

First Strong 1911

Chapter 1911 - Leading brother

The few people who came to realize that they couldn't care about losing face, and quickly explained the sound with Shen Lang.

They really lost the magic weapon, and they told the voice to Shen Lang, and they understood that Shen Lang said that they would look for it privately, just to maintain their face.

Therefore, at the time of the story, everyone put down their self-esteem and simply described the general situation, including how it was stolen, and what kind of magic weapon was lost, so as not to suspect that they were also taking the lead.

Even so, they have no absolute confidence in whether they can return the weapon of the magic weapon.

Because, if it is their own words, if you get a few magic weapons, it is absolutely impossible to go out at no cost.

This magic weapon is the best for them, and they don't want their own magic weapon to be taken by others. Therefore, even if Shen Lang sits on the ground, they have to redeem it.

But let them not realize it. Shen Lang was very refreshed. He did not ask for any requirements at all. He did not even wait for their pleading. After they said it, they quickly moved to their side and then The magic weapon is stuffed into their arms!

“Shen... Shen... Brother, what do you want to return, we, we...”

“You don't need to pay back. This is your thing, you have been robbed, just I will help you get back, naturally it should be returned to the original owner. And if I ask for a return, then with the quicksand slaves and his behind-the-scenes employers What is the difference?”

Shen Lang directly refused the return.

What is needed is one of their personal feelings!

How much can I give them if they are paid? A spiritual pulse, two spiritual veins?

Now there are a lot of Shen Lang Ling Jing, in this Liusha slave, there are also eight spirits, not missing a little return.

What is needed is their one!

A strong man in the realm of the gods, an ancestor of a sect, such a human condition, is more serious than the actual return!

Of course, the actual return is more affordable and fixed value.

Now such a return, it is likely to play a huge value at a critical time. It is also possible that the other party will accept it with a thick face, just a few words of words.

Those ancestors, after losing the magic weapon, these two days really have a very bad taste.

The goal of this trip is the Yungong Holy Land, which is likely to create miracles, otherwise they will run away. Go and chase the larks and slaves...

Now I have gotten the magic weapon unexpectedly, and they are very excited.

For Shen Lang, I am also grateful.

As for Shen Lang, they don't want their rewards, and they don't think much.

On the one hand, when Shen Lang was in the Yaochi event, he had already proved that he had a lot of resources. Perhaps it is true that there is no shortage of this magic weapon, not to look at them.

On the other hand, they also understand. Shen Lang got this thing, he couldn't just take it out and trade it, or he couldn't use it. Otherwise, he would be thought that he was the master behind the scenes!

So if you really want to trade, for Shen Lang, they are the best buyers, and they are the only buyers.

Based on such conditions, give them a good time to say that it is better than not eating lamb.

On the other hand, the slain slave, since it has been hacked to death by Shen Lang, should have a little harvest on him, so Shen Lang is not nothing.

But in any case, they are grateful for the good intentions of Shen Lang. Otherwise, even if Shen Lang does not dare to use it or sell it inconveniently, he can still hide his identity to the black market.

Or even if you throw it, there is no cheaper for them.

“What are your views on this matter?”

When they were trading and communicating, everyone had observed a glimpse of the front.

Someone couldn't help but ask, for the front, whether it is the Yungong Holy Land, everyone is full of expectation and curiosity.

“Cui or ancestors, this is what you found. I must have observed and analyzed it here. I can let everyone come together. What should I find? We want to hear what you mean!”

There is a person who has thrown this question to Cui or.

Cui or hesitated a bit, and then the color said: “I was originally in front of my brother, I was not qualified to show off. But since everyone asked, I will do my best to let the bricks lead the way!”

“We are listening!” Everyone is refreshed.

Cui or I saw it last time. The time of observation and the time of consideration are much longer than them. Perhaps there is already mature opinion.

“I am absolutely this thing, and it is very likely to be the holy place of the Cloud Palace. You see, from the current direction of the fog, is it like a cloud palace?”

He said this, everyone feels reasonable.

Looking at the past from this angle, it is indeed like being in the clouds, and it looks like a palace. It will be called the Cloud Palace. It is normal.

As for the city of the sky, it should be the ancestors of the time, deliberately misleading in order to confuse future generations.

The starting point is on the one hand for justice – not letting the explorers go to death; it is also for self-interest – not wanting others to follow and get more benefits, thus surpassing them.

“And, in the past, whether it was the grandfather of our family or the other ancestors, I have never said where the Yungong Holy Land is. I have not said that it is not in the meditation. In addition, I know that it is not from the human world. What?”

When Cui was in the past, she had already thought about it again and again, and said it in an orderly way, so that everyone felt that the possibility was great.

“In fact, it is very simple. To know the true and the false, as long as we have gone through some of the past, we can know whether this thing is the holy land of Yungong.”

“However, if the exploration is simple, I am afraid that there will be danger. The teachings of the ancestors must be justified. It is impossible to scare our descendants.”

Someone immediately joined up.

“Cui Laozu, what you said makes sense, we are willing to listen to your arrangements, what do you think we should do better?”

I don't know if it's Cui or looking for a friend to come out, or really out of the heart. In general, when this group of dragons has no head, it is directly represented by Cui or launched.

Cui or originally is the one who knows the most and is the most suitable leader.

Everyone has no time to explore more. I don't know if he has anything to reveal. It is best to let him lead.

“This is the case... I think that the identity of the ancestors of the high-cold autumn high is the most honorable and should be arranged by him.”

Cui or falsely postponed a sentence Who can hear it, he is only modest to show respect for his predecessors.

After all, Gao Hanqiu is the oldest and the strongest, and it is still not good.

Gao Hanqiu certainly understands what this means, and immediately laughs.

“Cui or ancestors, you should not be polite. You are the most suitable leader. You can lead us with peace of mind! I am only a few years old, but I have no ability.”

After hearing the cold autumn, Cui or Zhi smiled with satisfaction.

“Gao Xiong is too modest. In front of you, we are all juniors! But then again, there is always someone who needs to take the lead, and I will be welcome. Let us take the lead!”

Chapter 1912 - Joining Yungong

Shen Lang is listening to the scores next to him. Gao Hanqiu will not care if he wants to be the leader of this big brother, because there is not much practical interest, just a face, but must bear the responsibility.

Since Cui has this meaning, there is also this preparation, so let him do it, it is really the most appropriate.

However, Cui or himself, obviously has the meaning of expansion!

When he first started to be modest, he also said “the cold and the old ancestors”, but after returning to him “Cui or his ancestors” in the cold autumn, he called “Gao Xiong” again.

Not to mention the actual ability, the gap between the age and the age alone, so that everyone is very respectful of the high cold autumn, at least on the surface are called “high ancestor”, unless very familiar, will be called “high brother.”

It is precisely because of this that when the Yaochi event was held a month ago, Shen Lang called him “Gao Xiong”, which attracted everyone’s attention, that is, this kid is not big or small.

However, Shen Lang did not care, because he knew that Gao Hanqiu would not care about this.

Even Xu Xiaoyue, who followed them in his early years, would not care. Only Mo Feiliu was a bit unhappy, and felt that the other party was not qualified to call Master.

This is a matter between their thoughts, and they got such a statement in the cold autumn. Cui or, like the authoritative recognition, immediately entered the role of “leading big brother”.

“Everyone! The Cloud Palace Holy Land, for thousands of years, there have been many rumors, and it turns out that it is not a true cloud palace holy land.”

