

First Strong 1851

Chapter 1851 - Killing a single horse

At this time, Shen Lang has returned to the valley outside the Qingqiu with giant pythons and white pelicans!

“This is...” White was a little surprised.

“Safe! How did you do it?” Jubilee is very excited.

Shen Lang nodded: “The purpose of your trading has been reached. I am trading with you, this is also responsible for your safety.”

“Thank you!” Bai Hao seriously thanked.

It does need security and needs to send the skeleton of the ancestor back.

Although that is not the real ancestor, it is the ancestor of the Qingqiu that they are now circulating.

This has an important role and significance for them!

Jubilee heard something else: “What is responsible for us?”

“Hey God, I will send you here, not far from the Tianhe River, you will go back.”

“You are leaving?” Bai Hao and the giant cub called at the same time.

Shen Lang smiled slightly: “No! I am sending you back, I will kill myself!”

“Kill back!”

The white pheasant and the giant python screamed again.

That is the great five dragons!

Even if you don't understand their fierce name, don't understand their past. The strength of the five people is so good, there are five dragons.

"I don't respect me, I have to pay the price!"

"..."

Shen Lang's faint appropriation directly shocked both of them.

If they were before, they would all sneer at it. I think this human kid is too arrogant.

However, after the blitzkrieg of the gorge in the canyon, they have seen the mysterious strength of Shenlang.

So when I heard the words of Shen Lang, because the Great Five Five Dragons disrespected him, he would have to send them away and then kill them alone!

They can't help but think of them, they are considered to be disrespectful to him!

This is also thanks to him for not killing.

"Are you sure? If you forget it, we are safe to get out."

The python is also angry. To be disrespectful, it is more qualified to say that it is disrespectful. At that time, it was directly slandered, but it is still sensible.

"Let's go back! I will go back to them again. Even if I can't get rid of all the great five dragons, I can kill one or two. It can be considered as a great waste. I don't want to come here!"

After Shen Lang finished, the Kunlun mirror of the Three Realms was already prepared, and he was sent back to the outside of the canyon again.

He used to secretly use artifacts when he was talking to Liu Zheng.

If it is transmitted in the same world, the mental energy consumed is much smaller than that of crossing another world. Even if it is transmitted in succession, it will have no effect on Shen Lang.

What I just said to the two of them, of course, is to force them, because they don't need to talk too much to them, and they don't need their help.

Because... don't say that you have a share, at least you have a share of it?

The purpose of Shen Lang is of course the resources of the Great Wild Five!

They can't be unpredictable, they can appear there on time, and naturally there are mature methods.

That means that before today, they must have had a successful experience! And more than once!

In their body, is there a burial dragon grain item like a keel?

Shen Lang is trying to get a little more contact with the items of the Dragon Valley, but it is impossible for the Red Dolphin King. The other party is very wary of him.

Before the wilderness, which people and ethnic groups have come to trade here, it is the best understanding of this information, and it is impossible to know.

Originally, Shen Lang could only leave with regret.

But the appearance of the Great Five Dragons gave him the feeling that he was sent to the door.

If you want to work together, you must be divided into one. Other items will be gone, and there will be no more things to bury Long Valley. What should I do when I get there?

Shen Lang is definitely trying to monopolize!

Besides, the two of them are on the side, although they can help a certain amount of time. But what if you are in danger?

Can't help but save? Then it becomes a burden.

Therefore, Shen Lang decided on the spot, first send them back, and kill them alone!

It is his own words, and there are more ways to use it, without needing to be exposed to more people.

With the space of heaven and the behemoth of the Emperor, he is sure that he can come in a seven-in and seven-out drama.

Outside the canyon.

The Great Wild Five Longan looked at the Shenlang and they disappeared. The space fluctuations just made them understand that it must have been sent to a long distance.

They have encountered the "enthusiasm invitation" of the Red Dolphin King, they are a bit complicated.

The result is already the same. It doesn't make sense to keep it here, and you can't really trade with the Azolla.

So Liu Zheng sighed: "Go!"

Then, just like when they came, everyone controlled the dragon ***** and quickly flew off the scene.

Except for one person.

That is the thief.

Thieves is definitely a nickname, I don't know if it's because of a special thief.

Anyway, the goal disappeared, the porpoise was stunned, and other people including Liu Zheng decided to implement the retreat.

The thief is still a bit unwilling!

He stopped alone and searched carefully around him.

He felt that it was a little unbelievable to be able to send away from a long distance, maybe it was just hidden in what way.

As long as he observes it carefully enough, there is still a chance for the hidden person to find out.

Even if the five of them join hands, there is no problem of uneven distribution, but it is not as good as one person.

The problem of thief grass is because it is too confident, I feel that I can make it, and I feel that they should be nearby. As long as he can find it and be able to attack it, then it is all alone!

As a result, he did not have time to search carefully, and he felt a glimmer of space, just like the previous fluctuations!

The thief is overjoyed!

The spatial fluctuations that I just felt may be transmitted, or they may be just stealth. If it is invisible, then the same fluctuations now appear, it may be to dedicate yourself!

After stealth, they can't see it, but the enemy may still see them. The present dedication is to find that he is alone, and wants to come out and attack him!

This consideration of the thief grass gives him a feeling that he can count the meter right away!

Under his excitement, he immediately manipulated his mastery.

In an instant, he controlled all the surrounding space in his field. Then all the grass on the ground was soaring rapidly, and it became like a myriad of sharp spikes. Like countless weapons, he twisted the space to the place where the space fluctuated. past!

The thief is fully prepared and the effect is very good.

However, it is already close to the periphery of the murderous land. There are very few vegetations. Although he has been cast by his spells, but the base is there, the overall play is limited. In terms of the inherent level of thieves, it is like a discount. .

Moreover, he "the thief-grabbing attack" that "will count the anti-sneak attack", the speed is fast and the transmission of the door of the Three Realms is fast.

When the crazy thief grass attacked the past, Shen Lang has reappeared.

Chapter 1852 - 1 stick

?

Since Shen Lang wants to kill a carbine, the key is to achieve the effect of surprise attack!

Therefore, he will not open his mouth to anger them, will not go to the mouth, and provoke, but maintain a high degree of alert, and direct attack as soon as it appears!

The door of the Three Realms has just sent him back. The iron bar has already appeared in the hands of Shen Lang. When he looked at and sensed the surrounding situation, he quickly smashed out!

At this moment, the fast and mad grass, like countless thorns, gathered directly to the place where the Shenlang appeared. It was halfway, and it took only a little time to get it all together.

These grasses are not ordinary grasses. They are promoted by thieves and grasses. They are not only sharp and sharp, but also tough. It is also that the barbed wire can not be compared.

But the speed of the waves is even faster than them!

When Shen Lang appeared, he went out with a stick. Before the grass was close, the body had already moved along the air and moved to the air.

His stick, of course, is not to the grass, but to the thief!

The thief came to want to “calculate the meter”, and the result of the other party appeared faster than he thought, and directly attacked him!

This surprised him, but also a burst of dark joy!

Because there were three other people in the other side, now the giant python and another human woman did not appear. It was only this human man. Compared with him, the pressure was greatly reduced.

He can completely break it one by one!

As long as the young man is killed first, the giant and the other one will be much easier.

Therefore, he not only did not evade, but voluntarily greeted him!

