

First Strong 1971

Chapter 1971 - Leading the battle

In the meditation area, there is often a large area, the same environment, and there is a dense fog to isolate the line of sight, basically no distant mountains and rivers, tree boulder can be a reference.

So when I came down last time, Cui or the key hints, the stone pillar erected here is the reference object when everyone comes back.

In addition to the stone pillars, these old cautious ancestors will of course look for a reference object.

But because it can only see a hundred meters in a square, this reference is also limited, and it is also accompanied by stone pillars.

Everyone thought that if the stone pillar disappeared, there would be a reference.

On the way to go, there is a clear groove mark, and there is no problem along the groove mark.

Come back now, paying attention to the surroundings along the way, but found that everywhere is almost the same, there is no stone pillar, the pits, stones, and what they are eager to put, which is placed at all, seems to be similar.

Now Shen Lang said that this place is the place to go.

But because there is no stone pillar, in everyone's opinion, it is similar to every place that comes along.

But when I go, I can follow the ditch. Now I am coming back, but I have to calculate it silently. They think that it is really about a distance of about ten miles.

“Shen brothers, we don't believe that you lead the way, but... when they set up a stone pillar here, even if they were destroyed or removed, there should be some traces.”

“Yes, yes, we can look for the traces of the stone pillars, check it out and see if it is here.”

“The two ancestors who went first did not know if they had passed through here. It seems that there is no trace of them.”

Everyone’s attitude is the same, I don’t believe that it will be accurate, but it is not good to offend the waves.

When there is no direction, Shen Lang is still their hope.

Shen Lang did not have so much time to check with them slowly, he was confirmed.

“Then everyone should search for it first. Let’s go and see it first.”

Shen Lang said that they had nodded to the cold autumn and snow.

The cold autumn and the snow are not snow, now I listen to his arrangement, and Bai Xi, Fan Xueyu, Xu Yuyue and Mo Feiliu, not to mention, basically will not participate in the opinion.

Their two statuses are respected and there is no objection at all. Shen Lang is not discussing with them, but the attitude directly asked, and it is even more surprising.

After Shen Lang finished speaking, he jumped directly up.

In the cold autumn, they did not have any nonsense, and they went straight up.

The ancestors on the ground looked at each other a bit, and as they looked up, they were already out of sight of a hundred meters.

Everyone is a shrewd person, many of whom are still familiar friends, so there is no need to talk and talk, just a gaze of communication, they have understood their own minds.

They are all ready to wait and see!

Since Shen Lang will be determined to be here, let him go first to see if there is no problem going up, then they all follow up, just after a while, there will be no problem.

If there is no way out after Shen Lang goes up, and you have to go back again, you can have fun and you don't need to be busy.

When these ten miles came, they let them out of the state of the previous day, and they began to be a bit unwilling to be led by Shen Lang.

It is not to say that there is any dissatisfaction with Shen Lang at this time, but if there is a situation that proves that Shen Lang is wrong, then they will be more comfortable!

Because that shows that Shen Lang is not better than many of them, before they can come out, it is another adventure relationship.

Of course, I just said that I was grateful for Shen Lang's resignation. Even if I was a little bit like this, no one told me.

The surface effort is still to be done.

When they flew up, they quickly approached the side of Shen Lang, and everyone kept up in the form of a team.

The sun is on the top, the snow is not snow and the cold autumn is natural, one is left and right, and the other four are in the middle. Even if there is any situation, it can respond better.

The departure did not sense the following, Shen Lang said quickly.

"I don't believe in Cui or! This may be the killing of his cloth. If this guess is wrong, it is best. If it is true, it is likely that there will be an ambush waiting for us at the top!"

Shen Lang is not trying to discuss with them. This is just a reminder to all of them. Let them be vigilant and prepare for the battle.

After all, including the cold autumn and the snow is not snow, they are all injured!

Even if they were originally one of the best, they are the ancestors of the Great God, but in the case of unhealed injuries, they will be greatly discounted.

Gao Hanqiu and Xue Feixue also understand that there is no statement about their views on Cui or not. Now it is necessary to be consistent.

The three high-cold autumns are known for the situation of Shen Lang, because the attitude of the cold and autumn to Shen Lang, the category, Xu Haoyue will be completely consistent.

But snow is not snow, it is not. Not long ago, she hosted the host of the Yaochi event.

At this time, there will be no objection to the arrangement of Shen Lang, naturally because of the encounter in the Yungong Holy Land.

When everyone suppresses the mortal, Shen Lang can use the magic weapon; when everyone is struggling to come out, the Shenlang comes out early, and also kills the spiritual gods and the Weiner stars one by one.

Finally, you can find a way out in the Yungong Holy Land...

All of this adds up, so she also has to serve.

After Shen Lang finished speaking, he began to accelerate.

“I will go up first!”

This said, let the snow and snow and the cold autumn secretly smile.

When I re-entered the Yungong Holy Land, it was also Shen Lang who went alone. Now he is the same. Obviously, he is worried that there is danger and help them fight for a head.

The team of their seven people is already helping the following ancestors to take the lead, and Shen Lang has taken another step.

The original role should be that they both acted and could not let a young person come.

But now in front of Shen Lang, they can't even fight for it Because Shen Lang just told it, it has disappeared!

It disappeared, that is, he was faster than the range of 100 meters.

Shen Lang is actually surprised at the environment of this meditation. It feels like the chaotic space of the different worlds of Unicom. The mysterious fog can also prevent the induction, etc., and the stronger it can be.

However, when I came down from the crater, it was after the ground, and it fell at a high speed.

Now that he is up, he has already used the flight of the sacred armor because the visual range is too short and it is easy to lie to the direction of the head, so that it can maintain better accuracy and speed.

It's also because they want to see if there is any ambush.

The prediction of the wheel of the celestial plane is not dangerous to life or death, but he still feels that it will not be so simple...

Chapter 1972 - Hit into the net

After the continuous upswing, Shen Lang finally felt the change of sight!

The gap in the barrier to the meditation still exists, and he wears into the bottom of the tiankeng.

The record of the holy armor is no problem and will not change. But the environment of the meditation may change!

Therefore, Shen Lang can follow the trajectory to the origin, but whether this origin is still the origin of the day is hard to say.

Now that I am back, I am relieved. In the back of the cold autumn, they will follow the ups and down, waiting for the ancestors, as long as they do not die, follow here, there is no problem.

Now what he needs is to verify if there is any danger at the top, Cui or not really killing the game!

Think of Shen Lang and feel a little helpless, which is equivalent to not only needing him to lead the way, but also need him to take the risk to open the way!

But he also has nothing to do, because there must always be someone to do it.

Since he knows more information, it is the only person in all who is not injured and keeps his peak. Who is it?

Regardless of the other ancestors, the following six people themselves need him to first mine.

Besides, the ancestors also contributed a little bit of faith...

Shen Lang is not using other people to be the heroes of cannon fodder, and with a group of people fighting, it is not as convenient as him alone.

Already in the tiankeng, he speeded himself up and rushed over!

Seeing that the light is getting bigger and bigger, getting closer and closer to the ground, the Shenlang feels a trace of danger!

At the same time, he felt himself slammed into a net!

This net is in the middle of the tiankeng, the scope is not small, but it is not in the place where the tiankeng is flush, but in the next 200 meters.

