

First Strong 1981

Chapter 1981 - Last 1 hit

Shen Lang did not care about those ancestors.

In the huge building of the Yungong Holy Land, they were brought out, and he was already benevolent.

Before they were in the meditation, they had their thoughts, and let him follow the lead before they came up. The attitude of light would not make Shen Lang pay more attention.

Of course, everyone is not familiar enough. Others don't know his secrets. It is impossible to believe him unconditionally like Gao Hanqiu, so there is nothing strange about it.

It's just that now there's no time to go to socializing, he has more important things to do.

Still Cui or.

He just read the memory of Cui or he told them about it, but after digging deeper, he found that things were not that simple!

For thousands of years, the Yungong Holy Land, which everyone has mistaken again and again, was found by Cui or not, not because of how cow he is, but because someone gave him information!

Originally, there is nothing wrong with information. Every time you search, you are trying to gather all the information based on various clues.

But this time, Cui or the information he got was very vivid. Come to this forbidden place, in which direction in the meditation, how far to go, everything is equal to all arranged for him!

He said that a group of people had a hard time getting it. In fact, it was not so hard, including the grooves on the ground. The pillars that stood up were not his hands.

In short, everything about Cuigong Holy Land, Cui or what you get is ready-made information.

That is, someone behind him, using his identity, through him to achieve this big conspiracy.

Cui or himself is of course willing.

He didn't think about going to the Yungong Holy Land himself, and brought everyone together and sent as many strong people as possible to the Yungong Holy Land. The rest of him would be even more valuable.

And this is the real cloud palace holy land, all the clues are real, he is not a scam, this is a willingness to fight.

So from the beginning to the end, Cui or not has no guilty conscience, everything is so natural.

Who knows this information, why should you provide information to Cui or?

According to Cui He's memory, he paid almost no price. The other party seemed to disclose this directly. Then he came to verify it and confirmed that it was reliable. He immediately started planning.

Because Shen Lang has already read the memory of Cui or so, so there is no need to force the confession, and the confession may be a lie, and the memory is more reliable.

If there is no clue in his memory, then there is no meaning in confession.

But in memory, Cui does not know who it is, only a clue.

When Shen Lang thought about it, a large number of ancestors had already flown from Tiankeng.

When they were in the meditation, they didn't believe that Shen Lang could find it so accurately, because there was no trace on the scene.

However, Shen Lang dared to go straight up, and Xue Feixue and Gao Hanqiu did not hesitate to follow, and this calm attitude made them have to believe.

Go searching for yourself?

Is there a better discovery?

Since it is all unsure, why not make it ready?

Shen Lang can go up, Yao Chi Xue Xue can take his disciples up, Qiu Lin Jianzong Gao Hanqiu can also take his disciples up, what else can they believe?

So everyone doesn't need more discussion of words, and they can confirm each other's eyes.

I can't see them in the waves, I don't dare to sneak, I just follow them up.

So it's not long before they are late, they just followed.

Coming back from the meditation domain, reappearing above the tiankeng, everyone feels that they really escaped from birth, and they are truly safe to return.

Seeing Shen Lang and others, still waiting here, did not leave because of the first out, let everyone be embarrassed and grateful.

"Shen brother! You are still very powerful, and sure enough to find the exit position!"

"It's really awkward, we can't help a little, if it's not you, the consequences are unimaginable."

"This time is really grateful!"

Really came out, everyone is not grateful for the beautiful words, while speaking loudly, while moving closer to Shen Lang.

Then they saw Cui or.

“Sure enough, it was Cui or the conspiracy! The two ancestors who had left before had been caught by his usage treasure. When we came up, we also encountered his ambush, and Shen Lang was also tied by him. ”

Snow and snow immediately took the initiative to explain it.

She used to spread information to Shen Lang before, and the neutrality of Yao Chi identity, for her, would be the most appropriate.

Everyone in the following time, listening to the analysis of Shen Lang, is already suspected Cui or now, is now a real confirmation!

Although they did not see Cui or attack other people, but when they organized this event, Cui's excuse was that others were weak, and it was dangerous to enter the Yungong Holy Land, so more people were needed.

As a result, he did not die in the Yungong Holy Land, and it is even more impossible to come out in advance.

Besides, even if young people are young, they can be unscrupulous, but Xuefei and Gaochunqiu are distinguished and they cannot lie.

Immediately, everyone spoke to Cui or spurned!

Cui or was shackled by Mo Fei, watching this one's ancestors, the heart is depressed, that is not reconciled!

If it wasn't for the turmoil of Shen Lang, then he should have arrested Shen Lang first, then arrested Gao Hanqiu and others, and then continued to arrest these ancestors.

More than once, Tianluo.com will play the biggest role.

These ancestors will become the supplies that he has forbidden, engulf their strength, absorb their spiritual power, and take all the resources of their possessions.

And tapping their memories, they can further manipulate their family and martial art!

Everything will be an unprecedented glory, a plan to let him step into the sky.

It's all ruined by the waves!

He looked at the waves very bitterly.

He is not difficult to imagine Shen Lang has read his memory, and he is sure to understand all aspects of the situation, he has no good defense.

In the face of so many people, seriously injured to this extent, it is impossible for him to escape.

In this case, he is ready to give Shen Lang a final blow!

“Shen Lang, kill me, can you use this time, make a name for yourself? Everyone listens! Is it easy to kill the slaves? What he calls you to recapture the magic weapon is actually his collusion. The savior is estimated to be used to sell your love!”

Cui or this voice is not loud, but everyone heard it, it is shocking.

“The clue here is actually what you told me. You cooperate with me and let me arrange this. Your goal is to get everyone out of the net! Now install the people and win everyone's gratitude?”

The final blow of Cui or, of course, is not the attack of power, but the differentiation of speech, so that everyone is suspicious of the waves.

Chapter 1982 - I do not need

Cui or is ready to die, this last blow is “I will not let you die better!”

He does not believe that everyone can trust the waves like the cold autumn. This is what he said, and it will inevitably make everyone doubt the waves.

Even this may also give him a chance to live!

If Shen Lang wants to kill him, then in the eyes of everyone, this is to destroy the mouth.

In order not to sit down on him, Shen Lang can't kill him.

Others want to figure out more and not kill him.

Although his current situation is still a relief, he is not reconciled!

In order to achieve this goal, Cui does not care about his face any more.

"The sky is on your body! It was the magic weapon that you gave me. After you came back, I will return it to you right away. If you don't believe it, you can search him!"

"But I didn't expect you to be so embarrassed, actually use this behemoth to kill me, so I am afraid that I will expose your conspiracy?"

Cui or, the snow is not snow and the cold autumn, naturally do not believe. White does not understand, and regardless of any position, she just followed Shen Lang.

Mo Feiliu and Xu Haoyue certainly do not believe it.

Fan Xueyu couldn't help but scream.

"Cui or! Losing you is still the ancestor of Xuanyinmen! I am conspiring to harm all the ancestors, but also want to plant it on the head of Shenlang! This time, if it is not Shenlang, we will be pitted by you. I can't come back in the cloud palace holy land!"

Other ancestors, without their trust in Shen Lang, began to be dubious after hearing Cui or.

This is also plausible!

The savior was mysterious, several ancestors were attacked, and three were robbed of the magic weapon. Why can a young man be able to kill easily?

