

## First Strong 1531

Chapter 1531 - Dog \*\*\*\* 1 anger

Shen Lang is very speechless.

He has been involved once before, including the great \*\*\*\* level, but because of his arrival, he has dispersed the confrontation.

In the immediate situation, he thought that he would come forward directly, and he could stop the two human powers who took the initiative to stop.

As for the beasts, he is helping them, and he should stop.

I didn't expect both sides to stop and directly banged him!

Even if he has the strength of Daxian Peak, between the owner and the beast, the strongest one. And they are all injured, he has limited impact, but can not stand the number of attacks!

He came to "persuade", not to attack them. Under multiple attacks, he must not be able to bear the injury.

In fact, with the defensive power of Shen Lang, and the cultivation of "King Kong is not bad body", plus the defense of the Holy Grail, the injury will not be serious.

However, in the end, it is the peak of the Great Immortal, the beast \*\*\*\* level, Shen Lang does not want to take risks, and does not want the sacrificial armor to be damaged.

Therefore, at the moment when the two sides attacked, he moved into the world space of Tianshu.

The attack between the two men and the beasts came directly into the air with a big collision!

Originally, Shen Lang was involved in the middle of both of them. Now that people have disappeared, this has become a hard-hitting confrontation between them.

Their impact is far less than the confrontation between the dog \*\*\*\*\* and the purple-faced old man, but this is so much, it is also directly let both sides back a few miles.

Temporary pauses, so that both sides waited around.

Just the shot, before the intervention of Shen Lang, can only be regarded as not to stop, not specifically attacking the waves.

However, Shen Lang is undoubtedly a very important role. What is his current situation and everyone cares about it.

What I have just observed from them is that it has disappeared directly. The hurricane beast \*\*\*\*\* that had not died before, but also disappeared, and everyone can guess that it has been fragmented.

What about the waves?

Was it also under the joint attack of both of them, has been crushed in the air?

Or is it fast enough to dodge to other places?

“Roar—!”

When they didn't look for the shadow of the waves, a mad rush came over.

When everyone just heard the ear, they were swept out more than ten miles away!

Dog god!

The Emperor's behemoth and the purple-faced old man are just a hit, and they have already had a result. Originally it has the upper hand and the answer is self-evident.

And the situation here, it is also aware.

Originally, two humans had to attack each other with the beasts. It was not too concerned, because even if the beasts were weaker, they could still hold for a while.

But Shen Lang is in front of them!

This point still makes it appreciate and gratifying. This fully shows that Shen Lang is not trying to take the opportunity to kill them. It was just for the hurricane beast.

But then, humans did not stop the attack, and the beasts did not stop attacking because they helped them!

This scene made it angry.

Its speed is undoubtedly very fast, but after all, it is dozens of miles away! And did not judge this.

So I saw that the waves disappeared!

It is not allowed to appear in this scene, but not because of the previous contract.

Their previous contracts were only privately owned by the two sides. It is not that Shen Lang's death will affect the Emperor, but if the Emperor tries to kill the Shen Lang, it will affect itself. Conversely, if you kill the Emperor, it will affect him.

Of course, there is a huge gap between the strengths of the two sides, and the contract is still against the gentleman, and the dog \*\*\*\*\* is fully capable of unilaterally lifting.

The current situation is not that it is shot, Shen Lang is dead, and it will not affect it.

However, compared with the world of the behemoth, the two months of getting along, the new things that have been experienced, let it and Shen Lang, have already had a profound intention.

Therefore, it was discovered that Shen Lang killed more than a dozen beasts and beasts. It did not directly avenge, but gave the space of maneuver that Shen Lang brought back to deal with.

Including Shen Lang on the spot to kill the Hurricane Beast God, the dog god's hairpin, but the purple face old man.

Shen Lang's boldness and great fairy peaks were created by the help of the hurricane, and the hurricane beasts were destroyed. It was very reassuring that no one could hurt him.

Unexpectedly, Shen Lang will be attacked by both sides as an enemy because he wants to stop the human and the behemoth from fighting.

Now in this scene, Shen Lang is missing a trace, and even if he personally comes over, he can't find a trace!

This makes it angry!

However, the dog \*\*\*\*\* is the super \*\*\*\*\* of the \*\*\*\*\* level after all, even in a few dozen miles, it is more clear than others.

It can be confirmed that the Shen wave is disappearing, not broken. And after coming over, it didn't capture the slightest scent.

If Shen Lang is really broken by the kill, the scene will be filled with his breath.

So even if you don't know what is going on, it's very likely that something is going wrong, but there are still opportunities to be alive.

So even if it was a roar of fire around, it just took them out for more than a dozen, but did not kill them all.

Speaking of Shen Lang, after entering the world of Tianshu, because of the time of 100 times, there is enough time to think about countermeasures.

Since the two sides must already destroy the other side's situation, then if he goes out again, he will still be in the core area of the exchange of fire between the two sides. If it is too late to defend, it may be awkward again So he does not Wait for that wave of attacks and then come out, but be prepared to wait a little longer.

The strength of their two sides should not be too different, and they can be evenly matched for a while. After they found out that they could not kill each other, he would go out and persuade, and the effect should be better.

So he is in the space of the book, counted the harvest.

This time he didn't have time to swallow the whole beast and \*\*\*\*\* it out, only to pick the most important inner Dan.

Like the hurricane beast god, this is the strength of the Great Immortal Peak. Although there is only one internal Dan, there is still a lot of waste, not as much as the whole devour, but the effect of all adds up.

This time has absorbed the power of the multi-headed beasts and beasts, plus these inner aldams, as well as the spirits that have been harvested before. Shen Lang's impact on the resources of the Great Gods is ready!

Thinking of the realm of the gods, Shen Lang is still a little excited.

However, he will not be rash. Before hitting the peak of Daxian, he was also instilled by the dog god, or else he was not ready.

Rebuilding the world, he can reach the realm of the present in a few years, he is already very satisfied, too fast and there may be many problems.

For example, once you reach the realm of the Great God, you will reach the limit of the world, which will lead to catastrophe. If you pass the catastrophe, you can pass through the heavens and the fairy world. Now you understand that it is the other world of higher civilization.

If you don't get through the catastrophe, the realm will be knocked down, you need to heal the wounds, and you may even fall down directly.

This is also the reason that Shen Lang judged that the purple face old man has just reached the realm of the great gods, or is barely considered to be, or else he should be robbed. Unless a few hundred years later, the rules of the entire world have changed.

Chapter 1532 - The true intention of Daxian

Shen Lang estimates that it should be almost the same. Even if he continues to fight, he should not attack the same position. This is from the world of Tianshu.

When I came out, I saw it in the eye, but it made him feel awkward.

He came out still in the place where it disappeared before, but now a lot of ice beneath it seems to have been cut open, as if there is a small basin with a depression.

And looking around, there is no shadow of the behemoth, and there is no shadow of the two human monks!

Shen Lang flew higher and looked down a bit.

This time, it was discovered that on the side of the small basin that appeared on the ice sheet, many huge traces were seen, which were naturally left by the hoofs of the giant beasts.

Looking at the traces of these footprints, they are quickly rushing in one direction.

In other directions, no obvious footprints were seen.

