

First Strong 1761

Chapter 1761 - Kunlun

Zi Yan just smiled and did not explain anything.

“Please come with me, I will never have any other thoughts.”

After that, he took everyone and flew to the mountain.

This is a huge mountain and should be one of the famous main peaks of Kunlun Mountain.

However, the elk is not very familiar with these things, and the waves are naturally unclear.

The sabers did not land them on the top of the cap, but rotated a large circle at a height of about a kilometer from the cap, and then identified a place where they landed in the snow.

“We are very far away from the Kunlun School. If we are on the road, it will take a long time. The road is far away, not only expensive, but also dangerous.”

At the time of the landing, Zi Yan has patiently explained it.

“This is a stronghold of our Kunlun school. No one is stationed. There is only a transmission array. If you are going back to the mountain from this direction, you can go back faster here when you are in a hurry.”

During the speech, he had waved away a large piece of snow covered by the mountain wall.

After the appearance of the mountain wall, Zi Yan confirmed it again. Then began to quickly use their martial arts program to open a hidden portal.

This is a cave above a cliff.

The meaning of purpura, the dog ***** may not understand too much, Shen Lang and elk are clear.

This is a shortcut, perhaps a north-south, fast transfer of things, or all four.

But seeing the huge mountain set up at such a high level, no one is stationed, I believe that it is generally not how to use it.

This should not be used in an “emergency”, but it may be two situations.

One is to have a heavy treasure, a secret and be chased and killed, and continue to quickly return to the sect, in order to use such a shortcut.

Another kind is that when the Kunlun faction encounters the disaster of extinction, it quickly flies from the martial art to here, leaves here, avoids the enemy, and avoids the death of the door.

If you did not encounter the ambush of the previous three great ancestors, it is estimated that Zi Yan is not willing to expose the transmission array here.

Just a shortcut, Shen Lang calmly followed.

The mood of the elk in the back is a bit complicated...

They have been together for so long, Zi Yan did not take him through here, but now it is open for Shen Lang!

The dog ***** is still followed by a dog, but it is absolutely vigilant.

Whether it is the danger of the environment, or the two people of the purple cicada and the elk, it is the object of its defense.

This time, the mainland of the island, the change of the dog ***** is huge.

The cave penetrated into the inside for dozens of meters.

In the caves that appear on such high mountain walls, there is no need to worry about people being mistaken. After all, Kunlun Mountain is so vast that it has not been passed by for hundreds of years.

And that portal is also well designed. After they came in, they closed.

“please!”

At the end of the cave, the purple enamel opened a transmission array.

The invitation is polite, and he knows that if he does not take the initiative, others will not be assured.

So after he finished speaking, he himself first joined in.

After the transmission array method is turned on, it can be maintained for a while, and it is impossible for the sable to run first.

But Shen Lang did not have anything to fear, and immediately followed in.

The elk and the emperor are also following.

After everyone entered, the transmission was only started.

As the space fluctuated, they reappeared in another place.

The environment here is different from that in the cave. It can be seen directly that this is a secret room.

“This is already our Kunlun school, welcome everyone!”

Going back to my own home, Zi Zi's ancestors grew a little.

But rest assured that there is still a trace of regrets.

Originally, the appointment was the first one. It was a very good thing. As a result, there were so many twists and turns. Now, the two generations of Shenyang and Sufeng have been annihilated.

However, things have already happened. It is impossible for him to find revenge for Shen Lang or to look forward.

When you come here, there are many things that can be seen at a glance.

Why did you not encounter an ambush after leaving the place where you played, not because the news spread, but because they were not in the direction of the Kunlun faction.

Why the sable ancestors will choose to send back the array, because this can go directly to the Kunlun faction!

It is almost certain that outside the Kunlun School, it is very likely that some people will be waiting, waiting for them to come back.

In the case of the mountain gate, related to the sects of the predecessors, the Kunlun faction must send people out to help.

As long as the guardian squad is slightly closed for a while, the enemy can come in directly!

At that time, the other party is not only dealing with Shen Lang, but the Kunlun School, and may become hostages.

In front of the Great God, the other doormen have no resistance at all!

But now they are not directly the same.

Even if someone is outside, they don't know that they are back.

And open the guardian big array, even if you know it is not so easy to break in.

Coupled with Shen Lang, Emperor Beast and Elk, it is basically safe.

Now the most important thing for the ancestors of the sable is the elk that hates him.

“Do it right now! You will not be in a mood to entertain us, nor will you take us to visit.”

If you are in the dark, let the purple scorpion be a bit embarrassed.

He wants to explain it, but still chooses the default.

Since Shen Lang said that he was doing business directly, he would give birth to the face.

Coming out of the secret room, I saw the Kunlun disciples who came here to sense the fluctuations in the transmission.

The disciples saw that the ancestors took the guests and did not dare to ask anything. After the ceremony, they retire.

Zizi ancestors are still a bit hesitantBecause now with Shenlang to open the “treasure box”, it means to let Shenlang go to the door to ban the land!

This is the disciples in the door are not qualified to approach, except for the purple scorpion and the head, the other is the elders, but also need to meet to decide, or else can not enter the forbidden land.

The forbidden land is internal, and the disciples are not allowed to approach, and there are many secrets in the door.

Treasure chests are just one of them.

Originally, these ancient treasure chests brought back from the ruins of the past are placed for thousands of years, and there is no good treatment.

But no matter what, everyone wants to open it after having a chance to understand the method in the future.

I didn't think that one day, I would like to invite an outsider to come and help open it.

Now not only the deep waves, but also the super beast ***** of Shen Lang, and his slave servant deer...

If Shen Lang has other thoughts, it is necessary to occupy all the items in the Kunlun ban, which is not blocked by the sable!

He can't stop, and all the disciples can't stop.

If you really want to do it, it will only make the Kunlun faction hit hard.

In that case, he would have to take the initiative to bow down, so that he became the sinner of the sects!

Chapter 1762 - Forbidden treasure

"Do not worry! I want to fight your Kunlun idea. Do you need such trouble?"

"Our three together, directly kill you, extract your memory, you can go directly to the Kunlun school through the transmission array, you can go directly to your treasure house."

"It's not a problem to dry all your doormen."

"As for it! You trust me, I will perform my duties. That's all! There have been twists and turns and betrayal on the road, but when you help deal with the elk, you have already regained my trust."

Shen Lang saw the entanglement of Zi Yan's ancestors and directly told him about it.

These words make the purple ancestors very embarrassed.

Although it is hard to hear, he would not believe it before, but now it has proved that this is a fact!

Shen Lang can easily accept two ancestors, which is the embodiment of his strength, let alone two more than his beaters.

The person who can let go of begging for mercy also shows that he is principled.

“please!”

The purple ancestors did not hesitate to invite them directly to the Kunlun area forbidden.

The forbidden place is a lot of sects and families. The smaller one is the restricted area, and the smaller one is the secret room.

Essentially the same, it is the place to store some of your own resources.

It is forbidden to enter the door, not only to protect the inside of the door, but also to prevent the doorman from stealing it, and to protect the doorman from injury!

Because of the secret room, the restricted area, and the like, it may be set up to protect the law enforcement agencies. If the strength is not enough, it may be injured.

The big forbidden land may be even more different.

For example, the Kunlun faction is now a forbidden place.

In addition to the need to open the array, the more powerful beasts are guarded!