Originally, the surrounding field has been controlled by him. The following a large number of weeds are mad, and the air can also contain the sinking waves.

Now he himself has voluntarily greeted him, but the people are still not close. There are a lot of vine-like plants in the whole body, and one step in advance is wrapped around the end of the iron rod!

Suddenly, a fiercely incomparable stick is like being caught in a swamp. It can't keep going and can't get away!

In this case, Shen Lang has also encountered this for the first time since the use of this iron rod.

In the past, he used iron bars. For the weaker ones, it was directly the crushing of power. Even at the same level, even stronger, under the absolute strength, it also has a very strong advantage.

But now, it seems to have encountered the soft gram!

Moreover, the thieves will count on it. Although it is slightly slower and half-beat, it has been preempted by Shen Lang, but now it has quickly recovered the situation.

The vines that had just gone out of his body were not only wrapped in big iron bars, but immediately went straight along the iron bars!

At the same time, the grass under the anger is already as tall as a tree, and continues to entangle with the deep waves.

The swells in the air are also pinned down by the field, and he is not allowed to leave.

At such an instant, the thief has been fully pressed, and Shen Lang seems to have only abandoned the iron rod, and perhaps there is still a chance to escape.

It was at this time that one went to Qingmang!

The thief has not seen it clearly. If it has not responded, it will feel extremely uncomfortable. It is a kind of resentment.

Then he also saw clearly, whether it is vines or countless grasses, it seems to be burned by a huge flame, quickly scorching and shrinking, become a little bit.

This is not an ordinary grass vine, but after he casts a spell, the general sword can not be cut, the general flame can not burn.

But what exactly is it?

He hasn't seen it clearly yet, and he has already burned all his grass, and directly made him suffer a lot of uncomfortable.

After the Qing Mang's first appearance, the iron bar has once again waved!

The thief grass that has just been countered has not had time to react, and it will soon be hit by a stick!

The thief grass is already evasive, but it is riding on the dragon god.

This dragon does not know how to conquer it. It is a very strong protector. When a stick comes over, it probably feels the state of the thief, knowing that it is difficult to dodge, so gather in advance and block the past with the head and tail!

In this way, the dragon's head and tail blocked the body of the thief grass. When the iron bar of the swelled wave came over, it was directly on the dragon god.

The dragon guard will be such a protector, in fact, is also a confidence in his own advantage!

They have thick scales on their bodies, which is a great protection for them. It is really invulnerable.

I think that the first thing that Shen Lang encountered in Jin Maogu was the king of the dragon. It is already very ferocious. Now it is the dragon of the beast **** level. Whether it is its personal strength or the defense of scales, it must be much stronger.

However, the current Shenlang is no longer the original level.

At that time, the strength was not good, and I was forced to take it with Lu Feng. In the end, I got a soft pulse.

Now the strength of Shen Lang is comparable to that of the Great God. It is enough to crush the dragon of the ordinary beast ***** level.

This stick is full of the domineering power of the heavens and the earth, plus the power of the “Dazu Milong”.

Just a wave of slashing on the thief grass, was entangled by the vines of the thief grass, that is to let him with anger. And such a toss, Liu Zheng and others who have left a section, will immediately come back.

Therefore, whether it is rational needs, or angry shots, Shen Lang this stick, are all used!

The beast ***** dragon is also a full defense.

There is no more change between the two sides of the electric light and flint, that is, the hard hit!

The harsh sound broke out!

The beast ***** dragon of the first and last guardian was hit by the iron rod, and suddenly the scales flew!

I have to say that the dragon’s scales are very good, especially the beast ***** level.

And because of the flatness, it is better to be stressed and dispersed. Just like Juli can crush the iron ball, but the same force presses the iron, it is still flat.

But the range of iron bars is very large and the power is very heavy!

Although these scales are not broken into powder, but the flesh is not able to withstand such strength!

Under the heavy blow of Shen Lang, a large number of scales flew out, and some fell deeply into the flesh.

This is still the case on the surface inside the body also encountered a strong impact.

That is the power of the great gods!

Did not directly cut off its body, it is already the scales of the beast-class dragons far better than the general protection.

However, it is obvious that this is the same, it is equal to the dragon and the beast ***** to fight against a wave of Shen Lang with the power of the whole body.

This makes it no longer have a lot of combat power, even if it breaks the backbone, it is not going to get away with it.

But for the thief on the back of the dragon, this is a chance to save lives!

Mounted the dragon, in order to give him the opportunity to exchange. The whole person has already passed away to the dragon after the iron bar hit the dragon and then flew away from the protection circle of the dragon!

At the same time, there is no need for a thief to call for help – the voice of crying for help is too late to pass out. Liu Zheng and others who left the first time left the dragon ***** beast directly, and came across the air faster than Xiaolong!

Chapter 1853 - 1 punch

?

Liu Zheng, each of them is the strongest in the realm of the gods, the mount is the dragon of the ordinary beast ***** level, in terms of strength, it is probably equivalent to the level of Daxian or Fengfeng Daxian.

This is normal, if you are more powerful than them, or the same powerful, how can you not be willing to mount.

Dog gods, giant pythons for Shen Lang, willing to sit on the mounts of Shen Lang, that is only an occasional need, it is impossible to really position this relationship.

For the Great Wild Five Dragons, riding a dragon on the one hand is because the great wilderness is huge. When you are on the road, you can save yourself. On the other hand, it is also a face and momentum.

When they want to rob others, the five people are riding together on the dragon, which is of course more deterrent.

In addition to being extremely defensive, Xiaolong is also very fast.

But the level gap is there, really at a critical time, at the instantaneous speed, it is still faster for the big gods themselves.

Although Liu Zheng had left for a while, but the thieves fell behind, so that they did not go far, or slowed down a bit. As a result, I feel the movement here.

They have not come close, they are surprised to find a problem.

There was a large cruel burning trace in the vicinity, and the thief grass was very embarrassed, and the mount also shrank and fell. The thief herb was also running away!

If the red porpoises in the canyon are killed, and they will achieve this effect, they will not be surprised. After all, they just left with some taboos.

But now it's just the young one who has provoked them!

In addition to Liu Zheng's real emphasis on Shen Lang, the other few before were just angry at Shen Lang and felt that they were provocative and dignified.

But now, in addition to the personal experience of the thief grass, the aerial stone, the one-eyed dragon, including the most arrogant sacred, are also really surprised.

When they came across the sky, the thieves also went quickly in their direction.

But at this moment, a fist slanted out and went straight to his side. At the moment when the thief found and defended, he hit him!

Shen Lang was seeing so many trees and soaring, even his iron bars could be entangled, which surprised him a bit, knowing that the situation is not simple.

So at that moment, he directly released the “earth fire” that Chengdu has carried out the earth to mine!

Sure enough, the ground fire is overbearing, and the vines and vines that the thieves thought of the spells were burned cleanly and let him get back.

However, Shen Lang was not familiar with the operation of this place, and he did not dare to use it, lest he should burn himself.

So once it was used, it was immediately collected again, and it was still using a handy iron rod.

Because the thief grass was reversed, and the reaction was not enough, let Shen Lang feel that the stick would be able to take the thief.

I did not expect that dragon **** beast, actually will give up the guardian.

This stick has been attacked by the dragon, and it protects the thief on the back together. It is too late to change and change.

However, the experience of Shen Lang’s combat is rich, and there will be new changes.

