

## First Strong 1781

Chapter 1781 - Rubbing the waves

Both Tong Xian Weng and Zhi Zhi looked at the vulture, but did not speak.

The vultures immediately noticed, and immediately voiced separately: "Speak for another place!"

He knows what they are worried about. This is the place of the Kunlun School. Although the opposite of the Zixiao ancestors left, it should still be secretly observing the situation here!

Just six people were here, and they did not complete the joint operations. They did not have to bear the nickname of cooperation with him.

Now other people are gone. If Zhisheng and Tongxian Weng are directly associated with the vultures, no matter whether others know the specific situation, they will not be famous for their popularity.

Tong Xian Weng and Zhi Yu both agreed, and immediately flew away from the scene.

The vultures are staring at the opposite Kunlun School and have a few glances. They are quite awkward, and finally they are reluctant to leave.

I don't know if he really has an idea for the Kunlun faction, or if he wants to use this way to warn the Kunlun faction not to take care of it, otherwise he will be remembered by his notorious vulture!

After a while, the vultures left separately, and Tong Xian Weng, Zhi Zhi, reunited at the peak of a snow peak.

"Vulture, what do you mean by us?" Zhisheng slowly asked, and did not directly open the door, but waited for the other party to say.

Who is vulture? He does not care about the principle of face, knowing that the two of them can not be opened, it is up to him.

“The two hardships came here to ambush. Of course, they have thoughts about Shen Lang. Now others are running. Other people are nervously going back. The two don’t have this worry. I don’t have this worry. We are a good partner. !”

“Why should we cooperate with you? You are a cultist, and the Tao is different!” Tong Xian Weng snorted.

The reason why he came is because the vulture said that he knows where Shen Lang will go.

But he still has to maintain the dignity of the right path, a little bit to do that and to establish the taste of the arch.

This vulture does not like to listen!

You have to face, I maintain your face, ugly is for me, but everyone is a person with a head and face, are people who have lived a lot of age, can not lick their noses again and again.

He is not vulture!

So his expression is a lot cold.

“If you see through money, you can regard money as dirt; you see through fame and fortune, you can indifferent to fame and fortune. And I even see through your morality and morality, you can not care about what you call a decent evil!”

“You are called Tong Xian Weng, I am called a vulture, are you nobler than me?”

“I am here to get the ancient secrets of Shen Lang; are you only trying to get his chess skills? You can’t be a righteous person because you are a decent person.”

The words of the vultures said that the child fairy was awkward.

In the past, nothing else, but in this case, they have the same purpose as vultures, and they are essentially the same.

To say that vultures are evil agents, they are also evil agents.

Zhimin saw that the two of them had picked up and were busy playing round: “Everyone’s purpose is the same, they are all for one thing, so don’t care too much.”

Then he ignored so many faces and asked him straight out.

“Vulture dude, you said that you know where Shen Lang will go, is this true?”

The attitude of Zhisheng makes the vultures more satisfied.

He can’t do anything alone, he must at least pull them both, only to have a chance, preferably one or two more.

Therefore, he just slandered the child, that is, to express his attitude, not because they have two people, they will decide what he is like.

Of course, he will not just want to revenge his friends!

Vulture is to lead this action!

Now that I don’t know how to be in the circle, it means that the service is soft.

“Of course! You are a decent person’s thinking, it is more difficult to guess his next step. But this child is very hot-hearted, more like a evil person like me, so listening to me, certainly not wrong!”

Tong Xian Weng is still a bit unhappy, but he has not spoken any more.

At this moment, he exchanged his eyes with Zhimin and wanted to see what the other person meant. The value was not worth working with the vulture.

Since Zhisheng has this nickname, it is still a bit wise. Even if he plays chess and strength is a little worse than Tong Xian Weng, there are some aspects that he is better at.

Just the vultures did not say straight, but the details in the words have already inspired and associated Zhisheng.

“Vulture brother, do you want to take us to Lijiang? Are you sure he will choose to go to Lijiang?”

When this came out, Tong Xian Weng was a little surprised, leaving a few mysterious distractions, but there were four!

The chances of Zifu Wonderland and Bailu Cave may be lower, but the most likely, it should be Helan City.

After all, before Shen Lang was the home of Helan’s ancestors, their superficial relationship was better than others, and He Lanchun also knew before Shen Lang.

Therefore, Helan ancestors will also appear in the ranks of this ambush, naturally it will make Shen Lang very hateful.

The betrayal of the enemy is not as good as the betrayal of passers-by, the betrayal of passers-by, not as good as the betrayal of friends.

This is human nature, because the expectations are not the same.

Although Shen Lang did not show anything, but as the vulture said, this child is very heart-wrenching, certainly will not let go of the Helan family.

As for the Lijiang River, Yu Yu is a generation of women, and he did not have a separate relationship with him. It should be said that it should be the last possibility.

The vulture is also a bit surprised, but he is surprised that Zhisheng actually guessed it!

He originally wanted to keep this suspense, because only in this way can they follow.

But now that Zhisheng has guessed it, he has to deny it, and he must find another support point, but it is not convincing.

So the vultures are also directly acknowledged.

“Yes Lijiang will be the first stop of Shenlang!”

“You may think that Helan City is more likely, but don’t forget, just now the old man Helan took the initiative to take off the mask, and the attitude behind it is different from us!”

“Shen Lang is so embarrassed, I don’t know what method I have, I know the identity of all of us. Under such circumstances, before he did not disclose it, he took the initiative to take off the mask and showed sincerity.”

“Lijiang is not the same. Originally, they were the same as the Kunlun School. They have already made an appointment in Gaochunqiu. Shenlang is going to help them. The result is that the old woman is colluding with others and wants to harm him. Not angry?”

“And everyone can see that the old man of Helan did not deal with the meaning of Shen Lang, obviously brought by the Yu wife. This will make Shen Lang even more annoyed!”

“Oh, you think a woman, he won’t kill?”

The analysis of the vultures immediately made Tong Xian Weng and Zhi Zhi feel very reasonable.

Chapter 1782 - Absolute freedom

In the vultures, when they analyzed that Shen Lang would go to Lijiang, the four people who left first left each other and rushed to their own family.

Happy old ancestors and Lu You ancestors are very depressed, did not expect that Shen Lang did not get it, but instead sold the origins of Bai Ludong and Zifu Wonderland.

If Shen Lang has not returned before they have gone, they will kill their own door. It is really a sinner.

Yu Yu is still very embarrassed about Helan's ancestors. If it weren't for her greed, there would be no problems in Lijiang, and He would not be tired of Helan City.

Helan's ancestors are also very entangled. He wants to accompany Yu Yu to go back to Lijiang. Even if an old face is worthless, he can help resist it.

But he is the backbone of the Helan family. At this point, no matter what the relationship, you should also take care of your family.

On the occasion of their different minds, Shen Lang took the dog \*\*\*\*\* and the elk and returned to the other side of the Kunlun Mountains!

He sent it directly to the snow peak that had been transmitted by the scorpion ancestors.

There is a restriction on the transmission of the Kunlun mirror of the Three Realms. It is a place that must be visited in order to be successful.

So no matter what Helan City, Lijiang River, Zifu Wonderland or Bailu Cave, Shen Lang did not know where it was, and did not go there personally.

What he said just now is to discuss the dangerous scene. If the landscape meets, it does not imply that they will kill their nest.

Originally he had to leave, there was more choice, but because there was still an elk, it was the place to come with him.

The elk is now easy to use, but it cannot be regarded as a confidant.

