

## First Strong 1961

Chapter 1961 - Conscious world

I feel that this may be a map, and the waves can't help but feel refreshed.

This cloud palace holy place, I don't know what the situation is, but how strange it is, if you have a map, you can still go out.

Shen Lang has already got a lot of resources, not asking for more, and now only hopes to go out.

If you control the map, you can take the cold autumn and bring other people out, that is the best ending.

But this colorful world of consciousness is also erratic. He wants to remember, want to know more, there is no way, all the information is flashing quickly.

Just as Shen Lang explored it deeply, I felt a touch of familiarity.

This does not have any direct representation of the entity, but he quickly guessed it. This familiar feeling should be from the consciousness of Carol!

In other words, the world of consciousness that he has come into contact with is not only Carol's conscious world, but information that has flooded some of the "murals."

The mural should be just a medium for Carol to connect to certain aspects of the cloud palace holy world, and then a lot of information flooded into her consciousness.

Her consciousness may continue to deepen into it. If it is not interrupted, it may be deeply lost and cannot return to her body.

Although it has been suspended now, the influx of information has made her consciousness almost unbearable, so it presents a situation like this.

Shen Lang did not forget to think and analyze.

She just stayed for a little longer and couldn't afford it. It should be because it was suppressed to ordinary people at that time!

But the current situation is that she has no time to recover.

But he is not!

Shen Lang himself was completely restored, and he was transformed by the strange energy here, and he also absorbed a lot of spiritual power from the people of Lingxi.

This means that the large number of Yungong Holy Land that Carol can't bear, he should be able to withstand it!

Thinking of this, he did not continue to chase after the information, but opened the "swallowing" mode.

Directly devour everything, all for his own use!

He has absorbed the spiritual power of many spiritual people, and in this respect, he has already mastered the car and knows their approximate limits.

So I am not afraid to get rid of Carol.

Because this thing is already integrated with Carol's conscious world, he wants to absorb it, and it will be absorbed by her spiritual power.

A huge amount of information has flooded in, making Shen Lang a bit uncomfortable.

After all, he has just absorbed the memory of so many people. It was originally a large amount of information to be processed. Fortunately, it has now reached the realm of great deity.

However, those memories are read by him actively and can be suppressed very well.

Now this information is a bit passive to receive, and it is much more complicated and much more important. He must deal with it first.

The whole process seems to be a long time, but it may be just a moment.

Later, Shen Lang discovered that the colorful world is gone, and what he can feel is Carol's consciousness.

He has read the memories of many people in Lingxi Shenguo, and there is no difference in Carol. By the way, her memory is also read, and then she withdraws gracefully.

After Shen Lang withdrew, he saw that Carol's whole person had changed from a lost state to a comatose state.

But others are relieved.

Carol's current state should be that he has not been able to recover from all aspects, and he has been heavily absorbed by him, resulting in an overdraft of procrastination, but she should have been "rescued" back.

Shen Lang immediately filtered the memory of Carol and found a little harvest!

The spiritual kingdom does not have wings everywhere. Carol has wings and is an angel belonging to the kingdom of God.

That is a special kind of person.

She is not the strongest of the gods in this country, and even the weakest one. After all, she is so young.

But as an angel, she has the secret of the gods and has special abilities.

This is not to say that the wings fly, but she has a special ability to perceive!

Just like entering the area just now, Shen Lang saw the mural painting, which is the above content. She can use this mural to perceive that this is a key, a gateway to the world!

When she entered, she was just touched, and she was awakened by Shen Lang. She didn't think much about it later.

When I came out, it was because of the ability to perceive, and when I was uncontrollable, I looked up and then I got into the connection and quickly entered it, and then began to understand more.

If there is no salvation, she may end up with the separation of the spirit and the body, and the body becomes a vegetative existence, and the soul consciousness is integrated into the world.

After understanding this, Shen Lang is also relieved.

Well, it didn't save a dead person, and this kindness also allowed him to harvest the information that Carol can perceive!

Shen Lang began to sort out the information that entered the brain.

Although it is now in his mind, it is still a high-speed glimpse, and it is difficult to grasp clearly.

However, already in my own mind, Shen Lang is more calm, once or twice, twice or three times... I will always find a little law.

"Lang brother!"

A voice that woke up the waves.

He was surprised to find that Gao Hanqiu did not know when it was already out!

Look at the sky, it is already dark.

"Small high? You always figured it out!" Shen Lang was pleasantly surprised and very pleased.

When Gao Hanqiu heard this, he knew that Shen Lang had been waiting for him here, and he was still very relieved.

“Oh, I have been out for a while, seeing you holding a woman who is a \*\*\*\*\* of the gods, is stuck here, is there something wrong?”

Shen Lang said a long story and said the situation with Gao Hanqiu.

Gao Hanqiu knows that Shen Lang has been waiting for him for many days here. Others have gone, and I am waiting for him here again!

This made him even more moved really is the big brother of a lifetime!

For the rest of his life, he is still his big brother!

He also simply said about his situation.

Basically like everyone, the cold autumn after being suppressed into a mortal is no simpler than other people. He is even the oldest one, and it took him five days to come out.

He will be back two days later than others because he spent six days in that mysterious space!

The current cold autumn looks no different from before, because when Shen Lang is stuck in the world of consciousness, he has already changed clothes.

Otherwise, like everyone else, he is also very embarrassed.

For Xiao Gao, Shen Lang is completely reassured, not only telling him the conjecture that the space has mysterious energy, but also revealing more information that may have been obtained from Carlo.

Chapter 1962 - Giant building information

Gao Hanqiu is not in a hurry to check the status of physical transformation. Anyway, there is no suppression. He has already recovered his peak. If he is in danger, he can cope with it.

Now it is to let Shen Lang find a way out!

He himself was there to protect the law from the side, so that he would enter the state and have enemies.

Shen Lang was not polite, and he did not expect to still be immersed in it. Although it will remind the sage, it is also dangerous if there are enemies coming and not swearing.

He once again entered the state of consciousness, but after chasing it down, it is still difficult to clearly grasp and cannot find the way out.

What about Carol?

Her perception is so strong, is she better understood?

This time, Shen Lang grasped the control, and did not need to open the mouth in the cold autumn, he had already pulled out.

Then he injected a bit of mental power and woke up the stunned Carol.

Carol was pulled out in the state of suppression, and then Shen Lang entered her world of consciousness. After the devour of the back, she was completely recovered during the coma.

Although her mental strength has been pumped by Shen Lang, the status is still ok.

