

## First Strong 1731

Chapter 1731 - Persuasion

The other party is covered by the use of treasure, even if it is the ancestors of the purple scorpion, it only found traces of magic weapons, the gods can not penetrate, do not know who is inside.

But for him, no matter who it is, it is not a good phenomenon.

The Kunlun School has already won the top spot, and the first one can get help from Shen Lang and open the “treasure box” of its own collection.

They naturally don't want to add things, and Shen Lang is coming for them, their route. So to a certain extent, there is an obligation to protect the waves.

As long as they are finished, what happens to others is nothing to them.

Now, such a spoiler, whether it is to catch the waves, or want to “cut the team”, he can not allow.

So I immediately responded to Shen Lang's response.

“Friends say this! Shen Lang Daxian has entrusted Gao Hanqiu seniors. If you are interested in inviting, you should make an appointment in advance. Now, if you appear, you will lose your face!”

In the ancestral words of Zi Yan, I don't want to intensify contradictions, but want to remind each other.

In doing so, there is something that is decent!

Stop here, no one knows who you are and will not affect your reputation.

However, the other party did not pay attention to his meaning and did not respond directly.

This is not difficult to understand, the other party is also an acquaintance with him, this time the goal is Shen Lang, do not want to directly fight with the Kunlun faction.

Shen Lang smiled a little: "Invitation? Understanding? Is there such an ambush to invite? For the shrinking mouse, I am looking down, it is impossible to accept your invitation!"

The tortoise turtle just mentioned can also be said to refer to mulberry.

Now that the two sides have already spoken, this sentence can't be avoided. It is just to blame them!

At this point, the other side is hidden in the magic weapon, shrinking behind the waterfall, it has no meaning.

It was unbearable to be repeatedly shrunk, so after a moment of silence, the opposite waterfall was directly separated for a while, and a transparent sphere floated out from it.

This is a layer of transparent hood-like package protection, and it is difficult to see the shape if it is not surrounded by water.

After they floated out, they became floating in the air in front of the waterfall, and there was still a distance above them.

"Kid, be kind, call you a big fairy. Don't know how to lift! Don't force me to do it!"

I don't know if it is a magic weapon or a secret law. After they appeared, it has disappeared, that is, three people are suspended before the waterfall.

These three people have not only seen it at the Yaochi event, but before the event, Shen Lang has already seen it.

Three people in Ginkgo Valley.

The sable ancestors naturally guessed it. The Ginkgo biloba elk was familiar with him. Before that, everyone went together and made their route clearer.

It's just that he didn't want to say it right now, and he has to face it now.

“Oh brother! Don't be kidding. Shenlang Xiaoyou is very good at speaking. Everyone is an acquaintance. Maybe after we have finished the Kunlun, we will go to the Ginkgo Valley by the way...”

Now kicked, the scorpion ancestor is a bit big.

For the benefit of one's own side, as well as the responsibility to protect the sinking waves, he must come forward to resist the Ginkgo Valley.

But the elk in Ginkgo Valley is his old friend, and he does not want to have this situation.

This can only be a round field. If the elk can accept this, then if you pay a little profit, he can help persuade and let Shen Lang go to the Ginkgo Valley.

Being able to complete this cut-off is already a good thing for Ginkgo Valley, and this will not affect much reputation.

Shen Lang snorted: “Zi Zi ancestors, you are a good heart, but they are just greedy! Their purpose is not to want me to help open the organs, but to monopolize the ability of me to open the organization!”

The elk also sneered.

“You said it is good! Not only us, there are many people, all of whom are thinking about this! Who do you think you are? You are a younger boy, why should we sit on the same level with us? Why let us all ask you! ”

“Hey brother...”

“Purple! I know that you are under pressure, because you are inviting him to walk. If you don’t come out to protect him, you will not be morally up. But don’t forget, we are old friends!”

“...”

The sable ancestors secretly smiled, we are old friends, are you so old friends?

You should not look at the old friend’s share, don’t you do things in front of me? As long as it was completed after my Kunlun school, it has nothing to do with me!

But this, he can’t say it, and he will offend the waves when he says it.

On the bright side, he can only force the waves!

“We are old friends. If you follow me, you lose your morality and lose your loyalty!”

“...”

This sentence makes the face of Zi Yan’s ancestors a little bit bad.

You pit, I don’t say no loyalty, no morality, I am doing it to you, that is, I have no loyalty and no morality.

“In your current position, you should help him; but from a friend’s point of view, you should help me. So, it is best that you don’t help each other, so you don’t have to be sorry for me, don’t be sorry for him.”

The truth of the elk is naturally already thought of, and now it is straightforward.

The scorpio ancestors just heard this theory, and there is still some truth in listening to it. I don’t know how to refute it.

“You can rest assured! I will not hang your old deer! I will do it for the wicked, you just need to help each other. When I get it, I will share it with you!”

Elk ancestors, another record!

Although the Zizu ancestor and Shen Lang walked together at the Yaochi event, but in fact there is not much personal contact on the friendship, he and Shen Lang, certainly not as good as the elk, it is More than a hundred years old friends.

The elk wants to move the waves, he will stop, not because of friendship, but because of morality on the one hand, and on the other hand, it is because of his interest.

Now the elk has said this, as long as he does not help each other, then he will share the secrets of the ancient organs that he got, and share it with him!

The gold finger of the stone is certainly much better than the one-off gold!

He has the same mind, but he feels that the possibility is not big, it is not worthwhile, so he chose another way.

The most important thing is that the elk has already given him an excuse!

Just now, it is a bit reasonable and a bit like a ruling, but in combination with the present, he will not want to argue, but the subconscious can not help but accept this truth and give himself an excuse.

Yes, I help my friends to deal with Shen Lang. It is a moral loss. Helping Shen Lang to deal with friends is also a loss of morality.

As long as the two don't help each other, there is no loss of morality!

Elk has found an excuse for him, and he has sent a powerful bait, plus a hundred years of friendship between the two sides...

The purple ancestors even hesitated.

Chapter 1732 - Deep heart

These swells are seen in the eyes, secretly sneer.

However, he did not feel any chills, nor did he feel that he was filled with indignation.

Originally for them, they did not think about any friendship. Even Yaochi, who had a mysterious girl and Fan Xue's friendship, first released the good-hearted Xuefei Snow Gate. He kept doubts.

How could you believe in the Kunlun faction?

Like Ginkgo Valley, it will be more direct, and he can imagine.

And definitely not just the wave of Ginkgo Valley!

"I will make it clear! Even if I am here to let the past, you enter the grass, there will be a group of people to come and block!"

"Zi Zi brother, you have loyalty, but how much can you block? You are a person after all!"

"Do you have the heart to watch Shenyang and Sufeng dead?"

"Rather than fighting blood in the end, let other people benefit. It is better to don't help, let me be this wicked!"

"I can assure you that not only will you not be able to move you, nor will you kill the waves!"

"All I want is his secret technique, not for his life!"

In the case of the elk, continue to make excuses for the sable ancestors!

I have just given him an excuse for morality, and now I have given three more excuses.

There are more enemies in front, which means that Shen Lang will encounter heavy obstacles in both Caohai and Kunlun Mountains. Before reaching the Kunlun School, it will be arrested.

Cheaper people are not as good as cheap friends.

And this move can also protect Shenyang and Sufeng, and these strengths are weaker.

The last one is more convincing, and it won't hurt the waves anyway, just for his secret technique.

All add up, so that all the psychological obstacles of Ziyang are eliminated.

Shen Lang patiently listened to the words of the elk, can be clearly heard.

