

First Strong 1751

Chapter 1751 - Another version

If Shen Lang didn't say anything, Zi Yan dared to be a traitor again.

But Shen Lang first said, he was alert.

This is definitely a trap!

If he really continues to be a traitor, maybe he will be the same as the elk!

What is the fate in the tower of the tower, guessing and guessing, it must be the process of death and despair.

This young child is so young that he can easily get the magic weapon of Tiantian Tower. Naturally, there is a big deal. Some of the magic weapons displayed on the body, some still can not see the calendar.

Zi Yan does not dare to take his own life to gamble!

He is ultimately a person who is not willing to take risks.

Just as the beginning of the elk deceived him, he is passive default, that is, not willing to take the initiative to take risks.

But if there is no risk, he does not give advice to the wind.

Choosing a ban on deer is actually a less risky option.

Now, in this case, he immediately made a decision, and he can leave when necessary, but never go out and sell back against the waves!

“Dear brothers, listen to me, this thing does not need to be tit-for-tat, we can do a good job. It is better...”

Having said that, he looked at Shen Lang.

“It’s not as good as everyone to come to Kunlun to be a guest, to discuss it together and reach a situation that everyone can accept, how?”

Zi Yan was arrogant, and after the Kunlun School, it was really on his own site. By the time there are more magic weapons, agencies can use them, and more people can help.

The most important thing is that as long as Shen Lang helps him open the organization, what else they want is casual.

And when he said this, he also expressed a meaning to the opposite three:

You want to grab the Shen Lang, but it does not prove that he really has the secret!

It is better to wait until the Kunlun School to witness that the confirmation can really be opened, and you will not be late.

Otherwise, if I do something now and pay a big price, I finally find that he is bragging. Isn’t it a big loss?

For Shen Lang, this is also an opportunity to delay time. Maybe there is a better way?

He thought he was satisfied with the three parties in one sentence, but he was also dissatisfied with the other two parties, so he still kept a cautious wait and see.

“Purple ancestors, you really open the Kunlun school portal!”

Shen Lang shook his head and sighed: “I am a bright and upright person. You have seen it in Yaochi. Any thousand yuan of Lingshi is not a thing for me. People like me will not show you anything when you are a guest.”

Then he looked at the opposite side.

“Those who shrink their heads and shrink their tails, dare not reveal their true feelings, and ambush the roadside to do robbery, do you dare to invite them to be guests? Are you afraid that they will give Kunlun a glimpse?”

Shen Lang returned the words they had just said.

The face of the sable ancestors immediately became awkward.

When I gave that suggestion, he really didn't think about it. He thought that he could do the best and win the best solution.

Now, after listening to the words of Shen Lang, I feel that it is simply the rhythm that leads the wolf into the room!

These three people may have the heart to kill him!

If you go to the Kunlun School, you will not lose your heart, but you may take the opportunity to destroy the entire Kunlun faction!

He is a life-saving one, but compared with his own life, the foundation of the tens of thousands of years is even more important!

The life of Sufeng and Shengyang is not important to his life. This is not only selfishness, but also a fact.

Similarly, his own life is not as important as the Kunlun School. This is not great, it is also a fact.

In this way, in the Lingshi, the magic weapon, the secret technique, etc., they are very “wide” and they are really safer and will not covet their Kunlun faction.

On the contrary, the three ancestors who are united together are more likely to resort to no means!

“Don’t listen to him nonsense! His purpose is to force you to fight with us!”

“Purple! You have been practicing for a lifetime, is it easy? Do you have to take a life for an unidentified kid?”

“Let’s join us! After killing him, there are only four of us, and no fifth person will know. You don’t need to worry about anything else!”

The three people on the opposite side looked at the words of Shen Lang, and they confuse the heart of Zi Yan, and they quickly continued to fight for it.

However, from the tone, we can also hear that their three patience is limited!

The three aspects of the speech game just now, for the three of them, did not patronize. They are also observing the waves, and they are also thinking about the words of Shen Lang and Zi Yan.

Up to now, they have determined that Shen Lang should be the peak of Daxian, and the words of the two people are likely to cooperate to deceive them!

Therefore, now that they can fight for the words of Zi Yan, then they will fight for it. The four ancestors of the great realm of the gods will deal with a young man with a peak of Daxian. If there is any problem, then he will be a ghost!

If you can’t get it, then the three of them deal with the two, Zi Zi and Shen Lang, and they still have a much better chance of winning.

It will make them impatient, it is like they both sing and sing, it seems to be delaying the time!

In combination with the previous mention of Baihua Fairy, there is reason to suspect that after they encountered their interception, they released a certain signal and waited for the arrival of the reinforcements!

“Everyone, can you give me a face? Let me stop! I don’t recognize you, but I don’t want to see bad results... Shen Lang Daxian is not something you can sin. Ginkgo Valley Elk, because I want to attack and start to fall.”

Zi Yan also made the final decision, which is the sincerity and persuasion of Xiao Zhiyi.

If they really want to continue, then he has no choice.

As for the specific station team Of course he will still meet the wind and the rudder.

It’s just that he is sincere and sincere, it makes people feel uncomfortable.

“Not that you can be sinful”...

This sentence is intended to highlight the harmfulness of Shen Lang, but it has also provoked the anger of others!

“It seems that Kunlun sent Zi Yan, who has joined forces with Shen Lang, and killed three people, including the Ginkgo Valley Elk!”

The cold mask of the man in the black mask directly defines the Zizu ancestors!

The two people in the blue and red masks naturally agree with this result and add one more sentence.

“Kunlun sent Zijing with Shenlang as a bait!”

“I deceived the elk in an alliance, and then suddenly sneaked and killed the three people in the Ginkgo Valley!”

The other two of the Kunlun factions did not live with them, perhaps when they killed the three people in the Ginkgo Valley!

And they can successfully kill the elk and other people, the root cause is definitely that the purple scorpion uses the Shen wave as a bait and then sneak attacks.

Such a version is more reliable than the one who sings and talks about the flowers and fairy tales that few people have encountered for thousands of years.

After analyzing this step, they have nothing to worry about, and they have to do it directly!

Chapter 1752 - Unexpected slave

“Do you want to start this? Wait a minute.”

Seeing that they had to start, Shen Lang interrupted the atmosphere.

Just when the three ancestors stared at him opposite, they suddenly realized that the waves disappeared instantly!

The scorio ancestors of course are more concerned about the situation of Shen Lang. I thought he said this, is he willing to reconcile, as long as he surrenders the secret technique – even if it is half-truthful, it is better to spend the first time!

I did not expect that Shen Lang was once again inexplicably disappeared as before!

This makes the purple ancestors immediately sneak up!

This is too much!

Lao Tzu betrayed the old friend for you, in order to fight against the ancestors of several sects, and even almost led the wolf into the room, and invited everyone to Kunlun.

You are good! At the crucial moment, I ran my own pick!

Does he really think that Shen Lang is too much, so that he is left, and there is a chance to live?

Isn't that being pressed by the three of them?

However, his emotional outburst is also an instinctive reaction. After a while, I have already digested this information and immediately thought of more possibilities.

The purpose of the three of them is Shen Lang, and even the personal resources of Shen Lang are nothing, the key is the ancient secrets mastered in his mind.

When Shen Lang disappeared, he himself had no value for these three people.

