

First Strong 1631

Chapter 1631 - Temple

“How? Leave now, still have time!”

Shen Lang stunned and watched the snow.

The enemy has left, and there are only three of them on the scene, surrounded by ruins.

Fan Xueyu threw the nebula chain back to him and snorted: “Who said that I am leaving? What a big deal!”

In the course of the battle, she is undoubtedly the least effective of the three.

However, she did not feel ashamed, because at least she did not have obvious hind legs, and in the case of Mellon and Raphael, they all did a certain degree of assistance.

“Don’t be hard, here is called the **** of light, just three, is the third of the ten apostles, in other words, such a master, there are at least seven. Others do not say, just fled one, and then come over, There are probably eight to face!”

Shen Lang is serious.

After the play, he really hopes that Fan Xueyu can retreat. After all, going on, the danger will only grow bigger and bigger, and he and the dog **** have no grasp of victory.

Even if he still has the back hand of evacuation, the more people there are, the higher the failure rate!

It’s just his own words, which can be done before others react. And one more, it is necessary to cooperate.

The dog **** is okay, the two have a tacit understanding, and also have the habit of conscious communication, and its strength is also strong enough.

It's hard to say that it's hard to say, and the three have to be better, and the difficulty is bigger than the two.

Before she was going to follow her, she was bored. She had just met the enemy. She did not retreat. She immediately followed the shot to help, which was also a loyalty. So even if Shen Lang said the last persuasion, I still have to say it again.

Fan Xueyu also seriously thought about it, and then the color.

“Do you think that I am willful or paranoid, since I will meet you, and I will come here with tens of thousands of miles. It will not be as simple as coincidence, or that coincidence is also my life!”

“...”

Shen Lang was a bit speechless, but she did not expect that she could see it.

“If it is a catastrophe that I should have, then I should face it. It is life or death. I need to face it. I have escaped an opportunity.”

“I decided to be an exercise! If I drag my legs, you will leave first, and I will not have any resentment. This is my life and my choice. There is no complaint of death or injury!”

“...”

This time, even the dog **** is a bit stunned to her.

Originally, I felt that I was a wayward woman with a bit of a big lady. I didn't expect to see these aspects very thoroughly.

In fact, she said that there is nothing wrong with it. Comprehension is a move against the sky. Any form of danger on the road can be regarded as a test again and again. It can also be regarded as a disaster.

The test, passed, can get more enlightenment.

After the disaster, you can avoid other forms of re-emergence.

Including the final day of the robbery exam, it is also the number of robberies that need to be faced in the ultimate cultivation, and also counts in time.

This is just the truth. It is said by the old predecessors of the style of the sacred wind. It naturally looks like a Zen charm and has a philosophical taste.

It's a bit weird to say it by a young and beautiful female monk.

“Okay, continue!”

Shen Lang did not swear again, and would not persuade her again.

Just after Gabriel has left, it takes time to report and re-engineer tactics. This time will not be very long, so they can't be more delayed here.

After Shen Lang finished speaking, he went straight to the rush.

The dog ***** has no words, just keep up.

Fan Xueyu is now adapting to their rhythm. If you don't adapt, you have to keep up with it. Otherwise, it will be even more dangerous to leave her alone.

Hundreds of Paradise is a valley, but the range is very large.

Guangming Mountain is a large mountain range, and the main peak is also great. Bai Paradise is a valley among the main peaks.

Of course, even a huge basin of the valley cannot be compared to the Golden Valley.

The Golden Valley is not a valley, but a general term for a whole forbidden land.

Augustus and others are living in the Guangmingshan Park, and they are clear about the environment inside.

Now Gabriel left, and Shen Lang went directly to the Temple of Light, where the Light God lived.

The Temple of Light is at the center of the paradise and the center of the main peak of the Guangming Mountain.

Hundreds of Paradise is a paradise for the gods of light, and the temple is the core temple of the Holy Land, just like the cathedral where the Light God of the Holy Spirit is located on Earth.

There are many disciples in the temple to serve, and the ***** of light lives in it.

But the Ten Apostles are not among the shrines inhabited, but in the four sides of the 100 paradise, there are four apostolic temples.

The Temple of the Apostles is of lower specification than the Temple of Light, and each apostle temple is home to two or three Stuarts, who serve as the guardian of the Guangmingshan Park.

If there is an enemy invasion, the apostles will block the people. If they need to fight outside, they will also be arranged to lead the disciples to play.

And each of the three apostles in the Temple of the Apostles, in order to always have someone sitting in the town, there will be no hollow situation.

The Temple of the Apostles is also a very important place, and there is no loss.

Today, it was not long before they came in from Rainbow Bridge there were three great apostles like Gabriel. In this respect, they are already alert and prepared. On the other hand, it is because it is the entry barrier.

The apostles who guarded this position had three apostles, Gabriel, Raphael, and Mellon, and one apostle could also be a very important one.

Originally, in accordance with the normal situation, they should be given orders in the Temple of the Apostles to arrange for the disciples to come over to defend the enemy. If the enemy is stronger, an apostle will personally play the game.

It is a very serious situation that the two apostles can be shot together.

Today they appear directly with the three great apostles. On the one hand, they attach importance to Shen Lang, and on the other hand, they are absolutely confident.

I feel that the three apostles together are ten-and-one, and there is no need for others to stay behind, nor do they need other disciples, but they did not expect to fold.

Normally, Gabriel should return to their apostolic temple, but he needs to report that Shen Lang knows where the temple is, and naturally he will not go back.

Instead of going to the Temple of Light, you are going to other temples of the apostles.

The analysis of Shen Lang is the most likely to go to other apostles temples!

Because the light **** is not likely to be idle, it is often a year-round retreat, enjoying the incense of the believers – the power of faith, will come out in the face of major events.

Without encountering great problems, the apostles did not dare to alarm him.

Just like Gao Hanqiu retreats at the bottom of the Houshan Abyss, the disciples of Qiu Lin Jianzong thought that he had died for hundreds of years, only Mo Feiliu knew. Even the owner of Mo Feiliu rarely appeared, and the outside world thought he might have died.

All, now there may be another three temples and seven apostles, all of whom are deliberating and united, and Shen Lang is directly heading for the Temple of Light!

Chapter 1632 - 8 apostles

Shen Lang did not have a fixed plan. He and the dog ***** first killed and said that there is a dog god, you can directly fight with the light god.

But those are based on their memories of Augustus. After they really got here, they just had a battle with Gabriel and they had more understanding and re-judgment.

For example, the strength of the apostles, Augustus, they are not fully understood, but now he has bottom.

Even the other seven apostles will not be particularly strong, and they will basically be three grades with Gabriel. They are much stronger than Augustus.

Such a big fairy peak, one or two is nothing, seven or eight are not the same.

Moreover, their use of the light of God is also unpredictable.

The light of God is not cultivated by oneself, but is the accumulation of the history of the Light. The accumulation of thousands of years will be a huge volume!

The higher the realm and the higher the status, the more you can use it.

Just now, Shen Lang can absorb and use Shengguang, mainly because of the opponent's underestimation, and it is a judgment error. He did not expect him to have such a hand.

Once you react, you will be prepared.