Now wake up, people are awake.

“Shen Lang?” She saw Shen Lang beside, a little dazed, and a little surprised.

“how do you feel?”

Shen Lang greeted one sentence.

Carol naturally can't remember, because she was sluggish at the time, and she didn't know how she came out. However, when Shen Lang entered her consciousness world, she had contact. She was a little faint, but she could not understand what it was.

"I recovered." She nodded, thinking that Shen Lang was talking about the physical condition.

"When you came out, you saw the mural again, and then I was immersed in it. I brought you out. Think about it, see if there is any gain, is it related to the export?"

Shen Lang simply described it.

Carol knows why he will wake up next to Shen Lang.

She recalled that her consciousness was a bit embarrassing, and Shen Lang infused her with spiritual strength to keep her awake.

"I don't know that I seem to see a lot of things, a lot"

She muttered to herself.

"Is it a map of the world? Is there a way out?"

Shen Lang originally wanted to say that there are no treasure resources, but he still changed his mouth.

Safety first, it is good to be able to go back. Even if there is any resource treasure here, it is more dangerous. Once it is in danger, it may not be so good.

This cloud palace holy land, not these people can control it!

"The way out"

The state of Carol at the moment is between ignorance and lucidity, as if it is a bit awkward.

Although she did not close her eyes, she believed that her eyes were not looking at things, and her mind entered another state.

Shen Lang thought that this time will follow her into the world, but what she saw, he may not see it, even if she reads her memory, it may not be the same as her understanding.

Because his brain, body, etc., and her after all, are not the same.

And now, if it doesn't work, it will affect her performance, but there may be unexpected situations.

“One tower”

A tower?

Shen Lang and the cold autumn that I listened to were all face to face.

He thought of the tower of the sky.

However, this will certainly not be related to the tower.

“A huge building on the first floor”

tower? floor?

Huge building?

Shen Lang began to have a spectrum.

The place where they sent in before, can go up and down, isn't it a huge building?

Each floor of this building is a square of ten miles, with a height of kilometers and a thickness of five hundred meters. It is such a huge building.

The floor that Carlo said is, is that the one?

Shen Lang did not speak, so as not to interfere with her, while analyzing and waiting for more information.

At this time, Carol was suddenly awakened.

She has already got out of that state.

Looking at Shen Lang, she said seriously: "We don't have a record in this respect. When we come, everyone can only see the opportunity."

"If I really saw the map and searched for the way out, I got a huge building. But where is it, why is there, and how to go out, it is not known."

Then she was a little sorry.

Not to mention that Shen Lang helped her once, just because Shen Lang rescued her, she also needs to find out the way, there is a way out, do not mind sharing with Shen Lang.

But this information is really vague.

When I heard her say this, Shen Lang had a bottom in mind.

If Carol is not from the huge building, it is directly transmitted to this platform, then she did not see the huge building, combined with the memory of other spiritual people, and did not lie.

That is the information she just saw!

As for why there is only one vague information, it is also very understandable. After all, she was just immersed in it for a while, and although it was filled with a lot of information, it was not comprehensive.

Just like Shen Lang swallowed up her, but he could see less information.

As long as there is such a big direction, it is also a narrower scope, and you can try it on the spot.

“You said the huge building. We have seen the direction from over there. But we have been transmitted once, I don’t know where the giant building is.”

Shen Lang also generously shared the information and issued an invitation.

“Do you want to find a way out with us?”

Gao Hanqiu is next to him and does not participate in any opinions. Anyway, he is obeying the arrangement of Shen Lang.

Carol is hesitating: “I want to stay with us.”

Shen Lang did not elaborate on the fact that he had already killed several people who are spiritually sacred, and other people are likely to not come out.

I thought I had told her about it. She also had clues. I believe that even if I am alone, I can find a way out.

As for waiting, let her wait!

“Alright But you have to be mentally prepared. We have so many people, and few of them have come out. It is very likely that you should not miss the opportunity to go out. Let’s go first!”

“I will. Take care!”

Carol is also a solemn farewell. She has her own considerations. Can she come out, she has to wait. Others who come out first will also wait.

This is because everyone has no export information, but also has many forces and needs unity. Now she has clues, of course, to take care of everyone.

Everyone's relationship is at this level. If anyone who knows that the gods of the gods are so hard to live out, they will all be taken into the sky tower by Shen Lang.

If she pleads, she can't let it out. It's already very good without shutting her up.

Therefore, he did not say more, even if he left with Gao Hanqiu, he followed the palace and walked down the mountain.

Chapter 1964 - Threat dominate?

Originally, Shen Lang had not thought about this, because from here, it was possible to go up the mountain in the distance, thinking that it was transmitted to the outside of that huge building.

Just ready to look for it and see if you can find the shadow of the huge building.

However, they said that they had already searched for it, surrounded by cliffs, and immediately let Shenlang associate with the roof.

Because the place where it used to be is a square shape with a length of ten miles. If such a layer is superimposed, the roof should be so huge.

As for the road leading from the top of the building to the mountain road, it is not surprising that because of the limited sphere of influence, the whole picture of the three bodies cannot be seen. As long as it is no more than ten miles long and wide, it can be placed on top of this thing.

Of course, it is incredible here, and many of them cannot be viewed in terms of common sense and logic.

Just after Shen Lang went to the four weeks to verify, according to his measurements, basically the same as measured below.

Of course, this is still very strange and very strange. In the positioning track of the Holy Grail, the previous layer is not exactly below.

If it can really correspond to one layer, then he will not be able to go down one layer before going up one layer.

As for the four sides, it seems to be a cliff, but also because of the range of sight.

Under the influence of this faint fog, the range of sight and sense of consciousness is only a few hundred meters.

On this floor, the thickness of a single layer is 500 meters, plus the height of one layer is one kilometer. I don't know how many layers, the top layer is also thicker.

These add up, and it seems that standing on the top is simply a sea of clouds, let alone seeing the ground.

“Not bad!”

Hearing the answer determined by Shen Lang, Gao Hanqiu also showed a smile, just he guessed the possibility.

Snow is not snow and the other two ancestors are also excited.

“But... we still haven't found any transfer points. We were sent out before, and every layer below seems to be messy.”

Xue Feixue asked a key question.

This is also the worry of the other two ancestors.

Shen Lang smiled and took out the small shovel.

“Don't tell me, I am going to dig a passage from here...”

Snow and snow brows have been wrinkled, it is hard to imagine.

This ground can withstand a mountain, how can the mountain be several kilometers high, then how thick the ground should be. How can I dig it?