They can't play with him.

Such a purpose has not been achieved, but it has tarnished the reputation, offended the Kunlun faction, and let the world scorn.

In this way, the disappearance of Shen Lang, but saved him?

And he has experienced the disappearance and reappearance of Shen Lang several times before, and he is sure that he usually returns to the original place!

And whether it's stealth or sending away, just know that he will still be back here.

Because other people don't know this!

Then as long as they sent the three of them away, he will come back here, or you can wait until Shen Lang and continue on the way back to Kunlun.

When I think about it, Zi Yan can't help but secretly scream. It turns out that Shen Lang has already planned, and it's no wonder that I don't worry or worry!

But even though my heart has quickly figured it out, the purple on the surface still maintains anger and sullen face.

He must show a look that he can't wait to slaughter the waves, and a pair of people who have been miserable, or else they will doubt that they will be in the game.

The three people on the opposite side are stunned.

They were originally trying to see what else to say about Shen Lang. If it can be solved without force, it is of course the best.

I did not expect that Shen Lang disappeared directly!

They also sensed the disappearance of Shen Lang in the vicinity of Yaochi, but after all, there is still a distance, this is the first time to see his disappearance.

And they didn't wait around for ten days, and they couldn't find him back in the same place as Ziyan.

More importantly, Zi Yan had seen Shen Lang once before, and they only discovered this secret together.

So for them at the moment, Shen Lang is just like before, once again, God unknowingly flees away!

Shen Lang ran, and the three of them could only aim at the purple ancestors...

And they also noticed that the purple ancestor was also surprised and angry, did not expect that Shen Lang will suddenly run, it is equal to give him a pit.

Emotionally, the three of them felt that they could only force the ancestors of the sable.

But they are not impulsive young people. From the rational point of view, they can understand that Zi Yan is definitely being pitted again!

It should have been pitted before, helping to kill the elk, and probably promised what benefits it would get. As a result, now Shen Lang ran, his grievances were angry and even above them!

The result is that four people have big eyes!

For a time, no one knows what to say...

Just like this stalemate, Shen Lang suddenly appeared again!

This change made the four people on the scene stunned...

Opposite the three ancestors, I did not understand that Shen Lang Ming Ming has successfully escaped, why will come back.

In truth, if there is no certainty to win, there is no reason to come back to die.

Did he just... is it a quick rush to inform the Baihua fairy to help?

The sable is even bigger!

Brother! Are you already gone?

If you leave, they won't take me anymore. Why are you coming back?

Even if you talk about credibility, you promised to do it on Kunlun. It doesn't have to come back so soon, I will wait here!

Is it that you want to talk about loyalty? Don't want to leave me?

The sable ancestor is depressed at this moment, he is not willing to have this loyalty, this is not to help him, it is a pit of him!

And when they had different minds, they found another problem.

Shen Lang is not only coming back from himself, but also comes back with a helper!

In front of them, a dog appeared, and this is obviously not an ordinary dog. After it appeared, it quickly became bigger and instantly smashed the entire hill. If it is not Shen Lang and Zi Yan still, light its body, you can completely occupy the entire peak!

The appearance of such a super beast **** has already surprised everyone. This is not over yet. Next to Shen Lang, there is also a strong person in the realm of great gods!

This new person, everyone is recognized at a glance.

Just... this is a person who can't be here by reason!

Ginkgo biloba elk ancestors.

Has he not been killed?

Then everyone glared at the sable ancestors, this is a lie that was defaced in person!

"Is it they? I am willing to fight for you to die! I will never give up without killing them!"

When the dog **** appears, everyone can still understand. The power behind Shen Lang is definitely strong, and it will provide a super beast and it is also normal. It's normal to train the soldiers for a thousand days

What can you do with elk?

Even if he is not dead, even if he and Shen Lang stand together... But what is this?

"I am willing to fight for you to die!"

This is simply a loyal servant tone!

This point is undoubtedly shocked by the three people on the opposite side.

Elk is a level with them. Regardless of age, seniority or strength, everyone should be almost online, so thinking and attitude are basically the same.

They are respected as “grandfathers” both inside and outside. They are more respectful than the contemporary heads and elders. They have long been used to being high.

If you want to kill them, it is very difficult. Generally, it is in this realm. Unless you cultivate a scorpion, you can safely die and die.

And let them surrender and surrender to others in the form of slavery, then it has never been!

Now, the elk appears in front of them, and it is a gesture that has never been seen before.

Can make a super-powerful person in the realm of the gods, an ancestor of an ancient sect, become a slave to a young man... What a terrible power to do?

Chapter 1753 - The secret of heaven

It's even more shocking to kill the elk than to kill the elk!

Originally, Shen Lang has formed a mysterious and incomprehensible person in their hearts. Now it is undoubtedly an example.

This matter will happen to the ancestors of Zixiao, they can't believe it, and they will feel that the elk is fully acting.

But it is different in Shen Lang.

Elk can't put down the reputation of the individual and the martial art, and cooperate with such a young man to act.

No matter how Shen Lang did it, it made them feel cold.

Moreover, where did the elk come from?

How did Shen Lang bring him from a distance?

And the super beast god...

All the explanations are still strong!

Those who are strong or even disdainful in their own hands, just sent a beast, a strong enslaved elk out!

The three people who were already in a hurry and were ready to take the shot directly, secretly played a retreat.

They understand why Zi Zi is so attitude to Shen Lang, this must be the end of the elk!

I don't want to be a dog, I can only take the initiative to be loyal.

Although they have three people, each person's strength is similar to that of elk and purple.

Since the elk and the purple scorpion, plus a few doormen, can be easily handled, and the other four who do not use the value, it seems to have been killed.

Then where are the three of them really strong?

And now that Shen Lang released it, Zi Yan, Elk and the super beast **** can already deal with them.

Shen Lang himself?

Watching the side, will there be other means?

What about the people behind him? Will it come out in an instant?

They don't want to turn themselves into elk like this!

Why can Shen Lang shoot this way, just in the few seconds that just disappeared!

He disappeared for a few seconds and actually entered the space of the Bible, which is a few hundred seconds.

Needless to say, the dog **** naturally has been thinking about repaying the Shen Lang and letting it come out to participate in the war. It is a matter of saying nothing, and there is no need to explain the cause and effect.

Anyway, it is not going to think about justice, what reason, just look for a point, the enemy of Shen Lang, is its enemy!

So after entering, the main time of Shen Lang was used to conquer the elk.

The elk was imprisoned at the time, and then was directly sucked in by the tower, and has been suppressed for one night.

Regardless of whether it is called the Ba Tian Tower or the Tian Tian Tower, its functions are the same. All living things and spiritual objects will be suppressed and eventually refining into Dan Pills.

This point is verified, and neither the troll nor the mysterious creatures in the ground can escape.

However, it has a time, the weaker the faster, the stronger, the more time it takes.

Like the elk was thrown in, except for the aura-free clothing, including the storage ring on his body, the contents inside, including the magic weapon such as the comet ginkgo leaf, will be refining with others!

However, the elk is a realm of great deities. Now, this tower is not the peak of its peak. It can absorb and suppress it. It is already the power of artifacts.

It takes a long process to completely refine it.

Time does not care about the waves, he is not in a hurry to use, no need to pay attention to it. If you need to be faster, you can put the tower in the space of heaven, and you can refine it at a hundred times speed.

