

## First Strong 1741

Chapter 1741 - Manic differentiation

The power of this stick will be so big, they did not think of both of them.

But this is not only an objective change factor but also a subjective factor.

The objective factor is of course because the strength of Shen Lang is skyrocketing. Now the power of this stick is far from the strength of the Great God, but the level of the Great God!

The subjective factor is that they think that Shen Lang is only the peak of Daxian, and it is defended at this level. The result is far better than their strength.

When they were both down, they both suffered a blow to their bodies and minds.

After being hit, they fell into the deep dust ruins.

These are the dust wastes after the mountain peaks are crushed by the bomb shock wave. The unloading effect is of course much better than the direct impact into the mountain.

However, for the two ancestors of the Great God level, this subsequent impact is secondary, and it is the stick that makes them hit!

Regardless of how Shen Lang can achieve this effect, they are not afraid to be slow, they must respond as soon as possible, and now they have lost their opportunities!

For the effect of this shot, Shen Lang is very satisfied.

This iron bar, he has used it many times, and after he brought it back from the field, he gave him great help, and he always used this as the main weapon.

Later, after practicing the domineering of heaven and earth, the effect was better.

But compared with now, there is still a big difference.

This difference is a fusion of differences.

To put it simply, because of the integration of the undead, it was able to completely manipulate this weapon, but it was still a bit of “something else”.

After practicing the heavens and the domineering, there will be a more comfortable feeling, not just because of the change in strength, but also a more intimate feeling.

But these are still not as good as they are now.

Reconciliation of the skull power in the past three years, not only the strength of the increase, but also a true complete integration!

Soul, strength, practice, skill... All the sly things have been reunited in the body of Shen Lang.

Although these are inherited by Shen Lang, they are part of him, but for this magic weapon, it is equal to the owner of two thousand years ago.

The power is stronger, the play is more powerful, and the added power is the successful sneak attack.

The next moment, the two purple and elk deer came from the smoke!

And Shen Lang has already danced the iron rods quickly, and in the process of coming up in them, they hit their bodies again and again!

In the current state of Shen Lang, for this heavy iron bar, it is also possible to wave a second without knowing how many times. However, the strength of the other side is also very strong and the speed is extremely fast.

So even if you dance in the air, it's probably just three or four times.

Just three or four times, it is enough for them to drink a pot!

The two ancestors of the sable and the elk are still underestimated!

They had just been beaten by a stick and vomited blood. Of course, it was because of the sudden sneak attack by Shen Lang.

The situation at that time was too abrupt, and their minds were placed where Shen Lang was originally located, that is, the body of Shen Yang, and he did not expect that he would suddenly appear in front of him.

Even if the strength of the stick exceeds the power of their imagination, the two still do not believe that this is the true strength of Shen Lang, and feel that it is because of other ways.

They also realized that they were underestimated and would be hit by the sinking waves.

That means that as long as “not light enemy”, you can catch this kid!

And “not underestimating the enemy” is still a “light enemy”. If you really regard Shen Lang as a strong enemy, it will not be “not against the enemy.”

This result leads to their inability to judge the strength and speed of Shen Lang.

Shen Lang just hit a surprise, suddenly blocked, only hit both of them, but single speed, he will not be slower than these two gods.

When they were not allowed to prejudice, they also smashed several sticks when they had not hit the Shenlang.

This is a heavy weapon, and when the power of the great gods is gone, even if they have stronger defenses, it is still painful.

The worst thing is!

They just took off and thought about killing the waves!

This makes them not dead, but wants to keep the waves in the air.

Can Shen Lang fight to death...

The result is that their control over the air range has not been fully extended, and they have been repeatedly hit, and the retraction has been repeated.

Shen Lang is not only a crazy attack, but when he just shot down both of them, he passed a thought to the Zizu ancestors!

“Purple ancestors, I have no enmity with you. You also have no intention of my life, everything is a ghost of elk! If you help me to hold him up, we can all come over, I will still Deliver the promise, and you go to Kunlun, complete the responsibility to help you open the treasure chest! You do not believe me, you should also be able to believe in the cold autumn ancestors!”

This is of course to divide them both.

Even if he is strong enough now, he still can't single-handedly two big gods, even if they have been bombed for the first time.

Therefore, to fight for one is one, anyway, the life of Shen Yang and Su Feng, is equal to let Zi Zi ancestors pay the price for the Kunlun School.

It's just that everyone's speed is very fast, so after this paragraph is transmitted, when the purple ancestors sensed it, they are already flying up, and after being beaten again by Shen Lang!

However, this time difference, it is a miraculous effect!

If you have just married the first stick, the scorio ancestors and the elk ancestors are the same mind, they feel that because of the light enemy, as long as they do not underestimate the can easily catch the waves .

Now being hit in a row, the speed of the combo that makes them unable to dodge, and the power that is not inferior to the previous sneak attack on the stick, all indicate that this strength is no longer under them!

Of course, even so, he does not believe that this is the true strength of Shen Lang.

But no matter what way it is achieved, at least Shen Lang can exert such power, even if it is an overdraft drug that has a strong violent effect, it can still use this power.

In other words, they want to catch the wishful thinking, and can't easily start!

This is equal to Shen Lang in addition to the super-explosive magic weapon, melee also has extraordinary means!

In this way, if Shen Lang negotiated cooperation, he would listen to it.

Nowadays, everything is very different from the original plan. The sable ancestors said that there is no complaint against the elk, it is a fake.

There is no better way. It can only be the cooperation, the acquisition of Shen Lang, the recapture of the Kunlun faction, and the split of half of the benefits to make up for the loss.

At the moment, Shen Lang gave him another choice.

Zizi ancestors quickly calculated the opportunity, and the elk with the elk to seize the opportunity of Shen Lang, but instead cooperated with Shen Lang to ban deer, the probability of success is very high...

Chapter 1742 - Haotian suppression

The purple ancestors are not considered to be wall grasses, but people will have to think about their own interests.

He will choose to make a reservation for the first time, for the benefit, which is the lowest cost and risk.

Before the elk will be persuaded to acquiesce, but also for the sake of interest, even if he acquiesced, there is no cold autumn here, the elk should also be ten.

As a result, Su Feng and Zheng Songlin were directly blown up. After Shen Yang and Zheng Zheng were also severely damaged, Shen Lang took the storage ring and killed it.

Including themselves, they are also injured.

The injury of the blast wave was injured by the iron rod.

All of everything, proves the power of Shen Lang!

Don't look at him, he's just a person, just a young man with the most big peaks, but he has the means to be stronger than the old guys.

Continue to attack the Shenlang with the elk, it is possible to win, but even if you win, it is very likely to pay a heavy price!

And the invisible means of Shen Lang's unconsciousness is probably not a win!

When you can't beat you, just hide. Have you just used this tactic all the time?

Besides, even if I really settled the Shenlang, I am willing to share with the elk of the elk.

Maybe when the bird is hiding, kill him first!

When it was time to declare that Shen Lang was taken away by him, he was already dead. Where did he go to reason?

Then leave the Kunlun faction with endless troubles!

Conversely, if he and Shen Lang together kill the elk. That procedure is very justice!

Elk wants to set up to capture the waves here. He disregards his personal friendship and stands on the side of justice and protects the waves.

This can be said to be straightforward!

Of course, you can also hide it, directly when this has not happened.

Since the elk is hidden and set up, it is a loss. Even if there are many other people in the road ahead, even if everyone knows it, they can't come up with it.

Always in this choice, Zi Yan has no harm.

What is needed is a psychological barrier – rebelling against old friends.

