

## First Strong 1881

Chapter 1881 - Silver Fox wins 7

The white cockroach frowned directly.

The three-headed fox, the middle one is silver, and the two are red.

Shen Lang thought that the green hills are all nine-tailed foxes, all of which are white foxes.

The silver fox is eight-tailed, while the other two red foxes are seven-tailed and eight-tailed.

“Thirteen! You really dressed up as a human being, and with this human being in the green hills!”

The silver fox watched them slow down and immediately sipped.

“What are you talking about? This is the guest of Qingqiu. Now the patriarch asked me to take him to visit Qingqiu!”

Thirteen is white.

Shen Lang is also a bit clear that the name Bai Yu is intended to be a white nine-tailed fox. It should not be specifically for him, but her external name.

And thirteen did not know the order of how to come, but like her name in the family, nickname and the like.

“You said that the patriarch is the patriarch? How can the patriarch let humanity enter the green hill? I will take him to see the patriarch!”

“Win seven! Hugh rude!” Bai Hao whispered a word.

Originally because of the previous pressure, plus to say goodbye to her hometown, her emotions are a bit low, and now this silver fox, called Shengqi, is provocative, and she is a little depressed.

The silver fox, who was called Shengqi, sneered.

“Sure enough! Sure enough!”

“What?”

“They all said that if you see a human being who broke into the green hills, you will be fascinated, take the initiative to approach, and go out for a long time. Now it is still carrying humans and chaos, and the patriarch’s nephew! Sure enough!”

The tone of Sheng Qi is full of anger.

The red fox next to it is also full of hostility to Shen Lang.

However, Shen Lang heard a strong sense of jealousy!

He couldn’t help but laugh.

The situation is already very clear. Last night, he and the giant cub appeared, the news has spread in Qingqiu.

Bai Hao let them go, and they traded. They left with them early this morning. Until now, it is still in the evening, and there are various rumors.

And this victory over seven silver foxes, should be one of the admirers of the day, burned in the campfire.

In light of the attitude of the former patriarch, Shen Lang estimates that this victory is already a leader among the younger generation, so it may feel that it is the best match with the day, and it will eventually come together.

Now that a human being suddenly appears, let it have the feeling of being loved by the cross.

It's just that it's eight tails. It's still not worthy of the day, it's just relatively good.

Maybe it is aware of this, so is there pressure?

"Nonsense! Too lazy to talk nonsense with you! I confess to the patriarch, do not need to explain anything to you!" White 嫫 is also angry.

This time, she was very happy for Qingqiu, seized the opportunity, and successfully completed the long-cherished wish that has not been completed for generations.

She didn't want to be public, she didn't want to be a hero, but she didn't want to be stigmatized!

It's just that these things are big secrets for Qingqiu. They can't be said casually. It's also said that the patriarch is qualified to publish.

So she is angry but can't say more.

And this seems to be inexplicable in the case of Sheng Qi.

"You have nothing to say?" Shengqi sneered: "Thirteen you are amazing! I can't beat you! But this intrusive human, I must arrest, must be handed over to the patriarch!"

"You use a little brain! Not the permission of the patriarch, will I take him to visit Qingqiu?" I didn't know how to say it.

I saw the patriarch just now. It was the patriarch who saw them directly. It was also a separate instruction to her. She could not prove anything.

Can't you pull the victory of the seven to go to the patriarch?

That not only lowered her grades, but also disturbed the patriarch.

But in the case of Sheng Qi, her arrogant appearance is because of her guilty conscience!

“I don’t need to use my brain! You are not always arrogant with the patriarch’s petition? Who knows if you are under the banner of the patriarch? If you are not guilty, take him to see the patriarch with me!”

Bai Hao immediately rose in momentum, although it has not changed its original shape, but it is ready to go.

She is nine-tailed, does not need the body, but also has the ability to press the opposite three.

Her attitude showed up, and the two red foxes next to her were a bit discouraged.

But Sheng Qi did not give in.

“You are guilty! Do you dare to shoot me? You are a human being, we will shoot for us, and the whole Qingqiu will have a judge!”

It is now to take this point. If Bai Hao shoots them, it is equivalent to sitting on her guilty conscience, and then all the foxes in Qingqiu will criticize her.

Shen Lang reached out and took a white shoulder.

“Calm, let me handle it.”

Shen Lang has no emotions for Qingqiu, but there are whites.

For him to let the white singer with these hands, it is not only these, but also the opinions of other foxes.

So this wicked person can’t make the day to do it.

This was originally a natural behavior of Shen Lang. I didn't think much about it, but when I fell into the eyes of Silver Fox, I felt that this was a very close evidence of Shen Lang and Bai Yu!

Sheng Qi simmered in the fire, immediately fried hair, and could not help it!

Its eight tails have become weapons in time, and all-round attacks on the waves!

White Stork is next to Shen Lang, but it is also difficult to avoid. This is the reason why it just has to take the words to live in the day, otherwise it will be 白嫖出, there is nothing about it. .

Victory Qiyi shot, the two red foxes who came along with it, also immediately followed.

Although this may offend the day, they are in good relations with Shengqi.

White 嫖 is hesitating, or retreating to the side.

She is not very clear about the strength of Shen Lang, but at least one thing is clear, that is, it must be stronger than her!

This still does not summon the swell of the behemoth, or else the consequences are even more unimaginable!

Bai Hao himself did not participate, avoiding the intensification of Sheng Qi. The previous relationship also made her very certain, that is, Shen Lang will not suffer from losses, and will not make the scene not come to Taiwan.

In fact, of course, she does not know enough about Shen Lang. Shen Lang will have a sense of proportion. It is also a matter of watching people. If the other party is interested, whether it is to start looking for an opportunity to eat his giant python, or to keep the dishaling red porpoise king and willow. Just as they are, he can be polite and arrogant.

But if you don't know how to lift, Shen Lang will not leave any feelings!

When the white cockroach retired, the silver fox wins seven and the other two red foxes that were attacking were relieved and attacked with all their strength. For a time, the wreckage was wrapped around more than 20 fox tails.

They use the tail as a weapon. Of course, it is not simple. Every tail has a thunderous and sturdy trend. It is almost a level where the sword and the gun are not invaded by water and fire. Every hair can be like a needle tip!

Not to mention the human body, that is, some skinned and thick beast gods, hit by the tail will also be \*\*\*\*\* and painful.

Because they all have a height of more than ten meters, and there are so many long tails coming over, directly covering the sinking waves completely, can not see clearly from the outside.

Chapter 1882 - Understate

Silver Fox wins seven, originally with two red foxes, occupying a quantitative advantage, and it does not feel that a human being can be strong.

So this time, in addition to the crazy attack on the tail, there is still leisure to pay attention to the reaction of the day.

After all, it does this because of the white scorpion, the purpose of doing this human being, is to earn face in front of the day, but also to fight for it, can not be compared.

At this time, its mind is contradictory. It wants to see the horror of the white sorrow, so that it can get a venting pleasure. When the cockroach lets it stop, it can also be superior. .

But it does not want to see this scene, because it confirms that Bai Yu really cares about this human being.

At this moment, it is immediately concerned and immediately relieved. Because the day is not only to open a more spacious distance, but also does not mean to intervene, the expression is very indifferent, as if not care.

In the victory of seven, I have already filled up a lot of plots, and the mood is more complicated.

Seeing that Bai Yu does not seem to care about the appearance of this Terran, it should have been to let it relax with a sigh of relief, but this time it has a frustration of punching!

It heard a lot of rumors, just personally blocked a positive, originally occupied the moral and emotional advantages, is to take advantage of this opportunity, forcing the white to come.