These two human monks may have been killed by the behemoths. This small basin is a battle mark.

Or maybe they are just more light, so there is no trace left on the ice sheet.

Shen Lang thought a little, and quickly flew to a few dozen miles away.

The place where the dog \*\*\*\*\* and the purple face old man had a duel.

He must now ask for one thing, is it that two human monks are dead, or is the purple old man already dead?

If it is the latter, then the situation is even more critical, and the dog \*\*\*\*\* is now crushing the earth with the remaining behemoths.

Shen Lang was relieved soon, because he had already seen it. In the previous place, three people were there!

Since the two human monks also came back to meet here, either they repelled the beasts, or the dog gods took the team away.

When the Shen Lang appeared in the air and landed again, the eyes of the following three people looked over.

“What’s happening here?”

Shen Lang has not waited to land, has already felt, and all three of them are not hurt!

The purple-faced old man did not speak, and the other two people were crying out.

“When we were in a strange battle, you actually hid, and now the monster is coming back, it is time to know!”

“Have you want to borrow us from the monster’s hand? Or do you want to see if we lose both?”

Shen Lang slightly frowned: “I prevent you from losing both sides, and you attacked me!”

“You are preventing us from attacking monsters!”

“What is the relationship between you and these monsters?”

“You can blame, you and the monster are a group!”

Shen Lang was too lazy to pay attention to them, and directly focused on the purple face of the old man.

This is already a strong \*\*\*\* of the great \*\*\*\* level. At the moment, it is very weak. It is obvious that he is hurt more than the other two!

For this, Shen Lang can also guess. Just now, these are the shock waves that have been swept away dozens of miles away, not to mention that he needs to be hard-headed.

However, according to their strength, he is so injured, how many can hurt the dog?

I don't know what happened to the dog god...

Now Shen Lang basically judged a situation, that is, the giant beasts, should be taken away by the dog god. The dog \*\*\*\*\* is not so hurt, so I don't know whether to take it away or to re-conquer the earth.

The purple-faced old man is also carefully looking at the waves.

In fact, I have observed it before, but the situation was different at the time. His focus was still on defending the Emperor. And the performance behind Shen Lang is also very surprised.

“Young people, what is the relationship between you and the monster?” The purple-faced old man asked slowly.

The two people were suspected and attacking the waves, and now he opened his mouth and made the two people more attached.

“The monster has attacked us because of your disappearance, including other monsters. If you don't care, who can believe?”

“You can communicate with the language before, that is, it teaches you! If you didn’t collude with them, how can they come to Earth?”

“Not only do they come to Earth, they can also attack human cities accurately, but they can hide and hide, and even modern technology cannot track them.”

“Because there is a scum in you human beings!”

“Shut up!” Shen Lang screamed, and the momentum rolled straight into the past, making both people feel breathable.

He was too lazy to pay attention to them. If you seriously discuss it, repeated attacks will be awkward.

The purple-faced old man still stares at Shen Lang and seems to be waiting for his answer.

“I still want to catch him!”

“He must have hidden the secrets of many monsters!”

After the two monks were pressed, they immediately continued to attack the waves.

When I heard this, Shen Lang knew it.

Today, he came here, obviously it was to help, and before it was a decisive shot to help them solve the trouble.

You are welcome, they have not fixed a behemoth, but it is fixed by Shen Lang!

So even if it is a bit suspicious, but it is definitely not to question him, but he has not yet been arrested, and he is charged with the “smuggling” of the earth.

Now I heard “The secret of a lot of monsters in his bodyShenlang will understand their true purpose.”

No interest!

Before the Shenlang had already killed the behemoths, just in front of them, also killed the behemoth. Before the kill, he got into the belly of the behemoth and won the most precious Nedan.

If you want to come to them, it is not the same, but you should understand what it is and know the preciousness of this thing.

Now I just want to arrest him, and take the “Monster’s Secret (Nedan)” from him!

When they were not injured, this was a good thing for Dabu; now they are injured and they are good things that can help them recover.

Further speculation, Shen Lang estimated that the previous wars and the like, they did not come out, because it has already detached from the concept of the state, tribes and races, the win or loss of war, whether it is related to the ownership of the territory, or gold, slaves, etc. The interests are not attractive to them.

So this time, they can let these old people come out of the mountain, or because of the great value of these giant beasts!

The earth is already very barren, even if the space is cracked, the aura of chaos is overflowing, and it is far less than other worlds, and other resources are becoming more and more rare.

These three people must know about the exploration of the no-failed Hells hundreds of years ago, knowing that there is no return, so the exploration plan in these two years will not attract them to the mountain until the emergence of the giant beasts. .

The range of behemoths is still small, and the strength is not strong enough. This is the result of a lot of beast gods, and a large number of king behemoths, for them, it is a great living and cultivation resources!

At this point, it seems to be reckless to buckle his hat, of course, it needs an excuse to move him.

Chapter 1533 - Fight for the earth

After trying to understand, Shen Lang laughed.

“What is the relationship between me and it, shut you down!”

This statement came out, not to mention that the two great immortals were stunned, it was the great god, and it was a little unbelievable to look at the waves.

“How many of you are ghosts from where?”

“you you.....”

They were a little angry with the attitude of Shen Lang.

They are old and senior, and anyway, even if it proves that there is no problem, then they are at most old and old.

However, Shen Lang will not work. He is a young man. It is already disrespectful to talk to the older generations!

“Truthfully, or don’t blame me for killing you!”

Shen Lang looked at them coldly.

“...”

The three people were silent for a while. They just attacked or buckled their hats. They were still relatively twirling. They found a legitimate reason and only said that they would be arrested.

He is good, directly said to kill people!

“Let us die? Oh! Just by you?” One of the big fairy sneered.

“Are you relying on him?” Shen Lang taunted and pointed to the purple-faced old man.  
“Ask him for multiple injuries!”

Others are looking at him, and Shen Lang is of course watching the other side.

From the beginning, he judged that the purple-faced old man was hurt more than the two of them. However, the specifics are not certain. Now, after more observation, it is determined that the injury is very heavy!

According to his estimation, it is hard to say that the other party can still display the strength of Daxian Peak!

The other two peaks, Daxian, were also injured. They were not as good as him, but now they are worse.

Of course, even if all three of them are not as good as the strength of his great fairy, they will definitely surpass him.

But Shen Lang doesn't care, he can beat himself if he can't beat it.

So now, it has the upper hand directly in the momentum.

“We are all your ancestors! You are not hurt by your grandson!”

“You don't need Tula elders to shoot, we can kill you!”

Between the talks, they are two imposing, killing!

Elder Tula said that it should be the purple-faced old man in the realm of the gods.

At this moment, he was slowly opening his mouth.

“Koba, Copan, calm down.”

The opening is a command to both of them, but his gaze is still staring at the waves.

“You are a practicing sergeant from the East. Although since ancient times, because of the barriers of the ocean, there has been less communication. But now we stand up to protect the same world. The enemy has not gone far, and must not be guilty.” ”

Training a gentleman?

Shen Lang is not too strange. Different times and different regions have different names for self-cultivators. Just like now, there are different names such as self-cultivators and super-powers, and even different sects have different opinions.

For example, the Pope and the Archbishop of Paul naturally do not claim to be superpowers, but they are self-residents of God’s messengers and God’s servants.

