

## First Strong 1771

Chapter 1771 - Left and right situation

This result, after making everyone stunned, is also a little relieved.

The elk is greatly relieved, he was originally the most worried.

But he knows the situation better than others, it is the person who comes out of the tower!

At this time, there are two ancestors in the tower, just equal to another ancestor, and all of them will be refining into medicinal herbs!

At the thought of this, he is afraid and afraid of Shen Lang.

However, it is a bit comforting to think that he should be the only person in history who can still come out of the tower.

Others look at the waves again, and after a sigh of relief, they feel the pressure!

This is obviously a young man who is at the peak of Daxian. Even in such a short time, he has killed a ancestor of the great realm!

Although the time is short, but combined to see, Shen Lang is a ring followed by a ring.

First, boldly seduce the enemy, use the enemy of others, let yourself and the enemy close, and then complete the personal sneak attack.

That one does not know what the whip is, it seems that the power is not weak.

And he still has a tower in his hand!

However, in addition to stress, there is also an increase in excitement!

Shen Lang now reveals the magic weapon, and there may be more magic weapons on his body. If he is captured, it will not only get the ancient secrets hidden in his mind, but also the magic weapon on him.

Moreover, in his memory, there should be more about how these magic weapons are obtained, how the ancient secrets were obtained, and that is even greater value!

As a result, Shen Lang used a Thunder to let an ancestor break his bones, but did not let the enemy fear, but made them more coveted!

The two ancestors of the white mask and the blue mask are very silent at this moment.

The elk and the dog gods are of great momentum, and they begin to gain the upper hand.

Without a partner, it is not sadness to them, not a blow, but a great loss!

Originally three people have absolute certainty.

Now the weakest sinking wave has killed one, and the remaining two are obviously able to do them, which is more troublesome.

If this continues, they will most likely be the end of both losses, so that they really do wedding dress for others.

However, the current situation is not the same, they are not retreating, they can retreat.

Seeing that Shen Lang successfully killed one, the dog \*\*\*\* and the elk have strengthened the attack, and the two of them have no chance to withdraw!

Soon, Shen Lang has returned.

Then smiled and looked at the four people on the huge platform.

In terms of the strength of the great realm, even if this is a huge mountain of 10,000 meters into the cloud, it is not a problem to destroy it.

Now four can still fight on this platform, without destroying this rock platform, it is already a face for Kunlun, to avoid the purple scorpion to join in.

And Shen Lang, wherever it is, is the focus.

He came over at this moment, and the two ancestors, white and blue, were nervous.

The whip doesn't care, because it can be seen that it is limited by distance, only the close combat can play a role.

But the tower is different, that is, it can be absorbed without being close.

They have all recognized the situation from the previous situation, and this is the artifact tower.

However, the specific situation of the tower is not too clear.

Just from the situation just now, it seems that it is very difficult to absorb them at such a level. But if there is an uncontrolled, such as an injury, the blood will be quickly sucked.

One more, it should be the relationship of distance. If it is closer, it may be absorbed. – The purple mask ancestor, isn't it always flying away from the distance?

So when Shen Lang returned to the rock platform, they both had to be careful with him. Once he was close, he had to be highly alert.

Originally, the elk and the dog gods have already gained the upper hand in the momentum. Now the Shenlang appears and interferes with their mentality, and immediately makes their situation even worse.

The elk uses the comet ginkgo leaf, but it does not rely entirely on the comet ginkgo leaf. His own strength is not inferior to the opponent, and the magic weapon is a bonus effect.

Shen Lang kept a smile at the scene, and then began to move quickly on the platform with the “Phantom Meteor Step”!

His speed is very fast, and the pace is even more strange, which makes people quite a bit unprepared. And in one of his hands, he still holds the tower, which makes the two ancestors very nervous.

The result is that both of them must also move with the movement of the sinking waves, try to pull away from him.

And because of the relationship between two people, in the case of rapid movement, it is possible to lead Shen Lang to the side of the partner.

The whole situation is that Shen Lang did not participate in the battle, but it has made the battle more chaotic.

In the process of moving, Shen Lang is also observing the situation of all parties, and then keeps in communication with the dog god.

He still let the dog \*\*\*\* perform the previous plan, and the elk with the elk to join the ancestors of the white mask!

The dog \*\*\*\*\* immediately obeyed the order and immediately blocked the path of the white-faced ancestor, forming an encirclement with the elk.

In addition, there are still Shen Lang on the other side, and there is a mountain peak on the other side. The white mask ancestor immediately feels the pressure increase, and realizes that Shen Lang wants to break one by one, and he is the target!

If it is one-on-one, he will not be afraid of the elk, but if you add a super beast, it will not be an opponent, just a matter of time.

There is also a sinking wave waiting for the tower, which will speed up the defeat.

Moreover, it is very likely that Shen Lang's move is to form a pinch and force him to earn money into the tower!

Although he does not know the merits of refining and refining the tower, he also knows that after entering, it is sure to die, and certainly will not come out!

Otherwise, even if you are injured there is still a chance to escape.

So at this moment he has already played a 12-point spirit, and the key defense is still Shen Lang!

Suddenly lost the opponent, the blue mask's ancestors pressure loose, could not help but briefly hesitated.

Do you want to take the opportunity to escape?

If he is now escaping, it should be a great success.

And from the current situation, it is very likely that this village will not have this store.

But the problem, if he really ran, the other beleaguered partner is very likely to die!

This is not just a matter of loyalty, but there are still some people around who are paying attention to the situation here. This escapes, leaving a shameful nickname.

But now it is wearing a mask. Perhaps no one knows his specific identity. Even if he can guess a few points afterwards, he can deny it...

Chapter 1772 - Strongest 1 stick

The white mask of the ancestor, naturally also cares about his situation, but he was surrounded by three parties, self-concerned.

And what is most needed is to pay attention to Shen Lang and simply cannot pay attention to him.

Shen Lang did not want to jointly attack the white mask ancestor. He allowed the dog \*\*\*\* and the elk to work together to ensure that he would win.

His own center of gravity is placed on the ancestors of this blue mask.

If the ancestors of this blue mask can not hesitate to leave immediately, there can be a little more time.

He was a little hesitant, and he immediately delayed his escape time!

Shen Lang handed the tower of the tower, facing the white mask ancestor, but it was suddenly turned around. At this moment, the tower has been collected, and there is an iron rod in his hand, directly to the ancestors of the blue mask. The past!

His shot is very fast, the ancestors of the blue mask, no time to hesitate, must first deal with his offense.

However, Shen Lang put away the tower of the tower, let him know!

Just before Shen Lang wandered on the platform, they were both nervous and fearful. Not the young man, but the artifact in his hand.

Since Shen Lang stupidly took the initiative to put the artifact away, and wanted to use the weapon to hard with him, he would not let go of the harvest that came to the door, except for the lack of secrets!

The ancestors of the white mask, because they have been paying attention to the waves, they immediately discovered this scene.

This makes him secretly vomit blood!

why!

Why are the two strongest to deal with him, and when dealing with the other, not only the weakest waves, but even the towers are closed.

Originally, he was also worried that the person would run first.

Now there is more worry about another layer, that is, the old ancestor who is afraid of the blue mask will catch Shen Lang, and run with Shen Lang first!

In that case, he couldn't get anything. In the end, he might be killed by the elk.

However, there is no such thing as Shen Lang holding the tower of the tower. He can breathe a little more, and the nerves are not so tight.