Elk did not put him in the eye!

The elk is concerned that the purple ancestors intervened!

Because they have three people, if the purple ancestors intervene, it means that the other two of the Kunluns will also be together, so that they can be one-on-one, and everyone will play against each other.

That gave the opportunity for Shen Lang to leave.

As long as the scorpion ancestors were convinced, the Kunluns were all right.

As long as you deal with Shen Lang, you don't need Zheng Yi and Zheng Songlin, as long as he can get it easily.

With the arrogance of the elk, it will not be easy to convince the scorpion ancestors in such a large section. This is to solve the problem as soon as possible and avoid other competitors.

They are old friends, do not need the purple ancestors to agree, see his expression reaction, the elk will understand that his heart has passed, which means that it has already been fixed.

There are two kinds of Shenyang and Sufeng. Of course, they don't have the right to speak. They all follow the decision of their ancestors. Since the ancestors did not speak again, they also understood how it was.

At this time, Shen Lang smiled faintly: "Is it fixed?"

The elk looked at him coldly.

For Shen Lang, from the first side, he does not like it.

Although the back is because of the deep waves, let him get back to the comet ginkgo leaves, but also paid the price of two spirits!

The two threads are a huge price.

What makes him angry is that Shen Lang actually gave the two spirits to Helan's ancestors!

This hit his face!

He is willing to give two threads, because this is an irrelevant person, and Helan's ancestors have sold a fine stone.

He wants to prove the value of the Ginkgo Valley heirloom, but also to the heart of Helan's ancestors.

As a result, Shen Lang was given to Helan's ancestors, and Helan's ancestors gave him another one.

This is equal to their win-win situation, which makes him angry.

In fact, he can get back the lost magic weapon, which should be considered a triple win, but he is not willing to accept this.

Now, he will take Shen Lang down, not only to open the secrets of the ancient organs, but also to get back the spiritual pulse, including more things on Shen Lang.

He has to be all!

“Kid, I didn’t evade you. In front of the Wanli Caohai, and the Kunlun Mountains in the back, there are waves of people waiting. Falling into their hands, your life will not be saved!”

The elk began to threaten the waves.

“As long as you listen to me, I can keep you safe!”

Shen Lang smiled slightly: “If I don’t listen to you, you have to take my life?”

“You can try!”

The elk directly sighed.

“You just don’t put me in the eye?” Shen Lang is still very calm.

“Shen Lang, at your age, can be so cultivated, it is really talented. I advise you not to be arrogant, and then only a genius, there is only one life!”

The sable ancestors, though not avoiding, have remained silent and did not participate in their dialogue.

The attitude has already been expressed.

With the acquiescence of the Kunlun faction, the elk is impatient!

“Are you so kind? Is there such a possibility? After you take me away, you will part ways and say that after you have the result, you will give it to Kunlun.”

“And after the separation, you will release the information, saying that when you set up here, it is already a step late. I have been killed by the Kunluns. Now my mystery is only mastered by the Kunluns.”

“You are friends with the ancestors of the sable, for the sake of loyalty, it is not convenient for them to do it.”

“In this way, the other people who lie in the back will do the Kunlun faction. And the Kunlun faction has not been able to pay me, then how to explain it does not move me, and no one will believe it.”

“In this case, the Kunlun Pai Su will be the first sacrifice, and then the Sen. The Zizu ancestors will pass through a wave of \*\*\*\* battles and eventually die in Caohai.”

“Whether the mystery is mastered by it, it will become a mystery and become a mutual suspicion. Killing the ancestors of the sable will become the biggest suspect, others will doubt him, so the parties continue Keep hunting down.”

When Shen Lang talked about it Elk was not able to interrupt him immediately because he was steady.

Of course, the ancestors of the sables were not interrupted. Anyway, he made two decisions that did not help each other.

But when he said this, he was more and more shocked!

If the elk really follows the plan of Shen Lang, then they will become a big man, a dead ghost!

To say that Ginkgo Valley has robbed Shen Lang, but did not move them at all, they did not intervene to block, certainly no one believes.

When they die, they will kill those waves or waves of people, and they will become the object of doubt.

As a result, they will be the safest in the Ginkgo Valley elk, which has really taken away the waves!

Anyway, as long as they get the secret of Shen Lang, they immediately kill people and destroy the dead. Even if some people doubt, there is no clue to prove that they are behind the scenes.

In comparison, the line that the Kunlun faction extended is a greater possibility.

After the wars, the situation has become chaotic, the strength of all parties has been weakened, and the Ginkgo Valley disguised has been improved!

The key is... With the understanding of the elk from the ancestral ancestors, I think he really has a deep mind!

Chapter 1733 - The secret you want

“Purple brother, don’t listen to him nonsense! This kid is arrogant and wants to divide us for a hundred years!”

The elk immediately sipped a drink.

But he is not convenient for direct hands-on.

Because of the words of Shen Lang, if he is now directly hands-on, it seems guilty, perhaps the Kunlun faction will become “two do not help” and become “sitting and profiting”!

He must ensure that when he and Shen Lang start, the Kunluns will not intervene.

At this moment, Elk regretted for a while, and should not give a chance to talk to Shen Lang just now!

The sable ancestors have a deep understanding of the elk, knowing that he is a very thoughtful person.

The reason why I was able to be persuaded was that I was caught off guard.

I know that someone will come to rob the waves, but I don't think of the theory of the elk, and the elk promises to be very good, so that he feels that he only needs to do nothing, and he will get more than he gets involved. Not for it?

If you have a little more time, he can certainly think of things that are not so good.

It's just that Shen Lang's name is in advance, and it's more serious than he expected.

The elk is now in this sentence, listening to the ears of the ancestors of the purple scorpion, the heart can not help but secretly belly: you are not for differentiation? In order to win my support?

“Shen Lang Daxian is a guest invited by our Kunlun school. It is to help us. Anyway, we can't be disrespectful to him...”

The sable ancestors slowly said this, quite a bit ambiguous, but compared to the acquiescence just now, this is already a bit of a swinging taste.

“You won't be confused by his words? I will say, when did my deer deceive you?”

The face of the elk has changed, and then he pointed to Shen Lang and said: “Don't look at this young boy, the city is deep! On the same day, I got the comet ginkgo leaf from Helan old ghost, and immediately turned to my lion!”

“We have been in love for a hundred years, just because this kid is just a few words, do you believe him?”

He directly used the centuries of friendship to suppress the ancestors of the sable, and made the ancestors of the sables difficult.

It is a fact to say that the elk is deep. But it is also true that the elk has never harmed him. And know each other.

On the contrary, for Shen Lang, the time spent adding up is only a few days, but now I don't know the origin.

Both sides are fighting for him, and the purple ancestors are aware of their importance.

In the same way, if you realize the words of both sides, you may have to ask a question mark!

Elk may harm him, and Shen Lang may harm him!

“Listen to me!”

Shen Lang shouted.

“The elk ancestor, you said that as long as the mystery, I will not want my life, is this true?”

Although the elk ancestors felt that Shen Lang could not speak so well, they still decisively admit it, because it is related to winning the ancestors.

“Of course! What do I want your life to do? There is no benefit to me. I just need to open the secrets of the ancient organs, and this is not to let you run around!”

The elk is not an old fox. It will not just repeat the word “secret”. It emphasizes the “opening the secrets of the ancient organs”, so as to avoid the slick and play word games.

Shen Lang asked another question: “And after you know it, will you really share it with the Kunlun faction?”

