

First Strong 1821

Chapter 1821 - Right to negotiate

After landing in the end, Shen Lang confirmed it, and it was only over 3,000 meters.

After going deep into this, the temperature of the body has a clear difference, and it has warmed up a lot.

Although it is not convenient to inquire about what to dig, but from this environment, the people on the edge of the outer layer, the identity is not so noble, can live in this big rift, is the higher status.

And here at the center, not only a symbol and more secure, from the temperature point of view, the effect of cultivation here should be much higher.

“please!”

The excavation continued to lead them forward. After reaching the rift, he did not jump again, but instead walked.

In this rift, the eyes did not see other giants, but faintly felt to be watched by many eyes.

Shen Lang is inconvenient to detect, so as not to be felt, but some can be observed through the Holy Grail.

In the basement of this rift, there are many caves. The caves are not all on the ground, but also on the cliffs. So there is a great scope for the interests. I don't know how many caves there are, how many giants there are.

Not all giants are watching them now, and some are in the caves.

Digging is very familiar to this place. At the time of the above, the place has been selected. The process of landing above is slightly biased.

So with them not taking long, they stopped and invited them into a cave.

The cave entrance is not too big, and the earth excavation is to bend over to get in. But after entering, it is the bigger the inside, it is a big cave.

Needless to say, the temperature inside the cave is even higher than the bottom of the rift. The larger the space inside, the higher the temperature.

On the wall, there are some glowing stones, which make the caves very bright.

Such a height, for the giants of tens of meters such as excavation, to bow down, for the crawling giant clam, is just good.

For Shen Lang, it is already a large hole.

After reaching the deepest part of the cave, the excavation stopped.

“We have almost no guests here, and there is nothing to entertain you, and we hope that we will not mind if we don’t.”

“I am coming to trade, and I don’t want to entertain you anything.”

Juju is already satisfied with being invited to come here.

At least the excavation is a character, not a casual embarrassment, but also explains that the chief is retreating.

It is not unreasonable. After all, this is a temporary decision. Before, it did not think that it would come to Chengdu to carry the sky. Others could not wait for it at any time.

“There is no god, you want to trade, is it the water-filling bead that can rain heavily before?” There is no such thing as non-nonsense, and it is directly asked.

Giants looked at the waves.

On the one hand, it doesn't know how to talk about the price. The last time it was with Shen Lang, it was the first formal transaction.

On the other hand, if you talk about it by Shen Lang, it will be like an assistant, you can make it a bigger shelf.

Before coming, Shen Lang had already said it to him, and he would set it off.

Now it looks at it, and Shen Lang immediately plays the role of assistant.

"It is rare for God to leave the Tongtian River because it is going to clean up some treasures of the Tongtian River."

"Chengdu is the nearest neighbor of Tongtianhe. It is good for you to think of you first. Even if you don't hesitate to visit the door in person, you know that this environment is not used to it."

In order to cooperate with the other party's giant, Shen Lang talked to increase the voice.

He has never been introduced to him, and he has not paid attention to Shen Lang. Now this opening statement has made him understand a few points.

He immediately understood that the giant python would not have left the Tongtian River, probably encouraged by this villain, to bring some magic weapons out to trade.

Chengdu Zaoitian is the nearest one, otherwise it will not leave the waters and come to this dry and hot place.

"Storing water beads is just a small gift that God gives you to Chengdu. It is very convenient to collect water. It is much more convenient to take water and water. Of course, there are many precious items, so you don't know if you can be the master."

"You should not be through the Tianhe River? How to call it?" Digging to see this little point, barely keep polite.

Shen Lang smiled and said: “Of course I am a human being, just a good friend with God, you can call me Shen Lang.”

“Shen Lang...”

The earth excavated a sentence, probably thinking about why Hemen has such a person in his mind, but they are rarely in the wilderness, and there are few contacts with other sects. Many information is behind and I don't know how many years, naturally Will know the waves.

“Do not gossip about it, talk about trading directly! If Chengdu is not interested in the sky, or can not afford it, we still have to find the next one.”

“Of course, I am interested! Please also show your gods and gods...”

The giant python is also not polite, and all the water drops are directly taken out.

Before in the boulder box, all piled up together. Now ingested, it is in the air, when it is displayed, there is a little gap between each other, which is more numerous and more spectacular.

Digging the earth knows that the giant python has brought it over. Since you can put one at random, there must be others, but I didn't think so much!

On the way, the earth has even been silently previewed, how to talk to the giants about the price.

Only he estimated that there are more than a dozen up to dozens, I did not expect such a huge amount.

When Shen Lang said that he was “not interested, can't afford it”, he still felt that he was a radical approacher. Now, looking at this quantity, it really needs a lot of money.

“Oh, God... these are really a convenient reserve for us, don't know what you want to trade?”

Digging earth directly acknowledges the value of these, but if you don't say it, everyone knows that it is just water. There is no value for Tongtian River. For them, it is toss a little.

This is convenient, but not rare.

Of course, there is no way to talk about the price, so these are all handed over to Shen Lang.

Shen Lang immediately took over.

“According to the transactions in the human world, it is normal to exchange goods that are satisfactory to both parties, or to trade in items such as Lingshi and Lingmai. Whatever you want in Xinjiang, it depends on what you have in Chengdu.”

Shen Lang deliberately put a little proud attitude.

“Can't you just take some stones at random?”

Digging is a bit frowning.

If it is just a giant, there will be no pressure. If Chengdu is a barren, it will not be possible to get rich in Tongtianhe. It is only a bit of “specialty”.

But now this human being is obviously coming from a rich area and has seen the world. It's not that easy to perfuse and flicker.

And looking at the attitude of the giants, but also handing over the right to negotiate to this human, let him feel a bit more passive.

However, this sentence of the villain is to look down on Chengdu!

This makes the earth excavation a bit uncomfortable, Chengdu is not rich, but there will be a family!

Chapter 1822 - Giant treasure house

In order to prove that Chengdu is also home to the earth, it has opened a secret door.

The dark door was hidden on the inner stone wall. After opening it, they took them into a small cave inside.

It is said that it is a small cave, and it is also a cave in front of it. Compared with the giant, in fact, the length, width and height are at least tens of meters. For Shenlang, it is still a big cave.

Many of the items displayed here are hollowed out to be displayed on the shelves.

There are also a lot of rows.

“There is no god! I am a guest, you will open up the treasure house of our tribe. You please watch, if there are any precious items that can be traded, I am willing to trade.”

This is the core place in Chengdu, and the earth is not afraid that they will rush to rob.

He greeted him casually, and thousands of giants blocked it!

Therefore, it is now a very generous way to put out your own items.

At this time, only by showing your own strength, in the process of trading, you can control the bargaining power!

After excavating the soil, he deliberately looked at Shen Lang.

His meaning is a little provocative.

Don't you think that we can't afford Chengdu? You look at it! Look at the things here and you don't recognize them!

After the giants came in without a border, they began to look at it seriously.

However, its understanding of the baby in the human world is extremely limited. It is also the way to do it. The key is to look at the waves.

Shen Lang is here, there is no need to have any scruples, not only eyes, but also a quick glance at the gods, and the holy armor is also close-up.

At first glance, the giant python looked at it seriously, and he looked like a simple glance.

At a glance, he already has a few in his heart!

The items here are considered to be a treasure house of the Kuafu tribe, but they are not relatively high-end.

This should be regarded as a storage room for tribal public goods, many of which are used for distribution and distribution.

Therefore, most of the things inside are still objects such as fire spar, which are to help them cultivate.

This is basically no effect for the giant python, but it is not effective to take it for sale.

