

First Strong 1831

Chapter 1831 - God's feeling

It's just a fist-sized stone, but the feeling of Shen Lang's present is like holding a world in the palm of your hand!

This piece of green hillstone shows not a valley in the green hills, but really like a world.

This world is not a small world, but a huge world!

Probably because this is the world that appears in the "feeling", there is no limit on the territory, and the thoughts are released.

Shen Lang seems to have seen the ancient times hundreds of millions of years ago. He saw the formation of a planet, saw the changes of countless times, saw the movement of the stars, and saw the world from no life to the growth of everything.

The speed of everything is fast, and in his brain, it seems to play a movie at a high frame rate, an epic that reflects the growth of the planet.

In the whole process, Shen Lang himself seems to be no longer a person, not even a giant, but a **** standing in the universe!

This kind of feeling is so wonderful, as if a world is born and destroyed in its own palm, as if all the stars and rivers can be waved.

The world in the palm of the hand can freely decide its development and destruction. Everything that grows inside can grow at will, or let them die completely.

This kind of **** is not the great **** of cultivation, not even the **** of light, but the experience of a universal creation god!

This kind of feeling is really ridiculous, and even swells with the illusion of flying over the whole world and being integrated with the universe.

“You won’t refuse. Is it?”

The sound of the white fox sounded, and Shen Lang was shocked.

The sound seemed to come from a distant and ancient place, and it seemed to come from another world, as if it was ringing from the earphones.

This made his consciousness return immediately, and realized that the embarrassing state just now is very dangerous!

If the nine-tailed fox is malicious, use other means to lure him to hold the bluestone, and then when he is addicted to the world, he can sneak up on him.

Or... don’t need to disturb him, it is very likely that his mind will be obsessed with it, he will not wake up, he will not return to the real world, and he will behave in the body. If he is not good, he will become a ***** of sorrow and stagnation. Looks like it.

After all, that feeling is too realistic, and it is too unstoppable.

No matter who it is, master the power of the creation of the gods, even if it is a dream, do not want to wake up.

Just like an old movie hacker, there is a villain role, spit in the mother world: I know that I am plugging in the tube, the steak I am eating now is just a code, but it is so real...

When Shen Lang retracted his mind, when his eyes looked back, he and the eyes of the white fox confronted him.

Because the white fox has a huge body of nearly ten meters, the eyes are also very real before, and they have seen each other many times.

But this time, Shen Lang has a completely different feeling.

As if the white fox knew exactly what he had just experienced!

This is a tacit look!

This makes Shen Lang's mind a bit complicated.

It seems that they have a deep understanding of this kind of brilliant bluestone. Perhaps it is a way of practicing spirituality, and certainly has more experience.

He wants to know more and understand that this hillock is certainly not that simple.

The experience just happened, and it only makes him hallucinate, nor does it affect his spiritual will. After all, he has actually reached the height of the realm of the gods, and it is not so easy to be affected.

However, he does not want to have a common secret with the nine-tailed fox...

"I accept. Exchange it!"

Shen Lang gave the sachet of Baihua Fairy to the past.

He really can't refuse, because this thing is too attractive to him, he still wants to figure out more.

The sachet of the Baihua fairy, in addition to representing the Baihua fairy, has no effect on him for the time being.

"This means that you have to bring me and trade the items together."

When the white fox accepted the sachet, he emphasized one sentence and also looked at the giant python.

It seems to be saying: Can you be the master of this matter?

Shen Lang smiled and said: "Do not worry! The gods are not stingy. If you really have a relationship with your predecessors in Qingqiu, it is your elders, and you won't mind."

The giant python was originally a bad response, decided by Shen Lang, it can be half-pushed.

Now that Shen Lang's sentence is spoken, it is directly giving it a step.

And it is not stingy, it is the elder of the white fox, which makes it more comfortable.

The white fox is more savvy, and instantly understands the intention of Shen Lang to send a high hat to the giant python. It does not say much.

“That’s it. You can take a rest in other places. After dawn, I will take you there again!”

The white fox was very rude, even if it completed a transaction, and also reached a simple temporary companion, still decisively under the order.

This makes the giant a little unhappy.

It was just that it was going to go by itself, and then it was stopped, and now it is still driving them away!

It’s not the same when you go there, it’s being driven away.

Shen Lang is also crying and laughing, but he thinks more.

Qingqiu is the home of their nine-tailed fox family. Just like Yaochi’s inconvenience to stay in a male guest’s accommodation, he certainly does not want to stay outside.

Their two nights come in, it is because of the strong relationship. If you change your strength, you may not be able to get close to it, or you will be swallowed by them during the landing.

I haven’t pursued this one now, and it is the White Fox that solved the problem in its way.

But let them stay here, other foxes will not accept it, it may be a conflict. Where will there be no sluts!

“Yes. You are staring at you here, we are not natural, just waiting outside the green hill.”

Shen Lang himself does not matter, and does not feel that there is any loss of face, this sentence is a better step for the giant.

The giant python sighed with a cold breath and then flew straight out.

Shen Lang is also going out immediately.

I didn't feel it when I came in. When I went out, Shen Lang noticed it and found the whole valley, much bigger than I saw before!

More than a valley!

This is simply a country, a small world!

In an instant, he will understand.

Qingqiu may be a small world, the valley is an entrance, or a periphery.

They were accidentally smashed in, and the valley that fell into it, including the illumination bullets, they saw, they were just a valley.

However, after contacting the best bluestone, he has already had a connection with Qingqiu, and can directly see the entire Qingqiu world!

Chapter 1832 - Microcosm

Similar to the analysis of Shen Lang.

This time when I flew out of the valley, I felt a sense of separation from another space.

It is very indifferent, not careful without feeling.

After coming out, look at it again, the valley below is just a valley.

Even if he is now, he can't see the Qingqiu world.

And pay attention to the giant python, it is obviously not aware of all this.

“We will stay in the valley for a night.”

Shen Lang pointed to a valley next to it.

The giant python had no words and landed with Shen Lang.

However, with the previous experience, this time the giant python has been completely guarded, and if anything exists in the valley, it will be discovered in advance.

Shen Lang is just an ordinary landing. I don't think there will be other beasts and beasts around Qingqiu. The foxes should not appear in the valley next to them.

Sure enough, after going down, the giant ape was a bit disappointed.

The environment is basically the same except for the lack of streams. It is also a lush tree with strange rocks. There are no other beasts active.

After stopping, the giant couldn't help but ask.

“How about breaking the stone?”

Broken stone...

For the giant clam, it is a broken stone. The Tongtian River Basin is so large that there are all kinds of strange and strange stones. It has hollowed out the boulder as a box, and has collected stones with special effects.

But in general, it is invisible. With its current strength, it is the Yuanling Stone.

Shen Lang is inconvenient to say to him, it is a smile.

“My thing is not worth it. I originally wanted it to give us information about other places, but if it was given, it would not. It would be cheaper to bring it.”

When the giants heard this sentence, they were satisfied.

Yes! How much value does it have for the broken stone, look at it like that, at least it is a bit more precious than it was before.

The white fox can't look at the things that pass through the Tianhe River, and it can be done with some blood.

“Tomorrow, we still have to be careful. These white foxes are very cunning!”