There is another important reason to be able to succeed. That is, they first killed Mellon, shaken the other's military heart, and then two against Rafael, and the remaining Gabriel will be much better.

When they regroup, there will be eight apostles, not only the number of gods may increase several times, but also will not give them any chance to contain, personal strength can also be better played.

Therefore, if you fight with the Eight Apostles again, even if you break out with the dog god, you can win, and all the cards are exposed.

Instead of it, it is better to force directly to the front of the light, and fight directly with the boss!

Relying on the memories of Augustus, Joseph, and Christopher, Shen Lang is in a speedy and fast pace in this familiar valley.

The dog **** is naturally able to keep up with it. Fan Xueyu was able to keep up with them for tens of thousands of miles before, and the speed was not slow.

Although their speed is very fast, they also understand the route, but in the end no more than their own people!

Not to mention that they only get second-hand memory, even if Augustus himself is not as good as the top ten apostles.

For example, just Gabriel can be taken away by the gods, so even if the speed of the waves is fast enough, it can't catch up.

By the same token, if he uses the Kunlun mirror to cross, the other party can't catch up with him.

This is the case now, although they are very fast, and without any delay, go straight to the center of the light temple. The apostle temple is in the valley, and the distance is not close.

But when they are not near the Temple of Light, a group of apostles have appeared in front, waiting for their proximity!

Probably the previous destruction, the apostles were a bit uncomfortable. This time they were waiting for the place where they were set up. They were in a flat and empty place. There was no building in a large area, and there were no important flowers and trees.

When they landed here, the momentum would also stun all the birds and beasts.

This is the only way to reach the fastest route of the Temple of Light. The other party also guessed the thoughts of Shen Lang, so I waited here in advance.

When Shen Lang discovered them, it was a little too late to change the way.

Besides, since the other party has intercepted it in advance, it means that there is no point in re-routing. It is nothing more than letting them chase it again.

Once you change the way, you are afraid of the other party, the momentum is weak, and the other party's momentum is more prosperous.

At the same level of masters, the influence of momentum is also very important.

After Shen Lang's three stops, they immediately appeared on their backs and on both sides.

Plus the ones waiting in front, it's just eight!

The ten apostles, in addition to Raphael and Mellon, who have been eaten by the dog god, have already arrived.

After being surrounded, their natural bodies are separated, not gathered together, and naturally divided equally, forming a position in the direction of the gossip.

Gabriel was in the forefront of it, and his face was very bad.

However, after the rest, and now there are other apostles, he has no worries that have just escaped.

"You killed Augustus and others, and seized their memories, naturally knowing the identity of us!"

"You should know more about the ten apostles, what it means!"

“Augustus is their hatred, Raphael, Mellon’s hatred, we must report!”

“But the light **** is forgiveness, and it is also pity for you sinners. As long as you are shackled, you will regret it, and God will give you a chance to redeem your sin!”

“Let everything go down, surrender, and God will forgive you those lost sinners!”

This time, it was not Gabriel’s opening, but a different apostle, saying one by one.

The majesty of their tone is also with hatred, but some people have expressed their forgiveness and kindness.

Shen Lang knows very well that they are right. In the memory of Augustus, there have been no cases in which the top ten apostles have taken shots in recent centuries.

Although there are only eight now, the eight apostles are also very serious, and they are very strong lineups. It can be said that this is second only to Guangming God.

In fact, this is also a concern before Shen Lang, eager to rush to the Temple of Light, just do not want to spend another wave with them.

But now it has been intercepted by the other side, and it is impossible to cross them to the Temple of Light. And escape is not his style, then there is only one choice.

Fight to the end!

It’s indifferent to the dog god. Just now the two apostles have eaten it, and it has made it feel worthwhile.

Before the mainland of Nakajima, I swallowed the dragon elephant beast, and it needed a long digest. The apostles of the two great fairy peaks just now are also big supplements.

The most stressful is the van Gogh.

She has just firmly followed, and she decided that she should face it.

But now, facing eight strong players who are not inferior to the previous one, let her be the big one.

Just three of them have won, but others can't leave the same? If you add one more at the beginning, their pressure will be much greater. Add five now!

"You are guilty! We will not judge you, we will give you to God, as long as you sincerely regret, God will forgive you!"

Gabriel finally spoke up.

He had just participated in the battle. He did not see Rafael's death, but he was swallowed after seeing Mellon being bitten and he expected Rafael to be almost the same.

This also makes his experience more real than others.

Moreover, as a defeated soldier, the escaper, there is even deep shame, if he can, he must kill the enemy to wash the shame.

So, if you can say the words of persuasion, Shen Lang laughed!

This is the other party feels the pressure, they do not have the confidence to win, so I want to surrender them!

Chapter 1633 - Fight

Whether it is to lay down the butcher's knife, to become a Buddha; to repent of sin, to redeem and pray; to be good deeds and good deeds, basically to lead people to good.

This is a beginning and does not represent the result!

Good people are doing a good job in the world, and the bad guys put down the knife and they can become a Buddha.

impossible! Putting down the butcher's knife and setting it up to become a Buddha only said that when it stopped doing evil, the Buddha nature appeared immediately, instead of becoming a Buddha immediately.

Repenting of sin can get God's forgiveness. It is also the beginning of stopping evil. It is not the condition to ascend to heaven. It is really possible to pay a lot of salvation, devotion and faith.

And these are for ordinary people.

Like Shen Lang to the current level, it is already dare to come and light God!

The apostles under these bright gods, they have already killed two, even known as the avatar of God, and have killed one.

Is it not ironic that he will tell him that repentance can be forgiven by God?

When this is said, Shen Lang will understand it!

The other party is guilty!

Gabriel's results of their three battles, and the other apostles have already learned a rough idea. They should quickly weigh the judgment and confirm that the battle is not easy.

Therefore, they directly appear in the strongest lineup, and when they come over, they are surrounded by enemies.

The shouts at the moment also emphasized the seriousness of their eight apostles' shots together, emphasizing their indignation against killing multiple disciples.

These can be regarded as important, and can also be regarded as guilty.

In combination with the latter, it is to deter them first and then induce them to surrender with forgiveness.

According to the judgment of Shen Lang, this is the strategy of enticing the enemy. If you really believe it, surrender to them, the result must be severe suppression.

Maybe it won't kill directly, forgiveness, and not killing is great forgiveness.

But if it is to suppress the torture, such as the previous practice of extracting the power of faith in Yuxianmen, it is even worse than death!

With these judgments, Shen Lang's heart is much more stable.

Seeing his smile, Gabriel continued to add one.

"We are a ***** of light, love all human beings, and have great forgiveness. We are apostles, and we believe in words! You don't think for yourself, you should think about this woman, and this beast, practice. Not easy!"

Gabriel's persuasion changed from a rationale to a more humane change.

Because he does not believe that Shen Lang can be easily convinced, so this is equivalent to exerting influence on the dog ***** and Fan Xueyu.

Fan Xueyu is really affected!

After all, she didn't know anything at all, purely because of her willfulness and curiosity. She did not kill the people of the Light God, and they did not have grudges, it was the battle just now, she is also a defense and assisted attack.