The center of gravity of Shen Lang is placed on other items.

This item is only a small part. From the height of the visit and the position, it is a corner that is not commonly used. It should not be used for them.

After watching the giant python, his eyes looked at Shen Lang and signaled him to speak.

Digging is slightly dissatisfied, but it has not been shown to the giant python, but can only helplessly look at the waves.

“There is a lot of things in Tongtianhe. There are many things in Chengdu, but many of them are not used by each other. If you are like a water-filled bead, it has little effect on the Tongtian River, but it has a role in Chengdu.” It is a win-win situation.”

“In turn, it doesn’t work for everyone, so there is no need to trade.”

“What do you mean?” Digging immediately asked a word.

Is this saying that things in Chengdu are not good?

“Nothing, I mean, most of the items here are not used by God. Although it is a good thing for you, it is useless to others, including to me.”

Shen Lang is outspoken, this is also the feeling of the giant, but it does not know how to express it. At this moment, he listened and nodded in order to show his approval.

“You...” The earth was hesitating.

His meaning is obvious: you just took out the water-filling beads, and I have not seen any good things, maybe we can’t use them!

Shen Lang nodded: “Normal. The transaction is to win-win, everyone is satisfied, exchange what you don’t need, and exchange it with the people you need. You can also take out other items.” !”

The cockroach obediently took out other items.

Digging the earth immediately shines!

Even if he doesn’t know everything well, he can see that the previous water storage beads are only convenient for them. Others have no effect and limited value.

But now these are not the same, it is a real good thing.

Although there are many people who can't recognize it, it just feels different.

“In addition to the water-filled beads, you can also compare them.”

Shen Lang began to introduce the giants to the initiative, and introduced them again.

Digging is not invisible to Shen Lang, but now I can see that he can give so many real good things, and I have introduced it one by one, and the attitude is much better.

Then he also introduced the items they displayed here one by one.

It is similar to Shen Lang's judgment. Most of them are suitable for the cultivation of their Kuafu Giants. Because this is the tribe's resource storage room, it is not a rare collection.

These swells and giants don't care, they care about those parts that are inconspicuous here.

The number of that part is relatively small, but after all, the space here is large, and there are some additions.

What makes Shen Lang feel useful to the giants is that some of the spirits that the fathers have come from elsewhere.

However, the giant python himself does not look up. Its realm, the general spirit, has been limited, so Shui Lingling has always been stored.

Introducing each other and comparing them with each other, the giant python is a bit disappointed, and the excavation is a bit exciting.

Because of the many things that Shen Lang introduced, it is very helpful for them!

For example, the spirits of various Tongtian River water systems are not suitable for them.

But they all rely on the supply of fire spar, and it is easy to have problems. Generally, they can only rely on strong support. This has a certain proportion, it will be injured and fire.

If you add some of the spirits of the Tongtian River system, it is likely to be a neutral effect, which will be more secure.

On the other hand, the Tongtian River is a giant python, it can not be used, it is chicken ribs.

But Chengdu, the sky, has a whole giant tribe of Kuafu, and there are still many strengths that are not so strong, so it needs more assistance!

Digging the earth is also the medium fruit of that box!

“Diggers, your things here are of course good things, but basically have no effect on blasphemy. Even if I trade items, do you have any kind of spirit?”

Shen Lang opened its preliminary conditions.

The giant scorpion nodded and said that Shen Lang said that it wanted to say.

It's boring to dig.

They are also natural, but the spirit is rare, even if he does not have a lot of authority to deploy.

Besides, even if there is a thread, they should be stocked, they will not be sold, and they will be exchanged for some intermediate-level medicinal herbs. The chiefs will certainly not agree.

“To be honest, water drops, and these spirits are all we can use. I also have a heart to trade, but our things are invisible.”

“It doesn't matter, we can go elsewhere.”

When Shen Lang said this, the giant python was a little anxious.

Other places, it does not know where to go, where to find?

Digging is also anxious, is this gone? If you sell to someone else, where can I buy it!

Chapter 1823 - Earth fire

Although the giant eagle was in a hurry, he immediately reacted. I have already said it before, and all the negotiating strategies have made Shen Lang come, and it is all right to listen to his arrangements.

It immediately realized that this might be a negotiating strategy, so it did not move.

“Wait a minute!”

Digging the soil did not hold back.

Although he does not think that there are people nearby who can buy huge items, but the scope of the Great Wilderness is great, there are still many other forces.

Since the giant python has come out of Tongtianhe, I believe I don't mind going farther.

It's just a matter of storing water, and even if it's gone, let's go back and let it make some more. But all these other spiritual fruits have said that it has accumulated slowly over the past 100 years. If it is sold, it will be gone.

And they need to neutralize, the amount of demand, is not that big. Others should be able to use it directly, and the quantity can be more demanded, so it is really possible to buy all of it.

But in fact, even if the quantity they need is not that big, but Chengdu has a lot of people to praise the father tribe, but also for long-term consideration!

Therefore, you can't let everyone else buy it, but buy it all!

“Diggers, please rest assured, you have to store water drops, we can trade separately.”

“No, I have to do this.”

Digging the earth immediately shook his head.

“All must? You won’t want to steal us?” Shen Lang made a joke.

The eyes of the giant python are immediately enlarged, and it is easy to be true.

Digging is busy saying: “No, misunderstanding. I want to say that in addition to these, you can look at something else.”

Then he opened a small door in this small cave and above an inner wall.

This is really small, about a meter or so, for the giant, it is simply deducted.

This is a piece of fire spar that is about a cubic meter!

Because the environment here is the same, there is no special feeling when it is placed.

“This large piece of pyrotechnics is indeed of great value, but it has no effect on the gods. It has no effect on me...”

Digging has not yet spoken, and Shen Lang has denied it.

Instead of answering the earth, he reached out and touched it.

The fire spar of this square is even out of the ground and falls to the ground.

The earth excavation did not go to see the fire spar on the floor, but the things in the hand were presented to them.

Shen Lang and the giant gaze looked into it.

The fire spar of this meter square is actually hollow!

It seems to be hollowed out inside, it is like a box made of fire spar!

Shen Lang saw that the giant clams hollowed out big stones to make a box, it was a bit speechless, and now there is still hollowing out the fire spar to make a box!

Are you so lacking in tools?

“This is...?” Shen Lang looked inside and asked.

The hollowed up sparkling stone, of course, puts things inside, its value will not be a box, nor a spar, but something inside it.

“This is a heart fire!”

The excavation was very cautious and then explained.

“The heart of the fire is from the deep heart, the legend is the source of fire!”

When excavating this, it is very respectful and prudent, as if this is a very sacred thing.

Both Shen Lang and Jubilee saw that in this box of sparkling stone, there was a gel-like liquid.

It's not as big as a fist. In this box, it's a bit like a coffin.

But after opening it, you can obviously feel that there is a kind of energy that is far better than the fire spar!

It seems that the box is made of fire spar, and it is not necessary to isolate it and then insert it into the stone wall.

This so-called “heart fire” is not a fire red, but a bit blue-blue, it seems a little demon.

Shen Lang and the giant cub exchanged their eyes.

The two of them have the same idea. What is the difference between this and other items of fire elements? And its effect is stronger, it has no effect on the giant python!

Digging out to see their thoughts and quickly continue to explain.

“This is not the same! For example, fire spar, and other things, we have more here, and other places, there are also. But this heart is fire, only we have Chengdu genius!”

In order to prove the value of the heart fire, he inadvertently revealed a secret, why the Kuafu giants have always been secret in Chengdu.