It's just that the elk and the emperor's behemoths have come up with a desperate level to deal with him, and let him not go anywhere.

On the other side of Shen Lang, he just intentionally created the illusion that the three parties joined forces to attack the white mask ancestors!

When the blue mask ancestors had not reacted, they took the tower and switched to the smashing iron rod.

The advantages of the tower are obvious and the disadvantages are obvious.

For a great \*\*\*\* who is not injured and keeps his distance and defends his strength, it is difficult to collect.

This way, I tied my hands and tied my feet, and one was not taken away by people. That was a big loss.

Just now his "Phantom Meteor Step" wandering is just a disturbance situation, which has a threatening effect on both of them. Anyway, there are elk and dog gods.

Now I have to do it directly, or the iron stick is simple.

The ancestors of the blue mask, although they have witnessed the shots of Shen Lang, they are still underestimated!

Before Shen Lang showed up, it was not a hard bar of positive strength, but an enemy of the enemy, and then sneaked through the magic weapon.

Because of this, they have further confirmed that Shen Lang is the strength of Daxian Peak, otherwise it does not need such trouble.

Now Shen Lang has not used the whip that cut off the purple mask ancestor's body, and also collected the tower of the tower. For him, what is needed is the trick to guard against the waves!

Yes, he is paying more attention, but he is paying attention to the tricks of Shen Lang, not the strength of Shen Lang.

This kind of light enemy, let him choose not to dodge, directly shot the iron rod that came to Shen Lang!

His purpose is very clear, that is, as soon as possible to smash the waves, not to give Shen Lang a magic weapon to attack the opportunity!

Before the black whip, he still hadn't figured out what the material was, but it was obviously problematic. Now this is not the same, even if it is a magic weapon, it is also pure power attack type.

In the realm of his great deity, can pure power not press a peak of Daxian?

As long as he grabs one end of the iron rod, he can control the sinking waves.

The length of the iron rod is his safe distance. Whether it is the whip or the tower, he has room for manoeuvre.

To this end, he has used the skills of the past ten thousand, to ensure that as long as the iron bar is seized, the iron bar can be used as a medium to quickly block the field and control the entire person. live!

In the next step, he does not need to pause, directly pulling the iron rod, you can take the body of the sinking wave and fly away quickly!

At the beginning, he had to leave his partner to leave. He was hesitant for a moment, because it was to bear the nickname of injustice, and to bear the spit of the coward.

But now it's not the same, you can leave with the waves, that is the biggest gain!

Everyone is lurking here, isn't it just for the sake of the waves?

Being able to capture the sinking waves is not to escape, but to complete the triumph of the goal.

His idea is very good, and it can be done in such a short time.

But just as his palm was about to catch the iron bar that came over, the end of the iron bar suddenly became so big!

In the strength of the realm of the great gods, in fact, the normal fight, it is no longer necessary to go to such a level of melee, far from the gap, you can separate. It's not easy to kill each other.

But now that they are such close combat, there are naturally many means that they will not be able to play.

Just like now, the original blue mask ancestors grabbed the past, even if the iron rods that are so big as the pillars, the iron pillars come over, even if there is a heavy weight, he can hold it with the palm of his hand.

In addition, as he planned, the field was transmitted with iron bars, and the waves were nowhere to escape.

But he just "grabbed" the past with an iron rod, and the palm of his hand was curved. If the iron bar suddenly becomes bigger, it will not be able to "catch" it, become a finger touch, and become a giant force on the finger.

The iron rod of Shen Lang is not a universal product. It is the weapon of the most powerful  
\*\*\*\* war 两 two thousand years ago!

The iron bar itself is very heavy, and the Shen Lang is now manipulated by the strength of  
the great gods This is a combination of his strength and the domineering!

This is the strongest stick since Shen Lang got the iron rod in the tomb of the meditation!

This is also the strongest blow that this magic weapon has played after falling into the  
meditation area two thousand years ago!

Although this unnamed iron rod is a purely powerful magic weapon that has just arrived in  
Yang, it has not far played its strength. Even so, when Shen Lang is half immortal, he can  
use it to get half a cent or even a peak and a half.

Now this stick, even this great ancestor, uses power. But because the shackles are his  
fingers, and the fingers are bent and the fingers are not strong.

As a result, he was ready to release the field, unable to play it out, and his fingers were  
even more shocked.

What's more, at this moment, Shen Lang passed the touch of the iron rod, and immediately  
passed the field, and immediately blocked him from the blockade!

Chapter 1773 - 1 more charge

At this moment, the ancestors of the blue mask, I only want to marry my mother!

What is the overturned ship in the gutter!

What is the day to fight the geese to let the geese!

Just before the moment, he also felt that his strategy was very good, not close to the  
sinking waves, leaving a safe distance to avoid conspiracy.

In addition, the field can be quickly transferred, there will be no chance of defense, and it will be too late to avoid it, so that the rapid blockade will ban the sinking waves.

Then you can take the Shenlang away.

But I did not expect this fierce stick to come over the sinking waves, this seems purely barbaric Wufu attack style of the waves, actually the same strategy as him!

No, it should even be said that Shen Lang is more likely to see through his plan and count it once.

The means by which the magic weapon can be made bigger, when he is about to show his plans, he will be pitted.

It is a pity that no matter whether he regrets it or not, he is angry.

The key is how to hurry to escape!

This is just a field of the Great Immortal Peak. Can you still block the superpowers of his great realm?

That is impossible!

He banned the waves, and Shen Lang had no chance to escape.

Because he will not be as light as the former purple mask ancestors, this is the use of full force.

But in turn, even if Shen Lang uses all his strength, it is only a struggle for him.

Therefore, even if the heart wants to marry her mother, the ancestor is still sensible to look ahead, using the power of the great god, directly impacting the imprisonment of Shen Lang.

But after the shock, he discovered a horrible fact...

The blockade of Shenlang's domain is far more than his estimate, and it seems that it is no less than the realm of the gods!

This is impossible!

This doesn't make sense!

Is it that Shen Lang is also a strong man in the realm of great gods?

how can that be?

At this age, even if he began to cultivate from his mother's womb, it is impossible to reach this realm!

Besides, even if he is the first in the history of the genius, when he was so young, he cultivated into the realm of the gods, and everyone could not see it.

One or two of them looked away, and all the ancestors who could not participate in the Yaochi event saw their eyes.

Wait... I started practicing from my mother's womb?

Could it be...

He thought of a possibility!

That is the reincarnation!

Some of the masters of life, Shouyuan, reached the limit, and when they saw that they had to die at the end of their lives, they used secret techniques to reinvent themselves through reincarnation.

Because all the resources, exercises, experience, etc. are left behind, as long as the successful reincarnation, and then awaken the memory of the latter generation, can be far better than the cultivation of normal people.

If the body is repaired before the end of the life, or compressed on some carriers, or directly into the body of the body, or transferred to the disciples and other means.

After the reincarnation has reached a certain age and cultivation, and then inherit the previous world's cultivation, it will be a leap forward, and can quickly cross a hundred years, even hundreds of years of cultivation.

If it is in this way, it is really possible to cultivate in the age of twenty, to the peak of the Great Immortal, and even the realm of the Great God, because this is equivalent to a self-recovery, this is the cultivation of the two worlds!

This is the twenty-six years of this world, plus a considerable part of the inheritance of past lives.