“You are still young, we are old. Although we will occasionally understand the changes in the world, but generally do not come out. This time is a monster invasion of a different world, if we do not come out, it may be a big problem.”

Shen Lang nodded, and their identity has been confirmed by the side.

It should be similar to what he had guessed before. They may be sacrifices, elders, and the like of the nation that had been ruined hundreds of years ago.

At that time, their ancestors could not resist the guns of Europeans and were successively slaughtered. They should benefit from the overflow of the aura of no return to the sea, and gradually cultivate a higher realm.

But they are improving, and human civilization has made great leap in recent centuries, with more troops and more powerful weapons.

By the middle of the last century, nuclear weapons were born, even if they already had the power of the Great Immortal, they would not dare to provoke easily.

Besides, after a long period of time, their people have become history, leaving scattered, but also mixed blood. After the realm is getting higher and higher, it will certainly be bearish on these, and pursue a higher detachment of the individual.

Therefore, they will not come out to interfere with the process of affecting the earth's civilization. This time it is related to the survival of the world, and also because of the attraction of the beast.

“What do you want to say?”

Shen Lang interrupted his sensation. He wants to protect the living beings of the earth. There is a way to have him. It's good to have a helper, but if you want to engage him, it's the presidential palace of a superpower. He is ashamed.

Coba and Copan are two. Looking at Shen Lang's attitude towards Elder Tula, he is a bit angry.

Elder Tula said slowly: “You didn't make a mistake, I was very hurt. Your monster friend... You don't have to deny it, it must be your friend. It is stronger than me, but it is also hurt. ”

Shen Lang did not speak, this is just a preparation.

“Koba and Copan are also injured, but they can still fight. We can't be guilty, we must fight for the earth!”

“Oh.” Shen Lang responded, saying that he was listening.

Elder Tula can't mobilize the enthusiasm of the waves, and can only continue to say.

“If I am not mistaken, you are basically not injured, and you should be stronger now than we are. So, please come now and stop the monsters from ruling the earth!”

When he said this, was very solemn.

Shen Lang faintly smiled: “How can I be, how can I, since this world, there are high-ranking people who don’t know how many years are hidden in this world, certainly in other places, and the same master, there should be people who stand up “”

“I don’t dare to talk about all aspects of the world, but the monster has been messing up for a few days. If it does, it should have stood up, just like you and me.”

Coba and Copan inadvertently revealed the embarrassment of the harvest of Shen Lang, but the elders of Tula, do not know whether they really have no selfishness, or hide better, and they are all worried about the world.

“You also said, it is my friend, do you want me to go?” Shen Lang asked again.

“This is exactly what you want to say. Now human beings have a saying, called between the state and the country. There is no absolute friendship. It is a benefit to maintain friendly relations!”

Shen Lang smiled, it seems that they are really like Xu Haoyue, or they will regularly receive information and update the concept system.

“People and people, the country and the country are still the same, you and the monster, what benefits can you have? It must have a picture, you should also have a picture!”

For Tula’s words, Shen Lang was undecided and he did not explain anything.

“So I have to advise you that the monster leader is too strong. When it is sound, no one on the planet can contend! Now I am fighting for the injury and hurting it. This is an opportunity!”

After he finished, he looked at the other two people again: “Koba, Copan, two people, will also assist you with all your strength. Including me, as long as you order, I will listen to you! Together, we will completely annihilate the monsters, no Let the earth be a slave!”

Chapter 1534 - Playing Tai Chi

“You are just hurt, not dying, why listen to me?”

Shen Lang did not understand his intentions.

Even if he is seriously injured now, his strength is frustrated, but he is also a super strong person who has climbed to the realm of the Great God. If there are no other strangers in the world who have not lived for hundreds of years, it is almost the first person in the world.

How can such a person not care about face dignity? How can I follow a young man who met for the first time?

The doubts of Shen Lang are also the questions of the two people, Coba and Copan. They are also puzzled to see Elder Tula.

They have known each other for a long time, but it is estimated that they are not in one place at ordinary times. Even in one place, they are retreating.

With their age and years of experience, there will not be too much interest in daily communication, tacit understanding is there, but after all, it is still limited, and I will not understand the true meaning of Tula.

Elder Tula is smiling.

“Although I have not yet reached the level of death, but I am injured, I am also old, guarding the earth, after all, it depends on your young people!”

“I have seen your strength just now. The monsters you killed are more than the two of them. You are also familiar with the animal language, and the monster leader is familiar. These are the advantages that I don’t have.”

When he said these things, there is still some truth. It sounds reasonable and reasonable. It is entirely for the sake of the overall situation. He is not personally self-sufficient.

However, Coba and Copan are not listening to it.

Elder Tula had to deal with the strongest one, and he also recognized the loss. The two of them were against other monsters, and they did not kill one. They were directly compared to Shen Lang and they were directly taken out.

Both old faces are a bit ugly.

However, in view of the fact that this is the elder Tula, they can not rush to anything, can only add this resentment to Shen Lang.

“Sorry! I can’t do it.”

Shen Lang directly refused.

Although I don’t understand what other intentions of Elder Tula really have, it is certainly not that simple.

Besides, Coba and Copan are just two people who are just directly playing his ideas. Do you really want to work together and be able to command them?

Don’t always be wary of putting cold arrows behind them!

Such cooperation is not as good as their own.

And he also had a speculation that Elder Tula had wanted to fight with the dog \*\*\*\* before, but he had already been divided and injured, so it is very likely to change the strategy!

Let him be the leader, let him go, that is, let him prove and dog!

A person who has basically reached the realm of great deity is not an opponent. He is a big fairy and he will not be an opponent naturally.

Still top him in front, it is very likely that he is allowed to use the friendship with the dog \*\*\*\*\* to complete the sneak attack on friends!

At that time, as long as the sneak attack succeeded, it would be very beneficial for the dog \*\*\*\*\* to aggravate the injury.

And in the realm of the dog god, even if you are injured again, you have to kill the waves, it is still no problem.

The result is to let him drag the dog \*\*\*\*\* at the cost of his life!

Isn't this strategy similar to the hurricane beast?

Shen Lang can't be sure if it's the heart of a villain, but it is the biggest possibility.

Hearing his simple refusal, Coba and Copan both showed an unpleasant sneer. Of course, they did not want to follow the orders of Shen Lang, but since it was said by Elder Tula, it must have its intention.

So promised that they are upset, don't agree, not bad.

"Young people, you don't want to quit. Time is tight, we have been delayed for a long time. They may have been ruined by the world. They must have left the Antarctic continent and catch up with them!"

Shen Lang nodded. "Elder Tula, since you have such a big heart, you must have some arrangements and plans. Then please start, I will follow along, there is a need to use my place, I will try my best to cooperate."

Hearing the sentence in front of him, Tula thought that he finally agreed, but did not expect to return the hot potato to him later!

Tula's face was a bit ugly.

He has already been the main force of the monster, and he has already paid a heavy price. Now it is not that he does not want to engage in it. It is impossible to make Shen Lang use the familiar relationship to attack, and perhaps there is still a chance.

But this kid is so embarrassed, not willing to rush in front!

