Chapter 1641 - Darkness and light

Devouring? hell?

Shen Lang suddenly felt alert!

Just as he had a thought of engulfing, he felt that he was swallowed up by another layer of hell, and the same picture appeared.

This made him realize that these dark environments have already affected his consciousness and will change with his consciousness!

In this way, even if he clearly understands that this is an illusion, he will also be illusory and illusory, and will change along with his thoughts.

It has already been illusory, and if it continues, it will be difficult to distinguish clearly.

At that time, the other party's sneak attack cannot be distinguished, and it may be attacked at any time.

Does it change with consciousness?

Shen Lang immediately changed his own consciousness and directly made his consciousness bright!

It started from the light of the whole body, and spread out to the surroundings. There was no distracting thought, only light.

At this moment, he did not control the darkness of the gods, and did not even manage the attacks that may occur at any time.

Ignore what is illusory and true, no matter where the Dark Apostle and the Light Apostle are.

The result was a beautiful scene!

From the deep wave to the center, spread out to the outside, there is a large piece of light!

The light is spreading and bright, and the result is that the previously filled **** is dissipated, and all the darkness disappears.

Soon, Shen Lang sensed a violent anger.

This should be from the dark apostle.

The other party did not expect that such a picture would appear. Although the darkness has not been completely solved, the prosperity of the light has already made the darkness look like a shadow.

Just all the darkness is to influence the target. No matter who is among them, there will always be their own demons. There will always be fears, conjectures, doubts, etc. due to various illusions in the darkness.

Those who will be used, further more “tailor-made” illusions appear, and more and more difficult to distinguish between true and false.

However, the dark apostle was long, and he did not think that he would be stunned by Shen Lang, and the heart of integrity and righteous thoughts would be brighter.

Suspected of hell, there is hell, feeling swallowed, it will be swallowed.

That is a magnifying and catalyzing effect on the mind.

The heart is bright, and naturally it is light.

When the light is enough, the darkness will retreat.

The Dark Apostle has never encountered such a situation. I did not expect that Shen Lang would not follow the routine at all.

The other one is also because Shen Lang absorbs a lot of gods, so when released, there is enough confusion to make the dark feeling “self”.

And this light is the most sacred light of their light gods. Naturally, they don’t feel fake, and then they can be magnified, which is a completely opposite result.

Today’s Shenlang is actually trapped in a “dark” environment, but the darkness has faded to the edge, and there is a bright light around it. The previous method of sneak attack has disappeared.

However, after the outbreak of the dark apostle’s anger, two changes soon appeared.

One is that the darkness has been spurred and once again swept through!

The other is that in the light, there is a strange flash of light, and it is very likely to be a means of attack hidden in it!

Shen Lang’s heart is like a mirror. This is the two apostles of darkness and light who have joined together.

He used the light, and used the spear of the son to attack the shield, and let the dark apostles grow up. They immediately joined forces, and the dark apostle continued to strengthen the attack. The bright apostle grew up in this “dark light” attack. Shen Lang!

This speculation was immediately confirmed.

A glimmer of light, directly to the body of Shen Lang!

Because it is always a bright light, the subtle light caught in it is hard to be perceived. More hidden than the sneak attack in the dark.

Surrounded by darkness, there is a situation in which ghosts and wolverines are like hell, which naturally makes people nervous.

On the contrary, the surrounding area is bright, it is easy to feel that it is a holy environment, and it is easy to relax and lack the defense.

And this time the attack was a long apostle attack!

Originally he would not attack in the dark environment, but now it is bright and the environment is good for him. The light that Shen Lang released was also the light of the gods. The apostle of the light is of course better at manipulating and utilizing.

Therefore, Shen Lang can no longer maintain his heart without distractions.

He must dodge, defend, and even counterattack.

He renewed his heart to the light, and it was good for the apostle of the light. He gave up his heart to the light, and it would let the dark apostles drive straight into it!

At this time, Shen Lang made a decision.

Just now, my heart is clear, and he is also divided into a heart, knowing the surrounding environment.

Although the time is not long, there are some feelings. So at the moment, let yourself be united with the surrounding environment!

In this way, his body seems to float freely, and it seems to be invisible and integrated with the surrounding environment.

Just the light that rushed to him in front of him, lost his target, pierced into the air, and then swam.

The light of God has disappeared, and the light that has spread before has also quickly dimmed the darkness quickly re-expanded.

But the problem now is that the darkness cannot annihilate all the light.

Because the light that is left now is no longer a swell, but a light apostle is formed!

Just in order to attack the sinking waves, the bright apostle was also blended into the darkness with heart.

And this dark range is to rule the environment. The main goal was to sink the waves. Now that the waves are gone, the bright apostle has become the target.

Of course, the two apostles, light and dark, are themselves, they can be negotiated, and they will not live or die.

But before the negotiations were done well, before the dark apostle did not let him go out, the light in the darkness now took the light of the apostle.

The bright apostle is now riding a tiger. If he does nothing, he will be hurt by himself.

But now, with a little thought, it is the impact on the dark environment.

With his level of light, there is a great offset.

What makes them both wonder and depressed is where is Shen Lang going?

It was just that they both had a combined attack, and this was the lead that trapped the other side, and Shen Lang could not suddenly escape.

That can only show that it is still in a dark environment, but where is the person?

That piece of light is not there, in the darker?

If so, the Dark Apostle should be able to master it easily and attack him quickly.

At the same time, the deep waves that have merged with the entire dark environment have already “walked away” the entire darkness.

Because of the integration of nature and man, he is almost equal to the darkness. Wherever he wants to go, he will go somewhere. He soon gave him a general appearance of “God’s perspective.”

Chapter 1642 - Nuclear power

When the dark waves and the darkness merge into one, they are just like the darkness.

At this moment, he can know all the circumstances in the darkness, and he can know the situation outside the darkness. It is a feeling of God’s perspective.

He saw that outside the darkness, it was a hundred paradise.

In the dark inner circle, it is still approaching the dog **** and Van Gogh, but his own body is already in the dark.

In the darkness, there are countless attacks and bright attacks in the dark.

For these attacks, Shen Lang does not need to be prepared, he can leave far away at will, and they are completely unaware that he is there.

But he must also be careful, to maintain this state of integration, not to be tempted, or else to be immediately enlarged, so that it will be perceived by the two apostles of darkness and light.

But the two great apostles, dark and bright, are not ordinary people.

Although they don’t know how Shen Lang did it, and where it is now hidden, it is basically judged that he is still hiding in the dark corner.

In the scope of their own control, this of course makes them unhappy.

With their strength and tacit understanding, and in a flash of time, the bright apostle is long, and the retreat from the darkness is completed.

Let everything turn into darkness again.

Under this circumstance, the Dark Apostle once again played the role of dominance.

The existence of the long apostle of the light will magnify the thoughts of light and affect him.

The pure darkness now makes him better able to search for the existence of Shen Lang.

When the light retreats, Shen Lang is also immediately aware that this will be the result.

Of course, he can continue to maintain this state, but that is not a long-term policy. Even if it is integrated into one, others can feel that his darkness is more than something else.