This old fox, if not forced to do anything, is impossible to obey the command. If you can't accept it, you can't treat it with sincerity.

Even if he can now trap him as a slave, Shen Lang thinks it is a hidden danger.

Although Elk does not dare to move him now, if one day, he is hit hard, weak, and stunned. The elk may also control him to lift the ban!

Now because the time is still short, the elk has not thought of this layer, or knows enough about the strength of Shen Lang, and dare not act rashly.

He is not convenient to do it himself, but when he encounters six or seven strong enemies like today, it is a heavy blow that can release water and cause the waves.

Once there is a chance to reverse, the elk will definitely suffer!

For such a person, Shen Lang does not want to leave him around, then it is a wolf that is unfamiliar.

For a while, the three great ancestors who met the first wave here needed the elk to be a thug.

It is no longer necessary for him to play this role.

The three men took two and let go of a momentum; they just received two more, and they showed their muscles in the six-seven square horse show.

They will hurry to go back to their own insurance, and it is unlikely that they will join forces to ambush him again.

And these news spread out, even if there are other people who want to move him, it will definitely be measured first. The three great gods are easily broken by two, and they are less than four or five. Do you dare to go out?

So Shen Lang does not need to bring the elk here.

At this moment, I saw everyone appearing on the snowy mountains before. The dog \*\*\*\* has no doubts and completely obeys the arrangement of Shen Lang.

The elk was carefully asked: “Master, are we going to overthrow their nests? First, hit Helan City, or Lijiang?”

He was very afraid of death before, and his opponent had seven great gods. He had no confidence at all.

But now it is going to attack those martial art, and with the three of them teamed up, they are completely scared.

Minjiang made an appointment and secretly attacked, not to mention Helan old ghosts. These two should be the most hated by Shen Lang, and he hates it!

Shen Lang shook his head and said directly: “You don’t need to follow me anymore.”

“...”

The face of the elk has changed. Immediately, the ginkgo leaf of the comet is presented, and the ring of his storage is also presented, and the mark is immediately erased.

“Master, I don’t carry much, but I am loyal to you. Just go back to Ginkgo Valley, I can offer more offerings!”

“Which one do you want me to play, I will fight which one, I will not ask more questions!”

He thought that the Shenlang bird had to bow, and he had to kill him. He quickly loyal, and he almost fell down!

Comet Ginkgo biloba, storage ring, etc., of course, is refreshing, because after being washed away by the waves, people still take it away, it is better to take the initiative and show sincerity.

Elk also knows that his attitude toward Shen Lang was not friendly enough, so this time not only loyalty, but also try to make his eyes, expressions, etc., express sincerity.

Shen Lang glanced at it and did not pick it up.

In order to show sincerity, Elk directly suspended the comet's ginkgo leaf and storage ring in front of Shen Lang, and then he was also respectfully waiting.

If Shen Lang does not express his position, he estimates that he really wants to kneel down.

Shen Lang is actually quite speechless.

He is going to give up the elk, but after all, the elk is really doing the "hands-on" role, and after being banned, it also maintains the attitude of the slave.

He does not want the bird to bow, this is an equivalent transaction, let the deer come out, that is, he wants to be a thug, that is the transaction that spares his life.

Since the other party has done it, he does not want to leave the elk as a slave, then he can be generous to return him free.

But look at it now, if he really said that he would give the elk freedom, let the elk leave.

It is estimated that the elk will be like the ancestor of the red mask before, and he always suspects that he will sneak into the assassination.

In this way, instead of accepting the deer's offering, it is easier for him to feel at ease.

Shen Lang reached out and took these two items.

"Okay, you are very diligent, not lazy, no fish in the water. I am ready to give you freedom!"

After that, Shen Lang lifted his soul ban and gave the elk freedom.

Anything that is said may make him suspect that only real action can reassure him.

When the elk listens to the words of Shen Lang, of course, he does not believe it. The instinctive feeling is that he wants to hang him.

The result was immediately lifted, and it was like a dream.

The night before in the tower, I suffered from despair, helplessness and fear, and made him feel that he could take everything for freedom.

Being able to come out of the tower is the greatest freedom.

Although the transaction with Shen Lang to let him act as a slave, the same is to pay for freedom, but also to work hard.

But at least it will not be suppressed at all times in the tower, and there is always the risk of being refining. As long as you maintain respect for the master of Shen Lang, you are still relatively free.

As for the restoration of the original, complete freedom, he knows that it is impossible. Unless he has worked hard for ten years and eight years, he has enough opportunities to serve.

I didn't think of it, it was such a fast time, but only one day, Shen Lang gave him freedom!

Whether it is a slave or a thug, it is only one day, most of which are still on the road, and there are really two battles.

In these two battles, he only played a role in the production, decisive or relying on Shen Lang himself.

In this way, actually put him?

Chapter 1783 - Inside the tower

Shen Lang has read his memory and is familiar with the way the elk is thinking.

At the moment, I naturally know what he thinks, and he intentionally added one sentence.

“What? You have been convinced by me now, deeply admiring me, wanting to be my servant for the rest of my life?”

“No, no, I don’t... No, I don’t mean this, I mean...”

Elk quickly denied it, but felt that the denial seemed to be disrespectful and immediately denied the previous denial.

“I am deeply admired by the host, and I am willing to be a slave. Only Ginkgo Valley Zheng Zheng and Zheng Songlin have been damaged. I still need this old guy to go back and host the big picture, so you can give me freedom, I am very grateful. !”

Under the gaze of Shen Lang, the elk has reorganized such a good wording.

“Go! Don’t wait for me to hesitate to repent.”

The sentence of Shen Lang, let the elk quickly agreed.

Although he regained his freedom, he does not have to worry about being destroyed at any time. However, the means of Shen Lang still made him jealous, and there is still a super beast that is not inferior to him. It is hard to come, nor is it a problem.

This is already the ecstasy of his ending. Of course, he doesn’t mind pretending to be a grandson for a while, and he dare not tail his head.

After thanking Shen Langdao, he nodded to the behemoth beast that had been fighting together. He said hello and then quickly left.

Even so, he still maintains a high degree of alert, fearing that Shen Lang will later re-enter him into the tower.

“You just let him go like this?” After watching the elk go, the dog \*\*\*\*\* asked.

It also thought that Shen Lang would kill the elk. Although he didn’t know the details, he felt that the elk was not good.

Shen Lang smiled and said: “It doesn’t matter. People still have to be a little creditable. He has already paid his price, and I have been punished by him.”

“Where are we going now?”

The Emperor’s behemoth also asked, he did not care about the elk’s end.

Regardless of who Chao Lang wants to deal with, how to act, it will follow the arrangement.

Originally, this time I came to challenge the God of Light. As a result, I saw so many situations that I realized the gap and realized that I could not dominate the world.

It will not rush back to the world of giant beasts, but try to learn as much as possible.

At least, there are waves, so that it feels safe and secure.

Don’t even need to brain!

“Back to Yaochi!”

“Back to Yaochi?”

The Emperor’s behemoth is very puzzled, but it has nothing to do with it. Anyway, it does not need to understand so much. Since Shen Lang will decide this way, there must be his truth.

“Before returning to Yaochi, I will check it out and see what is going on.”

Shenlang's inventory harvest, the first thing to look at is the tower!

There are three great gods in the tower now, and there is a corpse fragment of the god.

If this is completely refining, the effect will be a very amazing remedy!

Shen Lang doesn't need a thug now, of course, it won't be a deal like an elk. What he needs is the items on them!

The magic weapons and resources that these great gods have, in fact, remain in the tower of the tower, and will not be wasted.