Even the words have been ambushed, saying that they will follow along, useful places, will try to cooperate!

This is not to obey his orders. When you want to order an attack, you may also find an excuse.

Seeing the face of Elder Tula, the faces of Coba and Copan were pulled down.

“Young people, you are both a member of the earth and a representative of the martial arts in the East. If you don’t stand up at this time, it will affect the morale of the whole Eastern martial arts. We are the old guys who no one knows, the influence can’t Compared with you.”

Tula is still quite arrogant, but the meaning is expressed – if you don’t stand up, it seems that the oriental monks are not planted!

Shen Lang smiled faintly: “You said, I am a young man. Of course, it is not a representative. There are many powerful martial arts in the East. You see this time, the monsters have not crossed the East. So I have to rely on you. How hard is it!”

Both of them are playing Tai Chi. Coba and Copan heard this, even if they don’t know the specific intentions, the general direction is also guessed.

Elder Tula, wanting to let this kid lead, is trying to use him!

So they immediately joined the tone is even more ugly.

“Jokes! What powerful martial arts do you have in the East, when we really don’t know anything?”

“If you are not too poor, we alone will be able to destroy them all!”

“You said that the monster did not cross the East, this is precisely the evidence that you colluded with the monster!”

“Yes! These monsters are all agreed with you. You want to continue the monster to attack the Western world.”

“But don’t forget! Monsters are monsters after all! When you have used your lead, when they are firmly on the ground, the next step is to sweep away your Eastern countries!”

“Do you think you can survive? Oh! Yes! You may be a slave to be a monster. You are the spokesperson for monsters, helping them manage the earth, enslaving humans?”

“No wonder you will be a beast, this is what they specifically taught you. The purpose is to be a translator, you are a human scum!”

The two of them had a smoldering fire, and they had been squirting the waves just now, but they were stopped by the elders of Tula. I haven’t stopped them now, so you can continue to spray a word.

Shen Lang is a little bit crying and laughing. “Stop... I said how old are you? How so noisy? There is no such thing as a world-class man. It feels like a cynical old man. It won’t be because it’s hard to catch someone. So, just say it?”

Elder Tula has already frowned.

“In the fallacy, they really go far. Then let’s come!”

Shen Lang was a little surprised, did not expect him to become so fast.

“Please cooperate with me now, act as a bait, see your friends, will you come back to save you!”

Chapter 1535 - With the tiger

Coba and Copan completely understood this time!

The meaning of Elder Tula has been expressed very clearly. If you are not willing to stand up and take the initiative to fight against monsters, then cooperate with them as hostages and let them come back to lead the behemoths.

Both of them are cold and cold looking at the waves, want to see what other excuses he has.

Now they have the initiative, do you mean to try to cooperate? Then come to act as a bait!

If you don't want to, then it means collusion with the monster!

Shen Lang applauded and nodded. Elder Tula is not obsessed with the old stubbornness of cultivation. He also has some experience in the world and strategy.

This forced him to make a statement, and no matter which attitude, it is against him!

Cooperation? Bait?

Good to say!

Can the dog \*\*\*\*\* know?

Do you know if you know it?

Believe, will you come back to save him?

These and regardless, the three real intentions of them alone are to bring back the dog god?

Once he cooperated as a bait, they imprisoned him in the fake play. When they were not casually fish, everything on the body was first scraped!

It is said that he must not be repaired by one of his bodies, but they must be divided up by them!

This is not because Shen Lang is the heart of a gentleman, but he is a man. He has seen various characters in the last years of the world. Although this world is short-lived, it has gone through many worlds.

He is the clearest in how difficult it is to cultivate to the Great God and the Great Immortal.

When it comes to the realm of the Great God, how do you not want to die, he is more clear!

It was his ambition and fighting in the past. He felt that he was completely confident to survive the catastrophe, dismissed all his friends and his family. After the failure, he did not accept his life and died. Instead, he took the time to lay down the reincarnation.

To put it bluntly, the higher the realm, the longer you want to live!

This is not the general fear of “fear of death”, but has great power, can do great things, can climb higher goals, of course, I feel that time is not enough, of course, I want to get more.

Not only the self-cultivator, but also the ruler, the emperor has wanted to live forever since ancient times. There is no way in the country, and I hope that in other countries, the overseas mountains...

To get more resources is to fight with the sky; when the environment is limited, it can only compete with people.

The earth's comprehension resources are limited, the level of comprehension is low, and the price/performance ratio of the comprehensible is plundered. It is not as good as their own cultivation, so they will not go back.

So directly waiting for these powerful behemoths to appear, they lead them out.

Now that the behemoths are already in a state of flux, having resources and themselves can be regarded as the waves of resources, and naturally they will become their goal.

The eating of Tang Tang meat in the story is also a plunder of similar resources.

Shen Lang is only seen in essence, nor is it morally despising them. Because he himself has done this, in the Nakajima 6 can also be said to be a dog \*\*\*\* hard to give him, but the beast that was previously “swallowed” is essentially the same.

Understandably, no one will let himself fall into this crisis.

“Oh, is it? How can I cooperate, how can I act as a bait?”

Elder Tula said seriously: “Your monster friend is stronger than me. I believe that you must also have a way of communication. Otherwise, you will not find Antarctic 6. It will not appear accurately and in time. Just pretend to catch you. When it thinks you are in danger, it will definitely return!”

Coba and Copan, both of whom have already had a look of joy on their faces, they have to fight hard to catch people!

“It has confidence in its own strength. Other monsters can’t keep up with its rhythm and degree. It must be only one of them. When we join forces together, we will be able to kill it!”

“Killing the king of monsters, and then chasing other monsters, you will be much simpler.”

“You can rest assured! The advantage is that you will be indispensable. At that time, all the benefits will be divided into two, one for you, and three for us!”

In order to be able to win the letter, Elder Tula carefully analyzed it and said the distribution of interests to attract him.

Just as Shen Lang saw it, they also saw it through.

Can you cultivate to this realm at a young age, and rely on hard work to cultivate on the earth with low aura and poor resources? That is absolutely impossible!

Therefore, he felt that Shen Lang must be able to increase his skill by consuming others to cultivate. The cooperation with the monsters is definitely for the benefit. He doesn't care what the evil faction is, as long as he can achieve his goal.

When he promised the benefits, after the benefits that Shen Lang can get from the monsters, he should consider matching them to the pit monsters.

As for the distribution of true interests, that is all the after-sales.

Shen Lang is smiling with a smile, what is the benefit of two? I am afraid that not only will the dog gods and their beasts have their interests, but even he will become their interests!

"It's a bit interesting... In order to be realistic, do you want to imprison me and torture me, I really feel that my life is in danger?"

Hearing the words of Shen Lang Elder Tula said seriously: "You can rest assured that we are not ordinary people, we will master the scale. But it must be hard for you, this is why we Take half of the three, you take half of it, it is a compensation for you!"

"You don't really collude with monsters?"

"Even if you really collude with monsters, now cooperate with us, put them all in one pot, and get more benefits than you get from monsters!"

Coba, Copan, and also quickly persuaded from the side.

They are now looking at the waves and promised that when the fake drama is done, as long as the Shen Lang is imprisoned, how to say and do it is that they have the final say.

