

First Strong 1541

Chapter 1541 - Horn of the Beast

“Is it important?”

Shen Lang faintly asked a sentence.

In fact, he did not care what Tula was in the end, what is important?

Anyway, I have to fight for you to live and die. What method do I use to know, what is it about you?

Tula smiled a bit: “Koba, Copan two... are dead?”

“If you save them, maybe kill me. But you abandoned them and left, so... of course they are dead.”

Shen Lang gave him a knife.

Tula’s look was a bit unsightly and silenced.

At the crucial time, he still took care of himself. But aside from the moment of life and death, it is still embarrassing. After all, this is a person who has known and followed him for hundreds of years. He has no feelings and habits.

“They once said that I want to catch me alive and let you take my strength. Since I have seized them, I will fulfill them and take their power, so that they will die faster and will not be wasted. After all, we all know that the resources of the entire planet are scarce!”

When Shen Lang said this, it was equivalent to filling Tula with a knife.

Elder Tula wants to occupy the swell of the waves, and he has taken over his cultivation. As a result, Shen Lang knows and took his two people first.

And now the intention is also very obvious, if Shen Lang grabbed him, he will not let go of his cultivation!

“Now the whole world is the strongest of us. If you can fight against these huge monsters, you can be your helper, and it will be me.”

Elder Tula thought about the countermeasures while talking and delaying the time.

“I know that you are a kind person... No, it should be said. We are taking the ultimate road of the individual. You are in the East to pay attention to others and save others to fulfill their merits...”

“This is not the East and the East,” Shen Lang interrupted his words: “The movies of the Western world, the heroes of the world, are also saving the world, not saving one city and one country. We have acquired more resources on the earth. Of course, I have to do some work for this home!”

This is a correction, and he himself thought through it.

The hero of the level saves the world. This is a correct value. I can't say that I only care about myself. The destruction of the earth is not my business. That would be embarrassing and would affect the box office income.

But there is a concept that has an impact on the sinking waves of this world.

The greater the ability, the greater the responsibility!

This can be understood as protecting the family, protecting the weak, protecting the country from invasion by foreign enemies, and protecting the planet.

But as he just said, your strength is certainly your personal efforts and adventures, but it also occupies more resources on Earth!

If there is no one who is comprehending the aura of the aura, then the earth's environment will become better. Every ordinary person like an ant, every animal and plant will prolong life and better in all aspects.

Since it occupies more and encounters danger, if you don't stand up, it will be too selfish.

"You are right, since you have to take responsibility for this earth home, the most important thing now is to fight the monsters back!"

Tula would not want to argue with Shen Lang, immediately follow the steps, and then continue to persuade.

"You may have a lot of powerful friends and men, but do you really have this realm? I am fighting hard with the king of monsters, even if you are, don't dare to fight hard!"

Shen Lang smiled faintly: "I really believed it. I believe that you really have this responsibility. After I left, you didn't take everyone to chase monsters, but instead waited for me."

"That is the temptation of Coba and Copan. In fact, we have not hurt you." Elder Tula said very seriously.

Shen Lang was amazed at his big words, but he was still able to give the black pot to two dead partners at this time!

It is no wonder that before the two of them died, they would also think about provoking the waves to kill Tula. It was really chilling.

"Okay, don't talk nonsense so much. I didn't kill you directly. It just gave you a chance to be honest. I will hand over all your resources and we can re-negotiate cooperation!"

Shen Lang coldly came down, and the words revealed that he had acquired the memories of Coba and Copan, but did not show how much he knew.

After Tula listened, the entire face was pulled straight down.

This kid is actually playing the idea of his resources!

“Do you want all my resources? You have to have this skill, just come and get it yourself! As long as you can catch me, can I resist?”

Tula spoke, his hand moved, and there was something like a horn in his hand.

“You have a temper in the East, and you really have two sons. There are also a lot of magic weapons in your hand. I don’t want to support you too much. This is a corner of a beast, and listen to me!”

Tula’s remarks were not directly expressed in the mouth, but the idea was poured into the side of Shen Lang. His own mouth was already at the corner of the beast.

At the same time that his ideas were transmitted, he began to play.

This is not surprising. Shen Lang does not say that the previous world has seen more, that is, it has been seen in recent years. It is nothing more than a magic weapon attack of the sound wave class.

But this time, he is really serious.

Because this is not a general magic weapon but the unknown corner of the beast, more importantly, the person who casts the spell!

Those who have already had the power of the great realm, even if the strength is greatly reduced after the heavy damage, it is still far better than others, and the power of this attack can be no small feat.

With reference to the dog god, you can force the big fairy to retreat and even kill.

With the sound of the corner of the beast, Shen Lang’s ears have heard a melodious voice.

This sound is not a wonderful music, but a sigh of sorrow that seems to have been since ancient times!

Is this from a strange animal? Still from Tula?

Is this an attack of sound waves, or is it a mental attack?

In short, when the sound came out, it completely enveloped the surrounding. The sound was not transmitted into the ear of Shen Lang, but directly penetrated into his brain, his heart.

And this ancient sigh, with the South Korean 6 ice cover, it is easier to make people feel lost!

For the earth world, the formation of such a large piece of big six is a long period of thousands of years and billion years.

Compared with this planet, compared with a whole big 6, the life of human beings is really small to insignificant.

What about Daxian?

What about the Great God?

Putting it in the history of mankind and putting it on the history of the whole earth, no matter how brilliant it is.

This kind of awkwardness is easy to be disheartened and loses upward momentum. After all, even if you try your best to pursue your life, it is so insignificant.

Anyone with such a level of strength can fight against any emotion, anger, sorrow, arrogance and arrogance.

If Shen Lang is really nostalgic, and compared with the history of the entire South Great 6 and lost, it will give the other party a chance to explode!

Chapter 1542 - Lightning strike

Everything is eternal.

The sound of the corner of the beast is just a sigh of ancient times. But the effect is as long as it is.

Time is relative. At this moment, it is because of the influence on people's state of mind that the time is greatly lengthened.

The sound is so long and continuous, from the ancient times, across thousands of years, directly into the hearts of the people.

In turn, it is once again pulled from the present, pulling the mind of Shen Lang to the span of thousands of years.

If Shen Lang is in it, only a moment is needed, and the opportunity for Tula Elder to kill him is given!

Just at this time, "Oh!"

Shen Lang suddenly hit a ring!

A simple ring finger, but it is a shocking "sigh of sigh" general spirit sound waves!

It's very simple to do, it looks very simple, but in fact it is the impact of two powerful forces!

When the ring finger was hit, there were a lot of cracks in the ice sheet on the ground, and some even reached several meters wide and several hundred meters long.

The sound of the corner of the beast is the double attack of the elders of Tula with sound waves and spirits. It is a kind of hypnosis to make Shen Lang enchant.

The current ringing finger is just interrupted, making people feel sober, but not as long as the corner of the beast.

"The sound is good, let me cooperate with you!"

Elder Tula was originally very confident, because this time he did not rely on the field and did not use any spells. Instead, the corner of the beast is used, which is also a sneak attack.

Originally thought that the victory is in the grip, just waiting for a sentence to collapse the waves.

Unexpectedly, there was a change in the area.

The ringing finger did not interrupt his continued attack, but it was to disrupt the rhythm, and the effect was compromised.

And Shen Lang can still speak, showing the power of the spirit!

With the words, Shen Lang's hand appeared Lei Yuan!

This time, he directly asked Lei Yuan to help and attacked the elder Tula.

The great ***** under the heavy damage is still the great god. Shen Lang does not dare to neglect, and sacrifices the source of Lei, letting its power of lightning, to compete with the sound of the elders of Tula.

When the thunder and lightning hit the front with a tangible gesture, Elder Tula had a flustered.

