

First Strong 1601

Chapter 1601 - memory

Human beings are human beings after all.

The Emperor's behemoth is no longer lost to human wisdom, but it is the supreme king here, power determines everything, no one dares to sneak into it.

Even if the hurricane beast wants to be a squat, it is after he leaves for a period of time, he suspects that he may not come back, and then he will fight for its banner. Once he sees it on earth, he has to surrender again.

Therefore, in terms of strategy or mind, it is still impossible to compare with people.

Shen Lang saw through the heart of Augustus and directly dismantled him.

Augustus didn't look at it, and immediately slammed it. This is a human eye.

"I won't take possession of this world. This is your ambition! You have already laid out the layout, and now it is well harvested. It disserts a large part of the population on earth. Are you coming here, don't you want to develop a new world?"

For Shen Lang, Augustus did not respond directly.

"The Emperor!" Hearing from the mouth of Shen Lang, he also called the Emperor.

"You are the emperor of this world, and you must have your own judgment. I will simply say that we are unintentionally rushing into the air. We must not develop any new world with the resources of our heavenly upper bounds. ""

"Their world is close to you, it is the real you! You have been to their world, how poor, how small, how much the population is, and the resources are not enough. It is for them. A great new world."

There is no doubt that his words can be said in the heart of the Emperor.

If it is not the trust of Shen Lang, it is estimated that we must listen directly. After all, he is telling the truth!

Shen Lang was not made by him, and he could not argue.

However, he decided not to argue. The more the arguments are, the more Augustus will find out more reasons. For the Emperor, the impact will definitely be more.

Shen Lang decided to pay directly at the bottom.

“The Emperor, you have been to our world. We have a large population, but we have a highly intensive lifestyle. And almost all of them are ordinary human beings. There is no need for cultivation of resources.”

“What he called the upper bound of heaven, I also took you there. You also saw that it really needs resources. When we go there, we will gain more and be safer. We will not be here to fight with everyone.”

“the most important is.....”

He smiled: “You can read my memory and see if I have invaded the ambition here to see if I really maintain peace between the two circles. Similarly, if you read his memory, you will know What he said is true and false!”

The Emperor’s behemoth listens to the dialogue between the two of them. In fact, it does not work hard, but helps it understand and let it realize that both sides have more intentions.

When Shen Lang said that he had been to the upper bound of heaven, it immediately understood what it was. The environment there is really good, the territory is vast, the land is sparsely populated, but a world of comprehension has more resources.

The strength of the strong there, it is also encountered. The most powerful one is the level of Daxian Peak, just like this human being.

Naturally, it is full of confidence.

Even if there is a superhuman in the world that makes this human being “God”, it is estimated to be about the same strength, or stronger, but not too much.

God ruined the whole world, it is not likely to be.

And Shen Lang’s proposal makes it feel very feasible!

For Shen Lang, it still believes now, and now Shen Lang also actively proposes to let it read the memory, naturally it is conscience.

For this human being, as long as he reads his memory, he knows his intentions. Why should he listen to him so much?

In fact, Shen Lang can also propose at the beginning, saying that it will be interrogated on his behalf, that is, he has the opportunity to express his attitude towards peace in the two circles.

Augustus heard the proposal of Shen Lang, his face changed immediately.

He is also very clear that the memories of Joseph and Christopher must have been captured by Shen Lang, so they are very detailed.

But he can still rely on his own wisdom to debate, if you read the memory directly...

It’s too late!

When he just realized this, he immediately felt the dizziness of his head!

Originally, the Emperor’s behemoth had already suppressed it, and now it is directly invading his head under his awake and prepared condition.

In general, to invade each other's spiritual world, it is best to be in a state of coma and shock, and secondly, when you are unprepared, or you will be consciously resisted.

However, when the power gap is relatively large, it can still be invaded by violence!

Of course it will be more painful.

After the invasion of the Emperor's behemoth, Shen Lang also invaded at the same time!

The memory of Augustus is naturally more valuable than Joseph and Christopher. Like the Paul God, the higher level knows more.

He asked the Emperor's behemoth to read the memory of Augustus, mainly to understand about their intentions, and he himself wanted to know more about the light god.

Because in addition to killing Joseph, Christopher more important is to destroy the Paul God, forced it to kill the avatar.

At that time, it would be so decisive, and it was also to avoid being taken away by Shen Lang.

Now, of course, he will not give Augustus the opportunity to be self-satisfied. He will read his memory first.

Augustus has no courage to know, but at least he has no chance now!

Under the suppression of the Emperor's behemoth, neither the physical suicide nor the spiritual self-extinguishing can be done. Just being able to talk, perform, and give him "rights."

At this moment, he was invaded by two incessants, his head was splitting, but there was no way to let them read the memory.

Reading the memory is not a capture, just a copy, so after the Emperor's beast is finished, Shen Lang will come again.

However, the Emperor's behemoth needs to digest these memories immediately, but the waves are not in a hurry.

When he was in control of Augustus, he took the opportunity to try to devour his spirit!

This makes Augustus a big fight!

Losing memories has left him with no secrets, and he is completely exposed to them.

But after all, the damage is very limited, and with complete strength, he has the opportunity to escape.

Now Shen Lang wants to take his mental power, which is troublesome.

The scene of Shen Lang, of course, can not conceal the Emperor, but he does not care, did not take the cultivation of Augustus, but absorbed some of the spiritual power, the other is left to the Emperor.

Soon, I realized that the Emperor's beast had digested the memory of Augustus, and Shen Lang stopped absorption and let himself regain consciousness.

At this time, Augustus has a sly expression, and it has passed away!

Chapter 1602 - Take over

"You are right, they really want to occupy our world!"

The Emperor's behemoth communicates directly with consciousness and Shen Lang. Both of them have read the memory of Augustus and understand what it means.

Shen Lang is not surprised at all. This is not a secret unique to Augustus. Joseph and Christopher are equally clear.

"He just wanted to divide us and let us know each other. Fortunately, you have broken through the waves, or else I will be fooled!"

For this aspect is not as good as the waves, the dog **** still directly recognizes.

“The Emperor, you believe me, don’t read my memory, but I still have to share something with you!”

Shen Lang took the initiative to share part of the memory with the past.

This is the content that he has screened, that is, the part about Paul’s ambassador, and his warning to the whole world, which has directly destroyed the expedition ship of the scientific expedition.

Both of these aspects are important. On the one hand, let the dog ***** know more about the situation of the light god, and there is no concern because of mystery.

On the other hand, let it understand that for the two worlds of peace, Shen Lang is not only killing the invading behemoth. For the human beings who attempted to invade this side, it is also a ruthless killing, and truly unselfish.

Because it is the memory of the screening part, and it is the active sharing, it is very fast, just like their emotional exchange.

The dog **** once again confirmed that Shen Lang’s friend did not hang it, so that it was greatly gratified and lived up to the shackles of Shen Lang.

“This bright god...”

“Nothing, that is, the world we have been to. In simple terms, it should be a powerful human being. In our world of the world, God is in itself, in their world, it is a strong man.”

“In fact, with your strength, in our human world, we can also be respected as beasts. We are too weak, most of them are ordinary people, so they will be regarded as the lower bounds, and they will be regarded as pig ants. ”

“But you are not weak!” The dog ***** reminded him, indicating that Shen Lang does not need to feel inferior.

