

First Strong 1951

Chapter 1951 - Snow monster

Shen Lang, who had already collapsed a bit, realized that after all this, all the negative energy disappeared immediately. Although it could not be said that it became more positive and joyful, at least it has been calmed down a lot.

In the days that followed, he did not continue to explore, so wait patiently and try to save his strength.

Anyway, the situation has already been the case, and there is no more exploration. Now he adopts a conservative approach and can safely go back and win.

Because he is now the state of ordinary people!

It will be hungry, thirsty, tired, and more anxious and anxious.

Energy consumption must be minimized.

At this time, Shen Lang was very glad that he was injured before!

If there is no injury, he is at the peak of the state, and naturally there is no need to supply anything.

However, because of the injury, in the space of Tianshu, in addition to receiving the help of the dog god, it also swallowed the inner scorpion of the giant python, and also served the jade peach, the water exquisite, etc., and absorbed the spirit.

These are not completely absorbed, and the rest of them are irrelevant in the state where the peak has been restored.

It's not the same now, now he's been suppressed, and everything can't be used, just like a mortal.

But those residues in the body are still there!

It is like an empty stomach coming in and eating in. It has become an ordinary person, but ordinary people who are full, of course, can spend more time than ordinary people on an empty stomach.

It is certainly not possible to absorb it now, and it will become more ordinary people. The speed of absorption will only be much slower.

But the energy that ordinary people need is as small as the energy needed by the strong gods of the Great God level!

Assume that the recovery of the Great Deity requires 1 million of energy. After filling up the residual tens of thousands of energy, a little bit is thousands of thousands of recovery, naturally it is irrelevant.

The energy required by ordinary people is one hundred. The residual energy and the absorption speed become dozens of dozens, which is enough for ordinary people.

The current Shen Lang has got such benefits. Only a slight effect can keep him in the body.

After the mentality does not collapse, the days behind are not so difficult.

Four days, five days...

It's been seven days!

Finally, Shen Lang felt the general feeling of collapse in this space!

He quickly kept the holy armor in the highest state of defense, so as not to be accidentally injured.

The whole process was very fast, and after the appearance of the collapse of space, he found that he had a sense of falling and then appeared in another place.

Look closely, this is not the empty space of the previous underground, but it seems to be still under the ground, surrounded by darkness.

Shen Lang did not let the holy armor turn on the light, but used the method of reconnaissance to observe the surroundings through the holy armor.

It really is underground, like a huge cave.

I don't know which side is the front and which side is the back. He is like in the middle.

Shen Lang's knowledge immediately explored the past in one direction, and soon confirmed that there was no way out in the direction behind him, and that was the end.

In other words, the other direction should be the forward exit.

Then, the spirit of Shen Lang was alive!

God knows!

After entering the outer gate of the palace, it is impossible to use the spirit and the mental power. The whole person is like an ordinary person, and then he is definitely not used to it.

But trapped in the strange space for seven days, it is slowly getting used to the state of ordinary people.

Just since he was purely unconscious, the instinct of the gods explored, and now it is suddenly discovered that it has succeeded!

You can use the knowledge of God, which means...

Shen Lang could not help but be excited.

back to normal!

But after a closer look, he was immediately discouraged.

not at all.....

He just thought that it was the knowledge of the rear of the gods. In fact, it was the result of the consciousness to issue instructions and the completion of the sacred reconnaissance function.

White is happy.

Shen Lang smiled slightly, but it was not too depressed.

Compared to the previous thought of being trapped in the mysterious space, it is a good phenomenon to change now.

Since there is only one road ahead, go out!

Shen Lang still does not illuminate the road ahead. Anyway, through the holy armor, he can see the situation around him. There is no need to stun the snake.

There is no danger in this cave, it is still unknown.

Going forward like this, it is a bit rugged along the way, and I don't know how far I have to go.

After he walked for a few tens of meters, it was too difficult to walk with the body of an ordinary person. He simply used the sacred armor and kept flying slowly and slowly.

Although it is slow, it is actually equivalent to the speed of ordinary running. It is not too fast. It is afraid that it will not be able to react to the situation. After all, his current thinking is not necessary.

So it is flying a few miles away!

Finally, I saw the light in front, which made the spirit of Shen Lang spurt and quickly rushed out.

The front is really the exit of the cave. After it comes out, there is light, but the front is full of snow!

In this cloud palace holy land, I have encountered all kinds of strange environments. The caves are full of snow and snow. It is not surprising that Shen Lang is frowning. What should I do?

The cave is a road. What is facing now is a vast space. What if it is wrong?

“Roar!”

A fierce roar came, and immediately from the side of the mountain wall, an object flew over.

It looks like a snowman who has never seen a mountain in the mountains. It is all white hair, and it is a good cover in the snow.

Again!

Shen Lang is a spirit, and according to the experience of the previous layer of space, after killing all the monsters, it will show a way out.

So he was not polite at all, directly changed a more powerful gun, decisively hit the snow monster's head!

The snow monster is a sneak attack, and the speed is fast, but perhaps it is not thought that Shen Lang actually has such ability, the lock of the armor is also very rapid, and the power is huge.

So in the place a few meters in front of the sinking waves, the headshot fell directly.

“Roar—!”

really!

This snow monster is not a single under the mountain wall, under the hillside, began to scream, and then they quickly rushed over.

If there is no holy armor, in the current state of ordinary people, Shen Lang can only escape into the cave, expecting that they will not chase in.

Now you don't need to be polite, and you will move quickly.

Flying, reconnaissance, etc. are all auxiliary functions of the holy armor. Attacking the battle is the strength!

At this moment, after scanning all the conditions, the battle arrangements were made directly to Shen Lang and the most suitable guns were provided.

Shen Lang also only needs to move the handwriting, the general direction of the past, the automatic fine school aiming, and then continuous attacks on the line.

After all, I directly killed dozens of snow monsters, and then in front of the snow, there is no howling.

Shen Lang is at the entrance of the cave, waiting for the emergence of the exit...

Chapter 1952 - Purple mysterious ball

Shen Lang waited for the time of the previous layers, but there was nothing in the hole, and there was no tornado in front.

This makes him a little bit unwilling to continue to wait here, in case there is any situation, or there are any powerful monsters in the cave, it is more troublesome.

Perhaps the way out is not necessarily in front.

But it is a bit unwilling to leave like this. If you just left, what happened to the transfer port?

The tornado and the suffocating air are all only a little while, and after they disappear, they will not appear again.

After considering it, he left a miniature reconnaissance at the hole and then accelerated to fly forward.

Through the reconnaissance, within a certain range, the Holy A can receive the signal here, and it is completely observed. If there is a tornado like that, you will return at high speed.

For the speed of the holy armor, Shen Lang is still confident.

You can't go too fast, you have to watch the speed, but you can return directly at high speed.

In this way, it was originally going down the cave from the hole, and then passing through a valley in the snow, and now the Shenlang flew directly from above.

Leaping over the valley, he also observed that the entire valley is surrounded by peaks. If you want to go above, it is impossible to climb up with the physical strength of ordinary people.

It is only a test that suppresses people into mortals and does not kill them. It is difficult, and it is impossible to set it as an impossible task.

So he did not consider the sky directly, but flew along the valley and across the opposite side.