I don't know if I remembered the relationship in the past, and I couldn't help but say the bad things about the white fox.

“What you said makes sense! I am sure to support you without a god. We are partners in cooperation.”

This sentence of Shen Lang makes the giant python very comfortable.

Although it is necessary to accept this new partner because of the relationship of information, it must be combined with Shen Lang, and the two old partners should be wary of rejecting new people.

This is what the mouth says, and the deep waves in the heart are also guarded against giants.

There is no dangerous feeling in the wheel of the celestial plane. Now I am going to Chengdu to carry the sky and the green hills, and I will get the heart fire and the green hills. It should be harvested even if I encounter the opportunity of the giant python.

In addition, starting from the underwater world, Shen Lang will obey this giant with a small amount of human dealings, and now it will not attack him again.

There is no other danger beside the green hills. Even if there is anything, there will be no catastrophe.

Shen Lang can safely study the Qingqiu stone.

This is not the same as the fire of the earth. It is very dangerous. If it is slightly careless, it will be directly destroyed by the fire of the earth.

This hillock may be mainly influenced by mental consciousness.

Shen Lang wants to make it clear, but in order to avoid sinking in it, he sets an alarm clock through the holy armor and wakes him up at regular intervals.

The giant python looked at him holding the stone and closed his eyes, and could not help but secretly disdain.

It feels that Lang Lang said that no matter how much value this thing has, in fact, he still has illusions, or is not willing to, and wants to study something.

But if it really has great benefits, can White Fox give it to you?

It ignores it and closes its eyes and waits for the arrival of the dawn.

Shen Lang once again caressed the Qingqiu stone, and consciousness is connected to an unnamed world, a special state.

But this time, it has a completely different experience than before!

It used to be a great macro world. I am the universe, and the universe is me.

This time it is entering a tiny micro world.

The feeling of Shen Lang seems to have entered the body, the internal organs, the vascular nerves, and then continue to penetrate in layers, and finally seems to enter the molecular, atomic world!

This feeling is very mysterious, but with the previous experience, he has been able to keep his heart.

It will not be obsessed by the cosmic power of the creation god, nor will it be humbled to death because of the microscopic arrival of molecules and atoms.

Deep in his consciousness, he has a clear understanding.

That is, the green hillstone is just a guiding influence, but it can't be born out of nothing!

For example, before the birth of the planet, the evolution of life, the growth of everything, the movement of the stars, the space of the universe, in fact, those pictures are all from the imagination of the changes in his head memory!

The same is true now.

It is Shen Lang's life. I have seen sci-fi movies, popular science documentaries, as large as the outer space of the universe, as small as cell tissue, and have been made with special effects. Moreover, there are zoomin and zoomout shooting techniques, which make people zoom in and out quickly.

These pictures may appear in a movie just a few seconds of footage, only remember the plot for a long time, and even the plot has forgotten.

But in fact, these pictures are still in the depths of memory. Qingqiu stone guides his spiritual consciousness. The subconscious mind naturally evokes these pictures and then

adds more imaginary pictures, so it shows the performance of such an extraordinary world.

.

With such a high-level cognition, Shen Lang maintains a sober whole person.

This kind of sobriety, instead of letting him “play”, can be more immersed and invested in it, so that he can better understand these changes.

Before the long wave of Shen Lang, after a long cultivation on the earth, it has truly studied the realm of harmony between man and nature. This world has modern scientific concepts, science fiction and pure fantasy literature and film, which greatly expands the world view.

Later, I have personally visited many worlds, and these have become a part of him, making him far better than the average person.

Not to mention the average person, it is the current cold autumn, in this respect, it is still far from being comparable to him.

Qingqiu Stone is a guide to the spiritual consciousness. With his deep understanding, the macro world, the micro world, or all other aspects are all freewheels!

This is just like a person dreaming. The average person is unconscious, but sometimes in the dream, he also knows that he is in a state of dreaming, and dreams are also very common.

If someone has researched and psychologically hinted at himself, when he is dreaming, he can actually manipulate his dream scene to achieve various immersive experiences.

Shen Lang is like this now. Because he has a clear understanding, he can enjoy both “dream” and “dream”.

Chapter 1833 - Mature girl

Originally, Shen Lang wanted to wake himself up with a time alarm clock. The result was not needed because he kept self-control throughout his entire journey.

Just one night, with this green hillstone, for Shen Lang, there is a huge harvest!

This kind of harvest is not an improvement of strength, but an improvement of spiritual cultivation.

This evening, as if he had experienced thousands of years of cultivation, there have been many experiences that the monks could not meet in their lifetime.

This includes expansion, including tempering, and various tests.

In addition to spiritual cultivation, there are many changes in the level of spiritual consciousness.

But if he wants to say something specifically, it is difficult to describe it. It is quite difficult to say a word.

When he opened his eyes in the morning and collected the green pebbles, the giant scorpion opened his eyes and looked at it.

“what?”

“what happened?”

The giant python looked at the waves a little weird.

It was originally intended to degenerate the sinking waves, saying that the green pebbles that he got, in fact, is of no use, and one night is also a white enlightenment.

However, when I looked at the waves, I always felt that he had a metamorphosis in his spirit.

As for what kind of transformation, it is not clear at a time.

Especially at first sight, there will be such a feeling, carefully look at it, and it seems that there is nothing.

“I don’t know, you seem to be a little changed, and it seems that there is no change. It may be my illusion.”

The giant python does not think that it is old-fashioned. The guess is that it should be seen in the dark waves holding the bluestones for a night, and the subconscious mind that he may have any changes, will have an illusion.

Shen Lang is the heart of the gods, he is very clear, this is a change.

It’s just that he himself can’t say the specific changes, no wonder the outsiders.

“Are we going to find the white fox now?”

Shen Lang’s words were just asked, and the giants immediately vetoed.

“Why do we want to find it? It is that it wants to go with us, of course, it is coming to us!”

Its tone is also with a trace of pride, for the disrespect of the white fox, still a bit uncomfortable, do not want to take the initiative.

Shen Lang nodded.

He actually wants to go to the valley next door, so you can see how the world is green. But he didn’t want the giants to go together and didn’t want to let it know so much.

Just as he was preparing to make excuses for himself, he immediately felt that the former white tiger had already appeared on the top of the mountain.

“coming!”

When Shen Lang and the hugely different eyes look at the past, the white figure has fallen from the sky.

The difference is because the coming is obviously the white fox last night. Everyone can still feel the familiar atmosphere, but it is not the appearance of the white fox, but a woman in Tsing Yi!

Tsing Yi woman!

The eyes of Giant and Shen Lang involuntarily looked at each other.

Then the giant python wants to laugh a little, this white fox actually wants to dress up as a human!

It doesn't mind, it's not dressed up in anyway.

So at this moment, I look at the waves in a bit of a lively look.

The white fox who came to talk with them last night dared to face them both, even if they kept taboo, it also showed its strength.

It is also a super beast god, comparable to the strong man of the human gods.

In such a realm, it is not difficult to transform.

But some like the body, like the Emperor, they keep the body, which is the best effect.

But in fact, there are some orcs who have contacted humans or have been ordered by humans. They will understand that human structure is more suitable for cultivation, and human exercises are shortcuts.

