

First Strong 1581

Chapter 1581 - Developing a new world

The lord of Paul, the **** of light, was strategizing on earth.

Originally, I wanted to unify the whole earth. There is no better opportunity. The four of them, plus the current Pope, Brooks, etc., even if they have the strength of the world, it is difficult to make people willingly believe.

On the bright side, they are trying to push the new universal values of the teachings of the light. In the dark, they want the power of faith.

The wars of religion in history have proved that the war is to compete for the territory, and it is necessary to form a belief. Even if it is occupied, it will take at least several decades of influence.

Therefore, they all took the initiative to go to poverty and backwardness, and through the relief of poverty, the establishment of medical care, education and other means to achieve the impact on the local people, after a long time, after generations, generations, formed a habitual belief.

God makes it impossible to stay for so long, what he needs is quick!

For today's civilized planet, religious warfare is likely to be counterproductive, let alone quick-acting.

At this time, the invasion of the behemoth made him see an excellent opportunity!

When the huge monsters brought by these barbaric worlds destroy the human civilization to a certain extent, when the modern government can't solve it well, it will naturally resort to religion. Everyone will think that this is God's sinner against the earth. Punishment, hope God will forgive and save the Earth.

At that time, the Pope, who had a huge secular influence, could be honored to appear. And the four of them can cooperate in the dark, hunting and clearing the behemoth to complete the miracle.

This is a once-in-a-lifetime opportunity, but Paul is not in a hurry. Because the civilization of the earth is large enough, the population is enough, and hundreds of thousands of deaths and injuries, even hundreds of thousands of millions, he will not feel bad, it is insignificant. .

Moreover, they do not need the wealth of the earth, the destruction of urban property, etc., and it is even more insignificant. What he needs is more people to die, and a wider range of disasters can make more people panic.

Panic can make them believe!

Therefore, for the chaos that appeared in the Americas, they were all secretly observing, and there was no intention at all.

And Paul's ambassador even analyzed the reasons why the behemoths can go to the earth. If there is a new world next to it, there is a huge development value!

For example, these giant beasts are very valuable resources in themselves, and all the behemoths of this world have been cleaned up. It is almost equivalent to re-creating the world for a new world of human beings and other creatures!

Since the earth is not in a hurry, they need to wait for them to be more chaotic, so let their three disciples go to this new world.

These three people are also very competitive. In the end, they are more civilized. With the guidance of Paul's ambassador, they spent a little time themselves and they explored the world.

Three of them, one of them reached the level of Daxian Peak, and the other two are also the level of Daxian.

The three lineups that appear together, is the cloud mound and the beast able to deal with?

Therefore, the cloud mounds and beasts are basically a hit and they are already coveted for invading the giant beasts on the earth, and they cannot move because of strategic needs.

(At that time, there was no sacred beast, and the hurricane beast was also in the dark, and they also hunted it casually.)

Now, after coming over, you will start hunting for the monsters directly, and you will not pick them at all.

The strength they showed, so that the Yunqiu King, who has only one beast, is also timid, and immediately ordered to retreat in order to preserve the strength as much as possible.

The result was that the king beasts of all ethnic groups were also hunted one by one on the way to escape.

Of course, there are also some king behemoths who are not aware of the danger and feel that they want to crush these humans, leading to their death.

The king-level llama beast, because he decisively listened to his own king, followed the Yunqiu beast, but escaped.

There is also a reason for not killing the giant beasts of Yunqiu. After killing a group of king behemoths, the three of them are full of enthusiasm for the world.

These king-level inners, they are very satisfied, but want to get more, want to get the beast **** level, so they expand the scope and go directly to the distance.

Their disciples of the Light God also have a way of spiritual contact, even if they are separated by thousands of miles, there is a general connection.

For this reason, let them, like Shen Lang, try to reach their search by controlling and blending monsters.

In the following period, the three of them were separated, basically killing the Quartet. At the same time, they also launched a survey on other aspects of the world. For example, there are also a large number of ordinary humans, which are convenient for them to develop their followers. cornerstone.

Later, the dog **** came back, and realized the problem, and also knew that their strength was extraordinary, so the giant beasts stopped all connections and completely hid.

This made them difficult to search for monsters, and the Emperor Behemoth was searching for them. Although the two sides did not encounter it, there was also a sense of crisis.

Then the three people contacted, and passed the information to each other, so that everyone gathered together so that it can be safer, anyway, has already gained a lot of Nedan, and also know a lot of information. The initial separation is also to harvest as much as possible and to find out the news.

However, they all go in different directions. It is intentional. The territory here is very huge. Plus, it is not a familiar world, and there is no mature map. After leaving, even if there is a contact, I want Re-aggregation together also requires a process of finding each other, which cannot be accurately and quickly achieved.

So until today, they are only two close, all to the black sand area.

The one who had just been killed by Shen Lang was called Joseph. He had controlled a black scorpion before, and he did not continue searching. He wanted to capture the memory of this black scorpion and increase his understanding of the desert.

Also waiting for another partner Christopher, the two of them are in the realm of the Great Immortals, and there is a level of the Great Immortal peak that does not meet with them – most likely chasing with the Emperor.

As a result, he encountered a black sandstorm.

The black sandstorm is not a big deal for him, and he didn't care much. He found the Yunqiu beast!

When the Yunqiu beast saw the black sandstorm, he went to the front and added a higher level of the Shenlang. Therefore, he did not find the Shenlang, but wanted to slay the beast of the beast **** level.

In order to be able to raid, Joseph stopped the capture of the black scorpion and instead hid it behind his neck, and attracted the cloud sacred beast with the black scorpion, taking advantage of the cover of the black sandstorm and preparing to kill it.

I did not expect to find a human being. Although he did not know Shen Lang, he also guessed it was the Earth human. In the latter case, Shen Lang will be clear.

Chapter 1582 - Quenching the body

Just when Yunqiu Beast God said where to go, Shen Lang said that there is no need to go, just waiting for Christopher here!

After the Yunqiu Beast God listened, it was a little excited and a little nervous.

What it encountered before was three shots together, giving it an extremely deep shadow. It was the realm of mistakenly treating all three as the peak of Daxian. (Of course, behemoths, bright gods, etc. are another level of way, this is the contrast of the Shenlang system.)

In the behemoths of this world, they are even stronger than their ordinary beasts. Perhaps only the hurricane beast is comparable, but not comparable to the Emperor.

Just after Shen Lang has already killed one, it gives him a lot of comfort and confidence, but if he comes again, he doesn't know what the situation is.

The best thing is of course that Shen Lang can easily kill, then it is safe.

It is a friend of the Emperor!

“Do you think... will he know the situation here, afraid of you... run first?”

The Yunqiu beast was originally said to speak, naturally suppressing the sound, but after all, it is huge and the sound is still loud.

Even if the animal language is not understood by humans, it may be heard and heard, so it will be changed to a transmission consciousness to Shen Lang.

Shen Lang also returned to it with an idea: "There is this possibility."

"Then we want to go to him? If you run, it is not so easy to find..." Yunqiu beast is a little anxious.

Shen Lang shook his head: "Just have this possibility. The bigger possibility is... knowing everything that happened here will make him angry and want to come to revenge. Especially if we don't leave, it is a provocation to him!"

