

First Strong 1931

Chapter 1931 - Devouring the heart of the fire

The Shenlang people are already in the air, but the flames underneath make him have to fly higher and protect himself more tightly.

The flame below, surging from the ground, rushing from the air, directly let the middle piece become a sea of fire!

However, Shen Lang still saw a rough idea, whether it was the ground eruption, or these fire monsters, when they were close to the ground, they were absorbed!

That little heart is burning, but at the moment it is like a monster that is not full, and all the flames come.

And I can't see how it did it. Is it fire and fire, and the other flames are extinguished? Still swallowing it?

Shen Lang is more inclined to the latter!

The fire of the earth's fire "fires" is getting faster and faster. The speed of the fire monsters is not so fast. It seems to be a strong sucking of the past, and it is all gone.

The sun is above, overlooking the whole process, and it feels that it has already affected the environment.

The number of fire monsters has been significantly reduced, and the distant ones have been absorbed, but no more fire monsters have emerged out of thin air.

Because this ground is their root, now it is the flame of the ground, the same is absorbed, there is no breeding ground.

Watching the fire monsters disappear one by one, the scattered and scattered ones are attracted faster, and then within a visible range of a few hundred meters radius, the ground flame is also gradually shrinking.

Although limited to the fog, Shen Lang can't see farther away, but the process can be seen, all the flames of the melt are transmitted from the ground quickly.

In the process of engulfing the earth's heart, there is no obvious change in the land within a few hundred meters, that is, the distance has been filled and filled.

It has now begun to shrink in the visible range, showing that there is no longer in the distance.

It was almost the same as his prediction. It didn't take long for it to shrink to the side of the heart fire and then completely disappeared.

The heart fire is still the same as before, and there is no change.

But Shen Lang has a kind of image that sees it playing a full...

Although it is not so spiritual, it can't let it run. If you hide in this place, you don't know which level to go to.

Shen Lang hurried down and collected the fire of the earth.

Before he was very cautious, he couldn't let this thing reverse his own.

But now it is different. The heart fire has a soft feeling. When you enter his palm, there is no dangerous feeling in the wheel of the heaven.

Shen Lang vaguely felt the goodwill from it, as if he had found so many high-quality flames for him to eat, he was very satisfied.

This made Shen Lang feel gratified, but also could not help but secretly smile.

It's good to let it eat satisfactorily, but I'm afraid that this guy's appetite will get bigger and bigger. When will I find so many flames?

Can't really go deep into the depths of the hole, let it connect to the fire of the earth?

However, in the future, I will consider it later, and it will be effective now.

As it was very tamed, Shen Lang decisively took it away.

According to the experience of the ice layer above, after the monster is wiped out, it is the time when the essence of heaven and earth appears.

Now the monsters in this fire layer are also wiped out. Should there be the essence of heaven and earth?

If this place is still here, if it is not going to be swallowed up, then it will be married for others.

After receiving the fire, Shen Lang retired a little distance, waiting for a tornado in the middle.

Now the flame on the ground is gone, and the temperature is starting to drop.

But soon, he began to have a worry!

Is this "Essence of Heaven and Earth" integrated into this environment?

Or is this "Essence of Heaven and Earth" born out of this layer of environment?

If this is the case, then the heart fire directly swallows up all the fire elements of this layer, which is equivalent to the "Essence of Heaven and Earth" of the fire system has been swallowed up by it!

No wonder the guy will be very satisfied!

Although a little anxious, but Shen Lang can only continue to wait for the temper.

What can I do?

Pull the heart fire out to fight?

Not to mention that you can't fight a fire, even if you can play it, it can't come out.

I didn't expect it before, and the result was quite a surprise. Now I am full of hope, but I have to become very disappointed, and time has become a long time.

After a while, I finally saw the vision!

This time it was not a tornado, but a burst of white smoke from the ground.

Shen Lang has had experience and knows that there will be no danger, but when he is close to a point, he still maintains a high degree of alert.

When the suffocating gas became rich, he also approached the side and waited for further changes.

After a while, the sigh of anger began to dissipate, and then the same spirit appeared in the middle!

If the previous spirit is a water system or an ice system, then this should be the fire system!

Shen Lang had been worried that this thing had already been killed by the fire of the ground. Now that he sees it, he will settle down and confirm that this should be regarded as a "customs clearance". It will be issued after customs clearance.

He had experience. This time, he quickly acted. The thirty-six scorpion knives swiftly swung up and blocked the surroundings before the spirit felt dangerous.

Then he himself is still the advantage of the field, and then with the footwork, began to trace the fire spirit.

With experience, many situations are much easier.

The speed of Shen Lang's capture this time is obviously much faster than the last time.

Although I haven't figured out what it is, what effect it has, but what I can harvest, I still feel very satisfied with Shen Lang.

Soon after the collection of this thing, the ground that had been suffocating began to appear a new channel!

At this moment, Shen Lang did not rush into the inside, but fiercely accelerated to fly over, want to see if there is any hole in it.

To be honest, he himself is also entangled at this time.

I hope that the hole still remains, and I hope that the hole disappears. If it still exists, it means that it can return to the upper layer. Even if the situation is not good after going down from here, there is still a retreat.

And before I went to that level, maybe I went back and went back to the wasteland.

But if the hole disappears and you want to open it again, will there be another ice monster in the game? If you kill the ice monster, is there a wave of "Essence of Heaven and Earth"?

However, the entanglement was only a moment, and soon realized that it was impossible to do such a good thing.

If it can continue to appear, he uses a small shovel to intersperse layer by layer. Isn't it possible to brush a lot of treasures?

The bigger possibility is that after disappearing, it will not appear again!

For example, these monsters, the essence of heaven and earth, may take hundreds of years and thousands of years to form. If it is closed, it can only wait for the next time.

Chapter 1932 - 3 programs

From the bottom up, there is only a distance of kilometers, but it has not yet arrived. Shen Lang has already sensed it, and the hole above still remains!

However, the environment here is very embarrassing, and he is not sure that he will go up again, and he will still be his own place.

At least there is now another road. After confirmation, I will feel at ease and land again.

When he landed from the air to a few hundred meters, he heard a burst of exclamation.

“Shen brother!”

“Shen brother!”

Carefully identifying the past, Helan ancestors, they have appeared within a few hundred meters, but have not yet reached the middle of the lot.

It seems that they should feel the changes in the environment, guessing that Shen Lang has succeeded, so rushed to find.

Because Shen Lang told them before that there would be holes in the middle of the tunnel, so they also came to the middle.

It's just that they don't have the precise positioning of the sacred armor. They can only find it in the approximate direction and fail to reach the middle accurately.

On the way to the road, it has been completely confirmed that the environment has changed greatly and the flames are gone. But they don't know what happened and they don't know the situation.

At this moment, I saw the middle, but I couldn't see the shadow of Shen Lang. I couldn't help but rush.

This encounter, so that Shen Lang is a little bit gratified.

Helan's ancestors are not white-eyed wolves. It was obviously because Yu Yu was not very friendly with him. He had to help her, or worried about her safety.

At the final moment, I voluntarily blew my identity, and I am not sorry for it.

