

## First Strong 1551

Chapter 1551 - Idol collapse

Why are you ruining the Statue of Liberty?

This sentence is very unreasonable, it sounds inexplicable, but Shen Lang immediately understands it!

The other party is going to ruin the Statue of Liberty!

Because Shen Lang is the only open superpower, everyone knows his existence, knows that he is capable of flying, and now he has seen and photographed him flying here.

So the Statue of Liberty collapsed and destroyed at this time, and naturally it will count the accounts on his head.

This is different from the House of Representatives and the Presidential Palace. It represents the government. Therefore, it is ruined. Some patriots in the country are dissatisfied. More people do not care. Many people feel very good.

But the Statue of Liberty is different. This is a symbol of freedom and peace. It has stood for more than 100 years and is a symbol of the people.

Besides, the Capitol, the Ministry of Defense Building, and the Presidential Palace are all self-contained, and they are controllable. They will not accidentally injure civilians and try not to hurt people.

Now it is different for others to control, and those are officials. The tourists here are all civilians, including tourists from all over the world. If they die, the impact will be different.

After all, the vast majority of the world's people are ordinary civilians.

Shen Lang can now get so much support, fans even have the trend of believers, because the biggest threat to the behemoth is the civilians, everyone feels that the rich can hide, ordinary people have no way.

Now if he wants to kill innocent civilians, the natural support for him becomes another extreme accusation.

All the thoughts just flashed through Shen Lang's mind.

At this time, there is not much time to think about it at all, and the white strong man in front of him, after finishing the sentence, immediately disappeared!

Just approaching, Shen Lang has already determined that this white strong, at most half a cent, is not the person who sent information to him before.

This also made him even more shocked!

Explain that the man not only knew that he could search, but after he locked it, he still left without knowing it!

Of course, this white half fairy is also a blind man.

Now that the white man and the half are leaving, it's fast and fast, and he has the ability to keep people.

But now I have not given him time!

In fact, when that person asked this sentence, Shen Lang's knowledge had quickly scanned the entire Statue of Liberty and found that there had been a lot of cracks and signs of collapse soon!

The 46-meter statue is made of metal and the 47-meter platform is concrete. The interior of the statue was also made of steel, designed by the Eiffel Tower's designers, and later reinforced with concrete supports.

It is not an easy thing to destroy her like a \*\*\*\*\* statue of nearly a hundred meters. It is a shell, and it can only be destroyed.

The cracks that are now appearing are like the fact that these steels are already decaying, just like the porcelain that is under great pressure, and it seems to collapse.

With such a large scale and more than two hundred tons of weight, once it collapses, let alone the tourists inside and below will die, that is, the island is farther away, and it may be killed.

Almost at the same moment, the tourists inside and on the observation deck, who found abnormalities, began to scream.

The tourists who are placed under the Statue of Liberty are disregarding the queues, all crowded with the best angles, and want to capture a better picture of Shen Lang.

It's like a crazy scene of seeing a star. There is no stampede. It's already very good. It is almost impossible for them to divert their attention to the image.

Besides, this is a bronze statue that has stood for more than 100 years. Who can think that it will suddenly burst and collapse?

“Everyone noticed! The Statue of Liberty suffered enemy damage. I specially came to save everyone. Please let the people below leave the safe distance!”

In this sentence, the Statue of Liberty has been clearly cracked, and it has collapsed from the base and collapsed while breaking!

It is conceivable that before Shen Lang came over, it was destroyed, but it was barely supported. The white man made the last blow when he arrived, so it is now destroyed.

The words of Shen Lang were almost resounding over the free island, and all the tourists on the scene were shocked.

If you tell them like this, almost no one will believe it.

But now it's not just a question, but a crowd that looks up and finds that the \*\*\*\* is dumping, and then there is a sound that the base is cracking.

Worship the hero again, this time, is also the first of life!

For a time, most of the tourists began to run away desperately. This has bittered some older tourists, and they can't run without running, but they may be hit and fall.

In the idols, the tourists on the observation deck are even more desperate. Their feelings are much larger than the tourists outside, just like in the earthquake building, there is no place to run!

However, there are a few young people who are crazy enough, just like those who play extreme sports. The picture of such a heartbeat may not be met again in a lifetime.

So instead of running, they are running away from others, choosing a better angle, shooting the situation here, connecting to friends, or playing live on the web.

Just saw that Shen Lang began to shoot a little bit of time, and they have already completed the connection in advance, but this time they can spread more calmly.

Just when everyone felt the catastrophe of the earthquake, Shen Lang once again showed them miracles!

When he first spoke, he had already controlled the surrounding area.

The Statue of Liberty is more than two hundred tons. When it collapses and collapses, even within the field, it is impossible to fix them, but there is still a certain amount of involvement, delaying the rate of dumping.

However, that is not the key. With the strength of Shen Lang now, this destroyed Statue of Liberty can't be saved, but it is not a problem to save the people on the scene.

He doesn't need to run like a fast silver in a few seconds to save people one by one, but can save them in batches!

After discovering that someone was shooting, Shen Lang had a little more performance.

The other party is so aggressive, naturally in order to influence his reputation, not to attack him directly, the purpose is to let the world think that he ruined the Statue of Liberty and killed many tourists.

Just his opening, and the current rescue behavior, you can use the live broadcast of the scene, and then do a hero! It also naturally broke the other's bureau.

Chapter 1552 - Salvation show

In fact, within the field, Shen Lang can rely on consciousness to complete the rescue of them.

But now that you want to perform, you have to show it, of course, exaggeration.

So he was in the air, deliberately flew near the viewing platform, and then opened his hands, like a lift, and dragged the tourists who panicked above!

Then they were transported from the air to the bottom, and saved the people to the end, sent the Buddha to the west, and sent them directly to the hundred meters away. After the statues were smashed down, they would not reach the range.

All the people in the air are undoubtedly in different prayers called "God", "God", and screaming in horror.

The following young people are excited to capture this scene. Although it is a mobile phone, it is also compatible with each other. Some enlarge the focal length, take close-up close-up shots that are not so clear, and some shoot the whole panorama.

Everyone recorded the effect of sinking the waves to save people.

And it is possible to send these people to a hundred meters away, and let these people feel more assured.

Originally, they did not escape. They were precious pictures taken at close range. They also gambled on miracles, or felt that they were flexible. When they came to the front, they had time to run away.

But now the behavior of Shen Lang makes them feel at ease. If they really can't run, Shen Lang will definitely save them before they are to be killed.

With such a mentality, they are more peacefully filmed, and as a record of the heroic behavior of Shen Lang without professional photographers.

After saving the tourists on the most dangerous observation deck, it is of course the tourists in the rescue statue.

Shen Lang also continued to show off again, flew in personally, opened the faulty elevator door, rescued the people inside, and then volleyed them to fly out, the same as those in front, all sent to the hundred Outside the meter.

There are also tourists who are stairways.

Although the whole process is very fast, but because of the many, it still takes a little time, that is, under the field, Shenlang can clearly control the rhythm, can know any corner at any time, and can reach every place faster.