If it can be peaceful, of course, it is the best. She does not want to have an accident here, and she does not want to recognize her identity and even get tired of Yaochi.

However, she is still sensible, but she is slightly moved. But I understand right away that it can't be that simple.

Not to mention who was killed by Shen Lang before, the two who were just eaten, and they are one level of eight people, can this hatred be forgiven?

Not dying will be a huge torture!

“In the past, we wanted to find the light ***** directly. We didn’t want to kill you more. But you guys are not good at it, so come on!”

Shen Lang laughed and gave a direct challenge.

This made the apostles of the eight parties change their faces. I did not expect him to be surrounded, but dare to be so arrogant!

“This is your own search for death, just like Raphael and Mellon before, and before Augustus, they are all the same. So, after being killed, don’t cry again!”

“No, no... I will kill all of you, let your so-called top ten apostles, completely de-listed, and there will be no resentment and crying.”

Just the first sentence has already shocked everyone’s arrogance. Now the words are getting more and more ugly, and the faces of the apostles are very ugly!

They will persuade them to drop, not to be the first rites. It is indeed afraid that there will be scenes of both losses. If you can take it, it will be much better.

But since they say it, others don’t listen at all. Instead, they dismiss them as chickens and dogs. They can be slaughtered at any time, and the natural face can’t be hanged.

They are the ten apostles!

This layer of identity has responsibility and glory! Now that the enemy has succumbed to their own base camp, they still have such an attitude. If they can tolerate it, and do not say that they are going out, they will not be able to go to the light of God and to all disciples.

Therefore, between the time, they have no more nonsense, and they shot directly together!

In addition to their tacit understanding, this should also be a countermeasure for discussion. Eight people extended a palm in the same time.

Suddenly, in their palms, a white light appeared.

This light is a little different from what other people have done before. It is fan-shaped, from the palm of the hand, the bigger it goes.

In the half of the exposure, there was a white light in the sky above the dome, directly combined with their gods, and then covered them together!

When it's said that it's too late, whether it's in the palm of your hand or in the air, it's almost the speed of light!

It's a dazzling moment, it's impossible to dodge!

The speed of Shenguang, Shen Lang not only experienced, but also shot, naturally very clear.

If the other person's light has already shined, it is almost impossible to dodge.

But the speed of man can be surpassed.

Just like a gun, the average person can't hide the speed of the bullets but the bullets are controlled by people. As long as you are faster than the person who shot, you can dodge before the other shot, you will achieve the effect of dodge bullets.

Further shooting before the enemy shoots, you can kill the enemy before the pop-up.

Since Shen Lang has decided to fight with them, nature has already entered the state immediately. When they raise their hands, he already understands what kind of action will be, and guesses what effect it will probably be.

Before he was able to absorb the light, because it was evenly dispersed around, the other side attacked them by means of infiltration and infiltration, giving him the opportunity to absorb. When the reaction came over, it had already absorbed most of it.

Now that one shot is fierce, and eight people join hands together, the power is even more dramatic, and it is impossible to give him the opportunity to absorb.

Therefore, after Shen Lang judged, he decisively opened the Kunlun mirror of the Three Realms!

However, what he wants to operate is not to escape from the scene, but to achieve a dodge effect.

Now they are attacking together, even if they are separated from each other, they will be seen clearly. Even if they can't make a line, the two move their palms slightly, they can make the light of the attack, and it becomes very passive.

With the transmission of artifacts, this time it is not going to the far side, but just to the outside of their encirclement!

This is not only the past, but also in the visible range, the positioning can be very precise, and the consumption is not large, and the three directly transferred to the past.

Of course, it takes time for Shen Lang to open the artifact and position, but it still leaves at the moment when the white light rises.

The light swelled up, the speed was very fast, the fan shape and the shroud above, immediately became dazzling, so that the apostles, all seeing white light, did not see the people inside disappeared.

Chapter 1634 - Attack behind the enemy

White light is not a flash, because their eight apostles are the continuous output of the light, and the above is the result of their union.

Their attack area is still very large, relatively no killing power of the lightsaber, but it is more shocking than before.

It is to take the three complete packages of Shen Lang and use the power of Shenguang to suppress them. Let them not rush out of the encirclement, but do not want to kill directly, but want to catch the mouth.

The light that was released by the eight people began to be a larger and larger fan shape. When the eight people joined together and merged with the top, they began to narrow the range, compressing from top to bottom and in all directions.

Undoubtedly, the large area is to prevent them from having the opportunity to escape, and the scope compression is smaller, it is to continue to strengthen the power.

Because of this, they need a time to first trap, repress, and finally to grasp the degree, must be abolished and not killed.

For the ten apostolic levels, this time is calculated in seconds.

But for Shen Lang, this time is enough.

In fact, Shen Lang can't wait for the other party to cancel the light, even if everyone's attention is above the light, they will still pay attention to the changes in the surrounding environment.

So he has almost no delay in time, and people have already flew to the nearest apostle!

The dog ***** has experienced this kind of crossing, although he did not think that the distance is so short, but after all, it is powerful, and it is immediately reacting. It is like a sinking wave, and it has passed to another apostle!

Fan Xueyu will obviously take a slow shot.

What was the situation just now, she has not responded yet, and she realized that she did not know how to describe it. When the observation was clear, the two of them had already taken the shot.

Her hole is also in her hands, this time it is still played immediately, but directly into the killing voice, and the goal is only a single apostle.

She still has self-knowledge. If she is close to the past, she may not be able to make an apostle. Instead, she will be injured and she will be delayed.

So she still chose to assist in the attack.

This time, she pressed all the sound waves into a thin line and directly stabbed one of the targets!

According to such an attack, it is not only the interference to the ear, but also directly into the brain!

The target of her attack is not to randomly select one. Since it is an aid, it must play an auxiliary role.

Because she was already half a beat slower, so when the attack went out, Shen Lang had already attacked the apostle!

Therefore, her sound wave is directly the target of attacking Shen Lang.

This is a recent apostle. It is not far from the distance. Shenlang is the fastest sneak attack. When he is approaching quickly, the stagnant water whip has already stepped out in advance!

When someone appeared behind him, the apostle recently felt that something was wrong.

He didn't need to turn around. When he knew the turn, he knew the situation behind him. He immediately realized that the light of the previous attack was in vain.

But at this time, the attack has already arrived, and even if he wants to turn back the light to fight back, it is too late.

What he can do is to let the whole body be covered with light, and at the same time shrink the light and turn around.

As long as he can defend for a while, he will have time to fight back.

There is also a tacit understanding between the apostles, and his withdrawal will not confuse others, at least a little bit of a vacant front.

But there is no target in it, and there is no point in continuing the combined attack.

When he was undone, the other apostles, after a little slower, reacted!

At this time, a sharp and harsh voice in his mind made him all affected.

Even if he has not been affected, he will not be able to escape.

The voice of Van Gogh's voice is to make the attack of Shen Lang more unimpeded.

The stagnant water whip passed through a layer of white light around him and penetrated directly into his body!

The protective effect of this layer of Shengguang is actually very strong, far superior to the general protection of the vitality. The stagnant water is too corrosive, and the blocking of that layer only weakens the effect and relieves a little speed.