For example, the elk and his comet ginkgo leaves, as long as the time given is enough, the comet ginkgo leaves will refine and become one of the ingredients of the drug.

These are used only to make the effect of the drug more powerful.

However, like magic weapons, spiritual veins, etc., are rare things, it is a pity to take refining.

In the tower of the tower, the two who were first earned, like the elk, felt the pain and despair in it.

The disintegration came in and blew them all, and both of them were honest.

But the ancestors of the blue mask are newcomers, or at the stage they have experienced.

The two men gave up, and they also said their experiences to the blue mask ancestors. For those who do not believe in evil, they have been repressed and refining for a day, and they are too lazy to waste any effort.

They chose the same way as the elk, trying to absorb the energy and try to cultivate as much as possible to counter the risk of refining.

The ancestors of the blue mask could not convince the three of them to join hands. With the power of oneself alone, it was naturally impossible to break the tower of the tower, but it only contributed a part of the nutrients to the tower.

Just as he was frustrated, he heard the sound of Shen Lang.

“Several ancestors, are you still used to it? Artifacts tower, not everyone has the opportunity, qualified to come in, you are stunned!”

Although this is a fallen word, it is a spirit that stops in the ears of all three of them.

“Shen Lang! If you have the ability, let me go out and fight with me! This is a hero, so what kind of hero?” The blue mask ancestor immediately stirred up.

The other two ancestors, who have already passed the stage of anger, are bitter in this place, and they are still uncomfortable every day. They feel that they have spent a long time.

It’s hard to wait until Shen Lang communicates with them. If you miss it, I don’t know how long it will take next time. I don’t know what will happen next time.

So I immediately asked about it with a different attitude.

“Shen Lang... Daxian, we know it is wrong, we don’t dare to offend, can we give us a chance?”

“As long as we let go, what kind of conditions do you want, we can promise!”

The ancestors of the blue mask are a bit disdainful, and they feel that they are not rude.

But the two of them didn’t care much about it. After waiting for a long time, it was a little bit moving. The result was that half of the body came in, and then a lot of debris came in.

This has fully explained the strength of Shen Lang. Soon after, they received an ancestor of the great realm, and they were even more desperate.

This shows that people want to collect them, it is just like playing, it is not an occasional, not a sneak attack, but an inevitable result!

If this is the case, then let's take it soft.

They have seen it, the elk has gone out from here!

The elk has paid the price and they all know it.

It is unacceptable to become a slave to the sinking waves, but... is there a chance if you can go out?

If you can't go out, then there is no chance.

For this they are so good at the moment and want to communicate with Shen Lang.

"What are you doing? If you have the ability..." The blue mask ancestor felt that it was impossible to be pleading. It seemed to be ruthless and weak. He still had to slap the ground and use the radical method to face it.

As a result, the words were just spoken, and they were attacked by the two ancestors!

"What are you doing!"

The blue mask ancestors quickly defended and then whispered.

"We are all in jail together now. How can we be guilty? We must unite in order to have a chance to go out!"

There is limited space in the tower, and he is really nervous.

The two ancestors, after pushing him to one side, immediately offered to Shen Lang.

“Shen Lang Daxian, this guy is disrespectful to you, need us to kill him?”

Chapter 1784 - Great harvest

The two of them are a group, and naturally they can't kill a partner to be loyal.

There is a later one, everyone wears a mask, no need to know who it is. This guy has a bad attitude, just can kill him to show Shen Lang.

They are waiting for such an opportunity!

The old ancestors of the blue mask, after listening, were mad and speechless. I don't understand why the gods, the ancestors of a sect, will become so depraved.

However, the situation is stronger than people, two others, he only has one, and then he can only surrender if he is unhappy.

“What valuable things do you have on your body? Take it out and see it!”

The sentence of Shen Lang came in. After they heard it, they were all a glimpse.

But immediately it was a joy in my heart.

If you just want them to hand over the items, you can exchange them for the exit from the tower. It is still very cost-effective.

Compared with the elk as a slave, this is much better.

As long as people are alive and free, then everything can be regained!

For a time, both of them took the initiative to present their belongings.

The disintegrated god, the objects on the body are also absorbed in the same way as the fragments. This is what they have collected before, and now it is also presented together, try to increase their weight.

Only three items were presented, and they felt that they were not enough. The two men looked at the ancestors of the blue mask.

The old ancestor was very unwilling and unhappy about being brought in by Shen Langkeng. Where will I be willing to hand over all the items?

But now, in the face of the two gods, he has no way.

If he persists in the end, it is to fight with both of them.

In this tower, there is limited space, and many of them cannot be unfolded. That battle will be a life and death fight!

And the two are advanced, and the environment here can be understood a little more, and even if he is dead, there is no way.

Besides, their three guilts are sure to be seen by Shen Lang.

Now that the other side is pressing, he can only surrender.

“You will regret it! He will take all your belongings and will not let you go out!”

The two ancestors ignored it, but together they took all the items of the four people to Shen Lang.

“Shen Lang Daxian, we are very sincere. Before we were wrong, we have been deeply introspected.”

“Working hard for you.”

Shen Lang directly ingested all four.

This discourse makes them both busy saying: “Not hard, not hard.”

Then they waited for the waves to let them go out.

Shen Lang did not say anything again...

After they were repressed and refining, these items will slowly rot, and the waves can still be thrown out by themselves.

It's just "hard work". They help them to give it up first, saving him trouble.

This is not a condition, nor does he promise anything.

After waiting for a long time, Shen Lang did not make any noise, and did not ask them any requests.

Let those two hearts start to feel a little embarrassed, will not forget it?

what is this? Pit people!

"Oh! Look at your fart, know it? This will not let you go! You are ready to die here!"

The blue mask ancestors could not help but be satiated by the catastrophe.

Although his things have also been lost, but this was forced by both of them. Now Shen Lang took things and ignored them. It was the two people who were even more unhappy. He had a little more pleasure.

The two ancestors, however, had no temper and then argued with him.

I thought that Shen Lang had already had a slave servant and did not need them, so I only asked for some resources, so I could exchange the freedom.

I didn't expect Shen Lang to do anything!

Take them away, people are not let go, just leave them here!

As for the irony of the ancestors of the blue mask, they are too lazy to pay attention, and soon he will realize how to die here, what a terrible consequence...

After Shen Lang got four items, he immediately collected the tower.

There are no outsiders now, and Shen Lang is entering the space of heaven with the dog god.

Put the tower in the sky book space, you can refine them at a hundred times speed!

Although he is not in a hurry to refine the medicinal herbs to enhance himself, he is not sure what the limit of the tower can bear.

There are already three strong people in the realm of the gods, and after all, it will be a time bomb, refining them as soon as possible.

When you want to collect people again next time, don't worry that they will break out of the tower under the joint.

In the space of Tianshu, Shenlang is equal to disappearing from Kunlun Mountain, and there is no need to be alert.

Back here, the dog \*\*\*\*\* naturally began to rest and cultivate.

Shen Lang is starting to count the harvest.

He now receives seven treasures such as rings and bracelets.

One of them is Zheng Xing, the contemporary head of Ginkgo Valley. It should now be called the head of the previous generation. The other is the prince of the sacred yang, and he gave it to the ancestors of the sable, but he was finally given a reward.

These two are all in charge, and this time they went to the Yaochi event, and there are many resources inside.

Perhaps they all want to buy at the Yaochi event, or bring something to sell.

In these two, Shen Lang got a total of two spiritual veins, seven thousand Yuan Lingshi, and some fine Lingshi.