It is Shen Langxin's suspicion, but also put the focus on the top of the tiankeng, whether it is directly out of the tiankeng, or slow down when the crater is out of the block, did not focus on this place.

And this one net is naturally not an ordinary net, but a magic weapon. When floating in the air, it is transparent and invisible, and there is no power to present.

This is very suitable for trapping, even if it is normal, it is easy to crash into it, let alone the soaring speed of Shen Lang.

He slammed in directly like this, and the inertia speed still flew up the tiankeng with the net, and at this moment, this net was completely wrapped up and quickly contracted!

Shen Lang can clearly feel that after wrapping this net, it seems to be a powerful field and completely banned him.

Its layer-by-layer contraction is a process of constant imprisonment.

“Oh! It really is a wave! Your kid is good, the skill of one, let me look forward to it!”

When Shen Lang came out, a voice rang and laughed.

Cui or!

This confirms the speculation of Shen Lang, and there is nothing wrong with it. Cui or really is playing such an idea. There is a magic weapon here to set aside, so that he has no disadvantages.

“Cui or, what do you want?” Shen Lang asked.

“How? Of course I want you!” Cui or said a strange smile.

Shen Lang knows very well, not wanting him, but wanting something in his mind!

Not to say anything else, just the ability to open the secrets of the ancient organs that he showed before, that is, everyone is jealous.

The two ancestors who came out first should look back here and come up from here, which means that it is likely to be caught by the net.

Shen Lang has been prepared to be guarded, not to mention that they are unprepared and under injury, even more unimaginable.

And if Cui or I read their memories, then they know that Shen Lang took them out, and he would want to have the memory of Shen Lang!

That means you can enter the Yungong Holy Land with ease!

As long as he can ensure safety, how can he not want to go there?

“Abandon the struggle! This magic weapon is called the sky and the net! The more you struggle, the sooner you are shackled, the more you swear! Hey, you come up and grab one, and come up to catch a group!”

Cui or smirked below.

Although this magic weapon may actually struggle to smuggle more quickly, it is obvious that this time it is Cui or I am manipulating below.

“Yes? Then you continue to grasp, and now there is a large group of ancestors coming up!”

When Shen Lang finished this sentence, the figure suddenly disappeared from the top of the tiankeng!

Cui or just want to say that a large group of harvests are bigger, but they see that the waves are gone, and they can’t help but smile and stagnate.

This is not only the disappearance of Shen Lang, but also the magic weapon of his magical network has disappeared!

When he reacted, and carefully sensed, Shen Lang was actually flying away in a fast flight!

“Do you think that you can escape?” Cui or sneer, directly locked the celestial net!

He is not worried that Shen Lang can escape, because the flight of Shen Lang Expressway is equivalent to a strong struggle, which will speed up the ban.

At this moment, he is further manipulating and speeding up the contraction.

According to his prediction, even if Shen Lang can escape dozens of miles away, he will soon lose consciousness.

Although he can't control the sky to fly back, but to catch up, it is a little more troublesome.

After he grabbed Shen Lang, he was able to continue the layout of the net and wipe out the ancestors below.

However, when he was manipulating, he suddenly realized that Shen Lang was getting farther and farther!

Then, Shen Lang has exceeded the scope of his induction!

This means that Shen Lang is at least a few dozen miles away, even hundreds of miles away.

What made him even more shocked was that in the next moment, he could not manipulate the network!

Cui couldn't help but burst into a cold sweat, a situation he had never thought of.

What should we do now?

If you chase the waves, then if you follow a group of ancestors who come up, you will not be able to catch them. You missed such an opportunity. He is arbitrarily unable to arrest more ancestors.

And a large number of ancestors returning means that his plan fails, the pattern will change, he will also gain, but can not do the hegemony.

The problem is... even if he doesn't chase the waves, there is no such magic weapon to set up the sky. He can attack a few injured ancestors by his own ability alone, and he can't attack a large number of people!

Shen Lang left far, maybe even solved the snare, that is a big scourge. Whether it is killing a carbine, or returning to reveal his secrets.

For a time, Cui was depressed and tangled.

But time does not allow him to consider, he still has to make a decision immediately, the decision can only be one – chase!

Although it has not been able to sense the sinking waves now, he has confirmed the direction he left, and at this moment he can only catch up with the past desperately.

This chase, he is depressed again.

How could the kid be so fast?

Chapter 1973 - Speed is king

When Shen Lang crashed into the net, the first time was of course an instinctive struggle.

But as soon as you try to know, this is a powerful magic weapon. The more you struggle, the more you tighten, and the effect of tightening is equal to the tightening of a field.

Hearing the network, according to the memory of the elk, I know that this is indeed an extraordinary magic weapon.

So he immediately changed another idea. If the speed is fast enough, take the magic weapon away from the master's side, even if it does not become an unowned thing, it will not be able to control it!

Just like a remote-controlled toy car, the remote control and toy car are placed upstairs and downstairs, or tens of meters, it can't be sensed.

The model airplane drone, hundreds of meters, several kilometers, can be manipulated, but separated into dozens of kilometers, it can not be sensed.

Some devices outside the 10,000 miles can be remotely controlled on Earth, but either through physical signals such as fiber optics or through satellite signals.

On the other side of the river basin, there is more high-tech.

But in this self-cultivation civilization, there is no satellite to manipulate the magic weapon, purely relying on the personal ability of the person using the magic weapon.

For example, in ancient times, there was also a saying that Feijian could take the first step in a thousand miles, but it was an exaggerated statement that Feijian magic weapon was very powerful. Just like “days and miles” and “thousands of goose feathers”, thousands of miles are general. Long distance.

The real magic weapon is not as far-reaching as it is, at least with the experience of Shen Lang, the realm of the gods is still not up to.

Of course, if you want to take human life, you can still have other means. For example, the Emperor of the Black Dragon King, the exhibition has been successful, even if it is thousands of miles, it can kill.

And... light god!

Shen Lang has such an idea, and does not calculate how far Cui can control, and directly pull the farthest distance at the fastest speed!

He has now reached the realm of great deity, and the speed that can be exerted is very fast. However, it was banned by the network and a discount was made.

But he also accelerated the sacred armor to the fastest!

The combination of the two is that Cui or can not catch up, can not understand the speed.

Moreover, Cui did not think that Shen Lang would use such a way. He was preparing to completely ban people, and then collected the other ancestors of the network.

When he reacted and chased again, Shen Lang had already reached a hundred miles away.

When Cui or Tangle is considered, Shen Lang has already turned the corner!

Because I guessed the choice of Cui or I will definitely catch up, and the traces at the beginning are still there. Once you catch up, even if he is faster, he can't stop.

Therefore, in the range of sensing that is separated from Cui, it will directly turn in a direction. Cui will chase in the direction of leaving, and everyone will get farther and farther!

Shen Lang also left the high-speed for dozens of seconds, and then stopped to slow down.

He must release this day as soon as possible!

Although Cui has not been able to control it now, the state of the net before the Tianluo network remains intact.

If the Shen Lang is not struggling, it will continue to look like this. If it is struggling, it will only get tighter and tighter!

The ultra-high-speed movement has moved with the Tianluo network, but there is no direct stimulation, so it has not continued to tighten.

At the same time as these tens of seconds of high-speed movement, Shen Lang also has a more detailed countermeasures.

He actually has a lot of programs, such as using a dead water whip, it should be able to corrode this piece of net. The power of the sword of the king should also be broken.