In this way, instead of exposing this hand, with this means, at a critical time, there may be surprises.

Therefore, when the Dark Apostle searched the darkness in detail, Shen Lang had already let himself withdraw from the state of unity of nature and man, showing a look that was just hiding in a corner of the darkness.

As soon as the Dark Apostle discovered the traces of the waves, he immediately attacked him!

This time, the surrounding is really like hell, but it is not illusory, but the existence of all devils and ghosts, all real attacks!

He is really angry.

Since Shen Lang dared to show up, of course, he has already prepared for the response!

In the midst of this crazy attack, he directly released a nuclear bomb-level super bomb in the Shrink space!

Then at the moment of detonation, directly hide in the space of the heavenly book!

Because I had just merged with the darkness and knew its power, I dared to release a bomb of this size.

As for the dog ***** and the Fan Xueyu, they are not in the dark now, and they are also protected by layers. They should not be affected much.

Shen Lang himself was at the core of the explosion, and the impact he had to bear was the biggest, so he decisively hid himself.

He has disappeared once, so now that he has “disappeared” again, he has not let the Dark Apostle doubt it. He just thinks that he is hiding in the dark again.

The emergence of nuclear bombs is also a goal.

In addition, all the attacks he manipulated are already very violent, completely blocking the surrounding, and do not believe that the waves can escape.

The result of the continuation is that all the dark attacks have reached the place where Shen Lang was just located.

It's just that the goal of Shen Lang has disappeared, and the nuclear bombs are inanimate and not afraid of their attacks.

At this time, suddenly detonated!

For the nuclear weapons of this level, Shenlang has also had a lot of calculations and designs.

Because before on Earth, he has challenged the major powers. If there is a crazy strong man, he will shoot a nuclear bomb at cost.

So I have to guard against it.

In fact, he did not worry much, because it takes time for nuclear bombs to be fired. At that time, he was completely free to leave. There was no way for ordinary people.

Even if it was attacked for various reasons, so that he could not leave early, there is still a way to defend and hide.

But all the programs are dodging and hiding!

In other words, even if Shen Lang is in the realm of the present, he does not dare to smash the nuclear bomb!

He did not have the opportunity to personally touch such a thing. Of course, it is best not to touch it. However, based on various data, the power of nuclear bombs is no small feat.

It will now come to the Dark Apostle once, and he thinks that some of this darkness should be similar to the field that the Dark Apostle manipulated.

Even if his strength is stronger, it is hard to hold on to the bombardment of nuclear bombs!

And from the situation just now, he suspects that the two apostles are long, even if they reach the realm of the Great God, it is likely to be the level of Elder Tula, which is a little bit worse than the dog god.

Otherwise, they don't need to play any means at all, and they crush them directly with tough means.

Just because I realized the power of the dog god, I need to use more sure means.

These combinations make Shen Lang look forward to his impact on the nuclear bomb!

Shen Lang hides into the space of the book because there are hundreds of times, you can be very calm.

This is the weapon that Bihai Huan gives to the equipment of the armor. The detailed data on the armor, the time of the shock wave, etc., combined with a hundred times of time, let the other party bear the solid bearing.

The calculation time is up, and Shen Lang will re-enter the space from Tianshu.

When he came out, there was no darkness in the place where he was!

However, because he had traveled a lot before, it is certainly not in the dark place.

The dog **** and the Fan Xueyu are highly guarded, the dog **** is strong enough, and the Fan Xueyu is already hiding in the shell magic.

Obviously, the impact of the attack just shocked them.

But the vast darkness has disappeared, and the dark apostle is long, and it seems that it is not around.

Shen Lang kept the defense, quickly searched around, did not feel the two apostles, and even felt that the previous field disappeared.

The Dark Apostle was directly killed by the murder?

Shen Lang is not so optimistic, but in the end it is a nuclear bomb, certainly enough for him to drink a pot.

Exploding in the darkness, within the control of the Dark Apostle, must be allowed to bear.

At that time, he should also think that it was a counterattack from the outbreak of Shen Lang. For the sake of face or anger, it would be hard to suppress.

After all, Shen Lang's current strength is not as good as that of the dog god. He is not so attached to the dog god.

The result of the hard pressure will be the impact of the entire nuclear bomb, almost completely suffered by him!

The dark apostle was gone, and he did not die.

The light apostle is not around, it should be that the dark apostle is taken away and saved, not afraid to escape.

Chapter 1643 - Before the temple

“Are you all right?”

Shen Lang shouted.

The dark apostle should be wounded. If the apostle is long, he may still be able to kill it at any time. Make sure nothing is done. Everyone will leave and discuss countermeasures.

“Nothing.”

The body of the dog ***** shrinks the size of the dog, making it easy to talk to the waves.

Fan Xueyu also came out of the shell and came to the side of Shen Lang.

“how did you do it?”

“What?” Shen Lang is a bit puzzled.

He had detonated the nuclear bomb before, in the dark, they should only know the result, not the specific process.

“You just took the initiative to enter the darkness. We haven’t had time to hold you. The result is coming out very quickly, and this is a huge change. How is it done?”

Fan Xue was so excited that she was very curious now.

Shen Lang is a bit surprised. Before the enlargement move, he fought a lot in the darkness, first fighting the hellish illusion, then fighting against the darkness with light, then confronting the light, and integrating with the darkness...

Although the whole process will not be too long, it is not just coming in and coming out soon.

It's just that this is not the earth, nor is it a city-state. The holy armor cannot correct the time through the network.

So even if there are detailed records, including corrections to the space time of the Bible, I don't know how long the outside world has been.

However, Shen Lang is just surprised, not too concerned, anyway, has passed.

"The two who have just come are the two apostles, dark and bright. They are even higher than the top ten apostles we met before. Their strength is very strong. It should have been a scruples for the Emperor. Layout layout..."

Shen Lang quickly and simply tells them that these are popular for Fan Xueyu, and the latter is to tell the two of them about the situation in the dark.

As for how he broke the enemy, he could not elaborate.

"So amazing! How did you crack it?" Fan Xueyu heard his brief description, and he already had a rough image of dark **** in his mind.

Shen Lang shook his head: "It's useless. I can only tell you this situation, you need to face it yourself."

"Small gas!" Fan Xueyu slightly pouted.

"It's not that I am stingy, but everyone's abilities are different. God can do it, you and I may not be able to do it. My plan, you can't work. Your plan, I don't know."

Shen Lang seriously responded to her: “If you really listened to my details, according to my way, the results will only make you face the time and face the painful consequences.”

“You are right, I just said it, it is not really blame you stingy!”

Fan Xueyu laughed, she is not really awkward, or understand that everyone’s exercises are different. It’s really dangerous to take the time to learn other people’s feet.

“Moreover, you are not my woman, nor my apprentice, I don’t need to be generous to you!”

“...”

“Let’s go! The relatively stronger dark apostle should be seriously injured, and there is a bright apostle.”

Shen Lang immediately pointed to one direction.

Although they did not blame the dog ***** for the sake of Shen Lang, the dog ***** still felt that it was responsible.

