

First Strong 1941

Chapter 1941 - Ling Xi Shen Guo?

Shen Lang's heart is shocking at the moment.

Shocked because of his lucidity!

Sober, let him want to go out and ask for proof, wait and see, whether you want to come back again.

But his consciousness is deep, but he is extremely eager to continue deeper!

Even he knows that it may be dangerous, and those who obviously want to quit are still unable to resist the kind of desire to continue deep.

For the average person, it is estimated that there is no more resistance, and I just want to go in with my heart.

At this time, the woman moved!

She was originally sluggish and looked at the mural above. She just took a look at her. Although she found that she could not use her energy, it seemed that the physical movement of her was still alarming.

“You... this is...”

Her eyes were watching the waves, and she did not say anything. It should be that the body was feeling abnormal.

Her wings, I don't know if it's a state of transformation, or it's the same. Now it's suppressed like a mortal, and I don't see the wings.

“There is something weird here.”

Shen Lang responded faintly, and his eyes have already looked inside.

Since the inner desire is so fierce, the main consciousness is difficult to confront, and he simply goes with the flow, just letting himself keep a point of sobriety.

And when there is still this point sober, there are many instructions for the holy armor.

Now he does not know what will happen, these instructions are also a prevention.

Just like when you are still asleep, set up a few alarm clocks for yourself, no matter what you need. In case you get to sleep, there is always an alarm clock that you can use.

After doing this preparation, Shen Lang slowly moved forward.

This is going deep in the heart of the desire, this is the mood deeply affected by the environment, so this forward is very harmonious, there is no resistance.

After a while, the woman should have returned to God and learned about it.

She is naturally the same feeling as Shen Lang. After having a lead, she is also naturally going forward.

Soon, Shen Lang and the woman who followed him had already passed the porch and walked into the wall.

Shen Lang looked back. Above the porch, it was the wall of the palace. There was no guardian and no difference.

And looking at the entrance porch, I can still see the gate, but it seems to have become very far away, even he can not understand what it feels like.

Shen Lang Meng was shocked!

Just come in such a little distance, even forget where I came from, forget to come to the road, then go for a while, don't you even remember who you are?

He immediately gave him a stinging sensation. This is a stinging pain directly against the nerves. From the level of the body, keep yourself awake.

Stinging is easy to do, but it is up to him to rely on his own will to connect tingling and waking, and to remember.

“What is this place.....”

The woman who followed him also looked back and looked at the front again, muttering in his mouth.

Seeing her look is also beginning to get lost.

Shen Lang took a sigh of relief and hit it directly on her face!

For a strange beauty, just meet for a while, the name is still unknown, give a slap in the face!

This pair of Shen Lang is also the first experience in life.

However, this time the situation is special, he has no better way, and can not care about the gentleman style, directly using the most effective one.

After a sudden slap in the face, the woman was awakened a lot.

“Let's go! Do you dare to hit me?”

Her eyes are full of incredible, even more than anger.

“It's going to get lost! I can only stimulate with pain and keep you awake.”

Fortunately, the woman was incredibly incredible, and she was not stunned by anger, so the quick sentence of Shen Lang still let her listen.

She has just realized it, and guessed a general, but it was lost again.

Then she also reacted quickly.

When I was in the porch, Shen Lang seemed to pat her, and she woke up. Now I need to slap a slap.

It seems that this disappointing degree will only deepen as you enter!

“Thank you! Please continue to hit me!”

“...”

She was decisive and immediately authorized Shen Lang to continue to use her to stimulate her.

It's just that Shen Lang listens to a beautiful girl and asks to continue to beat her. It's always a little weird.

“go!”

There is no nonsense in Shen Lang. The woman can't stay awake for a long time. He himself may not be able to keep up for a long time.

After that, he began to run inside.

The woman was also decisive and immediately followed.

“My name is Carlo, from the spiritual kingdom. If I am lost, I still want to remind me. What about you?”

“My name is Shen Lang.”

Shen Lang re-telled, but only said the name.

When she heard her simple self-introduction, Shen Lang was very puzzled.

Ling Xi Shen Guo?

Is she from the spiritual kingdom?

For this world, the territory he had previously learned, everyone claimed to be the most prosperous central city in the Kingdom of China, Tangcheng, and a big town like Tiandu.

Later, the territory was learned to be larger, such as the distant mountains, such as the world on the other side of Zhoushan.

The scope of this time is even greater, such as Guangming Mountain, Yaochi, Kunlun Mountain, Caohai, etc., which are no longer in the traditional Chinese territory.

Not to mention the great wilderness.

In short, except for the Han Kingdom, there is no other way of dividing the country. The Han Kingdom is also loose and does not have an administrative body or the like.

Therefore, Shen Lang once suspected that the Han Dynasty was founded by the Chinese people in the world, or a general term for the scope of their activities.

Those are not important. The key point is that now is the memory information of all aspects. Shen Lang has no clue about this spiritual **** country. He is searching for it quickly, confirming I have never heard of it, no matter the lowest level of Yuxianmen, or the level of the elk, I have never heard of it.

Ling Xi Shen Guo...

Could this be from the other side of Zhoushan?

This is possible, because it was already verified in Tiandu, and there is a long-term embarrassment for this side.

Extending to thousands of years, there are more possibilities.

Besides, there are no traces of the Cloud Palace Holy Land for thousands of years. Maybe it is not on the other side of Zhoushan.

And now it is coming from the meditation domain, and it can no longer be measured by the territory of the conventional world. There may be places on the other side that lead to the meditation.

“Good.” Carol didn’t ask much. She simply promised that she would remember this message. When necessary, she would also remind Shen Lang.

Chapter 1942 - 10 times distance

Going forward is an open space, the yard is good, the square is worth mentioning, the scope is still very large, looking from the front, directly can not see the two sides, as if it is a ring.

Shen Lang and this Carlo, squatting at this moment, have not lost, speeding up, without a moment of stay, rushed directly to the front of the building.

Just came in can only be regarded as the gate of the palace of the palace, now this is the main entrance.

Because it is suppressed like a mortal, it runs fast, which is the speed of normal people.

However, this distance does not look too big, and it is not a distance of 100 meters.

Normally, even if it is the speed of ordinary people, running for a dozen or twenty seconds has arrived.

However, after running for a while, Shen Lang began to feel wrong!

Looking forward, it seems that there is still half the distance, about 50 meters, it seems to pass in a few seconds, and looking back, it is also about half the distance, about 50 meters.

But obviously keep running, but the distance has not changed!

I feel like they are running on the treadmill, how the acceleration, the position of the person will not advance much.

Illusion!

This should be a magical array that seems to be moving forward, but it is probably around the circle.

Shen Lang immediately became alert, and he was very clear about this situation.

Not to say anything else, just the real magical illusion created by that magic pen, let the “salvation slaves” think that they ran out for thousands of miles under the ground.

He immediately thought of the green hillstone.

The magic pen can create a magical array, but now that you are in the magical array of others, if you want to see through it, the greenstone should be a great help.

But just after the thought, he secretly complained!