This is actually not a sad thing. After all, Elk first sorry for him, first stirred up his bureau and trapped him injustice. It's not too much to let Shen Yang and Su Feng die, and blame the elk's head.

The head of the big sacred ancestor is like a supercomputer. The computing power is far better than that of an ordinary computer. These thoughts have completely passed through one mind.

And when all the conditions are sorted out, what he needs is a decision!

He hesitated before, and then chose to swear by the elk.

This time, it is a direct decision!

It is said that just two of them, people are still in the air, being mad by the waves, continue to fall below.

The elk is of course thinking about going to the plate, although the few hits have hurt him, but he can afford it.

The stronger the Shen Lang, the more he wants to get the waves!

The elk's mind is on the body of Shen Lang. I didn't think of the old friend who was falling down next to him. He will suddenly shoot at him!

They are similar in strength, and they are friends who have known each other for many years and are familiar with each other.

In addition, when the time is consistent with the outside world, the Kunlun faction also died two, and Zi Yan himself was seriously injured.

The elk did not think that the purple scorpion would be persuaded to be anti-water at this time.

The result was that when he was preparing to attack the Shen Lang, he was first attacked by Zi Yan and was immediately shackled into the air!

The elk whole man was unable to move in the air and was completely banned in a small space. This piece was completely controlled by the purple cicada.

Shen Lang just made a big difference to Zi Zi's ancestors, but did not think that this old guy can be so decisive.

Since the elk is now under control, he is certainly happy.

However, the strength of the elk is also very strong. Such imprisonment is only temporary. Once the purple scorpion is slightly relaxed, he may be freed from it.

Therefore, when Shen Lang quickly flew over, he said nothing, but took the Ba Tian Tower directly, and then absorbed the elk!

The Ba Tian Tower is really overbearing. It is the field of the gods of the purple, but it is still absorbed directly by the past.

This surprised the Zizi ancestors.

Originally, he controlled the elk and did not want to be directly handed over to Shen Lang. He only expressed his sincerity in cooperation.

Shen Lang wants to cooperate with him, of course, also to show sincerity!

Going to the Kunlun Mountain “open treasure chest”, there is still a long way to go, there may be a lot of stagnation on the road, the most direct sincerity, first hand over the things of Kunlun sent to Shenyang!

Unexpectedly, when Shen Lang came, he did not deal with him at all, and he directly sucked the elk.

Such a magic weapon, so that he did not have time to blame, let yourself maintain an extreme alert, ready to flee.

Shen Lang is also trying it out. It is not certain that the Ba Tian Tower can be absorbed by people in the Great God field.

The elk is too dangerous. He can't absorb his energy, memory, etc. It is dangerous to put the dog \*\*\*\* out and eat it, so he tried it directly with the Ba Tian Tower.

The result is to satisfy him.

“Artifact 昊天塔?” The eyes of the sable ancestors who kept their guards lit up.

Just for Shen Lang actually can win people in his field, he is surprised and unhappy.

Now that I recognize it as an artifact, I have a lot of relief.

Before Shen Lang learned, this tyrant tower, it is very likely that the artifact tower here has flown to the earth, and there is another name after the dust.

It has also been confirmed later that the power of the Batian Tower was limited, mainly because of the limited strength of the people.

As his strength grows, he has already been used to repair the elemental stone. The power of the Ba Tian Tower is also getting stronger and stronger.

The expression of the ancestors of the sable scorpion is completely captured by Shen Lang, which is also sufficient. It proves that the Ba Tian Tower, or the tower of the tower, is unusual.

Shen Lang smiled a little and did not explain much.

At this time, the more you say nothing, the more mysterious.

“Thank you for the help of Zi Yan’s ancestors and profound understanding!”

Shen Lang is not close to the scorpion ancestors, both to avoid the other side attacking him, but also to make the other party feel at ease.

During the speech, he directly threw the ring of Shen Yang.

“The previous results, not my wish, you six people, I am alone. You are all seniors, I can only protect myself.”

Originally, the sable ancestors did not want to hand over the elk so refreshingly, that is, they wanted to get some benefits and see sincerity.

Now Shen Lang himself snatched the past, so that he has nothing to say.

I did not expect that the things of Shenyang will come back soon, and I also explained.

The former is sincerity, it is the interest, it is exactly what he needs.

The latter, although it is just a painless explanation, but let him listen very comfortable, this is a manifestation of respect.

Shen Lang has already been on the road, and there is nothing to say about Zi Zi's ancestors.

Chapter 1743 - Grass sea night

Now there are only two ancestors, Shen Lang and Zi Zi, and the surrounding environment is still very poor, and the sky is dark.

Look at this, it takes a long time for all the dust to settle.

They also have no thoughts to rest and stay here.

Go straight to the sea of grass!

Since Zizi's ancestors have already made a decision, of course, they have thrown away everything else. They no longer want to think about the life and death of the elk.

Nor does it mention the things of Shenyang, Sufeng, etc. Anyway, the Kunlun faction resources have been recovered, reducing a lot of losses.

The situation is already the case, the two people are a person on board.

With the teachings of the elk, the scorio ancestors are also considered in the place of the place, and try to think badly!

After all, the elk is still an old friend, and will persuade him to acquiesce in cooperation, and change to other people who have no friendship, perhaps even kill him directly!

Because the elk is familiar with his route, he appears in the foremost and most hidden place.

Other people who are not so familiar may also be a group of good martial art to unite and act together!

Then he is also dangerous, and he may not be able to walk to the Kunlun Mountains.

With such considerations, the scorpio ancestors fell peacefully.

If you follow the previous route, there is no elk, it is not only the sun, the wind, he himself may be killed!

Shen Lang is a prey, but relatively safe.

Although they have lost their participation in Shenyang, he has learned a lesson, and his security awareness is higher. In turn, it may be equivalent to returning a life.

Shen Lang is not aware of the situation, and some information is also infused by the cold autumn.

But the sable ancestors are different!

Although there are tens of thousands of miles away from the Kunlun School, from a large scale, this Cao Caohai is already near the Kunlun Mountains.

He can be regarded as a local snake!

Other martial art is definitely not as good as his route to Kunlun Mountain.

It is inside the Kunlun School, and the head of the family like Shen Yang is still not as familiar with the route.

This is the advantage of age.

Originally, it was the shortest distance route. The purpose was to rush to Kunlun Mountain as soon as possible and return to the Kunlun School.

It has now proved that it is a road of thorns, and it is too dangerous to move on.

And the big move here today in the evening should make the enemies ambush hundreds of miles nearby conscious. But farther away, it will still continue to ambush.

This is the asymmetry of information!

Before, he didn't know that others had already tacitly set a trap in the front, or did not want to think about it.

In the information, he and Shen Lang suffered.

Now it is the opposite. They already know the situation on the road ahead, and they can leave other routes, which is the loss of information on other people.

As long as they are fast enough, even if they are detoured, they can spend the Caohai to the Kunlun Mountains before others are aware of it.

As long as you arrive at Kunlun Mountain, it is much safer.

Kunlun Mountain is also a huge mountain range of tens of thousands and hundreds of thousands of miles. He can't do it well, but Kunlun has thousands of foundations, far better than the temporary remedial classes of other sects.

Now on the road again, there are two advantages!

There is no such thing as a slap in the face (the young genius of the genius is considered to be dragging his legs, and the wind is estimated to be dead...), and even the speed of the yang is still not enough.

Now, the purple ancestors and the Shen Lang, Shen Lang does not need to hide too much, and can hurry at the same speed as him.

This is much faster than the day and speed.

Also because they are two of them, and know that there are many enemies in the road ahead, so there is no need to rest at night.

