

## First Strong 1591

Chapter 1591 - Sandstorm

Joseph's three people's contact methods are far less than the way of the behemoth.

Shen Lang can know that Christopher is in the area of Black Sand, not what he sensed, but in Joseph's memory.

But for Augustus, neither Joseph nor Christopher's memory has his traces.

The reason is estimated because the distance is too far away, and maybe the more powerful Augustus can sense them, and they can't sense Augustus. Similar to the general beast and the emperor.

Since I can't know where Augustus is, I don't know where the Emperor's behemoth is. If Shen Lang continues to run around the world, it is a waste of time.

Now that he has killed Joseph and Christopher, this is also witnessed by the Yunqiu beast god. With this, it can bring peace to the world of the earth and the behemoth.

After thinking about the analysis, the place that Shen Lang thought of was the space crack of the forest lake in the Yunqiu boundary!

The Emperor's behemoth let the other beasts and behemoths gather, for their safety, leaving it alone to pursue the three human powerhouses.

As a result, both Joseph and Christopher came to the black sand boundary and were not killed, indicating that the Emperor's behemoth was most likely to be held by Augustus.

And Augustus, even if there is a realm of Daxian Peak, in front of the Emperor's behemoth, it is only a share of escape.

Here the escape of the world is also in the territory of the behemoth, he may still be caught and killed.

Therefore, if you want to save your life, he must leave the world, and then go back to the forest where the space cracks.

The Emperor's behemoth has been following him, and naturally he will go there.

With this thought, Shen Lang said directly to Yunqiu Beast God.

"Back to Yunqiu? Are we not looking for these humans, are there still one, and the Emperor has not found a big one."

Yunqiu beast is a bit surprised and a little anxious.

In fact, he would lead Shen Lang before looking for it, also because the confirmation will not be the opponent of Shen Lang, afraid that he will be awesome in Yunqiu, will kill all the camel and beast!

With leaving, I went to other places, even if the swells of the waves, I will kill it at most, and will not destroy the genus of the hunchback.

For example, in this desert, if you are tired, even the black ones are the same, but the beasts, but at least not the llamas.

So now Shen Langyi said that he was back to Yunqiu. It was both surprised and anxious. There was no problem with Shenlang, but there was still a human powerhouse that was not found. If it was cited, it would be a great disaster for Yunqiu.

When Shen Lang saw through his mind, he couldn't help but laugh.

"You forgot your responsibility? How did the Emperor of God treat you? The door to space is the place you need to guard. When I came, I was not guarded. You are gone now, there is no other. The behemoth can be guarded. In case..."

This way, let the Yunqiu beast be awkward and nervous.

In fact, this problem, of course, has also been thought of again and again, without guards, it can come to three human powerhouses, and maybe another thirty!

Especially when you see Shen Lang coming over, it is equivalent to verifying this possibility.

But when Augustus had just appeared, it was murderous, and it directly caused a great shadow on him. It did not dare to go back. It was also the return of the Emperor's behemoth, so that they could all be hid, and it would be An excuse for self-comfort.

Just the words of Shen Lang are to puncture the reason for its self-comfort!

There are them there to guard, even if they can't deal with the enemies that appear, but at least there is a chance to show the police.

There are no guards, and that is how many people have come over and they don't know at all.

Is life important, or is responsibility important?

The cloud hill beast \*\*\*\*\* is also the beast \*\*\*\*\* of one lord, or has a sense of shame and dignity. Shen Lang's saying is broken, so that it can't be covered without head and can only face it.

"You are right, my responsibility is to guard the door of space. Even if the Emperor is back, I will hold it!"

After he made a statement, he thought of another question. Is Shen Lang saying that he wants to be with him?

"You want to be with me...?"

Shen Lang nodded: "We have already encountered two, and the rest, I guess it should be being chased by the Emperor, I guess he is likely to think about escape!"

Yunqiu beast god's thinking is not as good as Shenlang, but when it comes to this, it is still clear.

This escape is to escape from the world, and only then left from that place.

“Let's go back soon!”

With Shen Lang, it has been greatly reassured, even if it meets the human strong, it should be easy to win.

But if the person ran away, they would pass on the information of their world, and they might attract more enemies!

Shen Lang is a good person, but he may be just one, or not many good people like him.

Yunqiu Beast God feels that he has shouldered the responsibility of living and dying in the whole world. The world and the history of the world has been heavier than life.

Just as they were preparing to go home, there was a sudden black sand rolling!

It is a black sandstorm!

This time, the black sandstorm is far from the ratio of the black sandstorm made by Christopher. It is very likely to be as great as the one hundred miles of black sandstorm encountered before!

Look at this black sandstorm, from the direction they want to go back. Before the black sandstorm, Shen Lang “released” it, and also went in that direction.

Is it the same one? Was it blown back by the whirlwind?

“go!”

Yunqiu Beast God did not feel that there was anything big, just like when I saw it before, it had to rush forward.

But this time, I didn't want to let the swaying of the waves, just want to find something to leave.

Shen Lang still feels a bit wrong.

In this huge black desert, it is normal to encounter large black sandstorms. But why not a short time, a sandstorm left in one direction, and then came back.

When he followed the Yunqiu beast, his knowledge first extended to the sandstorm. As before, he first explored it.

The result is clear, it is a very spectacular team!

In the black sandstorm, there are more than a dozen black scorpions, and are approaching here!

These black cockroaches are even bigger than a train. They swiftly move around in this desert, and they will bring a lot of dust. Now this black sandstorm is a good cover for their whereabouts.

Not to mention the head of Shen Lang, the Yunqiu beast god, in front of this rolling black sandstorm, is also insignificant, directly engulf them.

In the front, I have to face those dozens of blacks!

Chapter 1592 - The desert is alive

“Humanity!”

“Death!”

“kill!”

When Shen Lang and Yunqiu beasts approached the past, the black scorpion team issued a roar of assault!

This is led by the beast god, which contains the behemoth and the king behemoth, which can be regarded as the strongest beast in the black sand territory, all killed together!

Their rushing is based on the black sandstorm. It is a surprise to want to hit the human race, and the whole staff is dispatched. It is also the heart of the life of you.

In the black sandstorm, they can't see the spectacular rushing of them, and they are not a frontal rush. After the roaring sounds caused the morale to rise, they all plunged into the desert, and the whole picture looked embarrassed.

“Black sand beast god! It is me! It is a friend!”

When Yunqiu beasts looked at the situation, they quickly stopped and then reported their identity loudly.

It is not afraid of the black sand beast god, but basically it is evenly matched. If the black sand beast \*\*\*\*\* carries a group of king behemoths, it can't do it naturally.

But now there are some waves on it, which can make up for the lack of quantity.

It's just that both sides are their own people and there is no need to do it.

Seeing this picture, even if it is, can guess a rough.

After all, this is on the black sand plate. Just two human powers have entered from different directions, and they have already made them as enemies.

It's just that the information released by the Emperor's behemoths knows that these humans are so powerful that they choose to lie and hide, so they will not take the initiative to attack.

But there was still a black scorpion that met Joseph, and the result was that it was controlled before.

It was only a coincidence that after they arrived, they saved the black donkey. The black cockroach ran away immediately, naturally sending the information out.

Then they moved so much here, the black sand beast should be clear.

Now the black sand beast god, together with all the powerful black scorpions in the black sand land, is ready to fight with the human power.

If it is with the two human powers, the Yunqiu beast will appreciate their power and may even join.