Only in this way, this magic weapon will be destroyed. Even if it is not completely shredded, it will become a broken net, and the power will be greatly reduced.

In the end, it is also a very extraordinary magic weapon. If it can be used for its own purposes, Shen Lang is not a way to destroy it.

So when he stopped now, he used a solution that he had not tried before!

Repression!

Although I still can't understand what energy was absorbed in the seven days, the body has indeed changed.

Re-entering the Yungong Holy Land, and did not encounter the impact, is a clear confirmation.

The environment of the Yungong Holy Land can directly suppress the realm of the Great God into a mortal, the storage space can not be used, and the magic weapon becomes a waste.

Shen Lang is of course impossible to achieve that effect, but now this energy is derived from there, will it be able to achieve a certain repression effect?

In fact, for people, he has already used it, whether it is the Weiner Star, or the spiritual and spiritual powers that are superior in mental and spiritual power, can be suppressed.

Now let's try it and see if you can suppress this magic weapon.

There is no need to suppress it to the extent of waste. It only needs to be temporarily suppressed, and it can be taken out of the way, so there is no need to violently destroy it.

The experience is all experimental. The experience that has been verified in the people of the two worlds can now be taken care of as a person to suppress.

If the magic weapon is in the hands of others, or in the air, in the same place, the suppression is of course impossible, but now it is close to him, then you can try.

The magic weapon of the Tianluo network, although not to the extent of artifacts, but its grade is also very high, and is a complete magic weapon!

Shen Lang got three magic weapons at the level of artifacts, the gates of the Three Realms, the Wheel of Heaven and the Sword of the King, but it was a more broken than one.

Like the door of the Three Realms, the Kunlun mirror, the earth artifact with the same attributes, is swallowed up and merged with each other, and it has the effect of the present, and certainly does not reach its peak.

Of course, the wheel of the sky is not complete.

Not to mention the sword of the king, not only the broken one, but also has been refined into a stick-like magic weapon, not restored.

It is now merged with its body, and there is a new sword of the king.

This day, Luodi.com has not suffered serious damage, so the performance of all aspects is very excellent. It is precisely because of this can make the vigilant Shenlang, but also directly tied.

In this way, the difficulty for Shen Lang is even greater.

He used to be an ambush for those people, so he could suppress it so easily. Now this magic weapon is attacking his state, and it is powerful.

It is still difficult to suppress this magic weapon.

Shen Lang can't stay in one place for too long, only for a dozen seconds.

Otherwise, if Cui is chasing it, he will not be able to fight with others when he is tied, and people will not give you the opportunity to escape again.

Although he has turned the other direction, he does not know where Cui is or is. He can think of changing direction, can Cui or Can't think of it?

This is just adding difficulty to Cui, but there is still the possibility of a coincidence.

Chapter 1974 - Repression of the sky

So Shen Lang is coming up directly!

This day, Luodi.com was really affected. It made him loose a lot.

However, for the Tianluo network, this is the struggle to resist, and after a little loose, it immediately attracted its powerful counterattack!

Although there is no Cui or manipulation, the strength of this automatic counterattack is still very fierce, and it will be even worse before the imprisonment!

Shen Lang secretly frowned, which is similar to his guess. If you can't suppress it, you may have a first chance.

Before, it was because of the effect of the gods and gods.

But that is man, this is something.

People may be stronger, but they may also have weaknesses and opportunities.

The magic weapon is much more objective.

In other words, to suppress the magic weapon, you must have more powerful capabilities!

Now if it is the magic weapon on the earth, Shen Lang can now easily suppress it. For the Tianluo network, the odds are still there, but it will be a long tug of war.

Not suitable for long hours now!

There is another solution for Shen Lang!

When he was just loose, he had already seized the network cable of Tianluo. He could communicate with the palm of his hand. If Lei Yuan is going to take the shot, it is not a problem to suppress this magic weapon.

But he hesitated again.

Lei Yuan has no personal friendship with him. He is using each other to cooperate with each other. He travels with Leiyuan and sees various worlds. Leiyuan will help him when he needs it.

In other words, he let the dog ***** help, that is nothing. Let Raytheon help, it is equivalent to owing a person.

This kind of human condition is not always good, and Shen Lang hesitated a bit, or gave up the summoning of Raytheon, and only used it when the crisis of life and death.

As for long-term combat...

He immediately entered the space of heaven!

The reason why I did not do it above the tiankeng is because Cui or staring. He alone disappeared and can be understood as stealth.

But he has a magic weapon in the sky!

Even if he left Cui or his control range now, he could sense the existence of the magic weapon. But when you enter the space of heaven, you will suddenly lose your sense.

Shen Lang didn't want to reveal his secret because of a district or a cui.

Although it is also possible to kill the cui or kill it, but since it can be done with speed, he does not have the first time to do so.

Now I can't immediately suppress it, and I immediately entered the space of Tianshu.

Here the time is extended by a hundred times, and there is plenty of time to fight.

As soon as he came in, the dog ***** naturally wakes up and looks over.

"What is the situation?" The dog ***** saw that the waves were tied.

Shen Lang smiled and said: “It was sneaked.”

“let me help you!”

The dog ***** came directly to bite the net.

“and many more!”

Shen Lang immediately stopped.

“This is a magic weapon, a good weapon. I want to keep it, don’t want to be violently destroyed. Wait for me to come!”

The dog ***** had to stop.

“Then I will go out and kill your enemy!”

Shen Lang thought for a moment.

Although there is enough time here, the crackdown magic weapon has no experience to refer to, and he is not very sure how long it will take.

Now, don’t worry that Cui will find him, but Cui can’t find it, or can’t catch up. It’s very likely that he will give up and continue to ambush the ancestors behind him!

Those ancestors are still underneath, not coming up so fast.

Gao Hanqiu and others are slower to follow.

It may have come up at this time, and Cui may also return.

They and Cui or know, before there is no evidence, it is impossible to suspect Cui or like him.

Cui or as long as there is a reasonable explanation, they can temporarily gain their trust.

If you lied to see that he was being chased, or to follow the enemy, Gao Hanqiu will definitely chase it out immediately!

Because the cold autumn is also injured, in order to insurance, snow may not be chased.

When Shen Lang came, but here killed the savior, this mysterious race can be an excuse for Cui.

To really let Cui or lies succeed in gaining trust, leaving the other four injured, even if they join hands, it may be the result of a lot of bad luck.

After Shen Lang weighed, he accepted the advice of the dog god.

“The person who ambushes me may be ambushing my other friends at this moment. They may be deceived by him. You have seen it in the past and directly dismantled him.”

The specific ins and outs of Shen Lang are too late to say. Shen Lang simply tells about the relationship between Cui or.

The people of their own, Fan Xueyu and Bai Yu, the dog gods have all seen, and Fan Xueyu has been fighting all the way, and should have a deep impression, not to confuse. They will not misunderstand it.

Then he directly transmitted a memory to the dog god, so that it can find the seat of the tiankeng faster.

He has just left too fast, and it is impossible to see any reference objects. It is extremely difficult to describe them.

Now the memory of the past is a simulated map that combines the calculations of the sacred record and can make it pass.

The dog ***** is probably practicing in it for a long time, and the strength has gone a long way, but there has not been a good fight, and it has been a bit flustered.

So after Shen Lang took it out, he immediately became bigger and quickly left.

Shen Lang once again returned to the space of Tianshu.