But now it seems that it is a bit wrong. White does not care much about this human being, and its attitude is to leave a worse impression in the day.

Because it thinks too much, it is complicated and complicated, but the other two red foxes do not have so many ideas!

Both of them only one idea, to help win seven succeed, want to put this Crosses alien buddies love Tongzou meal!

So at this moment, the three attacks of them, but the two red foxes became the main force, the silver fox wins seven is a little discouraged.

But its emotional changes, as well as the situation on the spot, are only in the blink of an eye.

I haven't waited until it wants to understand, or since I complained that I have been self-pity, I have already made a big change!

Not only two red foxes, but also the silver fox wins seven and flies out!

While feeling the fly back, it only felt that the eight tails almost broke the general pain!

Without the coverage of more than twenty furry tails, the figure of Shen Lang reappeared.

At this moment, he just took back one leg and then licked the fox fur that fell on his leg.

“As far as your ability is concerned, is it also ugly?”

Shen Lang calmly fell on a mountain top, and Bai Hao immediately passed his side.

Just under the circumstance, he quickly kicked out more than twenty feet in a flash, kicking a fox tail in each foot, and letting these haired fox tails almost broken.

Choosing a foot, rather than using other methods of attack, is better to leave room.

Not to mention the sword of the king, is the stagnant water whip, he went around the circle in the past, the seven-tailed, eight-tailed Fox family, all have to become a tail-tailed fox.

If you let out the fire, you can burn them all and even become a roast fox!

It's just a silver fox in the area. This is still to be jealous and to make the waves disdain.

Besides, the face of Bai Yu still has to take care of it. It is still a bit embarrassing to kill her people in her home.

Moreover, the Qingzuo patriarch just said to him, he was also a polite person, and he was also a sister, and he was also a spiritual person, and he could not give face.

But no matter how bad the hand is, it is inevitable.

It is necessary to teach them to understand that some people are not offensive!

Although just a tail kicked a foot, but with the strength of Shen Lang, each foot is enough to open a mountain crack, if these tails of the Qinghu Fox are extraordinary, they have already kicked off.

“I am very sorry that our people are not rude and offend you.”

Bai Yu was the initiative to propose, and the patriarch was arranged to serve the Shen Lang. She had already re-arranged her position and made herself accustomed to the identity of the maid.

This is of course not easy for her.

It was originally the glory of the Qingqiu, the most eye-catching genius, the object of the female fox demon envy, and the object of the male fox demon.

When she saw Shen Lang and the giant python before, she was calm and balanced, but she was not humble.

However, following the service of this human being is also her own bold decision. The purpose is to see if there is a new way out and a different future.

So it is not easy, unnatural, and does not feel wronged.

The silver foxes and red foxes that were kicked out, except for the seven tails, were weaker and fell to the distance. Shengqi and the other eight-tailed red foxes were forced to stop in the air, not too much.

They forcibly stopped and reversed in the air and they had to re-attack. Just lost, I feel that I have made a mistake in prejudging, and now I have to fight back again.

At this time, they heard the words of the day...

After Shen Lang kicked them out, I heard it, but it was a winning story, not surprising.

But if it is white, it will be different.

Bai Hao actually apologized to this man on their behalf!

This makes them even more angry!

“Go to death!”

The red fox is over, and the silver fox wins seven directly.

Between the time, it is incarnate in the sky, not only the tails countless is that the body looks countless, it is extremely difficult to identify the body.

And a large space around it was controlled by it, and there was an irritating atmosphere.

It seems that it was just a small punishment before the big punishment, do not want to produce too much consequences, but now it is really a big move, want to kill Shen Lang!

Shen Lang is very calm.

“Please be merciful!” Bai Hao quickly and quickly pleaded with Shen Lang.

In any case, Shengqi is also a member of Qingqiu, and it is the leader of the younger generation. If it is directly killed, it will inevitably lead to the anger of the entire ethnic group, and the patriarch is embarrassed.

Shen Lang hand-kneaded swords, understated to the air!

Immediately a white light flashed past.

Then there was a scream!

There was no shadow in the sky, and the atmosphere of the people was gone. Sheng Qi fell directly from the sky and fell to the mountains not far away.

Its tail has fallen from the air.

The red fox that was about to attack quickly took over his body shape and was shot to the distant seven-tailed red fox. After stopping, he wanted to come back. At this moment, he simply pretended to be seriously injured and fell to the ground.

In the immediate situation, all of them, including the distant valleys and peaks, watching the lively Qinghu fox demon, are all really seen.

Bai Hao did not shoot, Shen Lang did not use any magic weapon, but an understatement! That not only broke the spirit of Sheng Qi and the confusion of the figure, but also directly cut off a tail!

They themselves know very well that these tails are not born, but cultivated. Each one represents the cultivation to a higher level. This is comparable to the weapon weapon.

The result was shattered by Shen Lang and it was broken!

Chapter 1883 - seek death

When the Victory Seven came over here, many foxes waited to watch the fun, and many people took it.

They are a little bit awkward at this moment, how do you end up?

If you are familiar with Shengqi, or you can marry it, you will naturally be a peer, not as good as it. If you want to help, you should also measure yourself enough.

Some of them are fox \*\*\*\*\* who have been practicing in Dongfu. There are some nine-tailed foxes, and this is also a concern.

But seeing Sheng Qi and Bai Yu, even if there is more than one human being, there is no immediate out of blending, but to wait and see.

To put it simply, they feel that they are white, and it is impossible to kill a party, so it is still relatively calm.

The red fox was rushing to the ground, smashing the tail of the silver fox wins seven, past its side, protecting from the waves and then hands.

“I don’t know what to do. This is to look at her face, but also on the face of your patriarch, or else... Hey!”

Shen Lang originally said that “or else peeled your fox fur into clothes”, but thought that the white beard is also a fox demon, the entire green hill is a fox demon.

This statement is not only offensive to all the Qinghu foxes, but also hurts the day.

White 媿 can only sigh at this moment.

Although she has already asked Shen Lang to be merciful, but she has not been merciless, she is also clear. And Shen Lang, is still a lover!

With her own ability, it is not difficult to kill and win the seventh, not to mention the deep waves she can't see.

Can only blame win seven for their own death...

They are broken, not just as simple as an injury, but they will fall directly into a realm!

Because of this, after being crushed by Shengguang with Shengguang, it will directly scream and fall, because that is a heavy blow.

“This is the guest invited by the patriarch! You are not only offended by words, but also dare to attack. It is self-satisfying, I hope you can remember the lesson, and do it yourself!”

Bai Hao immediately screamed at Sheng Qi.

This sentence is actually said to protect the victory seven! It is also to calm the public opinion.

It is natural to know that there are many foxes in the vicinity who are paying attention to the situation here.

So, whether it is to strengthen the face here, or to lift the head in the Qingqiu world, they must continue to fight!

If you are so broken by the sinking wave, what face will you have in the future?

So, even if they can't beat them, they can only continue to fight hard! Because of this, the seven-tailed fox will not be hurt.

The result can only be a further irritating wave, and when it is time to shoot, it may not just break a tail.

In turn, Sheng Qi, they were broken and defeated, will also arouse the psychology of Qingqiu foxes and enemies. When everyone comes together, they will be unable to clean up.

Therefore, Bai Yu took the initiative to swear, and loudly stressed that this is the patriarch's guests, so that they have a step under the victory, but also let the onlookers of the Fox family, will not lead to greater misunderstanding.

Sheng Qi is very angry at this time, and very depressed.