But it is different for the elk!

After he was inhaled in the evening yesterday, he immediately tried to get out. However, in the tower of the tower, no matter how powerful he is, he can't break through.

This is an indescribable feeling. There is no limit to his strength, but it is the power of the big ones, which is absorbed by this space that is trapped in him!

As if he used one power, and one hundred strengths, the effect is the same, the stronger the stronger.

After some testing, the whole person collapsed.

In addition to the rage attack, he also felt another problem, that is, this space, formed a special suppression on him!

When he went in, he continued to resist the attack, and he realized that the awareness was so obvious. Once he stopped, he felt it, and there was a feeling that it would become stronger and stronger!

This is not to say that as long as he attacks constantly, he will not be suppressed, but he will not feel so obvious, and it will exist.

And if the attack is not effective, then his continued attack can only be a waste of energy.

Of course, the elk also understands what this is. For the legendary artifact, the tower is also less and less confident.

I can only hope that this tower has been damaged, or that the waves are not enough to drive it.

Therefore, he continued to use the treasure, and took out the town of Ginkgo Valley's township magic weapon, the comet ginkgo leaf, to attack!

After tossing for a long time, the result is still the same. The longer and stronger attack will still be absorbed by the tower.

In the end, he discovered a phenomenon that Shen Lang did not realize before!

That is the attack that he is constantly struggling. Whether it is the power of the individual or the power of the magic weapon, it is not dissipated, but it is not absorbed by the tower!

After the energy is absorbed by it, it becomes stronger and stronger. Not only can the daily refining loss be compensated for, but even the previous damage can be repaired.

The elemental stone used in the previous wave was externally applied, and the more the body that absorbed and refining, the more energy it absorbed, and the internal repair.

The current tower is far from being comparable to the Dominion Tower when it was originally acquired from the Tangshan Mountains.

The reason is that Shen Lang thinks it is the former one, but actually it is bigger and relies on the latter kind of repair!

This is also a mistake, if Shen Lang has not used the Ba Tian Tower, it will always maintain the original damage state because it has been used, the absorption of the spirits are various, like Before the millions of giant squid swordfish, it was purely aggressive, not to mention people, even if they throw a knife in the past, they will be crushed by them.

After they are absorbed, they continue to attack, almost attacking to death!

These continually absorbed energy have created the tower that is gradually repairing the loss and gradually recovering the original appearance!

Elk found this, but he did not know the various conditions of the tower and the Ba Tian Tower. He could only speculate on his own attack and would make this artifact better.

But this is enough.

The stronger the artifact, the more he has no way to go out!

So he stopped his attempt to destroy the artifact, and after some thoughts and trade-offs, he chose to yield.

Then it is to shout, send ideas, and want to communicate with Shen Lang.

As long as the conditions can be redeemed, he does not mind paying a heavy price.

However, for the resources of Ginkgo Valley, Shen Lang has already arrived. He is so powerful. He never thought about talking about conditions with him. If he earned income, he would not care.

The result was that the elk had called for the night and did not get the slightest response...

Chapter 1754 - Offer the soul

After a night of suppression, the elk's heart is getting more and more panic!

Because this is not just a suppression, but a feeling of completely melting him!

He can almost foresee his future, no matter how long he can still live here, he can only watch himself die a little bit!

And Shen Lang didn't mean to communicate with him anymore...

In the end, the elk is a realm of great deities. It is not comparable to other people. Therefore, not only the secrets of the tower, but also a countermeasure is quickly found.

The first step is to abandon the destruction of the artifact, so that it wastes its own strength, but instead strengthens the artifact.

In the second step, we constantly try to communicate with Shenlang in various ways and strive to be released.

The third step is to absorb all kinds of energy to nourish, so that you can be constantly compensated in the process of refining, so that you can be melted a little slower.

He didn't know when Shen Lang would contact him. Even if he would never contact him again, he must try to save his life.

Only when you stay alive can you have a future.

When Shen Lang next uses the tower to absorb the enemy, there may be a chance to communicate!

When Shen Lang contacted him, the elk was excited about his age.

After waiting for one night, there was no response. I thought that if I wanted to fight a long-term battle and prepare for the next unknown person, I would be able to contact Shen Lang. I didn't expect to have a turn.

The meaning of Shen Lang is very simple. It directly indicates the final result. It will refine it into a big supplement.

If you want to spare his life, you have to pay the price.

The price is to sacrifice the soul and be willing to be a slave!

Elk is certainly unacceptable for this proposal.

Here he is the one who lost his freedom and died.

If you give up your soul and are willing to be slaves, you will also lose your freedom, and you may have to be asked to do things that you are not willing to do.

That may be worse than death.

Shen Lang did not force, or persuade him, just let him think about it, but only give another chance!

When Shen Lang stopped speaking, the elk once again felt the bitter mood of the previous night.

His previous feelings were like the torment of the light in the dark, and the most fear is that the light will never come!

Shen Lang has already made it clear this time, and the opportunity will only be given once again.

This last chance, how long will it take?

At that time, the elk was actually a tangled mood.

On the one hand, I hope to contact him a little longer, so that he can think more clearly.

On the one hand, I am worried that Shen Lang has forgotten this matter for a long time, afraid that I will not be able to support the last time!

In fact, he was thinking about it all night, and he had already prepared for what price he paid. He only thought about how much resources he had to pay to redeem his life. He did not expect the other party to directly ask his soul.

And Shen Lang is waiting to play now!

He expects the other party to be surprised. Even if you want to do it right away, you should also ask a few words about Zi Zi, how many can delay for a few seconds.

It is a few minutes for him, so I can't wait too long.

The result was that only two minutes of consideration were given to the elk.

When he resounded so quickly, he gave the last chance.

Elk also knows that there is no room for bargaining, because the tower is made into a medicinal herb, and even the comet ginkgo leaf will become one of the ingredients. At that time, it is a resource that greatly helps the swell.

This is more safe and convenient than controlling him!

Will give him this opportunity, perhaps now Shen Lang needs to use people!

Once the outside world is not established, it is impossible for Shen Lang to talk to him again!

He does not want to become a remedy...

The result was a quick decision, accepting the conditions of Shen Lang, offering souls and being slaves to Shen Lang!

This soul is not to talk about, nor to swear, he is calmly let go of consciousness, let Shen Lang enter his brain spiritual world, plant control brand.

If the elk's brain consciousness, or soul, is a super system.

That is the need to have the highest authority, and put a virus program that can make the system paralyzed at any time.

Shen Lang will not let him out first. The elk is still in the tower, that is, he has absolute control, don't worry about being a demon.

This process, which was delayed for two minutes, after the elk was absolutely controlled.

Shen Lang first read his memory in a rude...

In fact, when the elk released the “brain authority”, Shen Lang even had to take all his mental power and could do it.

It’s just that he doesn’t want to do this, because it’s not the time. He himself has endured the limit of Daxian’s peak, and he has to play with the elk, and he’s not hurting.

The control of the soul is all offered, and the elk certainly cannot resist anything.

The result is that Shen Lang has been in his memory, and this has only known this characteristic of the tower, which surprised him and surprised him.

Then the elk was released, and he simply told him about the situation outside, and then brought it out with the dog god.