Therefore, maintaining a calm performance, I saved everyone one by one.

The young tourists who took pictures below, in peace of mind, can be accompanied by live commentary, telling the scene of the emergency.

After a batch of people was rescued, the tourists below the Statue of Liberty basically ran to a safer place 100 meters away.

These people Shen Lang did not directly save them in the past, but in fact they also used the field to help them, let them all run out like the speed of a hundred meters.

Especially those who are older, they feel an invisible force, almost carrying them to the general, not far behind the speed of young people.

A mother with a child is very scared, especially if the child falls.

It turned out that both children and adults, when they were wrestling, seemed to be invisibly supported, and then a force pushed them forward!

These people are glad when they are in a safe place. On the other side, of course, they are looking back and seeing how much the statue is.

After waiting to save everyone, Shen Lang continued to perform!

This time he wants to save, is the Statue of Liberty!

The appearance of a break is to make the statue lose its support, but because it is too large and it is a standing statue, it still looks like a dump.

Under the restraint of the Shenlang field, even if it is broken at the moment, there are many big gaps in the middle, which is just the space to save people from inside.

But in the distance, it seems that there is still no complete cracking, or a more complete dumping posture.

Therefore, Shen Lang is now flying in the air, in the past holding the Statue of Liberty!

“too crazy!”

“God! What is he doing!”

“He is holding the Statue of Liberty to collapse with his personal strength!”

“This is a huge idol of a few hundred tons and a hundred meters!”

“Shen Lang is really amazing!”

“We can’t help at all, if we can, we also want to contribute a strength!”

“We are very admired for Mr. Shen Lang’s behavior, but from a rational point of view, still remind him!”

“Yes! The Statue of Liberty has been destroyed. Even if he has the power of God, he can’t hold it, or don’t get hurt!”

The young people who are broadcasting live below, excited while talking.

And the tourists in the distance, this time have not been relieved from the process of intense excitement, can only excite the words of God and so on, but also a few words.

Shen Lang is trying to save the Statue of Liberty. In the end, he barely held his head and held the torch. However, there are still many fragments and falls, especially the collapse of the platform. It can only collapse.

The young people who shot below are of course very dangerous. In particular, they have to look up their heads and follow the focus of Shen Lang. They can’t notice the fall of the concrete on the platform, and it is difficult to avoid the large pieces of broken copper on it.

But they are very trusting Shen Lang Shen Lang did not live up to their trust.

Through the control of the field, they naturally moved them to a safe place, feeling nervous again and again, but they were not caught.

And they can move a few meters with their mobile phones. Whether they are themselves or tourists who are far away, they know that it is impossible to do it. It may only be the role of Shen Lang.

Under the restraint of Shen Lang, the scope of the entire Statue of Liberty crashed is not too big, and as more and more falls, he can save, there will be half of the head, and half torch.

However, the young people, as witnesses to the live broadcast, have been safe and sound.

Shen Lang finally pushed half of the avatar and the torch to the ground, and he himself stood in front of the ruins.

Looking at the dust settled, the young people rushed to the side of the waves, and the tourists who were 100 meters away would see that they would no longer collapse, and they all ran to this side.

“Mr. Shen Lang! I am very happy to meet you!”

“Can you tell me what is going on here?”

“I am very grateful to you for saving all our lives!”

When they ran over, they asked questions excitedly.

Shen Lang was silent for a while. It seems that it was regrettable because she did not save the Statue of Liberty. In fact, she waited for other tourists to come close to form a better atmosphere.

“The greater the ability, the greater the responsibility. Our superpowers, the ultimate mind is love and peace. But I did not expect that in this country, there are hidden superpowers!”

After waiting for them to come over, Shen Lang also believes that many people watching the live broadcast on the Internet are waiting to say something like this.

Chapter 1553 - Good man

Shen Lang has never appeared before, and in the time of the huge beast crisis, it suddenly appeared to save the world.

Therefore, he said that “the greater the ability, the greater the responsibility” and the “love and peace” are all convincing. But I did not expect this country to have evil superpowers!

In the sound of everyone’s exclamation, Shen Lang continued to speak.

“Maybe you all know that I came to Manhattan today and went to the Security Council. I just rushed over from the United Nations building just because I found someone doing damage.”

“I don’t know which evil superpower is doing this, but they sent me a signal and brought me here.”

“They certainly won’t deliberately destroy, let me be a hero. Their purpose should be to destroy the Statue of Liberty and kill you innocent tourists!”

“Not for you, for me!”

“Because everyone knows that only I stood up, so there was an accident here. I was in Manhattan again. I came to the scene again and naturally I will count the accounts on my head.”

“No matter what the truth is, I have just rescued everyone in time, and I am relieved. Unfortunately, I did not save the Statue of Liberty. What a beautiful piece of art, a symbol of freedom and peace...”

After a generous complaint, Shen Lang silently mourned for the Statue of Liberty.

The tourists on the scene were all excited.

“Mr. Shen Lang! We all believe you, you have just come, it has been ruined here. If it is not you, we are all dead!”

“We condemn these evil superpowers, superpowers like you, our dear superhero!”

“It is not easy for you to save us alone. It is not your fault to save the Statue of Liberty.”

“Yeah, you have tried your best, don’t blame yourself.”

Everyone is comforting the waves, and then they began to tell them one by one. They were photographed and carried out from the air, but they did run, and they all talked about the help of Shen Lang.

And those live young people are also recording the various kinds of Shen Lang and everyone.

Consultation is now developed. Originally, Shenlang is the focus today. Even if the time is very tight, the reporters at the United Nations Building are too late to come, but when it was broadcast live on the Internet, all the media were also broadcasted and sent to this side.

So almost the whole world has witnessed the process of sinking waves and saving people, watching the collapse of the Statue of Liberty.

Now, the words of Shen Lang to the tourists have also spread out by mobile phone broadcasts and spread to the world.

Everyone knows about the ability of Shen Lang, and he has seen him making snow flakes today.

But under the record of the high-definition camera, it is beautiful and romantic.

Now the scene of the Statue of Liberty is under the mobile phone camera, witnessing the thrills.

The volley saved a group of people and went into the collapsed Statue of Liberty to save people. These are more thrilling than movies.

In the end, when he tried to save the Statue of Liberty, he used his personal power to lift hundreds of tons of statues. The gap of dozens of disparities was even more shocking.

Once again, I was shocked by all the people, and I felt even more clear than any previous one.

After all, behemoths, Antarctica, etc., have been seen and unimaginable by many people, and the Statue of Liberty is known all over the world. Many people have seen it before.

With such a downturn, coupled with Shen Lang's critique of the evil superpower of this country, his heroic image is even more stalwart, and the power of faith is more rushing to the waves!

This direct feeling makes Shen Lang satisfied.

With his current strength and realm, it will save people. It is also necessary to make public shows and speeches. Of course, in order to maintain the image of a superhero, the fundamental purpose is to influence more people and absorb more faith. .

At the time of continuous harvest, Shen Lang will also receive it.

Superhero appearances are actually double-edged swords. The more you appear, the more things you will get, and the more you will be analyzed and be shackled.