“Today, what we are facing may still not be the holy place of the Cloud Palace.”

“But don’t forget! Those who are not the holy places of the Cloud Palace have proved to be a great place to gain something afterwards. Instead, there is not much danger, just not the legendary Yungong Holy Land.”

“So, now the existence of this fairy palace in front of us, we go to explore. The result is two, if it is the Yungong Holy Land, then we may have some people at risk, and some people will get very Great adventures come back!”

“If it weren’t for this person, we might be disappointed again, but we might all return safely and have some gains.”

Cui or these words should have been prepared long ago, and it is very encouraging to listen.

In this way, half the chance is not risky, it is harvested, and then returned safely.

The other half of the risks are only part of the risks, some are safe, and there will be great gains.

In half the words, that is only a quarter of life is dangerous!

Another quarter of the great adventures, and another two quarters have great gains.

This kind of probability analysis, the ancestors who originally had the mentality of “being credible and have it”, all felt more interesting.

At their age, they have lived to this age. Everything has been seen, and what risks have been experienced. Even if there is a quarter of the risk, it is worth a fight.

After all, they were at least half the risk of death before they came.

“So, my decision, that is, everyone is on guard, then – on!”

“on!”

The emotions of many ancestors have been mobilized and they are immediately called together.

At this moment, they have a little bit of a ***** attitude.

If you can really succeed in one fell swoop, you can really discover the Yungong Holy Land. Even if you can't be the lucky one to return to the safe, it is also witnessing history. History will remember everyone's name!

Therefore, there is nothing to regret.

“For the year, how did everyone enter, we have no more information. But we have studied a lot, combined with the research of the seniors of thousands of years, I finally came to a conclusion!”

I thought I was going to go up, and Cui continued to say that everyone had to listen.

“Everyone can enter the same time at the same time, perhaps to minimize the risk!”

This is said, many people have not figured out the relationship. Shen Lang could not help but secretly applaud!

Although he did not know what the structure was, he agreed with Cui or the inference.

This is proved by the fact that there were no previous sea squads and other space cracks. The larger the space crack, the greater the impact force, and at the same time, more people can share and dilute the power.

Fuyang is a real person who can do nothing when he enters the sea without jail, because Shen Lang took him, and all the earth monks entered at almost the same time.

At the time of entering this time, the smaller crack in the waterfall directly claimed his life. Just because he was only one, he could not survive the real world and could not bear the impact.

Now Cui, I don't know how to come to this conclusion, but basically it is similar.

If the Yungong Holy Land is a similar way, then everyone will enter at the same time, and it will indeed have a higher safety factor.

“What he said makes sense. If there is a strong impact, everyone can enter it and dilute it. In addition, if you work hand in hand, you can work together, better withstand, and not be dispersed by other accidents! ”

Shen Lang did not openly say it, and it would grab the limelight of the family Cui or his ancestors.

And he doesn't want to let more people know, after all, this is just a guess, in case it has nothing to do with this? Instead, let the minds notice some clues.

So he just told the voice to tell a few of them.

Bai Yu, Yao Chi and Qiu Lin Jianzong, they are three people and seven people, those who follow the ancestors around them, this time can not hear.

“Since you have said this, I believe there should be some truth. Then decide this! Gao Laozu takes care of the two swords of Qiulin, and I and Xiaoxi, please take care of Shenlang!”

Snow and snow have directly recognized the words of Shen Lang, but they have taken the initiative to show weakness.

It seems that both of them are weak women, as if they really need to take care of the waves.

Shen Lang was a little helpless, but he did not say anything, and took a hand together.

At this time, Cui or his words were also supported by everyone. Everyone was sure, and then they walked side by side under the command of Cui.

Just a few hundred meters away saw the general environment of the fairy palace, it stopped.

Now everyone is lining up and going forward, and my heart is a little excited and a little nervous.

If you take a closer look, it is really just a virtual shadow. Even the mirage is approaching, but you can't see anything, so you are depressed.

However, no matter what the mood, the defense is still to defend, everyone is maintaining the highest alert.

Shen Lang is also highly alert.

Because they don't know where the impact will start, they have already started to hold hands.

Gao Hanqiu has one hand and carries Xu Yuyue and Mo Feiliu.

Shen Lang is a white hand, a handful of van Snow, and the other side of the Fan Xueyu is holding the snow and snow.

Chapter 1913 - Cloud Palace shock

It's just a wave, everyone can understand, after all, holding a young beauty, romantic.

But Xue Feixue also joined, and even the oldest man in the cold autumn, also holding the two apprentices, this is not the same!

Apart from a little further, there is no concern, and everyone's attention is on the front.

But the ancestors who followed just now have a lot of attention to Shen Lang, and they will see the clues.

No matter what the principle is, no matter what the purpose, no matter who made it.

Since even Yaochi Snow is not snow, Qiulin Jianzong has done cold autumn, it is certainly not wrong!

Others are men holding beautiful women, Master holding apprentices, they are more natural, they have to hold hands with the ancestors around them... How much is a bit awkward.

But safety first, what is it?

So several of them also have two or three together.

At the end of the distance of about 100 meters, everyone did not quickly jump to the past, but slowly step by step, as if it was minesweeping.

In the past, everyone's knowledge is also inspected as much as possible.

The range of knowledge is limited, but it has been tried before, but it can still be a little longer than the line of sight. Now, like the line of sight, it proves that it is not a shadow, it is real, and it is not as far away as they approach!

This makes everyone even more excited!

Seventy meters!

Fifty meters!

Thirty meters!

The closer you get, the more you feel!

In the distance, because the fog can't see the whole picture, it's better. After getting closer, even if you can't see the whole picture, you can feel the approach.

"Everyone keeps..."

As Cui or his ancestor, who is the “big brother”, this is of course not a single person walking in front, but in the middle of the team.

He is reminding everyone to maintain a consistent team, no matter what the situation, they can face together.

As a result, the words have not been finished yet, and others have not yet had time to feel what they have, and they have entered another state!

Shen Lang is the most detached one. He has been to different worlds and has experienced different transmission arrays. For this aspect, experience is more than others.

So I have not been to this 30 meters, I have already felt it!

But he didn't tell everyone, he still told himself seven people.

The result is that at this moment, others are suddenly taken aback, only they are more calm.

That moment, Shen Lang is also clearly felt, it is a very strong impact!

This kind of impact is not only far better than the space impact of the non-returned Hell, but far better than the strength of Shen Lang at that time!

The strength of the impact force should also be relative.

For example, the space impact of no return to the sea, the pressure on the real world is very high, it is very likely to die directly; for the realm of the gods, it will be comatose.

Shen Lang was prepared at the time, and with the consequences of various aspects such as the Holy Grail, he could bear it.

But then with the improvement of strength, it was also possible to get in and out of a single impact.

Until now, there will be no big feelings in the past.

But at this moment, the realm that he is actually comparable to the great god, said that the impact of the impact is far greater than that of the day.

Shen Lang strives to dilute and disperse it. This kind of impact is only comparable to the suppression of the Light God!

This time, he also wants to resist, but the result is still unable to fight!

In the end, it only delayed a little bit, let him experience a little more... and then fainted in the past!

In the moment of coma, he vaguely felt that two mental powers were transmitted!

One comes from the day, one from the snow!

At the moment when they are threatened by life, both of them send power to him first.