This adds up to a speed that is doubled and even more.

That is to say that the distance is twice as long as the road, and it is not a tens of thousands of miles.

Zi Yan is also quite a bit of a test of the mind of Shen Lang, the constant acceleration along the way.

But Shen Lang can keep up with it, which makes him very helpless.

However, it is secretly fortunate, because from the speed can also reflect the situation sideways, that is the strength of Shen Lang, it is likely to be hidden, and really play out, may be stronger than they expected!

Then his decision to deal with the elk was a correct decision.

This is also a comfort for self-rationalization.

After entering Caohai, the route of Ziyan is a route without rules!

He refers to several major directions and then consciously has no rules.

Just because they have a fixed route, they will be set in advance. But if he doesn't even know how to go, he will be counted when he walks away.

Caohai is a huge grassland.

But in terms of it, it is also a very wide range of angles, compared with the Kunlun Mountains in the distance.

In fact, they have entered the grass sea, and they are not all the lawns of the horses, but have rivers, hills, and mountains. There are no towering mountains.

The road to the night, at their speed, is like the two ghosts in the night.

So until the dawn, I have already left the far distance.

According to the trajectory of the record of the sacred armor, Shen Lang used the location of the place where he had rested before, and combined with the map of Gao Hanqiu, confirmed that it has now deviated from a great angle.

In the past, if you arrived at the Kunlun Mountain opposite the Caohai as soon as possible according to the shortest distance, then it would be a straight line across the grass sea.

But now it is a detour to the distance, and now it is still in the grass. Continue to follow the route and go to Kunlun Mountain, but there will still be a huge gap with the straight line.

Because the scope is too large, there are also different scenery in the grass sea, some places have been dry grass everywhere, some places are still full of flowers, green and lush at dawn, Shen Lang is slowing down, then and The sable ancestors landed in a sea of flowers.

It is a sea of flowers everywhere, and it is also a very beautiful scene in this prairie.

From the beginning, Shen Lang was the dominant rhythm, and the purple ancestors had to discuss with him to rest.

After this battle, Zi Yan's ancestors are more honest. Even if he leads the way, he will explain the direction and route from Shen Lang from time to time to avoid misunderstanding.

Shen Lang slowed down, of course, he also followed the speed drop, and everyone came down together.

“Mr. Shen suddenly stopped, shouldn't it just be for the sake of seeing flowers?” After the sacred ancestors landed, they were already guarded and looked around.

Just before landing at the peak of the mountain, Shen Lang discovered the elk and other people hidden behind the waterfall. Did this the same discovery?

Shen Lang smiled and said: "There is no ambush here. If there is an ambush, I should speed up and leave."

Hearing that he said this, Zi Zi's ancestors were relieved.

He was also a bit embarrassed, in the end who is the older generation of higher realm!

"I want to wait here."

When this statement came out, it made Zi Zi's ancestors suddenly!

Chapter 1744 - 0 flower fairy

This is in the middle of the sea.

This route is chosen by Aster.

Zi Yan intentionally random walks.

Everything has decided that it is impossible for Shen Lang to meet with people to meet here.

It is also impossible for someone to know in advance that they are here at this time.

How could the Shen Lang suddenly land here and wait for someone?

After a night of driving, if he said to stop and take a break, or want to see the scenery of the sea of flowers, Zi Yan feels reasonable.

Or Shen Lang found that someone was ambushing here, and it was still okay.

After all, even if there is a wide range of randomness, it may still be ambushed, but the chance is low.

And if the other party has any magic weapon, you can observe them, or what tracking means on Shen Lang's body, it will be laid out in advance here, it is normal.

Only Shen Lang said that waiting for people here is not normal.

Of course, if Shen Lang has been in contact with who, such as Gao Hanqiu, then the other party can follow his clues, and such a person is also possible.

For a moment, Zi Yan has quickly considered a variety of possibilities, and people have remained calm.

“not friend.”

“...”

Shen Lang can guess his thoughts, Zi Yan is not surprised, but what is this?

He just thought that Shen Lang should have a clue to let people follow. I was glad that I had chosen the right one before, and I didn't do it with Shen Lang, otherwise I might have been wrapped up.

Now tell him that he is not a friend?

“It may be an enemy or not an enemy.”

Shen Lang added another sentence.

“Yes, I understand.”

Zi Yan feels that this kid is a bit confusing, and it is not easy to ask.

In fact, this time, Shen Lang is not a mystery, but really does not understand!

The reason why he stopped here is still the perception of the wheel of the universe.

When he hadn't arrived, he suddenly had a strong sense of it. It seems that there are people here, but it is not a dangerous feeling.

So he said that he is not a friend, because this is not his clear, good appointment, or even who he is.

There is no danger, but there will be changes after the meeting, and it is uncertain.

These can't be said in detail with the sable ancestors, and they have to be mistaken for the illusion.

The two stood in the sea of flowers, feeling the bursts of flowers and waiting for an unknown visitor.

Shen Lang is suddenly feeling a bit. When it has not arrived in the sky, the result may appear soon.

He has this patience.

However, patience is also limited. Waiting for one hour and two hours is OK. If you have to wait for a day and a half, he is unacceptable.

Purple is now following the rhythm of Shen Lang.

When he waits now, he is secretly healing.

With his realm, I don't know how many years have not been hurt, and I have never thought of being hurt. This time, I am not going to talk to people, just go to the Yaochi event.

Therefore, he did not carry any healing medicine, only silent treatment.

When he was on the road overnight, he was also part of the energy to heal.

Anyway, this is done by Shen Lang. For his strength, Shen Lang also has some understanding, there is nothing to install.

What makes Shen Lang and Zi Yan unexpected is that it only took more than ten minutes, waiting for the visitors, it has already appeared!

“What are you guys?”

When people are not there, the sound is first.

People are not present, all flowers are ready.

The flower sea, which was originally endless, was suddenly more vivid and the aroma was more intense. As if they are scrambling for performance, there is even a feeling of struggling to perform.

They have been staying for a while, and the flowers are naturally not changed by them.

Such a sudden change is not like the natural state of the morning.

That is all the flowers are welcoming this person!

This is a magical thing.

Are all the flowers full of spirituality?

Even if they are full of spirituality, why are they not aware of them, but they are so alone?

The sable ancestors are even more surprised, because Shen Lang said that he is waiting here, and the result is that in this grassy sea, it is really so fast, so skillful that someone has come over!

This person's mouth is "who are you?" It also shows that Shen Lang does not lie. This is not his friend, it is not an enemy, it is still difficult to say.

Since Shen Lang's chest is well-founded, Zi Zi's ancestors did not say anything, waiting quietly.

Anyway, listening to the meaning of Shen Lang, not necessarily an enemy, so he did not show any hostility for the time being, so as not to stimulate the other party, it is the alert is also secret.

Under the blooming of flowers, the speaker began to appear.

Just now people did not appear, only the voice appeared, giving the impression that people have not arrived yet, still in the distance.

But now this person appears, but it is another experience!

This person seems to be gathered in countless flowers and seas!

The previous voices could not hear men and women. Now that the human form appeared, I saw that it was a graceful dress woman.

The woman seems to come from the sea of flowers, and at this moment is over the flowers, not far away, staring at them both curiously.

"We are just over the road, there is no malice, but when we see the flowers, we will stop and appreciate it."

Shen Lang responded faintly and observed the other side.

It can be sensed by the wheel of the heavenly machine. This is definitely not the average person, but the strong perception is only to detect who will meet here, no danger.

As for what opportunities can be brought to him, it is not necessarily.

Being a friend, or becoming an enemy, is after watching contact.