Gao Hanqiu is laughing and not talking. No matter what kind of situation, he believes that Shenlang will have a solution.

Even if the method of sinking waves is a stupid way of digging directly with a shovel, he will not have any complaints, and will follow it one by one.

“I didn’t catch a savior before? This is a magic weapon that he has seized.”

“It’s special, is to dig the soil?” Snow is not helpless.

A shovel, is it not excavation? Is it still used for combat?

Even if it is a magic weapon – the magic weapon for excavation, how much value can it have?

“When I left, there was no transfer point yet!”

Shen Lang didn’t tell them about the passage, because they came here because they saw the tornado and the suffocating air, and they plunged in. They haven’t seen the passage to the bottom.

“It’s just dug out!”

Gao Hanqiu immediately took the lead and said: “We all listen to you, then dig it! Everyone’s relay will not be too much trouble.”

This is pure support for Shen Lang, and he does not know the power of the small shovel.

In his view, everyone is a realm of great deities. Excavating the soil means that it is too low-end to lose face. It is really not a problem to dig a few hundred meters.

Shen Lang was lifting a small shovel and waved at the ground, and a pit appeared immediately.

“Hey! Who dominates here, if you don’t give us a way out, I really have to dig a way out. When it falls, don’t blame me!”

When Shen Lang said this, they all looked at each other.

The whole platform is so big, they have all seen it, there is no one, and there is no other existence. Who is this?

“Don’t respond, right? Then I will continue to dig, even if I don’t dig it, it will definitely not be what you want.”

Shen Lang is like a fool, continue to scream, and then continue to dig a few times.

The pit that just appeared, a lot of mud flew out and immediately turned into a pit of tens of meters!

At this time, not far from the neighborhood, there was a familiar small tornado!

“It really happened!”

Snow and snow are very surprised. The master of this cloud palace holy land is actually threatened by the sinking waves!

The other two ancestors are even more amazing.

Only the high cold autumn is a well-thought-out, completely believe that Shen Lang can do it.

“Go!”

Shen Lang said a word, and immediately went to the tornado.

Several of them also quickly followed.

There is a law about the transmission method here. Everyone can’t master it. It’s hard to appear. Of course, you can’t miss the opportunity.

All five people broke into the tornado together!

Shen Lang is actually just trying. He has all the information pictures sucked from Carol in his mind. Although he can't grasp it accurately, he still feels that there should be super wisdom.

Or the space rules here can sense something.

Even if it is unsuccessful, there will be no loss. If you continue to dig up, even if it is a few times thicker, you will dig more time. It will always go deeper.

Now entering this tornado, five people were immediately sent out!

"We are..."

Looking back at the situation outside, the thicker fog, and a familiar environment, they were all surprised.

"We are here, this is the meditation!"

Shen Lang pointed to the side.

Everyone looks at the past, and in a place not far away, you can see the shadow of the Cloud Palace Holy Land!

When the day came over they just saw the same shadow of the mirage, as if it was exactly 100 meters away, then everyone carefully walked over.

Now it seems that it is really delivered!

In the thoughts of Shen Lang's mind, during this time, in this cloud palace holy land, there are people from different four worlds.

Everyone goes in and sends the place is different, and go out?

The reason why he will let everyone go on the road to find clues, on the one hand, is to bring other people, on the other hand, to avoid sending to Weiner Star, Lingxi Shenguo, or where the barbarians go.

Just after the tornado, they were immediately sent to the meditation.

Is it true that the Yungong Holy Land is a wise master, or has a fixed number of rules, from wherever people will be sent back to where?

“That little girl...” Snowy snowy face changed slightly, worried about her disciple.

Chapter 1965 - Again alone

Shen Lang is also very helpless.

The transmission he wanted was transmitted to the huge building. As long as he was a casual one, he should be able to meet people.

In addition, he has ten ancestors who came here. Snow and snow are from the same floor, and Shen Lang himself has experienced several layers.

In this case, the following floors, even if not all open, it is estimated that most of them have been passed.

In the middle of each layer, there is a passage leading to the next layer, which is verified to be closed. – Unless more than ten days have passed, new changes have taken place.

But now the rules here are too strong, let them go directly from where they are, and go back to where.

The people who are trapped in the floor, such as Fan Xuexue, Bai Yu, etc., are still waiting for them to go back.

Looking at the past, I have already come out of the field, and the two ancestors naturally did not return. They don't have the most direct disciples and their loved ones are trapped inside. If they are friends, then everyone can be regarded as a friend. Have you taken care of so much?

It's not necessary to say that the cold autumn and the snow are not snow. Their disciples are inside, and they are willing to follow him again.

"I will go in again, you are waiting here!"

When Shen Lang said this, he immediately encountered opposition from snow and snow.

"No! How can you let everyone go in again? Let's go in together!"

"This..." The other two ancestors immediately got a little upset.

They don't want to go in again, but they don't want to say it. After all, they are three people.

"I think... Shen Brothers will say this, there must be his truth, why not listen to what the Shen brothers say?"

They are all determined to be willing to support Shen Lang at this moment. How good he is to go in.

Gao Hanqiu looked at Shen Lang, he was completely obeying the arrangement of Shen Lang. He is very clear that Shen Lang will not be scared and strong, and people will follow in, but may be dragging their legs.

According to his thoughts, these two unreasonable ancestors went with them. He and Xue Feixue, plus Shen Lang is enough.

Perhaps the arrangement of Shen Lang should leave snow and snow, even if she is strong, it is also a woman in their eyes.

As for their two brothers, why not?

Shen Lang nodded: "Yes! I let you stay, have my considerations. You have already experienced it. In this place, not one more person, but more danger!"

“The strength of your ancestors is nothing to say, but the Yungong Holy Land is not an ordinary place. Since we are out, we will not be able to challenge again.”

“Other people, I will bring it back!”

Gao Hanqiu did not think that Shen Lang was so determined, and he ruled out him. He could not help but frown.

“I can follow, can you help me?”

Xue Feixue also immediately said: “You have the waitress, I have disciples with Gao Laozu, we all need to go in!”

The two ancestors were originally trying to reconcile the words of Shen Lang. They heard the two of them say this, and they were paralyzed. They could only talk nonsense.

“It’s me who gets in the fastest recovery. It’s the exit I’m looking for. Don’t worry about it!”

The tone of Shen Lang has cooled down. This is not to sway, nor to degrade them, but if they do not say these words, they will certainly insist.