At this moment, the blue mask ancestor guessed the origin of Shen Lang and guessed it.

Shen Lang did not inherit the cultivation of the previous life, but it was really reincarnation, and he also inherited the considerable resources such as exercises, experience and relationships.

And to a certain extent, he inherited the cultivation of 綦泮!

But even if he realized this, what kind of eggs are there?

The reason why Shen Lang first attacked the white mask ancestor, and slammed him against the West, and specially changed his weapon to paralyze him. He wanted to strike him and solve him quickly!

Now he is imprisoned, and the tower is once again appearing, and before he breaks free, he absorbs it!

Will use the tower again, Shen Lang is also well thought out.

When I absorbed the purple mask ancestor, he observed the situation inside the tower. The two great gods inside were naturally not refining, but they were very discouraged. Obviously, for the tower, it is helpless.

I just absorbed the disintegration and self-destruction. It should be blasting them two times. Then, if you add another person, you should not be able to impact the tower.

The ancestors of this blue mask, even if the sneak attack succeeded, it was only a matter of time.

After all, even if Shen Lang has the strength of the Great God, it will not crush others. Once the other side is desperate, it is still possible to break free. It is not so easy to kill them in the past.

There are other people lurking around, and they are watching.

It is also a cost-effective decision to bring him into the tower.

Since this person has been imprisoned in the air, this moment can not resist and escape, the result can only be sucked into the tower.

This result, the blue mask ancestor, nature is already nothing to say.

The surviving white mask ancestor is a surge in pressure!

Originally they were three people, and three people couldn't get the Shen Lang several. Now that he is left alone so soon, there is no chance of winning.

Now that he has not expected to win, he does not expect to catch the deep waves, and he can safely escape and leave, which is already the best result.

But this idea is also difficult to achieve.

The attack of the elk and the emperor's behemoth has already made him stretched, and Shen Lang used the tower to absorb him. He will only die faster!

Ever since, he also refused to condemn Shen Lang's sneak attack and poisonous hands on his partner, and quickly called for help for himself!

"Hidden friends! Please help each other! I will help each other, and your odds are even greater. I don't ask for the benefit, I want to live!"

There are other people who have not appeared, and everyone's minds want to benefit the last fisherman, but now they have lost two ancestors, but the Shenlang side has not lost both sides, and there is no loss at all.

If there is only one or two others, basically don't come out. Even if there are three teams, it won't be good.

But now the ancestors of the white mask actively seek help and bluntly but seek to live, do not seek benefits, then it will allow the other party to add another strength.

There were originally two, plus he was three together; there were three, plus he was four, and they had the opportunity to start with them.

This sentence quickly spread out to the surrounding.

It was already called out before the Shenlang. Above the mountain, there are people in the valley.

These hidden lurkers have always been calculating.

They are all well-invested figures, and the interests are not unclear. If you just want them to help and save people, naturally no one will risk doing this good person. But the white mask ancestors are willing to be assistants in exchange for a chance to save lives.

This is worth considering.

But there is no time to think about it!

Chapter 1774 - Latent

From the speed of killing the purple mask ancestor and the blue mask ancestor before Shen Lang, now that the three parties have combined one, they should soon be able to bring the white mask ancestors to the sky tower!

So when he heard his help and shouted, everyone had no more time to think about it and had to make a decision right away.

They help the white mask ancestors, not for morality, but for the sake of profit.

This interest is the value of his combat effectiveness.

If he is killed and is included in the tower, there is no value.

Even if it is only hurt, the value will be greatly damaged, but it will become a burden.

Therefore, these lurkers who want to benefit from the fishermen understand that they must make a decision immediately, and other people should and can only do so!

For a time, everyone made a decision.

In front of the Kunlun sect in front of the Kunlun ancestors, looking at the heights from the peaks, from the bottom of the valley, from the side of the mountain... At the same time, people quickly flew out.

This is not because they have a tacit understanding, but everyone can analyze such a situation.

And when there is a little volatility, other people will feel it and follow up immediately.

That is, as long as someone takes the lead, other people will speed up a bit faster, even if they are slower, to ensure that everyone is at the same time.

The sable ancestors are also really eager to see, one two three four...

In the end, there have been as many as six!

Like these two ambushes, these six are the ancestors of the Great God level. Other strengths that are not good enough have already been sent away.

However, this situation is the same as that of the three of them before, because from the direction in which they appear, and where they are settled, it can be seen that they are three people.

At first, the three of them dared to come out first, and it was because they had the strongest strength and the greatest confidence.

When the three ancestors came over, they immediately made this huge rock platform a bit crowded.

Crowding is not actually physical crowding, because this mountain is huge, and the platform that has been opened up has a space as large as a stadium.

They added six to them, but they were ten.

Don't say ten, it's one hundred, and it won't look crowded.

But these are the strongest people in the realm of the great gods, each with a strong momentum.

Just like the Yaochi event, it will be a happy scene. Even in this battle scene, even the whole person can make the whole environment appear "crowded."

Originally they played two hits, the body of the Emperor's behemoth did not return to the size of the original, plus the onlookers of the waves, it is enough.

At this moment, there are more than six great gods coming down, the atmosphere is different, crowded and nervous.

“Lord Shen Lang, give a face!”

A great ancestor said, directly expressing their intentions.

The three groups of people are also wearing masks, but they are a little different from the previous two.

They are unified, two wearing black masks, two red masks, and two white masks.

This confirms that everyone’s masks are from the same person and are the same mask.

“Give a face and let go!”

Others immediately followed.

They now have six people, and this momentum is different. With the ancestors of the white face, there are a total of seven people. Even if Shen Lang is intriguing, he can only bow in the face of absolute strength.

After the ancestor finished speaking, he did an action that everyone could not expect.

He smeared his hand and took off the mask on his face.

Everyone knew each other, and they had seen it at the Yaochi event a few days ago. Wearing a mask, just a little cover up, if you are familiar, you can still see who it is.

But like him, he exposed his identity, but everyone did not think of it.

If you expose your identity, it is equal to your reputation!

Others are just surprised, and no one will learn to put down the mask.

People want to face the tree to be skinned ... are some of the old predecessors who have been famous for at least 100 years, where is the meaning of the following.

Even if you can guess each other, you should deceive yourself.

Now his action has immediately attracted everyone's attention.

Shen Lang raised his hand and signaled that the elk and the dog \*\*\*\*\* had been suspended.

He is also very surprised.

The minds of these people wearing masks are well understood, self-exposure, in order to appear sincere, but this one...

This one is self-destructive, but it is a familiar person, and even should be regarded as a bit of a friendship.

Helan ancestors.

Shen Lang really stopped, which is equivalent to giving him face.

This made Helan's ancestors even more awkward on his face.

Because of He Lanchun's relationship, when he was at the edge of Yaochi, he and the elk had contradictions, and Shen Lang stood up and helped.

That is the kind of grievance that makes him and the elk, the best result.

After that, they are also naturally and walked together with Shen Lang. After the cold autumn, it goes without saying.

There were still Kunlin factions when they were together.

The current situation is the elk that was unhappy at the time, standing with Shen Lang, and Helan, who is closer to Shen Lang, is on the side of the ambushing team!

It is not ironic.

Others wear masks, and do not say that there is any change in expression, the elk is the first look of a sneer.

He sneered at the wrong person before he sneered, but he was able to continue to disdain Helan's ancestors, and they had grievances.