If they had communicated well, he gave the benefits of the quicksand, and took the robbed magic weapon back to be human, but did it win the trust and support of everyone?

This time in the Yungong Holy Land, it is said that Tong Xian Weng, Zhi Zhi and others were killed by Shen Lang!

This point is what Shen Lang himself said. Although everyone is not convenient to openly discuss, it still has a good relationship with private exchanges.

Why can't others find a way out, can it be?

Why did Shen Lang go to the Yungong Holy Land after he left, and he was not injured?

Why is there no groove in the meditation area, but can you bring everyone back here accurately and accurately?

Why did he bite Cui or have a problem?

Why do you want to kill Cui or kill it first?

All these problems make Shen Lang very suspicious!

Even if Van Gogh's words are spoken now, I can't let everyone dispel doubts.

If the behind-the-scenes ambassador is Shen Lang, then he will save everyone, that is, intentional grace, so that everyone will be grateful to him, and use the Huairou policy to invade them.

Once the seeds of suspicion are sown, it is not so easy to eliminate suspicion.

Shen Lang raised his hand and gestured to Fan Xueyu not to talk.

"What you said makes sense, so now I want to kill you!"

After Shen Lang finished, he gave a direct indication to the dog god.

The dog **** now knows a lot about the human condition. It just gave the long gun and knife that was taken to Shen Lang.

Now directly in front of Cui, bite down his storage bracelet, throw it to the side of Shen Lang, and then directly eat Cui or a bite in front of everyone!

Because of Cui or the situation, it was already very miserable, the blood was about to drain, and the intestines were broken. Now it's swallowed up, and it won't look **** and terrible.

In fact, such a dry half of the people were swallowed and looked a little more comfortable.

But he is the ancestor of Xuanyinmen!

This is the great god-like character who is the same as them. Even if they are not very close, they know each other for less than a hundred years.

Ten days ago, Cui was still laughing and laughing here, and became a prominent figure.

The result is that in the face of everyone, the waves are arranged to feed the dog...

Everyone is a bit embarrassed, and there is also a feeling of hunger in the rabbit.

“Shen Lang, we all believe in you! You are not destroying, this person is too bad! Deliberately provoke your relationship with us all!”

Fan Xueyu said loudly.

She is also a clever girl. She just blamed Cui or was completely self-maintained.

But now it is intentional “with rhythm”.

She believes in Shen Lang, and even the Master believes that there is no problem.

Others are obviously skeptical.

At this time, Shen Lang let the Emperor's behemoth eat Cui or eat it. It is not easy for Gao Laozu and Master to say that her identity can stand up and explain.

And what she said is also the truth, Cui or really wants to provoke dissension.

Shen Lang smiled lightly.

“Thank you for trusting me. I don't believe in me, it doesn't matter. Originally everyone is not a friend. There is no private connection when you leave here. I don't need to win the trust of anyone!”

When he said this, he immediately let the ancestors smash.

Undoubtedly, Shen Lang is only grateful to Yao Chi and Qiu Lin Jian Zong, and those who say no trust are most of them.

I think about it, and I suspect that it is really cold.

Cui or may be true, it may be fake. But even if it is true, going to the Yungong Holy Land is also your own will, and no one is forced to go!

But when you are trapped inside, it is not Cui or it is Shen Lang to bring everyone out!

In the meditation domain, Shen Lang also came here.

According to Cui or, everything is arranged by Shen Lang. Do you want to do this for their trust?

Even if he goes back to the Yungong Holy Land, it is to bring Fan Xueyu and others, but it is not to bring everyone.

Directly squatting at them, and when they are trusting, sneak attack and kill them, isn't it better?

Under the circumstance, I want to clarify and explain, and I feel that it will be more and more black, so that everyone can't say anything.

At this time, Helan's ancestors stood up and patted his chest.

"Shen brother! Others I don't dare to represent But the old man, I am absolutely trusting to you! From my family, I know that you are definitely not such a person, you are the real righteous!"

"For Cui, I am deeply abandoning him, I will never believe his provocation!"

Helan ancestors took the lead in making a statement, and everyone will have a step, and they will follow suit.

"Yes, yes, we will not believe his provocation! This is not to die, to die!"

"You are our savior, how can we doubt you?"

"Cui or Taiyin is poisoned! I know that I am going to die, deliberately want to leave us all!"

For everyone's attitude, Shen Lang is not grateful! Perhaps the first Helan ancestors were from the heart, but many other people are undoubtedly the scene words.

He doesn't care!

Chapter 1983 - Rejecting peers

Now that you have come out, let's leave! "

Shen Lang said faintly, and did not mean to chill with other people, just with the cold autumn, snow and snow, it seems to discuss what.

The other ancestors, originally, were also embarrassed. With the words of Shen Lang, they followed the steps and rushed to him and the cold autumn snow.

The situation is too complicated. If Cui is behind the scenes, then this is a paragraph. If Shen Lang is behind the scenes, maybe it is just the beginning!

Without knowing the inside story, they quickly leave and say.

In this forbidden place, they all feel unsafe.

“What did you find?”

Shen Lang sent everyone to leave, but did not go immediately, with Gao Hanqiu’s understanding of him, naturally guessed another matter to discuss.

“Cui is just a chess piece.”

As soon as this statement came out, everyone was taken aback except that Bai Yu did not care.

Shen Lang then said the information he got from Cui or his memory, and the bigger family said it.

“There is no such thing as a selfless person who does not ask for a return. Even if there is, he can completely disclose the information himself, and he does not need to use Cui or come here.”

Snow and snow and the cold autumn nodded.

They also frowned, guessing who it would be.

“No more information?”

They did not directly read Cui or the memory, only through the inquiry with Shen Lang.

Shen Lang shook his head: “There is only one clue, that is, Cui or the place where the person is seen. There is no direct appearance at all. If it is not reading memory, Cui or honestly tells me, I will not believe that there is such a person. “”

“Where is that?”

“I don’t think it makes much sense. The other party just happened there once, and it won’t be settled there. The purpose is reached, and it is impossible to go again.”

Everyone silently nodded, since it is only to use Cui or, the place to meet is a trace, can erase the traces, will be directly erased, can not be erased and will not go back.

It is not surprising that there is a person or force who understands the information of the Yungong Holy Land. It is not surprising that there are people who are selfless.

But since this person knows the detailed clues, he gives the information to Cui or intends to let Cui or to come to such a game. If there is no purpose behind him, it is impossible to say it.

The most direct guess is that this person does not want to show up himself, and he will use his will to do it.

By the time the plan was successful, all the ancestors were entangled in the Yungong Holy Land, and even if some of them came out occasionally, they were also hunted and banned at this exit.

After that, Cui will go sideways and become a big man on the hegemonic side.

But it is more likely that the person will come out to harvest, Cui or nothing, to harvest, or the whole world!

“You just didn’t say this, so everyone can’t doubt you.” Fan Xueyu said in a low voice.

Without the answer, Shen Xuefei has shaken his head: “It doesn’t work, they will doubt, and they will not believe anything.”

“And this information can’t spread out, it will kill the snake.”

Gao Hanqiu is also very cautious.

The greater the ability, the greater the responsibility, and they enjoy the respect of others, and naturally they will also think about the world.

“Let’s go to three of us!”

Gao Hanqiu has always been obeying the arrangement of Shen Lang. This time it is rare to take the initiative.

