept his explanation, it should be played directly, but now they have the upper hand.

And why should the dog ***** use people?

This thought, Shen Lang immediately understood the way.

The dog ***** is the emperor, don't face it!

Now more than a dozen brothers have been killed and injured, including the beast god, but also to retreat, and the team will not be able to bring it in the future. Now this is a hint that he should be given a good step.

Although I want to understand it, Shen Lang is also a bit of a headache. Now there are four of them here, and there is no good step for the steps.

If you are on the American continent, you can take them and smother the empty city that has already been transferred. There is nothing to destroy on this Antarctic continent.

Can't you let them go to the beach to eat some penguins?

Then Shen Lang's attention went to the three human powers.

Could it be that the dog **** meant to hand over the three of them?

Also he can hand it over!

These three are probably the old geeks that have lived for hundreds of years like Xu Yuyue. They can fight against the dog gods. Is it that Shen Lang can dominate?

The dog **** has just hesitated to think about it, so at the moment Shen Lang asked and immediately responded.

"You, go back with us, let us deal with it!"

After the dog **** finished this sentence, he said it in the animal language.

Shen Lang and it already have a certain tacit understanding, do not need another private explanation, but also know the meaning of the dog god.

If the giant beasts retreat from this, there is no saying that it is difficult to convince the public. Even if they are forced to bring them back, it will affect the subsequent leaders.

Therefore, in the face, it is necessary to let the Shen wave go with them. As for how to deal with it, there is still room for relief. As long as the Emperor says to kill him, there will be no monsters who dare to stare at it.

But this disposal can't be here. Under this publicity, there is no way to falsify.

I will use people's words to say it, of course, not to facilitate the hearing of the waves, but to listen to the three human powers, let them know and let them spread, and Shen Lang has paid for the ordinary human beings of this world. The price!

Hearing this, Shen Lang could not help but sigh, the dog ***** is still enough.

He can take the behemoths alone, and he is of course willing, just like the three powerful planets, and they are led to the untouched Antarctic continent.

And even if the dog ***** had to hand him over to other behemoths, including the hurricane beast, Shen Lang was completely confident to flee.

The Emperor of the Emperor had already spoken, and the other behemoths did not bark again, but all looked at the fierce and looked at Shen Lang, looking forward to taking him back and taking revenge.

The three human powerhouses are all concerned with the response of Shen Lang.

With the three of them together, but the balance of the two giant beasts, even if the other is weaker, but there are more than twenty, if the surging of the waves, one person is absolutely unable to survive.

"If you can get rid of it and stop invading, I am willing to go with you!"

Shen Lang is also said in the human language.

This is said to be let the three human powers focus on it.

They can cultivate to this realm. At this age, there are some things that are seen through, but they are more cherished for their lives.

This time it is also related to the extent of the world's survival, only to intervene, or else it is only internal contradictions of human beings, and will not come out.

But the premise of protecting the world is also to protect yourself. If you want to sacrifice yourself to protect the world, they will not agree.

After all, they live to the present age, not to mention relatives and friends, even if they are descendants, they don't know how many generations have passed. I don't know if they are still alive. If they don't relate to the whole world, they will die thousands of people. Will care.

Shen Lang can come here, can kill more than ten behemoths, can make the behemoths taboo, no matter what their identity, they are not far from them.

But he can still sacrifice for ordinary people, and he is willing to follow the giant beast for this world!

This makes them three, all awe-inspiring.

Chapter 1525 - Detonate melee

Although they are the first to see Shen Lang, they do not know each other's identity, but on this front, naturally can be regarded as the last patron saint of the earth.

Such a character loses one less.

This time surrendered this young man, what about the next time?

They are tacit understandings of each other, almost the extent of their minds, so there is no need for negotiation of words and no need for eye contact.

After Shen Lang finished, without waiting for the behemoths to make the next step, one person immediately spoke.

"No! No one needs to go with them. This is our world. We will only drive out the invaders and not sacrifice people to seek peace!"

Speaking is an old man in the middle, his face is slightly purple.

After the purple-faced old man finished speaking, the other two people were left and right, and they immediately opened up.

“Yes! We are the masters of this world, we must not allow monsters to mess!”

“This friend, you don’t have to sacrifice yourself, fight with us to the end!”

In addition to their strong voice, they are also war-torn!

Before the two sides maintained a balance, but with the break of Shen Lang, let them converge on each other, and now the human side is soaring, and the giant beast is of course keeping up with it.

So I once again got up.

Before, the three of them were confrontation with the dog ***** and the hurricane beast. Now there are more than 20 giant beasts!

However, this time the dog ***** did not join it, but it did not form a one-sided pressure, or a situation of barely flattening.

Now it’s just a confrontation between the war and the momentum. The two sides are on the verge of exploding, but they have not directly detonated.

The dog ***** and Shen Lang, the two of them did not participate, but invisible, became the core of both sides, they decided whether they would fight directly!

“Convince them! I won’t want you to die!”

The awareness of the dog ***** was transmitted.