But now the rest of the human beings, but Shen Lang, this is a friend, a friend of the Emperor, is a friend who helps the behemoth.

Besides, with the strength of Shen Lang, it is also a breeze to kill a few black scorpions.

Even if people have no war, but they are attacked, they can't be beaten.

It certainly can't make this happen!

But when it screamed, the black cockroaches had disappeared, and there was only a black sandstorm roaring around.

In the next moment, the cloud hill beasts and the sinking waves that have stopped have suddenly rolled up innumerable sands!

The whole desert, as if it were alive, all the sand, as if it were a giant monster's scale claws, filled with spirituality to them!

The huge black sandstorm around it is also very shrinking at this moment. As with the previous method of sinking waves, the more shrinking and concentrated, the more intense the rolling black sand.

Just like the use of black sandstorms to attack Joseph before Shen Lang, it is now also manipulating the black sandstorm and attacking them as weapons.

Now, the experience of Shen Lang is absolutely surrounded by all kinds of nets and all kinds of nets!

Nowadays, it is the black sand beast \*\*\*\*\* that manipulates the black sand. This is their place of land. It is the place where their ancestors lived for generations. It naturally has the advantage of great geographical advantage and has the method of manipulating black sand.

Therefore, these black sandstorms have to be more urgent and more fierce than the manipulation of the previous waves. Not to mention the fact that the ground is like a desert!

“Black sand beast god! I am Yunque beast god!”

“How did you attack me! There are no enemies now! They are friends!”

Yunque Beast God roared further revealing identity and emphasized that there are no enemies.

But all the black cockroaches have not yet made a direct appearance. The black sand that is attacking them is still controlled. The black sand beast does not know whether it is heard or not.

“Save it! They think you are colluding with humans, and now it may be killing you.”

The faint words of Shen Lang are to make Yunque beasts shake.

Colluding with humans!

Where does this start?

But think carefully, for other beast gods, is humanity not an enemy? Not a wicked person who killed a lot of beasts?

You are the \*\*\*\*\* of the cloud, this is the gate of the space, it should be to prevent human beings from entering the world, how can it walk with humans?

This is not a collusion. Is it passing by?

There is no way to make sense!

Suddenly, I also understood something.

I thought that Shen Lang and the two humans said so much, would it be good to discuss. It seems that it should be the two human beings. When they see Shen Lang and it, they all blame him for colluding with the behemoth!

It is precisely because Shen Lang himself has realized this kind of misunderstanding, so now I will see the intention of breaking the black sand beast god!

For a time, Yunqiu Beast God is full of respect for Shen Lang!

Everyone is a human being, not far away, coming from the human world to help the behemoths resist humanity. What kind of spirit is this?

If it knows, it will simply say that this is the spirit of Bethune...

In the darkness of the Yunqiu beast, Shen Lang is not idle He just said that this fact has been broken, so that Yunqiu beast has a psychological preparation, don't let them do the same, By the time the account is still on his head.

He himself is no matter what black sand beast god, no matter how many black scorpions, as long as it is an enemy, whether it is human or beast, he can fight to the end!

At the moment, the waves are in the whirlpool of the black sand, but it is very clear and conscious of all this.

Yes, he was not nervous about being attacked, but he spoke carefully about it from a general perspective.

The black sand beast \*\*\*\* is used for the manipulation of sandstorms and even deserts. In the final analysis, it is also a category of field control. It only knows more about the properties of the black sand, plus a unique method to achieve better results.

Shen Lang is now keeping himself in the state of a bystander, and is highly detached, so that he can maintain the perspective of God and no longer observe it from the perspective of the eye.

When he merges with nature, he makes himself suddenly in the air, suddenly in the sand, suddenly in the distance, and suddenly in the underground... With the exploration of different angles of God, he understands and ponders its laws.

This is not difficult for him.

One law is universal, and all the methods are ruled by law. “Yin and Yang Bozhenzhenzheng” is a combination of countless exercises. Nowadays, the realm of heaven and man is unified, and it can be integrated by the macroscopic universe and the microscopic and microscopic methods.

He does not need to understand the situation of black sand, he has mastered the law, and everything can be broken!

Before he was able to instantly put the income of the Bailisha into the palm of his hand, it was done. Now facing the desert that seems to be alive, it is also a good one.

Chapter 1593 - Guilty!

“Chapter error, click here to report”

After the cloud hill beast \*\*\*\* realized the problem, there was no more roaring of madness, but a rational discussion on the black sand beast god.

It has also been hit by the desert, but because of its huge body, there is still a lot of convenience.

For example, the black sand that is rolled up dozens of meters can completely overwhelm humans like Shen Lang, and even hard to turn over. But for it, it is just a cover of the legs.

But in the end it is a giant beast, it can not show hostility, it must be explained clearly with the black sand beast.

So it is also very passive, can not attack, can only dodge as much as possible.

At this moment, it is also very helpless. I only hope that the Emperor can appear and explain everything.

The Emperor's behemoth, naturally, cannot appear here so skillfully.

Now it can only rely on its own explanation.

As a result, during the time of flashing and interpreting, it was discovered that Shen Lang had no idea where to go!

This makes Yunqiu beast sink in my heart...

The dark sands and the sand waves that tens of meters are swept up. Although it is possible to completely cover ten hundred people, it is impossible to influence him with the strength of Shen Lang.

Even if the black sand beast \*\*\*\* personally shot, it may not be able to move the waves, not to mention the fact that it is only manipulating the black sand.

The sinking wave disappeared, and it was very likely to annoy him and start to fight back!

With the strength of Shen Lang, sandstorms can be directly received, and the effect of screening is not achieved at all. Drilling under the desert, you can also pull them out directly.

Annoyed him, it is simply looking for death!

This made the Yunqiu beast \*\*\*\*\* have to stop to explain, and shouted to Shen Lang.

“Shen Lang adults! Please don’t be angry, you are a friend of the Emperor, please don’t know them.”

Then continue to growl: “Black sand beast god! All black cymbals listen, this is a smashing adult! Not an enemy, a friend of the Emperor! It is the one who helps us!”

It is a pity that its voice drifted in the roar of the black sandstorm, but no one responded to him.

When it was said that it was too late, the black sand beast gods took all the black scorpions to hide under the desert, and only used the desert to complete the first round of attacks. This can only interfere with the enemy and create a chance for them to attack.

If you only use the black sand to solve the enemies, you can’t make them all out.

So after a while of attack, the black scorpions were mixed in the rolling sand, and the strips came out of the desert, all of which went to the Shenlang and Yunqiu beasts!

“Looking for death! Don’t listen to Lao Tzu’s explanation!”

Explain one sentence after another, Yunqiu beast is also annoying. It was only attacked by the sand waves. It was licking the body and not caring. But now that there is a black cockroach directly attacking its body, let it completely anger!

With the strength of the Yunqiu beast god, all the black scorpions on the scene, only the black sand beast \*\*\*\*\* can compete with it. The other black beasts are king-level and can be directly shot by one of their claws!

And for the black sand black beasts who attacked them, this time they saw the cloud hill beasts shoot and flew black, immediately as evidenced, confirming their guesses – this is really a traitor colluding with humans !

For a time, the black scorpions all smashed out and attacked the Shenlang and Yunque beasts.

The lord king of the contemporary black sand territory, the beast \*\*\*\*\* in the black scorpion, also appeared directly!

Yunque beasts face more attacks. Although they are angry, they just shoot them and give them a warning instead of killing them directly.