Snow is not snowy and the cold autumn is very embarrassing.

Shen Lang said the truth. At that time, the first thing he recovered was him; it was him who explored the environment; he went to other places to continue his exploration.

Finally, under the ground, when everyone was in danger, they still relied on the sinking waves to save everyone.

Just how it came out, it is even more unnecessary to say more.

Gao Hanqiu was originally arranged to listen to Shen Lang. He is willing to follow Shen Lang and will discuss it, but as long as Shen Lang is determined not to follow him, he will not violate it.

Snow and snow can't say anything.

I only hate that I have not performed well in the Yungong Holy Land. Now I want to go in, and I am not convinced.

“Don't look at the white, you must bring the little sister out!”

“Do not worry. I will bring them all out!”

After Shen Lang finished, there was no more nonsense with them. He rushed straight ahead and slammed into the invisible conveyor belt.

Then I encountered another situation ten days ago!

“Shenlang Xiaoyou, it's great!”

“Yeah, little age, but it has a great responsibility!”

The two ancestors, finally determined, do not need to run again, of course, do not hesitate to praise the waves.

The cold autumn and snow are not taking care of them.

The minds of both of them are still in the holy place of Yungong. Even if they can't walk with Shenlang, they are worried.

“That... we are all hurt in the inside. No one needs to wait, so I will leave.”

The two of them didn't want to stay here anymore. Anyway, this trip has already been experienced. The advantage is that they didn't get anything, but the life is back!

And this is the person who came back from the Yungong Holy Land!

For thousands of years, a group of ancestors reached it. Now they are alive, and the first one to go out can be greatly braged!

Stay here, who knows what variables will be there?

In case you can't wait for the Shenlang to come back, the cold autumn snow is not snow, ask them to go in for rescue together?

So I will greet you at this moment.

Gao Hanqiu nodded, did not say anything to them, but said that he knew.

The two of them left immediately.

Speaking of Shen Lang, I once again experienced the scene ten days ago. But to his surprise, this time the experience is different!

Although he rushed past very quickly, he had already secretly checked the positioning trajectory of the sacred armor, so that he still kept the position that he entered in the day.

There are too many variables inside. He can go in from the same position, and maybe he can also transfer to the same floor. It has already been cleaned up, maybe they are also there.

At the same time, he also set up the holy armor wait for him to go into a coma and rescue him.

So even if there is any danger, you can avoid it as much as possible, and then the healing process will come again.

In addition to these, he also predicted with the wheel of the sky, and confirmed that there is no danger, it is more calm.

But even if the wheel of the sky is predicted to be no danger, Shen Lang is still highly valued. Because there is no danger, it should be just that there is no danger to life, because it can be treated well, and the injury is nothing.

The previous time, dozens of ancestors entered together, and everyone worked together to resist the impact. After such sharing, they were still not hurt, including the cold and autumn.

Now this time, there is only one person, really not even dead, but also ready to die!

But after the result of entering, it made the accident of Shen Lang a big surprise!

Chapter 1966 - Shen Lang is back!

Actually... really no danger!

Shen Lang is doing a lot better than just getting it, and even preparing for death. Plan to stimulate the sorrow, and immediately enter the space of heaven, first heal the wound.

After this time, I didn't say that I was dying, seriously injured, and he didn't even have a coma!

This is really weird. Is it because the threat of the small shovel has a role? The rules here are afraid of him, so the water is released?

That is totally impossible.

He vaguely felt that they had come out of the palace, and they should be given a transfer point to leave. His "threat" was just ahead of time, or a coincidence.

The cloud palace holy land cannot be threatened by him.

But now...

Shen Lang felt it, and there was no physical injury. The environment has indeed reached the giant building.

It may not be at the original level, but it is definitely coming in.

Soon, he had a guess!

Changes in physical transformation!

Isn't that a reward for everyone? Not the biggest gain?

In addition to the body will become more powerful, should this be a "self" for the Yungong Holy Land?

With the energy of the Cloud Palace Holy Land, the system can judge that this is already a tried and tested person, and will not move him.

I think about the test of that layer, except that he has always been better, the ancestors of other great realms can be really abused for ten days, which is what they have not seen in a hundred or two years.

It is not easy to get such a little energy, and it must have a little effect.

Since the situation is like this, Shen Lang is relieved.

He immediately began to search in the middle.

The situation of this huge building is very different, each layer is chaotic, and the trajectory of the holy armor is also separate, not the upper and lower correspondence.

At this level, Shen Lang did not have a corresponding trajectory, which made him sure that he had not been to this layer before.

However, other ancestors passed the test, leaving someone else's words, it should be in the middle.

Even if it is not the layer where they are located, ten days have passed, and there are monsters that should be killed.

When Shen Lang found the middle, there is still a hole!

Ten days have passed and it has not disappeared!

This made him feel relieved a lot.

For him, there are holes, but it is labor-saving. For other left-behind people, there is a road that can flow. Otherwise they will be trapped in the original layer.

There was no one in the middle, and Shen Lang did not look up, and went straight down.

The floor here should have its own rules, but it will be chaotic if it is not mastered.

Since you can't understand it for a while, then you should take it to one direction and go in one direction.

Shen Lang has other auxiliary conditions that others do not have!

Although the map track under the holy armor cannot be mapped in layers, it is still possible to correspond to the previous map.

In such a direction, you can filter the rules, which layer is over which layer.

Even if it is completely random, at least you can determine which floors have been searched, and you don't need to waste time.

Shen Lang has been experienced and quickly falls down directly below.

The next layer is here, no one at the moment, and then continue...

So one layer at a time.

Finally, I walked to the first floor that I had not seen before.

There was no downward passage on this floor. After he landed, he saw a group of people sitting in the middle ground.

The answer is self-evident.

At the beginning, they should wait for Shen Lang and Gao Hanqiu to come back. Later, every day, everyone will worry and be nervous.

Then there are other people searching for it. More people get together and they feel more secure.

Ten days later, they are all gathered together here.

At this level, it may be the bottom layer, and there is no further channel.

They should also understand the confusion. If they are afraid to go up again, they will have problems. They will stay here to recover.

Everyone is hurt!

Even if the cold autumn, the snow is not snow, including the other two ancestors, they passed the test, came out from the inside, and were transformed by the special energy, but not immediately intact.

This is one of the reasons why Shen Lang does not let them in.

He can still squat, and he can recover more quickly. Others have been hurt again. If they come in and attack them directly, then they will be embarrassed.

It's just that he is not easy to say, so as not to hurt their self-esteem.