So they sometimes become adult, and this one is often called a demon.

Among the folk legends of the Earth China, the fox demon is the most common type of demon. It is often also with human beings. There have been many "exposing" and "appearing spirits", and some have been honored as foxes.

Therefore, Jue thinks that Shen Lang as a human being, being turned into a similar appearance by the white fox, will feel uncomfortable, but in fact, Shen Lang will not.

On the contrary, this white fox is also nearly ten meters high, and the giant python is also big, and he is not small enough, but not cool enough.

Now the white fox incarnates the human woman like him, it is much more natural.

“You were the nine-tailed fox fairy last night?”

Although I can feel the familiar atmosphere, Shen Lang asked a polite question.

I heard that Shen Lang called it a fox fairy, and it has become a nine-tailed fox that looks like a human woman. Listening is also quite satisfactory.

“I am going to take you to a place, but I don’t want to expose that I am a Qinghu fox, so I borrow the human shell.”

The white fox explained to Shen Lang and nodded to the giant python, saying hello.

After watching it down, the look of the Tsing Yi woman is very beautiful. Shen Lang even has a familiar feeling, but always feels unnatural.

This unnaturalness comes from the lack of human expression of the white fox.

This face is very beautiful, but like the star of the Wax Museum, or the idol star with no acting skills.

Beauty is beautiful, there is no soul. This is probably the case.

However, Shen Lang is not going to do anything with her, just peers, beautiful women without expressions, and much better than the appearance of the white fox deity.

Shen Lang soon relished it. Familiarity is really from this face!

Now the appearance of this white fox is exactly like a flower fairy!

Including the skirt on it, it is the same as the flower fairy.

I just don't know whether it is intentional or unintentional. It changes with the flower fairy, but it has a part that is similar or a little different, so it is the familiarity, not the recognition.

The suspicion of this sinking wave is also solved.

It is no wonder that this white fox insisted on trading the sachet of the flower fairy every night. It should be the old flower!

Here is in the Great Wilderness, and the grass and sea are very far apart. How can the Baihua Fairy be old with the Qingqiu Fox?

However, the Baihua fairy is inherently mysterious, and it is not necessarily in the grass sea. Perhaps it has been possible to find flowers to visit the Great Wilderness, visit Qingqiu, or Baihu once visited Caohai.

Shen Lang did not know, did not prompt this, but asked a sentence.

“This is the **** of the Tongtian River. My name is Shen Lang. The fox is in the face of people. How should I call it?”

For this, the White Fox is obviously also prepared.

“Call me white.”

The tail is... Bai Wei... White.

White fox, nine tails.

Shen Lang understands what it means, maybe they have their own way of communication and naming, which is to match human habits.

It's always good, if it's called Xiao Jiu and Xiao Bai, it's too common.

"Since you are human, I will not call you a fox, it will be called a white girl."

"Very good." Bai Hao nodded. "Are you ready?"

"Where are you going to take us?" The giants couldn't help but ask the first question.

Chapter 1834 - When riding

"Without borders, are you afraid that I will lie to you?"

The tone of the borderless is a bit arrogant, and the day is also a bit ***** for tat. Wild sand literature network

Shen Lang is friendly and it is also friendly. It's not polite, it's not welcome.

"It's not about cheating. We certainly believe in the white girl. We are very reassured about the foxes in Qingqiu."

Shen Lang played a round field. "You are not asking if we are ready? Just want to know first, there is a mental preparation."

This means that Shen Lang also wants to know that Bai Hao's attitude is slightly better.

"The place we are going to is not close. From here to the west, probably... with human calculations, there may be tens of thousands of miles, and I am not sure."

"..."

Shen Lang and the giant are speechless.

Tens of thousands of miles, it is really a bit far.

The giant is also secretly relieved.

If it is not far from the Tongtian River, there is still a race that exists, but it knows nothing. In front of Shen Lang, this human being, it loses face.

It is different after tens of thousands of miles. It usually does not leave that far, and it is normal to know that it is not normal.

“As for what is called there... Look at your appearance, have not been so far, tell you, you will not know the place. What are you facing, I am afraid to tell you, you dare not go.” ”

When Bai Hao said this, there was quite a hint of provocation.

As soon as Shen Lang heard it, he understood that this white fox is going to use the radical method.

He has already analyzed it. The reason why it dares not go alone is that it should be taboo, fearing that there will be no return. So it is only a matter of grasping the two of them.

And now I have to make a face-lift, but it is not only personal taboo, but also afraid of being tired of Qingqiu.

In this way, the place to go should be more dangerous; the race to face is more powerful!

Now use the radical method, which is even more illustrative.

If this is the case, then do you want to go?

It can be a jealousy, it is nothing. After all, the foxes are savvy and savvy, and it is normal to be cautious. Last night, they were both taboo.

But if you can make the whole Qingqi taboo, it should be a strong ethnic group!

When Shen Lang is still hesitating, the giant has been stimulated...

“I don’t dare? I don’t dare if I have no boundaries? I just think about it, so far apart, I am not used to it without water!”

Giant said so, Shen Lang also made a decision immediately.

Since the big and old ran away, isn’t it just to find more adventures?

Compared to coming from Yaochi, what counts in tens of thousands of miles.

Besides, the more powerful the group, the more likely it is. Perhaps you have the ability to eat all the stocks in Xinjiang, you can eat the extra items of Qingqiu, and there are some good things that they don’t have.

“Yes, white girl, we are not afraid.”

If you don’t see it, Shen Lang doesn’t seem to understand the radical method.

I heard both of them say this, Bai Yu continued: “Well, if you are not afraid, then give you some suspense first, then you naturally know. Now, what psychological preparation is needed?”

Shen Lang’s eyes looked at the giant.

He is ready to leave.

Of course, the giant can also leave, and in a few places it can also go.

It’s definitely not accustomed to leave the Tongtian River, but countless years have come like this. Recently, it’s going to be a wave to accompany the trade and experience something else.

There are now Shen Lang, and the white fox of this Qingqi is far better than it is to explore alone.

“I will also talk about it, I can’t stand without water. Let’s take the lead!”

After finishing the stool, I am ready to fly out of the valley.

“Wait a minute.”

When I heard the white, I complained a lot: “What happened?”

“You are so vast, we don’t need to fly on our own, you can do it on your back.”

When the day was finished, he slowly flew up and prepared to fall to the huge back shell.

Slow, it is a sudden rebellion, leaving a little buffer space.

The giant is really a bit angry!

Should you take care of you when you are a big man? Why?

Are you buying a ticket, or are you in a good relationship with you?

Shen Lang has been working together for a few times, and will not mention such a request.

Seeing that they have to fight again, Shen Lang is busy round the field.

“God, the white girl is also kind, so it won’t make you harder, but it can save us a lot. If you encounter any dangers and enemies on the road, you can better help.”

“You can rest assured that we will only be in your back and will not affect you.”

The words of Shen Lang suppressed the enthusiasm of the preparations.

It also makes sense to think about it, so that bringing them two, for it personally, a little bit of consumption, is negligible.

But if you really encounter enemies and the like, they can be very helpful, and you don't even need it to do it yourself.

The word "help" used by Shen Lang makes it feel that it is the core leader. It will hold back and acquiesce in them.