Shen Lang couldn't help but smile: "I don't know them. And if I don't have any guesses, I should hope that you will fight with us. It's best to lose both sides. It's cheap."

The two of them are conscious communication, and they don't need to speak out, and the speed is naturally fast.

In the meaning of Shen Lang just expressed, the hurricane beast god, sent a pillow!

"Humans must do it for us! Kill! Revenge for the dead brothers!"

This time, the confrontation was that the three human powers took the lead, and the hurricane beast immediately seized the opportunity and directly smashed it out!

Other beasts don't understand the human language and can't understand their words, but the war that just broke out is all felt.

When I heard the words of the hurricane beast, I thought it was understandable, and I thought that the biggest possibility was this, so with its violent drinking, everyone rushed forward together!

The behemoths came to this world, and although they felt a lot of tall buildings that they had never seen before, there were also some weapons with destructive power, but on the whole human beings had little damage to them, and they were almost invincible.

Before they came here, the gun missiles they encountered were nothing, and they naturally despised human beings.

Especially when they arrived here, Shen Lang was already here, mistakenly thinking that the Emperor and the Hurricane Beast did not do it because of Shen Lang's sake, not the question of strength.

Just now the Emperor had already opened the conditions to bring the Shenlang back. Now that the hurricane beast has ordered it, it is the command of the Emperor.

They came over this time, and they were brought out by the hurricane beast. Some of them were completely ordered by the Emperor, and they did not come.

That is to say, some of them want to understand, and they fully support the hurricane beast. Some of them felt a bit embarrassed after seeing the Emperor, and now they want to show their courage in front of the Emperor.

They are all powerful behemoths, and in addition to the hurricane beast gods, they also rushed out as a squad, and immediately formed a torrent, that is, the dog **** wants to stop, it is too late.

More than twenty behemoths act together, above the ice sheet, it is a great piece, letting huge ice cubes splash. They are not blindly moving forward, but also to the side.

This does not require the action of the dog god, it is enough to completely cover the three humans in the district.

Compared with them, the human body is very different from each other. It is a giant beast, and it is also the extent to which it can be flattened by lifting the foot. So many of them go forward together, and it seems that they have escaped without a place to escape. They are all giant beasts.

Shen Lang directly frowned, he guessed it would be the result, but also hope that the dog **** can survive, and now the hurricane beast has already started to be strong!

Just as he will be kidnapped by the lives of all human beings, the dog **** will also be kidnapped by the lives of the behemoths!

When the behemoths acted, the three human powers also fought.

Among them, the purple-faced old man did not have any action, but he had already erupted a fierce pressure from him, and shot directly around like a sharp blade!

The other two were quickly dispersed with the afterimage, and they stepped into the behemoth camp one step at a time, using the flexibility and speed of the smaller body to stop them.

Everything is done in an instant.

The dog ***** and Shen Lang, as bystanders, can clearly see through everything!

This purple-faced old man should be a super-powerful person in the realm of the gods. It is only barely reaching, or just breaking through, etc., which is slightly worse than the dog god.

The other two are the Daxian Peak, which has not broken through to the realm of the Great God, and is similar to the Hurricane Beast.

Because of this, they rely on one more person to balance the two confrontation with the dog god.

It is not the same now. Just after Shen Lang and the dog ***** did not move, they left three to deal with the Hurricane Beast and the other twenty behemoths.

It is also a scene that is evenly matched, even to take a slight disadvantage, but their wisdom, do not need to think about it, naturally use the strategy of “Tian Ji horse racing”.

The purple-faced old man is comparable to the realm of the gods, so he stayed still, used to deal with or to contain the hurricane beast and several other beasts at least unbeaten.

The other two big fairy peaks, scattered out, are to deal with the king-level behemoths, which is more than enough for them.

Once a group of king beasts are killed, it will naturally affect the morale of the behemoths. They can help the purple-faced old man again. It is a long-lasting relationship.

So they are speeding up, and they don't need to help the waves. Shen Lang can hold back the Emperor's behemoth, which is the biggest help!

Of course, the dog ***** understands what is going on, and if left unchecked, it is to watch other monsters be killed.

So it can't take care of it, and it makes a roar, and it is almost like the old man!

You don't need it to command more, and you don't need any tacit understanding. Originally, you designed the hurricane beasts that caused them to lose both sides. They immediately commanded other beast gods. They attacked the two human powerhouses separately and let the emperor deal with the purple face old man. .

As long as the three are extinguished first, it is easy to destroy the waves.

Chapter 1526 - Shen Lang joined

The dog ***** himself did not directly shoot Shen Lang because he was a friend.

If the Hurricane Beast does not shoot, it is not that you don't put Shen Lang in your eyes. On the contrary, more than a dozen giant beasts have been killed in succession, and it has been given great importance to Shen Lang.

Now there is no movement in the first place. In fact, it is essentially the way to use the "Tian Ji horse racing" invisibly.

The purple face is stronger than them, and the gods are stronger, so let the gods deal with it. It is very likely that Shen Lang will be stronger than them. If they deal with Shen Lang, they will probably be held back and even suffer.