Similar to his guess, after flying over the valley, the opposite mountain peaks closed, leaving a hole about a few tens of meters.

Under the physical conditions of ordinary people, going down the mountain, passing through the valley, and then climbing to the hole in the middle of the mountain, it is at least a half-day, or even a day.

Under the seven days of hungry, there were dozens of rugged caves in front, and it was a great test to come here.

In addition to the difficulty, the cold of the snow is also a big problem!

However, these are not things for Shen Lang. He is directly from the opposite cave exit, almost straight across the valley from the sky, and does not need to go down the mountain, directly to the hole, time is not long.

When he was about to enter the hole, Shen Lang paid attention to the condition of the micro-reconnaiter behind him, confirming that there was no abnormality such as a tornado, and it flew over.

Maybe this is the export!

According to the environmental conditions here, passing through the closed hole through the mountain, that is, leaving the snowy valley. Normally, there are still mountains outside, but there may be directions and routes down the mountain.

But when he flew through the hole from the past, it was suddenly open!

This is not the broadening of the horizon, nor the climate, but it goes directly to another place.

This is the exit!

The hole in this closed valley is to leave this exit!

But what surprised Shen Lang most was the place where he went.

Suddenly, it is just a feeling of leaving the snowy valley. In fact, it is not in a great place, but in a palace!

Combined with the situation seven days ago, Shen Lang immediately thought of a possibility.

When they came in the outer door of the palace that day, they looked at the 100-meter square and actually ran for a kilometer. At that time, they were going to enter the main entrance of the palace, but they turned over at the door.

Now that people have arrived in the palace, have they fought in the mountains and outside the mountains, and finally arrived in the palace?

If this is the case, don't say anything else, at least you can go out!

As soon as you go out, avoid falling and going down the square, you can go out from the main entrance.

Then he has not forgotten that it is easy to get lost when he comes in.

So at this moment continue to let the holy armor stinging from time to time to keep awake, and then observe everything around.

This palace, of course, does not have any people, not even objects.

There is no statue, no furnishings, a palace, or because of the external view, it is actually an empty and spacious house.

Shen Lang looked at the door, but the door was closed at the moment, unlike the previous ones that seemed to be open.

He couldn't tell if there was an illusion when he came, or if the door was closed now.

Since I am here, I am still going out, I can safely quit, and I will be able to return to the original state after I quit. He will be satisfied.

This time the adventure has made him dare not take any more risks.

When Shen Lang began to move forward slowly, in front of the gate, there was a sudden burst of light!

This is similar to the aperture I saw before, so that Shen Lang is also nervous, he will not want to try it anymore.

Who knows where it will be sent to!

But when you look closely, there is a purple ball suspended in the light.

The size of the ball looks like a punch and looks very mysterious, and nothing is known about it.

Shen Lang is holding his breath and maintaining a high degree of alert. The holy armor has already acted. It seems to be walking step by step, but it is actually suspended.

If there is any abnormality in the vicinity of the bottom and the vicinity, it can fly back directly.

Before each layer has passed, you will get a kind of reward. For example, the tornado, the suffocating gas disappeared, and there is no portal, but there are objects of heaven and earth.

After entering the portal from the ground, it was sleepy for seven days, and then it was extremely dangerous and difficult for the ordinary people to test. Only when there is a “passing reward”?

This purple ball, maybe!

Before the light, Shen Lang did not dare to devote himself directly to it, but also let the sacred arm take out a sword and hand it over.

After watching the sword go in, there was no abnormality, and he was relieved.

But did not use the sword to directly pick the ball out.

The essence of heaven and earth has spirituality and can flow quickly. This ball is definitely not ordinary. Maybe it will leave if you touch it.

As soon as he gritted his teeth, he reached out and grabbed it!

He also used the sacred armor to protect this hand, but after entering it, it was discovered that the aperture was an effect, and there was no abnormal situation and no transmission.

And the purple ball, when he had just held it, slammed and disappeared along his arm!

Shen Lang was speechless for a while.

Is this a fusion with him? Still regard him as a host?

But his body does not have any feelings. Now he is the state of ordinary people. According to the truth, he can't bear it.

When the purple ball disappeared, the aperture disappeared.

Then the closed door slowly opened!

No matter, the way out is in front of you!

Seen from the opening of the door, you can see the porch outside the “100 meters”, it really is the former palace, it really is the exit!

Chapter 1953 - Can't hold back

I finally saw the exit, and Shen Lang was eager to go out and say it. It is dangerous to stay here, and it is urgent to verify that it will be restored to its original state.

Compared with the harvest, I am satisfied with the safe departure from the original state.

So after the door opened, Shen Lang immediately rushed out!

Of course, it is to use the sacred suspension to fly out. If you go out and then fall back below, it will be depressed.

After coming out, the square that looks like a hundred meters in front of it is also a direct flight.

In the process, Shen Langcai's consciousness was a bit awkward. Fortunately, the holy armor was manipulated, and it did not affect anything, and it continued to stimulate him.

However, this is also to let Shen Lang determine a point, it will affect the mind, people are lost, it should be from the outside door porch to this square!

After falling in, or in this “palace”, it does not affect the mind itself, but the suppression is like a mortal.

Entering the porch, for those murals, Shen Lang did not go to see, and tried to make himself rush out.

When I finally rushed out of the gate and came to the open space in front of the cliffs of the mountains, Shen Lang suddenly felt the tremendous changes in the body!

I almost burst into tears!

It's like playing a game and getting to a high level. Suddenly the account is restricted, like a new registration number, there is no place to complain, I don't know if I can recover, I even have to worry about being deleted...

Now it is time to get back to it.

It's more exciting than losing it.

I feel that I have regained my peak, and there is no limit to all aspects of strength and mental strength. Shen Lang finally feels at ease.

Shen Lang first sensed the surrounding area, carefully confirmed, and no one.

As he had guessed before, the people of Lingxi and Weiner Star did not leave. After they entered the aperture, they certainly ran into the remaining aperture.

If not enough, it may be that two people are together.

These are not important, and they can be restored to their current state. Shen Lang has been very fortunate, so it is a trip. Besides, he still gets a mysterious purple ball.

But he did not leave along the way.

When I came, it was sent by a tornado and a sigh of relief. I still don't know how to go when I go back. I also need to search for a transfer point.

Then we need to wait until everyone is together. People are more powerful. If everyone comes together, if they can do it, they will go back together, just like the ancestors said in those layers of space.

And wait until everyone comes, you can only wait!

Yes, he has the full grasp of the first one.

No matter what kind of situation they have encountered, everyone is suppressed to the level of ordinary people, which is unified.

According to his situation, if there is no sacred armor, it will take a lot of time to get rid of the rugged caves of dozens of miles, and then fight with the snow monsters. It will be a good life, and you must find ways to get rid of the snow monsters.

After killing the snow monster, you have to go down the mountain, cross the valley, and climb the opposite half of the mountain...

Not to mention the variables of the power of the snow monsters, just to hurry, for ordinary people, at least one day, or even two days.

Others have been injured, but they still don't know if they can survive, mentally tormented, and physically hungry for seven days. Under such a state, they will start to roam the caves for dozens of miles...

Although everyone's situation may not be consistent, and even the difficulty is different, it should not be huge.