Of course, he is not afraid of lightning, but can it be used in this time, will it be ordinary lightning?

Elder Tula had to be distracted and defended, but he kept playing and wanted to continue to influence the mood of Shen Lang.

It is a pity that the rhythm has been chaotic, and now it is going to be affected by lightning.

When the first thunderbolt came down, Elder Tula understood its power.

This is by no means a thunderbolt of nature. This thing is too strange!

The first is just a temptation of Leiyuan, and then the intensive thunderbolt slammed down!

A human being in his area can actually block its thunder and lightning, and Ray Source does not face? Of course, the back is to increase the power of bombardment.

For a time, Elder Tula innocently took care of the waves, and the Horn of the Beast was still playing, but without the spirit of confusion, but with the sound wave above the body, formed a defense to resist the bombardment of lightning.

This corner of the beast is of course a treasure. It is possible to expand the attack of the elders of Tula, so at this moment, it is actually a wave of lightning.

Lei Yuan is angry!

Immediately, thousands of thunder and lightning have slammed the past!

Elder Tula was stunned immediately...

Because he also reached this realm, naturally he can feel the suppression of heaven. The biggest possibility is to encounter the baptism of the thunder. It is possible to gain the past and enter the world of heaven, or else it will be defeated.

So the first thunder and lightning, he did not care, the second wave of bombardment, he still stunned, and until now thousands of intensive lightning came, let him think of the thunder.

Although he does not understand how Shen Lang can provoke the thunder, but this is borrowed from the natural forces of heaven, he is going to fight, I am afraid that it will be a stone.

He took the opportunity to make a decision, and he couldn't care what he was playing, and immediately fled in the direction of the fastest!

Lei Yuan's face has been challenged, and the fire has come up. Can you let Tula pull it and run it?

Immediately, there is no need for Shen Lang to ask for it, and those thunder and lightning immediately chased it out!

Lei Yuan has already been like this, Shen Lang is of course happy, he is also fast to follow the elders of Tula.

The result is that Elder Tula ran in front, and Shen Lang was chasing after him. In his palm, the rolling thunder was pressing hard!

Elder Tula secretly complained, what is this kid's head, how come back so capable?

As he tried his best to escape, he began to summon.

"Friend! You have swallowed up Coba, Copan, I will not pursue anything, and will not talk out to influence your reputation. Can you stop here?"

Shen Lang did not respond to him at all, but chased after him.

Tula didn't dare to stop, only to continue to run away and respond: "What resources do you want? I can give it as long as I have it!"

He is more confident about his own confidentiality. Even if Shen Lang draws the memories of both of them, he can't know his family.

"Hand over your life first!"

Shen Lang is calm, because now is the source of the attack, there is no need for him to worry so much.

"Smile! Can you change a condition? You also know that I am a few hundred years old and can cultivate to the current level. It is difficult."

“That’s worth it! You want to catch me, don’t you because I have value? If I let you go, will you let me go next time?”

“I was purely arrogant, I dare not disrespect the Lord... You don’t want me to cooperate with the attacking monster. I am hiding in the South 6 and never leave!”

In order to survive, Tula has nothing to do with it. It doesn’t matter if he is banished to the South Great 6 and will talk about it later.

Shen Lang can chase a big **** full of 6 runs, which is very interesting in itself, and at other times, it is impossible to do.

However, in order to avoid night long dreams, he did not continue to play so much.

“Raytheon, it seems that this person is still a bit tolerant, I will also intercept him with a sword!”

Shen Lang did not speak again, this is the communication with Lei Yuan’s idea.

This seems to help, but for Leiyuan, it is actually a radical approach.

It has already been angered by the elders of Tula, and now there is no success in chasing it. It has already caused Lei Yuan to detonate.

The meaning of Shen Lang expressed that Thousand Thunder Thunderbolt of Leiyuan was aggregated into a large thunderbolt, and then hit the elder Tula directly from behind with incredible degree!

Elder Tula had wanted to talk to Shen Lang about the conditions and persuaded him. He was suddenly hit by this huge thunder and hit the ice sheet.

Because his degree is too fast, so suddenly pause, the inertia can not stop, the result is to fall on the ice sheet, open the ice a ditch, and then slide down the ground far away, as if Dig a small river out like that.

Lei Yuan is still confident. After knocking down the target, he immediately took the palm of his hand and earned his name.

Between the steps of Shen Lang, he had already reached the back of Elder Tula and directly imprisoned him.

Elder Tula, who was bombed by the thunder and lightning, was already in a coma and was very miserable.

After Shen Lang first shackled him, he immediately began to extract his mental strength.

Both Coba and Copan were worn by the dead water whip, and the time of the commandment was limited, and many of them were wasted.

This time, the elder Tula was stunned by Lei Yuan, but he did not die, and he would not die for the time being. He gave Shen Lang more opportunities.

The mental attack introduced by the corner of the beast has also had a certain impact on Shen Lang. But now a lot of mental energy is absorbed directly, so that he immediately got an excellent supplement.

Taking the spirit of his coma, of course, for safety.

The more spiritual power is drawn, the older the Tula elders are.

After the basic completion, Shen Lang began the second item, began to extract his memory, and then took the afternoon of him.

At the same time, there was no idleness in his hand. As the influx of memory merged, he began to search for him.

There is nothing in the elder Tula, all his resources are collected in a storage ring.

But this time it came out against the behemoth, and he was afraid of leaving it. He had hidden it before he came. In other words, now that he is with him, there is nothing valuable!

Shen Lang was not disappointed. Anyway, his memory has been read. After the integration, he will find it again.

The most urgent task is to refine the massive amount of energy absorbed by the refining!

The beastly energy that was swallowed before has already made Shen Lang very embarrassed, just swallowed up each part of Coba and Copan, and now with the Tula elders repaired as...

The bulls and the three great fairy peaks made him feel a bit overwhelmed.

Now if you don't hurry to refine part of it, it is likely that he will be inflated to runaway, and there will be an accident.

Shen Lang is now going to break through to the realm of the Great God. There is no confidence, and it is dangerous to be too fast.

However, he still has a way, that is, the ninth weight of "Yin and Yang Bozhengzhengheng"!

This has already been introduced before, and has not been specifically verified. Now that I have not reached the realm of great deity, I dare not touch it. The eighth is already very powerful.

However, now that he has a great spirit, he will try to understand the experience and use the ninth "Yin Yang Bo Ruozhen".

This is a bit of a high level of practice, but it also consumes a lot of mental energy, but it makes the waves greatly relieved.

The result of cultivation, of course, does not have much effect. After all, this is something that was not fully researched after the great god. Now he can only be regarded as a foundation, and he can't immediately gain something.

After alleviating the mental energy, there is still a need for relief.

He did not dare to rush into the realm of the gods so quickly, can only be used to “reinforce” his body, constantly quenching, unreasonably consolidating, and playing the foundation firmly and firmly!

This down, Shen Lang is still the peak of Daxian, but it is a big fairy peak that is almost inferior to the strength of the former Tula elders!

To put it simply, it is still the realm of Daxian Peak, but it already has the strength foundation to barely reach the realm of the Great God.

Chapter 1543 - Declaration

After the pause, looking at the dry body of Tula elders, Shen Lang is also a bit embarrassed.

When I first arrived here, I saw them three. He was pleasantly surprised and gratified, and regarded them as the patron saint of the earth.

I did not expect that everyone will compete for the benefit to this extent, this is really the loss of the earth’s comprehension!

Even if they don’t categorize or succumb to the current realm of comprehension, they can protect the earth if they come out in the interests of their own beasts.

Of course, blame, Shen Lang does not regret any guilt, because the purpose of others is to kill him.

If he is killed, it is the loss of the earth’s comprehension!