“This may not be very suitable for you, but it is very valuable. It is impossible to get anywhere else. So, even if you take it somewhere else, you can exchange it to the spirit.” ”

This is the intention of earthmoving.

He knows the fire spar and the like, if the other party does not want it, it will not be redeemed. But this place is heart-warming, he wants to replace the spiritual pulse as a hard currency.

Just like on Earth, you have to buy oil, you can only use the US dollar, but you can also negotiate privately in other currencies.

If the oil exporting country does not recognize your currency, you do not have a dollar, but there are diamonds, gold and the like, and things that have the same trading value can also be discussed.

Now the heart of the fire is the special product “diamond” in Chengdu, and the earth-digger wants to use this instead of the spiritual pulse to settle with the giant.

After listening to this, the interest of the giants is greatly reduced. It's coming to Chengdu, and it's already out of the door. There is no information in other places. If you want to follow Shenlang, then it is a very remote place, and it is also worried about being cheated by this villain. If you contact a lot of people to hunt it?

In Chengdu, this is still a close neighbor of the wilderness, it is still safe.

So I heard that this thing is useless to it, but it can be traded elsewhere, and it has little interest.

“What is it used for?”

When Shen Lang saw that he was magical, he asked.

“It...”

Digging a word, the heart of the fire is a secret that belongs to Chengdu, not just special products, the general people are not qualified to contact and use.

The specific role, etc., are also secrets.

Now it is necessary to tell a human being of unknown origin, a pure outsider, which makes him a little embarrassed.

But if you don't make it clear, this will not allow Shen Lang to accept it, and you will not be able to complete today's transaction. Once the giants leave and miss this opportunity, there will be no next time.

As a close neighbor, he knew Tongtianhe from an early age and knew that there was a giant python there, which was known to all generations. This is because they go to Tongtianhe to take water, they have to look at their faces, and they have never heard of it going out to trade.

These things are obviously not known how many years have accumulated. If they are emptied, it will probably be another chance after a thousand years.

Digging is still bold, he realized that this is a development opportunity for the tribe of Chengdu, and can not be missed!

Taking out the heart of the fire is his bold decision, and now decided to tell its secret!

Chapter 1824 - Cycle wins

Chengdu is the sky, for the giant tribe of Kuafu, it is a mountain of God!

This is not only the home of their lives, but also their hope.

They are not the same as the ideals of the self-cultivator outside the Great Wilderness. They don't want to fly, but want to enter the ground!

There is a secret here, that is, the center of Chengdu, there is a road that can enter the ground, it is a completely different world, it is a place where they can be sublimated.

To put it simply, it is like the desire of the earth people for the fairyland and heaven.

This may be a legend, a beautification of mythology, but Chengdu is indeed a road.

It's just that falling down, facing countless high-temperature melts!

Therefore, when there is reason, no one will go on. Often only dying, I want to fight and see if it really will go to another world.

There are also very few crazy people who will do such crazy things.

The heart fire is that they get it near the place where the melt is.

This thing has two functions. One can be used as a magic weapon. It can directly release a high temperature flame and burn everything.

The other one is to take!

Taking it is to use it as a supplement, absorb it, and refine it for its own use. Such a person can also directly release a very high-temperature flame, and it is a great improvement for the Kuafu.

This is an advantage, and the shortcomings are also obvious. That is because the power is too great. When the magic weapon is used, it will burn yourself back if you accidentally.

And if you want to take refining, it is extremely difficult to succeed, and it is often swallowed and burned.

But you must admit that its power is very big!

It's not convenient to try it out here, but the earth excavation has repeatedly emphasized this point, and it is not a fake to see him as such a baby.

“What use is it for me?”

When you dig it out, you are secretly anxious, and you can only put your mind on Shen Lang.

“There is no need to use the gods and do not want to go to the distant trading. But this friend of the swell, you can bring back to the human world, and certainly sell a good price. If you can buy it with the pulse, We will use the Spirit to buy the items of God, and that is to win!”

The giant python learned the concept of win-win and win-win from Shenlang here. Now I heard more wins, did not speak, and looked at the waves.

Shen Lang slightly smiled: “You said it is good. I don't know anything about the ground fire. Other people may not understand it. Even if someone believes in your rhetoric, the probability of buying it will be burned, unless No. Who will buy it?”

“But... there will always be goods, maybe you are a human being, and some high people can know how to use it.”

Digging can only pin their hopes on Shen Lang, and once again beg.

Shen Lang looked at him and looked at the giant python.

“That’s it! If the deal is not successful, I have to go to other places with God, I am not impatient, I may feel that I lied to it. Then I bought it, and you bought it with the Spirit.”
thing!”

Shen Lang seems to have made a difficult decision, and then tangled for a while before taking out a thread.

Before the giant python, he saw his helpless look. Now, if he looks at him again, he is estimated to have only two. He still wants to leave one. Now he has taken out his last possession.

It is also a dark calculation, a spiritual thread, to buy some precious items, it is reluctant, it is still useful after all.

But now it’s just the same as buying the fruit, just like buying water, it’s willing. Because it is also collected, it has been accumulated by the Tongtian River for thousands of years, and it has no effect on it now.

In my heart, it is the price that can accept this thread.

But excavation is not willing!

“The heart fire is the secret of our unloading in Chengdu. Today is because of the gods, I am willing to share it, and I have not let the two swear not to say it. But you are a spiritual, can not afford our sacred Fire!”

Shen Lang sighed: “If you don’t want to, then keep this treasure. I am also reluctant, because I am more lacking in the spirit, this time I don’t want to make it difficult...”

Said, he is going to close it up.

“and many more!”

The giant screamed and stopped: “I am willing to sell you!”

“...”

Shen Lang is speechless, I don't want these things, what do I buy over?

The excavation has just said that on the one hand, it feels that they have sold their sacred things. On the other hand, they are also afraid that the giants will ask for the price.

When the time is over, the fire is sold, can he find another treasure?

So I want to have a little more directly, and I have the best of the best. If I don't have one, I can let the giants accept it.

Use this sacred but dangerous, unusable geothermal fire, in exchange for the spirit of all the tribes can use the opportunity to develop a wave of development, he is willing to gamble.

Now I heard the giants say so, and they have lost more than half of them.

Explain the price, you can buy things, but you can't pass the “selling” heart.

But between the two giants and Shen Lang, he obviously has more protection against Shen Lang!

Because the giant python knows that it does not talk about the price, this makes Shen Lang replace it. If these things come to the hands of this wave, it is estimated that they are not so good to talk, even if they can use the land to trade, it is estimated that they will ask for other things.

“No gods are willing, then I am willing!”

In order to be afraid of Shen Lang first promised a huge 鳌 鳌 ~ after the excavation promised, quickly stressed again.

“I gave the heart to the deep waves, and Shen Lang gave the spirit to the gods. God gave me these water and pearls. Win more!”

Both of them expressed their stance, but Shen Lang was still awkward, and seemed to reluctantly have the pulse in his hand.

Digging can only look at the giant python.

The giant python also wanted to change the thread and quickly persuaded him.

“You are very skillful. There are many places to go. I see a wide range of worlds. I believe that you can sell better prices. It is so decided!”

Shen Lang secretly laughed. Before the giant python thought that he had never seen the world, he had a sense of superiority. Now I let him quickly surrender the spirit, and he will not hesitate to say that he has a wide knowledge.

“Yeah, yes, you must come from a faraway place. Our wilderness is still relatively poor, and you can definitely sell it for a good price.”

Seeing what they both are beating, Shen Lang promised to be “difficult”.

“Okay! Since I came with God, I can’t make this deal unsuccessful.”