Now, here he has suppressed the mortal, the vitality and the mental power can not be used, naturally it is impossible to take out the green pebbles from the storage bracelet.

In addition to secretly complaining, he even made the Holy Grate add a little more to his sting.

Must remain awake!

Because of this, it means that all his weapons and weapons are basically not used. In the face of danger, you can't use the Kunlun mirror of the Three Realms to send away!

Even... As the space for the self-protection of the bottom of his box, it may not go in!

This is a big problem.

“It's a bit wrong!”

Carol should also have her own way to keep herself awake.

Running to this moment, she also found an abnormality. Normal should have already ran to the door, not halfway.

And now it looks like it's hard to go back to the exit!

“Ok.”

Shen Lang simply promised.

The two sides have just met, but this time in the same environment, it has already forced a tacit understanding. If you don't need to make it clear, you can guess that the other party can also perceive it.

“How to do?”

“Continue to run!”

Carol was consulted about Shen Lang's opinion, but the result was that he continued to run.

This made her slightly subtle, a little doubtful about the decision of Shen Lang.

“listen to me!”

Shen Lang did not stop, a little gasping to say.

gasp!

This is because now it is like an ordinary mortal body, running fast, naturally will gasp.

Carol also began to gasp. She was very skeptical, but Shen Lang’s unquestionable words allowed her to run along.

After all, she is still confused about the situation and there is no better way.

Shen Lang is not a dead horse to live a horse doctor, but the goal is clear!

When he found that he couldn’t remove the greenstone from the storage space, he immediately thought of other consequences – all the magic weapons may not be used!

At this time, naturally there is no time to try one by one, but to find other ways.

Holy armor!

The holy armor will not be fascinated and will not be suppressed.

Therefore, it is still possible to maintain an absolute objective state. Through the inquiry of the Holy Grail, Shen Lang soon found the problem.

After coming in from the porch of the gate of the city wall, to the front palace door, it seems to be a ring of up to 100 meters, but in fact it has reached a length of kilometers!

Probably after they ran a few tens of meters, it looked like tens of meters in front and tens of meters in the back, but in fact there were more than 900 meters in front.

After throwing it for a while, I still feel that it is about 500 meters away from the place of about 50 meters.

It is very likely that you will feel shortened and close after waiting for 950 meters.

In this case, it is equal to the actual distance and the visual distance, which are ten or twenty times different, which naturally makes people suspect that there is a problem here.

Suddenly being crushed into a mortal, usually relying on the habit of things, can not be used, it is easy to make people panic.

It is not always possible to insist on running this kilometer, because it has already ran ten times the distance, no one knows whether it will repeat indefinitely, more likely to return, or another different route.

Plus it is easy to get lost, it will wander around in this huge courtyard square.

Now that Shen Lang has the support of the data of the Holy A, the heart has settled down and goes directly along this goal. More is to keep himself awake.

Carol is not clear, but there is no better way, and it can only be followed by the crazy wave.

When I rushed forward, Shen Lang is now also looking at the eyes and ears as much as possible, and using the Scout's reconnaissance.

Seen by the naked eye, it is always running at a distance of about 50 meters.

I waited until the one kilometer was over, and the distance began to become forty meters, thirty meters...

Carol has run out of confidence, although the absolute time is only a few minutes, but the front can not see the change of the target, plus the long-term habit of speed, I feel that running far and far.

Finally saw the distance shortened and ran to the front of the palace.

Both of them couldn't take a breather and went straight to the palace gate.

At this time, the ground suddenly opened!

A large piece of ground, like a pedal flip, at this moment only two people of ordinary people's level, under the control, are directly falling down!

Although Shen Lang can't use the spirit to take out the magic weapon like but still can control the holy armor, it is not the same way of operation.

With the reaction speed of the holy armor, it is also possible to fly away from the moment when the organ starts.

But now that Shen Lang is suppressed to the level of ordinary mortal, his reaction can't keep up!

The same keyboard and one input method, the master can play two or three hundred words in one minute, the average person may have two or three crosses, which is reflected in the operational response.

Before Shen Lang, he could manipulate the sacred armor as he pleased, but now it is suddenly suppressed strongly, and he has not adapted himself. At ordinary people's level, all aspects of the reaction are much worse.

So when I have to maneuver the sacred fly, it has been re-closed!

But even if it is slower, there is still a make-up!

Chapter 1943 - Bold speculation

The above has been closed, and it is impossible to fly up.

Of course, strictly speaking, it is not unmeasurable. It is just a direct blow with a gun.

However, at this time, the response of Shen Lang is still taking advantage of the trend.

It's falling here, I don't know how deep it is. If it is before, the strength of the realm of the Great God, like the space on the first floor, at least 500 meters thick, one kilometer space, jump down the channel, he has no pressure.

But now it is a mortal level, not to mention 1,500 meters, one hundred and fifty meters, it is 15 meters down, it is also possible to break the leg.

So he manipulated the sacred armor and then hugged the same falling Carol, and then let the body slow down.

So no matter how deep the bottom is, you can land calmly.

These manipulations, Shen Lang only need one idea, and can also perform other operations at the same time.

For example, the investigation of the surrounding environment.

After the above organs were closed, the light immediately dimmed, and the naked eye could not be seen clearly, but there was no problem with the holy armor. The weak light could also fill the light and respond to the waves.

Therefore, in the process of falling, Shen Lang passed the sacred armor and felt that they landed quickly, and then slanted down. Because of his control, the speed of the decline was slow. If it was an ordinary person, it should be swiftly going down.

The top is closed and the surrounding is the slide. So for the time being, you can only go down the river and see where the slides slip.

According to the record of the holy armor, it went straight down for nearly a kilometer, and the feet landed!

Combined with this cloud palace holy land is in the foothills, Shen Lang is estimated to be slipping into the interior of the mountain.

The place to slide down is already bright, so you can see everything directly.

The ground is flat, and you can see a lot of traces of smashing, which should be caused by people who slipped in front.

Now he is controlling the speed of the holy armor, so he calmly falls. In the normal state, it is a quick glide after a kilometer, and the inertia falls off.

Who else can I have before?

High cold autumn and snow are not snow, but also suppressed like a mortal?

“Where is this?” Carol was not injured, and stood up immediately.

She couldn’t see anything in the process of slipping down. Now I have to look at the surrounding terrain.

Shen Lang has the reconnaissance function of the Holy Grail, and naturally has taken her step by step.

Although it is flat, it is not the end. It is a passage in front. It can only see the end and can’t see the situation after the turning.

There is no light source in this channel, but it is brighter here.

“If you come here, let’s go, let’s go!”

Shen Lang said one sentence and went ahead.

Before running a sprint for a kilometer, people were gasping, but in the process of sliding down the kilometer, they also got a rest.

But now, he didn’t run, just walked forward.

Although Carol has just met Shen Lang, but the two people ran together and fell together, it is considered to be a common problem, and they have no ability. At this time, they still need mutual support.

And at the moment of the fall, Shen Lang reached out and hugged her in time, making the speed of the two people fall not so fast, which made her satisfied, and immediately followed the Shenlang.

“Have you found out that there seems to be no such feeling here?”

Shen Lang nodded.