At the very least, his current sense of responsibility is much stronger than the three of them. Since they can’t coexist, of course it is to destroy the enemy.

After looking at the time, Shen Lang secretly complained. &1t;i>i>

Just chasing Elder Tula and killing him, there was not much time spent, but when he was mixing so much power with refining, he was still drawing on the strength of Elder Tula.

It did not go to the world of the Book of Heaven, and in the process, I also forgot the time, which has now passed for a long time.

It is estimated that the dog gods with the giant beasts may have left the Antarctic.

As for whether they are going to the center of the Pacific to return to the sea, or to re-occupy the earth to the Americas and other places, it is not known.

Here, the mobile phone has no signal, and Shen Lang can't contact the outside world, and can't know the information in advance.

After a little bit of consideration, he can only reposition the direction in which the behemoths left their footprints before, and then in that direction, began the treble flight.

Unlike the escape of Elder Tula, the dog **** was crushing the winner of humanity, only hurting them three, not killing them. That is the winner's strength, and naturally does not need to detour. &1t;i>i>

Shen Lang went all the way and went straight to the edge of the Antarctic 6 and watched the footprints of the giant beasts disappear.

After entering the sea, there are no traces to follow.

Comparing the map, from the sea of this news, crossing the sea to the big 6, it is still closer to South America. For the time being, there was no other clue, and Shen Lang flew in the direction of South America.

Under the Antarctic 6, under the snow and ice, the traces of the giant beasts stepping on them are obvious, and there is no other interference, and they will not be lost in the air.

After arriving at the South American Grand 6, there is no such convenience. One is that the terrain is complicated, and the other is that it is not sure where they will go. There is no clue. It is not so convenient to trace it again.

Shen Lang can only slow down a bit, search for traces of giant beast footprints along the coastline, and pay attention to the latest exposure on the Internet. <i>

Now is the era of the national media. The behemoth is also the most concerned issue for everyone. As long as there are traces of giant beasts, no matter which country they are in, they will be uploaded to the Internet and will be of concern to the whole world.

However, for a long time, there is no new information about the behemoth.

The hot topic on the Internet, or his previous declaration of the behemoths – rushed the behemoth to the South Pole, so that countries do not act rashly!

There are some changes in the satellite shooting to the South Pole, and it is very likely that the behemoth is in the South 6th. However, the specific situation is still unknown.

After Shen Lang's public appearance, it did not appear again. All parties were analyzing and discussing and guessing his various kinds.

Everyone doesn't know how he left, but from North America to the South Pole, the road is far away. It is normal to have no news. <i>

But after the emergence of the behemoths, they were the military of the great powers, and they did not eliminate the giant beasts. Although they may have a lively heart and inconvenience to injure civilians on a large scale, they still reflected the power of the behemoth.

The emergence of Shen Lang is the only hero who has killed the behemoth!

This is everyone's hope, although some people have questioned that he really killed more than a dozen behemoths, but it has not appeared in the messy information of the behemoth, indicating that he is telling the truth.

Those who are questioning are of course slandered with ulterior motives. Others have hit so many monsters, and the remaining monsters have been led to the South Pole. Are they still gossip behind the scenes, or are they still people?

If you are such a cow, you can also play a monster. You don't need to kill it. If you dare to go to battle, everyone will serve you!

In short, these news are still revolving around the waves, and harvest more and more abundant faith. <i>

This is of course good for Shen Lang, but there are still many behemoths, and the whereabouts are not clear, it is always a big problem.

Since the search is not available, Shen Lang can only try to sense again.

This could have been sensed at the beginning, and it was felt in the South Pole. It only consumes a lot of mental energy, mainly because it uses the thinking of the behemoth to sense, and Shen Lang is worried that the use of the behemoth will affect him.

Especially in the Antarctic, in addition to the beasts, there are several levels of strong, is a state of chaos, before they can fully refine them, Shen Lang does not want to be rejected by others' remnants.

After some careful inductive investigations, Shen Lang basically confirmed that the giant beasts have disappeared from the earth!

The traces of faint residue are all along the Pacific Ocean to the sea of no return.

Shen Lang then contacted Feng Jiji The news was that the major powers had monitored the various technological means and confirmed that the behemoths disappeared into the Pacific Ocean.

It's just that there is no exact grasp on this point. I don't know if I'm hiding myself or dare to verify it, so I haven't made it public.

After considering it for a moment, Shen Lang decided to let him send this information!

He made a short film through the sacred armor, and took a picture of the Antarctic and the Great Wars, according to the record of the full angle of the sacred armor. Of course, the three people will not show up, and his own pictures are only shocking.

These actually recorded pictures, as evidence that he declared the behemoth has been repelled, and said that it will quickly identify and repair the passage that allows the behemoth to appear, permanently avoiding the behemoth to strike again.

In addition to the disclosure of these information, Shen Lang once again shouted to the governments of various countries, so that all sectors should not participate in it, so as not to provoke anger and lead to the resurgence of the behemoth!

He is a world-class hero, but in the eyes of political figures in various countries, he is just a person. Only scruples, but not afraid of him, really want to tear the face at all costs, dare to move him.

Therefore, it is necessary to use all mankind to exert pressure. The people of the whole world, the most feared is that the behemoths will be chaotic again. Therefore, with “irritation and the introduction of giant beasts again”, as a warning, there is no need to care more about the waves, and naturally it will be of concern to people all over the world.

As long as enough people care, naturally there is media supervision, and politicians, in order to vote, etc., even if they have the heart to explore, do not dare to blatantly come. Sending a small number of people quietly, the result can only be a dead end.

Chapter 1544 - Shock world

After confirming that the behemoths left, Shen Lang did not chase the world of the behemoth, but returned to the country.

His declaration, after spreading on the Internet, immediately caused great concern and spread.

This time, he released the wonderful clips taken by the monitor under the monitor of the Holy A. The effect is naturally different, just like the Hollywood visual effects blockbuster.

For ordinary people, this is of course more impactful than speaking.

Just like in the original city of the river basin, people there will have the power of faith, but also because of the full-angle live video against the extraterrestrial demon.

However, after the great impact, it immediately caused more people to question.

Before the roof of the presidential palace was smashed and the roof was smashed in the presidential park, it was broadcast live under the authority of the world's authoritative media and various passers-by. Even if it was rough, it had great credibility.

Although this time it is very thrilling and shocking, it looks fake. &1t;i>i>

You said that this is the South Pole or the South Pole?

Who knows if it is a few strokes before the green screen, and then add the post-effects?

Besides, are you not fighting the behemoth?

Who gave you the shot? How did you capture these pictures?

Video brings more than just truth, more of a question.

However, because it is a major event that the whole world is paying attention to, all the film special effects companies in Hollywood have come out with a statement saying that this is not what they did, and then, at the request of the public, let the professionals immediately study and identify.

However, although it has brought public skepticism, the questioning has in turn allowed the newly formed group of fans to become united!

In addition to appealing to professionals for identification, they also worked with the skeptics. They felt that they were fighting for all mankind, and they gave a picture in order to make everyone feel at ease. As a result, those who were protected were smashing heroes behind their backs. People are chilling. &1t;i>i>

At the same time of unity, they also made their faith more pure.

Because it was a short film, there were not many pictures released, and the professionals of the major special effects companies quickly completed the analysis.

Although they have already received the compressed video after uploading the network, they have lost too much than the original, but some can still be identified.

The results of the identification of one family after another prove that it is not a cg effect, but a real shot!

As for how it was photographed, each family could not give an accurate answer.

Because even if you are making a movie, there are some aerial angles that can be accomplished by rocker arm, aerial photography, etc., but to a certain extent, there is no way, only through post-processing.