“So I am not afraid of their bright gods, what about God? Even if it is the so-called light god, if it is necessary, you can come to the door to challenge! Of course, my strength is not enough now.”

“We can go together!”

The dog ***** has already stirred up the arrogance. Last time on the mainland of Nakajima, it did not encounter the strong man of the realm of the gods. Because it is very likely that they will not go to Zhoushan.

Therefore, it encounters the strongest human beings, but it is the elder Tula who barely reaches the realm of the gods, but the elders of Tula are not really the great gods, or they are easily damaged by it.

Just when they communicated with each other and even thought about challenging the God of Light, they both felt a bit wrong.

Their eyes focused on the face of Augustus.

At this moment, Augustus became dull, as if he had lost his soul, just like walking dead!

“He committed suicide?”

Shen Lang was a little surprised.

He quickly combed it, and the consciousness of Augustus was also suppressed by the Emperor. But just after the Emperor read the memory, he followed the memory.

Probably in order not to accidentally hurt him, so the Emperor and the Great Beast suspended the suppression of the consciousness of Augustus.

Then Shen Lang took the spirit of Augustus and he did not resist.

However, after Shen Lang stopped, he naturally felt that under the control of the Emperor's behemoth, he also let go of his control.

Probably such a loophole, let Augustus catch it, and when they communicated, they completed the spiritual suicide!

However, Shen Lang still feels a bit strange. The memory of Augustus has already been captured. They are not afraid of what he calls the gods punishment. What else does he commit suicide?

Besides, his suicide now is like turning himself into a vegetative person, but his body is still the same, he can still be used, and he also harvests Nedan.

This is totally inconsistent with his desire for survival.

“You are looking for death!”

Although the Emperor's behemoth couldn't figure out the way, it was already found at the moment.

Shen Lang's eyes also looked over.

He immediately understood that Augustus had not just committed suicide, but let his own consciousness come to a fight!

The goal is the weakest one nearby – the cloud beast.

Yunqiu beast god, originally not as good as the realm of Augustus, was previously hit by the black sand beast god, and now can only be regarded as a dangerous period, the body is still very weak, even if it is running, it will have an impact .

Originally it was comparable to the strength of the Great Immortal, but now it is not necessarily the peak of the half.

And now there is a great behemoth here, it is very peace of mind, there is no defense at all.

How can it be thought that the enemies that the Emperor's giant beasts can still use to invade it?

The result gave Augustus a chance, just gave it a chance, entered its brain, and suppressed the cloud hill beast.

If you give it a little more time, it can blend the Yunqiu beasts. Even if there is a difference, but keep a low-key, there is a great chance that you may be deceived.

The purpose of Augustus is to survive, and when the body can't live normally, is the next best.

If you can live with the status of a giant beast, it is not unacceptable. If you leave here, you can find a human being to regain your life and complete the replacement of life again.

They are like this to Paul, and it is also helpful to Brooks.

However, Shen Lang and the dog god, it was just a reaction, so that he is not fully prepared yet.

“Looking for death? You can kill me now, killing your beasts!”

In the body of Yunqiu beast, he is still not very adaptable, only to find that the injury is not light.

“This giant beast is not hurt, you have to kill me, you can save your heart, it is easy to kill me!”

At this moment, if you want to kill me, you have to go to the heart of the Yunqiu beast god, but it is much calmer than when you were suppressed.

The Emperor's behemoth was also shackled for a time.

Although it can crush the other side without moving the claws, but now the other side is hiding in the body of the cloud hill beast, to crush the other side, it is equivalent to first crushing the cloud hill beast, so that it can not live without a residence.

As for Augustus' own body, it has already given up, and all have a new body. There is no value in killing and crushing.

The Emperor's behemoth immediately communicated with Shen Lang.

“Shen Lang, do you have a way?”

For humans, it feels too embarrassing, like their behemoths, for the enemy, it is hard battle in the end, disdain to use tactical strategies, and even more like the battle of pure power, let alone intrigue.

If you hide your soul into other kinds of bodies like this, you will be despised by them, or even have no idea at all.

Chapter 1603 - Brain war

The Emperor's behemoth asks for help from Shen Lang. It is instinctive to think that there is a way to sink the waves.

The strength before Shen Lang, it is the clearest, at that time, you can come to this world, dare to communicate directly with it. And you can convince it and travel around the world with it.

All of this shows that Shen Lang is a very simple person.

Although this human being is embarrassed, I believe that Shen Lang will not lose to him!

“Do not worry! Give it to me!”

After Shen Lang gave it a consciousness, he did not respond to the dog ***** and began to concentrate on dealing with Augustus.

This Augustus is even more difficult to deal with than Christopher. It is not full of arrogance because of the high strength of the realm, but it can be used for survival and the action is very strong.

“It’s not easy to kill you? Are you light gods not separated into the archbishop of Paul by the gods, will you come to the earth with you? Oh, the avatar is killed by me!”

“Yes? You continue to say, I believe in you.”

Originally, Augustus felt that he was in an invincible position, and the worst situation was that both sides lost. It is impossible for the Emperor and the Great Beast to kill the behemoth by Shen Lang, and it is not in the heart of it.

Therefore, listening to Shen Lang’s words, he is still very calm, he heard the Yuanshen avatar and Paul Archbishop, he did not care too much, after all, Shen Lang already has the memory of Joseph and Christopher, it will be clear that this is normal.

Shen Lang also laughed.

“I don’t believe what I said, but you can take a look at the scene!”

After that, he immediately passed the Holy Grail and projected the situation in the basement that day.

In order to take care of the body of their behemoths, Shen Lang also projected a relatively large, adjusted clarity, so that the Emperor and the Augustus who use the body of the Yunqiu beast can see clearly.

The images of Paul’s ambassador and Pope Constantine V and Brooks have already attracted Augustus.

Then began the picture of the battle, including the final crush of the picture of Paul’s ambassador, as for Brooks, it was skipped by a picture.

“No matter what secrets you have, you create such an illusion, that is, to satisfy yourself, I will take a look.”

Although Augustus was slightly affected, he remained calm.

He felt that this was impossible. Even if this young man could kill Joseph and Christopher, it was separated and completed with the help of the behemoth.

It is impossible to kill the Paul God, it is the ***** of the true God, and the Pope and Brooks assist.

“If it weren’t for killing him, how do I know that you are here? I am seeking peace between the two worlds. If it is not because you are here to harm the behemoth, why do I bother?”

“If you don’t have his memory, can I find Joseph and Christopher so easily, and kill them easily?”

One sentence after the other, Shen Lang began to strike the heart of Augustus.

The picture that has just been presented, he can also be said to be illusion, but Joseph and Christopher are two, really dead!

“You continue to say.” Augustus still maintains an unbelievable attitude.

Shen Lang really did not want him to believe, continue to speak his own words.

“You occupy the body of the cloud ***** beast. I feel that we can’t take you. If you kill you, you will kill it with the Yunqiu beast. But don’t forget, your body has not died yet!”

After Shen Lang finished, he directly controlled the body of Augustus.

Because Augustus has now his own soul has left, this is already the body of the Lord, and it is easy to control. Shen Lang does not need to win, just need to divide the mental control.