Yu Yu was also pulled back by him, and the cliff was Le Ma.

As for the other two, there is not so much contact, just here, they really have no dissatisfaction, and they know the current affairs. Now it is the best.

Shen Lang's knowledge can be sensed, they are really anxious to search for him.

Of course, he would not be narcissistic and think that he has more charm and deep friendship with them. They pay attention to him because he is now likely to take them away.

But for him, this is enough. There is no need for them themselves.

"I'm fine!"

Suddenly heard the sound of Shen Lang came from above, and several of them quickly looked at the past.

They came from afar, and the top is naturally clear at a glance. The higher ones can't be seen or sensed, and the ones that are sought are of course the ground.

There is no such thing as seeing the waves in the middle. There are two kinds of conjectures. One is that after the passage, Shen Lang does not care about themselves.

On the other hand, it may be that Shen Lang has already encountered an accident.

Either way, it is naturally anxious to throw them here actively or passively.

Now confirm that Shen Lang is still alive, people are in the air, and naturally there is no meaning to leave first.

For a time, the four ancestors were very excited.

Although they are not grateful for hooliganism, they are extremely rare real emotions for their age.

Because they were not hurt, they were on the way to the four people, and they were not alert too fast, so they did not see the various waves before.

At this moment, I saw Shen Lang, and I was relieved. I immediately speeded up.

“Shen brother! You are fine!”

Shen Lang also speeded down and waited for them to come.

“I am fine.”

After that, Shen Lang pointed to the hole not far away.

“Like the experience of my layer above, after killing these fire monsters, there is a passage.”

A few of them, when they saw the dark waves, they felt the heart of the heart.

The words of Shen Lang undoubtedly confirmed the good news, proving that he had just completely fixed the fire monster, and did not fool them, there is really a channel to leave!

“It’s okay, you are fine!”

When they looked at the hole, Helan's ancestors felt emotional.

Whether it is performance or sincerity, it undoubtedly shows the follow-up attitude towards Shen Lang!

follow?

They certainly will not have this idea. After all, they are all ancestors, and they are famous for a hundred or two years. To say that following a young man, you will not believe it when you say it.

But in fact it is true. Now, every move of Shen Lang is affecting their hearts.

"Don't worry! After this channel appeared, I didn't have the first time to look for you, not to leave you, I went up to see."

Shen Lang raised his finger to the top: "I want to see if the channel I am down is still not there. If it is still, we can at least have one more road."

"Of course, of course, we totally believe in you, we are just worried about you."

"Yes, yes, Shen brothers are very thin, and the old is very admired."

They quickly stated their position.

Shen Lang nodded and then said the answer they expected.

"The passage above is still there."

Everyone is excited.

Although I don't know what the above is, the first layer is a place with ice holes. It doesn't mean anything, but like Shen Lang said, there is at least one more road.

If you go down here is a dead end, you can have another way to retreat.

“You have come over and saved me from looking for you. Now let’s discuss it, what should we do?”

“How to do?”

In the words of Shen Lang, let them face each other.

It is still that Helan’s ancestors will hold their thighs, and they feel that they have a good relationship with Shenlang, so he responded decisively.

“Shen brother, as long as you don’t take us away from a few old guys, we all obey your arrangements!”

“Yes! We all obey your arrangements!”

Others have also quickly expressed their stance. At this time, people are to be disgusted, and there is no way to express their obedience.

After all, they came here again, they were forced to shrink in a corner, and Shen Lang had already reached the third floor space, and directly helped them solve the fire problem.

“My arrangement does not mean that it is the best arrangement. After all, I have less young experience. I will talk about the plan and let everyone know what to do!”

Shen Lang said this, it is to give them face, of course, everyone can hear it comfortably. Even if they are planted now, in the end, the experience is in it, in these aspects, it is still possible to guide Shen Lang.

“Scenario 1: You are following me, I am going to continue, then everyone will go on together.”

“Scenario 2: Since it proves that the channel will not disappear, you can come back. I will go down first, and then I will explore the exact road and come back to take everyone away.”

“Scheme 3: You don’t need to wait here, you can go up and look at it, or explore. Three… four, maybe something I didn’t find.”

Shen Lang almost said that “three smugglers have played a Zhuge Liang”.

They are all old people. When Shen Lang said the plan one, he did not rush to follow him, but he listened to other plans.

When the three programs came out, the brains were quickly weighed against each other.

Chapter 1933 - 1 step slower

The three programs can actually count two programs.

One solution is to follow Shen Lang. The advantage is that you don’t have to worry about the back of the wave, and he is relieved. The downside is to take risks together.

Another program, waiting here, boring can also go up and see. Of course, the benefits are relatively safe. There should be no more fire monsters. You can take time to recuperate.

The shortcomings are also obvious. If the Shen Lang does not come back, or if it leads to other places, it will not come back. Then they are also trapped here, and it is not so easy to leave behind.

This is a matter of careful consideration, even if everyone has been thinking about it, and after Shen Lang finished speaking, he still exchanged his eyes.

The four of them, that is, because they fell together here, do not themselves mean an alliance.

Among them, only Helan’s ancestors and Yu Yu, have deep friendship.

But Shen Lang is two independents of them. The four of them are tied up, so no alliance at this time is equal to alliance.

Everyone is on a boat and needs to discuss each other.

In the end, the eyes were summed up to the ancestors of Helan. Their meaning has been expressed clearly through the eyes, and finally he is.

This process is actually very fast, and the pressure is all on the body of Helan's ancestors.

Helan ancestors also understand that everyone is entangled, and hope is that there are advantages and no defects.

And this program is to sell his old face, let Shen Lang see his little friendship, let them rest in peace here, but in the end will come to take them away.

"I will tell you on your behalf."

Helan's ancestors were not shouting at this time. Since he wants to show his friendship with Shen Lang, he must bear the hope of others.

"According to my thoughts, we should go with you. No matter what dangers are encountered below, even if we are injured, we can't help a lot, and we can help you a little."

"But from another angle, you can safely kill the ice from the above ice layer, and you can safely kill it in this fire layer. I believe that in the next layer, the other layers will certainly be able to do it!"

"Think about it again, just like we can't help anything, we still need you to protect. If you follow you, it will become your burden and drag your progress."

"So, we still choose to wait for you here, we believe that you will be safe to come back and take us away!"

The so-called paving in front is for rationalization, for euphemistic expression, the real purpose is the last sentence!

Shen Lang certainly understands, understands what he means, and understands that everyone is expecting this.

“It is still the same sentence, you trust me, then rest assured! As long as it is not behind me, anyone who believes in me, I have not lived up to them, you are the same!”

“I don’t need you to repay anything, just because everyone is coming together, can take you back, I will definitely bring you away!”

Shen Lang said it was very solemn. It strengthened the beliefs of several of them and made them warm in their hearts.

Sure enough, young people, there is still blood!

To make them themselves, it really doesn’t necessarily make this promise!

“Thank you! We will try our best to restore a little bit and try not to drag on so many legs.” Everyone expressed their attitude.