The stick continued to linger, and he himself focused on the thief who was being guarded.

When the thief leaves, the body of Shen Lang also left!

The huge iron bar that is waving will become his burden, but he will give up directly and chase after the empty hand first.

The result was that when the thief was in the air, he encountered a punch of Shen Lang!

In the realm of great deity, you can completely shoot out. For example, if the snow is not in the Yaochi, you can fly the flowers to defeat the behemoths. When Mo Feiliu was able to show up in the same year, he would directly drop the batch of Shang Qiu Lin Jianzong's troubles.

But this is also to look at the opponent, if it is the gap that can be crushed, you can understate the shots.

If the strength is similar, then it will not work. For example, if the dog ***** was not seriously injured, it would not be knocked down by the petals.

The thief grass is the strongest of the great gods. Even if it is just a little hurt, it is still very strong. Now it is the case of full defense escaping. If Shen Lang wants to knock him down, it is almost impossible.

Therefore, Shen Lang is now going all out with a direct punch!

The power of this boxing is the same as that of the previous iron bars. It uses the "Heaven and Earth Domineering" and uses the "Da Shou Mi Long Xiang Shen Gong". With his current strength, it is easy to interrupt a mountain. thing!

But the thief is also powerful enough. He didn't shoot, and in the case of full defense, it was not a sneak attack.

It's just such a hard hit, so that his body is also suffering from the raging tsunami!

According to the idea of thief grass, he originally wanted to push himself out through the punch of Shen Lang, so that closer to a little Liu Zheng, they would be more secure.

Moreover, this can not only take advantage of the force, but also relieve the pressure.

But in the moment of the punch on the squat, he suddenly felt that the surrounding walls were like iron walls!

Shen Lang has already controlled the field, and immediately trapped him!

Originally, it was controlled by the field of thief grass first, but the burning of the fire just broke everything directly, and then he panicked and fled, and had no time to re-layout.

The result is that Sun Lang has seized the opportunity. Although it is difficult to directly ban him, it has at least succeeded in stopping him.

When the surrounding can not continue to advance, his body has to directly bear the strength of the punch.

When he was smashed by the landslide tsunami, he felt something in his body and couldn't move.

鑒月針!

Shen Lang is a pragmatist. He doesn't think that he has to take a thief with his bare hands. Any means can be used as long as he can accomplish this goal.

He has rarely used it.

After all, this is the magic weapon of the earth. After all, it is the most miraculous, relying on the array of eight-needle.

That is a multiplier effect of coordinated operations.

But it is not difficult to go on!

For example, a real environment can be multiplied by dozens of times in the eight months of the month to reach the level of attacking the gods. This can be used to challenge the half-sex but it almost reached the limit of this magic weapon itself, and it is impossible to continue indefinitely.

Daxian, the realm of the great gods, of course, can also use the Yueyue needle to display the attack method of the eight-needle.

But the mana that is applied is extremely limited. It is impossible to impose all the power of the realm of the great gods. So let alone the multiplier effect of 8868, it is necessary to destroy this magic weapon directly.

So after being strong, Shen Lang uses it less and less.

Now he is manipulating the lunar needle, and it is not the technique of using the eight-needle of the moon, but the degree of the needle is almost reached to the ceiling, and then it is used as a general hidden weapon, and penetrated into the body of the thief.

For the strong gods of the Great God level, the Yueyue needle is a magic weapon that is inconspicuous. This movement is also inconspicuous under the backdrop of Shen Lang's stone-shattering.

But after nailing into his body, it reached a very good effect!

Chapter 1854 - Flicker trading

?

When the lunar needle enters the body of the thief, Shen Lang manipulates the lunar needle, which is to control the thief in an instant.

With the help of this earth magic weapon, he reached the imprisonment of the thief.

Just a little bit of time, Liu Zheng several, has crossed the air to the front not far.

“Bold thief! Let's put the thief in the grass!” The first sacred screamed.

They all saw it, the thief grass has been in the air, and naturally encountered danger, which also makes them a bit of a rat.

If you can't save the thief in a moment, then you will only let the other side kill the thief, so in addition to shouting, there is no slap in the face.

At this moment, Shen Lang has grasped the head of the thief grass and then looked at them four.

“Don't you have already gone? How come back?”

Hearing this, the holy shrines are almost blind, this should ask you! Are you already gone? How come back?

The thief has lost consciousness at this moment, and Shen Lang has manipulated the Yueyue needle and has completely banned him.

At this time, Shen Lang talks to them, of course, mainly to delay the time!

Because Shen Lang grabbed his head, not only threatened his life, but also took the opportunity to extract the memory of thieves!

For the strong man of the realm of the gods, Shen Lang has not been read, and the memory of the elk has been read by him.

If you want to devour all the mental power of the thief, it will be a relatively large project, and Shen Lang can't eat that much now.

But just extracting the memory, there will be no problem for him. The difficulty is how to have this opportunity, and now the opportunity is already there.

“Yes, you are a great five dragons, everyone is a good friend together, watching this... thief grass? He was caught by me, you come back to save him, it is also loyal.”

Shen Lang smiled and nodded, then continued to talk about his own situation.

“I think you also want to figure out, why am I coming back?”

Liu Zheng and others did not speak, they came back to save the thief, it was nonsense. And that's just a reason. The other reason, of course, is that I want to catch him together.

Behind his own words, they want to know.

“It's very simple, I want to trade with you!”

The four of them have had their own expectations for Shen Lang's words, but when the answer came out, it was still unexpected.

“What can you trade with us?” The first sly was dismissed.

They all think that Shen Lang is too much to see themselves. They are all overwhelming advantages. They can already be directly robbed. Why do you have to deal with you?

However, Liu Zheng waved his hand and motioned them not to talk.

“How do you want to trade? Do you have anything to trade?”

When asked this, he could not help but look at the direction of the canyon. Before the red porpoise family, they were also allowed to trade.

They are able to run wild, and besides being fierce, they are of course wise. Otherwise it is impossible to have today's achievements.

And Liu Zheng, can be regarded as the wisdom of their great five dragons.

Even they joined forces to become the “Great Five Dragons”, that is, Liu Zheng convinced everyone that the other four people who had reached the bottleneck realized that they could unite to go further.

So at this time he spoke on behalf of everyone, others were still convinced.

“What you want is what we bring from inside. Right?”

“Crap!” The sacred sorrow couldn’t help but sneer, before they had already said it.

Shen Lang did not care about his attitude, but nodded: “This means that other things do not have much effect on you. Then you can trade with me and exchange other things for me.”

“Not no, but I have to look at what you brought out from inside.”

Liu Zheng immediately agreed, this request is also very normal, it must be the first inspection.

Not waiting for Shen Lang to ask, he also responded first.

“You are willing to give it, and we are willing to show other items to you.”

The thief grass is not conscious at this time, or else it will be a secret.

As partners, shouldn’t they first save him for exchange? The result is to start other transactions!

But obviously, if the benefits are big enough, they can give up the thief!

If the danger is too great, they can also give up the rescue of thieves!

Now Shen Lang talks about trading, that is, let them wait and see all the situations first.

After all, the five big men who came here came here to bury the items in the Dragon Valley.

“We traded three items in it, two of which have been taken away by the two of them, saving the one I own.”

“...”

When I heard that Shen Lang said that I had traded three items, they felt that it was normal. At least one of them was really worthwhile.