Moreover, the shooting process is huge, the production is difficult, and at the same time dangerous, so more are shots of real people under the green screen, and then through the late cg synthesis. &1t;i>i>

They identified that this is not a cg effect, it is a real shooting picture, it is very difficult to get people and machines to shoot on ice and snow.

More importantly, the model of a huge monster can not be made in such a few days. Hollywood mature technology, a specialized model company, also requires a long process.

To put it simply, although it is only a few pictures, it is impossible for Shen Lang to complete these in the short time that the behemoth has appeared until now.

The skeptics are not reconciled and can only admit that this is a true record.

This makes the fans of Shenlang enthusiastic, and let passers-by powder. As for how to shoot, fans naturally have explanations. Movie photographers can't do it because it is an ordinary person. Shen Lang is a hero who can fly to the sky!

He can kill and retreat those giant beasts, crushing each other with natural strength. What can be recorded with a camera while fighting? What strangeness? &1t;i>

Ordinary people have a nature of adoration for their abilities, and the popularity of the heroes of the heroes is also a kind of projection of such a state of mind.

Now there is a real-level hero who has the ability to play, and there have been live endorsements of major authoritative media. Now there is a more magical record, what is impossible?

In short, after such a hot debate, Shen Lang's reputation has once again climbed!

Nowadays, almost all of the people have already known Shen Lang, and let the billion-level fans contribute to the pure and fanatical faith of him.

Of course, fans are not believers after all, and enthusiasm is short-lived. Even if they say that they will always support, they will retreat after a while.

But for now, this is a huge amount of data, which can be compared with the believers of several major religions. Even many religious believers have such a name, and may not be more pious. &1t;i>

In the long run, the "fans" of Shen Lang will inevitably drop sharply. In the end, one thousandth and one in ten thousand will become "believers", but at the moment, the power of faith he enjoys almost reaches the peak of history. !

This undoubtedly leads to the jealousy of all major political leaders. If such a person wants to incite anything, it will really be a disaster that cannot be cleaned up for one country and the whole world!

But the jealousy is also full of taboos. No one dares to send troops to control the Shenlang because of security and politics. Even if they have the ability to control even if there is a domineering style, this is the power. Also wait for things to pass through and talk about it, but also consider the opinions of other countries, especially the opinions of the country where Shen Lang is located.

As a result, while the outside world is frenzied and crazy, there are still a small number of people who are also taking advantage of the opportunity. Needless to say, the media has something to do with the ability, the natural phenomenon, and the metaphysics, and they all take the opportunity to make money.

The major powers, but unprecedented, have promoted the closed meeting of the UN Security Council for a single person!

Needless to say, the issue expresses the positions of various countries and discusses how to deal with heroes of this level of influence.

As for the identity of Shen Lang, after he made his public appearance, everyone has already learned a rough idea through many channels. However, I dare not have anyone to disturb the people around him, but to inquire and try to contact Shen Lang through influential people in the field of comprehension.

For example, many famous domestic factions, in fact, some secret intelligence agencies in China are filed. Generally, they do not interfere with each other. As long as they do not affect the secular, the state does not move them.

This time, the behemoths also let many self-cultivators and abilities at home and abroad take the initiative to stand up and contact the government departments, and take the initiative to ask, but they have been shelved because of various interests.

Because of the two-year plan to return to the sea, Shen Lang has become famous in the world of comprehension. Everyone basically knows that he can not be contacted by him alone, and he can be conveyed through his spokesperson.

Therefore, Feng Wuji began to accept information from all over the world to comprehend the strong, and all represented their respective countries.

Chapter 1545 - True friend

Those who cultivate the true powers are all big and powerful, and many are at least hundreds of years of power. No era will have any bad relationship with the government. Therefore, at this time, they also express their gratitude and greetings to Shen Lang through them.

If the country is not big enough, it can only be turned around, not asking for much goodwill. If you ask for no evil feelings, don't let such people do their country.

The special closed-door meeting of the Security Council is a fifteen members including five permanent members. In particular, it has invited several other major powers that are not in the ten-member period.

In the end, it is still dominated by the five permanents, plus other major powers. If it is a small country, the level just happens to be a member of the board of directors, and there is no right to speak.

Their resolutions basically represent the will of the United Nations and the entire world.

Compared with other countries through private relations, they are in the name of the United Nations.

The major forces in the country are also connected with the government. Under such circumstances, Shen Lang has made public appearances, and they cannot say that they do not know.

However, it is the same. It represents the will of the major powers and the United Nations representing the whole world. It is also the first contact with the wind, and it cannot be directly connected to Shenlang.

When global politicians are paying attention to the waves, there are still many people who are also staring at the waves.

The world's public, the first-class hero who stepped on the big country and turned the tide to drive away the behemoths is a man of our country, and this has made the country crazy.

However, the global media platforms are also very safe (crisis) awareness, even if someone is dying to sneak deep waves of information, do not dare to cloth. So in addition to being obviously Chinese, more details are kept mysterious.

In the Chinese comprehension world, Shen Lang was originally the legend of the rise of fire in recent years!

In the past two years, his level of contact has been high. He is a big man in the world of comprehension. Many young monks who knew him at the beginning are far away. But he used to send Lingshi in Tianshan, which is also very familiar to everyone.

This time I saw the same age, even smaller than their sinking waves, they have already reached this level, so they have to serve. There are many people who have been proud of being in a WeChat group. They have witnessed him and Chu Mofeng, Xie Daling and others, and they are all relished with great honor.

Beihai Qiaojia, Nantian Shijia, etc. and Shenlang are very happy, they are very excited.

After all, no matter how Shen Lang rescued everyone, protected the global amnesty, and took them back and forth to another world, it was a secret of a few people.

This time, it is the live broadcast of Shenlang to billions of people around the world. This kind of maturity, let them call Shen Lang “sink brother”, of course, more exciting than others.

Not to mention the Shenlang sects of the Tianshan Jianzong, the door sent a big elder of such a cow, which is enough for Mauritius, and truly achieved the goal of ZTE Jianzong!

In Pingxi City, the various forces, including the Yue Family, are also sincerely admired for Shen Lang, a legendary figure who went out from Pingxi.

At the beginning, he decisively surrendered to Shen Lang, and now he is praised and far-sighted. Afterwards, there is still a resentment. Now I dare not have any thoughts.

In Licao County, it also caused a sensation.

However, after all, Shen Lang did not show up in the mountains, and he was not familiar with the book all the year round. In the past few years, the temperament has changed greatly. Generally, neighbors can only have a vague impression.

It's just the same classmates who have been together for a few years, how much will be clearer, plus the name of Shen Lang, and let them blow up in the classmates.

Everyone is asking if they know the Shenlang, they are not their classmates.

Although the giant monster did not kill the country, it has already caused panic in the world. At this time, a hero who saved the world appeared, which is more admirable than the hero in the movie.

At this time, if it is now my own classmate, how much face-lifting thing is to say it!

Not just face, know that you have a capable friend, others must fear you three points?

At the beginning of the discussion, there was no result, because when I was at school, Shen Lang was really inconspicuous. Not to mention girls, many boys were not familiar with him.

The most easy to remember students are only special students. The results are particularly good, the results are particularly poor, especially handsome, very beautiful, especially messy...

Shen Lang does not have to do with these. He has a bad grade but is not a bad student like Dong Wenbin, but a kind of hard-working one. If you were surprised by the neighbors before graduation, you may remember more of a classmate who was bullied by Dong Wenbin.

So now that we are discussing it, it is very difficult for everyone to piece together a specific image. When everyone compares the photos, there are no photos of the waves!

It's too easy for people to take photos now, and they won't use photo albums like the older generation. If you don't look good, you can delete them. It doesn't matter if you change your phone or not.