Just taking care of myself, I actually took everyone to the encirclement of the enemy. It is a bit unreasonable.

Now its body has shrunk and is on the road with them. I don’t want to make the movement so big, but if I want to stop being surrounded, I still have to be more careful.

Shen Lang and the three people quickly hurry together, Van Gogh is a little laborious, but also keep up with their speed.

So directly to the Temple of Light!

The Temple of Light is the most central place in the valley of the main peak of the Guangming Mountain.

Throughout the structure of the Guangming God, Guangming Mountain and Bai Paradise are the holy places of paradise.

In the 100 paradise, the Temple of Light is the most sacred place in the Holy Land.

This is a valley, but the place where the Temple of Light is located is like a hill in the valley, higher than the surrounding.

Surrounded by a flat square, then a first-order step, from the square to the top.

All believers living in the Divine Park, no matter what level, can not fly, and need to go step by step.

In the case of a fixed sacred anniversary, it is necessary to come to the temple to worship.

It is not a special day now. The steps and open spaces around the temple are empty.

When Shen Lang's three people fell on the open space in front, they did not rush to the past, but came to the front of the main entrance of the temple.

The gate of the temple is closed.

Shen Lang tried to use the gods to sense the situation inside the temple. As expected, nothing could be sensed and it was completely isolated.

"Bright God, we are here!"

On behalf of everyone, Shen Lang shouted to the Temple of Light.

The ***** of Paul made a split, although he was cut off, but there should still be a way to return information to the light god.

There are also Augustus and others, and I don't know if there is any information to pass back.

In addition to them, the top ten apostles have already lost eight in their own territory on just now the two apostles have been hit hard.

These are impossible to alarm the **** of light.

The dog ***** is very calm at this moment.

When it came all the way, it was still sharp, but after the ten apostles, and then to the two apostles, let it not dare to ignore the light.

Fan Xueyu is at this moment... still very excited!

Although she was not familiar with the sects of this light god, she was tens of thousands of miles apart and everyone did not come and go. But now, along with the way, I have already understood the other side's heritage.

At this moment, the big sister who lives in this temple is also the level of Yaochi's head.

In the age of her newborn calf, she is not afraid of the tiger, and she is able to fight against the head of the war, which is very exciting.

Of course, excitement is excited, she will not open her mouth.

And to make up his mind, it is still a voice-assisted attack – try not to reveal Yao Chi's unique education, so as not to be implicated in the division.

At this time, the main entrance of the Temple of Light, slowly opened.

“Shen Lang, you come in alone!”

This voice came out from inside, very simple, it is obvious from the inside, and it is not very big. There is no such mysterious voice as the two previous apostles.

However, when I heard this, the dog ***** and Fan Xueyu could not help but look at Shen Lang.

Let Shen Lang enter alone, they must be not at ease. Don't worry about the waves, and don't want everyone to be separated, so that everyone must bear greater danger.

“You two are not qualified, just stay here!”

Did not wait for Shen Lang to answer, did not wait for the dog ***** to open, the light God has added a sentence.

Not enough... This is a knife!

Chapter 1644 - Go to the door

However, this is obviously a bit of a sloppy knife, and did not make the dog ***** and Fan Xueqi angry!

Because the three of them were named in the scene – qualified, it is Shen Lang.

Even if the time of understanding is not long, but this road is over, Van Gogh is very admired for Shen Lang.

Needless to say, the dog ***** is watching and helping the strength of Shen Lang to improve.

When the strength was still a lot weaker, he dared to call it, he could speak it, and there were many strategies and means.

In general, it has always been convincing for the wisdom of Shen Lang.

Can suppress the behemoth, after destroying so many behemoths, but also suppress the behemoth to leave, not only the friendship with Shen Lang, but also because of the strength of the Shen Lang show.

If there are more than one such person in the human race, the simple behemoths are not so good.

Therefore, if the light **** is now named after the name of Van Gogh, it is categorically dissatisfied.

Just by name, let it go in, it will also be disappointing, it will feel that the **** of light is just that, purely look at the strength of the identification, and do not understand the comprehensive ability of Shen Lang.

Therefore, now that this is low or even a little provocative, they are two, but there is no objection.

Shen Lang did not care about anything. He just did his part to be the representative of everyone. It is now normal to be named.

Although they are not qualified enough, it is a bit unpleasant, but this time they can't take care of that much.

His mind has been calculating quickly!

The **** of light alone let him in, naturally knowing his situation.

For the strength of the three of them, it is certainly well-known, but at this time it is said that the dog **** is not qualified, it is a bit disdainful.

What does that mean?

Explain that in the eyes of the bright god, the dog **** is stronger, but it is just a giant beast. It is still impossible to compare with people. It is not intelligent!

But for the enemy, the more intelligent the enemy is, the more attention it needs, but the way to pay attention should not be eliminated?

Further analysis shows that Guangming God still wants to get something from him!

This thing will not be power, it will not be spiritual, and the gods will not lack this.

Then there is the same!

“You should step back a bit, wait here, I will come.”

Shen Lang has no sound, and is as simple and calm as the light of God.

The dog ***** is staring at him, meaning has been explained through his eyes, indicating that he is careful.

And Fan Xueyu said in a whisper: “If you have something wrong, you will speak out!”

Shen Lang nodded to her. At this time, in front of the bright god, she dared to advance and retreat with them. She dared to let him be in danger. It was very loyal to the time and friendship they knew.

After Shen Lang finished speaking, he strode over to the steps.

The front door of the Temple of Light in front opened, as if a monster had opened his mouth and waited for him to come over and eat food.

When Shen Lang went forward, he still kept polite, and did not leap into the past, just step by step.

But when he walked up the steps, he found that it was a relaxed and casual pace. After taking the first step, it became very heavy!

Although it was felt, Shen Lang did not stop, and it was still a step forward. Both the pace and the look remained as usual.

When he stepped on the steps of one foot and the other step went up to the next step, the pressure felt was multiplied!

Second step, third step...

Shen Lang continued to move forward, but it could not be kept as usual. More than one step added a lot of weight, which slowed him down and could not be as relaxed as before.

The dog ***** and Fan Xueyu have been paying attention to the situation of Shen Lang, and of course he has seen his anomaly.

However, they all squeezed a sweat and secretly encouraged him, but did not help.

Even if it is disqualified, even if you don't know the specific pressure, you can understand that this is a test of the God of Light.

If the test of the steps is not completed, it still needs three together, and it has not yet gone up. If you have not entered the door, you have already lost!

Now Shen Lang is facing the first wave of morale!

If the morale is crushed before entering the door, then the consequences in it need not be said much.

If they participate in the help, the first thing is weak, but it affects Shen Lang.

As the two of them stared at the sinking waves and secretly encouraged him, Shen Lang continued to take a few steps.

Going up here is the Temple of Light, the most sacred place here, and of course all the steps are also designed with a sense of sacredness.

Therefore, each step of the step is relatively high, and the number of steps is also quite large.

The number of steps that Shen Lang is now walking, but a fraction of it, but the pressure he has suffered has already increased to several times the first step!