"Helan old ghost! Before the waves, I was also helping you, and your younger generation is also a friend, you have a bad appointment, even want to ambush him? Are your conscience let the dog eat?"

When he saw Shen Lang did not speak, it was estimated that Shen Lang was very disappointed, and quickly jumped out of the "protector" table loyalty.

"Yes! You have no conscience at all, you are a bad blank!"

Although it is standing loyal to the table, it is also completely obeying the words of Shen Lang But this time there are many people, he still avoids calling the owner.

After Shen Lang had just stopped, the white-faced ancestors immediately formed an encirclement and ignored them. They immediately retired and went to one of their six people.

At this time, the elk and the dog \*\*\*\*\* also retreated to the side of Shen Lang.

Everyone formed a three-to-seven confrontation.

Such a lineup, both in terms of quantity and size, is the overwhelming majority of Shenlang.

Today is the purple ancestor of the landlord, there is no good scruples, there are seven great gods together, Zi Yan joined the Shen Lang side, the Kunlun faction together with the Shen Lang, can not affect the overall situation.

Helan's ancestors were not tempered by the elk, perhaps because of the shackles and embarrassment of the elk, but made him feel better.

Shen Lang glanced at them and smiled faintly: "Do you want to catch me? I only have one, how can I split it!"

Chapter 1775 - 11 Secret

In addition to the white mask ancestor who had just returned, the other six were three parties.

Originally, they were evenly matched, and no one had the confidence to overpower others, so they let the three of them play first.

I was able to come out together just because I thought that there was no chance of winning alone, and the ancestors of the white mask were only three.

Everyone comes out together to form an alliance, which is the powerful situation of seven people now.

When I saw six of them, did Shen Lang not hurry to stop?

Now, it sounds like I want to divide them!

One of the ancestors of the black mask said slowly: "We don't need to divide, because we don't think of Shen Lang as a booty, it won't hurt you. We just need a little bit of information, you can share this information. We can do it."

This is very tweeting, there is no strong smell of gunpowder.

But in fact, the meaning is very obvious, that is, you want to read the memory of Shen Lang!

This can indeed be “shared”. If Shen Lang cooperates, they don’t even need to get rid of the sinking waves, and they don’t mean much.

This is one of the reasons why they wear masks.

Can’t confirm who the enemy is, Shen Lang even found a strong backing after the event, there is no way to take revenge.

However, Helan ancestors, they have not taken care of it.

The old guy’s face is not thick enough, and he’s exposed his identity, and there’s no way to get the same results as everyone else.

Even if he does not participate in the fight with Shen Lang, they still have six people, still a stable situation.

Shen Lang nodded. “It sounds good. Just sharing information, I personally will not lose anything.”

This sounds so everyone feels very good.

But rationally understand that Shen Lang can’t talk so well.

This kid is full of bad water, it is definitely wanting to paralyze everyone’s nerves, you should be vigilant!

“However, if you have learned my chess skills, it will surpass me. It will still make me feel lost.”

“What chess?” A red mask ancestors asked inexplicably.

Shen Lang looked surprised: “Does the child Xianwen not share my chess skills? Zhizhi ancestors?”

He looked at the ancestors of the two black masks.

The ancestors of the red mask who had just asked, and the eyes of other people, all looked at the ancestors of the black mask.

“It’s you?”

Shen Lang has directly called out his identity, including the identity of the next Zhizhi, the ancestors of two black masks, a little can not hang.

The one who just spoke, glared at the face of Helan’s ancestors who had taken the mask.

The face of Helan’s ancestors is inexplicable.

“What happened to me? I am not coming with you. I don’t know who you are... are you a child?”

Everyone is dumb.

Just after Shen Lang can call out the identity of two people, in the eyes of others, it must be out of the ghost, or even if they have seen it many times, they can only guess a general, not too sure.

Shen Lang is definitely someone who gave him information. Who else can it be?

It is the purple ancestor on the opposite side of the mountain, and this is not the case.

The biggest suspect is naturally the ancestors of Helan who just took the initiative to take the mask.

They think that this old guy wants to sell friends and seek glory, in such a way to win the trust of Shen Lang!

However, his subsequent explanation made them feel reasonable.

Although everyone has come here to ambush, they can know each other and guess the existence of each other, but they are not invited together. Naturally, it is not so clear.

Helan's ancestors wore white masks, and he should be clear that he was only the identity of another white-faced person with him.

For a time, everyone's eyes shifted back to Shen Lang's face.

“What? I admit it wrong?”

Shen Lang said with a slight sarcasm: “Before everyone's relationship is good, Tong Xian Weng, Zhi Wei, I didn't expect to come behind me. I didn't have a Song invincible ancestor who was not very friendly to me at the beginning. You are I suspect that he is worse than you, don't bring him to play?”

The words have already said this, it shows that he is very determined.

The ancestors of the two black masks, if they persisted, did not make any sense, and they silently took off the mask.

It is the child Xian Weng and Zhi Zhi.

They wear masks and change their voices when they talk.

The reason why Song Invincible did not call together, it is indeed the strength of Song invincible to be weak, coupled with not calm enough, they are afraid of Song invincible exposed, began to think that two people are enough.

I didn't expect two people to be enough now, but I didn't expect them to be exposed!

Where did they reveal their feelings, and they couldn't understand it. The embarrassment that was debunked was not as good as that of Helan's ancestors. It seemed to be a bit shameful.

But Shen Lang did not stop, but looked at the two men in the red mask.

“Two, do you want me to say your identity? Or do you take off your own mask?”

Hearing this, both of them were secretly cold and did not respond.

Although they do not know how Shen Lang discovered Tong Xian Weng and Zhi Zhi, but the guess should be because of the more familiar relationship with them.

It is impossible to guess their identity.

Now to say this, I want to swindle them and let them blew themselves!

Shen Lang looked at them like this and immediately continued to reveal the mystery.

“Bailudong Xiaoyao ancestors, Zifu Wonderland Lu You ancestor. The two sects and personal identity, are quite a fan of the windy bones, now such a hidden head, will not get used to it?”

“...”

When I heard this, everyone’s attention fell on the faces of both of them.

In fact, other people are not clear about their specific identity. There may be some speculation, but it may not be accurate.

Now when I hear the words of Shen Lang, I am also a bit curious. Is it two of them?

Also follow this clue, recall the shape of the ancestors and Lu You’s ancestors, and see if they can match.

The purple ancestor is even more shocked. He is following the road with Shen Lang. No one has revealed anything with Shen Lang. How did he know this?

Now the identity of these four people is said to be There are two other white masks, do you know the truth?

Before that, I was included in the tower of the tower, is it also clear identity?

How did he do it?

The two men in the red mask did not take the initiative to take off the mask like Tong Xian Weng and Zhi Zhi, and they remained silent.

However, Shen Lang did not say anything to them at all, but looked at the other two people.

The ancestors of these two white masks, one with the ancestors of Helan, one was before the battle.

“Yujiang Yuxi, you have made an appointment, but I did not expect to come here first.”

Everyone was a little surprised to hear this.

Chapter 1776 - Data disclosure

Because other ancestors, everyone is more or less a little change in shape, and the sound has changed, it is more difficult to guess.

However, Yujiang is a female god, and it is different from the male ancestors in terms of height, body shape and sound.

There are fewer female monks who participate in the Yaochi event. It should be easy to identify.