But this concern has given it great constraints, even if it is only a few kings, it is also held back.

And it also pays attention to the Shen Lang, has seen the shape of Shen Lang, he is drifting in the black sand!

Whether it is a raging sand wave or a sandstorm that is swept away, it seems that the body of Shen Lang can be rolled away. And those black-scarred attacks, not to mention.

But he is also very powerful. No matter what kind of attack, it is always a little bit, so that his body floats in the air, as if he can be buried in black sand at any time, will be swallowed by black cockroaches, but always so close.

The sinking waves at this moment are like a feather in a tornado!

The tornado of the raging wind can destroy the house, pull up the trees, blow the feathers to the sky, sweep the ground, but can't tear the feathers!

Just this picture, let the distracted Yunque beast \*\*\*\*\* see the heartbeat!

It is not worried that Shen Lang will be buried, nor is it afraid that the black scorpion can eat the Shen Lang, but that Shen Lang is now very face-to-face, completely passive evasion, but not back.

If there is no evasion and it is swallowed up by the black cockroach, then you really have to irritate him. At that time, it may be the killing of the black scorpions!

Such retreats, these black shackles that are not aware of the lift are still entangled, and they feel annoyed, but if you really want to kill them all, then it is another matter.

If Shen Lang really wants to shoot, it can't stop it.

If the blood of the black sand really flows into the river, then it is a traitor to the human beast.

When the cloud hill beast is panicking and irritating, Shen Lang is leisurely!

Just as the scene of Yunqiu Beast God saw him, he was actually another experience.

He still maintains a global perspective but has already glimpsed the control of the black sand beast god, so he does not need to deliberately dodge, naturally drifting freely, can just avoid the right Every attack.

For the attacker, it seems that he can attack him a little bit; but for him, in fact, that is the inevitable result!

To put it simply, when a black donkey bites him, he feels that if he is a little faster, he can bite into the waves. In fact, it is a little faster, and Shen Lang will avoid the right benefits.

The same is true for other attacks, which will always be a little bit worse.

This is the power of the rules!

Now Shen Lang is equal to the other people's field, using the rules of others, just like his own field.

boom—

With a loud bang in the whistling sandstorm, the huge body of the Yunqiu beast fell into the desert, rolling up dozens of meters of sand waves!

The black sand beast \*\*\*\*\* who has been attacking the unsuccessful waves has been involved in the attack on the cloud hill beasts, and directly flew out the clouded beast gods who are worried about it.

“Black sand beast! This is what you forced me!”

The Yunqiu beast was furious, and it had the heart to persuade and explain it, but it has been beaten. Even the black sand beast has joined the attack on it. This is impossible.

Originally they are full of animal nature and are more prone to anger. It has been able to endure for so long, it is already very comprehensive.

At this moment, under the wrath, although he could not immediately attack the Beast of the Black Sand, the huge claws swung out and directly grabbed a black scorpion and tore it into two pieces!

“The Yunqiu beast \*\*\*\*\* colludes with humans and kills me black people! Let’s kill it together!”

“Revenge! Revenge! Kill this camel!”

Chapter 1594 - Thunder

Before the attack on both sides, because of the patience of the cloud hill beast, because of the spectator of Shen Lang, did not cause any damage.

Now the Yunqiu beast is irritated, and it has directly torn a black scorpion, and the battle has been upgraded!

Originally, these black scorpions have determined that he colluded with the world of human beings to plot the behemoth. Now it has torn the person, which is the most obvious evidence.

They can now kill the cloud \*\*\*\*\* beast more confidently.

And the cloud hill beast is also killing!

It is also a beast \*\*\*\* of the lord of the lord, and it has been repeatedly attacked by these black scorpions, which has already given them their face.

Since the black sand beast \*\*\*\* does not shame his face, it is certainly not polite.

The Shenlang people are using the rules in the sand, and of course they are familiar with the situation inside.

Yunqiu Beast God's attitude of tolerance, he is in favor and praise, this is what he has been doing, killing the llamas and beasts and killing the black scorpion, it is also not good to confess to the dog.

But now the animal nature of the Yunqiu beast is motivated, and it has already been done with the black scorpions, and he can no longer continue to look at it.

Before Shen Lang did not shoot, it is not necessary to wait for them to make a mistake and then shoot, but to glimpse the rules of the other party, in order to solve the problem more calmly.

Now that he is in full control, the situation has also been upgraded. If he does not shoot again, it will be more black scorpions being killed!

He did not care at all about the black and white life; the black sand beast \*\*\*\* and the cloud hill beast \*\*\*\* did not care, and Yunqiu beast was not his friend.

Only the dog \*\*\*\* is a friend, and the dog \*\*\*\* can affect the entire beast world, is the king who can decide whether or not to fight the earth.

These are just chickens and dogs, not a big battle.

When Shen Lang decided, a shot is a thunder!

“Receive!”

As his voice began to rise, the highly concentrated black sandstorm that had been reduced to a few hundred meters was instantly absorbed into the palm of the wave!

Before he was still surrounded by his hands, this time he was dragging directly in his palm.

The dense black sandstorm that suddenly collapsed suddenly disappeared, and immediately made the neighborhood awkward.

Although the black scorpions, which are sheltered by the desert, continue to pick up sand waves of more than ten meters and tens of meters, there is no black sandstorm environment that covers the sky, and the momentum is much weaker.

The means by which Shen Lang was in charge of sandstorms shocked all the blacks, including the black sand beasts.

“You guys, do you want to go to heaven?”

The Shenlang people were in the air, and they glanced at the audience with a cold look.

Yunqiu beast \*\*\*\*\* saw Shen Lang shot, although this means has been seen once, still feel very shocked.

“kill!”

There is a black sand beast \*\*\*\*\* violently drinking out, and other black cockroaches are also rising!

For a time, more than a dozen black shackles, like a tall building that rises from the ground, quickly pushed to the sun!

Just that hand has already made the black sand beast feel a huge pressure, it has already reacted, this human being is much more powerful than the cloud hill beast!

And this must not be unexpected. After all, collusion with human beings must be collusive and powerful. If this human being is not as good as the Yunque beast, it will not be able to conquer it.

So at this moment, it immediately made a decision, ordering everyone to include itself, attacking the waves together, and striving to kill this stronger enemy first.

As for the cloud hill beast god, the monk ran away from the temple, and it was completely possible to settle the bill afterwards.

Its tactics are correct. Shooting people first shoots the thief and thieves first, but unfortunately the goal is wrong now!

When it chooses to command all black scorpions to attack the smashing waves, it is destined to accept the thunder of Shen Lang!

In the face of more than a dozen black savage attacks, Shen Lang directly pushed the concentrated sandstorm in his hand to the distance, and then a black iron rod appeared in his hand!

There is nothing at all. In the eyes of the black beast, the iron bar of Shen Lang is like a chopstick in the eyes of a human being, or even a toothpick match.

They continue to approach!

At this moment, it is not only to attack the sinking waves with the minions, but also with an incomparably strong momentum. All the more than a dozen black-skinned momentums have condensed a field of linkage and enchantment in the air, directly multiplying the power!

This is the confidence of the black sand beast god!

As long as they can approach the surrounding waves, the sinking waves will be trapped in them, and then they will bite.

The previous black sandstorms were a good cover, but even if they disappeared now, they will not affect their immediate success.

At this time, Shen Lang's head suddenly became huge, and the iron bars in his hands quickly became long and big!

Originally, the black scorpions were approaching the deep waves in the air. After the swells suddenly became bigger, the distance was immediately closer.