Shen Lang was half-joking and half-heartedly said: “Of course, I am talking about what I can do. If you are in deep danger, if I want to help, it may cost me a lot, then I am not necessarily can do it.”

“...”

Everyone stunned. Although it is safe at the moment, it is safe, but who knows if there will be other changes?

“So, ancestors, don’t count on me all, try to recover as much as possible! What are the panacea, don’t save, be stronger, and have more hope of going out alive.”

“understand!”

Everyone quickly promised.

This is also no resentment. People just promised to take everyone away, but it does not mean to work hard for them. With a little effort, you can help them casually, but you have to rely on yourself.

Shen Lang does not owe them.

This point, Shen Lang must first let them understand.

Save them, but not rely on him.

Others can lend a helping hand and can give life-saving straw, but the key is to rely on self-help.

If you really rely on him, it is four cumbersome.

After confirming this point, Shen Lang did not have more nonsense, and simply said goodbye to them, they directly invested in the down channel.

As for whether they are waiting here, or will they go to explore, they will be their own.

Shen Lang's current attention is placed below.

When he came out of the hole, he immediately had a familiar feeling, which made him feel moved.

Could it be that they returned to their previous level?

But looking down, the following is still a faint mist, can not see the bottom, but also can not sense the bottom.

He can only keep his alert going.

After sinking a few hundred meters, Shen Lang immediately saw the bottom, there are a lot of dead bones!

Many of these dead bones are fragmented, even powdered, and it is almost impossible to see a complete one.

It seems that this is not the layer that he came before, perhaps just because there is no ice or fire in this layer.

The place where the sinking waves descended was in the middle, and in the middle, it also saw a downward passage.

This made him a little bit sorry.

The situation here does not need to be checked like the previous one. It must be the ancestors who landed here, and they have already completed the task of “Dragon Fighting” and have already cleared the customs.

These white bones are the careless monsters, and this passage has appeared. If there is the “Essence of Heaven and Earth”, it should have appeared and been taken away.

However, it is a bit regrettable, and it is not too entangled, and it is not good to let him take it!

Just like the last time the strong people who came here Finally only a few went out, but not only one or two went out.

Although the benefits are gone, there are also “benefits”, that is, this layer does not require him to study and blame, and can go directly below.

At this point, Shen Lang has already experienced four layers.

According to this height, there are also four thousand giants!

This is not necessarily the one he went to, the ice layer is at least there, then at least five kilometers...

This cloud palace holy place is really amazing!

Shen Lang did not stay much, and went straight from this channel. He must speed up a bit of speed, or else the benefits of the following, let others get it.

This time, when he just came out, he felt a strong killing atmosphere!

Then there is only one possibility!

Chapter 1934 - Layer of the beast

Because he can sense a distance of a few hundred meters, the murderousness should be the same.

Now I feel it when I come out, but I don't feel people, or anything else, that they should be in the air, and the murderous spread out!

Therefore, people have not yet been in the scope of Shen Lang's knowledge, and murder has already been sensed.

No matter what the situation, no matter which few people, they must come together. For the monsters here, it is definitely to help humans.

Shen Lang immediately let the body sink as soon as possible, and at the same time prepared for the battle.

As he expected! When he sank for a while, he could already feel the source of the deforestation.

However, the situation is still beyond his expectations.

It is not an ancestor who exudes a powerful murderousness, but a flying bird, a beast-level flying beast.

Look at that, quite a bit like a huge eagle, at this moment it is concentrating on the bottom.

With the further inductive investigation of Shen Lang, it seems that the murderousness rises to the sky and does not oppress the past.

This giant eagle should be hiding in the sky, overlooking the situation below by the cover of the fog.

Its murderousness is a kind of brewing. When it is at its best, it can be shot to achieve the best results.

If it is below, or the distance is not high enough, it will naturally be discovered by the following ancestors.

So it should also know the situation of all of them, stepping on the sideline, they can't feel the top, and it probably can be observed because it belongs to this environment.

Similarly, if you squander down, you may also find it. But if you don't pre-empt the murderous, it will not be in the best condition.

So it's interesting to manipulate, so that after the murderous outbreak, all go up.

This plan should have been very good, but the plan can't keep up with the changes. It doesn't count that the Shenlang will suddenly come down from above.

Its focus is on the bottom, and perhaps also on the distance, so there is no notice of the passage above, and Shen Lang has not been aware of it.

But Shen Lang quickly fell and sank, so I can sense it. When I can see it, it naturally reacts!

Although it has been brewed enough, the goal is to rush to the bottom, just to control the murderous upwards. It did not take the above as a target source. At this moment, I was tempted to adjust the strategy.

However, compared with the Shen Lang, it is passive afterwards.

Shen Lang discovered that it was a giant eagle beast of the beast ***** level, and there was already an attack plan.

This beast-level flying beast, the average ancestor could have dealt with it. However, after arriving here, everyone was seriously injured, so it may not be.

So the sneak attack after it is so ready to go, maybe it will be solved one by one.

If Shen Lang wants to solve it as quickly as possible, then of course it is to use the sword of the king from above to directly smash it.

But looking at this giant eagle, Shen Lang wants to come to a live catch!

There is no point in catching a living, but the fire monsters, ice monsters, or monsters encountered in previous spaces are all lifeless.

Now there is a flying beast ***** here, which is a bit special. If you can capture its memory, you may be able to understand the environment.

When I saw it, Shen Lang immediately had a plan.

By the time the giant eagle found him, his plan had already begun!

The first step of Shen Lang is to open the field.

Previously, for the “Essence of Heaven and Earth”, the field did not work, but for the general living things, it still has a role.

However, he is not using the field to control the opponent now, because the distance is still far away and the control is relatively weak.

The current field is mainly for your own convenience!

After the field is opened, Shen Lang himself is in it, so you can take a leisurely self-tour. In this, you can let him leap directly in the past, like a teleport, very fast.

In this faint foggy environment, the speed was also restrained, but in this way, he instantly reached the back of the giant eagle.

For the giant eagle, when a person came down from the top, he was adjusting his target to prepare for the attack, but he lost the target again!

It made it sloppy and nervous, and then realized that the other party had reached its back.

But this way, it is too late.

After Shen Lang fell on its back, he regained control of the field.

The scope of this time is directly a small range a few meters away from the giant eagle, which can maximize the power of the field.

At the same time, he gently raised his hand, within the scope of this field, immediately thunder and lightning!

The thunder and lightning technique of Shen Lang, this extraordinary product, is not a large-scale, long-range attack at this moment, but only an attack within the field, it is even more incredible.

The manipulation of the field directly gave all the lightnings a huge bonus!

Between the time, I once again found the target, the giant eagle who was preparing to attack, but found that not only the body was difficult to move, but also was struck by countless lightning strikes!

When Shen Lang is attacking on one side, he uses gravity to make his body look like a slap in the face and keep rolling down!

The giant eagle, which was originally in the fog of hundreds of meters, was pressed down and sank down.

It is also a crazy struggle to scream, but it has no effect at all. After the bonus, the lightning will make it unprepared and difficult to resist, and it will not be able to break away from the field.

The result is the more struggling, the faster the landing.