Therefore, according to his own situation, Shen Lang guessed that other people did not starve to death, did not have a road accident, but also could attack the monsters. Finally, they could escape. At least two days later, they could come out.

The people of Wella and the people of the gods, who may not have been injured, may be prepared to be more adequate, but at least for a day.

With this, Shen Lang directly entered the space of Tianshu, ready to wait for the outside world to come out after the past day.

On the one hand, he is in urgent need of verification, whether the space of Tianshu is still normal, if it is affected, then the trip will be a big loss, let alone the dog ***** inside.

On the other hand, there may be other unknown dangers left here, so it is better to hide.

When he once again entered the space of Tianshu, Shen Lang could not help but take a long breath.

This is the real peace of mind!

“What?” The dog **** woke up immediately after he came in.

For the dog god, this is more than seven hundred days and two years without seeing the waves, but it is also practicing, and will not perceive long and specific changes.

The last time the Shenlang came in, it was seriously injured, and it kept the restless, worried about what would happen.

Shen Lang smiled and said: “I am fine, come in and take a break.”

The dog **** stared at the waves carefully and nodded.

It is a much higher level than Shen Lang. Naturally, he can see that he is not injured.

But after nodding, it was surprised again.

“You are this...”

“what?”

When Shen Lang just finished speaking, he felt it. This is to break through the realm of the gods!

He has already arrived personally, just considering that going back to the earth will exceed the power of space, and it will lead to catastrophe.

There are still a lot of things that he can't put in this world, so he is forced to suppress.

Therefore, the realm still maintains the peak of Daxian, which also gives the enemy such as the Great Wild Five and the enemy, because the actual comprehensive ability has reached the level of the Great God.

But now, perhaps because of the excitement of the lost, perhaps because suddenly recovered from the ordinary people to the level of the Great God, let him neglect the control, leading to the rushing to the realm of the gods now!

Shen Lang could not help but be depressed.

Because of this situation, I want to suppress it again, and I can't suppress it!

Even he is depressed now, and he has no time to be depressed. He must be prepared to break through, so as to avoid the situation of ignorance.

The dog **** did not say anything again, just beside it.

In this space, it does not need to worry about the danger of being outside, but it must help the law to protect the law. In the event that his personal breakthrough is dangerous it can help solve it.

Shen Lang can only break through the realm of the gods at this moment, but although he is fully absorbed, there is not much pressure.

Because he had completed one time in the past life, after practicing to the realm of the Great God, he reached the upper limit of the earth space, and this was the day of the robbery. It was not necessary to complete the robbery to break through to the realm of the gods.

Now, he has already reached that level, but the individual has been suppressing it.

It's like buying a sports car. It used to be opened. Now, although it is not open, other cars that are driving can also produce a level of sports car, and the money is ready. Finally, it is a matter of course.

Having said that, it is still very careful to get started with the sports car.

Fortunately, although the accident did not suppress the breakthrough, but came in the space of the heavenly book, even if there is a day outside, there is also a hundred days, and there is a dog **** to look after, there is no need to worry about other dangers.

This can be spent more peacefully. As for the problem of returning to the earth, I can only talk about it later.

Chapter 1954 - New god

Although the whole process is a process of water, according to the prediction of Shen Lang, it should not consume too much time, but did not expect that this time it took three months to break through the realm of the gods!

The dog **** is on the side for three months!

It looks like the Shenlang does not appear abnormal, and there is no intervention, just constantly extracting the aura of the spirit, pressing around the waves, if he needs, can better supply.

After all, the dog **** is a behemoth, even if it is different from other behemoths, and understands some human cultivation, but it is mainly a evolutionary route.

And before it helped to break through the waves, it took more than a month. Now it is higher and it takes longer. It feels normal.

The real situation, only Shen Lang himself is clear.

He is really a little bit of an egg!

Because this time, the situation has surpassed the previous experience and exceeded the previous preset.

Originally, he had already reached the level of the great deity, and continued to press, is to make the foundation more solid, so it should be easier to break through.

But this time in the process of breaking through, most of the time, it is completely out of his control!

But in the process, did the body get out of control, and it seems to be changing in a good direction.

In the end, he had a strange feeling. In this long period of more than two months, it seems that there is something to transform his body!

The cultivation of the original is a process of reversing the heavens of the body. To the great fairyland and the realm of the great gods, as the name implies, it has already had a huge difference from the ordinary people.

But this time, Shen Lang felt that there was an inexplicable energy, and he changed his body again and changed it!

He is now in the space of the heavenly book. It is normal that he and the dog god, the spirit and the spirit.

The environment is so, he has not had any abnormalities, but this energy seems to be contained in his body.

After finally completing this long process, he finally broke through to the realm of great deity.

“Successful.”

Watching him open his eyes, the dog **** said with relief.

Shen Lang noticed the time of the holy armor. It has already passed three months. It seems that the dog **** is always guarding, and there is a turbulent aura around him. They are all help from the dog god.

“Successful.”

He also smiled and did not say anything to thank you. He is now with the dog god, and he does not need a verbal guest.

Then the dog **** looked at him for a while and sighed.

“The Terran, it is really unique. I thought you were too much for me, and now I have caught up with me.”

After talking about it, holding the spirit, squatting down, seems to have to hurry.

It is really very embarrassing. If you live for thousands of years, you will not say it. In the time when you know Shenlang, others are making rapid progress!

Because of the relationship between Shen Lang, I have eaten many beasts and strong people who could not be eaten before, and Shen Lang has supplied a lot of resources and has a cultivation environment of 100 times.

The dog ***** feels that it should have improved the level of the millennium and evolved to a higher level.

I didn't expect Shen Lang to raise it casually and catch up with it.

People are more popular than people, and beasts are more popular than humans!

Shen Lang is crying and laughing, is it so exaggerated?

Although he broke through to the realm of the gods, but there is still a gap with the dog god, the dog ***** is stronger than the general god, has been practicing evolution here, and has enough resources to reach a higher realm.

He had reached this level before the highest. Now it seems that above the Great God, there is also the advancement of the Great God, and it is not clear afterwards.

If this is the case, the dog ***** should have a great peak, right?

And he is just a newcomer who has just broken through.

Since it has broken through to the realm of the Great God, Shen Lang does not need to be suppressed.

Some of the resources I have obtained before can not be used, so as not to be able to bear it. There is no problem now, and there is even a feeling of hunger.

First of all, Shen Lang took out the tower.

After reviewing it, everything in it has been completely refining and turned into a Dan Pill that he called “Human Dan”.

It is indeed Ren Dan, the “master material” inside is the ancestor of the absorption.

It is conceivable that this medicinal drug will be overbearing, but now that there is a realm of great deities, Shen Lang is not worried, it should be affordable.

Estimated the time, he stayed for more than ten days, still more than enough, if you ignore the Lingxi God, the Weiner Star, even a few months, still have time.

So he swallowed it directly.

This one should be enough for his current supply. The remaining Lingmai, Yuan Lingshi and so on, have little effect on him now.

Well, the spirit is still not a small role, just possessing the essence, has been a bit invisible.

In addition to leaving some as a hard currency, he took a bunch directly out and piled it in front of the dog god.

The dog **** now has time to retreat and practice. It is also strong and strong enough. It can be absorbed slowly.