At first glance, this woman is as mysterious as she appeared, and she can't see her realm.

It was also the same day that I was exposed to Fan Xueyu, but it should be that Yaochi had a secret technique, that is, the original mysterious woman, and quite a bit invisible probably for the time when they went out, let People can't see through their strength and avoid being bullied.

Now this woman, for the same reason, Shen Lang is not sure.

But seeing her can exist in this mysterious sea, it should be quite a bit of a source.

“Have you been... a flower fairy?” The purple ancestors suddenly spoke.

Shen Lang and the woman's gaze fell on the face of Zi Zi's ancestors.

Hundred Flowers Fairy?

The purple cousin is also not creative, right?

Others appear in the flowers, it is called Baihua Fairy, if it appears in Montenegro, that is the old demon of Montenegro?

However, the abdomen is abdomen, and Shen Lang still believes in his local snake. It is still relatively close to Kunlun Mountain.

“Do you know me?” The woman was a little surprised.

And her sentence, undoubtedly disguised admitted that she is a flower fairy.

Zizi ancestors were a little excited: “The old legend is that in this grassy sea, there is a vein of flowers and flowers. But not only the outside world has not dealt with it, it is the vein of

Kunlun Mountain, for thousands of years, there is no I met, I didn't expect to be able to see the flower fairy today!"

Chapter 1745 - You are not like

For the Baihua fairy, Shen Lang did not have much feeling.

Although this is also a mythological name familiar to the ancient times of the earth, there are various versions of the legend of the Baihua fairy, and the level in the myth is not comparable to Yaochi.

He even saw the martial art of "Yao Chi", and of course it was calm for the Baihua Fairy.

However, Shen Lang did not think that the purple ancestors were a little excited!

So a lot of age, still obsessed with the flower fairy?

"It turned out to be a friend of Kunlun Mountain."

Originally they were mainly two of them. Although there was no hostility, Baihua Fairy also doubted their identity. Now I heard the Zizu ancestors self-reporting the door, and also eliminated some doubts.

"We have a hundred flowers, people are not prosperous, and we cannot communicate with all of you."

"The fairy is too modest. For the flowers and fairy, we have always been admired." Zi Yan's ancestors said seriously.

Shen Lang is a bit curious.

Seeing Zizu's ancestor's attitude towards Baihua Fairy is not the case for Yaochi's head.

And he is not pretending, nor is it a guest, it is really sincere!

It is a joke to say that he is obsessed with the flower fairy. Could it be the predecessors of the Kunlun School, who had a relationship with the founder of Baihua Fairy?

Shen Lang was originally dominant.

But now is the Hundred Flowers Fairy, he has little understanding of it and has little interest.

Since the ancestral ancestors paid so much attention, it was up to him.

“It’s a chance to meet. I will give you a bottle of nectar!”

The meaning of the flower fairy is to prepare to end the guest. There were already two small bottles in her hands, and they flew directly in front of them.

“Thank you for the gift of the fairy!”

The sable ancestors thanked him, and first extended his hands and held the nectar to hold it.

Shen Lang also caught the small bottle.

For this nectar, he is not much interested. Look at the huge flower sea here, it should be regarded as the specialty of their Baihuamen.

“That won’t be sent.”

The Baihua Fairy was rude, and after they took the nectar, they went straight to the order.

“The fairy is saying goodbye. The neighboring Kunlun faction is always welcome to visit guests!”

At the same time as Zi Zi’s ancestors left, he also gave an invitation.

The Hundred Flowers Fairy just nodded and did not respond to anything.

Shen Lang only thinks that this hundred flowers fairy, very loaded, the shelf is very large, as if it is a high-ranking old predecessor.

But he just thought about it and didn't care about it.

After all, this is the site of others. They just passed by here. They have no friendship, and they still have to eat.

The sable ancestors were also active at this moment. After a ceremony with the Baihua Fairy, they signaled that Shen Lang would leave with him.

"Thank you for your gift."

Shen Lang also thanked him. Regardless of this value geometry, at least people are also a polite one.

"Wait a minute."

When Shen Lang wanted to leave, Baihua Fairy opened his mouth and stopped him.

"You are also a disciple of the Kunlun School?" Baihua fairy stared at Shen Lang.

For this question, Zi Yan's ancestors were busy helping to answer: "This is a guest of our Kunlun school, not my disciple."

Then he also had a look of hope, want to see if Shen Lang will tell his own sects.

However, this expectation is just a flash. At the Yaochi event, so many people have not let him say it. Can the face of the flower fairy be bigger?

"Can a fairy have an advice?"

Shen Lang is also polite. Although he does not understand the Baihua Fairy, it is worthwhile to maintain the polite attitude of watching the Zizu ancestors.

“You have a different smell on your body.”

The Hundred Flowers Fairy stared and said a word that had no head and no brains.

“Maybe it’s all the way.”

Shen Lang faintly returned a sentence and almost said “may not have a bath relationship.”

By the time they are in this realm, some ordinary people’s problems of eating and drinking Lazard have been skipped.

The flower fairy moved his head.

“I get along with the flowers every day, and the difference in smell is much better than the average person. On your body, I feel a different smell.”

In this case, I am very interested in watching Zilang.

Shen Lang will not tell his origins, but if the Baihua Fairy can see it, or what clues, it is an unexpected harvest.

“What is the fairy referring to?”

Of course, Shen Lang does not have the slightest tension.

As she said, she deals with flowers every day, and the flowers are also collectively called. In fact, there may be thousands of different varieties. The average person does not know the difference in smell. She may have this talent or she may be trained.

Just like Van Gogh, it seems to be talented in this respect.

What is puzzled by Shen Lang is that she does not know what she is talking about.

Is it the difference between people on earth and people in this world?

Or what other smell?

The flower fairy moved his head again.

“I can’t tell.”

After she finished speaking, she hesitated a little and took out the same item.

“I will give you another sachet with a flower seed, maybe he will have another good day.”

During the speech, the sachet has already floated in front of the sinking waves.

“Thank you for the fairy. Come and not be indecent, I will also give the fairy a gift.”

Received two things, Shen Lang is not good, nothing is said.

The Baihua Fairy frowned. “It just happened that you met me and I didn’t want you to exchange gifts.”

“Reassured, this is a gift you have never seen before!”

Shen Lang took out the previously purchased Polaroid camera, which is limited to the machine. The size of the paper is limited can’t be very big, but the advantage is that it can be imaged immediately.

The scorpio ancestors saw a “image magic weapon” of Shen Lang. This time, it is a little different, and it can be guessed.

However, this time, Shen Lang quickly appeared in the portrait. It didn't seem like the same time in Yaochi. It seemed obvious that it was not the same magic weapon, or he was surprised.

The Baihua Fairy is obviously a little alert to the shooting of Shen Lang, but it feels that there is no hostility and aggression, and it is still calm.

When Shen Lang sent the photo to her in front of her, she was surprised to see it.

“You...the portrait... it's chic. I took it.”

If Shen Lang is going to give her something, she won't want it, but this portrait is really realistic, it is only her life.

There are no other people here, and there are no opportunities for ordinary portraits, let alone such sharp photos.

Therefore, Baihua Fairy is also happy to accept the return of Shen Lang.

The purple ancestors are next to them, and watching them is a bit of a taste.

He is a neighbor and has a good attitude. As a result, he is more interested in Shen Lang, and he is more fragrant.

The things that Shen Lang gave were also the happiness that women could not refuse.

Chapter 1746 - 0 flower legend

Hundred Flowers Fairy is also an episode, and will not be more interested in Shen Lang because of a photo.

Shen Lang and Zi Yan's ancestors immediately left the vast sea of flowers.