“Then you will stay here, I will go back to your heavenly upper bound instead of you. Hey... Will you be trusted with this emperor and me? Even if you can't sneak into the light god, kill you other Some of the partners should not be a problem. The traitor traitor Augustus...”

“shut up!”

Augustus can save his life by any means, even put down his own reputation and beliefs, and ask for his life.

But if his identity is used, and if he does not say that he will actually kill himself, and there is such a thing, then the other party will no longer use his body, and he himself will not be able to go back in the future. .

When he regains his personal status in the future, when he returns to it, he will not be waiting for an explanation, and he will be besieged as a traitor traitor!

At this moment, Augustus is watching the deep waves from the perspective of the behemoth, although it feels unnatural, but the other party is really able to control!

And the other party has read his memory, plus Joseph, Christopher's memory, if you don't go back to attack the light god, go back to Earth to attack God?

He did not believe that Paul God had been killed by the waves, but if he returned in his capacity, he would have the opportunity to get close to the gods. If he was not aware of it, he would be killed. In the light god, he Augu Sis is a sinner!

This consequence is very likely Let the Augustus mood at the moment start to feel a bit restless.

It was a bit annoyed. When I just won the battle, I couldn't control my body. After I won the Yunqiu beast, I didn't expect the other party to react so quickly.

Of course, he still reluctant to kill his own body, there is still a glimmer of hope, hope that the other party feels useless and give up, then there is still a chance to return to their bodies.

No matter what new body you win, if you don't have a way, it's not as good as your own body.

At this moment, it is impossible for the Emperor's behemoth and Shen Lang to look at it, and it is impossible to give it a chance to ruin his body.

Shen Lang said so much, all kinds of threats to him, in the end is to affect his mentality, or else really do this, and do not need to discuss with him.

At this moment, Augustus's mind was slightly chaotic, and he immediately seized the opportunity!

The consciousness of Shen Lang seems to be still in Augustus, but it is a strong entry into the head of Yunqiu beast!

The head of Yunqiu Beast God suddenly became three consciousnesses, and it was almost a "crowded" degree of explosion.

Among these three consciousnesses, its own sense of ontology is the weakest one. It has no voice and can be swallowed up at any time.

Now the entry of Shen Lang is directly related to it, giving it strong spiritual support, let it complete the counterattack against Augustus!

This is the carefulness of Shen Lang.

If he is strong and Augustus is competing for control, it is to use the brain of Yunqiu beast as a battlefield. In the realm of Yunqiu beast god, it is estimated that there has not been a result, and the brain that has been unable to bear it is dead!

At that time, even Augustus had nowhere to live, but the cloud hill beast was also hung up.

Chapter 1604 - perish together

Shen Lang took these concerns into consideration, so he did not directly fight against Augustus, but helped to support the cloud hill beast.

Yunqiu Beast God has completely surrendered and trusted him, so his thoughts come together, he feels familiar, and trust does not guard him, completely matching the help of Shen Lang.

Yunqiu beast **** body is heavy, but the mental strength is not too much damage, at this moment will be firmly suppressed by Augustus, but also because of the sneak attack, plus Augustus is to be stronger.

But now it is different. With the support of Shen Lang's powerful spiritual support, it immediately launched a counterattack.

This is its body, with innate advantages.

Coupled with the recent crushing, it has made it like a death edge.

Yesterday, I was physically devastated. I almost hanged it. Now I have come again. Of course, it makes it more cherished and more fearful of death.

Therefore, the cloud hill beast god, who was originally afraid of death, gave it tremendous power at this time.

Augustus was originally distracted by the words and actions of Shen Lang. But now I feel the counterattack of Yunqiu Beast God, and immediately understand what is going on.

For Shen Lang, his taboos are getting deeper and deeper. This young earth human is more and more invisible to him.

The swell of this time is a show of three-hearted use that makes everyone surprised!

On the one hand, he must take care of his own safety, and can not give Augustus the opportunity to save Wei.

On the other hand, he must strongly support the Yunqiu beast, and the support of the light spirit is not enough, but also help it counterattack.

At this time, he launched the third aspect, which is to continue to manipulate the body of Augustus!

“I am like this, deceiving the ***** of light, deceiving God. There should be no problem! As long as the gods are killed, I will replace them with the real governors. The earth is a ***** of light, it is mine!”

Augustus is now counterattacking with Yunqiu beast and Shen Lang, but he has to listen to his own body and have to listen.

This state is very strange. As a human being, he is in the body of a behemoth, and then watching others manipulate their bodies...

Losing is the realm of Augustus, and it is not easy for ordinary people to want to stay calm.

But he had to be distracted when he heard what Shen Lang said with his body.

Of course, he can also be used with one heart and one mind, but only when distracted, it is definitely not as good as time.

And Shen Lang's words made him sink again!

What he was worried about just now is that... Going back with his body is naturally not deceiving the ***** of light, but it is not good if he deceives others.

More troublesome is Paul God!

Paul's ambassador is the ***** of the ***** of light, and the reason why he is separated is because the body cannot fall to the lower bound, and there is no time to come. So borrowed the body of the Archbishop of the Earth, everything is greatly reduced.

When Shen Lang returned to his identity as Augustus, and first said that Joseph and Christopher had died, it would definitely distract the gods. If they want to make a surprise attack, the chances will be mostly.

And its goal is only the earth, more in line with its identity. After the gods have been killed, the Pope of the Earth's Light God cannot know the truth. There is only one left of the four, and there is no doubt that he is the only representative of God.

This is a big problem!

Shen Lang has already tried it, and from his reaction, he guessed this possibility. Since Augustus does not believe that Paul God is dead, it is used to make a fuss.

The words at the moment are said to distract him. When he is distracted, there is a chance.

Shen Lang is always used, but it is also focused.

For example, his own safety is that he can be less careful. Now that the Emperor's behemoth is next to him, he is on the alert and will never give Augustus a chance to attack.

To manipulate the body of Augustus, it is only to control the speech, not to control the physical battle of a big fairy peak, that is the cost is relatively large, pure speech is much simpler.

Therefore, his three-point center of gravity is still in the brain of the Yunqiu beast, and he counters Augustus with the Yunqiu beast.

When Augustus's heart sank, he immediately seized the opportunity and bombarded the past with a strong bombardment!

Yunqiu Beast God is now taking advantage of the ontology, and then along with the help of Shen Lang. Even if he feels a splitting headache, he will not be able to bear it, and he must hold it.

Augustus has just been working with one heart and one mind, of course, there are also major and minor points.

Listening to your own body, just need to divide a part of the heart, to ensure that the content is heard, and of course, the center of gravity still has to keep the existing body.

So even if the content has affected his mind, it is still limited.

At this moment, Yunqiu beast and the powerful bombardment of Shenlang, he was not caught off guard, but the same powerful welcoming the past!

Both spirits gathered together for a battle, and they all had a general understanding.

Like Shen Lang's guess, they will use the power of faith in the light of the gods, so in terms of mental power, it is even stronger than the same realm!

This is also one of the conveniences for them to show miracles. It does not require any big action, and it can be done with a strong mind.

Augustus is also the spirit of shocking the waves!