As for the person Dan, and the “Essence of Heaven and Earth” that I got before, I didn’t give it to the dog god. It wasn’t a reluctance, but it was more effective and more suitable for him to save time.

Just like before he was seriously injured, he could swallow the giant 鳌, and the dog **** helped him with all his strength, so he quickly recovered.

And the dog god's own consumption can have a lot of time to make up.

He has two "Essence of Heaven and Earth", although he does not know what the spirit is, or how to use it. But still decided to try it out, take one directly, and then swallow it!

The person who has collected such an ancestor is already very overbearing, but it is too effective. And the essence of this world is a spirit that already has a certain spiritual understanding!

After swallowing in, the essence of heaven and earth immediately wanted to break through his body and leave!

Shen Lang certainly won't let it go. He is now a realm of great deities. He can control and play more space, and immediately suppress it!

At the same time of suppression, it began to rapidly absorb and absorb.

What surprised him a bit was that when he began to suppress, not only the spirit of the heavens and the earth, but the essence of the heavens and the earth faltered and honestly, it was the efficacy of the human body, and it seemed mild.

what's the situation?

The previous generation of Shenlang reached the realm of the gods but there is not such a good thing to supplement, or else it will not be a catastrophe.

But even without this experience, he still felt that it had nothing to do with this. Instead, he thought of the suppression of them by the Yungong Holy Land.

Then he associates with a problem that had bothered him.

Up to two months of transformation...

Is it in this cloud palace holy land, absorbed the energy inside, completed the transformation of the body, so the suppression effect is amazing?

I didn't feel it before, because I was also suppressed. It's a mortal state, I can't feel it.

Yes!

He immediately thought of the key points!

Chapter 1955 - Waiting for the rabbit

That mysterious space!

If you just want to trap them, you are hungry for seven days, and you are mentally anxious and nervous for seven days. You don't have to send a single aperture, just trap them under the ground.

And if there are too many people, it can also test human nature, which is more effective than a single trap.

It will be fine to go directly to the exit like a cave at that time.

In the confession of the Lingxi Kingdom and the Weiner Star, the "gate" is mentioned. Although it is not detailed in the end, it is obvious that they are yearning for this and realize that this is not normal.

That goes into that special magical space, and the seven days that are trapped may be resources in itself!

Maybe it is to absorb a lot of mysterious energy, and then after the test, when it comes out, it will transform the body itself!

In other words, even if he does not encounter things that suppress the realm, he may transform his body.

At that time, those who were able to go out, each of them became the ancestors of the founding school, what is it based on?

It is certainly not just a test of the physical and willpower of the mortal, what the snow monsters are, and all of them are limited. Is the purple ball exported?

With such a speculation, Shen Lang feels that this possibility is even greater!

Otherwise it is impossible to explain the changes in his body.

Also, the dog ***** said that he would catch up with it, and in their relationship, there is no need to flatter him, and the dog ***** is also beginning to hurry to practice!

Does that mean that after the body has been transformed, the Shenlang that has just broken through the realm of the gods is actually more powerful?

This idea made Shen Lang a little excited.

But specifically, you still need to verify.

Now, he is eager to refine the essence of the suppression of the world and the refining of people!

If there is still a peak in the upper level of the Great God, then after absorbing these two things, even if you can't catch up with the peak, the difference will not be too great.

When I came to the world at the beginning of the year, all the strong planets were oppressed by the little Yuxianmen. At that time, he could be compared to the earth.

But until now, reaching the realm of great deity, it is truly reaching the level of the world.

In this case, even if you do not use the magic weapon and strategy, you do not need to take advantage of the enemy of others, and you will not be afraid of it.

This refining and refining, Shen Lang took another half a month.

Of course, it is not enough for complete refining, but it has absorbed most of it, making his current realm very stable. The rest will also slowly absorb as the “Yin and Yang Waves Are Real”.

Shen Lang did not continue to practice in the space of Tianshu, but was prepared to go out and wait.

When they come back in Gao Hanqiu, there are a few who can come back. That is one aspect. On the other hand, it is not cheaper to Lingxi Shenguo and Weiner Star!

Shen Lang did not follow the advice of the ancestors on the same day. He did not kill the two parties. In fact, there was such a thought that he did not say.

After everyone has used all the portals, the extra ones can't come back and go back again – in fact, it really proves that, after seven days, even if the ordinary person's body can overcome it, go on, there should be no It is.

So it is better to let them follow the cheaper.

Like now he will come out first, you can wait here to see what they have gained!

When necessary – snatch!

They all formed alliances, but they drove away the strongmen of the mainland, and did not kill them. Perhaps they also had such an idea.

Originally entered into such an environment, it is easy for everyone to put down the principle, such as Tong Xian Weng and others, for the Shen Lang who came together, they want to get rid of the resources.

Not to mention these people from different worlds.

From a close point of view, everyone has had friction, it is a grievance, and the other party will not let him go.

From a distance, other worlds are enemies to some extent!

For example, the world of giant beasts is for the earth, and the earth is for the earth world.

According to the “Dark Forest” novel, the civilizations in the universe are hostile to each other. Once exposed, other civilizations will attack you.

Different worlds are not easy to pass, especially on a large scale, but everyone wants to seize the other’s resources and does not want the other to take resources.

To weaken the enemy is to strengthen yourself.

This can even be said to be a hero of the world.

Even if they both have no gains, Shen Lang can get some information at least.

After the decision, Shen Lang came out directly and reappeared on the open space at the entrance of the palace.

Then I saw the outer door of the palace. Shen Lang still had a snack. It turned into the taste of ordinary people. He really didn’t want to experience it again. Even if he knew that he could recover, he would not want to experience it again, just in case?

There are no other people on this open space, and I don’t know if someone left in the past day, or no one has come out at all.

Shen Lang estimates that the latter is more likely. He almost cheated. He did not bear the danger and tiredness of ordinary people wading through the mountains and fighting snow monsters. Others are certainly not so easy to come out.

He did not go back to the space of heaven, but waited here, and began to manipulate the current power in a small scope.

Have to say a higher realm is a higher realm.

Before being suppressed at the peak of Daxian, even if it can exert the power of the realm of the great gods, it is barely reachable.

Now the real breakthrough has reached the realm of the Great God, the effect is very different.

Before the comparison, compared with other great ancestors who have played against each other, and comparing the experience of past lives, Shen Lang can feel it. His current strength is beyond expectations!

This should come from the effect of the mysterious energy on the body transformation, of course, the effect of Dan and the essence of heaven and earth.

After a few hours like this, Shen Lang saw a person appear!

And this is also a little surprised.

Originally, the palace gate was open, and it was also able to see that the distant temple door was open, about 100 meters apart.

But in fact it might be a phantom, because he looked at it, but he didn't see the man coming out of the palace, and he didn't see how it came. He came from the square and was close to the porch. see.

The people who came out, no doubt, also know what will happen. At this point, they are trying to keep themselves awake, and then rushing out of the brain, try not to stay too much.

In this case, on the edge of the lost, there is no way to find the outside waves.

“It's finally out! I am the first person of Verna Star!”

After rushing out of the gate, the repression disappeared. The first thing I felt was the lost mystery. I woke up.

