

## First Strong 1891

Chapter 1891 - Yan Liuzheng

Liu Zheng, a few of them, was a quick eye contact.

They all saw it, and with the sacred sacred waves, the nine-tailed foxes around them, the tails were unfolded!

Like the previous white fox, this is a prelude to fighting!

If it is a hard-headed scalp fight, then it will fight.

However, the latter has already taken the initiative to sum up, and the commission has been fulfilled. Moreover, only some of the harvests such as Nedan and Keel have been sacrificed, and even four dragons and beasts have been sacrificed.

Now when I turn my face and fight, I lose money!

A little bit of the sunk cost, so that they are all riding a tiger. The statement that the Holy Ghost wants to tie everyone together makes them a little uncomfortable.

If you hand over the holy shrine and you can get everyone's safety, is it worth it?

The Great Wild Five Dragons have ceased to exist, and later become the great four dragons... Can the Great Three Dragons be right?

Under such circumstances, they do not have the time and opportunity to discuss, the test is the tacit understanding.

And the partners who have been together for so many years are all some old people, they are a look and know each other's minds.

"Holy, you are too angry. We said at the time not to do this, you have to insist..."

When Liu Zheng said this sentence, it is equivalent to making a decision!

The face of the shrine is already dark.

“Okay! You are these beasts! This is to sell friends to seek glory, put me out to die, right?”

“...”

Liu Zheng is silent, and the aerial stone and the one-eyed dragon are the same.

The situation is stronger than people.

They all know that it is wrong to sell a partner, but now, if you don't sell it, then four people will die!

If you die of a holy shrine, you can live three of them. From the perspective of trading, this is also worthy of the battle. It can be said that the Great Five Dragons can continue.

“Do you want us to do it?”

Shen Lang faintly asked.

The three of them are smashed up.

It is better to identify and default the holy shrine as a murderer, but it is much harder for them to personally capture the holy shrine and hand it out.

This is not a mount after all.

But they did not refuse, but they were thinking about whether there was any better way. I hope that Liu Zheng can come up with a plan that has the best of both worlds.

“I can see through your scum!”

The sacred anger screams, then prepares to dive into the water and leave from the waterway!

However, Liu Zheng is more calm and rational, and he is also very understanding of them. Before he sneaked into the water, he has already made preparations in advance, directly making the water surface like a piece of iron, and can not sneak into it!

Shen Lang saw it really, and there was a clearer mind in his heart.

The Great Five Dragons are fierce and murderous. In the memory of the thief, the most heart-wrenching, of course, is the holy shrine. Liu is the most sinister one, compared with them, it is elegant.

However, combined with the situation of the Wulongfeng Zhabao Cave and the present situation, it can be confirmed that the deepest Liuzheng of the city is the most heart-wrenching one!

For the sake of profit, he can rush directly to run away from other people; now it is to survive, can decisively kill the partner!

Others saw that Liu Zheng was shot, and he made up his mind.

Don't do it all the time!

They are not the right people, they will not pay attention to any reputation, and will not take into account any morality. What about killing partners?

And the face has been torn apart. If everyone is safe, how can they get along?

In order to prevent yourself from being condemned, you don't have to worry about it. The best result is to kill the holy shrine!

After all, I have to get rid of it. It is better to kill it in the face of Shen Lang, but also to be sincere!

They were originally surrounded by the waves in four directions.

Now they have to do something about the holy shrine, and let the holy shrine escape, of course, we must also bypass the deep wave.

Otherwise, it is not to face two waves of Shen Lang and Bai Yu, but dozens of fox demons together.

Fortunately, Liu Zheng has just taken the shot in advance to stop the first opportunity of the holy shrine. Now other people are going around the two sides, and it seems to be sincere.

The holy sorrow is wrong!

At the time of picking Neydan, everyone praised his plan well, and it was able to force the giant to come to the show and have a big harvest.

Now I have to do it directly!

Now, three of his own people are going to do him, there are still waves and white pelicans inside, and there are so many foxes outside, so that he feels that there is no door to heaven.

Just at this time, the mutation is steep!

The cold light flashed, and once the eye-catching light flashed away.

Not only the light, but also a shuddering atmosphere, making everyone's heart awkward.

No matter what they are doing, they can't help but turn their attention to the past, because it seems that the traces of death are terrible.

When I looked at the past, I saw a scene that shocked them!

Liu Zheng was cut off by the waist!

Liu Zheng is still not dead, or his eyes are wide, and he has seen it incredibly.

Shen Lang holding a sword in his hand, it was just that he had just swung a sword and smashed Liu Zheng, who was attacking the holy shrine from his side, to live!

“I hate the people who are eager to win the glory! It is not worthy!”

Liu Zheng’s eyes, and everyone’s incredible, seem to say: Why?

Shen Lang wants to avenge the giant scorpion. Shouldn’t it be holy? How to kill Liu Zheng?

Hearing this sentence, both the aerial stone and the one-eyed dragon, the pupil could not help but shrink!

And the holy shrine is a spirit!

That’s right! The giant clam is not a fox demon. How can the Qingqiu foxes revenge for it?

Just surely just a test, want to see who is the most insidious!

Liu Zheng, they are too sinister, so Shen Lang does not want to let them go!

The most fearful holy shrine, it was easier to get up. He felt that Shen Lang should appreciate his real villain, and maybe he would let him go.

“Yes! You are not worthy!”

He first reacted, and he had to escape. At this moment, he voluntarily greeted the past and directly entangled the one-eyed dragon that was closest to him.

The aerial stone is the opposite, because it is separated by a deep wave, and the distance to be the farthest is the same, although for their realm, there is a momentary gap.

But with the one-eyed dragon here, there is still a little distance.

At this moment, Shen Lang smashed Liu Zheng, and Sheng Sheng stopped the one-eyed dragon. Of course, the aerial stone would not pass again.

He immediately turned in the air, skyrocketing, ready to escape to the distance!

At this moment, he understood a lot.

Shen Lang will not leave their livelihood!

It's not just a murderer will never let go of the other three, just like the Holy Ghost said, it is to differentiate them and let them guilty!

Handing over the dragon, it is equal to letting yourself ruin some helpers, and then squatting with the sacred scorpion, but also giving the opportunity to sneak attack!

but.....

Now understand that it is already late!

In the hands of Shen Lang is the sword of the king of the artifact, do not need to chase him, directly swing out a sword, the sword body instantly came behind him, put his body through!

Then he took it back along the blade and brought his body back. It was in front of Shen Lang.

Chapter 1892 - Kill 1 by 1

Shen Lang has already taken out the tower of the tower, not only the recovered aerial stone directly into the tower, but even Liu Zheng also received it.

This time, the one-eyed dragon was directly shocked and chilled!

The strength of Shen Lang, they are clear, they simply do not dare to come with them, can only be the escape of conspiracy, which makes them feel that it is not high.

But just a sword!

Even an accidental sneak attack is not so powerful?

Combine the breath that makes them shudder, only to confirm that the sword in his hand is very unusual!

Before Liu Zheng said the origin of the remnant sword, if it is the sword of the king, it is also possible. But now this sword is not a residual sword at all.

But at this time, the one-eyed dragon has no flaws in analysis, and he must be extremely careful.

Because of his opponent's holy shrine, this time is like a chicken blood!

The death of Liu Zheng and the aerial stone did not make him fear, but he was very excited.

Are you not going to kill Laozi? Now, let's die!

At this moment, he didn't even know if he would be killed by Shen Lang. Anyway, he could watch the three of them die first, and let him be very cool.