Shen Lang is also serious: "Sorry! I will prevent them from encroaching on the earth, but I don't believe you!"

"What do you mean! What is our identity! Will the Tula elders lie to you?"

“You don’t believe us, but believe in monsters? Are you still human?”

Copancoba immediately turned his face and screamed.

Elder Tula frowned slightly. What he said should have been said. Seeing that Shen Lang seems to be accepting soon, this time, the denial is that I still want to talk about conditions?

“What are your concerns? Please say, the first time you meet, it is not appropriate for you to believe us unconditionally. How can you get your trust, please say!” He stopped them both, still keep serious. attitude.

“Let’s do it all! You have any plans, you are on your own! I don’t mix with you!”

When Shen Lang spoke, a large whirlwind formed around him, and immediately a large amount of ice \*\*\*\*\* fluttered, and when his voice was finished, people disappeared out of thin air!

Chapter 1536 - Benefit first

“Want to run!”

I found that Shen Lang wanted to run, and I wanted to attack his quick shots of Coba and Copan.

But when they arrived, there was only the ice \*\*\*\*\* that flew, and people had no shadow.

“Let him run again!”

The two men quickly separated from each other, quickly searched for a large space, and did not see the shadow of the sinking waves. They could only come back.

“interesting.”

Elder Tula looked at the place where the sinking waves disappeared until the cyclone disappeared and the ice \*\*\*\*\* fell.

He did not directly shoot, but he has always been concerned.

Before Shen Lang disappeared when they attacked each other, they also told him about Coba and Copan, so now that the waves are moving, he guessed that it was the result, and immediately looked at God.

What surprised him was that even he could not see the clues!

It can only be confirmed faintly. At the very beginning, it seems that there has been some slight fluctuation in the space.

But even with his keenness, he can't confirm what the situation is.

However, according to legends and analysis, the elders of Tula felt that the biggest possibility was that Shen Lang mastered the ability of space transfer and directly traversed himself from one place to another!

It is not surprising that it is possible to come to the Antarctic continent from the East. It is estimated that it will be transmitted directly.

When the two sides joined together, he also sent himself away at the moment when the danger approached, but he returned again.

Now this time I don't want to cooperate with them. If I leave, I don't know where I am going. I should not come back.

"Elder Tula, where do you think this kid is going?"

Copan looked at the place where Shen Lang disappeared. There was always a feeling that Shen Lang did not leave, and he was watching his illusion there.

Although it is sensible to think that this is impossible, it always feels weird.

"Maybe looking for monsters, we are passive." Elder Tula was dull.

Coba hated and said: “We shouldn’t just reason with him, just take him down and say it! We both teamed up, plus the elders to help, you can easily grab him!”

Copan is also very sorry: “This kid does not know what means to use, it should have taken the most valuable crystal of the monster.”

“Oriental practicing gas is called Nedan, that is the essence.” Elder Tula nodded.

Coba is not reconciled: “Look at the hatred of those monsters. Before he came, he has already killed more than one monster. He should also take the inner crystal of Nedan. This time it is quite a lot, it is really big. A harvest!”

Looking at a piece of fat that slipped away from the mouth, they really felt very uncomfortable.

“Come on!” Elder Tula made an order.

“Follow?” The two are a bit puzzled.

“This son has a relationship with the king of monsters, but it is also the heart of the earth. So even if you don’t collude with the monsters, you will certainly catch up with the monsters.”

With such an explanation, Coba and the two immediately understood.

“Yes! As long as we keep up with the monsters, we can see this kid coming out. Just wait for them to kill each other!”

“In case...he really colluded with the monster?”

“How could it be! He killed several monsters in public and seemed to have identity. Even if the king of monsters is his friend, can other monsters accommodate him?”

“Also, how can we get them to fight?”

Elder Tula was sitting because of his injuries. Now he stands up directly and interrupts the conversation between the two.

“Go! Remember, see this kid again, do it directly!”

“Are we killing him directly?”

Copan’s words were asked, and they were looked at by Tula’s elders.

“Understood! We control him and let the elders take his cultivation.”

Elder Tula did not say anything to him any more, and he left directly, and Coba and Copan quickly followed.

The direction in which they left was the direction in which the giant beasts left.

After they walked away for a while, Shen Lang appeared again.

Of course, he just hides in the space of the heavenly book, making a whirlwind and scraping the ice, just a blind eye.

It’s not his departure, but an opportunity to release a miniature detector!

Because they are all masters, if they are released directly, they will be discovered, so he squats away, attracting everyone’s attention, and then using the cyclone to scrape countless ice slag, confused to release the micro-detector.

The time after that was the estimate after his guess analysis, so it took a little more time to come out.

Shen Lang had already guessed their intentions before, but on the surface, Kobakpan was obviously guilty, and Elder Tula seemed to have no selfishness, just to protect the earth.

He can be a villain, but he can be credible, but it is only an early warning. If you want to know exactly what the other person's intentions are, you need evidence.

Any guess is not as good as the other person's mouth!

Now that he has come out, he has collected the micro-detector and has recorded all the pictures just here.

Coba and Copan's face is no different from what they show is more direct.

The elder Tula, who had not seen any problems before, this time also revealed his heart.

The direct-handed command and the intent to capture the power of Shen Lang are all revealed.

Shen Lang secretly sneered, and sure enough, the benefits are first!

Living to their age, naturally everything is bleak, and only oneself is the most real.

If their former nation was killed by the conquerors from Europe, it would be better understood. I have not ruined and destroyed the current national civilization. It is already very good. How can I fight for life protection?

But this has nothing to do with him!

Regardless of their personal insights, or their previous nationalities and invaders have historical grievances, they have nothing to do with Shen Lang.

The problem now is that they are ready to engage him, including his gains, including his personal!

Since I see it directly, I don't have any kind of politeness. When they start, they will also die directly!

Just as Shen Lang was about to leave, I felt a bit of a change, and then frowned.

Three figures are coming quickly from three directions!

Elder Tula, Coba, and Copan, after walking away from the behemoth, were scattered and re-entered, but in a farther place, they converge and wait for the waves. Appearance.

“Sure enough, as the elders of Tula, you are hiding in stealth, and have not left here!”

After getting close, Coba got excited.

Just now they wanted to lie to the cooperation of Shen Lang, Shen Lang will leave, obviously it is to see their traitors. Elder Tula also said that they did it directly, so they didn't need to install it anymore.

Chapter 1537 - Heads-up 3

The three people came from different directions. When they were not close, they had already cast their spells at the same time. From far and near, they directly controlled the ice sheets in the surrounding areas!

Elder Tula is a god-level, even if it is barely achieved, even if it is now hit hard by the dog god, it must not be underestimated, plus two big fairy peaks, their field control, can already control everything.

The battle with the behemoths was because there would be no such opportunity, and the strength of the giant beasts was very strong.

It's not the same now, they are ambushing the layout, just waiting for the re-emergence of the waves.

After the emergence of Shen Lang, they received miniature detectors. They learned what they had just said, which gave them the opportunity to attack. When I was close to this moment, I had already taken control of the field in advance.

Shen Lang only slightly frowned, and did not panic.

He has made up his mind just now. Since the three of them will meet him directly next time, he will not be polite and will be the first to slap them.