However, Shen Lang still shook his head and rejected his suggestion.

“Not good. Since the other party uses Cui or the layout, it will definitely pay attention to the situation here. Now that Cui is dead, everyone will leave, and basically understand all the situations.”

“You, it will be the focus of attention, it should also be the goal of letting the other side have scruples. So, you should go back as if nothing happened!”

Snow is not snow and cold autumn will understand.

As soon as the old ancestors went out, the situation here was exposed, but only to Cui or the death.

In their capacity, they will definitely be highly concerned. If they go back to Yaochi and Tangcheng normally, they will not be amazed.

Shen Lang will certainly be the focus of attention, not even worse than the two of them.

But then, after these ancestors went out to spread the news, it would require a fermentation process.

For the time being, the narrow waves that are still in the wrong place will not be highly concerned, and you can go to that place to find out the truth.

They believe in the waves, and they don’t feel that Shen Lang wants to benefit from it.

“But...” Gao Hanqiu looked at Shen Lang without worry.

This person who can grasp the information of the Yungong Holy Land, whether it is a person or a party, must be very unusual.

Shen Lang alone to explore, very dangerous!

“Do not worry. I am not a breakthrough? Again, I have the Emperor’s behemoth to help me, and my life-saving means are more.” Shen Lang comforted them.

It’s hard to say anything about snow and snow, just look at Van Gogh.

Although Fan Xueyu has not understood so much, but listening to their dialogue, can also guess a general.

She opened her mouth and wanted to say something, but she couldn’t say it.

“Let Xiao Xiao follow you to exercise! Have you not been with you before?”

Snow is not the right opening for snow.

This is the idea of Fan Xueyu, but her strength is not enough to give Shenlang more help, just follow her exercise.

Shen Lang shook his head again and refused.

“The danger of this trip is unknown. One more person has more strength, but it is also more dangerous.”

This made Fan Xue stunned and felt that it was not enough to dislike her!

She really wants to say that the white can follow?

But if you think about it, there is no qualification for saying this, you can only hold back.

“Okay, let’s leave first. Leave the big swing and help me attract a little more attention.”

“Good!” Gao Hanqiu and Xue Feixue immediately agreed.

They also understand that unknown enemies may be hiding in unknown places, including those who may have been in the ancestors!

So they must help Shen Lang to draw more attention.

“Snow Palm Gate, can you please do something, let Bai Bai first wait in Yaochi?”

Shen Lang’s words surprised Snow Snow, Fan Xueyu and Bai Yu.

“Yes, we are very welcome.” Fan Xueyu can’t follow Shenlang’s side, Bai Hao can follow, and both of them feel a little uncomfortable.

So now the proposal of Shen Lang Xuefeixue is happy to promise.

Bai Hao is eager to look at Shen Lang, she is to follow the Shen Lang!

“Listen to the arrangement!”

The opportunity for Shen Lang not to give her a speech is just a maid, so be obedient.

“Well, you left, I will save the two ancestors who were cui or imprisoned.”

Hearing this sentence, Xue Feixue and Gao Hanqiu are all secretly relieved!

I have never said that the two ancestors, with Shen Lang’s attitude towards Cui, they are really afraid that Shen Lang will pick up the two. What is the difference with Cui?

Now, this proves that Shen Lang is still principled. They have not read the wrong person.

Chapter 1984 - change idea

“Is it far from here? If you want to solve it together, it should be late, we must be fast!”

Gao Hanqiu immediately asked.

He actually considered it for Shen Lang. If the two ancestors were dead, what?

It's just that the words of Shen Lang's one are unclear. Other ancestors will believe even more about Cui or what they said before. They feel that it is Shen Lang who killed them.

So taking advantage of him and Xue Feixue here is a testimony.

Snow and snow also nodded immediately.

If the two ancestors are still alive, then it is good; if not, then she and Gao Hanqiu can use their personal reputation, even the honor of the martial art, to guarantee the Shenlang together.

If you don't see it with your own eyes, even if they believe in the waves, they can't make this guarantee.

“fast.....”

Shen Lang is thoughtful.

Everyone looked at him and didn't know what kind of state he was.

“Yes, fast!”

Shen Lang can also guess what they mean in the cold autumn. This is the real concern, for his sake, and it is said without revealing.

For the concern of real friends, rejection is also hurting, and receiving is the best thank you.

Just now he refused the proposal of Gao Hanqiu. On the other hand, as he said just now, he was afraid of being a snake. On the other hand, I feel that they have not recovered from their injuries. If there are too many people, they will have to take care of them in the end.

Think carefully, others are kind enough to help, is this not abandon?

But now Gao Hanqiu mentioned “fast”, so that Shen Lang has another aspect of thinking.

If it is fast enough, then the cold autumn and the snow are not directly hit by the snake, so you are not afraid of playing the grass!

The concern is based on the fact that the other party has set up this bureau, and it is in the dark, completely in the end where it is, and in what form to monitor the situation here.

But if their speed can be fast enough, they can reach their place before the monitoring information is sent back before they make an analysis.

It is impossible to get on the road.

But the door to the Three Realms can do it!

The Kunlun mirror of the New Three Realms has a limitation, that is, where it has been to be able to locate by memory.

So Shen Lang didn't think much about it. After all, it was a place he had never been to.

But now it is thought that Cui or his memory has become his memory. Can it be transmitted directly?

See everyone staring at him, and the thought of the finished wave is laughing.

“Go! Then everyone will go to save people, then... everyone will go with me to find that place!”

This is said to make everyone surprised.

Didn't just say that...

The most happy of course is Bai Yu and Fan Xueyu, who can follow Shen Lang's side, and everything else will not be considered so much.

High cold autumn and snow are not snow, you can think of it, it must be what Shen Lang has figured out, will change his mind.

What they have to do is to believe in the waves, not to ask so much.

And Mo Feiliu and Xu Yuyue are habitual obedience arrangements.

"Not far from here!"

Cui or the place where the two ancestors were hiding, not far away, because he still has to come back to the tiankeng to guard it, and can't leave it for too long.

At this point, Shen Lang did not use the means of transmission, but directly followed the memory and took them with them.

Then in a nearby mountain wall, it seems that a cave was temporarily opened, and then the hole was blocked with a boulder.

The average person can't feel the inside, the person who can remove the boulder, the triggering movement, will also let Cui or know, so he is very relieved of this arrangement.

"It's here."

The dog ***** did not go back to the space of heaven, and it realized that other people were not hurt, so this time, you don't need to ask for it, first shot.

It directly enlarges the body, and the boulder is dug out and thrown away with one paw.

The boulder is just a cover of the surface. In the cave, there is still a protective cover, but Cui or has already finished, and naturally there is no more, directly showing the situation in the cave.

Mo Fei flow is a bit awkward.

With so many people in the same industry, Gao Hanqiu is his master, Xu Haoyue is the younger brother of Master, and Shen Lang is the oldest brother of Master. These are all elders!

Xue Feixue is the head of Yao Chi. In fact, he is not as old as him, but his strength is stronger than him. He can talk with his peers and can also talk to Master.

Bai Hao is the maid of Shen Lang, Fan Xueyu is a friend of Shen Lang, they are still young women.

So just like consciously trying to catch Cui or before, he instinctively thinks that he is the one who should do the most chores.