He can play such a powerful because he is equal to the whole soul of the soul moved over, is a successful half of the win, is able to manipulate the body of this behemoth, has a foundation.

The Shen Lang is just the help of the air, helping the behemoth to fight against him, but a few points, but in this way, he can also level with him, showing the power of the spirit!

But think again, he is very depressed...

Do not say anything else, Joseph and Christopher are all fallen, and it is obvious that this person has swallowed up all the spiritual power.

It can be so powerful, it is very likely to take advantage of the power of their own people.

But now he can't think about other things, he has to go all out!

Like Yunqiu Beast God, he must also occupy this body, or else under the two surveillances of the other side, it will not give him the opportunity to return to his body. Once it fails, the direct silence disappears!

Even if Shen Lang did not choose to play with Augustus in the minds of the Yunqiu beasts, the Yunqiu beasts now supported still still have to fight together.

Only its resistance is stronger, but now, it is also the battlefield of the brain spiritual world that can't bear it.

After all, it is the beast ***** of the level of the Great Immortal, and now with the help of Shen Lang, it has been overclocked to play, with the level of Daxian peak in the hard battle of Augustus.

The level of Augustus is even stronger than the average of the big fairy.

If it can't stand it and die directly, then whether it's the Yunqiu Beast God or Augustus, it will die. It is the help of the Shen Lang can get out in time, there will be some damage!

Go forward and die together!

But who will stop first? Closing your hand is killing yourself!

Chapter 1605 - Attraction into God

When it is said that it is too late, in the hard battle of both brains, one second is a huge time, it should be calculated in milliseconds, and even a microsecond seems to be long!

Both have reached the edge of death, and it depends on who can't hold it first.

Augustus, must be hard to the end!

Yunqiu beast god, must be hard to the end!

Shen Lang is the one that leaves room for the three parties!

Even if the body of the Yunqiu beast is dead, even if it bursts directly, it is only a little shock to him, and he will not die.

So he still pushes the cloud hill beast to continue, let it continue to hold!

Augustus can only be a bit stiff at this moment.

If you want to close your hand, you must have both hands at the same time and retreat together.

But if the discussion can solve the problem, it will not be the current step. Now it is to grab the body and kill each other!

At this moment, Shen Lang is also secretly sighing.

That is not his body, and his consciousness can not all go in, just a part of the assistance. Otherwise, he still has the confidence to win Augustus, but now there is no way.

Because he has already pushed the cloud hill beast to the limit of “overclocking”, if he raises again, it is very likely that there is no pressure to explode the other side, Yunqiu beast ***** will not be able to stand up first.

The result is that Augustus really occupied the body of the Yunqiu beast.

Of course, if it is true, then it will kill the Yunqiu beast.

It's just the attitude of the dog god, I don't want the beast ***** under it to die here. The dog ***** has already asked him, and he also promised, naturally he has to deal with it.

So at this moment, the waves are safe first!

He seems to be walking tightrope and trying to maintain a balance. On the one hand, you can't let Augustus win. On the other hand, when you strengthen the attack of Yunqiu Beast, you must first keep it from falling.

The whole process didn't know how long it lasted, as if it was a long, as if it were only a second.

But at this time, there was a mild feeling, letting the cloud-beasted beast, which was about to burst, seem to have the general relief of the topping.

Although Shen Lang is indirect, he also experienced the inexplicable comfort.

This vision, he would not be indulged in any way, but was highly alert, but soon he was relieved.

He was relieved, and Augustus was afraid!

The change just happened is naturally from the intervention of the dog god.

Before the dog ***** did not directly shoot Augustus to disperse the crush, because they did not understand the situation, worried that it would kill the cloud hill beast.

In the process of using the three waves in the back, it is also a demonstration of the hand.

It is comparable to the strength of the realm of the gods, of course, everything is seen through. These are the things that don't need to be told, and they don't need to be explained in detail.

When the two sides broke out to the most violent brain battle, the dog ***** also fully understood, and took an opportunity to directly intervene.

Its way of intervening is to learn from Shen Lang, not to go directly to Augustus, because it will explode directly.

The dog god's intervention is also to help the cloud hill beast, but to help its body.

The help of Shen Lang is to raise the fighting power of Yunqiu Beast to fight against Augustus. The dog **** is equal to the tolerance of its “combat platform”, from the level of Daxian directly to the peak of Daxian, and even stronger!

This is of course a general statement. In fact, it is equal to its constant help, helping to strengthen and help repair, so Yunqiu Beast God immediately has no feeling of headache and becomes very comfortable.

Feeling the intervention of the Emperor’s behemoth, Augustus was a little nervous.

Shen Lang seized the opportunity and suddenly increased the assistance to the cloud hill beast and upgraded the battle!

The same is true for Augustus. He has almost reached the limit, but now that the Emperor’s behemoth has joined, he certainly can’t resist the synergy of the three parties. So you must seize the last chance!

Shen Lang just didn’t dare to go over the fire. Now that he has the dog god, he will let go!

Anyway, it is not him who is in danger, the pain is not him, the direct and powerful mental power pays attention to the past, and in the moment of scuffle with Augustus, the moment is separated!

When Augustus was resisting, he suddenly discovered that the other party was no longer a hard-fought hard battle, but he was swallowing his mental power!

The spirit of Shen Lang will not be weaker than that of Augustus. If it is under normal conditions, Augustus will maintain its peak, and then borrowing the power of the light of God from a long distance will be really a fight. .

But now it’s different. Augustus’s mental power, when he just read the memory, he has already swallowed a part.

Nowadays, it is almost a light car, and it is in the case that the other side is not prepared for it. Therefore, for the mental power of the attack, a tactic of constant engulfing is adopted.

“mean!”

The roar of Augustus is not shouted, but is ringing in the brain of the beast of the cloud.

But now all four of them are here, and all of them have sensed this meaning.

His anger makes the dog ***** and the cloud hill beasts a spirit, which shows that Shen Lang has successfully restrained him!

The dog ***** has strengthened the maintenance, the crazy attack of the cloud hill beast gods...

At the moment, Augustus is a dilemma. His continued attack can not suppress the other side, but some will be swallowed up by the sinking waves.

But if he wants to withdraw, the other party will directly come over and put him out.

Needless to say, the end will be swallowed up.

“Right my life! I will take you to the upper bounds of heaven, to find the resources that you have in heaven. It is a resource that you and the earth can’t imagine! God, I can help you leap, even become a real god!” ”

Seeing stubbornness and hopelessness, the rest is being annihilated, which is a matter of time. Augustus decisively surrendered for mercy.

The resources of heaven’s upper bounds are his chips. And now the most need to talk about it, no doubt this is the ***** of the behemoth.

Therefore, he directly promised to help the Emperor leap, even become a god!

“Get it! You can help people become true gods, why are we crushed by us?” Shen Lang directly ridicules, and then accelerates the devouring of his spiritual power!

“The Emperor! Emperor! I have not yet reached this level, because my age must be much smaller, but I have mastered the methods, you can!”

Seeing the Emperor’s behemoth did not express his position, Augustus is still not willing to give up.

“I want to be a god, I will reach it, why do you need help?”

The Emperor finally expressed his position, but he did not bother with his promise!

Shen Lang is also relieved. After all, the attraction of “God to God” is too great. At the beginning, he was able to leave the dog ***** to leave, in order to look at other worlds and find a way to move on.