Their spirit can be related, similar to the way of the Black Dragon King and Bagan. In places far away, there is only one possibility, which is close to each other.

Shen Lang is now only combining his memory. He has not yet integrated other complete refining and transformation, and can't sense the other two. I believe that in the other two senses, Joseph's message is broken.

So naturally I guess he is in trouble.

Since Christopher is not far away, it is reasonable to come over and see it, and will come over as soon as possible.

Not to mention their friendship with each other, in this new world alone, each of them has a small gain, and this piece of interest cannot be ignored. Unless it is like the cloud hill beast god, clearly know the indecisive retreat.

But the three of them came to kill the Quartet. How can they not believe that the behemoths here can hurt them? So, I will come over and see.

So Shen Lang does not need to look inside this black sand, waiting here is.

Originally Joseph was waiting for Christopher to come, but now it is just a wait.

Waiting is always irritating.

The Shenlang is very peaceful, but the cloud hill beast is not calm.

Because of the peace of Shen Lang, he came from him to learn more information.

And it is not sure about the strength of the other side, and it is not sure whether the other party will come. After the arrival, whether Shen Lang can still win or not is uncertain.

“Or... I am looking for the black sand beast god? It is the king of the black sand boundary, the beast ***** in the black scorpion, it brings more black scorpions, and we have more chances.”

Yunqiu beast gods are waiting to do so, and can't help but open a suggestion.

It has now naturally regarded Shen Lang as its own person, and said “we”, but also for the sake of everyone's victory.

Shen Lang faintly asked: “You are looking for the black sand beast now?”

“...”

Yunqiu beasts are dumb.

Yes! Now I can't connect through the spirit, I can only find it, but if it goes alone to find it, what should I do if I meet the human strong?

If you go with Shen Lang to find the black sand beast, then you lose the meaning of waiting, the enemy may not be able to find it, you may have missed it.

“Wait, then.”

Shen Lang naturally sat down on a sand dune.

There is no black sandstorm. In the high places of the sand dunes, the line of sight can be seen very far. If someone comes over, even if it is very fast, it can be seen in advance.

The Yunqiu beast consciously squatted beside the sand dunes, and its head was as big as the sand dunes where Shen Lang was sitting. In this case, it is more appropriate, otherwise it has to bow down and talk to Shen Lang, watching the villain is not natural.

Of course, it can also be as small as a dog god, but it has not been thought of for a while, or has no such habit.

Shen Lang did not idle and waited, silently running “Yin and Yang Bozhenzhenzheng”, speeding up refining and absorbing the integration of Joseph’s cultivation of spiritual power.

In fact, the recent cultivation and spiritual strength and belief power absorbed by Shen Lang have already exploded. He needs a time for retreat and cultivation. If he can break through the realm of the gods in one fell swoop, then the merits will be completed.

However, he has a lot of concerns. On the one hand, it is not long after the promotion of the dog ***** with the help of the dog god. It is not stable for the ultimate god.

On the other hand, once you break through the realm of the Great God, you have to face the catastrophe.

In the previous life, he was ready to complete, and in the end he was still in ruin. This time, just a few years, honestly, the preparation is not enough.

Of course, there is also a way to go to the mainland of the island, or in this behemoth world. That has reached the realm of great deity, and it has no effect.

But after all, the earth is home, and the time of cultivation in this world is still short parents are still alive, he can’t leave the earth regardless.

The avatar of the Light God, who fell on Paul’s body, only raised this physical cultivation to the level of the Great Immortal Peak. This is because the avatars are much weaker, and because of the spatial rules of the Earth’s world, they cannot accommodate the existence of the realm of the Great God.

So use this compromise method.

Elder Tula, from the realm of the realm, can only be regarded as barely reaching the realm of the Great God. I don't know if it has just broken through, and has not yet reached the state of robbery, or there is no real breakthrough.

As for the dog **** on the earth, there is no such thing as robbing. It may be that the time is too short. If it is longer, it will trigger a crit of space rules!

Taking these considerations into consideration, Shen Lang is now trying to integrate the power of the beasts and gods, but is not eager to challenge the realm of the gods.

What he needs is to make the foundation strong and strong, and with his current strength, he can almost fight with the Elder Tula. Even if it is not the opponent of the dog god, it is close to the realm of the gods, and the peak of Daxian is invincible.

Under such circumstances, the refining and refining of Shen Lang will use the extra repairs to quench the body and let his body be shaped to an unprecedented height!

In the days when the real annihilation of the robbery, in addition to the cultivation of life as a force, it is ready to rob the magic weapon, and in the end, the body is resisting.

If he can temper his body like a magic weapon, and even the body is comparable to an artifact, when faced with the catastrophe, it will greatly improve the odds.

So now you can rest assured that the cloud hill beast god, he will seize the time to temper, take everything he swallowed, try to use it for me, and not let himself burst.

Chapter 1583 - 1 more god

Time passes by.

The cloud hill beast **** is a torment of the next few years.

Shen Lang is in the race to take advantage of time. If he does not want to expose his secrets, he even went directly to the space of heaven.

I don't know how long it took, in the desert in the distance, there was a sandstorm!

“It is a black sandstorm!”

Yunqiu beast **** snorted.

The black sandstorm does not hurt it, but it feels uncomfortable. If you just cross it, or wait for it to blow past, it will be fine.

But before in this black sandstorm, I encountered a lurking human powerhouse, and gave it some bad impressions.

“Do you think... will that human being hide in this black sandstorm?”

Suddenly thought of this, it immediately asked Shen Lang.

“clever!”

The black sandstorm only appeared in the distance, and the sound of the sound has not yet arrived here, but the roar of the Yunqiu beast has already made Shenlang pay back.

Looking at the black sandstorm in front, the gods of Shen Lang have already dispersed.

Just as his field can control the black sandstorm of a hundred miles, he can now have a wide range of knowledge, not to wait for the black sandstorm, and has already sensed the situation in advance.

“Really?”

The spirit of the Yunqiu beast spirit spurred, and the embarrassing momentum of preparing for the battle immediately broke out.

Shen Lang has already inspected it clearly. This black sandstorm is not a sandstorm naturally formed in the black sand. It is only a few tens of meters in length and is artificial. There is a human power in the core, which is just a blind eye.

The other party's move should not have been thought of being able to conceal the sneak attack on him. He just wanted to cover the sandstorm as much as possible, and when he was discovered later, he could learn more information.

For example, if he appears directly, it will be seen by others, but now hiding in the sandstorm, Yunqiu beast is also thought to be a miniature black sandstorm.

Shen Lang is to confirm this sandstorm, is not the cover of Christopher, after confirmation, it will take back the knowledge of God, calmly waiting for his arrival.

Next to the cloud hill beast ***** that had been crawling, after the preparation for the war, it has stood up, even higher than the sand dunes where Shen Lang is located.

But it quickly realized that the Shenlang was very calm and there was no preparation for fighting.

This makes it impossible to sigh, strength!

The strength of others is much stronger, so it can be so calm. Just like the Emperor, you can feel calm when you encounter something.

The dark sighs and sighs, and it does not dare to be prepared like a swell.