At this moment, when the boulder was opened, he immediately flew in and took the two ancestors together.

Gao Hanqiu does not have to wait for Shen Lang to shoot, immediately check it.

“They are just weak and should not be a big problem.”

He immediately injected energy and woke up the two ancestors.

These two ancestors could be killed by Cui or killed. In addition to being injured, they did not even think of this danger. They were then imprisoned.

But Cui or just took away the things in them. Two people as “resources” still have not had time to move.

That part of the bones, now in front of the cold autumn, of course, quickly disintegrated.

“This is... Gao Laozu?”

They woke up and recognized the people such as the cold autumn, the snow and the snow, and the Shen Lang who re-entered the Yungong Holy Land.

“We are all back, Shenlang brothers, saved you from Cui or.”

Gao Hanqiu first emphasized that this is the credit of Shen Lang.

He followed here, fearing that the two were dead, so that Shen Lang could not explain.

Now that people are fine, everything is fine.

The two ancestors are grateful and embarrassed.

Before they were reluctant to go to the Yungong Holy Land, and even stayed behind, they were afraid that there would be trouble. The two people ran together first. As a result, they still need people to save.

“It’s already back, don’t let it go!”

There are still things to deal with in Shen Lang, not as much as they are.

In fact, he is not afraid that others will misunderstand him and save the two men. It is just a matter of hand-picked effort, and they do not show what they thank.

The two ancestors got rid of it again Originally had previous experience, this time they are willing to go back and forth with Shen Lang and his party. On the one hand, it means friendship, on the other hand, it is definitely safer.

But the words of Shen Lang are the order of the passengers.

Of course, they are not good enough to ask for a follow-up, and they will leave with leave.

When they watched them leave, Shen Lang also searched a large area around him.

For the time being, the confirmation is not monitored, at least there is no surveillance of the real strong. If you want to be specific to the details of other means, you can't do it.

“Everyone will go with me!”

Shen Lang took out the door of the three kingdoms of artifacts.

These are all people who can be trusted, and he can also show them some of his means.

Chapter 1985 - Bai Li Li Gong

Before Shen Lang did not talk to the cold autumn, snow is not snow, they said the place, not hiding them, nor is it possible to have any gains, but do not know how to say.

Because in Cui or her memory, there is a transmission matrix, and the abrupt appearance of the Xuanyin Gate, then he went in and explored, and the result came to that place.

When he returned, the transmission array disappeared.

Originally, according to the thoughts of Shen Lang, it is also necessary to go to Xuan Yinmen.

But now that he is ready to use the door of the Three Realms, he will directly transfer to that destination according to his memory.

This destination, needless to say, is definitely in this world, otherwise it will not be known to this side, you can choose Cui or.

Now that the waves have passed, there is no such consumption as going through another world.

“right here?”

When everyone was sent out, what I saw was a desert, and it felt like I was in a Gobi.

The whole world is so big. Before all the scopes are fully understood, it is impossible to determine where this Gobi desert is in the cold autumn and snow.

“Cui or here is here.”

Shen Lang pointed to the front.

He can actually go in directly, but in order to make everyone see clearly, so first send it here with the memory.

Cui came from Xuanyin Gate, which is here, and then goes forward.

In front of it is a mound, but it is not small, barely can be regarded as a tower.

After Cui came over, he went to this place and saw the entrance with a cave. After entering, he heard a voice and told him all the things. On the wall, there was also a map.

While watching the situation here, everyone followed Shen Lang and walked over.

Before arriving at the mound, Shen Lang was speechless.

“It has collapsed.”

He said the situation here, and now the cave is gone.

Everyone is a little discouraged. The person who looks like the mastermind behind the scenes is temporarily looking for such a place, and then arranged the transmission array, directly to the Xuanyin Gate.

When the goal is reached, all traces are eliminated directly.

Gao Hanqiu is still a little unwilling.

If the traces here are completely erased, then they can no longer be traced. There is such a conspiracy in the world that is secretly present, and it is always unreliable.

As soon as he raised his hand, the sword-like mound in front of everyone was immediately decomposed by layers.

To destroy such a mound, everyone on the scene can do it easily.

But the cold autumn is now breaking it down, it is a piece of split, but it is not directly collapsed and shattered. Instead, the mound is cut into thousands of small pieces and separated.

To do this, it is much harder to manipulate power.

For example, it is very easy to break up cakes, tofu, etc., but to integrate them separately as small pieces of bricks, it will test the technology.

The action of the cold autumn is to completely open the entire mound, but not let it collapse, so as not to obscure some traces.

All of them have strong eyesight and are all observing.

The results can still be seen. Now the cave is blocked by the collapse, and there were obvious voids before.

But there is nothing else besides the environment that faintly corresponds to the description of Shen Lang.

Gao Hanqiu sighed softly, his hands raised, and countless small mounds separated in the air, completely smashed into a powder.

“Let’s go, you can only guard more in the future.”

Shen Lang did not have any disappointment, because there was no hope.

The person behind this scene is to use Cui or, in such a secret way, the transmission matrix will be erased, and naturally it is unlikely that they will leave traces for them to follow.

“Wait!”

Everyone looked at the sound and said it was white.

The appearance of the white pheasant is a bit like a flower fairy, but because it is illusory with the flower fairy, it is a bit stiff expression.

With her just so awkward, I feel a bit of strength.

She was aware of herself and quickly added it.

“Please allow me to try out the secrets of our Qingqiu, perhaps to find out the traces before.”

Shen Lang nodded and encouraged one sentence: “Very good, don’t be stressed, try to play!”

Everyone looked at him together and renewed a glimmer of hope.

But for Bai Yu, I don’t know about Qingqiu, and I don’t have much hope.

There was a green pebbles in the hands of Bai Yu, and then there was no need to change the cost of the body, so he held the green pebbles and entered another state.

Shen Lang also has a certain understanding of Qingqiu Stone.

That is simply a world-wide fantasy!

And in addition to being able to create a fantasy, you can also explore the illusion.

He also has an impulse now, want to come out with his greenstone to experience it.

However, think about it, for the application of Qingqiushi, he has only a few experiences, certainly not as good as Qingqiu's pride. You should believe in day, if she has no way, he certainly can't feel anything.

"I saw...the people here...the...Cui or, there is a...the man covered by the black robe..."

The white cockroach is now closing her eyes and entering the world of her green hills, and then muttering to her what she saw, telling them.

Everyone listened carefully, no one asked, so as not to disturb her.

Although they are not very clear about this situation, they can guess a general, be disturbed, and lightly from that state, it is not easy to go back. On the other hand, it may have a big impact on people's consciousness!

Snow is not snow and the cold autumn, there is a hint of excitement.

It seems that this Qingqiu nine-tailed fox is really a special secret!

They are understandable. In essence, they are once again presenting what has happened here.

If time passes, they can do it, and the shorter they are, the more clearly they can recover.

There was no way just now, because the light went to the cloud palace holy land, it was ten days to go plus Cui or the arrangement, and then come from here to plan, not doing nearly a month, what traces Nothing, no presentation.

After a while, Bai Hao took a breath and opened his eyes.

"I saw it! The Cui came here and went inside the mound. He didn't see the man who spoke. It was a man in a black robe covering himself."

"This person appeared after Cui or left, and then erased the traces here."

“He himself, not disappearing out of thin air, but going there!”

