

First Strong 156

Chapter 156 - Killing chickens and monkeys

“We... I mean... we are players, we are foreigners, not far from the world...”

Robert can't see how the strength of Shen Lang is, but from the attitude of Yue Jia to him, he can also guess that his identity is not ordinary. Originally they came to protest, that is, they want to take advantage of it. If they can avoid a round, they will be promoted if they lose.

But now that the Shenlang is so strong, it can only be a little bit more. In addition to emphasizing the identity of their players, the focus is on foreigners. According to the usual practice, foreigners will be treated preferentially.

“According to your logic, the superb warrior can arbitrarily oppress ordinary people, and the self-cultivator can also oppress you at will! You also have a face that emphasizes foreigners, and it is especially abominable to deceive the Lord!”

When Shen Lang spoke, the figure flashed quickly. First, I opened the office door in the past, and then punched out all five foreigners, including Robert, and flew them out!

This office is upstairs, they were hit out and flew directly to the ground below!

Everyone has already arrived at the scene. It was a good time to get to know each other. If you have ambitions and plans, you will especially know about the situation of others. Today, the rumors that Chuyun City was scrapped last night are spreading.

At this time, the five foreigners of Gao Ma Da, almost flew out from the upstairs. Before they fell to the ground, they had already spit blood. After landing, there was no movement.

In such a scene, everyone was shocked, not outside, and heard it quickly.

“Sir, will this be too much?” Yue Gang asked carefully.

Just after the waves and no calls, they directly punish them, and the speed of his shots, none of them present can be seen clearly, let alone blocked.

“Announced that a group of them collectively challenged the self-cultivator, and the injury was taken care of. If there is no ability to participate, then disqualify and temporarily adjust the order of appearance.”

Shen Lang does not need to explain to Yue Gang, he hit it!

Originally, the night before, I still watched the contents of the Yue family. I didn't want to make things big, so I just cleaned up two, including the handsome young monk who later, in addition to learning, it's a habitual "face". Not seriously injured.

But the matter of Chu Yuncheng came out last night, and it has already been rumored. These few unopened guys have come to protest against pressure, and Shen Lang does not mind killing chickens and monkeys.

Yue Baichuan immediately nodded to Yue Gang and asked him to do it according to the arrangement of Shen Lang.

Originally 50 places, two invited to the bench, is to prevent accidents. But now five people can't play, and it's not enough to add a substitute. It has to be re-adjusted.

Yue Gang also rushed to go, although this is the Yue family responsible for hosting, but in fact there are still many pressures, such as the Chu family represented by Chu Yuncheng, he must explain.

Probably the situation is clear that the waves have not been closed to clean up, but to open the door to throw people out, it is necessary to handle high-profile.

So at this point he also went straight outside and looked down on the corridor.

Five people, such as Robert, are lying on the ground at this moment, and the punch is still under the enthusiasm, or they can directly explode them. This is the case, they are also seriously injured, and they can't do it.

Everyone else is watching the excitement, not the person they are familiar with. Of course, they will not get contaminated before they can figure out the situation.

But almost half of the people are aiming at the direction in which they fly out, and at this moment they see Shen Lang.

Immediately everyone showed a stunned look.

“It turned out to be him!”

“Shen Lang and Chu Yuncheng are dare to be disabled, let alone a few extraordinary warriors?”

“Yeah, these foreigners don’t know what to do, but they go to touch his mold.”

“Hey, you have a chance, this is a few opponents.”

“Right! They are coming in a few paragraphs? Who are the opponents arranged? Maybe the first round will be empty, then it will be white!”

In the discussion below, Shen Lang glanced at it, and then his eyes fell on a person in the corridor.

This person is at the end of the corridor, a distance of more than ten meters from Shenlang. But I can recognize it at a glance, it is the handsome young man who played with him in the back alley that night.

Yue Zhennan was next to Shen Lang, and as he looked at the past, he immediately introduced it in a low voice.

“That is the Xie priority student of the southeast Xie family.”

He is unclear about the realm of the realm of the realm. He also knows that Shen Lang is clearer and has no more mouths.

Separated from this distance, Xie You can certainly hear Yue Zhennan talking, so his tone is respectful.

Shen Lang nodded. "I have seen it. He should be familiar with these foreigners. It is estimated that he just came over."

"Hey..." Yue Zhennan didn't know how to pick up the words. Yue Baichuan, who had come out with him, was busy leaving.

If they have a big deal, they can't afford to sin. Shen Lang dared to say that they dare not follow the chaos.

"The night before, he helped the foreigners, but I was labeled as a pig."

Shen Lang said this, let Yue Zhen Nan Khan, even dare not pick up, this is a crime to offend Xie You.

The night before, Shen Lang did say that he chased a comprehension in the back. Is it Xie You? In addition to being handsome and beautiful, Xie You is also very polite and has no strong and arrogant family.

He can't help but secretly swear: Lang Ge can really like to hit the face!

The night before, I saw a foreigner being swollen and half-faced I heard that Chuyun City was also last night, and even Xie You is also the end!

But then again, it is really cool to have the ability to swollen other people's faces.

Even if it is killing, a shot is not a waste of the second bullet, it should also be realistic sniper style; the average person playing shooting games, of course, prefer to make each other into a sieve of refreshment. The same is true for face!

In the envy of Shen Lang has such strength, Yue Zhennan suddenly thought that he is now a self-cultivator, and he does not need to fear the super-wu people in the future. If you encounter uncomfortable, you can also swollen their faces!

Although his injury is not completely good, he has really reached the goal. Shen Lang directly helped him to improve last night. The speed of the rocket made him not ecstatic, because he still feels dreaming.

He suddenly felt that knowing Shen Lang should be the luckiest thing in his life. At the beginning, I didn't turn my face because of Ahu, but I was the most correct choice.

When Yue Zhennan was secretly stunned, Xie You's eyes looked over. Apparently he heard Shen Lang's words and his face was a bit uncomfortable.