He said that he gave the spirit to the giant python, and the giant cockroach excitedly collected it and directly incomeed it into the storage ring.

“Those are yours!”

Those who were still floating in the air, dig the ground and signaled that the waves were ignited, and he packed them up and placed them on the display rack next to them.

“Wait a minute!”

Shen Lang’s words surprised the earth.

“You can rest assured that you can charge it directly now, and there is no problem in your hand. Only when you want to inspire it will there be a high temperature flame.”

He is afraid that Shen Lang is going to say repentance, and he deliberately interprets it as not dare to take this evil flame.

Chapter 1825 - Human feelings

Shen Lang was dumbfounded, and when he saw the earth, he directly collected the fire from the land to reassure him.

“I am letting you wait.”

“The environment here is different from the general place, and it is even more different from the Tongtian River. It is suitable for preserving the treasures of Chengdu, but it is not suitable for preserving the treasures of Tongtianhe.”

“For example, these water storage beads are placed in such a high temperature. It has been a long time, and I don’t know if it will affect it. These spirits are also, you bought it is definitely not used up immediately.”

Hearing his words, the earth excavation nodded immediately: “What you said makes sense! After a long time, it is certain that this storage environment will have an impact.”

Digging has been thinking about where to store it, but it is also waiting for them to leave, temporarily placed here, and it will have no effect for a while.

Shen Lang took another storage ring.

“This treasure for storage is for you, I believe you should have seen it.”

Talking about the method of application, I introduced it to him, so that the earth can store these things in the ring.

When the earth saw this thing, it did show the color of surprise, but did not say much.

After the introduction of Shen Lang, he will also use it, test it, and all the things he just bought are included in the ring.

This ring is for normal humans, and for the giants such as earthmoving, of course, it is a little bit smaller.

He can't carry his hand, but he still clings to his palm, so as not to be taken away by the waves or the giants.

"Thank you! You are really helpful for us to collect these things."

"But we are in Chengdu, we can't wait for you to send something. Please pick it up as you like, and you can do both!"

After excavating the earth, I immediately asked Shen Lang to pick the things in it.

Both Shen Lang and Jubilee have just seen it. They don't think it has much effect.

But it seems that there is no more hidden things in the earth excavation. Some of them are within his authority. If you want more things, it can only be his higher level, such as the chief.

His appearance is very determined.

The great wilderness is far away from the outside world. Few people come to Chengdu to carry the sky. If they owe it to human beings, they will not be able to. Digging does not want the tribe to carry such a human debt.

Shen Lang nodded. "If you don't mind, then this box, I will continue to put it inside."

Digging to see the Shen Lang refers to the fire spar box that was previously filled with fire, slightly hesitant.

Originally, I could talk to him about this one, but because I just said that Shen Lang directly received the storage space from the ground fire, he would not say it.

Now if you look at Shen Lang just want this, hesitate to say it.

However, after considering it, I decided not to say that since this box can bring people back, it is of course an excellent thing.

“Of course there is no problem, this is yours.”

Shen Lang took the fire from the ground and put it in the fire spar box, and then re-closed it.

Look at him a little valued, let the earth excavation a little drumming, wondering if Shen Lang really know how to use this place!

If that's the case, then it's really a sale, and it helps a lot of people.

But think about it, even if they are the Kuafu tribes who have lived here for generations, they can't make good use of the fire. A person who comes from afar, or come with the giants, can't understand better.

This is the first time that the completion of the first transaction of the giant python, the effect is also a happy win.

As for the others, it is a chicken. The earth excavation is not visible, the giant clams are not visible, and the deep waves are not visible.

After completing the transaction, you don't want to leave them.

He is also embarrassed to open the guest, only to be silent, let them automatically leave.

Shen Lang actually wants to visit some of the places here. For Cheng Cheng's Chengdu, the mountain of Kuafu, he still thinks a bit, or else he will not come to the wilderness.

But there is no doubt that the excavation will not welcome him to visit.

For the high-temperature melt channel leading to the geocentric world, Shen Lang is also a bit yearning, but that will not let him see it.

The contemporary chiefs of the Kuafu tribe do not know whether they really retreat or do not want to see them. The face of the giant python is not seen, and the Shenlang is certainly not possible.

In this case, he took the initiative to leave.

Of course, the earth excavation nodded immediately, and they were happy to leave them.

When going up from below the rift, the excavation is still the way to climb.

Shen Lang and the giant python are flying directly.

Originally, with the familiarity of everyone, the earth excavation should not be greeted by the edge of Chengdu, and there is no need to send it to the edge, but they are outsiders after all, what secrets have they peeked at?

So, just like when he came, he was very motivated to send them to the edge.

"When you are a chieftain, if you know more about the goods, you can come to Tongtianhe to find me, maybe you can trade again."

The giant python is still a bit unwilling to change to only one thread.

Although this time because of the relationship between Shen Lang, it can be used to change the two spirits with something that is of little use.

But there are still a lot of things, and it also wants to empty all of them at once, and it can be changed to a spiritual pulse. What can make it a better surprise?

However, the excavation has done its best, and Shen Lang has tried his best. He can only hope that the chieftain will be more insightful.

The giants before this time have all disappeared, probably got arranged, so that they have returned to their respective places to hide.

On the edge of this Chengdu, it is to dig a person to send them.

Look at the meaning of excavation, and do not want to stay more, said that will tell the chief. However, it is still polite to invite the godless gods to have the opportunity to come to Chengdu as a guest.

When sent here, they will not continue to send, and they will accelerate away directly.

After leaving the scope of Chengdu, the sky obviously feels a lot better, as if the water molecules suddenly increased, the air humidity became higher.

This makes the giant python very comfortable.

This is also a comparison, although it can not be compared with Tongtianhe, but it is much better than just now.

“This feeling is much better.”

“Really, I feel uncomfortable there, let alone live in the Tongtian River.”

They are very fast, and after a few simple sentences, they have already left very far.

“Are we going back now, or go to other places? For the Great Wilderness, I don’t know what you know!”

For the inquiry of Shen Lang, the giant python did not respond, slightly silent for a moment, and then asked an irrelevant question.

“The heart is burning... You are not for me, in fact, you want it, you have a role. Right?”

Chapter 1826 - Other races

Shen Lang immediately guessed its suspicion when it said it was a fire.

When the sentence is completely said, he has quickly turned his brain and has a solution!

The gimmick will ask this question, it must have been thought through, and it is not so easy to lie to it.

After all, it is just a lack of experience in human trading, not stupid. On the contrary, such a thousand-year-old 80,000-year-old turtle is a thief.

If you negate this time, it will only make it more suspicion. Maybe you will think that this is a good thing, no matter if it is not needed, you will take it over and say it.

So after it was finished, Shen Lang directly admitted.

“Yes, I want this place to be angry.”

“Oh?” The giant ape was a little surprised, and did not expect that Shen Lang would directly admit it.

“Then why didn’t you just ask directly, but why do you want to say that?”

“This is what I told you before, the strategy of bargaining. Why let me ask for the price is to avoid such a trap.”

“Trap?”

Shen Lang laughed: “These things, do you want to sell two veins? Or should you say, if possible, as much as possible?”

“...”

Python is the default.

A kind of spirituality, it feels very unwilling, earning is earned, but always feel that it is still a lot less.

“The same is true for earthmoving.”

Seeing it is not very understanding, Shen Lang continued to explain.

“When you trade for the first time, you will be able to sell as high as possible. Of course, he will be more like this.” “In order to achieve his goal, he would brag about how rare and how good this thing is. And for them, It should be really a good thing. But in the end, this is a baby, it is also a baby for them.”