Therefore, he does not talk much in order to avoid falling into the handle.

"Everyone is safe. The situation here can only cause you to talk to the police. I have to leave first. I have to find out this evil superman!"

"It doesn't matter if you want to ruin my reputation. It doesn't matter if you want to harm me and swear at me. But you can't hurt those innocent people, you can't ruin the reputation of the superpower, and you can't let everyone be hateful and fearful about the superpower. !"

"In our words, a mouse has broken a pot of porridge. I have to find out the mouse now, and I can't let him break the reputation of the superpower!"

Shen Lang finished the last few sentences and left flying directly.

He has always been vigilant about the surroundings, whether he is saving people or the last performance.

The white strong man is nothing, and the talent behind it is worthy of jealousy.

To destroy his reputation, it should be only one of the purposes, and certainly there are other purposes, including killing him!

Shen Lang had to guard against it.

However, until now did not sense the situation of strong people approaching.

It's just that his current situation here is broadcast live. The other party does not need to know it personally. Even if people are on the West Coast, they can learn about the East Coast.

What he needs now is to leave and hide himself.

In the case of the enemy's darkness, I must first hide myself in the dark to find the enemy better.

For Shen Lang, everyone is warm and congratulate him to leave.

Everyone on the Internet, after the speech of Shen Lang, angered and criticized those evil superpowers.

Originally, everyone thought that only Shen Lang was such a superhero. Now there are still bad superpowers here, and many people feel the crisis.

The bird is hiding.

For superheroes, everyone is both fanatical and will certainly be jealous, but ordinary people will not have such sensitive and direct taboos as politicians.

Therefore, the behemoth crisis has been lifted, and Shen Lang should slowly follow the procedure and become a legend. More appearances will raise questions.

Now that we have not reached the stage of aesthetic fatigue and doubt, and have come out of the bad superpower, there will be a big change.

If there are bad people, you need to have a hero to deal with!

After all, this is not a bad person that ordinary police can deal with. The world needs a good superman like Shen Lang, a real superhero!

The fans of Shen Lang's fans are beginning to appeal to him.

Calling on the world to respect and trust Shen Lang, and not to have any incomprehensible problems, all counted on the head of Shen Lang, it will give the bad guys a chance.

Call on governments not to suppress and doubt the waves, should help and provide information so that he can better protect the world.

Chapter 1554 - Deep into the tiger's den

After Shen Lang himself left the scene, he did not pay attention to public opinion information. Anyway, he can now gain more and more faith, indicating that the show is right.

What he needs to know more now is who are these people?

Judging from the situation just now, this is not a person. What is of confidence to him is a strong person who is not inferior to him, and there are white people with a level of half a cent.

Does this mean that there is an organization that exists?

After he killed the elders of Tula in the Antarctic, he also gained their memories. Tula did not lie. In their impression, there is really no big god-level power in the world.

However, their information can only be used as a reference and cannot be used as an exact authority.

Because Tula, Coba, and Copan are similar to Xu Yuyue's situation, they are hidden and cleaned for a long time. For the world's information, understanding is very limited.

For example, they will not know Xu Haoyue, and Xu Haoyue will not know them.

Even in the West, perhaps you don't know that Count Dracula is still alive.

Similarly, in Europe or Africa, there are still old monsters alive, and comprehensions in other places may not understand.

Even if the Shenlang has been very high-profile before, but the level of influence is also the big gods who have turned the gods. The strongest in the Western world, the contemporary Pope Constantine V.

This also made him think that the strongest comprehens on the earth, that is, Constantine V, is half a level.

This time, it is because the high-profile publicity of the world has affected hundreds of millions of people, which has triggered the attention of these hidden old monsters.

Just when Shen Lang analyzed who they were, he suddenly sensed a message and gave him an address to let him go there.

This surprised people in the air, and when he was about to trace, the traces disappeared and the other party disappeared again.

It can be imagined that the other's mental strength must be above him, so that it can be done so easily.

Shen Lang also hesitated.

Do you want to go to that place?

Just a game of the other side has already made him break, but he has gained a higher reputation.

But for those people, perhaps this is just a temptation. After all, the Statue of Liberty can be dismembered and destroyed, and the people who are waiting for him will not be weak.

I did not directly deal with him personally!

What about this time?

In this place, is it ambushing to wait for him to come to the door?

If you don't go, it's not a faceless face. The other person can search for him accurately before he searches. Can disappear immediately after the letter, this hand proves that it is not difficult to find the door.

Since there will be a battle sooner or later, then go to the door!

Shen Lang contacted the wind and no time, and told her about the situation here.

He is also not sure whether this will be delayed or not, and they must be allowed to have a bottom. In addition, it is also necessary to let them pay attention to safety. Since there are such strong people, it means that the earth is not a few of them can go sideways.

Of course, including the fact that Feng Wuji knows the situation, he can better help him build momentum for the outside world, gain more fame and bring more faith.

After comparing the map, I quickly found the place, and Shen Lang directly rushed over.

After arriving at that address, I found out that it was a downtown area. This is a building. It looks a bit history, but it is well maintained.

“Mr. Shen Lang, I met again.”

The white strong man who had appeared on the torch of the Statue of Liberty appeared at the door with a bit of a strange smile.

Shen Lang is a bit illusory, very strange feeling.

I used to feel it when I was on the torch, but I didn't have time to go into it.

Looking at it now, you can clearly confirm that this white man is very young, probably about 30 or so.

And his strength has reached the level of half a fairy!

It's not a sneak peek at the heroes of the world, but a 30-year-old who can cultivate to this realm. Even in a resource-rich place like Nakajima, it must be a genius.

With the resources of the earth, the old monsters such as Tula, Coba, Copan, and Xu Yuyue are all accumulated over a long period of time.

It is almost impossible to reach this realm. Even if it is Shenlang himself, it has the opportunity to grasp the first opportunity. If it is not the adventures and resources harvested in other worlds, relying on the resources of the earth, even if the aura is more than before, it is impossible to More cultivation into this realm.

In addition to the age conflict, there is a strange feeling that this white strong man's eyes are not right.

Simply put, the feeling for Shen Lang is that this is a young body, the soul of the old age!

It's not the same as his reincarnation. It's a combination of both. It seems that this person has won a young body!

Shen Lang did not care too much. At this level, if there is a problem with the flesh, in order to maintain it, it will not be unexpected.

"You can call me Brooks."

Shen Lang did not ask him questions. The white strong man introduced himself and broke the embarrassment of the cold field.

Shen Lang nodded and did not chill with him.

Because this Brooks doesn't match!

The semi-fair realm has surpassed the classification of Western S-class superpowers and is the world's top figure. But now the Shenlang is already the peak of Daxian, and it is almost like the realm of the gods. How can you see him?

After entering the elevator, Brooks continued to introduce with Shen Lang.

"You must have discovered that there are no people in this building. This is to welcome you, let them go out of the ordinary people, they do not know your existence."

"You don't deserve it."

Shen Lang's impolite sentence directly caught Brooks.

Brooks always had a weird smile, and now it can't help but solidify.

"Oh, of course, you are a powerful superpower, I don't deserve it."

