

First Strong 1571

Chapter 1571 - Big change?

If it is close to that area, there will be abnormalities, and everyone can understand.

But in places far away, this is also the case, it is likely to be artificial.

Originally set off a few tens of meters of super waves, and it is still a small range of sudden targeted waves, accurate and targeted lightning, which can not be explained by science.

However, the emergence of the superpower of Shen Lang has broken the rules of science.

Now scientists have expanded the scope of research.

So after this incident appeared, there was no clue through the satellite, and the “exploration team” was completely lost, and it is likely to be completely killed.

In combination, they came to the conclusion that this is the result of Shen Lang!

It is only the prestige of Shen Lang, which is the highest peak. Under the Pope’s platform, the whole world regards him as a superhero.

Even if they doubt the waves, they dare not openly blame.

Although it is now the loss of ships and many people, including military personnel and scientific research workers, this can be characterized as murder and public out, which will have a huge negative impact.

The influence and value of these people would have been larger than ordinary tourists, but the problem is that the warnings were publicly disclosed before Shen Lang, and they still have to sneak out to arrange for people to develop, and naturally they will be interpreted differently.

In addition, there is no clue and evidence to prove that it is the beginning of Shen Lang.

At that time, the responsibility for causing these losses and killing these people will be deducted from the heads of their politicians. The paradox formed is likely to subvert themselves.

The Statue of Liberty is different. It is purely an ordinary tourist who has no interest in it. This will enable ordinary people to have a sense of substitution, and it is also necessary to bring Shen Lang to the scene.

So now they even guess that this may be a ghost, but they can only smash their teeth and swallow their throats. They can't say that they have to hide this thing themselves, and they can't be exposed.

The other one is late, is preparing to arrange the team to start, or is on the road, now know the situation, are frightened, and quickly withdraw the team, so as not to go back.

Shen Lang didn't know about it at all, and he wouldn't pay attention to the reaction of them. He now has the confidence and anyone to call.

After confirming that no other ships were exploring near No. Heihai, Shen Lang was temporarily relieved.

The earth's pattern has stabilized, and it is difficult to reverse the situation, but the new world has unlimited possibilities.

As long as it is strong enough, whether it is a big country or a big consortium, it is possible to continue development.

In particular, it is possible to recruit comprehensions and super-powers who have participated in the development of the non-returned Hells.

Although the ones that I was able to join at the beginning were basically the shackles of the gods, the two trips also made them see the danger and realized that their strength was far from enough.

But human nature is always greedy.

They have been to the mainland of Nakajima. This time, if you go to the world of giant beasts, maybe it is not so dangerous? Maybe there are other gains?

There will always be people who are lucky, and there are countries or consortia, with high-tech and hot weapons support, can also use them as cannon fodder.

This possibility exists, but he has destroyed the two teams and will definitely spread out. At that time, others will look at it.

Politicians will worry about causing people to rebound and subvert their own power.

Big capitalists will consider returns, and they will not act rashly if there is a significant risk.

It's even harder to say the truth. Even if they are lucky, they have to wait for the wind to pass, and wait for the case of Shen Lang to retreat, or else it will be troublesome to kill them directly.

Therefore, now Shen Lang calmly uses the Kunlun mirror artifact of the New Three Realms to cross the world of giant beasts.

From the non-returned sea jail into the chaotic space, from the space crack next to it, arrived at the middle of the small lake in the forest.

There are a lot of behemoths guarding there. I believe that after this time, the Emperor and the Great Beast will adjust and keep it there.

If the Shen Lang is in the past, even if it has the ability to smash the past, there will be some twists and turns.

So he went straight to Yokoyama!

This two-in-one artifact can travel through space and distance, but is positioned with his consciousness. In short, it is the place that he must have been.

So now he can have a shortcut and come directly to Yokoyama.

Yokoyama is the place where the Emperor's behemoths live, and the great emperors of all ages live there.

The dog ***** had previously invited Shen Lang to be a guest, and also saw the worship of the temple in the temple, and solved the ethnic origin of the god-like behemoth that looks like a pet dog.

Although it is incredible, Shen Lang and the dog ***** are accepted.

Shen Lang originally did not dare to harm the earth, so he took the dog ***** to the higher level of the mainland of the island, but also to keep it, or let it hit the idea and fight there.

Later, everyone's relationship is good, you can rest assured, and the breakthrough to the Great Xianfeng spent a lot of time, so I came back to the earth.

Originally, if there was nothing on the earth, after a lap, Shen Lang might take the dog ***** to the city.

After all, that is the hometown of the dog ***** ancestors, and that can only be passed from the earth.

As for the sacrifice of the heavenly project, it will not be seen until the Zhoushan Mountain. I don't know if there's any time to open the ruins of Zhoushan. It's not necessary to find the entrance now.

However, Shen Lang did not consider it clearly, because there is a time and space paradox. Now, with the dog god, it is the ancient times of 80,000 years ago. At that time, the ancestors of the dog god, the dog has not been transmitted by the blue sea. It.

The ancestors may not have been born yet, and his past words should disappear according to the truth.

It is just this paradox that does not appear here in Shen Lang. He can go to the mainland of Nakajima, or to the watershed city state that seems to be 80,000 years ago, and it is parallel with the time of the earth.

Now come back to Hengshan, Shen Lang is also a bit awkward, I did not expect that in the wild world of the behemoth, will harvest the dog ***** such an interesting friend.

On the day of the Battle of the Antarctic Icefield, after he “disappeared”, the dog ***** did not kill Coba and Copan again. After the Elder Tula was hit hard, he rushed over and then left with the behemoths.

Maybe he thought he had been crushed?

Now I watched him still alive, and suddenly he didn't have to go through the cracks in the space. He suddenly appeared in the place where he swept it. Even the gods and monsters of the great gods would be shocked.

After the emergence of Shen Lang, it was a mischievous prank with a little joke, and wanted to see the reaction of the dog god.

But when I came out, I immediately felt that something was wrong!

The world of giant beasts has changed a lot!

Chapter 1572 - The beast is gone

The reason why Shen Lang appeared, I feel that there has been a huge change here, because he has merged with the consciousness of many beasts including the Hurricane Beast!

Although these are all integrated into him, after coming here, there is still a familiar feeling of returning to his hometown.

These beasts, basically like the Yunqiu King, are the kings of one territory, and they are not in order, so many beasts are involved in a wide range.

So equal to Shen Lang is very familiar with the entire beast world.

Now that I feel that I have changed, I feel that the whole world seems to be very depressed. It is not a familiar feeling.

This is not because he is a human relationship, but it is really not right, a big mistake.

He immediately sensed it further and immediately confirmed that something was wrong!

Others have already reached Yokoyama, but they have not sensed that the Emperor's behemoth is in Yokoyama! The sense of the behemoth can not sense the traces of other beasts and monsters!

This point, he has already verified, using the way of the beast gods to sense, even on the earth, can sense a general.

He can't use it often. He is afraid that he will be affected by himself. Now he can't take care of it. After one can't feel it, he then feels it again.

Still no clues!

This confirms that there is a problem, it can be sensed on the earth, and it should be more clearly felt. He can also feel that the range of induction is much wider, the speed is faster, and the mental consumption is much smaller.

But still no results.

Shen Lang has no emotions for the world of giant beasts, but the dog ***** is his friend, and it is very interesting and has helped him a lot.

So if something goes wrong here, you have to know if there is anything about the dog god.