When the formation was opened, Zi Yan took them to the door and immediately went into a gap.

People who are unclear will fall directly.

At first glance, it is bottomless!

Of course, if the strength reaches a certain level, you can fly. Even if you come in, you will not fall directly to the end.

However, after coming in, there was a flying beast that looked like an eagle with a few feet long!

Not a head, but a group!

If it is an ordinary disciple, even if you know that the secret law of the opening of the organ has come in, even if it is stabilized, it will be stabilized. For such a group of flying beasts, there will be no way in the air.

Because of this batch of flying beasts, at least one of them has reached the level of the beast, and the others are also kings.

If this is true, it will be decided that the disciples of the Daxian level or the outsiders will come in. There is no chance of surviving.

This is just what I just felt, maybe there are other beasts, or other organs!

After the purple ancestors came in, as long as they released a layer of pressure, these giant eagle-like high-class flying beasts would understand who they came from, and went back to hide them.

But this time it is a little different.

Just coming in, feeling the smell of these fierce beasts, the dog ***** immediately snorted!

In fact, his snoring is only to increase the momentum, and as soon as they approach, these flying beasts, they feel its powerful atmosphere!

Although this is not the beast of their race, the kind of super-beast ***** on the Emperor's behemoth directly makes the flying beast gods inside fear.

This is the fear of nature, like a group of dogs, encountering a tiger leopard, not a dog king, naturally will be awe.

This makes the Zizu ancestors a little embarrassed...

Indeed, as Shen Lang said, if the other party wants, the contribution of the forbidden land, the entire Kunlun faction, is not a problem.

He immediately released a layer of pressure to let all the flying beasts go back.

“please.”

When the flying beasts retreated, the sable ancestors took them across the scorpion gap and reached the opposite side.

This forbidden place is very large, and the opposite is completely a mountain. It should be the effect of encircling and hiding a steep mountain with the array method.

Shen Lang did not have a heart, and naturally did not investigate their forbidden land, so as not to let the purple ancestors have more hearts and minds, causing unnecessary misunderstandings.

He now wants to help the Yaochi pool, quickly help them open the “treasure chest”, and then leave. The same is true for other sects that have been reserved.

The reason why they will be promised will be the way to make an appointment. Naturally, it is not purely good.

Instead, in this way, the popularity is quickly expanded, and it is also a deeper understanding with the factions.

There is something in these “treasure chests” that he might see if he wants to know. Or the factions found that they do not know what is useful, can be identified and processed by him.

That is a huge opportunity!

One more, in the personal status of Shen Lang, unless the cold autumn is carried, or else you want to visit these big sects one by one, it is almost impossible.

Now this opportunity is to visit, understand, and it will be a great enrichment of Shenlang’s own understanding and map of the world.

And there is also one, each of its own sects, will give a certain amount of compensation, add up is also a small income.

However, he still underestimated the mystery of this mystery, or his own, and the attraction of other parties.

But now there is no problem, there are elk and dog gods on both sides, plus Shen Lang’s own strength is not inferior to the great god, not to say that he is invincible, at least can also do at least three ancestors.

On the opposite side of the mountain, you can see that there are some high-quality herbs everywhere.

The Kunlun School is an ancient sect with history and heritage. The general needs, they can all cope with it, and the medicinal materials in the forbidden land are naturally not used.

Over time, more and more, the year will be higher and higher.

They will come here to pick them when they have no choice but to do so.

Shen Lang and the elk have all seen the world and have ignored them.

There are different forks on the mountain where to go, no one asks and investigates.

They followed the purple sable and came to a cave.

This cave has been heavily protected. In addition to the door and the array, there are also beasts at the door level.

Just because they all have a rich heritage, it is not surprising to see Shen Lang “call” the super beast.

The Emperor’s behemoth is in the ranks, so that the purple scorpion does not dare to show off in the slightest, and decisively informs the guardian beast to leave in advance, so as not to stand up with the sacred beast.

“The things we want to see are here...”

The scorpio ancestor opened the cave, which is a large warehouse in the forbidden land.

Shen Lang saw it, good guy! Even if it was only opened in the millennium, they also moved back a lot of “treasure chests.”

The amount accumulated here will not be less than that of Yaochi!

If you want to catch him, perhaps for “secret surgery,” mastering the secret technique does not mean that you have to have a “treasure chest.” But those who are willing to make an appointment must have a lot of “treasure boxes.”

This can be reversed. The last time he and the half-sex and the great immortals saw the ruins, it was really just the tip of the iceberg!

It’s just these ancient big people who are interested in letting go and attract a small part of the eye!

Chapter 1763 - Open the "treasure box" again

“You don’t want to go in, I just go in.”

When Shen Lang just said this, he saw that the face of Zi Yan's ancestors was wrong.

He immediately added a sentence with a smile: "I said that the two of them do not have to follow. This is the secret of your martial art, even if I will not look at them one by one, it is not convenient for them to understand more. You certainly have to come in. "

The purple ancestor smiled and smiled.

He just really misunderstood.

If Shen Lang is to let him not go in, then I really doubt that I have ulterior motives.

Who knows how much will you take away the baby after you open the "treasure chest"?

Originally, there was no cold autumn to accompany, but it was only one of Shen Lang. He was able to hold it, and naturally there was no burden.

It is different now. It is the absolute strength of Shen Lang. Even if he is on his own territory, he does not have much right to speak. He has to be careful to wait, so that Shen Lang will stir up the Kunlun faction.

But now that he said this, he was relieved a lot.

Shen Lang does not let the elk and the beast ***** follow, and the two of them will be much better.

The dog ***** does not matter, Shen Lang said what it listens to.

How much is the elk is a bit unwilling and unexpected.

In his opinion, Shen Lang can't be so kind. When he ran to the Kunlun School, he really helped them open the treasure chest.

Especially before I was alone, I have already taken him and the beast ***** directly. It is clearly prepared.

Since they came together, and did not say that they are waiting outside the forbidden place, it must be hands-on!

He is very purple and ancestors, of course, he wants to do something, although the benefits may not be available to him, but he can make the purple blood loss, he will be happy.

But he soon thought more in the other direction!

Shen Lang let them stay outside, and go in with the purple, this is probably to numb the purple, and after opening the treasure chest, the two of them are waiting outside, directly kill the purple scorpion?

Thinking of this, he nodded “very honestly” and said that he would wait outside quietly.

Shen Lang and the ancestors of the Zixiao, together into the cave warehouse.

The array at the entrance of this cave is still closed again after coming in. When you go out, you need to open it separately.

Until then, the purple scorpion feels a little peace of mind, even if Shen Lang wants to move him, he must also consider the problem of going out.

However, Shen Lang did not even think about it. The reason why the elk and the dog ***** were not left outside the forbidden place was actually that they were afraid of the elk, and they would vent their anger at the Kunlun school disciples.

So I kept them in the cave before letting them stay outside.

“The ugly words are in the front, I will not greedy your treasures, and I will not sit on the ground and ask for compensation. But the secrets of my organization may not be universal. It can be opened, but it cannot be opened. There is no way.”

Shen Lang first confessed to Zi Zi's ancestors, lest the old man think more.

This is in the Kunlun faction, especially in the forbidden land. Who knows their thousands of ancestors, and has there been any strong prohibition?

The sable ancestors immediately expressed their understanding, even if one could not be opened, it would be a very difficult help to get away from the dangers.