The best way, of course, is to gather the core strengths, first to eliminate those two, just like the two giant beasts who first slammed the king's level.

As for Shen Lang, the Emperor has already said that he will bring him back, and he will kill the three.

Besides, if the purple-faced old man is turned over by the Emperor, can Shen Lang sit back and ignore it?

If Shen Lang joins it, then it can really hurt the Emperor once!

This is the wishful thinking of the hurricane beast.

Leave the two strongest enemies to the Emperor. It is safer to take the other beasts and the king beasts to kill the two weaker ones.

However, the plan is very comprehensive, but there will be some deviations in the implementation.

The Hurricane Beast God is summoning the level of the beasts at the scene, and together to deal with the two human powerhouses. Its ulterior motives can't be said, it can only be a seemingly normal arrangement.

As a result, there are still a large number of kings and giant beasts, and they will understand the deviation.

In their view, the Emperor of the Emperor dealt with the strongest enemy, and the nature of the hurricane beast and other beasts was the next two.

Is that still used?

The remaining one is the weakest, that is, left for them to deal with.

The result is a multi-headed king beast, no longer attacking the two human powerhouses, but all rushing to the waves!

This is the closest to Shen Lang. The farther one is also open immediately. It is to win the battle by quantity. It is also to put the ice sheet out of the battlefield, so that the beasts can play better.

When it was said that it was too late, the weakest spot on the scene was also the monster beast of the king. This is a powerful beast that only has death forests and thousands of caves on the earth. The overall speed is not slow.

The strong men of the two great fairy peaks, although they had shots, did not have time to hurt the behemoths, and they were immediately besieged by the beasts.

If you deal with a single beast, they are not in the words.

But now is the strongest hurricane beast god, leading a group of beast gods who are almost at the peak of Daxian, so that they can not complain.

At the same time, the number of kings and monsters of nearly 20, all flocked to Shen Lang!

“Stop! Or don’t blame me, you’re welcome!”

Shen Lang, with the strength of Daxian Peak, exudes a powerful pressure, and then screamed with the animal language, the last time to warn these monsters.

Now in the face of the dog god, I really don’t want to kill it, so that the relationship can’t be turned.

Nearly twenty behemoths rushed over. If you don’t shoot, it is very dangerous for him to rely on defense.

It is a pity that when the Hurricane Beast God led everyone to rush out, everything was already emotional. At this time, even if it is the opening of the Emperor’s behemoth, it takes a little buffer time. It is impossible to stop the surging giants with an opening.

After all, they are giant beasts, the masters of the world, and the degree of wisdom and calmness is not as good as that of human beings.

At this time, the Emperor and the strongest human ***** are together, and they have nothing to do with others.

Hearing the waves and warning the beasts, the behemoths were excited. For a time, the ice sheet rang through the sky and the huge body, almost completely drowning the waves.

This situation changes, so that the dog ***** is also very helpless. If you can’t keep everyone in the fight, after some chaos, it will definitely be a situation of both losses.

But now, including itself, has already begun to shoot, and then want to keep everyone and the beast, even with its realm, it is difficult to do.

If you use the power of the Emperor and press down all the monsters, will these humans stop?

Doesn't that harm all the behemoths, let these humans take the opportunity to kill them with a butcher knife?

When the Hurricane Beast God just led everyone to rush, it did not stop in time. Now it has been passive. The only thing that can be done is to quickly defeat this strongest human being to suppress the scene.

It goes all out, and the great human ***** will certainly go all out. For a time, the ice fields around them have already avoided the giant beasts invisibly, revealing a large area.

Under the ignorance of the big man, the two human celestial beings were besieged by the beasts, and they were not afraid to be scornful and fighting all the time.

As a result, Shen Lang was besieged by the largest number of giant beasts, and of course the weaker ones.

Things have reached this point, and there is no better way for Shen Lang. Even if he is willing to take hostages and go to the world of behemoths, he will have a truce.

In today's situation, he also looks at the scores, basically has followed the plan of the Hurricane Beast!

If he does not intervene, hide, or leave, the result is that the king of the nearly twenty kings, can help the beasts to help solve the two human peaks.

The dog ***** must be able to suppress the big god, and the result will be that the giant beasts have won a great victory.

He just intervened, and was also held up by the number of giant bees in the near twenty. If they could not help them, the result would still be that way.

Just now he was willing to accept the conditions of the dog god. Other behemoths have nothing to say, but if the three human beings are killed and the human beings have no stronger patron saint, the conditions will be different. It is possible to arrest him. To continue to encroach on the earth!

To this end, Shen Lang must also have the same strategy as the dog ***** – win as soon as possible!

The dog ***** wins to control the whole situation.

Shen Lang wins for the fate of mankind!

All the considerations were also in a flash, and he immediately shot naturally.

With the current realm of Shen Lang, and not to mention the power of more than ten giant beasts and beasts, just reaching the peak of Daxian before, it is far better than the giant beasts of these kings.