The feeling that Carol said is a feeling of being lost.

Here, although still like a mortal, can not use the slightest strength and spiritual strength, but at least not let yourself be confused, do not forget who you are.

Shen Lang was originally stinging himself through the sacred armor, and he was still awake. Now he is also relaxed.

“You know the Kingdom of God... How much do you know about the information here?”

He asked you very welcome, but Carol was hesitating.

She took the initiative to say where she came from, but Shen Lang did not, except that she knew that he was called Shen Lang, she knew nothing.

Now listening to his words, isn't this obviously going to cover her information?

Carol is naturally tangled, because now that two people are on a boat, the other party knows more information and should also help them together.

However, now it is a temporary ally, and once it encounters benefits, it may become an enemy directly!

The other party does not actively share information, and she will not share it.

“We don’t know much. What about you?”

“Ha ha.”

Shen Lang was originally asked casually. If there is more information, it may be able to help.

Now that the other side asked, he understood that Carol thought he was talking.

Words are not speculative and more than half a sentence.

Shen Lang did not say anything more, but continued to move forward.

After the corner, the horizon is suddenly clear!

Going forward, there is a stadium-sized space, and there are already a lot of people in it!

Shen Lang immediately speeded up the past, and at the same time used the Holy Grail, immediately observe and analyze the situation before.

Carol is also following the waves.

How could this be?

Shen Lang secretly frowned.

Among the people in front, he saw the cold autumn, the snow and the snow, and other ancestors who came with him, but at least a small part of it was more people who did not know at all.

Some even can't be called by people.

In this field, in addition to humans, there are some creatures that look a bit like human figures. It can be called a monster, and it is a bit like an alien in a movie.

When Shen Lang frowned, she immediately observed the look of Carol, but she did not see anything at all.

When she saw Carol, did she not have wings?

Originally thought that this was a mysterious race, and later I knew that she was from a spiritual country, and even more speculated that it might come from the other side of Zhoushan.

But now I look at these strange people, suspected to be "aliens" in the movie, and Carol is not surprised, which makes Shen Lang have a bold guess!

Perhaps this "cloud palace holy land", not only this world not only not the other side of the world, perhaps more other worlds, other planets, can also come over!

Whether this time it meets its open cycle or is open everyday, these people are likely to be sent from different worlds to different planets.

The limitations of the world view, perhaps snow and snow and other great powers, even the cold autumn, are hard to imagine.

However, Shen Lang will not. The earth he lives in this world has already explored space, and there are all kinds of rich science fiction, science fiction movies, etc., which greatly broaden the world view and imagination.

Plus he has traveled to multiple worlds and is fully capable of accepting such possibilities.

With this idea in mind, he is calm. Convergence from different worlds will inevitably lead to conflicts between different civilizations.

And now, should everyone, have been suppressed by the rules here to the level of mortals?

Chapter 1944 - Alliance

The two of them came over and attracted everyone's attention. They all looked over.

There are so many people on the scene, but carefully divided, there are also several camps. Everyone should form a camp according to where they came from.

For example, the ancestors who came here this time came here, and they are naturally united at the moment.

The arrival of the cold autumn and snow and snow should also be a temporary leader.

When I saw the dark waves, the cold autumn and the snow were not bright, and the other ancestors were also refreshed.

No matter what, now one more person is more power.

And Shen Lang's side, there is another beauty that everyone has not seen, and it looks like a different beauty from everyone.

This makes everyone secretly sigh, it really is a young man! Wherever you go, you can get the favor of beautiful women, and there is also this mind to hook up.

"I saw our partners in the Kingdom of God."

Carol whispered a word with Shen Lang, then he stepped up and went to one of the camps, separated from Shen Lang.

Shen Lang still keeps moving slowly and slowly.

He has already observed a general at this moment. On the mainland of the mainland, the number is the largest. In addition to the three of them, there are many ancestors who have come over.

Maybe they are on the same level, they solved the crisis together, and then they entered together when the tornado and the suffocating gas appeared.

Of course, it may be that two or three groups are coming, and it is possible to disperse.

In terms of the total number, plus Shen Lang himself, it has reached ten.

There are also three camps. Seeing one of the camps is similar to Carlo, and it is also her past direction. It should all come from Lingxi.

Plus Caro, their number is six.

There are also two camps, five and seven in number, which are those described by the stars outside the waves.

The camp of the fewest of the five people, they have a bit of green face and fangs, and the size of the head reached two or three meters. Although it is far from being able to compare with the paternal father, it does not need mountains and the like, but with normal humans, it can be regarded as a giant.

And their skin is red, very special.

Originally they were clearly defined and kept at a distance.

But with the arrival of Shen Lang and Carol, they went to their own camps, and immediately made the situation more subtle!

Because the mainland of the island is the most native, Carol is coming with Shen Lang. If they are combined with the spiritual gods, the number will reach sixteen, far better than the other two. camp.

Therefore, the two sides did not wait for the reaction of the gods and the other side, and they immediately approached.

As soon as they moved, the rush of the gods of the gods was also moved, lest someone stop Carol.

Gao Hanqiu also immediately greeted Shen Lang, lest he be attacked.

Others don't need to say it clearly, but they can also understand that everyone has come together.

As a result, the four camps have become concentrated in this vast venue.

It's just a few dozen people, it's not a big deal.

"The cloud palace holy land, not you guys can come here! Here belongs to us!" One of the red giants with green teeth and fangs screamed.

He is facing a group of ancestors on the mainland of the island.

It seems that the most number of this camp must be given to the town.

"We Weiner Stars, with the barbarians, and the spiritual gods, have a long history of friendship, you mortals, still quit! This is not where you should come."

In the other seven camps, some people spoke, and the mainland group of the mainland is still facing the Shenlang side.

The Red Giant took the lead and immediately joined, and when the words were spoken, they pulled them into a coalition camp and isolated the mainland of Nakajima.

Shen Langjing observed his changes. At this moment, he also learned some information. Carols are from the spiritual kingdom of the gods. These green giants are the barbarians, and what are the aliens, what are the Weiner stars.

Interesting, it really leads to a lot of different places.

The name of the Cloud Palace Holy Land may not even be taken by the predecessors.

Converging Carol's Lingxi Kingdom, there are six people at this time, and the Weiner Stars have already formed an alliance with the barbarians, that is twelve people.

The spiritual kingdom of God joined their camp, which is eighteen to ten.

If you join the camp on the mainland of Nakajima, there are sixteen pairs of twelve.

Not to mention that Weiner Star has already said the Alliance's suggestion first, and this group of people does not. In terms of quantity, 18:10 is also more secure than 16:12.

Therefore, they did not hesitate to join.

"Yes, Lingxi Shenguo and Barbarian, Weiner Star is a long-standing friendship."

His statement immediately became a party to the three parties.

The ancestors could not help but frown.

If it is under normal conditions, with their strength, of course not afraid. What are the eighteen? Two or three meters as a giant, these enchanting, all can be leveled!

But from now on, everyone is very clear that their strength has been suppressed, and now they can be used, and the strength of an ordinary person.