If the dog ***** stops, it is a bit bad, just put him back to the body.

Chapter 1606 - Resurrected for death

Augustus has seized the last chance.

“I can help you reach it faster! I can introduce you to God! I can provide everything!”

It is a pity that he has already been unable to fool the dog.

According to what he said before, the light ***** is to lower the punishment of God, how can it help the behemoth?

At his own level, he said that mastering the method of becoming a ***** is completely unconvincing.

As for the information he can provide, he has read his memory and how much value it has.

With the support of the dog god, Shen Lang speeded up the speed of engulfing!

Augustus is in desperation for hopelessness, and can only resist desperately.

It's just that he doesn't have the support of the body. In the body of this behemoth, there is no time to adapt. It's like being hit hard. It was a stalemate before, because it was to be forbearing, so as not to die.

Now is the process of this change. Shen Lang is not eager to fully integrate, but only swallows up all his spiritual power, so the progress is still very fast, and it will get faster and faster.

In the end, all the spiritual power of Augustus was completely swallowed up by the waves.

The dog ***** is to soothe the cloud beast and let it not collapse. After all, the battle in its mind is far more than its endurance. Even with the support of the dog god, it will be a serious overdraft in the future.

Shen Lang quickly regained all consciousness, especially the part that controlled Augustus' body!

Because he is now swallowing up, just completed the initial, similar to the transfer of Augustus from the Yunqiu beast to his brain, but he can suppress it.

But before the complete integration of refining, the other party can still influence him. Even if he can't reach him, it will make him a little uncomfortable.

At this time, it is more dangerous to distract yourself from controlling the body of Augustus!

Because it is only a small part, if the consciousness of Augustus is found, it is possible to reoccupy his body, and it will be dry in a circle.

The dog ***** quickly let the Yunqiu beast go to sleep, because it is now suffering from physical and mental damage, and it must take a long time to recuperate.

"You have no problem?" The Emperor's behemoth asked Shen Lang a sentence. The situation just now, it is clear, and I don't know if Shen Lang can stand it.

Shen Lang smiled and said: "Nothing, this is still a small meaning!"

As the Yunqiu beast entered the state of drowsiness, he could not report to him. The Emperor's behemoth is also not good for Shen Lang to report, it seems that if you do not trust your friends, there will be an interrogation.

Therefore, it also read a part of the memory of the Yunqiu beast, which is the most recent time.

What kind of situation has happened in this way, it can be clear on its own.

This is just a part of the memory, it quickly merges, and I understand everything that happens when it is not there.

Before the hurricane beast ***** did not say, this time before the return of what happened here, it is now as seen with the eyes.

I have already seen a lot of corpses, and I learned that the three giants of Augustus have slaughtered the behemoths. Now, from the perspective of the Yunqiu beast, I saw the scene where the Yunqiu beasts feared to escape.

This makes it even more angry!

Behind the cloud hill beasts and other encounters after the Shen Lang, let it be very gratified, Shen Lang really is a friend, is to help the behemoths to kill two human powerhouses!

It was just that it didn't expect the black sand beast to start with the cloud hill beast, and finally it was the dead hand.

Originally, I saw the serious injury state of the Yunqiu Beast God. I thought it was the two human powers of Joseph and Christopher.

As for the section in the space of Tianshu, there is no memory, and the Yunqiu beast is also a coma, and Shen Lang brought it back.

“Thank you for your help! They killed us so many beasts, I have to destroy them!”

The dog ***** refers to the body of Augustus!

Even if his soul spirit has been swallowed up, but the body is still there, still need to be eliminated.

“Is it a bit wasteful?” Shen Lang smiled.

This is the body of a big fairy, and there is no direct injury, it is still very valuable.

This is like the “Tang Tang meat” in the mythology. The meat of Augustus can’t live forever, but for ordinary people, there is definitely a miraculous effect of prolonging life and ill health.

For the comprehension, this is also a great resource, similar to the inner Dan of the demon beast. Some of the ancient powers of the ancient body, even after thousands of years of death, can still contain powerful energy.

The dog ***** was instilling the power of a great fairy into Shen Lang, and of course understood what he meant.

But without tearing up the body of Augustus, it is a bit nowhere to vent their anger.

“I will handle it!”

Shen Lang immediately took out the Ba Tian Tower.

“I will put him into this tower and will slowly refine him into a remedy. This process is a very painful punishment!”

“Wait!”

Shen Lang stopped and was a little awkward.

The reason why he will do this way is because he absorbs too much, and he has not refining it. It is better to refine him.

On the other hand, Augustus is surely the same as Joseph and Christopher, hunting for a lot of behemoths inside the endangered may even have the inner **** of the beast!

Now in the face of the dog god, he is not good to take these harvests.

But if he directly incomes his body into the Ba Tian Tower, he will refine all his everything. Those inner can only make the effect of the person who is refining stronger!

The dog **** is now called to stop, so that Shen Lang thinks that it is through this point, to take the inner Dan.

These are the inner beings of the great beasts, although they are not killed by him, and they are already like this, and they cannot be resurrected. But after all, it belongs to the behemoth, and the dog **** took the name just right.

He still has a selfish greed...

“He has no soul consciousness, so he refining him, too cheap for him!”

When the dog **** spoke, a sudden and powerful consciousness came to the waves.

When Shen Lang heard this, he understood what it meant. He immediately did not resist, but remained calm and allowed the invasion of the dog god.

The dog **** invades the brain, and certainly does not hurt him. Instead, he takes out the soul consciousness that has been devastated by Augustus and then recharges it into his own body!

The devouring before Shen Lang is to absorb his spiritual power for his own use. It's just that the process is so fast that there is no way to get rid of its soul consciousness, so it needs to be refining.

Now the dog ***** is taking out the soul consciousness of Augustus! This will undoubtedly make it easier and easier for Shen Lang to refine the spirit.

After re-instilling it, Augustus is equal to resurrection. He is still him. This is his body, but his mental strength is already weak.

This is the dog ***** who wants to torture him, let him experience the great pain and death!

Chapter 1607 - Kill the sky

Let Augustus be tortured to death. Of course, it is more cruel to purely refine his body, but Shen Lang does not care much.

They kill the behemoth and pick up the inner dan, which is also cruel for the behemoth.

There are reasons for this, since they can do it, don't blame others for revenge.

Of course, he didn't have much to say. The dog ***** did this indirectly to help him, and then directly put Augustus into the tower.

After receiving Augustus, Shen Lang took over the Ba Tian Tower.

Now they are left two, and the Yunqiu beast is sleeping.

Before the two people traveled together in the chaotic space, the mainland of the island, then to the earth, and then found that the invasion, directly to the Antarctic war, has not seen for several days.

This time, everyone's mood has changed a lot, not as easy as before.

I have dealt with Augustus together, and now there are no other people, just to solve their problems.

"I know what you are coming to, I will restrain them and will not invade your world any more." The dog ***** broke the silence.

Shen Lang nodded. "Before... I killed a lot of behemoths. I am also very sorry. If I don't stop it, it will only cause a huge crisis in both circles. So even if it is a human being on earth, I have killed a lot." ""

The dog **** himself has been to the earth, and he understands that many cities have become ruins. I have seen many human beings being killed.