But the giant beasts have physical advantages, far superior to humans in terms of resistance and defense, so even if they can crush them, it is very difficult to kill them all.

So at this moment, Shen Lang shot and treated them directly as the beast ***** level. Not only did they not be merciless, but this time they used the dead water whip!

Nearly twenty behemoths, so that the surrounding is completely squeezed, shielding, size and height, even if you want to fly away from the air is difficult. And with their trampling, a lot of ice splashes.

This time, they are intentionally “squeezing” over and winning more.

But in this way, the body of Shen Lang is completely disappeared within their line of sight! Under the light of their bodies, it is already a tall and spacious space!

Chapter 1527 - Broken belly

The behemoths originally wanted to rely on the advantages of the body, so that Shen Lang did not have a foothold.

But this vulnerability was quickly discovered, because the difference in body size between the two sides, even if they are already close together, the Shen Lang is completely unaffected, as in a cave with many large pillars.

And they are so crowded together that they can neither see the sinking waves nor make the bulky body more inconvenient.

And immediately realized a serious problem – the relatively weakest abdomen, unprotected in front of Shen Lang!

In daily life, running and walking, the abdomen is facing the ground. When attacking, the claws and legs can be protected. Now they are on the top of the Shenlang.

The sinking waves of the stagnant water whip, of course, are not to cut their legs and feet, but directly to the abdomen entrance!

He didn't see them open up. After all, with their huge body, they had to be completely broken. They needed sharp soldiers and needed enough length.

And they also have a strong vitality advantage, and it will not be so easy to die immediately.

Therefore, when attacking, Shen Lang is the key!

This key is Nedan!

Because he has swallowed more than a dozen giant beasts, it is clear about their structure. Even if there are different kinds of behemoths, there are some similar differences, but the overall situation will not be too much deviation.

So when they wanted to step on him, he had already danced the dead water whip, directly at the nearest point on the abdomen, broke a large circle, and then continued to dig into the inside, reaching the inner Dan.

Regardless of whether the beasts have a concept of inner aldam or different nouns and understandings, but this is the basis of their distinction from the general beasts, and the core of their evolution, so in the long evolutionary process, in a lifetime During the years of cultivation, the inside of the body will naturally protect the inner Dan.

If it is just an ordinary anatomy, it is not easy to find and peel it out.

However, Shen Lang knew exactly where he was, and he used the indestructible stagnant water whip. Under his dancing, he was a high-speed meat grinder. When he arrived at Nei Dan, he also dug it directly.

Neydan is almost the source of power for the behemoths, but only a hole in the abdomen, they can be stiff. But Neidan dug up and immediately weakened.

After Shen Lang was dug, people immediately left and continued to go under another giant beast, and started digging inside Dan in the same way!

The speed of the Shenlang is very fast, and the behemoths react very quickly.

When they realize that the tactics are wrong, they immediately separate quickly, keep a certain distance from each other, view the targets, and cooperate with each other.

But they are many in number, and when they are scattered, they have already fallen three or four!

They immediately waded out, although they were not clear about the specifics, but they also knew that it was because of the attack on them by Shen Lang.

Only they suddenly fell down, it was squatting, and the wounds were blocked. Other monsters didn't know what they were hurting for a while.

Therefore, the remaining more than a dozen beasts can only improve the realm and self-protection, but do not know where to start, can only be chasing the attack.

The static waves after the scheme have been verified, of course, they are no longer hard to come with them, but the body shuttles quickly, clinging to the belly of the behemoth, and then picking the inner end.

As a result, these king behemoths began to panic!

Even if Shen Lang is stronger than them, they are not afraid at all. The gap between them is there, just like a big man is a rabbit that is not afraid of biting.

Besides, their number has an overwhelming advantage, and there are a group of beasts, and the Emperor is also here.

But now it's different. Shen Lang hasn't figured it out there yet. It's not clear in what way. It only knows that after a little delay, it will be broken.

Although there is no death, there is no direct weakness in combat power, which has caused them to panic.

In particular, the speed of Shen Lang is fast, and because of the small relationship, let them be close to me. It is very difficult to trace him. If he is not good, he will become the next one!

Originally, all of them were squeezed together and crushed. It was only a tactical mistake, but there was still a tactical match.

Now that one head falls down and the others are panicked, it is impossible to maintain a tacit understanding. Everyone is in charge of each other and strive to protect themselves.

Looking at the squats of the giant beasts, hearing their wailing, knowing that the abdomen was hurt, so they all lie directly on the ice sheet.

When there is no gap between their bodies and the ice sheet, naturally they will not leave space for the activities of the swell.

This is a reasonable defense, but it makes you very passive.

The behemoths have a strong body, and the rushing charge is the advantage of their play. Now, like the hen hatching, it is naturally compromised.

But under the fluster, they can't think so much.

For them at the moment, this strategy is an immediate effect. Everyone is kneeling down. There is no place for Shenlang to hide, nor can they sneak up from the belly.

And although they become passive, but after all, the number of advantages is still can also assist each other in attack.

just.....

When they look for it, they still can't see the shadow of Shen Lang!