In addition to dealing with him, the one-eyed dragon must be careful that Shen Lang will give him a sword, so it falls directly into the wind.

As for the day...

She was really completely shocked!

Shen Lang suddenly said that he is a Qinghu fox, this is nothing, she can borrow as a human race, Shen Lang can also hypothesize the Fox. The problem is that there are a lot of foxes!

Those foxes are very real, even she can't see the difference.

But she still knows that this is a fake.

Because she is from Qingqiu, she knows the situation of Qingqiu.

The foxes that are now appearing are not the foxes of Qingqiu. After they are close to each other, after careful discrimination, they feel that these fox demons come from several templates!

The white fox uses her as a template and has some simple changes; Silver Lake and Red Fox are some changes in the template.

Although very real, very incredible, I don't know how Shenlang did it, but she can still believe that these are not real, but the waves are changing!

Since it is a change, it is not an entity, it can only play a role of intimidation. If you really want to do it, just wear it.

Therefore, she was engrossed and did not dare to do anything casually. She fully cooperated with Shen Lang's performance and paid attention to the surrounding situation.

However, I did not expect that the attitude of the Great Five Dragons would have changed directly.

Then she realized that they definitely felt more real!

Because they don't understand Qingqiu and the Fox family, it may seem that all the Fox people are the same, just like if she sees a large number of humans, it will be difficult to distinguish the specifics.

Behind her is also a fear, in addition to the real fantasy, Shen Lang is relying on a mouth, they are forced to offer the harvest, suppress the mount, and finally to the partners!

She is always on guard, and if the other party has already seen it, is it counted?

In particular, when they attacked the holy shrine in the past, it made her nervous to the extreme. If it was to be counted, it would be a chance to attack her and Shen Lang!

As a result, they did not expect that they really attacked the holy shrine. Instead, Shen Lang suddenly shot and gave Liu Zhengzheng.

Now the aerial stone was also smashed, and then both people were brought into a tower.

At this point, the white scorpion is secretly relieved.

The death of Liu Zhenghe and the stone of the sky made the opponent's strength directly hit a half-fold. It was a direct hard battle. She and Shen Lang were not afraid.

“You shoot, help the holy shrine, don't let him kill the holy shrine!”

Shen Lang suddenly made an order.

This instruction is naturally white, because the other foxes on the scene are all illusory with the pen.

Why did you come up with a pen to “seek peace” with Liu Zheng, just to have a reasonable excuse, so that they would not be wary of this ancient magic weapon.

This is heard in the ears of the holy shrine and the one-eyed dragon, and there is no doubt about him.

Because the role of those foxes is to surround them and not give them the opportunity to escape. They don't need to be together, or else they will be crushed directly.

And only need a little help from the day, you can let them kill the one-eyed dragon.

Sheng Sheng is overjoyed. He thinks that Shen Lang should be a kind of person with him. He appreciates him, so he has to kill these guys who are “selling friends and seeking glory”!

But in fact, there is also a flash of thought, I feel that Shen Lang is not a class with him, more like a group of people with Liu Zheng, more planning, more means.

It's just that Shen Lang just apparently killed Liu Zheng and the aerial stone. Now there is an order to help him, which is obviously to appreciate him!

The same is the tail as a weapon, but the strength of the day is far better than the eight-tailed victory seven!

And her past, it is equal to the two realms of the realm of the gods, and the one-eyed dragon that has fallen into the lower realm, can not support it.

“You guys who are eager to win the glory...”

The stupid sorrow of the holy scorpion.

Want to kill me? See who will die first!

But his words just said it, and I immediately felt that something was wrong!

A sword has passed through his chest!

Then he felt the shuddering breath.

And the Cyclops opposite him, looked at this scene in horror, watching Shen Lang suddenly out of the sword to kill the Holy Ghost.

In an instant, he also had the insights before the escape of the aerial stone, and he understood everything.

Shen Lang will not let them go!

Unfortunately, it is already late...

The one-eyed dragon that had just been under two suppressions was instantly annihilated by the nine tails!

Looking at the two of them together to suppress the one-eyed dragon, Shen Lang seized the best opportunity, once again stealing and killing the holy shrine.

The real fantasy of the magic pen is real, it is a fantasy.

The dozens of Qingqiu foxes who changed from the whites to them were only stunned by the bluff.

Really counted The two of them have to deal with the four great dragons and five dragons, plus the dragon, still very dangerous.

In the absence of the release of the Emperor's behemoth, Shen Lang chose to use the sword of the king.

The sword of the king is really powerful, especially in the case of sneak attack, for the great god-level powerhouse, you can do a sword kill!

At this moment, it has settled down, and he is sure that the white dragonfly can pick up the one-eyed dragon.

So at this moment, he immediately entered the space of the book, and then brought the dog \*\*\*\* out.

The difference in time, for Bai Yu, it seems that his figure is slightly flashing, and may even be an illusion. Then summoned the horrible behemoth that I had seen before!

## Chapter 1893 - Leaving the Great Wilderness

“Take them up!”

The holy shrine that had just been worn by the sword of the king gave it directly to the dog god.

The dog \*\*\*\* looked at the fox community, and did not swear with Shen Lang, and directly obeyed.

At this time, Bai Hao also subdued the one-eyed dragon, and then threw him to the dog god.

Because I just said “eat them”, it includes this one.

She had seen the dog \*\*\*\* before, but now it is the appearance of the fox family. Seeing that the situation has been determined, it will once again become adult.

Shen Lang has already received the magic of the pen.

“Have you eaten?”

Shen Lang pointed to the four dragons and beasts.

The Emperor’s behemoth is a little sweaty, and the feeding of this wave is too diligent, it is too late to digest and absorb!

Just two strong human beings do not occupy the place, but the head of the beast \*\*\*\* is not small.

However, since Shen Lang said this, I think he is not good to leave with these dragons, and there is no resignation.

The dog \*\*\*\* appeared on the body of the Emperor’s behemoth, and swallowed four dragons and beasts.

I have eaten too much recently, and it has a feeling of being blasted...

Looking at this scene, Bai Hao was also secretly scared.

The previous few black porpoises were also swallowed by it. Now the wild five dragons, and the dragons...

She feels that if the silver fox wins seven before they provoke the waves, if Shen Lang puts out the behemoth, will they directly eat it?

She is also a bit nervous about this horrible behemoth.

After all, their fox demon is considered a different animal race, and there is a natural fear of crushing on the head.

“Let’s go back!”

Shen Lang is still not worried about the day, and will not let her know the space of the book, so this time, it still shows the feeling of “calling”.

Then, at a very fast speed, I sent the dog \*\*\*\* who had eaten it back.

“What is the body of the gods...” What did you do? The white dragonfly looked at the giant dragonfly floating on the water and asked.

Although I have only recently met, there is no friendship, but I think that this water overlord who has been through the Tianhe River for thousands of years has been suddenly killed, and she is quite a bit embarrassed.

Shen Lang also hesitated.

The giant scorpion is the hegemon of this Tongtian River. If it is dead by reason, it should be left in this water.

But he certainly didn't have so much thought to bury his nowhere in its underwater world, so he let it float. Except for the giant shell, the others would soon be eaten by the fish.

Simply placed in the underwater world, after a while, will certainly be found by other water beasts.

This is its last end.

There was nothing left, and death died. Being eaten by the aquarium is also a feedback to other aquariums. It is a continuation.

However, Shen Lang thinks that since he always feeds the fish, feeds the beast and turns it into nutrients, it is better to take advantage of it now.