When two people flew up, Shen Lang couldn't help but see this white glance He had not dared to come up with it on these days with the giant, so there would be a kind of The feeling of the mount will make it uncomfortable.

I didn't expect the whites that I wouldn't have dealt with, and dared to mention this excessive demand.

But in the end, this excessive demand still requires him to achieve.

After going up, it was pointed out by Bai Hao, who stalked them to the west.

Long-distance flight, Shen Lang has a labor-saving method, that is, the use of the holy armor. It is also good to have a giant mount.

Because the distance is far, and it is in the air, after the direction is right, although it needs to be confirmed and corrected, it does not need to be watched at all times.

The white and the deep waves are on the back of the shell, and they are idle.

Shen Lang wants to know more about the world, except for the sacred record of the sacred record and the record. He himself is also full of attention.

And Bai Hao, but put a lot of attention on the Shen Lang.

“You are different.”

“What is different about me?”

“You are different from other human beings.”

“Well, it’s a big difference with the human beings in Chengdu.”

Shen Lang smiled and responded.

“Green hills, study it well, maybe it will help you a lot.”

Bai Hao said a deep meaning.

“Right, I am trying to ask the girl about the condition of the green hills.”

Shen Lang estimates that it should be something to see, after all, the giants see that he has changed the Qingqiu stone.

“There is no one to teach, and the individual has personal insights that others can’t replace.”

The white cockroach was directly rejected, and then stopped looking at the waves, but looked at the front.

Chapter 1835 - Ancient secret

The endurance of the giant python is quite good. Even if it is flying thousands of miles, it is stunned and does not require any rest.

Of course, this is definitely not as fast as it is in the water, and it is not so easy.

I set off early in the morning, although there was a slowdown on the road, stopping to identify the direction, but before the evening, I had already arrived at the place where Bai Yu said.

“The front is through the canyon.”

Shen Lang and the giant python looked at the canyon in front, a bit speechless.

“Then why let the gods stop and fly directly through this canyon?”

Just now, the white dragonfly stopped the giant clam and landed in front of the canyon.

Jueyuan thought it wanted to identify the direction, and the result was here.

There is still no expression on the face of Bai Yan. “From above, it will become the target of attack. You can only slowly move forward from this canyon.”

“...”

Shen Lang is a bit helpless: “It’s already here, you should tell us, what kind of race do you trade with?”

“Yes! What mystery do you still have to keep? Are you afraid that Laozi will go home?”

The giant python is a bit uncomfortable, flying so far, has arrived here, and it is impossible to run back directly.

It’s farther away than going to Chengdu, maybe even the farthest away, and the mood is not very good.

“Then you listened... the front is the funeral valley.”

“Funny Dragon Valley? What is that?” Shen Lang and the giant python asked at the same time.

White 媿 doesn’t know how many human expressions, or else it’s definitely a “you really don’t know”.

“You mean... there is a dragon here?” Shen Lang first reacted and asked a question.

“Not bad!”

Hearing this, whether it is the arrogant giants, or the calculation of their sinking waves, they are silent.

Dragon? Really have a dragon?

The iron armor, the dragon, and the dragon, which were encountered before Shen Lang, are actually only fierce beasts, but the name hangs the dragon, which is similar to the dragon, or has certain factors.

But with the real dragon, it is incomparable.

“The funeral dragon valley, the ancient dragon is buried.”

Bai Yan made up a sentence, seeing that they really didn't know, and they didn't look like they were scared. Besides, it has already arrived here, and it should not slip.

But if she doesn't make it clear, they should not continue to go.

So she explained it one by one. On the way, she was ready to word, and she was as short as possible.

Legend has it that in some time in ancient times, the dragons once dominated the whole world.

Because they are too powerful, other races, including humans, are humble and live in their own spheres. No one dares or no one can challenge the authority of the dragons.

This process does not know how long it has passed, and I don't know why the dragon has gradually disappeared for what reason.

Later, there were a variety of hypothetical analyses. Some said that the dragons were not creatures belonging to this world. They were creatures of other higher worlds. They just went to this place to play and then left.

It is also said that the dragons have found a way to the gods, so they left the world.

This world, like the earth, is like heaven for the self-cultivator, but they also have a higher level of aspirations – a certain ***** that does not know whether it exists or not.

Others are similar to the research direction of earth scientists, and they feel that the dragons are extinct because of the climate, or other conditions that are specific to them.

Or because of the difficulty of reproduction, it is becoming more and more rare. When the old life is dead, it will lead to extinction.

The dragons disappeared, and for other races, it is a huge plus!

The other races that were suppressed were given an unprecedented explosive growth. In this process, the Terran achieved the greatest results and became the new master of the world!

The Terran has not extinct all ethnic groups, and it is still a model of a small and unique family and peaceful coexistence.

The “forbidden land” scattered throughout the world, like the environment of the Golden Valley, is a living space left to all kinds of beasts.

These forbidden areas still belong to the human activity area, and there are many kinds of beasts and beasts, but the strength is limited, which belongs to the middle and low end.

Like in the Golden Valley, there are beasts that have been seen by Shen Lang in the periphery, and the beasts of the king’s level can already have a large territory. To the inner circle of the core, there is an active beast level.

Compared to the human monk, it is the Daxian level, a forbidden place, perhaps only a super ***** of the ***** level.

There are also some powerful races. When they were not willing to be delineated by humans, they went to such a far-reaching place as the Great Wilderness. The Kuafu giants are carrying the sky in Chengdu, and the Jiuwei foxes are in Qingqiu. It may also be the faraway of that era.

This is already a story.

After the disappearance of the dragons, the era of the rise of the various races, do not know when, do not know where to origin, there is a magic dragon!

The power of these dragons is a bit like a dragon, but the strength seems to be worse.

It is also said that these are actually dragons, or a branch of the dragons not that they are worse than the dragon, but the dragons encountered are not strong enough.

Moreover, as a former hegemon, the dragon has become a distant legend, and it has become more and more exaggerated. That kind of power is deified.

In fact, it may be the level of the dragon, but no one can verify it.

In any case, the parties still call the new one a magic dragon to show the difference.

When the dragons appeared, it was the period of the rapid development of all ethnic groups. Everyone was competing for the dominance of the world.

For the shadow of the dragon's dominance, let the strong powers of all ethnic groups unite in an unprecedented way, and all-round alliances.

The number of dragons is small, and there is no climate. Finally, they are all driven to the extreme western region, which is the later great wilderness.

Dedicated to the power of the various powerful people, all the dragons were killed in a place of great murder.

Later, this place was called the Funeral Valley because it ruined all the dragons.

For these ancient secrets, the giant python is completely ignorant.

In fact, it relied on countless times to grow up slowly in Tongtianhe. Later, it was killing and fighting all the way, standing firm, and gradually eliminating other competitors, and finally became the hegemon of Tongtianhe.

Unlike Qingqiu and Chengdu, it is a race and tribe with systematic inheritance.

Shen Lang is of course completely ignorant of these. In the process of listening to the story of Bai Yu, he also searches for the memory of the elk.

In the memory of the elk, there are some sporadic information. It is a simple ancient legend, a myth, and it is also told by Bai Yu.

“This is the place of the ancient murderer – the funeral valley?” Shen Lang seriously asked again.