“If I say that I am willing to accept it, he will definitely not want to sell it. He wants two or five... the more the better.”

“Where am I going to find the veins for him!”

“Moreover, I have already said that I came to the Great Wilderness and wanted to see more of the world and see some environments that I have never had before, including various items.”

“This place is full of fire, I am willing to take a glimpse of one of my gambles and see if it really has some effect. But if you have to pay more, it is not worth it.”

When I heard Shen Lang say it here, the suspicion of the giant python gradually dissipated.

Yeah, even if it doesn't brag, Shen Lang has already boasted all the items. The other party is the same, and will feel precious.

Shen Lang can spend a spiritual pulse and buy a risky fire. It is also a gamble.

The giant python once thought for himself. If you sell this one to it, is it willing?

Think about it, it still feels unwilling, because it has no effect on it, but it is a reverse effect.

At this point, it did not feel that Shen Lang had ulterior motives, or occupied a big bargain.

“The wilderness, the scope is great, and I don’t know it one by one. Because I am only active in the Tongtian River, even though the whole river basin is very wide, I have been to some tributaries, but mainly in the water.”

The giants returned the topic to where to go.

“So, Chengdu is a place where I am familiar and confirmed. I am not sure about other human beings, or places where other ethnic groups gather.”

“Is there another race?”

The spirit of Shen Lang was alive. He thought that it was also the place where humans dominated. It was only more extensive and sparse, and there were also beasts and the like. But this other race, this should not be said.

“Of course! You humans are not the only masters!”

When it comes to it, the giant python is a bit proud. After all, it is also considered to be “other races”. This kind of wording is originally intended to be different from human beings. Now it seems to highlight the particularity of human beings, making it a bit uncomfortable.

“I just said that when I came to the Great Wilderness, I saw the world. I know too much about humans. Other races are less, and there are no clues about God. I am willing to accompany you!”

The giant looked at him. “Is you with me, or am I with you?”

“Haha, it’s the same. I will accompany you to trade other items, and you will see me in the world.”

When it comes to trading, the giants are silent.

“Before I said it, half of the harvest is for you.”

Now it is sad!

Because only get a thread!

After waiting for another trade, do you give Shen Lang a?

Shen Lang smiled and said: “I also said later, whatever you want to say is OK. Besides, I am not very satisfied with the price I talked about. If I can make you happy, I will be more happy. what.”

“Okay, then I will not be polite with you. After trading, I will pay you again!”

The old tortoise is still very fine. It feels that the swell is getting the fire, even if he said it, it should be earned.

Plus it is not satisfied with the harvest, I don’t want to give it. However, if you don’t give commission or share, you may not be willing to work behind Shenlang.

So he added a sentence, wait for the transaction, and give it back again!

This is ambiguous!

Can be understood as “after the completion of the transaction, and even the remuneration with the excavation transaction, and then give him a one-off.”, can also be understood as “remuneration of the latter transaction, the last one.”

Be careful about this, Shen Lang did not mind.

What he needs is actually something like a heart fire!

Like the giant clam, ordinary things have little effect on Shen Lang, so you should find special ones.

Those who are so slick, the giant python has taken more, it has no obvious effect on it, but it still has effect on Shen Lang, so he is willing to buy it.

Now the heart of the fire, at least very special, is the same thing as Chengdu's housekeeping baby, it is worth buying and studying.

There is no doubt that Chengdu's earth-rooted fire is definitely more than that. This is the right to dig, if the maximum authority is the chief, then there must be more, including other good things.

It's just that this time I have no chance to see the chieftain, and I can only retreat to the next level.

Because of this, Shen Lang now hopes to see other races.

The giant python began to think about it.

"Up to three thousand miles, there is a tributary. I remember not far from the intersection, there is a other ethnic group. With your human words, it is the Yaozu, the Orc. I am also..."

Shen Lang smiled a little. "You are a god! I respect you. Right, what kind of demon? Which kind of orc?"

"I don't know. I used to deal with it a long time ago. It's been too long. I can't remember. It's not clear whether they are still there."

This answer makes Shen Lang a bit disappointed.

The demon family, the beasts or the beasts, the more powerful, the longer the life, the opposite, the worse the reproductive ability, it is often difficult to gather together.

For example, in the outer part of the Golden Mile, there is only one king, and there is no group of dragons. Which area is occupied by it, the number and types of other beasts are many, but the strength is not so strong.

For example, in the world of giant beasts, other giant beasts are all ethnic groups, and they are led by the lord king. And the Emperor's behemoth, now only one dog god.

The giant python is also the same problem.

That is, it does not want to plant more forks and more seeds. According to the Tianhe River, there should be many giants.

Now, according to the giant python, if it is a group of similar beasts, it is worth noting.

If it is simply a super beast and a top demon, you can still visit it.

Disappointment does not matter, do not go to the scene to see, always a little unwilling. What if he expected it? In case there are many magic items?

"Let's go together!"

After Shen Lang finished, he smiled and said: "I don't hurry, we can go back and walk."

In fact, the singer is not very interested. If you sell things a little more this time, it will even go home and never run.

But now that the harvest has not met expectations, it is a bit tangled.

However, Shen Lang said that he went back to the waterway, which made him very satisfied.

They started from the lake in the lower reaches and slanted over, so they spent a little more time.

If you want to go from here to the next three thousand miles, the giant python must once again conceive the route and identify the direction. It thinks that the head is big, Chengdu is still familiar with the sky, it is already very troublesome, which is even more troublesome.

But to take the water then it is much more convenient.

They just chose the right direction, as long as they continue eastward, they can go to Tongtianhe. The Tongtian River is a home that is very familiar to it. It is intimate and will not get lost.

When you arrive at Tongtian River, you don't need to identify the direction, and you can go straight up, and you will be in the past three thousand miles.

In addition to the direction, it will be more familiar, comfortable and secure in the water.

“Going the water!”

This is confirmed, both speeding up, coming to Tongtianhe.

Waiting until the Tongtian River, of course, it is not possible to just be in the place where Shen Lang was last, but it is still in the range of one or two hundred miles.

From the air into the Tongtian River, the giant python is really happy, and it is in stark contrast with Chengdu.

Shen Lang now has nothing to adapt to, and he is also able to follow the lead, and he is also able to go.

At the bottom of the Tongtian River, the giant clam is a real fish. Now in one direction, and it has the bonus of driving the waters, the speed is fast.

Shen Lang is also following it. Everyone is not talking on the way, go directly to the river where the river is three thousand miles away!

When they arrived, it was already at night.

“This is the band. It is estimated that there are only two or three hundred miles. I don’t remember how long I have been there before, and I don’t know if there is any.”

There is nothing to miss in the giant scorpion. This is a very small episode in its long life. If it is not today and Shen Lang, it will not even think of it, nor will it come here.

Yaozu? Beast?

Shen Lang is full of expectations.

Chapter 1827 - Aooka

Although it has already entered the night, but it is close to the Tongtian River, it can be regarded as the site of the giant python, and there is nothing to be jealous.

However, after all, I don’t know how long it has been. The memory of the giant python is also blurred. If the direction is not recognized, it may go further and further, and it will be more troublesome.

So after landing, after two or three hundred miles of flying, the giants had no clues and the speed slowed down. Shen Lang immediately proposed to stop.

“Let’s take a break, wait until dawn!”

The giant python is a bit uncomfortable. It is brought with it, but it is not found, and it feels a bit lost.

Fortunately, it has been said before, it may not be found at all, even if there is nothing to gain, there is still a saying.

“Go to the valley below, there is water.”