More importantly, no one will take a picture of a classmate who is not familiar with it, and there will be no photos.

Therefore, the photos of Shen Lang that can be found are also a group photo of the whole class.

Of course, there are exceptions, that is, rivers.

At that time, Jianghe was a friend of Shenlang's very few relationships but they were all boys, and they wouldn't be obsessed with taking selfies.

Because Shen Lang later disappeared, his family changed, and then returned to the classmates to give him a gift. Let the river realize that it is difficult to see the dark waves in the future, and specifically search for photos that have been saved.

However, this time when everyone was busy discussing, the river was silent.

A true friend is not the same as a general friend.

When no one remembered the waves at the beginning, as a friend, Jianghe would inquire about the news of Shen Lang every time during the Chinese New Year. But nowadays, many people want to get hot, and when they want to climb, the river does not come out.

Although he was not sure, he felt that it was Shen Lang!

Although there has been no information on the waves in recent years, he knows that Shen Lang is no longer a pool.

But he will not come up with the information of Shen Lang to pay attention to it. He wants to keep secrets for Shen Lang, even if he does not know how many secrets.

A few years later, these high school students did not have much contact. Everyone was a college student or a colleague from the society. It was a Chinese New Year returning to Cao, and they also invited a classmates. They were all small-scale gatherings.

Therefore, now that the classmates have been silent for a long time, the excitement of the classmates has led to the old chat. Everyone naturally talked about a person who couldn't get around, and the school flower squad leader of that year fell into the rain.

It was also left before graduation. It was after the disappearance of Shen Lang, and then I have not contacted you anymore. This is also to make everyone stunned.

This level of heroes suspected of sinking waves, can not help but think of people together, is it that they are all capable people, was the master, or secret department before the college entrance examination was taken away?

Chapter 1546 - Invitation from the Security Council

For the situation of the world of comprehension, the situation of the political circles, Shen Lang does not need to investigate and can guess a general, but for the situation of the home, for the former students, it is really completely unthinkable.

This is not his ruthlessness, including the rain, and leaving the environment, they have not stopped, there have been important things busy, naturally it is impossible to miss these students who will not deal with each other for a lifetime.

Not to mention them, even if Zhou Yumin, the representative of a group of young practitioners, would not have any communication.

Qiao Shuyu and Nanyiye have friendships, but they are actually a bit embarrassing. Because they used to be the young masters of the real world, and they talked with Shen Langping, they have already let go of their identity.

However, in the back, their grandfathers Qiao Yuxian, Qiao Zhantian, Nanliuchuan and other predecessors of the gods, and also talked with Shen Langping.

By now, Qiao Yuxian and Nanliuchuan are also called Shen Lang, a “sinking brother”, and they will feel that they are seriously climbing. People are far beyond their realm. So see you again, Joe Shu Yu, they will also be embarrassed.

Of course, the progress of Shen Lang is so fast. They are also a great stimulus to Joe Shu Yu. They are going down one level, including Zhou Yumin, including Yue Zhennan. They all know that they can't catch up with the waves. I am working harder than ever, and I hope that I will not be too far behind.

These efforts have made them farther and farther away from the sinking waves, but in other years, they have become more and more prominent in recent years.

Zheng Yumeng and Dorothy have all returned. Zheng Yuqing finally saw that Zhengjia Manor did not disappear, and saw the tragic situation of the whole city. It also untied the knot and followed back to the country.

However, in the current situation, even if Shen Lang came back, she just videotaped with them. It was a meeting, but did not let everyone get together.

There are two aspects to consider. On the one hand, Shen Lang and their families need protection and care.

At this time, there will definitely be countries that want to inquire about the news, and they may know their connections from the realm of comprehension. When they control their families, they will marry them, and then they will come to smash the waves.

In order to prevent this possibility, it is still a matter of falling rain and falling into a canoe. Zheng Yumeng and Dorothy protect the Shenlang parents in Pingxi, the Ice Palace and Jianzong in the Tianshan Mountains, and they are all self-cultivators, so there is no need to worry so much.

On the other hand, it is also to avoid them all together, will be a pot!

The nuclear bomb attack, although theoretically unlikely, will indiscriminately kill too much. But we must never underestimate the politicians of all countries. If there is a heartbreaking madness, use nuclear bombs to kill the Shenlang.

If they are scattered, they will increase their concerns. After all, there will only be one chance. It is impossible to shoot nuclear bombs indiscriminately. The foreign forces that are mad and mad will also encounter domestic containment.

Shen Lang himself is confident of self-protection, but it is difficult to defend so many people.

Therefore, he was only responsible for contacting the outside world, and he was not with him. Other parents did not return.

“How can the Council respond to them?” Feng Wuji asked Shen Lang’s opinion very carefully.

For the situation in all walks of life, she is trying to collect information, and then consolidate to Shen Lang, but can not replace Shen Lang to make a decision.

In fact, with the energy of her intelligence information company, it has been possible to cope with the collection of the real world. It is already a bit embarrassing to face the world now.

The advantage is that there are more channels, and you can make better use of the Internet to obtain information in all aspects. The disadvantage is that the major powers are involved, and there will be strict confidentiality, making it difficult to get the latest information.

Now, for many countries that have taken the words of the self-cultivation forces that they have seen before, it is basically that she responded to Shen Lang. Anyway, it is just a good show. It is enough to express the wishes of peace.

However, this special invitation of the Security Council represents the United Nations and represents the will of the major powers.

And in her opinion, the invitation to Shen Lang in the past may itself be a banquet!

In general, the wind has no long sleeves and good dance, and the level of contact is getting higher and higher. It is also limited to the realm of comprehension. For international politicians, there is still no experience.

“Go.” Shen Lang responded briefly.

“Just go like this?” Feng Wuji is a little worried.

If Shen Lang goes, it must be just one person in the past, in case there is any ambush... Although at the United Nations Headquarters, it is impossible to bombard bombs, but this time it is obviously the main power of the big country, who knows if there is anything Published technology weapons.

Shen Lang faintly smiled: "I could have hanged their appetite. I was too invited to talk at an invitation. But I came back from the South Pole and did not make a public appearance. If I delay, I will be mistaken for them to think that I was injured. "

Feng Wuji nodded immediately.

momentum!

Shen Lang smashed the presidential palace of the superpower. That domineering was facing the whole world, and then went to the South Pole, one person's power to solve the huge beast crisis.

Now it has the supreme momentum, and it is also the reason why the Security Council will open an emergency meeting for him and invite him to visit.

If the political figures of various countries suspect that he is injured, will there be any other ideas for politicians? I will reply to them immediately. As for the government of our country..."

China is also a permanent member of the Security Council. It is also one of the resolutions of this time. However, as a country where Shen Lang is located, of course, it is more desirable to have a near-water platform, and there are also arrangements for contact with ministers.

However, even if it is at the ministerial level, it can only go to the wind and no place here. It is impossible to contact Shen Lang personally, let alone meet.

Shen Lang waved his hand: "Go to the Security Council first! At this time, other big countries are staring at it. There are too many contacts with the country. It may not be a good thing for the government. It may be embarrassed by other countries. For the time being, we will treat each other first and not separately."

"Okay, I will pass them on."

Of course, Feng Jiji will not directly convey the original words, but will reorganize and respond to the appropriate rhetoric. After all, everyone is a Chinese, not the same for the motherland.

This time, the Security Council, whether it is a special meeting or a invitation to Shen Lang, is an unprecedented special case for decades. Time is coming soon, or the wind will not ask Shen Lang's decision.

Originally they were able to arrange flights and other issues, but Shen Lang certainly did not need them, everything is their own only forward, anyway, the United Nations headquarters is not difficult to find.