The Wiener Star, who could not help but feel the recovery of the body, could not help but scream.

Then he saw a man in front of the open space, looking at him with a smile.

How could he forget this face?

Chapter 1956 - Hidden part

Before that, in the underground, only when Shen Lang was able to use the treasure, he directly killed all the barbarians and then intimidated them one by one.

They have a sigh of relief in their hearts, but they can't break out, so as not to be scribbled.

After so many days, he was worried that he could not see this young man again.

According to his inference, this young man may not be able to die, and it is impossible to take revenge.

I didn't expect it to just come out, I saw this kid!

"Kids! You still have a life out? But you are so big, you don't want to hurry to leave, dare to wait here?"

This Verner star Verne, looking at the waves, said coldly.

This sounds like it can't be believed, but Shen Lang can see through it at a glance, in fact, this guy has not recovered yet!

Just came out, the first thing I felt was waking up, and then the disappearance of the suppression, the recovery of strength.

Verne's move is nothing more than trying to delay the time and let him recover better.

"I am waiting for you."

Shen Lang hooked his finger.

This is one of the things waiting, no matter who it is, it's good to come out.

“You are waiting for me? I see you are waiting to die!” Verne began to laugh at the beginning.

In such a few words, he felt that he was recovering quickly, basically no problem, and dealing with a young man in the district, it is nothing to say.

“Wait for you to wait for death, you are equal to death? Originally, I didn’t want your life. Since you are so sure, then die!”

When Shen Lang spoke, a sword appeared in his hand.

In the following time, he also took a sword, but that is the weapon inside the holy armor, is a close-knit blade, and illegal treasure.

At that time, the magic weapon effect was created, which deliberately attracted everyone’s attention and then used the gun to make a headshot.

Now it is different. This sword is the sword of the king!

However, Verne did not think so, thinking that it was the same thing. For this weapon that made them feel humiliated, they really want to take it and destroy it!

“court death!”

During the conversation, he raised his finger and pointed directly at Shen Lang.

Immediately, a beam of light came quickly and immediately reached the front of Shen Lang!

The beam is undoubtedly extremely fast, but when he raises his hand, the body of Shen Lang has moved, and the sword of the king has moved!

Just the next moment when his finger had just shot the beam, the whole arm was smashed by the sideways, and the sword of the king was broken!

The next moment, the sword of the king’s sword, has been close to his throat.

The chill in the throat made Verne shocked.

He was originally watching Shen Lang, waiting for Shen Lang to be hit, but this is his early shot, according to the reason is the increased chance of success.

But at the moment, when I felt the chill of my throat, my eyes saw the arm fly out.

At that time, his brain has come to understand.

The strength of the other party is not under him!

If there is no strong strength, there is a magic weapon, and it is impossible to win his arm.

And at the speed just cut off his arm, the sword completely cuts his neck with thoughts!

“Cold, cold...still, have something to say...”

When he said this, his voice was very slight, and he tried to whisper as little as possible, fearing that the vibration of the vocal cord would cause Jianfeng to break his throat.

At this time, he felt a hand grabbed his head.

Verne secretly smiled, but couldn't say anything. Compared with the sword in the throat, it was nothing to hold on to the head.

In the next moment, he was shocked!

Because he felt the body was suppressed again!

Although it has not yet reached the level of ordinary people in an instant, the instinct feels that all aspects of the power can not be used any more, which makes him more afraid than imprisonment.

At this time, he suddenly felt a strong attraction, and did not figure out what happened, he was sucked into the tower!

Shen Lang just did intentionally suppress him. It seems to have a certain effect. It is impossible to compare with this cloud palace holy land.

In the case of repression, he easily completed the reading of Verne's memory.

Then he wouldn't be polite with him, use the tower directly and inhale him, including his broken arm.

At the moment of entering, he took off one of his necklaces.

According to memory, this is Verne's storage magic, all things are inside.

But for Verne himself, Shen Lang did not hurt him any more, nor did he extract his spiritual strength.

It was the suppression that made him weaker, and he went inside the tower and was able to recover. It is exactly what he needs to attack the Tiantian Tower, which will strengthen the tower.

After all these things, Shen Lang carefully understood the memory of Verne.

For the common sense situation on the Wiener Star, it is just a glimpse of it, not going to the world, without too much understanding.

Verne's own information does not need to know too much. The key is related to this cloud palace holy place.

really!

They are still hidden.

When Shen Lang separated them on the same day, everyone immediately thought that they wanted to cross the information, so they immediately reached a tacit understanding through eye contact.

Which can be said, which can not be said, they are very clear, so even if there is no verbal supply, separate cross-examination, the results are the same.

The “gate” message they revealed this, but did not say what would happen behind the door.

Now I read his memory and I know the hidden piece.

In fact, they did not lie, but the language was unknown. Each transmission aperture is the creation of each one.

The places that pass the past are not all the same, there will be nothing in the end, and there is no exact information. But you can be sure that is the highlight!

After the portal, it is the final test. As long as it can pass the test, it can be re-entered, even if it is completed.

The Weiner Stars – perhaps the same as the Spirit of the Kingdom of God, have more people entered, and have passed on more information, so they will know more.

So for the situation after the portal, they are more psychologically prepared, don't worry about being trapped. For the latter difficulties, there are also preparations that can be better handled.

Finally, to Verne's personal head, the place where he arrived, is similar to Shen Lang. He waited with peace of mind, but he had just come out now, and he had not had time to renovate his body, nor did he know what he had harvested.

But there is one point, it is still different.

Verne only stayed for three days!

Then he was sent out, unlike the case of Shen Lang, who was directly trapped in a deep valley.

Then there was the fight against the monster, and it took a period of four days to climb out of the deep valley. This process took almost four days, and it was almost exhausted before it appeared in the palace.

However, after he came out, he saw the door open, and did not see the aperture again, nor the purple ball!

It seems that... Shen Lang was the first to open the door, and took the reward, and there was no more behind.

Chapter 1957 - Accidental element stone

If this is the case, it means that in the time of the mysterious space, it is the main harvest, and the purple ball that goes out is an extra reward!

Shen Lang silently compared it. In time, he spent seven days, more than twice as much as Verne.

But in all aspects of getting out of the cave, defeating the snow monsters, leaving the valley, etc., his speed is a great lead, far away, they are incomparable.

This reward, even if it is not because he passed the fastest time, but also because the first one came out.

And the time in that space should not be the faster, but the longer the better!

If it is really capable of absorbing what mysterious energy can transform the body's energy, then this Verne should be saturated in about three days, so the space collapses and disappears and is sent to the place where it left.

Shen Lang himself insisted on seven days.

He still has confidence in this point, because his state is undoubtedly the best one, and his mentality collapses after the third day!

Perhaps normally, it will not last until that time.

However, because he thought of the wheel of the sky, he did not predict any danger, so he changed his mood and waited for it.

In this way, then he should be the biggest one!

Verne's experience also allowed Shen Lang to reassess the time of everyone's coming out.

When he came out, he thought that everyone was seven days old, and then they evaluated other people's ordinary body, and it took at least one more day, and the injured ancestors had at least two more days.

But now Verne is gone for four days, not right... plus his time in the space of the Bible, in fact, Verne took about five days to come out.

What about the other people?

It's just like the strength of Verne, it's not necessarily the same time!