Moreover, they are riddled with five dragons, which will move around the Great Wilderness. They are also human monks, and they are also valuable in the burial of the Dragon Valley specialty.

But when I heard the back, I couldn't help but sneak.

Three pieces have already taken away two, and that is still a fart?

Is it going to leave the most valuable? They must have let the two take the expensive ones away, and the rest must be chicken.

That is to say, this is now completely teasing them!

At this time, Shen Lang took out the broken sword and showed them to them.

“This thing was given by the Red Dolphin King. It is said to be the best ancient weapon of the grade. I don't know what value you think?”

Shen Lang has now completed the reading of the memory of the thief, and is merging, in order to be able to delay the time, directly released something truly valuable.

He himself does not understand this remnant sword. He can only be sure that it is worth a little bit, and may be related to the iron bar.

I want to see if they will know anything.

Liu Zheng four, was originally a little impatient. When I saw Shen Lang took out the remnant sword, I stopped again.

Because this is not a chicken rib, an ancient weapon weapon, even if it is incomplete, has extraordinary value, not a special product such as funeral grass.

“This sword... I looked very familiar, give me a closer look, I should know what it is.”
The aerial stone looks serious and serious.

Shen Lang couldn't help but smile: “Is this a young child? If I check it for you, can you still give it back to me? Can you trade fair with me?”

He directly ridiculed: “Not only that, after you have been in your hands, I have no value, should you destroy me directly?”

Sky Stone wants to explain, Liu Zheng raised his hand again.

Four dragon gods have arrived, not far behind, no permission, do not dare to come over, so as not to intensify the atmosphere of the scene.

Chapter 1855 - The sword of the king?

Shen Lang wants to flicker them and see if they can put out the origins of the broken sword, and the aerial stone wants to flicker him and put the sword over.

Now Liu Zheng is a direct opening.

“This is an ancient sword.”

Shen Lang secretly white eyes, is this not nonsense?

“I also know that this is an ancient sword. I also know that it is a severely damaged broken sword.”

Regarding the irony of Shen Lang, Liu Zheng did not mind, but continued.

“What is the origin of this ancient sword, no one knows, because it is already broken...”

Nonsense!

“But it is famous.”

Shen Lang slightly frowned, a little bit not wanting to listen to this contradictory flicker.

“Another blade that was once...broken, brought out from the funeral valley.”

Hearing this, Shen Lang only resisted without interruption.

Now, except for the hilt, the blade is only a few inches away. If it is not completely broken, there is a long blade, which is normal.

“The blade of the sword was later built by an aristocratic refiner, and became an artifact. It is known as the sword of the king who is invincible!”

The sword of the king!

Shen Lang's pupils contracted slightly, and he was really surprised.

Before the trade fair at the Yaochi event, he learned that there was a four-piece artifact because he bought the wheel of the universe.

The Gate of the Three Realms, the Wheel of Heaven, the Sword of the King, and the Shield of the Dome.

It is said that regardless of the version of several artifacts, there are these four artifacts.

However, these artifacts are already ancient, and no one can say clearly what era it was, or even know if it really existed.

When the Tiandu auction was awarded the Gate of the Three Realms, it was obvious that no one believed that it was a true artifact, and it was obviously very defective.

Can have the effect that can be used now, it is already the effect of Shen Lang's magical Kunlun mirror with the same attributes.

And the wheel of the celestial plane, in the martial art that was obtained, did not know how many years without any crack, will be sold out.

This is already something that can't be met. If it doesn't really work, Shen Lang himself thinks it may be fake.

For the sword of the king and the shield of the dome, he did not even think about searching.

This time I got this remnant sword, and it was purely that the Red Dolphin King said it was the best, and then found that there was a sense of the iron rod.

Just want to see if they know what the origins are, there is no association with the sword of the king.

"You have not misunderstood that the Terran, the sword of the king of the ancient artifacts, was actually rebuilt from a piece of wrecked sword that was obtained from the burial dragon valley."

Liu Zheng said here, looking at the broken sword in the hands of Shen Lang.

"If I didn't guess, this is another section of the original sword of the king's sword. There may be a lot of broken pieces, but this piece of sword with a hilt is also very valuable."

When Liu was saying this, he found that their eyes were watching him.

He immediately reacted.

If you really want to trade, then you can see the value of this thing, but also say that there is no value, you can fool things.

Now it's so precious, they are very hot eyes, but the kid opposite, maybe not willing to trade. Then you can only grab it!

Shen Lang did not pay much attention to it, but asked one.

“Where did the sword of the king go?”

He now has a bold guess!

At first, he couldn't understand why the smashing iron rod would be related to this remnant sword. Now that he knows that another part of the remnant sword has once become the sword of the king, it is interesting.

Will it be the sword of the king, and later it will be refining and becoming the current iron bar?

When the scorpion is called the war, he becomes the strongest god. There is no rival in the battle. Is it because the iron rod is the sword of the king?

When the iron stick was first seen, it was a large pillar in the tomb. After the service, it could be big or small, heavy, and can be changed at any time, and the magic weapon can be summoned at any time.

Although the effect seems to be single, it is really extraordinary. And from the original half of the road to the current level of the gods, the strength can be fully withheld, can be used as you wish.

However, if this is the sword of the king, it seems to be far-fetched. It is not a question of shape, but a sword of the king. Is it also very heavy?

Liu Zheng faintly asked: “If I know where the sword of the king is, why don't I take it?”

A few of them laughed at it.

If you know the whereabouts of the sword of the king, then of course everyone will go directly to the sword of the king, and possess the sword that is invincible, and they will stop the great wilderness!

Having said that, the meaning is also very obvious. Since this is probably the remnant of the original shape of the sword of the king, it is definitely worthless.

Since Shen Lang has come out, since they have already let them know, they will definitely not let go!

All four people looked at him and didn't need to say anything threatening. They directly expressed the threat.

Kid, what do you want to trade?

If you want something, you can take a little deal and leave.

Otherwise, you can't leave here!

These meanings are expressed directly.

At this time, Shen Lang has also integrated the memory of the thief.

These old guys who haven't known how many years have lived have a lot of memories. Some don't need to know them carefully. Just search when you need them.

Now the two purposes of Shen Lang have been reached, and the delay time is no longer needed. It is also the understanding of the origin of this sword. There is no need to continue.

"My things have been taken out, what about your stuff?"

On the surface, Shen Lang still follows the attitude of trading before, and continues to deal with them. They did not speak, still waiting for Liu Zheng to be a representative.

Liu Zhengyi raised his hand and there was a row of items in the air.

“All things, you can choose three.” After a pause, he added: “Four can also be.”

The other three, including the most impatient sacred, did not speak at the moment.

If they can be resolved through the transaction, they also don't want to make extra money.

This is similar to the idea on earth that “the problem that can be solved with money is not a problem.”

Shen Lang is also really looking at their belongings.

What appears in the air is basically the various spirits and spirits.

If Liu Zheng just said this, it would be equivalent to opening a price. Whether it is a spiritual medicine or a spiritual pulse, it can trade at most four times.

They are all human beings, and the routines are all understandable. This can still be counter-offer. If Shen Lang asks for five or six spiritual veins, they should also accept it.

Shen Lang can feel it at this moment, the Red Dolphin King in the canyon, for the things in the air, reveals a lingering thought.