It's just that Shen Lang only feels a little bit, and people have been comatose.

The four of them are united together, and this is still the result, others can imagine!

However, they have already said it before, and they hold the other hand tightly. Even if they are in a coma, they are not released.

When Shen Lang woke up again, he found that he was awakened. Snow is not in front of him, just injecting energy into him.

“how do you feel?”

When Shen Lang just woke up, he heard the sound of snow and snow.

He felt uncomfortable with a burst of body and wanted to nod, but the end result was just rubbing his eyes.

“Everyone is in a coma. The old ancestors woke up and found that everyone was injured. Try it first and see if you can move.”

When Snow is not talking, he continues to infuse him.

Shen Lang wanted to use the gods to look around, and felt that his head seemed to be full of needle pain and had to give up.

However, the afterglow of the eyes, still see, Gao Hanqiu is now in the same way as snow and snow, saving Xu Yueyue and Mo Feiliu.

With his understanding of the cold autumn, just after waking up, he should be the first to save him.

Now it is snow and snow to save him, the answer is self-evident – snow and snow are almost awakened at the same time, and then take the initiative to ask, let Gao Hanqiu first rescue other people, she came to save the waves.

Shen Lang got the input of snow and snow, and it felt a little better.

Xue Feixue first rescued him. Of course, he would not attach importance to him to be stronger than Ai Fanfan, but he felt that he should have more strategies. He needs to wake up earlier and be able to negotiate more people.

The Shenlang is also strong, and then takes out the same object.

The inner lion of the giant scorpion!

This was taken by Liu Zheng and Sheng Sheng. Later, Shen Lang was not wasted. After they were presented, he also took it.

Now, at this moment, I will not be able to take care of it with no borders.

He is very clear about the current situation. Although he has burst into a general uncomfortable situation, he has not actually reached the level of sudden death. This is due to the fact that the four of them are united together, and there are many factors such as defense.

But even if there is no sudden death, it is a kind of heavy injury and needs treatment.

At this time, Nei Dan is undoubtedly the best medicine for healing.

In particular, the inner scorpion, which is vast and devastated, is not only fresh, but is the easiest to absorb.

And because he had served the water-free beads that he had given before, and he had been in contact with the giant python for a few days, this inner dan did not show obvious rejection after he served, but accepted it more easily. , began to absorb quickly.

After Nedan began to absorb its effects, the state of Shenlang was slightly better.

“Don’t worry about me...”

Shen Lang took out two more spirits, one gave snow and snow, and one threw it to the cold autumn.

“Before saving people, you must first consider yourself. If you fall down and there are enemies coming, we will all be finished!”

Shen Lang did not pass the sound, although the sound was weak, but still let the cold autumn and snow and snow not understand.

They are all awkward!

Gao Hanqiu is still a little better. After all, he has always regarded Shen Lang as his eldest brother. It’s just that he has lived for hundreds of years.

Snow is not snow, I feel that I am in the head of Yaochi, and I still want a young boy to remind me that it is impossible to say it!

Chapter 1914 - Strong infusion

For the spirits that Shen Lang gave, Snow and Snow did not hesitate, but when they met the cold and autumn, they accepted it.

The abundance of the aura contained in the spirit is far better than the spirit, and the absorption effect and utilization rate are very high.

With the strength of snow, snow, and cold autumn, it is necessary to use external supplies. At least it is necessary to use Yuanlingshi, and the fine stone and so on. It is already too much, and it is best to be a spiritual pulse.

But now Shen Lang gives them a better spirit than the Lingmai, and the effect is of course better.

At this time, they were also hit hard, and they did not need to recover, so they were not polite.

Of course, because they are coming, just like the big men on the earth go to explore the no-failed sea, considering the risk of not coming back, try not to take away the resources of the sect.

So at this time they themselves, there really is nothing good to make up for.

This is the effect of charcoal in the snow.

After confessing to both of them, Shen Lang disappeared!

Others haven't woken up yet, and Gao Hanqiu is completely convinced. Snow and snow are also believed to be for the time being.

Therefore, Shen Lang directly entered the space of Tianshu. After going out, there is no need to explain anything to them.

He needs time to heal!

Before being hit by the light god, he and the dog **** are all healing by the space of heaven, or else they are not recovering so quickly.

When he entered the space of the heavenly book, a few days apart, for the polite dog god, it was a difference of one or two years.

Naturally, wake up immediately, and see what help he needs.

But this time, seeing that Shen Lang was dragging in with a weak body, the dog **** immediately became angry.

“Who hurts you like this? Let me go out and deal with him!”

The first reaction of the Emperor’s behemoth was that Shen Lang encountered a strong enemy, which came in to escape, but also to move it to save the army.

Shen Lang shook his head.

“Nothing, no enemy, it is caused by an environment. I came in and cultivated for a while.”

“I don’t need to be polite with me!” said the dog **** solemnly.

It feels that Shen Lang is encountering a strong enemy. It is estimated that it can’t be dealt with. It is afraid that it will suffer, so it will not endure.

“The Emperor, you can rest assured that when you need your help, I will not be polite with you. For the time being, there is really no problem, I just need to take a break.”

“Ok.....”

The dog **** saw him say this, and promised a voice, then it was fiercely instilling vitality into him, instilling the power of the spirit!

“No, I only need a little more time.”

Shen Lang quickly signaled that it stopped. Before he came in, he had already swallowed the inner lion, and in a little more time, he could recover seven seven eight eight.

The dog ***** now instills in him like this, which is much more expensive than just snow and snow!

Because I just awakened him and made a support, but the dog ***** obviously wants to help him heal.

“I am here for leisure, consume a little time and have enough time to recover, you need to hurry up now! Don’t talk!”

This time, the dog ***** is very determined, and it has come out of momentum.

I thought that when I was in the sword of Qiulin, it did not solicit the opinions of Shen Lang, and instilled the power of Long Yao into Shen Lang.

He will now follow his arrangement because the waves are getting stronger and stronger, and they are completely convinced.

But it is the Emperor’s behemoth, and naturally it has its majesty.

It just doesn’t do anything bad about Shen Lang. He healed him. This is for him. Of course, he did not ask for his opinion. He directly ordered the order.

And it has been with Shen Lang for a long time, and there are some people who see it, but also a little understanding, humans sometimes turn around and so on.

Just like now, under the heavy injury of Shen Lang, of course, I need help, but I may refuse it because of embarrassment.

Therefore, it took the idea directly, so that Shen Lang could not resist and forced him to treat him.

Shen Lang came in to heal, mainly for the time here. Even if it is inconvenient to leave for too long, it can be treated for two hours, but it will only leave for two or three minutes.

Two or three minutes, of course, there is no difference. But for two hours, it still allowed him to recover a lot.

But now that the dog **** wants to help, he can't resign, and it will work together.

Because the dog **** also makes sense, it is usually not needed here, and there is a lot of time to recover.

Originally, he had already swallowed the inner dan of the giant python, and the effect was very good, very fast.

Now with the help of the dog god, the speed is even more different.

Although the dog **** is an external help, it is a direct infusion of vitality, does not require any conversion absorption, and is an external force to help drive.

One needs active absorption therapy, and one is completely passive waiting.

It's like an ordinary person, in the case of blood loss requiring blood.

In the worst case, it takes a long time to wait for the body to slowly hematopoietic recovery.

If you can supplement your diet and other aspects, take a rest and other nursed back to health, the speed of recuperation will be faster.