In the forest of Yunqiu, but still left a large number of corpses of camel and tiger beasts, as well as other kings of the giant beasts, were killed by these humans.

It would rather be overly careful and avoid death in case of death.

It is thousands of years like it can reach the realm of the beast god. It can continue to grow under the rules of this world. But now there is a strong human powerhouse. If it is killed, it will not be reconciled.

From the task of decisively giving up the door to guarding the space, it can be seen that it is afraid of death.

Since it has been decided to let Shen Lang head, it does not feel that there is any loss of face, anyway, it is also playing with the strong man of humanity, there will be no other beast gods know.

So it not only keeps fighting, but naturally retreats a little distance, maintaining a supporting angle, and in case of fighting, there is a buffer space for escape.

Shen Lang did not pay attention to this reaction, still sitting in the sand dunes, his eyes were watching the black sandstorm approaching in front.

Just after his insights, Christopher has already sensed it, so after he came close, he did not raise dozens of meters of dust, and his personal body floated, letting the dust fall behind, then Slowly dissipate.

When he came over, he was already on alert, and while observing the dark waves while observing the surrounding environment, people stood on a sand dune 100 meters away.

“Where are you humans? How do you mix with these beast animals? What about the human being here?”

Before Christopher did not figure out the identity of Shen Lang, he chose the first ritual soldiers, and did not open up to discriminate against the inferior races like Joseph.

“You are here, Christopher.”

Shen Lang faintly greeted one sentence.

Upon hearing this, Christopher’s face changed immediately.

The three of them are together, and only their own people can understand each other. This strange human being can actually shout out his name, apparently known from Joseph.

Joseph has lost contact, and in the end it should be in this film. Now I can’t see any traces. The other party can do the same. The answer is already coming out!

“What happened to Joseph?”

Christopher still has to be much more sensible. At this time, try to keep himself calm.

“As long as you hand him over, everything is easy to say. The resources on his body are taken when you take it. If there are any conditions, you can open it.”

He still has a hope, and he hopes that Joseph is still alive, but he is imprisoned, read memory or forced information.

Then decisively abandon the resources of Joseph let the other party dispel their concerns, and even say that they can make compensation.

Christopher will settle the account, as long as the person is still alive, even if he and Joseph join hands, they can not beat this human and beast god, they have a stronger one!

As long as three people are together, you can take revenge.

The premise is that if you want to live, it will make sense to live. It is meaningless to die and then smash the enemy.

As for the resources, let them go out and take the initiative to compensate. As long as they control the situation, they can regain it, including taking back everything the enemy has.

That is just a temporary let out, it can be a little generous.

What he is most afraid of now is to hear the worst results!

“Sorry...”

The opening of Shen Lang directly made Christopher feel awkward, afraid of what to come! This is probably the worst result he is worried about!

However, he is not an ordinary person after all, comparable to the strong man of the realm of Daxian, this dim and endurance is still there. Since the other party has to tell the truth, of course he does not have to deceive himself, just waiting to hear the answer.

It's just that in his heart, he has quickly recalculated according to the worst answer in advance and decides how to deal with it.

"I believe that you should have sensed it too. Joseph has already returned to heaven and returned to serve your god."

Even if I have already guessed this result, I really heard it, and it made Christopher very uncomfortable.

He took a deep breath and kept himself from violent, but slowly asked.

"You killed him? You know our identity, now you can tell your identity!"

Chapter 1584 - interest

Christopher can be so calm, in addition to my personality factors, there are also external reasons.

When Joseph first saw Shen Lang, he did not know what the origins were. He thought that this was the case. Naturally, he was habitually condescending, just like seeing ants.

Now that Christopher has come over, he has already guessed that Joseph may have been killed. At least he has already lost his beggars. Of course, his attitude will be more cautious.

Now from the words of Shen Lang, confirm that Joseph has been killed, the murderer is naturally the young man and the beast ***** in front of him.

This is already the strength of the bright side, he must have a small mental intelligence.

"My name is Shen Lang, the earth man." Shen Lang responded to him.

"Shen Lang?"

Christopher felt vaguely heard, but the impression was not deep, and it was certain that he heard it from Constantine V.

However, he and Paul's ambassador are not the same, that is the avatar that captured Paul's memory, so Paul knows these things, he knows.

Christopher, they are just the Pope telling them that when they went back to the secret, they talked about the waves, and the impression was not so deep.

"We are all human beings. Why do you want to help the beasts deal with humans? What benefits do they give you? Don't you know that their beasts have invaded the earth? Are you collaborating with them?"

Christopher's style also unintentionally revealed, just like to ask a lot of questions at a time.

However, even if he questioned the collusion between Shen Lang and the behemoths, his words were still relatively sloppy and did not say too ugly.

Shen Lang smiled slightly: "You guess."

Asked a bunch of questions, Shen Lang did not answer one, but also came "you guess", let Christopher hurt inside.

Can you communicate well?

Although separated by a hundred meters, his resentment has spread from the past.

"What do you want?" Christopher changed a question.

After he finished speaking, he faintly saw Shen Lang revealing a smile, and made up a busy sentence: "Don't say you guess!"

Shen Lang smiled and said: “That is to say it. Leave all the resources you have harvested, I can let you go!”

When he was in the black sandstorm, he had already collected all the inner Dans that Joseph had obtained. This is the inner Dan of the giant beasts. It is not good for the Yunqiu beast to look at it.

Now he is opening this condition, of course, it is a joke, because the other party is impossible to promise.

They went to the earth, from high-level civilization to low-level civilization. They were already very powerful. They did not need to bring any magic weapon to protect themselves, nor did they carry much resources. Some of them have already been given to the Pope.

This is also why, after coming here, the three of them vigorously hunted the behemoth, in order to enrich the purse.

In a few days, this is at least a few hundred thousand miles of rushing, the hunted behemoth Nei Dan, can you be willing to hand over to Shen Lang?

“When are you a fool? If I give you all the resources, will you let me go?”

Christopher frowned, and after a spit, he gave a suggestion.

“I have a proposal, you want resources, we also want resources. It is equal to our interests. The goals are the same. These monsters are so many, they can’t be hunted. And like the one around you, it is already the beast level. It’s not easy for a single person to hunt. How about our joint efforts?”

He has just been negotiating with Shen Lang. It seems that he said something useless. In fact, it is also a delay, and of course he is still thinking about countermeasures quickly.

Now that this proposal is coming out, it is also very obvious. If you can pull the waves into the league, of course it is very good. If you can’t, you can sow seeds to Shen Lang, and it’s good to differentiate your enemies.

After all, he is only a big fairy level, dealing with a beast god, there is no grasp of the victory, the overall should be similar, depending on their respective play.

But with the addition of Shen Lang, the other party will win.

This should also be the reason why Joseph died. What he has to do now is not to avenge Joseph, to fight for time to live, to wait for a meeting with his partners.

“It seems that you already have the answer.”

“answer?”

“You are not asking me why I killed Joseph? Of course it is because of the interests. You are not the people of the earth, they are not people, of course they are our opponents. If so, I can cooperate with them and turn over you, isn’t it very much? normal?”