Basically, they are preparing Yuan Lingshi to go shopping, and the fine stone is only used when it is scattered.

Because of the trading of the Yaochi event, so many Yuan Lingshi were acquired.

But because they went to the Yaochi event, they did not carry other medicinal herbs, Tiancaibao, and magic weapons.

In general, Shen Lang is still satisfied. It is equal to opening the treasure chest for the Kunlun faction and getting a reward of several thousand yuan.

Of course, this is also because the ancestors of the Ziyan wanted to quickly send away the “God”, fearing that he would rob the Kunlun faction, so no matter how much there is, take it out and send it away.

The other five are the ancestors (including the elk), and their things are much simpler.

In their capacity, they are basically rampant, and they don’t need a magic weapon. If they don’t fight in advance, the magic weapon of each sect will be sealed in the sect of the sect.

Yuan Lingshi, medicinal herbs, medicinal materials, etc., they will not be prepared, there is basically a little spirituality.

Lingmai may also be based on the relationship of the Yaochi event, considering that there may be deep good things before they are carried.

Five people add up to there are only nine spiritual veins. The elk had two spirits before, but in order to redeem the comet ginkgo leaf, it was given to Shen Lang.

For the magic weapon, there is only the comet ginkgo leaf of the elk. This is not his own. It was taken away by Helan's ancestors, and he was taken out and redeemed.

Nine spirits, seven thousand yuan Lingshi, a number of fine stone, and a magic weapon. And seven storage magic weapons.

For Shen Lang, it is also a huge gain.

Before Shen Lang treated the dog god, he gave it the spirit, and now everyone's relationship goes further. Shen Lang once again gave it two spiritual veins, let it stay in the space to cultivate and absorb.

The dog \*\*\*\*\* is not very polite with Shen Lang. This thing is really very good, and it is difficult to get it by itself.

This is complemented by the fact that it uses the resources of Shenlang to enhance its strength. And it is stronger and can better help and protect the waves. That way, you can get more resources...

Chapter 1785 - I didn't expect that I would come back.

The dog \*\*\*\*\* has confirmed that it is reliable. In the light god, it is also a life together, so Shen Lang assured that it would cultivate in the space of heaven.

After he finished all the harvests, he reappeared on the snow peaks.

Shen Lang is not a joke, he is really ready to go to Yaochi!

Before the six or seven people, Shen Lang was unhappy with them, but it was not very big.

Because these people will come to ambush him, it is entirely in his expectation, at most, Helan ancestors, Tong Xian Weng, Zhi Zhi are three accidents.

However, it is not difficult to understand. To put it bluntly, it is also the friendship of Yao Chi, which is incomparable with Gao Hanqiu.

On the other hand, the reason why Shen Lang did not come quietly and quietly, but chose to appear from the Kunlun side, that is, they want a positive wave of them.

The purpose is not to kill them, but to spread his voice through them!

This is the same purpose as he would let go of the red mask ancestor.

There will be ambushes of nearly ten enemies on the scene, which is destined to be confrontational even if he has three great gods. It is already a huge gain to be able to kill one and receive one.

But in the presence of so many great gods, it's a chance to truly make a name for yourself!

Yaochi event, of course, more people, Shen Lang has also used the opportunity to complete the famous. But after all, it is a public event, everyone is harmonious and happy.

This time, by demonstrating strength through killing, it is another angle and another way to make a name for itself.

This is an anonymity.

So according to the plan, his purpose has been reached. After these people leave, the news will inevitably spread.

The more people there are, the harder it is to hide the message.

Only one person left before, but it is because he still has two partners, and he must give a confession.

Otherwise, let him go to the elk, will he say it to the outside world?

But now six or seven, you can't do it, you don't say that others will say. Instead of being vilified by others, it is better to beautify yourself.

And so many of them, have not been able to catch the sinking waves, to beautify themselves, can only say the strength of Shen Lang is stronger!

The power of the enemy can prove your strength!

Demonizing dwarf enemies can only prove that you are weaker.

Strengthening the enemy can make your failure seem less embarrassing.

Based on this analysis, even if Shen Lang said that "the mountains and rivers meet each other", there is a certain meaning of puns, but they will not really kill them.

He wants to be famous, to be anonymous, but not to be a bad name for a evil devil!

Going to Yaochi, because there is a relationship between the mysterious woman and the fairy goddess, there is a relationship between Fan and Xue, so that the attitude of Xuefei Snow Gate is different.

The last time it was snowy, it was a pleasant cooperation.

This time, he can pass the sound of Yao Chi.

This of course is to use Yao Chi's signboard, but Shen Lang thinks that snow and snow should not refuse.

Because it is not a unilateral use in essence, but a win-win situation!

The current Shen Lang is not only famous but also hot, and it is the focus of everyone's attention.

He made an appointment through the cold autumn, not other people. He is trusting in the cold autumn, and he is not very polite, so let him be busy.

However, in the eyes of outsiders, Gao Hanqiu has a relationship with him, and his attention to the Gao Hanqiu and Qiulin swords is an improvement.

Yaochi is the same.

Yaochi has always held a grand event, which is also a mutual achievement. The grand event will also raise the status of Yaochi.

Now Shen Lang sent from Kunlun, not letting the ancestors of Ziyan speak out, but went back to Yaochi, which is tens of thousands of miles away, to let the snow non-snow come to speak.

This is the trust of Yaochi, and it is also proved to the outside world that Yaochi is a credible martial art.

Shen Lang is a person coming out of the space of Tianshu, preparing to use the Kunlun mirror of the Three Realms, once again crossing back to Yaochi.

As a result, he just appeared on the snow peak, and immediately felt that the surrounding environment was a bit abnormal, he seemed to be trapped in a whirlpool!

Shen Lang immediately understood, this is entering a trap!

This is where someone appears in his place, controlling the field in advance, so when he comes out, it is in the trap of others.

Nowadays, this field will make him feel like a whirlpool, because in addition to strong control, he has always maintained liquidity, which makes him more and more restrained.

There was a figure in the brain of Shen Lang.

Elk.

He crossed the platform from the front of the Kunlun faction, only the dog \*\*\*\*\* and the elk knew.

It is impossible for the dog \*\*\*\*\* to deal with him, and it is still good to stay in the space of the heavenly book, only to leave the elk before.

There are many reasons for the elk to want to retaliate.

Zheng Yi, the local head of Ginkgo Valley, and Zheng Songlin, who is represented by the younger generation, were all killed by Shen Lang's nuclear explosion.

Zheng Hao's storage ring was also taken away by Shen Lang.

The elk himself was taken into the tower of the tower and was tortured overnight. After that, the soul was sacrificed and the dignity suffered trampling.

In the end, although Shen Lang gave him freedom, he actively gave the comet ginkgo leaves and all other items.

It is not at all surprising that these add up and let the elk take revenge.

What Shen Lang did not expect was that the elk had already tried the pain of the tower, and he also saw that he had ingested four great gods!

That means that he can accept the elk, even if it relies on the help of the sable ancestors, but it is not completely lucky, still has a very large control.

And the elk is very clear that there is a super-beast \*\*\*\*\* behemoth beside him, and it will be able to do the elk.

Before that, he also actively released his soul brand, and he was free to let him go.

Why is the elk still coming back?

This is almost a death!

When Shen Lang thought of the elk, his eyes also saw the shape of the elk!

The elk was on the ice and snow not far away, so he looked at him in the whirlpool field.

“I didn’t expect that I would come back? Lord – man!”

The elk was smug and satirical and called “master” again.