When Shen Lang hit the other party and was caught off guard, after successfully controlling the situation, he gave a mind.

While pressing it down, watch the situation below.

The height of the giant eagle is to stick a point, it can observe the following, but will not be found below.

Shen Lang pressed it down, and the height below is the condition that Shen Lang can sense. As the decline, the more clear, including the following situation can be seen This again Let him be amazed.

I thought that this beast **** was circling in the air, and it should have not started the attack.

This layer should also be reached by someone, and the ancestors who came down from the above channel should be quite large in number. When they come together, it should be a time to discuss countermeasures together.

I did not expect to see it now, the bottom is already in the scuffle!

The space here seems to be in the jungle, and at this moment, a large number of fierce beasts have appeared, and all the ancestors below have been trapped.

Originally with their strength, unless it is comparable to the super **** of the gods, otherwise it can be easily suppressed.

But here, first of all, I suffered serious injuries, and then all aspects were suppressed. It is a process of dying with the beasts of the living dragons.

The beasts also have a number of advantages, so they are trapped directly.

Chapter 1935 - Don't give face

Now it is almost a scene that is evenly matched, but it benefits from the ancestors who have just come down a wave. If it is originally on this level, I am afraid to be drowned by these fierce beasts!

However, roughly speaking, the following beasts are mainly based on the king's level, and there is no distinction between the beast **** level.

Overall, there should be no such giant eagle.

This giant eagle did not blindly participate in the war, but waited for an opportunity at the top, and it was considered a strategy. According to the original plan, even if it can't do one hit, it should also greatly threaten the ancestors below.

But these are not the most surprises for Shen Lang. What surprised him the most is that in these people below, they have seen Fan Xueyu, Bai Yu, Xu Yuyue and Mo Feiliu!

They actually got here!

Snow and snow are not in the cold autumn.

Of course, if it is cold autumn and snow is not snow, it will not be a scene of evenly matched, even if they are injured, even if they are restricted by the rules, they can still crush them.

This situation makes Shen Lang a bit confused.

Why are they here?

Is this layer the layer that he left before? But the environment is not like it.

Where did the cold autumn and snow fall?

It is said that they should not leave them alone.

But all the suspicions are only a moment. He is now over, and he will be able to ask them directly soon.

At first, there was lightning and thunder on the top. Everyone did not take it seriously. Let's talk about it beforehand.

However, as Shen Lang pressed the giant eagle and landed quickly, the movement made everyone unable to pay attention.

From the point of view from the top to the top, it is seen that the giant eagle beast is surrounded by lightning and thunder, and then can not be struggling to land, and there is a vague person on it, can not see the real cut.

However, this situation has already spurred the spirit of mankind. No matter who is coming from, this is his own helper.

The beast god, the king of the beasts, is a bit surprised.

The great beast gods, the strength of the beast gods, they are naturally clear. Being crushed down like this, I can imagine how strong the people are.

“All live!”

Shen Lang screamed and screamed, and spread out with a strong sound wave, all aimed at all the beasts.

At the same time, he also stepped on the head of the giant eagle directly, so that the gods and soldiers fell in the general way, they shocked them.

Although these fierce beasts did not immediately surrender, they no doubt temporarily paused.

“Shen Lang!” Fan Xueyu immediately called the surprise.

“Mr. is back!”

Mo Feiliu and Xu Haoyue are also a little excited.

Bai Hao did not say anything, but also stared at Shen Lang, seems to want to see if he was injured.

Originally, the following situation, although evenly matched, is actually surrounded by human beings who are surrounded by beasts.

In addition to a few of them, there are a few ancestors who came in together before. When they saw Shen Lang, although they were not so excited, they felt a bit of a breath, and a new force came. smaller.

At this moment, Shen Lang is still in the field of control and lightning strikes.

The lightning strikes at this time have a little more light and special effects, which makes him look more attractive.

But he is not actually idle...

Crushed from above, and when he stepped on the eagle's head, the giant eagle was already in a coma.

The sinking waves at the moment are the cover of lightning, and the spirit of the giant eagle is quickly extracted.

But if you want to read its memory, you find it is not available. It seems that it is a blank, and there is no memory to give him.

Since I saw Fan Xueyu and others, I can communicate directly, and Shen Lang has not tangled its memory.

“All give me back!”

Shen Lang received lightning and continued to say one.

This time it is still ordered for all the beasts.

But this time, the effect is counterproductive!

Just those fierce beasts were shocked, and they stopped the attack. Now they woke up and did not fear. They immediately continued to attack!

They are not afraid of death, and they are threatened by the giant eagle.

But for the strength of the enemy, still have some understanding. The human beings trapped in the front are obviously better to deal with, and the human being who landed outside the encirclement is a hard bone.

Therefore, their continued attacks are also wise.

Fan Xueyu and others, of course, also quickly got up to the spirit and continued to face the attacks of these beasts.

As a result, the morale of the human race has risen sharply, and the effect has been significantly improved.

However, Shen Lang feels a bit uncomfortable.

He just ordered the drink and fainted the giant eagle, that is, to give them a squad, to push them back, so there is no need to make a big move.

But now these beasts, that is not a face to give him!

Just pulled the wind out of the show, but the result is forced to fail, how can this be cool?

In this moment, Shen Lang suddenly disappeared!

However, his disappearance is only a few tenths of a second, and not to mention that everyone is concentrating on the battle, even if he is staring at him, he just feels that his body has moved.

But as Shen Lang appeared again, the Emperor's behemoth also came out!

“Take them all!”

With the slamming of the waves, the gods and behemoths that are quickly recovering from the body are making a roar!

It becomes huge, it does not need to run, and directly open mouth and suck, it is the bully of the king who is swallowed by him!

These fierce beasts, for Shen Lang, even if they are afraid, still do not fear death.

But after the Emperor's behemoth came out, let them all chill, and a roar made them tremble.

At this moment, facing the crazy devouring of the dog god, basically the king's beasts have no chance to escape, and there is no courage.

The dog **** has been squatting in the space of the heavenly book. The strength is getting stronger and stronger, but there are few opportunities for shooting. Now letting it out, it is simply putting a tiger into the small sheep group...

It was just a swift sweep of a huge mouth at the moment, and the beasts were swallowed up in bulk. Not a moment, it is already dying.

The reaction came over, and there was courage and strength to escape is also the few beasts.

The beasts of the beasts were originally the main force of the siege, the mainstay that formed this encirclement, and the latter was the king of the masses.

Now it is very regrettable, because the squeezing of the beasts behind them makes it difficult for them to escape.

For the raging gods and behemoths, everyone is also terrified. It is only that they are summoned by Shen Lang, and they barely ran, but they still maintained their external vigilance.

Shen Lang volleyed and stepped into their warning circle.

“Don’t worry, this is my friend, it will get everything done.”

When you heard the waves, everyone was relieved.

Xu Yuyue and Mo Feiliu have never seen it, and Bai Yu is seen and awe.

Fan Xueyu is not the same, immediately excited to say hello: “The Emperor! For a long time no see! It seems that you not only recovered, but even more powerful than before!”