At this time, Shen Lang has swiftly waved the iron bar and hit it out with a dozen sticks!

Every stick is hitting exactly on the top of a black skull!

And he is not only relying on the thunder of the iron bars, but also a lightning bolt from the iron bars!

With the strength of Shen Lang, it is just a stick, which is enough to make these black behemoths faint in the past, let alone a lightning bolt.

And his last stick was hit on the head of the black sand beast, and did not take away the continuous output of lightning!

The continuous bombing of the thunder became a roar, and after being hit by huge forces, the black scorpion had fallen from the sky and was hit by lightning. When they landed, they could not move at all!

The black sand beast is much stronger than other black beasts, but Shen Lang also takes care of it, not only is the stick more sturdy, but the continuous lightning output is also directly pressed to fall on the ground. .

The black sand beast \*\*\*\* was struck by the iron rod and was so stunned that it was completely unable to resist.

Looking at it now, it's a little smaller than them, and I can't help it.

How can this human being become so huge?

“You, you...what are you...you...we are coming back from the Emperor, you...”

Native chicken!

Shen Lang sneered a sneak, directly converge, let himself recover, and put the iron rod up.

The black sand beast \*\*\*\* saw that the narrow waves narrowed the body, and the true color was pleading for mercy, and he wanted to blog again.

At this time, Yunqiu beast took a paw and trampled it on the desert and rubbed it.

“You don’t know the waste of life!”

“I have already told you that the adult is a friend of the Emperor, this is my friend of the beast!”

“I just don’t listen, don’t listen, don’t listen!”

Every time he said, its big claws slammed on the head of the black sand beast.

It’s a good time to play!

I just knocked out all the gas I had just smashed, and in addition to my own anger, it was also beaten. If it doesn’t continue to be beaten, change it and give it a stick. If you don’t do it, just kill it!

This is both venting and life-saving for the black sand beast.

Chapter 1595 - Pierce

Shen Lang just took a shot and directly collected the black sandstorm, and sent it far away.

This has already shown extraordinary strength, and there is no fancy behind it. It is faster and more powerful than them. It gives each of them a black stick and a stick with lightning.

This also makes the black sand beast \*\*\*\*\* without temper.

On the fact that Shentong is not as good as others, on power is not as good as others, even on the head, others can become huge!

At this moment, it was beaten by Yunque Beast God. Although it was very depressed and humiliating, there was nothing to say.

However, it is the black sand beast god, the lord king in the black scorpion, and here is the black sand, it is its territory!

If you can't beat this human powerhouse, there is nothing to say, but what kind of thing do you like?

You are clearly a traitor of collusion with human beings, and the face is in the name of the Emperor?

The traitor who was cast aside by it was beaten in front of human beings, and it was clearly intended to be dedicated to humanity!

This humiliation, with each beat of the Yunque beast, constantly upgrades!

Now other black beasts are stunned by the waves and fall into the desert. The black sand beasts are also dizzy and paralyzed, but now there has been a change.

The cloud hill beast \*\*\*\*\* constantly pats it, in order to exhale himself, but also to see Shen Lang.

But for the black sand beast, not only did not appreciate, but still want to marry. More importantly, with every beat, pain and the like, it makes it more awake, and the paralyzed body that was bombarded by lightning has gradually recovered!

Just as human hatred against traitors will outweigh foreign aggressors, the hatred of the black sand beast to the cloud hill beast is far better than Shen Lang.

After being humiliated and rubbed again and again, it got a certain recovery from the body, and suddenly came to kill with a life!

The Yunqiu beast \*\*\*\*\* has seen the two waves of killing two human powers, so this is really a heart to protect the black sand beast god.

For the beast gods like them, playing a pass is nothing at all, there will be no harm, watching it be tortured, it will make Shen Lang vent their anger and satisfaction.

This point of Shen Lang is also a glance, but he does not care, not to give the face of Yunqiu beast, but there is no need to kill the black sand beast.

However, the black sand beast \*\*\*\*\* did not realize this good intention, and felt that he was humiliated by Yunqiu beast, and deliberately persuaded it so persistently, in order to flatter humanity!

This is so odious, it is simply an unforgivable traitor.

So after it got a little recovery from the body, it came directly to a sly!

Its head was beaten by the clouds and beasts in the desert, but they were black snakes, snakes, and the body was long and the tail was not controlled.

At this moment, it was the tail that quickly slammed over and found a sharp cone at the tip of the tail!

Its tail was originally very large, but now it has found a thorn like a wasp, and because of the big enough relationship, this thorn is not a small cone.

When its tail is moving, the cloud \*\*\*\*\* beast has already felt it, but it thinks it is a struggle. Even if the tail hits its body, it is not too thick.

I didn't expect the tail to come over, but it was a sharp tip!

Because it was sharp enough and sharp enough, under the momentum of the tail vigorously smashing the past, it immediately pierced its thick flesh and penetrated directly into it!

The black sand beast \*\*\*\* is not a casual injury, but intentional, this tail thorn is also their extremely rare life-saving attack, so after piercing the outer skin, continue to go deep inside, and the back makes the whole tail into the back. Go in!

Just such a pointed cone pierced into the body, Yunqiu beast is not a thing, still able to hold it, but even with the tail to enter, it is troublesome.

This is equivalent to opening a wound, and then the bigger and bigger things are crowded in. When the tail enters more and more, there is another big problem!

This is different from the general weapon. After the weapon is penetrated, it is basically fixed, and at most it continues to run forward.

But the tail is controlled by the black sand beast god, it can swing up and down, and the tail end has a sharp thorn, which can directly smash the internal organs!

Once the internal organs are pierced by sharp arrows and bullets, it is already a very serious injury. Even now, its thick tail is stirred in the abdominal cavity, not to mention.

Yunqiu beast \*\*\*\* screamed and screamed, but at the moment of piercing, it was not pulled out in time. Now it is struggling again. It is already difficult to do. It goes deep into the tail and tail thorn in its abdominal cavity, just like a hook. Tightly hung in its body, no matter how you want to lick it, you can't open it.

"Go to death!"

The cloud hill beast \*\*\*\* was crazy and went straight to the neck of the black sand beast god. It is now using all the strength, and the preparation is to tear the black king.

This time it is completely emotional instead of reason. The other party has already made it like this. Where can it be rational?

But this time, the black sand beast \*\*\*\*\* can no longer be the opportunity of Yunqiu beast.

It has already tumbling quickly in the desert. Anyway, it is now the key to the enemy. How can it be tumbling, and the other side is affected.

The cloud hill beast \*\*\*\*\* can't stand it anymore. It pierces through the back and deeply hooks the body. Whether it is the black sand beast or its every move, it will affect the pain of the intestines.

But can't stand it, it must also endure, must kill the other side as soon as possible, at least to stun, in order to give yourself a chance to get out again.

If you stir up for a while, I am afraid that all of its internal organs will be broken...

"Why don't you turn to me?"

The sound of Shen Lang rang in the air.

Hearing this, the Yunqi giant beast is a glimpse.

It has just encountered an almost fatal attack. The instinctive reaction is to kill the opponent. Even if you can't get out of it, let the other party resist. So instead of asking for help, I didn't even think about this layer.

After all, the time it took to know Shen Lang was too short, and it was just a matter of concession. This is not comparable to instinct.

"Shen Lang adults! Please help!"

After the reaction, it immediately screamed desperately.