Of course, even if I feel that something is wrong, Shen Lang is not too nervous.

After all, the dog ***** is the strongest of the ***** level, this is his own territory, not to mention that the second strong hurricane beast has been killed by him. Even if you are still here, you can't afford any wind and waves.

Besides, if you really encounter a crisis in which the dog gods are uncertain, Shen Lang can help very limitedly.

He is just a friend now.

Therefore, there was no more stoppage and it was further flying in Yokoyama.

In the past, I used the thinking of the beast god, and now Shen Lang changed to use his own ***** to explore nearby.

After all, the way of the beast ***** is people's, and maybe it is not necessary to go back here. Searching with the gods, although not as far-reaching as the giant beasts, is basically self-confident and reliable.

The result was not only the huge cave that I visited last time, but also a large area near the Temple of Heaven, and there was no trace of the dog god.

This makes Shen Lang a little helpless. The territory of the entire beast world is very broad. He came out of the forest last time, but he has left a thousand miles.

At that time, it was on the site of the Yunqiu Camouflage, and then the scene of the Emperor and the Yunqiu King.

In the end, the Emperor regarded him as a guest and brought it directly to Yokoyama, which is tens of thousands of miles away.

In addition, Shen Lang did not go to other places, and then left with the Emperor.

Although I haven't searched the entire Hengshan area for a long time, the Emperor's behemoth should not run around casually. Normally it should be cultivated here.

I can't find it here, and I can't sense it through the way of the behemoth. Shen Lang can't run around the world.

The feasible way to think of it is to go to the Yunqiu boundary first, at least the forest in the crack of the space, there will definitely be a giant beast guarding.

There were tens of thousands of miles from Yokoyama. After Shen Lang could not find it around, there was no delay and he immediately began to fly in the direction of Yunqiu.

For the world of behemoths, he has basically known all the maps of the territories through the memory of the beasts such as the hurricane, but the thinking and territorial understanding of the behemoths are still somewhat different.

Really trajectory, or Yunqi to Hengshan this paragraph he himself passed.

The last time I was with the Emperor's behemoth, I was always careful, and now I can re-fly, I can make better use of the Holy Grail to record various pictures.

After flying to the Yunqiu boundary, the speed of Shenlang was slightly slowed down, but it did not stop. The target came directly to the forest.

What surprised him was that when it was over the forest, there was still no sense of the existence of a behemoth!

According to the last experience, the Emperor and the Great Beast arranged a lot of behemoths to guard the forest area. Even if they invaded the earth world last time, they were only a group of beast gods and king behemoths. It is impossible to all pass.

This is the only space portal, whether it is the Emperor or the Beastmaster, it is impossible to let it go.

Soon, Shen Lang went to the sky above the small lake and landed directly!

To his surprise and speechlessness, the crack in the space still exists, but there is no giant beast near the lake!

Standing by the lake, Shen Lang once again spread out.

This time, I found some answers he wanted!

In the forest that spread out on the lakeside, there are many bodies of giant beasts scattered in different directions!

Under this circumstance, why did he not feel the presence of the behemoth before he was in the air, because they are already dead, and there is no breath of any behemoth.

The rapid movement of Shen Lang's figure rushed to the nearest body of a giant beast.

This behemoth is not just new, but it is not a long time, it is estimated to be within a few days.

Shen Lang simply completed the "autopsy" and soon had a general understanding.

The killing of the behemoth is the strength of the beast that is far superior to this behemoth. It is directly a crushing blow, and before the body is abandoned, the most valuable inner altar is also dug.

Shen Lang immediately realized the problem, and the behemoth world really encountered a crisis, and this strong enemy of creating a crisis is likely to be the top powerhouse from human beings!

Because of the days with the Emperor's behemoth, Shen Lang discovered that it did not swallow the concept of Nedan alone, even the inner dragon of the dragon elephant beast was dug by him, and the Emperor was swallowed together.

Now the body of this behemoth remains here, but Nedan is dug away, naturally the hand of the human powerhouse with deep and profound essence.

This also makes Shen Lang serious. From the connection of this space crack, the most likely to come is the strong planet.

The light is the strong man who can kill one head and many giant beasts. The realm of Daxian can be done.

Since there are hidden strong people such as Tula Elder, Coba, and Copan, as well as the hidden world of the Great Immortal Realm, it is also possible.

Not everyone has the determination to save the world. If they are attacking the earth when the behemoth attacks the earth, they will find the consequences of the present.

But the problem is that the Emperor's behemoth comes back with other beasts and king beasts. Even if there is such a strong visitor, when the dog **** comes back, he will be destroyed.

Why is it not like this? unless.....

Chapter 1573 - Inspire the war

Unless the Emperor is not coming back!

This speculation makes Shen Lang's thoughts a bit complicated.

Because this contains two possibilities, one possibility is that the Emperor's behemoth with other monsters did not leave the Earth, but disappeared into the Pacific Ocean!

When they shrink their bodies, hide in the Pacific Ocean, or scatter to other continents, it's really hard to find, and once it breaks out, it's extremely difficult to control.

That will be a timed nuclear bomb on Earth!

Another possibility is that the Emperor's behemoth, with other behemoths, left the space crack of the non-returned Hell, but drifted into other places in the chaotic space, or lost in the chaotic space!

The space cracks in the two circles are close, so a great chance drifts over, but the chaotic space will not change, it is hard to say, and it may drift to other places.

If it is the latter, then the Emperor's behemoth may be in danger.

However, these conjectures also made Shen Lang very helpless.

If it is on earth, then he must rush back to guard, there is him, and everything can be discussed.

If you are lost in chaotic space, or go to other worlds, then it is dangerous to be a great monster, and he can't help!

Because the fog of chaotic space is completely invisible, inaudible, and invisible to God.

He can take other people back again, and he must also physically connect with one hand, or else he may not find it once he has let go.

Shen Lang will soon have a decision to go to the chaotic space to find the dog god, this is unrealistic, and now back to the earth to guard, not eager for a while.

Now that people have come here and understand the situation here, look for it and see what is the sacred person who can counter the invasion of the behemoth world.

Later, he quickly checked the bodies of some other behemoths nearby, basically the same, all hit by a hit, and then seized Nedan.

This information also makes Shen Lang a little more heart.

Regardless of the realm of the people, it is a huge resource to take away so many inners.

Because of the relationship between the dog god, he is also not good at killing the inner beasts of the behemoths. In the Americas and in the Antarctic, it is because of the invasion of the other.

If you come here to do this, it is his invasion, and the dog ***** can't spare him.

But now other people have killed the behemoth, and then the Shenlang will kill the man, that is, to help the behemoths revenge, but also to help the peace of the earth and the beast world. Nadine is a spoiler.

Yu Gong, this person must be found, or else the Emperor Beasts will kill the man after they return, and will also anger the earth and launch an attack again.

In private, this person has already got a lot of giant beasts, which can be won.

So Shen Lang did not stay in this forest, but began to explore further afield.

It's just that the world of behemoths is so big, there is no communication from the earth, and now that the way of sensing the behemoths has been lost, it's really only a carpet search.

In the process of searching, Shen Lang realized another problem.

In the world of behemoths, it should be better to sense all the behemoths. If it is not restricted, there is still a possibility that all the behemoths have been killed!

This is the result of chilling people.

Because the world of giant beasts is so large, the number of king behemoths and beast gods is huge, and it is a small project to kill them all.