However, when Shen Lang left for the time, the wind did not hesitate for a long time, or the spread of the master spread the news, saying that Shen Lang has accepted the invitation of the UN Security Council and is rushing to a meeting to discuss the great future of humanity!

After the news spread out, a stone stirred up thousands of waves, and did not say that there would be various kinds of communication and interpretation on the Internet. On the Security Council, it immediately sent a serious protest to Feng Wuji and asked her to delete the news immediately. And make a clarification of the misinformation!

Chapter 1547 - Go to the headquarters

The United Nations Security Council, in contrast to other organizations or countries, has a face that is so big that it is of great dissatisfaction.

Although there is no information to disclose in the emergency meeting, the dialogue that invites Shen Lang to visit will not be made public, but the attitude of the Security Council to an individual is still low.

Regarding the protests on the Security Council, Feng Wuji also explained that she has nothing to do with her. I don't know what intelligence agencies or the media know about the release, not the leak on her side.

She intends to spread this news out, that is, to let everyone in the world know that the waves are safe, and they dare not let the waves come out. Of course, it will not be revoked because of their protests.

The Security Council is also very helpless. The meeting with Shen Lang has not yet taken place. If the anger is angered, it may be directly abolished and it is more likely to stagnate the relationship.

After consultations with relevant personnel, since it is no longer possible to eliminate the impact, it can only be rationally utilized, and passive as much as possible.

So not long after, the Security Council issued a public message saying that the Security Council did indeed invite Shen Lang to visit and warmly welcomed him to visit United Nations Headquarters. He also expressed sincere gratitude to Shen Lang for his contribution to the protection of the world.

In such a special period, no one has used them to make a fuss. Instead, many media have appreciated the Council's ability to respond quickly.

When the behemoths were in chaos, the Security Council had already met in various countries, but they did not implement any specific plans. Many people have been dissatisfied.

Although I can't see what they are doing now, I can praise the hero in the name of the UN Security Council and put the following to embrace the thigh of the superhero. It is the political correct way to take the personal and property of all human beings first.

When the wind was not released, it caused a sensation. After the Security Council publicly acknowledged it, it was even more reported by the mainstream media.

The endorsement of the UN Security Council is undoubtedly a gilded trust for the identity of Shen Lang. The people who had always been questionable and rational and dubious also believed that Shen Lang was the hero of this decisive battle behemoth.

Although they can't compare with the eager fans, but the grateful heart is still there, and can't stand the big one!

Another hundred million or even one billion people join!

The people who have already become fans and grateful for the waves are now more proud of the UN Security Council.

Although the major powers have not spoken, the Security Council has already expressed its position. Is there any doubt?

The more powder is early, the more excited it is for the propaganda of Shenlang.

The result is self-evident. When Shen Lang rushed to the United Nations Headquarters building, the power of blasphemy came from the whole planet to him.

The United Nations Headquarters Building is located in Manhattan, New York, the only “international territory” in the world.

The Security Council consists of fifteen members. Five of the well-known permanent members and ten other non-permanent members are elected by the UN General Assembly for two years. There are also some countries that have never served as members.

The President of the Security Council is rotated in the alphabetical order of the names of the current members of the country. Each round of office is for one month.

Now the arrival of Shen Lang has triggered the reception of the highest specification.

The rotating chairman of this month, together with all fifteen representatives of the governing countries, as well as the UN Secretary-General, the Deputy Secretary-General, the President of the General Assembly, etc., are all waiting for him, which is almost unprecedented in high standards.

These people themselves are also very unbelievable, and this is something that no matter what the head of the country or the religious leader can do. Now it is like a young man!

At the same time, they are also quite excited. Since it is unprecedented, everyone has witnessed history and even witnessed history on behalf of their own country!

Such historical moments, of course, will not only be known to them.

Since the news has spread, the media in New York and the major media in the world in New York have already rushed over and set up a live webcam.

There are also many nearby citizens who are also coming over for a moment.

Shen Lang once again descended from the sky. Although everyone has felt that they have become accustomed to it, they are really shocked to see it.

After all, I watched the video before, and now I saw it with my own eyes. The shock effect is different.

“Shen Lang!”

“Shen Lang!”

Immediately after the fans called out, everyone yelled the name of Shen Lang and made him feel the same treatment as the big star.

However, this is not a big deal for Shen Lang because the people on the scene are not too much. He has led the most powerful comprehension of the earth in the past.

“Don’t be crowded and pay attention to safety.”

Shen Lang made a greeting, let everyone cheer again, and some sisters, even shouted the “I love you” star-catching words.

“Give you a snowflake and go back.”

Shen Lang enjoys the power of faith, and knows that such opportunities do not always exist and must be grasped.

He wants to show his power, can’t do damage, can’t make juggling performances, so he used such a way.

Under the witness of all the media and passers-by mobile phones, Shen Lang opened his palms and used his energy to start condensing snowflakes.

So is like a magic show, from the beginning of his palm, a piece of snow is born out of thin air, more and more, and then drifted out to the surrounding, almost sent to the crowd in front of the crowd.

Originally, I heard that Shen Lang said that I would send snow. Everyone knows his strength, and most of them have no doubts. However, I thought it was necessary to let the next small snow in the vicinity be prepared to see the sky. I did not expect it to be displayed in such a way.

This snowflake is very beautiful and very large, and it is almost the same size, as if it was cut and mass-produced, and it is not flying around, nor falling casually, but waiting for everyone to reach out. Go and hold.

With this effect, almost everyone is skeptical about seeing the illusion.

But when they reached out and really put the snow in their hands, they felt excited and beautiful.

All the shots, not forgetting to record this magical scene.

Then many people are afraid that the snow will fall, and they will quickly reach out to catch it, and some people are afraid of not getting it.

Everyone picked up the snowflake, and there were some scenes that floated in the air and didn't fall, and quickly took pictures of this special effect!

By the time they reacted, Shen Lang had already entered with the UN officials.

Just sending a piece of snow is naturally worthless, but it is not a university, but a snow-making, it is precious!

Everyone on the scene was excited, this is a gift for them!

And this gift is so romantic and uncommon, and because of the short-lived, everyone is especially cherished.

The media reporters quickly rushed out these live broadcasts, and passers-by were a lot of friends and family who called themselves to share this magical scene.

On the Internet, it's bustling again...

Chapter 1548 - answer

The news that Shen Lang wants to visit the UN Security Council has caused many people to wait to watch the live broadcast.

Many media and individuals have maintained a live broadcast status after they have seized the position.

Just seeing such a high-standard reception by the United Nations has already made everyone very excited. It is also a witness to history and excitement for Shenlang's cattle.

The way the Shen Lang descended from the sky also made everyone very convinced. Compared with the battle with the behemoth, this is a super-powerful skill that is more practical and ordinary people are imagining.

Originally thought that it was going to go in, the live broadcast could not enter the United Nations building, I did not expect that Shen Lang actually came this way.

Just like a magician, there is a lot of influence on the stage performance, and everyone knows that the magic is fake, but he should be true!

Sending a snowflake... For many young people, it is very romantic, especially for girls.

The madness of chasing stars is often the main force of young people, among which girls are the main force.

So for many people it is like watching a magic show, for girls, it is a romantic scene.

Through the live broadcast of various media, as well as some photographers' dedicated shooting, close-ups, and rough and true records of passers-by, all-round information quickly broke out on the Internet, leaving everyone quiet.

Girls everywhere, I can't wait for myself to be in Manhattan.

The girls in Manhattan are even more regrettable! I regret that I didn't see the news earlier, I didn't go to the scene to see it myself, or I was one of the lucky ones.

The power of faith has been greatly strengthened. Shen Lang guessed that it was related to visiting the Security Council, but now it is faint and intensified, and he is also somewhat puzzled. There is nothing new to say about this!