It was originally intended to be combined with the white enamel, so that it could evolve to nine tails. Now it has broken its tail directly, and it is hard to say that it can be cultivated back to the eight tails, let alone nine tails.

After today, Bai Hao must not look at it.

This makes it very resentful!

Resentfulness, actually give up and choose an alien.

Resentful to the waves, a human race actually ran to hook up the Fox!

But no matter what, it is also very clear, Shen Lang is far better than it. If you continue to fight now, you will only be humiliated.

It is not afraid of being killed by the smashing waves on the spot, and there is no lack of pleasure. If that is the case, it will make Bai Hao guilty about it.

But the bigger possibility is that this human will not kill it, but will slowly torture and humiliate it!

If the tails are cut off one by one, the fur is deprived bit by bit... that is more than death.

Alive, there is at least a glimmer of hope, and a chance to turn over.

Even if this process may be decades, hundreds of years...

Therefore, at this moment its eyes are full of grievances, but it is silent.

The red fox that protects it, and then listened to it, it was a secret sigh of relief.

Fortunately, it was a little slower, or else it might be like this.

They are not the opponents of this human being at all!

But whether it is to win the seventh, or because other people are concerned, it can only run  
\*\*\*\* the scalp.

Although Bai Yu also said that this is the meaning of the patriarch, they do not believe it, but now they are completely convinced – do not believe and would rather believe it!

It is inconvenient for the patriarch to invite guests, and it is not necessary to do it anymore. It is also safe.

“One day...”

Sheng Qi did not move, but complained of swear words.

However, its words have not been finished, Shen Lang will be interrupted first.

“Do you want me to kill you first?”

When the words were spoken, the red fox was immediately chilled, as if it were the eyes of the waves, they could be slaughtered.

Sheng Qi was also directly shackled, and did not say anything later.

“Misunderstanding! It is a misunderstanding! You are the guest invited by the patriarch, we are the guests of Qingqiu. We just did not right, we misunderstood. I hope you will not be surprised!”

The red fox knows that Shengqi wants to say something about the scene Even if it loses, it can't be so wronged, but now it seems that this is not a problem, once it's said, Will let the other party shot.

Shengqi must not be able to apologize, so it rushed to apologize, and then hurried over, hugged the victory seven and flew off the hill and went to the distance.

The white scorpion looked around in a circle, although it was not directly said, but the meaning is already obvious – don't look at the excitement, it is scattered!

Then I faced Shen Lang and smiled slightly: “Sorry, I didn't think...”

“I don't have any good visits. Do you have anything to say goodbye?”

Shen Lang had not had much interest. He was now victorious and they were engaged in it. They thought that they were still being watched by many foxes, and they were even less interested.

“You are a Qingqiu guest, it is too late, you should stay overnight, go tomorrow.”

The patriarch did not have more detailed instructions, and it was the responsibility of Bai Yu to entertain Shen Lang.

Since it is the first time for a human guest, of course, you can't go in a hurry. I have no intention of visiting now, so it is polite to entertain a meal and a night.

Shen Lang thought she still had something to deal with. After all, she would go back to pay when she came back, and then went out to wait for him, and there was no time.

"I have also made a big cocoon. That's it! You handle your things first, I go out and wait for you in the valley next to you."

"I....."

The day has not been finished, Shen Lang has interrupted: "It was decided."

Regardless of whether she is a servant or a maid, she always has to give her a farewell time and cannot take it away in a hurry.

After he finished speaking, he himself left the road quickly.

Chapter 1884 - Eat him

After Shen Lang came out of the valley at the entrance to Qingqiu, I saw that it was too late, and went straight to the valley next to it, staying in the valley as before.

There is no limit to the giants, and they will go to bid farewell to it. However, since it is not waiting here, whether you go to Tongtian River or go to the downstream lake, you need to find a separate one.

If it's just in the waters of three hundred miles away, it's better, and it's going back and forth very quickly. If it is going down three thousand miles, it will take a little more time.

It's not an urgent matter, of course, I'm too lazy to go back and forth now.

When you wait for the day to leave with you, you will have to look at it again and you don't need to go back.

When it was in the valley, Shen Lang simply entered the space of Tianshu.

The dog \*\*\*\*\* is still resting and practicing inside, swallowing four headed porpoises, and it takes a while to digest and absorb.

Shen Lang is not anxious to count the harvest. After all, this time the transaction with the Qingqiu patriarch is very simple. The other party has given ten spirits, which is not complicated at all.

And he also willingly sent a pair of foxes of the nine-tailed fox, plus a keel.

He is now thinking about how to deal with the problem of thieves.

The treasure caves of Wulongfeng have already been visited, and the personal collections of the thieves have also taken the transaction of trading and trading, including his memory.

There is still value left, that is, his spiritual strength and his cultivation.

The current thief is still in a state of coma.

But it is actually a bit of a hassle, because Shen Lang can only put it in the space of this day, here is a hundred times!

So every time he comes in, he has to ban it again.

If something happens any day, or if you forget this, then after a long time, the thief will get out of trouble.

There are still a lot of his things here, and whether or not the dog \*\*\*\*\* is guarding here, you must guard against this.

“The Emperor, you have eaten him too!”

After thinking about it, Shen Lang threw the thief grass to the dog god.

He wants to go back to Earth, not to the realm of the Great God, and now it is reaching the limit.

The dog \*\*\*\*\* has nothing to do with it, and here, the stronger the dog god, the better it can help him.

The Emperor's behemoth looked at the human being thrown in front of him. It also knew that the strength of the thief grass was not weak, and eating it would be a great supplement.

But it is not greedy!

This time I came to this world and escaped from Guangmingshan, Shen Lang gave it a lot of resources. Those who were previously the owners of the world of the Emperor's behemoth could not get it.

Just like today, with the help of Shen Lang, let it swallow three three-headed porpoises, and then smothered one to eat it.

It is also very clear that a giant beast like the red porpoise, as a human being, can't eat as much, and can't absorb it like it.

So it was not polite before, but now this is not the same, this is just the size of a normal human, Shenlang should have a way to get it.

"I am full, you eat." After throwing the thief back to Shen Lang.

"..."

Hearing its resignation, Shen Lang was very speechless.

Really take this as food!

Also modestly let you eat meat, he eats food?

“You don’t have to be polite with me, you need to be stronger. You are stronger, you can help me, protect me. You forgot that we were in Guangmingshan that day?”

In the words of Shen Lang, let the dog \*\*\*\*\* silence.

That is the shame of its life!

How can I forget?

If it was strong enough at that time to be able to fight with the light god, then they would not need to escape, and would not be hit hard to the death of sudden death.

If it is not a quick reaction and a lot of means, if it is not good, it will be directly confessed to Guangming Mountain, and it may be eaten by others.

“Eat! With our friendship, who is stronger is not important. I am stronger, will protect you, will not let you have an accident. You will protect me even stronger, will not let me accident.”

The sentence of Shen Lang, let the dog \*\*\*\*\* nodded hard.

Although it has not been said publicly, it is like this.

“We need to become stronger. One day we will kill Guangmingshan again! But we can’t always hide and cultivate. There are some things that are more important than closed-door cultivation. For example, this trip to the wilderness has gotten a lot. Valuable resources.”

“So, we need one to become stronger! I am going to deal with other things, you become stronger. This way, when I need it, you can have the strength to help me. You are strong enough, we can also kill back to the light. mountain!”

The words of Shen Lang have an explanation for the dog god.

It also makes sense when it comes to thinking. If resources are limited and everyone is divided, both sides will rise even slower. If you give it all, you can achieve better results.

“but.....”