Chapter 1936 - Layer relationship

Although the dog ***** has been in the space for a long time, it has been a long time, but after all, it knows that there are not many human beings, and it is all around Shenlang. It is an impression of the white pheasant. For the partner of Shangming Mingshan, Fan Xueyu I am more impressed.

Moreover, for Fan Xueyu, it is more than a month’s “long time no see”, it is nearly ten years for it, unlike Shen Lang is seen across the interval, it is really “long time no see.”

Originally, it was not a good impression on Fan Xueyu. Later, on the top of Guangming Mountain, everyone faced life and death together, and the feeling was different.

At the moment, it is “big mouth to eat the Quartet”, innocent to respond to her, but for the greetings of Van Gogh, he still made his own response.

Over there, when it swallowed the beast quickly, it spit out the head of a ***** king’s beast and flew directly to the front of Fan Xueyu.

Look at this, I want to let her enjoy!

Fan Xueyu could not help but smash up. She can also guess that for the behemoth, it is an excellent statement to be able to give the prey to you. It is far more sincere than the enthusiasm of human beings.

However, she is a statue of Yaochi Fairy, which is the image of a smokeless dew that does not eat human fireworks. How can she eat a ***** beast?

“The Emperor! You are welcome, or you can eat it yourself, I will not need it.”

She smiled and waved her hand, letting the beast head fly back.

The Emperor’s behemoth also responded to her. There were not so many guest sets, and the head was still sucked up, and in such a moment, it had already swallowed a batch of king beasts.

The Fan Xue of Yao Chi, and the behemoth summoned by Shen Lang also know!

This is not only a surprise to the other ancestors, but also Mo Feiliu and Xu Haoyue. It is also a bit of a surprise.

“What happened? How did you come here? Snow Palm Gate and Gao Laozu?”

Shen Lang asked his question.

This question is both to ask snow and snow, and also to include them.

Mo Feiliu immediately turned around and said that he would answer.

“Sir, after you leave, we...”

After Shen Lang left, the cold autumn and snow are not snow, but still help them recover as much as possible.

But after all, the injuries are very heavy. Even with their help, there is a lot of water supply, just to make their situation better and faster.

It is impossible to get a few of them to recover as fast as the waves.

They could have spent a little more time, and they could recover more and not delay.

But the earth on the first floor is not calm!

The result is a lot of white bones!

There are snow and snow and cold autumn, they don't need them to do it, those white bones are completely close, they are all crushed by them, and finally the ground is covered with white bones.

Until the end, all the white skeletons were eliminated.

Then there was a tornado in the middle.

The cold autumn and the snow are all daring, so they are carefully guarded, and then they are ready to sneak into the tornado.

Of course, they also stopped healing and looked around.

As a result, the tornado disappeared and nothing happened. Their two figures were gone!

The Shenlang is not there, the cold autumn and the snow are not seen again, and the main heart is lost.

However, Xu Haoyue has lived for hundreds of years in the old monster. Mo Feiliu is also the master who has been doing for a long time. He still has the opinion and immediately comforts the two sisters, saying that they will definitely return soon. Everyone is waiting for peace of mind.

As a result, a passage appeared in the tornado around them!

Snow and high school people disappeared in this place, and then there was a passage.

Not to mention a few of them, it is the white cockroaches who don't know much about snow and high school. They also think that they should be the two masters and open such a channel.

They immediately suggested that everyone go down with the snow and the high school.

White Scorpion is going to wait for Shen Lang to come back there.

But they all think that this is too dangerous, that is, they stay together, and if they reproduce a wave of white bones, they may not be able to deal with it.

The best way is to meet with snow and high school.

Shen Lang went up, I don't know when it will come down. But I can't find them here. I see a passage here and I should know it.

Besides, they came together to meet the snow and the high school. If there is no problem, they should be able to come back here along this channel.

After such an analysis, the concerns of Fan Xueyu and Bai Yu were also eliminated, and they all agreed to go along with them first.

After the results, they did not see the snow and the cold autumn, but instead saw several ancestors here, they were attacked by the beasts!

It is simply not allowed to leave and leave, and it is too late to return. They can only passively join.

The original ancestors were out of disadvantage and supported. After a few of them, everyone was injured and they were all restricted. However, the number was a little more, and it still maintained a rough match.

Of course, this is also because the giant eagle is still observing in the dark. If it starts in the first place, it may be another situation.

After listening to the report of Mo Feiliu, Shen Lang understood that the layer on which they were originally located was the one above.

It is no wonder that at that time, he felt familiar, but only a lot of white bones in the line of sight, misleading him. Plus no one, the channel appeared, he did not check other places, went straight.

If you check it all over, you will confirm that it is the layer he left.

It's just why I went up one level, but I have to go down two layers, and he can't understand it.

It is not clear where snow and snow are going.

He also encountered a tornado, but at that time it was a wait-and-see change. He waited until the tornado disappeared and saw the "Essence of Heaven and Earth" before he took it. The number of roads behind it was the same.

The combination of the two looks It should be the tornado estimated to have the effect of transmission!

The cold autumn and the snow are not strong, and I feel that even if there is something dangerous inside, I can safely come out. It should also be guessed that there must be gains, so I went in.

The essence of the heavens and the earth on the first floor, they may have won, but they don't know what was sent out, or which other layer.

Before the tiankeng, Shen Lang was at the core of his status. Now he is coming strong, and summons the fierce behemoth. The other ancestors certainly have no dissatisfaction.

Listening to Mo Feiliu's report, they are also sure to listen to them and learn a little bit by the way. They also supplemented their experiences, but it is no surprise that they were injured here, and then waited for the attack of the beast.

In the moment of speaking, the dog ***** has swallowed up all the king's beasts, and the few beasts who escaped are also caught up to eat!

Chapter 1937 - Fair and divided

Shen Lang is very familiar with the dog god, knowing that this wave has already eaten very well.

Then he said to the ancestors: "Go and pick up the flying beast!"

"Yes!"

The ancestors were also eye-catching and supported them to work. They should have something to say to Fan Xueyu and others, and they immediately passed.

The dog ***** came back and had shrunk into a dog's appearance, and then interacted with Van Gogh, and it was a chilly guest.

Shen Lang quickly brought it back to the space of Tianshu, letting it slowly consume it.

For the outside world, he also moved a little.

No one knows what happened, and he feels that he just sent the summoned beast back.

It's Van Gogh, it's just a little regrettable, and I didn't ask much.

Fan Xueyu is because he is not familiar with other people. Several people who pass, Mo Feiliu and Xu Haoyue are old men. Although Bai Hao is now also a young beauty, she also knows her true identity.

Besides, she has a special feeling for Shen Lang. Such a fox is followed by Shen Lang. Instinct is exclusive, and there will be no deep interaction.

Therefore, when her master was absent, in addition to Shen Lang, she saw that the Emperor and the Great Beast felt cordial.

“Do not worry. I have nothing to come back. Snow masters and high ancestors will definitely not have anything to do.”

The dog **** was sent away, and the others ordered to pick up the giant eagle. The four of them were still beside Shen Lang.