When he was called “Master”, he kept his expression and tone, and he kept a respectful attitude, so as not to appear to be sincere enough to make the waves unhappy.

Now this voice is undoubtedly a counter-word, it is clear that he is revenge for this!  
Explain how much the slaves feel about his shame!

“I have already spared you a life. You actually have to come back to die. This is really not thought of.”

Shen Lang responded faintly, and he also let himself experience and adapt to the surrounding fields.

However, I immediately felt that the field control of the elk had been carefully considered, that is, in a whirlpool flow, to avoid his chance to leave.

Because of the current situation, he must be uplifted, always facing the other side’s attack, a slack, or change, will be directly killed!

Chapter 1786 - Ambition

Many times, Shen Lang is playing the other person’s unprepared and achieving the effect of surprise.

In this world, he is an unknown and unknown soldier. Now these are the old predecessors who have become famous for one or two hundred years. How to calm down, but also subconsciously underestimate the enemy.

This is how elk has eaten.

But the elk has suffered so much loss, and has learned so much with Shen Lang. Can you have no lesson?

So now this time, the opposite is true. It is Shen Lang who has been attacked by him!

At that time, he offered all the property, another sincere and fearful, and left with caution, but still left a trace of heart here!

With the strength of the great realm, he can sense the situation here in dozens of miles.

But Shen Lang... Even if Shen Lang is not a great god, the super beast is comparable to the great god, and it is also possible to perceive his feelings.

Therefore, when the elk left, the front kept the sensory sense, which was covered in the form of “the fear of the attack and the assassination of him.”

After going far, it is to take up the gods.

But he is mindful that there is no space fluctuations in this concern!

God's knowledge is active and will naturally be discovered by others. And now, it is passive, there is space fluctuations, you will feel, if you don't, you will not be aware of it.

When the elk was released by Shen Lang before, it was in the space of Tianshu. Although it was only for a while, he still felt the unusual situation.

And before I came along with it, I felt another situation.

This gave him a reference and comparison, and he already understood.

The disappearance of Shen Lang, everyone thought it was a situation, but in fact it was two other different situations!

Like him and the Kunlun School, for the first time, they encountered a wave of space. Just like the previous one, there was space fluctuation. It was a magic weapon to achieve a kind of space transmission.

The other one is like the disappearance of the previous wave, with the help of the magic weapon, disappearing directly in place, and then into another space.

One is to cross to other places.

One is to disappear, and it is still in place.

With a better understanding, his confidence is more abundant.

In the life of his elk ancestors, why have he been so humiliated?

He also found that Shen Lang intentionally let go of the enemy and let everyone spread the news. This is a great help to the reputation of Shen Lang, and the reputation of his elk is greatly damaged!

People are always hurt and forget the pain.

When in the tower of the tower, the elk felt that as long as he could let him go out, he would do whatever he wanted. Even the sacrifice of the soul, the slave of the swell, is better than being tortured and killed in the tower.

It's better to die than to live.

After he came out, he only experienced a day, still within the range of tolerance.

But after Shen Lang gave him freedom, he felt that it was too humiliating before, and big deal is just a death!

Life has reached the bottom, what else is it afraid?

Like the big \*\*\*\* who blew himself into pieces before, it was nothing, and he died.

The worst result is to re-intake the tower.

There are still three partners in it. If you go in, you won't be alone. Maybe everyone will get together, and there may be no need to break the tower.

These thoughts made him unwilling to leave, and he did not go far, but waited patiently.

If Shen Lang is really using the magic weapon to cross and leave, no matter where he goes, he can't track it in an instant, and he can only admit that he is unlucky.

But if not?

Shen Lang will choose to return to this snow peak, instead of other places, choose to let him leave here, obviously there is a little bit of want to open his taste!

If you don't leave, it's not likely to find a transmission array back to the Kunlun faction – you should use his hatred to go to the Kunlun school and let him take the lead!

Therefore, it is concluded that Shen Lang may disappear in situ and enter the space he has seen once.

There is something magical about that space, and he is not known for the time being.

But that seems to be a lot of space, and living things can survive, you can enter at any time, giving people a feeling of stealth and disappearance, it is a very good way to save lives!

Elk wants this!

Elk also wants to start the secrets of the ancient relics treasure chest!

Elk also wants to take back his own comet ginkgo leaf, Ginkgo Valley baby!

Elk wants to take that super beast as its own!

He has to be all!

This enthusiasm, coupled with the heart of vengeance and humiliation, made him fearless of the waves and the emperor.

He waited patiently.

According to his calculations, Shen Lang is just to open him. Then he leaves far, and they should leave.

The result has not been waiting for space fluctuations, which makes him feel that another possibility is great.

After a while, he thought of an excuse. If Shen Lang was still there, he said that he remembered the ginkgo valley and treasures, and wanted to dedicate it to Shen Lang.

When he came back, he found that there was no one in the place!

No space fluctuations, no transmission left!

Looking at the traces, it is not like entering the cave of the snow-capped transmission array!

That answer confirms his conjecture.

This kind of ambush, he has already had it once, there was a sable ancestor before, and the other one, but the result was that Shen Lang used an explosive magic weapon to blow everyone away, what to do with the mountain peak waterfall All of them were flattened.

This time, he can't repeat the same mistakes.

So after further determining the specific location, immediately arrange the strongest field and completely block the surrounding!

He has confirmed that Shen Lang is appearing in situ, so there is no need for a large range, the smaller the range, the easier it is to control, and the effect is more powerful!

The former blue mask ancestor wanted to transfer the field through the iron rod, and Shen Lang was done in the same way, for this reason.

Now the scope of his control is also within a few tens of square meters. For a strong \*\*\*\* like him, it can be handled with great ease.

There have been experiences of failure, and the elk has made it impossible for him to do anything.

I think that there are no chances for the sneak peek, so he is not a static field, but a whirlpool.

The vortex is in a state of high-speed impact.

When people enter it, they are not only blocked, but also a strong attack.

Of course, this will also need to be more expensive.

However, the elk has been fighting for this life. If it is not successful, it is very likely that it will catch the tower and suffer with the hard-working brothers. It does not care about consumption.

This time, he actually didn't know how long to wait.

Soon after, Shen Lang appeared, because it was known that their enemy was in front of them.

This time, Shen Lang opened him. It may be that there are other arrangements, it is difficult to say.

Elk was prepared to insist on three or two days.

Unexpectedly, Shen Lang really appeared in the same place!

This made him happy and made him very happy!

Chapter 1787 - The villain died in words

For Shen Lang, he said that he came back to die, but the elk is very calm.

Because of these circumstances, he is expected to arrive. In his opinion, Shen Lang is very scheming and will use various kinds to interfere with him.

As long as he is not moved, the tricks of Shen Lang will not work.

At this time, the elk is shrinking the scope of the field, narrowing the tens of square meters to a circle around the sinking waves.

Originally dozens of square meters, the scope has been very small. But now that Shen Lang has come out, it has already been determined, naturally no need for more waste.

He narrowed the scope of control, and naturally increased the power by a few.

Elk himself also controlled the field and reached the limit. It is necessary to prevent Shen Lang from fleeing.

This time, he has the confidence that there is no chance for Shen Lang to enter the mysterious space!

“Give me back the comet ginkgo leaves and return the things from Ginkgo Valley to me.”

“Hand over the secrets of the ancient treasure chest! Deliver the magic weapon of the delivery!”

“Hand over the magic weapon that you entered into the mysterious space!”

“Hand over the tower!”

Elk followed by one sentence and said that when he was in the tower, he couldn't help but feel a little excited.