Chapter 1836 - Magic dragon

Bai Hao nodded: “Not bad! So I dare not tell you before, because if you say it, you may not dare follow me.”

“What are you afraid of? Dragons! Not to mention the dragons that have been buried here!”

The giant python is a bit disdainful.

Bai Yu ignored it and continued: “This is why it is necessary to stop. The above is impossible to fly over, it will be attacked, not the attack of the ancient dragon, but the attack of this murderous land!”

“You mean this canyon, this funeral dragon valley will attack people?” Shen Lang was surprised.

“This gorge is the gateway to the burial dragon valley. It can’t be called the burial dragon valley. But even so, there is a fierce atmosphere that makes it impossible for anyone to fly to the sky. If you haven’t buried the dragon valley, you may fall first. ”

“Maybe... this is the great man of the ancient tribes, and the joint arrangement of the seals is forbidden to enter and bury the Dragon Valley.”

Shen Lang has a lot of mysteries, and he is also asking about it directly.

“If it is the joint seal of the ancient people of all ages, it is understandable to ban this murderous land. Why do you say that it is forbidden to enter and leave the Dragon Valley?”

“Someone goes in? Go in?”

“Isn’t the ancient dragons all ruined in this murderous land? Who is going to be banned?”

“Where are we here, who are we going to trade with? What is there in this burial dragon valley?”

A series of problems with Shen Lang made the giant screams secretly screamed. If there is no such savvy villain, it will be used by this white fox.

Although it doesn’t care much about the dragon, it also wants to see how the white cricket answers these questions.

Bai Hao has already prepared for these, but it has only been about the legend of the dragon and the dragon, but has not said it yet.

Now I heard the question of Shen Lang, and I answered it one by one.

“Because it is a murderous place, there are also some biological races in it. The dragons are all buried in them, and their bodies are very likely to affect the changes in the original environment.”

“This is something that needs to be prevented, and it is the people of all ethnic groups who want to prevent it from entering.”

“Own people?”

There are other creatures inside, swallowing the dragon, causing mutations and the like, and Shen Lang can understand. But what about the people of each ethnic group?

“The dragon’s body is a treasure. At that time, the great people of all ethnic groups fought in the funeral valley, and many of them fell.”

Bai Hao said that here, the giant python has not yet come to understand, Shen Lang has fully understood.

Humans and others have some adventurers, screaming at the Dragon Valley!

At the beginning, it was not easy for all the great people of the various ethnic groups to join hands to annihilate the dragon valley. The consumption was definitely great, plus the place of great murder, and there was no time to clean the battlefield.

There may even be a dragon that has not died yet, but it is trapped in a murderous place, letting it slowly become self-destructive.

Later, you will want to go inside, whether it is everything in the dragon, or the treasures of the various ethnic groups that are destroyed in it, as long as they can be taken out, they are very good things.

The wages of avarice is death.

For some races with insufficient strength and insufficient resources, or human sects, it is very likely that they will use this way to create a future.

Even if you will sacrifice a part for it, you will not hesitate.

But for the first batch of survivors, you must avoid this situation.

Otherwise, go to the latecomer who “tomb the tomb”, and let a dragon that has not died be released? Or bring out some evil creatures that are mutated in the most violent places, possessed, etc., which are likely to endanger the whole world.

Therefore, outside this burial dragon valley, there is a large seal prohibition, so that the creatures inside are not allowed to come out and the outside adventurers are not allowed to enter.

“The object we are going to trade now, of course, is not a dragon, but a race that lives in this outer canyon – the red porpoise.”

Then it briefly introduces this red porcupine race.

No one has known anything since ancient times, and Bai Yu does not know the specifics. It is unclear when these red porpoises appeared, but in combination with ancient legends, it should have appeared after the drake dragon was buried in the Dragon Valley.

In the beginning, there must be strong people of all ethnic groups guarding here. There must be no such time.

According to Bai Yu’s guess, it is very likely that it was originally a creature that buried the Dragon Valley. Later, it ate the body of the dragon, evolved and changed, and did not know how to come out of the funeral valley.

But even if there is a way to “jailbreak” ban, they are still used to this environment, so at most it is only in the outer canyon, and will not be far away from others.

In this way, it has not been discovered and valued by various ethnic groups.

Afterwards, the Terran has won the top spot in the process of fighting for hegemony. From the battle for the front, the alliance of cooperation, to the dominance of human beings, the stagnation of other families.

There is no one to pay attention to this, so that the red porpoise has the opportunity to develop.

After a long time, the funeral dragon valley has become a legend. Many races and many people have even blurred this. I think this is the story of myths and legends plus the great wilderness is in the west The burial dragon valley is still tens of thousands of miles west of the Tongtian River, and very few humans come here.

How did Qingqi discover it and what kind of experience he had, Bailu did not reveal it.

Just to emphasize that the things owned by the red porpoise are basically brought out from the funeral valley!

In what way, how long do they take it out, no one knows, they can't say it.

But as far as they do not leave the canyon's range of activities, what they have in their hands is unlikely to come from elsewhere.

These things are divided into two types, an ancient treasure, the weapons, magic weapons and the like of the great powers of all ethnic groups. The other is the items in the burial dragon valley, including the remains of the remaining keel, as well as the original things.

They are too far away from the funeral valley because of their habits or limited conditions. At most, they are within this canyon. The things that can be harvested are extremely limited.

In short, they don't need weapons, and they don't need all kinds of things, but the things they eat outside are excellent for them!

This is like Sun Wukong under the Wuxing Mountain. You can only drink some rain and eat some wild fruits. If there are people who pass by, they can bring some other food and drink to them. It is a good thing that can be met.

When you want to eat something else, and the people passing by may have been passing by for a long time, you are willing to exchange the things you have, and there is no bargaining power.

The day is to come and trade with them, but it does not dare to come alone, and it is not convenient for a group of nine-tailed foxes to come over.

So this time, the transaction between Shen Lang and the giant scorpion came to the heart, and I thought of coming here together.

Chapter 1837 - End-time red pig

When Bai Hao said this, basically he said that he had already said it, and then looked at both of them.

“So, I didn’t lie to you, the things we don’t want in Qingqiu, including our things that you don’t want, here, you can trade them.”

The giant scorpion and Shen Lang looked at each other.

They are all pondering the words of white, how many are true, and how many are fake.

“Now, when you think about it, look at what you are willing to come up with to trade, what is the success of the deal. And what you want.”

This is where the day comes, and even if he has not had the experience of trading, he has done his homework, and he is already fully prepared.

trade what? what do you want?

Both Shen Lang and Jubilee are a bit embarrassed.

Whether it is the funeral dragon valley, or the canyon, I don’t know anything. I suddenly heard that I know what this red porpoise has.

But the two of them are also free and easy.

Shen Lang himself does not have any specific goals. To make a big rain, it is to see a little strange place and get something different.

It is necessary to bury the Dragon Valley and the Azolla, which are completely unknown. Just coming here, knowing this, it is already worthwhile.

Anything else can be unexpected income.

The giant python is because there are a lot of items, as long as it can be traded, even if it is part, it is also worthy.

Seeing that they have nothing to say, Bai Yu said directly: "Be prepared, then go in now."

"Row."