Shen Lang understands what it means, saying that the mental power of the thief can be taken out. However, before Shen Lang had reached the limit, he pressed the realm of Daxian Peak, and already had the strength of the realm of the Great God, and could no longer be upgraded.

Unless you break through the realm of the gods first.

So he shook his head and said that he would let the dog \*\*\*\*\* eat it directly.

“You have eaten this first. If you still catch other enemies, I will be welcome.”

The dog \*\*\*\*\* can't beat him, but he has to.

Even if it swallows four red porpoises, it is also a suture. After eating, I began to digest.

A hundred times of time here is the most effective for it.

After Shen Lang handled the thief grass, it was a matter of mind Don't worry about the thief's awakening.

Although he did not need a day and night break, he also had a rest here last night.

However, I still chose to sleep in the space of Tianshu.

Sleeping for a few hours here, the outside time has only passed a few minutes.

Since it is already here, Shen Lang simply does not rush to go out and cultivates directly in this book space.

Although he has reached the limit last time, there are still many things that can be consolidated and compensated. This time, I have to make up for it, so that I can now be more stable with my strength.

On the other hand, it also took time to study the harvest of Qingqiu Stone, Earth Fire and the God Pen.

Outside the night, Shen Lang was in it for more than a month, and he was already able to finish it well.

The calculation time is almost out, leaving the dog \*\*\*\* to continue to sleep inside – digestion and absorption.

When the swells came out, I saw that it was already dawning, and soon I discovered that the white pelicans were above the peaks.

Bai Hao should have arrived already, but he did not see him. He did not know if he was looking for a borderless and had not returned yet, but he told him to wait here, but he did not dare to search for it.

Now that he appeared, there was no hiding, and the day was immediately felt, and he hurried down.

“I am ready, I can go with you.”

“Good! Let’s go to Tongtianhe first and look for a farewell.”

Shen Lang said that there was no accident in Bai Yu. She also thought of it. Shen Lang said that looking for giants to go without a border, but to find an excuse to leave some time for her, and do not want to stay in Qingqiu.

In fact, too, the departure of Shen Lang, let the Qingqi Fox people have a sigh of relief, or else always feel unnatural.

Chapter 1885 - Out of bounds

After Shen Lang and Bai Hao merged, they went to Tongtian River.

Here is the direction of the Tongtian River and a tributary. In the past three hundred miles or so, it is the place where the tributary flows into the Tongtian River.

Before the giant scorpion has no borders, it will not deal with it. Everyone can live in peace because of the relationship between the waves.

After Shen Lang sent them back first, Bai Hao was going to go back to Qingqiu immediately. Although he politely invited the giants to be a guest in the past, it certainly would not go.

At that time, Bai Hao was eager to send back the cheekbones, and there was no more guest set. Then the giant python went away on his own, and did not communicate with Bai Yu where he waited for the waves and whether he would come back.

Strictly calculated, Shen Lang did not have much deep friendship with it, but after entering the Great Wilderness, the first thing encountered was the giants, and then followed it to the underwater world, and confuses it to start trading.

This is what happened after going to Chengdu to carry the sky, to Qingqiu, and then to the funeral valley.

For the long years of the giants, it may be a very small episode, and it will be the same for Shen Lang.

Because Shen Lang's trip was full, he was still interested and said goodbye to the two partners.

But now when I go to Tongtianhe, Shen Lang has made a secret decision first – never accept it!

The Qingqiu patriarch was to send the girl, and to send the spirits, so that he was embarrassed to refuse, and finally took the initiative to give a pair of foxes of the nine-tailed fox, plus a keel, it was a peace of mind.

That is also a comprehensive consideration, it is to help the day, and to say that the essence is a very good thing than the Lingmai, white-skinned adult shape, is also a stunning beauty. If you don't say anything, you will have a face as a maid.

What is the giant 鳌?

When the mount is also abandon!

Like the great wild five dragons, riding the beast \*\*\*\*\* level of the fierce beast dragon, no need to fight the power, the light of the appearance of the screen, it is very windy, very style.

If you are fighting with others, others ride dragons and ride a variety of fierce beasts. He rides an old turtle and is directly compared.

In addition to being a mount, the giant python has no other effect on Shen Lang.

But then again, the giant can not be willing to be his mount.

So this is even a vaccination. If the giant python tastes the sweetness and thinks that there is still a long life, I want to follow him to see it. This is a strong need to refuse.

Now Shen Lang is no more than the original. Before he still flicked out the dog god, then you need to rely on the dog god, the fox fake tiger Wei.

Now he is not afraid of the gods himself. Of course, it's not that all the cats and dogs are closed.

Soon to the waters of Tongtian River.

The river is not up to the top, and the width is more than ten miles. The place where the tributaries meet is even wider. Although the surface looks calm, the picture is still very spectacular.

They said that the water above the surface paused, and Shen Lang saw the white curious look of Tong Tianhe, and could not help but ask.

“Have you ever been here?”

“There have been, but not many times. Although the distance is very close, but we do not lack anything in Qingqiu, the daily constraints are as far as possible, and there is no chance to come.”

Shen Lang nodded, remembering what the giant python said before, if it wasn't for a long time ago, he wouldn't know if there were other races there.

If the giant python is waiting here, it is at this confluence.

After Shen Lang arrived here, he carefully sensed it. There are hundreds of meters of water and fish under the whole water, but there is no strong existence.

“It should not be here.”

The day is still very self-conscious. Since it is to follow the service, it should be done.

Therefore, when I spoke to Shen Lang, I also carefully touched the vicinity, and I did not notice the traces of the giants.

“I know where it lives. I am leaving here, I am unlikely to come back again, so I want to say goodbye to you before, but I still want to say goodbye to it.”

“Ok.”

Hearing that Shen Lang said that he is no longer coming back, Bai Xin could not help but feel a little strange.

Because for Shen Lang, it is a great waste, and she is back to the wilderness back to the green hills.

However, she was only a little touched and did not say anything. If she left, she would have been reluctant, and could that person still take her away? Send her back directly!

Besides, the current situation of Qingqiu is also a bit shackled to her.

Although according to her talent, there is a chance to become a patriarch in the future, but it will be a long time later. And... it doesn't seem to mean much.

It is her own destiny, she can see the end at a glance, and she is very reluctant to such a genius.

This time, the initiative and the patriarch proposed that the patriarch should be able to take a completely different path.

So she is not a reluctant, just a little touch.

From here to the downstream lake, there is still a distance of about three thousand miles. The speed of the Shenlang is actually nothing. Last night, I just didn't want to go back.

Now, along with the white pelicans, down the Tongtian River, you can also appreciate the scenery along the Tongtian River.

This time the speed of the past is much slower than when he came.

Because when he came, he and the giant clam were the waterways.

Below the waters of the Tongtian River Python can be a good way to display water spells, get a great bonus, and Shen Lang is followed by its speed.

It is now flying in the air. It is not convenient for him to use the sacred super-sonic flying to fly in the day. Therefore, it is only the speed of the individual to fly over, and the scenery that is still seen from time to time is undoubtedly much slower.

It doesn't make much sense to see the scenery. The speed has increased a lot.

The lake at the end of the diversion is another look of the scenery.

Shen Lang and Bai Yu fly directly above the water.

“Nothing is living underneath, and it has a very good environment...”

Shen Lang is preparing to introduce the situation here with Bai Yu, because he took the water-avoiding beads and can get into the water without barriers.

Either let the giants come to nothing, or he will go down alone.

But think about the fact that he has already rushed over thousands of miles, and the giant python is not so big to let him go, it is boring, and he does not need to please the giant.

Therefore, it should be waiting for a while on this surface of the water.