Although the other three parties must have been suppressed, but under the same circumstances, these much taller barbarian red giants have a huge physical advantage.

Shen Lang is more clearly analyzed.

Under ordinary strength, the barbarian is definitely the strongest. They have no problem with picking two, so they dare to attack the people in mainland China.

But if the other three points add up to more than twenty, and deal with them five, it is different. Therefore, they must also first attack the mainland of Nakajima.

Weiner Star and Lingxi Shenguo are also very clear about this.

Their current alliance is not strong at all. It is nothing more than having been dealt with before. Let's first drive away the ten people on the mainland of China.

The same resources, divided into four to be divided into three thin; twenty-eight points to be thinner than eighteen first together to drive away a batch, leaving them three parties, is the cooperation equal, or another Competition is cost-effective.

The ancestors of the ancestors looked at the cold autumn.

Although their respective sects and family's heritage are far better than Qiu Lin Jianzong, personally, Gao Hanqiu's age and strength are better than them.

This is a habit, even if it is now an ordinary person, I still feel that the cold autumn may be stronger, with more experience and wisdom.

And immediately they are speechless, because Gao Hanqiu is looking at the waves!

This is also a habit. Even if the Shen Lang after reincarnation is not as high as his realm, Gao Hanqiu still instinctively feels that Shen Lang will be more capable and capable.

At this time, Shen Lang, there is nothing to be humbly, and I will stand up!

Chapter 1945 - Outstanding enemy

"I don't care if you are a spiritual country, a barbarian or a Weiner star. Now, the Yungong Holy Land belongs to us."

"I can give you a chance. If you take the initiative to rely on us, you can get a piece of it. Otherwise, you must be prepared to be killed!"

The words of the barbarian are very obvious. Let them take the initiative to withdraw, follow the way, or leave.

They can repel, and they don't want to make extra money.

Now Shen Lang responded, the first sentence made them have not yet reacted, and after listening to the second sentence, it is unbelievable to everyone!

Yes, they don't even feel angry, but they are unbelievable.

The weakest group of mortals, who gave you the courage to dare to say such words?

"In this cloud palace holy land, nothing can be used. You have ten people, not opponents, leave!"

Carol was just coming in with Shen Lang, and she woke up her, so that she couldn't bear to watch the waves being smashed by the barbarians. At this moment, she quickly reminded me.

If we can use everything, everyone has their own means, different worlds have different world capabilities, and how to do it, or to fight.

But when everyone is suppressed, only the strength of ordinary people, physical advantage, quantitative advantage is reflected.

Now, whether it is physical advantage or quantity, they all have the upper hand.

Carol is very sensible. If Shen Lang insists on fighting with everyone, the solution will only be one – death!

Those who can come here are the top powers in their respective worlds. If they are killed by fists, they will die too much and they will lose too much.

Other ancestors also looked at Shen Lang.

This woman is a man of the gods of the gods, but she just came over with Shen Lang. It seems that she is really kind.

Moreover, the situation she said is indeed the root of the situation, which is where everyone cares.

If it weren't for this, they would do it directly, and wouldn't they be afraid of these strange people?

At this moment, everyone not only stared at the waves, but also whispered.

Originally, everyone is counting on Gao Hanqiu to have a better decision. Now, the cold and cold autumns are all looking at Shen Lang. Shen Lang has already spoken on behalf of everyone, and can only persuade him.

"The sinking brother is cautious..."

"Shen Xiao brothers think about it."

"You, you... Gao Laozu, what do you think?"

This can't blame them for not being convinced. After all, they are all bulls. Before they were smashed in the Kunlun squad, they felt that they had no face and were very wrong.

Not to mention that it is now suppressed into ordinary people, and then the ordinary people are taking advantage of their physical strength to die, it is really depressed.

But if they let themselves come to express their opinions, there is no good plan and no good advice.

Therefore, I hope that others will have a way to get the best of both worlds, and I don't want Shen Lang to push everyone into a desperate situation.

Shen Lang did not pay attention to them at all, but waved his hand.

"You have all retired! For such a group of jumping clowns, I am more than enough!"

This sentence is full of momentum, but both the enemy and the enemy are shocked.

This kid is afraid that it is not clear about the situation?

Have been mortal one, and also deal with a group of people?

Carol is coming with Shen Lang. Even if she only knows her own situation, running through everyone can also feel the level of Shen Lang at this moment.

However, after all, she is a person of Lingxi Shenguo, and her friendship with Shenlang is also the relationship of two kilometers away.

At this time, she persuaded her to be ineffective. She could only sigh and plead for him at most when he had packed him up.

“Everyone is back! Don’t hinder the sinking brother!”

Gao Hanqiu is also watching the expression of Shen Lang. When he heard this, his expression was full of confidence, and he was full of confidence in him.

He is unconditionally convinced of Shen Lang. Since Shen Lang said, it must be OK!

Shen Lang’s current status is not enough to serve the public. Everyone can’t believe his words. Gao Hanqiu paved the way for him.

I heard that the cold autumn said so, and took the lead to retreat, and other people, including snow and snow, also immediately retreated a few meters together.

“Toasting, not eating and drinking! Give him to me!”

The red giant who just spoke, could not help but sneer, and waved his hand, and immediately a red giant stepped forward.

Now this is to start fighting. In order to avoid accidental injuries, the other four barbarians are also starting to retreat.

Of course, there are no need to say that the people of Wella and the people of Lingxi have retreated to the side of several barbarians.

As a result, from the previous four camps, it became the obvious two camps, and the middle was Shen Lang and a barbarian.

This barbarian is two or three meters high. When facing the sun, it is like an adult to a child, which makes him sneer.

If the light is more than a single head, if the Shenlang is in a normal state, not only can it become bigger, but the sword of the king and the seal of the heavens can directly become huge and crush him!

Not to mention the Emperor's behemoth...

It is a pity that these can't be used, even the space of the Tianshu can't enter, and the dog **** can't release it.

When the dog gods are released, even if they are suppressed as ordinary beasts, they can easily sweep them with their body size.

But then again, the crackdown is just as fair to everyone. The barbarian is now like this. If there is no suppression, it may not be a bigger giant.

The Lingxi Kingdom has seen the side of Carol's wings, and the Weiner Stars must have their special features.

It's not easy to come here!

The means may be different, but it is estimated that there will be no worse than the Great God and the Great World.

In this case, Shen Lang will not think about what if, in this state, the two or three meters tall barbarian knocked down and said can not use the slightest strength, mental strength, etc., but the skill is still I'm here!

So now, even like ordinary people, it is also the skill of grasping the attack, the experience of the battle, which makes him easily overcome the real ordinary people.

But that can only be a part of the bonus. When the difference in physique and strength is too great, it is useless. A kindergarten child who is proficient in boxing will also be crushed by adults.

These waves are very clear and others are very clear.

He dared to stand up, not to say that the big words were forced, but from the sage of the holy armor!

Before the two kilometers down, Shen Lang has already realized the secret, and the holy armor can still be used. This super-civilized black technology product is not the same as the repairing civilization, so it has not been suppressed.