Because in that mysterious space, it will be a variable, and then the way to random transmission, the difficulties and dangers encountered, is also a variable.

But in general, the injured ancestors may not last long, and they will come out longer!

There is no law and no fixed number. For example, whoever may come out in one day, and then use it for six or seven days, can almost come out.

Shen Lang was originally thinking about fishing for two other worlds here. The ancestors may be coming out at the end because of injuries. When they are killed, they should go first and wait until the ancestors. When it comes out, it is safer.

Now that everything is random, no one can predict who will come out next.

Verne was trapped inside the tower of the tower and couldn't help but attack.

It turned out to be a mortal for seven or eight days, and regained power, so that he would like to make a big impact, and swear by the waves.

Unexpectedly, the other side directly suppressed him by speed and weapons. He only had time to take the shot once, which of course was very unwilling.

Now people are trapped inside, let him realize that if they can't go out, it will be very dangerous, and they are likely to die here!

His storage space has been captured, and what he can use at this time is his own strength.

Enduring the broken arm, he slammed the power and dissipated so much, crazy attacking the tower...

This is exactly what Shen Lang wants. He also opened the necklace of Verne.

The result made him disappointed!

This storage space is not large, and there is not much.

It seems that they have the same mentality as the ancestors here. This trip is dangerous and life-and-death is not enough. If you can't go back, if you can't go back, it is a waste to carry more resources!

In the end, if you can come, the strength is very strong, and the dependence on the weapon magic weapon is not great, and the general comprehension resources have limited effect on them.

Everyone is looking for an adventure in the Yungong Holy Land, whether it is an unknown magical resource or a resource that everyone can use.

It is the cold autumn, the snow is not snow, they are the same, so after the injury, only Shen Lang has a lot of resources to supply.

However, Shen Lang still did not let go, carefully looked at it, the mosquito legs are also meat.

The result saw a stone.

A little familiar stone.

He took it out and looked at it carefully.

In the memory of Verne, this is an ore of Venus, although rare, but not precious.

Because its role is limited, it can only be used to repair weapons.

To make a comparison, the value of this ore is the extent of the Yuanling Stone. Can't compare with the Spirit, let alone the rare spirit.

But for Shen Lang, it is very rare!

This is not only the vision of the earth. According to the eyes of the earth, the fine stone of the upper class is already rare, and the Yuanling stone is rare.

But in the mainland of the island, the Lingshi crystal mine is still very abundant.

This makes Shen Lang familiar and valued because he once got the element stone!

This is something that can't be met. It was also the big man of the earth. I wanted him to lead the way and go back to hell. The Pope has given a lot of benefits, and Shen Lang has also paid for the big men in the East.

Among the few rare items that were collected, there was elemental stone. He was used to repair the Kunlun mirror and upgrade the Ba Tian Tower.

This is where its power is.

Weiner Star is only used to repair weapons It is a big waste, so a large piece of elemental stone can be used to repair broken magic artifacts, but also to improve the quality of normal magic artifacts!

Shen Lang is here, and has also harvested a large number of resources. From Lingling Stone, to Lingmai, to Lingjing and other spiritual mines, from the jade peach to the water Linglong and other spirits, they have not encountered elemental stones.

Getting this big piece at the moment made him very excited.

Do not say anything else, from the Ba Tian Tower to the current tower of the tower, both the merits of the elemental stone, but also the credit of the living in the attack. The latter is equal to the self-rescue of this artifact!

The current tower has not yet fully recovered, and I don't know what effect it will eventually achieve.

This harvest of light makes Shen Lang an unexpected surprise, and then thinks more.

Since this thing has not reached a rare level in the Weiner Star, Verne will be prepared to use it when the weapon is damaged. What about the other Weiner stars?

Are they also equipped with elemental stones?

Light can bring this batch over, and Shen Lang feels that it is worthwhile!

While waiting for other people to come out, Shen Lang also has a bit of a tangled place.

According to Verne's memory, Shen Lang knows how they came over.

The Yungong Holy Land is a representation of the transmission point at Weiner Star, but they are directly transmitted to a large open space in front of this suspense!

Recalling the situation at the time of the day, Shen Lang estimated that Carols and their gods would be sent directly to the platform.

As for going back, they don't have the exact information. They just think that from here, there will be a transfer point for them to return to Weiner Star.

Then what do they do?

Chapter 1958 - Acquaintances appear

Because Shen Lang does not know how to go back, he can only take one step at a time.

But the ancestors who are here now are only part of it, and some of them are trapped in the ten-mile space of that layer.

Before he agreed, he will go back with everyone to leave, and there are also people such as Fan Xueyu, Bai Yu, Xu Yuyue, Mo Feiliu and others who have not kept up.

But obviously, after that sigh of gas and tornado, it was transmitted here, and then came down the mountain road to enter the mountain.

But what is needed is a lost medium, and there is no fixed door.

If it is outside the layer of space, it is okay, use a small shovel to dig over the wall, and then look for it in layers, you can always find everyone.

But if not a place?

For example, the layer of space may still be somewhere in the meditation area. After it is transmitted again, this is really the holy place of Yungong.

Then look for a transfer point to go back.

Even if the experience of Weiner Star is reliable, there will be a transfer point here, where will the place go back?

Shen Lang has no interest in following the trip to Weiner Star!

It's not a way to rely on him alone. His experience is limited, and he can only wait until everyone comes to discuss it.

In addition, he may be able to catch a few more people from Weiner Stars and Lingxi Gods. They can read their memories here, and they are not afraid of hiding them. Collecting more information can always piece together a way out. bring it on!

When the second one comes out, it is still a Weiner star.

With the information of Verne, Shen Lang can be on the top.

This time, he simply did not talk nonsense, directly when the other party just came out, just when he was just waking up, he grabbed it!

Verne's thinking can represent the attitude of all Wiener stars.

They came out and found that they had recovered. Seeing Shen Lang again, they will definitely want revenge.

It's already a situation where there is no such thing as a vow, and there is nothing good about humanitarianism.

Because all of them are broken up, no matter which side of the three parties, people will not come out at the same time, even if they begin to enter the peak period, they will continue to come out.

But there is still going in together!

After they advanced to the aperture, Lingxi Shenguo and Weiner Stars rushed over, perhaps because the aperture entered disappeared, and the rest was not enough, perhaps because of the rush, and two of them entered an aperture at the same time.

Therefore, the third one is the two people of the spiritual kingdom.

"It's finally out!"

After spending the square of the square and the porch, I almost lost my lost mind, and I woke up so that they could not help but sigh.

But when I just finished speaking, I found that something was wrong.

The strength of the body has just begun to recover, and it has been suppressed!

After two people from Weiner Star, Shen Lang has already had experience. After seeing them, wait directly next to them.

Because the other side is escaping the last few tens of meters, it is on the edge of the lost mind, it is good to run straight out, can not see the front, in the state of ordinary people, it is even more impossible to detect the deep waves ambush.

The result is that they don't need to be hands-on, and they are caught with ease.

Compared with the Weiner Stars, the people of Lingxi Shenguo are more "poor"!

Nothing is brought with you, so come with a treasure of storage, this is the rhythm of preparing to move into Baoshan!

However, when reading their memories, Shen Lang found that their mental strength is particularly strong.