But before I finished, Shen Lang found out the same!

Bai Hao was also listening to him, but because she was thinking about doing things for Shen Lang, she was already searching for traces of no boundaries, and was prepared to inform it first and found the same.

The eyes of two people looked at the distance and then flew together!

When the Tongtian River arrives here, it will be diverted again. This place is like a lake and has a large area. They just came over casually and didn't go to the middle.

At the moment, it is going directly to the middle.

Then I saw the body of the giant scorpion, floating above the water, motionless!

Chapter 1886 - 4 dragon's pursuit

Shen Lang, their speed is very fast, and they have not yet reached the edge of the giants, and they have clearly realized what is happening.

The body of the giant python floated on the water like this, without sinking or moving.

Because the waters are large, after the rapids below, it is under this lake, forming a whirlpool of tens of miles.

But in the middle of the place, it is calm.

The body of the giant scorpion is here, so it is not rushed to float and flow.

It will make Shen Lang and Bai Yu feel different because it doesn't feel the powerful atmosphere of a super beast!

When I was also a detective of God, I found this obvious trace.

Now that I am close, I have learned more about it. The atmosphere of the giant python is very weak. Although it is still not dead, it is already in a state of sudden death. It is only because of the powerful vitality of the turtle that it can continue to hold.

Just looking at what it is now, the vitality of life is a torture, so that it does not know how long it will take to die.

Of course, it is impossible to be sick and violent.

It will be so dying now, only one possibility is killed by people!

And it's not only powerful, but also a hard and natural protection – shell, it is much harder to win it than to win it. To achieve this effect, it is definitely the enemy is far better than it!

It has been running through the Tiantian River for thousands of years. What powerful enemies can there be?

There is a strong race like Chengdu Tiantian or Qingqiu. In the style of giant python, it will not attract the degree of killing.

All of this information is gathered and the answer is ready.

Great wild five dragons!

When they were reported to the outside of the burial dragon valley yesterday, they were teasing the giant scorpion, saying that it was just an old man and wanted to cook it for something.

This fully shows that the Great Wild Five is knowing that Tongtian River is active in a giant python. It has not been used to it before, and it is more difficult on the one hand.

Because it is hidden under the water, and the Tongtian River is a dozen miles wide and hundreds of meters deep, the flow is huge. It is not easy to find out from it, let alone fight at the bottom.

That is, they will be greatly discounted, and the giant python will be greatly increased.

On the other hand, an old turtle that is active in the water and may not move once in a few years has no oil or water.

To attack it, of course, it will not be worth the loss, so the Great Wild Five did not move it at all, and the giant python did not understand the far-reaching situation except Chengdu.

Now the Great Wild Five will come to attack the giant python, the reason is also very simple, nothing more than for the benefit.

This kind of interest is not the one that the giant python gets. Although it does not show it, it can basically guess that there is not much.

Let them travel to the Tianhe River not far away, or because of the waves!

After Shen Lang took Wulongfeng Dongfu, he also turned the black pot back because of Liu Zheng's greed, letting the other three follow him, and ignored the waves.

There must be a process of killing each other and dogs biting dogs. But they should also be friends for a hundred years. Even if they still have selfishness, there are still some things to understand, and trust is definitely there.

After Liu is discovering an empty space, he is definitely not willing to back the pot. Or after the three of them caught Liu Zheng live, they could find that there was nothing.

Shen Lang did not think that their dog bites the dog to eradicate the Great Five Dragons, but let them go to self-consumption, and it does not affect him to leave safely.

Because he himself is going to leave the Great Wilderness, not afraid of the revenge of the Great Five Dragons, so he did not consider that much.

Normally, according to the plan, I also returned to the vicinity of Qingqiu, bid farewell to Bailu, and then went to the Tianhe River to say goodbye to the giants three hundred miles away, and left the Great Wilderness overnight.

Behind the Qingqiu, there was a little more unexpected situation, which affected the plan of Shen Lang.

Because it is tens of thousands of miles apart, Qingqiu is also hidden. The white dragonfly is still human, and there is no exposure to the body.

Now everything is clear, the Great Wild Five Dragons, after the dog bites the dog, and figured out the situation, he followed the clue of the Tongtianhe giant.

They can't find the sinking waves, can't find the day, but can find the Tongtian River.

The giant 鳌鳌横横通通通通,,,  
,,

It is the end of the present.

In a flash, Shen Lang has already sorted out all the relationships and immediately said.

“Don’t go, they have an ambush!”

In the Great Wild Five, they left behind giants and died, on the one hand to torture it, on the other hand, of course, to attract the waves.

It is impossible to confess the situation of smashing the waves, and it is impossible to confess if you want to confess. Shen Lang did not say that he will come back here again. There is no way.

But they will keep it in one breath, that is, they are ready to stay here for a long time.

“I found out now, late!”

The voice of the holy shrine passed coldly.

Between the time, in the vortex flowing around, four people emerged from all sides.

Liu Zheng, Sheng Sheng, Sky Stone and One-eyed Dragon are all there.

In fact, they solve the misunderstanding, faster than Shen Lang imagined!

Because of the real fantasy created by Shen Lang at that time, there was a certain range.

When Liu Zheng was in it, he was completely immersed in the illusion, so that he included himself. He felt that he had won the baby but after leaving the Wulongfeng, he left the illusion. Within the scope, Liu Zheng is naturally out of the influence of that layer.

He was the coolest and most intelligent one in the Great Five Dragons. He woke up and immediately realized that many of them were not normal.

Why is Shen Lang not moving?

Even if he is controlled, he should be able to escape. The former four people joined the ban of the Red Dolphin, and he managed to escape.

Why is the baby so easy to win over?

Even if it was a sudden surprise attack, they did not expect a few of them, but Shen Lang used this trick. Isn't it alert to alert?

After discovering that something was wrong, he immediately checked the harvest.

It turned out to be empty!

No matter how many dozens of burial dragons are not, there are not a few souls.

This situation caused Liu Zheng to immediately command the dragon to turn around and return, and soon encountered three sacred priests.

Liu is smart, he does not say that he has discovered the truth, facing the angry partner, he is following.

It is said directly that he has taken away these things, in order to grab the waves, or to share with everyone.

Although he left a step first, the other three were locked in at the same time as they were chasing, confirming that he had not contacted anyone, where he had not stopped, and indeed took the initiative to come back to them.

Even if he kept doubts, he still believed him on the surface, and then he presented everything in front of everyone. The "surprise" found nothing.

The other three of course doubted him, but when they left the illusion, they also woke up and realized that many of them were not normal. In total, the truth came out.

Chapter 1887 - Giant

After piece together the truth, they are of course the first time to return to Wulongfeng Dongfu. As expected, Shenlang has already disappeared.

That is their cave house, there are various protective arrays, plus the time is short, through the induction, or faintly able to see the micro image after they left.

Shen Lang was calm and free to leave with the dog god, and there was an ancient weapon that they did not figure out – the magic pen.

This proves that Liu Zheng did not lie, they were really deceived by illusions.

The transmission of Shen Lang left, they guessed that it was through the door of the Three Realms, specifically where to go, how to transmit, it is completely impossible to understand.

Under the wrath, the temper like the sacred sorrow almost ruined the cave house!

Or Liu Zheng has more ideas, and everyone puts hope on him.

Liu Zheng did not live up to expectations, and immediately found traces.

Shen Lang and Bai Yu, they have no clues, indicating that they are from the Great Wilderness, and there is no doubt that the white scorpion is a human figure.

But the giants have no boundaries, they know it.

This becomes the entry point.