They are also a little higher than the mountains, and it is fully capable of feeling where there is water below.

Even if it is not as dry and hot as Chengdu, the temperature is not high at night, but it is still used to water.

Shen Lang promised to go down the valley with the giant python.

The valley is still very large, and he can also sense that there is a stream that originates from the mountain. After flowing through the valley, it should eventually flow into the Tongtian River hundreds of miles away.

The valley is very large, with lush tree vegetation, and it is particularly dark in the dark.

The place where the giant pythons landed was the place where the streams in the valley formed water.

With its body, landing down, it will directly fill the leeches, and it will not cover its back, but it is better than nothing.

Shen Lang can not drink water now, but he is not interested in falling into the water. When he landed, he was looking for a huge stone.

When he first landed, he immediately felt a while!

In the darkness, trees, hillsides, and grasses all have a pair of green eyes!

There are some beasts and animals, and the eyes will be greenish in the dark, and the darker the contrast is, the more vivid it is.

This is the case now, because the trees are lush, and the valley is dark. In the dark night, it is dark and falling around.

This directly compares these green eyes.

Of course, this is not a big deal. What surprised Shen Lang was that he didn't even find it!

The giant python should not have found it!

When they were just in the sky, they did not search for the place to go, and they chose a large valley with water nearby to land.

During the landing, due to the light, the line of sight could not be seen clearly, and they all naturally used the knowledge of the gods.

The giant python can accurately fall into the leeches, and the sinking waves fall on the boulder, all because of this.

But they just didn't feel these creatures!

With the strength of him and the giant python, it is necessary to conceal their investigations, at least to the level of the realm of the gods. These are not the super beasts of the realm of the gods.

There is only one possibility, the valley has a special nature, or these creatures have special characteristics that can be avoided.

As soon as I read this, Shen Lang will be calm, and there is a mysterious stone on his body that can hide the breath of the human being, like a stone.

That was originally obtained in the Golden Mile. The area is surrounded by Mutian Zhengde, and Lu Feng also has it. It is not too rare.

But then again, the hidden effect of the mysterious stone is also limited, can make the transformation of the gods, half fairy has an effect, in front of the big fairy, perhaps you will see through, let alone the great god.

Now these green eyes are not a pair of two pairs, which shows that there are many hidden objects!

The eyes that are bothered by green light are set off by the darkness, but it must be carefully identified, and the Shenlang can see it clearly.

However, it was found that the environment was hidden, and the sensory induction was greatly weakened. It was only the naked eye and the sacred armor, which would be much worse in the dark environment.

He directly released a flare through the sacred armor!

Suddenly illuminating, no greetings were made, but the giant python was also taken aback, and the surrounding creatures quickly subsided.

But this is just an instinctive reaction to light and fire, and it is because of the suddenness of the incident, which makes them frightened.

It doesn't mean they are really scared, and they won't escape.

The lighting bullets of the city-states are not the same, and the entire huge valley is almost illuminated.

However, because the light does not turn, the illumination from the air just makes the top bright, so that the surrounding is bright. There are also a lot of thick trees, boulder and so on, and there are still a lot of shadows to hide.

The giant scorpion is used to it, the safety consciousness is not as good as the swell, but the strength is not bad. After it is down, it also immediately discovers the surrounding situation.

So now under the light, it is also a quick observation of the situation in the valley.

Shen Lang has realized that this should be the place where the giants want to take him to look for!

Originally, they came to the vicinity. The reason why they could not be determined is that the valleys and peaks look similar. Except for Chengdu, which is obviously different from the surrounding, it is difficult to identify for a long time.

Where they landed, because of the angle between the tributary and the Tongtian River, a large direction can be determined, but the scope is still large.

There is no specific route. From the time of landing, the deviation is twice, or a little turning, two or three hundred miles down, the deviation may be dozens of miles. So the meaning of Shenlang is to stop first. After dawn, search in the vicinity.

As a result, the valley was selected by mistake.

But to get a closer look, it's not that the cats are hitting dead mice. Because in the dark, they will choose, can see clearly, naturally it will be a big valley.

Coupled with the choice of water in the giant python, the last time may have similar factors, the chance of hitting is also large.

"There is no border between the Tongtian River, how come with humans. You have to go to Qingqiu in the night, what is your job?"

A sound sounded up and appeared in the ears of Shen Lang and Jubilee.

However, the speaker did not show up, and the voice was swirling in the valley, possibly from any place.

This is intentional, to confuse them.

But this is also manifested, the other party is aware of the strength of both of them, it is taboo!

When I heard the conversation and knew its identity, the giant cockroaches could not help but stretch out the **** and stretched the neck, and it enjoyed the identity.

Going to Chengdu to carry the sky, the self-reported door has been despised, making it furious. Here others can recognize it first and make it very satisfying.

Qingqiu?

Shen Lang seems to have heard the name, and then another association, the legendary mountain of the Qingqiu, there is a beast like a fox, four feet and nine tails...

This place is Qingqiu?

Just the animals with green eyes are the nine-tailed fox?

"If you say... we just stopped by and stopped for a night, presumably you will not believe it." Shen Lang smiled.

"Actually, I am a godless god. I am looking for Qingqiu. I want to trade some items with Qingqiu. I just found it here. It is already night, not the night green hill."

Chapter 1828 - White fox wants

After Shen Lang finished, the giants felt that it should also open their mouths.

It is much larger on the body, and it is the overlord of the Tongtian River. It can't let the distant waves crash.

"My friends in Qingqiu, since I know that I have no boundaries, I should have known that I have come to visit. Everyone is very friendly. This time it is a transaction. If you don't show up, you will not respect me!"

It is not angry, just feels the need to emphasize his identity.

However, after it was just finished, he heard a sneer.

"Nothing! You are so embarrassed to say this? When you passed through Qingqiu, you wanted to plunder and destroy, and were expelled by my elders. Why come to visit, how friendly?"

“Indiscriminate! I plundered and destroyed, when was expelled.”

The python was angry.

Shen Lang is a bit surprised, is the truth like this?

Looking at the anger of the giant python, it was obviously a little angry and angry, and I immediately understood.

It seems that the last time the giant python came here, it should have been a long time ago. At that time, the strength may not be as good as it is now, and it has encountered the powerful elders of Qingqiu, which is the part of being expelled.

This became a shame and it was forgotten, so Ignore the information here.

Selective oblivion, coupled with the dilution of time, makes it hard to remember. This time I wanted to find the object of the transaction, I thought that there seems to be another race here.

But because I have forgotten a lot of key things, the experience of Qingqiu, Jiuwei fox, including it, is blurred.

Now clearly pointed out by the other party, it also evokes some of its memories.

“I don’t care what your purpose, Qingqiu does not welcome foreign guests. Please go to other places to rest!”

This is a direct squad of the other party, which makes the scorpion very unhappy.

If you follow it, it is straightforward!

However, since it is a transaction, it is unlikely that it will be traded. In Chengdu, the sky is filled with small scorpions, and the earth is smashed.

Now that it is open, it is obviously a status. Even if it is not a patriarch, it is also an elder.

Its gaze can only look at Shen Lang, and want to see what better strategy is for Shen Lang.

“You, friends of Qingqiu, please come out. We are here, we don’t want to run a sneak peek, but we can’t force you to trade anything. Let us show all the items, take a look and make a decision, how to ?”

When Shen Lang finished, he looked at the lighting bullets in the air. The time could not last for too long. After the extinction, the environment and atmosphere of continuing to trade were much worse.

Then he gestured to the giant to show things.

The giant python is naturally a bit uncomfortable. It comes to be a guest. You should ask him, friendly communication, and then trade.