So after considering it for a while, he used the tower again to put the whole body of the giant python into it, and slowly refining it!

For the lightness of the tower, you don't ask anything.

It was before that the slaughtered Liu Zheng and the aerial stone were also taken in, so she could guess that it was not used for collecting dead bodies.

As a result, the entire lake has been restored to its former appearance, as if nothing has happened.

"You are amazing. I thought I was going to be desperate."

This is not a compliment, but an admiration from the heart.

For this human being, she is becoming more and more magical and mysterious.

"Just a few of them, it won't make me desperate."

Shen Lang smiled lightly and did not explain the effect of “magic pen” to her.

Regardless of whether she is a genius of Qingqiu, since she sent her to serve him, there must be a certain limit in her identity.

Originally, everyone only passed once, and it is an ordinary friend. Now Shen Lang will not really take her as a ring, but loyalty naturally takes time to strengthen.

“Well, I know you are very good.”

“Do you think that I am too cruel?” Shen Lang suddenly asked.

“Ah?” Bai Hao was amazed, and then seriously thought about it. He solemnly replied: “The Great Five Dragons are famous bad people. If you kill them, it is a good thing, not cruel.”

This point of Shen Lang is of course very clear, because he has memories of the thieves.

However, in the past, it has nothing to do with him. It doesn't matter if it doesn't happen in the future. He cares about this part of his participation!

“Fortunately, I would say goodbye to no borders, or else this time will not only harm it, but also kill you Qingqiu.”

He sighed, and he was tired of being without him.

If it weren't for him to trade without borders, there would be no later stories, and it would continue to linger in this Tongtian River for a long time.

But then again, he whim of wanting to come to the wilderness to find Kuafu, was originally crossing the river in the upper reaches of a thousand miles, but that day is not far from the border or how, it is actually sensing the past.

This is also a fate.

In addition to feelings, Shen Lang is a bit confused. Why is there no warning for the round of the sky?

But if you think about it carefully, it is not that it has failed, but the normal situation!

It is impossible to predict everything without any particularity. If this is the case, then it will be like a supercomputer that is even stronger than the Holy Grail. It will be running at that time, and its mental consumption will be great.

Therefore, it is generally only dangerous to be alerted. Others, he needs to be sensitive to the sense – deliberately consume a little mental power to predict.

When I came here just now, he didn't even think of this layer. He just came over with Bai Bai, and he did not take the initiative to foresee it.

Although there is an ambush in the Great Five Dragons here, isn't the result just a little dangerous?

Although this result is what he strives to solve, it can be said that the wheel of the universe is predicting that he can resolve it, so that he does not feel dangerous.

Shen Lang secretly shook his head, no longer entangled this problem.

“Go! Take you out of the wild!”

Before the Shenlang can use the high-speed flight of the holy armor, but now with the white scorpion, there is no more, still like here, purely a personal flight, also need to stop and rest.

If the average person came to the Great Wilderness and wants to go out again, it is necessary to always pay attention to the roads that have been visited, find reference objects (such as Tongtian River), and go back along the way. Otherwise it may go further and further.

However, Shen Lang does not need to, the Holy A has a map and route trajectory, know the general direction, do not need to follow the way, you can just walk, as long as the general direction is correct, after all, can leave the wilderness.

Just like this, time naturally took more.

On this day, Shen Lang suddenly felt the communication jade token of each big card, with a hint!

Then look at the trajectory, faintly feeling that this is the scope of the wilderness.

Is it just that there is just a message, but like a cell phone signal, before the big wilderness received no signal, now it is a big wasteland to receive the previous message?

Chapter 1894 - Yungong Holy Land

Shen Lang has been counting from Yaochi for more than half a month.

I also read the message of the communication Yuxi, and Xue Feixue helped him pass the information after calculating the time.

Now that he feels the movement of the jade, he immediately checked it.

Fortunately, although this principle is not the same, but the effect is good, it is still advanced, and will not cover the information, only one remains.

In the Great Wilderness, he really did not receive the message, and some missed it, but now he can see it.

Yuxi, he is a moose, and no one else has searched. He refining directly in the tower of the tower.

This is the jade of the Ginkgo Valley. They don't know snow, snow, and cold autumn. Of course, they will not send a private letter to him. As a friend of the elk, Kunlun sent Zizu ancestors, it is also a fallout, and did not contact him, do not know the elk's end.

The information received is public information.

The content of the information is to surprise Shen Lang.

The Cloud Palace Holy Land is in the world!

Other information is all around a message.

For what Yungong Holy Land, Shen Lang is ignorant, but Ginkgo Valley should also be qualified to understand, so he quickly searched for memories.

The memory of the elk also includes the memory of the thief.

Although they are in the wilderness, they have limited understanding of the outside world, but they are talking about the current situation. They still have some understanding of some things in history.

The most obvious example is that the same sword was taken out that day. Liu Zheng said its origins and pointed out that the sword of the king was refining it with its broken body.

Also because of this news, after the analysis of Shen Lang's association, I tried to integrate the iron rod with it, and this has a new sword of the king.

In their memory, it is really a message of the Cloud Palace Holy Land.

But that is all the legendary thing.

According to legend, in ancient times, a predecessor discovered a city of the sky, and after all his hard work, he finally succeeded in climbing and exploring it and named it "the cloud palace holy land."

It is said that a large number of strong people who went to explore at that time were either lost or missing, and finally returned to become a giant.

It is now the founding father of many ancient martial art!

For thousands of years, everyone wants to know where the Yungong Holy Land is, and they all want to go to explore. Although the risk may be very large, it is successful, and it is not a case. The success is back to the ages.

Huge interests have made everyone happy for thousands of years.

However, the first batch of people who came back were silent, and the factions did not leave detailed clues. The caliber did not know whether it was unified or the truth. They all said that the Yungong Holy Land disappeared.

Those returning giants, crowned the world, each created their own martial art, there is no one in the contemporary era.

But in later generations, those sects will inevitably be defamed by others.

If there is no clue, no one else will believe it. I feel that the factions are secret. Even after a long time, the heads of the various factions will ask each other questions and want to see if they are not private.

The result is that there are really no clues, and the clues that the factions can piece together are simple sentences:

The Cloud Palace Holy Land has disappeared, and it is no longer possible to find traces, but it is not destroyed. Maybe it will be reproduced in the world one day!

This is the article, so that everyone can keep the hope of generations.

For a long time, just like the Yaochi event, some sects have risen and some have fallen.

Not all of the sects that the giants founded at the beginning have been passed down to the present, and some have been annihilated thousands of years ago.

The reason for annihilation is because other people are eager to map their information!

Always maintain a strong martial art, even if others have the heart, they dare not just provoke. But if it's gone, there's not so much scruples.

When someone starts to do it, it will immediately let more people have the same kind of learning, lest their information fall behind.

Then there are some that have been caught and read.

The result is in the memory of the head, and there really is no more clues!

One sect is like this, several sects are like this... Their annihilation, private news spread, and everyone is convinced, sure that the predecessors really did not leave more information about the cloud palace holy place.

It is also because a few martial art paid the price of the annihilation, so that other parts of the sect were spared and passed down to this day.

Otherwise, unless it has been very strong, otherwise it can't cope with the secrets of the whole generation of masters of the world.

The news that the Cloud Palace Holy Land reappeared in the world is nothing special.

Although it is because of the high-end, only those who have a long history, or those who have a deep understanding of history, know, but still can not avoid all kinds of rumors.