At the moment, Shen Lang was comforting them with a sentence, and immediately assigned a few spiritual bubbles to them quickly!

This is the spiritual strength of the ancestors, and the spiritual power of the beast **** eagle, in fact, can fully achieve the effect of faith.

Shenlang is made into a spiritual bubble, just because it is more convenient and faster, and they absorb it faster.

The relationship is also like the relationship between ordinary and concentrated.

Now these spiritual bubbles are directly instilled in the past, so that the four of them immediately absorbed it. It is not a simple spirit, but a lot of complements.

After the ancestors were heavily wounded, there were a few strengths left, but now they are just a few of them, except for the white pelicans.

These mental powers have been transferred, and basically they have been filled with all but the white cockroaches!

Spiritual strength and vitality, that is two sides, can complement each other.

It is the same for ordinary people. When the mental state is good, people are healthier and healthier. The mental state is also better.

A few of their previous restorations were mainly replenishment. Snow is not snow and cold autumn is also injured, you need to save strength, can not instill much.

Whether it is self-care, or absorbing water, it is mainly in terms of vitality, and it takes more time.

Now the help of Shen Lang has directly restored their mental strength, and they can recover their strengths with one heart and one mind.

To make an extensive analogy, suppose that they originally had only 20% of the strength. After absorbing the information, the vitality will be restored to 60%, but the mental strength is still 20%, and the comprehensive strength may only be restored to 40%.

Now it is equal to the mental strength directly complemented the 10%, the vitality of 60%, the comprehensive strength may even be restored to eight.

In this state, even if their combat power is not as good as the peak state, but the self-protection ability has already existed, it will not be too dragged.

Moreover, the mental strength is full, and in terms of self-healing and restoring vitality, there will be a great help bonus, and the speed will be faster than before.

Although the ancestors were sent to pick up the beast gods, they were too embarrassed to stare at this side, but still erect their ears and pretend to be unintentional.

Shen Lang suddenly gave them a lot of spiritual strength, let them a few ancestors, envious of it!

That white and not to say, it is said to be the maid of Shen Lang, it will certainly take care of.

Fan Xueyu did not say anything, and did not say that it was the pride of Yaochi, and he was also a beautiful woman of his age.

However, the two of the Qiu Lin Jianzong also received the unbiased care of Shen Lang, which is not enviable?

Looking back, the two of them were respectful when they saw Shen Lang.

I knew so early...

However, they regret to regret that this thigh is not just want to hug and can hold it, Qiu Lin Jianzong is still because of the cold autumn.

In addition to envying them a few, of course, more envious of Shen Lang.

So many spiritual bubbles, just come out to help others, showing how rich his own collection!

He is a young man, no matter how genius, there is no possibility of so many collections, only to show that there is a powerful force behind it!

They came here to explore and did not dare to carry too many items, so as not to go back, so that the division family was more affected.

Shen Lang seems to come with a lot of things. On the one hand, he can see that the power behind him is strong. On the other hand, he can see the strength of his support. It is a must-have for him to go back safely. It is.

Honestly, thinking of Shen Lang is equal to a lot of resources, and they are also moving.

But there are no such people as Tong Xian Weng and Zhi Yi to confuse, this snack is only envious and regret.

Because taboos are bigger!

A person who can really pay attention to snow and snow, and the cold and cold autumn; a person who has nothing to do with the high-cold autumn and their peers will be irritating?

Therefore, while they envy, they dare not arbitrarily sway, or they smash the giant eagle.

“Shen... sir, it is already done.”

They don't know how to call Shen Lang, and the name is seemingly unfamiliar. Calling Shen Brothers, at least there is a related leader of Helan's ancestors.

So this time, I followed Mo Feiliu, Xu Haoyue, and called him Mr.

Shen Lang nodded and looked at everything in the giant eagle. He just took the inner dan and the marrow, and the others let them separate.

He was a bit regretful at this time, and he should have let the dog ***** leave the inner beasts of the beasts.

Now let the dog ***** eat it, it is panic, others are not enough.

It's time to let the dog ***** spit it out, but it can do it, but he doesn't want to bother.

Slightly thought about it, Shen Lang immediately used Liu Yejian to divide Nedan into four parts, and the marrow liquid was divided into four parts, so that they all ate although divided into several points, The effect is weaker, not as good as one.

But fair.

In terms of friendship, the first thing is Xu Haoyue. Xu Haoyue was the younger brother of the younger brother in the past. When the world was weak, he took care of the Shenlang.

And Mo Feiliu is the close disciple of Gao Hanqiu, and can't ignore it.

Fan Xueyu was a partner who had fought in the Guangming Mountain before, and he also helped him in Yaochi.

The day is the weakest link, but it has a bright and straight identity. This way comes back from the great wilderness, and she also tries to serve as much as possible.

All, everything is equally divided, not thick.

As for the other things, although they are quite valuable, they are not effective enough to give others benefits.

Chapter 1938 - In the middle of it

Other ancestors, of course, also know that Shen Lang took the best of the first.

But they also have no complaints.

It was just that Shen Lang had helped them to get rid of it. The strongest giant eagle beast was also shot down by Shen Lang, and they helped me to pick it up.

Even at the beginning, they thought they were only trying to make them work. Now they can get a piece of it, and it's better than nothing.

"Everyone, I have combined my own experience and I have just flown about the experience of Gao Laozu. There will be a tornado soon!"

"Of course, it may not be a tornado, but other visions."

"How is the situation in this vision? I haven't entered it yet. I don't know. Snow Palm Gate and Gao Laozu went in, and they were sent to other places. I don't know how to come back."

“After that, there will be a passage here. The passage to the next level!”

“What is the next level? I don’t know for the time being. It is estimated that there may be dangers like this. There are also passages that can go up. It is where they come. The danger has been lifted.”

“Going to the next level, I also went there, the danger is also lifted, and there are several ancestors on it.”

Shen Lang quickly told them about the situation here.

Just now all the beasts have been wiped out, and the customs clearance rewards here may appear at any time.

“I decided to take a look at the tornado and see if I can find them. As for everyone, I suggest waiting here, try to recover from the injury, or go up and see. It is safer than the unknown below.”

Just saying, the situation has appeared!

This time it was not a tornado, but a sigh of relief.

There is a faint mist around, and it is not clear until a few hundred meters away, but it is clearly visible nearby.

But this arrogance is thick, and I can’t see the situation inside.

Just like above, Shen Lang just makes an arrangement and does not need what they allow.

Now he also wants to see where it will be sent, time is too late, and nothing can make them feel at ease.

Shen Lang directly joined in!

Both Bai Yu and Fan Xueyu opened their mouths.

They all want to go with them, and now they have recovered a little more, but think about the situation inside is unknown, maybe after entering, it is still dragging the legs.

So I didn't say it, and I didn't follow the advice.

"We listen to Mr.'s advice and take a rest."

After Xu Haoyue finished, he immediately took the inner and the marrow.

He is the oldest, second only to the cold autumn, the real old bones can't stand the toss, so there is no politeness at all.

The three of them are also decisively followed.

Imagine that in this special environment, even if the 100% peak state is restored, it may not be able to help the Shenlang. How much is it to be in the state of injury?