Shen Lang checked in the past and quickly confirmed that the same warehouse container box is equipped with advanced defense. If there is no procedure and no correct authority is opened, violence is difficult to open.

Violent damage such as magic weapons can also cause consequences such as explosions.

This is also why they have not been able to move them for thousands of years. In fact, they must have been violently cracked. The result is that they have been destroyed, so these have not moved.

But after all, it is the remains of the "Emperor's Palace", and it is obviously stored in good things, so it can be left from generation to generation.

The "treasure chest" of different places and different periods is naturally different in terms of procedures and instructions.

However, the current sacred armor of Shen Lang has the highest authority of the **** of the world. After the upgrade and integration of the ruins, all these procedures can be directly opened.

Shen Lang was the same as Yaokang before, and the Kunlun School opened all the "organs" of the "treasure box".

As for the specific inside of what is installed, there is no small password box to open, it will not be taken care of.

If there are some warship assembly materials and the like, it is also a chicken rib for him, so simply do not move curiosity, leaving these suspense and entanglement to the Kunlun faction.

“Okay, basically it’s all turned on. If there is still one, it’s impossible for me to open it.”

After the opening, Shen Lang stood in front of Zi Zi’s ancestors, facing all the storage cabinets.

“More, thank you!”

Looking at the treasure chests that have plagued them for thousands of years, they quickly opened one by one, and the scorpio ancestors were all stunned.

Sure enough, mastering the secret technique, it is like having a key!

He also realized more, why the elk and other people will ignore the principle and morality, and also want to grab the Shen Lang, in order to master these ancient secrets!

Now Shen Lang is such a gentleman’s behavior, which makes him a bit embarrassed, and he still has doubts about defending others.

“I still avoid it. You should send me out first, including the elk. Here you will slowly organize it. Rest assured, I have already set it up, they will not automatically close.”

Shen Lang said his concerns.

Zi Yan nodded quickly and would not automatically close. Of course, the function of recycling these “treasure boxes” was wasted, but they did not grasp the secrets of the starting organs, and there was no way.

It is also impossible for people to teach the method can not be so tossed.

“please!”

The scorpions are also very itchy now. I want to check and inventory these items in detail, but the most important thing is to send them away.

Even if you can believe in Shen Lang, the elk outside, he knows better!

When he opened the organ again, the elk immediately looked into the cave, and the purple cicada also clearly felt the state of the elk wanting to attack!

This made him nervous immediately.

If Shen Lang is to lead him out to kill...

Thinking of this, he quickly shut down the formation.

But my heart still has no bottom...

These ancient organs are definitely super-complex formations. The so-called secret technique of opening organs is actually the technique of cracking the law.

Shen Lang can be proficient in this, and soon the small array method here?

If he is killed, all the treasures will be evacuated, and they will be able to go back to the Chamber of Secrets after they have just come all the way, and then transfer them directly to the Wanli through the transmission array.

The waiter found that something was wrong here, and already did not know where to go!

Chapter 1764 - Walk the main entrance

"It's already done. Let's go!"

The atmosphere is already very tense, and the words of Shen Lang are to dissolve the atmosphere of the sword.

Elk is a bit strange and unwilling, but his current identity, there is no question he has questioned.

Just like the ancestors who had let go before, no matter whether Shen Lang is kind and soft, or if he has other deep meanings, he must listen.

The sable ancestors kept their smirk and kept a high degree of alert, but the words of Shen Lang made him feel a little relieved.

All the way out, and then through the same day, then open the door to the forbidden land, back to the interior of the Kunlun school.

After the successful ban of the ban, the heart of the sable ancestors was finally released!

No matter how powerful Shen Lang is, this is the ancestral squad, and it is impossible to be easily solved by him.

At this time, he saw the elk sneer at him silently, and could not help but feel cold again.

Yes! Even if they came out of the forbidden place, they were still in Kunlun. Please ask God to send God easily. What if they don't leave?

This makes his scalp numb...

Just as he chose to go back to the interior directly through the transmission array, Shen Lang should also be able to guess that there was someone ambushing outside the Kunlun School.

This is a good excuse to stay!

Before the danger, he personally experienced, even the first wave is the danger of his participation in manufacturing, Shen Lang has to open this mouth, it is really difficult to reject.

Nowadays, the generous atmosphere of the people has opened all the treasure chests, avoiding the timely departure, and staying here to shelter from danger. Is it necessary to drive away?

He has been nervous and makes Shen Lang look very funny.

Of course, it is a bit awkward.

This is the strong man of the great realm!

This is the old man who has been honored by the “old ancestors”!

In front of a young man, he was always worried and worried about being killed by him.

Only ten days ago, he was also smuggled away with the dog god, facing the ancestors, but also careful to survive.

唏嘘 唏嘘 唏嘘, Shen Lang itself will not be polite with the sable ancestors.

The previous offense has already paid them a price. The subsequent cooperation also gave the Zizu ancestors a return – the opportunity to re-help the Kunluns and the storage ring for him.

Now that he will not offend him, he will not rob the Kunlun faction, but the detour of 100,000 miles will come here, and the rewards will still be collected.

“Purple ancestors.”

“Shen Daxian has something, but please tell me.” Zi Yan’s ancestors rushed to arrive, and his heart was raised.

Is this going to start asking?

“I have done the work for you, have you done it? Right?”

“Yes. Thank you for your help and solve our millennium.”

“I will stay in the guest, it will make you embarrassed, and the situation outside will also hurt you, and I also promise other sects. So, we are ready to leave immediately.”

“Ah... this way, that much... sorry.”

The sable ancestors were a little embarrassed, but they couldn't hide their happiness. Therefore, this time it was cheeky, and even the retaining of the guest did not say a word.

“You don't want us to go?” Shen Lang joked.

“Think!... No, no, I mean, I personally are very reluctant to Shen Daxian, and I am not afraid of what I am tired of, but you have promised others, I can not misunderstand you and affect your reputation.”

He reluctantly set aside, and then quickly turned to emphasize.

“So ah.” Shen Lang looked at him.

“...?”

The purple ancestor is a bit puzzled, so what? He was so nervous at the moment that his scalp was numb.

An old ***** outside, really is awkward!

“So, if you promised to give me a reward, give it quickly, let's leave. You let me ask for it, everyone will be embarrassed!” Shen Lang laughed.

“Yes, right, right! Remuneration, remuneration!”

The purple ancestors are nervous. They are afraid of what kind of treasures in the “treasure chest” that Shen Lang asks. He has not had time to check the inventory, but he can't let Shen Lang first stare at it.

When you hear the reward of just opening the treasure chest, you will be happy.

Originally, this is how much remuneration, and Shen Lang did not offer the price. They did not elaborate. Just in his capacity, of course, it can't be too stingy.

Now in order to send them away quickly, the scorio ancestors did not think about screening, and simply took the storage ring of Shenyang.

“This is the reward of our Kunlun school! The rush is insufficient, and I hope that Shen Daxian will not mind.”

“Are you sure?” Shen Lang passed the ring.

Although it was not detailed in the time, it was naturally carried out by a contemporary leader. It is naturally a very important part of a martial art.

Compared with the whole martial art, it is certainly not too much. After all, it is impossible, and it is not necessary to carry it all at all. Usually there is not even much resources available.

However, this time Yaochi trip, there is a trading environment behind the Yaochi event, naturally it will carry some resources to buy and exchange, and naturally it will not be bad.