There is a dog **** going out, and whether it is against Cui or smashing his disguise, there is no problem.

Shen Lang himself can calmly suppress the Tianluo network!

This time, Shen Lang found that it was easier than he thought!

Just now, Tianluo.com has a strong counterattack, but now it is suppressed, it seems to have no resistance!

A little thought, Shen Lang will understand the reason.

Because it is in the space of heaven.

Here, Tianluo.com really cut off the contact with Cui, almost equivalent to Cui or already dead, and became the owner of nothing. The previous task command is also equivalent to the interruption.

This makes Shen Lang laugh and cry, I knew it, I got it early!

Soon after the crackdown, he took off from the sky.

Look at this magic weapon Shen Lang unceremoniously collected.

Now, it's his turn to go back and do Cui or!

After coming out of the Tianshu space, Shen Lang does not need to follow the road, but according to the trajectory map, directly to the tiankeng by the nearest route.

Because he was just in the space of the Tianshu space, the suppression of the Tianluo network came out, in fact, the dog **** just left.

The dog **** probably returned along the road he came to, and Shen Lang returned from the first step!

On the pit that day, Gao Hanqiu and others have come up, and Cui or returned, as Shen Lang guessed, they are lying with the cold autumn!

“That is not only a powerful problem, but also a very strange problem. The sinking brothers are afraid that there are still quicksands and slaves hiding around this crater. I must stay with you to meet you. Otherwise, I want to Track the past with him!”

Chapter 1975 - Where to escape

Cui or nature thinks of the excuse of reckless slaves.

Before the Shenlang was publicly said, everyone knows, and the situation in the Liusha Sea is mysterious. Everyone does not know. This is also impossible to prove.

Originally, the savior was attacked by everyone, and it would be reasonable to ambush everyone here.

In this way, he can stay here, but it can be explained. It can be said that he discovered this and stayed behind to inform everyone.

It's just that after the analysis of Shen Lang's meditation, the cold autumn and the snow are not snow, it will not be so easily deceived by him.

But they are also a bit strange.

Shen Lang broke through the realm of the Great God in the Yungong Holy Land, and the body was transformed and more powerful. This time I re-entered the Yungong Holy Land and I was not injured when I came back.

In addition, Shen Lang keeps doubts and vigilance. If it is not tracking the savior, where did you go now?

At this time, Shen Lang is coming at a high speed!

Everyone looked at Shen Lang, and Cui or his mouth finished the words completely, and the brain was thinking about countermeasures quickly.

He is really awkward!

Before Shen Lang left in such a way, he felt that this kid is very smart, and then it is strange why the speed of this kid is so fast.

When he couldn't track it, he immediately realized that Shen Lang definitely changed direction.

But there is no way for him. If he is cheaper from left to right, he will be more and more. If you bend around to the back, it will go further and further.

He clearly knows this possibility, but there is no way to complete the search tracking of Shen Lang when the speed is slower.

In this way, he can only give up and return.

Can't catch the waves, can't miss other ancestors. If you miss this time, there will be no chance.

On the way back, I felt that the net disappeared!

It was a feeling of being completely separated from him!

In this case, it is not the distance that can be produced. There is only one possibility, that is, the person is included in the storage space and the like, and the connection with him is isolated.

That means that Shen Lang has already freed the Tianluo network, or else you can run with your body, but you can't put yourself away.

This situation makes him very anxious.

Back to the tiankeng here, the next wave of ancestors said by Shen Lang has come up!

If he is coming up, he can sneak attack. He has already come up and missed a little, but he still can't know the sneak attack by others.

But a few people who came up, including snow and snow and cold autumn!

These two are people who are obviously stronger than him. Even if he wants to attack, it is very difficult to succeed.

Fortunately, he was also prepared to promptly excuse the exile of the laks.

However, Shen Lang's embarrassment has come back so soon!

The speed that Shen Lang just showed has already shocked him. Since he is freed, he will return, and it will be sooner or later.

He just wants to hurry and see if he can get a vote.

When I saw the cold autumn and snow, it was already ready to give up and flee the scene.

The result is just the reason just said, Shen Lang is back.

"Edit, continue to edit."

Shen Lang smiled at him.

"You're kidding... haha! Shen brothers, have you already killed the quicksand slaves? Then you are here, I can safely leave!"

Cui or Qiang Huan laughs and Shen Lang cope, not only the loss of the distressed magic weapon, but also has to leave the scene.

“This is to escape!”

When Shen Lang’s resounding came out, Cui or had already quickly left the blast!

Originally Cui or said, Gao Hanqiu, they are dubious, because of concerns about the safety of Shenlang, they are going to pursue.

As a result, Shen Lang came back, and everything was completely ruined. Certainly, as Shen Lang said, this Cui may have problems.

However, Cui or talking, directly ran, or let them have an accident, I thought that Cui will have another rhetoric.

Although they are injured, their strength is better than Cui or stronger!

Therefore, the cold autumn and snow are not snow, but also immediately attack and catch up.

“Reassured, he will come back.”

Shen Lang can see the direction of Cui or leaving, that is the direction he left before!

Cui or that is an instinctive reaction under the urgency. This road has just been passed by him. There is no danger or obstacle. Naturally, he chose this direction.

But Shen Lang knows that the dog **** who came back from the original road is equal to him in front of him!

The speed of the dog **** is very fast, and it is the first to go. Although the road is farther away, it does not reach the double speed of the sacred armor, but the difference is in seconds.

Shen Lang has come back here, and it will take about ten seconds and eight seconds to detour.

When Cui escaped, he directly hit the dog god!

The route that had been passed over again, suddenly appeared a giant beast, let Cui or a burst of depression.

This is the core of the forbidden land. It is not surprising that there will be giant beasts. It is not a monster of the super beast ***** level.

Therefore, Cui or thought that this was a smashing wave, he went back and forth, and disturbed the behemoth below.

“The animals are letting go! I won’t move you!”

I haven’t seen it yet, and Cui has already sent a message to the past.

According to his plan, this level of beast ***** is sensible. Receiving his idea, he will naturally avoid it and will not choose to be hard against him.

It’s just because they’ve come and gone, they’ve been alarmed, and come out to check the situation.

However, he did not think that he received his idea, the super beast ***** in front, but it was even more fierce, and directly gave a roaring arrogance!

The speed of both sides is very fast, but it is relatively. If you follow the meaning of Cui, the other party will retreat as soon as he receives his idea, and he will fly over it. There will be no conflicts.

But the coming of the Emperor’s behemoth, the target is him!

Dog gods will dodge? At this time, it is absolutely impossible for him to run, so as not to confess to Shen Lang!

Just this roar is both a demonstration and a sonic attack!

Immediately before the large area of the area, it was blocked by its roaring sound, and its speed did not slow down at all, with the same unslowing Cui or the past big mouth if a black hole, directly come over Cui or swallow!

Cui was depressed and surprised.

Depressed is the attitude of this giant beast god, is it because it understands the meaning of animals, so it is not good? In a hurry, where did he take the wording of Sven!

Surprised is the power of this guy!

As for the sound of this attack, he estimated that Daxian and Daxian Peak can directly fly!

However, Cui is the ancestor of the realm of the great gods, and he is here to wait for the work, it is really a battle with the cold autumn, he also has the confidence to hold for a while.

It was only the cold autumn and the snow and snow, and both of them made him jealous, so that he did not dare to act rashly.