He is very clear that there are three ancestors of the great gods in the tower, and there is a body of a great god.

According to the previous Shen Lang told him that those will eventually be refining into a remedy!

At that time, he was a man, and he had a medicinal herb. Now there are four, is it made into four medicinal herbs, or is it a drug that is four times more effective?

No matter which kind, it is a huge harvest, and if you take it in the future, you can make him grow stronger!

Their ancestors, to this realm, this age, basically life will not have much change.

Even if you can live more than a hundred years, two hundred years, the final should be the state of the cold autumn.

And many people can't live for so long, which means that they can't be upgraded anymore.

Like the ruins that they have encountered once in a thousand years, they are only one big opportunity in this life.

This is why everyone's enthusiasm for treasure chest secrets, because the ancient treasure chest is still unknown, the unknown is full of expectations.

Perhaps there is something that has never been seen before, can help people to advance?

Now, the Shentian Tower of Shenlang has such an effect. How can the elk not be excited?

When Shen Lang heard his words, his expression began to cool down.

So far, Tianshu Space is his most mysterious and most dependent magic weapon!

Not only is there a magical time, but it also determines his chance to save his life in the most dangerous time.

Knowing this secret, there are only his women.

Now there is an additional dog \*\*\*\*\* who has experienced the test of life and death.

It was inconvenient to talk about the conditions of the ancestors and the elk in the tower of the sky. In the space of the sky, in a few seconds, there is time to talk about conditions, and you can directly carry out the raids.

But at this point, the elk has been aware of it, and this is already squatting!

Although for a short time, he does not necessarily realize a hundred times. But it is very likely that this time back, mainly to the space of heaven!

Before Shen Lang really thought that everyone was an equivalent exchange, Lulu's did a thug, completed two attacks, and upgraded the strength of a great \*\*\*\*\* for his platform, which was enough.

So at that time, I was sincerely willing to give him freedom and let him go.

At that time, I felt that this old boy was not very good at heart. It was inconvenient to take him around, but he did not expect to let him go. He would immediately kill a carbine to attack.

Now, he is really moving to kill!

Elk must die.

“Want to kill me? Do you have this qualification now? Blame only blame yourself for being too arrogant!”

The killing of Shen Lang was not concealed, and the elk was clearly felt, so it was also unceremoniously degraded.

At the beginning, he was in the tower of the tower, and Shen Lang was so condescending. It was your honor to be a privilege and a chance to live.

Now it is his turn to experience this feeling.

This is the thrill of revenge!

Elk feels very happy!

“Kids! When you put your income in the tower, have you ever thought about you today?”

“Now, I can give you a chance. As long as you offer your soul and be willing to be my slave, I can also consider giving you a chance to live!”

Shen Lang is a faint smile: “Do you know that in my hometown, there is a kind of trick called a movie. It is a common routine. When a traitor is arresting the protagonist, he does not kill immediately. The smug long story has given the protagonist a chance to fight back...”

“This is nicknamed – the villains often die from words.”

The elk is completely ignorant of Shen Lang’s, and he also feels that this is the taunting of him.

But he doesn’t care!

He has long flattened his mind, knowing that Shen Lang will irritate him.

But he is not moving!

“Whatever you say, now is my decision! I will only give you a chance. If you don’t make a decision and are willing to do my efforts, I will turn you into an idiot!”

“When I crushed you into an idiot, everything you have is mine...fuck!”

“What about people?!”

The humiliation of the sorrowful sorrow, enjoying the revenge of the elk, suddenly found that Shen Lang has disappeared!

This made him unable to bear the rough!

Immediately, he realized that he still underestimated the waves!

Underestimate the mysterious magic weapon!

He thought that like the transfer magic weapon, it takes a little time to start, but it is a secret start without any change.

But as long as he is under the strong control of his field, Shen Lang can’t move anything, and it is impossible to have another chance to start.

But people actually disappeared like this!

Once again disappeared!

For a time, he was depressed, resentful, cursing...

More is regret!

Why do you have to say so much? Although I have just had a very cool and revengeful revenge, but really like Shen Lang said that “the anti-death died more than words”, gave the protagonist the opportunity to fight back...

He regretted it, and he should have killed it in one fell swoop!

How much can be gained after killing, even if the secret technique is lost, it is also a real revenge.

Now it's cool for a while but it's a chance to lose real revenge...

Do not!

He is not a villain!

Shen Lang is not a decent protagonist!

He can't die more than words, and Shen Lang can't kill him!

Elk allowed himself to quickly clean up all negative emotions, calm down and continue to maintain a high degree of efficient field control.

From the previous Shen Lang quickly came out, he estimated that the space can only be a temporary refuge, can not stay long.

That means that soon the other party will come out again!

This time, he directly killed and said!

And... you must be careful about the waves and release the magic weapon!

Chapter 1788 - 3-party suppression

The reason why Shen Lang is not worried is because he has absolute confidence in the space of Tianshu.

The Golden Heaven Book has been merged with him into one, and one thought can enter the space of heaven.

He didn't have the first time to hide in the space of heaven, just want to find out and see how much the elk knows about his situation.

The elk guessed that he would return in the same place. This is nothing.

When I know the space of the deer and the sky, the killing of Shen Lang has already been clarified, so there is no need to delay anything with him.

After entering the space of Tianshu, Shen Lang is not in a hurry.

There is a hundred times of time inside, he can plan slowly, and the elk outside will be in a state of tension.

Shen Lang is now silently recalling it.

He has read the memory of the elk, but for a long time, many of his memories have not helped him. Naturally, they will not digest them one by one. If there is a need, they will search again.

Now is to search the memory of the elk and see what the elk is most concerned about!

The villain died in words... This is a spit and will continue to be used by the film, because it is not a bug. But after subduing the enemy, the verbal humiliation is indeed a very enjoyable thing.

Sometimes psychological and spiritual damage through speech is often more effective and more refreshing than physical attacks.

The protagonist is the same for the villains.

If the villain directly kills the protagonist, the play will not be played. The protagonist is the last villain, but it is also a killer in one fell swoop. It will be very cool at first glance. All such routines are very boring.

What Shen Lang is thinking now is to find out what the elk is most concerned about, so that he can make him more painful in spirit!

“What is the situation?”

Although the dog \*\*\*\* is practicing, but Shen Lang came in such a movement, it was still concerned, and immediately asked about it.

“The elk, the former human. I guess I have such a space, waiting outside, blocking the outside.”

This words immediately let the dog \*\*\*\* understand what is the situation.

For the elk, it is very indifferent, and does not understand this human being.

But now the elk actually murdered him after Shen Lang let him go, which made it angry!

“I am going to deal with him!”

Shen Lang shook his head: “Don’t worry, we wait a minute, he is just a moment of anger.”

He and the elk have been handed over. The last time they directly moved a nuclear bomb-level bomb, this time the other side will definitely be prepared, so let the elk stay for a while.

If you want to prevent the last nuclear explosion bomb, it will also consume the amplification. The more you consume, the easier it is to pack him.

“Can’t stand it!”

The dog \*\*\*\* directly stated.

It is not against the waves, but still has confidence in the elk. Now that Shen Lang was trapped and forced to return, it felt that it was more serious than the insult to it!

And it also knows the situation here, it has to endure for a long time, it really can't stand it.

After thinking about it, Shen Lang answered it.

“Let's go out! After you go out, restore the body directly!”

He said the situation outside.

The range of field control before the elk was directed at the piece that he disappeared. Then it's the exact lock, and then disappears later, it can be more accurate.

That is the size of Shen Lang's personal, the size of the Emperor's behemoth...