“Of course, of course, we are very sincere.” Zi Yan's ancestors were busy laughing.

He has not considered how many things are inside – this is the Sun Yang tube, and in fact, he does not know how much.

The fear of the suspects in front of him made him feel that Shen Lang and his party could leave immediately, and they would not wash the Kunlun faction. Thank God. Anyway, opening so many treasure chests is always a big profit.

“Then I will be welcome.”

Shen Lang took the ring and scanned it all around.

“Give us a go out.”

Before the sable ancestors had not spoken, they added another sentence.

“Going to the main entrancebut...”

The purple ancestors are a little hesitant. If you walk the main entrance, there may be someone ambushing outside. When you fight, will he help or not? Will there be someone taking the opportunity to invade the Kunlun faction?

Shen Lang smiled faintly: “It is not easy to come to this Kunlun school. They will always guard the parties, and with the news of the previous person, I will know that I am still here.”

“Although I didn’t see me coming in, I will make sure that I am in Kunlun. If I don’t see me, they will always stare at you. Since it is directed at me, I will not bring the disaster to you.”

The purple ancestors could not help but be amazed.

Shen Lang, this is to go out in the bright future, and lead the enemies that may be lurking outside the Kunlun School!

Combined with him, he just paid for the treasure chest, and the other did not do any greed.

This child is really a gentleman!

The purple scorpion can’t help but may not be fascinated by the elk. It should also be persuaded by the elk, and there will be no loss of the latter, and it will also win the friendship of such a person.

“please!”

In the previous “please”, Zi Yan was nervous and cautious, but now it is full of respect.

Chapter 1765 - Open challenge

Even if there is respect for Shen Lang, Zi Yan still does not want to take risks to leave them, but politely send them to the main entrance.

The Kunlun School is an ancient martial art with a long history. There are various pavilions in the mountains where there are no people.

These buildings are majestic and delicate. The place where the Kunlun School is located is not the main peak, or even the mountain peak where the transmission array is located in the distance!

This mountain is also the height of several kilometers into the cloud, but it is not covered by snow and ice, and the environment is much better in all aspects. It is a bit more scent than the pure snow and ice peak, and it is more suitable for long stays.

Of course, the Kunlun school’s founder will choose this place as the place to open the sect in the huge Kunlun Mountains. The more important thing is definitely because the aura here is the best.

Shen Lang said that it was the main entrance to leave. In fact, it was not just good to ambush people at the door.

The Kunlun faction of the mountain guards completely defended the entire mountain!

Although there will be no people to invade in peacetime, even some people may not come here in the end of the year, but such defense should be a tradition.

Or, usually, there is no need for defense, but this time the contemporary ancestors and the ancestors who are sitting in the town have left. Naturally, they can’t get a fire in the backyard. Before they leave, they will open the Guardian’s Array, and they will not be able to close without the orders of the sable or the sun. of.

The enemies that are now lurking outside are in nearby mountains, valleys, etc.

If their normal route comes back, Zi Yan will fall with the sinking waves before the mountain gate, and then enter the door, this is the respect for their own martial art.

The same is true when leaving, important guests, when they drop off, will also be sent to the mountain gate.

Therefore, people who lurk in the dark can only look at it here, and do not need to pay attention to all aspects of the Kunlun faction.

In fact, after the opening of the mountain guard, the whole mountain is a little cloudy. The general monks pass by, and even if they are nearby, they may not be able to clearly find the Kunlun faction.

But this time, the ambushes will come to the ancestors of the realm of the gods, and it is naturally clear.

This time, Shen Lang wants to go out the main entrance, just to let them see.

He is going to be a positive flag!

Ambush sneak attack, it is impossible to prevent, only open the flag to make it loud, so that they can completely dispel the thoughts!

It was Gao Hanqiu who made up for him, but Gao Hanqiu will not be accompanied by him.

They wear masks and the like, it is already a taboo against the cold autumn, no direct exposure.

Now, Shen Lang is going to start his own name, let them understand a bit –

Shen Lang, can not be offended!

Before that person let go, the news will inevitably spread, just the speed and the extent of the scope.

Now he needs to come back again, this time it will be open, and more people can see it, and it can be more thorough.

When the ancestors of the sables were accompanied and sent to the gates of the Kunlun School, the atmosphere became subtle.

“Thank you Shen Danxian, then I will not send it away, you take care!”

Zi Yan is a pun, this is not only a guest of the guest, but also reminds Shen Lang to be careful. In the same way, there is also the meaning that he will not intervene after expressing it.

“Goodbye.”

Shen Lang faint smile, his eyes glanced at the nearby peaks.

The Kunlun School’s guardian squad, under the control of the ancestral ancestors, only opened an airspace in front of the Zhengshan Gate.

Shen Lang took the elk and the dog ***** and flew straight out.

When I just sent them out, I was alone.

Although he remembered all the treasures in the forbidden land, but the formation was closed, I believe it is safe.

At this time, I would like to see if Shen Lang will encounter an attack.

Seeing the excitement is only a small part, and more is afraid of “the fire in the city gate, the fish in the pool.” This is just at the door of the Kunlun school.

After the three flying clouds came out, they flew directly toward a mountain.

The mountain peak is even higher than the mountain where the Kunlun faction is located. The opposite side is probably halfway up the mountain, and then goes straight into the clouds and snow.

After Shen Lang flew in the past, he settled down on a protruding boulder platform.

This is obviously not born, it should be developed by the Kunlun School.

After Shen Lang three stopped, he spoke.

“Friends hidden in the mountains and in the valley. Can you come out?”

Between the vast mountains and rivers, after the words of Shen Lang came out, they circulated directly and reverberated.

The purple ancestors in front of the Kunlun Paishan Gate can also be heard.

But whether it is the sable ancestor or the elk, they can guess that there may be other big gods hidden nearby. The purpose is to attack and smash the waves, but it is not known where it is.

Because since they are all great gods, they are all ancestors of all factions, and the natural means will not be bad. Whether they use the secret technique or the magic weapon, they will hide themselves.

Concealed, it is to let yourself hide in the dark, not let the “peer” find out, the behavior of watching the peers first, but also the opportunity to prevent Shen Lang from discovering and sneak attack.

But now Shen Lang directly shouted out two places on the mountain and the valley, let them both, involuntarily looked at it.

It is only a general and wide range in the mountains and valleys. From the perspective of the elk and from the perspective of the purple cicada, neither the naked eye nor the gods can be cleaned up.

People in the mountains and in the valley probably understand this. I feel that Shen Lang is cheating on them, and no one really believes it.

“Is it really not coming out? If I don’t come out, I will leave! If I leave, you will not have the chance to find me.”

Shen Lang faint smile He had it once before, it was disappeared under the eyes of the public.

So at this moment, I want to leave. After I leave, I have no chance to find it. Let those who are hidden in the dark have anxious.

But they are still waiting for a stalemate. They all know that they will not only be a person, but let others come forward to leave the waves!

Anyway, there are more people competing, and the sooner they are shot, the more likely they are to be passive.

In the end, after they lose both sides and lose more, they will come out to clean up the mess, and they will be able to achieve the effect of collecting profits.

Everyone wants to wait for the last to take advantage of it, but if Shen Lang runs, no one can afford it!

Therefore, the stalemate is hesitant, but it is a moment.

The most powerful person has made a decisive decision!