The elk stayed in the space for a while, and it was too late to analyze and understand the situation there. Then he came out with the behemoth behemoth next to him.

This time, he also thoroughly cultivated.

This swell is really in all respects and exceeds his imagination.

This is already the case. Life and death are manipulated in the hands of others... No, this is manipulated in the consciousness of Shen Lang, and a movement can kill him.

He is not willing and willing to be willing, not willing and willing.

Elk is not a good man and a woman, and soon changed the concept.

Do you know what is not good?

Since you have followed Shen Lang, you can’t escape, just do your best, maybe you can get more things that you couldn’t imagine before?

Who knows how many secrets this ancient man has?

Because of these considerations, after the outing, the elk immediately loyal to the table loyal willing to die for the death of Shen Lang!

However, his attitude is to surprise the three people on the opposite side...

“Shen Lang! What happened to the elk?”

“The elk is the ancestor of the predecessor of Ginkgo Valley. It is a big man who has been named for a hundred or two years. How can you make him a slave!”

“You can’t kill you! You are too much, we are the same way, we can’t stand it!”

The three people spoke quickly and spoke, but they spoke out the words of divergence.

They all clearly felt that even if there is no hidden power on the side of Shen Lang, they have already gained the upper hand. So you must fight and get the elk back!

Elk must not be willing to be a slave, it must be controlled by what is the key!

Therefore, every deliberate speech for the deer is to stimulate his shame. Once the shame is felt, the benefits are lost, and maybe you can turn your face.

The attitude of Zi Yan is far less than the level of slavery, indicating that he may be afraid, or may be threatened, or for the life of an old friend.

As long as the elk turns his face, the chance of the purple scorpion following the anti-water is great!

At that time, it was the five great gods who dealt with Shen Lang and a beast god. Then they re-twisted the situation and returned to the tenth.

Chapter 1755 - Direct war

“Noisy!”

Shen Lang stretched out a lazy waist, after spit a sentence, directly order!

“Hit them!”

The dog **** has long been ready to go, and the elk is now the first battle after being controlled. It must be performed well, in order to turn humiliation into an opportunity and regain the thigh.

Therefore, he just not only stated his position, but also prepared for the battle.

Now that Shen Lang has opened his mouth, his hand has risen and the comet ginkgo leaf has been attacked!

To count it, it is also half a beat behind the purple.

When the purple scorpion just saw the elk, the whole person was also in a state of paralysis.

I didn't expect to be sucked into the tower and I was able to release it safely.

Looking at the attitude of the elk, it should be agreed to the conditions of Shen Lang before it can be released.

In this way, he will be paralyzed!

Because Shen Lang was able to successfully absorb the elk at the time, all of his anti-water, suddenly attacked the elk.

Now that the elk is back, he has no face to see his old friend.

But no matter what, it was his friend after all. At the time, he didn't want the life of the elk, so he was only imprisoned, and he didn't kill it.

He is safe to come back, he is still happy to see.

And this shows that Shen Lang is not a murderer, but you can still talk about it.

Now that the elk has taken the lead, the super beast has also rushed directly. The purple scorpion will of course grasp this opportunity immediately, not letting himself miss the team, immediately manipulating the field, trapping the three people on the opposite side.

The three attacks are different.

The dog ***** relies on the enormous advantages of the body and flies forward directly.

With the physique of its sacred beast, it has skyrocketed in the air, directly to the opposite peak, and the paw has already taken it out in advance.

It is directly pressing the opposite mountain peaks together!

Three people are insignificant little points.

The elk is using the magical comet ginkgo leaf.

This magic weapon, he has been lost for thirty years.

Originally it was taken by Helan's ancestors. His first goal was to take back the comet ginkgo leaves. The second is to use the magic weapon to do a good job for Helan's ancestors!

As a result, there was a situation that was not originally thought of. Because Shen Lang's intervention allowed him to have no animals, he redeemed the magic weapon in the way of purchase.

Although it pays two threads, it is also very painful.

I got back the ginkgo leaf of the comet, and I saw that the ancestors of Helan were far from recovering. I originally wanted him to want to kill the old opponents after the event.

The result was that the plan was re-adjusted because Shen Lang opened the secrets of the ancient organs.

Yesterday evening and Shen Lang's fight, he did not even think about using the Ginkgo biloba leaves, but a young man!

Last night, in the tower of the tower, naturally, I regretted it. If you use the comet ginkgo leaf early, you may not fall into the wolf.

That is all the past, and now that he has made a decision, of course, he will not entangle the past.

But yesterday's experience, that is the lesson of blood!

So now, it's a direct magic weapon, and it's also the power of personal attack!

The ginkgo leaf of the comet, Shen Lang has been handed over, and now has the memory of the elk, so it will be more clear on the sidelines.

When this thing is in the hand, it is just a large ginkgo leaf, and there is no special place.

It is estimated that in the hands of Helan's ancestors, this is also the effect. Even if it has been studied for decades, it does not have much value, so it will be a shame.

But this thing is in the hands of the elk, it is not the same!

The real turning waste into treasure, when he just touched the hand, with the secret application of the ginkgo martial arts secret technique, the comet ginkgo leaf directly increased rapidly.

Everbright did not actually go there, probably as big as a fan.

But after the big one, the ginkgo leaves of the comet began to emit a strange light. These rays are like the actual silk thread, wrapped like a drizzle to the opposite three people!

Because the dog **** has already rushed at the same time, so the gleaming ginkgo leaves, the drizzle of the silk thread, is one point faster than it, attacking them in front of it.

These attacks are naturally not likely to work. After all, there are three great gods on the opposite side.

But at least on the front side, it formed a restraint for the three people, making it inconvenient for them to come forward.

The attack of Zizi's half-beat is to choose the control of the field.

He is a Kunlun school, but in fact, there is not much local interest, and he can't always know everything about Kunlun Mountain.

However, his purpose is also very simple. It is not to completely imprison three people. It only needs a little more restraint to make the elk and the super beast **** better.

The Shenlang bystanders are clear, and their three offenses have obvious advantages and disadvantages.

The advantage is that the elk and the dog gods are very cooperative. When they hear his orders, they immediately start to attack, and directly let the three people who want to divide them are a little unprepared.

The shortcoming is that it can't work together, each one!

The advantages and disadvantages of the three people on the opposite side are better.

The downside is that the reaction was attacked by an unprepared one. The advantage is that the three of them have prepared in advance and cooperated very well.

Countless drizzle, the stars of the stars, when they attacked the three of them, they broke out with great power, like a small bomb, and the big ones exploded!

And then dog ***** with great power, put them three together, together with the explosion, together with the entire mountain, together to force down!

However, it is a pity that no matter whether it is the scattered attack of the ginkgo leaf of the comet or the containment of the purple cicada, there is no successful ban on the other three.

They used a field to counteract the control of the purple scorpion, and one shot formed a protection for the three people, and resolved the attack of the comet ginkgo leaf.

And there is another person who chose to go straight to the waves!

The attack of the Emperor's behemoth was ignored by them!

This is not a dog attack that is not powerful enough. In fact, it is very powerful, but because it is too large and the movement is too obvious, they can completely evade.

This is like the battle against a killing warrior. It has a height of several kilometers. Even if it is powerful and powerful, it is convenient for him to dodge.

The purpose of the other three people is already very clear – shoot the first shot of the horse thief first smashed the king!