All the strong men on the ground, after so many days, there is no excitement, and everyone's morale is very low.

This is not to say that Shen Lang will abandon them, but to doubt whether Shen Lang himself is safe!

Shen Lang did not come back, the strongest cold autumn did not come back, and some other ancestors did not come back.

That means that there is a big trouble together!

If they are all dead, how can they bring them out?

After arriving here, everyone is looking forward to the slowest heart.

Today, no one has seen it.

After all, you can only see the fog, there is no expectation.

At this moment, after the emergence of Shen Lang, I found the following situation, immediately slowed down and observed while landing.

He must first understand that everyone has merged here, not being arrested and held here by something.

There is an unexpected discovery!

He is not waiting for the rescue, but is bored lying on the ground, his eyes naturally see.

He was a little suspicious of his eyes, and after screaming hard, he immediately cried!

“Someone! It’s back from the waves!”

The first scream, immediately awakened everyone, whether in healing, daze, or cultivation, they woke up.

But immediately, everyone thinks that this may be just a prank, because in the past many days, no one knows how many times they have seen it, and they have never seen a hope.

Therefore, everyone did not look at it, but searched around to see who was pranking.

“Shen Lang is really back!”

The ancestor lying on the ground, has jumped up, still pointing to the air, excitedly said.

“Shen, Shen ancestors! You can come back!”

Excited, he directly called Shen Lang as his ancestor.

He is not like a prank, and everyone is still looking up.

At this time, the sinking waves that have drifted down are already less than a hundred meters above.

“It’s really a wave!”

“Shen Lang came back to take us away!”

“Shen Lang is really back!”

These great gods, , are the ancestors of the various sects and are the central figures in determining the millennium development plan. However, the Yungong Holy Land, which entered the first time in these thousands of years, was seriously injured when it came in. It has already destroyed their confidence and sharpness.

Later, every day, I experienced a variety of strange conditions, which made them more helpless.

I have encountered Shen Lang before, and Shen Lang said that he will come back and take them away. At this moment, he seems to have seen the dependence.

White 妮, Fan Xueyu, Xu Yuyue and Mo Feiliu, it is even more needless to say. In addition to their own safety, they are also concerned about the safety of Shen Lang. When he saw him, he confirmed that he was safe.

There are still some that have not encountered Shenlang before. After the confluence, they are also supported by the belief that they will come back because of the deep waves, the cold autumn and the snow.

Chapter 1967 - Great God's faith

After seeing the situation below, Shen Lang speeded up a bit of speed, and then heard the voice of everyone cheering below.

This makes him a bit sweaty. These are not all the masters of the high hands. The strong ones in the strong, even if they are injured, are trapped, and are not so easily moved.

He originally thought that it was only a superficial guest. It was all the old man. If you say a few good words, you will not lose one or two meats. Now you have not really got out of trouble, you still need to rely on him.

But what I didn't expect was that I felt the power of several beliefs!

This is the power of faith from the ancestors of the Great God. Although the number is limited, it is very strong.

This also makes Shen Lang once again surprised. It seems that the ancestors who have met at least before are really grateful for his return.

Shen Lang is also a bit gratified.

Although he came in this time, he did not pay much, but before he came in, he did not know that it would be so. It was considered to be a serious injury to save them.

He did this for the sake of Fan Xuexuan, Baiji, and for the previous promise, and would not ask them to return anything. Thank you for not thanking me.

But the other party will be grateful for the power of faith, or let him be very pleased. If you feel comfortable, it will make people feel cold.

"Elder ancestors! I said that I will come back, I will definitely come back. Even if I can't get out, I will go back and forth with everyone! Of course, I found a way out. This is to take everyone out!"

Since the power of faith can be absorbed, or the level of the gods, Shen Lang certainly does not let go, by the way lyrical.

People have already left, and not every one has friendship with him. In such a dangerous and strange environment, they are willing to come back. It is rare to change them to them. It is impossible to ask themselves.

And when you find a way out, you will venture back, and it will be even more rare.

Originally, this is already very grateful. If you just come back together, you will be discouraged. The last sentence finds a way out. It is necessary to bring everyone out together. It is to let everyone who has been desperate for a few days boil.

Shen Lang also clearly felt that he has absorbed more of the power of faith, although it is not strong enough, and certainly will not last, but it is a realm of great gods!

He has not absorbed such a high level of faith before.

After the sinking of Shen Lang, everyone came over and asked him where he had a way out, how to get out of here, how other ancestors were, and so on.

Under such an atmosphere, Fan Xueyu and so on, but because of their own people, it is not good to add chaos in the past, only to keep watching him.

Shen Lang also looked at them and said hello to them.

“Everybody! In the past ten days, it’s hard to say a word. We have encountered a bigger crisis than here. Many of our ancestors are likely to never go back...”

When I heard this, everyone was sinking.

Everyone who can come is the ancestor of the prominent side, and will never go back. Naturally, it is dead.

Think again, everyone was injured all at once, and now that so many people are gathered here, it is safe to be trapped.

The people they went out to explore could have no news for ten days, and naturally they were in danger.

“However, I finally found a way out, Gao Hanqiu ancestor, Yaochi Xuezhangmen, and two ancestors, plus me. We all went out successfully and returned to the meditation!”

When I heard the safety of the cold and autumn, the most worried Xu Yuyue and Mo Feiliu were excited.

They are clear about the identity of Shen Lang. They originally thought that since there was no anxiety in Shen Lang, it should be cold and autumn. But still heard his words, then rest assured.

And Fan Xueyu, naturally because her master is safe and excited.

Bai Hao is only concerned about Shen Lang, and he has been relieved to see him.

I heard that all five of them went out to the meditation, that is, they really found a way out!

Further, everyone has heard it. People are not only finding a way out, but they have already gone out and returned to the meditation!

This is to bring everyone out and come back again!

As the day came in, everyone was very clear that everyone was seriously injured in a coma.

Now they went out five, and the other four did not come in. Only Shen Lang came in alone, not to mention that there were disciples here in the cold autumn and snow and snow. Naturally, they did not want to come in, but because of danger.

Under such circumstances, it is rare for Shen Lang to kneel down and re-take the risk of serious injury to save everyone!

For a time, the power of the original faith began to become stronger and more refined, and the number was more.

Shen Lang is certainly not welcome, and accepts it all.

And he is also very clear, these are old guys, sensationality is like, just like, he clearly reveals the information of Gao Hanqiu and others, and does not emphasize his own actions.