Since the three of them were from a group, when they were besieged by them, Shen Lang first sent them both away, indicating that they still care about their safety.

These let them guess that Shen Lang should be sent to Tongtianhe!

If they wait for the Shenlang to leave the Great Wilderness, it will be difficult to find another.

Tongtian River is the only clue, they can only believe this!

Fortunately, everyone was recruited at the time, and they all chased Liu Zheng. This may paralyze the waves and let him not rush to leave.

But even so, in the face of the transfer of the door of the Three Realms, their speed can not be compared, only to speed up as much as possible!

Therefore, when Shen Lang went to Qingqiu, they had already drove the dragon \*\*\*\* beast and came to Tongtianhe at the fastest speed.

Their understanding of the Great Wilderness is far better than Shen Lang, so the long and big Tongtian River is also very obvious.

And they have already touched the bottom, knowing that the giant clam is a lake active in the downstream diversion.

They don't know the clues of Qingqiu. They don't need to go to the direction of Qingqiu. They can take a roughly straight angle and go straight to the lake.

This makes them come down from the Wulongfeng to Qingqiu and then to the Tianhe River.

Let's say that the giants are borderless, separated from the vicinity of Qingqiu, and its consciousness can not help with anything. Shenlang sends them back, and they don't need their help.

Seeing the white rushing back to Qingqiu, it did not stay much, and rushed back.

Going back to this underwater world, it takes time to observe and study the big keel.

The ancestors of all ethnic groups fought against the ancient demon dragon, which is such a long life, and it has not been experienced. Getting a keel has made it a very pleasant surprise, which is incomparable to those chicken ribs.

The keel is a keel in the end, and the python does not expect to be able to quickly develop a result.

But it still can't help but watch it quickly and without hindering its surprise.

It has a lot of time and will always be researched!

I was addicted to the hustle and bustle of the giants. I don't know how long the time has passed, and I was disturbed by a burst of motion.

The movement was from the waters above, and it felt a bit. Several big herrings were playing.

Not only the lake, but the entire Tongtian River, can have such a wide, deep waters, and no humans to hunt for food, of course, there is no shortage of large fish.

A few pounds are nothing, a hundred pounds, thousands of pounds are everywhere.

But those are just ordinary fish. At most, there are some big fish. Because they have lived for a long time, they also have a little spirituality. Some of them are low-end beasts.

For these, the current giant python is eating even if it is eaten.

There is a group of big fish playing, and can't disturb it – because I dare not approach!

But now these are not the same, it seems to be the king of the beast-level big blue carp, so the playful movement will disturb the giant python below.

This is not the same in the vicinity, but the Tongtian River is so big, the waters that are diverted from here, there may be fish flowing down the river.

It is normal to have waterborne beasts coming here from a distance.

At the level of the current giant python, it is the king-level beast, it is a bit too lazy to eat.

But still eat!

This is to warn, let the Tongtian River Basin, only it is a super beast, from the source to eliminate the possibility of other beasts evolved into the realm of the beast.

And these big blue colors are playing here. If you are not good, you are here. You want to occupy this good position.

The giant python can choose here, of course, because the environment here is good, there is no shortage of spiritual grass at the bottom of the water, and it has been living for thousands of years. How could it be robbed by others?

eat!

It is necessary to eat these big green carp that do not know the height of the earth!

There are several king-level beasts and big fish in the district. As for the giant scorpion, it is like a suture. It has eaten too much.

And in order not to give the other side a chance to escape, it did not issue a warning at all, and it came out directly from the underwater world and appeared above the water.

Originally, according to its expectations, you can tease it, directly control the entire waters, force them out, and torture before eating.

Even if it is disturbed, it is still very cool to get the keel mood.

The result was just out of the water and I found something wrong!

Those big blue carp, not the king of the level of the beast, but Liu Zheng, they caught the big fish in the Tongtian River in advance, each hiding in the belly of the fish!

Their playfulness is actually a controlled struggle, and the king's level of atmosphere displayed is actually the effect of their efforts to hide their strength and the physical body to cover up.

Found that it is a great five dragons, the giant python knows it is over!

Liu Zheng, they have such a design, of course, will not miss the slightest opportunity, the four together to pick up the hand!

When the dog \*\*\*\* was seriously injured, facing the three attacks of Tong Xian Weng and Zhi Zhi, they had no chance to fight back and there was no chance of escape.

The giants are facing the sneak attack of the four great realms of the great realm, and the result is the same.

In the waters, it can have a great bonus. On the land, it can also be persuaded in the shell.

But because it is underestimated It is directly flying out of the water, and as a result, people are attacking it in all directions, giving it the dual advantages of attack and defense, and there is no chance at all.

The Great Wild Five Dragons are not the right people, they are the people who burned and looted!

This time, one of them was rushed into the thief, and the other four people's savings for the rest of their lives were hollowed out. It was the most rational Liu Zheng, and could not help but anger!

Originally, the giant crickets had little conflict with them, but they imposed the great anger on Shen Lang on the giant python.

The result is that it doesn't even have a chance to talk, even ask for mercy, and it is directly hit to the point of sudden death!

In order to make up for the loss, they robbed the python's keel and some of the remaining things. This is not enough. It broke it and dug its most valuable inner dan!

## Chapter 1888 - Threatening the green hill

The relationship between the giant clam and the sun wave did not reach the level of shelter.

At the time, the other party had to take it inside, and once it was taken, it would have been repaired for a lifetime!

This is the heaviest threat, even surpassing life. Because he died, he died and nothing happened. But after being taken for a lifetime, but still not dead, it is even more tormented.

And other injuries, even if it is serious, and the hope of recovery, Nedan was taken, it is basically impossible to re-cultivate.

So at that time, for the cruel questioning of the Great Wild Five, the giants were all said one by one.

However, it also has some reservations. For example, Liu Zheng is asking for the origins of two human beings, Shen Lang and Bai Yu. It does not correct the origin of the day, but it is wrong to treat them together.

For the case of Shen Lang, it did not lie, directly said that it came from the great wilderness, and other situations did not know enough. Also said that it was originally intended to eat away the waves, but there is no chance.

Later, they went to Chengdu to carry the transaction, and then went to the funeral valley.

I gave the paragraph of Qingqiu a little over.

It's just that the Great Five Dragons are very ferocious, and they won't let it go because it answers the question, just pick it up!

It's just that there is only one Nedan. It's not good how to divide it for the time being, so it's the same as the keel.

However, Liu Zheng is still not at ease, and when his weakness is weak, he has read its memory!

As a result, its vague reservations, skipped green hills, were all known to them.

For Qingqiu, they also have some understanding, but they don't know the specific address.

But now, there is a clue that if Shen Lang will not come to the giant python again, then they will go to Qingqiu!

It is only that Qingqiu is a race. In terms of quantity and overall strength, it is much larger than the giants of Tongtianhe. Even if they have four people, they don't dare to rush.

But I can't give up the Shen Lang, and I am afraid that the time will be gone.

Therefore, the result of everyone's deliberation is to wait for a day here. If the Shenlang has not come yet, then kill the giant clam and go outside the Qingqiu.

They also thought about the two divisions of the soldiers, and rushed to Qingqiu overnight.

However, the strength and embarrassment of Shen Lang are far from being comparable to each other. When four people are together, there is still a chance for the first line. If they are separated, they will be hunted!

They looked at the thief grass so quickly!

It is best to catch things back, not to catch up, at least to save a life! There is no life like a thief, so there is nothing.

So they still chose a safe way, or stay here.

But even so, they have an early layout!

There is a flying little beast that is not powerful in itself, just like a normal bird. But it can play a role in the whistle, just like the monitoring of the installation, but also set the warning.