Shen Lang is not going to tell him about the problem of Guangming, not to say that he has killed Paul, so he used one of the most convincing reasons.

interest. They are here for the sake of interest.

To cooperate with Shen Lang to kill the beast, or for the benefit.

This answer makes Christopher not know how to say it.

“We are human after all. When we talk about interests, we can cooperate. The beasts around you are a big benefit!” Christopher fought again.

“Oh, you are also human beings, but in front of the Earth people, you are self-proclaimed, and you are treating the earth and the beasts as one. If you cooperate with you, you should cooperate with them.”

After Shen Lang finished this sentence, the words turned.

“The opportunity has already been given to you. You have taken the initiative to hand over the resources. I can let you go to If you don’t give it up, then we have to do it!”

Christopher was a little anxious. This young man was simply not getting into the oil. He showed weakness and cooperation, and did not let the other party heart.

If you really want to work with the beast, then he is Joseph’s end!

“Wait... Since you know that I am Christopher, we should know all of our information from Joseph. We also have a Augustus, whose strength is far above us, and these beasts are unmatched. “”

In order to be able to live in Shenlang, he moved the Augustus who had reached the peak of Daxian.

However, he still said that he was paying attention to the emotional changes of Shen Lang, so that he could adjust it in time to see if it was a good warning or a good inducement.

“With Augustus together, we will not be in danger. More beasts can kill, and you can not divide more resources. You have to do it to me now, even if you win, you will get Limited, but plainly angered Augustus.”

He still chose to take a two-pronged approach, both to seduce the resources of Augustus to kill the beasts, and added warnings that annoyed Augustus.

Shen Lang snorted: “You mean, Joseph is not important, you are important?”

“...?” Christopher was a bit puzzled.

“Since I have killed Joseph and left you, can I cooperate well? That August will deal with me, killing you, he will deal with it.”

“...”

Christopher secretly smiled.

This is the case. He is not sure of revenge. If Augustus is here, he will definitely not talk about any conditions and will immediately take revenge.

Seeing that I can't flicker to Shen Lang, the only thing he can do now is to escape as soon as possible!

Chapter 1585 - Middle meter

Christopher has always been very calm, of course, it is also very decisive, confirming that Shen Lang is waiting to hunt him, and immediately there is no nonsense, directly and quickly retreat!

He was originally a distance of 100 meters from Shen Lang, which is a safe buffer area.

But this distance, for the realm of the Great Immortal, can not be called a safe zone, so he must hurry up, while the Shen Lang is still talking, immediately speeding forward as fast as possible!

In order to delay the wave, he waved his hand when he flew backwards, and immediately set off a hurricane, destroying the sand dunes he had previously established, and all of them covered the past.

This is the same as when he came before, this sand dune completely scraped, and immediately formed a micro-dust storm within a few tens of meters, blocking between him and Shen Lang.

He is also very clear that this does not stop the waves, but he hopes that he can delay a little in terms of sight. He himself is desperately regressing at the fastest speed!

Christopher's response is not bad, but unfortunately his opponent is Shen Lang!

In fact, they are in the mainland of Nakajima, and the realm of the Great Immortal is not always able to fight. The process of coming to the earth does not need to be said. Others are not as strong as they are. This time they have reached the world of giant beasts. When three people are together, they are almost grinding. Pressure.

After the dispersal, the strongest they encountered was the king-level behemoth. The same was one-sided. Many beasts followed the earth, and when they came back, they received the command of the emperor.

These behemoths are still far worse in terms of strategy, intrigue and so on.

On the contrary, Shen Lang, almost all of these years have been killed all the way, from the low level to the high level of the realm, are enemies constantly, experiencing various life and death crises. Coupled with living two generations, I have traveled to many worlds, no matter what experience is more than him.

Now that Christopher has been waiting for the door, of course, he has to count him!

Christopher's realm is similar to Joseph's, strong will not be much stronger, only Augustus is not the same as their realm.

So Christopher will not know hard after confirming that Joseph is finished. This is known from Joseph's memory. Christopher is such a character.

Since there will be no hard battles, and they have already arrived at the scene, without early escape, it is definitely a smart idea.

Wisdom is just the alliance he suggested, together with Yunqiu beast, he can even not be the inner ***** of the beast, only need to delay the time, and wait for Augustus to consolidate and stabilize the overall situation.

If this intellectual idea does not work, then the next step must be to escape! How fast is how fast!

This is the result of Shen Lang's understanding of Christopher with Joseph.

Based on this result, he made a layout in advance.

Just now, Christopher's various words were delayed in order to conceive countermeasures. Shen Lang also said something with him.

This is also needed for Shen Lang!

Shen Lang needs to paralyze him, let him feel the delay of success, let him think that he can suddenly leave.

But in fact, from the time he came to observe the environment, question the whereabouts of Joseph, to delay the time, think about countermeasures, etc., the waves are in the layout!

When Christopher had just fled, he drove the entire sand dune and created a micro-dust storm of tens of meters. In a hundred meters, he accelerated to the swell.

This is also a layout, a bureau that delays blocking.

For Shen Lang, this is too small for a family.

His layout was started when Christopher put down a miniature black sandstorm cover in the vicinity!

The bureau of Shen Lang is the control of the field!

Christopher came all the way, naturally it was careful, once it was found to enter the field controlled by others, naturally it would not go any further.

Therefore, there was nothing done in front of Shen Lang, and even the preparations for Yunqiu Beast God did not wait for him to approach.

When he put down the cover, Shen Lang began to open the field.

With his current strength, the black sandstorms of a hundred miles have been brought to control before, and it is not difficult to spread to the distance. In order not to let Christopher feel, he quietly arranged a ring.

That is to say, Christopher came close, including being settled 100 meters away, and there is no field control in the space near him. Including a large circle around the Shenlang, there is only a large circular area, and then a circular field is arranged.

Because of this, he just needs to be careful and need to cooperate with the other party to complete this layout.

Now, Christopher's rapid retreat, Shen Lang is calm.

He is equal to having laid out a big net in the distance, waiting for Christopher to pass.

And if Christopher slowly leaves, he can still be exposed when he is just getting in touch. No matter whether he can run away or not, he will not fall into it at least.

The faster you run like this, the easier it is to get straight in!

Therefore, Shen Lang is still sitting on the fishing boat, and did not get up and catch up, waiting for leisurely.

Yunqiu beast is a little anxious, watching the enemy run!

It is not sure to deal with but even if the waves are not sure, if they join hands, they can certainly get it.

Just because Shen Lang and Christopher just said a lot, but they don't know what they are talking about. At this moment, Christopher's departure, Shen Lang is unmoved, will it be what conditions they have reached, so let him leave? ?

After all, the sand that appears now cannot be called a sandstorm. It has no lethality, just blocking the line of sight.

It is very likely that there is another saying. After all, they are both human beings. Just talked with people!

In anxious, Yunqiu beast roared out and rushed forward. The tiny sandstorms were not in front of them, and they were strongly dispelled by it.

It's a big leap, and it's also a few miles away. Because it was in the desert, the landing did not produce a huge shock, but still a lot of sand was splashed out, still quite a bit of motion.