The result is still better than the general edge, or pierced into his body.

The sound of the voice of Fan Xueyu makes the process smoother. Shen Lang also understands that the apostle's strength is strong. Even if the body is worn, it will erode a hole and will not die.

So after piercing into the body, Shen Lang's hand continued to shake, allowing the stagnant water whip to spin in his body and stir it up!

There is no problem in wearing a hole, but the whole internal viscera has been eroded, even if it is an apostle, it cannot be tolerated.

The speed at which the apostle was turning was suddenly slowed down, and the destruction of the body made the voice more irritating to him.

The whole person is almost frantic!

Shen Lang people have already arrived in front of him, the other hand, directly grabbed his body and twisted it!

Although the apostle has already succumbed to sudden death, but after all, the realm is high, the mental strength is very strong, and this time there is still no death, still holding on to also want to reverse the body to die and squander.

So even if his speed is slow, but the light of the palm of his hand has not weakened much, and the lethality remains.

Shen Lang twisted his body, as if he had turned a laser cannon, directly letting him palm his hands and sweeping over to another apostle!

The other apostles, the speed of response was also fast, and they immediately took action when they discovered an abnormality.

Their sense of the sense of the situation here, has been unable to copy the previous tactics.

Naturally, like the first apostle, they must be attacked individually.

In this way, the most recent ones are the ones that can be removed. The opposites must also be undone, so as not to attack their own people, lose their support, and the middle of the light can not be seen, suddenly dissipated.

The process was very fast, but the war on the Shenlang side was also urgent. As a result, they all saw it. Shen Lang went to the apostle's side, and they could not directly bombard the past, so as not to hurt their own people.

In the next moment, I saw that one of my partners had been hit hard, and without seeing the rescue, I saw that Shen Lang manipulated the apostle and attacked the apostle!

The power of the gods is powerful and magical, but it is impossible to break him apart!

Ordinary light can also reflect, refract, and the like, and Shenguang only has both dodge and block.

Other apostles farther away can only watch the light attack on their own people!

The attacked apostle himself has just not been able to attack the Shen Lang here. He is adjusting the light to attack the Fan Xueyu. As a result, he has become the target of attack and fled!

But he has lost the opportunity, how can he get through the speed of the light?

Chapter 1635 - Kill 1 half

Shen Lang quickly killed an apostle, and now manipulated the apostle and accurately attacked another apostle.

This time it was because the apostle was supposed to be the same as Shen Lang. It was directly in the light sword and the power was incomparable.

The result was that the apostle had not escaped and was immediately strangled.

However, it was only here that the apostle was already dying, but forced to hold it. At this moment, I saw that I had killed my partner and quickly converge, and the result was stunned.

Others have already reacted, and all of them have come together!

They all saw the situation of the person accurately, and all the internal organs of his entire abdominal cavity were already eroded, and he barely fell. If you can transfer the soul of the soul to the new body, you will still have time.

This is in their territory. It is not difficult to find someone to take over, but under such a battle, it is impossible to give them a rebirth.

This is so exploited to attack oneself, and more delays may only result in more serious consequences. So whether it is farther ahead or on both sides, it has been bombarded together, regardless of the life of the apostle.

In the rear of Shenlang, Fan Xueyu is safer and suitable for auxiliary attacks.

But now the all-round attack in front, she is behind the Shenlang, it will be implicated immediately.

This surprised her and did not dare to neglect. I have just successfully assisted Shen Lang, let her take care of herself this time.

Now Shen Lang is the focus of the attack. If she wants to dodge, she still has time. However, there are still many other people. If the light is chasing, she will be very dangerous, and she will be chasing after it.

Therefore, Fan Xueyu paused the voice and also ran the same magic weapon.

This is a white shell that is bigger than a bathtub.

Fan Xueyu himself has already devoted himself to it, and the shells are immediately closed and her is completely covered.

Look at this, this should be a very powerful magic weapon, she is also very confident, so let yourself hide in it.

In the process of closing the shell magic weapon, it left a few inches of gaps, not completely covered.

Now it is facing away from the apostles. As long as it is not a diffuse attack, it will not turn into her shell.

Van Gogh, who hides in the shell, continues to play the voice!

The voice was spread out from the gap left by the shell, and then manipulated by her to interfere with other apostles.

In the course of Shen Lang's previous work, it was equal to one person who killed two apostles. Although it is not necessarily dead, there is no fighting power.

On the other side, the dog ***** is even more powerful!

Before Shen Lang had already expressed his position, he and they were fighting to the end, so the dog ***** did not hide the strength.

The time when the dog ***** threw out was only slightly slower than the sinking wave. With its strength, this little time can be recovered.

At that time, the apostles had not yet reacted and had not kept their guard.

And when it rushed over, the mouth suddenly swelled. The body was like a normal dog, and the mouth was bigger than a person!

Such a big mouth, coupled with its strength in the realm of the gods, directly let the close apostle have no resistance, and then swallowed in!

It is because the two waves move more and more, attracting the attention of others, otherwise the dog ***** is obviously more surprised.

The image that it reveals is a "snake swallow" that has a mouth that is bigger than the whole body.

The dog ***** did not stop, and continued to fly in the other direction.

When everyone's light is directed at Shen Lang, it has already reached the other apostle!

The apostle was just aiming at Shen Lang, but after another apostle was swallowed, it was also reacted, and quickly turned down the light.

The power of Shengguang is beyond their personal attack power. They are very confident and want to kill the dog ***** directly.

His reaction is already very fast, and the speed of the dog ***** is even faster! And because of the small size, he reached the other side with a smashing angle.

When approaching, the body of the dog ***** once again became bigger, the body was already like an elephant, and the open mouth was so open that the apostle was swallowed naturally.

Even so, the apostle felt the irresistible suction, and when he saw that he was going to be swallowed, he broke out again and tried to escape.

For a time, he was faster than the shells, trying to escape from the dog's mouth.

His speed and strength struggle is also really letting him break free from the suction in the dog's mouth!

Seeing that it is out of the big mouth of the dog god, and the light in his hands is also turned back, so that it can stop a little, more opportunities to escape.

If other partners can rescue in time, he will be able to escape from the line of life.

At this time, the dog's tongue slammed out!

For the apostle, it was desperate to escape a few feet away, but for the dog god, it was just the difference between mouth opening and tongue.

When the tongue came over The apostle discovered that there was no resistance at all!

Originally, he had a plan to return to the same place. Once he could not escape, he could use the light of God to directly penetrate the throat of the dog god.

But now that he was directly involved, he immediately lost consciousness and even felt his head twisted again! Naturally, the light in his hand disappeared.

By this time, Shen Lang had killed two, and the dog **** swallowed two. Originally, the eight apostles lost half of them.

The remaining four people are all using the Shenguang to attack Shen Lang.

But in the course of the attack, they also discovered the fact that the other two apostles were swallowed by the dog gods, and they suddenly felt a tight heart.

Originally, the eight great apostles shot, almost as an unprecedented big squad, their hearts are full of confidence. But this is only a while, and it has already been halved!

The four apostles had already had a dim sum at this moment and wanted to escape. But the question is, does the escape run away separately or run away together?