These are more than the things that the three parties gave before, and this is just an exchange of the sword, which definitely makes it feel bad!

Chapter 1856 - Ghosts

The Red Dolphin King is not only awkward, it is simply unhappy!

How long it took to get out of the canyon and directly increased the value several times. If it is trading with them, how cool?

It is a pity that they dare not go in, they dare not come out, and when they communicate with each other, they still do not believe it!

If they had ever done something to sneak into the race, how could others be afraid to guard them?

But of course, the Red Dolphin King will not regret it. It simply did not think of this layer. It only thinks that it is being smashed!

Then it was very wrong, because the previous Shen Lang show revealed his power, so that it is not acceptable.

But now I'm looking at Shen Lang's profit, and I'm not happy.

Under the entanglement, it still chose to pass the sound to Shen Lang!

"Shen Lang VIP, I know that you definitely don't want to trade with them, bring them in, I will help you trade with them. So you won't lose, they can get the things that are buried in the Dragon Valley, I can also trade. Their stuff."

When Shen Lang heard this, he couldn't help but feel a move.

Originally, he was also prepared to look at the items that Liu Zheng gave them. If there were any rare and precious things, he might have to find a way to win it, or trade.

If it is just the general spirit and spirit of the spirit, then he ran directly, too lazy to continue fighting.

I have just got a general understanding and I am not interested in it. Perhaps in the three of them, it is almost the same thing.

At this time, I heard the voice of the King of the Black Dolphin, and I felt that it was an opportunity.

If you can bring both of them to trade, you can see more from the King of the Black Dolphin!

Although the remnant sword that has been obtained has been proven to be an extraordinary remnant of the Excalibur, I also want to see if there are other good things.

However, Shen Lang's heart is very clear, Liu Zheng and others are not good, and the Red Dolphin King is equally untrustworthy!

If you can, the Red Dolphin King may kill them all.

If you can, Liu Zheng and others will be willing to kill him and the Chiropractae!

Although only a group of red porpoises can enter in the burial dragon valley, for the Great Wild Five Dragons, the survival of the scorpion family can be emptied, and it will certainly not be in the future for a hundred years or a thousand years.

Just... In turn, if you can kill the Great Wild Five and the Red Dolphins, Shen Lang is also willing to do it!

This is why all three parties are full of ghosts.

"I have a proposal."

Shen Lang broke the calm.

"What you want is to bury the baby in the Dragon Valley, not necessarily if it is a broken sword. Is it possible to trade with the Chikusou family inside? They have more good things."

When the words were spoken, the atmosphere was immediately strained.

All four of them have already prepared for the shot.

Because of the sentence of Shen Lang, it is equivalent to changing the mind, do not want to trade, then they can only come hard!

“I know the king of the black dolphins inside. It is a very good king. It also has a lot of ancient babies from the funeral dragon valley. Do you really want to see it?”

Originally everyone was ready to do it, but after listening to this, Liu Zheng had another thought.

Didn't they just have two people at a glance?

In terms of strength, it is better than the five dragons, and they can retreat. And from the perspective of this ancient sword, it was a successful transaction.

Then they are going to trade in the wild, and it should be safe.

Looking at the scale of their previous two-person glimpse, the things that should be able to be obtained are also limited, and may not be stronger than their great five dragons.

What they want is to bury something in the Dragon Valley. This sword is good, but what else is there?

People are always like this, and the unknown is more attractive.

I have lived for two generations and have seen the waves of many worlds. I still can't resist this nature, let alone them?

So at that moment, the minds of the Holy Grail and others were all alive.

If you go ahead, let's take a look at the items of the Red Dolphin King and trade some better things. After you come out, can you still continue to kill this young man?

Can he still hide in the canyon?

The result was that the Amateur family had been killed.

In-depth thinking, their scruples about the Chiopractae are actually from the time when they used to fight alone. After the Great Five Dragons united, they did not go in again.

It was only because of the memories of the early years, and later that many of them could not come out, so that they had deepened this kind of jealousy.

This time they are two people, one in three, and the other is retired, indicating that the strength is enough, the resources are enough, or can have the right to speak, can be safe.

They are black and black outside, and it is not known for many years. It is a long wait. There is a chance to once again trade with the Chiopractae. They are also a little yearning.

“This Shen Lang VIP said that it is very reasonable. I am the king of the red dolphins. We are very hospitable. We are also very respectful to the Terran. We have a lot of burial dragons, you can trade with you, welcome to come in. “”

Shen Lang has already lifted the sedan chair, and the Red Dolphin King will of course cooperate immediately.

It reveals its identity and shows goodwill to humans. Anyway, let these fat sheep come in first.

“You won’t be afraid? The Red Dolphin King is very good at speaking.” Shen Lang stirred a moment. “Moreover, let go of the thief, you still have four people and four dragons. What are you afraid of?”

Yes indeed! What are you afraid of?

Excluding the thief grass, everyone’s strength is still the strongest They are also the same mind.

“We believe in the kindness of the Red Dolphin King, we do not believe in you.” Liu Zheng bluntly.

This sentence is also very obvious. I didn't want to offend the family of the red porpoise, so I didn't say that I was afraid that Shen Lang and the Red Dolphin King would endanger them.

Shen Lang smiled and said: "Are you afraid that I will run? How about I accompany you in?"

"For the Terran, we are very respectful to the Great Five Dragons." The Red Dolphin King once again stressed.

"Since everyone cooperates and trades, can you put the thief in the grass?" Liu Zhengqi asked for it.

Shen Lang bluntly refused: "That can't. He wants to kill me, how can I let him go? Now it's his level that I can't catch it. If it's my level, I can't catch it. He can. Let me go?"

This answer, let everyone know how to answer.

If they seized the waves, they will definitely not let him go.

What qualifications are there to ask others to let go of the thief?

"Of course, everything can be traded, and you can redeem him. For example, I am interested in the things that bury Long Valley."

When Shen Lang said this, he immediately changed his face.

Chapter 1857 - Reentry into the canyon

The words of Shen Lang clearly show his desire for the fun of the Dragon Valley!

They also want to bury Long Valley Baby, and the heart of the Shen Lang is even worse.

Although thief grass is their partner, it is only a joint partner, not a true brother, brother or the like.

After everyone got something, they were all divided up. Get ten pieces, and divide them into two pieces.

At this time, they asked them to take out the treasure of the Dragon Valley to redeem the life of the thief. Of course, no one wants.

Originally, Shen Lang could take out the baby on the thief grass and redeem his life with the thief.

But the problem is, now that the thief is in the hands of Shen Lang, Shen Lang directly took things, will it feel redemption? That is equivalent to reminding him to search for spoils!

“Advanced Canyon!”

Liu Zheng is still very wise. Since there is controversy between the two sides, it will temporarily aground the dispute and solve other problems first. Maybe there will be a better chance later.

“Welcome!”

The Red Dolphin King couldn't wait for them to come in.

Liu Zheng has already collected everything, and then they each took the dragon and prepared together, but the meaning is very obvious. They want to lead the way in front of the wave, so that he will not run, and prevent the package.

The thief, the dragon, because the injury is not light, there is no way to save the Lord, and it has already fallen to the ground. When Shen Lang and their stalemate confrontation, it immediately took the opportunity to escape, dragging the injured body and fleeing far away.

Shen Lang did not care about it. At this time, he still grabbed the head of the thief grass and kept a distance from Liu Zheng and others.