Since Christopher has escaped at full speed, of course he will not look back, but his knowledge is also concerned about the movement behind him.

Shen Lang did not catch up, this should have made him a bit skeptical, but Yunqiu beasts flew to catch up, but let everything be normal.

Shen Lang did not catch up, it is not necessary for him to shoot, and this beast **** shot to catch up!

The beast **** has a huge physical advantage, and a leap distance is far away. Christopher does not dare to stay, continue to speed up, keep himself to the limit speed, relying on the advance advantage of less than one second, the cloud hill beast Behind.

The result is that it flew into the Shenlang ring field!

Christopher yelled, knowing the middle, but because the speed is fast enough, it is too late to go back hundreds of meters. It is too late to retreat.

Chapter 1586 - Play around

After all, Christopher was born in the famous door, is the strongest in the world of advanced civilization, not only no stranger to the field, but also has deep knowledge in this aspect.

Therefore, in the discovery, it is too late to retreat, he directly gave up the retreat, and did not want to rely on speed to rush out of the field.

After all, since others have made such a situation, they will naturally take this into account.

At the moment, I want to be safe. He has to take another path and leave another way!

The Yunqiu beast was chasing after the back. When its second jump had not yet landed, it saw a scene that surprised it.

The escaping human powerhouse seemed to have stopped in the air, but it was not paused, but a buffer of tens of meters, from extremely fast, to a very slow pause.

Since it is running away, it is also catching up, then it is unlikely that it will not run. Definitely intentional, I want to attract it and then sneak it!

The Yunqiu beast immediately accepted the figure and did not leap forward. Instead, it suddenly fell into the ground from the air and was guarded by God.

It has become very tense at the moment, and it is not only the human strong in front but also the deep waves behind it!

If these two humans have already discussed it, then the escape is just a matter of acting. It is a setting for it, let it take the initiative to rush out, and then become a front-and-back attack!

These humans are not going to play to kill monsters, but naturally they are regarded as resources. They are the same in turn, and they are also looking for some powerful human resources.

In this way, the value of the resource as a king of Yunqiu is far better than other behemoths. Nature is also these human beings!

Didn't Shen Lang just kill their strong human beings?

Is it really out of justice?

Is it because of the friendship of the Emperor?

Is it not for the benefit?

It has not forgotten that the hurricane beast is taking everyone to the world of their humanity! Moreover, the Emperor of the Emperor brought back the behemoth, and there are already many behemoths and beasts who have not returned.

Since mankind has had a terrible war with the behemoths, it is a friendship with the Emperor, and I don't know how many points.

For the sake of profit, Shen Lang has to kill people, to kill it, there will be no burden at all!

And just after Shen Lang did not pursue this enemy, just watch it chasing it...

It is now guarding against the waves, more than Christopher in front!

But for this, Christopher did not know at all, and he couldn't take care of the beasts behind him.

Deep in the field, he immediately felt the pressure of the other side, directly let him fall into the quagmire. And this distance is already out of the dozens. If the other party is approaching, it will only be more stressful!

So he didn't have more time to hesitate, he had to find a way to break the escape right away, or else he would be in trouble. It is estimated that Joseph is just what he wants.

Christopher chose the direction is sky!

Since the field has been opened, the inevitable scope will be taken into consideration, and both the sky and the ground will be taken into consideration. The whole piece is under the control of others.

But in general, it is more difficult to control the ground, because it is not empty, there are physical silt rocks and so on. But for him, wanting to leave the ground is equally difficult and very passive.

So choosing the air is also no way.

He didn't fly directly into the air, but he burst into the light!

After the light protector, the lightsaber was sent out in the air!

This is the field where the Shenguang directly controls the Shenlang, and breaks out a space!

The field is like a quagmire at the moment, and the gods can indeed be dispelled. However, Shen Lang has already dealt with their gods. The power of this light has long been predicted, and how can he succeed?

When his gods had just been guarded and the lightsaber had just opened, the field had changed dramatically!

At this moment, the Shenlang, sitting on the top of the sand dunes, is the palm of the hand. It controls the field directly from a distance. Now it is only a few miles away from him. It is smaller than the range of the black sandstorm. More, nature is also able to control more calmly.

Since Christopher is already in his field, Shen Lang is naturally well aware of his attempt, and his control of the field is just a matter of thought, so the time can be very good.

When the lightsaber had just broken the field into a space, he did not wait for Christopher to fly out to the heights, and the whole field around him quickly contracted!

The scope of this search has reached a few miles!

The result is that the "channel" he broke open is already a few miles away, and he himself has been pulled far away by the field. There are no field controls for a few miles away, and no "channels" are needed.

As for himself, there is a gods and protectors, and there is no impact. It is just a plan that has just been carefully used, but it is directly lost.

Christopher is more aware of the seriousness of the problem, so regardless of the results just now, and no matter what you are going to face, you will continue to shine!

Besides, Yunqiu Beast God, originally it has not yet reached the scope of the ring field, has already stopped, and the double defense against Christopher and Shen Lang, so that it does not dare to act rashly did not expect an instant It changed again. Suddenly, the human powerhouse crossed the front of it at an incredible speed!

This surprised it and prepared to fight!

I didn't expect the other party to go to the back of it, and I didn't care what it meant. Instead, it feels that the surrounding environment is wrong, and the entire huge body is locked by the surrounding space.

This makes Yunqiu beast gods think that it is Shenlang to kill it!

This time, in addition to roaring, it is rushing to the front. Taking advantage of the enormous size of the body, the strength of the power, the field is difficult to hold it, just slow down the speed, or can run forward.

Christopher, who just went out after the second light, immediately felt it again. Before he started, the passage that had just broken open disappeared again, because the surrounding field shrank a few more times!

Originally, it was a field with a large ring inside and outside. Now it has been reduced and then reduced, and it has become a circle. All the surrounding areas are controlled by the field, leaving no space.

This control is easier than the ring, the distance is closer, and the control is more secure.

At this moment, the Yunqiu beast, who is running away, is shrinking because of the scope of the field. Let it go out of scope, suddenly lose the restraint, make its struggle unbalanced, and the huge body immediately rolls out in the desert for several miles. far!

Christopher released the third lightsaber.

This time, he didn't go into the air again, and he didn't go to the side, because it was clear that at this moment, the Shenlang control field, and at any time, he could take him to the left and right, and really make him turn around.

Therefore, his sword is to attack the past with Shen Lang!

Chapter 1587 - Barrier method? Illusion?

Christopher had just finished the second sword to escape, but it was also a cover. Sure enough, the second lightsaber could not let him escape, and there was an inertia.

According to the thinking of the average person, he will take the time to try again and try to escape.

Therefore, his third sword is prepared for this, directly close to the body is already close, attacking to the waves!

After shrinking the field space twice, he is now less than two miles away from Shen Lang. So far away from this, it is that many guns are no longer within range.

However, Christopher himself is the super powerhouse of the Great Immortal Realm. At this moment, the divine light used in their own way borrows the power of the Light God.

For the light, there is no difference in distance and speed between ten thousand meters.

It is a pity that when Shen Lang hit him, he has accumulated two experiences, and he knows nothing about Shen Lang!