Now the other party has arrived, and it is really hands-on.

Under the premise that this behemoth crisis has not been lifted, it is angered by publicity and privateness!

“Isn’t it to save the planet? Elder Tula!”

Shen Lang satirized a sentence.

They kept an encirclement of a few miles, but they were not close.

Elder Tula does not feel embarrassed, but is very calm: “You collaborate with monsters, grab you inside the ghost, extract your memory, can help us understand the monsters, in order to better destroy the monster to protect the earth!”

This made both Coba and Copan very admired.

They are followers of Elder Tula, and feel that not only strength, but also all aspects are far better than them.

Just like now, let them face it, that is, direct work, can not say the reason for justice.

At this moment, the waves are going to talk, but the elders of Tula did not urge them to attack together.

Because the three of them have joined forces to control the Shenlang within the field, but the larger the scope and the stronger the enemy, the more difficult it is to control.

So originally they themselves, they will find ways to delay the time, thus increasing the intensity of control over the field. Shen Lang wants to talk, just what they want.

“Kid! You don’t want to cooperate with us, you are colluding with the monster!”

“If you are willing to cooperate, we don’t need to do it for you. You can rest assured that we only need to read your memory!”

When they were talking, the control intensity of the field continued to increase, and the air was also raised, and the ice layer was also under control, and almost no chance for the sun to enter the ground.

Shen Lang seems to be unaware of this and still does not move: “I originally thought that you are the old predecessors who have lived for hundreds of years, the patron saint of the earth, and respect you. Now your behavior makes me very disdainful.”

“We are protecting the earth, so we must eradicate your scum!”

“It doesn’t matter who is the scum. I just want to tell you that since you want to kill me and want to take my cultivation, don’t blame me.”

For the warning of Shen Lang, they did not mind at all.

Because now the field where the three of them unite can directly block the silence, even if he is invisible, he can accurately lock it. Even if you cross and leave, you can force him to hold him!

“Since you are obsessed with it, don’t blame us for killing the planet! The crisis of the monster has not been lifted, we can’t waste too much time for you.”

Elder Tula said here and made a long shout!

This is their signal of action.

The three people not only strengthened their control once again, but also “received the net” together, gradually indenting the control of the entire field from a few.

The smaller the range is, the more control and intensity of the field will be gradually strengthened!

In this way, the basic view of the Shen wave is difficult to escape.

When the three of them approached, Shen Lang grabbed the sword and handed it to the sword. He immediately waved thousands of swords and directly divided them into three directions, shooting them three people!

The three of them did not care at all, because under the control of their field, these very fast swordsmanships were slower, and they were constantly crushed. After flying out, they disappeared. .

In this way, even if there were thousands of swords, they did not hit them, and this was still under their constant approach.

This shows the power of their field!

This should be a strategy that they have negotiated well. The conservative approach adopted by all three people is not distracting from the attack, and it is directly combined with the strength of the field to suppress the waves.

As long as the Shenlang is still within the scope of the field, each time they approach one meter, the entire encirclement will be reduced by a circle, and the power will be increased.

When they can shrink from a few miles to a few tens of meters, they are sure to completely suppress the waves!

Such tactics, in addition to their respective injuries, are also related to their desire to capture the waves in order to be safe.

Live catching the waves can maximize their interests.

When it is said that it is too late, in the end, it is the strength of the top of the peak, even if it is cautious, the speed of advancement is very fast.

However, Shen Lang's sword attack did not affect how much they were but for a moment, the distance between the three people has been shortened to about 100 meters!

In other words, the encirclement of this field has been compressed to a circle with a radius of 100 meters centered on the deep wave!

At this level, their speed is naturally slower, and everything is stable.

And this degree of sullen control almost makes the sword of Shen Lang just released, it has been crushed invisible!

Both Coba and Copan are excited and see victory in sight.

In terms of profit sharing, Shen Lang must be handed over to the elder Tula, but he has got so many monsters, Dan, how many of them can be divided into one or two, that is a huge gain.

Elder Tula is more serious than before!

Because in addition to the attack of the sword, Shen Lang did not have other actions, did not try to dodge escape, did not use weapons such as magic weapons.

In the face of their three joint attacks, but calm and calm, the momentum directly reminded him of the king of the monster!

This young man, why is he?

What made Elder Tula faintly worried, as well as the previous stealth technique, he could feel the slight fluctuation of the space, even if the final proof was really in place, but he would not be escaped, he is still a bit uncertain.

The three people also paid close attention to the expression of Shen Lang, including his every move.

Just as they saw a smile on the face of Shen Lang, his figure was blurred again!

The three people were immediately on high alert, and each of them advanced for a distance of 20 meters. The encirclement ring was further compressed, and the field firmly solidified around, forming an invisible imprisonment of iron plates!

Chapter 1538 - Ghostly double kill

The whole encirclement is not big, everyone sees the score with the naked eye, but the figure of Shen Lang is really blurred, and then disappeared from the eyes!

Coba and Copan are incredible, this guy actually escaped!

In fact, for the first time, they did not believe that it was stealth, because so many attacks on both sides fell there. If someone was still there, even if they were invisible, they would be killed.

But for the second time, it has been confirmed by the elders of Tula that Shen Lang really reappeared in place.

However, in the end, it is invisible in the same place, or can only return to the original place after leaving, they have decided that this time to prepare fully, plus the elder Tula hands, it should be able to ban people.

But the result is now that the other party has disappeared!

The shock of Elder Tula is even bigger than the two of them!

Because the first time he was being hit hard, the distance was also a few dozen miles away, and there was no time to take care of it. Just the second time, it was observed at a close distance.

But this time, he clearly blocked everything, and did not feel any space fluctuations, how did he disappear?

“Be careful!”

This voice just appeared in the consciousness of Tula, and I haven't had time to scream for the exit, and the call is too late to reach the other's ears.

From his point of view, I have already seen that the disappearing Shenlang has already appeared like a ghost, behind Coba!

He felt that this should be an illusion. It is impossible for someone to be able to escape easily with the help of the three of them. Unless it is more powerful than when he was not injured!

So subconsciously, he feels that Shen Lang should still be at the center of field control, and what the eyes see should be another way of confusing them.

If this is the case, then the purpose of the other party is to attract him or Copan to attack to save Coba.

As long as they take the shot, the field that joins the team, even if it does not collapse immediately, is a sudden gap in the gap, giving the other party a chance.

Therefore, even the most experienced and intellectual Tula elders of the three people have already made decisions in an instant, and have not turned to attack the "phantom" they saw, but have kept the plan tactics further.

On the other side of Copan, I don't know if I haven't seen it yet, or I'm as determined as he is, and I'm continuing to shrink.

But at this time, the encirclement that was originally balanced and narrowed was a delay.

Coba did not go forward!

The temporary field has not been affected, but the direction of one of the three parties has been pulled back.

But at this moment, whether it is Elder Tula or Copan, they clearly saw the shocking scene!

Such as ghosts generally appear in the back of the Cobra behind the waves, as if to stab something into the body of Cobra!

The whole process was quick, everything was done in an instant, and Cobra didn't have time to react, let alone they watched.

But then, they felt it was not a blind eye, not an illusion, and Cobra was really attacked!