In the conference hall of the Security Council, in addition to the current fifteen members, there are several representatives of major powers who have not served in the current non-permanent membership.

Of course, there is also a representative of China. However, the attitude of Shen Lang's expression through the wind has not been conveyed to him. Therefore, this representative did not particularly show closeness with Shen Lang and maintained an objective attitude.

This month, the President of the Security Council immediately represented the Security Council and repelled the giant beast for Shen Lang. He officially expressed his respect and gratitude to Shen Lang.

Shen Lang accepts it calmly, there is nothing to be modest.

This is the first agenda, and then it is the subject.

"Mr. Shen, our UN Security Council, representing the countries and people of the world, wants to get more information about monsters from you..."

This month's rotating chairman, Mr. Brock, carefully opened his mouth, fearing that one would anger the sinking waves and would cause the other party to kill him.

"Where do they come from? What is the purpose of coming to Earth? What are their characteristics and weaknesses? How should we defend and prevent their re-invasion in the future? I hope you can answer us..."

Although she has been very restrained and has not shown an attitude of interrogation and questioning, it is the Council, and the style is not enough respect and politeness.

Shen Lang did not care about these with them.

From the attitude of the United Nations, it can be seen that this is a matter of historical ruin, and this is the will of the major powers. If they cannot give them a little information, it will make them difficult to rest assured.

Shen Lang's eyes glanced at him, and the surrounding representatives felt great pressure. Although trying to relax and want to maintain a polite smile, basically the expression is still stiff.

"Because these monsters are so large, I call them giant beasts."

"There is no doubt that they are not the creatures of our world. Although they came out of the Pacific Ocean, they did not live on the ocean floor."

This opening statement has already made everyone excited.

Although there have been such conjectures in all aspects, there is no further clue to analyze the argument, and Shen Lang knows more.

"What do you mean... they come from another world?" Chairman Brock asked on behalf of the Security Council.

"Of course. In a nutshell, somewhere in the Pacific, something like a wormhole has emerged that connects to different worlds. Just as humans want to explore other worlds in the universe, they also want Explore other worlds."

"This is not their first visit. Someone has come over a while ago. It's just that we are special people – superpowers, comprehensions, and everything, killing them and blocking them."

"This time, they came in more and more powerful levels. So they didn't get stuck in the Pacific Ocean, but they crossed the landing and caused such a big loss."

“The purpose, isn’t it easy?”

Shen Lang said here that he refers to the representative of one of the permanent members: “just like your government!”

That representative is very embarrassing, and everyone understands what it means.

This is in this country, Shen Lang said that their government, that is, the former army still wants to obtain information on the resources of the behemoth, but did not kill it with all efforts, and after knowing the Shenlang, he was besieged.

“In fact, we...we are all for all human beings. Our President specially asked me to say hello to you After the representative of the Security Council, he immediately played his ability.

The Capitol and the Ministry of Defence building were all bombarded, and the presidential palace was also smashed on the roof, and the face was thrown into the world.

But what about it?

When there is no way to restrict this person, the president can only show weakness and show good.

Shen Lang did not bother him and continued to speak.

“A new breakthrough! Humans are like this, so are the giant beasts. They discover the new world and want to occupy and acquire all the resources, so they come. The purpose is to occupy the earth!”

“Features believe that you have collected a lot, have very strong attack and defense capabilities, and seem to disappear invisible. These are true!”

“Like I am not alone, the human world has superpowers, self-cultivators, they have no technological civilization, but there are talents that you can’t understand, you can imagine – magic.”

“As for the weakness... there is almost nothing.”

Although everyone has mastered some information about the behemoths, it is not verified. Now that Shen Lang said that stealth is true, they are very speechless.

This is of course also that Shen Lang does not want to explain so much. In fact, the giant beasts disappear from their tracking, not stealth, but shrinking, deforming and so on.

When they heard that they still had talented magic, there was almost no weakness, and the representatives of the countries were silent.

“So...” Chairman Brock was a bit embarrassed.

Shen Lang said seriously: “This time I killed a batch, but I can’t kill them all. Because there are more powerful beasts than me, they can let them go back, because they are afraid of them.”

“There are more powerful beasts than you!”

Everyone exclaimed.

Chapter 1549 - Threat

For most ordinary people in the world, Shen Lang is the first super hero to be public.

But for the political leaders of various countries, they actually know and master the information of the superpowers and the self-cultivators. Even some political leaders of some countries are supported by the major forces.

It is precisely because of this that they know that it is not necessary to rely on the self-cultivation. It may not be the opponent of these giant beasts, but it may disturb the hearts of the people, which prohibits them from officially shooting.

But in the end, they understand and personally have seen the comprehension of the level is not too high. The existence of the Pope or the Archbishop of Paul, the true strength, and the political dignitaries of all countries are also unclear.

Therefore, the strength revealed by Shen Langzhan, especially the record of killing more than a dozen behemoths, makes everyone believe that he is definitely the world's strongest.

The most powerful mankind in the world today can make the UN Security Council so ruined.

Now that I heard him who killed more than a dozen behemoths, he said that there are more behemoths than him. Can everyone be scared?

More powerful than him, what else can there be suppressed on earth?

Everyone looked at the waves with a sigh of relief. The representative of Brock asked: "Mr. Shen, can you drive them away, should there be a way to defend and prevent them from coming again?"

Shen Lang knows that these will represent the will of the political leaders of all countries, and now they can influence them, and they may not really affect the countries behind them.

But what to say, still have to say first.

"I know that all countries have their hearts and minds. If these giant beasts are used for us, they will inevitably be a leap in genetics, genetics, biology, etc. But don't forget that things have their own rules!"

"Don't say these monsters, even the dinosaurs that have lived on earth, if we get the genes, resurrect them and make them. You have seen the movies!"

"Their world, for us, may have a lot of resources. And our world, for them, billions of people, is a huge ration! The earth will become a pasture!"

After the warning, Shen Lang said slowly.

“I can’t get rid of their world, but there is a way to hide that wormhole. And it’s also an unstable one. According to my observation, it will soon disappear. There is no good worry at that time. “”

When you heard him say this, everyone was relieved.

If the wormhole disappears, the behemoth will naturally not come, and the earth will be safe.

However, there are no regrets and no fakes. This is a golden mountain and cannot be developed.

“Can Mr. Shen be able to...” Brock’s words have not been finished yet. Seeing the eyes of Shen Lang, I shut up with interest.

Whether it is the ability to reveal the location of the wormhole or how to hide the wormhole, it is obviously impossible to tell them.

He does not believe that Shen Lang can be stronger than physicists, but perhaps their self-cultivators and super-powers have their own methods.

“How many superheroes are as powerful as Mr. Shen on the earth? Can you disclose them? Of course, we definitely don’t want to control and control the heroes, just to make the public happy.”

Bullock couldn’t ask for more information about the behemoth, and he could only ask the information of the comprehension under pressure.

“If there are a lot of people who are as powerful as me, there is no need to give in to the behemoths. For the time being, only me, of course, there are still a lot weaker than me.”

After this was said, Brock and others had a deep sigh of relief. Even if it was no stronger than Shen Lang, it was not as strong as it was, but there were a lot of weaker ones. It was not bad.

Shen Lang added a sentence like a smile.

“Tell your country, your president or something, don’t think about manipulating us. The reason why superpowers and comprehensions are hidden is because they disdain the secular power struggle, not because of fear.”

“If you want to control us, you have to be prepared first, that is, all kinds of officials, including the presidential councillors, are ready to be killed!”

When he said this, Shen Lang raised his hand and immediately made everyone scare his neck!

“Mr. Shen is calm!” The representative of China quickly pleaded a word.

The hands of Shen Lang naturally took the water cup in the past, and they were speechless for their behavior.

