Chapter 196 - Death Valley

After arriving at the airport, they met with Xie Xun several of them. Xie's family did not have a huge departure, only three of them.

The air tickets are all ready, and the first class, Shen Lang is not polite to them.

Regarding the specific itinerary, Xie Xun did not tell him before. Of course, in public, he would not even say it. Shen Lang did not ask much. Anyway, it would be better to follow them all the way.

After the flight, the Xie family had arranged for people to pick up the plane. A commercial vehicle directly took them to another city, and then arranged accommodation in a suburban hotel.

It can be seen that this hotel is the best in the area, but it is not comparable to the big city. However, Shen Lang does not have any requirements for these. He can live with the young masters, and he has nothing.

Xie Xun still does not mention the following arrangement, that is, let everyone stay temporarily and raise the spirit.

There was no notice the next day, and Shen Lang did not ask much. At this time, they will not open him.

At breakfast, they went to the restaurant to eat. The Chinese meal was eaten by the Xie family and Shen Lang. But at dinner, it was only Xie Tongwen and Xie Yunlin who had dinner with Shen Lang.

Xie Yunlin still has nothing to say, Xie Tongwen is a big exposure, saying that other people have arrived, Xie Xun is going to socialize.

Xie Xun came with the team and did the work. They didn't bother to go to socialize. Anyway, after entering the dead forest, everyone is a competitor and they can't say some false words.

This is already very clear, here is a meeting point for everyone.

Nothing happened overnight, Xie Tongwen did they go to socialize, Shen Lang was not clear, he himself did not mix anything. In his capacity, no one else will come over and say hello to him.

For the specific person who came over, he did not care, and did not use the knowledge of God to investigate one by one. The scope of attention was only near his room. No one would offend him. He would not go back to pay so much.

At the time of the hotel in Tiandong City, Shen Lang did not stop practicing. But when they were flying with Xie Xun, it was not convenient to practice. Xie Xun is obviously stronger than the two of them. It is estimated that it is already in the middle of the virtual world!

However, after arriving at this hotel, Shen Lang is a different cultivation, grasping every minute and every second.

Xie Xun has had some “diplomatic”, is it not with other family alliances, and Shen Lang has no control. By the third day, probably everyone is about to arrive, and then they will start again.

However, there is no special car to take people away, nor to meet other people, or Xie’s separate car to take them away.

The car went all the way to the place where it could not be taken, and then four people got off the bus. The driver of Xie’s family went home and agreed to come here to pick them up.

Xie Xun is not very clear about this area. After walking, he watches the mobile phone from time to time, as if there is a map, or by positioning to determine whether there is a mistake.

Shen Lang did not talk, he did not know that Xie Xun really did not understand, or pretending to be mysterious, he quickly found traces of people walking.

They are not ordinary people, and the speed of their travel is still very fast. In the dark, they have probably gone a hundred miles away. Even if it is a straight line, there are dozens of places to get off.

“The front is!”

Xie Xun pointed to the distance, in the wild mountains and mountains, you can see the light, even if it is not the people of Death Valley, it is also the person who walks before them.

“Then we speed up a little speed!” Xie Tongwen came to the end, and finally finished.

“No, we are not leaving. Resting around this night tonight, and meeting again tomorrow morning!” Xie Xun is the leader of the team, his words are equal to the decision. However, after he finished speaking, he explained it with anger.

“Sure someone will arrive first, and Death Valley will not entertain us. Everyone should sleep, and the good location will let others take it. Besides, one night, everyone is wary of each other, it is better to keep the distance.”

Xie Yunlin had less words, and Shen Lang didn't care. Only Xie Tongwen muttered, and everyone followed Xie Xun's arrangement.

Sleeping in the wild is not a big deal for Shen Lang. Xie Xun does not show anything, but the two young masters who have been from Xiaojinyi are not so comfortable.

Shen Lang chose a tree, a higher distance, can take a step ahead when necessary, the line of sight can be farther, and someone can approach and respond faster, even if it is sneak attack, the tree is more buffered than below.

There is nothing to say overnight, everyone actually has a midnight practice.

In the early morning, Xie Tongwen was squatting with mosquitoes. Then everyone used mineral water to wash them briefly. After eating a little dry food, they went to Death Valley.

At that time, everyone will be in the dead forest for three days, so Xie Xun has prepared three points of dry food and water for them to carry. However, in terms of weight, it is mainly water. Food is only equivalent to the average person's day, that is, it is to be half-starved.

“Hey! The two genius sons of Xie's family have finally arrived. I am afraid that you are lost!”

At the time of the death valley, some people have already called out, with a degenerate tone.

“This is the Chu Yunfei of the Chu family. This guy is quite hurt, and will definitely find you trouble.” Xie Tongwen whispered to Shen Lang.

They are four people in the same group. Xie Xun is an elder. He will definitely not introduce it to Shen Lang. Xie Yunlin has less words, so Xie Tongwen has played this role.

“Or you still get there early.” Xie Xun said with a smile, no bad feelings.

“You Chu Yunfei did not get lost, how can we get lost?” Xie Tongwen shouted with him loudly.

As he approached, Chu Yunfei’s gaze also fell on Shen Lang’s body: “Oh, huh!”

He didn’t pretend that he didn’t know, didn’t say anything, just sneered a few times, and his mouth was disdainful Did everyone arrive? Xie Xun smiled and asked.

“Just you are worse!” Chu Yunfei said that he went inside.

The four followed, and it was in Taniguchi. Shen Lang observed that they were all sleeping in the vicinity, but now they have to go inside, and there is probably a road.

After they walked for a few miles, they reached the center of Death Valley. In a large open space, many people have been separated from each other on the side.

“Oh!” Chu Yunfei sneered a few more screams at Shen Lang, and then swayed to their camp.

Xie Xun pointed to the side, indicating that they were waiting by the side, and then rushed forward to the front, the elders of the various team leaders have gathered together.

Xie Tongwen glanced at it and said softly to Shen Lang: “I will introduce you to you. If you don’t point to others, I will go clockwise.”

“Yeah.” Shen Lang casually perfunctory, after he arrived here, his eyes gathered on one side, no transfer.