Can completely rest in the hospital, take blood food, drugs, and certainly recover faster.

But the fastest, no doubt is blood transfusion.

Although the blood transfusion is foreign, it can be directly replenished, and it can maintain the skills needed, and it will have a faster effect on rehabilitation.

In the case of no need to consider the economy, do not need to consider the matching of healthy fresh blood, direct blood transfusion to the upper limit of input, is undoubtedly the best and fastest way to lose blood.

When Shen Lang comes here, it is to fight for more recovery time. Taking Nedan, plus replenishment like Ling, is like taking blood and medicine.

Now, the dog ***** instills in him, whether it is vitality or spiritual power, it is like a blood transfusion, so that he almost feels the recovery speed of change...

The body of Shen Lang is very powerful, far better than the people of the same level. Before entering, he also runs the “Yin Yang Bo Ruozhen” and “Heaven and Earth Domineering”, including the “King Kong is not bad body” And the holy armor is also auxiliary protection.

All of this makes him bear more impact than others.

Now he has taken Nedan, and he continues to absorb the aura of the spirit, plus the infusion of the dog god.

Almost an hour or so let him recover seven seven eight eight.

“The Emperor, can you? I have no problem...”

Shen Lang conveyed this consciousness to the Emperor.

“Honestly cooperate!”

The dog ***** was intensively infused for an hour, and it was obviously exhausted, but it was a great behemoth and its body function was very powerful.

It felt that this was nothing at all, and it recovered after a few days of recuperation. However, Shen Lang may now need to recover to face the outside environment. If it is an enemy, it needs to be restored.

Therefore, it insisted on instilling powerfully for half an hour!

This half an hour down, let Shen Lang also absorb more of Nedan, and the spirit of the spirit of the aura, multi-faceted, so that Shen Lang almost completely recovered and healed.

“Okay! I am completely okay.”

Chapter 1915 - 2 sinking waves?

The dog ***** is the healing of Shen Lang. It is the complete trust of both sides. Shen Lang has no reservations about it, and it can be infused without any obstacles to achieve such a powerful and rapid.

In the same way, this state gives it a complete understanding of the situation of Shen Lang.

Just before Shen Lang shouted, it can feel that it can only be regarded as seven seven eight eight, not completely good.

Now that the real one is in good condition, it is not polite, so it is safe and rewarding.

“Is there really no strong enemy?” The dog ***** at the moment is quite exhausted.

But it is still worried that Shen Lang has encountered a strong enemy.

“I won’t say thank you to you,” Shen Lang nodded solemnly to him: “If there is a strong enemy, I will come in immediately and ask you to go out and help. You have a good rest!”

Shen Lang gave the dog a spirit.

The dog ***** nodded and was not polite with Shen Lang.

Just use it for its strength and mental strength, and change the time for Shen Lang. If you have a little more time, it can recover itself. At most, it is a year and a half of the repair, which is nothing to it.

And Shen Lang gives it resources such as Ling, and it can recover faster.

Just after the waves, let the dog ***** realize that Shen Lang may really be in a special environment, perhaps it needs help in the front.

It is also very much looking forward to it, and if you want to help, first of all, it needs to be recovered, and naturally you can't be polite.

At this point, the time when Shen Lang came in, it was only a minute or so in the outside world.

He also took a moment to understand the situation.

Although he is in a coma, the G-3 still has all the records.

Through the record of the holy armor, after they entered the line, they were transferred to other places, but it should still be the environment of the former fairy palace.

That is to say, they have not seen the wrong one hundred meters before the visual inspection, but only about 30 meters behind, is the scope of a protective cover.

And entering this protective cover, if the strength is not enough, it will be directly crushed into powder!

If the strength is strong enough, it will be transmitted to it. The specific place may be immediately.

But this kind of transmission is not transmitted to another world, but is similar to the impact of the rapids!

Once inside the 30-meter range, it is not directly visible to the front, the shield is invisible, but it is extremely powerful and flowing.

In this case, they all enter together and share the impact of thinner. But after all, the point of entry is not always, or it will be washed away by the rapids.

Especially the single ones are slightly different in distance, and the time is a little different, they will be separated far away.

And Shen Lang, seven of them, was originally divided into two dials. Normally, even if they grasped it, they were also four of them together, and they were together in the cold autumn.

It will fall in one place, because at the moment of entering, Xue Feixue also realized this problem, so he grabbed the clothes next to Mo Feiliu, so they both landed in the same place.

However, the general impact of this rapid current is too great, it is snow and snow, and it is also a coma!

According to the records of the Holy Grail, the two of them were also in a coma for a while, but in the end the strength was stronger, but the temporary shock was unconscious, and soon they woke up.

As Shen Lang suspected, after the cold autumn wakes up, the first reaction is to look at the Shen Lang, and to save the Shen Lang.

However, after snow and snow also woke up, she said that she came to save the waves, so that the cold autumn saves Mo Feiliu, Xu Haoyue them.

In the latter case, Shen Lang will know.

It's just a little bit of a situation, and there aren't many big and small clues. In the record of the Holy Grail, there are no traces of other people. Obviously, at the moment of coming in, it has already been washed away.

Also lost before the smashing, everyone caught very tight, and finally Snow is not snow to grab Mo Feiliu's clothes, or else they will be separated.

Shen Lang has basically figured out the situation. Since it is already like this, it is not so easy to go back. Maybe accept another impact, or go straight out.

But it is also possible that it is impossible to go back directly. Now it is very likely that it is not in the place where it entered.

Shen Lang came back again, but in a minute, snow is not snow and high cold autumn, the efficiency is also very fast, Mo Feiliu, Xu Haoyue wake up, snow and snow also woke up the Fan Xueyu and Bailu.

Then they both worked hard to restore their strength.

Shen Lang disappeared for a minute, naturally it made them both curious, but seeing him come back so quickly, there is no question.

After all, everyone has a secret, snow is not snow is not a friendship, high cold autumn is a deep friendship, will not ask.

However, his disappearance and appearance this time did not have any spatial fluctuations, and they were very surprised.

Fan Xueyu and Bai Yu, just woke up, did not see the Shen Lang, have a little anxious, and now see him appear, and then feel at ease.

Among the four of them, the strength of the white cockroach is stronger, and the body of the nine-tailed fox still has certain advantages, so her injury is relatively light at this time.

But this is only relative, even the cold and cold autumn are hurt, they naturally can't go anywhere.

“Take these things down!”

Shen Lang took out a box of water.

This was obtained before the giant scorpion, for the level of the gods, it is not enough to use the spirit, not as the jade peach of Yaochi.

But the victory is long enough in these years of water, and it has been growing for a long time at the bottom of the Tongtian River.

Moreover, when Shen Lang was originally a spiritual vein and exchanged with a borderless box, the quantitative advantage can be greatly compensated.

“You actually...”

Snow is not surprised by the snow, she found that the body of Shen Lang seems to have completely recovered!

Gao Hanqiu is also very surprised, but he has blind worship for Lang Ge, which is the accumulation of the first half of life, so what kind of miracle is acceptable.

There is a huge wave in the snow and snow, remembering the last time.

At that time, they returned to the edge of Yaochi. The Shenlang and the behemoths were seriously injured and the severity of the sudden death. As a result, they soon joined the Yaochi event. It was a day or two later. This time, it was faster, he just disappeared for a while, and the people who came back have completely recovered.