Both the dog **** and the Fan Xueyu can understand what this is all about. Shen Lang himself is of course more clear, so he did not stop, once stopped, it will affect morale.

The speed of his every step is a little slower, but overall, he still keeps going up without stopping. When Shen Lang went halfway, the forehead has started to sweat!

It is very difficult to let him sweat with the strength of Shen Lang.

Before fighting with the top ten apostles, or fighting with two apostles, including the elders of Tula and the hurricane beasts, they did not sweat to the extent of the waves.

Those battles are different. Regardless of his strength, regardless of the strength of the enemy, he can also win through experience, magic, tactics and other aspects.

It's not the same now, it's a coincidence, it's the suppression of the light **** on him!

The God of Light did not come out personally, nor did he have any special attack methods, and even did not appear to be shot.

But in this way, Shen Lang can feel tremendous pressure every time he goes up a step!

This shows that the light **** is not simply exerting pressure on this piece, which is much easier. Now this is a different pressure for each layer, or it will increase as Shen Lang moves forward.

Shen Lang can walk to the middle half of the present, relying on strong spiritual strength.

In terms of mental strength, he is far better than the same level of people, and more recently, there is also the spiritual power to absorb the apostles.

These are all very useful in battles and so on. But now under the pressure of the God of Light, it is all played out, and it is almost impossible to resist!

Shen Lang continues to move forward and has now become a slow pace.

However, he still has no pause, even if it is slow, in terms of posture, it is still tough.

After taking two steps up, Shen Lang's body shook, except for the sweat, it was a blood that could not be resisted!

Chapter 1645 - Stiff

Seeing that the waves spurted out of the blood, the dog ***** and the Fan Xueyu were all in a tight heart.

The two of them have been staring at the waves, watching him getting heavier and heavier, almost empathy, can guess how to get stressed.

But now that the whole person has been sweating and vomiting blood, it is different.

This shows that Shen Lang is already injured!

And this is halfway through. If you continue, don't you want to kneel before the temple?

If this light ***** does not need direct shots, nor does it need to show up, it is only by pressure that it can reach this level. Then the three of them add up and there is no chance of winning...

At this moment they all squeezed a cold sweat, but still can't help.

Now the sinking waves are still supporting. This is the struggle of willpower. If they take the shot, it may directly make the sinking waves impossible.

When Shen Lang spewed out a blood, he felt a sneer.

This came from the temple, with a hint of malicious, cheerful sneer.

This should not be the sneer of the light god, the light ***** is not so, that is, the dark apostle or the bright apostle is long.

They suffered a setback and now they are eager to see the fiasco of Shen Lang.

However, for these, Shen Lang did not care.

What he is fighting now is the ***** of light!

Regardless of whether the strength can confront the two apostles, but now the level of confrontation has surpassed them.

The goal is to light God, and everything can only be fixed on the light god. If the emotions of the two apostles can affect him, then it will be lower than a grade and will not be qualified to face the light god.

Therefore, at this moment, they obviously heard their sneer and ridicule, and did not stimulate his anger.

At this time, anger has a certain strength, which can help his excitement, but it is not a king, but it will affect his rhythm.

Shen Lang's body is very heavy, as if he were carrying a mountain.

And now, moving on, it is like picking up the mountain, and going further, it's all trembled, and it's possible to roll over at any time.

but!

He still stunned and took another step!

This step took almost half a minute!

His feet are still not stopped, but the whole body is fighting against tremendous pressure, making it a little slow to lift a little.

It's not just lifting up. In the process of stepping down, it's not going to go down the trend. It's the same as slowly moving down.

This step is stepping on the steps, but it is still very light. Just like every step before, there is no sound.

But in the eyes of the dog **** and Fan Xueyu who looked at it, it seems to be a heavy blow from the mountains!

One more step!

Shen Lang did not spurt blood again!

But they did not feel relaxed, because the more and more pressure is getting more and more important. If Shen Lang vomits blood again, even if it is very miserable, it is normal.

There is no vomiting blood now, but it may be squatting. When it is hard to top, when it breaks out, it may not be vomiting blood, but it will fall down directly!

Like the swell of the mountains, after the footsteps, the other foot began to lift again.

The speed of this step has slowed down, and it took more than a minute to step on the steps.

With a bang, a blood spurted out and landed on the front steps.

The dog **** and Fan Xueyu sighed secretly. This time, the situation is still normal. Now it is better to vomit blood than to support it.

However, just after the sinking of the waves, there was no vomiting blood, and now it vomits blood, which shows that the situation may be more serious than they think!

This is also the embodiment of his eagerness to stop!

The swell of this time is also a little floating feeling, as if the body is already in the air, and there is not so much pressure.

This is not a good signal, but a reaction to the ultimate collapse.

However, Shen Lang did not control the physical condition. In addition to continuing to lift his feet, his attention was above the blood in front.

This is his own blood, and there is nothing unusual.

The point of concern is above the blood.

The blood is spilled on the steps.

He has just come along the way, the pressure is getting bigger and bigger, his feet are lifted, his body is moving, his feet are falling... There is tremendous resistance.

But these blood is directly sprayed on the steps!

Including his sweat, it is also able to spill onto the steps.

This further illustrates a problem. The weight of the light above God on the steps does not cover the whole environment, but only on his own body!

This is really to let him carry an invisible mountain, and continue to overweight as it goes forward. As long as he left his body, such as blood and sweat, naturally it has nothing to do with the weight of his body.

The tangible mountains can also be broken and thrown away.

But the invisible weight is directly exerted on him. It can't be thrown away if it is not stronger than the light spirit of the light god.

How can I get out of trouble?

Shen Lang thought about this problem, while continuing to move forward, the third step from the middle to the top, it took a few minutes to fall, this time did not vomit blood.

The dog **** and the Fan Xueyu have exchanged their eyes, and both are ready to meet the waves. The next step is not to attack, but to leave here!

The action of the mountaineering gate has fully demonstrated the strength of the **** of light.

Although the dog **** is stronger than the sinking wave, it also has self-knowledge.

Shen Lang continued to go up, the fourth step in the middle, the time spent more, he faintly felt the bones are squeaky, from the muscles to the internal organs, to each capillary, as if to fight The degree of distortion.

He is very clear that if there is no better countermeasure, then he will fall further in this step, and he may have to fall down and fall down!

And it may not be able to go up a step, or fight for another step, that is, the direct smashing of the broken bones.

The voice of sneer is even worse, and even two voices can be heard. It is the apostle of light and darkness.

Shen Lang does not need to listen, do not need to feel, but also know that the dog **** and Fan Xueyu should be very nervous at this time.

He can't!

He was represented as a representative. He was embarrassed and severely hit the morale and confidence of both of them. Even the dog **** estimated that he could not hold it.

He must go on!

As long as he can get down, the dog ***** can go on.

More importantly, all the way to a few worlds, 200,000 miles of rushing search, several battles, is not to face the glare of the gods?

Now, even if the door of other people's temples has not yet entered, it will be crushed and stumbled. Isn't it too regrettable?

An ant wading through the mountains to fight elephants?

Shen Lang does not want this feeling!