They are also dead giant beasts here, both sides have lost, and then continue to revenge, it will only be magnified.

The emergence of the door of this space, let them yearn for a new world, has a great expectation, and now it is awkward.

"I can basically ensure that humans will not come over here, and that the future may close the door to the space on the human side."

The dog **** was a little surprised to hear this.

Although human beings have many different means, they are too weak. It is normal to come over here. But I did not expect that Shen Lang actually wanted to close the door of space!

"You can rest assured that I can restrain them!"

Shen Lang smiled and said: "In fact, it is not that I have to close. It is time. The door to the space there has been a few hundred years earlier than this, and it is gradually shrinking. It is almost time to close."

The dog **** thought that Shen Lang did not trust it, and he was afraid that the behemoth would fight again, so he had to close it. After all, two invasions are active by the behemoths.

"Good." It was a little bit lost.

Although this is a human being, the time you know is not too long. But in its long life, the years that have been going on for a long time are all the same, and the fresh experience of this time has given a lot of feelings.

“Shen Huang, you are my friend, I will still find a way to visit you. You know, I still have the ability to do it!”

Shen Lang is also a little emotional, initially delaying, using the dog god, or even for the disaster.

But after getting along, the dog ***** has almost no requirements except for eating something, and it does not need any benefits, but it has helped him a lot, and he has surpassed the average human being. Friendship.

“He said God, there is also a punishment, what do you think?”

The dog ***** just sneaked a little and then said something right.

Just when Augustus wanted to divide them and threaten them with the Light God, the dog ***** and Shen Lang stood together and didn't care.

But this thing can't be considered as no such thing.

They all read the memory of Augustus, knowing that the threat of Augustus is not without aim, it is really possible.

“The light ***** is there, there are many gods, to what extent, it is hard to say. But he should not be able to come to God here, because this is a new world for them, it is necessary to wait for them to go back and gather information. of.”

“Of course, the three of them are dead, and the light ***** should be able to sense it, but this account should be counted on our planet. Because they originally went to Earth, this time from the earth to find it here. of.”

The analysis of Shen Lang is based on common sense and is also likely to be a fact.

Because of their connection to the earth, it is because of the establishment of the Light God on earth, which has been contributing to the power of faith for thousands of years.

There is no such foundation here.

The dog **** is also in the opposite direction. After listening to this, I immediately think of more.

“He can reach the earth, and he should be able to touch it from the earth like them. If he does not appear in person, he should arrange other people. The door to the space of the earth will not be closed immediately.”

Shen Lang nodded, this is indeed a problem.

The Light God can't come by himself, but he can still arrange more disciples or the like, or use the avatar.

When they arrive at the Earth, it is not difficult to analyze them. It is even possible that Augustus will continue to use their methods to convey information.

“This is a hidden danger for you!” said the dog **** again You mean...”

Shen Lang looked at the dog **** and vaguely guessed its intention.

“These gods who claim to be heavenly upper bounds, since we do not regard the life of human beings and beasts as life, then we do not need to give them any respect!”

“When others kill, it's not my style, I want to kill the initiative!”

Looking at the dog god, Shen Lang is a bit funny.

This guy should have been quiet for thousands of years, it is boring! Before the mainland of Nakajima, in addition to fighting with the dragon elephant behemoth, it did not immediately let it stretch.

On Earth is a battle with Elder Tula, these are not enough to make it fun.

Here, there is a squadron of the hurricane beast, and then a large number of giant beasts are ruined on the earth (basically in the hands of Shen Lang), and then Augustus has smothered their three big nests.

These should have accumulated a lot of resentment for him.

However, these resentments do not have a venting channel!

For example, the hurricane beast god, it is not easy to deal with it, and it is Shen Lang to kill it. Although it solved its difficulties, it also made it no way to vent.

The second one is Shen Lang. It is also reasonable and well-founded. It is because of peace between the two circles. It is also the same for humans. It can't find the recurrence of Shenlang.

The third one is the three of them. Joseph and Christopher are all killed by the waves. Augustus is only involved, and there is no thrill of tearing.

These hustle and bustle, together with Augustus's threat of divine punishment, ignited its emotions, and simply went to heaven to kill the past and kill the past with the **** of light!

What is the upper bound of heaven, how is the wild beast, it has already raging!

Chapter 1608 - Mysterious sea

Although Shen Lang feels a bit funny, but also can understand the mood of the Emperor.

After all, it is the master of a world!

As a result, in a small role of others, the ambition of the above-mentioned gods is despised, and the gods are punished for the whole world.

Who can be willing?

It is that Shen Lang is not the master of the earth. It is not reconciled to the strength of today.

If it is a single person, he will not go to provoke the light ***** for the time being. There is still a gap in strength, and I don't say whether this is a true god, but he can't even challenge the realm of the gods, and he will never go to trouble.

But there are different dog gods.

The dog ***** is capable of being comparable to the realm of the great gods. Even if it can't fight with the ***** of light, it has some strength to spoil.

With the dog god, it is worth taking the risk.

"The Emperor wants to kill the past, of course I am willing to accompany the same!"

Shen Lang immediately stated his position and directly agreed to the dog god's proposal.

"If you don't want to be late, you have to wait until the other side has not laid out before, what else do you need to arrange?"

The dog ***** asked directly, seeing this meaning is about to start.

Shen Lang came here this time, mainly to find the dog god, on the one hand to determine its safe return, on the other hand for the peace of the two worlds.

But the earth itself is not very stable, there are still many problems, such as the attitude of countries, such as the Pope.

Before coming here, he didn't even know the problems of the three people of Augustus, let alone to go to the light.

But now the dog ***** asks, the problem is already in front of him, and he must make a decision right away.

Think about it, compared with the bright god, the countries of the earth and the pope are not a big problem. The threat of the bright **** is the real threat!

The punishment of Gods that Augustus said is a threat to scare people, but if God's punishment is actually implemented, it will inevitably be a huge scene.

A hesitation now, or a fallacy, is likely to cause a huge hit in the world of giant beasts and the world of the earth.

If so, then do it!

“I don't have any good arrangements, what about you?”

Shen Lang also understands that the dog **** force invited him to act together, not to value his strength, in the end still depends on him to lead the way!

Just like the Pope and others asked him to go to the mainland of the island.

The dog **** has already gone through a glimpse. For the chaotic space, there is a certain understanding, but it still cannot be compared with Shen Lang.

And the road that took it with him last time was going through the minefield.

The power of the war of Thor, even the dog **** is also a lingering fear, not sure whether he can pass the minefield alone.

For the situation on the mainland of Nakajima, Shenlang's understanding is far better than him.

So if there is a deep wave, it is naturally more convenient.

“I arranged it easily.”

The last time the dog **** left with Shen Lang was a temporary arrangement.

Now this time to leave, it is also a temporary arrangement.

All the beasts have been notified before, let them know that they are safe and can return to normal.

The present confession is naturally also to the beasts. With the last example of the hurricane beast, this time there should be a little more warning arrangement!

After the completion, Shen Lang used the Kunlun mirror of the New Three Realms, and sent it directly to the mainland of China with the dog god.

This magic weapon, which was used last time and when it returned to Earth, is not afraid of it.