He has publicly warned the superpowers that the actual power of the UN Security Council is actually limited, and it is also a public opinion voice that does not threaten them at all.

Seeing that he was just drinking water, everyone was stunned, but there was a secret gladness.

Everyone is clear about his strength. For these groups, whether they really do, but no one can make it clear.

The law is no longer binding on those who are superpowered.

Otherwise, it was a serious violation of the law that the helicopter was crushed last time, the Capitol, the Defense Ministry building, and even the presidential palace.

But then again, it’s easy to get into the law, because the super power he uses is simply impossible to prove.

Is there a certificate of evidence for the Capitol and the Ministry of Defence?

No!

The presidential palace is under the eyes of everyone under the lens record. But the whole person was in the air, and he did not approach and touch the roof of the presidential palace.

Even if you know that he did it, you can't prove it in normal procedures.

It is theirs that have gone beyond the laws of the world.

“Understand and understand, everyone is a superpower. They have never come out to influence the world. They naturally have their own constraints. We are very reassured. This time it is also to save the world, and everyone is very grateful.”

Chairman Brock has complimented one sentence, and this is also a hope. I hope that their superpowers have their own rules.

However, in fact, many big countries have mastered and supervised the domestic self-cultivation forces. They are also very clear that Shen Lang has been treated with the rules of ordinary superpowers and self-cultivators.

In other words, in the rules of comprehension, Shen Lang can also be unscrupulous!

The representatives present here are fully prepared and experienced, and immediately realize the root of the problem. That is, all the great powers, together in the name of the Security Council, can't hold back the waves!

What he wants to do, or to see his own wishes, if you make him unhappy, it will stir up!

And what I just said is just a political dignity. I really want to worry about it. Even for the military, for the city, for the people, it is estimated that it will not be soft!

After all, he is just an individual, not a big country, does not need any responsibility, has such a god-like ability, and does not look at the lives of ordinary people, just like crushing a helicopter and smashing a toy. There is no difference.

Originally, they still prepared some agenda questions, but now they feel that they are interrupted and don't know how to continue.

Chapter 1550 - Statue of Liberty

Shen Lang will agree to their invitation, that is, they are too lazy to tell different big countries. This is inconvenient to openly and publicly, and the effect will not be satisfactory. Therefore, it was conveyed by the platform of the Security Council.

For the various kinds of behemoths, the countermeasures that have been dealt with have already been said. What I have said is that it is inconvenient to say.

But he does not think that other countries will honestly follow his advice, and it is likely that people will be arranged to explore the "wormhole" or even the new world.

Technology is the primary productive force. Whoever wants to master the advanced technology can be a leader in other countries. It is normal for a hundred or two years.

In addition to the national transport, the attraction of interests, the name of the individual is also a great attraction. Who does not want to be as famous as Columbus in the New World?

These things will not be taken care of, and he alone cannot restrain the countries of the whole world. What's more, in addition to the country, there are many civil powers such as big capitalists and crazy scientists.

After the statement was over, Shen Lang did not stay and left.

None of the representatives of the UN Security Council, including the Secretary-General and the President of the General Assembly, represented by the rotating Chairman Brock, dare to retain the waves.

Everyone can only watch him leave, and then exchange their eyes, hoping that other people can have a reasonable problem to leave the waves.

In the end, no one spoke.

The outside media is still waiting, and the onlookers, along with the fermentation of “sending a piece of snow”, have already brought more people nearby.

Even if you can’t get anything, you can see it for yourself, or take a selfie with you when you are flying in the air. It is also very rare.

However, he came out so quickly, but the reporters were a little surprised. Everyone was not ready, it was the host of the live broadcast, and it was still analyzed with the guests.

Normally, where the United Nations Headquarters is so tall, important guests come and will definitely accompany the main departments.

This time, even if the content will not be announced, everyone knows that it is for the behemoth to attack, then the major issue, according to reason, should be a long consultation.

However, everyone is professional. When you see the waves, you will enter the state immediately.

It was only this time that Shen Lang did not leave much time for them. After coming out, he waved his hand to the reporters and passers-by around him and immediately flew away!

Passers-by and fans have just been enthusiastic, and they disappeared, and they are very sorry.

Whether it is a crowd of people or a media reporter, they are not willing to leave. If Shen Lang is back for a while?

Although Shen Lang left quickly, he did not leave the city!

Because when he was in the conference hall, he sensed a message, an unusual message!

The information is sent directly to his consciousness, let him feel it, and the other party is not nearby, it is quite a distance. Being able to communicate in such a thousand miles, it is obvious that the other party can not be underestimated.

More importantly, Shen Langyao remote sensing should be difficult to lock the other side's trail!

With his current strength, it is difficult to capture the other side, but the other party can accurately pass the information to him, indicating that the strength is not under him! This is another reason why he did not stay in the Council, an unknown enemy!

Shen Lang left quickly. On the one hand, he did not want to be observed by others. On the other hand, he was also able to lock the unknown enemy.

His quick movement is to let himself take the initiative to get close to the enemy, and when the range is closer, it is easier to lock.

Moreover, he determined that the other party was in the entire city, so this time, the supersonic speed was drawn over the city, in order to gradually expand the sensing range, and the carpet search.

His speed is very fast, because it only needs to be ordered for the holy armor. Shen Lang's own knowledge can be used to search for the traces of the other party.

So it is only a few tens of seconds, it has already locked the other side, and immediately flew past.

Not yet close, Shen Lang has already transferred the map through the Holy Glance to see the picture, and immediately knows where the location is.

It was the Statue of Liberty near the Hudson Estuary on Liberty Island in New York Harbor!

When the Shenlang approached, it slowed down in the air, and the gods had enveloped the past and scanned the Statue of Liberty completely.

Above the torch of the Statue of Liberty, it is blurred from the outside, but there is actually a white man standing on it, looking at the waves coming.

This famous statue, whose full name is “The Statue of Liberty”, is officially known as “Freedom to Shine the World.”

The Statue of Liberty wears ancient Greek style costumes and wears a radiant crown. The seven spires symbolize the seven continents. The right hand holds the torch symbolizing freedom, and the left hand holds a nameplate with the name of July IV (July 4, 1776, the date of the Declaration of Independence); at the foot is broken handcuffs, ankles and chains, symbolizing the liberation of tyranny. Constraint and freedom.

This is the 100th anniversary of the independence of France to the United States in 1876 completed over ten years.

The Statue of Liberty is 46 meters high, with a base of 93 meters and weighs 225 tons. It is metal cast and placed on a concrete base.

The spiral staircase in the body of the goddess allows visitors to climb onto its head. This is equivalent to climbing a 12-storey building. Due to the height, the elevator was installed from the pedestal to facilitate visitors.

As a famous classic, there are of course a large number of tourists, taking pictures below, around, waiting in line.

When the other party chooses this time, it appears here and leads him. It should not be well-intentioned!

The white man stood on the top of the torch and did a little bit of hands and feet. The ordinary person would look like a beggar. He didn't know anyone at all, or else everyone would watch him go.

Shen Lang remained vigilant, but after he told it, he was already seen by the tourists nearby!

Immediately, many people screamed and everyone looked at the people who came from the air.

“Shen Lang? Definitely a superhero!”

Originally everyone was scared, but some people have been watching the mobile phone, and they are striking to guess that it is a deep wave. It is impossible to have another superpower coming out.

After the leader came out, he immediately let other people look up and cheered up, then looked up at him in the air.

Shen Lang ignored the ordinary people below, but flew over the statue, not far from the torch.

The goddess holds more than ten meters of torches. There are no problems with standing people on the upper edge, but there is no direct past.

The white man on the torch showed a sly smile and asked slowly.

“Why are you ruining the Statue of Liberty?”