He laughed at himself and then did not continue to introduce it.

He took the elevator that entered, which was a special one, not up, but down, and continued for five layers before stopping.

From the negative five floors, the outside is well built and there are no problems like humidity.

Brooks has adjusted his mood. In addition to receiving the Shenlang, he should have the responsibility to introduce it. So even if Shen Lang said that he is not worthy, he just sighed for a few seconds, but he still has to continue to introduce it.

“To see you today is not an ordinary person, an unimaginable person. The real \*\*\*\* makes the adults, and he still wants to respect Mr. Shen Lang, so as not to offend the gods.”

When it comes to God’s making of adults, Brooks is full of admiration. It is a heartfelt admiration. Although Shen Lang can’t feel it, he can guess that he should be producing a strong belief at this moment!

Real god?

Chapter 1555 - God, acquaintance

When he went further, Brooks stopped and there was a door in front.

The door was closed, Brooks kept respect, or sorted out the appearance, and signaled that Shen Lang also maintained respect.

Then he came forward and prepared to gently knock on the door.

At the door, he hadn’t knocked at the door, probably got the instructions, and he respectfully bowed slightly, then pushed the door open.

Shen Lang followed him and came. After he opened the door, he was not polite. He went straight in.

Brooks still wants to say a few words, but it is too late, just follow the back.

“Respected God makes adults, Shen Lang has already...”

His words have not been finished yet, and some people have already waved their hands.

“Shen Lang, I met again.”

That voice is familiar, and the appearance is of course familiar, and there is more than one.

Shen Lang suspected that they might have been hundreds of years old singers who have been born from generation to generation. They have been associated with religion from God, but they have not thought of it. They are actually two acquaintances.

These two acquaintances have been surprised, and even more surprised is the identity of acquaintances!

These two acquaintances, one is Pope Constantine V, and the other is Archbishop Paul.

When everyone went to the mainland of Nakajima and left the Golden Valley to ban the land, they went forward together and then stopped in Tiandu City.

After that, they were separated, and Shen Lang was separated from Qiao Yuxian. They were not seen again after the Archbishop and Pope were scattered.

Many people have never seen it again. Later, when Shen Lang saw Qiao Yuxian and others, there was no news of them.

Now that everyone is back, the Pope and the Archbishop of Paul are coming back together. There is nothing strange about it. After all, it is also the resources of their respective teams.

The strength of both of them is far better than that of other earth monks. They are not willing to work together. Finally, they come back because there is only one way.

So I really saw them here, Shen Lang was just a little surprised, and even more surprised is the change in the identity of two people.

It is Paul Archbishop who speaks now, but Pope Constantine V is standing next to him!

The identity of the two had a reconciliation. Originally, the Pope's identity was higher than that of the Archbishop. Constantine V also reached the semi-fairy realm, and Paul was at the peak of the divine state.

Now it is a reversal, and Constantine V is in front of Paul Archbishop, just like Brooks, who is respectful.

“You are not Archbishop Paul.”

Shen Lang returned a sentence.

He is just surprised, and will not doubt, will immediately know the answer.

The situation should be similar to Brooks, but Brooks is a young body. And Archbishop Paul was taken over!

“I am Paul, not Paul. You can also be a Paul, after all, we used to be friends.”

Archbishop Paul kept a smile, but it is obvious that he is now very relaxed and natural, and even invisible is a bit overlooking.

The former Archbishop of Paul was very respectful of Shen Lang.

Shen Lang is silent.

To say friendship, he and the pope are not much. With all the strong in the West, they are friends with Archbishop Paul.

The situation is very obvious now. This person who has won the Archbishop of Paul is a direct fusion of Paul's consciousness, or a combination of his memory.

Therefore, he can know the Shenlang like Paul, and clearly recognizes that it is the same voice, but the real Archbishop of Paul can actually be killed and swallowed by this person.

With Shen Lang's friendship with Paul, there is no point to avenge him.

What's more, the Archbishop of Paul, the Pope's leader, seems to have not been defeated, or the original Constantine V, but there is no resentment.

Of course, then again, the Pope of Constantine V is only a semi-fair realm, and this strong winner of Paul is probably the realm of the great gods, and does not dare to have any resentment.

“Lord Shen Lang, God made the adults, by the body of the Archbishop of Paul, from the kingdom of heaven to the world. It is to purify the evil of this world, to judge all sins...”

The Pope’s words have not been finished yet. It is already the “Paul” of God, and he waved his words.

“Let’s go out, I will say a few words with Shen Lang.”

Paul made this words to be very polite to them, and also a form of respect for Shen Lang, otherwise he would directly communicate with Shen Lang consciousness.

The Pope and Brooks, who dared not speak after coming in, revered with respect.

Shen Lang felt a bit more, and also felt why the Pope would be respectful because of the benefits!

He was also a semi-prestigious realm on the earth. He was a top-ranking strongman on the earth. He went to the mainland of Nakajima, and he was at the same level as Wei Qingcheng and Huoshan elders, not to mention the everywhere, at least half of the fairy. Not too rare.

And now the Pope has made a breakthrough, it should reach the peak of half a fairy. This is on his own, and may not be hopeful for a lifetime.

After the two of them went out, Paul made a gesture to sit down.

Shen Lang is also not polite, just sit down in the past.

It has been blocked here, and they will not hear them outside. They don’t need much mystery, and they can communicate directly and verbally.

“I saw you through.”

“I also saw you.”

The two said the same as a riddle.

“You, this god, can’t help me. If God is bringing the body, I am not an opponent, now...”

Shen Lang said that he broke his identity.

God brought the body of the Archbishop of Paul to the world from heaven.

The Pope’s words reminded him that this is not a direct victory, but a god, a avatar!

The body of this \*\*\*\* is the super power of the great \*\*\*\* level, and naturally it is also the mainland of the island. But did not come to the earth personally, is a metaphysical avatar occupying Paul’s body, came to the earth in this way.

This determines that his \*\*\*\* is very powerful, can be like the great god, easily find the sinking waves, and the message is hidden.

But his real strength is to be much weaker. It is for this reason that he will converge quickly, and he will not face the Statue of Liberty and Shen Lang.

“When the body comes to you, it is not God, but God. Will God come to you in the lower bounds?”

Paul made this statement, which is equivalent to indirectly admitting the conjecture of Shen Lang.

In his words, he is also full of pride. His world is the upper bound, here is the lower bound of the lower level, he is also a strong one in the world, to come to this lower bound, is God!

## Chapter 1556 - God's purpose

This person wants to use Paul's gesture to talk to Shen Lang. In this case, it may be more harmonious.

But he is not Paul after all, even if he uses the same body, the tone is exactly the same, but the soul is different. Under his tone of voice, there is a superior who does not consciously reveal.

Whether it is a self-proclaimed \*\*\*\* or a god, this is the emphasis of his separation from the Earth.

Perhaps he helped Constantine V to improve his strength, or he helped Brooks complete a new physical life, but for him, that is God's charity to mortals!

Now the Shen Lang in front of him has already known and appreciated from the integration of Paul's body and memory.