This way, what they associate with can be truly grateful.

If he voluntarily said it, the same situation, there is a suspicion of the merits, that is, verbally thank you, but can not be grateful to the heart, it is even more impossible to reach the level of faith.

He can't add any more fire now, or else he will be confused.

“The other ones don't say much more! Everyone is troubled here, let's go out first!”

“it is good!”

When I heard Shen Lang said that I had to go out first, everyone would applaud.

Shen Lang took out the small shovel again, and then looked around and quickly dug a metre-meter pit.

This is still the use of the previous method, the super-wisdom rules here, should not be willing to watch him dig this foundation.

But this time, he is actually not very good at heart.

Because the five of them were all tested by the Yungong Holy Land, they came out safely from the palace, and it seems that they would have left them.

Nowadays, there are so many people here who have not been tested. They are trapped in the first stage and may not let them leave!

But he always has to try it.

Others don't know what the situation is. Looking at the sinking holes, they thought they were going to dig a tunnel. At first, some people wanted to help. I didn't expect his small shovel to be a magic weapon. It was very quick to dig up and waited quietly.

After digging two small shovels, appeared a few tens of meters of pits, but did not attract a tornado!

Shen Lang is a bit awkward.

This time, in the presence of so many people, he is not good at opening up threats to the air, and he feels that his language is not to be used.

Could it be that you have to go to the top floor?

However, just after all the way down, it is already through, and there are no tornadoes and suffocating air in the holes of the road. How do you get to the top?

Find the highest level all the way, then dig on the top?

When thinking about it, he continued to dig two shovel.

Finally, there has been a change!

This time, the tornado appeared very well, just in the big pit he dug!

Perhaps this is also to warn him that he can't dig it.

Chapter 1968 - Just be alive

Shen Lang did not have so much thought to try to figure out the system mind here. All he wanted was the result, so that everyone can go out.

So when the tornado just appeared, he immediately rushed to drink!

“Go all in!”

When he spoke, he himself had already arrived at the side of Bai Yu and Fan Xueyu, and they pulled them in with one hand.

Mo Feiliu and Xu Haoyue are next to each other, and of course the obedient past.

Others are waiting for the export to appear. I thought that Shen Lang would dig up an exit. I did not expect that there was a tornado in this pit.

Since Shen Lang said so, and under their concern, Shen Lang himself is also taking the initiative to bring them in.

So there is no hesitation, and everyone rushes in and fears that they are left here.

The scope of this tornado is actually not large. The area has not been dug up, but everyone will not go in one place. After entering, it will be sent away immediately, so there is no crowding. .

Although Shen Lang took the white scorpion and the Fan Xueyu, they were afraid that they would pull it down, and they also made a direct past action.

But when he reached the edge of the tornado, he stopped.

Others are afraid that they will not be able to disappear, and they will rush in. Whether it is to see that he has not stopped, it is too late. Including Xu Haoyue and Mo Feiliu, it is also advanced.

Shen Lang certainly does not want to hang everyone, he is to ensure that one does not stay!

After all, the words have already been said, and most of them have contributed to the power of faith. If you leave people behind, it is really waiting for the end of time.

Others are still injured, and Shen Lang himself is stronger than before. This time, there is no impact at all.

So he is still sure that he can go in when he feels the tornado is going to disappear, or bring in the rest.

Because everyone waited for ten days, the desire to survive, the speed is very fast, no one is left behind.

After watching everyone go in together, Shen Lang took them both and entered the tornado.

At the moment of entering, he also thought of another person.

Carol.

I don't know if she is still waiting for the people of Lingshen in the foothills platform. This is a bit of a bit of her, but I believe she should also be rational, and she will not leave if she can.

When Shen Lang three came out, I saw that everyone had already come out, or before the meditation.

As soon as they saw them coming out, the cold autumn and snow and snow were coming over.

Others also came out for a moment before they felt that they were in the meditation, especially when they saw the cold autumn and snow and snow. They were very excited.

Then I realized that the first wave that had been left with them had not yet come out, and it was only after they all came out.

This is one that does not abandon!

When the cold autumn and the snow are not snow, other people's friendship is not enough, it is not easy to get together, but at this moment, for this very young genius, they are deeply admired, and there is no shortage of faith.

Shen Lang said that Xue Feixue and Fan Xuexue spoke, let Gao Hanqiu and Mo Feiliu, Xu Yuyue speak, and he himself was among the other ancestors.

“Elder ancestors, have you seen any people missing? I just stayed at the end, it seems that there is no team left behind.”

Originally, everyone thought of this layer. Hearing that he couldn't care about talking to Gao Hanqiu and Xue Feixue, it's very grateful to come over and ask this question.

Just in that state, people who have been trapped for ten days are full of desire for survival, that is, friends around them are not able to care for so much, and they are afraid that they will fall into it.

Shen Lang first took the lead with two sisters, so that everyone would not be assured. But in the end, I still left the finishing touches. It is really timid and it is really interesting.

“Shen brother! No one is left behind, this time really thank you very much!”

“Yeah, if it is not a new year, we are really waiting to die inside.”

The number of people counted here, of course, can not afford to enter everyone, some of them did not meet, and did not come out with Shen Lang first, basically everyone will die by default.

The rest of them joined together, did not go to the Cloud Palace, after ten days of getting along, everyone basically has an understanding, know the specific number, know who is probably.

After coming out, God knows it and understands it.

Snow is not snow and high cold autumn, just the first time to come, in fact, not care about the disciples, but care about the waves!

Because they all understand that with their strength, they will be stunned and seriously injured after entering, not to mention the static waves.

The last time he recovered quickly, but there must be something special, it is consumables, it is impossible to reserve at any time. And last time, he also distributed a lot of resources for everyone.

During the time of the transfer, they were worried about whether there would be any danger after the stunned stun.

There have been a large number of people who have just sent them out. They are also rushing to search. When they don't see the waves, they have already sinken their hearts, worrying that he has an accident, or that the injury is too heavy.

When I saw Shen Lang, I quickly realized that his body had no problems. When the two talents were relieved, they asked the disciples about the situation.

“Everything comes out, no matter how the harvest is, at least we are the pioneers for the first time in thousands of years. It is good to live, compared to the ancestors who can't come back inside, everyone is glorious!”

Shen Lang comforted everyone.

People's emotions are like this. When you don't know if you can survive, everyone thinks that if you can escape from birth, then you have nothing to ask for, and you are very satisfied.

But it really came out, and it would be very regrettable and unwilling to be worried. I thought that nothing was obtained, but I was injured.