He is a man of the two worlds, this world is rebuilt, it is more than everyone's speed, and spanned to multiple worlds. This is the pride of the sky, not fighting ants!

Even if the ***** of light is strong, he must cross the door of the temple and see for himself!

Chapter 1646 - Grasp the mystery

Shen Lang is not angry, only unwilling and war.

But he also maintains a high degree of calm!

Even if he is about to hold on to the end, his body still maintains a constant non-stop struggle.

It's just that the speed is getting slower and slower now, and he insists on taking another step!

This step, the time spent, is already ten minutes.

Although there is no stagnation, it seems to be a feeling of stagnation because it is too slow.

Dog ***** and Fan Xueyu, you can see that Shen Lang's face and hands have thin bloodshots!

Fan Xueyu has been a little bit ready to help.

Just vomiting blood can be said to be unbearable catharsis, but now even the skin burst, the next step is not physical fragmentation?

In addition to the sneer of the two apostles, light and dark, the light ***** is completely silent, as if he had nothing to do with him, as if he had forgotten this.

From the beginning of the step by step, the time to the next step is getting longer and longer, and he has no urging.

And when it comes to three-quarters of the time, the step of Shen Lang has reached an hour!

His whole person has also become very horrible, as if he would be disintegrated at any time.

The dog ***** and the Fan Xueyu, who have been paying attention to him from the upper steps, are also hanging a heart all the way, especially those steps from half to three quarters.

This has been adding up for a few hours.

Looking at the remaining steps behind, follow this speed, even if Shen Lang can stick to it, it is estimated that it will take a day or two.

From the beginning of vomiting blood, Shen Lang seems to be unable to hold down at any time, but still can go to the present, everyone does not know how far he can go.

This should be the limit of breaking the willpower!

The dog ***** saw the back and became a lot more quiet.

This is a test, but also a crisis of life and death, but if you can smash it, it is also a great opportunity!

Just like when it directly captured the dragon scorpion of Daxian Peak, it was completely infused to Shen Lang. In more than a month, Shen Lang was completely absorbed, and broke through the peak of Daxian.

It is also a process full of danger and full of pain. It is a huge gain in the past, and it will be blasted if it does not pass.

The current situation, it looks all the way, is no longer just a simple worry.

When Shen Lang was halfway through, he began to vomit blood. The situation was getting worse and worse, and the time was getting longer, but he still insisted on it.

This is a kind of signal once!

If you can smash the past, it is very likely that it will be a leap forward!

Like the help of the last dog god, although it is dangerous, in fact, it has been looked after, there will still be a guarantee, it will not really let Shen Lang die.

If it wants to help the waves again, it will certainly be the case.

Only the enemy will really push him to death, and he will be forced to the limit!

The limit must be broken to be promoted.

For example, an ordinary person, without running experience, his limit may be one kilometer, two kilometers, running a marathon is really going to kill him.

Can run for four or five kilometers, the limit will be ten kilometers, after breaking through, it can be more than ten kilometers, half marathon. It can easily reach the limits of the marathon with a dozen kilometers and a half marathon.

But this is not the limit of humanity, there is a 100-kilometer super marathon, and there are two hundred kilometers of plateau cross-country...

Break the limit and challenge the higher and stronger realm!

Shen Lang will be crushed to death, or reborn in the fire, it depends on whether he can get past.

Fan Xueyu has not realized this, but she is not in a hurry now.

If she is involved, it is estimated that it will not help too much, and the key is to have the Emperor.

Looking at the appearance of the Emperor's behemoth, she was not familiar with it.

Because Shen Lang has become slower and slower to complete each step, both of them are ready for a protracted war. The only thing is to worry if he can hold it.

The Shenlang at this time has actually surpassed the limit!

Just like a person who can run for ten kilometers, the impact of a half horse may be his limit, but this limit is actually not the time to complete twenty-one kilometers!

It may be at the time of fifteen kilometers and seventeen kilometers. It is the most painful time. Once it is passed, it will be relatively numb, and it will end up with perseverance.

Now he can stick to this moment, and so is it.

But what is different is that Shen Lang is not just for the past.

The speed behind it is getting slower and slower, and even the last step reaches an hour. In addition to the increasing pressure, it is also intentional!

When the blood that spit out was seen falling on the steps as usual, Shen Lang had enlightenment. The weight of the invisible mountain is only on his own body, not the entire step environment.

What he wants to crack is not the field of this environment, but the individual's body.

Of course, Guangming God can suppress him so easily, indicating that everyone's strength is still disparity, and can extend the scope to the entire level at any time, around the entire temple, and even greater scope.

Therefore, this is the only opportunity left for Shen Lang!

He must get out of it before the light ***** adjusts control!

One step is slower than one step, that is, after surpassing the limit, in the situation that the body is about to fall apart, it continues to bitter, and at the same time, it senses the deduction and temptation of various possibilities around www.mtlnovel.com.

It took an hour for this step, he almost couldn't hold it, but in the process, he finally felt the opportunity!

After all, the ***** of light is the ***** of light.

Random repression, it will not give the opportunity to sink the waves. The biggest direction of his deduction and temptation is to combine himself and the suppression!

If you can integrate with this invisible mountain that suppresses him, then you don't need to bear the pressure, you can go unimpeded.

There was no such opportunity at all, and he completely suppressed him.

Until now, this step has landed, almost a state of sudden death, and he finally seized an opportunity!

This opportunity, when he wants to take another step, the light ***** has raised a level of suppression!

That pair of light gods is a meditation. The previous step by step, Shen Lang is also very clear, but can not grasp the gap between the microseconds.

This time, he successfully captured it!

In that moment, prepare for a wave of two hours, successfully let yourself merge with it!

In an instant, he has already leapt over the remaining steps and directly joined the door to the Temple of Light!

This change is very surprising for everyone.

Fan Xueyu is very nervous, worried that Shen Lang is going to die here.

The dog ***** squeezed a sweat for him, hoping that he could break into a butterfly and complete a leap.

The light and dark apostles inside, who have been gloating for a few hours, watched him tortured.

Bright God may not be too concerned about it.

But now, when you see that the waves are dying, you can take a half-step at most, but it suddenly erupts, and you will leap over all the remaining steps!

Chapter 1647 - Idol

When Shen Langzhi went up the stairs, step by step, this is out of courtesy.

But from the first step, he has encountered strong pressure, there is no way to do it later, it is not easy to take a step, and it is impossible to fly directly to the past.

Now that he seized the opportunity, he jumped directly and crossed all the remaining steps. Because there is no chance for the second time!

If you can be strong enough to counter the light gods and find a hard-fought counterattack, you can of course walk through the final steps step by step, and calmly enter the hall.

But now it just seizes the opportunity between microseconds. Once it gives the light of God, it will inevitably trap him again.

So it is impossible to slowly force it, you must hurry in.

Shen Lang waited for a few hours, even if his body was about to collapse, he still played a very fast speed, and the figure rushed in.

Everything, as he expected, just after entering the gate of the temple, he could not be integrated with the invisible power, and he could be separated as soon as he could be merged, or else he would still fall at the door.