The departure of this time, their speed did not rush like the last night, but on the side of the road to communicate.

Shen Lang knew nothing about the flowers and fairy, and couldn't help but ask.

“The attitude of the ancestors to the Baihua Fairy... Is it because of the relationship between Baihuamen and Kunlun?”

His brain is filled with the plot of the attitude of the whole truth to the ancient tombs.

The sable ancestors were surprised.

“You don't know the flower fairy?”

“What do you mean?”

They have not left the scope of the flower sea at this moment, but also flying in the air, of course, not sipping a conversation, but directly transmitting to the other party's ears.

The sable ancestors finally had a sense of superiority in front of Shen Lang.

Young people are young! Not everything is omnipotent.

After eating in the evening in the evening, he was a little bit unrecognizable, and of course he would not miss this opportunity.

“The flower fairy is not too small! According to legend, the flower fairy is almost the same as the existence of God!”

“...”

This statement really surprised Shen Lang.

Following the intrinsic impression of the myth of the earth, he felt that the Baihua Fairy had a lower level of existence than Yaochi. Now he has seen the head of Yaochi, and of course the Baihua Fairy is just that.

Seeing him astonished, Zi Yan's ancestors had a hint of pride, as if he was famous.

The name of the flower fairy is not the same as the name of the Yaochi disciple. The latter has the characteristics of the guest set, and it is only called "Snow Fairy" for Xue Feixue.

The Baihua Fairy is a special title.

As she said, a hundred flowers and a pulse are not prosperous. In fact, Baihuamen often has a single pass!

Therefore, the Baihua Fairy basically refers to Baihuamen. Master's apprentices and disciples are often at the head. Sometimes there are only two. Sometimes there is only one.

According to Zi Zi's ancestors, Baihuamen has a heritage of ancient times and has a long history. And there is a unique secret technique that can communicate with all things!

Like the huge flower sea they have just seen, it may be hundreds of millions of exotic flowers!

Of course, these exotic flowers are not only responsible for good looks, but also contribute fragrance. But to contribute energy to them!

There are some flowers that will produce results, some will not produce results, and all of them will not produce results. Because of their energy, during the flower period, they all contribute to the flower fairy, and will not wait until the result.

The flowering, pollination and the like of these flowers are all controlled by the artificial blossoms of Baihua.

This is what they have been raising for generations, and all of them are of extraordinary value.

However, this value can only be harvested by them. If the outsiders pass by here, they can only pick up the flowers to refine them. It can only be one-off.

Just like when she appeared, all the flowers were rushing to the fullest, in the form of scent, giving her the energy of not knowing how long it has accumulated.

In addition to regular harvesting, the Baihua Fairy also protects them at other times.

And don't look at collecting flowers, nectar, etc., the effect is very amazing. Perhaps it is also related to their small number of people, plus the entire grassland has a huge flower field that does not know much.

If there is nothing like this, the mythology of the martial art, boasting various abilities, etc., is what every martial art will do.

Just like the Qiulin swordsmanship was created by Gao Hanqiu and Lin Biao, it is certainly fictional or clinging to a history.

What really makes Zizi ancestors so good is that in the past, Kunlun sent a generation of ancestors, and when someone passed through Caohai, there was an experience of witnessing!

When the people who were in the same industry saw the huge flower sea, they thought about gathering a large number of exotic flowers and flowers to the alchemy.

The ancestors of the Kunlun School are of course persuading not to tell that this is the flower sea that the Baihua Fairy maintains. It is only needed to refine the medicinal herbs. It can be collected in other places, or use other spiritual medicines.

The ancestor was interested in it. He knew that he needed to use a huge amount, and the effect of the pharmacy was limited, but he wanted to provoke the hundred flowers.

At that time, a large number of flowers were collected and destroyed, and then the flower fairy appeared.

The Kunlun ancestors also wanted to play the round field. As a result, the ancestors of the great gods were directly crushed by the flowers and fairy!

The ending is a fragment of thousands of pieces, falling into the sea of flowers, providing nutrients for the exotic flowers!

This scene deeply shocked the ancestor. Fortunately, the other party knows that he did not start, there is dissuasion, so nothing about him.

But an ancestor disappeared in Caohai, and it was a Kunlun faction. Of course, you need an explanation!

In order to wash their suspicions, the Kunlun ancestors detailed this passage.

Since then, the Baihua Fairy has gained fame.

Let everyone know that in the hundreds of thousands of miles of grass and sea, there are hundreds of flowers and fairy flowers, which is a fierce generation that can not be provoked!

Therefore, there are hundreds of millions of flowers in the sea. In this prairie, there are many such seas of flowers, but no one is disturbing, or this is regarded as an unowned object.

Other martial art, do you really believe that this version is not known, at least the Kunlun faction has been educated for generations, and definitely not to provoke the flower fairy.

Because there are many such flowers, so Shen Lang stopped, and said that waiting for people, Zixiao ancestors did not think much.

But after seeing the woman who appeared in the flowers, it was confirmed that after the flower fairy, his attitude changed immediately.

This allusion made Shen Lang a bit surprised.

But think about it, there is nothing.

Perhaps the generation of flowers and sorcerers that Kunlun sent to the ancestors encountered was extremely powerful plus the ruined flower field, naturally it was furious and vented.

Not equal to each generation of the flower fairy is so powerful, and as long as it does not destroy the flower field, there is no need to worry.

“And, the nectar of the flower fairy is not the usual nectar, but a good thing that is comparable to the heavenly treasure!”

“Don’t look at it, just give us a small bottle. The weight of this is probably a million flowers, and it will take decades or even a hundred years to collect the harvested nectar.”

Shen Lang just thought that they just sent them away at will, but I didn’t expect it to be so rare!

“Oh... maybe it’s still a friend of Shenlang and you have a relationship with Baihua Fairy! If you didn’t stay with me, I’ve come to Caohai so much, I haven’t met it, I didn’t expect to encounter a flower fairy.”

Originally, the purple ancestors were still a little unwilling. Now calm down, but they feel that they are stained with the light of the waves.

“The fairy is obviously also a special feeling for you. Hundreds of nectar may be for your sake. The sachets donated in the back, since they contain flowers, are not necessarily the best. I hope to collect them!”

“That is natural...”

Shen Lang smiled a bit. Originally, he really wouldn’t be the same thing. Now, it seems that it is really not normal.

Chapter 1747 - Paranoia

After knowing the legend of Baihua Fairy from the ancestors of Zixiao, Shen Lang paid more attention to it.

What surprised him even more was the wheel of the universe!

His own predictions are similar to a dangerous instinct, not only for himself, but also for those close to him.

But now the wheel of this day is not only dangerous.

It will be another matter to see you again with the flower fairy. At least today is indeed worth staying at, and it has also gained a certain amount of gain.

The success of the two times made Shen Lang pay more attention to it.

This time twice, it is already worth the price!

Otherwise, it is really dangerous to play sneak attacks in the realm of the gods like elk.

And the road ahead, he needs to be more careful!

For the mainland of the island, he once thought that he had seen the essence, but it was a world of higher-level cultivation and civilization that was better than the earth and a wider territory.

The more you experience now, the more you discover that it was just the tip of the iceberg, and there are a lot of unknown possibilities.

The Baihua Fairy that happened to be seen today, he didn't care much, but he also had a lot of experience, and it might be terrible!

What about the other sects?

The great ancestors of the Yaochi meeting, their teachers, are they also have special abilities and magic weapons?

Just like the elk can have a magic weapon to hide them all, even the purple ancestors are not aware of it for a time.

