Chapter 186 - Heart

“You can’t say that.” He is talking about Yue Bailun: “Where is it here, if it is not Shen Lang, then we still have today? Even if the Yue family is not destroyed, it is also a vassal of several of them.”

“Uncle Bai Lun, at that time, you felt that you could fight and invite some people. The result was not only useless, but it angered people!” Yue Sheng directly said: “Or else it will not be that step.”

“What are you talking about? At that time they asked for one billion! Are you out? Now I blame me for being strong. How did you get up and down?” Yue Bailun took a shot at the table.

He is not only an elder, but also the strongest one in Yuejia. Yue Sheng is furious and does not dare to stimulate him any more, but he still muttered a little: “One billion is just the price, and they come at night, it is actually negotiation.” As long as we talk to them well, we can’t say that it means a few hundred million.”

“It means a few hundred million! Oh, you have a big tone, saying that you have earned tens of billions for the family, are you out?” Yue Bailun directly satirized a few words.

“Uncle Bai Lun, it would be boring to say this to you.” Yue Sheng is also blushing: “I have not earned tens of billions, but for decades, it has also contributed a lot to the family, and several hundred million are there! What about you? You have always wanted the family to offer, this is the only time you need to play? The result?”

Yue Bailun was so angry that the deputy of the mahogany chair was crushed directly.

“Yue Sheng! How do you say anything?” Yue Baichuan, who has not stopped, swears.

“Actually, this is a very obvious thing. We all understand the meaning of your father. We have not denied that Shen Lang did save the Yue family that night and saved his uncle.”

Yue Qiang slowly said: “But on the other hand, he is jealous because of women’s arrogance, and the son of deputy mayor of Tian is still unconscious at the hospital; when he is above the family, there is no good talk, direct Baked the Chu family’s son seriously injured!”

He spread his hands together: “The things behind you, you are all clear. People Chu River came over, did not ask him to kill him without asking for innocence? Or reasonable, what about him? In public, people are disabled, and finally The woman killed the man and challenged the legend of the Chu family!”

After he finished, he sighed and shook his head.

“That’s it! Uncle Bailun, I didn’t say it well, I am not dissatisfied with you. I am not dissatisfied with Shen Lang, but one yard is one yard. He saved us, we are grateful, and we can reward him with anything. But he It’s also true that we are now tiring up to the edge of the genocide!”

Yue Sheng eased a bit, along with Yue Qiang’s way of speaking.

After they finished speaking, other people were attached again and again.

And such a yardary code, so that Yue Bailun can not refute. It is precisely because he is the strongest of the Yue family, and more than these sons, they understand the volume of the Chu family and the offense of the offensive.

“Being a man to talk about conscience, what do you say?” Yue Bailun looked at Yue Baichuan.

Yue Baichuan couldn’t help but smile. Compared with other people in Yuejia, he not only suffered from the help of Shenlang, but also had the personal life-saving grace!

The grace of the family, because it is shared, to all individuals, is actually not so strong. But the personal helplessness is unavoidable.

At this time, Yue Qiang’s mobile phone vibrated. He picked it up and listened, and soon hanged.

“I said that Cao Cao Cao Cao arrived, and the deputy mayor of Tian came again. He came to visit Shen Lang. I have to go and receive it.”

Yue Qiang is also a real power figure in Yuejia. Yue Gang is presiding over the resort, and he is responsible for the family.

“Look!” Yue Sheng sneered and smiled: “We were still facing the vice mayor of Tian, right? Not to mention the background of his Chu family, at least people are now in power, and that year has nothing to do with his father. It is said that the Chu family Chu Mofeng is not in the position of the face, will not move us, Tian Luning? Will not inspire him? He will not revenge himself?”

“Yeah, Tian Luning is now in the ordinary, and the age has not yet arrived. It is likely to move in the next two years. The next mayor, even the secretary is possible.”

“It’s offensive to Chu, you don’t need them to be hands-on, we have been enemies everywhere.”

“A Chuyun City can put out words to destroy our Yue family, not to mention other people? We can barely protect ourselves in Pingxi, but we can’t underestimate the heroes of the world!”

“In the end, if you have to give a few hundred million to solve it, you will not have it today. The problem that can be solved with money is not a problem.”

“The money can be earned again. We are a family of hundreds of years. If the incense is broken, it will be different.”

“Gang Ge is not here tonight, don’t say that I don’t realize enough. Just brother left the town of Zhennan yesterday night, and Zhendong is abroad. If something goes wrong, both veins can be circulated, how about us? But a young and old here I am!”

“To be honest, he is really very powerful. But others can’t beat him, he can’t catch him, but our Yue family is slaughtered casually!”

For a time, everyone talked about it, and the central idea was one – the strange sinful sinful Chu family was tired of the Yue family!

Seeing this, Shen Lang could not help but be disappointed.

These days, because Yue Baichuan, Yue Bailun, Yue Gang, Yue Zhennan, it is the three generations of the old, the middle and the young, and he has a strong heart, so he thinks that so many people in Yuejia have put their lives on him, he should say Righteousness, can’t abandon the Yue family and leave.

Now it seems that they are a few!

Others have long complained privately just did not touch him, and did not dare to express his face. Tonight, because he was picked up, let the students stay in Yuefu Garden feel fearful. I am afraid that because he is here, let this place become the target of Chu family revenge, then it will be directly smashed and pond fish.

Under the disappointment, Shen Lang's heart also cooled down.

Since people don't want him to stay here, he doesn't make much sense. He had saved the Yue family once, and he did not lose money. For Yuezhengnan, there is more care. Of course, Yue Zhennan is not this attitude.

However, Yuejia, who has been recognized as a partner because of Yuezhengnan, has become a passerby again. After that, there will be no more intersections with the Yue family, including the treasures and the gods, he will not refine it, and he does not need this money.

As for Yue Zhennan... Since I have already taught him how to go out, I will wait for him to come out later! Not angering him, but not wanting him to do it. After all, they only have two or three months of friendship, and the other side is his family.

There are not many things in Shen Lang, and they will be packed soon. Not waiting for the report, when Yue Qiang led Tian Luning to arrive, he had already waited for the first time.