She even has some doubts, is there two waves?

Shen Lang just passed through to another place, and exchanged another twin wave of the twins?

Of course, this is too absurd.

She still feels it, and people have not changed. And Van Gogh is very sensitive to the smell, if it is two people, it should be able to detect it.

Besides, it is the two people who should be found in the cold autumn, unless the cold autumn knows.

“Differently eaten! We went to a dangerous place, everyone was injured, and the sinking brothers are very effective and can help everyone recover faster.”

Gao Hanqiu knows that Shen Lang has his secrets. He doesn't want Snow to ask for it. When he refuses to answer, he also hurts her face, so he opens.

Chapter 1916 - 10 rounds

Xu Haoyue and Mo Feiliu both know the identity of Shen Lang, and Shen Lang's instructions represent the will of Gao Hanqiu, so they are all very cooperative.

Only they just woke up, the whole person is still unable to move!

When Shen Lang just woke up, he couldn't even make a nod.

The same is true of Bai Yu and Fan Xueyu.

Therefore, after Gao Hanqiu finished, he still had to feed them, and at the same time instill a little more energy into them.

Snow and snow did not say anything, and they began to give them two waters and instilled vitality.

Originally before the tiankeng, it was the core of the swell, and now the snow is not snow and the cold and cold autumn are injured, Shenlang has already recovered to the peak level, naturally he is still the core.

Shen Lang himself is also doing his part. When both of them acted as “care workers,” Shen Lang began to explore the surrounding environment.

In just a short while, he already had a general understanding.

Now this environment is much better than the previous foggy state and will not be limited to a range of about 100 meters. However, there is still a certain suppression of mental strength, and the scope of exploration of the gods is greatly shortened.

However, in general, it can be found that a few hundred meters, plus no fog to interfere with the line of sight, can still make people feel a lot of peace of mind.

Now under his induction, there are no other people in the vicinity of a few hundred meters, and this environment is not in the feeling of the palace, but it is like a wilderness.

But before I saw that there was a palace-like existence, combined with the name of the Yungong Holy Land, it was not like a wasteland...

"I will check it out."

Some of them still need time to move, and Snow Snow and Alpine Autumn certainly have not recovered, and they need to take care of and protect them here.

Shen Lang, this is his own.

Since the scope of the investigation is limited, he will go out a little!

As soon as he moved, Shen Lang immediately discovered it, and all aspects were suppressed. His speed was also slower.

He chose a direction and then flew over there.

I used to think that it was in the wilderness because I looked at the ground like a wilderness, but in fact, in addition to not sensing farther, the line of sight could not see a farther range, and the distance was still a light fog.

Now that the people have passed, they have found that they have reached the head after about five miles or so.

At the end it looks like a wall and it looks like a mountain wall.

Shen Lang did not go to Tibet to break it, but began to fly in one direction along the “wall.”

Throughout the process, he kept his sense of the surroundings and found that whether it was a wall or a mountain wall, it has blocked the exploration of the gods. It is impossible to know how thick it is and what is the situation behind it.

The flying along the wall gradually made him grasp a general. According to the trajectory of the sacred armor, after about a week, he re-visited the mark on the wall.

This is a huge square with about four miles on all four sides!

To this extent, it is no longer possible to call the room.

The place where they landed was probably in the middle of this huge square building.

Now Shen Lang wants to figure out how high it is.

From the current point of view, these four sides can not sense the outside world, it is banned. If there is such a roof above, it is really enclosed in a large cage.

But how can it hit here?

There will always be an entrance?

Shen Lang then flew up the wall, and he had already prepared for a height of ten miles.

If that's the case, it will be a huge cube space. The Temple of Heaven, which was encountered in the ruins of the past, is simply incomparable with this size.

Soon, Shen Lang sensed the upper limit!

Because the gods can sense a few hundred meters, and now it is a few hundred meters, the height of the “ceiling” is clear.

With a specific goal, Shen Lang directly accelerates up.

At a height of about two kilometers, I saw the top.

Just like the ceiling of a room, it is firmly covered here, and it is impossible to find out what is going on behind.

This is a bit discouraged discovery. Shen Lang is still along the lower edge of the “ceiling” and then wraps around the faster speed of the holy armor.

The result is really proved, this is a space of about four miles and about two miles high.

And they are closed inside.

Although the situation is already very obvious, but because the range of sensing is only a few hundred meters, there is no one-to-one verification, and it is still a little lucky not to be reconciled.

Therefore, Shen Lang still manipulated the sacred armor and searched the upper “ceiling” and the four sides of the “wall”.

The scope is so large that it cannot be confirmed because of the four corners. If there is any gap missed, it is regrettable.

It is a pity that he searched all of the side and really achieved the “carpet” search, but the result was nothing!

There are no gaps in all places, let alone passages and holes.

But after all, everyone is coming in, there should always be a place to come in?

In the end, Shen Lang took the target to the only ground that had not yet been searched, and also searched for the carpet.

By the time he returned to the middle ground, he had already searched all the way, the ceiling and the ground.

“We are trapped?” Gao Hanqiu asked a little.

He is also restricted, and the range of sensory sensing is much larger than that of Shen Lang, and it does not cover all.

When Shen Lang was on the four sides along the corner, he could not sense it, but when he searched the ceiling above, he already knew about it.

Shen Lang nodded and glanced at them.

In the busy exploration of this, other people took on a lot of water, coupled with the snow and snow and the cold autumn infusion, the situation is better.

Although he is still in a state of serious injury, he can already do simple activities and start his own treatment.

“The situation is a bit bad We should have entered a layer of similar protective array when approaching this place, and then encountered a huge impact, because everyone has a defense, we all almost simultaneously Entering, in general, is shared, and the seven of us are also sharing the pressure together...”

After the cold autumn and snow are not awake, everyone is still helping them to heal, and there is no time to say anything.

In fact, the two of them are also comatose. For the situation, they can only be speculated, and there is no conclusion.

At the moment, when you heard the words of Shen Lang, everyone was secretly surprised.

It's been shared together, and it's so badly hurt. If it's just a single person, then it's impossible to die directly?

Where have other people gone?

Didn't everyone come in together? Why are you not together?

Although I know that Shen Lang is definitely the same result, it should only be his personal guessing inference, but he is so determined that everyone wants to continue to listen to him to say more specific situations.

Chapter 1917 - Creepy

"I think that may be a protective array of continual impact. The people who come in have a little difference in position. If there is a gap in time, it will lead to different places."

"The four of us were pulling together, and the three swords of Qiulin were pulled together. When we finally came in, the snow palms pulled the clothes of Mo Zongzhu, so we seven people will fall in the same place."

"But other people, where they are, or whether anyone has died directly, is temporarily unknown."

The story of Shen Lang sounds very detailed, so that everyone believes what he said.

But Snow is not very snowy.

Because at the beginning, she even felt that Shen Lang's proposal might be to have a bright day and a white and a sacred snow.

But for safety reasons, she was still holding the other hand of Van Gogh on the other side.

Later, I felt that Gao Hanqiu really listened to Shen Lang's suggestion. He took Xu Yunyue and Mo Feiliu two, and seemed to believe in Shen Lang's words.

This was the moment before entering, pulling the clothes next to Mo Feiliu.

At that time, she immediately entered. She even suspected that Mo Feiliu felt that it was difficult to say that Shen Lang actually paid attention!

