

## First Strong 200

Chapter 200 - conspiracy

Shen Lang did not squint, but the gods still pay attention to everything around, not only the two around, but also a few of the Chu family in the distance, and whether there are other things close.

Xie Tongwen and Xie Yunlin are still eating silently, only occasionally exchanging their eyes, and then observing Shen Lang, which is slightly strange.

I can see that they are waiting for Shen Lang to really fall asleep.

However, Shen Lang is a bit puzzled. They are not ordinary people. They didn't sleep well in one night. It was nothing. When he was at school, he used his sleep time to practice, and he often only slept for a few hours.

And even if he can really fall asleep right away, and it's a short break, does it really work?

He can think that they might use the map after he fell asleep, then they would not think of this?

Even young, but the best children of such a big family are not cultivators, and they learn more than ordinary people.

This makes Shen Lang have new ideas, they should have other intentions!

Sleeping, is there a little sleepy? Why did you suddenly say this...

The people who combined with the Chu family followed, but they did not, even without vigilance, which made Shen Lang immediately alert.

He simply brought a little clothes and luggage, and now it is placed in the hotel. Before leaving yesterday, Xie Xun sent them a bag with food for the past few days. All three were the same bag and they were sent together.

Shen Lang did not think much, because Xie's family has already said the ugly words in front of them, and everyone uses each other for a win-win situation.

But in fact, the words that Xie Xun said before coming in, the experienced Shenlang had long thought of it, so when the hotel waited, he also went out to the nearby store alone, bought water and food, and stored it in the storage ring. inside.

So even if his food was stolen, he still has no problems. Although he did not doubt what Xie Xun had prepared, he was more assured that he personally bought it.

So when I saw something last night, it was just an ordinary item that I bought now. He also switched to the storage ring, which he bought himself.

He had just not eaten, just drank a bottle of water. Xie Tongwen asked if it was a little sleepy, and then watched him fall asleep immediately, but also concerned about...

Thinking of this, the answer is clear!

The water and food that Xie Xun prepared for him were all done!

Xie Jia and Chu Jia had already agreed, so the advanced Chu family and the people were waiting nearby, and then followed them all the way.

Xie Tongwen chose to stop and rest so quickly, in fact, just waiting for them to come close. And also let Shen Lang eat and drink poisoning!

After guessing this, let Shen Lang have a murderous attack, and at the same time ponder it, from which ring?

Xie Xun's representative of the parents of the Xie Xun has reached a tacit agreement with the Chu family. The two sides together smashed the waves in the dead forest, and the Chu family provided the cost loss?

Or is it because Xie Youli invited him to start, is it already set up a good bureau?

Looking back now, it is really possible to have this!

At the beginning, Xie You just wanted to make a relationship with him. After he had offended the Chu family, he should not continue. Later, after reporting the Xie family, he even agreed, and said the death forest. – If it is not this, it is not enough to make the swaying of the waves.

Yes, compared with the relationship between the same-level giants who have been in contact with them for hundreds or even hundreds of years, what is the sudden wave that he suddenly emerged? Can Xie's favor reach this level?

Shen Lang secretly introspected. On the one hand, he is a young man in his life, and his mentality has a certain influence. On the other hand, it is the peak of his previous life. In the face of absolute power, all intrigues are cocks, and there is no need to count so much, so there will be negligence for these.

Time passed by, and Shen Lang made himself show that he was already in a state of slumber, and it was obviously not a normal calm sleep, it was a state of lethargy.

“How?” Xie Yunlin asked softly.

Xie Tongwen has not been eating anything. He looked at the time and it has been ten minutes.

“We thanked the family for their worry-free, colorless and tasteless, and they worked very fast. Although he did not eat anything, but a bottle of water drank, the liquid absorption played faster.” Xie Tongwen looked at the waves and laughed at it.

Xie Yunlin still did not feel close to the side of Shen Lang, carefully observed it, determined that he had already slept, and nodded.

“You can inform them...” Xie Tongwen took out a walkie-talkie from his backpack!

The mobile phone has lost its function here, but it can still be contacted by a walkie-talkie in a short distance. In this mysterious place, they are inconvenient to inform in a more dynamic way, the distance of the spells into the secret is limited, so it is the same frequency of the intercom to discuss with the Chu family.

Xie Xun went to socialize alone, but he did a lot of work!

“He has fallen, you can come over!” Xie Tongwen said with the walkie-talkie.

After a while, there was an echo: “Received!”

Xie Tongwen immediately packed up the things, and kept the distance with Xie Yunlin.

Soon, the Chu family four have quickly rushed over. They agreed on the place, so they stopped in advance and waited to be impatient.

“Tongwen brother, Yun Lin brother, hard work!” Chu Yunfei changed the previous contempt, solemnly thanked them both.

“Happy cooperation.” Xie Yunlin’s simple words.

Xie Tongwen said in a joke: “In fact, I also find it very interesting. Exercise skills I have worked hard, haha!”

The four people of Chu Yunfei also jumped to the top of the boulder and watched the slumber lying on it, keeping vigilant.

“Are you sure he is falling down?” Another Chu family, whispered a cry.

“Look, he drank a bottle of water. It was added to our house and there was no worries. Although it would not kill, but enough for him to sleep for three days.” Xie Tongwen smiled and pointed to the empty bottle.

“Very good! I will not say much if you are polite. You will get paid for it. You will get it. This is the case. We can also join hands. We are six people, enough to put everything on either side. Grab the light and kill them all!”

Chu Yunfei said coldly about his plan, killing Shen Lang to avenge Chu family, is only the first thing, everyone in the same industry must be counted!

Xie Tongwen seems to laugh and laugh: “The cooperation is pleasant. We must cooperate, but... we will not let us both in the end?”

He is a joke, but he is really vigilant.