During the time, several figures, like a large piece of snow, flew down from the heights of the mountains, and fell on the huge rock platform, forming a confrontation with Shen Lang.

Finally, you can take a profit.

But if the strength is strong enough and you have absolute confidence, you can also be strong first.

At this moment, they are thinking about not giving other people a chance to take another shot. They must take away Shen Lang in one fell swoop!

Chapter 1766 - Be the first to get started

There are also three people who are present. Like the previous three, the face is also masked.

They even suspect that their masks are provided by the same person, and they are masks of different colors.

The previous three were wearing cyan, red and black masks, and now the three are purple, white and blue.

It looks a lot like coming from the same mask.

Masks come from one source, but they don't mean that they are a group. They just know each other. Maybe they are familiar or borrowed from the same person.

Wearing a mask, everyone's purpose is also very clear, do not want to directly expose the identity, even if the familiar person can guess from the body, body type, there is no direct evidence.

After the three of them appeared, all eyes were gathered on the elk.

Before you saw that Shen Lang was a person, the news was that he was on the road with the Zizu ancestors.

Now sent out from Kunlun, it seems to have helped the Kunlun School complete the task of opening the treasure chest.

Why are you walking with the elk?

According to the private ventilation, the elk that did not go to the high-cold autumn to reserve, is likely to ambush the waves, and may even join forces with the purple.

What does this mean now?

He gave up the attack on Shen Lang and chose to go to Ginkgo Valley to help?

This is also a cut-in.

“The elk ancestors, you Ginkgo Valley does not seem to find an appointment for the cold autumn ancestors, it should be no treasure chest to open. Please come back! We have something to ask Shen Lang and his party.”

The ancestors of the white mask directly ordered the elk to be ordered.

It seems that the information of the red mask ancestors who left, has not yet been transmitted to them.

They may have come to the Kunlun ambush early.

In their view, the elk is the same as their purpose. Because there is only one person, the elk can't kill more than one of the beasts protected by the beast, so now I want to use other means.

But since they have met them, it is unkind. “The minority obeys the majority.” Since there is only one elk, it is certainly not possible to compete with them.

“Shenlang, we are looking for you a little bit, it is not convenient to say at the door of the Kunlun school, let's talk to another place!” The ancestors of the purple mask said to Shen Lang.

From their point of view, they feel that even if they are not convinced and unwilling, they can only surrender and are not qualified to argue with them.

Just now, it is not a discussion with the elk, it is a more polite one. So immediately followed by a conversation with Shen Lang, this is also a soft point.

The elk was driven away, and the deep waves of the Great Immortals, together with the protection of a beast, were not the opponents of their three great realms.

But when this was just finished, I heard the sneer of the elk.

“We are one, want to let me go, just see if you have this ability!”

Although the elk was very decisive, he quickly accepted the fact of being a slave, even taking the initiative to fight.

But at that time, I thought that I would kill all three enemies, and I wouldn't be embarrassed if I ruined it.

Now it is different. Now there are not only three enemies on the front, but there are probably many people who are hiding nearby.

The situation here will be known to everyone and will spread out.

Therefore, he is not willing to say the words of “master”, but he has changed other expressions.

“Elk! Don't get mad! The situation is not that you can get it!”

The ancestors of the blue mask whispered aloud.

The comparison between the elk and the sable is well-known, and everyone knows this. But the purple scorpion just sent them to the mountain gate, and now after the situation here, the sable is still watching the fun in the mountain gate opposite Kunlun Mountain.

This shows a gesture – the Kunlun faction that has been achieved, does not want to, and will not be involved.

Then they are not very polite to the elk, can they be afraid of three in one?

Shen Lang raised his hand and gestured to calm down.

“I said... Can you respect me? Since you want to invite me, at least you have to show your sincerity!”

“Our three old guys come to you personally, very sincere!”

The ancestors of the white mask, this time talking to Shen Lang.

He emphasized the “three old guys”, this is their weight!

Shen Lang nodded and said to himself: “Also, three old guys sent to the door to find death, already very sincere.”

He said this, so that everyone will not feel comfortable listening.

However, they are all ancestors, and they have not bickered with Shen Lang’s words. I feel that this is nothing but a young man’s mouth.

Shen Lang continued to say: “Oh, since they are looking for death, then we will kill them! Anyway, they wear masks, you do not have to worry about the acquaintance of acquaintances, it is a thief who cuts the path, kill it!” ”

“Follow!”

Although the elk does not want to reveal his current identity, since Shen Lang has already ordered his orders, he must obey orders.

His attitude has attracted the attention of all parties.

In addition to the three of them on the scene, there are hidden ancestors who have no appearances, and the purple ancestors who are opposite the entrance of Kunlun Mountain.

But apart from the purple cicada, others do not know the relationship between elk and Shenlang.

Suddenly I heard that Shen Lang gave orders to the elk, and the elk was obedient, which undoubtedly surprised everyone else.

They look at Shen Lang and look at the elk. I don't know what medicine to sell in the gourd.

Just from the common sense, they all think that there is only one possibility, that is, they have already discussed in Kunlun in advance, let the elk cooperate with the performance, so that they will scare them away.

“Childish!”

The blue mask ancestors snorted Since you are not toasting, don't blame you for taking the penalty! When the white mask ancestors finished this sentence, they raised a little voice.

“Kunlun sent Zixiao dude! We just borrowed a place and did not want to offend Kunlun. If there is any influence, we still hope to take one or two!”

He is playing a vaccination in advance.

Once it is hit, not only will this rock platform be affected, but even the entire mountain will be affected.

Although this is not the place where the Kunlun School is located, there is still a need to say hello at the doorstep.

Of course, the purpose is to let the scorio ancestors not intervene.

When it comes to this, it is natural to start!

The attitude of Shen Lang has just been shown, so when they greeted the Kunlun faction, they have already sent ideas to the dog ***** and the elk, let them start and attack one!

The target person is the ancestor of the white mask.

Because from the station just now, speaking, it seems that the white mask ancestor is one of the three main bones among them.

Shooting people first shoot the horse thief first smashing the king, first kill the one with the most ideas!

Chapter 1767 - Live catching the waves

After the dog ***** understands the meaning of Shen Lang, it is carried out immediately.

The elk is actually under great pressure and must be stiff at this moment.

Since Shen Lang has arranged the tactics, he does not care so much, and he will execute it first.

At least... So far, Shen Lang's tactics have not been missed, and he is a living example.

So when the white mask ancestor greeted the sable ancestors, they had already shot!

The ginkgo leaf of the comet was quickly displayed, and the white light of countless ginkgo leaves was swept away, and it was directly surrounded by the white mask ancestors.

Although the dog ***** performs the command of Shen Lang, it is also very wise and will accept the lessons of the past.

The last time I played against three people, the attack of the comet ginkgo leaf almost hurt it.

And it also ruined a mountain in vain, did not hurt the enemy.

So after this Shen Lang's order came down, it already had its own plan.

The elk's comet Ginkgo biloba attacked the ancestors of the white mask, and it attacked the blue mask next to it!

This is the most cost-effective way.

If the elk attack is effective, it does not need to be repeated and can attack the other. If it doesn't work, it can be added next to it.

Opposite the three ancestors, I did not expect them to attack the first!

Immediately, they all secretly chilled up.

The ancestors of the white mask, he did not care too much about the attack of the comet ginkgo leaf, but after all, the elk is also the strongest in the realm of the gods, even if it is really with Shen Lang, it is also an opponent they should pay most attention to.