If it is landing at the door, he estimates that he can't take the final step...

Dog ***** and Fan Xueyu are both spirited!

Although they don't understand how Shen Lang did it, the important thing is that he did it!

At least they don't need to worry that the sinking waves will be crushed and broken on this step.

However, it was only a little relieved, and now he has entered inside, and it is a more serious situation to face the light god.

They can't perceive the situation in the temple, and they can't help if they want to help Shen Lang.

They themselves understand very well that they must first protect themselves, as long as they are safe, they are adding chips to Shen Lang.

If they are caught outside, or injured, the situation in the dark waves will be even worse!

When they were on high alert, the sinking waves that fell into the temple were almost falling on the ground!

In fact, the light **** is not too much. The suppression of him is only on the upper steps. When he comes in, even if he is surprised, he does not continue to exert pressure.

However, Shen Lang's confrontation with constant weighting has been persisting for several hours. When the final success came in, it was as if the marathon player had completed the final sprint and could not support it.

However, at the moment when Shen Lang was about to fall to the ground, he slowly rose upright and then kept a penny state!

This is no longer the support of his personal perseverance. His body is almost on the verge of falling apart, and it is difficult to support the standing up. What is needed is rest and treatment.

Just re-erecting immediately before falling to the ground is his command to the Holy Grail.

Now it is equal to the external force exerted by the Holy Grail, and he is forced to stand up again.

This is almost a small problem that is not worth mentioning for the holy armor. The close fit is to let it control every force. It is just right for him, and will not give him the current body. .

Shen Lang got up before falling, and also made himself strong and last spirit, looking to the front.

When it was outside, it was not possible to sense the inside of the temple.

Now I am looking at it, but it is also very common.

He came in from the main entrance of the main hall, but it was just at the door, and went deeper into it, and there was a long section.

The situation I see now is not so special. In the past, there were seats in the entire hall, which was used for the gathering of the public. In the middle of the inside, there is a statue of high standing.

Shen Lang already has the memory of Augustus and the apostles. Naturally, there is also the memory of the Temple of Light. Just now, it is not possible to sense the specific. The scene that is now seen is merged with memory.

That statue is the statue of the ***** of light.

But to count it, this is the statue of “Bright God”, which is the appearance of the “God” shaped by the packaging during the creation of the teaching, or it may be the way of teaching the master.

And now there are generations of bright gods that are real, and the statues do not change with the contemporary light god.

As for what the current Bright God is like, the apostles are very vague!

In the memory of the fusion before, the light ***** is like this, and now the comparison confirms that it is the statue in the temple.

However, it is very strange that in their memory, this is normal again, as if it is a bright god, it is this “light god.”

Perhaps every generation of bright gods will be mystified, and no longer will be easy to show up, and the assembly will not show up. When you want to show the metaphor, it also appears in the image of this god.

So over time, the people of the light gods will overlap the true light ***** with this god.

Shen Lang can imagine that the true light ***** will certainly not come out to see him personally, even in this temple, it is in his retreat room.

Already here, he did not hesitate, and he slowly walked forward to the front.

It seems that it is the same as when he first started on the stairs But this is slowly moving forward, but it is somewhat stiff.

Because he can't even walk and walk now, it is still the step taken by the sacred armor.

I don't know if I didn't see it clearly, or if there is a change now, there are four people in front of the statue.

One of them is very familiar. It is the Gabriel apostle who has successfully escaped twice, and the other is the last apostle who left.

There are two more, the cover is in a large robe with a mask on his face.

The masks of the two of them are not the appearance of a face, but nothing, no five senses.

The white masker is also wearing a white robe, and the black mask is a black robe.

Augustus has no image of these two in their memory, but the apostolic memory that was absorbed before clearly knows that the two black and white impermanences are the two apostles of darkness and light!

It seems that when the painful struggles of Shen Lang have just been seen, the sneer of gloating may not be the two apostles, but Gabriel and the two of them.

Now in the solemn and solemn temple, there is only a slight footstep of Shen Lang slowly moving forward.

The four people below the statue, including two without eyes and no facial mask, looked at him as he approached and did not say anything.

Step by step, Shen Lang went to a place more than ten meters away from the statue. He directly ignored the four apostles and apostles in front, but looked up at the statue slightly.

The eyes of the gods!

This statue is not as simple as life, and it seems as if a living giant is standing.

Shen Lang is now staring at his eyes, which seems to be a channel for communication.

Chapter 1648 - Talk to God

After the eyes of Shen Lang and the eyes of the gods look at each other, there is a time or two, and the statue seems to be alive!

Inside the eyes of the gods, it seems that there is an indescribable look that directly attracts the eyes of Shen Lang.

Then he felt his consciousness and was directly drawn away from the body. With the contact of his eyes, he came to another space.

“You are very bold.”

This is not the ear to hear, but the sound that is directly felt.

There is nothing around, as if it is in a void, and the image of the front has become enormous, and the light is the eye, it makes people feel nowhere.

But it is still the appearance of the statue, and there is no new image of the ***** of light.

“You are the ***** of light?”

Shen Lang returned a sentence. He felt a little touched. He couldn't feel the body and couldn't feel the holy armor. It should have been really pulled away.

The advantage is that he is now in the peak state, and there is no physical pain just dying.

“Know that I am God, you dare to challenge God, so be bold.”

“you are God?”

Shen Lang smiled.

God is a lot of definitions.

In some religions, God is the only Creator and the master of all the world.

In some religions or folk beliefs, God is a broad and broad-based, and the saints of the spirits can be attributed to the gods.

Objectively speaking, God is relative.

For an ordinary person, it seems that a person with a special function is a god-like existence. Like on the earth, the realm of the great gods that cultivated to the top of the mountain can be a god, flying in the sky, flying sand, and raining.

Does the ***** of light, the self-proclaimed god, is based on the standard of the mainland of the island, or is it based on the earth?

“Of course I am God, you can come to me, it is my permission. But it is just a strong ant, nothing more!”

When the light ***** said this, it was not condescending, and there was no arrogance, it was a very plain tone.

State the truth of the truth.

Shen Lang could not help but be silent.

Emotionally speaking, it should be uncomfortable to hear such a statement.

But from a rational point of view, there is actually nothing wrong with it!

For humans on Earth, the ***** of light or other religions is the same difference between ants and humans.

If you have no value and no influence, you will not pay attention to it.

If there is value, you can raise and cultivate. If there is a threat, you can directly destroy a batch, or even completely extinct!

Just a human child, boring teasing in the afternoon, for the ants is the fiddling of fate; if drowning, for an ant group, is a historic catastrophe.

And once insecticides and ants, for ants, may be a civilized replacement...

The power of Guangming God is unfathomable. Facing the human beings of the earth, it is really like an ant. It is said that Shenlang is just a strong ant. It is a bit exaggerated, but it is not arrogant.

Because Shen Lang can understand it, the other party has no real shot, just a test of repression!

If you really make a full blow, there will be no chance for him to fight back, let alone a few hours of confrontation.

Shen Lang himself has once reached the realm of great deity. This life also has a great realm of high cold autumn, dog god, etc., but he has no contact with the higher realm.

