

First Strong 188

Chapter 188 - Making a small device

Shen Lang left the Chu family, and did not return to C County, but found a hotel in the city to live.

Along the way, he used the detectives of the gods from time to time, and did not find anyone to follow. It seems that the Chu family is very confident in shaving him out, and does not need to stare at him at all times.

After staying at the hotel, after the simple washing of Shen Lang, he began to practice.

The Chu River, which can survive the peak of the Yuan Dynasty, is actually completely confident.

When I thought that I had just broken through the second weight of “Yin Yang Bo Ruozhen”, he felt that he should be able to compare with the peak of the Yuan Dynasty. However, at that time, after all, there were not many fights. After the masters of the King of the King and several masters, he practiced for more than ten hours in the underground palace. He absorbed all the auras accumulated in the hundreds of years and the aura of antique calligraphy and painting. .

At that time, he was conservative and estimated that he would be comparable to the later period. In the middle of the Yue family’s easy to blast into the Yuan Dynasty, he also has more confidence.

After returning home, until the college entrance examination, more than a month, although there is no new opportunity, but in the hands of a lot of Lingshi, almost always absorb the maximum.

During this time, his strength has accumulated and improved significantly, so in the face of Xie You and Chu Yuncheng two late monks, they can easily smoke their faces.

When facing the Chu River, he actually wants to feel his strength, and he is not worried about losing. The result is the same.

This fight has made Shen Lang feel that even the monks who are still in the virtual world are sure to be sure. Therefore, I only publicly said that the challenge of Chu Mofeng, at that time thought that Chu Mofeng is probably two higher than the Chu River, that is, still in the middle of the virtual world, I did not expect to be an old monster level of the real monk.

He is confident that he can still compete in the early days of the virtual world, even in the mid-term. But if you want to break through to the real world in one month, it will be impossible to sleep without sleep.

Even if he wants to go to the death forest, he also wants to see if there is a chance, and he can break through the “Yin and Yang Bozhenzheng” to the third.

But he never accepts his life, he is very reluctant. It is a point to be able to cultivate. Now in the hotel, he is also a spiritual stone to grasp and absorb.

After sending Zheng Yumeng’s bleak and Yuezhengnan, Shen Lang had seventy Lingshi in his hand. He also tried to refine and refine the aura they contained.

After practicing and sleeping until the morning, after eating a little something, Shen Lang took a taxi to a shopping mall and looked for a watch counter.

He is going to go home and buy a pair of watches for his parents to make a gift. Because the money comes from where it still has to be pushed to the rich girlfriend of the rain, so you can’t buy too expensive, or they will definitely not accept it.

But if I bought it, I didn’t want to buy it too cheaply. I bought a pair of watches for about 20,000. He didn’t need a warranty. He threw the order directly. When he was ready, he said that it was bought by two thousand.

After buying the watch, he directly took a taxi home.

On the way back, he sat behind and took both watches apart. Falling in the eyes of the taxi driver, it is this young man who bought two good watches. He is cherished to play, maybe he is interested in showing him...

But in fact, Shen Lang buys watches not only to give gifts, but to let parents wear them!

When he got the first money, he bought a piece of jade about 10,000 yuan for his mother. He injected it into the mother’s pillow, so that he could absorb it slowly while sleeping.

This time is different. He is not going to use his vitality to make his parents healthier. He just makes the watch a magic weapon!

Of course, the saying treasure is exaggerated, just like the magic weapon, it contains energy, once the owner encounters an attack accident, it can play a protective role.

But after all, it's just a watch, there is no spirituality. Like a piece of jade that he carried with him that year, he could block a thunder for him!

With his current ability, even if he does everything he can, he can only play three or so functions, and then it will be damaged, and this protection is of course limited.

When I got home, my parents were very happy. They are now accustomed to the new role of the factory, and every day they are energetic and hardworking for their careers.

Shen Lang took out the gifts they bought and put them on, saying that they didn't have much money. Although they were considered a brand-name watch, they were actually very popular.

Shen Nan Han Fengying and his wife still chanted him for a while, and felt that they should not let people spend their money and spend money. The factory has already spent so much money.

When Shen Lang was wearing them, they also gave them a glimmer of energy to make them healthy and prosperous, and they also branded them. So if they have an accident, he can sense it and can find it.

These are just silently doing and not saying anything to them. There are still treasures and soups, and let them drink slowly. Things that will make them worry, don't tell them at all.

In fact, Han Fengying, who is not only drinking Baibao and Shentang, but also the jade in the early days, is Shennan who came back later. Now, two people are obviously younger and healthier than before.

It's just that they, whether they are themselves or others, feel that they are "happy and happy", who is not happy to get a factory out of thin air? Even if they don't think about it for themselves, they just manage it, they also work from the factory to become the manager of the factory. It is almost the peak of their life, and the state can be bad.

However, the neighboring friends of pantothenic acid are naturally quite a lot. Everyone said that his son has a good interest, and he has caught a rich family. Care is equal to buying his son. Maybe he will enter the house afterwards!

These swells have been enlightened before, and they are all unable to eat grapes and say that they are sour, and they are happy to go to heaven. The couple listened too much and they let go.

There is still a problem is that with the factory, the family has relatives to visit. A lot of gossips can't be beaten, and there are people who have never contacted before. They bend their relatives and then they have two goals – borrow money and enter the factory!

Shen Nan's situation was not good in the past. Otherwise, he would not run in a big city in the distance. At that time, he did not see what these relatives had helped. Although it was difficult to put the following, it was still not biting.

Including these relatives requesting to enter the factory is also not loose. This is the investment of my son's girlfriend, and I will not break up in the future. Just check it out? I found that the money was misappropriated, and the workers were all relatives who had mixed food. Didn't they see their sons?

Therefore, the honest couple also refused to bite the scalp one by one, and began to feel guilty. After discovering so much, they were relieved. If you really open this mouth, it will be endless. The whole factory will be millions, and how many people can afford it.

This kind of relatives, such borrowing money, but will not return, is to hit you autumn wind to eat your big family!

The result of the refusal is to let all relatives criticize them. Fortunately, all of them are sons, as long as they are good for their sons, others can be ignored.