But everyone just didn't see it. It looked like a man, so no one thought of Yu Yu.

Now Yu Yu did not take off the mask and did not speak.

However, they saw the ancestors of Helan with her, and their faces were already unbelievably surprised. They all understood that this is a fact, and Shen Lang guessed it.

When we look at the sinking waves, everyone is full of complex looks.

This young man is too unfathomable!

There is still a ancestors of white masks, who have already fought with the elk before.

Shen Lang's eyes also fell on his face, but did not speak.

At this moment, the ancestors of the white mask, hesitated for a moment, took off the mask, and then a little distorted on the face, after a while to stretch out.

At the same time, her body shape changed, not stretching, but shrinking a little.

This time, everyone recognizes it, it is the Yujiang River.

She knows that female monks are more likely to be identified, so the disguise is bigger than others.

She is now incredibly watching Shen Lang, except for the sale of Helan's ancestors, I really can't think of other reasons.

However, this time Helan's ancestors, because she pulled over, with their friendship, it is impossible to sell her.

Seeing this, the two red masks were also silently picked.

Bailudong Xiaoyao ancestors, the ancient ancestors of the Zifu Wonderland.

At this point, their new six, Shen Lang debunked five, completely verified.

It was the elk of their own side who also looked at it, and the opposite sable ancestors also looked at it.

This is not the case that Helan's ancestors can be explained. There is still a possibility that Shen Lang has found the person who provided the mask.

It's just their mask, not everyone has registered.

And they all want a whole set of masks of various colors, but only later choose another color, different, or uniform color, which is discussed later.

In other words, it is the ancestor who provided the mask, and only knows who he gave the mask to. It is only a part of the person, and others are not clear, and it is impossible to make each mask correspond to the identity of each individual.

They unveiled the mask one by one, corresponding to the words of Shen Lang, but there is another person who is depressed!

Originally, in the order just in the end, Shen Lang should reveal his identity, but when Shen Lang went to him, he would not go on.

Now that Yu Yu and Xiaoyao and Lu You both reveal their identities, so that everyone can shake the ability of the waves, they all guess how it was discovered.

In other words, no one cares who he is, and cares whether Shen Lang has guessed his identity!

The ancestors of this white mask, when they were together with the purple and blue mask ancestors, were a bit of C-core flavor, and the result was now marginalized, which is naturally a little uncomfortable.

If everyone hides their identity, then he is marginalized, and that is a good thing that will not be noticed.

Now Shen Lang has broken the identity of other people and ignored him alone. What does this mean?

Is this looking down on him?

Even telling him that he is not dismissive?

Other people are not interested in knowing his identity?

Identity is a very important feeling for people. Even if they reach such a realm, they can be neglected everyday. However, in front of a group of people at the same level, they have no sense of identity and are regarded as air-transparent.

Still feel uncomfortable.

“How did you know that? Helan brothers will not sell us.” Yu Yu asked, her voice was a little hoarse.

If you look at this topic, then no one cares about his existence.

The old ancestors of the white mask couldn't help but uncover the mask.

“Shen Lang! Don't pretend to be a ghost! You think that the elk has invested in you and betrayed everyone's information, can you pretend here?”

He is the source of the information obtained from Shen Lang, thanks to the elk.

Everyone can't help but look at the elk.

But immediately they secretly denied that the elk was acting alone. It was separated from everyone before, and it was rumored that he was alone on the road to intercept the scorio ancestors.

Elk is knowing a more detailed route, so I don't want to unite with everyone.

Such people, even if they have a heart to sell, you must know!

After the talk, everyone's eyes fell on the person who revealed himself, and wanted to see who the person who Shen Lang did not expose.

At first glance, I couldn't help but be surprised.

"Vulture! How come you are here!"

Vulture?

Shen Lang is a bit strange, this name is a bit familiar.

Then he began to think back, on the one hand, to recall the vultures he had heard, and on the other hand, to search for vultures in the memory of the elk.

The reason why Shen Lang can reveal the identity of five of them is actually not mysterious.

Just like a familiar person, you can judge your identity through general body shape, behavioral habits, tone styles, etc. Even if you have deliberately changed your disguise, you may guess it.

For example, some people, in the dark, can tell which acquaintance is coming.

The method of Shen Lang is scientific data!

This data comes from the Holy Grail.

At the time of the Yaochi event, outside the Yaochi, Shenlang began to listen and record the identity of each individual.

So when he is valued later, he can recognize every character.

This is that the Holy A has a character database and can be accessed at any time. And that day, it is all aspects of all angles, and everyone's data is abundant and substantial.

The camouflage of these ancestors is technically very powerful.

It's not a mask, it's just a simple layer, like they can change the height and shape of the figure, and it can change the sound.

For example, just like a melancholy, almost all of them have become another person.

But their experience is too limited neglected some details.

For example, shoes.

There are replacement clothes, they are replaced by the tops of the Yaochi event, but the shoes are not prepared enough, or the details are not noticed.

And each of them has the same foot code and shoes.

Shen Lang can basically correspond to a rough estimate by comparing the previous detailed data.

This point is that the female repairs are ignored, she becomes like a male ancestor, but the shoes are still the previous shoes. Of course, her age is not the same as that of embroidered shoes.

Also, because of the difference in practice, each person's body temperature is different, even including the smell. The data of these details are in the database of the holy armor!

So Shen Lang is a little guess, but most of it corresponds to the data.

Chapter 1777 - Vulture

From the beginning of the three masked ancestors, Shen Lang knew their approximate identity, but did not expose them at that time.

Because it does not make sense to expose them, the fight still has to be played.

Now I will break this layer out. On the one hand, it is the self-destruction of Helan's ancestors, so that he also wants to have friendly contacts with Tong Xian Weng and Zhi Wei, and he is equally ashamed.

On the other hand, in this way, he showed his inscrutable and made him even more jealous of him.

After all, now that the enemy is strong, I must be more intelligent.

But the ancestor of the white mask, he really does not know the identity!

Just saw three of them on this platform. Shen Lang will repeatedly let the elk and the dog \*\*\*\* attack the white mask, except that he is like the core, but also because he can not guess his specific identity.

In short, all the data on the appearance, clothes, shoes, body temperature and so on, are not compatible with this person.

At that time, Shen Lang's idea was that this person's disguise was the deepest, and it was changed in all aspects.

The other party is completely unaware that he has the ability to record so much data, but there is still such a comprehensive camouflage, which shows the depth of mind.

Therefore, in addition to such people, such people are very dangerous.

When they first said that they broke their identity, Shen Lang was very determined, but when he arrived in front of this person, he stopped and did not continue.

It seems that I don't bother to talk about him, but in fact I really don't have his information, I can't guess who he is.

Now that the person opened the mask himself, revealing his true content, Shen Lang was sure that it was not a problem with the data, nor that this person was pretending to be too deep, but he had never seen this person!

Everyone's surprise also confirmed his thoughts.

Vultures, and indeed did not appear in the Yaochi event.

At this moment, thinking about memories, the memory of vultures is clear.

The vultures that Shen Lang remembered were the group of killers he had killed.

At that time, it was in Tiandu City. At that time, the people invited by Mutian Songtao came to kill him, but he was killed.

Later, I also learned from Ji Qiandao that vulture is a killer gang, not so powerful, but many forces are willing to hand over the inconvenient under-the-counter things to the vultures.

So they have the soil that exists.