Since it is an agreement with the King of the Black Dolphin, he certainly leads the way.

Shen Lang will be wary of the Red Dolphin King, but he is not afraid of it.

Re-entering the canyon, the Shenlang has already been driving.

And Liu Zheng, riding in the dragon, is also more vigilant.

Entering the canyon, watching the pictures of the end of the world, they have been there for the last time, they have not known how many years ago, they are a bit touched, but also more careful.

The red porpoise king appeared quickly. This time it was just a show, and the other red porpoises did not follow.

This is its sincerity!

They also look at people to eat dishes, if the strength is weak, no matter what race, you can swallow. But the strength is strong, then it is a good win-win transaction.

The swell of the beast that has been able to summon the behemoth has made it dare not act rashly, and even eaten three three-headed porpoises.

This time, the lineup of human beings is even stronger. If you want to play, even if there are environmental advantages and quantitative advantages, you may lose a lot.

As a king of the Red Dolphins, it is still very sensible. This time it is only a resource, not a swallow.

I have already cooperated with Shen Lang once. It has just been communicated first, but these people are afraid of it. If they come to the next batch of red porpoises, they will only make the other party more vigilant.

So it comes in person, and the amount will not give pressure to the other party. It is really dangerous, it will be easier to escape, and will not lose more red porpoise.

“Welcome and welcome all the friends of the Terran, you can call me the King of the Black Dolphin.” The Red Dolphin King warmly greeted him.

After Liu Zheng and others came in, they were still together. They formed a camp. The Red Dolphin King had a single camp, grabbed the sinister grass and was a camp.

The three parties are guarding each other and do not want to be pitted by the other two parties. It is necessary to prevent the other two parties from joining forces.

I also want to hang on the other two sides, and I want to join hands with one of them to hang a third party.

So each of them is a ghost, but it forms a balance point.

After arriving here, the king of the black porpoise is the master, no matter what, it must first break the calm.

“The guests of these tribes, what do you want, I can offer deals.”

As before, the king of the black porpoise spit out, there are still funeral grass, fog vine, and that knife, and a keel.

Liu Zheng and others have already robbed a lot, but now I personally watched the baby of the Red Dolphins vomiting and burying the Dragon Valley. I still care very much, and carefully looked at it carefully.

Because the Red Dolphin King has just paid attention to their movements outside, knowing that they have resources, so they are not in a hurry.

Liu Zheng said faintly: “There are two needs for these two things. These two things are what we want!”

He also directly screened out two poisonous weeds and directly traded two other items.

The Red Dolphin King said with a smile: "In fact, these two are the items we donated. It is a transaction, it is a price, the transaction is the same, it is the same price."

It has been hit back by Shen Lang before, and it does not want to be beaten again.

So now straightforward words, just to tying! You don't want, the price will not be less.

This made Liu Zheng a little unhappy, but he did not directly express it to the Red Dolphin King.

The king of the black porpoise was originally appearing alone, just for the sake of sincerity, in order to dispel their taboos, so that they do not need to be nervous.

But in fact, this makes the wilderness five dragons more jealous!

Because according to their habits, only if they have the grasp of winning, they dare to appear alone. That means that there are more ambushes in the dark.

If the king of the Red Dolphins took a few red porpoises, they would really let them relax.

So after listening to this at the moment, Liu Zheng silently weighed it up.

Such poisonous grasses, they have already had them, they have all won from the previous traders, and it also proves that it is necessary to buy strong tying products.

Therefore, they are more likely to accept this article than Shen Lang.

"Okay, we accept. But these two are not enough. We have a lot of resources!"

Liu Zheng also knows that the thing just released has been perceived by the other party, so it will be so enthusiastic.

In order to attract the other party to take out more good things, he once again displayed the items that were released before.

Looking closely at these spirits and spirits, there is also a line of spirits that allows the Red Dolphin King to show his greed without any disguise!

“Of course, the distinguished guests of the Terran are very powerful, and we are very willing.”

The eyes of the Red Dolphin King’s eyes saw a glimpse of the lively waves, and they were a bit uncomfortable. Compared to the eyes, it was a loss in Shenlang!

After speaking, it immediately spit out two items.

One of them is another keel, and the other is not a keel. It should also be the ancestor of a powerful race.

“In addition to these two, these four, exchange with you.” The Red Dolphin looked at these things and wanted to close them all at once.

It also thought that Liu Zheng was like everyone else, and everyone was in Liu Zheng.

Liu Zheng shook his head: “It’s not enough to light these four, at least two more. And... this is just one, we have at least three!”

Big customer!

The king of the black porpoise could not help but surprise.

Chapter 1858 - a lot of treasures

Liu Zheng’s one person’s show is more than the three of them!

This is not a lot of quantity, it is value.

Because the Great Five Dragons are looting, the common goods are not eye-catching, and what they can collect is definitely worth a lot.

Even if you don't come up with the most precious things, these are already very good.

The most precious box of the giant python was not taken out, not to mention the white pheasant, and it was prepared. It is Shen Lang, and it is also taking out some miscellaneous chicken ribs.

For example, Ling Zheng, Liu Zheng will release a lot.

So here in the Red Dolphin King, this is a big deal, and I didn't expect it to be a quarter, and there are three more!

“Premier people, I am willing to pay for all our collections!”

The excitement of the Red Dolphin King is not pretending, it even spits out a bunch of items.

This is the next round of the Great Five Dragons. They are a few excited.

Because they may have been able to hit the last transaction for many years, sometimes the traders can't come out, sometimes they just flee when they come out, and only a part of them can be caught and plundered.

It's been unknown how many years they have accumulated the accumulated Long Valley items.

But now, it is more than 20 pieces of the burial dragon valley baby, directly presented in front of. It's like a gold rusher who has been rushing for gold for decades and suddenly was thrown a box of gold in front of him.

Under the excitement of the Red Dolphin King, a large number of people were released directly, and then they immediately calmed down.

Although these resources are very precious, very valuable, and extremely difficult to encounter such a big customer, but the Terran is still too embarrassing!

For example, this Shen Lang, taking out directly is a value that has been turned over several times!

Such a large number of burial Dragon Valley Baby traded out, and those big wild five dragons will have the qualification to trade with others. By the time of other races, you don't need to come here to trade with them!

If they let the outside world think that the red dolphins are no longer there, and they have not buried the Dragon Valley Baby, the bargaining power is in their hands.

There were no other races to come to the burial dragon valley. Only when they came over, the porpoises could only trade with them, and they were very passive.

Just seeing their surprise, the red porcupine king who satisfied and superiority, became stunned and tangled.

Shen Lang is of course also focusing on these items.

The black porpoise king has a lot of things to bury the dragon valley!

Through the tying method, plus the habit of killing customers, they are not sold much.

Now this should be considered as a condition for agreeing to Liu Zheng's six transactions, but these 20 pieces are certainly not random, but have been screened.

Even if Shen Lang doesn't understand what it has, it can be seen now.

More than half of the more than 20 items are keels!

But not all keels are huge, and some are smaller bones. If it is taken out alone, it doesn't look so shocking, but when it is put together, it is normal to have big or small.

And once you see so many keels, it's easy to make people think of a one-stop!

A keel is already of great value. Even if there is no scientific research on DNA or genes, there is a similar study on comprehension.