For Shen Lang is to go in for a while, for the elk, it is between the moment!

He is still annoyed with resentment and other negative emotions. When he receives these emotions and calms himself, there is a great change in front of him!

Suddenly, the huge body of the Emperor's beast appeared!

Before the Emperor's behemoths had appeared on the original form, they fought with them. When they rushed over, they directly smashed a mountain.

The body of this giant has now appeared, far beyond the scope of the elk field control.

And with the emergence of the Emperor's behemoth, there is a giant!

Although it can't be compared with the size of the Emperor, it is still huge compared with the average person.

The scope of his field control is the small piece that Shen Lang disappeared. It was originally accurate and powerful.

Now, it is just a matter of controlling a small part of the body.

Then it can't affect such a huge body, and if it moves a little, it will be out of his control.

Just like a magnet can hold a piece of iron, but if you come up with a hundred times of iron, the magnet can't be controlled.

This giant, of course, is Shen Lang.

When Shen Lang let the dog \*\*\*\*\* return to its original shape, he thought of this, and he also made his body bigger.

Daxian can change his body shape, and the beast \*\*\*\*\* can also transform into an adult shape. He is now transformed, and it is no longer a change in the gene that used to swallow the scorpio.

Of course, elk can also become a giant, but for them, there is no practical significance.

Shen Lang and the dog god, now presented in a huge body, is to directly crack his field.

At the same time, Shen Lang also released the killing warrior, which is changing quickly!

This is a super robot that can be as high as several kilometers. It is a super weapon aiming at killing battles. It is the effect of transforming now, and it is also very powerful.

Elk thought that he could still control the Shenlang. The most important thing to pay attention to was the Shenbo explosion.

He is confident that he can control it in time when Shen Lang takes out the magic weapon. As long as it cannot be blown up, no matter how powerful it is, it is equal to zero.

But he did not expect that Shen Lang would appear in this way.

I didn't even think that there are three huge guys...

The elk at the moment is like being surrounded by three mountains, and one is taller than one...

"you wanna die!"

The dog \*\*\*\*\* growled!

Just came out, even if I got the answer from Shen Lang, so now I don't need to order the waves, it directly attacks the past!

Shen Lang also ordered the killing warrior to let the target target the elk and assist the dog \*\*\*\*\* to attack.

And Shen Lang himself, is to take out the tower of the tower...

He didn't need to use it again, but the elk was in the tower of the tower, which would be a psychological shadow for him!

"Elk! You should understand Your move is not just to gamble your own life."

"And the foundation of your Ginkgo Valley for thousands of years, and all the lives!"

"You don't care about the lives of Zheng Yu and others, and don't care about the lives of everyone in Ginkgo Valley..."

"In the three or four hundred miles east of Ginkgo Valley, there is a village, where people live, don't you care?"

Shen Lang is also a person who wants to do this “more words”, but now there are dog gods and killing warriors, and with the deterrence of the tower, he does not need to be hands-on, have time to speak.

His words are also a sentence to defeat the elk’s atrium!

Elk does not care about the death of a Zheng Zheng and Zheng Songlin, but does not care about the destruction of the entire Ginkgo Valley.

The village and town he said is a very warm and profound place in the memory of the elk. It is his hometown, where his own people are!

Chapter 1789 - Threat

In the memory of the elk, he was not born in the realm of self-cultivation, it was from ordinary people.

That is, in the village of the three or four hundred miles east of the Ginkgo Valley, that is his hometown.

That is the site of the Ginkgo Valley, and occasionally the monks of the Ginkgo Valley, to the ordinary people towns around thousands of miles, to find good seedlings.

This is how Elk was selected. At that time, the entire village was proud of him. Being a disciple of Ginkgo Valley, for ordinary people, it is equivalent to stepping into the sky.

In the days that followed, he also proved his talent step by step, and he was very desperate. In many trials, he ignored the dangers and made a lot of personal and hand-offs.

It took me decades to get into the position, no matter what kind of grievances, pains, or dangers encountered outside the martial art.

When he returned to his hometown, he saw that everyone was proud of him and he slowly recovered.

To put it simply, in the decades when his growth was most important, it was the support that everyone in his hometown gave him. He blindly worshipped and trusted him and gave him the confidence to go on.

Therefore, afterwards, the elk gradually became the mainstay of the Ginkgo Valley, and it was also taken care of for the hometown. Even if his parents, brothers, and even his sons have passed away, he still has deep feelings for his hometown.

When he arrived at the level of his ancestors, he was an embarrassed impression of his hometown. Those beautiful impressions may have been two hundred years ago.

But the longer it is, the more beautiful it is.

Just like every middle-aged and old-aged person, I feel very good about my childhood life. Even if it was very poor at that time, there was nothing delicious, nothing fun, and it would be very beautiful.

In essence, this is a self-beautification of memory. For a long time, some bad ones have been forgotten, leaving only good.

And because these years are unlikely to come back, they will gradually beautify.

This is the case with the elk, and the hometown has long since returned. Ginkgo Valley has always lived and looked after it.

So he cares about his hometown, even above the Ginkgo Valley.

What Shen Lang is saying now is layer by layer, including the ginseng of Ginkgo Valley, all the disciples of the martial art, and everyone in his hometown.

“mean!”

“Shen, are you still a person?”

“You don’t forget, you are a decent person!”

“You have the ability to go it alone with me! It is already shameless to anger other innocent people!”

“If you still shoot for ordinary people, it is simply a beast! Everyone has nothing to do!”

The elk has always been calm, and all the words of Shen Lang will be to chaos his heart.

But now that this is said, he must not be calm.

Because he is very clear, Shen Lang has his memory, so this is very targeted, completely understand his situation.

He has always felt that Shen Lang is a poisonous person, a magic weapon that destroys the earth and destroys the earth. If he does not say anything, he will release it and directly razing a large number of mountains and rivers; the great \*\*\*\*\* ancestors said that they will kill them when they are killed, and the internal organs of the intestines will not be broken. polite.....

Such a person, what can't be done?

The heads and disciples of Ginkgo Valley; the heads and disciples of the Kunlun School have all been killed. What other disciples of Ginkgo Valley do not dare to kill?

Ordinary people's villages and towns, for the great \*\*\*\*\* like him, do not even need to kill one by one, directly a big move, you can level a piece!

If you don't look at it, you won't feel it.

An ordinary person, when a foot is crushed to an ant nest, will it feel shame when it is sprayed with insecticide? Will you feel that you are a sinister practice?

Compared with the super monks in the realm of the gods, the average person is as weak as an ant!

Such weakness is destruction, and it does not cause any feelings in the heart.

Just as the Light God is for billions of people on Earth.

The elk is a big god, not to mention ordinary people, even if it is a town around the Ginkgo Valley, he also looks like an ant.

It's just that town, his own hometown, with his beautiful memories, is a special one.

By pushing people, he feels that Shen Lang will not care at all, after all, it has nothing to do with Shen Lang.

Imagine if all the people were destroyed because of his relationship, and the whole martial art was also destroyed. He really died and he saw the ancestors and his ancestors.

When Shen Lang spoke to him, he still carried the tower and kept moving in the air.

The elk is more troublesome, because now his opponent is no less than his dog god, his field can not control the dog god, it will be completely resolved.

Attacks such as spells, on the one hand, are distracted by the deep waves, both to deal with his words, but also to be careful of his tower, no time to display.

The result is based on dodge.

It is necessary to avoid the attack of the dog god, and to avoid the proximity of the sinking waves, but also to evade the strange things like giant cockroaches...