Other sects, perhaps also traced, were placed on him in advance!

This point is not sure about Shen Lang. After all, at the time of the Yaochi event, everyone was in close contact with each other, and others may have the means to show no trace.

Or what other people have magic weapons, you can anticipate changes in advance.

These all determine a point – they are detoured, it does not mean that there is no danger!

Therefore, when I continued to rush with the scorpion ancestors, no matter how he emphasized that it was a random chaotic route, Shen Lang still maintained the concern for the wheel of the celestial plane.

“Shenlang Xiaoyou, you can clearly see the Kunlun Mountains here, but the contents are only a few hundred miles. After entering the Kunlun Mountains, you still have to work hard to follow me.”

After being able to finish the grass sea, and did not encounter an ambush, the purple ancestors were already secretly relieved.

When I entered the Kunlun Mountains, even if the scope is huge, I have a little feeling of home at home.

Now it is equal to more than half of it.

“Very good. Followed by the sable ancestors, I also greatly developed my knowledge and saw a lot of scenery. I believe that the scenery of Kunlun Mountain will make me more memorable.”

Shen Lang is telling the truth.

Whether it is the recent route or the detour, it is a great extension for the “map” for him, and there is a lot of information collection.

For Kunlun Mountain, he is also really interested.

This is also a large mountain range in the West of China. It is also a mythical legendary mountain. It is also very happy to have a chance to visit here.

Listening to the ancestors of Zixiao, this is a guest sentence. However, it is also considered to be the respect of Kunlun Mountain. It is still very comfortable to listen to.

“We will not rest, spurt and continue to accelerate!”

After the scorpion ancestors and Shen Lang ventilated for a moment, they began to accelerate to the past.

Going all the way, crossing the grasslands of the last hundreds of miles, came to the foot of the Kunlun Mountains.

Kunlun Mountain is an extremely large mountain range. At the foot of this mountain, it can only be regarded as the edge of the mountain.

However, there are few people in the vicinity. There are no other names for the mountains and rivers on the edge. They all went to Kunlun Mountain.

“Slow down, it’s suitable for ambush.”

The sudden opening of Shen Lang made the purple ancestors silent for a while.

This is just the small mountain peak on the edge of the Kunlun Mountains. It is not even qualified to be called the Kunlun Mountain. It is also not close to the precipitous. How can it be suitable for ambush?

He felt that Shen Lang is now a little cup of snake shadow. When he saw the mountains, he suspected that someone had buried him.

But now, when he wants to rely on Shen Lang, he is still slowing down.

“Well, we are all careful, maybe someone is ambushing.”

The scorpio ancestors, of course, just ran along with Shen Lang.

As a result, he slowed down and found that Shen Lang had taken out his iron rod, and raised it in his hand, as if he had to fight with people at any time.

This is a bit of paranoia...

But he can't say anything because he is involved in this ring.

Just when he was speechless, there was a sudden perception, ahead...

There were three people in front of them, all wearing masks that clung to the face, blue, red and black.

These three people are not hidden, flying directly above the mountain, so they are waiting for them.

I just didn't see it when they flew over, that is, they just jumped up.

This time, the sable ancestors have a hint of admiration for Shen Lang!

I have just spit out others who are guilty of paranoia. Now I realize that people actually discovered the enemy before him, but it is a rumor to remind him!

Look at this situation, others will wait for them, if you want to turn around and run, or go around, it is unlikely.

These three are obviously the realm of the great gods, and they must have been the ancestors who have seen them at the Yaochi event.

They wear masks, they just don't want to reveal their identity, maybe they have changed and changed.

Regardless of whether the relationship is good or not, you can avoid everyone's embarrassment.

The purple ancestors hesitated a little and went straight down to a mountain below.

Shen Lang also landed with him.

The three ancestors in the opposite air, also quietly, fell directly on the opposite side of a mountain, everyone across the valley.

"Who are you, what do you want to do? Do you want to relax in my Kunlun Mountains?" Zizi ancestors asked.

"Purple 瞳 Don't talk nonsense, everyone knows it well." The face masker said directly.

The purple ancestor's expression is condensed, and the other party is a clear-cut car.

No wonder the elk will say that even if they avoid the elk, there are other people, and others may even act together!

The elk just took Zheng Zheng and two people. Now the other party is directly with the three ancestors. There are no other weaker legs.

"Purple, the two people you brought are gone, compared to being killed by others. If you continue to obsess, the result is that your life will be lost!"

"Hand over the waves, we will not let you go in the Kunlun Mountains, you can safely go back to the Kunlun School. Otherwise else..."

The two men in the blue and red masks sang together.

They have a war with the elk, others don't know the situation, and don't need to know the specifics. Now that I saw two people missing, Zi Yan also showed signs of injury, and naturally I guess I have been attacked.

There are no abnormalities in Shen Lang. In their view, that is the result of the protection of the scorpion ancestors.

So now, they have not paid attention to Shen Lang at all, but they have only negotiated with the ancestors of Zi Yan.

The ancestors of the three great realms of the realm, there is almost no suspense for one injured, and one side of the suppression!

Chapter 1748 - Cooperate with your performance

The scorio ancestors chose to detour, that is, they did not want to encounter another attack.

The elk can complete the counterattack through his anti-water, but other people have no such effect.

If you just encounter a group of people like Ginkgo Valley, then it is easy to handle, and there are many ways to sink the waves. Plus, he should be able to eat.

The most fearful thing is the current situation...

At this level, he can only look at Shen Lang and see how Shen Lang will solve it.

Before Shen Lang did not express his position, he could only occupy the moral high ground.

"Three brothers, how about you even wearing a mask? It's just that Shen Lang doesn't know your identity, I still know who you are."

The old ancestors of Zi Yan bluffed.

They will wear masks, of course not to avoid each other's embarrassment, but more importantly, not to reveal their identity!

Even if there will be rumors in the future, as long as you don't see them, it's a rumor!

It may affect their reputation and affect the reputation of the sect.

But rumors can be rumored, there is still a lot of room to operate, as long as it is not nailed.

Therefore, the ancestors of Zixiao, now threaten this!

The other party is coming from their lives. He is based on the reputation of the other party and the other.

"Your purpose, everyone is very clear, just want to let the young friends of Shen Lang help you to open up the ancient organs of the past, Shen Lang is very good to talk, do not need this."

"After more than ten days, everyone talked about it together and made a war to meet each other?"

"I want to say, you have to find another appointment for Shen Lang. What is wrong with this."

At this time, he did not hear the statement of Shen Lang, and he promised to help Shen Lang.

His idea is very simple. Just let them flicker first, and then Shen Lang will not agree with them. What will they do with Shen Lang? It is not his business.

All he wants is to continue to invite Shen Lang to the Kunlun School and complete the purpose of this trip.

The three people in green, red and black did not speak.

Just as the Zizu ancestors thought they might hesitate and were preparing to continue to convince them, Shen Lang spoke up.

“Purple ancestors, you said the wrong thing!”

“...?”

The sable ancestors could not help but frown, and secretly groaned.

Who is who is a group now!

Even if I say something wrong, you should help round it up.

How do you say this, what good is it for you?

However, in order not to be guilty, he resisted, and did not smash.

“Why are they wearing masks? It’s not me, but you!”

“Their goal is me, and it will eventually kill me. So I see who they are, it doesn’t matter.”

“You are different. They are not sure to kill you, or they don’t want to kill you.”

“You don’t know who they are, then they have to talk. You just said that knowing who they are, you can only kill you.”

The words that Shen Lang talked about, the face of the purple ancestors was ugly.

He just thought that he was very eloquent and successfully managed to keep the other side.