And in the people's sites, they will quickly connect, besieged together, have a good time and a lot of factors.

In short, this is not what Daxian can do!

If it is really done, it is probably not a person, but a number of super strong, or a strong god!

In this way, even if he finds the other party, it is likely to be a fierce battle, and maybe someone else can grab him!

However, although this may be the result, Shen Lang also inspired the war.

Regardless of whether it is a big fairy or a big god, he has to ask questions. Since they have this strength, why can't they stop when the earth encounters a crisis?

At that time, there were no gods and behemoths. If they shot together, they would be able to win even like the three elders of Tula.

If you want to explore the world of giant beasts, you can also act after protecting the earth.

Even if the world, this planet is already very poor, but after all, it is a home, a mother star.

This time because it is a search, unlike the previous one from Hengshan, the height is also reduced, and the real carpet search can not be done, but it is also as detailed as possible.

But soon, there was a problem!

When the Shen Lang was flying, there was a sigh of momentum in front of him, and when he approached, he had already risen!

Then, there were many such imposing appearances near him!

Shen Lang's helplessness is nothing. Since there is a change, he will stop immediately and examine it in the air with his knowledge.

The situation is clear immediately.

The smoldering momentum that rises up is a giant beast, a monster of the beast **** level, attacking him!

And around the siege, blocking him, is also a few king-level monsters This makes Shen Lang a moment of relief, it seems that the giant beasts have not been completely eliminated!

That also means that the intruder is not as powerful as you might think.

“Isn’t this the Yunqiu beast? Let’s calm down first!”

The king of the cloud mound, the beast of the beast, the king of the cloud, or the beast of the cloud, the Shenlang once seen one side.

At that time, it was thousands of miles away from the forest, and it was still in the Yunqiu boundary. At that time, the two giant beasts who discovered him were killed.

The result was that the Emperor’s behemoth and Yunqiu King were directly attracted. At that time, they were convinced of the Emperor’s behemoth, so even if the Yunqiu King was very embarrassed, he could only give up.

Now come back here, Shen Lang has a memory of the long beast god, and he recognizes the Yunqiu beast god.

Hearing the animal language, Yunqiu beast and other king behemoths were amazed.

“Despicable humans! I still want to confuse me!”

A little surprised, the attack of Yunqiu Beast God did not stop, and continued to the front of Shen Lang.

Shen Lang certainly understands that just like a behemoth arrives at the earth, it is naturally regarded as an intruder. Even if you don’t do anything, he is here too.

So he didn’t do it directly, but he was prepared to calm the other side.

This time, I came back more powerful than when I came last time. In the face of Yunqiu Beast, he is also calm.

“Clouds and beasts, I am not a human being hostile to you, we have met, I am a guest and friend of the Emperor. I am looking for the Emperor!”

When talking, Shen Lang has disappeared from the air, standing directly on the ground, and there is no attack to express his sincerity.

Chapter 1574 - Attacker

“It’s you!”

It is not so easy for Yunque beasts to recognize the waves. After all, they look at human beings.

Because the door to that space is in the Yunque boundary, it may need to be left to guard it. It seems that there is no trip to the earth, so the impression of Shenlang is not profound.

After saying it now, it immediately remembered.

But when I landed again, I was still roaring!

“You are a despicable human!”

It continues to attack, and the other king behemoths continue to surround.

“stop!”

Shen Lang made a roar in the animal language.

This time he still has no attack, but it is the most common way to use the behemoth, the momentum!

The general beasts, roaring, claws and claws, create momentum through sounds, movements, etc. to suppress the enemy. From dogs to tigers, it will be like this.

The behemoths are even more powerful. Their momentum grows out, and they show their strengths and let the other side know.

Generally speaking, the lower level encounters a higher level, and the natural service is soft. For example, the cub encounters the adult behemoth, the lower level encounters the advanced, and the king encounters the beast.

Therefore, when this is more powerful, it is often between the behemoths of the same level.

Shen Langhe is a human being, and they are not a system. The king of the beast and the half of the same level, the beast ***** and the great immortal level, just in accordance with the human way to convert it, just an extensive contrast.

The behemoths, however, will not have so many thoughts of human beings. In their eyes, perhaps humans are two kinds, insignificant as ants, and powerful human beings.

Just the roar of Shen Lang is to show his strength, this is not to lose the momentum of the beast!

For a time, the king behemoths were slow, and they realized that it was not their match.

It is the cloud hill beast god, but also condensed a bit, do not have to hand, just the momentum, let it know that Shen Lang is beyond it.

However, they are beasts after all, and they are weaker than humans in terms of reason and control.

What Shen Lang wants is that they are calm for a moment, so that they can listen to him and can live with them without thinking about it.

“Is there no return to the Emperor? Why can’t I find it in Yokoyama? What trouble have you encountered? Why are there many bodies of giant beasts in the forest?”

When these problems were thrown out, they immediately stopped the raging Yunqiu beasts.

“It’s you! It’s all you are despicable humans!”

Seeing that it was about to break out again, Shen Lang frowned slightly.

“Calm! There are despicable human beings, not equal to me. I am a friend of the Emperor! I want to help...”

“Shameless humans! You have a lot of our beasts in your body. You have swallowed up many of our beasts and friends?”

The cloud hill beast **** is not so good to hold it. As a beast god, it still senses the situation of Shen Lang.

“Yes! It was because of the hurricane beast god, when the Emperor was not there, the war was launched. My situation, the Emperor is clear!”

Shen Lang did not evade the recognition, this is to make Yunqiu beast gods more violent.

But the latter sentence, let them hold again, the hurricane beast? God of the Emperor?

“To fight, you are not my opponent, even if you are the king of Yunqiu, other behemoths will be killed by me! But I am a friend, I want to help!”

When Shen Lang continued to speak, he was already controlled by spiritual power, and from the spiritual level, let them accept his words.

The prestige of the Emperor’s behemoth is large enough, and its brand is still very useful. With the influence of Shenlang’s own spiritual power, it has eased a lot.

“The Emperor of the Emperor is back, but your despicable humans have followed, and we are slaughtered on us, all by the Emperor!”

“What the **** is going on? The Emperor came back with other behemoths because it is like me. We all want peace. We don’t have the resources you want on our side. I don’t want humans to come here to destroy.”

Shen Lang's tone and goodness made him express his sincerity as much as possible.

Hearing that the dog **** came back with other beasts and behemoths, he was relieved.

If there is a dog god, then it will not set off a huge wave, but you must find the dog **** as soon as possible, find the invading human being, figure out what is going on, and can't let the dog **** anger to the earth.

Yunqiu beast, this is not to believe in Shenlang, just under the dual influence, plus the current attitude of Shenlang is good, already said the beginning, it will continue to talk.

When the hurricane beast gods tried to invade the earth with other beast gods and king beasts, Yunqiu Wang was responsible for guarding the space portal.

This is very important, both to ensure that when you return, you will not be affected, but also to avoid the time when you are not, and the aliens come in.

Yunqiu beast gods, together with the elite of the hunchbacks and beasts, and some kings and other beasts of other ethnic groups, complete the mission.

As a result, before the return of the hurricane beast gods, there are human strongmen coming in from the space crack!

That is a total of three human powers. The llama and tiger beast elites are not enough to see. Many of them are less than the king's level, and they are almost a hit.