“Of course! Zixiao brother is my old friend, I will not deceive him. I am willing to share everything with him!” Elk answered more decisively.

Shen Lang nodded. “The last question, you said that in front of Caohai and Caohai in the past Kunlun Mountains, there are many people who want to block me. Is this true, or scare me?”

The elk originally did not believe that Shen Lang would be so easy to express his position. However, when he asked him one sentence at a time, he began to get up.

He is a genius, but he is just a young man in his twenties!

Even if you dare to come with an ancestor, it is just a \*\*\*\* courage. When it is possible to encounter the interception of a wave of great ancestors, he naturally understands what is the best choice.

So when asked about this sentence, he has been very sincere and serious.

“My elk can swear! This is absolutely true. If I scare you, let me not die!”

This is true, he just grabbed a better position and timing, so he is not afraid of a poisonous oath.

“In your capacity, you can swear by this, I believe in you!”

Shen Lang said this, let the purple ancestors next to him, and the elk ancestors in front of the waterfall opposite, are a bit surprised.

He... is it so embarrassing?

This is a bit simple!

Although it is hard to believe, they are also watching their changes. If it is so easy to solve, it is of course a good thing.

“Since you said that it will not harm me, as long as I cooperate, then I have no choice, and instead of dealing with other people, it is better to give you the secret skills!”

In the words of Shen Lang, the elk could not help but reveal a hint of surprise.

This kid actually decided that?

However, ... the martial art that can cultivate such a talented person should also educate him about the time!

The genius who can bend and stretch can be more rare than the genius of arrogant objects!

“I will tell you by voice now...”

After Shen Lang finished speaking, he immediately began to voice the elk.

“The first emperor’s entrepreneurship is not half and the middle road collapses. Today, the next three points, Yizhou is weak, this is the end of the crisis...”

When he heard that Shen Lang said that he wanted to tell him by voice, he tried to refuse it because he believed it!

Even if Shen Lang is willing to hand it over, he also needs to read the memory of Shen Lang himself!

Only then can you really understand how the mystery works.

However, Shen Lang did not give him the opportunity to interrupt, and immediately passed the voice.

Elk can only listen to Anyway, Shen Lang can’t run anymore, the difference between a little later and a little later.

Just listening, he felt inexplicable, but the conjecture may be that the ancient secrets are more profound, and they will continue to listen to the patience.

Shen Lang's voice told the elk, and the purple ancestor next to him also saw it. This is really a sound. Looking at the way the elk is listening carefully, it is estimated that it should be a real secret!

This made him a bit unwilling to be convinced!

When Laozi's attitude was good, he couldn't get one fart; when the elk came forward, he immediately pushed it out.

I knew this before, but still need to take him back with him? Directly forced him to hand over the secret technique, and does not need to bring him back to Kunlun, no need to face other enemies!

Shen Lang, after carrying a large section of the "Teacher's Watch", stopped.

"This is the case. With the realm of the elk ancestors, you will definitely be proficient immediately."

"Wait! What are you talking about! What is this secret?"

The elk felt that he had been played, and immediately went straight to the sinking waves, and controlled all the surrounding environment, which he had already laid out.

He wants to personally capture the memory of Shen Lang, and by the way, all his mental power is drained, and his entire person is ruined, and no opportunity is given to others!

Chapter 1734 - You do not trust me

Originally, the elk was jealous, and the ancestors of the purple scorpion would intervene. It was the same level opponent as him.

But what has just been said by Shen Lang, he listened inexplicably, and immediately couldn't take care of it. He first grabbed the person and read the memory.

However, even if he shot at this moment, he is still more guarded against the scorpio ancestors, and for Shen Lang, he will feel ten-up.

After all, this is a big realm. Even if Shen Lang is a genius, the strength of Daxian's peak can only be a battle with Zheng Yu and Shen Yang. In front of him and Zi Zi's ancestors, they are all directly The difference in pressure.

He himself is in front of the waterfall, a little distance from their peak, but this distance, for a big god, that is nothing, maybe only a difference of zero or ten seconds.

But what he didn't think of was that when he saw that he had to hold the waves, Shen Lang disappeared from his eyes!

The elk has reached the peak, and the purple ancestors hesitated, and did not promptly block.

This is a very smooth situation, but the goal of Shen Lang has disappeared!

Appearing above the peak, the elk could not help but scream: "What about people?"

This is to ask Zheng Yu and Zheng Songlin to look at the front of the waterfall. They also ask the purple ancestors next to them, and ask him.

Why are people missing?

On the evening of the eleventh day, everyone also locked in the dark waves, and the people disappeared from the air, and they could not find a trace.

At that time, it can be said that everyone still has a distance, maybe the other party has a faster way.

But this time is not the same, this is not a distant sense of the lock, but he saw it with his own eyes, just at such a close distance, it disappeared out of nowhere!

When the elk ancestors asked, the purple ancestors also changed their faces.

Zheng Zheng and the two also followed, and Ginkgo Valley and Kunlun sent six people, all of which were not good-looking.

Compared to the disappearance of the Shenlang 11 days ago, they have more experience than others.

That was, twelve days ago, when they were still on the edge of the waters of Yaochi, Shen Lang suddenly appeared out of thin air.

However, everyone felt it at the time and had already prepared in advance and surrounded people with accuracy.

Why are you not feeling anything after two times?

From the two points of Shen Lang, it is not impossible!

There is only one possibility. When the first time I shuttled, I was found to have been discovered. Let him shuttle back twice, faster and better.

As for what magic weapon he used, or the ancient secret technique, it is not known.

The elk and the purple cicada are silent.

After a moment of silence, the sable ancestors spoke.

“Tell me the secrets of the opening organs.”

He is naturally unhappy, and originally went back with Shen Lang, all the treasure chests should be able to open.

Because the elk's intervention was in chaos, now Shen Lang ran, and I wanted to invite it back again, and others would definitely not be able to help again.

Now I can only hope that Shen Lang will really give the elk to the elk, or else it will lose money.

“What secrets? Nonsense! He didn’t tell me!”

The elk could not help but scream.

The sable ancestors had already had an ugly face, and now they are black.

“Hey brother! Do you really want to be an ignorant child? Just seeing him telling you about it!”

The elk ancestors also looked ugly: “This kid played me! It was told by me, but it was not a mystery, but something messy. I don’t know what it is.”

He is telling the truth, Shen Lang has no head and no brains to come to a section of “Teacher’s Table”, for whom he naturally is inexplicable and does not know the so-called.

But this is in the ears of the purple ancestors, it is not right!

This is clearly meant to be swallowed!

Just after Shen Lang Ming Ming can escape, if you don’t want to hand over the secret technique, you don’t need to tell him by voice.

I will tell the elk, and I think it should be that Shen Lang doesn’t want to be chased after the road, so I will give it to both of them and the problem will be thrown at them.

But this is the elk, but now I don’t want to say it!

“Oyre! What have you just said? You have been in love for more than a hundred years! Today is what you have stirred up! I am not going to pursue you, you still want to be alone?”

The scorpion ancestors are already angry, and Shenyang and Sufeng are also preparing for the enemy. If they want to work with Ginkgo Valley, their opponents are Zheng Zheng and Zheng Songlin.

Zheng Zheng, who just came over, is also nervous.

Both the Ginkgo Valley and the Kunlun School are three people, and they are all of equal strength. If you really want to fight, you will be playing against your opponent. The result is likely to become a lose-lose!

Zheng Yi gritted his teeth and quickly explained it.

“Purple predecessors, you misunderstood! You and my family ancestors are old friends, the ancestors can not lie to you, this is definitely the thief of Shen Lang deliberately messed up!”