“As for this, I have just searched it carefully. We are like in a big room, this room has reached ten miles on all sides, about two miles high.”

“As you can see, there is still fog here, which is a bit lighter than what you saw before entering the meditation. These fogs are still very restrictive to us, limiting the scope of visibility, limiting the sense of God, and even speed. The power is exerted.”

Listening to the story of Shen Lang, everyone has already had a general impression, knowing what kind of situation it is.

Then Shen Lang announced the last point.

“Four sides, up and down, I have searched one by one, without any entrances and exits.”

When you heard this result, there was no negative emotion like arrogance and depression, and even no surprise.

It's not necessary to talk about the cold autumn, the snow is not snow, the identity is there, it is the person who is not stunned before the landslide. Xu Haoyue has lived for hundreds of years and is the second oldest here.

Mo Feiliu is the third oldest, and also the patriarch of Qiulin Jianzong.

Fan Xueyu is young, but there are some of her most admired masters here, and there is no pressure at all.

White 嬭 is not clear about the situation of the outside world, does not know what it means, but also has confidence in Shen Lang.

This time, when the peers came to the meditation domain, there was no weak one. That is, other people knew about this situation and should not lose control.

As for being surprised, it is because of the look of Shen Lang, and the process of telling one by one, it has been able to guess that this is probably the case.

“What do you do now?” Xue Feixue asked involuntarily.

Just after they were still in a state of injury, Shen Lang really recovered suddenly, and then naturally arranged for them to take care of other people and explore the environment alone.

This is already the core leader’s dedication, so Xue Feixue, this time, did not consider himself as the head of Yao Chi, naturally asked Shen Lang.

Shen Lang solemnly replied: “Try the way!”

“...” Snow is snowless.

However, this also shows that there is no way for Shen Lang to have a time.

I can think of it, he has already thought about it, the rest is to let everyone work together, and then try various programs together.

“Everyone can treat themselves! These spirits are not polite. If you can afford it, take more.”

Shen Lang said to them a few, and then told him.

“You two, you can walk around and feel the specific situation. Maybe you will find more!”

Gao Hanqiu and Xuefeiqiu nodded and agreed.

Although Gao Hanqiu is absolutely admired and respected by Shen Lang, he also understands the origin of Shen Lang. This is from the China of the Earth. It is not a rookie of the mysterious sect. I have never heard of even the Yungong Holy Land. It is even more impossible to master more details.

Therefore, Shen Lang did not find anything, only a completely normal situation.

He didn't feel that he would find something, but he should know more, and Xue Feixue certainly knows more.

Besides, although Shen Lang has made it clear, let them have a general understanding, but this is not the same as checking it in person.

Those who stay here are counted as their own people. They don't have any temperament. They get up straight, then separate them from side to side and start going to both sides.

They still hold the spirits, while investigating, while continuing to absorb the aura and make up for their own damage.

The other four people are quite embarrassed.

Obviously, they have become a drag.

Those who are exquisitely have a case, and they will not hold it again. They can take it as much as possible, and at the same time, they will be treated for the time being, and they will not pay attention to any situation around them.

The two of them can safely leave because they left behind the waves to protect the other four people. In the special environment where the line of sight is only a few hundred meters, even if Shen Lang has checked that there is no entrance, it is still not enough.

However, they are all injured, but Shen Lang has already recovered its peak. If he is guarded, he can naturally feel relieved.

When Shen Lang looked at the four of them for healing, he also thought quietly.

where is the problem?

According to speculation, everyone is affected by the impact of the protective front, and there must be a place to come in.

But...not to say that if there is a place to come, there must be a place to go out!

The most obvious example is the tower that Shen Lang owns.

The tower can absorb the objects, and the living body will not die immediately, but it is also trapped inside.

The result is that the elk and other people are inside, madly attacking the surrounding walls, but there is no effect, and it turns out that the tower is even stronger!

The situation and here, isn't it a bit similar?

Is this a bigger tower?

Is the environment here bigger, or is it that people have been reduced year-on-year after they entered?

Are other people sucked into the towers of different floors?

The four sides are all around ten miles the height is two miles, will it be superimposed on the top two miles?

Is this a more powerful artifact than the tower?

Such an analysis, let Shen Lang could not help but a little creepy!

But he still feels that he should not scare himself. This should be in the holy place of Yungong, not in an artifact.

In order to find more clues, he re-adjusted the information of the holy armor, slowed down the speed that he had entered before, and observed all the angles and close-ups.

There are some things beyond the technological civilization that cannot be recorded, but some inherent traces may also bring a little clue.

The results were seen down, I didn't see what I wanted to see, but I saw some unexpected things!

Chapter 1918 - Found conspiracy

Shen Lang's view is of course the surrounding situation, because the focus is on his side.

Besides, although the function of the holy armor is very powerful, it is on his body, and the closer it is, the more detailed it is, the farther it is.

Now is the data analysis in the moment, of course, try to capture more subtle deviations.

The result is the same as he had seen before. Slowly watching it several times will make it clearer and there are no more new clues.

Then, while he was expanding, he found another unforeseen problem!

Xuan Yinmen Cui or ancestors.

Cui, or the initiator of this time, is also the one who leads everyone to come here. He is also open and honest along the way. At most, he is a bit vain and enjoys the moment of attention.

But when we reached the last 30 meters or so, everyone was wrong or horrified, shocked, and involved in the moment, Cui or did a retreat!

The holy armor has disappeared with the sinking waves, and naturally no record of Cui or.

But after discovering this, Shen Lang zoomed in and looked at it several times, confirming that Cui or actually was close, and had intentionally or unintentionally, half a body slower than others!

In the end, there is indeed a retreating action.

The difference is the time and distance of the half body. He should also withdraw after the success of his wish.

This is not because he is quick to respond, nor because he has had an experience of vigilance, but his intentional layout!

Cui did not elaborate on how he came here to find out, nor did he say how many people there were together, whether it was Guangxuan's hidden door or whether there were other partners.

Everyone thinks that he is not willing to announce the clues of the Yungong Holy Land. It is understandable. After all, this time is also likely to be fake. The previous clues can still be used.

It is a last resort to share the results, and it is impossible to share the process, so everyone has not asked.

Looking at this situation now, Shen Lang has already guessed a rough!

No matter how many people Cui or how many people have combined, the last time he came to see it, when he saw this thing and began to approach the exploration, it was definitely not a person!

It doesn't just happen to walk side by side, it is more likely to be the way to take care of before and after.

Perhaps continue to sketch the ground and make a mark. When the result came here, the person who walked in front disappeared.

Because of the traces of the ground, even if this is an invisible protective array, he can still confirm the specific danger line.

According to this line, going back to the back, you can know how many meters and how many steps.

As for the scratches, there will be no one in the 100 meters, and it may be the time to erase.

In this case, you can connect with the reckless slaves.

Cui or, or his team, after discovering and appearing this result, combined with ancient legends, if this is determined to be the Yungong Holy Land, there will be a great possibility that it will not come back.

Even if you don't die, you don't know how long it will take to come back, or if you survive, it doesn't mean you can really harvest the adventure!

In comparison, a cloth is a bureau, and that is a real income!

The first step is to spread the news and attract everyone.

In the second step, the sluices were arranged to ambush in advance, and one can grab one.

These ancestors will certainly not bring more resources, but they all know that there are dangers, and the weapons of life, such as life-saving weapons, may still have one or two pieces.