At this moment, when everyone looked at them, they felt that the next wave of Shen Lang would be rubbed by the barbarian on the ground. In the hands of Shen Lang, a sword appeared suddenly!

Chapter 1946 - Continuous headshot

This situation has just emerged, so everyone is taken aback!

That is a sword, it is not important, because it is very possible, the algorithm treasure weapon is brought in with the hand, at this moment will be the same as the iron, can not play the same effect.

What is important is that Shen Lang did not have a sword in his hand, which he took out out of nowhere!

Does that mean that he has not been suppressed? Can he also take weapons from the storage space?

That meaning is different!

When you are beaten by brute force, others can use mana, you can have weapons and magic weapons, and it is also hairy!

The barbarian who had defied the Shenlang, suddenly got up and got into trouble.

If you want to take the initiative to attack, it is very likely that you will have to make a hard bone. If you don't attack, those people look at it. The loss is not the individual, but the face of the entire barbarian.

Other barbarian, Weiner, and Lingxi gods have become jealous.

It is no wonder that this human being is so arrogant, it is not the second scorpion of the **** punch, but has full confidence!

A few barbarians are thinking about how to win, take the weapon and kill the person? Can you do it?

The other two sides are thinking about retreating.

The mainland ancestors of the mainland, the spirit of a revival, did not expect Shen Lang still left a hand!

No matter how he did it, now is his own camp, and everyone has hope.

At the moment, Shen Lang said, "Give me a slap!"

Then quickly swing your sword!

The two of them are still at a distance. If he does not rush, the sword will not be able to reach each other.

The barbarian also maintains a high degree of vigilance. If the other party can't move the usage treasure, then this sword can only be close to the body.

But he also determined whether Shen Lang could do it.

Looking at the waves and swinging the sword across the air, he faintly felt that it was a bluff, and there was no need to avoid it.

Because of the ordinary sword, or the inability to use force, there is no need to evade, it is impossible to reach him.

And if the other party can use force, can manipulate the magic weapon, it does not make sense to escape.

Everyone is with this kind of mind, staring at the sword tip of Shen Lang, to see if there will be any unusual appearance.

At this time, another hand of Shen Lang, the holy armor released a gun, to attract the eye with the sword, the gun directly aimed at the head of the barbarian red giant, a direct shot!

The sudden shots made everyone shocked.

That is the ability to use the treasure!

Take a closer look, just as the Shenlang's empty sword, the red giant's head, burst directly!

At this moment, no one can doubt whether Shen Lang can use force. If not, how is this done?

How can a sword in the air make such a sound, how can it be so powerful?

In the shock of everyone, the head of the barbarian red giant slowly fell to the ground.

"Sud of me? See who is dying! It's all together, or one by one!"

Shen Lang did not look at the barbarian red giant who landed, and the long sword pointed at the barbarians who had spoken before.

His sentence can be understood as the remaining four challenges to the barbarian, but also can be understood as a challenge to the other side of the camp!

Just a sword, they gave them a horse, and no one knows what the details of the current wave are. Whether it is the use of the treasure or the pressure of the town, it is not that they can take risks.

The Weiner Star and the Spirit of the Kingdom of God immediately felt embarrassed.

Just now they chose to form an alliance with the barbarians. They want to drive this group of people away first, and then a little more people divide the cake. But now the wind has reversed directly...

What should I do now?

For safety and interests, you should take the initiative to rely on Shen Lang. But in this way, there is no right to speak, because this is not an alliance, but a surrender!

And it will be a very shameful thing...

“He is bluffing! Let’s go together!”

The barbarian who just spoke, whether it is true or not, he must show that he does not believe in the waves, let everyone know that you can overcome, can maintain morale!

These barbarians are not brainless. Just the death of a partner makes them realize that if they don’t work together, everyone’s end will be the same!

At this time, they can only rely on a few of them, and the people of Weiner and Lingxi are still unreliable.

So after this order, the four of them immediately rushed to the sinking waves!

They are big, but they are not clumsy, the speed is also very fast, and they are not all positive, and they have been copied from both sides.

This is a tacit understanding of a partner. If Shen Lang can still attack, he should only attack one. After they are dispersed, at least three are safe.

Nothing can be used, only the original brute force can be used. This is not only for the sake of Shen Lang, they are not used to it, but the barbarians are not used to it.

However, this is for the sake of life safety. I don't care much about it. They must attack the waves at any cost!

Shen Lang's long sword waved, and he still attacked when they were not close.

The other hand, with the movement of the sword, one shot followed by one shot!

With three consecutive loud noises, four barbarian red giants, one by one was headshot!

It's just been done once, and there's nothing new about it. It shouldn't be so shocking. However, in fact, the degree of shock of watching is not reduced at all.

Because it can be said that it was a sneak attack, or a special means of storing the waves.

But now this time, it is the barbaric aspect of the whole gods, and it is the four together, the result is a headshot!

This shows that the power that Shen Lang can still use now far exceeds their expectations, and perhaps it has not been affected at all.

When the four barbarian bodies landed, the Venus and Lingxi gods looked at each other.

At this moment, they all felt that they should surrender, but they still regard each other as their allies, and they hope that they will also vote together to avoid losing their faces.

The best thing is that the other party opens first and follows the opening. But they all have a concern...

This person killed the barbarian to come to so unrequited, will they be more polite?

Can surrender be safe?

“What about you? Also want to try my sword?”

Shen Lang’s long sword moved to the right and left to the Lingxi Kingdom and the Weiner Star.

Their faces have become more difficult to look at, and they all stop talking.

At this moment, both sides looked at Carol.

Carol is a man of the gods of the gods, is a camp of them, and came with Shen Lang, just had to persuade Shen Lang, it should be able to speak, if she is allowed to speak, maybe there is still A line of life.

Carol is not stupid at all, it feels like everyone, and it is clear that there is no time left for her to consider.

Chapter 1947 - Cross-examination

“Sink...wave...”

Carol’s name for Shen Lang did not listen to it for the first time. It was only heard once. Fortunately, there was no lost mind, and it was remembered.

If you don’t even remember the name, you will not care about the other person, and it is even worse.

“In fact, everyone can get along with each other...”

Because of the limited time, she didn't have time to think so much, and she quickly said it when she thought of something.

But when I said this, I was embarrassed.

In this way, can you live in peace?

When the barbarians and their three parties joined forces to press, she only advised Shen Lang to leave, instead of saying that they lived in peace.

However, the current situation is different. Under the strength of the tripartite coalition, she is a small person and can only persuade.

Now they are highly hoped by both of them, and they must stare at the pressure.

“If we leave now, can you enlarge your home?”

Carol was also very decisive and immediately lowered his posture.

Others can easily kill them. Even if they can coexist peacefully, they will only leave them with a life. Will they give them a copy?

In this case, it is better to seek forgiveness directly, and there is no face to be scrupulous.

In this case, another young girl, she is not so embarrassed, she has just come along with Shen Lang, it is also a partner, so discussion is not a shame.

“Yes! But before you leave, I will ask a few words.”

Shen Lang has conditional consent, so that everyone has a little peace of mind, although very unwilling, but look at the end of the powerful barbarian, they can still accept.