At this moment, I feel that you are a beast in your district, dare to attack the ancestors? You are not looking for death!

Cui or not dodging, speeding up along the devouring power of the dog god, there is a long gun in his hand!

Chapter 1976 - Dog god's resistance

After Cui or the rifle appeared in his hand, he immediately swelled sharply and extended forward. He did not stop, and immediately slammed the long gun to the front!

Look at him like this, it seems too lazy to dodge the Emperor's behemoth, but choose to follow the swallowing, break the throat with a long gun, fly out from the back of the neck!

If it is just a general behemoth, even if it reaches the level of the beast, facing the offensive of Cui or the rifle in his hand, it is impossible to resist. When the reaction comes, the throat has already broken.

But the Emperor's behemoth is different. It was originally a super beast, and now it has evolved to an incredible intensity.

Just the roar of it is the first wave of attacks. The swallowing of the flying body is the second wave, but this is not the case.

Of course, people who can trap the waves are very important.

This can't be avoided, but another conspiracy!

Therefore, it is also prepared. When Cui or a rifle is pierced, its tongue is like a flexible big color strip. It avoids the guns and rolls directly to Cui or the body!

At the same time, huge fangs have also been closed.

According to this rhythm, Cui or the gun in hand can hit the dog's throat forward, but he himself will be caught by the tongue, and there may be some bites that may be bitten by the tooth.

Cui or on the spot is not good...

He had thought that he was alarming the super beast ***** below, and it was the declaration of the site. Then he made a statement and it was already a face.

Even if the "animals" angered the beast, it would not be a desperate attempt to lose both!

His recent homeopathic attack was also a kind of persecution, forcing the behemoth to give up and drop it. Otherwise, he wouldn't mind smashing his throat.

But now this behemoth, not only did not stop, but a two-pronged attack, regardless of his long gun.

If he can get faster, don't get caught by his tongue, and won't be bitten by a tooth, then as the long gun goes, he can break the throat as planned.

But now it seems that the fangs may be able to avoid, this tongue is difficult to dodge, because it is far longer and smarter than imagined.

In this way, Cui or instead doubts, is this behemoth better than steel in the throat, not afraid of his magic weapon attack?

If you can't break it down, then he is passive in this mouth!

This depends on the strength of both sides. For example, Cui or the face of the beast ***** level, it is only the peak of Daxian, he does not say in the mouth, even if swallowed in the belly, it can completely be the stomach of the other side before being corroded And even the whole body burst out.

But now this behemoth does not seem to be weaker than him, he can not take this risk. Because the back of the waves, the cold autumn, the snow is not snow, as long as one catches up, he will be finished!

As a last resort, he can only retreat!

Both lose, and if he is hurt, he will die!

The rifle has reached the mouth of the dog god. The gunman has already attacked the throat, and the fangs are biting, and the tongue is wrapped around...

When all is in the blink of an eye, Cui or made a concession!

Cui or his heart is secretly making concessions, of course, it will not be cheaper for this beast...

Therefore, he flew out of the rifle and continued to advance forward!

With the power of this magic weapon, he still has the confidence to wear the wall of this monster's throat!

As for himself, he followed his mouth down and then flew to the side with a quick turn.

According to his prediction, when he flew to the back of the behemoth, the pike would break out and then leave, and he would not be in love. Anyway, he would give him a fatal blow, and he would not die if he died.

However, when he just gave in to avoid the tongue and the fangs attack, he did not expect to have a paw waiting for him from the side!

The whole process is very fast. In fact, the roaring sound of the dog ***** has not stopped yet, and the suction force that has been swallowed is not small, which interferes with Cui's judgment in many aspects.

I thought that the big mouth of this behemoth should be able to escape from the side, and it was pinched by a paw of the dog god!

At the same time, the tongue of the dog ***** has successfully caught the rifle that hit the throat in the past!

For it, it was like a toothpick, and a quick turn in the mouth avoided the attack.

“burst!”

Cui or depressed, he was caught by a giant beast paw, just like Shen Lang was netted, and the claws were pinched, which is a full-scale squeeze.

His ancestors, the great gods, certainly cannot be pinched to death by a giant beast.

With this violent drink, Zhou has a strong impact and broke out around. Even if it is as strong as a behemoth, you can't catch him!

but!

This is also in the expectation of the dog god!

Since it is highly valued, of course, it is understood that it can be squeezed without catching it.

So when the other side burst open, it didn't resist hurting himself, but when he released his claws, the claw tip swept his body!

Each of its claw tips, toughness and sharpness, exceeds the sharp edge, and the homeopathic stroke, even under Cui or resistance, is still a successful stroke.

Cui or can't take care of it, the injury is not too heavy, the pain is inevitable, but there is no rupture or serious injury.

What he needs now is to leave as soon as possible! Come back to find this animal revenge!

After the dog ***** avoided the powerful impact, when Cui or Fei left, its claws had been slammed in the past!

This shot is taken to the front, Cui or bite the tooth, or not delay the time, escape is important, but this time, but see the dog ***** licking his rifle, is coming to the front!

Can't stand it!

This was teased by a beast and grabbed his magic weapon! Today is already the second one!

It is unbearable!

Cui or his hand, the long gun with his tongue and his teeth flying, immediately flew out, he flew directly, and the long gun went down to the front of the dog!

Although the Emperor's behemoth is huge, but the shape is still like a dog, so he is now in the place where the dog's head is, and there is no need to challenge the whole body of the hill But the emperor's behemoth is shaped like a dog, but the strength is Super beast!

When Cui or the gun attacked, his claws were shot again!

Just caught, scratched, and slammed, this made Cui or already angry, and now he patted right, which made him swiftly turn the gun!

Originally, I used to stick to the dog's head like a knife. Now I have drawn an arc and stabbed the claws directly to the dog god!

At this time, he had a sense of crisis, and the gods also perceive it. Another paw of the behemoth, I don't know when, I have photographed him from the other side!

What is special is the game of losing both!

If he continues to stab, he will definitely abolish the claws of the behemoth. But another paw is not just photographed, but the pointed arm will give him a sly!

The moment of his anger and hesitation, he was born again!

Chapter 1977 - Lip war

Cui is also a very headache. If the behemoth does not have him strong, he does not need to take any spirit and directly crushes away.

Now it is forcing him to fight, and the effect is still very limited, directly dragging him here.

This is a little more than a second, and there is a danger of one more point.

At this moment, he really wants to lose both sides!

I have to abolish the claws of this behemoth to make it known to be powerful. As for being shot and scratched by another paw, he will not care, and this is still worthwhile.

At this time, he found that the claws of the behemoth turned very flexibly. It was supposed to be hit by a long shot, and even if it was not smashed, it would be awkward.

The result of such a turn is similar to that of a hollow fist. The middle is empty. It directly avoids the strongest edge of the long gun, and can also hold it directly when it stabs it!

Originally his attack was almost coming, hesitated, and it was too late to change. He just hesitated to dodge first, and then decided to continue to do it. As a result, there was such a situation...

In that very short time, Cui or has not had time to change.

The pike is equal to the paw that has been sent to the behemoth. If he does not make a decision, it will be caught.

The only thing he can do is to give up the rifle and escape from the cracks!

Time may be calculated in microseconds, and it is not possible to think about it, or even to look at it carefully, and instinctively make the best choice.

The pike was once again abandoned, and then refused to fight back, put all the power, let yourself fly away!