At that time, Shen Lang was equal to killing the vulture. The boss was a vulture and brought a few younger brothers.

Later, Ji Qiandao means that the vulture is just a code name, not necessarily a few people.

In other words, those people claim to be vultures, and there may be others who claim to be vultures.

Because vultures are, to a certain extent, already the name of the identity of the killer.

The vulture in the memory of the elk is a specific person, and has something to do with the vultures on the side of Tiandu City.

Vultures are a kind of independent practice. It is also true and evil for people. It can even be counted as evil.

His family process, and ultimately all kinds of killing and looting, so the swaying out is a code name of “vulture.” After this fierce name, many people forgot his original name.

Anyway, everyone calls him a vulture, and the vulture himself enjoys such a name.

His fierce name has been at least a hundred years!

The vulture organization on the side of Tiandu City, used to refer to the killer and other characters, is likely to trace the source from the vulture.

Perhaps the earliest vulture was to pay tribute to him and take the name of vulture.

However, because it is only limited to one place, the vultures will not pay attention to and find trouble, and slowly evolved the existence of vultures over there.

In an occasion like the Yaochi event, it is naturally impossible to invite a sinister figure like a vulture.

Whether it is before or this time.

The vulture is not convinced. He feels that his strength has outweighed other people who are qualified to participate in the martial art of the Yaochi event.

So after the previous Yaochi event, he had challenged many people, and that made him famous, and many people recognized him.

But after all, the vultures still have their arms and their thighs. The Yaochi event represents the power of the historical giants. It is impossible for him to join. It is a kind of pollution and embarrassment.

This time, there are ruins, and vultures also travel.

This time, the Yaochi event, he also got the news.

However, for decades and centuries, vultures should also change their strategies. Since you can't participate in the Yaochi event in the normal way, then curve a little.

It is impossible to fight against all the Yaochi events, but it is not too difficult to find a breakthrough in one, two sects, or a single person.

After all, a Yaochi event will take decades, and there is enough time to lay out.

And if the benefits are sufficient, some people will give up the principle.

This time, the vulture should also come to the vicinity of Yaochi. It was originally the two great ancestors who had to be with him to exchange the situation of the Yaochi event.

As a result, the news of Shen Lang was obtained, and he organized this ambush.

In the memory of the elk, it is about the origin of the vultures, and some of them are analyzed by Shen Lang himself.

Shen Lang just wants to know his situation and has no interest in the specific details.

Just as he reveals the identity of everyone, it is to make everyone feel scrupulous.

It's just that in the vultures, since Shen Lang's identity is known, he should know his identity, so he will blow himself out.

"Don't ask me why I am here!"

"The two partners with me are also acquaintances you know. And you have all seen it, you have been killed by Shen Lang!"

"I just said it, as long as everyone comes out to save me, I am willing to help you!"

“I have no interest in it, but I am trying to kill this and avenge my two friends. It is also a fair return!”

“Now, we are allies fighting side by side!”

The vulture quickly said something.

He knows that after his identity bursts out, he will make everyone feel jealous of him and he is not willing to join forces with him.

It should even be said that everyone's shot on Shen Lang is only because of the interests, there is no hatred and principle opposition to Shen Lang.

But it is different for him. It is a point of righteousness and evil.

To a certain extent, the evil factions are to be detained by decent!

It's just that you don't have to break the bottom line and keep your balance.

Now he once again declares that he does not want to benefit, but only loyal to revenge for friends, in order to win the trust of everyone.

And everyone needs his help!

Now the ancestors of Helan's ancestors, Yu Yu may be influenced by him; Tong Xian Weng and Zhi Yu are also jealous...

This temporary military center, which has not been condensed, seems to be chaotic. If there is Lu You and Xiaoyao ancestors, there is no point.

This military heart, still need him to stabilize!

Chapter 1778 - Persuade

Vultures can be mixed into the present, and they are obviously stronger than others.

If he directly reveals his intentions against Shen Lang, he will be boycotted if he is not besieged by others.

Now that everyone's identity has been opened, anything will be spread.

Do not say anything else, at least on the opposite side, there are Kunlun factions watching the lively.

The six ancestors themselves attacked Shen Lang, and they are already inflow. If they join forces with the evils of the evils, it is even more sweeping, affecting the reputation of their respective sects.

But if you are vulture, you will find a good reason for everyone.

Didn't Shen Lang inhale the two ancestors into the tower?

One of them was also cut off from the waist and finally disintegrated.

From a certain point of view, it is also possible to define Shen Lang as a sect, so that everyone can get it.

At the scene, only the attitude of Helan's ancestors was different. Unlike other people, he obviously wanted to retreat.

I can see that it was because I supported Yu Yu, but I have already seen it when it has not appeared yet. This is a life and death fight!

Already dead two great ancestors, they caught the waves, may they let him live?

At this time, he was somewhat a bit of a desire to do things, but he was injured by the elk 30 years ago and he could not recover. Now his strength is the weakest one on the spot, and there is no such qualification.

Self-destructive identity, regarded as one of his attitudes, can be regarded as a return to Shen Lang. Being embarrassed by the elk, there is no excuse.

Now, besides him, including the Yujiang River, you are considering the advice of vultures.

“That’s too late!”

“Elder brothers, everyone has seen that this child has an artifact in the hands of the tower! I have just inhaled the two old brothers.”

“Because you have noticed that he has not used it continuously! The artifact is huge and consumes a lot. It takes a certain amount of time to recover.”

When the vultures say it, everyone has naturally understood it.

After Shen Lang was sucking up his ancestors, did he come back for a while? Then I did not continue to use the tower, but first attacked with other weapons, and finally used the tower.

This is the time when the artifact needs to cool down.

Then he is talking to everyone now, isn’t he intentionally delaying the time?

The longer the rest, the greater the power absorbed by the tower, will it be bigger?

The guidance of vultures makes everyone feel that since it is necessary to start, sooner rather than later.

And everyone can come here, in fact, it has been considered for ten days. It may have been ambushed for a day or two here. If you have not left, you will have a decision.

But now it is because Shen Lang suddenly kicked their identity and made them a little shameful, but they have not yet shaken their decision!

“Shenlang Xiaoyou, you know what we want. As long as you meet us, it will not be bad for you. Otherwise, the consequences will be difficult to say. I hope that you can make a decision immediately!”

Tong Xiangeng sighed and made the last persuasion.

Looking at the chess together, looking at the high cold autumn, he hopes that Shen Lang can take the initiative to share the secrets to them, then this matter is not good, it will not reach the worst degree.

Otherwise, under the aggression of the vultures, the last may actually catch the sinking waves and destroy the mouth after taking the secret.

It doesn't matter what kind of uproar it will cause.

Chih-Hyun nodded again and again, and he was also a word that echoed Tong Xian Weng.

Helan ancestors, who were next to him, were a little anxious and couldn't help but speak again.

"Shenlang Xiaoyou, you will satisfy them. Although it is very unwilling to share the secrets that you have exclusive, but now the situation..."

His subtext is also obvious: if you don't give it, you may not even have a life!

There is no life, then what is the significance of more powerful secrets?

The content is basically the same discourse, Shen Lang still knows the difference.

Needless to say, vultures are directly confusing; Tong Xian Weng is a little threatening to tell. And Helan's ancestors were really out of fear and persuasion.