When you die, there is nothing left.

If you can't play it out, you will be killed directly and you will be more wronged.

Where there is life, there is hope.

Shen Lang immediately pointed to a corner, let the people of Lingxi Shenguo pass, and then gestured to the cold autumn people to look at them.

This is ten pairs of six, plus the swell of the waves, the ancestors are full of confidence.

And Shen Lang himself, is holding seven Venus stars, and went to another corner.

In this way, it is impossible to hear the words at the level of ordinary people, unless it is possible to shout loudly.

"You...what to ask?" The representative of Wiener Star, volunteered to Shen Lang.

He is still a bit embarrassed at the moment, because when the barbarian was in trouble, it was he who took the lead in aligning with the ridge.

Now, for the sake of everyone's life, for his own life, he can only bow.

Shen Lang then held him alone for a distance, holding a sword in front of the other six Wiener stars, and then asked this person.

"Let you know all the information about this cloud palace holy place, tell me honestly. I will cross-inquiry with them one by one, and will cross-examine the spiritual gods one by one. If anyone lie, the heads of several barbarian people are you. The end."

The Wiener Star, who heard the inquiry from Shen Lang, was not too surprised.

Now everyone can't use anything, the only thing that matters most is information.

He was preparing to cope with the sinking waves, and as a result, he heard the words behind him and slammed it.

There are also some weapons in the hands of Weiner Stars and Lingxi Gods. Perhaps it is early to know the situation here, perhaps it is a coincidence to take out a weapon, but here, there is no use of any place.

The long sword in the hands of Shen Lang is able to burst into the air. Everyone has seen it, then it is necessary to run. At the speed of ordinary people, you can't run!

This is also the reason why six people are not allowed to move around.

“Look at it!”

Shen Lang moved the sword to the body of the barbarians in the distance. When everyone looked at the past, they sneaked and fired.

After the gunshot, the body of one of the barbarian red giants was smashed by most!

This time, not only the Weiner Stars shocked, but also the opposite direction to the people of the gods, but also scared.

What does this mean?

Explain that Shen Lang is not a separate attack of a few meters away. It can be easily attacked far apart, and the power is not reduced!

That is to say, even if someone restrains the sinking waves, others will run away, and the result will be one by one!

When I die, what can I do?

Say it!

Five people of the barbarian, after a stroke, were headshot one by one, plus this distance, this picture, so that the Venus star under the mortal state did not have the courage to resist.

In fact, Shen Lang is also very helpless!

If it is under normal conditions, why is it so troublesome? Direct mental intrusion, reading their memories, everything is invisible, and not afraid of any concealment and lying.

But now you can't use it at all, you can only use the most stupid way to ensure the integrity and security of information by separating the cross-examination.

It's just that they are asking each other separately, maybe they are prepared in advance and they have already prepared their lines. Now it is a cross-contrast with the confession of the spiritual kingdom, which adds another layer of uncertainty.

Even if they say the same thing here, if there is a conflict with the spiritual country of the gods, it will not pass.

Under such an arrangement, the Weiner Stars one after another, completely revealing the information that was known to Shen Lang.

"I will be crossing the message with the spiritual country of God. If I let you know that you have a lie, what you have not said, you know the consequences!"

Shen Lang is so threatened, everyone is panicked.

"Don't dare, don't dare! We have absolutely no lie, but the gods and our information may not be the same. We are not sure. If they know that we don't know, it is not that we have a heart." "

Shen Lang sneered a sneer, did not say anything to them, just showed a long-range attack, and did not worry that they fled.

Then he came over to the other end, and exchanged with Gao Hanqiu, let the ancestors guard the Weiner Star, and in the same way, he forced the information of the spiritual country.

For these, although the people of Lingxi God did not hear it, it seems that they can guess a general, they also have psychological preparations, and perhaps there are also whispers.

However, before and after the Shen Lang, the barbarians started to live with them, and obviously they had to check with the Weiner Stars. This made them even concealed and did not dare to confide.

This is also understandable. It is not expected that they will not hide in the slightest, as long as there are as many traps as possible.

Anyway, he knows more than he knows The whole process didn't take too long, because they are all long words, and Shenlang should also consider time.

The information of more than a dozen people on both sides is cross-checked, but Shen Lang has no way to confirm more authenticity, or how many have not said it, it is just a deterrent.

“You can go, before I change my mind.”

Shen Lang said to the people of Ling Xi Shen Guo, and then to the Weiner Star, pointing to the direction.

High cold autumn will immediately understand, so that they can also leave.

The people of Lingxi Shenguo originally wanted to fight for it. I didn't dare to say more when I heard the latter part of the sentence.

“That... can you let Carlos stay with you?” One of the people of Lingxi Shenguo, with courage to suggest.

Can leave one, can get some of the benefits, but also the harvest.

Chapter 1948 - door?

“No!”

Shen Lang decisively refused.

The scene was smashed, not only the one who asked the gods, but also Carol, who was very embarrassed.

Carol can of course be considered beautiful, and it has a different alien atmosphere, and it can release wings, which is very valuable.

However, for Shen Lang, this is nothing at all. Now the environment here is actually not dangerous. Security is the first and then resources.

Carol's words are not only one more person to guard against, but also need to protect one more.

Are you guilty?

He decisively reached out!

Everyone is helpless and can only leave in vain.

The Weiner Stars are honed over there, wanting to see how the treatment of the spiritual kingdom is, and if they can stay, they will find a way.

As a result, they can't stay, they can only go together at the entrance.

However, everyone is so, they still have someone to watch and watch this side, do not want to leave like this.

After Gao Hanqiu and others rushed behind for a while, they quickly came to meet with Shen Lang.

Shen Lang is also coming to the center.

He had already mastered a lot of information when he was just interrogating.

Most of this information is unknown, and a few are legends in the memory of elk, thief, etc., which can be matched.

When they had not come over in the cold autumn, he quickly sorted out all the information.

According to the cross information, a rough vein is drawn. In this space, when there is a certain time, there will be many “doors” like things. After entering, you will get all kinds of very good resources.

But after the door, it will be such a thing. Is every door the same, there is no danger, but no one can say clearly.

Both of them should also be the information left by the predecessors, but they are more clues than the mainland side of Nakajima, and there is no complete and detailed strategy.

Because of this, when Carol came in, he almost went on the road. Others probably have such a process. It is just someone who can be solved.

If you know that you will be suppressed as an ordinary person, you will definitely be prepared for weapons in advance.

The information is just that, cross-examination is just to avoid lying, and all aspects of income are all these.

They should have such a tacit understanding before the three parties, knowing that there will be many doors, and the fewer people there, the more they can enter. If there are too many people, it may not be enough.

After all, there will be more specifics, and no one knows.

Therefore, their purpose is to drive away the cold autumn and so on, first get things and then say.

The result now is that Shen Lang drove them away.

“Shen brother, what is the situation?” Gao Hanqiu can not communicate with Shen Lang alone.

Now that everyone is like an ordinary person, Shen Lang can still use the treasure, and he is not afraid of other people listening.

At this moment, everyone understands that they should unite around the waves and retreat.