After these things are robbed, Cui does not need a black market transaction, and can be traded in a bright and fair manner!

When I said that I found the Yungong Holy Land, but your ancestor had an accident, this is what he left behind.

Whether it is because of the martial art, or because of the ancestors' relics, the factions will definitely pay more than the market price and buy things back.

Instead, I would like to thank him for bringing things back.

The third step is to reveal more information to you step by step in the process of marching, let everyone believe in him, follow him, and after seeing the shadow of “Yunonggong Holy Land”, plan a good plan. , lead everyone in the past.

That time, even the Shenlang, I feel that it makes sense, because indeed everyone can go in at the same time, perhaps it can share the impact.

But perhaps for Cui or, just don't want to stay one side by side, in order to ensure that there will be no quick response and retreat after seeing someone disappear.

Wait until the arrangements here are completed. If the ancestors who went there, they will die a lot, and the rest will not come out, some will have nothing to gain, and some may come out decades later.

That Cui is very good!

When the characters of a gang of pillars disappear, it will inevitably lead to the breaking of the generation, resulting in a cliff-like crack.

For example, Ginkgo Valley, the former lost elk ancestor, even if Zheng Yu and Zheng Songlin are still alive, it will also be a big drop, and become a worse martial art.

The Kunlun School, although they were killed by Shenyang and Sufeng, but as long as the ancestors of Ziyan were in the air, they were only damaged, and they needed to re-cultivate the successors. The level of their own is not falling, and no one dares to bully.

This is a long time!

When the ancestors of many martial art of the same level have fallen into this, like the Qiu Lin Jianzong, they have brought the level of the head, and Yao Chi also brought such a change, which is bound to be huge.

In that way, without losing the mysterious door of the ancestors, it would be a bit high, plus a variety of weapon magic, re-trading a large number of resources, let him make a big wave.

If he has more ambitions, he can extort and rob other weak martial art, or combine the characters such as vultures and snorkelers to deal with them under the counter.

After a few years, Xuan Yinmen will be able to regulate everyone and become the leading giant.

Cui or, that is, the behind-the-scenes employer of the savior.

It's just that he's countless, not counting the quicksand, and the slaves grabbed the head of Shen Lang, and then they were killed by Shen Lang.

Not only have all the harvested things been given, but they have also been sent back by Shen Lang, and they have even kicked the incident directly, so that everyone has one more eye.

But then again, now it is Shen Lang is also stuck here, still do not know how to go out, let alone harvest what.

If it is a long time here, then Cui or a few weapons weapon is only a few, he alone went back, still in accordance with his plan, but the effect is a little bit worse.

He knows this and who is it open to?

Even if there is still a chance to meet other people I will tell this to others, and others believe that as long as they can't safely leave here, there is still no point. Cui's plan is still going on. get on.....

However, Shen Lang did not worry too much, because he still has a key to victory – the door of the Three Realms!

When necessary, you can also transfer from here through the door of the New Three Realms.

The question now is... If this is the Yungong Holy Land, what is it?

If it is a small world, a huge palace, etc., it should be able to be sent away, if it is really a huge artifact inside? Can the gates of the Three Realms pass away?

For example... If it is in the tower, can it be transmitted?

But now Shen Lang can't try again. If it can be sent out, can't you get back here? After all, this is not a normal environment.

Chapter 1919 - Find a way out

Tianshu space Shen Lang dare to go in, because this is definitely still in place, and will not leave.

However, the Kunlun mirror of the new Three Realms is transmitted from here to the other side, from two places to two places.

A key point in the use of this artifact is the need to position the consciousness and go where it can be accurately positioned.

But now, here is not the place where Shen Lang has been "going". It was rushed here by the impact of the rapids. In the end, the space transmission array or the protective array method is actually unknown.

He is not sure if he can send it away, and he is even more uncertain whether he can return.

So I want to try it, but it is quite tangled.

If you can't come back, it's a tragedy. You can't manage six of them.

If you can't leave, it's even more tragic, and even a glimmer of hope is gone!

After thinking about it for a while, Shen Lang decided to slow down first, not using this artifact, and regard this as the final solution.

If you really can't find a way out, there is danger here. When you have to leave, ask for your opinions, or tell them and bring them together.

If you can't leave, then there is no way. If you can leave, then no matter whether you can't come back or come back, you can come together.

For the time being, I will pin my hopes on Xue Feixue and Gao Hanqiu for the time being. Maybe someone has new discoveries?

Shen Lang looked at the four of them.

Even if they have served a lot of water, but they can't eat it all, they have reached the upper limit, but it takes time to absorb and heal.

If you want them to get out of trouble as soon as possible, not to say that the recovery is in good condition, it can be restored to the walking movement without being affected, it will be more convenient.

But he is deeply experienced, the best way, or to help externally, that is, to infuse them!

It is him who can do this step now.

Before the snow is not snow and the cold autumn is also done, but only the most basic to wake them up, solve their biggest problems, let them have the opportunity to heal.

Shen Lang took the initiative and immediately began to instill in them.

However, he is a pair of four, can only take turns to infuse for a while.

And he is not instilled at the cost of the dog god, just as he said before the snow and the cold autumn, first of all to ensure his own good.

Therefore, he only instills the spirit of the spirit while instilling them, which is equivalent to helping them absorb more aura.

The effect can't be compared with the dog god, it is divided into four, and the time does not occupy much.

But now they are still the weakest, relying on a large amount of water to absorb, and then self-healing. At this time, with a little external help, it can significantly reduce the pressure.

After a while, snow was not snow and the cold autumn came back.

They also came to a carpet search like Shen Lang, but they did not expect the result, they could only come back first.

Seeing Shen Lang, one of them helped them four infusions, so that both of them were very embarrassed, and they would come to help immediately.

In terms of identity, Van Gogh is of course a snow and snow, and Xu Yuyue and Mo Feiliu are taking care of the cold autumn.

Shen Lang is only helping one, it will be a lot easier.

Shen Lang was directly vetoed.

“If you have time, you should recover yourself first. I have spare energy now, only to help them a little, you can’t waste time!”

If you are in the dark, let the cold autumn and snow and snow are a little bit awkward.

It should not be a waste of time to heal your own disciple.

But they also understand the meaning of Shen Lang. If they come to the enemy, or if they are in danger, then they can only survive if they are strong. Otherwise, if everyone is injured, it will only be wiped out.

Thinking of this, they are more curious, do not know what method Shenlang uses, can quickly recover.

They have not harvested, and this time they can only heal themselves as much as possible.

While Shen Lang provided some help for them, he also constantly pondered various possibilities.

One of them is to drill holes in the ceiling!

According to the observations just now, whether it is the four walls, the top or the bottom, I can't see what the material is. It seems to be like an ordinary wall, but when it comes to the vicinity, it can also block the exploration of the gods. Obviously not ordinary. .

This is related to a thick question.

If it's just the thickness of a wall, you can use the dead water whip to try it out, maybe you can dig it away.

But if the thickness is actually 10 meters, 100 meters, kilometers?

That is to say, the dead water whip with a limited length is the sword of the king, and there is no way to extend it indefinitely.

Holy armor? Put a bomb?

Finally, Shen Lang thought of the same things that have not been used!

Because it has not been used, I have never thought of it, but now it seems that no matter how deep, as long as it is mud, or land of various materials, you can dig it!

shovel!

The little shovel of the savior is a magic weapon of theirs.