“It’s not your turn!”

The sable ancestors screamed, and did not need to shoot him, and Zheng Zheng had already trembled.

“You are sick!” The elk is also welcome: “You and I have known each other for more than 100 years. You don’t believe me. I believe in a hairy child who knows a few days?”

“You still have a face to know for more than a hundred years!”

The sable ancestors stared at him. Just a moment ago, although Shen Lang and the elk were talking, his object as a target was also a crush of emotion.

It broke out now.

The elk is extremely uncomfortable because he feels that he does not lie, that is, Shen Lang plays with him, and Zi Yan, as an old friend, does not believe him!

However, he was still sensible after all, and he couldn’t do it with the sable. The end result was that the Kunluns and the three people in Ginkgo Valley had done it. The result was that both sides were hurt.

Then let the thief of Shen Lang see a joke!

This is definitely the result that the little thief wants. Even if he is unhappy with the attitude of purple, he can't make Shen Lang happy.

“Good! You want to know, right? Then I will tell you! What he told me is that the emperor's entrepreneurship was not half and the middle road collapsed. Today's next three points, Yizhou's weaknesses, this honest and dangerous autumn .....

“What are you fart!”

The sable ancestors couldn't help but scream. “Are you too late to compile? Can you make such an inexplicable thing to fool me? It seems that you really treat me as a three-year-old!”

“You only fart! The secret thief said to me, it is such a ghost thing!”

The elk is hard to say.

He just didn't say it. Now it is said, Zi Zi's ancestors still don't believe it. He thought that he couldn't make a fake secret trick for a while, so he used such an article to fool!

“Elk!”

“Purple! Old guy, wake up!”

Both old guys roared and both were ready to attack.

“Two ancestors, maybe... this is the result of Shen Lang's desire, want you to kill each other!”

This time, the persuasion is the plain wind, not the people in Ginkgo Valley, so that their eyes are all seen.

Chapter 1735 - Speculation close to the truth

Father, like son.

The two ancestors of the sable and the elk are now in such a situation.

With their realm and their life experience, this is not so easy to be teased.

However, both sides are authorities. Since they are very concerned about the secrets of the ancient organs, they also care about their faces and dignity.

In the case of the elk before, it was to fight for the support of the sable, and the best support was not to shoot. But after being said by Shen Lang, it became another picture.

The sable has already suspected the elk's intentions. He does not speak and doubts, and he will not believe it easily.

Shen Yang and Su Feng, Zheng Yi and Zheng Songlin, because of the difference in identity, are actually afraid of and can not mix the disputes of the ancestors, can only be obeyed.

But to really count it, the young people like Su Feng and Zheng Songlin are actually easier to watch!

Because of their identity, they are in another venue, and they don't know the secrets of Shen Lang. And for Shen Lang, I don't think so, I don't believe that he is so amazing.

Therefore, from their point of view, they feel that it is very likely that Shen Lang played the elk, and the purpose is to play the Kunlun and Ginkgo Valley, let them kill each other.

This feeling is also true of Zheng Songlin, and his impression of Shen Lang is even worse.

However, it is now the time when the ancestors of the sables asked the elk ancestors that they were disciples of the Ginkgo Valley and said nothing. Just like Zheng Xiao's opening, he will be scorned by the sable ancestors.

The plain wind is different.

The plain wind is the Kunlun faction. He speaks, and the purple ancestors will not drink him. In this case, it is also beneficial to the elk, and naturally it will not stop.

So he has a chance to say this.

“Stop! There is no part for you to talk to!”

Shen Yang was busy whispering a sentence.

Su Feng said sincerely: “Hey, ancestors, I think we should calm down and check it out. Shen Lang people have already ran! He is sure to run away, how can he tell the real secret?”

Seeing him say this, Zheng Songlin of the other side immediately followed up.

“Yes! I think the thief of Shen Lang is deliberate. If he is really sincere, why doesn't he openly say it? If he is willing to tell Zi Zi's ancestors, why not tell them personally, but separately to our ancestors ?”

As a result of the analysis of the juniors, both the purple and the elk began to calm down.

Shen Lang can run away.

Shen Lang will not be willing to tell the elk.

Under these two preconditions, he actively voiced the elk and made it publicly. It is obviously a disaster!

“Yes! That's why I want to harm me! What I just said is what he said to me. It's not a mystery. If I got the mystery, can I provoke to attack him?”

The elk once again screamed, and now everyone's emotions have calmed down a lot, and he has not confronted the sable ancestors again.

“Zi Zixiong, we are friends for more than 100 years! I admit that I have selfishness, but I have not lied. There are still people waiting to ambush you! It is better to be the wicked person than to watch you suffer.”

His face is sincere: “You are also seeing the embarrassing degree. Do you think he might change his attitude so easily?”

The sable ancestors who calmed down, and this time I feel that something is wrong.

“Fortunately, we only have two sides, and everyone can communicate. If there are many sects around, everyone thinks that I have got my secret skills, then I am in trouble and become a target!”

When Elk said this, it was also a bit of a surprise.

Then he decisively said to Zi Yan: “Zi Zixiong! You take it out, get my memory directly, see if I have lied! I fully cooperate, so there will be no concealment!”

The elk is really let go this time.

Shen Lang has already ran, he can not carry this black pot.

As long as the scorio ancestors still suspect him, even if he does not directly deal with him, as long as the news is released, he will not be able to eat and leave.

The elk itself is not afraid of enemies. After all, his strength is strong enough.

But the problem is that for Shen Lang, the background is still mysterious, and some people still have some scruples. For him, it is much more transparent.

If you can't deal with him, you can also deal with other people in Ginkgo Valley.

If you really get it, it's not bad. You can ask for a direct payment, ask for a high salary, and it doesn't matter if you have a risk. But nothing has been obtained, but it has to pay such a price, and it is extremely difficult to draw.

The sable ancestors looked at the elk, and he was deeply impressed by the old friend's heart.

But now, it can be seen that the elk is trying to shabu-shabu and does not want to be pitted.

“Forget it, I believe in you.”

He shook his head, and the elk said something before he did not believe it because of the attitude. Now dare to let him read the memory, indicating that it is a clear conscience.

The elk did not insist. If he insisted that he read the memory, it would be too deliberate.

“What should I do now? This ran away, the outside world must have thought it was hidden by us, and the secret technique was also obtained by us.”

The purple ancestors are equally depressed.

“How do I know? You are not waiting here? Have you ever thought about this consequence?”

He wants to swear a little, even if there are enemies in the grass, it is better than being pitted by friends.

“This is a matter of stability. I thought that as long as you don't intervene, he can't escape.”

As an elk, it can be hidden by magic weapons. It was originally a low-profile gesture. Although there was no successful sneak attack, people did not think that people could slip through their hands.

“Wait!”

“Wait? When?” The elk was a little annoyed.

“Do you remember the first time we saw this kid?” Zizi ancestors had a speculation How can I not remember. ”

“He is awkward to appear there, but seems to be familiar with it.”

“what do you mean.....”

“After he left, he agreed for ten days. And this morning, it still appeared in the place where he disappeared!”

The purple ancestors seem to be the same as the elk, and the other four people are afraid to interrupt.

The elk has already guessed it.

“You mean... no matter how he shuttles away, he probably can only return to the original place? When we first met him, he left because of it, so he still went back there.”

“Not bad!”

“If that’s the case...”

The eyes of both of them are the places where the sinking waves disappear.