The next moment, the dog **** grabbed a long gun that was sent to the door, such as pinching a toothpick, and not giving it the chance to be summoned to leave.

The other paw, still successfully shot on Cui or the body, directly fleeing Cui or shoot down to the ground!

When it was said that it was too late, the series of attacks and rebellions just happened, but it happened only in a moment or two.

The dog **** is still very satisfied with his reaction.

When Tianshu Space retreats, it also falls into deep thinking.

The reason why the Emperor's behemoths can dominate the world of behemoths is because they are more intelligent.

The source of retrospectiveness is that their ancestors came from the side of human beings and were cultivated and instilled with wisdom.

The wisdom that is even more so that they occupy the top of the bio-chain from the beginning, and then tens of thousands of years is also the leader of generations.

However, after seeing the situation of the human world after following the waves, it also realized that the wisdom of the Emperor's behemoth may not be different from many human beings.

But it has only one, and humans have countless!

For example, a smart person like Shen Lang, it is far behind.

It is watching the growth of Shenlang all the way. It was far worse than it, and it was able to let it go with enthusiasm. It depends on wisdom!

After a lot of battles, Shen Lang can be weak and strong, relying on wisdom.

Even this description, it can only think of “wisdom”, while human beings have “military law”, “tactics”, “strategy”, “planning” ... and so on.

These seem to be similar, but there are specific differences.

It is not easy to understand it completely and learn systematically without human guidance. However, the time for its retreat is also very long, and there is still no small gain.

In particular, it takes Shen Lang as a reference target and realizes that it can be super-level by relying on wisdom.

Before it relied on the strength of physical strength, directly crushing the opponent, the strength is a little bit, the screaming can be defeated, stronger, tearing, crunching, swallowing...

This time I met Cui or, a great ancestor of the great strength, and even the sullen waves were ambushed, so that it also paid special attention, so it used wisdom.

When they rushed to each other, it was first instinctively sent, which is the most accustomed way.

But the latter began to interlock, did not hit the other side, almost hit by the other side, it is not irritating, but continue to carry out step by step.

After two seconds, it has been verified and the effect is very good.

The dog ***** who began to feel that he also understands “strategic and tactical” is not proud, but is more cautious.

It must help Shen Lang to take this life back!

The dog ***** took a paw and it was very strong. It was already designed. The front paw was a smashing attack. The purpose was to attract attention and to catch a long gun. It was an accidental gain.

The one behind is the real main attack, so not only took Cui or, but also shot him seven times.

However, Cui is the ancestor of the Great God level, and is an escaped ancestor!

Therefore, he was neither photographed on the ground nor angered to guide the counterattack, but in the process of rapid shooting, once again fled all the way!

He is not afraid of this super beast god, he is afraid of the deep waves, snow, snow and cold autumn that are chasing afterwards!

The more he paused for a second, the more nervous he was.

The problem is that the more he is uninterested in his war, the more he leaves, the more easily it is to neglect some details of the Emperor’s behemoth!

For example, just this moment, he is concerned about the two claws.

But in fact, the tongue of the dog ***** has already stretched out...

Because this tongue did not actively attack Cui or so, he did not pay attention, but after the dog ***** had just shot a paw, the tongue had already waited for his landing trajectory halfway!

The result is that now when he wants to escape again, the two front paws have not had time to catch up, but the tongue that has been waiting for a while, is to take him down!

Suddenly wrapped up, Cui is depressed.

The animal's tongue, mucus, and taste, made him very sick. His ancestors When did you encounter such a wolf?

The more serious problem is that he is now completely wrapped up. It is not easy to move a bullet. The instinctive summoning of the long gun is firmly grasped. Even if it can be controlled, it cannot break away from the dog god. paw.

Cui or also very decisive, immediately gave up to continue to control the rifle, but is ready to take another weapon weapon to attack.

But at this time, he felt that his tongue was wrapped around and he let go...

I haven't reacted yet. The huge cavities have already been bitten, and the teeth are quickly honed, allowing him to instinctively roll over and avoid.

It is now in the mouth of this behemoth. If it goes inside, it is deep into the throat and belly. If you want to flee, then you have to pass the teeth first.

The big tongue of the dog ***** is also very flexible in the mouth. When he rolls, he directly puts him to the teeth.

Cui or as if he heard the sound of “咔嚓” , he immediately understood that he had a place to be bitten!

Chapter 1978 - mean

Fortunately, it is the thigh!

Cui or immediately figured out where it was hurt.

The fangs of the Emperor's behemoth are so huge that as long as they are bitten, people will be bitten.

Biting the thigh is of course a tragic thing, but compared to the torso, this is still good.

Cui or no time has no time to anger, the pain is more exciting and he is calm. He clearly realized that he is now injured. If he can't leave in a few seconds, I am afraid that there is no more chance to leave!

Therefore, he did not care about the dog god, and even the attack could not be taken care of. He directly put the most sensitive perception, defense and action of the body in front of him.

Even if the teeth are bitten faster, they need to rise and fall. He just bite him, and then he has to open it and then bite it.

And Cui or he took the opportunity of this moment and rolled directly out of the dog's mouth!

But the sputum that had just been licked by the tongue, plus the discomfort of the oral mucus, made all his attention in front of him, but neglected the outside.

The result was just rolled out of the dog's mouth, but there was a paw waiting for him!

The dog **** grabbed Cui's legs, hugged them tightly, and then slammed his head to the ground!

Cui or that depressed!

After his original layout, dozens of ancestors were wiped out. Even if he is not the only realm of great gods, he will be one of the few ancestors. With all kinds of gains, he is confident that in the next few decades, Really unique world.

But now, actually being born by a giant beast, rubbing on the ground!

Where is dignity?

But compared with dignity, now more need to care about, is life!

But at this moment, Cui or I found a very painful situation!

The Emperor's behemoth caught the shackles of his legs and was very tight.

He was caught once, and it was all wrapped up, and it could be exploded in all directions.

It's not the same now, even if he attacks in the same way, the strength of the dog's claws is much smaller. If he is too strongly struggling, he is likely to break his legs!

At the moment, the thigh that was bitten off, under the severe and powerful impact, the injury is constantly increasing, pulling more muscles, blood vessels, nerves and other fractures around.

This is because Cui or his body is very strong. If you want to change to a weaker person, the lumbar vertebrae and even the cervical spine have already broken!

"Go to death!"

Cui or violently screamed, and a knife appeared in his hand, quickly covering the surrounding with a layer of knife light!

He took another weapon out of it, and he couldn't let the behemoth loosen his claws by his own power, then cut down his claws and smash it!

This time he was really angry with the shot, just suppressed the long-awaited anger, and the explosion broke out together. The power of this attack is very powerful.

But when he shot, he suddenly found that his body had already flown in the air!

The large space around him was covered by knife light, and it was cut and cut by the knife, but it was useless. It was an air.

When he wants to fight back, the dog ***** has thrown him out in advance!

Although it was attacking the air, it was impossible to let Cui or vent his anger, but Hao Hao had already released him.

This has passed a few seconds, and Shen Lang and others have not arrived yet?

He does not believe that the speed of Shen Lang will not catch up. It has not yet appeared. The biggest possibility is to ambush in the dark around!

Thinking of this, he did not dare to stop again, immediately under the knife and light body, once again flew away!