However, the magical effect of this thing is that it is in the memory of the lair. What was used in front of Shen Lang at that time was deceived by the real fantasy.

The quicksand slaves thought they were digging underground, actually spinning back and forth in the air.

So Shen Lang can't be sure what the effect of this thing is...

Now this is also a dead horse as a living horse doctor. Compared with the use of the dead water whip, the sword of the king or the bomb, it is still a shovel magic weapon that can be continuously digging deeper, and it is more operational.

If this doesn't work, then see if they have any constructive ideas.

Otherwise, it can only be transmitted by using the door of the Three Realms.

"The two of you are here to take care of it. I have killed the laksa slaves before, and I have seized the magic weapon that they have helped to squat. I can try to leave the wall!"

When I heard the suggestion of Shen Lang, Gao Hanqiu immediately said: "Let everyone join together! You can take care of each other and relay."

They are also slightly smug about the situation of the laks and slaves, but it is not too clear. If they are used for excavation, they can also help.

"No need." Shen Lang directly refused. He took the small shovel out and explained: "This is an auxiliary squatting, not a direct way out. Now It's better for me to be a person. It's safer to find a way out."

This makes everyone listen a little embarrassed.

Although Shen Lang should not be abandoning them, the truth is that they are dragging their legs.

"Don't think too much, don't dislike you, don't leave you. Try to recover, just help!"

Shen Lang did not turn around, directly indicating this attitude, and left the rest of the water, so that they can all use.

Because of the relationship between the cold and the autumn, Xu Yuyue and Mo Feiliu have confidence in Shen Lang. Fan Xueyu and Bai Yu are worried that he is safe and have a heart to follow, but now he is also tired and can only not speak.

Chapter 1920 - Level 2!

After Shen Lang finished speaking, he left directly.

He did not start from the middle, but went to one of the corners.

The previous exploration allowed him to understand the whole environment. The holy scorpion had a complete trajectory, and it also simulated the appearance of no fog.

Now Shen Lang does not need to explore, directly and accurately came to a corner.

His goal is still the ceiling above!

The previous analysis, although a bit creepy, is not necessarily within an artifact, but the cloud palace is counted as a towering palace, it is also possible to go up one level.

The length of the four sides has reached ten miles, and the height above is two miles. There is a great possibility that there is one layer and multiple layers above.

If this is the case, go out to the surrounding walls, maybe you are going out, and going up, is the other place in this cloud palace!

Of course, if there is no hope for going up, you still have to open the way to the Quartet.

Along the corner, Shen Lang went straight up.

He has the memory of the larks and slaves, knowing how the shovel is manipulated and used, but the technique of banditry is not controlled by memory.

Therefore, Shen Lang is also psychologically prepared, not thinking about the extent to which he can achieve the savior.

When the shovel digging in the past, the top of the material is not known, it is like a knife cut tofu, and instantly immersed in it!

The body of Shen Lang is closely following, and soon there is a wonderful feeling of being integrated into the earth.

However, this is not the time to enjoy or experience. Shen Lang is afraid that such a situation can not be clearly recorded by the Holy Grail, or it is estimated by himself.

As a result, this drilled up, probably at least a thickness of about 500 meters!

If you have this thickness, don't talk about the dead water whip. The sword of the king is not fast enough, and the nuclear bomb level can't be opened!

It is suddenly clear!

Shen Lang immediately took off the small shovel and stood on the ground again.

The ground is actually a little trace, as if he had just passed through the ground directly, but the surrounding environment can be proved, he really has arrived in another place, to the upper level.

The temperature here has plummeted, and the place where it settles is a thick layer of ice!

Look around again, and the feeling of the next layer is the same, the gods can not penetrate the ground below, the distance is a few hundred meters away, a little longer than the line of sight, then the fog is not clear It is.

The places you see here are all snow and ice, and the ground light is thick ice.

At this point, Shen Lang was basically relieved.

This shows that his guess is correct!

This cloud palace is a building that is layered up and down. It is just one floor below, and it is another layer, but every environment may be different.

On the whole, it is also a suppression of all aspects of human beings.

Now that he is wearing it, it is still in the corner, so you can be sure that the overall scale is the same.

There is already such a corollary, Shen Lang does not need to search along the four walls, he directly applies the following structure, and then goes to the middle.

The seven places where they landed were basically in the middle of the layer below.

If someone is landing on this floor, is it also in the middle?

Shen Lang rushed to the middle, but it has already arrived, but it is already in the middle!

Soon, the other side saw him, and they all showed a nervous look.

“Everyone, it is me! Shen Lang!”

In this strange place, suddenly I saw someone coming over, it is easy to misunderstand. Although these people must have been injured, there are still magic weapons in their hands. In case of direct bombing, it is not very good.

When I heard the sound of the waves, the other party was relieved.

“Shen brother, it is you!”

“Hey? Where did you come from? We just searched, and no one else!”

“Yeah, where have you been hiding?”

At the same time as Shen Lang's past, he has already looked at the other group's people.

A total of six people, all from the same batch before, and several of them are old acquaintances.

Tong Xian Weng and Zhi Zhi are among them.

When I say hello to Shen Lang, there will be no two of them. They are behind, probably embarrassed.

And Shen Lang can also clearly sense that they are not hurt!

This basically confirms that even at different levels, they are also subject to tremendous impact. And they are most likely to come in individually, only the group of everyone, and no small team.

This also makes them more seriously injured.

However, after all, they are the ancestors of the great realm. After coming in, they have been there for a while, and they all have a certain recovery.

"Speak about your situation?"

Shen Lang came to them and asked directly.

"We are all hurt, it is shameful to say, it is frozen to wake up ... and then everyone's search, and finally got together. But we have already searched around this, and have not seen you before. "

The old ancestor smiled and explained it to Shen Lang.

In their realm, it is actually awakened, it is really shameful.

But in fact, this is an early warning of their strength. If it is an ordinary person, a person with poor strength will encounter a heavy coma. If it is not good, it will freeze directly.

“All of us are in different places around, and finally come together, but no one sees you. And, we are all hurt, but you have nothing. What the **** is going on?”

This is what Tong Xianwen said.

He did not say hello to Shen Lang in the back, but he was also watching from the cold.

Originally, he was still quite a fan, but the last time he was kicked by Shen Lang, it was a tear. After that, I went to the Lijiang River with the Zhixuan and the vultures, but I got nothing.

For Shen Lang, he can't go back, so there is no need to disguise the surface.

At this moment, he directly said his doubts.

The old ancestor had already asked doubts, and Tong Xiangeng pointed out that he was not injured, in addition to pointing out where he came from.

“Shen Weng, I think you are a bit stupid. You should learn more wisdom with Zhisheng. I am not injured, of course, because I am very powerful! Do you want to say that I am the son of the best?”

“...”

Shen Lang's smile and laughter I gave it to Tongxian Weng.

These two answers, don't want to!

Admit that Shen Lang is very powerful? Even if he hasn't done it, he is also a lot of tricks and means, and he never believes that he can be stronger than them.

What kind of ghost is the son of the day?

Others are also a bit embarrassed, because they are both injured and not hurt. Before, they may have intentionally or unintentionally ignored the clues of Shen Lang.

Now Tong Xian Weng proposed, Shen Lang said that because he is strong, everyone feels like being compared.

“As for you didn’t see me because I didn’t fall here, I was looking for it from another space!”

The sentence behind Shen Lang is to shock everyone.