Just now they couldn’t grasp it, but they still felt great. The elk felt that his mind was guarding against the purple scorpion. If he came again, he would be able to prepare in advance when he saw Shen Lang for the first time.

With this in mind, they immediately acted, and six people formed an encirclement on the summit, waiting for the back of Shen Lang!

Chapter 1736 - Calculate

“Are you in danger?”

When Shen Lang entered the space of the heavenly book, the dog \*\*\*\* immediately asked.

It doesn't know where this is, but it can be felt that Shen Lang is coming in hastily, and if it is not dangerous, it is not.

“Little things.” Shen Lang smiled: “The Emperor you continue to practice, I can solve.”

“Your business is my business. If you have trouble, it is not a trivial matter!”

The dog \*\*\*\* has not only recovered the peak of the Emperor, but also after three or four years of retreat. Now that Shen Lang is on the road for a day, it is equivalent to more than one hundred days of cultivation.

Adding so much energy before it has been swallowed has made it a lot stronger.

It is very grateful for the help of Shen Lang, and gave it a safe place to heal the evolution of healing.

Originally traveling together, it is already willing to help Shen Lang to shoot, not to mention now.

“Reassure, when you need to take a shot, I will not be polite. It is still a small problem, I can solve it. You should continue to practice.”

Shen Lang said seriously: “I don't treat the Emperor as an outsider. It is a good friend who can live and die. So, at this stage, you can be regarded as a card for me. The stronger you are, the more you help me, the more effective. it is good!”

“...”

The dog \*\*\*\* was silent, and it knew that Shen Lang was right.

Originally, the same was true. Shen Lang encountered enemies such as Qi Ming and Wu Zhai's ancestors. When he couldn't cope with it, he could easily solve it by putting it out.

Only the enemy encountered this time is too strong, it also suffered a setback, can not help Shen Lang, he is still very dangerous.

Only if it is more powerful can it help the waves!

Thinking about this, the dog \*\*\*\* began to cultivate with peace of mind. It also believes that once Shen Lang encounters an unsolvable danger, he should also find it.

Shen Lang is the beginning of the analysis.

He was locked up by so many great gods last time. In the end, although he successfully entered the space of heaven and safely returned to safety, this method was equivalent to being exposed once.

This time it can be used, but once more, it will make others pay more attention to it. The next time it will not be so good.

And now Kunlun and Ginkgo Valley, I have seen him before the Yaochi event.

The way you use it is different, but the form in the eyes of others may be the same.

That is the same way for both of them, it has been used for the third time!

The two ancestors of the sable and the elk, will you guess something?

Regardless of whether or not you will guess anything, Shen Lang must first guess when they are!

If they analyze the speculation based on the previous two times and think that he will still appear in the same place, they may be directly in the same place before there is no better way!

Keeping in place, waiting for him to appear.

The time before the event, they did not know how long Shen Lang left.

The previous time, it was said after ten days.

When he left, he did not say that he was returning.

In terms of combination, should they wait at least ten days?

Shen Lang will deliberately emphasize the voice to tell the elk secret technique, naturally want to provoke a bit of separation, let them bite the dog.

But he doesn't think how big the effect can be. It can't be divided and provocative. But it's all hundreds of people, and it should be calm soon.

This also means that he is not free to go out!

Either, when they come back to it, they will kill it. Even if they can't kill the elk and the sable ancestors, Shen Yang, Zheng Zheng and others will not be able to stop him. If necessary, they can all be killed.

Because there are hundreds of times, this process is definitely worth it.

Even if the other person can wake up in a few minutes and analyze the possibility, there are hundreds of minutes for Shen Lang.

The other way, then it is to ignore them and practice in it.

They have to wait ten days and a half, or a month or a few months, he can stay here for a long time.

See who can hold longer!

However, Shen Lang now has a problem, that is, he had retired for three years before, and he has already cultivated himself to the extreme of Daxian Peak. His strength has already reached the level of great gods, but he is forced to suppress.

If you continue to practice retreat, unless it is purely pure cultivation, and does not use various resources such as the spiritual pulse, then in the past few years, progress is limited.

Otherwise, he could not suppress it, broke through to the realm of the Great God, and it is naturally safer to go out. If others want to move him again, they must be careful.

But if you want to meet the Earth again, you may be in trouble.

Who knows when the day will come?

He has experience, but he only has one experience!

Once is just a case, it is impossible to master the specific law of heaven.

Without using resources, there is basically no progress in retreating for several years. Isn't that a waste of time? It is better to read a few years here!

The current Shen Lang will not waste this time.

He also did not choose to kill it immediately.

Will count!

The other party may guess that the analysis will return to where it disappeared, but it should take a little while. Before that, they might still be arguing.

With the experience that the elk has not had time to catch him, if you guess this possibility, then they must be at a very close distance, in order to catch him the fastest!

This is where he can take advantage of it.

When they all gathered, they ambushed him nearby.

To this end, Shen Lang through the Holy Grail, prepared a nuclear bomb-level anti-personnel weapon!

This was once used once in the Guangmingshan Park, surrounded the darkness of his dark apostle, and fled to the ground, and finally did not know what it was like.

At that time, there were two apostles, dark and bright. Now there are two great ancestors, the elk and the purple scorpion. They are all similar.

To this end, Shen Lang through the Holy Grail, made a detailed data deduction to ensure that you can hit the success of the moment.

Shen Lang is a long-term deduction, various effects, and calculation and analysis of time.

For the Kunlun and Ginkgo Valley, who are at the top of the mountain, everything is in a hurry. When they analyze this result, they come to an ambush and prepare to wait for the rabbit.

But how long will it take for Shen Lang to come back, in fact, they have no bottom in mind!

The first time I want to go back to the original place is because I want to come back to the Yaochi event.

The second time I have to go back to the original place, because after ten days of good, the cold autumn is still waiting.

This time he obviously wants to give up the Kunlun school. Then he will leave directly. Do you still need to come back?

Just as they held a glimmer of hope, Shen Lang suddenly appeared!

Although they are all staring at the middle of the encirclement, they are the most spiritual moments.

But for the first time, they felt the fluctuation of space. This time, it is inevitable that they will feel the fluctuation of space first.

When the swells appear, there is no abnormality, which means that as they are seen by the naked eye, they cannot be prepared before they appear.

However, because it has only just begun, the two ancestors of Zijing and Elk are firmly controlling the surrounding fields!

Chapter 1737 - Shocking

“It’s a deep wave!”

“He is back!”

“Don’t let him run!”

For a time, everyone was inexplicably excited and screamed.

They did not think that Shen Lang actually came back so soon.

They are more excited and the analysis is right! Shen Lang really wants to return here!

The sable and the elk are already a double insurance for the peak. They are also full of God’s alert. No matter what extraordinary magical techniques are there, there is no magic weapon, and it is impossible to get out!

As a result, everyone’s excitement is only maintained in an instant. Those who shouted out, the last word has not been said yet, and the Shenlang that just appeared has disappeared!

All six people can’t believe their eyes.

The two sabres and the elk are not to mention, this is their full-spirited alert, and they are waiting for the net, and they still let the big fish run!

At this moment, they all collapsed!

how can that be?

The realm of Shen Lang is not as good as them. No matter how extraordinary the mystery and magic weapon are, it can't achieve such an effect. At most, they are not prepared for them.

What's happening here?

But they couldn't collapse, and when the waves disappeared again, there was a small bomb on the scene!

The bombs are not that big, just like the rocket launchers, but this is a powerful nuclear warhead!

Shen Lang appeared to release the bomb, just waiting for them to ambush around.