Several other ancestors also immediately said that they would stay together here.

They have nowhere to go!

They also need to recover as much as possible.

Followed by Fan Xueyu and Mo Fei, they have a hope, even if Shen Lang will not come back to save them, Xue Feixue and Gao Hanqiu will not give up.

Shen Lang devoted himself to this ambiguous atmosphere, and immediately maintained a high degree of alert. For the surrounding, it was heavily defended.

He is sometimes very bold, but boldly, he is also cautious.

I have seen the tornado and the arrogance before, and I have not taken risks.

This time I heard that Xue Feixue and Gao Hanqiu both went in and dared to take the risk.

They may know more information, even if they don't know, with their experience and strength, dare to go in, it is also a trade-off, so it is safer than the unknown.

But what is the specific situation, is it really sent away, or you have to come in to know.

When it appears inside, Shen Lang immediately has another feeling of looking outside!

nourish!

Yes, there is a feeling of nourishment when you come in!

This feeling is indescribable, as if a lot of aura is pouring around. With his current realm, he can feel the nourishment, and the degree is high, even surpassing the absorption of essence!

However, Shen Lang did not indulge in it, and did not let go of the defense to absorb.

Because according to the experience of the above two layers, this process will not last long, even if the nourishing effect is good, after all, it is limited.

On the contrary, after this nourishment, there will be dangers to follow, which is more important!

In addition, after the tornado and the smoldering gas dissipated, the spirit of the heavens and the earth emerged immediately. Where is this thing now?

According to the truth, it should still be in this group. Is it still not there?

Shen Lang wants to see the situation around him, but he can't see it clearly. He can't feel it if he wants to feel it.

Mo Feiliu has only one experience, and in a hurry, there is limited understanding, and some situations may be ignored.

For example, the spirits of the essence of heaven and earth may slip away before they have reacted.

Therefore, in the end, the upper layer was absorbed by the cold autumn, snow and snow, or after they were sent away, the spirits appeared and ran away. It is still unknown.

Now Shen Lang wants to catch the surroundings once and can't let the spirits run.

But nothing at all.

The feeling here is a bit like chaotic space, but it has not yet reached that level, but it is impossible to determine the existence of other surroundings.

After the harvest has no fruit, the feeling of Shen Lang began to clearer and farther.

Then he found that the suffocating gas around him had disappeared, and the others were no longer around, and the whole person had already reached another place.

This made him a little regretful. Although it proved a bit, Gao Hanqiu and Xuefei Snow were sent to other places, but they missed the essence of the world that should have been won!

Although he still does not know the value of the essence of this world, he still feels a pity.

However, since this is already the case, then there is no point in thinking about it. The key is to continue to move safely forward safely return!

Shen Lang immediately put away his mind and no longer wanted to think about the relationship between qi, tornado and the essence of heaven and earth.

It is now necessary to face the situation at hand with full spirit.

Looking at it, there is still a faint fog, still only a few hundred meters, can only sense a few hundred meters.

And the place where he stood seemed to be in a mountain, seen in front, and uphill.

It looks like it is transferred to another layer.

And time has passed a lot. This layer is also reasonable. Some people may have landed. If there is any change here, it should have already happened. Channels and the like should also appear.

He couldn't be sure where he was, just in the middle of the road. He could only go to the hillside and search for it.

As a result, in the past, the hillside, but found that the higher the higher, he simply went straight to the heights to see what it would be like.

Chapter 1939 - See also Yungong

According to previous experience, the height of one floor is about a kilometer.

Then the mountain is no higher than the height of the mountain, so it will directly rise to the upper level.

However, as Shen Lang went forward, he found that the back was getting steeper and he had already exceeded the kilometer from the place where he appeared!

It seems that this situation is a bit different...

Speed up a bit and see if it will have no end.

About the end of about two kilometers, I saw the end!

At the end is the peak of the mountain, and at the top of the mountain, there is a palace-like building.

The environment in this place is so weird. It can be as long as ten miles, I don't know how thick the wall is, and there will be palace buildings. It's not a surprise.

To his surprise, the building is now familiar with visual inspection!

Familiarity is not because I have been there before, but I have seen it not long ago.

The general building of this palace is the image they see in the meditation!

Come again?

At that time, a group of people saw this kind of building, and then stepped closer to the past. Finally, at a distance of about 30 meters, they were all swept, then lost consciousness, and were hurt by a huge impact.

Including Shen Lang, including the cold autumn, were injured.

After waking up, the environment is surrounded by huge walls of up to ten miles and up to two miles. It will not be what I saw before. In the range of a few hundred meters, I can't see such a huge building.

Now, Shen Lang is a few hundred meters away and saw the shadow of the building.

Mirage effect?

What I saw before in the meditation area is just a realistic projection? The distance is only the distance they feel about themselves, and when it is about 30 meters, what is the relief?

What about this now?

Is this the true cloud palace holy place?

Still, this is also a phantom of a mirage?

After an experience, when Shen Lang went up the last paragraph, he maintained a high degree of alert.

Think about it before everyone is also highly alert, including the strong existence of the high cold autumn, have not been able to find a little ahead of time, it can be seen that the support is strong.

So after thinking about it, before there was no more and better way, Shen Lang decided to use the most stupid “stone to ask for directions”!

He picked up a few stones from the ground and then manipulated them, flying from high to low, from far to near, and flew forward.

In this case, at least the road ahead of him can be explored.

Whether it is partial or a whole piece.

But even then, there is still a worry, that is, the stones are dead!

If the guards are completely aimed at living things, then there may be no changes in these stones in the past, and people can only have accidents in the past.

At this time, there are two plans. One is to see if there is any living in the tower, and grab it and let it go to test.

The other one is to let the dog **** vomit and see if there are any living beasts that can be used for experiments.

But thinking about it is too much trouble, Shen Lang is still using stone to explore the road.

Only a few hundred meters away, even if it goes a little slower, it won't take long.

When entering the last hundred meters, Shen Lang could not help but control the stones a little forward, and then opened a little more with their own distance.

Going forward, the stone has not changed, it has not been transmitted, and nothing has been touched.

The building in front of the palace is more and more clear and very realistic, as if it is in front and at your fingertips.

When the front stone was about 30 meters away, the Shen Lang stopped and directly steered the stone and flew forward!

In a moment, both the eyes and the gods came back, and the stone flew like this and did not disappear.

Shen Lang paused for a moment, seeing that there is still no change, and then slowly go forward a little.

Then the second block, the third block...the stones passed the line, and nothing happened.

But when he was about to reach the 30-meter line, he still stopped. This time, he directly smashed all the stones in front of him into the front!

Then there was the sound of “砰砰砰” , and all the stones touched the walls of the palace!

Shen Lang will be more careful to try again and again, because the distance of about 30 meters before, but only one experience, not necessarily equal to the rules, perhaps here is 20 meters, 10 meters.

But now I watched all the stones touch the front wall, and it really landed.

He is truly relieved.

It seems that this time it is really going to the Yungong Holy Land.