They have already seen it. Although Shen Lang did not shoot, it is the soul of the three parties. Once the Shen Lang is settled, it will be stable.

Besides, their original goal is to sink the waves.

As long as you catch the waves, you don't need to fight, you just ran away.

In this regard, Shen Lang is a smile!

Chapter 1756 - Digging into the pit

Shen Lang is not only a bystander, but it can be said that this bureau is now his cloth!

What kind of mentality is the dog god, and what kind of mentality will be the elk and the purple cic, respectively, he knows well.

The mentality determines their attack style, and the other three people, what kind of mentality and attack style, is not difficult to guess.

So now their every move is completely in the expectation of Shen Lang!

The other party wants to hold the purple cicada, the elk and the emperor beast through two people, and the other person accelerates to take down the waves!

Since I guessed this possibility, Shen Lang certainly would not miss a good opportunity!

So, when the man quickly rushed over to him, Shen Lang immediately turned and fled!

The Emperor's behemoth has just crushed a whole mountain and collapsed. Although it feels that the target has disappeared, it will take a little longer to accelerate again.

I felt that the man was in the side of Shen Lang after all, let it have a dim sum, gave a roar, and suddenly jumped, and opened his mouth and bite into one of the great gods!

Everyone's speed is very fast. It is too late to rescue the sinking waves. It can only be similar to Wei Wei's way of saving Zhao.

Of course, it also believes that Shen Lang will not be so easily killed, and there may be a certain risk of injury.

Zi Yan was originally involved in the blockade of the field, and they were involved in three people. Now there is a person who is dealing with him, the person with a blue mask, and his blockade has been resolved, so that he can not contain the black mask who attacked the waves. .

There is also a red mask, after protecting everyone, this time is also with the elk's comet ginkgo leaf attack bar.

Their plan is to hold back a little time, so that the black-faced masker who chased Shen Lang can succeed.

Everything is fast.

The ancestors of the black-faced mask, seeing the waves and turning away, immediately accelerated to the limit!

Just now Shen Lang has disappeared once, so even chasing can not chase, he can not let Shen Lang have such a chance.

But just as he raised the speed to an extremely fast speed, and the field covered the past with the smashing of the waves, he suddenly realized that there was a powerful attraction in front!

He was like a fish that rushed down, suddenly found a fish raft...

Because it is too fast and too urgent, the distance is too short, and the attraction is so powerful that he has no chance of change.

Even what happened, I still haven't figured out that the black mask ancestor has disappeared directly into the side of Shen Lang!

In the eyes of others, he seems to have just rushed to the side of Shen Lang, and then disappeared.

Whether it is two red or blue masks, or elk and sable, whether they come or not to attack or rescue the waves, they can always pay attention to this situation.

So in fact everyone has clearly discovered the truth!

Just after the Shenlang seems to turn and flee, in fact, there is no acceleration, basically still in place, and then took out the tower, directly began to collect the aging ancestors of the black face mask!

The ancestor may have discovered it, but it is still too late to change. So, close distance, no prevention in advance, or speeding up to the limit, it is equal to drilling in.

Now that Shen Lang's comprehensive combat effectiveness is no longer inferior to their realm of the gods, but they want to use the tower to absorb others, or to see the opportunity.

If the other party maintains a high degree of vigilance, it is not easy to absorb.

This is also the shortcoming of this magic weapon!

If it is a more powerful enemy and an enemy of the same level, it is difficult to absorb it under the precaution.

And if it is a lower-level enemy, it can be won by strength, unless it is specifically to refine the person, or else you can not use this magic weapon.

So whether it is the elk or the ancestor of this black mask, Shen Lang must create a good opportunity, and then seize the opportunity to quickly close.

The last time was the opportunity created by Zi Yan, Shen Lang reacted quickly and immediately grasped it.

This time, it is his own layout, set the trap, after the introduction of people, please enter the shackles.

The shortcomings are also good, the chicken ribs, its power and effect, has been verified again and again.

For these big-headed monks, I heard that the tower of the tower, just after seeing it, is even more deterrent.

After Shen Lang inhaled people into the tower, Tota faced two other ancestors.

The two ancestors of the blue and red masks began to panic.

Originally thought that Shen Lang was the best one to win, as long as he caught it, he won.

I didn't expect that Shen Lang was not caught alive, but their partners seemed to be caught by people!

And it just seems to be the tower of the sky, the artifact has such power, can swallow one, can you also swallow them all?

So at this moment, the waves are in the middle of the tower, they are all in the heart, maintaining a high degree of alert, and intentionally pulling a little distance.

While Shen Lang completed the sneak attack, other people did not stop even if they watched the movement here.

The dog **** just wanted to "encircle Wei to save Zhao" and almost swallowed the ancestors of the blue mask.

The ancestors of the blue masks were supposed to be against the control of the ancestors of the sable ancestors. The attack on the sacred beasts was not too much in mind.

In their view, this is a super beast, a huge man, and a huge force. But in turn, it is a clumsy manifestation.

The same is true, the huge body, the speed of the dog **** is also significantly reduced.

This is compared with the Daxian level is still leading, not a big deal. But compared with the realm of the Great God, a little bit of the gap is also very obvious.

The cyan mask ancestors did not expect the dog **** to explode so quickly, I did not expect it to bite over everything.

The scorpio ancestor is of course also an old tycoon. He used to contain the attack, was dispelled by others, and even dragged him down. He did not achieve the effect, and he was also very depressed.

At this moment, he discovered the outbreak of the dog god. He also immediately went all out and desperately wanted to ban the blue mask ancestor.

This made the dog **** bite a little bit, until the cyan mask ancestors desperately broke out, only at the moment when its big mouth approached, rushed out to the side 100 meters away.

In this way, he not only received the impact of the attack of the sable, but also experienced the attack of the dog god.

However, this is irrelevant and not enough to affect his combat effectiveness.

Instead, the one with the red mask is now very troublesome!

The comet ginkgo leaf of the elk ancestors has been used for the first time in decades. It is not only to prove its worth, but to prove that the two spirits have no white flowers, and that the elk's itch is unbearable, so the attack continues!

When the other person wants to take the attack, the elk is not too polite, so be sure to kill him directly!

Chapter 1757 - Next 1 city

Under the manipulation of the elk, the comet ginkgo leaves continued to attack. Before the stars, the drizzle of the silk thread showed a huge change.

This time it is still countless light, but it is not a little bit, but the size of a ginkgo leaf.

In this way, it is not drizzling, but it seems to be like a big snow drifting in the sky, or not like the snow in the mountains.

Previously his attack did not work because the attack had three people and the three were very powerful.

But now there is only one target for the attack, and it will be much more concentrated.

Although the red mask ancestors were fighting against others, but because the attack power is scattered, it is easier to protect.

Now it's not just concentrated on him alone, and just like a little bit of ginkgo leaves, the light that has been presented is too big to know how many times, and its explosive power will increase in multiples.

This allows the red mask ancestor to fight against the spirit of twelve points. In addition to his own defense, he added two layers of defensive hoods outside his body to fight for two layers of cushioning even if there is an explosion.

So he became very passive, and all the "ginkgo biloba" gathered around his defensive hood, making it difficult for him to move away.

And even if he didn't collide against these "ginkgo leaves," he began to actively hit his defensive hood after gathering around him.