When he released, he once again entered the space of heaven.

None of the Kunlun and Ginkgo Valley people have ever seen a bomb.

However, when they saw this thing, they all had a warning sign and realized that this is probably a powerful magic weapon!

At that moment, even if there were no sabres and elks with the concept of bomb nuclear bombs, they also saw the essence.

If this is a magic weapon that attacks the waves, and now there is no single attack on which person, it means that it will be a blow to the surrounding!

What they don't have is the bomb concept of technological civilization, but there are also some magic weapons that have explosive ways of attack.

At that moment, both people used the same method, that is, through the suppression of the field, the two combined forces, the bomb effect of this magic weapon is compressed within a very small range!

Because the surrounding space has been completely controlled by them, it is necessary to compress the power of the magic weapon explosion within a few meters. For their strength, it is also a trivial matter.

If it is a general magic weapon, or a bomb that is not powerful enough, it is really the result.

The explosion is suppressed within a range, then it is led to a remote place, and the shock wave is diluted.

This operation method is no problem at all. The problem is... this time the bomb is huge!

Even if it is a small nuclear bomb, it can also level the surrounding peaks!

The strength and speed of the shock wave is even enough for the realm of the gods.

And they are not prepared to guard at all, and when the warning is in the heart, it has already erupted!

Even if the two reactions of the purple cicada and the elk are fast enough, and the field around them is always manipulated, a process of suppression is completed.

But this power is far from being suppressed by them.

In the twinkling of an eye, the strong and unmatched shockwaves smashed the suppression of their two great realms!

The field of control can't be blocked. It can only be alleviated a little. The six people who are close at hand are swallowed up by the shock wave!

If everyone is defensive, and use magic weapons and the like, you may be able to escape.

However, they were originally hunting for the waves, and the strength of Shen Lang in their eyes was at best the peak of Daxian.

Although this will not be inferior to Shen Yang and Zheng Yu, let alone Su Feng and Zheng Songlin.

But there are two ancestors!

So in the eyes of their four, they just make up the number. If Shen Lang wants to escape, there may be a chance to substitute.

The ancestors of the two great realms of the world have dealt with only a young man with a peak of Daxian. Basically, they will not give them a chance to take a shot. It is supposed to be ten.

None of them have self-defense, because Shen Lang can't have a chance to attack them!

There is no defense between the purple scorpion and the elk. Any one can turn the spurs dry, let alone two together?

They join hands, just to avoid the sneak waves and have a magical way to escape. Otherwise, as before, the elk is more than enough.

All of this, after the bomb detonated, let them taste the bad results!

This peak, the larger mountain opposite the waterfall, and the surrounding mountains, were quickly destroyed!

Six of them exploded from the middle, so they spread out in different directions.

When the shock wave broke out, it was the sable and the elk, and because it was far more than imagined, and there was a little self-sufficiency, it was too late to protect others.

Under the shock wave, when the reaction came, it was too late.

As a result, the plain winds and Zheng Songlin of the two great fairy realms were directly destroyed by the ruin of the body without defense.

Both Shen Yang and Zheng Zheng of Daxian Peak are stronger and more responsive, but they are also quite a bit riddled.

I have been rushed out and I don't know how far it is.

The sable and the elk are two, because the strength is extraordinary, although it is also lack of defense, but it can also protect the body in time.

Only two of them, but also far away from flying, do not know how many, received a small impact.

When they defend themselves, look at the huge waves that form the mushroom cloud, and the peaks of the mountains are razed...

Two people who are already in different directions, separated by at least a few dozen miles, are silent.

With their realm, they can quickly feel it. I know that Su Feng and Zheng Songlin are no longer there. Shen Yang and Zheng Zheng are basically abolished. There is no need to save the treatment. Because here Already close to the sea of grass, huge waves of air and smoke, also spread directly to the grass.

The general movements of such earthquakes, of course, have spread far and wide, and they have been faintly felt hundreds of miles away from the sea of grass.

If there is a \*\*\*\* in a hundred or two hundred miles away, you should be able to see the sky here, you can feel the shocking effect here...

The two ancestors of the sable and the elk have been speechless for a long time.

What kind of monster is this?

Where did the magic weapon of such a huge impact come from?

Combined with Shen Lang will open up the ancient organs to think, they have the answer!

The magic weapon of Shen Lang's escape and escape, as well as this huge offensive magic weapon, including his ability to cultivate to this realm, is definitely an adventure in the ancient ruins!

They have not believed that Shen Lang is a disciple of a hidden sect. If anyone has such a powerful magic weapon, it is impossible for everyone to know.

In other words, Shen Lang is a disciple of a hidden sect, but it is still in the ancient ruins, and there is a huge harvest!

At this moment, they are more jealous and more greedy for Shen Lang!

If the adventures of these ancient ruins are owned by them...

Chapter 1738 - This is cheating!

Shen Lang is running a bomb and he does not feel any conscience.

Needless to say, a few in the Ginkgo Valley, it is a few Kunluns, but also obviously not good, only the difference between fifty steps and one hundred steps.

If the sable ancestors firmly defended him and slandered them, Shen Lang would certainly not count him.

As for ordinary people, there is no great scope in the vicinity, and they are not afraid of being accidentally injured. As for the destruction of the environment and the radiation, it will not be much.

This is a bomb that is equivalent to the nuclear bomb of the Earth. What is the principle or the way is different.

Shen Lang didn't have to pay attention to this. He hid himself, just waiting for the shock wave of the explosion, and then came out again!

If you want to do it, you must kill the enemy!

Shen Lang can determine the power of the bomb, but can't confirm how much damage is done to the great god.

After all, there is no defense, the response is a little faster and slower, there will be a big difference, and these he did not look at, can not be assessed.

But one thing, he can confirm it.

That is sure to blow them up!

This is also the main reason why he has to follow up to make up the attack.

To deal with such a strong \*\*\*\* level, the opportunity is a rare event. If you miss it, it will be difficult to kill it after you recover.

The opportunity cannot be missed, so he reappears after the strong shock wave is over.

Shen Lang himself has certainly done a full range of protection, and once it appears, it quickly searched.

Smoke and dust are filled with a huge range, but with the knowledge of God, he quickly confirmed a few points.

The scorpio ancestors and the elk ancestors are in two directions. They are in a state of standing. They seem to be injured, but they are not sure about the severity of the injury.

There are also two directions, including Shen Yang and Zheng Zheng.

Their distance is much farther, and people fall into the ruins. The whole person is already riddled with holes, and the rescue is not of much value.

Zheng Songlin and Su Feng have no traces of this, so under the shock wave, there is no trace of even a trace.

This is in line with Shen Lang's estimate.

Zheng Songlin and Su Feng, the impact of death is not big.

The two influences of Shen Yang and Zheng Yu are relatively large. They are the heads of the Kunlun School and the Ginkgo Valley Contemporary!

Don't look at the ancestors, they are the primordial juniors, actually the mainstay of the sect. And going out to the outside world, they are all great people!

Not to mention the Imperial Gate, it is a small martial art, there is no reference value.

Just like the major sects of Tangcheng, the elders of the head are often the peaks of the half-sex, and the ones that are stronger are the big celestial beings.

The flow of Mo Fei from the peak of Daxian is already around the voltage regulator.

On the same day, in the autumn forest Jianzong, Long Yao and Mu Xiyang, who were killed by the dog \*\*\*\* to Shen Lang as a "tonic", have been honored as ancestors, but only Daxian Peak and Daxian.

Their death, small, directly affects the operation of the martial art. Even if there are early successors, this is a sudden situation and is temporarily launched.