He has not dared to stop attacking. There is a knife and a light around him. No matter whether it is a paw or a tongue or a mouth, the dog **** can't directly contact him.

But when I just flew out, I saw an obstacle in front of him, which made him unable to conceal it!

This is of course not a natural obstacle, but a large piece of rock!

Needless to say, he also understood that the behemoth was also wise. When he felt dangerous, he took him out and then dug a large piece of rock and smashed it!

Cui is very fast, the rock is coming very fast, and he wants to get around too late.

Fortunately, he still has a knife-protective body around him, and this is a hard hit!

The knife he took out, of course, is also a weapon of the magic weapon level. Under the control of his great god, the mountain cracked stone is not to mention.

That large piece of rock has been burst and crushed in an instant!

But even if he doesn't hit him, it will still stop him.

After the rock was opened, the dog **** moved another hill and smashed it!

Cui on the side of the dark side continued to smash this hill head!

He still keeps flying forward, but he has to break the rock and the focus is still ahead.

The two consecutive attacks made him realize that the dog **** will continue to create obstacles for him.

At this point, he will not think it is an accident again. He suspects that this behemoth is related to Shen Lang. The purpose is to delay his time and wait for them to chase it!

So he immediately gathered all the power in front, and opened the road ahead with a large knife!

Unfortunately, this time, the design of the dog god!

When he was covered by the knife light all the time, the dog **** would move him, even if he could shoot and bite, he would be hurt.

So he threw him out and changed another way.

Now look at his focus on the front, the defense of the body's legs is weak, the dog **** did not continue to move the mountain, but caught the past accurately!

Cui, who was being covered by numerous mountains and rocks, was caught in the back half.

This time, the dog **** is not scratching his legs, because he is leaning forward to the position of the drill, its claws are caught, the pointed armor is like a huge steel gate, directly smashed in the waist of Cui or!

Cui, who just broke the hill, could not help but scream!

Just now he has confirmed that one leg has been bitten, but as long as he escapes, there is still a chance to repair it.

Holding the legs behind, let his head to the mammoth on the ground, tightly hugged, so that his injured leg is more serious, the other leg is also likely to be necrotic.

This made him lose the magic weapon and then out of the guard.

But that's not too serious, it should still be at the point of healing.

Now it's the waist!

That is really a direct return to make people crippled!

However, Cui is in the realm of the gods. He just put the knife in front of him, and he is also a body protector. Therefore, this blow is a degree of impact on him. He has not really cut him off!

The body of the body resisted a part, and then immediately fell down to the ground, thus resolving the attack power above.

However, at this time, another paw of the dog god, has been holding a toothpick – a long shot smashed in the past!

mean!

Cui or could not help but secretly scream, how can this beast be so mean? Is it learned from Shen Lang?

Chapter 1979 - Broken into 2

Cui's defense was originally placed in front, thinking that there would still be a huge stone, a mountain, a big tree, and I didn't expect to catch it directly when he was not in the hill.

And just after he quickly resolved the attack behind him, to avoid the puncture of the lumbar spine, it was too late to take care of another paw of the dog god.

And because the long gun used by the dog ***** is his own weapon, he is not alert when he is close. It is even more vigilant to switch to someone else's weapon.

At this moment, it immediately became a back-to-back enemy.

However, Cui still maintains the strength of the great ancestors!

Even if he lost his chance, he still reacted very quickly. For the attack behind him, he continued to sink and resolve.

For the front of the long gun, it is full control, so that it can not come over his body.

And he also controlled the knife, and did not need to break the rock again, this time directly turned into a streamer, flew to the eyes of the dog god!

This is the instinctive operation of Cui or it, but it also coincides with the truth of “Wei Wei save Zhao”.

And there is also a bit of a loss of play, if the dog ***** continues to attack him in desperate circumstances, then be prepared to be pierced by the eyes.

But in the next moment, Cui or regret it!

He can't attack the eyes of the behemoths with both sides, but he should take care of his eyes.

Because at the moment he flew the knife out, the dog ***** directly released the claw gun!

Cui or can control the rifle, not the claws of the dog god.

It was just a long shot that had to reach his body. His control, of course, was to force the long gun back, so as to avoid being shackled.

But now the dog ***** released his paws, and there was no power to support the long gun to attack him, and immediately blasted out to the back.

The dog ***** loosened the rifle, just did not want to be held down, but also for his own more flexibility.

It relies on a powerful physical attack. Human weapons, like toothpicks here, are actually incompetent.

In this way, the claws directly caught up in Cui or the body!

This is the regret of Cui.

In order to avoid the waist being pierced, while he was sinking, all the defensive forces were gathered on the back of the waist, and the effect was very obvious. Even if the claws were added, he did not pierce his body.

This way, the gates are wide open in front of you.

It will cause this situation because the attack in front is a rifle. It is his magic weapon. He can still control and confidently control it.

As a result, this guy is so embarrassed, so mean!

If his knife does not fly out and attack the eyes, then there is a layer of defense protection.

If you really want to lose both sides, he can also manipulate the pistol and turn the revolving pistol into a pistol so that it can penetrate the body of the dog god, plus the knife of the eye, that is double insurance.

But the eyes of this beast, even if it was destroyed, there is another one.

The piercing of a long gun, for its huge body, even if it is torn open, even if it is worn, as long as it is not in the heart, head, throat and other vital parts, there will be no big problem.

But his body can't stand the claws of the claws!

To manipulate two magic weapons at the same time, from the spiritual point of view, Cui can do it completely, but this will be distracting.

Clamping up and down, the claws are on the edge of the body!

But Cui or at that moment, gave up the control of the knife and the rifle, concentrated on all-in-one, and forced the body to fly out and escape in the crack between the two claws!

At that moment, Cui or a cold sweat, but there is a hint of pride.

Even if the beast is awkward, he can still crack!

It is a pity that this pride has just risen and he found that the situation is wrong!

This ***** big mouth is waiting in front!

He suddenly realized that perhaps just the situation, he can successfully escape, perhaps this animal is intentional.

The purpose, naturally, is because the light is a paw, not enough to kill him with full defense, but now...

The tooth decay has already bitten down, and Cui or wants to go back, it's too late.

If you want to see it without being blocked, you can only continue to go deep into the momentum. Although this is also passive, he does not want to go to that place, but he can only go ahead and make another plan.

just.....

Is the dog ***** step by step arranged for this fatal blow?

How can he give him a chance?

Just two claws, it is actually sure to hurt Cui or, but the effect is not enough, so let him escape, just to ensure that nothing is lost.

At this moment Cui or speed up, the bite of the dog ***** also accelerated, or directly bite in his waist!

When caught by the claws, he can remove the force by moving the body, but now the bite is that there are fangs on the top and bottom, and he is stuck firmly, two-way joint force!

Although he still has full defense at his waist, he can't stand it. I have already been hit by the waist and I was directly bitten by a bite!

Just injured in the leg, Cui can still endure, but now the waist breaks, not only blood, nerves and other problems, but also the lumbar vertebrae are crushed, and the abdominal organs directly slide down.

The tongue of the dog ***** is still "squeaky", the blood is absorbed by his blood, and the organs are slipped out!

This situation directly caused Cui or almost collapsed and stunned.

But he can't be comatose, and if he is in a coma, there is no chance at all.

Cui or temporary stress reaction, can not take care of half of the body, under the powerful suction, quickly let yourself turn and grab the tooth!

If this is not the case, his body will be swallowed directly.