No one wants to be the one who stays behind, which means that he is given up. The first escape, unless it can ensure the distance between others and others, or it may become the target of pursuit.

However, they have a tacit understanding after all, especially now that everyone uses the light, but it is able to achieve a resonance through the light.

So in an instant, everyone has a common decision!

The four people are in different directions. One **** light becomes a five-finger and five-way light. It is no longer aimed at one of the Shenlang, but sweeps in front and weaves a sword net formed by twenty lightsabers!

There is a kind of learning, this should be Gabriel's usage from the previous Shen Lang.

Chapter 1636 - Dragging the hind legs

It is not the casual play that Shen Lang has dealt with Gabriel in the past. It is the best result. Now they have the same kind of learning, and it works well too.

Originally, whether it was a sinking wave or a dog god, it was a single attack.

Even if they attacked the waves together, they would become a single attack.

But now it is different. Each of them has five lightsabers, and it is no longer aimed at one goal, but a way of sweeping, which has greatly expanded the scope of the attack.

Together with the four men, the sword nets of the dozen lightsaber woven are made into a random interlace, which is even more dense than the ten sword nets of Shenlang.

They are just one hand, the other hand, you can continue other attacks, or weapon weapons and the like!

Shen Lang can concentrate on defending and evading a strong attack, but for such a sword net, it can't be hard.

After all, the power of these gods is not trivial, even if it is small, it will also seriously hurt people.

It's like the difference between a rocket launcher and a dense bullet.

The change in the way of attack, Van Gogh was not affected, her shell-like magic weapon has already protected her. The light won't turn and it won't shoot her.

Even if she targeted the attack, she could control the light from the gap and she could close it in time.

So this time is aimed at the dog ***** and Shen Lang.

They quickly changed the tactics, from oppressive targeted attacks to large-scale attacks with attack defense.

Shen Lang and the dog ***** two, of course, at the moment of their change, it has been continually strained!

The dog ***** swallowed the second apostle, the body is like an elephant, but it instantly shrinks like a bird!

Large-area attacks that have just been interlaced are indiscriminate and irregular attacks. The bigger the target, the more likely it will be hit.

The dog ***** is naturally the first to encounter such an attack, but with its wisdom, it is not difficult to understand the mystery. What's more, before it also saw the effect of Shen Lang's attack.

Therefore, it quickly reduced the body. When it became the size of the bird, the space of the sword net, how free and disorderly, is enough for it to play calmly.

And its speed will not be affected by the smaller, but the target is smaller and more flexible.

On the other side of the Shenlang, it was at the moment of their change, suddenly slammed into the ground!

A large pit appeared on the ground, and a large amount of mud and sand quickly flew in the direction of the four front apostles.

These clay sands that are forced to be spattered are also extensive and disordered. They are also unlikely to resist the light, not to mention the wounding of the apostles. What they can do is to block and interfere with the sight. .

In fact, the occlusion is useless. The apostles' knowledge can cover everything around them, but suddenly the black pressure on a piece of sediment can interfere with the impact.

What Shen Lang wants is this little time. At the moment of taking a foot, others fly to the air at the same time, and directly cross the scope of the Excalibur network.

The two apostles of course, they have also found out immediately.

But this is a troublesome question for the apostles.

One becomes smaller, they need more encryption to hit the target, or the effect is not big.

The other one is in the air, the higher the range, the more they need to increase the number of times to achieve the same effect.

But the two have been separated, they want to pursue, it can only weaken the strength of their own, let alone strengthen several times.

Moreover, nowadays masters are constantly changing, they are not allowed to discuss again, and there will be no more time to think, only instinctive to make the best judgment!

However, the four apostles have been resonating since the change tactics, so everyone's thinking can be perceived by each other.

And the effect of the change of the move, they can not be sure, or attack defense, basically ready to withdraw.

At this moment, the enemy is in one direction and becomes in three directions. It is not a matter of throwing away the noise. It is also an attack in two directions. They need two to one, which will be very dangerous!

Just the other party is a pair of two, and they are one and two. They don't want to repeat the same mistakes.

So once I found out that the other party was getting smaller, after a high flight, they realized that the tactics were broken and immediately implemented the retreat plan!

The four people, almost at the same time, gathered their hands of light, and then quickly burst into a group of gods, and then they had already left.

It is the same as the escape method of Gabriel.

Once used, and in a successful way, it will naturally be recognized and used again.

But in the face of Shen Lang, once again in the same way, it means stupid!

Just like the way they used him, he can be cracked by him and the dog god.

Gabriel had already managed to escape before, how could Shen Lang not guard against this hand?

So when he leapt high above the sky, he had already dispersed the field and completely controlled the surrounding area!

Shen Lang did not use the field to attack them, but only controlled the environment. So at this moment, they have not been alarmed.

But when they want to go, the role is played!

Their squatting, in fact, is a cover and protection, and really uses the environment to leave.

Now Shen Lang is controlling the environment. When they want to transfer quickly, they are involved.

It's just a field, and it's impossible to control these apostles.

But the involvement has reached a dragging effect!

This is not enough to trap them on the spot, but it also prevents them from transferring at a very high speed.

The effect turned out was that everyone rushed out of the light and fled to the distance.

This change, Gabriel several can not help but face a big change.

They didn't expect that they would be implicated in this way, and they couldn't help but mess up for a while!

Just like the battle just now, if they use their own weapons and spells to attack, perhaps the battle will be more intense.

But when they came up, they were more reliant on the light, thinking that the light and light could have a miraculous effect. After the result was cracked, confidence would be affected.

Now, the way they leave is through the protective cover of Shenguang, and Gabriel is also successful.

Unexpectedly, on my own site, I even failed to escape!

But even if they are upset, they still instinctively made the best judgment.

Under the instinct, they use the most divine light they are relying on, not the battle of individual ability.

The result is that they reapply their skills and come again!

And Shen Lang and the dog god, originally did not need to face the network of Shenguang, in the moment of the trailing leg, has already obtained an excellent attack opportunity!

Chapter 1637 - Great victory

Shen Lang can seize the opportunity quickly, and the apostles can do the same.

Just his field can work, not because the other side of the realm is crushed, but because the other side is not prepared.

This is, after all, a hundred paradise.

This is the site of the apostles, who can almost be integrated into the paradise.

The field of Shen Lang is built on top of people's land and is easily destroyed.

So the effect just can be done once, and the second time is hard to work.

This is why the apostles will instinctively make another escape.

This time they naturally opened the control of the surrounding field and no longer dragged their hind legs.

But even if they are fast, for the same fast Shen Lang and the dog god, there is still a chance to shoot!

Since this is the game of Shen Lang, there will of course be continuous preparations.

In the moment when they did not succeed because of the hind legs of the field, Shen Lang had lifted a huge iron rod from the air and smashed it toward one of the apostles!

The apostle's divine light has not yet reached the second outburst, but the body's vitality has opened the surrounding field, and the squad has already smashed down and directly plunged him into the ground!

Of course, the dog **** did not fall.

Its body becomes small, but the speed is still fast. Without the blockage of the lightsaber net, it is not necessary to dodge, and it can fly in a shorter straight line.