This slightly makes Shen Lang feel a little relieved. After all, he knows He Lanchun. On that day, he also helped Helan's ancestors. As a result, he will be harmed by him. Naturally, he feels deeper than the elk.

Now it seems that regardless of whether Helan's ancestors had a period of time with Yu Yu in the early years, it was always affected.

Just at this point, if it really kills, Shen Lang is willing to spare his life.

The Emperor's behemoth is next to him, always ready to shoot, but does not roar, it does not interfere with the Shen Lang.

The elk did not speak, but he was very tangled.

Six ancestors, plus a vulture, even if Shen Lang has a magic weapon, a lot of intrigues, this is at least double the power of people!

Just after he and the Emperor's behemoths joined forces, they only took the upper hand, but failed to quickly kill the vultures, relying on the surprise attack of Shen Lang.

The surprise attack of Shen Lang is on the one hand because of the enemy of the enemy, and on the other hand, the power of the tower.

Until now, others will never despise him, and they will also guard against the tower.

In this way, they basically have no chance to break the other side one by one!

And the situation is directly reversed, turning into another two people to attack them one!

His entanglement is that he has no choice!

Other people have encountered this situation, such as the two people he hates, Zi Yan, He Lan, you can also choose to stay out of the way.

However, he did not have the opportunity to choose this way. He has been controlled by Shen Lang. If Shen Lang is dead, he will not survive. When he encounters such a big battle, he will only die.

At this moment, in his own heart, he hopes to reconcile, hoping that Shen Lang will give in to soften and give up his life. Then he can be safe.

But as a enslaved party, he is not qualified to persuade.

After tangling for a while, he sent a message to the dog god, expressing this meaning.

He does not understand the relationship between this super beast and Shen Lang, but the obvious relationship is much better than him, and may be able to persuade Shen Lang.

It is a pity that the Emperor's behemoth is not moving at all.

Li did not care for him!

The dog \*\*\*\*\* is the \*\*\*\*\* of the behemoth in the world of the behemoth!

In this world, I have also been in the past for a while, and even killed the world on the other side of Zhoushan. Followed by Shen Lang, and also hit the Guangmingshan hundred paradise, against the light of God.

How could it be so easy to bow down and concede?

And in front of the bright god, the weaker waves than it, did not forget to save it together. After it was seriously injured by Tong Xian Weng, Zhi Yi, and Song Invincible, they were still a much weaker wave. They were not afraid of danger and managed to save it.

And take it to a mysterious space to heal, it is undoubtedly the privacy of Shen Lang.

All of this makes the dog \*\*\*\*\* grateful and thoroughly convinced, and willingly listen to the orders of Shen Lang.

Besides, Tong Xian Weng and Zhi Zhi are two, but its enemy! It also wants to find opportunities to take revenge!

Chapter 1779 - Procrastination time

?Child Xian Weng and Zhi Zhi two, this time of course also pay attention to the Emperor's behemoth, it saw it as soon as it appeared.

Now the two sides are squatting, and they can feel the hatred from this beast.

At this moment, the dog \*\*\*\*\* did not restore the appearance of the Emperor's behemoth, but the body became bigger than the elephant, and the big eyes were staring at them both.

Tong Xian Weng just spoke but said Shen Lang, in fact, there is still a layer of factors, because of the change of dog god!

On the same day, the super beast god, the reason why it was so easy to catch, in addition to the three joint hands, is because the other side was seriously injured.

Then they suppressed it, and when Shen Lang rescued it, he used the word "received" and made it straight to let it be obedient.

At that time, they forced them to shock, and they suspected that this was an animal trainer.

Afterwards, at the Yaochi event, I did not see the behemoths and beasts following the Shenlang, and they also met their guesses. There may be backstage forces in the vicinity, and they are handed over to them for healing.

Only once in this past ten days, I saw the super beast, but it seems that there is no injury at all, and it feels very good.

Such a means, they are secretly shocked.

It can make this beast \*\*\*\*\* recover so well in more than ten days. It is very difficult, they can think of it, give it a lot of healing sacred herbs and the like, while also artificially helping to treat.

The ability to do these two points is enough to show that the forces behind Shen Lang are very rich and rich, and there is no shortage of precious resources. At the same time, the master is also abundant, and can help heal without paying for it.

That reaction is another situation that they have been worried about – the mysterious forces hiding behind the scenes, will they be paying attention here?

Their strong powers in the realm of the gods can do long-distance shots, and under full force, they can travel very far in a very short time.

So it is not surprising that someone is hiding in the distance and paying attention to all of this.

Shenlang, a peak of Daxian, can easily conquer a beast god, and can easily conquer the elk, but also dare to confront them, it must be full of confidence.

Such worries, both of them are tacit, and it is not convenient to say everyone. At this time, like the elk, they hope that Shen Lang can cooperate with each other. Everyone just wins the secret technique and does not hurt him. No problem will arise.

After the ancestors of Helan finished, everyone's eyes were watching the waves.

From the main battle in the eyes to the persuasion of Huairou, it is already three people who have spoken in three levels of words. If they can solve them peacefully, they will see the decision of Shen Lang.

And when I have already reached this point, I have said everything. If I can't convince Shen Lang, it would be meaningless to say more.

It is like the agitation of vultures. If it is a long time, it may make the towers work better. They must attack first.

Shen Lang has also made a decision.

In fact, he had a decision early in the morning!

Because of the predictive ability of the wheel of the celestial plane, let him know the situation outside. After coming out, you can directly understand the approximate hiding position of several people.

At that time, his declaration of war, he has already started a series of layout plans.

After killing two ancestors, they fully demonstrated their strength, and the purpose of Shen Lang has been achieved.

And now, as he expected, the rest of the natural teaming together, it is also an irresistible force.

What he just used is still clever and hard. It is not a hard-hitting attempt to let the other party fully exert its strength. Otherwise, even if he has the strength of the great \*\*\*\*\* now, it will be the same as the elk, and it is not so easy to produce results.

The other seven gods, they count only three, this is a must lose situation, there is no need to try it.

Shen Lang's decisions and plans are delaying the time when they reveal their identity!

When he first started to play the role of Tongxian Weng, Zhizhi, it was the most shocking, most eye-catching time. At that time, everyone's attention was on Tong Xianwen.

Shen Lang is ready for the Kunlun mirror of the Three Realms.

After the continuous exposure, Lu You's ancestors, Xiaoyao ancestors, and Yu Yu were all told one by one, and everyone continued to surprise each other and put the focus on it.

The vulture is not exposed to him, but the vulture reveals his identity and is a process of continuing exposure, so that everyone continues to be surprised.

Of course, the scene is a big god, even if the focus of attention is tilted, it will still be defensive, and will pay attention to the movements of Shen Lang.

The fluctuations of the artifacts in his body are also perceived by them.

It's just that they guessed it, it's all the towers that have appeared before.

That is, the vulture said, this is probably to let the tower cool down, waiting for another big move to absorb them.

They have already been prepared for the tower, and the situation of a few vultures has made them understand. That is, as long as the distance from the tower is opened, this artifact will be helpless.

The tower is strong, but the distance is limited!

Like now, the six of them and Shen Lang are in a state of confrontation. Even if they take out the tower, they can afford to dodge.

It is precisely because of this misunderstanding of the “artifact” that they did not find the true intention of Shen Lang.

Now, Shen Lang has not only prepared enough, but has also notified the dog \*\*\*\*\* and the elk to prepare them to leave.