In the state of prosperity, he is not afraid of being swallowed in. Now, under heavy damage, it is troublesome to swallow it.

But with his hands holding his teeth, let him break the part, don't ***** in the direction of the throat, the blood is quickly lost, and the intestines fly out!

Cui or paying attention to the surroundings, trying to seize the opportunity to escape, while re-manipulating the two weapons.

But at this moment, it can be felt, whether it is a knife or a lance, it seems to be grasped by the behemoth, can control, but can not be free to command, can not work.

At this time, he felt the movement of the teeth and immediately prepared to go out!

I just went out from the big mouth and haven't escaped Now under serious injury, even if I escape, it is estimated to be troublesome...

But he can only do this, or else, even if you insist that you can not be swallowed, the viscera will be more and more pulled off by suction, but the real liver intestines!

He is strong and can't stand such abuse.

But when he just got out, he found something squeezing in first...

It is his lower half body!

With his own ***** smell, he was immediately pondered between the teeth!

Just watching and feeling that my body was bitten and eaten, the taste is really indescribable.

I don't know how long it took, Cui or I felt that I was not swallowed, but I was spit it out.

Then he heard the sound of Shen Lang...

Chapter 1980 - Shen Lang is Shen Lang

For Cui, he knows that he hasn't escaped for a long time, but the process of dealing with the Emperor's behemoth has made him very collapsed, and it feels like it has been a long time.

On the edge of the tiankeng, Shen Lang was simply talking to Gao Hanqiu and they talked about his encounter.

Shen Lang personally encountered the attack of the Tianluo network, this is evidence.

In the case that he left Cui or did not catch up, he also guarded and confuses everyone, and further proved that it was Cui or the conspiracy.

The white pheasant is a fox family, it is not convenient to say anything, and does not know much about the situation.

Fan Xueyu and Mo Fei follow them, they are all younger, and it is hard to say anything at this time.

Feeling awkward, it is just snow and snow and cold autumn.

Since Shen Lang let everyone not chase, naturally there are his arrangements, and then in the speech, they also heard the roar from the original, as well as the fluctuations of vitality.

In the simple communication time, a behemoth has already rushed.

When I came over, I opened my mouth and spit out the half of Cui or the other, and the knife and the rifle flew in front of Shen Lang.

“Get rid of beautiful!”

This is in full compliance with the expectations of Shen Lang, and the speed of the dog **** is also satisfactory to him.

And Shen Lang understands that with the current strength of the dog god, this is still to catch the living, send it to him to vent, otherwise, it should be able to solve Cui faster.

“The Emperor!”

Fan Xueyu greeted it, and the dog **** nodded to her.

When she saw the dog god, she became clear. It must have been arranged by Shen Lang. It is no wonder that she was not afraid of Cui or fled.

When the dog **** came over, he spit out Cui or threw the magic weapon, and his body quickly shrank and became a dog. This was the side of the surging waves.

It is very clear that it is not a race with human beings, it is too big, and it will put human pressure. After shrinking, there will be no threat, and everyone can get along better.

In the face of Cui or who has been caught back, there is no need to start the waves, and even do not need snow and snow and cold autumn.

Mo Feiliu has already passed quickly, grabbing Cui or imprisoning him.

Originally with the strength of Cui, this is not what he can do. But now Cui or, there is no waist below, and the waist looks at the past, the abdominal cavity is almost empty, and many of the organs are gone.

And because almost all the blood was lost, he also became dry and pale.

In this way of the degree of weakness of sudden death, Mo Feiliu can of course be successfully controlled.

For this scene, the snow is not as usual on the surface, but the heart has actually been ups and downs!

This behemoth, she had seen it two months ago.

At that time, like Shen Lang, they were all very seriously injured, almost dead.

At that time, she was in Yaochi. On the cleaned high platform, she didn't need to show herself in person. When she flew straight out of the petals, she could arrive in time and knock the behemoth down.

After waiting for the Yaochi event, Shen Lang has no problem.

She has been confused about the specific reasons, and later seeing this behemoth seems to have recovered.

Although she has not touched much, she has learned about it from Fan Xueyu.

In her opinion, even if the Emperor's behemoth is not injured in a state of full prosperity, it is not her opponent.

But just for a while, this super beast, has already brought Cui or to this level!

It seems that it is still to come back to Shen Lang, or else it may be solved sooner!

Although she has not played against Cui, she probably knows how much it is, naturally it is not as good as her. But if she wants to make Cui or like this, it can't be done so quickly.

She does not know the secrets of the space of the Bible, and the two-month retreat is close to twenty years for the dog god!

Moreover, Shen Lang is giving it sufficient demand in terms of the spirit and the pulse. In the land of great wasteland, it also eats the red porpoise, the dragon **** beast, and so on, so it has evolved to a higher level.

The understanding of snow and snow, the only way to explain it, is this trip to the Cloud Palace Holy Land!

Shen Lang also broke through to the realm of the Great God, and this behemoth is also advanced.

Certainly they have gained a lot!

It's just... whether it's in the Holy Land or the Cloud Palace Holy Land, I haven't seen the shadow of this behemoth. How did Shen Lang do it to benefit?

Even if there is any summoning secret, you can usually summon it in other places by secret technique. However, in the holy place of Yungong, it has been suppressed into a mortal, and it is impossible to summon.

But soon, she secretly smiled.

Here in Shen Lang, all the incredible situations seem to be normal!

Everyone is like a mortal, but is he still using a magic weapon?

Those barbarians solved it easily, and he was the first one to come out. It was also an easy solution for the spiritual gods and the Weiner stars.

He could find a way out of the Yungong Holy Land. He recovered quickly after he was seriously injured in the Yungong Holy Land. He went back again and came out without any injuries...

All of this, according to her normal logic, can't be said and can't be explained.

Then he can still advance with a giant beast, and certainly there is his way.

Then she noticed the reaction of the cold autumn, but saw that he was completely taken for granted, which made her think.

She can see that Gao Hanqiu did not pretend, because he completely felt the normal look, and there was no cover-up calm.

Gao Hanqiu feels normal, which shows that he knows more about Shen Lang. What is the end of the wave?

He didn't understand the Emperor's behemoth, but he knew about Shenlang. In Shenlang's body, he felt normal.

"You won..."

Cui or this time, it has already reached the state of sudden death, and now it has come to the side of Shen Lang, Gao Hanqiu, etc., that is no chance at all.

I did not expect this to be a giant beast!

At this point, Gao Hanqiu, they do not need to force a confession, it should be the same as the results of Shen Lang guess.

Gao Hanqiu and Xuefei Snow looked at Shen Lang and saw how he arranged.

Shen Lang people went to Cui or his side, directly suppressed him and began to read his memory.

He is too lazy to ask but still have to know, this guy has no other conspiracy, and how the two ancestors came out first.

The cold autumn and the snow are not talking, so I watched it.

“The slain slaves are what he found. After everyone enters, they don’t want the survivors to come back and erase the traces. They are waiting here, and they can use them again for those who can find them.”

“The two ancestors who took the first step were also captured by the celestial net. For the time being, they were imprisoned and still not dead. They were kept by Cui or as resources!”

Shen Lang simply said the memory he read.

There are no more people here, such as Fan Xueyu and others, the snow is not snow and the cold autumn is just a sigh, and there is no skunk.

At this time, there was movement under the tiankeng, and the ancestors behind it followed up!