The experience just has already made it very troublesome. Just like a fish biting a barbed hook, the more you struggle, the more you will get hurt.

Fish can only rely on breaking the line, slowly solve the problem of the hook, or pull off a piece of meat because of the force.

It is difficult for the Yunqiu beast to tear off the black sand beast. It is equal to the fish line can not be broken, and this hook can be moved by itself, so that it can do nothing.

Shen Lang gave it a glimmer of hope.

Chapter 1596 - have eaten

Shen Lang is not only aware of their every move, but even because it is seen in the air.

But at the beginning, he didn't think that the black scorpion was so powerful, and it was a tactical attack with a sharp hole and a whole tail.

After confirming the consequences, it is basically the current situation.

Hearing the decisive help of Yunqiu Beast, Shen Lang smiled and said: "You turn to me, I have no way."

Just after the hope of the cloud hill beast god, I heard this, almost dizzy in the past!

Jokes are jokes, Shen Lang can't watch it die here.

He killed Joseph and Christopher. The cloud \*\*\*\* beast is a witness. If you die in the black sand, the version of the black sand beast will become the truth. In its version, the cloud hill beast is The scum of collusion with him.

So while joking, he has already penetrated into the mind of the black sand beast with a mental power!

Shen Lang was able to pass the beatings and thunder and lightning, and let the black sand beast stunned. Now, the direct attack on it is very effective, and it instantly makes it feel blank.

Yunqiu beast \*\*\*\*\* just fell out of despair, and suddenly felt the black sand beast god's immobile.

This guy didn't think too much, it broke out, and the head of the black sand beast was torn off directly!

After waiting to tear the head off, it reacted.

It has just been the same attack, and it has no effect, it will only make it more painful. After all, they are all at the same level. Even if they have a normal duel, it is difficult to tear each other.

This time it will definitely not be the black sand beast \*\*\*\*\* just fell asleep, only one reason – Shen Lang shot.

It is also a beast god. It has a long life and it has been seen in the world. Even if another beast is killed, there is no panic.

Now it has more important things to do. If you can't immediately stab the tail, it will be difficult to survive.

The black sand beast has lost its life, the tail will not be controlled, it will not attack it, and it will not hook into its body.

If you pull it out again, just be careful and there is no problem.

However, because of the stirring that has just been done, it has already caused it to be visceral and scarred. It will be pulled out at this time, and it is necessary to double the caution.

When it concentrates on the removal of the thorn, Shen Lang is also polite to pick the inner Dan of the black sand beast god.

The inner \*\*\*\*\* of the beast \*\*\*\*\* is naturally stronger than the king beast, which is also impossible to meet. The beasts like this are all important subordinates of the Emperor's behemoth. If it was not in the case of the Earth before, he could not kill it.

Now this is the Yunqi giant beast, he just took a cheap one.

When the Yunqiu beast took out the tail and looked at the pointed cone, he couldn't help but pull it out directly.

Shen Lang sees that thing, it should be very extraordinary, bring back to the human world, it can be a material for refining weapons and soldiers.

However, his current realm is not lacking in this.

Yunqiu beast \*\*\*\*\* killed the black sand beast god, only Shen Lang saw it. But it doesn't want to kill it at all, because it can't deal with it.

Besides, it was just that Shen Lang first shot and controlled the black sand beast god, and it had a chance to kill it. Everyone is together, there is no killing.

The other black beasts are still in a state of coma, so they also gave it time to deal with it.

"Shen Lang adults, thank you for your help!"

Shen Lang nodded, although he only raised his hand, but if the other party does not understand gratitude, it will still be uncomfortable.

"The black sand beast has been removed by me. Under the circumstances just now, I have to do it."

Shen Lang has already controlled the black sand beast god. Originally, it can calmly save itself. It is not necessary to tear the black sand beast god.

However, the dry work has already been done. It is no longer meaningful to say that there was not much thought at the time. And the black sand beast wants to kill it, it will also want revenge.

Now I just borrowed a reason to have to kill and can listen to it better.

“Other black scorpions, let’s leave it alone, I will report to the Emperor of the Emperor, and give another one to the Black Sands.”

Shen Lang nodded, he did not care, he came for peace between the two circles. Don’t let the behemoth misunderstand him to kill the cloud \*\*\*\* beast, or kill the black sand beast god.

“As for its body... I am very hurt now, I am not welcome.”

Said, began to swallow the body of the black sand beast!

The behemoths are so simple and rude, including the emperor’s behemoths, and after they have swallowed them, they slowly digest and absorb them.

The body of the black sand beast contains powerful energy, although it does not directly help it heal, but under the severity of its weakness, these can make up for it.

Shen Lang has already taken the most valuable, and certainly will not compete with it for meat or something.

With such a block, and the evolution to the realm of the beast, you can eat a lot of things for a long time without eating.

Soon it cleared the scene and the traces were immediately hidden in the desert.

The black cockroaches stayed in the desert scene, and the two were ready to leave Can you still go? ”

Shen Lang is a bit skeptical.

At this moment, there is a hole in the back of the cloud \*\*\*\*\* beast. Although it has stopped the blood, it is conceivable that the injury inside is much heavier.

If it is normal, it should be repaired and healed. Even then, it takes a long time to recover. However, insisting on tens of thousands of miles of roads is fast, and there will be no small impact.

Yunqiu beast is a bit awkward, “Nothing, I can hold it, we have to go back, can’t let the man escape!”

Speaking of justice, but in fact it is worried that it has been placed!

Even if Shen Lang is alone, there is no problem in meeting the remaining human powerhouse.

But it will not be an opponent, and now it is hit hard. If you encounter the human strong again, it will immediately become the prey of others.

Not to mention the human strong, even if these black sorrows wake up, besieged together, with its current injury, not optimistic.

Therefore, it would rather drag the injured body and follow the Shen Lang. At least life can be saved, big deal to delay a little time to heal, spend more time healing.

Shen Lang thought for a moment, then said directly: “It’s too slow, you are too risky. Do you shrink your body? I take you away!”

Yunqiu beast \*\*\*\*\* is overjoyed!

It can’t wait for the waves to take it, so it’s much safer, and it doesn’t need to be consumed, it won’t aggravate the injury.

It immediately responded to the waves with action, letting his body gradually shrink and slowly reach the size of the average tiger wolf.

But before it has said anything, suddenly consciousness is blank!

Chapter 1597 - Speed of life and death

Shen Lang is not taking the opportunity to kill it, but it is the consciousness that controls it!

Because even if it is reduced, he can't take it with a pet.

He has a lot of space magic, but like the Ba Tian Tower, the income will go into refining. Ordinary storage bags and the like, income into the living things, do not know whether it will kill it.

The best way is to bring it into the world of heavenly books.

But this is his secret. It is a precedent for the Yunqiu beast to take a ride. It is impossible to let it know.

Therefore, the consciousness of it is controlled, so that it can not be awake, and then brought into the space of heaven.

Then Shen Lang began to accelerate, flying to the forest of Yunqiu at the super high speed of the Serie A.

There are all the tracks in the sac, which can be accurately positioned. You don't need the lead of the Yunqiu beast, but you can also change the detours that come and go, and you can change it into a straight line.

When you come, you still have to move to the speed of the Yunqiu beast god, but also to search around, now it is a direct super-fast flight, the whole is much faster.

After Shen Lang came directly to the place, he looked at everything and stopped to wait for the rabbit.

The cloud hill beast \*\*\*\* re-released, because in the space of the heavenly book, the time is a hundred times. After it comes out, it is equal to a few days.