Although the Yunqiu beast was ordered to guard, but the enemy has come in, watching the unilateral slaughter of the general behavior, immediately ordered to retreat, ready to see if you can use the advantage of geography to counter-kill the result of many kings The beast also escaped a bit farther and the result was still killed.

It can't resist itself and can only escape.

This is the boundary of Yunqiu. They can no longer use the advantage of geography to counterattack, but they can still hide.

The result is that the king beasts of the other ethnic groups are all finished, and the Yunqiu beasts still carry the hunchbacks of these kings.

And they can live to the present, on the one hand, probably because they use the environment of Yunqiu to hide, on the other hand, it seems that the three strong people, after entering the world of giant beasts, split their actions and hunted the monsters in the distance. It is.

Because they went further afield, they were not chased in the Yunqiu boundary.

Finally, they waited for the return of the Emperor.

Seeing those corpses, the Emperor's behemoth burst into a roar, and its spirit quickly sensed the whole world.

Yunqiu Beast God immediately contacted the Emperor, so that the Emperor's behemoth brought all the other beasts to come here, learned the situation, and immediately went after the three human powerhouses.

The Emperor's behemoth did not blame the incompetence of the Yunqiu beast, but according to its description, it knew the power of the enemy, and immediately let other beasts go to their respective territories to lead everyone to protect and hide.

The task of chasing the enemy is borne by the Emperor's beast!

In the process of chasing, the Emperor Beast found that the other side has killed a lot of behemoths, and seems to be also proficient in the way of the behemoth!

This is equivalent to giving the other party a position, so later the Emperor's behemoth passed a message, telling all the beasts, and then passing it to other behemoths, and everyone completely blocked the way of spiritual connection.

Chapter 1575 - Black sandstorm

After hearing this, Shen Lang realized that he could not sense it. It was not a restriction on him. Instead, he was "turned off" and "invisible".

Now it is the cloud ***** beast, and it is impossible to contact other race beasts and even beast gods.

Now they only have one contact, and only the Emperor can contact them. This is naturally because the Emperor's behemoths are strong enough, even if they are not hidden, it can still be contacted.

This result makes the Yunqiu beast ***** very depressed, I don't know how the situation is now.

When Shen Lang swept past, because they were too fast and at high altitude, they only noticed a certain abnormality and disappeared.

But now he passed again, slower and lower, let them discover.

For a long time, it is natural to want revenge.

So I jumped out directly.

From its account, Shen Lang got a lot of information.

Even the door of that space has to give up the guard, and the body has not received it. It can be seen that in the eyes of the Emperor's behemoth, these invading human powers are also powerful enough to kill the beast!

In this way, the entire behemoth world, perhaps only the gods of the ***** level can live with each other.

The three men scattered everywhere, basically like any behemoth.

This has passed a few days, and the Yunqiu beast does not know the specific situation. The whole world is still relatively depressed.

However, it can be seen that the three former human powerhouses still left a great shadow on them. If Shen Lang is not alone, they can't even rise the courage to attack.

Perhaps this is one of the reasons why Shen Lang can calm them down.

In the process of understanding the situation, Shen Lang is also thinking about it. Now, after he finished speaking, he immediately said his problem.

“The three human powers you said are not what I know. If I meet, I will stop them. The question now is, is there no way to contact the Emperor?”

In the process of telling the story, Yunqiu beast has calmed down. At this moment, watching the waves, guessing what his words are really a bit of a fake.

“No!”

It is also resolutely said that there is no way to contact the Emperor.

In this regard, Shen Lang did not care too much, if you can really contact the Emperor’s behemoth, then he should theoretically be able to contact.

Besides, if the Yunqiu beast can do it, even if it is not said, it has already been contacted, and the Emperor will naturally look for him.

“I am going to continue to look for it. I can find the Emperor of the Emperor. It is good. I can’t find it. I can’t find it. I also hope that I can meet those human beings. I will certainly arrest them and give you a confession!”

Shen Lang immediately expressed his itinerary.

The Yunqiu Beast God has been observing the Shenlang. Obviously, it is still doubtful, and perhaps even its description, and there are some unclear places, perhaps not completely revealed.

Now that he said this, it immediately stated his position.

“I can’t wait! I will go with you!”

After it was finished, he told the other behemoths to let them continue to hide.

The king behemoths, in addition to obeying their lives, let their kings be careful of human beings and then retreat.

“It’s better to lead the way? You think they might go somewhere, or where they can find them.”

The memory that Shen Lang possesses is indirectly separated by a layer, which may not be as clear as Yunqiu Wang.

Yunqiu Beast God said slowly: “I don’t know, choose one direction and look for the past!”

Saying, it began to move, waiting for the sinking waves to catch up, only to speed up.

Shen Lang’s heart secretly stunned, this cloud hill beast god, just do not want to lead him out of the Yunqiu boundary, so as not to harm the camel and beast! Probably there is no clue.

But he has no clues himself, just follow it together.

“You went to Yokoyama? Why is it here?”

When he was running fast, Yunqiu Beast suddenly asked a question.

Before Shen Lang said that he could not find the Emperor’s behemoth in Hengshan, and asked about the situation in the forest, so that Yunqiu beast felt that something was wrong.

For this problem, Shen Lang answered very well. After all, he did not say that he first went to Hengshan, although he is now from the direction of the door of space.

“I found out that after I had a problem, I went to Hengshan. I couldn’t find the Emperor, and I found it again. After all, I have not been to other places.”

This answer, let Yunqiu beast God think and make sense, the last Shen Lang is to Yunqiu, and then the Emperor of the Emperor took away.

After the suspicion of Shen Lang was reduced a little, it continued to move forward with the waves.

Shen Lang also has a general understanding of the world. Even if the Yunqiu beast does not explain anything to him, he can guess what direction he is going and what boundary he has gone according to some approximate terrain.

The Yunqiu beast is the king of the hunchback, and the speed is still very fast. It is not too surprising for Shenlang to keep up with its speed.

After all, the last time Shen Lang was able to follow the Emperor to Hengshan, the speed will not be slow.

So I have been walking for a thousand or two miles, passing through a desert zone.

This desert is called black sand, and its range is not small. It is the boundary of a snake-shaped behemoth called the black stork.

Yunqiu Beast God also does not have a clear goal is to choose a direction to go all the way, now this means, of course, will not stay in the black sand, but across the distance, continue to move forward.

As a result, shortly after entering the black sand, I encountered a vision!

The sky in front has become dark and the sun is shining. A lot of sand and dust are flying in the air, and the height seems to reach the sky.

“Black sandstorm! It is very common here, the speed is very fast, the scope is very wide, it is more difficult to circumvent. If you... no opinion, we will slow down a bit and directly rush.”

Yunqiu beast God explained it briefly.

Originally, it wanted to say “if you can’t live”, when you say it, you think that Shen Lang is stronger than it, and you change your mouth.

Shen Lang also knows about the black sandstorm from the memory of the hurricane beast.

That is actually a very dangerous disaster. For the average person and the beast, it is the disaster of extinction. It is the giant beasts, and they are all shivering and dangerous.

However, the monsters that have reached the level of the king are basically able to spend easily. For the beasts, the black sandstorm is just that, slowing down a bit, and just don’t want to be made awkward.

Of course, he did not make any sense. He responded with a sentence and agreed to the words of Yunqiu Beast.

Although he made up his mind and suggested a slowdown, but the death came, the cloud hill beast did not slow down, but accelerated to enter the scope of the black sandstorm!