"Be careful to guard against each other, but don't take the initiative to provocative."

Shen Lang and Jubilee agreed, even if it is not guilty, they will notice this.

For the red porpoise that I don't know, it will inevitably remain prepared and will not be provocative.

Because you don't fly over from it, you go straight in from the canyon.

Bai Hao took the initiative to go to the front, and Shen Lang was in parallel with it, and the giant clam crawled behind.

The entrance to the canyon is a huge sky, and the left and right are towering high and there are dozens of spaces in the middle.

Where they fell, they could not see trees or the like. And close to the inside of the canyon, it is not a vegetation.

This is not as obvious as the hot weather in Chengdu, but the whole can still feel that the environment is different from the outside world.

This kind of abnormality is difficult to express clearly, because it is not a simple physical feeling, and even a kind of psychological pressure.

The three of them entered the gorge along the mouth of the canyon, and there was a passage for several miles.

White 妮 did not speed up, or simply step by step forward, Shen Lang is also followed.

They didn't talk, and they all kept a high level of alert.

Shen Lang feels that the environment is changing obviously. The more you go forward, the more obvious it is.

When the passage went about halfway forward, there was a feeling of a gust of wind!

"Here... it looks like it was being opened."

Shen Lang easily said one of his feelings.

This is said to make the giant clam and the white cic a bit surprised.

They didn't think about it. Now, when Shen Lang said this, he immediately had a strange feeling. Looking at the front, looking up at it, and looking back at it, I really felt that it was like a channel that was opened. .

The width is several tens of feet, and the length of the whole channel is very flat. If it is a super strong person, the mountain rock wall is opened like this, but it is also a bit like, of course, there is no lack of natural.

They didn't say anything about it. Everyone was more careful under the storm.

According to the description of the day, from the end of this passage, it is to a canyon. Inside the canyon is the environment in which the red porpoise lives, and when it continues, it is the burial dragon valley.

So the rest of the paragraph, everyone unconsciously slowed down a little bit, and then a little closer to the passage of that passage.

The result is still normal and there is no danger in this section.

Everyone is a little relieved.

At the end of the passage, the front is also suddenly open, presenting the entire canyon.

The canyon is very large, but the scene inside is quite a bit like the ruins of the last days!

The grass on the ground is not born, the air is like a heavy haze, the ground is presented, although there is nothing, but it gives the feeling of ruins.

I don't know if it was the enlightenment of Qingqiu, and the feeling of Shenlang is much more acute. When I come here, the body feels the yin wind, and the consciousness feels a desolation and tragic from ancient times!

Shen Lang has a feeling that the ancient ethnic groups are fighting here with the magic dragon...

He also couldn't figure out whether it was really felt, or because he had listened to the story of Bai Yu and imagined the brain to make up.

“coming.....”

Shen Lang is next to Bai Yu, but the first word has just been heard, and I have already seen the arrival of the black porpoise.

Shen Lang sees it really, their name is Azolla, it really is a red pig!

It looks a bit like a pig, but the head is several times bigger than an elephant, and they are fast.

There is a different point from the pig. It is also obvious that in addition to the running of the four feet, they also have a pair of wings.

Probably running fast, plus the wings of the tiger, so they immediately rushed to them.

The giant scorpion maintains a high-defense defensive state, and the same is true for the swell.

When Bai Hao reminded them, he had already extended his hand and put down his guard. Then he immediately changed his mouth and talked with the Azolla.

“The great burial dragon valley, the porpoise, we come from afar, want to send gifts for you!”

The first batch of red porpoises appeared, with a total of eight heads. They completely surrounded them three and did not give them the possibility to go back.

However, the red porpoise still listened to the words of the day.

For the white priests who gave up their guard, they did not seem to be staring again. The focus was on the highly defensive waves and giants.

With the introduction of Bai Yu, it is also the release of a batch of items appearing in front of the air, is the fruit of some Qingqiu.

“These are gifts for everyone.”

The white cricket said that it was not fast, that is, to avoid them firing, and then manipulate the spirit of the air, flew to them in front of them, two in front of a red porcupine.

These red dolphins are still aware of the goods. They know that this is a valuable thing, and they do not need to identify whether they are toxic. In the environment where they live in this murderous place, maybe toxic items are also helpful to them.

Therefore, they do not speak, directly a mouth, the two small spirits in front of them, directly swallowed.

Looking at the number of these red porpoises, and this environment, Shen Lang understands why the white scorpion is going to pull them up, and if it is a little careless, it will be played.

Chapter 1838 - As long as you can eat

The first strong one, the first volume of the first thousand eight hundred and eighty-eighth chapters, as long as you eat the next white will take the initiative to provide two fruit, in fact, is a sample, in order to get the other party's recognition, you must prove your value .

After they have swallowed, they will not absorb it right away, but at least they can feel the effect.

Just waiting for a while, there was a positive red pig opening.

“Human, what do you want to do?”

“As I just said, we want to come over and send gifts. We bring a lot of things. I don't know how much you need.”

Shen Lang feels that there is a surprise in this great wasteland. In Qingqiu, the gods can't sense the existence and strength of these white foxes. In the canyon in front of this burial dragon valley, these red porpoise red pigs can not see the specific strength.

However, Bai Hao certainly knows more information, whether it is clear by himself or by Qingqiu.

Before the day, the cockroaches were not very polite, because they were both jealous. Now, for these red porpoises, it is obviously very good.

This may be on the site of the black porpoise, the number of red porpoises is large, or it may be the strength of the red porpoise!

“We are here to trade.”

Shen Lang also spoke, he said directly more clearly, the transaction is a transaction, he can not be a gift.

Just finished, I immediately heard the voice of Bai Yu.

“Don’t provoke them! Here, our strength will be greatly suppressed, and they have a huge bonus!”

This piece of information, which has not been said before, is only to guard them but not to provoke them. Now they are afraid of the chaos and have to say it.

Shen Lang was slightly surprised, and immediately told the information to the giant python, lest the turtle could not help but accidentally.

I don’t know if it’s in the scope of the murderous land. I don’t know if it’s in the forbidden area, but since Bai’s said it, it’s definitely the same thing.

The strength is suppressed and greatly discounted, which is very troublesome.

On the one hand, the real discount is the strength, and on the other hand, because of the unaccustomedness under the suppression, it often leads to the mistake of judgment!

The other party will have a bonus, and if you don’t know how many, you really don’t want to do it.

Perhaps the good attitude of Bai Hao, perhaps the words of Shen Lang, is not a provocative offense. The red porpoises just looked at him and did not show any dissatisfaction.

“What do you have, take it out!”

Before Shen Lang, I still felt that the red porpoise could not be separated from here. It was rare for a passerby to come over and they should have no bargaining power.

Look at it now, or are they stronger?

However, “coming to come”, of course, will not go back empty-handed.

The main thing to sell is the white pelicans and the giant pythons. The swells are followed, and they want to see what they bought.

Bai Hao immediately presented the “specialties” of many Qingqiu that it brought. It was a little different from last night. It did not present green hillstones, but all of them were various spirits.

The giant scorpion has also left a heart, and did not take the shot first. After watching the day, it began to take out.

And it is also a kind of learning, the most precious thing in its box is not presented, but the large number of aquatic spirits are displayed.