This kind of flying bird is also arranged around the canyon outside the funeral dragon valley, so whether it is a group of people, or other people, once they appear there, they will be known by the Great Wild Five.

This time, they made arrangements in advance hundreds of miles away.

The result is that when Shen Lang and Bai Yu have not arrived here, Liu Zheng and others have already known in advance.

Then they reapply, converge, and hide in the belly of the big blue carp, free from the whirlpool waters around the body of the giant python.

When Shen Lang and Bai Yu came over, they held their breath and waited until they reached the encirclement. When they found that something was wrong, it broke out from the belly of the fish.

“Shen Lang! You are too much. The last time you said the transaction, it was cheating our spirit!”

Liu Zheng Shen Sheng said: “This time, even if you run, this old man will die, and there are nine-tailed foxes around you! She can’t run, Qingqiu can’t run!”

They all floated above the water and prepared for the battle.

And the four dragons were hidden in several tributaries of the diversion, and now they feel the situation here, or they are summoned, but they also rushed over.

Although there is more than one day, on the bright side, they are still dominant.

In addition to the giant clam, Liu Zheng directly took the information of the day and the Qingqi as a threat.

The monk ran away from the temple! Even if he can take the day away, he can't take away the green hills. The danger of the green hills will affect the day, and the day will affect the waves.

As for Shen Lang, I said that I don't care about their two lives and lively. I'm still dealing with Bai Yu, and I'm here again. It's obviously just a talk, actually a good partner.

Shen Lang's gods have no ghosts, and there are various means to prevent them from being defended. I am not sure that I can fix him. Therefore, I am very glad that Bai Hao has come. Although the strength of Shen Lang's side has been strengthened, there is one more hostage. of.

Originally, their appearance, let Bai Hao want to show something, at this moment, I heard the threat of taking Qingqiu, but it made her face cold.

In an instant, the shape of the white scorpion changed. It was no longer the beautiful beauty of the white fluttering, but it became a tall white fox of ten meters, and the nine big tails were very strangely shaken.

"It's just an old-fashioned Nedan. It's not enough for us. Come back with a nine-tailed fox!"

"In addition to Nei Dan, their tails can also be peeled off, nine tails, enough points!"

"You are a bit motivated! Just a nine-tailed fox, where is it enough to stuff your teeth? We should wait outside Qingqiu and come out and kill one!"

The sacred priests did not hide their words, but they also exposed their ambitions.

If they say that they are going to attack Qingqiu, whether it is a smashing wave or a white scorpion, they will think that it is a behavior of seeking death!

Not to mention how strong Qingqiu is, at least where the base number is, and it is not without a powerful nine-tailed fox. In the world of others, it is more convenient everywhere.

But what is said now is a viable option.

If they know the specific location of Qingqiu from the giant scorpion, they can completely ambush for several years and decades with their previous plans to bury the dragon valley!

The Qingqiu foxes don't know this information. There will always be when the foxes come out Then it is really one that has been killed. When it is discovered, it is not known how much it has lost.

The nine tails of the white cockroach immediately shook, and the time became bigger and longer!

I can see that she is already angry.

Although she wants to leave Qingqiu and want to hide a new life, it is like a young man's rebellion against the family, but after all, he will still be very concerned.

“calm.”

Shen Lang said a faint sentence, this is to say to Bai Yu.

Bai Yun helpless, now she can only listen to the arrangement of Shen Lang. Of course, she also knows that Shen Lang should have better arrangements.

Chapter 1889 - 10 times crushing

“Liu Zheng, do you still recognize this thing?”

When Shen Lang spoke to Liu Zheng, he took out the “magic pen”.

“Of course, this is what you have stolen from our Dongfu!” Liu Zheng is not welcome.

This evokes his sense of humiliation.

Although I want to swallow those things alone, it is the feeling deep inside him, and I can't blame others. But the problem is that it has not been successful!

Take an empty, then let other people chase it, how much?

Fortunately, he reacted quickly, succeeded in fooling, or else he was already killed by the group.

"Yes, this is yours. If I give it back to you, can I exchange peace?"

When Shen Lang spoke, the pen had been randomly drawn a few times, as if to show it to several other people.

"Be your mother's spring and autumn dream!" Sheng Sheng directly drank.

"You have robbed us of so many things, and when you come back, you want peace?"

"Your face is really big!"

Liu Zheng said faintly: "Your face is thick, I like to open this mouth, but you also heard that as long as it is a person, it is impossible to agree to such shameless conditions!"

It's true that he said this, as long as he is a person, he supports them. White is not a person!

"You haven't figured out the situation yet?" Shen Lang shook his head and sighed: "In fact, I am also out of Qingqiu. We are all adult-shaped!"

When Shen Lang said this, let them be a glimpse.

Whether they are people, they can still be clearly divided. Although I didn't see the day before, it was because of the short time and the focus was on Shen Lang.

Ever since they knew the truth, they now look at the day and see that this is not a real human.

But now that Shen Lang said that he is not a human being, he is a bit skeptical.

Is it true that the fox demon of Qingqiu has such a strong illusion?

“Do you think that Qingqi is here for the two of us?”

“Do you think that it is really a green hill that I took with me?”

“This is a game!”

They all know the cause and effect, and they will be suspicious when they hear this.

Shen Lang sent it away with the door of the Three Realms, and sent them two to the side of Qingqiu instead of coming here. Leaving from Wulongfeng, I also went back to Qingqiu...

This time, it was the singer who listened to it and was surprised to believe it. Originally, it did not know the true origin of Shen Lang. The understanding of Qingqiu was also limited. Is it really the change of the nine-tailed fox?

It's just that it's too weak. It's purely they don't want it to die, it's a life, and the words can't be said at the moment.

“In the funeral dragon valley, in Wulongfeng, I don't come hard with you, because I only have one, how can I fight with you. But now it is different. I know that you will be here, we will send troops directly from Qingqiu. !”

There was a shout in the waves!

On the occasion of everyone's horror, I immediately saw a large number of foxes coming from afar!

These foxes have white tigers, silver foxes, red foxes, etc., and they are not nine-tailed or eight-tailed. In terms of quantity, even if they are not close, there is no detailed number, and it can be seen that there are at least tens of hundreds!

This time, it is the most calm Liu Zheng, can not help but change his face.

For Qingqiu, they have heard of rumors, but they don't know much. The specific clues are derived from the memory of the giant.

The giant scorpion was in the valley last time. Although there was no conflict, there were a lot of green eyes in the dark.

In other words, how many foxes in the Qingqiu, how many powerful foxes, they have no bottom!

Now Bai Hao has directly revealed the ontology, Shen Lang also said that he is the Qingqiu Fox, and then with his signal of shouting, there are a lot of foxes in the distance!

All of these illustrate a problem. Even if Qingqiu is coming out of the nest, the amount is now enough to crush the four of them.

They have already played against Shen Lang several times. On the means of strategy, Shen Lang will not be worse than them. The only advantage is the advantage of the four people joining forces.

But now there are at least dozens of nine-tailed foxes and eight-tailed foxes. If they are added together, they will definitely be much stronger than they are.

Such a scale is that they are more embarrassing and more impulsive, and they have no temper. They can only pin their hopes on Liu Zheng.

“You are not saying peace...”

When I said this, Liu Zheng's mouth was bitter. Not long ago, Shen Lang said that peace was also degraded by them.

Retribution is coming too fast!

Shen Lang raised an arm.

With his instructions, dozens of foxes that rushed in, immediately stopped moving forward, but quickly surrounded a circle, surrounded by four of them, including the newly arrived dragon.