Shen Lang is a bit speechless, and Yunqiu Beast God is careful about this, it is not difficult to guess. This is not to want to marry him, or to hang him, just want to grab advanced, and do not pay attention to him, want to see his wolf side.

Chapter 1576 - It turned out to be them

Shen Lang naturally followed in, but it was a slight slowdown, and kept a little distance from the cloud hill beast.

Yunqiu beast ***** wants to see him, he is ready to let Yunqiu beast God go to eat some losses!

Because at the moment of entering, Shen Lang has already sensed this black sandstorm, and there is a vast strong atmosphere.

It seems that I have found one or two thousand miles and finally met one of the human powerhouses!

He does not know what the origin of this human power is, but it will certainly stop the other side from killing the cloud ***** beast. When necessary, he will even kill the other party.

However, the attitude of Yunqiu Beast God is still to make it suffer a bit.

At their speed, it quickly reached dozens of miles away, and this is still within the scope of the black sandstorm. In the sandstorm, it is dark, and almost everything cannot be seen.

However, with their realm, there is a little weak light, which can be seen clearly. And with this sense of God, basically there is no problem with a black sandstorm.

But at this time, the front of the cloud hill beasts gave a roar!

Shen Lang kept the distance and stopped, but it was clearly observed.

The Yunqiu beast has stopped. In front of it, there is a dark snake. It seems that a large part of the body is trapped in the sand, revealing the body and the head in the air.

Black cockroach!

Although it is a serpent behemoth, it is too big, so it is now erected in the sand, more like a tall and thin building.

Shen Lang is also observing the black scorpion. Just the roar of the Yunqiu beast, it is asking about the black scorpion.

But the black scorpion was facing them in the black sandstorm and there was no response.

According to the understanding in memory, a large black sandstorm is the natural state of the black sand boundary, but a strong black scorpion can also produce a black sandstorm to a certain extent. The stronger the realm, the greater the range of black sandstorms created.

Now that they have come in for dozens of miles, there are no signs of the past. It can be seen that the scope of this black sandstorm is not small, not the black scorpion that can be made in front.

But there is no doubt that for the black scorpion living in the black desert, in the black sandstorm, it is like a fish, it has all kinds of bonuses.

“What are you doing there? I am Yunqiu beast! Is the black sand beast god?”

Yunqiu Beast God once again sipped and once again spoke out of his own identity, and the direct dialogue was the black king.

Originally they were just passing by. If they came across, of course, they would have to say hello.

And according to the principle of hiding, the black sandstorm is undoubtedly a good hiding place in the Black Desert. It is likely that the black sand beast is also here.

For it's self-reporting, the black scorpion in the sand still has no response.

In this black sandstorm, it seems quite a bit strange.

“Come out! Do you want to be a ghost here?”

This time, it was a deep wave, and it was a human speech.

As soon as this statement came out, Yunqiu beast was immediately amazed.

Shen Lang is a human being. It is not strange to say that people speak. It is normal to understand it. But the problem is that since Shen Lang will be a beast, he can speak the animal language with it, but at this time he will use the words of the black scorpion...

The result is very good guess!

For a time, Yunqiu beast ***** quickly retraced back.

It was originally ahead of Shen Lang, and now it is back to the side of Shen Lang and bring more black sand.

However, because the surrounding black sandstorm is a state of madness, the black sand it brings is nothing.

“You are the scum of humanity! As a human being, you are actually a beast with the beast!”

Shen Lang immediately translated this sentence into the animal language to the Yunqiu beast.

“It should look like the human power you have encountered.”

“Be careful! They are strong!”

This road is brought by Yunqiu Beast God, and it is advanced. It first meets the black scorpion to stop. This naturally cannot be said that Shen Lang has communicated well.

Shen Lang also said that the other side reprimanded Shen Lang as a human scum, and the beasts, but also proved that it is not all the way with Shen Lang.

It was at this time that I really believed in Shen Lang, so I immediately sighed.

Shen Lang just deliberately translated it with it, not to consider the feelings of the Yunqiu beast, nor to fight for its trust.

Only before he can figure out the strength of the other side, he can't let himself leave hidden dangers, and he can't let Yunqiu beast suspect and attack him.

Yunqiu beast ***** told him to be careful, he was relieved.

“As a person, you can learn the words of the mouth and the animals, despicable! Inferior race, not qualified for people!”

Someone in the direction of the black scorpion.

Shen Lang is very helpless. Today, the human beings who are said to be despicable by the Yunqiu beasts are now being referred to by a human being as a despicable human being.

Although I haven't seen each other's looks yet, from this discourse style, Shen Lang has had a bold guess.

God makes!

Before Paul's ambassador, it was such a disdain for human beings, treating human beings as inferior races, even the piglets they raised.

Now this person, this is also the style, it is likely to be one!

If it is a god, then everything will be explained.

The ***** was able to use Paul's identity to come to Earth, and naturally he could pass on the information of the invasion of the beast.

The earth is a “grazing land” that they care about. Of course, they don't mind one more “monster pasture”.

The “God” over there does not need to come back in person, or be separated, and arrange for disciples to come.

There is also a possibility that the three people themselves may follow Paul and the Pope. Originally to help them control the earth, after the invasion of the giant beasts, after they studied and analyzed the situation, they separated the three people to explore!

The latter possibility is even greater, because they are coming back first, and Paul and the Pope can now be on the earth, and it is possible to divide three people to explore a new world.

When the mind is analyzing their identity, Shen Lang's mouth is also talking.

“Looking at us as a despicable human being, inferior race, do you think you are a Protoss?”

“Hey! For you humans, we are protoss!”

The man was rudely admitted.

As the sentence came out, he finally became visible.

Standing on the top of the black scorpion, it is like standing on the top of a building.

And the black scorpion, not killed by him, or alive, can be so motionless, when he is imprisoned or controlled.

“The Protoss? If you are destroyed by my inferior human beings, can you still win?”

Shen Lang sneered.

Since the **** of the light gods is a group, he does not need to be so polite. These make them return to the earth, but also a scourge!

Didn't the Pope say that he would retaliate? Is it not the default that the Holy See does not have the strength to retaliate?

It should be said that they are three, waiting for their three gods to go back, and then find him to avenge!

Chapter 1577 - 掌御 0

“court death!”

The words of Shen Lang naturally angered each other.

This ***** made a violent drink, and it was this sound, which contained a powerful momentum, and directly let the black sand of the sky rush to the deep waves in the raging sandstorm!

At the same time, his body began to float in the air, and the black scorpion he stepped on under his feet immediately lived.

But this black behemoth is not self-resisting, but quickly rushes over to Shen Lang!

The sandstorms that have been dancing around in the past have already covered the sky, making the black sand that rushed across the sinking waves, and the black beasts, not too obvious.

“I come!”

Although Yunqiu Beast God can't understand people's words, but can feel the emotion from the upper hand, and guess that the two are in a ***** for tat.

This makes it gratifying that there is no wrong person, and it is also a high level of alert.

This human powerhouse will definitely break out at any time!

At this moment, Hei has become a human thug, and he immediately took the initiative.

After all, this human powerhouse has cast a shadow on it, even if it wants to kill and avenge other behemoths, but there is no certainty.

Therefore, the initiative to help Shen Lang divide the black scorpion, let Shen Lang to deal with this more powerful human.

The only way to do this is to let it fight with the same kind of black scorpion, and let Shen Lang fight the same kind of human beings.

