

First Strong 178

Chapter 178 - Still virtual

At this time, Shen Lang turned his hand, and there were two Lingshi in his hand, and then he threw it directly to Xie You.

“I used to hit your face before, but also swept your face. But tonight, you still have a heart to remind, and derogatory, thank you!”

Xie You took over and smiled again: “This is really a big deal. I said a few words. This thank you is too heavy.”

The Xiejia in the southeast is a giant family that can sit on the same level as Chujiaping. Naturally, there are many family members in Pingxi. The Lingshi is very precious to Yejia and Yuejia, and is a good thing that can't be bought.

Of course, the Xie family is quite stocky, but no matter how big the industry is, there is no way to send two Lingshi to thank you.

“You're welcome. Before I dealt with the Chuhe body, I found it on him, and it was a waste of disposal.” Shen Lang indicated that he did not have to return.

Xie You couldn't help but laugh.

According to the information he learned, Shen Lang was born in the past two months. The forces on the Pingxi side are not strong enough. None of them knows the details of Shen Lang. Although they are strong enough, they have not developed here, and they are not able to investigate.

He analyzed that there must be a strong master behind Shen Lang, but looking at this situation, there must be no one with a large number of sects, perhaps a single pass.

Such a descendant, there will be some Lingshi in his hand, not surprising. But in the end, it is a place like Pingxi, and it is not a cumulative resource of the giants. It is a little unbelievable to give him two stones.

Now that I heard it from the Chu River, I can understand it. However, it can still be regarded as a big deal, and most people get their own collections.

“Well, I am not a dead person. Haha...”

Xie You played a haha, and he accepted it. He understands that the arrogant person of Shen Lang is not wanting to owe him the human sentiments, and the things that are sent out will not be recovered. If you are more accommodating, it will not make him feel bad.

“You originally wanted to draw me. But now I declare war to the Chu family, you can’t continue.”

“Yes.”

“You still come to see me at this time, you should want to remind me something.”

“Yes.”

“That’s it! You feel that the gift is heavy, and more is the reward for providing information.”

Xie You smiled and nodded: “Yes, but first I have to ask, how much does the Shen brother know about Chu? How much do you know about Chu Mofeng?”

“I don’t know anything about it. I have just known from your discussion tonight.” Shen Lang told the truth.

“...” Xie You held the chair and felt almost slipped.

It should be said that he is a newborn calf not afraid of tigers, or that he is two hundred and five stupid?

I don’t know anything about Chu Mofeng, and I dare to declare war to others!

Even if you don’t know Chu Mofeng, you should know Chu family when you contact them twice. As the core figure of Chu family, where can you go?

However, it is useless to say that, Chu River has already been killed, and Chu Mofeng has publicly declared war. I don't want to watch Shen Lang send him to death. What he can do is to provide as much information as possible.

“Do you know that it is still in the virtual world?”

“Small locals are not very clear about these.” Shen Lang is still telling the truth.

Nowadays, the division of the realm of cultivation has been greatly different. In order to meet the standards, he also tries to refer to the current realm. However, from the beginning of the super-martial warriors, to the returning monks to the Yuan Dynasty, they are all learned step by step.

In Pingxi City, the strongest before should be the mid-term of the return of several of their sects. The monks who returned to the Yuan Dynasty were still Xie You and Chu Yuncheng. They were seen in the Yuan Dynasty and they have seen the Chu River.

Seeing that he really is like a wild boy from a mountain town, Xie You has no choice but to spread the common sense of comprehension from the beginning.

“Looking at your realm should be the peak of the return to the Yuan Dynasty. This does not require me to say more. On the basis of returning to the Yuan Dynasty, it is still a virtual environment. Within this big realm, it is also divided into the initial, middle, late, and peak. In fact, the peak is about to break through the next big realm, just the chance to leave the door...”

It is also the backbone of the current realm of cultivation, and also a mid-to-high-end monk. Just like the Chu River, it can be broken into the righteousness of Chu Mofeng, and it has quite a status in the Chu family. It is also the peak of the Yuan Dynasty. It has not broken through to the virtual world.

It can be seen that the virtual environment is not Chinese cabbage, even the giants such as the Chu family are also the existence of the leader.

However, like this super-martial hero, in addition to absolute strength, it also has a potential problem. The Chu River is only in its thirties, and it has already returned to the peak of the Yuan Dynasty. It is only a matter of time before it breaks through the virtual world. It is possible to

promote it to the middle and late stages of the virtual environment. The potential is not small. This may be the value of Chu Mofeng. .

Of course, it may be that he is particularly pleasing, or that other aspects of doing things are very good, but his potential is always good.

Xie You and Chu Yuncheng are only in their twenties. They are already in the late Yuan Dynasty, but they may not be more powerful than Chuhe. Because they are the children of the family, they have obtained excellent resources in all aspects from an early age, and naturally they are much faster than the average person.

Just as Ye Fan is not old, but it is higher than Mo Qi, and the same is true.

This also leads to another problem – the Chu family’s family!

Chu River is the son of Chu Mofeng. It is Chu Yuntian’s uncle’s generation in Chuyun City. However, because of his small roots, he is not equal to the strength of Chu Yuncheng’s uncle. In other words, Chu Mofeng’s parents and children, as long as the qualification potential is not worse than the Chu River now at least will be still in the early days!

Then consider that Chuhe is only in his thirties, like Chu Yuncheng Chu Yuntian, their father, at least forty or even more than fifty. After more than ten years and twenty years of cultivation, even if the generations are different, the gap will be huge.

Xie You combined with the Xie family situation, the core of the middle-aged generation, the weakest is still in the early days of the virtual, strong may later, and even have a virtual peak!

At the beginning of the virtual world and the peak of the return to the Yuan Dynasty, it is a breakthrough in a big realm, let alone the mid-term, late, and peak. To the back will only be the gap is getting bigger!

Finally, when it comes to the key figure Chu Mofeng, it is after the peak of the virtual world, it broke through the realm called “preserving truth.”

Once it breaks through the realm of existence, it is really a master-level powerhouse. It is revered as a “real person” and also known as a “master” and “master”. To say to what extent the realm of the realm is strong, or to what state it is, Xie You can’t say it.

However, as a rich family of rich people, he uses reality to compare – a real person can prop up a giant, a sect! The party that has always been able to let the imperial government officials dare not look down!