Now the strength of Shen Lang makes him a bit stunned, but that's all, he is still a superior god! He is still able to hide and let Shen Lang find it.

"The body is disdain, or can't you come?"

Shen Lang asked a question and then asked himself.

"It doesn't matter, whether you are disdain or not, if you come to the earth, it is not the place where you speak. In general terms, the earth now, this is my territory!"

Shen Lang originally thought that this was a strange hunter that had lived for hundreds of years, or continued to be a strong person through various means. If you let go of strength, it would not be too far from his previous life, just like before. See the three elders of Tula.

Then he is willing to regard them as the hidden patron saint of the earth. As long as they are not holding the bad heart, everyone can coexist peacefully.

He will not pursue the liberty of the Statue of Liberty, but as a temptation and test, only need to follow the well water without breaking the river, others can say.

After all, this is the Western realm. Perhaps these old geeks will think that he is an oriental young monk who runs here to show his muscles. It is an offense that has stepped on the border.

If this is the case, Shen Lang is willing to leave and not interfere with their problems. This is nothing.

But now it is different, even if just Constantine V and Brooks are the strongest in the West, but this \*\*\*\*\* who uses Paul's body is from the mainland of Nakajima!

Shen Lang will not regard the earth as his own back garden, but whether he can go to a different world, this is the home of his two generations!

Homes can't be lost!

Like the elders of Tula, they also saw through it. Even if humans fought and invaded, they were internal contradictions. They transcended the concept of the country and the race.

But if it is a different world racial invasion like a behemoth, it will still stand up and drive away.

Shen Lang is even worse than them. Even if he is a friend with the Emperor, he will not be soft with the behemoth. He will not develop the Earth together with the Emperor.

Now this \*\*\*\*\* is the same.

The Pope is pleased to come back, and he is forced to become a lead party. This is all about selling the earth.

Judging from the strength of the Pope, the forced composition is not big. It should be the same as the previous Ge Luting and Bao Puzong. This is the person who has found their homologous, so they are willing to go!

In the name of God, this avatar has won Paul's body back. Whether it is disdain or inconvenience, it will never be because of fear.

Because even if he is not the strength of the great \*\*\*\*\* now, there is definitely the level of the Great Fairy!

It is the Pope's individual that it is not difficult to get the memory of Qiao Yuxian and others, and to capture their memories, let alone Paul.

Regardless of what the Pope and their plots are, there is no essential difference between Shen Lang's guess and the purpose of Bao Puzong. It's nothing more than trying to take the planet for himself!

The earth's other comprehension resources are scarce, but there are billions of people. If this is completely controlled, it is also a great resource...

Population, resources!

Shen Lang just opened the earth as his site to defend, but suddenly thought of the problem of population resources, then I understood everything!

Billions of people are huge resources, as evidenced by the power of his vast faith in these days.

The light gods have mastered the power of faith. Their holy paintings and holy waters all contain the power of faith. This is one of the reasons why they can have many masters and keep the millennium.

The Pope's search for it in the mainland of China is naturally the same ancestor of their bright gods.

There are two possibilities, one is similar to Ge Luting and Bao Puzong. After the earth has soared, the great \*\*\*\*\* of Bao Puzi has re-established himself in the mainland of the island and opened a sect, extending to a thousand or two years later.

The other one is the group that Gao Hanqiu and Lin Biao had collectively traveled hundreds of years ago. After standing on the other side, they opened the sect to the present.

Judging from this gesture of the gods, this should not be the descendants of the pope and the archbishop who went to the past without a return to the sea. But these centuries, there should still be a lot of old things.

He is tall and on his own, and he is very likely to be the former!

The bright \*\*\*\* of the bright gods of that year flew to the mainland of Nakajima, and also left the disciples' descendants to continue to the present. Then meet with the Pope and come back to the world.

For the two thousand years, it is very likely that the disciples and descendants of the gods and gods will have the means to inherit the faith of the gods of the light gods!

This is the root of their attention to the earth.

I can even further associate Perhaps the founder of Guangming Shenjiao, the earth of the gods of the mainland of China, has supported an agent and developed an agent on the earth in the way of disciples or disciples. The harvest of the power of faith.

In the long history, some key moments, such as wars with other religions and countries, may be communicated to the gods of the upper bounds through prayers and the like, to help them in a detached way, or to travel long distances. Give strength to support.

When it is powerful to the level of "God", it can absorb power remotely, and it can also give power remotely.

Just like the current self-cultivator, you don't need to reach the realm of the deep waves, you can also help an ordinary person without revealing the traces, let the ordinary people display the super power scene, but the problem is strong and weak.

If this conjecture is possible, then other religions may be similar. Monotheism is the power of concentrated faith. Polytheism is the sharing of many \*\*\*\* resources of the same faction. There is always one for you.

Folk beliefs are the localized range of local learning.

These are not difficult to understand, before Shen Lang has already thought through. It is because of this, it is associated with why the other party will find him, why is it trying to corrupt his reputation.

Because Shen Lang publicly appeared before the camera, he declared to the world the attitude toward the great powers and the behemoths. He became an unprecedented superhero for a time. For himself, he gained great faith.

For them, the faith of many believers has been intercepted! In addition to many devout believers, many general believers may return to their religion after a while, but these days also affect the worship of the waves.

The city said that this is a broken road!

Chapter 1557 - Pig theory

When it was said that it was too late, Shen Lang's thoughts were only a moment. Paul's ambassador, after listening to his words, was a bit surprised at first, and then showed a slightly ridiculous smile.

“The earth is your territory? Are you sure?”

He himself has integrated Paul's memory, plus the Pope and Brooks, they naturally understand the sphere of influence on Earth.

The rise of Shen Lang has only been a few years, and it has really affected the whole world, and it has only been in the last one or two years. This is just an influence, not a rule.

So when I heard Shen Lang say that the earth is his territory, he laughed directly.

Their religion has such a large number of believers, and they have not yet regarded the earth as their place. After all, there are other competitors.

Just such a young man, dare to be so big!

“It’s not certain that you will not be able to blend in.”

The tone of Shen Lang has cooled down. “I don’t care about you today. They want to lead the wolf into the room, or their own church. If you influence me and mess with the earth, then don’t blame me for yelling at you. District Yuanshen!”

“Bold!”

The tone of Paul’s sacredness also cooled down and directly scorned.

“A mortal, relying on the adventures of the upper bounds, has a bit of power, and does not know how many pounds he has. In our eyes, this is a ignorant pig farm. The pigs are useful and not. Used pigs. And you...”

He paused and looked at the waves without disdain.

“You are just a pig that you think you can turn over! If you want to kill a pig, why do you need to take it yourself?”

Shen Lang is a two-generation person. In the early stage of awakening, this world is still dominant. Some can not do it even if they can see through it.

However, with the continuous improvement of his realm, the cultivation of the mind is slowly reintegrating and recovering, and he will not be angry at any moment.

For example, the army of the country before, and the elders of Tula, angered him. He directly called back, and taught the other side, including killing.

But just the words of Paul’s ambassador made him angry!