But this time there is no thought of this. It flies out in advance, blocking the black shackles that have been controlled, and throwing it into the distance!

This is to give them a place to bury their waves, and to avoid being dragged by their confrontation.

The black sand that came with the violent scent, has been dispelled with the smashing of the black scorpion and the cloud ***** beast. At this moment in the dark sandstorm, Shen Lang and the ***** made a confrontation.

Looking at the black scorpion was thrown out by the cloud hill beast, and the man was even cold.

A behemoth will actually block the attack for Shen Lang. In his opinion, it is evidence of the collusion between Shen Lang and the behemoth.

“God said, there must be light!”

God sang softly, although the sound was very soft, it seemed to be very slow, but it was heard in the whistling sandstorm, and it seemed that time passed quickly, as if it was less than a second. .

And with his singer.

Suddenly in front of him, there was a white light!

Shen Lang is already very familiar with this. This is the practice of the ***** of Paul.

This white light appeared in the hands of the god, as if a virtual sword was caught, and then it was smashed into the air!

This lightsaber was quickly extended and went straight to the front of Shen Lang.

This is a bit like the magic weapon that Bai Lang got, “White Rainbow”, the speed and extensibility of light, always very dangerous.

Shen Lang and Paul the gods have already fought. They were in the underground room. They were close combats. Now they are in the sandstorm, and the distance is a bit far.

Therefore, when the lightsaber hollowed out the black and pressed sandstorm and went straight to the front of Shenlang, others had already leapt away from the ground.

“Do you have a light?”

Shen Lang suddenly gave a big laugh!

The ***** made a search for the shadow of the sun wave when a light sword was hollowed out, but did not see where the sun was!

The Yunqiu beast ***** is the beast god. In this black sand, only their black king, the black sand beast god, can match.

This black scorpion, it feels as soon as it is done, it is only the level of the king behemoth.

With their gap, the cloud hill beast can be crushed at a rapid speed, but it has not done so.

Because if it kills the black scorpion, you can’t watch it, you have to fight the human powerhouse, that is very dangerous.

Therefore, it still keeps fighting with the black scorpion, so that it is more than enough, and you can spare some effort to observe the situation here.

The light sword, although it is not directly felt, seems to be invisible, but it gives it a feeling of shudder.

After Shen Lang avoided the lightsaber, the people disappeared, but the laughter seemed to be everywhere, which made it magical.

The laughter of Shen Lang is everywhere, as if it is a fusion of the entire black sandstorm, so that the gods are also wrong.

His lightsaber was in his hands, but there was no goal to play for him, and he frowned.

When they heard the words of Shen Lang and the laughter disappeared, there was a big change in the sky!

This change caused the gods, the cloud beasts, and even the controlled black scorpions to be taken aback.

Because the surroundings are clear!

That is a black sandstorm! Just after Shen Lang, they went deep into dozens of miles!

Now the black sandstorm seems to be disappearing!

This change is so sudden that everyone is careful to feel the change.

At this time, Shen Lang appeared in the air, only to see his arms open, a **** group appeared between his arms, and the black sandstorm that had dispersed for dozens of miles or even hundreds of miles was completely disappear.

Everyone has an illusion, as if in just a short period of time, Shen Lang actually compressed the entire black sandstorm into his arms!

“Look at how bright you are!”

The black group between the arm of the Shenlang, like a physical ball, smashed into the past!

Without the black sandstorm, this **** is also clearly appearing in the air, and Shen Lang has not seen them, but it should be able to determine his identity.

His palm, and that white light but no black sandstorm contrast, it seems not so bright.

Shen Lang can actually compress a huge black sandstorm into a small one!

This directly shocked the cloud hill beast, and for a moment forgot to attack the black scorpion.

The black scorpion that was originally controlled, I don't know if God controlled the innocent, or the sudden change of the black sandstorm, let it restore the rationality.

It is also no longer attacking, a little dazed around, and then quickly squatting in the sand. Probably think of the fear of fear, directly into the sand, not everything here.

God made this time really innocent and scolded. In the face of the black group that quickly came over, he was guarded by God, and then, before he got there, the lightsaber went out!

What can a hundred miles of sandstorm really earn in the palm of your hand?

Is this still the strength of humanity on earth? This is that he does not have this power, it must be an illusion!

But even if he felt that he was an illusion, he did not dare to care about it, or he went out with all his strength.

And the speed of this lightsaber is fast, the black group is immediately cut in the middle!

But the situation that surprised him appeared. Although the white light was crossed from the middle of the black group, it did not break the black group. It only opened a part of the black, and the whole black group flew over to him in a group!

In the twinkling of an eye, after he finished his shot, he wanted to make more changes. It was a little too late.

God did not dare to use the lightsaber to slash and try, but quickly formed a light screen, blocked in front of him, to avoid being directly shackled by the black group.

The black group that did not stop quickly reached him, and when it touched the light screen, it was like a water polo that opened, and it spread quickly!

Chapter 1578 - black and white

For this result, the gods are expected, so they will use a light curtain to block, instead of continuing the lightsaber.

However, after the black group broke open, the situation made him feel a little bad!

The black group that bursts open, like the thick ink dripping in the water, spreads quickly and immediately wraps his entire surroundings. Everything is also a black sand flowing wildly!

After the black sand burst, it immediately formed a small black sandstorm, and this sandstorm is thousands of times more concentrated than before, and the destructive power and influence are almost the same multiple.

Fortunately, God is not an ordinary person, and the light in his hand is also free to use. When he finds something wrong, he immediately turns the light curtain into a ball of light and completely covers himself.

However, this light ball, for the direction of the outside, such as the Yunqiu beast that is idle at the moment, just saw a moment, and then it was completely wrapped in a black sandstorm.

The light is a black sandstorm. For the level of the beast **** and the big fairy, it will have a little influence and will not be hurt.

But the black sandstorm of a hundred miles is condensed ten thousand times, and the degree of destructive power is different. Like a reservoir of water, for those who are good at swimming, they can also wander in the air, but the impact of this water from a drain can make people fly.

The current situation, although not directly analogous, is not condensed tenfold, and the destructive power has increased by a million times, but it is undoubtedly far better than the original black sandstorm.

These highly concentrated and dense black sands can not penetrate the light ball, but under the high-speed rotation, they are constantly rubbing, as if the sandpaper is grinding stones, and the constant high-speed friction again and again will always cause a little bit of it. One layer of consumption.

With such an effect, the gods within the protection of the light ball are naturally very clear, so it is only a moment of work, he immediately let the light ball expand!

This ball of light is actually hollow, which is equivalent to a protective cover formed around him. Now it is like a balloon, and the protective cover is further enlarged.

This is the squeeze of the dense black sandstorm from the inside out, at the same time, his powerful mental strength spread out!

The black sandstorm that has just been condensed by 10,000 times has completely obscured the realization around him. To this intensive degree, even if the eyes are more powerful, it is also a black pressure, and there is no translucent at all.

Even with the light curtain cover, he was not in the dark, but it could not be seen outside. For masters, it is a great problem to see clearly.

If they want to escape at this time, he can't see it. If he wants to attack him, he can't see it.

Of course, this is relative to the average person. At the level he is, the gods are very powerful. Even if the eyes are completely obscured, they can pay attention to everything through the gods.

But under the protection of the ball of light, people are passive. If you want to attack anything, you must first cross the extremely dense black sandstorm, so he chose the mental attack to prevent a blockage of Shen Lang and Yunqiu King. .