Shenlang's field layout, although it is not very clear, but it is sensed, and also knows what will probably be a situation.

So when the four of them did not escape, the dog ***** was clear and there was no accident.

It is even faster, and wherever it flies, it is one of the places where the apostles appeared!

The result was the best reaction of the apostle's instinct, the dog ***** that suddenly became bigger, biting him in one bite!

However, there are two apostles in this way, but they have already escaped smoothly.

This result, Shen Lang is satisfied.

He has the memory of Augustus, knowing what the Ten Apostles mean, and the eight apostles have attacked together, which is already a very big challenge for them.

Therefore, his strategy is to play fast, use his own understanding of the light gods, experience of the light, etc., to beat each other by a surprise.

It is already a satisfactory result to be able to kill four.

This dial is also aware that the other party is ready to escape. It is still more than expected to leave two more.

It is already good to be able to help the attack without being able to drag the hind legs. Can't count on her voice, can delay the other two.

Shen Lang is even more afraid to underestimate the enemy at this moment!

Because the dog **** is inherently powerful enough, and it is directly swallowing people, basically there will be no problem.

But the one he attacked is different. Even if he is buried deep underground, he may still have his life.

So as the body landed, he quickly narrowed the huge iron rod, and then once again swung the stick to the apostle in the open pit to make up the past!

The apostle was also a sad reminder. He just fled from his own hands. He first rushed around the field. He didn't expect the Shenlang to be so fast, and the huge stick came over.

However, he is one of the top ten apostles, and he has the strength to approach the realm of the Great God. This stick is huge, even if it is a force, it is not enough to kill him.

He did not resist the stick with his body, but fell down the body!

Assume that the stick of Shen Lang is a big hammer, then he made a nail. If it is hard, the nail will be bent, but if it goes down, it will be nailed to the ground.

So at this moment, the iron rod pulled out a large pit on the ground, and he fell into the bottom of the pit.

The sad reminder is that he did not expect that Shen Lang would shrink the iron rod so quickly, and immediately added a stick!

He is preparing to complete an escape under the pit. The huge iron rod is now his cover. He doesn't even need to use the light, he can leave directly.

The result is at the moment of leaving, Shen Lang followed by a stick, directly on his head!

If there is a ***** light, it can also play a role in protection against resistance. Now, even if there is a protective body of its own vitality, how can it resist the blow of Shen Lang?

This stick once again plunged his body into a lower level. What is different from the previous one is that the head has already blossomed!

Just now that stick, although he took advantage of the trend, after all, it is also a great impact, and now it is a very accurate hit, the result is self-evident.

He was smashed into this way, and Shen Lang then hooked it with an iron rod and flew over it.

The dog ***** is also welcome, and the mouth is sucking. This apostle, who has blossomed his head, flies to its mouth immediately without resistance.

In this way, six of the top ten apostles have already been eaten by the dog god!

“The Emperor, these are not weak, you should not eat it again...”

Shen Lang is a bit worried, not worried that it can't bear it, but worried that it will make up so much. If you want to break through evolution at this time, it will be troublesome!

The dog ***** can protect the law for himHe can't protect the dog god. Just an apostle, he can still hold it, if the light gods shot?

“Well, I am full.”

The dog ***** also expressed satisfaction. If it is really only a strong man in the realm of the Great Immortal, it can eat, but it does not care particularly, just like Augustus.

These apostles are different. One is that the strength is much stronger, the other is a large number, and the six are eaten, making it a huge harvest.

Originally, this is the paradise of the paradise, which is called the paradise of heaven. This large open space is also flat and beautiful.

Now it is pitted, and the two apostles who escaped, Shen Lang did not catch up, and could not catch up.

However, he can confirm that one of them is Gabriel. Maybe this guy has escaped more experience, or is more afraid.

Shen Lang flashed to the two apostles who had been killed by him.

These two apostles are actually not dead, because unlike the ones eaten by the dog god, even if they are corroded and dirty, they are pierced by the gods, and they still retain a trace of life.

The head was flowered, and if it wasn't eaten, it should still be conscious.

Taking advantage of their last life, Shen Lang read their memories!

But this time, I have encountered a problem.

Even if they are already dying, they still resist, and let Shen Lang read their memories!

The stubbornness of this one made Shen Lang have to take time out of their mental strength, and their mental strength was extremely weak. They controlled them and prevented them from committing suicide. They read their memories in the moment before they died.

The memories of the Ten Apostles are naturally more valuable than Augustus!

Chapter 1638 - 2 big law

The memory of these two apostles is not much more than the memory of Augustus.

At their level, they have rarely participated in and discussed the general affairs of Bai Paradise. Like the disciples at the bottom, they are not clear.

But their value is that they have secrets that are not available to Augustus and others!

For example, regarding the situation of the Light God, they need to know more.

Another point is that I did not know before Shen Lang, that is, above the Ten Apostles, there are two apostles!

These two apostles, like the right and left guards of the Light God, are above the Ten Apostles and have hidden their identity early.

Once the deadline has arrived, the strongest successor will be selected from the top ten apostles. The successor of the apostle will hide his identity in the name of his death.

The position of these two apostles is the secret apologist under the light god.

Bright God may often be in retreat. At this time, if you encounter enemies and the ten apostles can't cope with the enemies, they will be asked to take them.

But only in this case can we be invited to move them, and ordinary daily affairs, communication and the like will not appear again.

In the current situation, the top ten apostles have been killed eight times. Basically, they are at the juncture of life and death. Before the alarm of the gods, Gabriel and the two will first report the two apostles.

From the memory of the apostles, it is difficult for Shen Lang to accurately know the strength of the two apostles, but from the comparison of the ten apostles, the two apostles should have reached the realm of the great gods!

If this is the case, then the Light God, there are at least three powerful gods!

Bright God may also be the so-called god!

This makes Shen Lang also a little bit sloppy...

His days are not afraid of fear. They are based on self-knowledge and have self-knowledge.

Now this board is obviously not enough for others. If you continue to force the bar, the result will be very miserable.

He is hard to rebuild to the present state, but he does not want to be destroyed.

“What’s the problem?” The dog ***** saw that the wave was not right, and immediately sent the idea to ask.

Shen Lang secretly smiled, then shared the memories of the two apostles, and also described his own assessment.

The dog ***** is also silent.

These ten apostles, it is not in the eyes, but they also admit that their strength is not weak, stronger than the Augustus to the world of giant beasts.

To put it simply, these ten apostles, placed in the time of the behemoth, even if it is not as good as it, are no worse than the hurricane beast.

The light is so, it can be seen that the **** of light will be more powerful. Unexpectedly, between the Ten Apostles and the Light God, there was also a layer of the apostle.

If the two apostles really have a level with it, even if it can be stronger, it can't hold two.

Even if you add Shen Lang, and the girl, you can confront these two apostles, then the light god?

Bright God can be their god, the master of their worship, and the strength should be different. Can it still be dealt with?

The dog **** can directly decide to kill it on the same day, and it is also evaluated according to the strength of Augustus. Now there is more information and it is a bit embarrassing.

The Fan Xueyu, who was hiding in the shells, has also come out of it. The magic weapon has been collected and now comes to them.

“Do you want to continue?”