All the black porpoises did not look at the three of them and focused their attention on these spirits.

Shen Lang has a strange feeling, as if several of them are food dealers, and they have sold vegetables to places like vegetables in the snowy plateau...

The porpoises have been watched for a while, and some of them have the spirits of Qingqiu, which they have just tasted, and they feel satisfied.

“The number and type are a little less.” The red porpoise red pig said another.

This makes the eyes of the giants grow a little bigger.

The quantity and type are still too small!

Sure enough, this is a generous shot!

Chengdu has a strong need for Tianshen, or the spirit of Shen Lang's contribution. After changing their hearts and fires, they only changed; Qingqiu directly said that it could not be seen, contrasting it, let it be cool!

“As long as you can eat it!”

The giant scorpion put all the boxes he had collected, and although these are not spiritual fruits, they should be able to use them.

It has already been brought out, and it can sell more, so you don't have to go back.

The red porpoise looked at the reappearing, and the obvious eyes lit up.

They are not small, their eyes are big, and they are concerned by the giants.

Although I didn't say anything, it also made it secretly smug.

It has a feeling of “showing the rich” success, as if invisibly, the Shenlang, especially the Qingqiu!

Shen Lang is still a partner, poor, Qingqiu, this white fox is not something that does not look at it? Now it is more valuable!

There is no expression change in the day, and it stays still.

At this time, another red porpoise stared at the sinking waves.

“What about you?”

“I don't have much stuff.”

Shen Lang put all the previous medicines and fruits that were sorted out before, all of them were released.

This time he did not even take out the jade peach.

No rabbits don't scatter the eagle!

The Kuafu father of Chengdu, the nine-tailed fox family of Qingqiu, although he has not seen it, can also trust it.

This red porpoise is the product of the murderous land, or be careful. What if they don't use them?

Shen Lang feared that they would swallow the jade peach directly as before, and they could not recover it.

The number of kinds he displayed, there are certain types of but the value is much worse, directly let the red porpoise a bit disdain. Probably better than nothing, and did not let him close.

"These gifts, we have accepted, you can go!"

The red porpoise expressed satisfaction with the whole game and then went directly to the order.

"What do you mean?" The giant cockroach immediately changed his face. "Do you collude with them to hang us?"

Because the "gift" argument is said by Bai Yu, and first sent a dozen or so spirits.

So now that I have said this, I will immediately let the sorrow of the sorrows come.

At this time, Bai Hao did not care about it, but said it to the Acupoint.

"These are the gifts we have prepared, and they can all be offered to you. But according to the rules, you should also give us the corresponding gifts and exchange them."

Although Bai Hao is not strong, but it is also methodical, which makes the giants feel a little relieved.

At this time, the eyes of the eyes saw Shen Lang looking at it.

“Put the things first!”

Shen Lang quickly conveyed a sentence.

His relationship with Qingqiu, which was the transaction last night, was also guarded against the day.

The giant python is different. From the beginning, it has penetrated its temperament. Follow it, not to manipulate it, at least to disguise it.

And this is the place brought by the day, there are still suspicious things, he is naturally the first to smash.

“These are all left, you roll! If you don’t want to roll, you will stay!”

That is a bit arrogant, they are not only polite, they not only eat, but also have a fixed attitude!

Chapter 1839 - hit!

The last sentence of the red porpoise, the meaning is already very obvious.

If you want to live, leave something to go!

I don’t want to go out, that person will stay, and I will be eaten!

This is said, listening to the ears of Shen Lang, can not help but ignite, not to mention the tycoon that has been used by the overlord.

It immediately raged!

At this moment, it is also secretly admiring the Shen Lang, Shen Lang just let it first collect things, and sure enough, no mistakes!

Moreover, Shen Lang is a separate voice to let it close, and does not remind Bai Hao, naturally it is regarded as a more important partner.

“Just by you?”

When it was cold and ironic, it also collected all the things, and the daylight did not need to smash the waves, and he immediately took away many of the spirits.

The relative value of Shen Lang's things is not big, but it can't be wasted, and it's all collected.

“Then all stay!”

Seeing them like this, the red porpoises are a little impatient.

Since everything is collected, it is impossible to let them go again, and they must stay with them together with all the items!

“Hey-!”

The giant screamed and screamed to strengthen his voice.

But angry and angry, it does not dare to carelessly.

Because now there are only eight enemies, and they are three.

More importantly, the strength of these red porpoises cannot be distinguished!

Adding to the voice of Shen Lang just telling it, the environment here will suppress their strength, but for these red porpoises, it is the effect of improving the bonus.

Under the circumstance, their situation is not optimistic!

The impact of the giant clam on the environment is deeply understood. For example, it is also its own. In Tongtianhe, it is very different from the performance of the strength in Chengdu.

And this is only the impact of the natural environment, and has not yet achieved the effect of suppression. The extent of the suppression of the periphery of this murderous land is not clear until it is done...

Compared with the giant python, it is quite a bit sinful, and the reaction of Shen Lang and Bai Yu is quiet.

Bai Hao was brought by everyone. She has just been suspected by the giants. If she can't get the trust of it and Shen Lang, then she will suffer from the enemy.

To this end, it responded the fastest, and before the apis had not yet started, they quickly applied a layer of protection to the three surrounding areas.

The eight-headed porpoises are surrounded by three of them. Now with a layer of protection, they are blocked in front of them.

"You are a bit of a porpoise! We are coming from afar to exchange items with you. Everyone needs it. If you want to grab it, it will spread. Who else will dare to bury Long Valley?"

Active defense, and leave the back to the giants and the deep waves, in order to win the trust of both of them.

However, it is still argued that it is necessary to reason with the Chili Dolphin and strive for a peaceful solution.

Shen Lang is directly transmitting to them two.

"The reason can't be said, get ready, hit!"

For these red porpoises, after a while, Shen Lang is already seeing through. They are strong in their own strength, and they are sure to eat them.

As for what the future is, they may not consider it at all.

The porpoise that has always been speaking, said in a sullen voice: "If you leave you, you will not spread."

When I heard this, Bai Hao was also disappointed.

It seems that the other party has already been ready, even if they do not put things away, these red porpoises will still find an excuse to leave them behind!

This is also the situation that Bai Hao has been worried about, so I dare not come alone before.

The swell of the hand wave, the iron rod suddenly flew out and appeared in his hand.

"Everyone is scattered!"

After the sentence was finished, he had already flew out fiercely and directly rushed to the side of a red porpoise!

Dispersed?

Both Bai Yu and Jubilee were slightly surprised. According to normal and plain thinking, they felt that they should be back to back.

They are three evenly back to back, and one person only needs to hold one hundred and twenty degrees. If dispersed, each person must defend himself three hundred and sixty degrees.

But for Shen Lang, they are decisively obeying!

Although Jue thinks that it is the core, Shen Lang is helping him, but he still recognizes the wisdom of Shen Lang, and many of them follow his advice.

White 妮妮看不不看妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮妮
妮妮

And it is also seen, the bright side seems to be holding a giant python, in fact, the general direction has always been dominated by Shen Lang.

So I heard the suggestion of Shen Lang, it was slightly hesitant, but still obeyed, and quickly rushed out in the direction of the front.

They obey the orders of Shen Lang, and they are completely blind to follow-up thinking.