What he needs now is time. As long as he has a little time, he can break the encirclement of this black sandstorm, and then he can fly to the sky.

It is a pity that Shen Lang will not give him this time!

When his protective cover widened and the black sand storm was squeezed a little bigger, before he further attacked, Shen Lang had already attacked him!

Shen Lang was letting himself spin up, and rushed forward, and there seemed to be a black cord in his hand, which made him feel that he was still manipulating the black sandstorm.

But in fact, Shen Lang's hand is a stagnant water whip!

He let himself traverse the past and maintain a high-speed spin, that is, to break through the high-compression black sandstorm and then break through the light ball protection cover!

He has already verified that the stagnant water whip can erode their light, so now it is not only fearless, but also has information asymmetry, the other party does not know this layer.

Shen Lang was attacking the past, and the gods also counterattacked inside. The black sandstorm that had been scattered around him instantly expanded to a large extent.

The black sandstorm that was pushed open is naturally a counter-attack against the outside world. At this moment, the Yunqiu beast is far away from the place where Shenlang is the first to bear the brunt.

It is precisely because of this that God does not mind the attack of Shen Lang, but the calm hand holds a lightsaber, stabbed in the past!

When it was said that it was too late, when the light ball swelled and pushed the black sandstorm away, the Shenlang naturally passed through the black sandstorm, and then passed through the protective cover of the light ball.

So black and white, they are staggered in the air!

God thought that the same thing as the black cord was linked to the black sandstorm, and did not put it too hard. The light sword prepared is the brain that stabbed Shenlang ahead of time!

After Shen Lang broke through the aperture, the stagnant water whip directly forced the heart of God!

Shen Lang was drilled in the way of flying, so he was headed forward, but he held the dead water whip another step in front, his height is the heart of the gods.

But this height allowed God to raise his hand with a natural sword, and he stabbed his head ahead of time!

God made the smile at the moment showing the victory.

The speed of the lightsaber is unparalleled. He is stabbing in advance, and it is impossible to avoid the waves. And Shen Lang is now traversing, as long as he hits his head, the lightsaber is directly past, can completely smash his entire body, and then pass through the feet!

The black cable is tangible, the lightsaber is extended forward, and he is completely confident that he can wear the piercing hole before the black cable hits the heart.

So this time is a very calm tentative, do not need to dodge, do not need defense, so wait for the black cable to dissipate power when approaching him.

But in the process of his smile, the pupil of the eye began to enlarge!

What did he see!

The lightsaber directly penetrated his head and put his head together with the body's complete hole, but this body, like the black sandstorm inside, seems to have completely penetrated the past from the light, without bursting, no blood splashing, body There is no fall, but it is completely dissipated!

Of course, he is very confident and confident in the power of Shenguang. It is normal for such a past to make everything smash or even vanish. But it depends on the opponents. This opponent is so powerful that it is not enough to be wiped out.

At the moment it is in front of him, just like the lightsaber shines on the shadows, let the shadows disappear and disappear in general!

However, his thinking is also very fast, and immediately understand what this is all about, then the pupil reveals a hint of horror, but it is too late...

Chapter 1579 - Rumor

The speed of light is absolutely no problem, and the speed of breaking light can only be advanced.

But he did look at the hit really, and it was an early attack!

This paradox occurs between a few cents. There is only one possibility. That is, Shen Lang knows his lightsaber attack ahead of time. When he waved his attack, people have already shunned!

Just because the speed is too fast, the time of occurrence is too short. What he sees in his eyes is only the shadow of the residual waves. When his lightsaber attacks the past, the real body has already flashed at the same time.

In other words, he looked at the attack, but it was nothing but the afterimage of his eyes. Then it is not the disappearance of the smog, but the dissipation of visual residuals.

If he wants to understand this earlier, naturally there is still room for counterattack.

Just because he has already counted the waiting for the waves, the lightsaber attacked in advance, all of which made him feel that he was stable. This must win the game, and even let him not even do defense and dodge measures.

So at this moment, he can only look at it. He has a black-like object that penetrates from his chest!

Because it was too fast, he didn't even feel the pain, and he didn't feel the body was hit hard.

When he realized this, he immediately returned to the back and took a light sword out, and also let the aperture shrink, ready to crush the waves.

But it is already late...

His **** can clearly sense the way of the smashing waves outside the black sandstorm, and Shen Lang can of course know that he is ready for the lightsaber!

So he will count on it, and Shen Lang is also an adventurer.

In the very short time, Shen Lang is not relying on the speed of the body to reverse, but the integration of nature and the environment, so the heart moves, the body is behind him, which makes God look It is the afterimage in the air, and there is no residual image of the moving track.

This is also a successful deception of his eyes a little time, after the back, the dead water whip in time to wear the past, he came to a big hole.

At this moment, the integration of lightsaber and aperture has obviously weakened and slowed down.

Even if his nerves have not yet had time to feel the pain, he has not had time to feel the passage of power, but it does not affect the situation that has actually occurred.

And these changes, and then the master of the trick, is naturally a huge loophole.

Therefore, he not only did not attack the Shenlang, but was caught by Shen Lang calmly!

The last time the **** ambassador, after Shen Lang defeated him, he took the initiative to kill the avatar, which is equivalent to a self-destruction, leaving nothing to Shen Lang.

This time, Shen Lang will shoot in advance, not giving him the opportunity to blow himself, swallowing and plundering everything that God has made!

His body is cultivated as a vitality, his vast spirit, and his memory of the consciousness of the gods and so on!

When this scene was discovered, it was also the time when God felt heavy trauma, and he began to fear from the heart.

“You can’t do this to me! You are just humans on earth. Do you know who I am? I am a disciple of the gods of your faith! You are a big act!”

Now that he can’t speak, he can’t and can’t say it. These are the thoughts of Shen Lang directly sensing him.

“You have your followers, but we are not the only human beings on earth. Not everyone believes in you. On our side, more is to believe in ourselves!”

It was probably the first time that God made such a “big rebellion” that he was unbelievable: “Hurricane! You don’t believe in God! You are like yourself, **** pagan!”

“Hurricane? You, and some other religions, let humans believe in you, give everything to you, and regard yourself as the lamb you graze, in order to promise to enter heaven to pacify everyone after death!”

“But there are also some religious ancestors who let humans believe in them, and at the same time tell everyone that as long as they study hard, everything can be in their own hands!”

“Whether it is against the heavens, the immortality, the robbing of the gods, or the life of the people, and self-discipline, it is a truth. Your heavenly wonderland is just a better world. Your Protoss God is just a cultivation to a very strong existence. As long as we firmly believe that persisting in cultivation, even if it is extremely difficult to reach your realm, you can improve yourself step by step!”

God makes you angry: “Impossible! You are inferior races. You can never reach our realm. The little powers you possess are our gifts. We can destroy you at any time, and we can withdraw the power for you!” ”

Shen Lang sighed: “You are born born by nature. Just like on our planet, born in developed countries, and the most backward countries, it is possible to make a difference in heaven and hell. The rich can also say that the poor and backward are inferior, but poor. Laggards, as long as they persist in their efforts, even if their respective resources are insufficient,

they will encounter exploitation and crushing. After all, they can still catch up with it and your so-called god, too!”

At this time, Shen Lang talked with the gods and talked about the religious concepts of the East and the West, the system of the Buddha and the Buddha. Of course, it is not really to convince the other party, nor to debate or blame the other party.