The excitement of Fan Xueyu's face, just a big fight, although she only assisted the attack, it did not play a key role.

But after all, it is a master of the top players, it is usually inaccessible, even if it is watching the game, it can give her a great enlightenment.

Directly participating in the battle, she has a lot of mysterious experience, which is very helpful for her practice.

So at the beginning of the first wave, she was helpless and involved, and it was also tense. But by the second wave, she has adapted, and more is to cherish such opportunities.

Shen Lang gave her a look.

“How to continue? If a group is stronger than them?”

“Continue to fight! What are you afraid of! I will help you!”

“...”

Her ***** state of fighting in the end, so that Shen Lang is a bit speechless.

“I have already arrived here, have to retreat? It is already like this, will others let you back?”

Fan Xueyu said this, Shen Lang and the dog ***** listened to it.

That’s right, I have already hit here. Can I return it now?

Have you killed the eight apostles of the people, and the Church of Light God will give up?

If you really want to do it in the end, then you can’t be embarrassed, you can’t back down, but you have to fight hard to do it!

It’s no longer meaningful to want to fight now, but I should think about how I can play it.

Shen Lang looked at the dog ***** and looked at the van Gogh.

“Go ahead!”

He now understands that the two apostles are also in the Temple of Light. They are the guardians of the Light God. When they go to the Temple of Light, they will encounter two apostles.

“Is this your body? It doesn’t look too small!”

Fan Xueyu looked at the dog ***** curiously. Now it still maintains the scale of the elephant and looks more powerful than the previous dog.

The dog ***** looked down at her, then continued to grow bigger and let herself recover the real body.

Shen Lang smiled and said: “This is the Emperor!”

Fan Xueyu could not help but cough cough, cough... really is very powerful! ”

The huge body alone does not make her more shocked. After all, their Yaochi has a giant beast, and the contrast between the Emperor and the Great Beast is small.

But the emperor behemoth she just saw is the shape of a dog. I also fought with it simply, then followed all the way to it, to the battle just now, it was so small.

It suddenly made her feel amazed when she suddenly became a hundred meters.

Surprised, the state of the Emperor’s behemoth has made her more reassured.

This huge physique is better than a dog.

She is also a bit grateful that the last time it was just a voice temptation, and did not really want to attack it, or else it was estimated to be eaten.

When the Emperor and the Great Beast sucked, they immediately let Shen Lang and Fan Xueyu reach their backs, and then began to rush out to the Temple of Light!

It was originally speedy. Before the size of the dog, there would be no damage. Now that the body has been restored, there are many places that have been hit and ruined.

Shen Lang did not care about everything, but thought about the countermeasures. If the two apostles could really turn over the dog god, if the light ***** is really better than them, how can they leave safely?

When he came, he was the two backhands. One was to use the door of the Three Realms to cross and leave, and for a moment, even if it was God, it was difficult to catch up.

The other one is hiding in the space of the heavenly book. It disappears directly and hides in another small world. It is completely unsearchable.

These two are all very big grasps, but if the strength of the other side is far better than their own, there will be no chance to escape!

Chapter 1639 - Darkness is coming

The dog **** who was rushing forward suddenly stopped suddenly.

Such a sudden brake, let the above-mentioned Shen Lang and Fan Xueyu, even if it quickly stabilizes the figure, it still slides out of inertia on its back.

“Ready to fight!”

The dog **** was serious and immediately remained in combat.

Shen Lang and Fan Xueyu also immediately flew down from the back of the dog **** while maintaining their alert.

When coming down from the dog god, Shen Lang has quickly scanned and sensed the surroundings.

Just because my mind was thinking about it, I didn't pay attention to the previous situation.

Now it feels very fast, they are now in the field of others' control!

There is only a large space around them, only their figure, and then a little blurry outside, it is not like in the paradise.

It seems that the other party should have a trap, and the dog **** has already plunged into it because of the speed.

Of course, you can't blame the dog **** for being careless. Since the other party can set up this game, it is naturally quite powerful.

The strictness of the dog **** is also explaining the seriousness of the problem.

The current problem does not need to be analyzed. The answer is what you want.

The one who can do this to trap the dog **** is definitely not Gabriel and the other apostle. The only apostles who may be the two highest guardians!

There is only one question now. Is it an apostle or two apostles?

If it is one, then it is more difficult than fighting, but still have confidence and confidence. If you come with two apostles, then you are in trouble!

But now it's here, no matter one or two, you have to face it, you have to go to the end!

Shen Lang Ma uploaded the sound to Fan Xueyu: "Do yourself!"

There have been two battles, and she has a little more concern for her. But now the enemy is strong, too late to say so much, can only remind her to protect themselves first!

Shen Lang himself must be prepared to fight an apostle.

The dog **** should be able to do one more, he can fight one more, or can hold one, how much is still a little odd.

Otherwise, it can only be escaped far away.

He and the dog **** don't need to confess so much. Everyone can have a tacit understanding and know each other's intentions.

At this moment, the huge body of the dog god, maintaining the domineering of the Emperor's behemoth, to live the entire field.

The contrast between the seemingly small Shenlang is to try to see if there is anything that can break through.

“Sinner! Beast! Underarm!”

A majestic voice suddenly rang.

This sound seems to come from the sky, but it seems to come from the surroundings, as if from the ground.

Simply put, it seems to be everywhere, and it is impossible to determine where others are.

Shen Lang has not changed according to the same, and did not search for the existence of the other party according to the sound, but directly spread to the surrounding with his own voice.

“A long light apostle, or a dark apostle?”

These two apostles are long, one is called light, and the other is called darkness.

In the light gods, it is normal to name them with light, and to name them in the dark, it is a bit special.

Therefore, the bright apostle is a positive and direct role. The dark apostle is the one who does everything in his power to punish all sinful and fallen crimes.

To put it simply, the dark apostle is the representative of law enforcement, and the strength is stronger than the bright apostle!

Shen Lang can't tell which one is coming, or both are coming, just a temptation.

At the same time, he secretly tried to see if he could break through from here.

“The obstacles! Your sins are deep, you will go to hell!”

This is another voice, and when this sound comes to mind, it feels a little creepy.

The answer that Shen Lang wants is already there. The beginning of the speech is the long apostle, and the latter is the dark apostle!

He understood the answer at a glance. The other party also learned from his temptation that he had drawn the memory of the apostles. Otherwise, he would not know the apostle's message.

The Dark Apostle is undoubtedly much more fierce.

When he just spoke, it made people feel a bit creepy and sullen, and after he finished speaking, he directly started!

This is not a simple and direct “hand” because there is no way to see where the two bodies are.

As his voice fell, the distance that was originally blurred, quickly approached, and it was no longer a blur, but a dark approach!

This change has made the previous experience a bit useless.

Before they all relied on the light of God, the direct light is the light of God, but the result is cheaper.

Now it's a completely different dark style, and you need to understand and test the power of this dark wind.

The approaching in all directions quickly turned the environment in which they were located into a closed situation.

Because of the huge body, the dog ***** will be shocked by the darkness first!

“嘭-“

The two front legs of the dog ***** suddenly lifted up and trampled on the ground.