Originally, when they surrounded the four waves, they could only be one direction, and there was a gap of ninety degrees.

Now the encirclement of others is bigger, but because the number is ten times more, the gap angle left is much smaller.

And there are two sinking waves inside, which is not only the encirclement, but also the pinch of the outside.

“We...the dog’s eyes are low, and I hope that the friends of the Qingqiu foxes will understand!”

Ten times their enemies are under the city, and Liu Zheng can only apologize honestly, and then decisively put their only things on.

“It’s not our fault to be disrespectful to your friends. This is what we have achieved and they are returned to you.”

Things quickly floated in front of the sinking waves, that is, the keel of the giant python, its treasures that were not traded, and... the inner daisy that was cultivated for thousands of years.

When I saw my own Nei Dan, the tyrannical tyrannical dying dying was boundless, and I was excited.

Originally this thing was robbed, it can only wait to die, there is no hope at all. And a few of them, certainly will not let it go, just torment it.

But now Shen Lang came with countless foxes and pressed them to death. Liu Zheng released his inner Dan and gave it to Shen Lang.

This gives the giant python a glimmer of hope. If Shen Lang is willing to return Nei Dan to it If it can be put back, is there still a chance to recover?

It is a pity that it has forgotten what it is now!

It was picked up for a long time in Nei Dan, and the last breath was left. With the strength of vitality, if you squatted, you could still stay for a long time.

But it was just excited, the whole body was excited, and the subconscious tried to repair the body and prepare for the return of Nedan.

But this is dug out of it. This is not an item that can be put back. It is like an eye, a heart, dug it out and put it back to restore it as it was?

It is excited to call the vitality, and with its huge body, it completely consumes the remaining vitality!

The result is that the idea of not expressing the opening is straightforward!

Chapter 1890 - Layer differentiation

The giant python just excited, let Shen Lang they all pay attention to it, but when looking at the past, they will see the giant \*\*\*\*\* directly die!

Liu Zheng's face is awkward.

Originally, I wanted to say that I have passed the inner Dan. Even if I can't fix it, I can express my sincerity. I didn't expect this old man to hang at this time.

This made him secretly regret, just not like self-destructive, but like can not hold it, I knew it would give it a little more energy...

“This...the giant python is not the Qingqiu fox. Although it is unfortunately dead, the Tongtian River can be handed over to Qingqiu for control. It is also a blessing.”

Liu Zheng can only come back as much as possible.

The subtext of this sentence is obvious: the giant clam has passed away, and Nedan does not need to return it to you. You can collect it yourself; you can also take over the Tongtian River by the way, the whole river basin is so wide, and the interests are not small.

“Whether it is not our Qingqiu fox, but it is also a generation of blasphemy, it is the existence of the Tongtian River for thousands of years. It is our friend of Qingqiu. You killed it like this, which made it difficult for me!”

“Please give us a chance! In addition to the Five Dragon Peaks, we also have our own private Dongfu, and there are many collectibles. When we go back, we are willing to offer as compensation!”

Liu Zheng said that he can safely leave and leave, and then talk about it later.

Anyway, the vast wilderness is so wide, leaving here, the Qinghu fox demon, can still search for them with great waste?

Big deal, then leave the Great Wilderness!

The three of them are very awkward, but they are stunned by the dozens of foxes that are behind them.

Life first!

Like a thief, there is nothing left without life.

If there is no territory, it is meaningless to get revenge and compensation after death.

This point is believed to be half, because the thief grass also has such a hole.

But if you want to say that you have a collection, there is no collection at all. If you start a house like a house, you will not be reassured by anyone. It is impossible to collect it in the old nest like a giant, but to take it wherever you go.

“More than no benefit, compensation will be compensated now. Do you have four dragons?”

When Shen Lang said this, he looked at the four dragons beside them.

These dragons are all beast-level, comparable to the existence of the human big fairy, Daxian peak, and when they hear this, they can't help but scream.

“What are we going to do! The giants are killing them!”

“To compensate for the loss of their lives, it has nothing to do with us!”

What is the endlessness of the Xinjiang, they are all seen, and they have taken Neidan by the abdomen of the living, and the scene makes them feel awkward.

They all cultivated and did not know how many years, can be willing to follow them a few mounts, let the great five dragons human beings as masters, in the end is also a relationship of interest, they can give them the benefits they can not get.

But now that there is no life, do they still need to maintain their owners?

“You are going to rebel!” Liu Zheng snorted.

Originally, Shen Lang made this request, he was hesitant and entangled.

In any case, Xiaolong is a very rare mount. It can be surrendered in the past. It is usually a big deal. In addition to riding a horse, many battles can be done without yourself.

It is of course very unwilling to ask him to hand over the four dragons.

However, when the thief grass suffered a smashing wave, his dragon dragon mount, but also stubbornly gave up his life and fought for him.

I did not expect that these four beasts are now watering up at this time!

He just sipped, and he was still thinking about whether there was room for manoeuvre.

When they are holy, they are angry and angry!

“Hey animals! It’s the opposite!”

They are actually screaming at the anger of a stomach. Now there are so many enemies, and they can’t break out. They can only vent their weaker.

The dragons that open their mouths against water are directly their goal.

In order to prevent these animals from escaping themselves, they directly slammed their mounts while they were drinking!

When the holy priests took their shots, Liu Zheng had no choice but to follow them together, or else he seemed to have a disagreement.

These Snapdragons can become their mounts, which are inherently weaker than them.

Usually manage well, generally it is control and benefits. The realm is higher, and they understand their weaknesses, as well as the means of control. Naturally, they are more likely to suppress other beasts of the same level.

“We are willing to present four dragons as compensation!”

The four dragons that had been banned were directly presented to Shen Lang.

They are very desperate, but resentment is directed at Liu Zheng, four of them, not Shen Lang.

I think that when I have been a cow for so long, once they have passed the test of life and death, they will give up directly, can they be willing?

“Yes, I am very satisfied with this compensation. But the compensation is the loss of the giant python. As a good friend, I still have to avenge it!”

Shen Lang said this, and they let them breathe a sigh of relief. Although it is very painful to sacrifice four mounts, it is a good thing.

But in the latter sentence, they changed their faces.

“I know that it is only one person who has taken the blame for it. If you have the courage to admit it yourself, the other three people can leave. If I don’t count, I can’t return to the fox demon body!”

Shen Lang said with a blank face.

This sentence immediately made the atmosphere of the scene a bit complicated.

If Shen Lang still wants to revenge for them, they have already retired, and those who are barely afraid of wearing shoes will definitely be desperate.

But if you just hand over a “murderer”, others can leave, and there is a great differentiation.

And for the Fox family, turned into a human race, just a temporary camouflage. Just like a white cockroach, if you want to fight, you must show your body to show the greatest power.

Shen Lang can swear like this, indicating that he should be able to speak and count.

“Don’t believe him! He wants to divide us and let us guilty! Our great five dragons are one!”

The holy scorpion blew directly. He has been for a long time. He has just taken the lead in handing over the dragon. Now he can’t stand it.

The other three are watching him.

There is no doubt that as the most temperamental temper, and the most fierce one, the whole process of picking up the inner bronchus is done by him.

If you want to hand over a murderer, you are afraid to hand it over.

If you hand it out, you will die!

Shen Lang still holds the pen in his hand, and at the moment he points directly to the holy shrine.

“I can talk, if you hand over a murderer, everyone else can leave! If you didn’t do it, what are you afraid of?”

“I am doing your mother! We are all murderers, you have the ability to move me!”

The holy shrine directly smashed into the waves.