Although the dog \*\*\*\*\* is a little unwilling, he wants to take the vengeance of Tong Xian Weng and Zhi Zhi.

But it is also sensible. Even if it recovers its peak, it can do the most. If it is together, it will be gone, let alone there are still many enemies.

Whether you like it or not, Shen Lang’s decision is the best.

After the entangled depressed elk, after the thoughts of Shen Lang, it was immediately a burst of excitement.

Although there is no surrender to offer a secret, if you can successfully escape, it is a blessing.

“You, I have already recorded you. The mountains and rivers meet, and I will meet again in the future.”

When Shen Lang said this sentence, they all felt that something was wrong, but it was not clear when it was not right.

Just when Shen Lang is talking about a little scene, then, is he going to give in?

I will say this, but it is not like the appearance of death.

Under the expectation of everyone but it feels a slight space fluctuation in front!

Then everyone saw the scene with their own eyes, Shen Lang, and the beast \*\*\*\*\* and elk near him, suddenly disappeared together!

At this moment, both the elk and the sable ancestors have a familiar feeling.

They will not forget that when they first saw Shen Lang, it was after the micro-microwave movement in space.

He really has the magic weapon to pass through!

Looking at the opposite platform, after leaving seven people on one side, the sable ancestors immediately disappeared.

At this moment, if he continues to watch the excitement, if he is not good, he will be angered by those who are angry and angry, and then the Kunluns will be involved.

“It’s over...” Yu Yu muttered.

Chapter 1780 - The threat of leaving

The Shenlang group of people suddenly disappeared, leaving everyone silent.

At this time, the words of Yu Yu seemed a bit awkward, so everyone looked at the past.

Zi Yan left now, and everyone didn’t pay too much attention. Anyway, even if the old guy would spread the news, did they really take the joint shot?

Besides, can't you see him and the Kunlun faction because of the purple scorpion?

However, when I saw the expression of Yu Yu, other people immediately reacted.

Shen Lang said that the mountains and rivers meet, and see each other again in the future, not a scene, but that they will visit them one by one in the future!

Can also be understood as a challenge.

Now they are strong because they have seven ancestors of the Great God level. In addition to Helan's ancestors, there are also six, each from different sects.

But their own martial art, family, no one has six great gods to sit in town!

These ancestors are often the only gods of a martial art.

After all, the Great God is not a batch of things, even if they have a long history of rich martial art, not every generation can cultivate a great god, and sometimes it depends on whether there is talent.

Just like these old ancestors, they are geniuses from an early age, and they have been cultivated all the way.

And when it comes to the Great Immortal Realm and the Great Immortal Peak, it can be cultivated without training, and it still needs its own understanding and opportunities!

This state has created a situation. Once the ancestors who left the town left, they lost their pillars!

For example, Qiu Lin Jianzong, counted as a young sect with few tops in these hundreds of years, is still relying on the cold autumn.

This dependence is also about the enemy.

In the daily life, even if there are enemies, do not dare to offend such a powerful sect. Like the Kunlun School, the average person can't even find it here.

And like the Qiulin sword, in Tangcheng is also the name of Hehewei, and no one dares to offend, it is the level of a hegemony.

The last time Shen Lang relied on the help of the dog god, went to the Tangcheng area to stir up a day, and destroyed many. Forcing the ancestors of Xiyang and Longjing to come out, and to the Qiulin swordsmen, they still ask for the waves.

At that time, it was easy to hold it up. Yang Huantian could still stand a little pressure, but it could not match the dragon.

However, the ancestors such as Long Yu and Mu Xiyang are actually not the rivals of Mo Feiliu.

This is the case, Mo Feiliu may not have been shot for decades, many people are dead. It is possible that the cold autumn is not showing up for a hundred or two years. It is already a historical figure.

However, this appearance means that there is no such appearance in the Tangcheng level. The Gao Hanqiu is an old martial art at the level of the Yaochi event.

To put it simply, these ancient and powerful sects do not necessarily have enemies in their decades, and even if they have enemies, they can be easily resolved.

But this time is different!

Even if the cold autumn does not necessarily directly help the shot, even if the elk will not always follow the use of Shen Lang.

The light of the waves, plus the super beast, is enough to smash any martial art without a big god!

Not to mention that everyone still guessed that there is a powerful force behind Shen Lang...

This is the feeling of powerlessness that Yu Yu will feel “completed.”

Once Shen Lang took the lead to their martial art, the consequences were unimaginable!

Their temporary alliances are based entirely on interests. Even if they are directly involved, it is very likely that it is difficult to form a good cooperation. Just like everyone started, I hope that others will lose both ends, and that the last fisherman will benefit.

Now they are running, and they don't know which martial art to go next.

Their alliance cannot continue, and it is even less likely to invite others to protect their own divisions.

I will worry about my martial art and I want to protect my martial art. I can only make my own efforts. I can't get the “exhibition fee” of the sky-high price, let the ancestors give up their martial art and first protect others.

As a result, everyone can only leave in politics.

Without the joint of six or seven people, they will encounter three of Shen Lang, what will be the result, and everyone can basically guess.

In other words, if they don't hurry back, the result may soon be their own martial art, which will be ruined by Shen Lang and his party!

If they rush back immediately, the result may still be a disaster, but they have more participation and more variables.

The worst result is that Shen Lang took people to preempt their door!

The good result is that Shen Lang is as eager to wait for them as they are, and they have to pay for their debts. They only deal with them. If they do not see them, they will not only be besieged but will not destroy their martial art.

In terms of personal interests, they are best not to go back. Going back may not solve the problem, but they will definitely send their lives.

The best practice is that they are united together and are kept alone in one martial art.

In that case, even if your martial art was destroyed by the sun, after all, you did not die, and there is a chance of revenge.

But no one can do it.

Unless everyone follows them to guard their own martial art!

But no one wants to get this result, no one wants to keep it.

If they don't go back, the ancient martial art of thousands of years has been destroyed, they are to be nailed to the shame of history!

With the concept of their world, even ordinary things can be selfish and self-interested, such as this ambush against Shen Lang, that is, the interests challenge the principle.

But it is impossible to ignore the teacher's own door. It is the act of bullying the ancestors.

And even if there are no pro-disciples, they are some of the disciples who don't know, and they can't watch them die.

It was also a time of eyesight. Everyone understood the worries of Yu Yu and understood their situation.

Suddenly, these ancestors who are used to the big winds and waves can't calm down.

Regardless of where the transmission goes, the speed will be instantaneous, and only the Kunluns will be slower than them. Otherwise, it will be closer and faster than their past!

No one can be sure that Shen Lang is going to someone else first... At one time, he began to leave in a hurry.

Yu Yu and He Lan's ancestors left together Whether Helan's ancestors will follow her will be the river, it is not known.

Happy ancestors and Lu You ancestors also left together, they will definitely return to Bailu Cave and Zifu Wonderland.

But the remaining three did not leave immediately.

Because Tong Xian Weng and Zhi Zhi are both from the beginning, there is no one who is waiting for the rescue.

They must also have disciples and other disciples, or have their own Dongfu, but they have always walked in a scattered position. There is no fixed mountain gate, and it is more difficult to find.

The same is true of vultures. He often attacks others, and he will not let his caves be exposed.

The three of them are confident and will not be found by Shen Lang.

"Cooperation? I know where he will go next!" The vultures blinked and took the initiative to unite with Tongxian Weng and Zhisheng.