In this way, a keel is of great value, but the two are not directly multiplied.

Therefore, on the side of the Red Dolphin King, there is also such a clear understanding, or summed up the experience, each time is a keel, and will not produce two.

Things are rare, and when they are worth more, they are devalued.

But to a certain extent, it is different!

For example, if there is a chance to piece together a whole dragon, or a rough prototype, the value is more than a single keel, but it is not directly doubled, but may be ten times, a hundred times the value, there are more possibilities.

What if you can resurrect a dragon?

So when I saw so many keels, it was the great five dragons. They were more than the general race and had more fun, and they were excited.

It is the Shen Lang who has no interest in the keel. It is also a bit exciting to see.

There are also a few other species, which should be recognized by other skeletons. Some of them are not human, but they are not as complete as the previous nine-tailed foxes.

The other part is the weapon of the ancient weapon.

Including the previous knife, and some weapons, or human, or other races.

However, this piece, basically visually detected, is extremely damaged. After all, this does not know how long ago the ancient weapons were.

Time is enough to make everything decay. These ancient weapons seem to be just the damage of the wounds, not the corrosion of the years. It should have been related to the special environment of the murderous land of Long Valley.

However, in terms of Shen Lang's visual observation, the value of these should not be as good as the one he got.

Of course, this may also be because of a feeling.

Because of his connection with the shackles, he has a special feeling for this remnant sword. He has no feelings about other ancient remnants, so he feels that it is broken.

When Shen Lang is paying attention to these things, he also pays attention to the reaction of Liu Zheng and others.

I can see that they are very excited about these.

So many keels are a huge shock, and they have not neglected these ancient weapons.

They should also not understand the specific value of these ancient weapons, or some know, some are not clear, but can confirm that these are the things brought out by the funeral valley.

It is already at this time, to say that Liu Zheng did not have the idea of swallowing it, it is a fake. It's just that they are scrupulous and can safely trade already very satisfied, not afraid to grab it.

The same is true of the Red Dolphin King. It also wants to directly grab the things of these people. That's not just about worrying about baby loss, nor worrying about being robbed by them.

But after all, they are full of concerns.

Needless to say, Shen Lang, he even wants to grab all the things on both sides!

Even if there is nothing that he is particularly coveted, this is the biggest resource he has ever encountered, more than the harvest in the ancient warehouses in the ruins.

Everyone is keeping their scruples and will continue to maintain balance.

Liu Zheng waved his hand, and the aerial stone, the one-eyed dragon and the holy shrine, had nothing to say, and quickly presented their resources.

This time is their biggest gain!

The spirits and the spirits can be grabbed in other places. Only these keels and the like, they can not enter the funeral valley, they must rely on the red porpoises.

“Happy cooperation!”

Both sides are full of scruples, and they maintain a balance. They dare not move around and wait for the delivery of the money.

So this is the time when the item moves slowly in the air and waits until the other side is in front of the other party.

At this time, the steep change has changed!

Chapter 1859 - Sewing a treasure

Because the baby displayed by both sides has exceeded their expectations, everyone is excited and excited, while maintaining great vigilance.

At that moment, Shen Lang has been temporarily forgotten.

It's not forgotten, but their attention is on the mass of the baby in front of the air.

The Red Dolphin King was only going to help the waves to bring them in. There was nothing malicious about Shen Lang.

The remaining four of the Great Five Dragons, the most important thing for Shen Lang is for his baby. Now more than 20 pieces of burial Dragon Valley Baby appear, naturally far better than the broken sword that has a few inches left. .

So even if the waves are going to break away, they will run away first, and they will not care so much.

The prudence and attention of both sides have led them to form a tacit understanding, that is, the tacit understanding of “one-handed delivery of money.”

Therefore, one side is the king of the black porpoise, controlling the magic weapon of the burial dragon valley, and slowly flew to them four.

On the other hand, Liu Zheng, as a representative, controls a large number of spiritual spirits that they have released, and slowly flies to the king of the black porpoise.

The Great Wild Five has already formed a tacit understanding. No matter how the internals are divided, when it is external, there must be no guilt!

Therefore, although Liu Zheng is not their boss, but also everyone who is convinced, in such a scene, let him be the representative.

At this time, for safety, the aerial stone, the one-eyed dragon and the holy shrine are all kept on guard, fearing that the other party will be chaotic, and the transaction will be completed by Liu Zheng alone.

In addition to the past delivery of these things, the keel and other funeral Dragon Valley treasures will be recovered, it will be the representative of Liu Zheng first collected.

They are not afraid that Liu Zheng will take things and run away, because everyone knows the roots, and the difference in strength between them is not big. Three people can definitely subdue Liu Zhengyi.

Because of the fact that the Red Dolphin King is more determined on his own site, he still maintains a high degree of vigilance in the absence of strength.

When the baby of the two sides gather in the middle, it is a superimposed general effect. In the eyes of both sides, it is a lot of treasures.

According to the tacit understanding of everyone, after passing the middle line, you have to meet your own one.

But at this time, the Shen Lang, which had been innocently taken care of by them, was rushed over!

Originally, the two sides were in a state of extreme stalemate. Because of expectation and scruping, let everyone maintain a balance. What is needed is a kind of tacit understanding. Otherwise, if one party has an abnormal situation, it may affect the pattern and change the atmosphere.

At this time, they did not make any abnormalities, but the third party, Shen Lang, was to break the balance!

When Shen Lang rushed over, at that moment, whether it was the Red Dolphin King or Liu Zheng and other four people, they immediately felt a sense of crisis!

Will Shen Lang be a prank?

That must be to win the treasure!

Therefore, regardless of the three seven twenty-one, the three holy people, together with the Shen Lang attacked the past!

It is Liu Zheng and the Red Dolphin King. It is also an instinctive one-mindedness. In addition to continuing to manipulate these treasures, it also attacked Shen Lang!

They all have the same idea now, that is, to move faster, send things to the past, and then receive the other party's items, thus completing the transaction.

After they have completed the transaction, they have the basis of the covenant, and they can join forces to attack Shen Lang!

At that time, you can divide all the items of Shenlang together!

However, when they attacked the past, they found that all five attacks were lost!

The deep waves that rushed to the middle of the baby, only a flash of shadow, but people disappeared, their attacks were lost, and countless sands!

It's all the old guys who have lived for a long time, and they realize that something is wrong.

But it is already late!

For the items presented by both of them, for Shen Lang, I have also seen the most valuable one.

However, Shen Lang's knowledge is far better than theirs, such as the "Underground Palace" that is not Zhoushan, and that was looted by the major sects. Warehouses like Yaochi and Kunlun are also valuable.

So even if he was surprised, he would not be shocked.

Not to mention that he is still in the state of "bystanders clear", so when they started trading, they immediately entered the layout.

Shen Lang wants to do it. In fact, it is the first to use the wheel of the heavenly machine to sense it.

If you feel that it will be a huge danger, it will naturally be dispelled.

But now the feeling is that there is a certain danger, but more is an opportunity!

Kyrgyz is greater than fierce

This makes Shen Lang decisive shot!

Their attention is on those treasures, and the waves quickly integrate themselves with the surrounding environment.

Because he has already been here once, there is a certain understanding of this place. Now, the only one who knows the environment best is the one of the black porpoise kings, and no other red porpoises are on the alert.