With the repairing ability of the beast god, nature has already passed through the most painful period. Although it takes time to completely repair and repair, the situation is much better.

After it was awake, it was found that it had returned to the door of space, and the body had changed significantly. It immediately felt that it was definitely a wave that helped it heal.

I couldn't help but feel grateful.

Back to his own territory, three powerful enemies have already killed two, and Shen Lang is sitting in the town, and the Emperor is also likely to be chasing the rest of the, which makes Yunqiu beasts settled a lot.

It was hurt by itself, and it was impossible to do so many trivial things. For the time being, it still did not clean up those bodies.

Anyway, I am waiting, here is now equal to Shen Lang to help it guard, it is on the side of the peace of mind to rest, while absorbing the black sand beast, while automatically healing.

The dryness of Shen Lang is also the refinement of Christopher and Joseph.

On the second day, the Shen Lang and the Yunqiu beasts in the forest were both shocked by Huo Ran.

There is a strong momentum that has not arrived yet, and it has already spread far.

Emperor behemoth!

They are all familiar, this is the breath of the Emperor!

Yunqiu beasts were immediately excited. Although Shen Lang helped a lot, but in the end it is human beings. In the end, it is not familiar with it. The Emperor is the emperor of their world.

Shen Lang is also a bit gratified, and finally waited for the dog god.

And in the next moment, two people have another feeling...

A strong man of the Great Xianfeng, directly into the forest, it seems to go through the door to the space!

Augustus!

The answer is self-evident, the dog \*\*\*\* is searching for Augustus in these few days, and then chasing it all the way.

With the strength of the dog god, plus on the familiar site, it should be easy to find and kill Augustus.

But Augustus is, after all, from a higher world, and there are some secrets of the gods of light, plus their own strength is strong enough, and these are actually in the world of giant beasts.

Now that it has arrived in Yunqiu, it has come to the forest. The dog \*\*\*\* is also closely tracking it. It seems that it is ready to rush directly into the door of space. As long as it escapes, nothing can be heard. In chaotic space, he is safe.

Although they first sensed the momentum of the dog god, it is obviously because the realm of the dog \*\*\*\* is too high. In fact, it should be far away, and may still be hundreds of miles away.

Although it was a moment for the dog god, it was a while, but Augustus was fighting for such a little time.

Yunqiu beasts and Shenlang have instantly understood this.

But Yunqiu Beast God is powerless and unable to stop, even if it is not injured, it can't stop Augustus. With its self-protected character, if there is no previous education about it, you may encounter Augustus, and run directly!

No, if it is not because of the deep waves, it will not come back here at all, it will be hiding in Yunqiu, waiting for the instructions of the dog god.

Now, at this moment, Shen Lang can of course not rely on it, or rely on himself.

He still knows a little about Augustus in the peak of Daxian, which is indirectly pieced together by the memories of Joseph and Christopher.

Obviously, the three of them came together, but Augustus can be regarded as their leader. The strength of Augustus, even on the sacred Paul God, is to truly protect Paul!

Before that, the cloud hill beasts will be scared away, that is, because Augustus first shot, let the cloud hill beasts think that they are all so powerful.

Now the cloud hill beast has shivered...

Shen Lang arrived yesterday. Although he has been waiting for it, he has actually made some arrangements.

His arrangement is not a physical arrangement, because it is the realm of Daxian's peak the simple arrangement of the array, can not affect much, but to be super large, not immediately Arranged out.

Therefore, the arrangement of Shen Lang is to first completely manipulate the surroundings, to control the vicinity of the field, and to make advance drills to familiarize themselves with the environment.

When I said that it was too late, now I felt the smell of the dog god, I guess that Augustus might come. When the momentum of Augustus appeared, his field had already been sent out, and it was filled with around.

At this moment, Augustus is to bring the speed to the extreme, he must run desperately. In other places, you can evade each other by hiding, etc., but now he has to leave the space crack, it must be exposed, only this way.

He is also very aware of the situation here. The guarded behemoths are not their opponents at all and have been killed.

Even if a group of giant beasts are rescheduled, he will not fight, but rely on speed, or have the opportunity to rush into it first.

And at this moment, just in front of him, under his fast speed, he is already close to the target, and under the difference of zero and a few seconds, he directly penetrates into the small lake where the space crack is located.

What he needs is a little bit of lead, waiting for the powerful giant beast to chase him, he has already entered!

Shen Lang is on the shore, watching Augustus go to the top of the lake, to the position of the door of space!

Yunqiu beasts shivered, but it was too late to run away. Its eyes were also seen really. This is its boundary. It is the place where it is guarded. Of course, it is clear that the human strongman has entered the door of space!

After all, let him run! The Emperor of the Emperor is still a little bit worse!

Chapter 1598 - Emperor shot

Yunqiu beasts shiver, but Shen Lang is well-informed!

Augustus flew from a distance and walked to the area of the door of the space, but did not enter the door of space directly as he expected, and did not enter the misty chaotic space!

His figure crossed the lake and still reached the forest. And because it stopped after the rush, so at this moment his figure is parked in the forest.

This situation, let Augustus very depressed!

No matter what caused this situation, the result is that he has no time to escape!

The beast and beast \*\*\*\* at the back has been biting him for a long time. He has been struggling to escape from here. Bo is the door to the space that leaves this world.

Losing this opportunity now, the other party will not give him a second chance!

The Yunqiu Beast God is also incredible with huge eyes. How can this door of space lose its effect?

Because it hasn't gone in, I don't know the specific situation. Now I look at this scene and I don't know how to understand it.

But one thing it understands is that no matter what, this human powerhouse has not escaped, and the Emperor of the Emperor should arrive soon!

Only Shen Lang knows what is going on at the scene.

Just after the incident suddenly, in an emergency, even if his strength is stronger than Augustus, it may not be able to stop in time.

At that time, Augustus rushed into the space crack, or even rushed in with him, the situation is not very good.

Therefore, he directly used the control of the field to make a reversed cover for the lake!

That is to say, the door of the space is adjusted by the angle of the blind eye. The position of the door of the space confirmed by Augustus according to the reference object is actually deviated from 100 meters.

This is just a deception of the naked eye, whether it is the Yunqiu beast or Augustus, it is the illusion of seeing. In fact, if you let them feel carefully, you can find out what is really there.

And this move can be successful, based on the urgency of time.

Augustus fled quickly, able to find the cloud hills in the entire beast world, looking for this forest, and then to this small lake, it is not easy.

Whether he relies on memory or a map of reference objects, it is impossible to be as precise as the sacred track. This is doomed, no matter how fast he is, he still needs to recognize and adjust the direction through the knowledge of the gods.

Even if it is at the lake, it is still necessary to confirm the specific points through the eyes for the surrounding reference objects, and accurately put them in after fine adjustment.

But because it is fast enough, there should be no time, so you can't feel it in detail. The more accurate his judgment, the more 100 meters of error that Shen Lang now creates, the more effective it is!

Just as he passed through accurately, the result was that the deviation was 100 meters away. Naturally, he did not enter the door of space, but continued to remain in the forest.

The next moment, when he senses the abnormality of the lake, the Emperor's behemoth has arrived!

When the Emperor Beast is chasing nearby, even if Augustus has re-positioned the door of space accurately, it is impossible to give him another chance.

Augustus had no time to manage why this was the case. The Shenlang and Yunqiu beasts next to him were directly ignored by him.