This time, Shen Lang did not hide in the space of Tianshu, but when he felt that their field was pervasive, they were already in it.

He attacked the sword with the name of the sword. The reason why he was completely crushed and shredded was that the field control was extremely strong, and because the waves were not too hard.

To put it simply, his attack is two-layered. One layer is to confuse them. It seems that he is also counterattacking, or else it is too different, but it is doubtful.

The other layer is every sword, helping him understand the fusion field!

Heaven and man are one!

Shen Lang has been calmly used to integrate himself and all of their fields into one.

In this way, he is almost like a field, and naturally will not bear the suppression of the field. And they are getting closer and closer, the field is getting stronger and stronger, and he feels more direct.

Waiting for the moment, Shen Lang's figure is blurred, in fact, it is one of the edge points that left the field.

That is to the side of Cobra!

Because he just became integrated with the field, even if Cobra didn't feel on the head, and because they were shrinking and moving, Ben came to the edge of the waves, and then became behind Cobra.

Out of the field, Shen Lang's dead water whip is already in his hand, piercing the body of Cobra from behind!

For the defensive power of the Daxian Peak, he will not take the risk of temptation, directly eroding the past with the invincible stagnant water.

This is pierced from behind and directly corrodes the heart!

At the same time, Shen Lang is also quickly picking up the power to devour Cobra!

When the other two parties continued to contract forward, Cobra was attacked and passed through the heart. He was already innocent and self-protected. His life was rapidly lost, and his cultivation and mental strength were also received by Shen Lang.

Cobraqian has been attacked by the dog god, and now it will be killed by Shen Lang, but after all, it is the realm of the peak of Daxian, and it is impossible for Shen Lang to completely absorb his cultivation in an instant.

However, for Shen Lang, it is in the way of not wasting. After a quick absorption, people entered the field again With Cobra not yet separated from the field, and then the field is one!

The elders of Tula and Copan who saw this scene were too late to be angry and sad. The pictures made them very shocked and immediately realized that Shen Lang should probably attack them in the same way in the next step!

They control the field, they do not need hands, so the eyes faintly see the shadow of the waves are blurred, and immediately return to visit, launched an attack behind them!

Although at this point, the field has not been able to control the sinking waves, but after all, it is a fixed tactic, and it should be very reliable, and it is too late to adjust the changes.

Therefore, it can only continue to maintain the control of the field, and defend itself.

But in the back attack, Copan was a little scared to find that the dark waves that were just blurred were in front of him!

He has the heart to change the attack, it is too late. The field that the mental power can control, wants to attack the Shenlang, but finds that Shenlang does not receive any influence at all!

At this time, he felt something pricked in front of him, directly through his heart, and quickly rotted a big hole!

Shen Lang was just behind, this time in front, the same hole was worn by Copan, and he quickly seized his power.

Life is rapidly dying, power is rapidly escaping, and Copan wants to fight back against the waves.

At this moment, he had only one hope, and he hoped that Elder Tula would quickly kill Shen Lang!

As long as the speed is fast enough, you should still be able to save his life.

Just one Coba, now another Copan, has made Elder Tula very clear about reality. This is not an illusion. The field is no longer useful for Shen Lang. At this point he must attack Shen Lang immediately!

Chapter 1539 - Their story

Copanhi Tula elders help, and Shen Lang is also wary!

However, Shen Lang does not need to pay attention to Tula's reaction, because he is now integrated with the field, as long as the field has a little change, he can directly sense it.

Of course, as soon as he feels changed, he will leave immediately.

After all, this is the field of people, he can use it, others can use it, and can also come quickly.

At this time, Shen Lang felt a strange situation, and Copan also saw the situation that made him desperate!

Coba followed Copan, a continuous move, so that Elder Tula realized that the field was useless, but his approach was not to kill the Shen Bo to save Copan, but to cancel the field and turn around quickly!

Copan saw this scene and was completely desperate. He did not expect the Tula Elders to give up when he hoped to save.

But Shen Lang immediately understood Tula's mind!

He hit Coba and Copan in succession, and the way they used it was something they didn't understand. Even if you don't fear, you will definitely have more taboos.

Elder Tula's strength after the heavy blow is now stronger than the two of them. Shen Lang can kill them so easily, and killing him is also very likely to succeed.

Therefore, Tula should feel that the chances of saving Copan are not great, but he may let himself fall into it. This is to use Copan is still delaying the waves, and quickly left to escape!

Although I want to understand it, I also understand the feeling of reluctance, but a great god, I will be scared to escape, or let him be quite unexpected.

Tula has already ran, and Shen Lang has not chased.

Now their field has dissipated, and the field of Shenlang has spread directly, and then the body of Coba, which is dozens of meters away, has been sucked up.

Then he took one hand and took their strength.

They are already dead, and there is not much time left. Once they die, whether they are personal cultivation or mental strength, they will dissipate.

So even if the absorption is limited now, Shen Lang is not wasted.

“You have harmed us, and you will be harmed. Elder Tula can ignore our lives and will kill you next time!”

Copan has been unable to resist, so he also gave up self-rescue, screaming at the final state of waking, and provoked Shen Lang and Elder Tula.

Coba is still not dead, and it is a bleak smile.

“Elder Tula is just hurt. Once he recovers, he wants to destroy you. It’s easy!”

In the long years of the past, they have followed the elders of Tula. Just after the behemoths left, they also rushed back to see the elders of Tula.

As a result, they encountered life-threatening moments, but Elder Tula abandoned them and ran first!

This makes them very chilling and completely see through.

They regard Shen Lang as a resource they are willing to use. Why are Tula elders not treating them as resources?

In the past, everyone can continue to practice together. If you find that there are no more resources, in order to heal the wounds, it is said that the elders of Tula will also harm them!

But everything is already late, and it doesn’t make sense to see through it.

But after all, it is not reconciled.

This is the case with people, and the betrayal of strangers is far less harmful than being betrayed by relatives and friends!

Even if they knew that they were killing them, they were still trying to devour their power, but they made them more hateful.

Of course, picking up the waves to find Elder Tula, I hope that they will die together, so that the enemies will be reported and hate will disappear.

For the two of them, Shen Lang did not care.

He is banned from both of them at the moment, and then madly grabbing strength, where to spare time to return to them.

The dead water whip corroded the heart and completely penetrated the body, which was almost impossible to treat. Even if Tula pulled over and ran away, he couldn't save them.

Their ending is death!

Shen Lang also tried to absorb their cultivation, mental strength and memory as much as possible.

When their power was completely broken, Shen Lang was also full of harvest. Looking at the two bodies, he also searched.

But unfortunately, they are really poor, no resources!

Combining their memories, Shen Lang has a general understanding of their identity.

They have really lived for hundreds of years and almost witnessed the development of the Americas. Their people have long since become extinct, so for them, there has been no concept of a country or a nation.

In the beginning, they were also full of resentment. But resentment is useless, completely unable to resist the guns.

After the strength was strong, there was also revenge. I had participated in some wars and made the countries of these European invaders more and more chaotic.

There are some famous historical politicians, even the president, who also arranged for them to kill!

But then they were disappointed, because the general trend has been completed, all aspects have been planned, the state and county federations, small countries and big countries, the population above this land is growing, killing a prestigious president There will be a make up soon.