Like his previous guess, for the legendary ancient demon, perhaps the earth is really a farm! When the population base is small, they may spread some civilizations, leaving a fire of faith, and in essence they have to wait for a long harvest.

Perhaps there is a better god, it will be like the shadow of the people of the country of God, the \*\*\*\* of the difference, that is, the attitude of Paul God, will not look at everyone!

However, the anger is only a temporary one. Originally, Shen Lang saw all of this. When I was in Yuxianmen, I was also personally experienced and experienced.

A Yuxianmen in the district, arresting some of the lower-level civilizations of the self-cultivators, is also as a scorpion like captivity, let alone these god-level figures?

For the great god, let alone the ordinary mortal such as the ants, even if it is a semi-central level, it will be like a pig!

Use his own analogy, and now use the power to influence the absorption of faith. Compared with these, the better God is the God who will protect the believers.

If he is not in a world that is not his own, such as God, it is impossible to have any feelings for the aborigines there.

In essence, the Shen Lang can be released but calm, but it is still uncomfortable for this Paul God!

Because the current Shen Lang, like all people on earth, is regarded as a pig by God's eyes!

Feeling the wrath of Shen Lang, and seeing that he did not speak, Paul made a smile of satisfaction.

In his view, Shen Lang is very humiliating, but he has no choice but to give in.

This kind of grievance is a kind of enjoyment for him!

For those who are high, it is not to kill you, but to make you desperate and helpless, it will be more pleasant.

If you have power, if you have power, money and money.

Shen Lang also laughed, and from the attitude of Paul, he guessed a possibility!

That is, Paul God made an underestimation of his strength!

Perhaps because of the arrogance mentality, let him look down on the earth monks, do not believe how high the earth monks can reach. It may also be a few times of induction letters, Shen Lang can not find, bring his confidence.

Shen Lang can be clearly sensed, and now Paul as a god, is also the strength of the Great Xianfeng!

Why did he choose Paul instead of the Pope? He is not known. Perhaps Paul's body is younger and more promising, but after all, even the semi-fairy realm is not yet available. Now there is the peak of Daxian, which is already the blessing of the gods.

Of course, the other party's mental strength is very vast, it is because of the blessing of his deity!

But for Shen Lang, the deity is in another world, really fighting hard, the impact is still limited. With his strength, it is really necessary to kill this Paul's body and even marry his god, they are sure!

Paul's ambassador may also see that his strength reaches the peak of Daxian and Daxian, because of the confidence of the god.

"This \*\*\*\* makes an adult, you say we are all pigs, isn't that a joke?"

The words of Shen Lang let Paul God make a sneer: "Jokes? I was still joking with you, but unfortunately you don't know how to lift, you are disrespectful to this god!"

In his view, Shen Lang suppressed his anger, which is a gesture of softness.

He is not satisfied enough, this gesture is not low enough!

“I want to remind you that you think that human beings on earth are like pigs, but you gods make adults, avatars, but they live in the human body of the earth, and you still enjoy it. It seems to like pigs?”

Paul God made this want to see the snoring of Shen Lang, and did not expect to turn around, even said that he likes to be a pig!

“Hey! The pig that will be arguing is still just a pig!”

He didn’t think about this problem, and he didn’t have time to argue. So he didn’t argue directly, but ignored the waves in a high-profile manner.

Shen Lang continued: “If you are killed by God and God, if you are killed by the earth you have reviled as a pig, does it mean that you are not even as good as a pig?”

“If you want to find death, you can try it!” Paul looked cold and cold at the waves.

When I spoke this sentence, a vast expanse of spiritual power directly crushed the past into the front of the waves!

Already outside the Pope and Brooks, I can’t hear and know all the things inside. The current mental power is not directed at them, but just a little spill out, they have already felt the heart arrest, the back spine Cold, there is a feeling of shivering.

God makes you angry!

They all feel that Shen Lang should have been obedient to the post on the ground. As a human being, how can Shen Lang be strong and how can he compete with God?

Chapter 1558 - God makes melee

In the inner room, Shen Lang is still standing still!

God has undoubtedly crushed him with spiritual power, which is also a wise move to exert its strengths.

But in terms of mental power, Shen Lang has always been beyond his own realm!

For example, recently, he absorbed the elders of Tula, Coba, Copan, and the beasts, all of which were comprehensively swallowed and absorbed, and the comprehensive skyrocketing. But the passive absorption of the power of faith is simply a reaction to the improvement of mental power.

This is exactly what the other party cares about and taboos.

Both sides have their own reliance, and the other party directly exerts the strengths. Shen Lang does not play pigs and eat tigers, but directly hard!

After the wave, the two outsiders felt the pressure of the great pressure, and the Shenlang seemed to be like a spring breeze, and did not feel the pressure.

“Try it and how!”

When Shen Lang said this, the man had already reached the front of Paul’s ambassador, and he directly pinched his throat!

It can be so smooth, it is a bit of an accident.

Probably this \*\*\*\*\* made him feel that his mental strength could be directly crushed by his pleading for mercy, but he did not even think that he dared to directly touch God, or did not expect him to turn his face so fast.

Therefore, at this moment, in addition to the mental attack, Paul God did not have a little defense. Everyone was very close. Under the speed of Shen Lang, he directly grabbed his neck and pinched his throat.

Paul’s eyes could not help but round out. He was incredibly unbelievable, as if he had been arched by a pig.

This is not his own body. Naturally, it will not be cherished. But now it is necessary to carry this carrier. If Paul’s body is killed, his \*\*\*\*\* is nowhere to be placed, and there is no way to talk about it.

Now that he has lost his chance, Shen Lang can pinch his neck with his strength!

At this time, it is too late for him to defend against counterattacks. The only thing that can be relied upon is still mental strength.

It was just that he was fully smashing the vast impact of the past, so there was also a wave of overflowing pressure to go outside.

But obviously it didn't work, so I changed it now and changed it to a special one!

For a time, a strong mental power, like a sharp steel needle, directly into the mind of Shen Lang!

Although the mental power is invisible, the nature of the attack is similar. The larger the scope, the more scattered and the more concentrated. Changed to a general monk, this way, directly hangs, it is like the effect of the head being pierced.

Even with the strong mental waves and defense, it is a sudden feeling of a sharp headache.

For the strong, even if you can't kill it in one fell swoop, as long as you can create an opportunity, it is enough.

While attacking the sinking waves, Paul's \*\*\*\*\* also quickly defended and retreated. At the same time, a white light appeared in the palm of his hand, directly pressing the chest of Shen Lang!

The three-pronged attack, although it did not let Shen Lang left and right, but also let his neck out of the hands of Shen Lang, avoiding the threat of life.

At the moment, the deepest attack, the most serious attack, or the mental attack that penetrated into the brain like a needle cone, the white light in front of him, he did not care too much. As Paul slipped away from his hand, it was also unexpected. in.

In short, he just didn't want to kill Paul's life directly!

Otherwise, there will be no more nonsense. After catching the key points, there will be so much nonsense. This is the practice of villain in the movie, and it will often be killed.

He just had to give Paul a warning and let Paul realize that it was not impossible to kill him.