Now he can only confirm that this bright ***** is stronger than the dog god, and to what extent it is powerful, it is not known!

This result reminded him of another possibility.

The Light God exists and is so powerful. Does the other large religions on earth, the gods of worship that have a long history, also exist?

In this world, or in other worlds?

Although he is silent now, the thoughts brought about by this reflect a great amount of information.

Therefore, at this moment, he is not discouraged because of the analogy of “strong ants and humans”, but because he knows a broader space, he is full of fighting spirit!

In the last life, he has cultivated to the peak of the earth, and will come forward to meet the robbery.

But what happens after the robbery is completely unknown.

This world has already experienced it, and it seems that space robbery is a space rule. When cultivated to the intensity that cannot be accommodated in the earth's space, it will be destroyed by the way of robbing!

If it is strong enough to be able to survive the catastrophe, it is equal to the resistance to the elimination of space rules. In that process, you can reach a higher space by passing through temporary gaps in space and through weaker space barriers.

Because of the space cracks in the Pacific Ocean, he has come here, and learned that many of the great powers of the ancient times have come to this world.

This is basically confirmed, the mainland of the island, perhaps the world closest to the Earth space!

Perhaps in the objective existence, there are two spaces that overlap.

For example, Gao Hanqiu and others came to this “paradise” and “Xianjie”, and they are not willing to go back to the lower level of the earth, but continue to practice here. Shenlang also knows clearly that at least cultivated here. There is no problem in the realm of the Great God. It’s just that he is still young, he has more time, and his realm is still far away.

But what kind of existence is there for the realm of the Great God, what is the possibility, still do not know.

Nowadays, the world is getting higher and higher, and it is more and more concerned about this issue.

Nowadays, I met the **** of light who claimed to be a god. Although I was overlooked like an ant, I also let him see hope. At least he can cultivate to the extent of the **** of light!

The light **** did not expect that his words actually made Shen Lang think so much.

The silence of Shen Lang is silent. In his opinion, it is just the sadness of self-esteem.

He regards the strong ants like Shen Lang, and of course he does not care about the ant’s self-esteem.

“Do you know why I haven’t killed you yet?”

“why?”

Shen Lang asked a question.

He did indeed work with the gods of light, and the world was forced to kill himself by the gods of the light, and then Augustus and others, killing the door, and killing the eight apostles such as Melon.

If the other party does not have the strength, it can only be recognized. Since it has the strength, it does not kill the revenge.

Shen Lang can feel it, even if the light ***** does not personally shoot, the two apostles, light and dark, are still sure to hold them.

It used to be a nuclear-level attack, and it was a sneak attack from the other side.

Even so, the Dark Apostle is still alive!

The strength of the Light God is completely crushed. Since he has been alarmed and understands the situation, perhaps Gabriel has added their vinegar, it should be to quickly kill them three.

Chapter 1649 - Earth value

Shen Lang is just curious, but not too surprised.

Because the other party just gave him a test, it proved that he would not kill him. Or do you still need to wait for him to come up slowly?

Even if you want to torture, it takes a few steps to go down one step and it is enough.

And this is also the bottom of Shen Lang!

It is guessed that the other party will not want his life, he can hardly bite his teeth hard, on the one hand to see if it can break through the high pressure, on the other hand, also want to see what the light ***** is.

Otherwise, if you know the strength of the enemy, you should have been able to withstand the fall and fall.

Everyone has no friendship, and there is only one possibility of value.

No friendship, but also a big enemy, but still not pursued, it shows that the value is great!

This is the place where Shen Lang is curious.

In the end, where is the value, can it be so large that the light ***** does not care about the annihilation of the eight apostles?

“Because you are a human being.”

“...”

Shen Lang is speechless.

The saying of the earth is because Paul, the Pope’s memory, or the purely perceptual self-corresponding translation is no longer important.

Silently speechless, just because of the Earth people?

Earth people in his eyes, isn’t it an ant?

Isn’t he a strong ant?

Is this bright ***** wanting to keep an ant to play?

“You should understand that leaving you is because you have value. And this value comes from the population of seven or eight billion people on Earth.”

All the voices of the Light God are very calm, there is no high above, and there is no pretentious self-deprecation.

As soon as he said this, Shen Lang immediately woke up.

That’s right, the earth is!

This is actually the value of all human beings on earth!

He is a man of earth, strong, and in the eyes of the ***** of light, it is not worth a glimpse.
But the eight billion people of the earth is a huge value!

The public exhibition power of the previous period made Shen Lang become the first public comprehension, super power, and a super hero of public idol, and gained the strength of billions or even billions of faith.

Even if it is very weak, so massive gathering, it is the energy of vastness.

Whether it is back to the country, whether it is to return to the sea, or to the world of giant beasts, to the mainland of the island, they can all accept this massive belief.

What he enjoys now, the time is too short, it is only in days, if it is a year, ten years, or even a thousand years!

That is really an incredible huge resource!

It is because of this huge resource that his value is reflected, so that Guangming God did not move him for the time being.

Originally, there was no panic or fear in Shen Lang. Now that I know this, there is no more calm. Instead, on this information, the analysis was quickly carried out.

The light gods on earth, although the audience is not small, can not be trusted by seven or eight billion, the distance is still far away.

Guangming God refers to the population of seven or eight billion people at the moment, and his goal should be all humans on earth!

That would allow Shen Lang to work, nothing more than asking him to assist the Pope of Constantine V to accomplish this goal.

The space law of the earth world determines that the ***** of light cannot come in person, but if the gods are separated, they may not be able to make a wave.

So he needs to rely on the deep waves, but it will inevitably control the waves!

“I do not really understand.”

Shen Lang has already thought very clearly, but it is a simple response.

“You don’t need to understand, you only need to execute.”

Guangming God did not know whether he had seen through him, or did he feel that he did not need much explanation. After finishing this sentence, he immediately launched his purpose statement.

“I want you to be my spokesperson in the earth world, to be the messenger of God. To help the Holy See of the Light God, to complete the development of the gods. I need all the believers!”

Shen Lang smiled lightly: “Although there are seven or eight billion people on the planet, there are countless beliefs. Even large religions have many. You want to let the light gods and the big unity of the earth, this is to do. If it is not, it will lead to war.”

“If they can do it now, they don’t need you anymore. And... I used to go to Paul, and with the help of Augustus, Joseph, etc., you can accomplish this goal, you destroyed my plan.”

Shen Lang shook his head: “No, there are two problems. First of all, you have to come to me for trouble first, otherwise I don’t even know you are going; secondly, this is just your plan, when you want to unite the world. I don’t shoot, there are other things to stop.”

“You don’t need to argue with me, I want to kill you now, it’s easy! It’s easy to kill two friends outside.”

The light of the gods is very dull, killing a super **** of the **** level, even said that killing a chicken is as simple as that!

There is no doubt that he has a strong foundation to be so understated.

From the suppression on the steps just now, it can be reflected, and the light ***** does not bluff.

Whether it is his personal strength, or because of the addition of certain beliefs in this temple of light, in general everyone is on his site, and he can really do this For the situation, Shen Lang is very clear, and does not need to hesitate, directly sighed.