Now I understand that the three of them are hesitant, but they are not hesitant to stop the action, but hesitate to kill him!

He is speechless, this is to lift a rock and lick your own feet!

The other three people did not speak, no doubt equal to the default of Shen Lang said.

However, Shen Lang has not finished, and continues to say something that makes everyone unexpected.

“But you are wrong, and it has not led to the murder, because we will kill them all. As long as all three of them die, it is nothing to destroy your mind.”

“...”

It's an accident!

The purple ancestors are simply more speechless.

Even if you have a lot of magic weapons, secret techniques, but you don't forget, you can collect the elk, not because you own the tower, but because the old man helped you to imprison people!

Laozi was able to successfully attack the elk, not because Laozi's strength crushed him, but because he did not think that I would suddenly turn against water!

Now there are three opponents, which is directly hostile. How do you let Laozi do it?

His heart is already mad.

He said the wrong words, igniting the upper body, but Shen Lang is directly fueling the fire, and the other party is even more irritated!

The purple scorpion is of course resentful. As Shen Lang said, Shen Lang is the target person. When they use it, they will inevitably kill the suffocating, so it doesn't matter how irritated.

But he himself still wants to save it, for example, that he has not recognized three people at all, maybe they can let him go.

The interests of the Kunlun School are important, but they are still the most important!

At the crucial time, he will still abandon the Shen Lang escape.

But just after Shen Lang said that he wants to kill all the other people, he is bound together, so how can he not be annoyed?

“Don’t be afraid, isn’t it the three old dogs that don’t dare to show their faces?”

Shen Lang laughed and continued to provoke: “You Kunlun and Ginkgo Valley are united by six people, and I have been killed by myself. If you don’t see your attitude turn faster, you will be killed. Why are you afraid of them? Native chicken?”

When I heard that Shen Lang said that they were “three old dogs who didn’t dare to show their faces,” Zi Yan’s heartbeat accelerated a lot.

This is tantamount to the provocation of direct declaration of war!

Even if he is ready for the battle, he does not want to participate in the battle at all!

He wants to run away!

Don’t you set the fire so fast?

But when I heard the last sentence, it was a look of embarrassment!

Nima everyone is now a group!

If you don’t even say a word, you will ugly the Kunlun faction and tell the scandal!

However, in the end, Zi Yan is also an old man. Suddenly, Shen Lang said so, what good is it for himself?

It is definitely good, or else it will not boast of no reason!

With this thought, he will immediately clear it up!

The other party has three ancestors of the great realm of the gods, relying on them three people can not beat.

But if Shen Lang is alone, he can do six people in Kunlun and Ginkgo Valley, or that he has a way to get rid of six people, the meaning is different.

This is equal to the comprehensive strength of Shen Lang, which is equal to two great realms, plus two big fairy peaks, two big fairy!

Coupled with the purple gods in the realm of the gods, it is equal to three great realms, plus two big fairy peaks, two big fairy!

In this way, they are holding the upper hand.

Of course, if this is said, no one will believe it. Before the change... No, it is now, Zi Yan will not believe it.

This requires him to cooperate with Shen Lang's performance!

Shen Lang has just blown up the cow, as long as he cooperates, prove that he really has this strength, then the other party does not believe, as long as the letter will be doubtful, do not dare to rush.

This will win a ray of life!

All the moments I want to understand, the cockroaches on the face of the sable, do not have to converge, which is actually true, and then he began to smile.

“You killed five of us, including killing the elk, and you spared me a life. But now, all the old guys are very powerful! You can kill one, two, and kill three. One?”

Chapter 1749 - Fox fake tiger

This sentence of Zi Yan seems to be a very helpless complaint, but actually it is to help the side prove the words of Shen Lang!

This revealed that the three people in the Ginkgo Valley, including the Elk, and the two of the Kunlun School were killed by Shen Lang!

Prove that he is still alive because of the life of Shen Lang!

The last question is that Shen Lang can kill two great gods and may not be able to kill three great gods.

But isn't there still him?

If Shen Lang really has the ability to press two great gods, two great fairy peaks, and two great immortals, then it is not necessarily able to kill three great gods, and the gap will not be big.

As long as the scorio ancestors can hold back a big god, they will win!

What I said before Shen Lang, in the eyes of the other side, there is almost no credibility.

Under such circumstances, he is pulling the banner for the tiger skin, and wants the fox to be a tiger.

But the sable is not the same!

He is a famous man who has been famous for a long time!

Not to mention his personal reputation, it is also related to the reputation of the Kunlun School, and even the reputation of the Elk and Ginkgo Valley!

This makes people feel very credible – he can't take these to lift the car to Shen Lang.

Especially the old man has just been a bitter smile on Shen Lang, but he is helpless. If it is also a provocative tone, then they will be more skeptical, and think that it may be a deliberate act of deliberation.

But now the effect that comes out, it seems that Zi Yan is really hateful with Shen Lang!

It is to watch the doorman and old friend die in the hands of Shen Lang, and he is also alive and well.

This will even make people suspect that Shen Lang is pressing on him to go to the Kunlun School.

But Zi Yan should not be simply forgiven, but what is clamped and has to take orders from Shen Lang.

So he just really didn't want to conflict with the three of them, maybe they recognized them, and they didn't want them to be blinded by the waves!

After considering this, the three people on the opposite side continued to be silent and had quick eye contact.

They all wear masks and can't see the change of expression.

However, if you look at it like this, they will not easily believe that it is just that the words that Shenlang sounds very ridiculous will become doubtful.

The scorio ancestors cooperated with Shen Lang to act, of course, will pay attention to the reaction of the "audiences."

Originally, because he had misunderstood and said that he had recognized each other, the three people should have a heart of suffocation, and it seems that they will soon be in trouble.

But now there is no movement at all.

This shows that Shen Lang's strategy has been successful in half!

The other three are still waiting to see, that is, they will be suspicious, and then he needs to be more convincing.

The thoughts of Zi Yan's ancestors have not stopped, and they are adjusted at any time according to the situation.

Now that I notice this, I immediately added one.

"I know, you are thinking about the flower fairy. If you help, you don't have to fear anyone. But the grass is so big, who knows where she is now, can I feel the situation here?"

At the time of this sentence, the scorio ancestors did not speak directly, but used the way of sound.

Transliteration is a means of confidentiality, but there is still a lot of room for manipulation.

Directly put the words into a line, directly into the ear of the target, such a sound, generally will not be heard.

But if the sound is only transmitted to the ear, the sound is not so thin, slightly larger, or the effect of the sound, but it is a bit like a soft, close-knit person, it is still possible to hear.

Just like a headphone, if it is an in-ear earphone, you can directly transmit the sound to the ear canal, which others can't hear. The big earphones are placed at the ear, and the sound can be heard next to it.

The other three people are on the opposite mountain, not next to Shen Lang.

But they are the ancestors of the realm of the great gods. If you want to eavesdrop, this distance is nothing, and the sound is small and can be heard.

The sable ancestors now grasp this degree so that they can hear it faintly, but they don't feel that he is deliberate, but let them feel that they have overheard his voice.

If you say it publicly, even if they will believe it, they will say hello and will not fully believe it.

Now the whisper of such a voice is a secret discussion, and it is more likely to be the truth!

Although this sentence has no head and brains, it also contains a lot of information. After the three great gods heard it, the natural brain can make up a series of pictures.

Shen Lang killed five or six people in the grass sea, most likely with the help of the legendary Baihuamen Baihua Fairy!

Perhaps the purple ancestors can survive, but also because of the flower fairy.

The reputation of Baihua Fairy is not loud. Many people don't know Baihuamen, thinking that this is a name. But these big sects with deep history are all known.