If Shen Lang wants to win on behalf of the Earth, he must destroy the enemy as much as possible. And these enemies, except the Emperor, are of course more powerful.

It is good that the king beasts can kill, but if you want the effect to be more significant, you still have to kill the beast.

Especially the hurricane beast!

The Hurricane Beast God is the biggest factor of instability, and it is its incitement that has the invasion of today.

I was able to negotiate with the dog **** just now, because the hurricane beast **** took the lead, which led to the current melee.

So after picking up the inner bead of the multi-headed beast, I saw that there were not so many opportunities. Shen Lang directly applied the "Phantom Meteor Step" and moved on the ice sheet at a fast speed. It has already reached the battle circle of the beast gods.

His goal is to be a hurricane beast. As long as the hurricane beast is killed, others can be bound by the dog **** and take away.

To deal with the hurricane beast, Shen Lang is not afraid to neglect. Not only did the dead water whip attack, but it also maintained an absolute defense.

According to the memory of his thoughts, the hurricane beast is the behemoth next to the Emperor. Compared with human beings, it is equivalent to reaching the peak of Daxian, and it is about to touch the big god.

Simply put, the strength of the Hurricane Beast God will not be lower than him!

Want to kill the hurricane beast in one fell swoop, even if it is a sneak attack, the opportunity is not big, but also need to avoid both losses.

At this moment, the hurricane beast is besieging a peak with the other beasts. Naturally, it is obvious that it has the upper hand, but the swell of the swell is fast, and it is under its belly. The stagnant whip is going up again, ready to drill in and put it in. Nedan digging!

Chapter 1528 - Hurricane

Just when Shen Lang had just arrived at the belly of the hurricane beast, its body was suddenly retreating!

Not only did he avoid the attack of Shen Lang, but there was also a big claw caught directly, and another paw was buckled from top to bottom over his head!

It will count.

Obviously, the hurricane beast **** has just noticed the situation of Shen Lang in the process of fighting, and guessed that Shen Lang will attack it, so it will count on it, just waiting to kill Shen Lang!

In addition to a beast **** holding the human strong, the other beast is also prepared, and the spurt of the moment has completely surrounded the surrounding waves.

Although it is completely surrounded, if Shen Lang wants to leave, it can still be done.

However, the other party will count the meter, Shen Lang is also prepared to come to count!

As a result of the defense, for another attack on the beast, he directly ignored it, but jumped straight up, punching out the covered claws! &1t;i>i>

The claws of the hurricane beast ***** are far bigger than the whole person of Shen Lang. With such a heart, the power can be imagined.

However, Shen Lang is not a vegetarian. It seems to be a simple punch that is not self-sufficient. In fact, it already contains the power of his great fairy peak, and it is the use of the heaven and earth domineering and the “big whisker dragon statue”!

Originally his realm was similar to that of the hurricane beast, so this blasted out, directly at the moment of the collision, bursting a strong shock wave, the ground ice sheet was broken a lot, and the surrounding can feel the sharp impact.

The claw of the hurricane beast was directly slammed up!

The little man’s punch can resist the attack and make the hurricane beast ***** a horror.

It knows that Shen Lang has already killed a few beast gods and some behemoths, and did not look at it lightly, but thought that Shen Lang relied on other means, and did not expect pure power confrontation, can fight with it! &1t;i>i>

However, it is very strange, it has just shot, it is already to sink the waves to death, both assisted attacks, itself is also the attack of two paws double insurance to the side of Shen Lang.

Therefore, even if the claws above were lifted up at the moment, the claws below directly caught the side of Shen Lang, and almost pinched his body. Coupled with the help of another beast, it is impossible to escape.

At this time, Shen Lang made a movement that the Hurricane Beast God did not think of, and did not see clearly!

Because of the size difference between the two sides, Shen Lang is like a butterfly in the moment to be pinched by its claws, dexterously worn through the gaps of its claws!

After the flying out of the Shenlang, immediately with the “Phantom Meteor Step”, stepping on the claw arm as if climbing the mountain, and instantly transferred to the belly of the Hurricane Beast!

Still in the other hand, the stagnant water whip, once again dancing high! &1t;i>i>

The thick flesh of the hurricane beast ***** was quickly cut and opened a big hole, and the body of the swell wave followed.

When it was caught, the hurricane beast immediately realized that it was wrong. This has already reached its body, and the opposite beast is not convenient for further attacks.

So it quickly jumped up and reached a height of hundreds of meters!

When it leaps, it is almost simultaneous to dig a hole with Shen Lang. The huge body changes undoubtedly affect the excavation of Shen Lang. However, a hole has been dug. The only thing that needs to be done is to keep it out. Enough.

The skin of the behemoth is as solid as the rock formation, and it is excavated from the outside. The sinking waves can grab things at random, one hand is fixed, and one hand continues to go deep inside.

The result is that the hurricane beast ***** can not open the waves regardless of whether it is flying or tumbling in the air. &1t;i>i>

And with its toss, it is a lot of blood turbulence, if it is not a wave of vitality, it has already been sprayed into blood.