It is often every few decades that there is a realistic rumor that has been proved to be a rumor afterwards.

This is because some people will use human nature, deliberately pass on, or attract attention, or want to harm others.

There are also some people, because the information of the Yungong Holy Land is too small, and some places are mistaken as the holy place of Yungong. For example, I found a small world in the land of Fudi, which has not been developed, or a place like the forbidden place, which has never been seen before.

The heads of these hidden sects, especially the ancestors, are all older, and they have seen many such rumors in their lives.

At the first time, it may be very exciting, and you can slowly distinguish it.

They said that they were thieves, and that the crimes of the past few years were both for the sake of gaining profits and for hoping to try their luck. After all, the great wildness has not been developed. What if the Yungong Holy Land is in the wild?

Only they did not find the Yungong Holy Land, but they found the murderous land to bury the Dragon Valley.

This time, the information can be published and discussed through the jade, which shows that the ancestors have been alarmed.

Now Shen Lang does not know the details, do not know the source of the news, but can make the ancestors pay so much attention, it can be seen that the information source should have a certain authority.

It took a few days to look at the first information.

In addition to the cold autumn, the snow is not safe, but the problem is that he can't contact them with jade.

Because this is the jade of the Ginkgo Valley, and there is no separate connection with the two of them, can not private letter. To use the walkie-talkie as an analogy, there is only a public frequency, not a personal frequency.

Now the news lags people are still far away from Yaochi and Qiulin, and it is impossible to exchange information immediately.

However, Shen Lang is not in a hurry.

Because he is an indirect memory, there is not much deep desire for the legend of the Yungong Holy Land.

Besides, for thousands of years, repeated rumors have proved to be rumors. This time it is very likely that he is also not excited.

At the beginning, he started from Yaochi. Although he did not return according to the original route, the general direction is still the same. Now he is going to Yaochi, but it is still much closer than Tangcheng, so he still chooses to continue back to Yaochi!

Snow and snow should also gather the most information there!

Chapter 1895 - Stunned Snow Fairy

Shen Lang was originally prepared to go back to Yaochi with the white scorpion as much as possible, but soon he secretly stupidly stupid!

The way he chose to travel is to want to see more places, to learn more about the situation, and to have a choice, to use the holy armor. It can fly at supersonic speed, or you don't need to be tired.

The dog \*\*\*\*\* is in the space of heaven, and he has no problem flying with the holy armor.

However, he did not want to bring into the space of the heavenly book, and he did not want to fly with her at high speed.

But now it is decided to return to Yaochi, or the Qiulin sword of Tangcheng.

This is the place he has been to, which can be transmitted through the Kunlun mirror of the Three Realms!

On the day of the funeral of the Dragon Valley Canyon, it was already using the artifact to take her back once. This one is nothing to hide.

In this case, it doesn't matter if it is near or far.

Is that going to Yaochi, or going to Qiulin?

After considering it, Shen Lang chose to go to Yaochi.

Qiulin Jianzong actually relies on the seniority and strength of Gaochunqiu. Otherwise, the sect of the sect is far from sufficient. Compared with others, it is a new nouveau riche.

When the face is over, other ancestors will show enough respect to him, and there may not be more emphasis on Qiu Lin Jianzong.

Yaochi is not the same, has enough foundation, has not been declining, and because the Yaochi event, plus they are not ambitious female repair, is not threatening to others, so it becomes a bond.

In this way, there is no doubt that Yaochi will get more information than the cold autumn.

Besides, if you use the artifacts of the Three Realms to send it, it is also very simple to go from Yaochi to Qiulin, and you can go to Yaochi first.

After the decision, Shen Lang took the day and sent it directly to Yaochi.

From the outside, Shen Lang can only go outside Yaochi, and then need to be notified, and then imported by Yaochi.

The first time I went to the alarm was the big bang, and then it was the alarm that Fan Xueyu came out, and then she was the master sister of the palace.

The palace is not uncomfortable to see the waves, I feel that this goods is to squander her genius little sister, who has never had a good face.

If she went after she deliberately pretended not to know, she would leave him alone, and then she could only wait until she found it.

The realm of snow and snow, of course, is always ready to know all the circumstances near Yaochi, but in her capacity, how can I always pay attention to these trivial matters?

And when he shows his momentum, he can alarm snow and snow, but it will definitely make Yaochi Palace even more uncomfortable.

Therefore, Shen Lang is still the same as the above, directly sent to Yaochi.

Anyway, the palace will be unhappy, then he will be convenient.

The place where I was only able to go to the Yaochi event last time, now knows where Snow is not snowing, and Shen Lang is directly transmitted to the high platform where she retreats.

At the moment of the door of the Three Realms, Shen Lang has a magical feeling.

When the world was in Yaochi, the palace was taken to see the snow and the snow, it seems that the high platform is not too high, and it will fly directly. But on top of it, like in the clouds, it is like another world.

Is this the Yungong?

Was the Yaochi master brought back from Yungong?

Soon, Shen Lang and Bai Hao appeared on the high platform.

“Bold thief!”

Just after it was sent out, Shen Lang heard a squeaky voice, and both of them were imprisoned.

The transmission of the gates of the Three Realms is still a little spatial fluctuation. At that time outside the Yaochi, the Zizu ancestors and the elks were discovered.

Now it is equal to the direct transmission to the snow and snow, she must not be aware of it.

Even if she is in a state of retreat and cultivation, suddenly such a change will be immediately alert and direct shot.

Shen Lang kept laughing, but the whole person has been banned, and the words are not fixed, and the smile is fixed.

From this shot, it is enough to see that snow is not much stronger than the purple and elk!

Although it was banned, it was mainly unable to move. Shen Lang was not comatose, and his eyes could still see the situation ahead.

No transmission error, this is indeed on the high platform, just drinking and shooting, it is indeed snow and snow.

It's just that this is a bit special...

Perhaps it is because Yaochi is a female disciple, perhaps because she can only come here, it may be more convenient, Xuefei Snow did not wear clothes!

When I saw Shen Lang here last time, it might be that I was ready to wear my clothes before I brought the palace to bring people.

Now Shen Lang is directly transmitted. Although she responded quickly enough, she succeeded in imprisoning people, but it was too late to wear clothes.

Now Shen Lang is watching her put on the white clothes, but still sees a thorough...

That sheep white jade generally wins the snow skin, and all kinds of inconvenient descriptions make Shen Lang look stunned. The snow palm is still the body of the fairy, and it has a more mature flavor than the blue scorpion. .

Of course, he has not seen a beautiful woman not wearing clothes. Now he is stunned because he can't move his eyes. He can't do it if he wants to close his eyes.

“Shen Lang?”

Snow and snow quickly approved the clothes, face frost, it seems that there is no direct killing, in order to figure out the identity of the person.

Can directly go to Yaochi, but also directly to her cultivation of the forbidden land, it is a very serious problem, she must figure out what is going on.

After seeing it is a deep wave, it is a bit strange.

Shen Lang is now unable to respond to her, she can only be motionless, so she looks at her in front of her clothes.

Snow and snow were also in this short period of time, and he and the white beggars were a lot.

“Little thief, you are crazy!”

The snow was cold and snorted with anger.

Shen Lang immediately found that he was able to speak. Although he was still shackled, he was relieved.

At this time, the white beggar next to it was directly comatose and planted down.

“The snow palm is misunderstood, I really...”

I want to say “I really didn’t mean to peek at you But when I got to the lips, I felt that instead of emphasizing what I saw, it should be faded.”