The blue mask ancestor, the attack on the dog god, calmly coped with it.

There is still a ancestor of a purple mask, of course, seize the opportunity, and quickly attacked the past with the waves!

Shen Lang immediately turned around and fled!

The sable ancestors who looked at this scene from the opposite side were very speechless.

Got it again?

The last time it worked, there are reasons for surprise attacks, and there are also elements of luck. Can this still work?

Even if these three ancestors did not know that someone had been defeated under such tactics, they might not be able to succeed again.

The scorpio ancestors are now out of the game and are reluctant to blend in with them, lest they get tired of the Kunlun faction that has suffered heavy losses.

There is even some kind of dark mentality, and you may want the elk to finish, so that he does not have to face it, and he does not have to worry about revenge.

But after all, I still fought together before, and I still tend to be on the side of Shen Lang emotionally, I hope that Shen Lang can win.

At this moment, I watched the tactics of Shen Lang's use of the previous wave, and also squeezed a sweat for him, worried that he could no longer accept the purple mask ancestor with the tower.

Seeing that the purple mask ancestor is very fast, and people have not yet arrived, the super field has completely blocked the Shenlang!

The reaction of Shen Lang was slowed down by half a shot. The tower was not taken out, let alone the one that was activated. It was in the air and was imprisoned in the air!

“Stop it! Or I will kill him!”

After the swaying of the waves in the air, the purple mask ancestor also came to the side of Shen Lang, and directly reached over the head of Shen Lang.

He said this to the elk and the dog god.

Shen Lang is the most important person. Once the Shen Lang is smashed, there is nothing to fight for the elk. If the beast ***** protects the waves, it will also be a rat.

At this moment, the first wave of the Ginkgo biloba leaves was just solved by the white mask ancestors. The dog ***** and the blue mask ancestor are also fighting together and are looking for opportunities to attack the white mask.

Shen Lang was suddenly caught. For the white and blue masks, of course, the spirit was alive.

Grab the sinking of the waves calmly, it is not just the elk, but other people who want to fish and profit, but also the rats.

The elk and the dog **** were obviously horrified.

Dog God knows the most about Shen Lang and knows his strength. Even Shen Lang has it today, and it has its help.

I don't believe that Shen Lang will be caught so easily.

The elk is not very clear about the bottom of the waves, but it has shown extraordinary ability both to them and to other people.

More importantly, he has a lot of means, magic weapons, tricks, etc., how can it be miscalculated?

The purple ancestors in the distance are secretly smiling.

Sure enough, let him guess, this is the tactical failure before copying!

He felt that Shen Lang was a big idea, swelled, and took a lucky success as an inevitable result. So when you meet a faster person, or if you play a little slower, you are finished.

The atmosphere was dignified.

However, the elk and the dog god, of course, will not stop, but the whole has become a stalemate effect.

“Elk! Roll your eggs! There is nothing for you here!”

The ancestors of the blue mask, probably the ones who have a relationship with the elk, have been scorned from the past, and now they want to leave the elk, so as not to be implicated.

Now that Shen Lang has already been like this, Elk wants to protect his position and has no effect. He should recognize the reality and leave.

As for the beast god, they are already a little coveted in their hearts.

Just the fight, has proved that this is already a super beast, is comparable to the realm of the gods. If you can kill it, it is really a treasure.

“Oyster! There is that dog! Hurry and stop! Or else I will kill the waves!”

The ancestors of the purple mask, watching his drinking order, have not played the effect, and once again snorted.

Of course, he will not really kill the waves, at least it is impossible to kill before he seizes the memory of Shen Lang.

Just now the elk and the super beast are a variable!

Because the scene is not only for them, there are other people!

If these two are desperate, and the two people in the white mask and the blue mask are both ruined, then one more person and two people will make a wedding dress for others.

Therefore, at this time, he did not have the time to concentrate on extracting the memory of Shen Lang. In addition to imprisoning the waves, the center of gravity is still threatening to stop the Emperor's behemoth and the elk. When all three are in good condition, That is the real worry-free, not afraid of any other challenges.

This time the dog **** did not restore the body of the Emperor's behemoth, it was a dog's appearance, and was directly called a dog.

The mood of the elk is even more complicated. It is a dog, he is also a dog!

He didn't want to let go of the dark waves, but he couldn't... It's not a benefit, it's not a loyalty, there is no way.

Just when everyone was paying attention to the dog ***** and the elk, waiting for their expression, the ancestors of the purple mask suddenly made a scream!

“You want to kill me, have you asked me?”

The sound of Shen Lang was floating in the air.

The focus of attention of all people has shifted to the ancestors of Shen Lang and the purple mask, trying to figure out what is going on.

Chapter 1768 - Entice

The reason why everyone did not notice the situation of Shen Lang is because of the preconceived concept!

Regardless of the other three, or hidden, the impression of the waves is still the extent of the Great Xian.

A young man at the peak of Daxian is imprisoned by the ancestors of a great godland. It is a matter of righteousness and reasonableness.

Even if they are purple, they feel that Shen Lang relies on various means, and its strength is still limited.

So when Shen Lang was banned, everyone did not pay much attention to him, because this is a hard thing.

The point of attention is to the elk and the emperor's behemoth, whether they will stop, or will continue, or can save the sinking wave.

It is the ancestor of the purple mask, and I am the same.

He didn't feel that it was too easy and easy to catch Shen Lang, but he felt that it was normal and logical.

If he doesn't catch the sinking waves, he will feel wrong!

This preconceived misunderstanding made everyone neglect the concern for Shen Lang.

And this, of course, is the one that Shen Lang intends to do!

This time he did not use the tower again. The ancestors of the red mask before did not dare to continue to accept, fearing that the tower could not hold.

Now it seems that the tactics are the same, the enemy is invincible, and the enemy is smashed back.

But this time, he used another solution!

After being lured into the enemy, he was really imprisoned in the air, and he was really caught by the purple mask ancestors.

But in this state, he is still quite sure.

Even if the body is imprisoned by the field, there is a hand on the top of the head. If he wants to escape, he can still enter the space of heaven.

That is his dependence.

But now, what he wants is not to escape, but to the other's life!

The power of the purple mask ancestors used to impede the field of Shen Lang did not reach the level of full strength, because it was only a big fairy peak, which was more than enough.

It is a pity that Shen Lang is not the peak of Daxian!

His strength is enough to rival the realm of the gods!

And just when the enemy was infiltrated, he did not take out the tower, but he took the dead water whip.

It was only that he was immediately caught and used to threaten the elk. They immediately let everyone focus on the elk and the emperor.

The result is that when the purple mask ancestors are drinking the elk, they are forced!

He doesn't even need to completely break through the opponent's field control, he just needs to be able to control the dead water whip.

The purple mask ancestors were by his side, and his hand was still holding his head, of course, next to the dead water whip.

So in an instant, there was no big change, and the stagnant water wraps around the waist of the purple mask ancestors and quickly gathers!

With the strength of the indestructible corrosion of the stagnant water whip, it is the protection of the realm of the great gods, and it has also been directly broken through, and instantly fell into his body.

That's why he screams...

Because even if there is no preparation, the general sword will be cut and will not hurt him, but now it is hurt!

When he was suddenly injured, there was a flaw in the control of the field.

When he looked at the specific injury and defended his defense, Shen Lang had already broken through his field!