This made him more quickly integrated and more convenient, not found. The attention of the Red Dolphin King is partly on the baby of both sides. On the one hand, he is alerting the other four people, and he is not afraid of him.

The result is that Shen Lang seems to be directly rushing to the baby in the air, but in fact he just rushed out, people have disappeared halfway, and did not follow the established trajectory.

His disappearance is actually a fusion of the air, a teleportation, a large number of treasures directly across the air, to the other side.

Because both of them looked at Shen Lang from one direction, and worried that he would win the treasure So all of them are blocking the direction in his direction.

The results all hit an empty!

When they found the gods, Shen Lang was already on the other side, even if all the treasures in the air, all together into the storage space!

When they come back to the moment, it is also when the air baby disappears.

You don't need to turn your head, you can sense that this is a dry wave, and confirm that Shen Lang has already taken things away.

And they don't have to wait for a new shot. All the five-in-one fields have blocked the waves in the air and blocked them one by one!

This is actually the best response and the best solution.

Because it was just like the attack of everyone just now, it was already fast enough and the intensity was big enough, but the Shenlang people disappeared and they immediately hit an empty one.

This has already explained that the speed of Shen Lang is fast and the body is different. So what they are going to do now is not to kill the waves first, but to keep people first!

Four big cockroaches and the king of the Red Dolphins, the five-story field blocked the past, it was really a piece of iron barrel, it would not let a fly fly up.

To say a person, Liu Zheng is not sure, but the four of them are superimposed on each other, and there is a landlord, the Red Dolphin King, which is definitely not a problem.

Chapter 1860 - Resent each other

According to their estimation, the instantaneous multiple space blockade will directly make the Shen Lang unable to move, completely imprisoned in the air.

Then they let them round up.

Originally, the Great Five Dragons still wanted to engage in Shen Lang, and the Red Dolphin King also had this thought, and now it can be achieved.

The win-win situation between the two sides, coupled with the fiasco of Shen Lang, is a happy result.

But when they looked at the past five times, they were all stunned!

No one is empty!

The waves that should have been confined in the air have no shadow at all.

It's not just the sinking waves, it's the thief that he is imprisoned, and there's no shadow.

They all wondered if they had just made a mistake, and then carefully sensed it and confirmed that there was no problem with their field blockade. No one else is lazy, it is indeed a blockade.

And everyone's knowledge spread out, whether it is inside the canyon, or extending further outside, and no trace of the deep waves!

That guy's way has disappeared out of nowhere!

The faces of Liu Zheng and others have become very ugly.

When they were outside the canyon, they had already encountered it once. The Shen Lang not only left himself, but also took the woman and the giant python together, and finally he returned again.

Now it is such a disappearance, it is still the old way!

They didn't feel any spatial fluctuations this time, but they had a preconceived view, and only that was a reasonable explanation.

As for the King of the Black Dolphins, before seeing Shen Lang summoning the horror behemoth, there is no incredible thing about his ability to cross the space.

But this picture is unacceptable to everyone!

In this way, the treasures of both sides were robbed by Shen Lang, and even if there was no complete looting, it was a huge loss.

Whether it is for the Great Five Dragons or the King of the Red Dolphins, it is something that has accumulated over hundreds of years.

They all want to kill at this moment!

I feel that if Shen Lang dares to appear again, I don't mind eating his meat!

But will Shen Lang still come back?

This question does not need to be asked, even if the response is the slowest, there are answers.

Before Shen Lang will come back, it is naturally for their interests.

Now I have controlled all the thieves and grasses, and then grabbed the four of their babies, and robbed the dinosaurs of the Red Dolphins. I also robbed them. What are you doing?

Looking for death?

It's their own, and it's not going to happen again.

It should even be how far you can run!

The great wilderness has been extremely vast, even if they claim to be the Great Five Dragons, it is impossible to search every corner of the Great Wilderness.

And if you leave the Great Wilderness, it is even more unpredictable, and it is not that they can control the situation.

“...”

The two sides were silent for a while.

Both sides have emotions at this time.

“The Red Dolphin King! This is on your site. Now all our things have been robbed, how can we count!”

The sacred sorrow couldn't help but worry.

“Not bad! This is not just your site, or you invite us very much, you invited us to come in with Shen Lang!”

“If you want to say that it has nothing to do with you, please hand it over!”

They all counted the responsibility on the head of the Red Dolphin.

The king of the Red Dolphin is also emotional, and hearing this is also a fire!

“Where do I know what relationship you are! I thought that you are all human, definitely know more about it!”

“In order to show my sincerity, I will come out one without carrying a tribe!”

“Just I only have one, you have four! There are three of you, just watching it, why don’t you look at him?”

The rebuttal of the Red Dolphin King said that there are some truths.

However, a few sacred priests, just complained about the king of the black porpoise at the beginning. Now, if they listen to the other party’s shirking responsibility, they will find that the other party is not doing well and Shen Lang is a group!

If it is really a group, then you can’t find the sun waves, you must also get back the loss from the Red Dolphin King!

The words of resentment from both sides squirted, and immediately the atmosphere was smashed.

“stop!”

At this time, Liu Zheng was open.

Liu is in the midst of the Great Five Dragons. It is still prestigious. If it is a holy shrine or a thief, no matter which opening it is, it will not be able to serve the other people.

But Liu Zheng can.

Everyone will serve him.

So no matter how sullen and angry the mood is, I still stopped, and did not continue to spur the puppies.

The King of the Black Dolphins just saw it. This is the representative of the other side. There is no continuation of the spray, but the opening of Liu Zheng.

“I believe that the king of the Red Dolphin is also a victim. Just those who have buried the Dragon Valley Baby are taken away by Shen Lang.”

“That is nature! You can’t marry me! I am also a victim! My loss is bigger than you!” The king of the Red Dolphin immediately screamed.

Liu Zheng continued: “Then we can’t guilty each other. Shen Lang then counts everything, waiting for the middle of our trading!”

“Because he is a human being like us, it is easy for you to doubt him and our group; he invites with you, it is easy for us to suspect that he is with you. He ran, we will fight!”

In the words of Liu Zheng, let the black porpoise king and the holy priests a few, and calm down a little.

Although they still blame each other’s minds, they will not have an episode.

“He ran, but I don’t believe it can run out of the wild! No matter what magic weapon he has, he should not be too far away!”

“So, what we have to do now is to chase!”

Liu Zheng's words made them feel reasonable.

Now I am guilty of each other only waste is the best opportunity, and it will be both losers, nothing in the end. It was the resurgence of Shen Lang, and everyone did not have the power to fight.

However, after I felt that it was justified, I was immediately discouraged.

"How to chase? Where to chase?" The aerial stone is very depressed.

I just didn't figure out how to leave. And the other party is in front of them, it has been done for the second time!

It's really no face.

The Red Dolphin King is even more depressed: "You can still chase... What do we do?"

They are living in a murderous land. This gorge is the edge of the murderous burial dragon valley. It is a buffer zone, but they can't leave it at most.

Shen Lang left with something, but they are chasing and there is no way to chase!

This is to make the Holy Grail a lot of thoughts.

Yes indeed!

The red dolphins can't leave here. If they can get outside, as long as they catch the swells in the wilderness, they will get the treasures of the burial dragon valley and take back their own things.

For a time, the original discouraged, immediately had a motivated, all looking at Liu Zheng, just wait for him to order, pointed out a direction to chase!