The big environment encountered from the beginning is the scope of the Yungong Holy Land, and this building is the “Cloud Palace” of the Holy Land!

Think of it, Shen Lang feels very well understood.

This is surrounded by a faint mist. Now it's in the mountains. I can't see the ground at all. I can't see anything up. Isn't this palace like a cloud?

The whole environment, such a strange and magical, can say that the holy land, the place of ghosts can be.

But even so, he still maintains a high degree of alert.

However, in the last 30 meters, Shen Lang chose to rush over!

Because he considered a question, if you reach out to test, or step by step, if you cut a leg or a hand directly?

There is no way to grow up like that!

It is better to be hurt even if it is impacted.

However, the result soon appeared. Thirty meters later, it passed, and it was directly under the wall of the palace.

Shen Lang stretched out his palm and touched the wall.

Just the stone has already hit, and now the palm touches it, it is more real, confirming that this is the real wall, and he is relieved.

What needs to be clarified now is how to enter this palace!

From the point of view of his current moment, I don't know if it should be the side or the back. Only the wall, no seeing the door and the like.

However, it has already arrived here, and Shen Lang is also very calm, and God has sensed it and can't sense the other side. It looks like it's on the back, and the front door is on the other side.

It's already here, and it's not a short while. He didn't speed up, but slowly walked along the wall, carefully observing the wall and the appearance of the entire palace along the way.

It can be sensed as a whole. This is a large palace that has exceeded the sensing range of a few hundred meters, and it is because it does not touch the other side.

This building is protective and does not sense anything in the palace.

After walking along the corner and bypassing the other side, I finally came to the other side.

When it is not near, it can already be sensed. The front of the palace is an empty square, and then it is a cliff.

Chapter 1940 - Woman with long wings

After Shen Lang came to the front, looking at the square, he could not help but fall into thought.

This cloud palace holy land, as it is said that no one has been here for thousands of years, even if these buildings can remain exactly the same, without any corruption. But isn't the square so clean?

It looks neat and clean, not like the accumulation of thousands of years of dust.

Is there anyone living in this palace? Is someone cleaning it regularly?

Looking at the gates of the palace, it is now open, and I don't see any institutional traps. The situation inside is also unclear. Only the place where the gaze sees is far from being sensed.

If the tornado was sent to this place before, then the cold autumn, the snow is not snow, they should follow it.

They are going first, but time will not last long. I haven't seen the figure at this time, should it be advanced?

Shen Lang slowly walked to the door and looked at the palace. Hesitated, and there was nothing.

“You are too cautious about this person? I see you for a long time!”

A voice suddenly passed over, so that Shen Lang could not help but be surprised, he just did not notice it at all!

When I looked again, I found an alien woman behind him, and there was a pair of wings behind him!

“you.....”

Shen Lang did not know what to ask.

The people they came over, except for him and Fan Xuexue, Bai Yu, and other ancestors of a level, even if it is not the realm of the gods, it is also the age of the big fairy.

Why didn't she have such a long-winged woman not found in the ranks.

If it wasn't with them, where did the long-winged woman come from? Who is it?

“It seems not to be cautious, but a nerd...” The woman said to herself.

Then she did not pay attention to the sinking waves, flashed directly from him, and went to the palace inside.

Even if there is no communication, Shen Lang has a lot of information in an instant.

This long-winged woman should not come with them.

The forbidden places are all together with the meditation domain, the meditation is still very mysterious, and perhaps connected to other worlds!

This time, the Yungong Holy Land, they came together, maybe in other worlds, there are historical deeds that have been to the Yungong Holy Land, and some people know the way to come here.

If this is the case, after the woman arrives here, she should not dare to break in casually. When she finds that the sun is coming, she wants to wait for him to go ahead and follow it.

As a result, he was dragged and pulled from the moment, very cautious, even if he got to the door, he did not go in.

This made her impatient.

She has wings, and there may be other different techniques, such as invisibility, so she was not found before.

Regardless of whether this inference is accurate or not, Shen Lang must follow.

Now the other side is in front, he is the one who takes advantage of it.

But it is obvious that the other party will certainly not be willing to take advantage of him. If you wait a little longer, you may not be able to keep up.

After Shen Lang followed in, he found that the woman had already folded her wings and was standing in front of her.

After Shen Lang entered, he immediately sensed the surrounding situation while maintaining vigilance.

Soon, he was also taken aback!

There is no faint fog in this palace, but don't say how far the sensor is, even the gods can't use it!

The woman's wings in front may not be her own, but she was suppressed here and could not be displayed.

"My name is Shen Lang. I don't know how the girl is called?"

Shen Lang went to the woman's side and looked at her in the eyes. She was not shocked by the suppression, but looked at a mural above.

The woman did not answer him and seemed to be immersed in it.

It can only be regarded as a porch that has just entered the gate of the palace. It is engraved with murals and there are many decorative buildings on the left and right.

The gaze of Shen Lang at the moment is also watching these murals.

Although the gods are suppressed, the eyes can still see a rough.

These murals seem to tell some mythological stories, quite a bit of a lifelike feeling.

But for the meaning to be expressed inside, Shen Lang can't see one reason before he knows the story of the story.

But one thing is obvious, that is, there are many races on top of these murals!

Among these murals, there are normal human races. In contrast, there are giants, dragons, and other orcs, including those with wings...

"What did you find?"

Shen Lang asked another question.

The other party still looked at the murals slyly and did not respond to him.

This made him frown and began to realize that no matter what her winged race was, it was deliberately pretended, and the purpose was to make him wait for the front!

He was just out of caution, not afraid to come in, nor did he have to follow others.

So this time I will go straight ahead.

But when I stepped up, I thought of a possibility.

Will this mural have a thrilling ability?

The woman's eyes are completely sluggish at the moment, and it seems to be immersed in it. It is already somewhat in line with this situation. In fact, it is involved in a spiritual world.

If you are trapped in it, it will basically be abolished. It is not known what the outside world is.

If there are other ancestors, no matter which one, Shen Lang will leave with him, and will not stop.

But now I have only met this person. In this strange place, I still want to have more than one partner. Even if I can't help, I don't necessarily help each other.

So he reached out and patted the woman's shoulder.

Originally, she wanted to inject a little spiritual power into her and stimulate her to get familiar with it.

However, at the time of the move, Shen Lang could not help but secretly smile, and found that not only the gods could not be explored, but also the mental power could not be displayed!

Then he went further and secretly, and found that the spirit is also the feeling of sinking into the sea!

That is to say, after coming in from the gate, it is not as simple as suppression, but as an ordinary person!

Shen Lang has the strength of the Great Realm in the realm of Daxian Peak This is the source of his confidence.

But now, I feel that I have become an ordinary person, and I can't help but panic.

He couldn't help but look back at the back door.

Instinct wants to quit!

Because this feeling is very powerless, very panic, if the light has no power here, it is normal to go out, it will be gone, if it comes in, it will be abolished, and then go out and still abolish the state?

He couldn't help but want to go out and ask for proof.

But at the moment, there is another desire to stop, and I am eager to continue!

When you enter the door, you can suppress people to the mortal level. Is it normal? There must be a huge adventure like never before!