Killing warriors are not afraid of things and are not afraid of pain, and can be quickly deformed, the body can reach up to several kilometers.

But it also has its flaws. It can also be used to deal with Daxian. It is also the peak of Daxian, and it is also resistant.

But the strong man of the great realm is not so easy to deal with.

I wanted to take the power of the wind in the early autumn and take it easy.

Although the elk is still much worse than the cold autumn, but in the end is the ancestor of the realm of the gods, killing the warriors can not help him.

But now it is not the main force, just to assist the dog god, purely addictive words, the effect is good.

“I don’t mean to be mean, it’s not important. What matters is your decision.”

“If you are shackled, I can let go of the Ginkgo Valley, and I vow not to move your family.”

“If you don’t, you know what their next game will be!”

“If the Ginkgo Valley disciple, and all of your tribes, join the refining and refining in the tower of the tower... although the effect is not great chat is better than nothing!”

“You are a demon!” The elk couldn’t help but curse.

What is the taste inside the tower, it can’t be described in words.

He is a great god, a ancestor of a big sect that is respected by all parties. He only took one night, he couldn’t stand it, and he asked for mercy... I wondered how uncomfortable it was.

This is still his strength, and it is even more unbearable for the disciples who are weaker in Ginkgo Valley.

And his people are some ordinary people, after entering, it is more likely to see the progress of death!

This kind of death method, as a nutrient for alchemy, is not as good as a direct big move to destroy them!

The sentence of Shen Lang directly hit the soft underbelly of the elk...

Chapter 1790 - Get ready

This time, the elk has done more homework than the previous ambush, and has more psychological preparations.

Will use Ginkgo Valley to threaten him, he has thought of it, but did not expect that Shen Lang can still escape, I did not expect that he can immediately come back with the beast god.

I did not expect that Shen Lang actually searched his memory and threatened with his people!

Now his situation has become very tangled.

Playing, not to mention this weird giant, not to mention the Shenlang holding the tower of the tower, it is this super beast, he is not sure to win.

When the other party is together, he will lose!

Before Shen Lang, one person had fixed a number of great gods. He was careful again and still had no chance of winning. Originally, I also counted on sneak attacks.

Don't you fight, don't you admit defeat?

As a result of admitting defeat, it can be a big problem, and it is very likely that it will be re-invested in the tower.

This time, there will be no chance to come out again!

“Get your hands on it! Then die one. Otherwise else... you know I have your memory!”

Shen Lang continued to force a sentence.

The elk secretly smiled.

He is very clear about the meaning of this sentence.

Because of his memory, so how to go to Ginkgo Valley, Shen Lang clear!

There are a lot of people in Ginkgo Valley. The elk is not very clear. He has already not intervened in the affairs of the valley. He does not understand the situation for the young disciples.

But what he knows is the core secret of the martial art!

He knows how to concentrate all the people in the door. He knows how to open the forbidden land in Ginkgo Valley. He knows which core of the main pole of the Ginkgo Valley is still...

All of this has determined that if Shen Lang wants to kill Ginkgo Valley, it is basically easy to come.

Not to mention the place where his people are located.

Even if he wants to search, there are more secrets to dig out.

For example... Shen Lang may even dig up the graves of their ancestors!

Thinking of these serious consequences, the elk is gray.

He feels that Shen Lang is his life nemesis!

Although he experienced a lot of ups and downs in his life, he became an ancestor, and he fought a ghost of the Helan family 30 years ago, and lost the ginkgo leaf of the comet, which made him a shameful shame.

But compared with Shen Lang, the two days of time, his humiliation, has far surpassed all the previous additions.

Now, he finally recognizes the reality.

Shen Lang is so...not that he can afford it!

If you really obey the words, there will be no such consequences, and it is on the way back to Ginkgo Valley.

As long as he is still alive, there is still a chance to revive the Ginkgo Valley.

But now, everything is late!

Now that the conditions of Shen Lang have already been opened, it is necessary for him to squat.

To put it bluntly, Shen Lang will win here, forcing him to squat, but he does not want to be hurt by the beast, and does not want to spend more effort.

Elk also understands the style of Shen Lang. Since it has been decided in this way, and has already said a few rounds, it will take a few seconds to give him time to consider.

If he does not make a decision, Shen Lang may order it directly to kill him!

Once that decision was made, it was impossible for him to talk about the conditions again.

“But! Lose to you this demon... I have nothing to say!”

“Shen Lang! One day someone will kill you this thief on my behalf!”

After the two sentences were finished, Elk closed his eyes in the air, stopped moving, did not resist, did not attack, did not dodge.

Of course, the dog \*\*\*\* was rude, and he immediately suppressed him. Just as the dog pressed the chicken, he pressed him on the snow peak.

The suppression of the dog \*\*\*\* is three-fold. One is the field, the other is the mental power, and the other is the claw directly.

It is the lessons learned from the other side and will never give the enemy another chance.

Shen Lang has already reached the front of the elk and looked down at him.

“Why do you say you, why?”

“Give you freedom, let you leave, even I didn’t ask for your magic weapon.”

“You are suspicious, take the initiative to give everything first.”

“When the face is like a dog, the back turns to trap me.”

“You said you shouldn’t die?”

The elk is now unable to move. This time, the suppression is much stricter than the imprisonment of the sable ancestors yesterday. There is basically no way to break free.

“If you want to kill you, don’t talk nonsense!”

“Don’t forget what you said, the villains died in words!”

The elk has decided to let it go, and know how it will be. It is impossible for Shen Lang to accept him as a slave again. The result is a dead word!

The only thing now is how to die.

He felt that the biggest possibility, and the one he was most worried about, was that he would throw it back to the tower and let him face the wireless despair and let him bear the kind of death that was refining a little.

Therefore, he would rather say something swearing, so that Shen Lang could not stand to kill him directly.

“Oh, don’t learn to talk. The villain died in words. I am not a villain. You also said that I am the right person! And in my life, I have always been the protagonist. My destiny has always been controlled by myself. “”

Having said that, Shen Lang does not want to really say a lot of nonsense, but there has been a big change.

Since he has succeeded in forcing the elk to smash, he has already achieved the effect of venting anger, and he will not have much pleasure.

In order to avoid night long dreams, his hands immediately appeared in the dead water whip.

“You want to... come on!”

The elk was the one who saw this whip. It directly broke the waist of a great \*\*\*\* and turned the visceral corpse into a large number of fragments.

But this is the result he wants. He would rather sink the waves and cut him off and kill him here.

He actually thought about self-destruction with disintegration, but the consequences of others, he has seen it with his own eyes.

In front of the tower, the blast has no effect at all, and it was absorbed directly.

But even if it doesn’t work, you can ask for a refreshing way to die, and... in case?

Therefore, he still maintains the possibility of disintegration.

Only he is still waiting, waiting for Shen Lang to swear.

“Wait a minute! I have already smashed it You must swear, you will not kill Ginkgo Valley, you will not kill my people. Otherwise, I will fight with you and will not make you better. !”

Shen Lang smiled slightly: “As you are now, still with me? Can you blew yourself?”

Upon hearing this, the elk’s heart sank and tried it.

As a result, I found that I was completely suppressed from the inside out, from the body to the consciousness!

This is not only the super beast, but also a strong spiritual force to participate in the suppression of him...

The huge guy like that is not a living thing, naturally it is impossible to have such mental strength. Then it can only be a swell...

He did not expect that Shen Lang, in addition to the magic weapon, conspiracy and speculation, the pure spiritual power, is not inferior to him.

Now...he wants to sneak up and blew himself up!