When Paul's \*\*\*\* retreats, Shen Lang is also a quick flash to avoid the white light in front of him, but the mental attack in the brain is lingering.

“This is your ability?”

Paul made a sneer, and he knew that the next mental attack was to hurt Shen Lang.

As for himself being pinched to his neck, it is of course because of the underestimation of the enemy.

Therefore, in such a fight, the face is flickering and winning, but in his view, it is further testing the bottom of the wave, it is not impossible to control.

“I can't bear anything, it's more than enough to deal with you!”

“The mouth is hard!”

Paul God once again disdain, he felt that Shen Lang's head was not hurt at this moment, and he insisted on saying that it was hard.

Since the mouth is hard, then hit your clothes!

He did the same, and again and again attacked the past with spiritual power!

The attack just like a steel nail, but also stabbed in the brain of Shen Lang did not dissipate, and now it is connected in two ways, it really is the feeling that people will hurt the explosion.

At this time, Shen Lang gave him a completely different experience!

Shen Lang, while defending himself, took the iron rod out of the other side and directly slanted down from the angle of a smashing drill to the rib of Paul's ambassador!

Paul is concentrating on the consciousness of two mental forces attacking Shen Lang. He is also prepared for Shen Lang. Only two people are now a few meters away. If they attack, they can get defense without waiting for him.

I didn't expect the iron rod of Shen Lang to grow longer, and when I came out, I got to his body!

The result is that two "spirit steel nails" condensed successfully just about to "nail" into the head of Shen Lang, his body has already hit the iron bar!

In the twinkling of an eye, Paul's body was immediately smashed out!

He is defensive, so this stick can't just kill him directly.

But the power of this stick is not only blocked by defense, so his body is smashed onto the wall, making a heavy noise, and then slipping down.

The body is affected by such an impact, and his mental power cannot be concentrated. Even if the thorns of the spirit of steel nails are condensed, it is difficult to stab the waves.

In the next moment, Shen Lang's iron rod followed, and his head slid down from top to bottom!

Paul God lifted his hand and white light appeared in his palm, directly across a layer of white light, blocking the iron bar that fell down!

Can block, undoubtedly shows that his white light is quite extraordinary, but the impact still exists, but also put him down on the ground.

The iron bars above his head are getting bigger and bigger, and the pressure is getting bigger and bigger!

As a last resort, Paul God can only push his hands up.

This kind of resistance is to let him succeed in blocking the pressure of the iron bars of Shen Lang, but it is already innocent to estimate the spirit of attacking the waves.

“Hey!”

The Shenlang iron bar continued to exert pressure, but the man was already close to the front, and his foot was on the face of Paul!

Hit people do not face! It is not only pain, but also psychological humiliation!

How did Paul’s ambassador who used to make Shen Lang a pig suffer such a foot?

“Shenguang!”

Chapter 1559 - Shenguang stagnant water

As he finished the “Shenguang”, suddenly there was a white light in Paul’s body!

It was like the white light that he had just released from the palm of his hand. After the white light appeared, he had already stood up quickly, and then did not evade, and went straight to Shen Lang!

Shen Lang just had a foot on his face, that is, to humiliate him. After the completion, the person has already retreated a few meters away.

At this moment watching him come over, the iron bar once again ruthlessly smashed the past!

This time, Paul did not pay any attention to the attack of the iron rod, and the effect was also very unexpected. When the iron rod was concentrated in the white light, it seemed to be caught!

If this is a strong protective layer, it is like a hard armor. Even if it can defend the inside of the body, it will not be injured. The powerful impact will also hit the body and fly out together.

But just now, when the iron bar hits the white light, it is not a solid hard shackle, but a gentle absorption of the venting, which causes it to have a feeling of falling into it.

To put it simply, if the iron bars are smashed with bricks and dirt, they may smash them; if they are wrapped in iron, they may not be broken, but they will be shot together with the iron and body of the package.

It is now like hitting a layer of thick foam first, and directly destroying the force.

There is only one chance for Shen Lang to take the shot. The next moment, Paul God has already arrived in front of him!

The Pope and Brooks, both outside, just couldn't hear the movement inside, but the impact on the wall can still be felt affirmative.

This made them all relaxed and embarrassed. They didn't think that it was their \*\*\*\*\* that made the adults hit the wall by the smashing waves. The instinct thought it was that the waves were being abused.

When Paul made it to Shen Lang, his hands had already been pushed forward in advance.

His palm is still white, but now there is white light in the whole body, and the light that appears in the palm is not a layer of palm, but the feeling of shooting directly in front!

Although Shen Lang did not know what his "light" was in the white light, he did not dare to neglect.

He quickly put away the iron bar that had just not worked, and there was a dead water whip in his hand!

The stagnant water whip is directly facing the white light in front of you, going to the palm of Paul's hand!

For the white light that has already arrived, Shen Lang is also defended at every level.

White light is invisible, and it can't stop the stagnant water whip that corrodes everything. But when the stagnant water whip has not touched the palm of his hand, white light has already hit the side of Shen Lang.

A layer of protective cover formed around the Shenlang was directly infiltrated!

If this white light is also a metaphor, then when attacking each other, it should be hard and hard. But now white light is directly infiltrated by his protective cover until the skin!

The reaction of Shen Lang is very fast. Although he still has the holy armor and the "King Kong is not bad body spirit", but for this somewhat strange white light, he did not try his best to avoid the trick.

At this time, for the sake of safety, he still flashed to the side to dodge.

However, in this way, the dead water whip that had already arrived at the palm of Paul's palm was also withdrawn because of his flash.

"Are you hiding?"

Paul made a sneer and turned to chase after the waves.

His speed is not so fast, anyway, everyone is in this room, unless Shen Lang wants to escape from this room, and there are two other people outside to guard.

And now it is to avoid, it is still a normal tactic, if you run away, then the shame of defeat.

He turned into a hand and crossed it, and immediately arranged it into a fan shape, then the two white lights began to close!

Seeing this meaning of him, he is very confident in this "Shenguang". Once he is closed, he can crush the waves.

For Shen Lang, this is indeed a test. It is impossible to escape. It is completely imposing, and what has just been said has become a big talk.

If you want to be hard, you must see the real chapter. This time, whether it is the other party or himself, once lost, it may be injured.

He was also prepared to see the fan-shaped circle of the light, he went directly to the middle, and then the dead water whip directly smashed out!

Paul also made it clear that Shen Lang wanted to be hard against him.

This gave him a smile, and immediately a hand that was unceremonious directly caught the dead water whip that had already arrived in front of him, and the other hand of the light continued to crush the body of Shen Lang.

In his tactics, Shen Lang either stands still and bears the power of God, or he must evade quickly.

He took a hand to catch the water whip, and it was not fanned. It gave Shen Lang a chance to dodge.

But as long as he grabs it, this is to take the weapon over!

In the eyes of his god, it is a minute to destroy the waves. Now it is a fun thing to take a weapon and play it.

So now he is more like to use Shengguang to drive Shen Lang to evade The next moment, the white palm of the hand, has seized the dark and dead water whip!