If the dog **** wants to **** it, the last time it should be done.

It is also because of the magic weapon in his hand that he can be sure to come here as a guest.

Although Shen Lang also read the memory of Augustus, but he has not been to it, still can not be located, can only be positioned first to Tiandu City.

After arriving in Tiandu City, go back on the road.

When I was in the mainland of Nakajima, Shen Lang did not touch the information of Guangming God, but also because of the trend of their respective trends.

For example, the Pope, with the Archbishop of Paul, is consciously looking for, so they can find it, just as Ge Luting can find Bao Puzong.

Now, relying on the memories of three people, such as Augustus and Joseph, there is also a general understanding of where the Light God is.

Starting from Tiandu, it is also very far away, with a total of 200,000 miles. I don't know how the Pope happened to meet them. It's definitely not looking for the past.

The place where the Guangming sects are located is called Guangming Mountain. There is a paradise there. It is the place where all the sects live. The sects of each generation are regarded as the **** of light.

Here, it is also relatively remote. The population of this world is limited. Of course, there is not a large number of believers in the Guangshen, and there are usually fewer exchanges.

Therefore, like Ji Qiandao, there is no mention of Guangmingism, and some local people who have read the memory before, there is not much memory about them.

Now it is different. There are memories of Augustus, and there is no need for a map. You can go directly to Guangmingshan.

The dog **** is taking a breath and wants to work hard.

So after the Tiandu City, it did not have any idea of wanting to eat, and went straight with Shen Lang.

The distance of 200,000 miles, even if you have memories, you really need to rely on some reference objects such as mountains and rivers to correct the route, or else it is easy to deviate.

This also allows them to quickly hurry, there are still many restrictions, will take a lot of detours.

However, Shen Lang and the dog god, the speed is still very fast.

They don't need to rest at night, and from yesterday to after, they are all the way. According to the estimation of the previous road, Shen Lang estimates that it is possible to reach Guangming Mountain before the evening of this evening.

Just now, it seems to be the wrong way, the front is a piece of water!

According to their memories of Augustus, this water is called the mysterious sea, and they rarely come into contact with this side, and they don't know much about the specific situation.

Shen Lang and the dog **** came to the edge of the mysterious sea and then walked around for a while.

You must confirm the area of this water area before you can confirm the direction to Guangmingshan.

Although it is called the mysterious sea, Shen Lang understands that this will definitely not be the sea, because the whole continent is a huge island, and the real sea is in the very distant frontier.

Of course, the mainland of China's mainland is very vast, and there are large inland waters. It is not surprising to call it the sea. Or it is difficult to find the edge, or straight through the sea.

Just as they rushed along the mysterious waters to confirm the direction, there was a big movement in the water!

Shen Lang and the Emperor's beast suddenly stopped and looked at the water surface of this change.

If you are a general-skilled comprehension, you should see that the anomaly should be at a speed, but they are not ordinary people.

This change, it seems that there should be hidden monsters, they were alarmed!

When they stopped, the water surface also broke through a huge hollow!

Chapter 1609 - Big Mac

The water surface of the mysterious sea was originally calm. Just before the abnormal movement occurred, now it is directly cracking a huge gap, as if something is going to be drilled from the bottom!

Shen Lang was slightly surprised, and the Emperor's behemoth was staring at the water.

They have already clearly sensed that it is not a monster that has to emerge from this huge gap, but...

This huge gap is caused by a huge monster!

Soon, the huge gap in the water surface changed, and objects slowly rose.

And this slowly, just relative to its volume, actually appeared, has already flown fast.

In order to facilitate the conversation with Shen Lang, the Emperor's behemoth is reduced to the size of a dog, so they must look up.

Without waiting for the monster to reveal the whole picture, they confirmed one thing – even if the size of the Emperor's behemoth is still looking up!

Not long after, this monster has floated from the waters of the mysterious sea, revealing the whole picture.

In fact, there is still a considerable part of it sinking in the water, but it is already out of the water.

Big fish!

A big fish!

This is not what the eye has seen. The deep wave is combined with the sense of the gods to get a glimpse of the whole picture.

The height of the giant fish out of the water surface has reached a kilometer, the width is several kilometers, and the entire length is estimated to be dozens of miles!

The action of light out of the water surface triggers changes in the waters, just like a tsunami, directly affecting the hundred miles.

Don't say that Shen Lang and the Emperor are now the head. In front of it is like an ant. Even if it is a 100-meter-high body of the Emperor, it is also a small point in front of it.

A simple analogy, it is estimated to be ten times as large as an aircraft carrier on Earth!

After the emergence of this huge fish, a creature appeared directly in the brain of Shen Lang – hehe!

There is a fish in the north, which is called 鯢. I am so big, I don't know how many thousands of miles!

The opening of this article in Zhuangzi's Carefree Tour has always been hailed as an imaginative and romantic expression of exaggeration.

But in fact, in the comprehension, there is also a saying that Zhuangzi is likely to see a huge fish-shaped creature, a beast or a monster, and its characteristics must be enormous.

Of course, thousands of miles is still an exaggerated description to express its greatness. Just like the three thousand feet flying down, it is suspected that the Milky Way falls for nine days.

In modern times, there are also some people who combine modern sci-fi and give a sci-fi hypothesis. For example, Zhuangzi saw it in the past, perhaps a huge spaceship of aliens!

Human beings can already make aircraft carriers hundreds of meters long. If they are seen by the ancients, they will be shocking. If you don't understand what it is, it will be called a fish because it appears in the sea.

It will be such a fantasy, but also combined with the latter paragraph, "the bird, named Peng. Peng's back, I do not know how many thousands of miles. Angry and flying, its wings if the sky clouds..."

If you saw a giant spaceship of an alien, you might be bigger than an aircraft carrier and fly from the sea.

This is the big fish in the eyes of Zhuangzi, flying into a big bird.

The modern comprehension community has a good understanding of this aspect. It is a normal thing that such a huge beast monster can swim in the water and fly in the air.

Regardless of the ordinary people, or the various explanations of science fiction and revision, it is only a hypothesis, and there is no evidence.

But now, Shen Lang sees a huge fish of this size, and immediately thinks about it!

It's this kind of creature that Zhuangzi can't see!

Although it is not huge in a few thousand miles, it is already very horrible in dozens of miles. If you can transform and fly, the wings will be as big as the clouds in the sky.

On the occasion of the sigh of the waves, the Emperor's behemoth is also dumb.

Their behemoths, the original physique is often the embodiment of strength, the more huge, often the stronger the ability. The 100-meter behemoth, overlooking the human being is small, a building can easily crash and destroy, the plane can easily grab.

But now, this giant fish, which is ten times larger and dozens of times larger than it, also gives it a feeling that "there are people outside the sky."

The slap of the giant scorpion can cause huge waves.

And because it is so huge, it is impossible to determine whether they have noticed that they are two small points.

He immediately exchanged his eyes with the Emperor.

When I felt the change, they did not fear, stopped directly, and had everything to accompany.

But now looking at this scale, two people have something to leave...

Can you evolve to such a huge extent without powerful capabilities? It should have been taken away!

Even if this mysterious sea is remote, it has to grow to such a huge, it should be thousands of years or even tens of thousands of years, that is enough to make it have tremendous power.