Under the strong pull of Shen Lang, the stagnant water whip that has been eroded into it, after the rapid gathering, quickly cut off the complete corrosion of the purple mask ancestor's waist!

There is no under the waist. This injury can be survived at the master level. A super powerhouse in the realm of the gods will certainly not be killed.

But Shen Lang will not give him a chance to heal!

His other hand has taken the tower of the tower and is now sucking up at the purple mask ancestor!

The old mask of the purple mask is furious, and then it is a big bang!

With his body, he couldn't get in. It's not that the iron can hurt, but the general magic weapon is hard to hurt, so it's unimaginable to be cut off at this moment.

Even if it is not dead, the resentment against Shen Lang has reached its peak.

But the suction of the tower of the tower made him feel the fear!

If you are included in this magic weapon, how can you still live out? That is absolutely impossible!

To this end, he did not take the attack and retaliate against Shen Lang. The first thing he did was to quickly fly away and leave with all his strength.

He was in the lower part of the body and had lost contact and was able to control it. He was first sucked into the tower of the tower, and then the blood spilled in the air was not wasted half a drop, all absorbed.

Originally, I stopped my body, and the internal organs did not have any support. I completely leaked it out and was attracted by it...

The result was that his own body fled, the exposed stomach, the viscera, etc., was absorbed strongly, and immediately pulled up in the air!

This picture looks very horrible. Everyone has seen more battles. With their realm, they can kill an enemy with little effort.

But now, the ancestors of a great **** realm have been cut into two pieces, the intestines and internal organs, and pulled in the air... The picture is really horrified, so that everyone can see that the back is cold, and for a moment they forget to help.

At this moment, only the ancestors of the purple face were desperately running.

But others forgot to help him, Shen Lang did not forget to pack him!

He grabbed the strong absorption of the tower, and the other hand was also dancing fast!

Originally, the dead water whip has torn off the other's body. The current dance is to pull those intestines, internal organs and those that are pulled in the air, and quickly cut them into casual.

The pieces that lost contact were, of course, quickly inhaled into the tower.

After being eroded by the dead water whip, the internal organs of the purple mask ancestors have become less and less, and only the heart is left in an instant!

The general action of this crazy meat grinder is not only the internal organs, but also the body and bones. Basically, it is in the chest area...

Because the speed of the whole process is very fast, others have forgotten to help. In fact, it is only a matter of moments. When the reaction comes, the two ancestors of the white mask and the blue mask are eager to come and help.

But the Emperor and the Elk also reacted!

Seeing that the waves were all right, and quickly dying the purple mask ancestors, they were all excited and nervous, and of course they quickly held the other side and did not give them a chance to rescue.

The ancestors of the purple mask, never thought that they actually had such a day!

When the body suddenly broke into two pieces, the second half was gone, which certainly would not let him die immediately, but it also directly affected the combat effectiveness.

Later, he decisively escaped and refused to be inhaled into the tower. The idea was right, but the continuous “meat grinder” of Shen Lang was corroded, causing his body to continue to be injured and the visceral debris to fly out!

Coupled with the strong suction of the tower, even if he can't **** in the whole person, there is no way to break the blood vessels, and the blood is almost drained.

If it comes down, but for a moment, his strength has been greatly reduced.

Chapter 1769 - Powdered bone

The dog **** and the elk reacted very quickly. They all knew that the ancestor of the purple mask was in very dangerous situation and turned sharply at a visible speed!

Therefore, they did not stick to the rules, temporarily act cheaply, and put the goal by the joint force to kill the white mask ancestors, temporarily adjusted to drag them both.

This time does not need to be too long, and every delay of one second, Shen Lang will have a 10% chance of winning.

So at this point they have become very brave, and the dog gods attacked and made the body bigger, in order to increase their momentum and cause greater deterrence to each other.

But because of the limited scope of this rock platform, it still can't recover the body of the entire Emperor, so it will not be flexible enough.

The elk manipulated the comet ginkgo leaf, and all the ginkgo leaves were shining, and the white mask ancestors had already exploded, and even if they could not destroy the heavy damage, they forced him to take care of himself.

When the master passed the trick, a little injury, the impact will obviously affect the battle, not to mention the ancestors of the purple mask suffered a double cut.

Therefore, he immediately gave up the revenge on Shen Lang, leaving Qingshan not afraid of burning wood, and then he would find a way to revenge in the future. If he was inhaled into the tower, there would be no chance to turn over.

However, the continuous strangulation attack behind Shen Lang has already carried the impending approach of the towering tower, which made him a little panic.

However, at this time, he could not turn his head and attack the Shenlang, because it would throw into the net and directly into the tower.

He can only fight the fastest speed to escape!

At this moment, he feels that life is passing fast, but he can't defend, and there is no good defense. It can only be fast and fast!

In the twinkling of an eye, two people have already leapt beyond the distant mountains!

The stagnant water whip is invincible, but it is not invincible, not omnipotent.

It also has a great drawback, the fixed length is there, unlike the sturdy iron stick magic can be extended and lengthened.

This determines that it can only work when it is close to melee. Once the enemy understands this and opens a safe distance, it will become very tasteless.

It is precisely because of this shortcoming that Shen Lang just needed to seduce the enemy and need to let himself sneak into the sneak attack.

The same is true of the current pursuit.

At the beginning, he was able to strangle the other person's body, internal organs, etc., but the other party was struggling to escape in the last breath, and the speed was indeed super-level.

Even if the speed of Shen Lang itself is very fast, and there is no injury, but it must also be stretched for a little longer, in order to catch up, in the second and second, the basic will still maintain the same distance. .

This makes the dead water whip begin to become a little overwhelming.

Otherwise, it can be eroded by a few inches and a few inches, and his upper body and heart that have already reached the chest will be killed, and then the mind will be killed one by one.

But like the impressions of elk and sable, Shen Lang is useful for many ways!

When the discovery was almost the same, Shen Lang stopped the stagnant water whip, but burst out with a finger!

God is in speed, that is not to say, to avoid safely, it must be predicted in advance. Otherwise, when the light of God has already been attacked, the speed of the fast, the dodge is too late, and it can only be hard.

Now the purple mask ancestor who escaped in front, where knows that Shen Lang suddenly came again!

And at this time he was a runaway, and he had already exceeded the limit. Even if he found an ultra-fast attack, he couldn't dod it.

Not to mention their distance, the dead water whip and the length of the arm of the Shenlang, which made him unable to respond at all.

So concentrated in a thin line of light, under the rapid movement of Shen Lang, immediately like a knife, like a laser cutting cardboard!

The purple mask ancestors only had about one-third of the body left, and they were cut by the road. Even if he kept the defense and failed to kill him completely, a lot of debris was cut.

The cut pieces were all sucked up by the strong suction, and all of them were collected into the tower.

Originally, the body was broken, and a large amount of blood had already drained. Now, some fresh places have been cut, and blood has been released. Naturally, a drop of water has been collected.

“what—!”

The ancestor could not help but burst into a crazy and desperate roar!

He can't bear it!

He has already recognized the reality and knows that he can't escape. The body hurts this level. Don't say ordinary people, even if they are strong masters, they all hang up.

He is very strong in all aspects of the realm of the gods, the endurance of life, and still maintains his life.

But this does not mean that he will not hurt, not uncomfortable!

If you die directly and become unconscious, you will be happy. He has suffered numerous insults in this battle.