And after all, they have limited staff, and it takes time to change the president. At other times, all levels are in normal operation. They cannot continue to assassinate the president, nor can they kill all European descendants.

After a long time, I also killed many white descendants by war, and let their hatred also vent a large part. Later, I began to realize that doing so did not help, and it could not change the overall situation of world development, but it would affect the personal cultivation.

In the end, they have been practicing and trying to hide as much as possible.

As their strengths get higher and higher, they also hit the fastest period of human history, and all kinds of powerful weapons continue to be created.

In the end, they completely obsessed with hatred, because it has become history, and they are all old guys.

From their memory, Shen Lang also got an important message.

They can live for so long, of course, because the cultivation is getting higher and higher, and the life is extended. But it can be so, naturally because there are enough resources!

Now, whether it is a superman or a special creature like a bat, it is actually from Europe. They also participated in the development process and occupied a lot of resources.

Tula waited until they realized this, but the benefits have been divided by the major forces.

They are used to hiding, and they are screaming at the back, robbing the resources of various super-powerful families and forces. Because they are few and mysterious, they often let others suspicion each other, but they have not been jointly besieged.

Throughout the history, they have gradually accumulated a lot of resources for comprehension. Up to now, the general spiritual stone and the like have been limited.

Chapter 1540 - Chasing the god

However, in the memory, Coba and Copan still have the resources to cultivate, but they are all given to them by the elder Tula.

This is why they will follow Tula for a hundred years, and why they are weaker.

Tula controls the resources and guarantees their control. Did not abandon them, let them have a strong strength, in this case, many things do not need him to personally go out, when there are strong enemies, there are also left and right arms available.

At the same time, they will not be over, will not catch up with himself, and maintain an absolute lead in order to maintain his position.

However, Tula is very clever in use. In Coba and Copan, I understand that it is because Tula's talent is better and he is very grateful to him.

Because of this, there is no specific resource information in the memory of both of them, and I don't know how much Tula has. &1t;i>i>

These are enough for Shen Lang. Since Elder Tula should still have some resources in hand, then if he meets him again, he will not have to destroy it directly, but will see if he can gain something.

The two of them died in this South Great 6 and Shen Lang did not go to the management again.

Now he has a lot of things to deal with, on the one hand, he must find the elders of Tula!

Before Shen Lang thought that he was already the first strong on the planet, but did not expect such a strange. This time Tula's intentions are already obvious. If he is not fixed, he will always be remembered.

Hey, you are sick!

To kill Elder Tula, now is the best chance. This is a heavy blow to the dog god. Once he has recovered, he will be in trouble if he wants to move him. When he came to the door, he could not escape.

On the other hand, of course, it is to understand how the behemoths are in a situation, whether they continue to cross the earth or have left. <i>

Shen Lang did not follow the direction of Elder Tula's departure. Even if he left the strength of the great fairy, he would run away and the degree would be very fast.

As a person who escapes, of course, it will also consider the possibility of being chased. It is not necessarily straight away, and tracking in one direction does not make much sense.

Shen Lang still uses his eighth "Yin Yang Bo Ruozhen" to make himself a unity.

This time, like at Xiaoxian Island, he tried to integrate with the whole ice sheet!

It is still a bit difficult to integrate with the entire Nangao 6, after all, the scope is too big.

Now it is centering on himself, expanding according to the limit, and combining the whole piece of ice sheets into one.

This is undoubtedly more difficult than the combination of their field, but the experience of Shen Lang is more and more, or slowly. <i>

When he merged with the ice sheet, he immediately looked at the heart, as if a big crystal ball was in front of him, as if the bird was in the air, and it was like a 3D camera.

It can be clearly seen that Elder Tula is running fast. From the perspective of direction, he has already changed his direction after fleeing for a while.

However, the range of ice sheets that Shen Lang can now sense is no longer a trace of the behemoths.

There is no doubt that the behemoths who have left for a long time should still be in the range of the Antarctic 6, but they are already far from here.

The first thing that Shen Lang has to solve now is the elder Tula, and this is enough now.

As he thought about it, the whole person immediately left the place and followed his heart, appearing on the way of Elder Tula's escape.

Elder Tula is undoubtedly very depressed today. &1t;i>i>

Originally, according to his understanding, he felt that even if it was not the first person in the world, it was one of the few.

For the outside world, he does not bother to shoot, if you really want to solve it, let Coba and Copan just one can kill a lot of forces directly!

Imagine the contemporary Pope, but it is only half-fairy. Before that, there was already the first person's posture, and that was not worth their attack.

This time, the attack on the behemoth, in his view, is a once-in-a-lifetime opportunity.

This is even the gift that God gave him, helping to go further. If you miss this opportunity, you probably won't be able to wait.

So after watching it for a while, he appeared with Coba and Copan.

He integrated news clues, as well as his own personal tracking, confirming that these monsters, the strongest should be equivalent to the peak of Daxian, most of them are Daxian and semi-prestige realm, it is entirely hand-to-hand. &1t;i>i>

When he later shot, it also confirmed that the strongest hurricane beast, that is, the peak of Daxian.

However, I never thought that it would lead to a behemoth in the realm of the great gods, and it is even stronger than him!

This has already hit people, but it is also a relief to balance.

When the results really played, it was still not as good as the other side, and was directly hit hard.

With his identity and realm, he has to make a lot of effort to induce Shen Lang to cooperate. After unsuccessful, it is already a shame to jointly attack a young man with Coba and Copan.

Although there are no other people in this South, the news will not spread out. He does not care about the world's name.

After all, I can't pass my psychological barrier! &1t;i>i>

The result is good, and even the joint attack of dignity has failed!

In his capacity, together with Coba and Copan, he still couldn't beat a young man who was at the peak of Daxian. He was even killed by his right arm and he ran away with his ignorant abandonment partner.

Tula is not only depressed, but also realizes that today's event will inevitably affect his own state of mind in the future cultivation process.

But now I can't take care of that much. First, I want to be safe first, and my life is gone. Everything else is empty talk!

Therefore, in the identity of his great god, he was afraid of a young big fairy, and fled like a house of a mourning dog, and he couldn't care much.

At this time, he suddenly appeared a black spot on the ice sheet in front.

With his degree, he quickly narrowed the distance and saw it clearly, that is, the young man in the East!

Tula couldn't help but suddenly stopped like a brake.

This is amazing!

He did not sense what was going on in front of him, and there was no existing person to chase it. How could the other party wait for the prophet to wait here?

Even if you can calculate his escape direction, you have to chase it from behind. How can you wait in the front to wait?

Suspicion slowed him down and stared at it in front.

"Elder Tula, I have been waiting for you for a long time."

The voice of Shen Lang passed over, and after hearing it, Elder Tula could not help but be shocked!

This time he can clearly recognize that it is a real person. This is not a split projection of the secret law. It is not a thousand miles of voice, that is, the young man is ahead.

"You... what do you do... I know... how are you..."

The words he murmured were a bit confusing. In fact, the front is instinctive and wants to ask "How do you do it", but when asked, he has a rationalization of himself – the previous disappearance is not stealth, but really crossed away!

It is not surprising that there is such a secret law that will quickly pass through here. But he wonders, “How do you know that I will come here?”