Now he can only re-lock the scope of the door of the space, and then grasp the speed, try again before the Emperor's beast has not arrived and blocked.

So when he re-searched, people had already flown out of the forest and hovered directly on the lake. At this time, even if there was no accurate induction, it was a success.

At this time, the body of Augustus was frozen in the air!

With the strength of his great fairy peak, it is also completely unable to struggle to solidify in the air above the lake. It is not far from the door of space.

Looking at this scene, Yunqiu beast is very excited.

The power of this human powerhouse is that it can directly kill monsters at random, that is, Shen Lang has killed two of them, and it is not so powerful. This scene can now appear, naturally it is the arrival of the Emperor.

The next moment, the dog \*\*\*\*\* has arrived at the lake, the cover of the dark waves disappeared, and the dog \*\*\*\*\* also sucked the Augustus in the air to the shore.

It does not need to use the claws, and directly oppresses this Augustus on the ground.

There is no doubt that it is a real fire!

From its proximity to the present, there is a huge pressure around the small lake.

Shen Lang suspected that Augustus should use some secret methods, magic weapons and the like, completed the hiding, pockets and the like, barely delayed until now, and strive to escape.

But the longer he persists, the more annoying the dog god!

After all, the strength of the dog \*\*\*\*\* is stronger than him. This is still the territory of the dog god. It can actually make a human being who is not as good as it, and what is the face.

The dog \*\*\*\*\* screamed in the sky!

The sound spread far away, and the nearby Yunqiu beast \*\*\*\*\* directly shocked to the ground and did not dare to move.

Shen Lang also felt a powerful shock, and then he moved and tried to sense it.

Sure enough, just the roar of roaring, but also the giant beasts of the whole world, released a safe signal. Beasts, behemoths can begin to sense their existence.

They are unconditional trust for the Emperor.

The dog \*\*\*\*\* also saw the Shen Lang and nodded to him.

I didn't see Shen Lang on that day. It also worried that Shen Lang was not in trouble, but afterwards I thought about it. With the ability of Shen Lang, it would not be so simple to die.

As a bystander, Shen Lang has many things to see more clearly.

For example, why did Augustus persist for so long?

The dog is not there, he is naturally rampant, but the dog \*\*\*\*\* is back, and on the familiar site, it should be easy to find.

In addition to Augustus, there must be some means of life-saving, another factor is the lack of experience of the dog god!

In the world of giant beasts, it is a unique emperor. It is a matter of self-requirement. It is just a matter of restraining the kings and beasts of the various ethnic territories. Other situations are responsible for them.

Even for a long time, it was to let the hurricane beasts deal with some things.

And here, it has no opponents at all, and how come the actual experience? There are no enemies here, and what is the search experience?

Even with the days when Shen Lang left, it was almost a crushing existence, and there was no big trouble.

Therefore, Augustus was able to have a hole to drill. Now that he is caught, the dog \*\*\*\* should not be very good at interrogation, and Shen Lang decided to help it.

“If I don’t mind if I am human, let me ask him!”

When you heard the words of the Shenlang, the beasts of the Yunqiu, who were kneeling on the ground, quickly took the initiative to express their views on Shen Lang.

“The Emperor of the Emperor! Shen Lang adults help us in addition to the other two bad humans, is a true friend!”

#### Chapter 1599 - Interrogation

The cloud hill beast is still relatively sleek. Like the current situation, it was not possible to speak, but it still actively spoke for Shen Lang.

This is not because I am grateful to Shen Lang to bring it over and “help it cure”, but precisely because Shen Lang is a friend of the Emperor!

Since it is a friend of the Emperor’s behemoth, the Emperor’s behemoth naturally does not want to see its friends together with the humans who invaded and killed the behemoths, but in the presence of it, it is not convenient to directly ask.

Its active opening is equivalent to helping the Emperor’s beast to solve the problem. It is determined that the Shenlang is to help their behemoths, and the Emperor’s beast does not need to be embarrassed.

The same is also the same as Shen Lang, a person, to help Shen Lang speak.

It braved the initiative to open the Emperor’s behemoth, but it did so in one fell swoop.

Sure enough, after hearing it, the Emperor’s beast’s attitude was much better. After reading it, he looked at Shen Lang again and nodded.

“You don’t need to translate for him, just interrogate in human language, I can understand.”

They are now communicating, they are all using the animal language, but after the emperor has gone, he has already understood the human language.

Of course, Yunque Beast God listened a lot!

Before it looked at Shen Lang and Christopher's negotiations, because they didn't understand the meaning, and misunderstood them to discuss it, to engage in it, to scare themselves, but fortunately did not offend the waves.

The Emperor of the Emperor is the language of humanity, and it really is the Emperor!

Shen Lang was also not polite, directly to the front of Augustus.

Augustus was suppressed by the dog god, unable to move on the ground, but now let go of a little control over him so that he can speak.

"It's you!"

"Do you recognize me?"

When I heard this, Shen Lang was a bit surprised.

"I thought Joseph and Christopher were killed by this monster, and they were killed by you!"

When Augustus said this, he was obviously angry.

"You are a human being, in order to please these beasts, to ruin your own kind! You are not worthy!"

When Yunque Beast God said it was the animal language, humans sounded like a bark. Obviously, Augustus was not heard because it was heard.

The Emperor's behemoth just heard the Yunqiu beast \*\*\*\*\* said, there is still some accident, now with the words of Augustus, further confirmed that Shen Lang helped kill the other two human powerhouses.

This makes it very gratifying!

Because it was held by Augustus for a long time, it was impatient. It is also for the safety of everyone that all the beasts are hidden.

If it wasn't for Shen Lang to help kill the two, even if there were no more beasts killed, they might have both of them run first.

More importantly, on the earth, in the case of the orc invasion of the earth, it maintains the waves and maintains the human side because of the relationship between the waves.

The reason is because Shen Lang is a credible friend!

When I came back and found that three human powers had copied the old nest, the other beasts felt that they were arranged by Shen Lang, and they were restrained, and arranged for people to attack.

It also has such a view. If not, how can someone be so attacked and can be accurately found?

This is one of the reasons why it makes everyone hide, and does not want to kill more of the behemoth compatriots because of its relationship.

It is also the reason why it has worked hard to chase down Augustus alone.

If you prove that Shen Lang and Augustus are both of them, it will be very disappointing!

It was just calm, but also because when it was still a little bit controlled by Augustus, it was the help of Shen Lang here, delaying the time of Augustus, and let it arrive in time.

The confirmation now confirms that it has not read the wrong person and the wrong person. Shen Lang is still a friend, not a vicious human being who wants to poison the behemoth world, but a friend of peace!

This allows it to account for other behemoths.

Compared with this confirmation of friendship and trust, the two human powers are not so important.

“Augustus, you are not the human beings of our planet. When you come to Earth, you actually want to invade and enslave all of us on earth. It is not a way of destruction, but a way of appearing more civilized.”

Shen Lang shook his head. This sentence is also a confession to the dog god, let it understand that this is not the strongest on earth, not the earth humans want to invade the world of monsters.

“In order to show good things to the beasts, I don’t want to recognize the identity of human beings. We have great help to the earth, because everyone is human! And you don’t actually treat us as human beings, but also treat the beasts as their own people. !”

Dog gods can understand, and Shen Lang does not need to explain any more. Augustus’s words are equivalent to acknowledging that they are not from the earth.

Shen Lang did not argue with him, but continued to speak.