Especially from the avatar of the avatar, their dependence on the light is equal to letting Shen Lang know their cards again and again.

Now the sword of the **** of light comes over, the figure of Shen Lang is still in place, but after the light of the past, nothing changes!

After Christopher looked at it, he couldn't help but be surprised.

This situation is a little different from Joseph's situation. Joseph was the shadow of the hit, and the Shenlang people had left, so after the lightsaber, the afterimage disappeared.

But now Christopher, watching the lightsaber penetrate the body of Shenlang, but the figure of Shenlang has not changed!

“Are you strange?”

Suddenly a voice rang in his mind, and Christopher quickly used his eyes to look at everything around him.

“Do you know where I am?”

Shen Lang continued to pass on his mind.

And Christopher was shocked to the next moment.

Shen Lang is not only on the sand dunes in front of him, but also on the left, right, and back... As he looks at him, there are more and more waves around him!

All the figures are still sitting on the sand dunes, which is in his view, that is, hundreds of meters away from him, there is a circle of sand dunes, and the circle above the sand dunes is a wave!

This of course can't be true, the blind eye!

The blind eye that was copied with the sand dunes!

But the problem is that in this shadow of hundreds or thousands, he can't confirm which one is the true body of Shen Lang.

If it is two figures, just choose one, and there is a half chance, but expand to a few hundred thousand, and no matter how confident, it will become a few thousandths of a thousand.

“Pretend to be a ghost!”

Shen Lang can directly transfer his meaning to his brain because he can lock his seat. But he doesn't even know which one is really sinking, and naturally he can't do the same.

So in this sentence, he drank it out in words.

At the same time, he also launched a response to Shen Lang!

His way of responding is to use the light sword, starting directly from one direction, and then quickly turning clockwise, facing all the shadows of the waves, and starting to sweep indiscriminately!

Directly facing a direction of fencing and rotating shots, in terms of speed and lethality, there is not much difference for Shenguang.

Of course, to support the longer time, the scope is greater, the use of the light is also pressure.

Christopher's whole person maintains a high degree of alert, paying attention to the illusion of one by one, or keeping it as it is, naturally indicating that it is a fake eye, and if there is a sudden vacancy in advance, it means really sinking. The wave is in that position!

He now sweeps indiscriminately. Of course, he does not expect to be able to kill the waves. In fact, in order to get rid of the true body and hide from the countless illusions, he can find a true body to attack completely.

But what surprised him was that all the phantoms were swept by the lightsaber once in a circle, but none of them disappeared, and there was no vacancy!

Sitting on the sand dunes, Shen Lang must have been in one direction, and the others were false shadows that were copied. But why did it not affect the real body in a circle?

Not to mention the fact that as long as you dodge, it will naturally affect the changes of these ghosts. Even if he wants to disappear from these shadows, there will be obvious changes.

Christopher still had confidence in his observations. He just looked the whole scope with the knowledge of the gods, and with the naked eye one by one, the results really did not change at all.

And he swept the ring very fast, and did not give the other side more opportunities to hide.

“Are you afraid?”

The voice of Shen Lang rang in his mind.

Christopher really felt a little cold, but he still didn't admit defeat!

In his view, Shen Lang can now play him in the palm of his hand, not because his strength is far better than him, but because he is caught in the other's field.

In exchange for his grasp of this opportunity, it is also possible to manipulate a competitor of the same level.

But no matter what way Shen Lang is done, everything is blind and false. What he needs is to find the truth among these illusions!

there is only one truth!

Christopher couldn't see the blind eye of the broken waves, and immediately changed the way decisively, and closed his eyes directly!

All obstacles to the eye are through the deception of people's vision, hearing, etc., if it can make people hallucinations, it is already the influence of spiritual power.

He felt that he was not affected by the mental power. Everything that he had just seen was just a deception of the blind eye. There was no result in how the eyes were carefully examined. The best way is to close your eyes directly!

The reason why I did not do this first is because people still rely on the eyes. This is an instinctive psychology. If you close your eyes, there is no sense of security.

But in fact, in such a realm as him, God's knowledge can completely replace the role of the eye, but it can do better and explore more widely.

After closing my eyes at this moment, everything around me could not be seen. For him now, it is becoming more clear.

Without visual misinformation, the investigation of the gods has become more of a source, and all that do not exist will naturally not be sensed.

It's just that Christopher is still a little depressed, because everything is empty, all deserts, whether it's the shadow of the waves or the sand dunes, it's gone.

He secretly told himself that this will still be a blind eye, it will be an illusion, you must be clear in your own mind, not to be disturbed by the outside world.

In addition to his eyes, he also let himself not listen and avoid misleading. God's knowledge has also been collected, not actively inquiring about where Shen Lang is, but around itself, while keeping himself strained at any time.

This time is actually very short, but he has let himself from active search to passive waiting. Because the other party's obstacles interfere with the law, taking the initiative to find itself will make you passive. Now passive waiting, but the mastery of the initiative!

Chapter 1588 - True and false

Christopher has calmed down and he thinks he has taken the initiative.

However, in Shen Lang here, he is still being played between the palm of the hand!

Within the field of Shen Lang, it is equal to a small world that he personally controls. It is only the most basic embodiment to contain the human network.

Changing the relationships within the field is arbitrary, including creating illusions.

Just like the first time in Tiandu, when the secret bidding will return to Jijia's courtyard, Shen Lang encountered a killer attack. They just let the whole street collapse and reverse.

That is the control of the field. Actually, this is not the case, but in that state, it is this picture that you feel and bear.

For the first time, he went to the world of behemoths and used a similar attack when he was fighting against the camel and beast in Yunqiu.

Now that Christopher is in his field, he just used the illusion to make his gods have no effect, but that is only the first step.

At this moment, Christopher closed his eyes and looked carefully, including passive and active changes, and Shen Lang was also adjusting.

His previous field, the scope was once expanded more than a dozen miles, and now it has been reduced to a few miles.

Now, it is to shrink the scope once again, directly to a radius of less than 100 meters.

The smaller the range, the greater his control in all aspects!

For example, he controls the scope of Baili. He can control this huge black sandstorm. It is already very powerful, but if it is in the middle and the edge, it is the strongest in the realm of Daxian. In fact, there is not much control.

Like the ring range of just a few dozen miles, he just pinned Christopher. In that range, the giant beasts like Yunqiu Beast God can still be forced to break with physical strength and brute force.

But now, the range is compressed to within 100 meters, the effect is not the same, whether it is the big fairy or the beast, even reaching the level of the peak of the Great Immortal, will bind the feet.

If you want to break free, you must have a realm of the gods.

Especially now, Shen Lang is not centered on himself, but people are outside the field, and Christopher is locked in a separate field.

In the next moment, within the field, began to swell the sand dunes, and then slowly approached Christopher from the surrounding to the past!

Because the whole range is not large, the dunes have just appeared, the distance is very close, and the slow approach is more and more oppressive, giving people a feeling that they can be compressed and buried in the dune basin.

Christopher immediately felt the pressure!

Originally, he was a few hundred meters away from the dunes, and now it has become a hundred meters, and it feels like it is in front of you.

And this time all the dunes are really coming out of the desert, not an illusion!