Besides, if you don't say anything else, you can make a huge wave by spraying a slobber, and it's not easy to deal with it After two people have decided, they are ready to go back at a fast speed. .

But before the retreat, I also determined the safety, and still keep still, so as not to let the giant fish start.

At this time, a sense of majesty, surrounded by the surrounding, let the Shen Lang and the Emperor beast clear.

This is the other party's conscious to communicate with them!

Under this time, Shen Lang and the Emperor's behemoths are inconvenient to run. If they run, the other party will definitely feel that they are malicious, and they are directly fighting.

Even if you can escape, or you can win, you can't do it for no reason and such a giant.

"We just passed by here, there is no offense, and there is no attempt at this sea area..."

Shen Lang nodded to the dog god, indicating that he was responsible for communication.

After transmitting this meaning, Shen Lang could not be sure whether the giant fish could understand it and understand whether the meaning would be believed.

However, he must make sincerity. At this moment, he must also be careful and secretly alert. It is inconvenient to have any signs of vitality to prevent the other party from misunderstanding.

The majestic consciousness still enveloped them, but did not communicate directly with him.

Do you understand, what you want, Shen Lang is still unclear.

I have to say that whether it is the years of the previous world or the world traveled to many worlds, Shen Lang was the first to see such a huge creature.

Of course, this is not enough to make him afraid!

After all, when I was in the city of the river basin, I went to the small island, and the whole island already had a will.

Now it's as big as a mountain, like a big giant fish in the island, so it's like these two...

Chapter 1610 -

Seeing that it was not good, Shen Lang calmed down. Although he did not prepare for the battle directly, he was ready to fight.

At this point, he can understand it. One mountain is still not tolerant, let alone such a huge and fierce thing. Since it has entered the territory of others, it should have this consciousness.

Of course, this is also because they both have such strength. If only half a fairy passes by here, perhaps it may not be able to attract the attention of this giant.

Anyway, he has already released the goodwill. If he really wants to fight, then he will fight for it and he will not take it.

The dog ***** has no performance, everything is calm.

However, with its strength and temper, no response, it is already a great reaction. To know someone else's group of big celestial beings, it is all directly screaming and flying.

The process of confrontation is not too long, only a few seconds, but every second feels quite long.

Then there was a melodious snoring!

The snoring seemed to come from the clouds, and it seemed to come from the depths of the waters.

This snoring is not a bit aggressive, it has a soothing feeling of comfort, even if it is just in the ear, it makes people addicted to it.

What is even more unimaginable is that this snoring does not have a loud sound, but it covers a great range!

It is almost certain that this snoring is not only for the two of them, but also for the inclusion of this giant.

It's just these things that don't make Shen Lang feel more surprised. What surprised him is that he has been tracking and has not been able to lock the source of the buzz!

At this time, he had no time to discuss with the dog god, but it seems that the eyes of the dog ***** should not lock the source of the snoring.

Factors such as tension and fear are often derived from "unknownness". Once you understand it clearly, there will not be so many other emotions.

At this moment, Shen Lang and the dog god, although not afraid of tension, but let them have scruples, but also because this is unknown.

If you can find out the source of this snoring, and know who it is, even a big god-level powerhouse, is also indifferent.

Now the scope can be extremely wide, and there will be no strong harshness, and the source is like a cloud, and like the bottom of the sea, it is taboo.

If you don't listen to this obviously like a snoring, Shen Lang even has to doubt whether it is the sound of this giant.

After a while, with the melodious snoring, the majesty of the giants was converging, and it made the waves and the dog **** feel a lot easier.

Then it began to slowly sink to the bottom of the water.

As with the last time, this "slowness" is only relative to its volume. It can be considered as fast as it can be seen from the perspective of Shenlang. The sinking of such a huge body directly caused the water surface in front to rise suddenly and set off a huge wave.

Shen Lang and the dog **** stopped and did not stand on the ground. Instead, it floats in the air, and when the waves rise, they are naturally rising.

The huge waves that have been smashed by the giants for dozens of miles have already drowned a large area nearby.

After a while, its body began to sink completely into the water, and the surface of the water was still rolling.

Shen Lang is also secretly surprised by this mysterious sea. After all, this giant body is as high as hundreds of meters, so you can sink a lot, even if it goes straight to the end, the depth will at least be above the kilometer!

Just as he was paying attention to the water, he discovered that there was a figure in the air!

This figure seems to be out of thin air, but it seems to have been in the air.

The snoring was probably stopped after the Big Mac sank into the water. It is now obvious that this is the source of the sound wave.

When Shen Lang and the dog ***** looked at the past, the figures that appeared in the air also flew closer to them. Before the blur, it became clear.

“Who are you? Why do you want to provoke the beast?”

Fluttering in the air, it is a stunning woman, looks very young, as if it is about twenty years old, but even now, Shen Lang can not see her strength!

This is not necessarily her unfathomable, but may be a secret. However, at this level, it should not be achieved by the age of twenty.

The stunning women glanced at them, and naturally they also paid attention to the strength of the dog god. However, the dog ***** is now a dog's shape, or is regarded as a spirit beast raised by the waves, the question is directly to Shen Lang.

Shen Lang will not entangle these small problems, and now the most important thing is to figure out the identity of the other party. Judging from the situation just now, it should be that this stunning woman persuaded the giants to return to the bottom with a voice, which is a goodwill.

“My name is Shen Lang, we just passed by here, and did not provoke the beast, just thank the girl for help!”

He held a fist, although it was not a fight, but she resolved the possible battles in advance, and it was also help.

“Shen Lang? I seem to have heard this name.” After the stunning woman listened, she thought about it.

Shen Lang did not care. The last time he did not travel to Zhoushan, he worked with a group of great sages, and it was possible that his reputation spread.

It's biased to make them lost. It shouldn't be the spread of the merchants at that level. and the distance from Tangcheng is farther away. The news of Qiulin in the past few days should also spread. Not here.

"I am a nameless pawn, yes, just the beast is really huge, it is called...hey?"

Shen Lang is not only looking for a topic, but also really wondering if it is embarrassing.

The stunning woman stared carefully at the eyes of Shen Lang, but did not speak.

"Oh... inquire about the name of the beast, offended?"

Shen Lang slightly stunned, but since he was respected as a beast, it is not a general treatment, perhaps it is not allowed to inquire, or it should be common sense.

"You are offended..."

After the words of the beautiful woman were spoken, they paused and then turned a corner.

"I asked who you are. You only said the name. You didn't tell the truth. And I talked to you. You didn't ask me what I called, but asked what the beast was calling. Did you offend me?"

"..."

Shen Lang was speechless for a while.

It turned out to be this offense!

But it will be said directly, it should be a big joke.

"I really don't have any origins. It's just a traveler who has lost his way to here. Thanks a girl for helping me. I haven't asked for a name yet?"

Shen Lang officially said that she had a downturn and asked her name.

The stunning woman answered the previous question: “Yes! It is a beast. You have a unique and huge, you have to confirm...”

She shook her head, a little speechless, did not say her name, but asked another.

“Which is your sinking wave? It doesn’t look like it!”

Seeing that she seems to remember the Shenlang deeds she heard, Shen Lang also guessed her origins, suddenly thought of a little!