Whether it is a religious ***** or a personal cultivation, it is difficult to change each other in a few words, let alone affect a soul that is used to being high.

He said this, but to divert the attention of God, and then delay the time.

When God made him angry with his attitude, listening to his words about retreating the heavens, robbing the gods, and the life of the people, he naturally fell into the trap of thinking and rebutting, which weakened the confrontation!

The willpower of God is absolutely more than that of the Pope. If you are really stubborn, or if Paul God makes his own decisions, it will be a lot of trouble.

Shen Lang is now diverting his attention in a “discourse” way, while delaying time and then speeding up the devour of him!

When the gods reacted, everything was already late, and he felt that he was very weak. This is not only the weakness after the physical injury, but also the weakness of the mental power completely dissipated.

It is the divine light that has completely disappeared, and the black sandstorm has come directly to the side.

“You pit me... you are a despicable human...”

“You blame the noble Protoss, but you die in the hands of my inferior human beings. Doesn’t it just prove what I said? People’s lives, etc. Our human beings with low qualifications and low resources can also become gods, and they can overtake you. !”

“With God’s gift, after all, it is your embarrassment, man, it depends on oneself!”

Chapter 1580 - God makes information

Shen Lang just penetrated the scope of the black sandstorm and then entered the light ball shield. God supported the protective cover and made the black sandstorm not approaching.

But after everything that God had swallowed and plundered, the light was completely dissipated, but Shen Lang also controlled the black sandstorm and did not let them approach him.

Until the complete confirmation that the gods have been destroyed, Shen Lang still keeps the black sandstorm around.

Because he still needs a little time to fuse the memory of God!

To absorb all his cultivation, mental strength, etc., it takes more time. It is not a suitable occasion for the time being. He always runs the “Yin and Yang Bozhenzhenzheng”. As long as there is time, it will slowly refine and integrate. .

But now you need to get the memory first, because it is related to the information of the gods of the gods!

Not to mention the gods of light, or the disciples of the gods of light, it is far away from the mainland of China. Now there are two other gods in this beast world. This is a problem that needs to be solved.

As for the black sandstorm surrounding, of course, it is a layer of self-protection, and it is also the distrust of Shenlang to the cloud hill beast.

If Yunqiu beasts come to attack him, how much will still have a little impact. So there is a black sandstorm. When you really want to come over, you can still block a few points, so that he can calmly close his mind.

The Yunqiu beast is also a beast ***** everywhere. Even if the situation inside the black sandstorm cannot be seen, it can be faintly sensed. Seeing that Shen Lang has already killed the human strongman, it is also exciting.

Originally, he was doubtful about Shen Lang, a human being. Even if he believed it, he still rushed to the identity of the Emperor, and he was also suspicious.

Now that Shen Lang really fights with this powerful man and kills this strong man, there is no doubt.

In the same way, it is also a fear in the heart!

Although it was the three human powerhouses on the same day, the speed of killing the behemoths directly showed its strength, and it was stronger than it. This is also to make it a beast that can only be clipped with a tail. The root cause of getting up.

Now Shen Lang is very relaxed, and soon killed this strong, it is much stronger, it is far better than it. Before it was with other llamas and beasts who wanted to attack the waves, it was really looking for death!

Looking at the surrounding desert, the lucky black scorpion, I have long known that I have escaped. Its huge body is even more tremorous.

Just such a huge range of black sandstorms, actually instantly was reduced by Shen Lang's income and narrowed down a little. What a big deal!

It suddenly understood. It is no wonder that the last time the Emperor of the Emperor would stop it from avenging the hunchback, he would treat this person as a guest, and would even follow this person later, because this human being may have the same level as the Emperor!

For a time, it has completely bowed to the Shenlang, and then dare not have any disrespect.

For the situation inside the black sandstorm, it did not dare to investigate more, and quickly approached the past, but kept a certain distance, while letting himself face the black sandstorm, facing other directions, acting as a warning.

It is not clear how the situation of Shen Lang is now, and whether or not Shen Lang needs its alert, this attitude is still to be done.

After Shen Lang merged the memory of the gods, he put a pair of hands and turned the black sandstorm around him into a black group again. Then when the Yunqiu beast turned around, he put another hand. Push!

Between the time, the black group quickly flew to the distance, and quickly spread as soon as it flew, and soon became a large piece of black pressure, and gradually recovered to its original appearance, and continued to go in the direction of the front, just like It is the same as the previous track.

This scene once again makes Yunqiu beasts stunned.

Being able to manipulate the black sandstorm in this way, perhaps only the black king of the black sand beast and the gods can do it!

At least in the realm of its beast, it is able to control a small range of sandstorms, but it is absolutely impossible to do a wide range of black sandstorms.

“What about the black cockroach?”

When I heard the dark waves, Yunqiu beasts screamed: “It has already escaped, just me... it should be controlled by this human being, and it will not be colluded with them.”

Looking at the dead body, Yunqiu beast can't help but smash it in the past!

Shen Lang is also a casual question, does not care about the black.

The black sandstorm that had just been manipulated for a long time was actually simple, that is, he played the field to the extreme and controlled all the black sandstorms. Within his field, everything is controlled by him. It is not difficult to narrow and move them.

However, after all, the scope is extremely large, and his mental strength is also a little consumed. Moreover, the scene is mainly full of momentum, attacking low-level monks, and playing a role in this level of God.

Of course, even if it is not practical, it fully demonstrates the strength of his current strength, and is also deeply impressed by Yunqiu Wang.

“Which side do we go now?”

Before the cloud hill beast ***** led the way, it did not have a stable direction, just choose to go, now it is natural to hand over the choice of the route to Shen Lang.

Shen Lang has already demonstrated his ability to be far better than it. Even if he really took it to the sea of knives and mountains, he recognized it.

Shen Lang glanced at it and said faintly: “No need to go.”

Yunqiu beast ***** with the huge body of the camel tiger beast, watching the Shenlang is a small point, the eyes are even bigger It is difficult to read more information from it.

So this sentence, let it be embarrassed, and do not know what the meaning of Shen Lang, it is not easy to ask.

“Just wait here! Another one is also in the black sand!”

Shen Lang has already integrated the memory of the gods, and naturally knows their identity and other information.

The three of them are different from the identity of Paul’s ambassador. The ambassador is a metaphysical avatar of the modern light god, occupying Paul’s identity and following the earth.

These three are only disciples, and they help and protect Paul’s sorrow. Because the Pope was strong and honorable among the earth’s monks, when he came back with them, he was brought back as a Western monk.

Some people in the West are wondering, but they dare not question. Qiao Yuxian and others are not so familiar with people in the West, and they did not expect them to lead the way.

After they came back, they were observing all kinds of things on the earth. They were still not satisfied with the status of Guangming Shenjiao. The plot was to let the Guangming gods unite the earth and become the only belief of seven or eight billion people. It is also necessary. faith!

If that is the case, the power of their faith will be a huge increase of several times or even ten times. Of course, the Pope's statement is to let the light of the Light God shine in every corner and save every God's people.

The giant beast has not yet arrived until they have a detailed hands-on plan. Then Paul's ambassador was the avatar of the **** of light, with extraordinary knowledge, and immediately guessed a general, immediately ordered them to follow the sea of innocence and explore the nest of the behemoth!

This pair of bright gods is a brand new world!