“...Is eager to see you, I can’t wait outside to report, I will come directly.”

“You are eager to see what I am doing?” Snow is still a bit cold.

“The last time you mentioned that there was a giant clan in the wild, I ran over and looked for it. It just came back...”

“You go looking for Kuafu?”

Snow is not a bit speechless. Last time she mentioned Kuafu, it was because of the Emperor’s behemoth. I didn’t expect him to go to the Great Wilderness to find Kuafu!

This kid doesn’t know how to write dead words?

Chapter 1896 - clue

“Yes, I finally found it. They lived in a place called Cheng.”

Shen Lang briefly introduced her to the environment of Chengdu, and the approximate appearance of the Kuafu group.

Xue Feixue is the legend of Kuafu, but it is just a hearing of information. She has not personally touched it. It is still unbelievable to listen to the description of Shen Lang.

“You are boring enough. When you hear Kuafu, go to find Kuafu, then this fox demon?”

She really saw the body of the day.

Shen Lang truthfully told: “This is the nine-tailed fox of Qingqiu, because I helped them to Qingqing, and got back the ancestral bones. In order to express gratitude, the patriarch of Qingqiu let her transform the human form and follow me.”

Snow is not snow to see his eyes, it seems a bit skeptical.

A young man, who ran a big strait, brought back a fox who turned into a beautiful woman, can not let people think about it!

Shen Lang smiled a little: “It’s just that, but the enthusiasm is not enough. Otherwise, all the fairies of Yaochi are better than her. Especially the snow palm, Van Gogh is yours.”

“Is it? Do you want me to let the palace follow you to serve you?” Snow did not smile like a smile.

“This is still ok...”

Shen Lang quickly refused.

Comprehension is not measured by the age of ordinary people, but it depends on the surface. The performance of Gong Yi is an old man, watching it... and saying that her attitude is not good.

On the contrary, like snow and snow, it may be that the actual age is not small, but the appearance and body are completely top-notch, then it is still...

“Just kidding, Miyazaki Fairy is in a key position in Yaochi, how can I serve me?”

Snow is not just a joke, let Fan Xue beside Shen Lang, she is willing, last time expressed this meaning, even joking she can.

However, the palace is to cultivate the successor to take charge of Yaochi, of course, it is impossible to arrange it.

“It looks like you have a great harvest, and you have a lot of gains.”

Although Shen Lang simply tells about the situation of Kuafu Giant and Qingqiu Fox, there is definitely not much to say.

For this problem, Shen Lang just smiled, and did not tell the harvest one by one.

“Right, I am not saying that I am eager to see you? It is because I have something. I saw the Ginkgo biloba from the Elk. I saw some information on it and said about the Yungong Holy Land?”

He is still banned now, can not give snow and snow to see the jade, but such a description, snow is not snow naturally understand what is the case.

“Do you know the Cloud Palace Holy Land?”

Snow is not a snowy response, and it seems that I am not surprised at all.

The rapid analysis of Shen Lang’s heart immediately understood.

In the eyes of her and others, he came from a powerful force that had not appeared for a long time. The general martial art could not cultivate it, and the cultivated martial art, they all understood.

So now it is not surprising that she knows the information about the Yungong Holy Land.

Even Shen Lang just said that she was informed by Ginkgo Valley, and she might think that this is a deliberate emphasis.

“How is the situation? Is it a rumor? The snow palm should have more information.” Shen Lang asked directly.

I came here and came here.

Whether it is rumor or not, even these ancestors are not calm, and of course they will still know about it, just in case?

However, even if he asked this question, he did not have any urgency, because he had no yearning for him. He could catch up with it. Of course, there was nothing to regret.

Snow and snow are of course also paying attention to all the details of him. It can be seen that although he is anxious to see her and inquire about the situation of the Yungong Holy Land, he does not care too much.

This makes her feel normal!

It must be a big sect with a long history to be so calm. Because there are not many clues about the Yungong Holy Land, I know that there are many rumors.

“What do you think?” Xue Feixue asked.

Shen Langshun returned a sentence: “I don’t know how many times I have passed it for thousands of years, and no one is true. It is even a land of great wasteland. There is no trace. It may have disappeared. This time it may be just A rumor.”

He will talk about the land of the great wilderness, because when he was searching for the memory of the elk, he also searched the memory of the thief. Knowing that they are going to the land of the Great Wilderness, there are also ideas for finding miracles, but there is no miracle.

But when I heard the snow and snow, I had another interpretation.

This kid suddenly ran to the vast wilderness, just because he heard the Kuafu giants? Just to satisfy your curiosity?

Look at this, if you are not doing well, there is a clue about what the Yungong Holy Land is, and then go to the wilderness and try your luck!

He is outstanding, but he is still young and his strength is still weak. It is very dangerous for a person to go to the wilderness.

But he doesn’t just return safely, it looks better than before.

And is it so good to see the Kuafu Giants who are all in the sky?

Just looking for it, just invite him to visit?

Can you help Qingqiu get the ancestral bones?

All of this made her feel that Shen Lang was going with someone else, and there was more information that was not said!

“What you said makes sense. I think so too, so I haven’t decided whether to go.”

This sentence makes Shen Lang feel a move.

The meaning of snow is not snow, she has not decided, is hesitant, that means she is also suspicious?

And to a large extent, everyone would rather be credible?

“If it’s not very outrageous, I’m sure it’s there. If you run it, it won’t take much time.”

If she is really hesitant, then Shen Lang will help to strengthen a determination.

“Is it true that it has it?”

“It is not a general rumor, but a certain basis for the ancestors. This situation may be a lot in history, but we may not experience it a few times. Let’s go.”

In Shen Lang’s view, there is only one big rumor in an average of decades. Generally, it is not enough to pay attention to it. Such a big one, even if it turns out to be false, some have other gains.

He did not have any obsession with the Yungong Holy Land. If he did not find it, he could not find it There are other things to see.

Snow is not applauded and nodded: “What you said makes sense, maybe it’s really worth running. This time, it’s really a bit special.”

Shen Lang came to see her, just want to understand this information, and now it is finally the topic.

Xue Feixue made a long story and briefly told her about the situation. I don’t know if I hide it, but at least I know a lot more than Shen Lang’s information from Yuxi.

This time, the source of information came from an ancient martial art, and was also eligible to participate in the Yaochi event, and their ancestors, who returned from the Yungong Holy Land that year.

So there is more authority.

In his message, it is said that after thousands of years of collecting information and pursuing, the final result is the Yungong Holy Land, which is not in the air, but in the meditation!

Chapter 1897 - Doubt about the fox

Because it has always been said that the Yungong Holy Land is a city of the sky, so no matter how understood, it is related to the sky.

Searching the sky is awkward, but like the mountains of tens of thousands of meters like Zhoushan, you can touch the sky. Or some environments look like clouds, and those are the clues of previous rumors.

The Cloud Palace Holy Land is in the meditation area. This is something that no one has ever thought of, because it is too absurd and too frivolous.

For example, in the earth China, I talked with people about myths and legends. I want to say that Nantianmen and Lingbi Hall are actually in the government, and no one will believe it.

So this time, it is not the brain hole of the ancestors' whimsy. It will be stupid, and no one will believe it.

It can cause a sensation, and everyone will be suspicious because the ancestor claimed to combine the sects and other parties' information, and has already had a complete clue, and has already detected the specific location!

They also made it clear that if they were ancient relics such as ruins, they would do it alone, and they would not be able to attract more people to share their interests if they did not believe it.