So no matter what his knowledge, or what he hears, it can't be avoided, because this is the real existence.

Christopher immediately felt the pressure, because these sand dunes directly pressed him, he would cover him, and then it was very passive.

This change made him unable to wait passively.

He has to do something, otherwise it is really passive.

But for a time, what he can do is very limited.

This time there is no shadow of the waves, all of which are close to the sand dunes. If you use the light, it is of course too wasteful.

Therefore, in addition to maintaining the body of the gods, he immediately burst into a sigh of anger, and they were defeated before the sand dunes came close!

His temperament is spread out without any difference, and it can attack all the sand dunes around.

But after the attack went out, he immediately realized that it was wrong!

All the temperament is like a sinking sea, and it disappears instantly. It has not arrived in just a few tens of meters. It has not broken down the sand dunes, and it has collapsed directly.

This effect will appear, and he is naturally very clear. This is in the field of others, and others directly dispel his attacks.

But he did not expect that the field of Shen Lang would be strong enough to exceed this level.

And at the same time, he realized that the surrounding field is now a powerful upgrade than when he was just trapped!

This made his heart begin to sink. I haven't gotten out of trouble before. Now it's like this, and of course it's even harder to get out of trouble!

However, Christopher's understanding of the field also made him immediately aware of an opportunity.

The current upgrade is not the sudden increase in the strength of Shen Lang, but the scope of the field has been reduced!

Whether it is to shrink his body, or Shen Lang himself came close, his distance to Shenlang is also greatly shortened!

Christopher had opened his eyes and looked at the approaching dune, and he immediately became aware of the fact.

These sand dunes are facts, no longer hallucinations, and the place where the sand dunes appear is no more than a hundred meters, and the Shen Lang is definitely not far from here!

As for the fact that he can't see the sinking waves now, the gods can't find out. It should be that these dunes block his sight, and the field limits his knowledge or illusion.

Since people are not far away then another direct attack!

Christopher once again slid the sword of the light, and swept around again!

His attack this time, consciously let it go, can also be regarded as an attack on those sand dunes, and the penetration of the lightsaber can directly kill the sand waves behind the sand dunes!

This time, the attack is much more effective than the attack.

Because the previous one is false, no matter how strong the attack, it will not be effective for the false shadow.

But now it is different. These sand dunes are real, so when the lightsaber is shot in the past, the powerful power directly dispels them completely.

The power of the gods is not diminished, and it is still a long distance from the back.

With the collapse of the sand dunes, Christopher's vision widened, but the desert was still seen, and the shadow of Shen Lang was not seen.

When it was said that it was too late, when he shot the entire circle and left less than thirty degrees of fan shape, he saw a figure in front.

"Lord Augustus!"

Christopher was excited!

Augustus arrived in time!

It seems that he should have sensed the death of Joseph, so he rushed over as quickly as possible. His realm is stronger and his speed is faster.

Christopher was very fortunate, fortunately, Augustus came over in time, and he was glad to stick to this moment.

Just a little confrontation, let him know that he is not an opponent of Shen Lang, only Augustus will be able to shoot.

He has not seen the Yunque beast now, and the guess is that Augustus has already solved it.

However, the field has not disappeared yet, and Shen Lang should not be settled yet.

Chapter 1589 - Selling friends to survive

“Don’t waste your energy!”

The voice of Augustus came over.

“Yes!”

Christopher was awkward, and the light was not a personal cultivation. This is a borrowing of the power of the gods.

This really can’t abuse consumption. If it is not a strong enemy, it is not Joseph’s murder that makes him cautious, and will not be decisively shipped to God.

“I am going to deal with this person! You are going to take the monster!”

Augustus also ordered a sentence, and then disappeared.

“Yes!”

Christopher gave an excited response.

When he was criticized not to abuse the light, he had already received the light, and finally there were some sand dunes that were not destroyed.

At this moment, he immediately searched for the trace of the behemoth. According to the meaning of Augustus, the beast of the beast **** level had already been defeated, and he waited for him to dig inside.

As for Augustus's shot, against Shen Lang, he felt that there was no problem at all.

After all, this is far better than his powerful Augustus, that is, he and Joseph add up and can't match.

Just as he searched for the body of the giant beast, he suddenly felt a sense of something wrong.

If it is true that Augustus is coming close, why is it that I feel no sense in advance?

Augustus can directly send a message to him, or cooperate with him to kill his opponent, why should he first let him light up?

When this skeptical thought was just beginning, there was a voice in my head.

"Of course it's fake. You see the Augustus, isn't it me?"

As soon as the sound of Shen Lang appeared, Christopher immediately became shocked. He immediately searched for the existence of Shen Lang, but found himself unable to move!

Now it is not the feeling of being in the muddy field, but the whole person is as imprisoned as petrochemical!

This kind of imprisonment, Shen Lang is a two-pronged approach.

Just now he morphed a picture of Augustus in the field, talking to Christopher, not afraid of his light, but to use his surprise.

When you are in danger, suddenly you can see that you can rescue your strong support. Anyone will be relieved. At that time, the vigilance is instantly reduced to the weakest time, although it may soon be renewed vigilance. .

But what Shen Lang wants is that moment.

When he was soon suspected, the layout of Shen Lang was completed, and the field gathered and gathered directly on his own body, which is a strong external imprisonment.

At the same time, his spiritual strength has also penetrated the past, and when it broke out now, he also completely controlled him.

“how did you do it.....”

When I found out that I couldn’t move, it was that consciousness began to invade, and Christopher struggled to ask.

“Don’t resist, this is your fate! I don’t want to hurt you.”

Christopher secretly complained.

The question he just asked, of course, is to delay the time, let him have a room for resistance, and have more time to think about countermeasures.

But the other party has completely thought of it, directly increased the crush on his body, the destruction of his spirit!

The body and the spirit will affect each other. The body is facing the pain of collapse and fragmentation, which directly causes the mental state to be disordered. The destruction of the spirit, the furniture will be painful, and the body will be more difficult to adhere to.

The two-pronged approach of Shen Lang made him a hard support.

“You don’t want to hurt me, you want to completely encroach on me! You are a scum! Tiger poison does not eat, you actually help the beast to kill the same kind, you have no humanity!”

“Tiger is not a child, are you my son? People are good, beasts are good, there are only three kinds for me, one is a friend, the other is an enemy, and it is irrelevant.”

The answer is self-evident. He is a human being, but he is an enemy. Shen Lang will never let him go!

“Let me go... I will help you bring Augustus! I will help you hunt him. His value is more than me!”

Seeing no chance to escape, Christopher’s decisive buddy survived in the last moment of willingness to be awake!

“I am not delaying the time, it is true. Your strength is far better than me, but it is very difficult for you to kill Augustus alone. If I help you, I can lead him and can cooperate with you. Let you encroach on him!”

“If you are afraid that I will not count, I can give me a next ban, drugs can be, if you finish, you will help me to lift. If I have two hearts, you will kill me directly!”

He actually sold off Augustus so decisively, and Shen Lang did not think of it.

However, for Christopher’s words, Shen Lang still did not respond.

He is counting on his mind.

Christopher just said that the reason why Shen Lang used to trap him in the field, using illusion and other means, step by step close to him, and use the opportunity to control him, just do not want to hurt him.