They are spiritually sacred to the kingdom of God. There are special trainings for this, as well as their gods.

The power of these pure beliefs, Shen Lang is also unceremoniously drawn, he can now bear more.

After getting it, it is the same as sucking into the tower.

What kind of state they will be in the tower of the tower, they will not be in charge, anyway, the more they attack, the more they can make the tower grow.

When the problem was solved, the fourth batch came out again.

What makes Shen Lang a bit surprised is that this time it came out, it turned out to be snow and snow!

Since it is snow and snow, he certainly will not attack her. Instead, she is ready to assist her. If she falls on the porch, she will be hooked out.

Of course, snow is not bad, but it persists.

“Snow palm door.”

Suddenly awake, Xue Fei Xue heard a call, could not help but be surprised.

“Shen Lang?”

After seeing that it was Shen Lang, she settled down and felt the recovery of strength. This is a real relief.

“It looks like your status is OK.”

Shen Lang smiled.

Snow is not snow but it is white.

She is in this state, can she be alright?

Originally, she was in white, fluttering, and graceful, and she was a real figure of a fairy.

But now, white clothes have been contaminated with a lot of mud and moss, and the hair is messy, not to mention shoes and the like.

If you carry a sack on your back, it is like an ordinary woman who has been plagued by disaster.

Before the road, she had only one person. She didn't have to worry about the image problem, and she couldn't care about the image. It was the most important thing to be able to leave safely.

Now I have calculated it. The first time I think about it is whether I can restore my strength
Otherwise I will die.

Wait until this confirmation, and then have the heart to think of others.

Then I was a little embarrassed. When did she have such awkward side? It was also seen by Shen Lang!

This kid has already packed up himself. Just now, it is clearly ridiculing her!

The snow was cold and cold, and it went straight to the corner of the front platform. Then it waved an isolation, and there was a whirlwind around it, which separated her complete package.

Shen Lang couldn't help but think of the scene when she went to Yaochi to see that she didn't wear clothes...

It is reasonable to say that she is going to bathe and change clothes there, and he should help her out.

However, it is not polite to look at it. It is not polite to stare at it. Shen Lang is still at the gate and looks inside.

The result is really someone coming out soon!

"It can be counted..."

This time it came out of the Weiner Star, and the words were not finished yet, and they were directly stunned by Shen Lang.

Shen Lang has become skilled, and Weiner Star may have elemental stones. He can't miss it.

This is really at the peak, it is being processed, and there is another Lingxi ***** coming out...

After Shen Lang fixed the two calls, Xue Feixue had already bathed quickly, and changed the clothes, finishing the hair appearance.

The beauty of love, or cleanliness, made her unable to stand the way before, but in such an environment, she can only deal with everything as quickly and simply.

“what happened?”

Her recent obstruction was to block the waves from seeing, not to hear the bathing and dressing, and to prevent the detectives. But she still feels that something is happening outside.

“Nothing, hunting!”

Chapter 1959 - 2 points

Snow is not snow, I thought that Shen Lang was joking. Even misunderstanding was to compare her to a prey and give him a blank eye.

Then I talked to Shen Lang about their situation.

Shen Lang has now learned about the situation of many people. Snow is not the same as snow. She is transported in that special space. Finally, she stayed for five days and took three days to get out.

In order not to appear to be too special, Shen Lang said that he stayed for seven days and spent more than one day.

He was not injured. He used to show the usage treasure, stayed for two more days than others, and came out faster, all within a reasonable range.

If you know that he is coming out quickly, it will be unbelievable.

“I came out first, I have already sensed it. Now, in addition to recovery, the few days that stay in that special space seem to have absorbed mysterious energy, which can help us transform our body. The snow palm door feels.”

This is a reliable friend, and I can also ponder it out. Shen Lang does not regret it, telling her directly.

Snow is not a little surprised, then carefully looked at Shen Lang, and immediately found that he has advanced to the realm of the gods!

“You, you... Shen Lang, you can!”

Although she knew the time of Shen Lang and soon got along, she was very optimistic about this young man, and Shen Lang once told Yao that she had told her a lot of things.

At the level of the peak of Daxian, it was combined with the magic weapon to kill several great ancestors.

The future of this child is not limited, and it is only a matter of time to advance to the realm of the gods.

But I never thought how long it was. When I first saw him from Yaochi, it was less than two months.

She immediately guessed that this time I came to the Yungong Holy Land, Shen Lang should have a huge harvest!

Before Shen Lang first left, bye-bye, it was already under the ground, the three sides were squatting, so many people, too late to detail the passage, do not know what Shen Lang got.

And the transformation he just said, she hasn't experienced it yet, but it should be true.

Perhaps after Shen Lang came out, he felt the change and broke through the realm of the gods.

No, it should be a glimpse of this little land, and it has already gained a lot!

Shen Lang is not her disciple. It is impossible and need not to report all of her, so Shen Lang specifically harvested something, and she could not control it.

And now it seems that this kid is coming out soon, and it should be the biggest one.

“it is good.”

When the snow and snow experienced the physical changes, someone came out.

This time she saw it with her own eyes, and then I realized that Shen Lang is really hunting! Just the goal of hunting is what Lingxi Shenguo and Weina Star!

On the day of the day, she was also in the forefront. If it wasn't for Shen Lang's arrival in the town, everyone would be suppressed by the other party's tripartite team and might even die.

Therefore, she is also supporting the behavior of Shen Lang, and even wants to help him, but look at Shen Lang has been very familiar, and rest assured.

Then she had another question: How much has this kid been hunting?

After a whole day, Shen Lang greeted a batch of batches, and they all gave them the opportunity to shoot them. They just stayed out and lived.

Then the harvest is mainly two aspects, the spirit of the kingdom of God, he is to take their spiritual power; Weiner star is the elemental stone.

But not everyone has elemental stones, but it is already very satisfying to harvest a few more pieces.

In the process of coming out in the land, the ancestors of the mainland of the island also came out.

Their situation will naturally not be better than snow and snow. If they can come back safely, they will be very fortunate. They will not count on what to harvest.

Shen Lang does not need their help, just let them think about it and see what can be done.

So wait until the next day, Shen Lang calculated, about half of the people came back.

In terms of proportion, it is more of Weiner and Lingxi, and the ancestors of the mainland of China, except for him and Xuefei, there are two more back.

After the next day, I passed the peak period, and I didn't see a figure for a long time.

Combining the memories of so many people on both sides, they basically want to wait for the transmission point to appear on this platform, but until now, it has not appeared.

Shen Lang began to feel a bit anxious.

Because of the cold autumn.

He himself has personally experienced it. As an ordinary person, dealing with those snow monsters is often a lot of fierceness. Even if everyone's experience is different, it is estimated to be similar.

So in general, it can be halfway back, which is a good ratio.

After the peak period of the return, it is even harder. It is very likely that I will not come back, it is already hanging.

It doesn't matter if you are a **** of the gods and the stars of Weiner. Even other ancestors can't come back if they don't come back.

But the cold and cold autumn is not the same, this is the one that Shen Lang has the most to remember.

The sort of small high is still above the snow and snow!

The problem is that if the cold autumn is not coming back, he has no way!