Another, there is a great possibility, they will continue to maintain for decades, the real successor is the leading rookie such as Zheng Songlin and Su Feng.

Now the successor is dying, and the head is about to hang. It will be a heavy blow to the Ginkgo Valley and the Kunlun School.

The two ancestors are still alive, at least to keep the scene, but also to maintain the overall situation, and the supporters take over the position, after recuperating, and have the opportunity to continue to maintain the sect in the future.

It is a pity that they are already crazy!

Shen Lang showed that he did not meet the “magic treasure” and “secret” that he had in his age, so that they would want to be more dependent.

At this time, Shen Lang must be killed, of course, the purple ancestors and the elk ancestors.

If the scorio ancestors are interested, he may be able to let go of a horse, but the elk is no one to say, you must kill it!

Two sables and elk, of course, this is also very clear!

When Shen Lang reappeared, they immediately realized that it was directed at them and they wanted to continue to do them!

Perhaps in the hands of Shen Lang, there is such a powerful magic weapon!

In their realm, I don't know how many years have not been jealous, but today, this time, it's not just taboo, but even a trace of fear!

However, Shenlang's dragons saw the way they didn't see the tail, which made them very headaches. Just now they have verified that they are both hands together, that is, under the defense line that the great gods can be involved, Shenlang can still disappear magically!

If Shen Lang no longer appears, then they will not be embarrassed, do not know where to search, can not go to ask the cold autumn?

I have to do too cold autumn!

Therefore, Shen Lang can still appear now, even if it is clear to kill them, let them be more jealous, more expectation and excitement!

The sables of the sable and the elk have no need to discuss, they gather directly from different directions and then to the middle.

Shen Lang is still appearing in the same place, letting them be more sure that Shen Lang will leave there and they can only go back there!

Even... people didn't leave, just invisible in place!

There is nothing impossible about this. The elk used to use magic weapons to hide behind the waterfall. If you don't search carefully, it is the great \*\*\*\* who can hide the past.

Shen Lang may have a more advanced magic weapon.

This conjecture is equally exciting.

Shen Lang is far worse than them, so they need to hide invisibly; if they master such a magic weapon, they do not need to hide, invisible can be used for sneak attack, and can directly do not be inferior to their ancestors!

In that case, for them, there will be limitless possibilities!

When they both rushed over, Shen Lang was out of their lock!

The sable and the elk can't help but lick!

This is cheating!

What is special about relying on the magic weapon to hide What is this skill?

Have the ability to come directly!

More importantly, just now they have felt that the shape of Shen Lang has moved, which means that it is no longer the place before it. If it is hidden, it will be difficult to grasp where it is.

However, the words came back. The general impact of the nuclear explosion has destroyed all the peaks in the vicinity. The waterfalls of Baizhang are gone, the mountains are gone, there is no reference, and it is difficult to lock the specific location.

Even if they were secret, they did not stop rushing.

Soon the two wounded \*\*\*\*\* ancestors had met in the smoke and dust.

At this time, they are rediscovering the traces of Shen Lang!

It turned out that this time, Shen Lang was not a direct “invisible” disappearance, but left the place at a rapid speed. They were out of their locked range and did not respond.

Now both pairs of the gods track the past, but find that Shen Lang has reached the face of the heavy Zheng Zheng!

What are you doing here?

Zheng Zheng has been scarred and has been dying. Is it going to be a poisonous hand?

Chapter 1739 - Head of resources

After the two of them met, they found that Shen Lang went to Zheng Zheng.

The situation of Zheng Zheng and Shen Yang is of course clear. They have reached this level. It takes time and strength to save. It is a waste person to return. It has little meaning.

The peak of a big fairy has become a waste, and there is no face and confidence to continue to live.

So whether they are shocked or angry, everything is looking forward. How to fix the waves is the best solution to make up for the losses.

Just after the re-emergence of Shen Lang, they thought they wanted to do something with themselves and immediately step up their time.

The result is that Shen Lang is going to the scarred Zheng Zheng!

Is there human nature?

Don't let it die, do you have to kill it in advance?

This is too much, right?

They have treated Zheng Zheng and Shen Yang as dead people. This is not about Zheng Yu's life and death, but the anger of Shen Lang's move.

They couldn't let go of the waves, so they quickly chased the past.

Zheng Zheng and Shen Yang were both shocked far more than the two of them, and they just gathered together in the original waterfall area, one after another, and now they are farther apart.

Shen Lang has already shown its speed. The Zizu ancestors and the elk ancestors did not dare to neglect, and quickly rushed to the past.

At the same time as they are on the road, their knowledge has locked in the waves. No matter where he flees, it is necessary to make clear that he cannot be lost.

For both of them, the time required is only a few seconds.

Shen Lang went to Zheng Zheng's face, and a sword appeared in his hand. He quickly cut a finger of Zheng Zheng, and cut his throat by the way!

At this time, Zheng Zheng had no resistance, and he could only watch himself being killed.

I was aware of the sinking waves, and the two people who turned around and flew over, I sensed this scene and immediately understood what was going on!

It turns out that Shen Lang is not a human being who beats the dog, not to kill a wounded person who has died.

It is to win the ring of Zheng Zheng's hand!

That ring is not a treasure of the door, but a ring of storage magic!

As the owner of Ginkgo Valley's contemporary head, this storage ring that he can carry with him, of course, is indispensable!

Take the small door of Yuxianmen as an example. The daily affairs are responsible for the long sky, and the younger Jingjing style.

However, all the resources of Yuxianmen are of course in the hands of the guardian Qingcheng.

Qiu Lin Jianzong is also the same, everyday is not responsible for a lot of affairs, including Yang Baotian and other seniors, but the core resources of the martial art, certainly in the Mo Fei flow.

The ancestors like Gao Hanqiu have rarely appeared in themselves, and even the general disciple disciples do not know that he is still alive. Nothing will manage anything.

To put it simply, there are very few resources that allow the ancestors to intervene and master the resources, that is, the spiritual pulse. Other valuable resources are in the hands of the head of the family. The lower common resources are at the middle and bottom.

At the beginning of the two sabres and the elk, I found that Shen Lang went to attack Zheng Zheng. I didn't even think about this. In their view, Shen Lang is going to disgust them, to be in front of them, to kill them. .

Now that I have sensed this scene, I understand that the smashing of the waves is to disgust them. This is to take away all the resources in the hands of the masters of the Ginkgo Valley.

A head is dead. For such an older than 200-year-old, it may not be grievous, and it will be replaced by other people.

Zheng Yu and Zheng Songlin, the representatives of the older generation and the younger generation, have died and can afford to lose. It is because they have enough resources.

As long as you give a certain amount of time, you can still re-train the successor, the loss is definitely there, but it will not hurt.

But now it is different. If the resources in the hands of the head of the valley are all taken away, it is the root of the door!

It is true that some of the strategic reserve resources of the sects will be stored in the form of forbidden places and secret rooms.

But as the head, the strength is already strong enough. This time, I am walking with my ancestors and I will not worry about security.

In addition, a very important part of the Yaochi event is the circulation of resources.

This is a once-in-a-century event, and this time it's just a short-lived remnant of the millennium.

Therefore, in addition to the resources that the head will carry every day, more Yuan Lingshi and other items are generally prepared for trading.

Some are for the purchase of others, and some want to sell.

How much was bought and sold at the time was collected by the head. The ancestors disdain the account, the younger generation is not qualified to manage.

Shen Lang took Zheng Yu's storage ring, and even if he didn't make all the Ginkgo Valley's homes hollow, it's at least a lot of money.