“It’s useless. I don’t know anything about your development of religion. Besides, I am a god-in-chief, and the Pope will not be convinced first. I think you will arrange your apostles to go!”

“you sure?”

The tone of the light ***** seems to be a bit of a taste.

“I can let Gabriel go, just take a little time, you can achieve this effect. But you three, you must stay here, will not give you the opportunity to go back to destruction. Will not kill you, and It is an opportunity to atone for you.”

This is easy and simple, but the threat is very strong.

Help them conquer the people of the earth’s eight billion people, or else there is no value.

There is no value, of course, it will be settled. To kill them today is the hatred of more than a dozen of the mainstays. It’s definitely too cheap to kill them directly. It will be a few years and decades of torture!

The practice of Yuxianmen is still vivid...

This point, Shen Lang is also very clear, just just try it.

“I don’t understand a bit. There are many believers in Guangmingism. Why do you need all eight billion? What do you want so many believers?”

“I am God, I am the God of Light, I will give them light and let them be happy.”

“...”

Shen Lang is speechless. Do you believe this yourself?

But what he said is a lie!

He knew that at all, when God asked him to find him, he realized it. I just asked this question, but I just want to show that he doesn't know!

The answer of Guangming God is also an official set of words, and it is impossible to hear whether he knows that he knows the power of faith.

Chapter 1650 - Lure

The meaning of the **** of light is to let Shen Lang be his shackles, to replace him by Shen Lang, to suppress the strong men of all religions on the earth, to sweep away all obstacles, and to help the light gods to unite the world.

Under the premise of determining that he can't resist, Shen Lang thinks whether the other party knows that he can absorb the power of faith. If he doesn't know, then he will do this very tricky thing!

At that time, he is the representative of the God of Light, saying that he must not be able to intercept the power of all faith in the Light God on Earth!

Even if you can't do everything, you can cut off some of it for your own use, and that's a natural resource.

He had thought about creating education before, but he had already missed the era of obscurity. Under the development of scientific and technological civilization, the new sects were hard to get up, except for the inherently large religion.

And even if it is an inherently large number of religions, it is also the development of more than a thousand years, and today has the volume.

He can't spend so much time and energy doing these things, the price is too low.

But now it is different. If Guangming God makes him the messenger of God, even if he can't directly suppress the Pope, it can affect and balance. Although he has to help the other side, it is equivalent to sending a huge religion of 100 million believers out of thin air. .

"I don't believe you for this reason."

"What do you think?"

The light of the light language is dull, but it is also sandwiched between cockroaches, and does not reveal anything, but let yourself respond.

"I don't know what your plot is, but it must be related to the population. The more people, the more you will get. How do you deal with the seven or eight billion people!"

When Shen Lang said this, let him be righteous and stern, he really spoke to the eight billion people of the earth and questioned this god.

"I assure you that I will not kill a person on earth as a ***** of light. I will not ask for the life of anyone, and even more will ask for your wealth of the earth. I want believers!"

"You have not come to my realm, and you have no sect believers. You can't understand it. Simply put, for us, the more believers, the greater the sense of accomplishment, the greater the meaning of existence."

"Let the light of God spread to all the worlds that are behind and behind, that is our ultimate goal, the pursuit, and the way to break through."

As a light god, the interpretation of such a long story is really hard to come by.

However, what he said was true and false.

Will not indiscriminately kill the people of the earth, will not ask for the wealth of the earth, only the believers, these are the truth.

Indiscriminate killing of the Earth is a waste of resources, except for control. And the wealth of the earth, whether it is trillions of trillions, has no meaning for them.

Believers are what they need. The larger the base of the believer, the more pious people who can generate the power of faith.

As for the sense of accomplishment, the meaning of existence, and the pursuit of value, it is the height of the shackles.

Shen Lang seems to have listened to his words and responded earnestly.

“I am a selfish person, so I don’t realize this kind of mind. But I am a human being. Whether it is a bright ***** or some other great religion, there are some sage believers who travel across the ocean for mission. Not far from the rest of the world.”

“They are really selfless, just to spread the doctrine and let their religious brilliance shine to a wider place.”

“But their missionary process is also a process of spreading civilization and driving the process of the integration of civilizations in different regions. The development of the earth has their contribution. Of course, there are also a few religions that are expanded through the killing war.”

What Shen Lang said is the fact, it is the history of the earth.

There are many missionaries who are selflessly spreading religion and different regional civilizations. There are also some that follow the invasion of the army and the invasion of Huairou’s civilization.

But from the civilization process of the entire planet, the influence of religious communication is even more important than the expansion of political power.

The true and false of the light God said, Shen Lang responded with true and false.

Basically, it is all truth, just concealing his true intentions.

“It is a person who is selfish, but selfishness is also relative. For example, I will care about my intentions for the eight billion people on Earth. This idea is selfless. You are worried about countless irrelevant people. It is really selfish. Will surrender to me early.”

Shen Lang is undecided, he just said that, it is not really selfish.

“So, I will not look at the wrong person. You have a broad mind and are qualified for the role of God.”

“but.....”

“I respect countless beliefs, but don’t you think that too much belief is a kind of concern for the development of earth civilization? If everyone believes in a religion, there will not be so many ideological problems. Develop the earth together.”

“...” Shen Lang feels that the eloquence of this bright God is really good.

However, it allows Guangming God to use his eloquence to convince him, not to persecute, but also to show his attention to him and his value.

After all, this is to develop a bright god, what I want is to make Shen Lang feel convinced, in order to better cooperate.

“I can give you a choice, or you will stay and sin for redemption; or you will be the messenger of God to go back to Earth, the previous hatred is written off, and now you can immediately heal your injury, and as long as you can finish half of it Let me see your sincerity, I can help you to enhance a big realm and let you see my sincerity!”

The words of the bright ***** are a bit hard and soft.

And the lure given is also very sincere.

A hatred that kills the eight apostles and the fate of Augustus and others is equal to saving a life. Since he said it, the light gods must obey.

Treating a good injury, this is nothing, Shen Lang can have a long time to heal.

But the latter sentence is a big temptation!

As long as you can complete half of it, it will help to enhance a big realm!

Not to mention the peak of Daxian, many people have often had a chance to break through to a higher realm after they have survived.

Why do you want to go to the sea of no-failure adventures when you are famous on earth, with status, resources, and resources?

It is because this life has no hope of breaking through, I hope to fight, in case there is better development.

Shen Lang is not so, he is sure that he can re-cultivate to the realm of the gods step by step.

This road has come, and the speed has far exceeded his expectations. It is only a matter of time to cultivate the resources of the gods with the resources he now has.

But if Guangming God can directly help him to ascend, just as the last time the dog **** helped him break through the peak of Daxian, it will undoubtedly speed up the speed, and it can be more secure, perhaps without using his own resources.

However, Shen Lang does not believe that it will be so simple.

“How do you control me?”

Once you leave here, the sky is high and the bird flies. The light **** will definitely not let him leave. Everyone has no trust and friendship. Then it is a check and balance method!