In turn, you may be suspicious of what they have gotten.

Therefore, at this time, Shen Lang was in a timely manner, and when their emotions had not begun to breed, they first took a dose of vaccination.

Many ancestors were about to start to be frustrated. After listening to this, the mood was much better.

is not that right?

Being able to enter the cloud palace holy place can still come back alive, it is already the first batch of thousands of years.

In ancient times, those who came out of the country all remembered the history of the Qing Dynasty. Even if they could not reach that level, they would only be able to talk about the Yungong Holy Land in the coming decades or even hundreds of years.

Speaking vulgarly, going out can also blow the bulls and pretend to be forced. This qualification is also a harvest. With their age, can there be such an adventure and such stimulation in their lifetime?

Besides, compared with the death in the inside, you can come back alive, that is, the performance of luck and strength, it is also worth boasting.

“The Shen brothers made sense. We are very lucky to be able to come back alive!”

“Not lucky, this is the sinking brother who has a life-saving grace for us!”

“Yes, yes, we have to reward!”

Chapter 1969 - Erase traces

For everyone's gratitude again, Shen Lang is raising his hand.

“Everyone can be considered a partner of the same life, I am not everyone is an outsider. You don't have to thank me, don't need to repay anything, I am just a young man, this will encourage my vanity, my growth. not good.”

“Moreover, I can find a way out. It is also a coincidence. Just like I can solve the ancient organs, this is a good thing, but if it is spread, it will become a disaster!”

Listening to the words of Shen Lang, everyone thought that he was a young and modest guest, and when he heard the back, he understood what was going on.

After leaving from Yaochi, everyone knew about the battle and ambush of Shenlang. Even the people on the scene had a lot of temptations.

Including Helan's ancestors who have also returned, and Lijiang Yu Yu.

This is realistic!

The way Shen Lang can find out does not mean that he will certainly gain more, but people who don't know will not think so.

It is these people who are now, and they will also wonder if Shen Lang is a big gainer, and then spread it out. With the exaggeration of rumors, many people may find Shen Lang.

After all, this is the cloud palace holy place!

Everyone knows that it is very dangerous, but if you master the method that you can come back, the danger will be greatly reduced. Many people are willing to experience it. What are the adventures?

I always felt that the first ancestor of Helan, who was screaming at Shen Lang, was attached.

“Shen brother! You can rest assured! You are modest, you are low-key, we can understand, absolutely do not pass things out. But in our hearts, gratitude to you is not less, in the future, we can use our place in Helan City, as long as Take a word, go to the fire and not leave!”

“Yes, yes, we will not be rumored, useful to us, just open!”

Everyone immediately followed.

The gratitude of the verbal, the gratitude in the heart, it does not need to spend anything, and even such promises are the future, when it is natural to see the situation.

Really want to agree to the specific reward, that is really to be implemented.

Therefore, Shen Lang did not want to show this limelight. Everyone was very happy to accept it.

After a hot discussion, everyone suddenly realized a problem.

Thousands of years ago, those ancestors, for the things of the Yungong Holy Land, avoided talking, and there were very few clues left. Will there be a similar situation at the time?

There was a great power that helped the other, and returned with the ancestors, in order to keep him secret, so the ancestors did not disclose the information of the Yungong Holy Land...

Suddenly, everyone seems to have discovered the secret of the ages.

“Let’s go! The time has passed so long, the place to come, can’t go out, still don’t know.”

Shen Lang suggested leaving.

What he said just now is not really afraid of trouble. But give everyone a step!

To say that the salvation of life is really worthwhile. To be grateful, they are really grateful at the moment.

But leaving this environment, these ancestors will immediately become sensible. Let them accept a young man, this is very embarrassing.

So many ancestors need a young man to save, isn’t it indirect that they are very incompetent?

This is to use their prestige and the reputation of the teacher’s door to make a stepping stone for Shen Lang.

Another one, since it is the blessing of life, then if you want to repay, you can’t just give something. How can I get the hand and get the grade!

That will be a painful process for them.

What’s more, their family is just as good, and Shen Lang receives so many people at the same time. What kind of resource is it?

In this way, the reputation of Shen Lang is quickly and far above everyone; so many resources can be stronger than his strength, and his division is stronger.

This is a long-term difference. This is a concern for everyone and it is unwilling to see it.

They have just been out of trouble, and have not considered so much, Shen Lang has already considered it.

Instead of waiting for their unwillingness to calculate afterwards, there are many hidden enemies in the dark, and it is not as good as it is now.

Anyway, the reputation of Shen Lang is already very high. There is no teacher here, and they do not need to use them as stepping stones, and they may not be able to see the rewards they give.

If you have already formed a good relationship, then you will not be able to contribute for a long time, and you will be grateful for a long time.

Therefore, he was afraid to be counted by others, so that everyone did not need to thank for reciprocation, he gave the other party a step.

After peace of mind, you don't need to be grateful, everyone can be more natural, and feel that helping the Shenlang, there will be no feeling of owing him.

If the human condition is too big, it will be unnatural, and it will be avoided. If you want to go back, you will soon disappear.

Everyone does not want to stay here more, and they will leave soon.

At this time, the cold autumn opened.

“The traces of the past, I don't know what was erased!”

Everyone was shocked to hear this.

When everyone came down, it was at the bottom of the pit, and then crashed into the meditation.

After reaching the meditation domain, the range of visibility and the scope of the sense of God can only be more than a hundred meters. This fog is even more intense than that in the Yungong Holy Land.

Cui or how to explore it in the first place, did not say it, but they are down, erected a stone pillar as a reference point to go back.

Then, in order to ensure that you will not get lost, in the fog of this field, draw a big trace on the ground.

The last time everyone came together, it was the soil method that followed this trace.

From here, about a distance of about ten miles, to the 100 meters before the shadow of the cloud palace holy place, even at the end.

Now they are coming out, that is, in the last hundred meters, in the other direction of the Yungong Holy Land, you can see the traces on the ground.

Now when I heard the cold autumn, I looked at the past and saw no traces in the line of sight!

“The two ancestors who came out first have already left. When the Shen brothers went back to pick you up, I got to know the snow palm door and saw that the traces disappeared.”

“High ancestor, are you saying that the two of them erased the traces?” Someone was surprised at the moment.

“Do not!”

Gao Hanqiu shook his head: “Strictly speaking, they discovered two things. We were worried about the Shen brothers, and we were concerned about the situation of the Yungong Holy Land. I heard the exclamation of them and I knew this.”