The Yungong Holy Land is Baoshan, also a fierce land. In ancient times, a large number of strong people went, and only a few came back.

The same is true of the rumors that have been falsified again and again. This is not a large piece of meat that can be won by others. Instead, the more people there are, the more chances are that they will come back safely.

So this time, the other party is willing to share the information and ask everyone to go to explore.

In fact, in the end, these ancestors, like Shen Lang's advice to snow and snow, are more credible!

What if it's right?

So before, a lot of public information, there are many private contacts, although not many people openly accompanying partners, but some people have gone.

This sect is called Xuanyin Gate, and the message is the Xuan Yinmen ancestor Cui.

According to him, in a forbidden place called the Desolation Forest, there is a passage leading to the meditation area, from which you can enter the former meditation area and then go to the Yungong Holy Land.

Of course, Cui or his ancestors did not dare to single-handedly take the Xuanyin Gate, but they would not really let the initiative go out.

He called on everyone to go to explore, but the specific route was not open, but only the time and address of the passage to the meditation.

In other words, it is impossible for others to go around and want to circumvent him in advance.

Although the time has passed for a few days, there are still two days from the time of Cui or the appointment.

Perhaps that passage has not yet been opened, similar to the previous Golden Mile, and it was only at the right time. Cui or speaking ahead of time is to let everyone have time to prepare.

After all, big brothers, it will not be so easily fooled, even if it is authoritative information, it will be repeated and side-by-side comparison.

“After two days? Is it still too late?”

Shen Lang slightly frowned, but he did not care too much, but when he heard the meditation, he was more interested.

Because the last time he was in the meditation, he had great gains.

The tomb of the tomb, the harvest of the undead, and the magical iron bar magic weapon, as well as the stagnant water whip obtained from the king of the river.

The meditation domain also gave him more mysterious feelings.

I also thought about going again, but the entrance to Kim Jong-gu is time-limited. Even if he goes over, it is estimated that it should have disappeared, so he has not been there.

This time, if you can go to the meditation area, even if you are not looking for the Yungong Holy Land, you can feel the rest of the meditation area, it is also good.

“Do you want to go?” Xue Feixue asked.

“Go? Is there any interest in Snow Palm Gate?”

The snowy snow expression is very dull: “I don’t have much interest. If everyone goes, then I don’t mind running. But I always feel a little weird...”

Specifically, what is weird, she did not directly say it.

After all, it may involve the evaluation of Xuan Yinmen Cui, but he is still unclear.

“I don’t know if the cold autumn will go.” Shen Lang is a bit sorry.

If this jade can talk directly, it will be much easier.

Although he can be sent to Qiulin Jianzong through the gates of the Three Realms, what if the cold autumn is not there?

“Get it!”

“what?”

“The ginkgo of the Ginkgo Valley.”

“Oh... the snow palm door, you still shackled me, you are too powerful, except that I can talk, can make a little expression, or move. You still search!”

Snow is not snowy, “You should be punished! Who will let you... rush in.”

“Although enough? It has been punished for a long time, now we are talking about business.” Shen Lang did not have a hippie smile, but did not ask her.

Snow did not look at him, and then lifted his imprisonment.

Before Shen Lang appeared directly here, she was really embarrassed and annoyed, but this matter is not mentioned, she also does not stress.

Imprisoning him is to give him a little lesson.

And now looking at his gaze, has revealed a message, that is to warn him can not say it!

Shen Lang immediately read it, and responded to her with the same eye: I said that it is not asking for trouble? I will definitely not say it!

There are no other people here, and the day is also faded by her, but it is a bit embarrassing, neither of them directly said it.

However, this silent communication is to satisfy both parties. They have confirmed that they understand the meaning of the other party and let the other party understand what they mean.

If you don't know what to say, it's just like this. If you say it clearly, you will be embarrassed.

"Would you like to bring this fox to the past?"

"Is there any problem?" Shen Lang took a look at the body and asked a question.

Since the day is brought back, I can't just send her away.

"I can see through, others can see through. I will doubt whether there are any disagreements in the Qingqiu Fox, and others will doubt it."

Snow is not too polite, there is no rumor to say other people, directly admit that she thinks that Qingqiu makes Bai Yan follow him.

Shen Lang is a bit helpless: "I think too much? Just a nine-tailed fox, I still have a giant beast."

"If it's just a common beast, it won't worry. But it's not just a nine-tailed fox. There is a whole fox family behind Qingqiu. This is a race that has existed since ancient times!"

When Xue Feixue said this, his attitude was very cautious.

Shen Lang wants to say that "the \*\*\*\* of the beast is not just a race there is a world of giant beasts behind"...

But still did not ask for trouble.

“Don’t worry. After the age of the ancient dragons and dragons, the foxes will be far from the wilderness and settle in the green hills. I have a certain understanding this time, they are very low-key, if not for the sake of the occasion, it will not be like this.”

“Do you really think she is just to serve you?” Xue Feixue asked.

Shen Lang shook his head: “Of course it is for the benefit. The patriarch of Qingqiu wants to let her out of the wilderness and see more. But if it is going out alone or going out with the Fox, it will definitely become the object of human hunting. Take the opportunity to be sent to me!”

He knew this so clearly that he didn’t know what to say.

Chapter 1898 - People from the ground

Snow is not snow, but the ginkgo valley’s jade is not to be collected on behalf of Ginkgo Valley, but to make some adjustments for Shen Lang.

That is to say, this frequency is his. In addition to public information, he can also send personal information with Yao Chi, which she represents, and at the request of Shen Lang, and also with Qiu Lin Jianzong of Gao Hanqiu.

Determine this, let Shenlang feel a lot better, after all, on the earth, is accustomed to the convenience of mobile phone contact.

Then Xue Feixue also made arrangements to give Cui or the reference address provided, so that Shen Lang himself went to the Silent Forest first, and then there to meet.

Shen Lang can understand that Yao Chi is not convenient and he started to walk with him.

After determining the details of all aspects, Shen Lang first left.

“If you don’t want to worry about things, I still suggest you leave her alone.” Xue Feixue finally advised.

Shen Lang just smiled, what can be done?

These big buddies who are looking for the Yungong Holy Land will not fight for him with a nine-tailed fox.

Then he took the day and sent it away from the high platform.

The forbidden land of the forest of silence, Shen Lang has not been to, but the elk has been there!

Therefore, according to the memory, he can still successfully locate and directly cross the forest.

However, the elk has ever been to the forest, and it will not be just the place designated by Xuan Yinmen Cui or his ancestors.

After that, you need to search carefully.

The main time of the road has been saved, it is just a specific search here, there are two days, it is not necessary to be anxious.

Before the daylight was still awakened, Shen Langxian Yuxi contacted Gao Hanqiu.

Although I can personally contact, I can only leave a message and can't make a direct dialogue. Therefore, Shen Lang is also a brief and concise statement.

After knowing his identity, Gao Hanqiu also quickly returned to the information, saying that he would also go to a trip.

The silence of the forest can be called a forbidden land, naturally it is very dangerous.

However, this sinister is also relative. For example, the wave of animals that Shen Lang encountered in the outer part of Jinyu Valley, if it is in front of the ancestors of the Great Gods, it is not that the Terrans are being chased, but they are shivering. .

It is the dragon of the king's level, and it can also order the beasts. Only in the core area of the Golden Valley, there will be the presence of the beast \*\*\*\* level.

Therefore, for the forbidden land, a big sect like Yao Chi is the level of the mysterious woman who goes through the experience and has certain dangers.