In an instant, a huge shock wave spread out, centering on himself, rushing out to the surroundings, directly welcoming the darkness of approaching. These are controlled by the dog god, to Shen Lang and Fan Xue. When I was around, it was natural.

Soon, the situation has appeared!

The shock wave that the dog ***** slammed out did not push the darkness that was approaching, but only entered the darkness!

It can be seen that these darkness that is approaching is not a kind of smoke, but more like a shadow.

Smoke can be destroyed by impact, but the shadow can only be destroyed if it is found at the source.

Of course, the dog ***** is also paying attention to this change at all times. It is not effective in a single blow. It is also psychologically prepared and not surprised.

Before it was unclear, the darkness was undoubtedly full of crises. In order to avoid being covered by this dark shadow, it suddenly shrank half of the body.

In this way, the darkness is a little more distance from the dog god.

However, Shen Lang and Fan Xueyu are on the verge of darkness!

Because they were originally on the back of the dog god, and they were next to each other after landing. Now that the dog ***** has shrunk, they are a little far away from them, and they have not moved.

Fan Xueyu immediately approached the past in the direction of the dog god, holding a hand and holding a shell. If necessary, she will sacrifice the shell magic at any time to protect herself.

As a result, there was only a silent wave that was moved to the side by the darkness.

Ever since, everyone has divided a mind to Shen Lang here.

“I will try it!”

Shen Lang said to the two of them, not only did not avoid, but instead directly involved in it, and immediately ushered in the darkness!

It's too late for the dog ***** and Fan Xueyu to persuade, just to stare at him into the dark.

Chapter 1640 - Virtual hell

Shen Lang is an adventurous act.

But they are three, and there is always a need for someone to take risks.

The dog ***** is the strongest and the biggest one, and can't let him take risks.

Van Gogh is a girl, let her take risks, or a little can not say.

So there is no need to negotiate anything, and Shen Lang is directly on his own.

He also has more self-protection programs, and he has a little more control.

At the moment of entering, he also opened multiple protections.

The first layer is the protection of vitality, the first layer is the protection of the holy armor, and the other layer is hidden without hair. It is used to protect the gods!

These are still passive defenses, and there is another escape plan, that is, once you find something wrong, let yourself hide in the world of heavenly books.

If it is a positive confrontation with the gods, Shen Lang is not sure. In the face of the two apostles, for the first time, he still has the confidence to escape.

Of course, this can only be used once, this time, and the next time someone else is prepared.

Don't enter the tiger's nest and get a tiger.

Before the white light, Shen Lang also personally experienced it, in order to be more sure.

At this moment, he entered the darkness. He immediately took all his perceptual abilities to the extreme and tried to understand all the details inside.

Because of this kind of adventure, I don't know how long it can last, I don't know if I can still do it for the second time. I have to seize every second chance.

In an instant, Shen Lang feels a completely different world!

This dark environment is similar to the chaotic space. It is the same feeling that people are completely isolated.

But the chaotic space is that many of the perceptions are isolated, and in the darkness, it seems to magnify the human perception!

Because when it was completely shrouded in darkness, Shen Lang felt the raging ghosts crying!

It feels like **** seen in the movie. There is a gust of wind in the darkness. There are ghosts crying, and the claws are caught all over the body. The darkness is to engulf all the light. Pull towards the great abyss!

Dark, but did not reach out to five fingers.

I just can't see the outside, I can't see other people, and I can see all kinds of hellish scenes in the dark.

Devil!

Shen Lang is very determined, and there is no flustered tension.

In this regard, he is still very experienced, because in the process of past painstaking practice, the demons are a very important layer of temper.

The various pictures I have just seen make him feel that it is actually entwining and merging the memories of the **** pictures in the various movies he has seen.

This is not a real picture!

Is this a magical array that affects people's minds and evokes people's demons?

The attack of the Dark Apostle will never be so simple!

Although there is no detailed communication with the dog god, or the dog **** has no specific understanding. But judging from the prudent situation of the dog god, it will never be just a fantasy array...

When I was thinking about this idea, Shen Lang suddenly felt a shock!

This attack is a direct ghost of the ghost ghost, he feels that it is a fragment of the memory of a movie, and there is no defense.

As a result, this devil, directly penetrated into his body, making him feel uncomfortable.

Shen Lang's heart is a glimpse.

Originally he was in this darkness, he still maintained several layers of defense, although the use of light is not used now, but the general attack will also block and feel in advance.

But just that moment, but let this thought it was a ghost of false illusion, really gave a blow.

Virtual reality?

He still doesn't believe that all are real ***** pictures, most likely part of the illusion, and then screaming in the hallucinations, giving people a sneak attack!

Whether it is a fantasy or not, it must have been manipulated by the Dark Apostles, and certainly not so simple.

After a while, Shen Lang still felt uncomfortable, but it did not make him have too much influence, and he himself has attached great importance to the "illusion" around him.

Those ghosts who are crying and screaming, or the illusion of the East or West, continue to appear. But it suddenly disappeared when approaching, or avoiding being close to him.

Sure enough, it is manipulated!

The other party is waiting for him to sneak when he is paralyzed, waiting for his defensive loophole attack.

Virtual reality!

After Shen Lang had a clearer confirmation, he immediately sneered.

Darkness and light?

Then take the Shield of the Spear of the Son and see your own darkness, and your own light, which one is stronger!

The heart is moving at random, and Shen Lang immediately releases a circle of light!

This was absorbed before, and now it is released, and immediately a very obvious white hood is formed around it.

Obviously, this makes the light of the ten apostles all rely on, and it is very effective, directly arranging the darkness around!

In an instant, the **** scenes of those who are crying and screaming, disappeared as if they were shocked.

However, it was only a moment, and then, the darkness that was drained, once again approaching, just needed to fight against the light and become slower.

The **** that has just disappeared by the light of the gods appeared again on the edge of the gods.

And it was because of the darkness, it was more like the glimmer of illusion, and now there is the illuminating of the light, so that the scenes of **** that are coming closer are becoming more clear and more embarrassing and scary.

Come!

Shen Lang once again sneered, and immediately appeared a sword of light in his hand, and then waved out!

Just as the flashlight shines into the darkness, this light of light is particularly dazzling in the darkness, and when the sights of **** are touched by the light of God, it is also a scream!

These screams are like the pain of countless **** devils being stopped by the light of the gods.

But in terms of it, these are still hallucinations, which affect the simulation of the mind, that is, to give him a real sense of hell.

In addition to the first attack to him, he felt that there were ghosts swimming around, avoiding the light, trying to attack him!

These devils were hit by the gods, or shattered or smoked, or drunk or sharp, as if they were really killed.

However, Shen Lang did not relax. He knew that these were still illusory. It is likely that these killings were all false illusions, and the real attack was in a dark corner, waiting to devour him!

Devouring?

When this thought just appeared, Shen Lang immediately felt that the body was falling down quickly. There seems to be a huge bottomless abyss that is swallowing him in!

Whether it is the light of his whole body or the lightsaber that is thrown out, it seems to have been swallowed up.

The surroundings are getting darker and darker!

The ghosts are crying and the sounds are getting smaller and smaller!

It feels like he is falling from a layer of ***** to a deeper hell!