Even if he is willing to risk the suppression of a mortal, and then go in again, there will be no more apertures. Even if you can wait until the aperture is transmitted, you will not be able to get to the place where Gao Hanqiu is located.

Therefore, even if he is worried about the safety of the cold autumn, what he can do is wait.

Snow is not snow and the other two, you can also see the thoughts of Shen Lang This makes them a little surprised.

Although starting from the Yaochi event, it is Gao Hanqiu's initiative to get close to Shenlang, but in everyone's opinion, the age difference between the two people is so great. Even if they are brothers and sisters, they are just a kind of guest, which is similar in identity and background.

But now I can see the look of Shen Lang, obviously it is very worried about the cold autumn.

And they are very clear, including snow and snow, they all understand that it is not that they are not inside, and that the waves are not.

However, even if their brains are wide open, they can only think about the past and forget the year. How can they not guess that Gao Hanqiu is the little brother of Shen Lang's past life!

The next day passed and no one came out.

During the period, Xuefei Xue also told the other two ancestors about the information that Shen Lang said. Everyone used the waiting time to experience the changes in the body.

As for the clues to leave, there is no one that is reliable.

By the third day, Shen Lang was a little anxious.

The wheel of the celestial plane can predict his own situation, but can not predict the safety situation of the cold autumn.

Every time of the day, I hope to take a copy.

And they can't wait here all the time, even if they don't say it, even if everyone doesn't leave.

But at a certain time, you still have to give up, you must spend your time looking for a way out.

“Shen Lang, we are divided into two ways! You are here to wait for the ancestors and other ancestors, we three to find the clues to leave.”

Snow and snow can't wait any longer. She can't let Shen Lang give up the cold autumn, because there are still five or six ancestors who have not come out.

But she can't put it down! Whether you can find an exit or not, you should bring your disciples to your side.

Chapter 1960 - Save Carol

Shen Lang agreed to the snow snow method.

He has collected more information, and there is no safe way. He can only search for it as much as possible. If he leaves for ten days, there will be new transmission points.

And he himself still has to be guarded here, waiting for the cold autumn to come out.

The two ancestors also found that Shen Lang was promoted to the realm of the Great God, and he also saw him hunting one by one.

Those who are all other worlds, but they should not be much worse than them. In front of Shen Lang, they have no resistance at all. They are all included in the tower.

So even if they don't want to waste time, they don't dare to reveal anything.

Not to mention that Snow and Snow are also supporting Shen Lang.

When Xue Feixue wants to take them to find another way out, both of them are immediately supported.

After they left, Shen Lang waited for a long time.

Finally I saw another person appear!

But this person is still not a cold autumn, but another person who knows – Carol.

This makes Shen Lang a little hesitant.

He has collected the spiritual gods and the Weiner stars into the tower of the tower, which is not a psychological burden.

But Carlo is not the same.

Not because she is young and beautiful, but because when they came over that day, they arrived at the same time, and then they walked side by side.

This is also a mutually supportive partner, even if the journey and time of the partner is short.

When the three parties intimidated them, Carol also advised him.

Therefore, we must kill her directly, and Shen Lang can still not do it.

Carol's eyes are on the lookout and will not forget the encounter.

Therefore, she also maintained a high degree of vigilance, but when she rushed to the porch, she couldn't help but look up at the mural above!

The waves outside the door frowned.

This guy is looking for death!

On the same day, Carlo was immersed in the mural. If it wasn't for him, she might have stopped here.

At that time, he was a man, and what should he do now?

He won't start with Carlos now, but that little partner's friendship is not enough for him to venture in and save her.

Sure enough, after Carol's looking up, he was immediately attracted, and the whole person had stopped and became sluggish, as if his thoughts had reached a different situation.

But the last time they were in, when she was out, it was a different mural.

seek death!

Shen Lang secretly evaluated it.

I just came here on the same day, I went in for the first time, didn't understand the situation, would be attracted by the murals, and then lost, it was not a big deal. If he didn't respond quickly, it might be the same.

But it shouldn't be coming out. No one who came out obviously has experience and desperately passed this paragraph.

Carol himself is obviously so, but in the end he still did not hold back.

Didn't hold back?

Shen Lang's heart moved.

Carol has no reason to die, it should not be unbearable, will it be impossible?

When I thought about it, he didn't pay much attention to the mural above. He took a glance and left, but Carol was directly attracted.

In view of the fact that Shen Lang now absorbs the spiritual power of these spiritual and spiritual people, their spiritual strength is stronger and their mentality is not so weak.

Besides, in the state of repression, everyone should be similar, then she will be attracted, there should be another reason, not to die.

After considering this, Shen Lang decided to save her!

Of course, the premise of this rescue is to guarantee his own safety. If you have the strength, you won't even have any influence on yourself, then you can save people without any problem.

Before he planned the rescue plan, he was constantly observing.

The current situation seems that although she is lost, there should be no signs of death, and more observations can be made.

Of course, this process can't be too long, so as not to "soul the soul," then save a vegetative person.

As for the rescue plan, it is very easy.

Because the distance is very close now, Shen Lang passed by at the door, and it was a few meters away.

He does not need to go into the adventure himself, but instead uses the armor, directly extending a mechanical arm, and exploring it and grabbing her out.

It has been verified before that the black technology products of the river basins will not be affected by the suppression.

After observing for a while, I saw that Carol had no change at all.

Shen Lang did not continue to wait, directly maintained vigilance, using a set of plans, extended a mechanical arm, directly pulled her out.

When he went in the last time, he patted his shoulder and let Carol wake up. Then I feel lost again and fight against losing.

But now, the robotic arm hit her, and there was no reaction. After pulling it out, it didn't wake up!

It seems that it should last a little longer, which makes her get lost.

This also makes Shen Lang a little fortunate. If it is a little longer, it will really not be saved if it is not done well.

Of course, before she is still awakened, it is a bit too early to be lucky.

“Hey, how are you?”

Shen Lang caressed Carol at this moment and patted her face.

According to the scenes of himself and everyone, it should be out in one, lost the repression, and in their realm, they will suddenly wake up, and then feel the recovery of power and other aspects.

But Carlo is now, but there is no reaction at all!

Don't really become a vegetative person...

Shen Lang is a little sweaty. If so, it is really his problem. If he does not observe it for a while, he can be saved immediately.

He has already had a certain understanding of the people of Lingxi Shenguo, and at this moment he did not hesitate to directly invade Carol's consciousness!

For the other people, Shen Lang is the first to suppress, for Carol, it is to avoid this step.

It is not to read her memory now, but to activate her mind, just like pulling back the “Three Souls and Seven Skulls”.

As a result, his consciousness has just invaded the past immediately entered a colorful world!

Carol's world of consciousness is different from everyone else, or it is not the world of Carol's consciousness!

Shen Lang was immediately alert and quickly issued instructions to the Holy Grail, lest he was also affected by the loss, and kept ready to stimulate the recovery.

After he was ready, he immediately went into contact with this colorful world.

Before he personally looked at the murals, simply noticed that many races are on the top, now touching the world of consciousness, immediately is a variety of rapidly changing patterns.

Because the change is too fast, he has no time to look at what is carefully, as if a lot of information was introduced, it is a bit overwhelming.

But very quickly, it still caught a little vein, which seems to be the map of the world in general!