The result is that it surrounds his body and begins to continually explode!

The effect of the explosion is indeed much more powerful than before. It is not increasing countless times, but these powers are all exerted on one person, which is also a headache.

These explosions, from the strength and extent of the shock wave, are naturally comparable to the power of the nuclear bomb before the sinking wave.

However, since it is the magic weapon of Ginkgo Valley, and it is the elk deer to show up to attack the ancestors, naturally it can hurt the great gods.

He understands this very well, and the red mask ancestors understand this.

So their pair is directly deadlocked.

A full-force attack, a full defense.

But in this way, the pressure is on the ancestors of the red mask!

Because even if two people maintain balance, in fact, he is still in the disadvantage, because he is defensive, if he does not defend, he may not have to wait for a counterattack, he was hit by the other side.

Only if he is well guarded can he defend and fight back.

On the other side, there is a super beast ***** roaring beside it!

Not to mention Shen Lang, who is holding a partner's tower, waiting to be seen.

With the masters of the same level, any minor influence will be directly reflected.

Not to mention psychological stress, it directly reflects on the action.

But at this time, the situation of the red mask ancestors is not the focus of the audience, the focus is on the cyan mask ancestors!

The cyan mask ancestor was originally restrained by the sable, but because of the sacred beast that had just collapsed the entire mountain, he quickly rushed to bite and forced him to flee.

Originally, this is normal. After all, it is the strongman of the Great God level. Even if the dog ***** and the purple ancestor are both sniper, he still has the opportunity to escape. It is completely normal.

But no one thought of it, in the side of the Tota onlookers, the waves suddenly turned to the face of the blue mask ancestors!

The cyan mask ancestors have just escaped a catastrophe, although not to be shocked, but the attention is still in the dog **** and the purple scorpion, guarding them to continue to pursue.

As a result, Shen Lang suddenly appeared, as if he had predicted that he would be here, and that the tower was ready, and he was attracted to him!

Shen Lang has just dealt with the ancestors of the black mask. It can also be said that the enemy of the tactics of the warfare tactics is deep and ambushing, but now this hand is scaring everyone.

Because the speed of this cyan mask ancestor is very fast, it just fled, and this is no trajectory to follow, it is a temporary rush to escape, it is his own, but also a random choice.

Even if you can guess in advance, it can only be the opposite direction to Shen Lang, but the scope is still great, and the farther and farther the range is.

However, it is too unusual for Shen Lang to be accurate and correct at the same time.

Including his past speed, it is too fast, and even everyone thinks it is incredible.

These are of course within the plan of Shen Lang!

After he had just accepted the black mask of the ancestors, the deliberately high-profile Tota was waiting.

It is to give the remaining two enemies psychological pressure, let them think that he is looking for opportunities, and the tower will absorb them at any time.

But actually Shen Lang just looks like it!

His real approach is to quickly integrate with the surrounding environment under the superficial performance!

Originally under such a state of war, he should not do this, and it is also very dangerous. But now that the enemy has been pinned down, and he is full of scruples about him, no one is attacking him. You can rest assured to do so.

After completing the integration, his safety is on a step.

Now he and everything in the vicinity are like one, no matter which side is slightly fluctuating, he can know at the same time.

Similarly, he can move as he pleases.

Even if someone hits him in a direction he didn't see, he can be aware of it for the first time, and when he attacks the other side, he can move to another place. He and the environment Heaven and man are united, let his movement, is not flying, and there is almost no time gap.

When the cyan mask ancestor was almost bitten by the dog **** and then quickly fled, Shen Lang had already arrived, and it was almost in sync with him.

The already prepared Tiantian Tower is rude to the aging ancestors of the blue mask, and began to absorb strongly.

The normal state can resist and escape the great deity of the realm. At this moment, because the mind is placed on the back two sides of the defense, I did not expect to have a big pit waiting around.

When he defends and wants to escape, it is already late!

The tower has its shortcomings, but its power is also not to be underestimated. If it has been forcibly locked, unless there is a strong force to intervene, such as this side from the side of the attack, or pure defense and movement, it is difficult to resist.

The result is the scorpion ancestor and the emperor's beast that are attacking, and the stale red mask ancestor and elk ancestor, all looking at the ancestors of the blue mask, just like the black mask ancestors, directly The tower is absorbed!

In this way, the two sabres and the elk are both a glimpse of the heart and a spirit.

The red mask ancestor, who had already been psychologically stressed, was directly panicked!

Chapter 1758 - beg for mercy

Shen Lang just showed the extraordinary ability, with the tower in his hand, it is simply unfavorable!

The three of them, who had always had the upper hand, have not even played their true skills. So they have been killed two inexplicably. Can you not panic?

And now he has no helper, that is, Shen Lang does not need to personally shoot, just the elk, the purple cicada and the beast god, in the case of three to one, he has nowhere to escape.

The old ancestors of the red mask did not expect that there would be such a day. The ups and downs were too big for him to accept.

But the situation is urgent, and no matter whether he accepts or accepts it, he must make a statement immediately.

This statement is basically no other choice!

hit!

how to spell?

By relying on the comet ginkgo leaf to grasp the opportunity of the elk, you can stick him, and other people together?

Escape!

How to escape?

Shen Lang is looking at the earth, and he is already preparing for the tower to wait for him to escape!

The only thing you can choose is to accept the soft.

It is not enough to accept soft and concede, it should be said that it is decisive for mercy, and may even need to be a slave like elk, in order to return to a life!

To be a slave, he has never tried to be desperate, and he is unacceptable.

Therefore, the idea now is to admit defeat and beg for mercy. I hope to receive the same treatment as Ziyan. It is acceptable to be able to live, to have freedom, and to pay other costs.

“Rain!”

The red mask ancestors, screamed hard.

He is still surrounded by the attack of the comet ginkgo leaf, and must maintain full defense.

So he can't stop to express sincerity, so the simplest direct shouting “forgiveness.”

If Shen Lang can listen to it and is willing to spare his life, it will naturally stop the elk.

If Shen Lang does not let him go, then he does not need to stop, he must immediately enter the desperate stage of the death of the fish.

After Shen Lang received his second ancestor, it was also a bit unfinished.

If you can collect all three, then how much fierce it will be!

Shen Lang has already learned the situation of the elk in the tower of the tower through the memory of the elk. He knows that the tower can be suppressed and will replenish their rebellious attacks.

But I don't know what level the tower is now!

It turns out that it can still be a strong man in the realm of great gods, but what if two joint attacks? Three?

In short, if you take one more, the benefits are naturally multiplied, and the risk is uncertain.

And he is also observing, the ancestors of the blue mask, there is a chance to accept. However, the red mask ancestor has always maintained a state of high defense, and now he is certainly wary of him. There is no such opportunity.

Now the sable, the elk, and the sacred behemoth are all there. They don't need him to be able to kill the red mask.

Needless to say, the dog ***** definitely supports it. The elk does not dare not listen, Zi Zi will definitely stand on the side of the team, there is no problem at all.

But Shen Lang has to consider which kind of treatment is more valuable!

He can't say now that they have to kill this person, and then he will absorb his mental strength, and he will not be able to bear so much.

That can only be killing, killing can not get any benefit.

Of course, after the killing, the resources he carried on him can be seized.