Everyone understands people and realizes that the situation is more serious.

If it is the two ancestors, time is not long, even if the traces are erased, it is still a fresh trace. With everyone’s strength and observation, you can still see the approximate route.

It's not what they do, it's what happened in the past ten days, there can be more time, and the traces can't be seen!

"Cui or." Shen Lang said faintly.

Chapter 1970 - Big conspiracy

"Cui or?!"

Everyone was shocked when they heard the waves.

Because there were so many people who went in, everyone broke up, so there was no Cui or no one in the crowd, and no one was surprised. It was probably an accident.

Now when I hear the words of Shen Lang, I realize another possibility.

"When I was in, I felt that Cui was going backwards. I didn't think much about it before. Everyone has their own choices. They found that they didn't have their own, perhaps for security reasons, but Maybe you don't want to go."

Of course, Shen Lang did not notice that he was watching this scene when he later checked the records of the Holy Grail.

Although only this action is recorded, it is basically identifiable.

If Cui is going to unite with everyone, it's unreasonable to take a step back and then take a break.

"It turned out that he didn't go in, but... even if he didn't want to take risks, he could understand it when he went back. But why should he get rid of the route back?"

"Did he think about calculating us at the beginning?"

"Cui or shouldn't it be such a person?"

"He doesn't know if we can come back, say it again, it hurts us, what benefits can he get?"

Everyone immediately talked about it.

Shen Lang said faintly: “The line is painted by Cui or his ancestors. He wants to erase it and is fully qualified. As for what purpose he has, it is not known. Of course, this is just a guess, maybe not with him. Any relationship.”

He did not say the speculation that the quicksand slain is likely to be Cui or collusion. At this time, he said that Cui or, in order to keep everyone a doubt and vigilance.

He foresaw that Cui or will definitely be waiting!

Cui may not be a selfless person. Finding this clue is definitely not a matter of handy. It is also hard work and hard work.

That will inevitably require a return.

Going to the Yungong Holy Land, where you get an adventure, and come back to make a name for you. It is the best result.

But if you go in, you may not be able to come back, and even bigger ones may not come back. – This is not the case. If there is no sinking wave, or if Shen Lang ignores other people, most of them may not be able to come out!

It is the first wave to find a slain slave. Before everyone goes in, take the magic weapon and the like first, so as to avoid wasting.

The second wave is to let everyone go in and then eliminate the road. Perhaps the passage that goes up may be a matter of hands and feet.

In this case, the ancestors who can return are trapped in the meditation.

Perhaps at a certain time, Cui will come out, ask for remuneration, and take people out.

Because there are so many people, even if only a small part can benefit, all of them will be in the hands of Cui or will make him very fat.

And if everyone is destroyed in the Holy Land of Yungong, they will not come back. Although there is no clear interest, there are other side benefits.

Once disappeared a large number of ancestors, the remaining ancestors who have not gone, will rise in height, and can also get the benefits of Cui or, the status will be more respected.

Before he would be generously open, try to attract more ancestors to take risks, probably to have this heart.

If the ancestors of the Yaochi grand meeting level all went to the Yungong Holy Land, then he would not be able to say that the world is invincible, and it is also one of the few remaining ancestors.

Strength means authority.

This is the ability to redistribute the world's resources!

Compared with the one-time magic weapon of the savior, it is the long-term and huge resources to be able to suppress and plunder other sects.

From this perspective, Cui is also likely to have the motivation to kill the heroes of the world!

In fact, in addition to the opportunity of the Millennium Palace for thousands of years, there are really no other opportunities to get rid of all the ancestors.

However, these are somewhat conspiracy theories and motivations, and there is no evidence.

So Shen Lang did not say much.

“Leave the domain first and talk about it!”

I heard that Shen Lang said so, everyone also echoed.

“Yes, yes, so many of us, the area is ten miles, you can always find it back.”

“As long as we get to Shizhu, we can go back.”

“The stone pillar may not be there anymore...”

“Before the two of them have left, they have not returned, they should have already found it.”

“Maybe it is our heart, it may be caused by changes in the environment of the meditation.”

Shen Lang once again walked in front.

“Do not worry! My strength and experience are not as good as my ancestors, but all kinds of carving skills, but they all know a little. Remembering the road is also my strength. I can take everyone to the place!”

If it was before, I heard that Shen Lang said so, everyone would think that he is bragging.

After all, this is the meditation domain. Even the realm of the great gods can see and perceive the scope of more than 100 meters. How can he recognize the road here?

But now it is different. The cloud palace holy land is more complicated than the meditation environment. Shenlang can find a way out, and you can bring everyone back under desperation.

Now he said that he has the cleverness or ability to recognize the road. Everyone is completely convinced.

“There are labor brothers!”

“Fortunately, there are sinking brothers!”

Everyone began to praise a few words.

However, from the point of view of the power of faith, this is basically a verbal praise. Before we find a destination, it is not enough for everyone to admire the degree of reverence to the power of faith.

A few people, such as Gao Hanqiu and Xuefeixue, are convinced!

They are very confident in Shen Lang, and they don't think he is bragging.

But it is also strange to say that in the high cold autumn, the trust of the respect of Shen Lang, but never had the power of faith in Shen Lang!

If it was because his realm was too high, the power of the belief could not be absorbed. Now, Shen Lang also has a realm of great deities, but it is also inaccessible.

Shen Lang will not doubt the thoughts of Gao Hanqiu, but it is also a bit strange.

Perhaps because the emotions are different, Gao Hanqiu is still a big brother to him like a past life. It is the dependence and trust of his early habits. It is a natural thing.

This will not be fanatical, and there will be no generation of faith.

Xu Haoyue and Fan Xueyu should be similar relationships.

Just like the worship of parents and friends and the worship of star idols, and the worship of religious gods are not the same.

The grasp of Shen Lang, of course, is from the track of the Holy Grail!

This is from the Yungong Holy Land, or in the original place of the meditation domain, the trajectory map that came before can be corresponding.

Now the scratches on the ground are erased and treated like the ground that has not been crossed, but the trajectory of the sacred armor can be magnified and accurately checked.

When we came, everyone was worried and looking forward to it. They didn't dare to go too fast. Now, when they go back, they have to follow up as soon as possible because of unclear factors. They dare not fall behind, and the distance of Shili Road is also faster. Just arrived.

“Here, that's where we got down.”

Shen Lang pointed to the top.

You can only see a hundred meters above, and then it is a fog.

Everyone looked at each other and couldn't believe it.