Bai Yan looked at the mound of powder just now, using this as a reference, and then pointing in one direction.

Everyone is refreshed.

No matter where it is, since that person is not sent away, since there are still traces to be found, there is hope for finding it!

Chapter 1986 - Skeptical person

Going forward along the Gobi, Bai Yu became the guiding person, and she still took the green hillstone, and in the unconfirmed place, paused and felt it again.

Everyone understands that no one is urging.

Because the longer the time, the harder it is to present, and the shorter the stay, the harder it is to capture. The traces at the mound are still still, slow, and relatively easy.

When the black robes leave, the speed is definitely very fast. It is even harder to grasp the specific traces.

As he followed, Shen Lang couldn't help but check the map.

This is not a place like a small world. The map of the holy armor still has some reference value.

But it is also a reference, because there is no global satellite signal positioning, so the map of the holy armor is based on the trajectory of walking.

For example, if they come by flight, the trajectory on this road can be combined with other reference objects, such as which direction from Yaochi, how much distance, and so on.

That way you can sketch out a rough position and distance.

But if you send it directly, there is no reference at all.

Because Cui is also transferred from the Xuanyin Gate, otherwise, you can calculate the position of the Xuanyin Gate from the trace map in his memory, and then draw a map from Xuan Yinmen according to the route he took.

Now it is transmitted directly, which is equivalent to a new area that is out of thin air and has no reference connection. Before the contact was found, Shen Lang failed to put this map together.

These are very clear to him, but they still check the map because he has a bold guess!

Those who can grasp the information of the Yungong Holy Land are definitely not ordinary people, at least not inferior to Cui or such ancestors.

And he unconditionally gives Cui or information, that is, using Cui or his ambition, he or they, hiding behind, waiting for Cui or finished, and then come out to harvest.

There will be such a ambition, and it must be a big force!

No one can guess who it is before there is no clue.

After all, the territory of this world is so vast. Over the past tens of thousands of years, there have been rises and declines.

In all parts of the world, all kinds of known forbidden places, not Zhoushan, the meditation, the wilderness, and so on, are still very mysterious, and there are various adventures.

I don't say anything else, but said that the little Yuxianmen, occupying a small place, away from the big city and the big door, but holding a door to space, mastering the method of "fishing people" in the chaotic world, also master The secret of extracting mental power.

Give them thousands of years, a few talented disciples, it is entirely possible to grow into a big sect. These old sects and families will not be concerned.

But Shen Lang still has a skeptical goal!

He has no clues, nor is he speculation of analysis. It is purely subjective suspicion.

Bright God, the bright **** of Guangmingshan Park.

First of all, from the strength, the light **** that can easily crush the Emperor's behemoth is fully capable of exploring the Yungong Holy Land. Moreover, the gods of light are passed down from generation to generation, and they can also be regarded as a light god.

It also means that they are a big force, and they have an extraordinary heritage. They may even have come out from the Yungong Holy Land. It is not impossible to master more information about the Yungong Holy Land.

The most important thing is that Guangming God even wants to unify the world in the lower bounds of the world of missionary sermons, in order to achieve the purpose of resource interests, which shows its ambitions and means.

The population base of this world cannot be compared with the earth, but the self-cultivation environment and resources in all aspects are far from the earth.

If you can unify the world, or at least rule the majority, then you don't have to go far to conquer the earth.

Of course, the belief in divine power is the number of people on the planet, and they will not give up. That is a plan that can be peered.

If the mastermind behind the scenes is really the light of the gods, it is entirely plausible. It is a breeze to control and kill Cui with the power of the gods.

However, despite such doubts, Shen Lang does not feel that the black robes are bright gods.

The light **** is too powerful. I didn't see it in the last time. I solved it directly with the spirit of the dog.

He doesn't need him to shoot at all. If he comes in person, it will make Cui or the pressure huge.

Cui or not a fool, can also think of this, because he feels able to control, can deal with the harvest of the black robes, so it will be counted.

In this case, under the bright seat of God, there are still dark and bright apostles, and there are ten apostles. Even if a large number of apostles have been killed by Shen Lang, it is not a problem to come to a person.

When Shen Lang went to Guangming Mountain, it started from Tiandu City. It was a journey of 200,000 miles. It was also around Yaochi. The whole journey was a great trajectory. It became very important for him to sketch this world map now. One stroke.

Now he compares with the map, seeing this Gobi desert, will it be on the way to Guangmingshan.

This is not convenient for him to say, but he must first have some prediction and judgment.

Because of the strength of the light god, it is estimated that the cold autumn without injury may not be able to compete!

Really want to be related to the light god, then it needs to be considered from a long time.

It is a pity that his comparison has no results. There is no reference point, and there is no database in the terrain here, which cannot be matched.

“Nothing”

Bai Hao suddenly stopped and murmured.

Everyone stopped and then chewed what she meant by what she said.

“The man is here, there is no more.”

While talking about it, Bai Yan continued to use the green hill stone to induce.

“Yes, it is here.”

She confirmed it again.

Shen Lang and the cold autumn, snow and snow exchanged a look.

When the black robes left, they disappeared here?

There is still a Gobi wilderness here, and there is nothing special about it. That will disappear from here, there is only one possibility, that is, there is also a transmission array here!

“Don’t move!”

After Gao Hanqiu said a word began to carefully sense the surroundings.

The same is true of Shen Lang.

The other party has already destroyed the transmission array that connected the mysterious door to the mound, and Cui could not return from the hidden door. But he has been rushing here, and then sent away, it should be out of caution.

But is the transmission array here destroyed from the other side?

If the other party really just uses this, the purpose is achieved and it should be destroyed.

Then I lost the clue again, and the white cricket just continued for a while.

Gao Hanqiu raised his hand and immediately raised a dust, and then everyone looked at it. This dust was going in one direction, and then there was a part that disappeared directly!

Chapter 1987 - Blazing flame

Seeing this scene, everyone is refreshed and knows what it means.

In the cold autumn, the shots again, the pieces of soil flew up, and then quickly circled in front.

“There is a space crack here!”

Shen Lang also confirmed that it was not a transmission array, but a space crack. The black robes disappeared from here, and they entered this!

If it is a transmission array, the possibility that can be associated with is basically what kind of person or force is doing, but if it is a space crack, there is a greater possibility.

It is possible that this is a secret small world, similar to Qingqiu.

It is also possible to go directly into another world, such as the meditation domain. It is also possible to enter a chaotic space that connects other worlds, even to a world like the Earth.

Shen Lang does not know whether it is a matter of luck or concern.

Fortunately, because this confirmation is not to Guangmingshan, then it is not the **** of light.

Worried that people from other worlds have already reached out here, no one knows!

Before the Tiandu City, there was a ringing of their transmission array, which was already a wake-up call.

At that time, Shen Lang and the dog **** passed, and in the transmission array, the Wusong ancestors and the like that were encountered were not strong enough. Afterwards, this was also the case. Non-Ji Qiandao said it and let him spread through the Ji family.

I didn't get in touch afterwards, and I don't know what to follow.

The person who comes here now can motivate Cui or, and the plot is a large group of great god-level powerhouses, all of whom are the ancestors of these ancient sects. The level of crisis has been much higher.

Snow is not snow and cold autumn is also a bit worried.