This loss even surpassed the loss of his head!

When he took the ring, Shen Lang did not let him continue to wait for the pain, and he stopped him.

Then he let his body merge with the surrounding environment!

The two great gods have come to kill, and it is no longer possible for Shen Lang to be faster than them, but the integration into the environment is different. He can go directly from here to there without having to hurry.

The elk and the purple ancestors who quickly chased all the way were very angry.

This is the person who killed their martial art, but also the resources of their martial art. It is unbearable!

Because the people who work directly in Ginkgo Valley, the elk is especially angry.

The scorpio ancestors did not gloat and sorrow, because it was just a choice of Shen Lang, and if he gave him the opportunity, he would definitely not miss Shenyang!

Therefore, the elk ancestors are going to kill the waves and recapture everything!

The sable ancestor is going to kill Shen Lang and avoid him from moving the Kunlun faction.

Their speed is very fast, and they also watched that Shen Lang had not had time to leave. It was inevitably a little excited, and it was necessary to catch him!

The result is that under the visible distance of the naked eye, it may be able to catch up in a fraction of a second, and the sudden disappearance of the swell!

“Fuck!”

The elk couldn't help but burst into a big bang.

Even at such a young age, such cultivation can not stand the repeated play of Shen Lang.

Specially hide again!

Do you want a face?

Have the ability to come face to face once!

Will it bully and weak?

Both of them are in the heart!

However, there was no stop, and people immediately went to Zheng Zheng's body.

Since Shen Lang disappeared here, according to their speculation, it should still appear here.

This time, they decided to wait. However, it is also considered that there may be an explosive magic weapon, and a full defense is first made.

But this time, Shen Lang is not hiding in the space of Tianshu, but directly transferred to the other side of Shenyang!

Chapter 1740 - Great god

Shen Lang just did not rush to leave, that is, no integration into the environment, so that they can do whatever they want, and the heart moves freely, and directly transferred to the side of Shenyang.

In this way, the two sabres and elks that just passed Zheng Zheng's side are farther away from him.

Because both Shen Yang and Zheng Zheng are far from the center of the shock wave, they are in different directions.

"You, what do you want to do..."

Shenyang is also a devastating situation. The situation around it has been unintentional, and it has not been able to sense Zheng Zheng's situation far away.

Suddenly I saw Shen Lang appear in front of him, and he panicked.

"I want your things."

Shen Lang did not talk nonsense with him. When he said one sentence, he had already handed a knife down. Like Zheng Zheng, he directly cut the storage ring on his hand and cut off the neck of Shen Yang.

"not good!"

The purple ancestor who is waiting for the defense while thinking about the side of the sun.

Although he instinctively felt that the waves could not be rushed so quickly, the speed had already surpassed them, and their consciousness was locked. If Shen Lang left, he should be able to feel its trajectory.

But he still felt uneasy, so the gods sensed the past in Shenyang.

The elk ancestors did not have to wait until the purple ancestors said it, and when they saw his expression change, they also reacted. The same \*\*\*\* sensed the past.

Both of them saw the scene where Shen Yang was killed. Like Zheng Zheng, everything was taken away.

Shen Yang is the head of the Kunlun School, and he has a lot of resources in the hands of the Kunlun School.

The speed of Shen Lang can be so fast!

He is not only invisible, but invisible and can leave at such a high speed!

This is simply unreasonable.

Both of them are all God's warning. In this range, if someone can leave at such a high speed, that fluctuation is enough for them to sense.

If Shen Lang is flying at high speed after stealth, it should have exposed the trajectory to them. How can it be traced?

But now there is no time to analyze this.

Since Shen Lang is not invisible here, they are guarding here. It is a very stupid bird's behavior. If you don't hurry up, people will run again!

The sable and the elk have to transfer at full speed and chase the past to the other side of the city.

This time, the distance is farther. They have no point in their hearts. If the waves are going to go, they have no chance to catch up with the incredible speed and means just now!

After Shen Lang had killed Shenyang, he closed the ring and then stood still. It seemed that they were waiting for them to come.

This attitude is also arrogant!

The elk two people who were coming over at full speed, the gods sensed that Shen Lang waited for them, and they felt that this kid was too embarrassed.

But in addition to this feeling, I feel that this is not a trick!

His strength is obviously not as good as them, standing and waiting for them to attack in the past, isn't he looking for death?

If you look at this wave, you won't be looking for a dead person, so there must be some trap tricks!

It's just that they have no way.

On the one hand, there are traps for not seeing the broken waves; on the other hand, even if there are traps, they must pass, or else they will not be able to chase after he ran.

When they chased half the distance, the Shen Lang locked the waves, and the figure disappeared again!

The two old men have not had a heartache in their belly...

This is too wrong!

In the context of their great gods, the level of the ancestors, when did they encounter such lazy and rogue enemies?

If you don't win, you have to win, you have to fight!

This completely depends on the magic weapon or the secret technique to hide invisibly. There is no such thing as a demeanor.

But now the enemy, they condemn can not condemn.

The strength of the other party is not as good as theirs, age, seniority, etc., not as good as them, hiding, is a normal choice, and will not involve issues such as grace and face.

But the two of them can't be cracked!

If you have the ability to crack, no matter how Shen Lang hides and hides, you can grab it and do it. That is the big heart!

Now, as the two great gods, they have been swayed by the other side, and they have the ability to do their own work. There is no room for display, and they are depressed.

However, the depression is depressed, and the grievances are wronged. They have no other way. They can only rush to the place where the Shenlang disappeared to see if there are any new clues...

At this time, their two bodies, still flying fast in the air, directly as a residual image, flashed in the smoke.

At this time, they flew on the route of the march, but there was a person out of thin air, a regular iron rod in his hand, and intercepted directly to the two of them!

The disappearance of Shen Lang has just disappeared into the space of Tianshu, but it is integrated into the environment, shifting to the past and waiting for them!

Just now, he seemed to stand still and watched as the other side attacked. On the one hand, it was for integration, and he entered the realm of harmony between man and nature. The other side was also more accurate in estimating the route and distance of the two routes.

Therefore, even at such a high-speed moving moment, Shen Lang can appear calmly, and just a good stick out!

Because the speed is fast enough, because it appears too abrupt, the purple cicada and the elk two can't dodge!

However, the two of them have already prepared a bomb to defend again, even if they are on the fast track, the defense level is very high.

Moreover, their defenses are also free to move, and immediately form a strong protective layer around them.

This is all instinctive response. The next step is to counter the Shenlang.

Shen Lang is the strength of Daxian Peak. His attack was just an iron bar. They didn't feel the super magic weapon.

Even if you stick to a stick, it is nothing at all.

It feels like two adults. Just like a kindergarten kid who is rushing with a wooden stick, what about letting him play a club?

Let him play a stick, but instead have a close opportunity, he can directly hit his neck!

Between the electric and the flint, the elk and the cicada quickly tried to attack and grab, and this time it was necessary to seize the sinking waves.

The iron rod of Shen Lang was also at this moment, and at the same time hit the body of both of them.

The two elk did not think that the attack they had prepared had not yet begun. They were hit by the impact of the stick, and they fell directly from the air to the ground, and they fell into the ruins of the collapsed mountain!

At that moment, they had only one thought – this stick is definitely not attacked by Shen Lang, which is not inferior to their power!

But what is the use?

I don't admit it, I don't believe it is the power of Shen Lang, they all smashed such a stick!

And this stick, that powerful force, makes them almost dizzy in the past!
