Chapter 169 - Before and after

“Let me practice it!”

Yue Zhennan whispered to Shen Lang and threw the Chu River on the ground.

Of course, there will be arrangements for the Yue family to practice for him, but there is still a difference between sparring and actual combat. And before he was mainly focused on practicing, he was promoted to Guiyuan last night, and the injury was not completely good. Today, he is busy with the Super Heroes, and of course he has no time to practice.

Of course, he is also afraid that Shen Lang will be angry with his shots and directly kill them all. So many people are not good at even the Yue family. In other words, he disguised them in disguise.

Shen Lang did not say anything, people have arrived here, not bad for a while.

However, he did not pay attention to and pointed to Yue Zhennan, but the gods extended to go out and examine this building layer by layer.

Out of fear, he first swept the speed very quickly. If he couldn't find it, he would search again carefully. If there is no result, he will wake up the Chu River directly or call Bai Shenghua.

“Yue Gongzi, we didn't want to offend you, you don't want us to do it!” The security captain signaled those people to continue to attack Shenlang. If you take one, you can go to Yueyue Town.

Although Yue Zhennan is now a self-cultivator, the whole person has not adapted, and he lacks combat experience. In addition, there is no heart of killing, and four people have dragged him.

“Don't force me to squat!”

“Yue Gongzi, don't force me.” At this time a voice rang from the inside, and a man came slowly, with two bodyguards beside him.

“Seven Lord!” The security captain immediately said a word, and then gestured to the stopped security guards: “Go! Let’s catch the person and say it!”

He took out so many hands, and although he stopped the person, he did not catch one, and he couldn’t say it. Even if Yue Zhennan has some scruples, the next one can start.

Seeing Bai Shenghua, Yue Zhennan also stopped the action. This local legendary amnesty is still quite a bit of energy. Even if the Yue family is not afraid of him, it does not mean that he can be disrespectful. It is a person who can talk to his father Yue Gang.

“White Seven Lord! We have no enmity, but in the end are friends of Pingxi. I advise you not to mix this matter...” Yue Zhennan arched his hand and said politely to Bai Shenghua.

“Not yet!” The security captain immediately feared being battered by Bai Shenghua and urged him.

Shen Lang regained his knowledge and said coldly: “You still haven’t changed your identity! You are now a self-cultivator, and you are so polite to them?”

When this statement came out, they were all shocked. They were originally trying to besiege the sinking waves. I heard that Yue Zhennan was a self-cultivator, and he did not dare to move. For their level, the high-level extraordinary warrior is a super-respecting super-master, and the self-cultivator is a legendary existence, not something they can reach.

After the security captain was shocked, he said with boldness: “Who are you swearing! Where are so many comprehensions!”

The security guards here are actually the beatings of Bai Shenghua. They were all very horizontal. When I heard the boss, it was also a return. Is Yue Zhennan not a son? How could it suddenly become a self-cultivator, this must be a scam!

“Snapped–!”

A loud ear rang.

The security captain couldn’t help but scream: “Fuck! Who can dare to beat Lao Tzu!”

This slap in the face, he did not see clearly that it was hit by Shen Lang, or Yue Zhennan hit, let him scream, but also a bit guilty. I am uneasy in my heart. Is it true that Yue Zhennan is already a self-cultivator?

The words just came out, and the back of the head stunned, and directly hit him to rush. He only reacted, and the people behind him beat him.

Resist the anger and look back, just hit him is undoubtedly one of the bodyguards. But from the standing position, you can see that the first to hit him in the face, it is a white seven!

Finished! Just married Bai Qiye!

This directly made him sweat.

And Bai Shenghua, at this moment, in addition to giving him a slap in the face, there is no time to pay attention to him, to punish is also to say afterwards.

One of the entrustments he got today is to stop the people of Yuejia from coming in. This is of great importance, so I sit down in person.

Just getting a report, it is said that Yuezhen Nanlu came in, and immediately arranged for people to come out to block, and he himself followed. However, the gaze was on the body of Yuezhennan. For a time, he did not pay attention to the Shenlang next to him.

In addition to Shen Lang did not speak, but also because there are security guards around him.

When Shen Lang just opened his mouth to remind Yue Zhennan, Bai Shenghua's gaze was only seen, and immediately scared a big jump. This person is too impressed!

More than two months ago, it was because of a misunderstanding that someone was found to be the person. The result was that he was killed at home. He kicked the coffee table and broke his leg. Even Ye Fan, the bodyguard of his seven-seat extraordinary warrior, was defeated.

At that time, he took the initiative to pay five million to buy life money. He did not expect that Shen Lang was one yard away from the code. He would not anger his family. After accepting five million, he treated his leg.

He was stunned at the time and didn't know how Shen Lang was treated. But he definitely felt that his legs were broken. Later he was sent to the hospital and found that the situation was far lighter than he thought. He didn't think that he felt wrong. It must have been what the man did.

Afterwards, he did not dare to default. According to Shen Lang, he gave five million to the corner of Yuezheng South. Later, he also paid attention to the reaction of Ye Family. What surprised him was that, as a local comprehension family, it is said that there is more than one powerful comprehension Ye Jia, but he did not take revenge. This made him realize that the water is very deep, let alone revenge, and even inquisition did not dare to inquire about the waves.

Now I saw that the killing **** came to the front of the night and directly let his feet smash, as if the legs had just been interrupted...

Just a slap in the face of the security captain is actually the courage that Bai Shenghua gave himself.

"It turns out that you are here These dog legs don't have long eyes, don't know your driving, please forgive me."

Watching Bai Qiye walk to the front of Shen Lang, respectful, and apologize for them, so that everyone on the scene was shocked!

The two bodyguards are also very puzzled. What are they afraid of? Is this Yue Gongzi really a comprehension? But the boss seems to be more afraid of this younger man. Is it a more powerful comprehension?

The security captain even stunned. He had just beaten Bai Qiye. He didn't dare to ask the reason. Now, when he heard this, he realized that he seemed to offend the offended man!

If even the seven lords are to apologize, if the other party is not satisfied, does the seven grandfather want to throw him out?

"Can I go in?" Shen Lang looked at him coldly.

Bai Shenghua smiled bitterly: “You have to go in... I certainly can’t stop it.” Because he bowed his head, he only aimed at a person lying on the ground, looking at the Chu River, let him be a huge earthquake!

“Please! Please come in!”