At the same time, another divergence of the divine light has also driven to the side of Shen Lang.

Paul's ambassador is a person who has seen the world. Even if he doesn't know what the stagnant water whip is, it can definitely be a magic weapon for the grades after he has collected the iron bars.

Therefore, when he grabbed his hand with his hand, he was already protecting himself with a layer of white light. He also used this magic light to hold the magic weapon and take it away with ease.

At the moment of the start, the white light completely enveloped the stagnant water whip, as if it had directly penetrated the past.

But at the moment of contact, he felt the sudden and severe tingling of his palm, and he could not help but instinctively let go.

In the end, he reacted very quickly. He found that something was wrong. He did not rush to check the injury situation. Instead, he used the light of another hand to speed up the sweep of the past.

Then the eye looked at it and was immediately taken aback.

The severe pain, not the black lashes, there are fine thorns and barbs, and there is something like a violent poison. After the contact, it was just a moment, and it directly rotted a large piece and exposed his palm to the forest. White bones!

There is no skin on the flesh, and even the blood is gone. It is directly on the bone. If you touch it for a while, it is estimated that even the bones may be corroded!

"You are this thing... actually from the meditation?"

From this, Paul God has recognized the origin of this dead water whip.

He may not have seen this whip, but he must have been to the meditation domain and have seen the power of the backwaters of the meditation.

At this time, Paul felt a sharp headache!

## Chapter 1560 - Wolverine

Paul God has dealt with many waves in the past, and Shen Lang is of course a full-scale attack.

Just as if he had been forced into a fan-shaped encirclement, the stagnant water whip was a last resort, but in fact he was still preparing for a mental attack!

The first wave was hit just now. Although the injury was not too heavy, it was just a headache. The second wave of attacks was also solved by him.

But for Shen Lang, this is the city that must be pulled back!

At this moment, Paul God attacked the main light, and Shen Lang was in turn added with mental power.

Just the front of the dead water whip and the light of the face, let him also feel relieved. Although Shenguang can penetrate the attack, it can't help but get a dead water whip.

As long as you are exposed to the stagnant water whip, there is a gods protector, still to be corroded!

The corrosion of the stagnant water whip not only hurt the palm of Paul's hand, but also surprised him.

And this is an opportunity for Shen Lang!

So when he asked "the meditation", Shen Lang's mental attack had arrived.

Like the way he used before, Shen Lang is also a bundle of spiritual power, like a sharp steel nail piercing his head!

The injury to the palm is more to surprise Paul, and he does not care too much about this injury, but wants to figure out the origin of the stagnant water whip.

But now the headache of mental impact is to make him angry and angry.

This is a kind of learning. This is to imitate his attack and attack him with his attack method. This is intentional humiliation!

What is even more abhorrent is that because of his intention, he has already been attacked successfully!

This is more difficult to accept than a palm injury or headache.

What made him very depressed was that his other palm attack was not successful.

When he saw the injury on his hand, Shen Lang did not know what kind of way he had used, and he had already avoided his light.

When he was angry and angry, he did not dare to catch the stagnant water whip, changed the circle, and once again reached his face, this time it came directly to the door!

Just after the touch of the hand, and found that this is the backwaters of the meditation, Paul did not dare to neglect.

Because this is not a fixed long whip, although there is a whip shape, it may also fly in the form of water!

When he arrived at the door, he was not afraid of disfigurement, but if he directly eroded his head and melted his throat, the body would be destroyed.

So he can't take a headache, can't take care of anger, and must quickly evade it.

Although he still has a light body, he does not dare to try the law.

This is just like the Shenguang who just avoided his light.

And Shen Lang's stagnant water whip is in the hands of execution, has already taken the initiative, and once again attacked!

Before Paul's ambassador, the second wave of spiritual attack on him was to condense a bunch of sharp spiritual steel nails.

The result has been resolved in advance by him. Now he certainly will not repeat the mistakes of others. This second wave of attacks is not to re-converge the bundle of mental power to attack, but to play directly on the original basis!

The bundle of mental power that has been successfully attacked, Shen Lang left a backhand, and now it is directly letting it burst!

If you don't start to get together, it's hard to hit, but now it's already in his mind, it's much easier. This burst opened, although the share was weak, but the scope of the headache was even greater.

Paul, who is leaning back and backing away from the dead water whip, hits the face and feels the headache of the spread of the brain. It is even more depressed. He broke out immediately!

The retreat is the attack of the stagnant water whip. For the mental power, he still has strong self-confidence, and the counter-attack is erupted. The mental power is directly like a substantial snake, and he has drilled toward the head of Shen Lang.

He directly gave up the confrontation against the spirit of Shen Lang, but instead defended himself.

In the process of retreating, there was another change in his hand. First, the white body of the body was converging, and then the hands became two strong white lights.

Then the white light became a cross of light waves, big or small, covering the sky and covering the past with the waves!

But in a sudden, the Shenlang disappeared without a trace!

All the cross light waves have a strong impact, but they are thrown empty, and the result is to completely blast the back wall!

The impact continued to spread out, so that both the Pope and the Brooks outside were shocked. They saw everything from the ruined wall.

But this empty-fashion is also doing the destruction, the spirit of the full force of the blow, is to make Paul feel very uncomfortable.

It was a kind of spiritual “squeaky” feeling of a head, very uncomfortable.

What makes him wary is where did Shen Lang hide?

Behind me!

This is naturally conceivable, so he immediately turned back, regardless of the mental discomfort, another wave of cross light bounced in the past!

This time, the other side is completely blasted.

This was originally on the fifth floor of the underground. Fortunately, there was already a room in the room. After the battle, the wall was broken, the power rushed over, and the space was unloaded. Otherwise, it would directly hit the solid ground, but it would cause a big shock. .

I found that there was no such thing as a back wave. Paul God made a bad premonition right away!

In his realm, there is no need to look back, and the gods clearly see it. Shen Lang is behind him, and the stagnant water whip has already attacked his back!

Paul made the horse go out in front of him, and the wall that had been broken could allow his body to move forward without any hindrance.

But after all, it was a slow one. The back was still touched a little. Although it was only a little bit, but also his clothes were overlooked, and directly to the skin, there was also a piece of decay.

This makes him very embarrassed!

Especially in the previous wave of attacks, the wall has been broken, so that both the Pope and Brooks outside have seen the situation inside, which is equivalent to watching him eat this god!

What is even more helpless is how did Shen Lang do it?

Because the whole process happened between the electric and the Flint, he did not realize that the Shenlang had disappeared. He thought that he was behind him at a fast speed, and when he attacked him, he returned to his original position. The attack was completed.

But at that moment, he not only did not see it with the naked eye, but did not trace the knowledge of God. The speed of Shen Lang is already fast.

“Is this what God made? Is it my \*\*\*\*\* that is as painful as a falling dog?”

Shen Lang sneered, this is not only to say to Paul, but to the Pope and Brooks.

While speaking, his other hand waved and shattered the masonry clay seat on the ground, and the brain smashed in the direction of Paul.

Paul seems to be blown away by the hurricane, and he is blowing around with a lot of ruins.