After the tossing and fruitless, the hurricane beast ***** still in the air, immediately slaps the abdominal wound with his claws!

After failing to shake out Shen Lang, I directly caught my wound!

This is regarded as the behavior of “the strong man breaking the wrist” and “selling the car to protect the handsome”. Although it may not be clear what will happen later, the front behemoth has already verified the danger of Shen Lang’s move!

Therefore, it is better to dig up the wounds yourself, to lick your own flesh and blood, and also to take him out before Shen Lang reaches its goal.

The wounds that Shen Lang dug can make it a smooth and unobstructed person, and it is naturally a big hole. But compared to the hurricane beast, the claws are not big. &1t;i>i>

Now that Shen Lang has entered its body, it wants to stop the waves, and it can only scratch the wound and go in and smash it.

This kind of experience is a bit like a shotgun in a movie, just like a bullet. Even if the behemoth is strong, but it is necessary to tear the abdominal wounds yourself, the taste is not good, after all, its claws are equally powerful and sharp.

However, I have to say that the hurricane beast is still very persevering. I feel the depth of the swell, in order to hurry up, directly plunge the claws into the depths of the wound, and directly claw to the body of Shen Lang!

It’s just a decision, and it’s still a bad one.

If it didn’t start to jump and sway the waves, but directly grab the wound, Shen Lang is really troublesome. In order not to be caught, it may only be a few bends in its belly.

But now when it is shot, is already too late. When its claws are just enough for the waves, Shenlang has already cut its inner dan! &1t;i>i>

The cut of Nedan, let the hurricane beast suddenly felt the dissipating of power, and it was crazy!

It immediately realized the experiences of the giant beasts, and also knew that the estimated consequences were very bad. So it is desperate, and there is still no complete dissipating power, continue to push the claws deeper, to kill Shen Lang!

It is so angry that for a thousand years, there is finally a chance to be more emperor. Just because of this abominable human being, it has become the result of the present.

Even so, it is a big deal to return to the previous state. But now it is to let it kill this! It also has a far-reaching vision of the world. It has been practicing all the way for thousands of years, but it is going to die in a different world!

Even if you die, let this kid back!

Never let this kid be better!

The crazy hurricane beast god, regardless of the claws deep into the body, will aggravate his own injuries, and regardless of the claws will hurt more internal organs, now as long as you can kill the Shen Lang, it does not matter if it is the same.

But how can the inner wave of Nei Dan's hand be destroyed by it?

Shen Lang received Nedan, regardless of the attack immediately behind him, the dancing of the stagnant water, and continued to turn to the front.

After catching a few times in the body, I didn't catch the target. The hurricane beast could only penetrate deeper into the paw and realized a terrible result...

Shen Lang does not need to return to the original road, but directly penetrates its body and drills the hole to the back to go out!

Chapter 1529 - God-level battle

When the Hurricane Beast God realized this, he was desperate!

Shen Lang certainly did not make its judgment mistakes, and quickly penetrated it with a quick degree.

Its claws are also stopped in the abdominal cavity. If you continue to explore the past, you can't catch the waves. Instead, you will make the hole bigger and add death.

When the Shenlang Cave was worn out, it had a paw in its own abdominal cavity, and another forepaw had a heart attack. The degree had been greatly reduced, and it did not pose any threat to Shenlang.

Another beast, still alert.

In the immediate situation, it is not very clear. Seeing that the Shen Lang has penetrated into the body of the Hurricane God, it certainly does not dare to attack, but can only wait.

I did not think that Shen Lang would come out from the back. When it was now, it was already late.

Shen Lang has come to its eyes, directly facing its eyes, before it reacts, consciousness has been forcibly suppressed by Shen Lang! <i>

Hurricane beast **** and Shen Lang are almost at the same level. It is difficult to control consciousness. But this beast **** is equivalent to the level of Daxian, with the strength of his great fairy, plus a complete understanding of the behemoth, and it is abrupt. The sneak attack is much easier.

It doesn't take long for Shen Lang to control. It only takes a while to get the time difference.

When it reacted, Shen Lang had already flown in from his mouth, and then the dead water whipped the way, quickly breaking the barrier and picking up Nedan.

This is to wear the stomach hole, and walk through the inside of the abdominal cavity, such a pain, naturally let the beast **** wake up. However, its condition is more troublesome than the hurricane beast god, and there are no external wounds. To catch the human beings in the stomach, you must first give yourself a broken belly!

The pain caused it to roll and toss, but there was no way, and it was obvious that the force was rapidly decreasing. <i>

Shen Lang's body is much smaller. He has already returned from the original road, from the stomach to the throat, and has come out under it.

Now that the sun is coming out, it still wants to squirt and smother it, but it is not physical strength, there is no inner dan, and there is no support for it.

I also want to open my mouth to bite the waves, but the degree is already a lot worse.

In such a short time, the hurricane beast ***** also slowed down, but its power was attenuated so badly that there was a heart attack at this moment, and the degree and strength were limited.