But since the other side is asking for mercy, this can also ask for the spoils.

So killing, in addition to killing the satisfaction of a great god, there is no other benefit.

And keep it, there is another value!

Reference to the purple ancestors...

Before the elk was received, the ancestors of the purple scorpion were left. The result was not only a winding road, but also three strong enemies. They also immediately placed the following, and cooperated with Shen Lang to act and bluff to influence the enemy.

The same is true of the ancestors of this red mask.

The three of them are allied, even if they can be kept secret, others can analyze a little. It is a situation of suspicion that all three people have died like this.

But one of them went back alive, and the other two did not, whether they saw, guessed, or the other two factions spread the news.

For the expansion of Shen Lang's reputation, it has a great effect.

Knowing his power can block more enemies!

Otherwise, even if these three are killed, there are three other, four, five...

The more people come to the back, the more they will absorb the experience, and they may not be the first to pay tribute to the soldiers.

When it comes time to go directly to the sneak attack, you can't prevent it.

"Elk, pause the attack!"

With this calculation, Shen Lang's decisive opening stopped.

Although the elk was a bit unwilling, he immediately stopped listening.

He went directly to the house of magic, and he wanted to make meritorious deeds as soon as possible in order to add points to Shen Lang.

Originally, the performance was also good, and it has gained the upper hand. However, he did not expect that he had no victory in sight, and Shen Lang had easily killed two other enemies.

Then completely compare him.

Now he wants to speed up the knockdown of the enemy, but Shen Lang has already opened his mouth and can only give up.

What is the taste inside the tower, he is very clear!

Now his attitude is very good. Shen Lang is doing what he wants to do. If he doesn't call it, he will prepare it first. So now it is stopping the attack, but the comet ginkgo leaf is still being manipulated, and there is a little bit floating in the air, ready to pounce to cover the enemy!

The ancestors of the red mask, a little relieved.

Since Shen Lang listened to him and made concessions, there was a chance to talk.

But don't look at this young just two waves of operation, you can see that it is very embarrassing!

Therefore, he still maintains absolute defense and alert, and is always ready to escape. The clear expression of this gesture is seen by Shen Lang.

"Shen... Daxian. I am wrong, we are all wrong, should not offend you. They have two sins deserved, I am also very regretful, here, I hope you can give me a chance, spare me a life. You need me I will not deny what the price is!"

He immediately expressed his attitude.

Any price is of course impossible, but it must be said that it must express a decisive attitude before there is an opportunity for further discussion.

Shen Lang is also welcome, and beckoned: "First hand over all the things that have value in you!"

"..."

The ancestor was a bit speechless and did not expect Shen Lang to be so realistic.

However, he is worried about the end of the elk, handing over everything, it should be the end of the purple.

"Yes, I dare not have the slightest Tibetan mastiff. I have everything in it."

He immediately took off a storage bracelet and quickly erased his mark, then threw it at the sinking wave and let it float.

Chapter 1759 - Suspicious

Shen Lang reached out and took the bracelet.

This storage magic weapon has erased the master's mark and can be used directly for him to extract all the items inside.

This is also the cautious part of the red mask ancestor. If Shen Lang wants to find an excuse to move him, he will say that the bracelet cannot be opened, and he must first kill his original owner before opening.

Therefore, he himself directly erased the imprint and sacrificed his sincerity to avoid loopholes.

Shen Lang is actually not anxious to see what is inside, he is not a lack of resources.

The key to retaining this person's life is to pass on what happened here today, even if he will not elaborate. The three people only have to go back alive, which is a signal that everyone understands.

“you can go now.”

“...?”

Shen Lang suddenly came to such a sentence, let them all surprised.

The elk and the sable ancestors do not believe that Shen Lang will let people go, and they don't know much about Shen Lang. I feel that this kid's heart is so hot that he should be unprepared and continue to work!

Zi Yan feels that Shen Lang is likely to let them kill, and he does not have to do it himself.

The elk stayed in the tower, and Shen Lang also said that he would be refined into a remedy. I guess that Shen Lang is going to confuse the other party. When he is not prepared, he will be included in the same income as the other two partners. Inside the tower.

The red mask ancestor is basically a similar conjecture. Even if he fully cooperates, he can't believe that it would be so simple.

“Do you want me to return?”

“Oh... no, no, just...”

The red mask ancestors were a bit tangled, and he did not believe that Shen Lang had let him go.

This is probably to let him leave, and then attack him from the back usage treasure?

His fears also made the Zixiao and the Elk more convinced of their own ideas, and they were all ready to attack.

“You don't want to move him. I will do it when I say it. Since he can ask for mercy so decisively, I will not pursue it.”

Shen Lang smiled and took the tower.

“People respect me a foot, I respect a man. If someone has the heart to kill me, I must first smash it.”

He said it was light, but it was loud.

In exchange for the time when Yao Chi had just seen Shen Lang, or just yesterday, several of them would sneer at it and think that this is a little bit of a child’s words.

But now it is different. Regardless of the sable, the elk, or the ancestor of this red mask, everyone has already experienced it.

However, the ancestor of the red mask is happy to see that Shen Lang is such a person who speaks and counts.

That means he can leave safely, his decision to beg is very timely, and it may have worked.

“Thank you! I can’t help Shen Danxian with a thick face, so I will leave!”

He said so, but did not leave immediately.

Because the two strong enemies were all settled by Shen Lang, whether it is the elk and the emperor, they feel a bit embarrassed.

So after leaving him one, even if the Shen Lang stopped, they formed a package of intentional or unintentional.

Once Shen Lang ordered it, he immediately attacked and must fight for one.

When they were in the package, they let the direction of Shen Lang away, just in the other three directions.

If you can rush people to the side of Shen Lang, let Shen Lang can earn the tower, perhaps the most satisfactory result of Shen Lang, they will also cooperate.

Now Shen Lang has let him go on the verbal, but everyone is still surrounded by the four sides, the ancestors of the red mask, of course, still do not believe that this is safe.

Shen Lang understood his mind at a glance, and immediately took the initiative to fall to the peak, and then ordered the other three.

“Don’t be stunned, let people leave with peace of mind. We must count!”

Of course, the dog **** has no words. What Shen Lang said, it will listen.

At this moment, the body was immediately reduced, and it was like a dog-sized body falling beside the sun.

The elk and the purple cicada are also awkward.

The red mask ancestor, when I saw the sinking waves, left a direction, I couldn’t help but feel a little relieved. It seems that Shen Lang is really talking.

But soon hesitated.

He has the artifact of the tower, not necessarily flying in the air, should be below, can also absorb people?

And there are three more, will this be a conspiracy trap?

Shen Lang then spoke up, and all of them who had obediently fell.

This process has gradually eased him a lot.

Three people and one beast really landed completely, and made him suspicious.

Is Shen Lang really so generous?

He is... I can't run it?

Is there another person who is ambushing?

The legendary flower fairy?

Let him go without dare to go, which makes Shen Lang feel funny.

Elk and sable are not the same, they are still very serious, and even maintain a state of attack at any time.

Because I don't know enough about Shen Lang, I don't know if it's just a real order.

"How do I need to cooperate?"

The relationship between the dog **** and Shen Lang is different, so I asked the sentence.

If Shen Lang needs to arrange a sneak attack, or to chase it, it will go straight to the battle.