Now it’s like it’s poor door-to-door sales.

Just as the giants hesitated, a figure flashed and appeared in the open space in front of them.

There was a big stone next to it, and it began to glow brightly. Although it was not as bright as a flare, it should still illuminate the nearby area after the flare was extinguished.

Shen Lang also immediately saw clearly, appeared in the light and shadow, is a huge white fox, with the legendary nine!

This white fox’s head does not boast that the giant giant is tens of meters tall, but it also has a height of nearly ten meters.

After appearing here, it is still the smallest one...

Looking at the appearance of the white fox, the attitude of the giant python is a little better.

Anyway, this is to respect them. However, it is a bit uncomfortable to think of the other party saying that it was expelled by the fox predecessors.

“Well, I will show you the opportunity!”

The meaning of the white fox is obvious: don’t say that we are not close to human nature, you have to show the traded goods, then give you a chance, we don’t need anything later, you have nothing to say, right?

“Hey God.” Shen Lang urged it.

The giant python is helpless. I think that all three thousand miles have come, and it is troublesome to find another place.

The mentality of “coming here is coming”, let it still bear to display the items to be traded one by one.

The flares faded, and the nearby stone illuminates.

The White Fox arbitrarily licked all the items that were floating in the air, and it obviously had no interest.

Because they can live in the green hills, they are naturally very rich. The general spirits are not lacking, and some items related to water are not attractive to them.

Looking at it without interest, Shen Lang is secretly thinking about it. Think about whether he has anything to be interested in Baihu, otherwise the transaction will be yellow.

The giant python can’t sell anything, he doesn’t care, he cares about the Qingqiu nine-tailed fox, is there any good thing!

After a quick analysis, Shen Lang took out a jade peach and a hundred flower seed sachets from the Baihua Fairy.

“These are the treasures of Tongtianhe. They are collected by thousands of years. They are some very good things. If it is not my resources, I want to trade...”

Shen Lang gave a general introduction, and finally introduced what he had brought out.

“This is something in our human place. This is the jade peach of Yaochi; this is the flower of the Baihua fairy...”

He is a time, can not think of any good things, and has limited value, and can not just take the pulse.

So take out the gifts of the jade peach and the flower fairy and make up a few.

In fact, the key is to use human things to set off the things of Tongtianhe!

Jade Peach is a good but only one.

The Baihua Fairy gives only a sachet made of a hundred flower seeds, mainly for commemorating the value, or representing the value given by the Baihua fairy.

In this contrast, a lot of things that pass through the Tianhe River seem to be much better.

For the arrangement of Shen Lang, the giant 鳌 is very satisfied. On the one hand, it enjoys the superiority of “human beings are not as good as it”, and on the other hand, it is satisfied with the swaying of the waves.

But no one thought of it, the white fox, but skipped the other, staring directly at the sachet.

“I want this item, what do you want to trade?”

“...”

The giants are wrong, and the waves are also paralyzed.

This is just for him to set off, and did not want to sell it!

On the same day, Baihua Fairy gave this gift, saying that it might be more organic, and sent this gift. He gave back the photo.

Gifts, commemorating anything, that is nothing, the key is to say from the sable ancestors, the Baihua fairy is actually very powerful!

Regardless of what kind of opportunity in the future, Shen Lang feels that it is still good.

“This... is my personal, not very valuable, but very special. I want to keep it. I just took it out and looked at it.”

“You play me?” The white fox screamed.

“...”

Shen Lang helpless, can only say: “If you want to plant flowers, you must plant in the green hills, this I can help, the next time I come over, help you bring more, but this is the flower fairy sent me Gifts are not easy to trade.”

When he spoke, he was ready to pick it up first.

But this time the sachet was fixed in the air!

Chapter 1829 - 1 peer

“Friends of the Fox family, is this ready to grab it?” Shen Lang asked faintly.

He maintains a friendly attitude, even the role of a supporting assistant, in order to get what he wants.

If you don't get anything, but you have to be robbed of your own things, then don't blame him!

The giant python is hesitating.

Now what the white fox wants is an inconspicuous gift from Shen Lang. It treats all of its babies as a slap in the face, which makes it uncomfortable.

But Shen Lang is coming with it. If the white fox really wants to grab it, he should help him morally.

“I took the initiative to trade the goods, I gave you the opportunity to trade, and now do not recognize the account?” White Fox is not welcome.

“You can choose other things, there are many more here.”

“Others I can’t see!”

“...”

When I heard this, the giant python was not happy.

“I am the baby of Tianhe, do you still ask for it? You Xiaoqing, what do you have?” Let’s go!”

The giant python is venting for itself, and it is also a solid support for Shen Lang.

Shen Lang had a temporary discretion, and asked.

“Transactions are fine, but look at what you have to make me see.”

The words of Shen Lang re-throw everything back to the rules.

White Fox originally wanted to give them a chance to show up and refuse to trade.

Now Shen Lang is using the same method, the transaction can be, but it is necessary to see what you have.

If it is just an ordinary item, he can of course not look down on the rejection. If there is anything that is not good, the transaction is not impossible.

The white fox is of course also savvy, and I understand the thoughts of Shen Lang.

However, for Shen Lang and Jubilee, it does not dare to come hard.

“You can have a look.”

I don’t know how it stored the item, and in front of it, there are some items.

These items are very simple, only five.

And there are only two of the five.

One is two spirits that don’t know anything. The other three are stones.

“This is the unique green hills and green hills of our Qingqiu. They are rare treasures. In the human world, in other places, they want to pay a huge price and cannot buy them.”

When the white fox said it, it was a bit of pride.

However, Shen Lang and the giant eyes exchanged a look, they were speechless.

No interest at all!

Lingguo, the giant clam is brought out of the big box, it has no effect on it. This unique green hill is only suitable for their nine-tailed fox.

Shen Lang is also not interested, what he needs is truly unique.

For example, the heart of the fire, is interested. This Qingqiu stone is estimated to be a hidden identity. For him, it has already been tasteless.

Looking at their attitude, the white fox is not good.

“You are just a little flower seed, even abandoning our treasure of Qingqiu? You will come to Qingqiu, not just the treasure of our Qingqiu...”

Shen Lang interrupted its words.

“Wait a minute, first of all, this is not an ordinary flower seed, it is a flower of the flower fairy. You don’t know who the flower fairy is, as long as you know it is a very, very powerful person.”

“Secondly, Chengdu, which we just became a giant, came from the sky and traded with them. It was the rest of the things. I remembered that there are you here, not what you are trying to do.”

When Shen Lang emphasized these two points, the white fox looked carefully and seemed to want to find out if he had lied.

“Okay, if you have sincerity, come up with real good things, I can consider trading with you.”

Because the giant python has been said by the other party, it is a bit uncomfortable. If you don’t fight again, you will watch the fun next to it.

The white fox looked at Shen Lang and thought about it for a while. It was probably whether the trade-off was worth it.

“But it. Not trading.”

It said, and the goods were collected.

This next round of Shen Lang is a bit dazed.

Originally, the attitude of the white fox is a bit of a must for these flowers. It is thought that this has a great effect on Qingqiu, so I want it to take out more precious things.

I didn't expect to force it, but it gave up.

People are still prone to guilt...

When the other party wanted it, Shen Lang was unwilling to give it. Now suddenly it is not needed, and it is a bit unwilling.

"Let's go! There is nothing in Qingqi that is worth exchange."

The giants are too lazy to continue.

In its view, it's already a big face to run in person, and the other party can't see it! I have to trade a little bit like Chengdu.

"Go."