“How will the situation be there? I don’t know for a while... Shen brother, what do you think?”

Obviously, Gao Hanqiu had already had something to say, and it was close to the mouth, and he changed his mouth to ask for the meaning of Shen Lang.

Shen Lang saw that he had his own ideas and respected his ideas.

This is not the small high of the year. This is already the high ancestor of the ancestor level. People respect the old feelings, and he can’t really look at the younger brother.

“High ancestor, this involves a relatively high degree. I have limited knowledge and I don’t participate in the proposal. You and Xuezhangmen must have better arrangements. I will follow your arrangements.”

Shen Lang said very seriously, let Gao Hanqiu realize that he really has no opinion.

He was the oldest here, and immediately nodded to the snow, and he began to arrange it.

“This space crack, where is the way, we are not clear. But from the previous situation, others have already secretly observed and deepened our understanding of us, and have begun to deal with it.”

“This time because of the deep waves, we found this, we can’t shirk, we must stand up.”

“Because there may be dangers, I will not be able to take care of it at that time, and everyone will be hurt. Therefore, I suggest that I and the Snow Fairy and Shen Brothers should explore the past.”

When Gao Hanqiu said this, he added another sentence: “Of course, there is a behemoth.”

This stuff now looks like a dog, but it is very powerful.

Just after Shen Lang has said this, Bai Hao did not dare to say anything. Fan Xue met with Master’s default, and he also knew that he was too big to say anything.

Xu Yuyue and Mo Feiliu are completely obeying the arrangements of the cold autumn.

“You a few, not idle, there are important tasks for you! That is to guard here, there are two aspects of safety that need attention, from the inside, on the one hand, outside!”

When I heard this scream of Gao Hanqiu, several of them also agreed quickly and seriously.

They are the second echelon. If you can't help with the past, you should do the security work of staying behind.

Snow is not snow and cold autumn, Shen Lang and dog god, in terms of strength and experience, there is no problem.

You don't need more preparation. Simply say it, you can go in.

Three people plus the Emperor's behemoth, also enter the space crack at the same time!

If this is a small world, it is just like the transmission array. It doesn't have much impact and can come in and out at any time.

But if it is through the real space cracks of other worlds, then the space impact will be different.

That will be different because of the size of the gap, the environment, etc., four together, naturally it will be able to share.

For what happens after entering, Shen Lang does not think too much, but undoubtedly must maintain a high degree of alert.

At the moment of entering, Shen Lang immediately felt an impact.

This impact is not a big deal for him now. Don't say that four people share it together. Even if he is alone, there is no problem.

But this has a clear message, this is not a small world!

The next moment, has successfully settled into another world!

This also makes Shen Lang a bit surprised, because it does not enter the chaotic space connecting different worlds, but directly to the world.

And in the world in front of you, the environment is very bad!

What you see in the eye is a blazing flame!

These flames are emanating from the ground. The ground without flames is also the red-red scorched earth. At the sight of the past, all the way to the farthest places, there are countless flames burning.

Such an environment, Shen Lang in the huge building of the Yungong Holy Land, there is also an experience, one of which is like this.

There are some fire monsters there.

It is undoubtedly hot and hot here. They are not in sight, and there is no trace of anyone in the sense of God, or there is no living thing.

At the same time as Gao Hanqiu observed, immediately mark the vicinity of the crack in this space and make a mark so that it can be accurately found here.

Shen Lang does not need to consider this, the trajectory of the holy armor can be recorded very accurately.

He now took out his piece of green pebbles, and then learned how to look like a white, and began to try to sense the direction in which the black robes left.

The result is a pity.

I don't know because he doesn't know the specific operation method or because the environment here is worse than the Gobi desert there, and no traces are detected.

Gao Hanqiu saw his problem, and in order to avoid him, he said quickly.

“We will act separately! Regardless of the world, we have to explore.”

“The soldiers are divided into two ways! Shen Lang, together with the Emperor and the Great Beast, I am with Gao Laozu. If anything is discovered, contact Yu Yu.”

Snow and snow have split the action and implemented it.

There are four in total, and it is really divided into four directions. When it is dangerous, there is no one to take care of. The two divisions of the soldiers are more reliable.

Then she took the jade and tried it with them.

Their communication technology does not rely on satellites, but on their connections. So even in this world of blazing flames, these three communication jade are just inaccessible to other sects, and they are still possible.

Chapter 1988 - Huge fire

In this strange world, it is dangerous to divide the two soldiers. However, there are communication tools that are undoubtedly much better.

However, Shen Lang still felt that he was not enough. He put out a miniature reconnaissance and went straight to the cold autumn clothes.

“The light is jade, the environment has no reference, it is not so convenient. This is one of my trackers, placed here, once you find something, you can find it faster and better.”

When I met for the first time, I talked about the great development of the earth. These Xu Yueyue also said in detail.

Therefore, there is a tracker concept in the high cold autumn, so you don't need to talk with snow and snow, and nod your head directly.

“If it is found on my side, I can also use it to guide you to find it.”

“it is good!”

Because of the surrounding environment, there are fire-breathing grounds everywhere, and there are no visible roads, so there is no clue. The two sides randomly find a direction and accelerate away.

In the Cloud Palace Holy Land, even in the huge building, there are great restrictions, but there is no such thing here, everyone can still play their own level.

The great ***** of injury is also the great god.

Everyone’s speed is very fast.

Because the ground is sprayed from time to time, and the height of the sky is dark, I don’t know what will happen, so everyone chooses to fly a little better than the flame.

But for the dog god, it can fly, but prefers to run.

So after a while, I immediately became a little bigger, letting Shen Lang sit on it, and it was responsible for running, and Shen Lang was responsible for investigation.

Shen Lang is also not polite, the two of them are to cooperate with each other. When you hurry and explore together, you are doing your work repeatedly.

Although riding a dog feels a bit strange, but the dog ***** has become a little bigger, it feels like riding a horse, it will not violate.

If the environment can be, the dog ***** can become bigger, a jump can be farther, and the Shenlang can easily sit on its back without the need for riding.

However, the environment here has fire-breathing everywhere, and I don’t know if there will be other problems. It is not convenient to restore the huge body.

It now runs like a horse, and can be easily interspersed in the middle of the flame, because the scope is great, how can there be a way to let it go.

Shen Lang himself spread the knowledge of the gods and expand the scope of the search as much as possible.

Now he is not looking for the traces of the black robes. It has been so long, and there may not be any traces.

He is now exploring the new world that has never been seen before.

Compared to the mainland of Nakajima, the environment here is simply bad. In addition to adapting to the race here, it is much worse than the Earth.

It is completely imaginable that the other party should be trying to invade the world, but there are quite a few masters of comprehension there. It is not so easy to do, only step by step.

He took the dog ***** and Raytheon, and they all saw the new world.

The dog ***** is really excited. I was in the space of Tianshu, and it made it panic. Now there is a new environment for it to experience, it is very novel.

Lei Yuan does not need to contact it, it should be able to feel it.

Along the way, the speed of the dog ***** is also very fast, and it circulates quickly in the flame, and runs hundreds of miles directly.

Shen Lang has long been accustomed to the territory here. In this new environment, it is also true. It is nothing to be said for thousands of miles.

However, his knowledge of the gods has sensed a little abnormality!

“The Emperor, go here!”