"No. I just want him to leave, that is to maximize the benefits."

This dog ***** is not very clear, since it is an enemy, shouldn't it be killed? How can we let go of the benefits and maximize the benefits?

However, for the wisdom of mankind, for the wisdom of Shen Lang, it has nothing to say, so it is also honestly obedient.

The red mask ancestor is still in the air He is very embarrassed.

The former partners are gone, the peaks they have stood before have been crushed, and there is a lot of smoke coming up.

They are already on a mountain.

He is not going now, nor is it stopping.

Although in fact it is only a few seconds of entanglement, but for him, every second is a longer feeling than a day.

This can't blame him for being suspicious!

Shen Lang just underestimated his two partners. Who can believe that he did not ask for much, and let him go?

Besides, the two sabres and the elk have always been in a state of combat and he can feel it.

However, after a few seconds of entanglement, thinking that if the other party wants to do him, then the stop is useless, but instead smiles.

Anyway, his defense has not been relaxed for a while, and this time he is also maintaining a high degree of alert, and then let himself reach the fastest speed in an instant, and fly directly to the distance!

When he left, he almost reached the most tense moment!

He is like a captured fighter. When he is allowed to leave, he is always worried about whether he will come to a missile later...

Chapter 1760 - Don't play tricks

The ancestor of the red mask escaped in horror, and as a result no one pursued him.

After he left, the elk could not help but question.

“Master, why do you want to let him go? We can kill him, or you can use the tower to suppress him!”

This cargo has withstood the pain of the tower, and may wish others to taste it.

Shen Lang smiled faintly: "Let him go, of course there is a reason."

He did not continue to say that a slave is not guilty of explaining anything to him.

"You two, don't have any knots."

Originally, the purple cicada and the elk were close to the side of Shenlang, and they all avoided each other's eyes. One was angry and the other was jealous.

Because Shen Lang is on the side, they did not speak directly.

But now that the waves are broken, the two people have to face it.

Looking at the purple sable, the elk is undoubtedly full of resentment.

He didn't really hate the waves because he was willing to gamble. Since you are fighting in my life, no matter what means, Shen Lang is the winner.

In exchange for his victory, he will also conquer the waves according to his own mind.

But the sable is not the same!

Zi Yan was originally his friend, and yesterday evening it was an alliance between the two sides.

When attacking the waves, Zi Yan suddenly attacked him, which was a violation of the Covenant, and he was sorry for his friend's injustice.

And that is the key!

He feels that if it is not purple, he will not be sucked in by the tower, and will not suffer the pain of refining and refining, and will not experience the state of despair.

This means that the current situation of losing dignity and freedom for a living is entirely due to the sable.

This is how he does not hate the purple?

And...

Because he is now a slave, he does not dare to hate Shen Lang, so as not to be felt by Shen Lang, misunderstanding him to kill, and kill him in advance.

Therefore, the subconscious mind intentionally or unintentionally, the hatred of Shen Lang is counted on the head of Zi Yan.

When you see the purple scorpion, you can't wait to lick its meat and drink its blood!

Now that Shen Lang wants to resolve their knots, it is certainly impossible.

Just because of the face of Shen Lang, the elk is not convenient to directly do, dare to speak out.

Aster is very embarrassing and very embarrassing.

When he saw the elk before, his heart was gratified. He felt that Shen Lang was still good and could release his old friends.

But now it is a bit blame for the waves.

Since the wood has become a boat, let it be a boat. Anyway, the wicked have already done it.

Now let go, you still make people a slave, then do not leave me a wicked person?

However, he can't say anything, but he can only explain it with a bitter smile.

"Oh deer brother, don't blame me. The situation at the time... I accepted the suggestion of Shen Lang Daxian, and I also wanted to turn it into a jade. Fortunately, you are fine, nothing is fine."

"..."

The elk can't be ejected, but there are countless sentences in my heart!

Especially, Laozi is now a slave and a dog. Is this okay?

But there is no way. The words of Zi Yan are to pull the Shen Lang out of the front, and he can't say that it is not good.

The elk can only be silently sulking, thinking that one day, it must be killed by the Kunlun faction, and the purple scorpion is well prepared!

The dog **** did not understand the situation before, watching them like this, they stood by and watched. If they have the intention of shooting against Shen Lang, then it will stop immediately.

"Okay, it's all gone. Now go on Kunlun!"

Shen Lang saw this atmosphere, and did not let them communicate more.

"please!"

The purple scorpion is like a big man, and they are invited to them, and then they lead the way.

Before him, he and Shen Lang both, and he felt embarrassed along the way. Everyone is not familiar with each other, and they have played one game. It is natural to be alone.

Now there is an elk, and there is a dog-like super beast.

But it did not bring excitement and ease, he felt even more embarrassed!

Just left the grass sea, just on the edge of the Kunlun Mountains, I was hit by an ambush.
This makes the cicada more cautious.

I thought that I was detoured in Caohai, and randomly selected a place to avoid being noticed.

But now it seems that it is not that simple.

Since there is a first group, it is very likely that there will be second and third.

In this case, he will no longer detour, while flying to identify the direction, and then go directly to the mountain where the Kunlun faction is located.

Shen Lang followed the dog ***** and the elk with him.

The whole atmosphere is as cold as the temperature in Kunlun Mountain.

I don't know if I let go of that person and start to spread the message in a special way, or whether other people have a way to predict it.

The road ahead of the Kunlun Mountains did not encounter any enemies.

“The front is here!”

When he said this, Zi Yan lowered the speed and indicated that their speed also slowed down a bit.

“Hey! Old ghost! Don't play tricks!”

The elk was cold and cold.

Shen Lang has extracted the memory of the elk, searched for a moment, and immediately understood what was going on.

Because elk and cicada are familiar friends, he has been to the Kunlun faction more than once in a hundred or two years, and naturally knows where the Kunlun faction is.

Although the Kunlun Mountains range is very large, he cannot understand all the mountains like the purple. But you can clearly know that this is not the place where the Kunlun School is located!

Not only is it not, but the distance is very far away.

Combined with map memory, as well as Caohai, etc., Shenlang refers to a map, and then compares the route after entering Kunlun Mountain, and finds that Ziyang takes the road, not to Kunlun Mountain!

The angle route is a bit awkward, but basically it can be confirmed that it is another direction!

Now, the mountain peak where the Kunlun School is located is farther away than when you first entered Kunlun Mountain!

Although the elk did not say the situation clearly, the attitude has been expressed very clearly. He believes that Shen Lang can understand and does not need him to rectify the right and wrong.

Shen Lang did not speak, he did not even see the purple.

He has a certain understanding of the purple.

This old man is more afraid of things, not so much thought—or thief-hearted.

After two days of encounters, he is even more unlikely to mess around, and he has been with Shen Lang and has no time to arrange anything.

Therefore, even if there is a problem with the route, it should be due to reasons such as security.

Or... This is the secret of the Kunlun School's preservation of the "treasure chest"!

The rex rabbits are still three caves, so the ancient martial art that can survive for thousands of years, there will be more rudders, and it is entirely possible.

On weekdays, the sable is not going to let the elk and the like know the secret division.

Now, after the mutual provocation of the three people before, he should be less willing to take the Shenlang back to the Kunlun headquarters.

Of course, the jealous person... may also be an elk that hates him a lot.