Shen Lang is also a bit regrettable. Qingqiu and Jiuwei hu have always made him a little excited. Unfortunately, they can't build a deeper relationship, and they can't trade anything good.

However, it is only a pity. His expectations were only from the "unknown". I don't know anything about Qingqiu.

The purpose of Shen Lang and Jue was originally here, because I didn't find it, I left a rest for a night.

Now that I have seen it, there is no possibility of trading, so I don't need to stay to waste time. It's not far from the past.

"Wait a minute!"

Just as they were preparing to fly away, the white fox spoke up.

“Your things are of little use to us; our things don’t help you much...”

This time it used a more peaceful term no longer said not to see, but not very useful.

“But maybe other places, such as Chengdu Sky Giant, may be needed. I can trade with you!”

Shen Lang understands that Qingqi relies on the hidden effect of this green hillstone, so that they have always been low-key reclusive in the Qingqiu, and there is no connection with the outside world.

But they still know more than the giants, understand the concept of trading, but there is no chance, and there is no such idea.

Now it may be that the giants who see Tongtianhe have come out to trade, and they want to take the opportunity to trade. Maybe they can transfer more things to some shortages through circulation.

“We are no longer going to Chengdu to carry the sky!”

Without the answer, the giant python could not help but refuse.

This makes it so cool!

Don’t you not look at my baby? Now I still want to follow us to trade? Think beautiful!

The white fox did not pay attention to it, but looked at Shen Lang.

“If you let me walk with you, I can give you a good thing that you can’t refuse, exchange the flower seeds of the flower fairy!”

It is to be seen that the idea that the giant python has not traded for thousands of years is definitely the influence of this human being!

This words attracted Shen Lang.

He came to the wilderness to find such an opportunity.

“A good thing that can’t be rejected, maybe just a good thing you think...”

“You can show it to you first. If you are not satisfied, you will give it up. But if you want to exchange, you must bring me together!” The white fox directly stated.

Shen Lang looked at the giant python, and the eyes of the giant python were watching.

Chapter 1830 - Aooka stone

Although the relationship with the giant python is not strong, it is good to be aligned first.

And there has been a cooperation, and together, we are more familiar.

For the Qingqiu white fox, and the relationship with the giant python, it is not cost-effective.

But Shen Lang did not want to let go of this opportunity.

When the two sides meet, he can read the meaning of the giant python – can’t ask for it!

Then he also returned a meaning of “I understand.”

“Your advice has some truth. If you bring your words, the next time we trade, we will have more choices and more success. But...”

Shen Lang gave it a sorry expression.

“I came from the human world, and I have very limited understanding of the great wilderness. Whether it is Chengdu, or Qingqiu, it is the way to lead the gods.”

“Now you have no idea about the things in Tongtianhe, and you don’t respect God. I don’t think he is upset. If you are not happy, you won’t bring you.”

This statement will undoubtedly make the giants very happy!

They both walk together and everything can be discussed with each other, but there must be a key person who plays the core role.

The meaning of Shen Lang’s current words is that it is based on it, and it will not accept it if it is not happy.

It was originally the overlord of the Tongtian River. The little monsters in the waters were crushed by it. Fortunately, they were thundered, and they dared to approach it.

There is a deep wave, it is the first time to feel the superiority of being surrounded and arched.

Therefore, for the human beings of Shenlang, it is intended to bring back to the bottom of the water, find opportunities to kill and eat, and now more and more think that this is a very good “helper.”

Let it enjoy a lot of experiences that have never been seen before, especially in front of other races.

“I can improve the places you don’t know!”

Once again, the white fox is overweight. If it is to be brought to them, of course, it will not be for the road, but if you want to unite together, you can grow stronger!

If it is going to go to a place alone, and talk to people, the other party will also distrust, and even suspect that it has a plot.

That's dangerous. If you don't want to be dangerous, you have to go with more nine-tailed foxes.

The more foxes in the same industry, the more people doubt their purpose, and ultimately they cannot succeed.

But with them, this strange combination will make people doubt, but also a bit curious, want to see what the purpose is, but to be successful.

Just as their reaction is like this, they are not directly involved in suspicion, but ask questions and eventually have more communication.

It can provide a trading force, and of course increase the weight with it.

The white fox is savvy, and the understanding of all aspects is stronger than that of the giant python. The scope of the activity is not necessarily larger than that of the Tongtian River, but it is more flexible.

It has already guessed that the giants may have limited knowledge, and will ignore the shame before they come to Qingqiu.

Then it's a plus, it can have a crucial role.

Sure enough, after hearing this, Shen Lang was silent and hearted.

According to the meaning of the giant python, it seems that other people know what is also very vague. This is the clearest one except Chengdu.

But the white fox has a clear direction.

I am satisfied with the vanity of the vanity. I heard this and I have no temper.

Its purpose is to sell these things and it doesn't matter to sell them to anyone. Shen Lang bought a little, and bought a little earth, but now there is no success.

If you leave like this, it will not be harvested at once, and there is no better place to go.

If the white fox can really provide a new place, perhaps you can sell a part, so you can ignore the disrespect of the white fox.

The giant python did not directly refuse, and Shen Lang knew that it was hesitant.

At this time, if you want to let it confirm, maybe it will not agree because of the face, he is much better to do this role.

Besides, the deal is now related to him, not to the giants.

“Look! If it is really acceptable, I will not deliberately marry.”

After Shen Lang agreed, the white fox released another thing, this time it was just one thing.

Look at this thing in the air.

Shen Lang slightly brows.

It can be seen at a glance, it is still a piece of green hillstone!

However, since the white fox dares to say that, it means that this piece of green hillstone, and the three stones before it, should still be different.

“Yes, this is still the green hillstone, but this is the best green hillstone, the effect is very strong. As for the specific role, I can not say more, as long as you come into contact, it will be.”

When the white fox spoke, the piece of the best bluestone flew to the front of the Shenlang. It also indicated that the Shenlang could directly contact.

Because the white fox is also very big, it may be a small stone, in front of the sinking waves, there are also fists.

Shen Lang does not know much about Qingqiu Stone.

I have searched the memory of the elk and have no memory of it.

It is estimated that Qingqiu keeps this secret very well, or there are other names outside, not called Qingqiu.

Anyway, he is interested, but now that White Fox has refused, is still so confident, and he wants to try it out and see what the **** is.

The giant clam is also watching, but it has no interest.

In its view, the white fox is trying to flicker.

But what it needs is the information that the white fox leads the way, whether the Shenlang will be fooled or not, it has nothing to do with it.

Just like excavating the earth-filled fire in Chengdu, Shen Lang won, it won't be good; if Shen Lang loses, it will not lose anything.

Shen Lang reached out and grabbed the fist-sized green hillstone.

At the moment of contact, he remained alert and guarded. It is counted that he is from the unknown night, and others will be harmed.

However, after the contact, his thoughts were immediately dispelled.

Because at that moment, the wheel of the celestial wheel not only did not produce a trace of dangerous warning, but there was a feeling that could not be said.

In general, it is a good omen, it is a good feeling.

Having said that, with the verification of the time of the wheel of the heavens, if the valley is in danger, it should be felt in advance.

In that case, before landing, you will realize that there is something underneath.

As a result, Shen Lang is completely relieved.

In any case, even if the white fox has annoyed their intentions, there is no killing, and more is to avoid them.

Perhaps, now there is a bit more to think about a win-win cooperation.

Starting with Qingqiu, Shenlang immediately has a mysterious experience.

This feeling is just like the feeling of the wheel of the universe. It is difficult to describe it in words. It is a mysterious and mysterious experience with many levels.