According to legend, the Baihua Fairy is active in the huge grassy sea beside the Kunlun Mountain. It is said that there was a strong man in the realm of the great gods. Because the flowers and flowers of Baihuamen were spoiled, the result was angered by the flowers of the fairy, and it was turned into a flower fertilizer!

Specifically, how long ago was the ancestor of which sect, no one knows the details.

But everyone knows that this news is from the Kunlun faction!

In concrete terms, whether it is Caohai or Kunlun, it is a huge range of hundreds of thousands of miles. But from a macro perspective, they can be considered neighbors.

If this is not the case, the Kunlun faction has no reason to raise the reputation of the neighbors. Because of that, disguise will affect their reputation.

So since then, many sects have been particularly stunned by the younger generation For this huge grass sea, it is not a forbidden place, but it must be awe.

This awe is just a hundred flowers fairy.

If they encounter a female repair in this prairie, regardless of their strength, they dare not despise.

If they encounter a large number of exotic flowers and grasses in the grassland, they will not be taken as an unowned object.

However, because the case is such a case, no one has ever encountered it. Everyone knows that there are few people in Baihuamen. It is generally active in the contemporary and old generation of flowers and fairy tales. The chances of encounter are extremely small.

Now it is out of the scope of Caohai, there is no flowering sea nearby. Normally, it will not touch the flower fairy, and no one wants to think about it.

But now I hear the words of the ancestors of the sable, but they are all slightly worried.

If Shen Lang has something to do with Baihua Fairy, he can help him kill the enemy, and keep the purple scorpion life is also on the face of the Kunlun school, then it is troublesome!

Even if the flower fairy is not as powerful as the legend, or the contemporary flower fairy can't easily kill the great god, then the attitude of the purple is at least better than him!

Then how can it be a powerful god!

The peak of Daxian in Shenlang District, can be so determined, it must be dependent, this may be his dependence!

Chapter 1750 - Be a traitor again

The lie of the highest realm is to reach a lie with the truth.

The most confusing lies are true and false lies.

In the case of Shen Lang, the reason why I can't win the other three is because it sounds too fake.

Purpura can increase credibility because his reputation and so on are real. Taking the reputation of him and the Kunlun faction to make a holiday, the lie also seems real.

And because this is the truth, his bitterness and embarrassment are real reactions.

The same is true of the flower fairy.

If you fiction a very powerful force, others will not believe it. But the flower fairy is real, but very few people have encountered it.

The more people have seen it, the more mysterious it is, the more it is believed.

This is the place where Caohai and Baihua Fairy are active.

Everything sounds like a logical thing. Even if there is anything unreasonable, they will make a rationalization.

Up to now, it has become three of them very embarrassing!

They are coming to block the waves, and they can't always listen to others.

"We are not malicious, just need you to open the secrets of the ancient organs, as long as you hand over, we will leave immediately!"

"We will not hurt you anything, we will not kill anything, we can also give compensation."

“Shen Lang, you can think about it, this is a win-win situation.”

“We just need to master, and won’t take you away. You can’t use it anyway, share it with us and there is no loss. You don’t need to bother you to run around, you can get compensation. You have more!”

They couldn’t stand it, and all three people spoke.

This time, both the tone and the attitude have obviously improved a lot.

Zi Yan listened, a little relieved.

He realized that the acting disguise had been successful, and the other party was scrupulous, so it would become better to speak.

If Shen Lang can accept the other party’s conditions, then it is really safe. – How is Shen Lang still uncertain, at least he should be safe.

However, he still needs to wait and see the attitude of Shen Lang. With the urine of Shen Lang, it is estimated that he will not agree.

Sure enough, I finally opened the waves and smashed the past!

“It sounds very reasonable. Your wife, I can’t use it during the day, I will share it with other men, and there is no loss. I don’t need to bother you to feed her. Others can give you some money to compensate. It’s so much!”

When Zi Yan heard it, he secretly smiled. This kid is not forgiving!

Shen Lang, a pair of people who have just reacted, said sadly.

“No, no, you are all old guys. Even if you have a wife, you should have already been buried. Some of your partners are old-fashioned. Even if you want to share, there will be no men interested.”

The opposite three people, although wearing masks, can imagine the imagination, everyone's face is very ugly!

This is not a question of whether or not there is a wife. Even if there is no wife, or if the wife dies, I can understand the disrespect of the metaphor.

This world is an absolute male society. The realm of cultivation is that men are much better than women. Such an imbalance is even more masculine.

So in this case, even if it is only a metaphor, even if they have no men and women, they feel that they are seriously offended!

“Boy! You are toasting, not eating and drinking!”

“Don't talk nonsense with him! Grab him directly!”

“Purple! This matter has nothing to do with you. If you leave now, we can't care about you!”

The other party began to talk directly.

Zi Yan secretly smiled, the effect of bluffing was still good, and the result was ruined by Shen Lang's words. Now the other party is obviously irritated, even if it is a little scruples, it will still be shot.

However, he also heard that the other party did not directly do it, but it was still a little taboo. Now it is a threat, giving them a last chance!

This is actually an opportunity for him. If you leave like this, you will not have to deal with other things.

When I discovered that it might be ruined, Zi Yan thought that it would be safe to have nothing to do, even if I lost a face.

But now that he really has a chance to leave, he is still a little bit hesitant.

As soon as he left, he did not catch anything!

In vain, the lives of two people, Shen Yang and Su Feng, and the reputation of the Kunlun School.

If you stay, you will have a chance.

When necessary, go back to the water once and help them to deal with the three waves together, maybe even a piece of it!

This is the case with people. If something is done for the first time, it will require great perseverance and will have a great impact afterwards.

But after the first time, the second time is much easier.

Just as Zi Zi's ancestors had just had another thought of "traitor", the words of Shen Lang made him startled!

"You are really a group of stupid. Why can you only think of destroying his mouth or forcing him to leave for the sable ancestors? You should be persuaded to be with you!"

Zi Yan's ancestors secretly made a guilty conscience. Can you see that he has a disagreement? Is he born to be anti-bone?

There are certain reasons for listening to the three people on the opposite side.

In the end, Zi Yan and them are the kind of people. Regardless of the friendship, at least they have known for many years. In comparison, Shen Lang is a stranger.

Let the purple beggars betray the waves, it should be much easier to make him desperate for the waves.

"What you said makes sense, Zi Yan brother! Who is the time to guard against you, is it guilty to sell his life for him?"

“What can you get with him? He will help you open the treasure chest of the ancient organs? Are you sure he will not go to the Kunlun to plunder?”

“You work with us We can let you share the results. Anyway, we are for everyone, and we don’t want to monopolize the secret.”

They started your word for me to fight for purple.

Even if Shen Lang and Zi Yan just said that Shen Lang has the ability to fight two or three great gods, or there are hundreds of flowers and fairy.

But if you win the purple scorpion, they have four great gods!

Originally, they felt that the three ancestors had united their shots, and they had already stabilized the ancestors, and they could force the purple scorpion to let go, forcing the spurs to come.

There have been twists and turns now, but if the purple scorpion is won, and the four great gods deal with him, then the real ten is steady... No, ten is ten!

The idea provided by Shen Lang makes them instead of urgency.

As long as the sable participates together, you can catch the swell at any time!

Zi Yan continues to smile...

Originally, he didn’t mind doing another traitor, but now he kicked it out directly, and the other party really fought for it, but it made him very embarrassed.

Is it possible to promise to be a traitor directly?

Then there is no face!

More importantly... Shen Lang can directly remind the other party, is there no means of defense?