The intestines are stretched and pulled...

The internal organs are broken and broken...

The blood is absorbed by the madness...

Needless to say, the skin of the skin, including the nerves of the tendons, is also fragmented by a section and is constantly corroded.

It is really the intestines of the liver and the broken bones. The pain level of the nine turns and eighteen bends has exceeded any record and experience.

Every second is the experience of living and living...

And when the stagnant water whip is strangled to the head, it is not enough. The places that have been in contact are still continuing to corrode, but only a little slower than when they are directly rolled.

It's already like this, and the light is shining on the body, including the heart is drawn...

It is the great ***** that can't bear such torture.

If you go on like this, it will take a few seconds and he will be tortured to death.

Since you have escaped hopelessly, you must die, it is better to fight a fish and die the net to destroy the same!

So when his roar broke out, it was his last voice, and his body exploded!

Disintegration!

The people nearby are all concerned about the situation of both of them. Whether it is hidden, or the purple scorpion in front of the Kunlun mountain, or the four that are entangled in the duel, the focus is on them.

So when the voice of the old ancestors came over, they had already taken a step in the voice and felt that he was using disintegration.

Disintegration is self-destruction.

Use the whole body to repair, use your own body as a carrier, concentrate on a small range of explosions, and achieve the same purpose as the enemy.

Generally speaking, this will only be blasted with disintegration when there is no way.

Because the enemy may be stronger, it may be protected by magic weapon, or it may escape from the scene faster, it may not be the same, but it will inevitably die.

There is also a situation in which, when encountering a group of enemy wars, in order to cover up their own people to escape, they will use such a way, then whether they can die together, can kill and kill a part, can block the enemy, even if it achieves the purpose.

Chapter 1770 - Demolition suicide

Disintegration and self-destruction.

This result, so that all the ancestors are very surprised, did not expect the big waves of the peak of the fairy, even the ancestors of a great **** realm, with the disintegration of the body and bones.

The elk is sinking in his heart. He is very nervous and even a little scared!

Because, according to normal, the effect of disintegration self-explosion, even if it does not reach the same end, it is likely to hit the enemy.

But this time, the strength of Shen Lang is weaker than the other side, even if it can be sneaked through various means to win, but in the face of others who do not want to blow themselves, it will only be hard.

The swell of the peak of Daxian, can you afford it?

The scorio ancestors may have a hint of worry in this regard, but he can only bear to see that Shen Lang is dead.

Moreover, the degree of this worry is also difficult to say, perhaps the same as expecting the death of the elk, is a entangled mentality.

If Shen Lang is dead, the other factions will not be able to get his secret skills, that is, those who have made an appointment can not be opened.

Even if the elders behind Shen Lang know this ancient secret technique, but who can help them open?

In this way, the Kunlun School, which opened a group of ancient treasure chests, is likely to win a golden period of development, and lead many other sects!

But the elk is not the same, the elk is now controlled by the waves.

When Shen Lang is dead, there are two possibilities. One is that his contract prohibition has been lifted. Without the master, there will be no restrictions on him.

Another possibility is the death of Shen Lang, which will also make his death!

The biggest possibility is the latter.

Because if you can solve the problem by killing the waves, then he will definitely find ways to do it.

Shen Lang will definitely think of this layer and will not let himself be in a dangerous situation.

If Shen Lang is dead, he will follow the egg, he will not start, and will fully protect the waves.

Therefore, the elk at this time is the one who does not want to die in the most, regardless of other interests, at least not to catch up with life.

And other ancestors, I also don't want to see this result!

If the disintegration of the disintegration can make the waves break, all of them are willing to see this result, so the Shenlang will certainly be better.

But what if the self-destruction killed Shen Lang?

Where do they go to find the ancient secrets?

When the forces behind Shen Lang came to revenge, they didn't eat the lamb and provoked it!

Just when they just chased, they have already left the distance of several peaks. You can still see them at this time, but it is too late to help them or protect them.

So at this moment, whether it is a white mask on the bright surface, a blue mask ancestor, or a person who has not yet appeared, it is the same idea. I hope that Shen Lang can have magic weapons, or any other way. Protect yourself.

If time is right, there may be people shouting – Shen Lang, you don't want to die!

The most definite one on the scene is the dog god!

It has had more to get along with Shen Lang, and has more understanding of Shen Lang's secrets, especially following the space that has entered Tianshu and knows this layer of top secret.

Therefore, it is the only thing that does not worry about the waves. I believe that Shen Lang wants to stop the person from protecting himself. Maybe he can't do it, but he has to run for himself. There will be no problem.

The different reactions of different people are at the same instant.

And then, they either saw or sensed, and they clearly saw the result!

This result is to make them all incredible...

Because Shen Lang was already chasing after the tower, he smashed the flesh and blood, and all the remaining ones were collected.

The purpose was not to “break the rotten”, but to ***** his flesh and blood in advance through suction.

Now this purple-faced ancestor, actually used self-explosion!

This aggressive suicide attack has had little effect on the current Shen Lang.

Because the self-destruction of disintegration is to smash the body of the body as a medium, to withstand the overdraft explosion of the whole body.

But now that he disintegrated and blew himself, there was no sprint to go forward with all his strength. The result of the pause would have been collected by the tower.

Not to mention the fact that it is self-destructive and fragmented. It is extremely impactful on the scene. For the Tiantian Tower, the fragments with explosive power are just countless pieces.

Fragmented flesh and blood, it is easier to ***** in all!

If you have ultra-high-definition shooting and then play it back in super slow motion, you can see that his self-explosion has just expanded. It seems that the scope of the spread spread out around, but not to the extent of Shenlang, then all of them are all Turned to a place...

As a result, the self-destruction of the entire disintegration, the wind and waves in the air did not rise, and completely entered the tower of the tower.

Having said that, the people outside are incredible and unbelievable.

The two ancestors in the tower of the tower are depressed!

From the morning they were born into the tower of the tower, and there is still no time in the past.

They also experienced the same experience as the elk ancestors, tried various struggles and attacks in it, and wanted to break away the tower.

But even if they did not work together, they could not burst the tower.

On the contrary, their joint attacks have contributed to the recovery of the tower, and every powerful attack has been absorbed by the tower.

Still, one day, they have not given up.

I also thought about communicating with Shen Lang, but I didn't get any response.

Just now, Haotian Tower once again showed a change, this magic weapon was offered to be opened!

They are all uplifted and want to take the opportunity to leave.

As a result, it was found that even if the offering was activated, the things were inhaled from the outside. If Shen Lang did not release them, they still could not go out.

The result was that the two ancestors who were in a hurry saw the half body that had broken the waist and received it from the outside!

They haven't had time to identify who this body is.

I haven't figured out what it is, and a lot of blood is spilling in, as well as pieces of intestines, internal organs, flesh and bones.

The stagnant water whip was strangled outside like a meat grinder, and the scene was terrible.

And the two people inside are constantly being smothered by all kinds of flesh and blood fragments, and they are even more depressed and depressed...

Basically, what is the situation outside, they can also guess, it must be that Shen Lang met the enemy and is absorbing the injured enemy inside.

As a result, they still have no better countermeasures, and large quantities of flesh and blood fragments are absorbed.

And this time I came in, not only the debris, but also the disintegration of the body!

Shen Lang did not suffer the attack, so that the two ancestors in the tower of Tiantian Tower suffered...