The clouds have a great fairyland and are basically safe.

Now this time to come and explore the Yungong Holy Land, basically all the ancestors led the team, not to mention the beast god, it is the super beast god, can only pretend not to know.

Shen Lang is going to enter now, and will not fear any beasts.

But he still chose to rest for one night.

Because in addition to the beasts, the environment of the forbidden land is also a variety of dangers. Even if the elk has been here, it will not be a very good understanding of everything.

The general problem can be solved, but if it is trapped and sent to something strange, it will be a mistake.

Therefore, Shen Lang is not in a hurry, ready to wait for the road to be hurry tomorrow, anyway, the day after tomorrow is the time of gathering. Light is the information given by snow and snow, but it still needs a careful search. To avoid too many detours during the day.

The white cockroaches woke up and found that they had arrived in a wild forest, a little surprised.

However, she is still very interested, and she has not asked anything, and she does not mention the appearance of snow and snow before she wore clothes.

She prefers and gets used to the wild compared to getting along with the human race.

Shen Lang told him to live here tonight, and to hurry again tomorrow, Bai Hao immediately acted as a maid.

She was directly at the side of the mountain, dug a cave, and then folded a lot of trees, the inside and outside of the cave were set with wood, and then the ground was covered with layers of foliage.

She left the Tongtian River and walked out of the Great Wilderness for a few days. When she was staying at night, she was arranged like this.

However, she can only arrange the temporary caves according to her imagination, and it is still a little difficult for her to build a human house.

Shen Lang originally did not care, can rest casually, but she actually used snacks, with her ability, not too tired, and does not take long, so it is also a peace of mind to enjoy.

After a few times, Shen Lang is also used to it. In fact, it is just the best, and he is just a simple break.

In fact, sometimes I feel that it is cumbersome to bring her, otherwise, if he goes to the space of heaven, he can not only rest thoroughly, but also have a lot of time to practice.

But recently his strength is to be pressed, and there is no need to rush to practice.

The day is also a relief to rest on one side, and there is no confusion to seduce what is going on.

Considering it, the Yungong Holy Land is a matter outside the plan. If it really hits, there is a great risk to go to the Quest, and it is not necessary to go with a day.

So Shen Lang thought about it and took out two spirits.

“this is for you.”

It is necessary for him to return the patriarch to her, and Shen Lang is reluctant, but if she is sent away, it is not easy for people to leave empty-handed.

“Why?” White is puzzled. “I can’t ask.”

“You don’t want me to!”

Suddenly a voice came over.

Both Shen Lang and Bai Yu looked at the past strangely.

This is the place where the elk has settled before. It is the place where he has an impression in his memory. After the Shenlang is sent here, there is no further forward. Compared with the dead forest, this is completely random.

Decided to spend the night here, of course he also checked the surrounding, and did not find traces of people.

This person can actually escape his search?

With the sound, a figure suddenly smashed out from the front soil.

Shen Lang will understand.

Bandits!

This person should be proficient in earth-like spells like bandits, whether they are just here in advance, or they are coming from the ground after discovering that they have arrived.

Shen Lang’s search of the surrounding environment is also routine, and will not go deep into the ground, because it is generally not hidden underground.

This person is underground, and there is a magical stone that hides the identity of the cover, so even if it is sensed, it will only think that there are ore, elixir roots and the like in the ground, and will not go to the bottom.

“Put up.”

Shen Lang threw two spirits to the day, let her close, and he himself was looking at the figure that emerged from the ground.

Now the sky is beginning to dim, but still can clearly see the person's appearance.

This is a lean middle-aged man, with a hint of shine on the black skin, coming out of the mud, and not a little dirty on his body. In his palm, holding a small shovel, a pair of freshly dug... ..

Chapter 1899 - Where are the rats?

The black man also observed the waves at a close distance, then grinned and revealed a white tooth.

At this moment, he immediately disappeared, and then came out of the cave!

Suddenly smashed the branches of trees on the ground, a black hand touched the white face, and one hand touched her chest!

Bai Hao just reached out and caught the spirit that was thrown over by Shen Lang. He couldn't give it back to him. This is the first time to look at the enemy in front of him.

As the result was staring at the black person, the other party appeared in front of him, and directly hit the chest and touched his face.

Her experience in fighting the Terran is very rare, and this situation has not been encountered before, so the instinct is back.

And this black person did not chase her, but on the occasion of her squatting, quickly captured the two spirits in her hands!

He came quickly, and after he took it, there was no moment to stop. He quickly went to the soil and drilled straight into the distance!

“Sorry, I.....”

Bai Hao was very ashamed to apologize to Shen Lang.

She can make this suggestion to the patriarch, and the patriarch can push her with confidence, because her strength is strong enough. In Qingqiu, it is not only the most powerful among the younger generation, but also comparable to many old predecessors.

With the way of Shen Lang, she is also so confident.

When the result was transmitted to Yaochi, it was immediately banned by snow and snow, and then directly comatose, which has already hit her hard.

Now, when she comes to a human being, she is forced to retreat, and then she loses her two spirits.

She would like to say “I am going to chase back”, but this person is directly left from the ground, and even if she wants to chase, it is difficult to trace.

So at this moment she is shy with a face.

Shen Lang is a faint smile: “It’s a good thing, take a break.”

His indifferent comfort makes Bai Yu feel uncomfortable. Although this spirit is also given by the patriarch, no matter whether it is given to her or to Shen Lang, there is no cheap outsider. Now it is stolen by strangers, and that is a huge loss. what!

Shen Lang also responded to her, and did not continue to comfort her, his eyes have been staring in the air.

The situation he saw in his eyes was different from what he saw in the day!

What Bai Hao saw was that the black man's fast bandit left, and what Shen Lang saw was that he quickly turned around in the air!

The man is well versed in the technique of bandits, and the shovel in his hand is a magic weapon to help him. When he sees it, he has a care in his heart.

The biggest problem with such an enemy is not how strong he is, but it is very rare. The usual means of habit often does not work.

Under the master's trick, once or twice did not work, others will kill you, or go straight.

Therefore, Shen Lang also decided to deal with him with extraordinary means!

Because it is rare, Shen Lang also wants to see how this is a situation, so there is no rush to kill this person.

At the moment he decided, the man had once again bandited into their caves, and then quickly attacked the day and took away the spirit.

However, the black person's full energy is in the white scorpion, the goal is the spirit of the white hand, and does not pay attention to the swell.

It is not that he does not pay attention to the sinking waves. Shen Lang can come up with two spirits to give to the white scorpion. As long as he is not a fool, he can guess that he must have more spirits, and he may not give him the full body.

But the same, as long as it is not a fool, you can guess that people with such spirituality are definitely not irritating!

Therefore, he was quick and rushed to grab the spirit of the day, not to provoke the waves.

Even if he would speak first, first drill the ground in front, it is to use this particularity to attract the attention of Shen Lang, and surprise him so that he can surprise the success.

Even so, when sneak attacking the white scorpion and successfully getting the spirit, this person is still guarding against the waves.

I found that Shen Lang had the same weapons that I had never seen before. I realized that I was definitely in danger. I didn't say a good word, and I quickly left!

What appears in Shen Lang's hand is the "magic pen".

The effect of the magic pen, he has already been verified, in the Great Wild Five, twice works well.

Now this black-skinned man, if he uses normal attacks, is likely to miss the opportunity, so Shen Lang chose the pen.

Because of this, he seems to have not responded, and there is no direct shot.

The other party noticed his plan, in fact, using the magic pen to create a real fantasy!