“According to them, there will be some doors here, and every door may have an encounter. But what is it, there is no danger, it is not known.”

“When will it appear, how many will appear, it is not known.”

The three parties did not arrive at the same time, even if the same party, they came one after another. Just because there are companions and know each other's world, they maintain a balance.

Just like these ancestors, it is not at the same time.

After listening to the words of Shen Lang, everyone is refreshed.

No matter how long you have to wait, at least there is a hope.

And it sounds like a chance to gain luck, unlike the layer of space that I have before, there are various dangers.

Now everyone is being suppressed like a mortal, no powerful enemy is needed, and a fierce beast can kill everyone.

Shen Lang is self-protecting, they can't.

So after hearing the existence of the “door”, I have a little peace of mind.

“But... I decided that it should be faster. They have been here for a long time, and it is impossible to wait indefinitely. Also...”

After Shen Lang’s sinking, he still said: “Whether they don’t know, or the conciseness of unity, I don’t think it’s that simple, everyone still has to be vigilant!”

“The sinking brother is right!”

Everyone immediately heatedly seconded.

In the previous sentence, let them be more excited. The longer they wait, the more likely they are to have long night dreams. It is best to be able to appear as soon as possible.

As for the latter sentence, it is basically equal to nonsense!

No matter what the situation, everyone will be vigilant. Now they are all mortal ones. In fact, vigilance is not of great use.

Just like falling down before, the reaction of the mortal can’t be avoided.

“Shen brother, you said... will those people, who are hiding in the aisle, not go?”

“Yes! They may not be able to retreat, but they are sealed.”

“In case of the door, they attacked us behind us...”

“Even if you don’t dare to come over, you will leak the situation here afterwards.”

After getting the information, some suggestions were made.

They were the group that was forced to leave before, and they considered the back road.

Falling down from the door, even if everyone can't escape, but still can look up and see the above, then immediately closed.

The long sliding behind, with ordinary power, is extremely difficult to climb, not to mention breaking the upper body.

Therefore, if it is not Shen Lang who lives in the other side, if they are forced to leave, they will stay in the aisle. Anyway, they can't see it here. Once something happens, you can still run over.

But the human heart is always like this.

When I was forced to do so, I wanted to make good use of this kind of road.

When others are forced, they are thinking about breaking someone else's back road!

Shen Lang can hear what they mean, and wants to let him kill him!

Anyway, these spiritual gods, Weiner stars, are not native people, killing will kill.

Besides, Shen Lang just killed all these tall barbarian red giants?

Destroy one side is extinct, and destroying three sides is also extinct!

Shen Lang smiled slightly: "It makes sense, then you guys, kill them all in the past!"

"..."

awkward.

Those ancestors are all red.

They are so mature, it is normal to have such considerations, but there is no fighting power at this time, although the other side may not have any fighting power, but they don't want to fight for themselves!

This is not the time when there is no way, do you still have a magic weapon? Can't you kill them easily?

They are not easy to say, but Shen Lang is showing this attitude!

Chapter 1949 - aperture

"How did you plan?"

This sentence is asked by Xue Feixue.

The atmosphere that had just been smashed, and now Snow is not snowed out, not only for the ancestral steps, but also for others to stare at the waves.

Everyone is not clear about their relationship. As far as the previous performance is concerned, Shen Lang and Gao Hanqiu are very good, and snow and snow are also very good.

Otherwise, Yao Chi will not give him an invitation letter, and help him publish information. When they arrive, they are all three parties together.

So Xue Feixue asked, and I felt that Shen Lang should not be good at her face.

In fact, it is true that Shen Lang can't let Xue Feixue kill them in the past...

Now the snow is not snow, can not use a little strength, just an ordinary beauty, in the past or can only play with Carol, fighting with other men may not be able to win.

"Before, when the other party occupied the upper hand and took the upper hand, it did not kill us. I have already killed the barbarian side and can't kill it."

The reason for Shen Lang is very simple.

For the barbarians, it is not only killing chickens and monkeys, but also because the other party has murder.

Come to this place, just for treasure, for resources.

Judging from the information just obtained, they can take the lead and do not kill other people.

They can think of it, the other side knows more information, can't think of it, probably also feels that as long as it does not affect their chances, they can accept it.

For this answer, everyone can't say anything.

After all, they are the ancestors of the famous big factions, and they can't say that they are killing them for the sake of profit.

However, many of them feel that Shen Lang is just so grandiose, in fact, it is probably because of the relationship between the young and beautiful young women!

It's just... really good or fake. The current Shen Lang is the only one in the dozens of people on the scene. It can completely dominate everyone.

"I mean here." Xue Feixue added a sentence.

Shen Lang does not care whether she is true or not, but also added a sentence.

"wait!"

Gao Hanqiu is also thinking about it. Although the information obtained is small, it is at least useful.

The two sides are separated, and they are asked one by one. Before they can be confessed, they may not be able to lie in the same lie, which means that it is true.

“Let’s rest, keep your strength.”

After that, Gao Hanqiu sat down on his own.

With his lead, the other ancestors did not have any embarrassment, and sat down to rest.

Shen Lang slightly glimpsed, and immediately understood.

Before entering the Yungong Holy Land, everyone was injured in the process of being transmitted, even in the cold autumn, snow is not snow.

Although they got a lot of help from him, they had limited time and could not recover completely.

Not to mention other ancestors.

After arriving here, everyone, like a mortal, can’t use the vitality and mental strength. Shenlang himself is like ordinary people, others are wounded!

Shen Lang is a bit embarrassed. He is pushing people, but he has forgotten this.

If you really let everyone fight together, their fighting power, but also a discount, may be equivalent to four or five ordinary people.

No wonder they just let them go, everyone is very incomparable.

Fortunately, the barbarians did not see it, just comparing the quantity, or else they might have tripped them all before he came.

“I will give you defense.”

Shen Lang said one sentence, then stood next to it, aiming in the direction of the down, can not see those people, but it should be the passage there.

Others are not polite. It is impossible to recover from injury at this time. It is also possible to rest as much as possible and maintain a lot of physical strength.

Otherwise, if this door also has impact, if you can't do it, you can't bear it!

This is a few hours!

Shen Lang was psychologically prepared, and others waited for many days without encountering it. It was impossible for him to meet it as soon as he came.

But still wait very boring.

Fortunately, after a few hours, the door really appeared!

These so-called doors are actually a kind of light and shadow, just like a bright spotlight from above, and the range is about a circle with a diameter of about one meter.

Old ancestors can't cultivate, can't heal, just rest and close their eyes. Some are sitting, some are lying.

Suddenly so many lights appeared, let them get excited, and no need to scream.

"Come out?"

"Out!"

Everyone climbed up in a hurry and then each rushed to the nearest aperture.

However, when I was close, I paused.

Their reason has not forgotten that Shen Lang now has a magic weapon, and this rule must be formulated by him!

Looking at the many apertures that appear, there are probably dozens of them, and Shen Lang is also relieved.

At least it doesn't need to be guilty for distribution. As for how many, it is best to go in and out.

But they went in, and the Venus and Lingxi gods will definitely come in and enter!