But when they collided in different directions, they immediately realized why Shen Lang decided this way!

The three back-to-back, although not behind the defense, but also support each other. The enemy averages two to three red porpoises.

But that is the encirclement of an eight-headed porpoise!

If you are separated, what you have to face is the encirclement of two to three heads.

The encirclement of the eight heads is undoubtedly more rigorous and they can work better together.

Now they have surrounded them. Once they go all out, it will be a piece of iron, and it will be difficult to break through.

So after the separation, the two of them can't take care of the other, they choose to intersperse into the middle of the two porpoises!

Only Shen Lang directly rushed to one of the red porpoises.

The red porpoise was not at all polite, and opened his mouth directly. The huge fangs were closed together, and the squid was directly smashed and eaten!

Humans, for them, eat and eat, it is nothing.

When its mouth has not yet reached the side of Shenlang, it has already spurted a rotten smell, which is a very strong venom atmosphere!

This ensures that it has not touched the prey, and immediately stuns the prey and then directly refuses to swallow.

But this time its opponent is Shen Lang, who is the prey, it is difficult to say...

The red porpoise looked at the poisonous gas that had already sprayed on the sinking wave, and then it bite into the innermost part. It immediately gnawed its teeth and chewed it.

The result was found to have bitten an empty!

The bite is just chewing, and no meat is bitten!

It was just close to the mouth of the pig. The visual blind spot was a bit. The other red porpoise next to it was clearly seen. When the poison gas spurted, the swell suddenly disappeared!

The red porpoise immediately realized that it was wrong, and then received the information that the partner passed through them.

Since this human being has suddenly disappeared and has not appeared in the front and left and right directions, where can it be? It quickly turned around and lost its shape!

Chapter 1840 - Ambush

Just when the red dolphins turned around, they suddenly realized that something was wrong!

But it is turning, even if it is faster, it will take time to return. The result is that it just realized that something is wrong, and immediately took a slap in the face!

Shen Lang just rushed to it directly, which is to make it clear.

Even if it does not smear poison gas, if it does not bite, it will be as planned.

When he was close to the red porpoise, he suddenly entered the space of the heavenly book.

Then calculate the time in it and be ready to come back.

For the side of the red porpoise, Shen Lang disappeared and then reappeared. But for the Shenlang in the space of Tianshu, it is already a quick smashing of the Emperor's behemoth!

However, he did not immediately call the dog god, just let it be ready, ready to hit an ambush.

Come back again, it was the red dolphins who mistakenly thought that when he got behind him and quickly turned around, the iron bars that had already been prepared, containing the power of shackles, directly hit the head of the porpoise!

Because knowing that this will suppress the strength, so Shen Lang has no mercy, the power of this stick has used all strength.

A stick of cracked rock broke through the head of the red porpoise, causing it to stun.

Fortunately, the environment here limits the power of Shen Lang and increases all aspects of it. This is the effect, or else it really wants to make it headshot!

After this stick was knocked, Shen Lang did not stop for a while, and once again entered the space of heaven!

Next to the red porpoise, of course, rushed to reinforce.

Although they are red pigs, they are different from pigs and have sharp claws.

It was not far from each other. When Shen Lang rushed to the black porpoise, the left and right red porpoises had already been attacked, but he suddenly disappeared and let them lose their goals.

When it comes back, it's too late to ask for help. It's just to continue the attack that hasn't stopped yet.

As a result, Shen Lang disappeared again, and the claws they attacked were inserted into the red porpoise!

Undoubtedly, these red porpoises are red and fleshy, and in this murderous place, they have tempered an excellent defense. And their claws have a very sharp destructive power.

If it is a general attack, it may not be able to break the defense of their flesh.

If they are attacks on the outside world, their claws may tear them at any time.

Now, just like self-contradictory, their own sharp claws are torn over the firm flesh of the red porpoise.

Of course, the destructive power occupied the top, and the claws fell directly into the flesh.

In this way, the three-headed porpoises are even more like one.

The red porpoise that turned around, his head was stunned by a wave of smashing, and he was already dull and sluggish. As a result, he was kicked by the partner, and he woke up and gave a long sigh!

At this time, Shen Lang appeared again.

After entering this time, he communicated with the dog ***** again, because they realized communication, they could quickly transmit information, and they had a hundred times of time, even zero and one second, and ten seconds.

The result is that the two ready to come out together!

As soon as the dog ***** came out, he quickly recovered the body, and the claws tore out to the left and right diatoms. At the same time, the mouth of the mouth directly bit the injured porpoise, swallowing it in the mouth!

The great body of the Emperor's behemoth, such as a small mountain, makes the porpoises a glimpse.

And because Shen Lang has communicated with it, it is ready when it comes out.

When it opened its mouth and bite it, the mouth was not as big as the red porpoise. When it was bitten into the head of the red porpoise, it was already almost big. When it was bitten, it could already bite the whole red porpoise!

The same is true of its claws. When it comes out, it grows rapidly and rapidly. When they are both around, it is not just a sneak attack, it is not only a fast grip, but also a huge claw.

Needless to say, the already injured red porpoise, it did not have time to play its own strength, stunned and sap, and then by his partner "two ribs knife", then suddenly bitten, chewed!

It is undoubtedly very embarrassing to die...

However, it is an opportunity to scream, and it is already dead. Its two partners are really shouting.

They were originally trying to hit the enemy. They didn't expect the enemy to hit, but they hit the partner.

This is very helpless and very embarrassing, and the results have not yet had time, suddenly a new guy appeared out of thin air, and quickly become bigger, bigger than them!

Not surprised yet, the big claws have caught them!

The result is that they watched their partner bite, chewed by the big mouth, and they were rubbed against each other.

The dog **** appears here, and naturally it will be suppressed, but it appears too abrupt. This is no longer an enemy, an enemy that is not known at all.

And these two porpoises have just hit their own partners instinctive reaction is naturally will take the strength, so as not to break the partner.

Above the key points of their unloading, the dog's big claws, quickly smashed over, let them completely lose their chances. When they want to resist, they have been quickly scratched by the claws.

To their surprise, when they were devastated by the big claws, there was a figure under the giant, the human!

Yes, Shen Lang is small in the body of the Emperor's behemoth. It is both protection and cover, and it is a calm attack.

The result is that these two red porpoises, even the last desperate have no chance, they were hit by the iron bars of Shen Lang!

Dog gods are practicing in the space of heaven in these days. The surging of the waves is about ten days in the past, and it is equal to several years!

Let it cooperate with the spirit, and the former like the dragon elephant beast, the apostle, etc., have been digested in advance.

The result of course is that it has evolved again!

These benefits are given to it by Shen Lang, making it even more grateful. It was difficult to sink the waves, it will help, not to mention now.

Just now, Shen Lang has already negotiated with it and told the plan.

So it comes out, it is directly the implementation of Shen Lang's plan.

After successfully chewing the red porpoise, it swallowed quickly, and then smashed the smashing sticks, and then opened their mouths and swallowed the two red porpoise one after another!

Just like the joint attack on the apostles in Guangmingshan, for a while, the eight-headed black porpoise was bitten by the dog ***** and swallowed three heads!

This scene directly shocked the other three beasts on the scene!