A hurry, a exploration, the dog ***** gave up the exploration, the area that the eye sees, and then listens to the arrangement of the sun.

Shen Lang said that the direction is straight away from now, a few dozen degrees, the distance is not too far, but at most dozens of miles, and then far away, he is also difficult to sense.

The dog ***** turned around immediately, and the speed slowed down a bit, so as not to miss it.

After a while, both of them have clearly seen the strangeness.

On the ground in front, there is a large area, like a volcanic eruption, which sprays a lot of flames into the air!

But this is not a volcano. It is not a magma, it is a flame!

Like the flames seen along the way, but those flames, big or small, random chaos, small meters, large tens of meters.

But what you see now, this is a level of ground, estimated to have a diameter of dozens of miles!

The flames of dozens of miles, the feeling is that a large mountain is burning.

After the dog ***** wraps around, he has already ran to the vicinity, and countless flames, as if directly sprayed into the sky, look very spectacular.

Shen Lang is also occasionally paying attention to the situation of the reconnaissance. The cold autumn and snow are the same as the snow, and there is nothing to gain.

“Gao Xiong, Xuezhangmen, we found a great flame here, it is estimated that the width has reached dozens of miles. But there are no people or beasts.”

Shen Lang directly conveyed the sound of Yuxi, and told this information to Gao Hanqiu.

“Okay, keep in touch. There is nothing to gain from us here.”

Gao Hanqiu responded quickly.

Shen Lang didn't have much chat, but talked with the dog god.

"How? Do we have to break in and see, in the middle of this huge fire, maybe there will be any gains."

"This... If you are interested, I will support you. I will not go."

The dog ***** directly played back.

Shen Lang can't help but be dumb. Although it is a supernatural beast, it is a super beast than a human god. But it is also a beast.

They have a natural fear of the flame.

The dog ***** is strong and naturally not afraid of the general flame. But this long tens of miles of fire is not an ordinary flame.

Shen Lang was also a joke, but the retreat of the dog ***** made him think about it.

This world has the environment and rules of this world. There are flames everywhere, but the huge sea of fire in dozens of miles is still a special existence. If there is any real gain in it!

With the current realm of Shen Lang, it is possible that water and fire will not invade.

The situation in this world has not yet been fully understood, and it still requires a high degree of alert.

But he still has the confidence For example, you can open a protective cover, and then calculate the temperature inside the holy armor. If the dangerous edge is reached, then withdraw it in advance.

After thinking about it, he thought of another thing.

Earth fire!

When I was in the giant building, the fire was released, but the ground flames that were ten miles wide were all swallowed up!

In front of this piece of fire, the area is light, and it will exceed the level of the giant building.

The situation in the floor of the giant building is even worse than the environment they have come all the way to, and the surrounding environment. The fire in front of it is really a sea of fire, and it goes straight into the sky!

Calculated from such a scale, it is thousands of times more!

Not to mention the thickness of the first floor of the huge building is limited, here is a steady stream of fire.

Chapter 1989 - Put your heart on fire

“You have to wait here first.”

Shen Lang jumped from the dog god.

“Do you really want to go in?” The dog ***** was slightly surprised.

Shen Lang has all kinds of magical means. It has been seen, but what is the solution to this huge sea of fire?

“There may be nothing inside.”

“I know.” Shen Lang nodded. “But since I came across it, I don’t want to take a look. After all, I am still a bit unwilling.”

“but.....”

I thought that when the Emperor’s beast was followed by Shen Lang, the strength was far better than Shen Lang. It was a little bit swindled by him. He was still a little proud of Shen Lang.

But now it is the true friend who regards him as a life and death, and will persuade him again and again.

“Do not worry! I will take care of it.”

When Shen Lang spoke, he took out the heart fire.

The time when the heart fire was absorbed in the layer of the flame of the giant building, but ten days ago, it was like a full meal, and there was no beautiful rest and absorption.

It suddenly got it out, it was a bit unpleasant.

But it was immediately excited, the environment here, but it loves it!

“Do you see the fire in front of you? If I take you in, you should be able to absorb a lot for you?”

Shen Lang sent this idea to the heart of the fire.

The heart fire is unable to fully express anything, but there is a little spiritual will.

It immediately expressed an excited look and seemed to confirm the problem of Shen Lang.

“Like this, I am going in with you, what is the danger, I will take you away. Can you protect me from being burned?”

The heart fire immediately expressed a bit like a disdainful attitude, and it seems that it is nothing to it.

The dog ***** saw that he took a flame and didn't know what he was doing, but it should be prepared.

It did not say anything more, but prepared to meet the waves.

After reaching a tacit agreement with the heart fire, Shen Lang greeted the dog ***** and then directly joined the fire in front!

As the body of Shen Lang is closer to the sea of fire, the fire of the earth is getting more and more excited. It seems that the hungry people see the food.

Although it had eaten a meal not long ago, people who have been hungry for a long time will want to eat if they see food, and they will pick it up when they can't finish it.

Even so, Shen Lang still dare not care about it. After forming a protective cover around himself, it is truly entering the hot sea.

But after he entered, he felt different.

There is no doubt that this is the super-hot sea of fire, and the flames are constantly rising from the ground.

But the heart fire has begun to work!

All the flames around, as if by an invisible hood, completely exhausted, will not burn to the sinking body.

The geocentric fire is directly in front of the Shenlang, and the place where it is close is directly connected with the sea of fire.

Shen Lang felt this situation and was relieved, but did not relax his vigilance.

The security situation is still to come by yourself and not to be completely handed over to others. Besides, the mental consciousness of this place is very weak. Who knows if it will understand the mistakes and the protection will not be possible.

Shen Lang originally wanted to enter this fire sea to see if there would be any special circumstances. But there is no specific goal. After all, this is a huge sea of dozens of miles. It is not clear how much it can penetrate.

But now, it turned into a heart fire that led him forward!

The current appearance of the earth's heart fire is like arranging the flames around, leaving a piece of its own front. This piece is directly swallowed forward.

The volume of this flame is far better than the flame of the first floor of the giant building. Even at the edge of the sea of fire, the burning of the ground fire continues to be absorbed, and it is almost impossible to take the fire.

It feels like Zhang Dazui wants to drink a pool of water...

But the heart fire is not satisfied with the edge, but continues to go inside.

Shen Lang originally wanted to see if there was anything inside, and he followed it slowly to fly inside.

The dog ***** behind is a dark frown.

It looked at the sinking waves into the sea of fire, and then was swallowed up by the flames!

However, it still sees clearly. Shen Lang has already arranged the surrounding flames and is not burnt.

But it is very powerful, and the flames are endless. The more he goes deeper, the more dangerous he is!

It can't let the Shenlang out, only keep the attention to the Shenlang, even if you can't see it, you must sense his safety.

Shen Lang followed the heart of the fire, continued to go inside, and found that this guy's speed is getting faster and faster!

Shen Lang can only follow, but this is back from Cheng Cheng, and it has not been used several times. If you let it run, you can't get it.

In case it really wants to detach, it must be collected!

Followed by the fire of the earth, under the flames of the fire, the waves rushed into the depths of the sea of fire.

According to the distance of walking, he inferred that he should have reached the middle of the sea of fire.

Then the heart fire stopped and slowed down.

Shen Lang's eyes can't see anything. Anyway, all the dozens of miles around him are flames. He can't distinguish between the flame and the flame.