Re-emerged in the air, instead of holding a steel stick, it will grow longer and bigger, and then scream, and a stick hits the head of the beast, and another stick hits the head of the hurricane god. !

If it is under normal conditions, even if the beast can't avoid it, the hurricane beast should be able to avoid it.

Besides, with their physical advantages, even if they really can't avoid it, they can still afford it. &1t;i>i>

But now it's not the same. Without Nedan, they have nothing to do, and it is equivalent to a big beast.

Of course, the light is an ordinary beast. With this physique, it is much bigger than the elephant. The strength and endurance are still there, but now both sides are not hurt.

Moreover, with the strength of Shenlang now Daxian Peak, this stick can go down and you can fly a mountain. Even ordinary beasts can't hold back.

The result is that the two beast gods are directly killed. Although the head has not exploded, it has been deeply sunken into the body, and the huge body can not withstand such tremendous force, directly into the ice sheet.

The nearby ice is also a lot of cracking and flying.

Losing this is the huge ice cover of the entire South Great 6 or else it is a general iceberg, which will also collapse and break. &1t;i>i>

And this change has also shocked everyone on the scene and the beast!

Some of the king behemoths who had been besieging the waves before, had already been dried up by him, and the rest were also self-protected. At this moment, when the hurricane beast **** was killed, he could not help but tremble.

The beasts who besieged the human power are divided into two batches and several to deal with one.

Now that the Hurricane Beast God and a beast **** have dealt with the Shenlang, there is one left to contain a human being, and this time has already fallen into the wind.

On the other side, several beast gods, although they have clearly prevailed, are the ones who are barely supporting, and that is the weakest human power.

But they all know that Hurricane Beast is second only to the Emperor's behemoth, so after Shen Lang joined it, they were also of special concern.

At this moment, for a short while, Shen Lang actually knocked two beast gods one by one, including the second most powerful hurricane beast in the world of giant beasts! &1t;i>i>

For a time, whether it is a giant beast or a human side, it feels underestimated.

The purple-faced old man, and the emperor's behemoth, have also been affected!

The purple-faced old man is a happy heart, and he has one more support. Of course, it is a good thing.

The three of them can level with the Emperor's behemoth and the hurricane beast. Now Shenlang has easily killed the hurricane beast, showing the strength of strength. Shen Lang

and the other two great immortals, the other behemoths were wiped out one by one, and then to help him, then won.

He feels that he can hold on for a while, and there is no problem.

Shen Lang also gave him confidence, and suddenly the momentum rose.

The Emperor's behemoth naturally knows that Shen Lang has killed the Hurricane Beast, and it is very annoying.

Shen Lang is its friend, but the behemoths are his men. &1t;i>i>

Although the Hurricane Beast God has been betrayed this time, but after all, follow it for thousands of years that can not see it killed.

However, its mood is also complicated, because any one of the masters is very jealous of those who are on their throne!

It doesn't care about the world, it's its thing, just like many times, it makes the Hurricane beast represent it. But replacing it, that is another matter.

This matter has already made it a knot, especially since Shen Lang just finished talking to it. The hurricane beast **** really led the battle, that is, he wanted to make it and humans fight.

So uneasy and so that it is also ruined, but that can only be thought of, directly destroying the hurricane beast, will lead to many chain reactions.

So now Shen Lang killed the Hurricane Beast, it was bothersome and relaxed, which helped solve a difficult problem.

Now it's irritating, let it prepare to dump directly to humans! It is of course intentionally or unintentionally replacing Shen Lang with humans.

The purple face of the old man's momentum is high, but it leads to a more violent attack by the Emperor!

When the two sides are still confrontational, basically the same, they can complete a relative balance. When you really do your best, you can appreciate the difference in skill!

Their two battle circles have already allowed everyone to take the initiative and passively away, but they can still feel the strong impact in the distance. At this moment, when both sides broke out with strong fighting power, the whole ice sheet seemed to tremble.

All the people and monsters who had just been shocked by Shen Lang were nervously watching. Everyone was innocent, or they were fully defended, and they were ready to withdraw at any time. This is the battle they can't afford!

Chapter 1530 - Shenwei

The Emperor's behemoth and the purple old man, how exactly did the two people complete the final blow, that is, Shen Lang did not see clearly!

Other behemoths, big fairy, of course, did not see clearly.

I feel that in the moment, everything around them is blurred, and there is a feeling that the space is fluctuating.

In the next moment, the people and the behemoths who are fully defended around are all swept out!

Shen Lang is the most famous person and behemoth in the audience. He knows the strength of the great god. He himself has ever achieved it. It was recently, and I also saw it from the cold autumn and the dog god.

So he never thought about confronting their shock waves, but he was protecting himself from the trend.

Others are not so lucky!

Based on the worship of the Emperor, the behemoths believe that they will win, and that they have confidence in their bodies, they have chosen to confront.

It is not a confrontation against the impact of the Emperor, just the kind that I want to support.

The other two human peaks, Daxian, feel the danger. They had been confronted before, knowing that the Emperor and the Beast are more powerful than the purple face old man.