In the next moment, the black man who left immediately out of caution, with a shovel, has already smashed into the earth and then quickly went to the distance.

But that's just what he thought!

In fact, at that moment, he has been misled by the real illusion. He thought that he would enter the soil and leave, but he did not enter the soil.

The picture of his quick walk in the soil, falling in the eyes of the white, is the same.

But in the eyes of Shen Lang, he is actually just turning around in the air!

Because the speed is extremely fast, plus in the soil, Shen Lang wants to observe, it is not easy. But now he is in the air, even if the speed is still fast, you can better observe.

Sure enough, in addition to the spell, the shovel in his hand is also a special magic weapon, as if it can make him integrate with the land, whether it is a silt stone, it goes straight through!

The black man quickly left the bandits for hundreds of miles. This is already a safe distance. The other party can't track it so quickly, and he can't even figure out where he left.

He got out of the "earth".

"Ha ha ha! Two spirits!"

This harvest made him very comfortable, but he thought that there might be more spirits in the other hand, and he was not willing to leave.

"I have to think of a way to pack these two people..." he muttered to himself.

However, he is very clear that the other party is not good, if only one, he can still get a chance by relying on the bandits' surprise attack.

If you have two, you can cooperate with each other, and you have already been wary of his particularity.

Then you can only find help!

It was at this time that he heard a voice coming from the sky.

"Where are you from the mouse dare to offend me, not afraid of thunder?"

When the sound came out, let the black person get nervous, and then break into the soil again, then quickly leave, ready to escape to thousands of miles away.

"Do you think you are running? Believe me not a thunder to die?"

This is of course Shen Lang said, because he is the person who controls the real fantasy situation. The black people think that people are hundreds of miles away, they can't see him at all, and it is incredible to hear his voice.

Now his bandits are still moving quickly and in the air.

So Shen Lang easily went to the thunder and smashed the past!

Chapter 1900 - Shen Lang's Shenwei

The lightning that Shen Lang has practiced in the chaotic space minefield has been an extraordinary thunder and lightning, and the power is naturally different.

But after all, he can't compare with two Leiyuan. The target of the attack is also the realm of the gods, and it is not enough to die.

But the effect, but let the black person, fearful!

It was really the feeling that the thunder hit, the power was not enough to kill him, but he felt very reasonable. Because others are under the ground, lightning can pass through the earth and earth, and there is such a prestige!

Actually, you can take out the thunder, can you really get into the gods?

But he instinctively feels impossible, how can the gods appear here, how can the gods let him win the spirit?

At the time of his chilling, Shen Lang continued to use lightning to strike him!

He thought he was hidden in the ground, and tried to go around the curve, faster and deeper into the ground, hoping to avoid lightning strikes.

But in the eyes of Shen Lang, all of them are traceable, and they can hit him just right.

After a few times, Shen Lang is no longer satisfied with lightning.

He took the sword of the king and quickly swung it out, but he did not smash the black man. Instead, extend it and slap his body with a sword.

In the eyes of Bai Yan, it is watching Shen Lang swinging his sword and slashing the ground, making her a bit strange, how should the other party escape hundreds of miles? Can hacking be effective?

And the feeling of the black person, but there is an inexplicable weapon, through the earth, the accurate hit on his body!

And this came and went without a trace, and did not leave cracks in the mud layer, and he was accurately hit no matter how he fled.

This made him start to feel the fear!

He can avoid the bandits, rely on spells and magic weapons, but he can't wave his arms in the ground without leaving traces.

There is only one possibility, the other party is not a god, but also far better than him!

The strength is far better than him, and the magic weapon is far better than him!

The attack has just continued, but there is no direct fatal offensive. This is definitely not the other party can't do it, not even the mercy, but deliberately teasing him!

If it is directly killed, it is not as good as people, and there is nothing to say. But being teased constantly, the final result may be humiliation and death.

This is how to escape hundreds of miles, even thousands of miles away, the other party can still tease him so easily!

These have gone beyond his understanding, and the disparity in strength has made him dare not to continue.

The black man suddenly jumped out of the ground, then stood up, gave up the resistance, and seriously put the two spirits before.

“In the lower stream of the slaves, it is indeed a ignorant mouse, provoked the high man! Also hope for forgiveness!”

When he had just finished speaking, he found that the spirit of his hand had disappeared. What scared him even more was that his little shovel, also said that he was taken away together in an instant!

This small shovel is his housekeeping magic weapon. The spirit is robbed. He can go out, but his magic weapon is to be taken away. That is to be desperate.

But when he wanted to summon the magic weapon, he found that he had lost contact!

There are only two possibilities, one is too far apart and the other is isolated and hidden.

At the distance he just left, he felt that it might be too far apart.

He just came out to admit the mistake and presented the spirit, just want to see how the other party came out, how to take things away.

Because even if he admits to lose, he still has some doubts that the other party can continue to tease him thousands of miles away.

So he also had another conjecture, that is, when he fled, the other party reacted very quickly, followed by the ground above!

As long as he can keep the same distance from him, he is from the bottom of the ground to a thousand miles away, and the other side is from the ground to a thousand miles away. It is still understandable to continue the attack.

However, no one has just appeared, and did not feel anything. Not only did Ling Ling be taken away, but he was neglected to prevent his magic weapon from being taken away.

And now I can't sense the magic weapon, is it really thousands of miles away? Still hiding around?

"Salvation slaves are right, you talk to me so far, it is disrespectful, give me over!"

Suddenly heard this voice, the black man snoring and searching for it, trying to figure out where the person is talking.

But his feelings are very strange, as if the other side is nearby, and it seems to come from the sky.

Just when he was weird and surprised, he felt that his body was pulled abruptly, and he quickly stabilized his figure.

According to the meaning of this discourse, the other party is suspected that he is too far away, this is to pull him over, but ... that pulls out a thousand miles?

He thinks that is impossible!

The bigger possibility is that the other party is nearby!

But when he just stabilized his body, he found that the situation around him changed greatly. He was not in the place where he had just established himself, but returned to where he left first!

The savior is very certain. He has already escaped thousands of miles just now. Even if it is not, the difference is not big.

And the place that comes out is definitely not the same environment.

But now, I have really returned to where I left before. The young man is still in the cave he has been to, so he looks at him like this, and the woman is still there.

He thought that the other party was nearby, and that pulling it was not a big deal, but now the changes in the environment have proved that it is really thousands of miles away!

At this point, the reckless slaves have been speechless...

The facts are in front of me, and the other party is not moving here. He randomly attacks him hundreds of miles away and thousands of miles away.

And still thousands of miles away, took his things over, and even pulled others over!

What else can he say?

What dare he say?

Originally because the magic weapon was taken, I want to be desperate, and now I can only stand still.

Also standing still is the day!

She felt inexplicable before, watching the waves hit the land, then the man ran out, and then actively presented the previous spirit to Shen Lang.

That has made her incredible, but then the situation has changed dramatically. The person is still standing in front, but the environment has become different.

At the moment, she is also vaguely identified. The situation that I see now is what it was like when I was logging the cave. I just saw something different.

I had already had it once in Tongtianhe, and she immediately understood what was going on.

But it is also secretly shocked, how does Shen Lang do it quietly? This is amazing, right?

“Shoal, slave, how many people have you been attacked here?”

Shen Lang asked with a message, and his mind was thinking about the information related to him.

When I saw this person's characteristics before, I felt strange. I have already heard him self-reporting, and there is a layer of clues. Now I can follow the memory of the elk.