It's just that, because of this, it's really all of them.

Because now I am not sure how long these can last, but it will certainly be time-limited and cannot exist all the time. After they entered, they still didn't know what was going on.

In short, it is very likely that after returning, there is no more here, so you can't kill for this.

In the Cloud Palace Holy Land, a group of people lived back a few thousand years ago, and obviously there are other people who have returned.

This shows that everyone has followed the principle of sharing to a certain extent, and no one can monopolize this resource.

These problems, just a few hours ago, Shen Lang has already considered it clearly.

I immediately said to everyone at the moment: "Choose one to go in! Be careful!"

The last sentence is "cautious", Shen Lang is looking at the cold autumn and snow is not snow.

This does not monopolize this Baoshan, but the safety of other ancestors does not really care. Only two of them are concerned.

The cold autumn and the snow are not snowing.

After getting permission from Shen Lang ancestors began to rush to enter.

But now they are in a state of ordinary people who are not injured. The movement is naturally not going anywhere. It just stopped and stopped.

How can Shen Lang not enter?

Isn't it necessary to make them advanced and see how their consequences are determined?

Everyone will be embarrassed, wanting to enter, and afraid of death...

Shen Lang saw their gaze and sneaked in, and they understood their minds. Can not help but secretly laugh, but too lazy to explain anything, directly into a circle!

He is different from other people. Although he is in the normal state, he is not injured, and at this time, the defense of the holy armor is turned to the maximum!

The safety is not as big as other people, and this is what he does not care about.

Chapter 1950 - sleepy

In Shenlang's view, these should be one-to-one portals. Although there are randomness, it is very likely that they will not come back here!

He didn't say it at this point, and he didn't think much about it, so it's time to just enter one, that is, when you hit a game of luck.

Harvest and danger are all smothered, so at the moment of entering, he focused on his own body, and there is no other situation in mind.

Even in the cold autumn, what kind of situation will he be, and he will see himself, and Shen Lang will no longer worry about it.

When he entered this aperture, his body suddenly pulled strongly, and in the state of his ordinary people, he could not even feel the details.

Other ancestors, seeing Shen Lang's initiative to go advanced, although a bit embarrassing, but related to life, there is no humility.

However, they can only see the eyesight of ordinary people. They can only see that after Shen Lang entered, they have not been crushed, vomited and seriously injured.

Then I saw that he disappeared, which is understandable, and the big probability is transmitted to other places.

They have already arrived here, and everyone has not hesitated, and they can't take care of the extra aperture. They will be cheaper by both the Lingxi and the Weiner.

When they each entered the aperture, Shen Lang had already reached another place.

It feels like I have another space, and this space makes him go to the space of heaven!

Because the place where he is now is also a void, there is no visible figure around, no objects can be seen.

Regardless of whether the space is physically present or let him enter a illusion, he will be humbly waiting.

The Cloud Palace Holy Land, this place is not only the place where many founding fathers and grandfathers have made their mark for thousands of years, but also the mysterious land shared by many other worlds.

Then what did he count?

Even now, he has unlimited scenery and relies on information asymmetry, etc., and has not reached the level of hegemony in the mainland.

It is the experience of the two worlds that he has always relied on the most. At the present level, the help and influence are getting smaller and smaller. Because the experience of reaching the great gods and causing the catastrophe in the past life is nothing but the experience on earth.

Even on the earth, it is only the experience of ancient China, and it has not been involved in other continents.

Therefore, he can default to a “genuine” of extraordinary genius, but he has to be clear-minded – just a person with a lower self-cultivation.

If you try to confront or control this holy place of the Cloud Palace, the result will definitely die because of greed.

Shen Lang’s mentality has been maintained very well. No matter what higher civilization and extraordinary wisdom, he can face it with humility.

But after waiting for a while, there is no information at all.

No one appeared, no sound appeared, and the expected resources were not presented!

This makes Shen Lang’s heart sink...

Is it because of bad luck, sent to an open space?

It is not difficult to understand the open space. Since it is random, there may be huge gains, and there may be no gains.

Besides, a large number of people came over thousands of years ago, even if many died because of others, some people went back.

This Yungong Holy Land can’t really be opened for thousands of years. Perhaps the parties have not found it before. The world such as the Lingxi Kingdom may have come more in the past years.

Even if this is a Baoshan, it may be evacuated again and again.

Even if Baoshan can’t move, the caves that are sent separately can be evacuated.

Shen Lang is a bit anxious, but now she doesn't care so much.

It is best to have something to gain. If there is nothing to gain, then at least you need to go back safely!

The question now is, where is the export? How can I leave this space?

He looked at the record of the sacred armor, and like every other transmission, it recorded the moment of the aperture, and then it was here, how it was done during the period, it was impossible to record.

The space of the Bible is already one with him. It can be done directly, but here, it is impossible to leave.

The investigation of the holy armor is also the feeling of endlessness...

Shen Lang will not give up any chance, no clue, then look for clues yourself!

Just as he had arrived in the space before, he began to explore before and after. In any case, there is a track record of the holy armor. Even if there is no reference object or direction, he can still go back to the original place.

The result is that he went straight for a day and there was no clue!

At the beginning, he was walking on his own and quickly realized that, relying on his current level of ordinary people, he would look like a dozen miles a day, and finally use the flying armor.

With the relationship of the Holy Grail, the scope of this exploration is enormous, but unfortunately nothing!

This empty world is like nowhere, it is boundless.

Finally returned to the origin, Shen Lang was a little discouraged.

I don't have any gains in a day, what can I do?

His current body is mortal, you can't eat or drink, don't sleep!

After the first wave of exploration failed, Shen Lang could only stop and rest, and then let the holy armor record all changes, such as the time here, and then compare after leaving, or there is no change here.

One day, two days, three days...

Three days have passed.

Shen Lang is also more and more anxious and depressed.

He can't use any storage space, and the holy armor also has a folding space, but it is equipped with watershed city-state weapons, which will not be equipped with food.

The result is that he does not eat or drink now. As an ordinary person, he is almost unable to bear it.

He has flocked to so many worlds and encountered various dangers. He did not expect that he would starve to death as an ordinary person here!

If you know this result well, don't come over at all. Or you don't need to suppress yourself, break through to the realm of the gods, go back directly to the earth, and then smash the front side of the bar, it can be regarded as the regret of the last life...

If you know early, there is no flaw in the world, who can... and so on!

The negative energy bursting into the waves suddenly realized that something was wrong.

It is impossible for others to "know early" but he can!

He is a fusion of the artifact “the wheel of the heavens”, leaving this period from Yaochi, is a verification again and again, the prediction of the wheel of the heavenly machine is very reliable.

Although you want to predict the future situation, you need to actively use the wheel of the sky to perceive, but if it is dangerous, it will actively perceive it.

That’s right!

He came to the Yungong Holy Land. He was actively aware of it. Although he did not know what to gain, at least it was determined that there would be no danger.

The previous situation also proved that although he was also injured, it can still be solved quickly, and it is not dangerous.

After a layer of progress, including the last to come here, he did not encounter danger.

That means that it is impossible to starve here!