“As a person on earth, what we want is peace. Don’t say that you guys who only use our two worlds as resources, even if some countries on the earth are trying to invade in the name of development, I have already destroyed several teams. people!”

This is the truth, Shen Lang is also to let the dog God understand, he also has made friends for peace, and made efforts for peace even killing humans.

After all, he and the dog \*\*\*\*\* are both decisive figures in the two worlds. The attitude of both of them can determine whether it is peaceful.

If you really invade each other, even if he and the dog \*\*\*\*\* do not participate, the destructive power of other beasts and behemoths can directly destroy the earth!

Of course, the earth also has weapons of mass destruction that are not available to the great behemoths, but they cannot be transported at all. Even if the nuclear bombs are fierce, they will not be able to throw the world, and it will not help.

It is only the level of the Earth's people. Whether it is scientific exploration or the army, the door to space is a dead end, and it is directly crushed by space pressure.

After all, like the real people like Xiangyang, it is still the same with Shen Lang, and the impact is directly hit hard.

Even if the countries can gather all the monks and supernaturals above the sacred gods to go, they also contribute resources. There is no need for the beast gods, and several kings and giant beasts can eat them one by one.

Shen Lang is strong enough, but it is difficult to support, and he will not know to come and kill the behemoth here.

Therefore, he tried his best to avoid the war. As long as the peace was maintained for a period of time, it would be no problem if the crack in the space of the earth was closed.

“You are not worthy of being a man! You are a human shame! Because you are afraid of the beasts, you are kneeling at them, you are a human shame!”

“If you still decide that you are human, help me and rescue me. I will take you to fight and annihilate these giant beasts and make them domesticated animals on earth!”

Augustus wants to have a chance to stimulate the waves.

“Do you believe this yourself?” Shen Lang taunted.

Chapter 1600 - Threatening threat

The strength of Augustus is stronger than Joseph and Christopher. Of course, it is not a talent.

His age and age are higher than the two of them, so even if they are comparable to the realm of Daxian, he is still respectful to him.

This also caused their two understandings of Augustus to be limited. Shen Lang had their memories and could not grasp the mentality of Augustus.

At this moment, Augustus was blindly looking at the waves, and immediately ignored him, but looked at the Emperor!

Shen Lang slightly frowned, from his eyes, he could guess a rough.

Augustus does not know that the dog \*\*\*\* can understand people's words, but in this realm, it is completely possible to communicate directly through consciousness.

Shen Lang has not entered the oil and salt, he wants to directly flick the Emperor!

He didn't have any communication with the Emperor's behemoth before. After all, they came here to hunt and kill the behemoth, and the Emperor's behemoth came back to know this, directly to kill him.

When I first met the Emperor's behemoth, Augustus also understood that there is still a gap between the strengths of both sides. I dare not break any hard bars and decisively escape!

After that, I dare not let the Emperor behemoth approach, let alone active communication. Now being subdued here, he also tried to use the Shenlang first. After no way, he actively communicated with the Emperor.

At this time, the Emperor of the Great God spit and said: "What do you have to say directly, I can understand!"

"..."

When he heard this, Augustus stunned a little.

This behemoth can understand people's words. The words that I just said let it be understood. It is not easy to show it again.

As for how it can be said, there is nothing strange about it. The conjecture must have been taught by Shen Lang, a human scum.

"Okay, then I will make it clear. I am not a human being in their world. They are afraid of you because their strength is not enough. I am from the upper bounds of heaven. In our world, I am not a powerful person at all."

It's no longer a good show, and Augustus can only be hard-pressed.

"With your strength, it took me so long to catch up with me. This is because I stopped here, or else I might not be able to catch up with me. This is still your site! This is enough to prove my strength. What?"

There is nothing to say about the Emperor's behemoth, and the huge dog's head simply does not see its emotional reaction.

Augustus continued: "In the upper bounds of our heavens, there is the existence of God! This is the God you and your world understand, the level of the Creator, the world that created you, or the history of your world civilization. God of development process!"

When he speaks of God, his emotions are very sacred and solemn, as if God is in front of him, as if God can see and hear.

"My consciousness is to communicate with our bright gods. Here, even if God is in the upper bounds of heaven, he can hear and see that all of you can't deceive God!"

"He! Killed the messengers of the two gods, it is already angering God, God will lower the punishment of God! And the two gods are dead in this world, the punishment of God is landing in this world! Floods and volcanic eruptions, the environment in which your beasts will survive will no longer exist!"

“Sin is made by him! God’s punishment should be borne by him, and the influence should be the world that affects them! You are the king of behemoths, naturally have a big picture, and will be the behemoths of the whole world, including other beasts, humans. Waiting for life, please give me a chance!”

“I will take him away and bring them back to their world. They will also make clear to the light gods. When they fall, it is in their world, it will not affect the slightest. It is still your home, still A paradise for peace.”

Augustus was still quite eloquent. The Emperor’s behemoth gave him the opportunity to speak, and he quickly organized the language and launched a series of persuasion.

First of all, with his own strength and ability as proof, he will elaborate on the theory of God that the low-level civilization will fear. Differentiating Shen Lang and the dog god, throwing the problem to Shen Lang and giving the earth world.

His foothold is still relatively high, and he can look at the whole world at a glance, and can guess the responsibility of the Emperor.

This of course has something to do with the description of Shen Lang just now, letting him realize that no matter whether it is Shen Lang or the Emperor, he wants to protect his world.

Now these words are said, they are a big variable, how the gods are punished, they have never seen each other, and the more unclear, the more they will make their brains more powerful.

Now he has thrown the problem to the Emperor’s behemoth. If he kills him now, it will directly bring crisis to the whole world. Otherwise, he must be put away.

Shen Lang listened to his differentiation and did not feel angry, but listened calmly.

He wants to know more about the light of the gods, even if there is a so-called \*\*\*\* punishment, it is not a penalty for him.

Even if the Emperor’s behemoth is out of worry, let Augustus leave, he will follow the past to kill!

At this moment, facing the eyes of Augustus, the Emperor is also staring at him God? In our world, I am God! Just let me kill my beasts, don't you kill us? Go back and tell your gods, don't try to figure out what kind of punishment, annoy us to kill the door! ”

The \*\*\*\* of the behemoth is very imposing, not afraid of the other god, and directly warned the \*\*\*\* of light.

However, when the words were spoken, Shen Lang secretly smiled.

This is the way!

The purpose of Augustus is to escape from here safely. As for the reasons, it does not matter.

Just threatened by God's punishment, it is only his means. Now that the Emperor's behemoth screams to let him speak, then naturally he will not kill him. Regardless of respect and disrespect for the Light God, his purpose of safely leaving has already been reached.

If they were alone, the dog \*\*\*\* was fooled. Yunqiu beast gods can't understand, and I can't think so much when I understand it.

Now Shen Lang is here, of course, he will not see that Augustus has to be awkward!

“and many more!”

Shen Lang stopped: “You seem calm, but your heart is stealing hi? You have deceived the Emperor, and in the name of passing the message, let yourself escape safely.”

Augustus looked at the cold waves coldly, and he hated to die, but he could not be exposed, and he must remain calm.

“Joseph and Christopher are both killed by you, and the beasts are not doing anything, and God naturally will not punish them. You are now fighting, this is to use the Emperor to kill me, so that the punishment can be brought to this world. What is your purpose?”

He immediately asked himself: “Oh! I understand, you deliberately killed Joseph and the two of them, and deliberately spurred me to kill me. When the punishment comes, destroy it, and you take the opportunity to occupy the world!” ”