And all the way in, it is also flying, not attached to the ground, I do not know if there is anything special in this sea of fire.

Basically, he has already satisfied his curiosity, and he will be willing to leave.

At this time, the heart fire was a smash out from the front of him!

Suddenly, the rejection of the flame around him disappeared, and the all-round flames swept over the waves!

Shen Lang was slightly surprised, but because he was always vigilant, even when there was a fire in the ground, he also maintained a protective cover.

So I didn't hurt him at this time, still still give the flame to the side of the body.

However, just now there was a fire in the ground. His own defense was a layer of insurance. Now the flame is burning directly, as if it is constantly being attacked.

In the eyes, it is all flames, and there is nothing good about Shen Lang, but his knowledge is still tightly locked.

If this guy wants to escape, he must start immediately!

Otherwise, if it is then a small group of flames will be hidden in the sea of fire that has reached a tens of miles wide and is directly rushing into the sky, but it is really difficult to find out.

At the same time, he also let the holy armor stand by at any time. If there is danger and it is difficult to resist, let the holy armor open the protection and then leave at high speed.

With the induction, Shen Lang discovered that the heart fire did not mean to escape, but stopped in front of it.

Further perception, it is not the same.

Although they are all hot flames, the earth fire and other flames are still a little different, and the place where it is now is also a little different from other flames.

Careful identification, it seems that in the middle of this huge fire, there is a more pure flame, the flame is only a few meters, and the height is limited, and did not rush to the sky.

The fire that is wrapped in the sea of fire is really difficult to distinguish, but the fire of the earth should be specially sought over!

Chapter 1990 - Crazy devouring

Shen Lang calmed down.

Since the heart fire is not about creating a chance to escape, it doesn't matter.

If it wants to absorb the devour of the flame, then of course it all depends on it. After all, it is powerful and more valuable to him.

Shen Lang is also close to a point, so that he can observe the situation of the heart fire.

Under such a close distance, plus the analysis, I saw a general look of this flame.

This seems to be a flame column in the dozens of seas of fire, but also from the bottom of the ground.

But Shen Lang himself, it is not clear what is special about it.

At this point of the earth's fire, even the swells of the waves are ignored, and they have been adsorbed directly—or close to the flame pillars that are attached to these meters.

It is in the swallow to absorb this flame!

Shen Lang secretly analyzed it. In the first floor of the huge building, the ground fire has already swallowed up.

It can't be said that it is hungry, but the flames there are not ordinary.

However, in this world, it is that they have rushed for hundreds of miles, and there is no shortage of flames that spurt out everywhere. It is not rare.

And these dozens of miles of fire, is a huge collection. When it first appeared, the heart fire could not help but swallow it up.

But this light is how it can't be swallowed up. In contrast, it should be found that it is better, so it started to be picky. Now come to the central part, first swallow this better!

Shen Lang does not understand the difference between flame and flame, but from the reaction of the fire of the earth, there should be a difference.

But it can also be swallowed, which means that the flame in the middle is still not as good as it!

Nowadays, he can only give this place a fire to “protect the law”, guarding not to disturb people...

Hell! Can someone still disturb a fire?

Or is it that the flames of these dozens of miles will disturb this flame?

Shen Lang himself feels that this situation is too absurd.

So he still put his defensive power around his own, and he can't care.

But very quickly, he found that there was really a problem!

There is a feeling of a flame coming to the side!

It seems that all the flames want to be squeezed over, but it is not the powerlessness that was previously swallowed up by the heart of the fire, as if to squeeze it away.

The human being, Shen Lang, of course, will not be valued by the flames. It is completely engulfed by him. If his protective cover is not strong enough, people are already very dangerous.

This made him a bit surprised, is the flame also spiritual? 呃, it seems to be true, does the heart fire not have spirituality?

That doesn't entangle this, what are these flames to do?

What is the heart fire?

It's too late to communicate with it. If you want to help, you can't do anything about it.

Because they are all flames, flame fights, how can humans pull apart?

Under the observation of Shen Lang, the geocentric fire seems to have no concern for this change.

Those who approach it are naturally unable to squeeze it apart, and they are constantly being swallowed up by it!

But don't care, it affects it a little bit, which makes it even faster to swallow!

After a while, Shen Lang found the columnar flame in the middle of a few meters, the height seems to be a lot lower, and the range is shrinking!

The trade-offs are obviously growing up a little bit!

This further confirms that the heart fire is swallowing and “feeding.” The flame in the middle is better than the flame of the whole fire, and the effect is more obvious, which makes it obviously bigger.

After the earth’s heart fire has become a little bigger, the speed of swallowing is greatly improved!

Then, the columnar flame is getting smaller and shorter at a visible speed!

Boost!

Shen Lang is also secretly cheering for the ground.

The situation here is still a bit strange. He hopes to absorb this flame earlier and then go out with a heart fire.

To absorb, other flames of several meters and tens of meters on the ground are safer targets.

Time passes by, and it takes about a few minutes.

Shen Lang is already looking at the middle column of the flame, gradually becoming a strip, becoming smaller and smaller, and finally completely disappeared.

In this process, he also suffered a great test!

Because there are countless flames coming over, even if there is no spiritual knowledge, there is a feeling of rushing to save.

The heart of the fire does not care, directly devour and absorb, but the Shen wave has to bear the test of their scouring.

The madness of the flames in dozens of miles, and it is continuous and continuous, which is certainly not a trivial matter.

Although Shen Lang can't help anything, he still guards the side and faces the fire.

By the time the heart fire swallowed up the special flame, its volume was almost a big turn! It is more obvious than before.

At this time, it suddenly broke out a special gas field!

In the twinkling of an eye, the shroud has been completely covered, and as before, the flame around the shingling waves has been arranged, but it has become very active by the passiveness of the past!

At this moment, Shen Lang felt the flame like a squally wind like a tsunami!

Compared with the flame wash that he just suffered, this is not how strong it is!

Then he further observed that the numerous flames that had been washed out were largely lost.

You can guess without asking, these flames are swallowed up by the fire of the earth.

The double-hearted fire, the speed at which the flames are swallowed, is much larger, and after it has dried up the special flame, this wider range of flames is almost a batch speed.

However, this is a tens of thousands of miles in the sky, even if it is swallowed by mass, it still takes a little time.

Under the protection of the ground fire, Shen Lang does not need to fight against himself, he can better observe.

As a result, he found a problem. After the flames were swallowed up, there was no more!

Being swallowed up, nature should be gone. But because they are constantly coming from under the ground, even if they are not there, there will be new supplements. What is reflected here is that there will be no less.

It's not the same now It's obviously a lot of reduction!

Shen Lang immediately spread the knowledge of the gods and tried to go to the edge as much as possible.

Soon, his observations and analysis were verified. This width has reached a huge number of tens of miles in the sea, is rapidly shrinking, is getting smaller!

Shen Lang could not help but secretly stunned. Look at this, the heart fire is to completely devour these tens of thousands of miles in the sky.

This is also a sly character!

He began to secretly smile, knowing that he would not let it out. Can you manage to grow to such an extent?

If you don't obey and stick with him, wouldn't he have to deal with a terrible fire?

Even if there is no conflict, the sea of fire is eaten for dozens of miles. Where can I find more and better flames to feed it later?

What will the heart fire be like in the end?