So at this critical time, I want to stick to it and see if there is anything I can do to help.

Before the three of them, you can fight against the group of dogs and gods and add the wind to the beast gods. Now you only need to fight one, and the three people should add up.

But the confrontation on the momentum, and the actual full attack, is still very different.

The final result is the strongest swell in the outer circle. It is the first homeopathic departure, and the others are swept out without mercy!

This trick is to let everyone out dozens of miles away!

After stopping, there is also a difference. Shen Lang, two peaks, and the beasts are dozens of miles away. And those kings and beasts are far more, and they are going to be hundreds of miles away.

As for the monsters who have been picked up by Nei Dan, they have not seen the shadow.

Their power has plummeted, but they don't die immediately. They just become very weak and have serious injuries. If they live, they can still last for a long time.

But like Shen Lang can kill with a stick, and then encounter the impact of two big god-level combined attacks, they are directly smashed like the body of the hurricane beast, estimated to become countless pieces, sweeping into the hundred miles. Outside.

The first one to leave, the impact of the wave is the smallest, and this time it is also stopped in the nearest place.

The strong men of the two great fairy peaks, as well as several beast gods, have been resisting, but they have been rolled up here until dozens of miles away. After seeing the dark waves, they barely insisted on stopping.

Even so, there are still a few miles away from the sinking waves.

They didn't look at each other more, and they immediately followed the direction of Shen Lang.

The farther kings of the behemoths are greatly affected. This is only affected, if the dog **** directly attacks them, it will soon be finished.

“Hold on!”

They quickly approached, and Shen Lang raised his hand and motioned them to wait.

A few behemoths dare not approach, but even if there is no animal language, they can understand the meaning of Shen Lang and keep the distance stopped.

Everyone looks at it together, and the gods sense the situation on the scene beyond dozens of miles.

Shen Lang first sensed them and confirmed that both of them and the beasts had a certain degree of injury.

I have to say that this is a good opportunity to kill all the beasts!

Now kill them, then turn back and chase, the other king behemoths, there will be no resistance.

It is also possible to solve these auxiliary helpers and then combine the three top human powers to kill the Emperor.

In this way, the world of giant beasts has basically been defeated. Further, in the past, the world of giant beasts was invaded, and there was no problem.

However, the people who are unsettled by Shen Lang, after the dog ***** came over, are in a peaceful settlement. If you don't encounter these three hard-core bars that don't know where to come out, it is estimated that they have been pressed back.

Just now he took out the hurricane beast god, and the dog ***** did not shoot him. This has been done with sincerity.

Therefore, Shen Lang will not do this, but is prepared to wait and see the situation of the dog ***** and the purple face old man. If the two sides are evenly matched, then persuade peace to stop.

In addition to being separated by dozens of miles, at the core of their two battles, there is still a bit of a sense of spatial distortion, which is impossible to find out here.

“This friend! Let's join forces and kill these monsters!”

A human peak, the fairy, suddenly passed.

Because the dog gods know the words, let them not dare to care, fear that other beasts also know what people say, or talk with Shen Lang.

“No.”

Shen Lang directly returned a sentence.

The two peaks, Daxian, looked at each other and had another care in their hearts.

The intensity of the shock wave just now is that they are also injured. Although Shen Lang is good, but young, the guess is supposed to be hurt.

If you don't want to stand up now, you should be worried about it. Or think that he has just made a big effort, and now he doesn't want to contribute.

Although they did not see the specific actions of Shen Lang just now, but from the end of the behemoths, they can still guess a general, but also want to kill the behemoths and beasts and capture their most valuable things.

Therefore, Shen Lang does not participate in For both of them, it is just what they want, with the strength of both of them, they are also confident that they can solve these behemoths!

As a result, they did not discuss anything with Shen Lang, and there was no warning, and they immediately attacked the beasts!

The beast gods came over, but they also used Shen Lang as a line. They did not go further and kept a distance from the three of them.

Although this is a subconscious behavior, it is also a division of the camp, but the initiative to maintain distance, it shows that they have no confidence, it is a bit worried.

Therefore, they are always on the alert. When two human powers raided, they also retire and defend against counterattacks.

Everyone was injured and the strength was a discount, but in the end it was the decisive battle between the Great Immortal and the Beast God, still full of momentum.

“stop!”

Shen Lang used the words of the people to make a sound, and then took the lead and intercepted them in front of the two peaks, blocking their offense.

“Nothing to do with you!”

“Do you want to monopolize?”

Two human beings snorted.

Shen Lang actually jumped out to stop them. In the eyes of the two, this is not an enemy, but wants to monopolize Nedan resources!

Ever since, the attack of both of them has not stopped, and Shen Lang also responded to the attack!

And a few beast gods, suddenly saw the Shen wave appear in front, and use the animal language to drink them, of course, not so good temper.

This man has already killed the hurricane beast, etc. Is there any kindness?

The result is that they continue to attack the waves together!

For a time, Shen Lang fell into the siege of both sides and suffered a huge firepower bombardment!