I don't want to hurt, of course, in order to get more. This is the cultivation of the body and the spirit of everything.

Like Joseph, he was smashed through the heart of the dead water, and although he immediately took his cultivation, he still sacrificed part of it.

Now that Christopher is so devoid of no harm at all, it is a complete body.

The same is true of Augustus.

Shen Lang is completely confident that he can deal with Augustus's. But after all, it is the strongest of Daxian Peak. Once you are desperate, you can still resist a while, perhaps you have to be bad.

If there is really a traitor, can deceive cooperation, and ruin the complete control of Augustus, the value is indeed above Christopher.

And Christopher said that it makes sense. Such an enemy cannot be believed, but it can be controlled by other means.

Now he did not immediately agree, is to think about whether Christopher is such a person!

It is understandable that a seller sells a living. After all, in this realm, no one wants to fall down like this. As long as there are opportunities, many people will sacrifice others to save their lives.

But it does not mean everyone. Some people with firm beliefs and those with firm principles prefer to sacrifice themselves and not to hurt others.

There are still some people who will calculate everything, including the quest for glory, but also can be calculated and adjusted.

For example, Christopher, as long as the Shenlang has been delayed, saved his life, and after Augustus has come over, he may have an early warning, and may join forces with Augustus.

And this does not mean that he will sacrifice himself, because Augustus's strength is far above him. He feels that the Shenlang is at the same level as Augustus. Gus can also help lift!

If you take a step back, Augustus will not let him follow the same thing when he kills the sinking waves. Even if he can't lift it, he just needs to go back. The light ***** can certainly help him to lift it.

The premise of all this is to live.

Chapter 1590 - Direct killing

Shen Lang did not express his attitude. The double suppression of his spirit and body continued, making Christopher feel more urgent and can only continue to plead.

"I swear by my faith! If I have other thoughts, I don't need you to kill me, I will be directly stunned by the light!"

Shen Lang secretly laughed, and the faith swears? Is it going to kill people who are higher in their religion than their stronger positions, and also swear?

But Christopher's move made him decide.

In order to survive, even the faith can be taken out and swear, this can be regarded as unscrupulous.

The most dangerous enemy is not the powerful enemy, but the unscrupulous!

For this, Shen Lang is fully aware of it.

Because in his course of the past few years, when he was weak, he encountered a strong enemy, and he relied on unscrupulous means to save his life.

Therefore, he will not give such a chance to people, even if the strength of the other party is far less than him, or it is already early!

So, he directly accelerated the crushing of Christopher!

It was already controlled, and it was only Christopher, who was struggling, and could not support it.

“No! No... what do you want, the resources of the behemoth I got, all for you! All for you!”

“Why do you do it early! Let you teach all the resources, I can spare you a life, you just don’t listen. Now I have crushed you, do not give me not all?”

Shen Lang fell a sentence, and then did not give him the opportunity to speak again.

With his powerful spirit, he is now able to directly destroy Christopher’s spiritual power!

The next moment, Shen Lang stopped crushing his body, but began to absorb his vitality and mental strength.

In the distance, Yunqiu Beast God looked at everything here...

At the beginning, it thought that Shen Lang united this man to want to engage him, and he was guarded by the whole god, and most of them were guarding against the waves. When I shrink the field, I think I have to do it, scaring it almost like a hobby.

And because the field suddenly lost its power, let it flutter out of desperately, it really thought that it would be killed by these two humans.

In its heart, I have already cursed Shen Lang and I don’t know how many sentences.

As a result, it tumbling and fleeing in the desert, but there was no movement behind him. When it stopped to look backwards, it was already dozens of miles away.

Because the body is high enough, the eyes are big enough, and it can be seen so far. It was discovered that Shen Lang was still attacking the human being and immediately smashed.

If it is really to protect it, then it can be clipped before and after, and there is no need to continue acting to the present level.

Determined that Shen Lang is still with him, it is very embarrassing, and also quickly returned to this side.

The result is not waiting for it to get close to here, it seems that the dust has settled!

Looking at Shen Lang to clamp up the human powerhouse, just like the human strong who had been shredded by it before, let the cloud hill beast **** very embarrassed, this is really a friend!

For the Orcs, people can kill the superpowers of human beings twice. It is already very rare, but they still feel that people are unscrupulous.

After it was confirmed, before the shackles, Yunqiu beasts, once again kept the distance guarded by the waves.

Regardless of whether it is necessary for Shen Lang to need its guardian guard, it is all willing to do so.

Shen Lang is of course taking the harvest of Christopher as his own, and he has completely absorbed his body and spiritual strength.

Finally, Christopher's body was thrown to the cloud hill beast, let him tear up the venting anger.

But this time, Yunqiu Beast did not break Christopher, but put it in the ear, it is ready to bring this back, in front of the cloud mound, in front of other surviving giant faces To prove that this is revenge.

“Shen Lang, our friend, I just blamed you, I thought you would kill me with him!”

The Yunqiu beast is still a ***** with a beast. When it feels that it is hurting it, the dark belly curses a lot. Now, after confirmation, it is also a direct apology.

Shen Lang did not care about its emotional changes at all, and it does not matter to its current apology.

“Normal. After all, I am human. I am here for the long-term peace of the two worlds, so I have to find the Emperor.”

“Yes, peace, we all need peace!”

Before, everyone could be tempted by the hurricane beast to strike the earth, because everyone is very inflated and feels the strength to crush a new world.

Now that the Emperor of the Emperor brought it back, it has already lost a lot, including the Hurricane Beast God did not come back. It is already a danger to them that they have not gone to Earth and have shown another world.

These human counterattacks fully demonstrate the power of mankind. Plus the power of Shen Lang now, if human beings are so powerful, then what is aggression, of course, it needs peace When I first saw Shen Lang in Yunqiu, I said this, it Still not quite convinced. But now, I have completely believed, because the strength of Shen Lang, want to kill it, it is easy. Only the Emperor can compare!

For such a powerful human being, the cloud hill beast ***** is already completely tempered. Also completely convinced, no longer doubt what is going on.

“Where are we going now?”

Shen Lang shook his head: “There is still another person, I don’t know where it is. The world is so big, we can’t take it any more. It’s best to see if there is any way to contact the Emperor.”

Yunqiu beast ***** nodded, this is also good luck, before it just picked a direction, and then came to the black sand, they met the human strong, and the two of them still meet nearby.

If the third-person powerhouse does not come here to meet, it is still difficult to find it in the whole world.

It also feels that finding the Emperor is the most reliable method, and the Emperor can solve any problem in its impression.

“I can’t do anything. Now only the Emperor can contact us, we can’t contact him, and other people can’t contact. It’s the black sand, I can’t contact the black sand beast.”

Yunqiu beast **** is very helpless, and seriously stated with Shen Lang, saying that it is not unwilling to contact, it is really impossible to contact.

Shen Lang did not expect it, but he was thinking and thinking. If you want to find the Emperor, besides Hengshan, where is the most likely?

This asks Yunqiu beast **** not more than himself. After all, he is now even the memory of the hurricane beast god.

Thinking about it, I thought of a place!
