

First Strong 2001

Chapter 2001 - Fire to fire

Shen Lang is still very confident about the three of them.

Although the cold autumn and the snow are not injured, they are the top gods, with strong strength and strong strength. The cold autumn is more likely to be the peak of the gods.

And don't forget, they are all coming out of the Yungong Holy Land, which is transformed by the mysterious energy of that special space!

This kind of transformation takes a certain amount of time to present changes. Shen Lang himself has been extended in the space of Tianshu, plus the most absorption, and advanced to the realm of the gods.

Therefore, he already has deep experience, but even if it is cold and autumn, snow is not snow, it is far from realizing the change, but it will not be so easy to be killed.

Not to mention the dog god, its vitality and toughness are absolutely no problem.

In other words, even if they can't quickly kill the four gantry black robes, there is no problem with self-protection.

In turn, Shen Lang himself is the most dangerous one!

Because the dragon revival can just show his strength, a person can balance the snow and snow, the cold and the autumn.

Just after the dragon revived, it was also the first to attack him.

A stronger enemy does not support the big, but instead sneak attacks, and gradually the other party has attached great importance to him!

Shen Lang said that it was dragging the dragon to revive, let them kill other people to help again, but he thought it would be better for him to kill the dragon revival!

Long Fu's early field blocked the surrounding waves, that is, the power of the great gods could not move!

Because of his strength, the entire flame mountain blockade can be done, concentrated in the Shenlang piece, is highly concentrated.

However, when everyone split their actions, Shen Lang disappeared under the eyes of Long Fuxing!

For the cold autumn, they separately led people away, and the dragon revival was also secretly satisfied, which meant that no one would interfere with the rescue.

When he was under the ground, he had already completed a temptation, knowing that both of them were injured. It is suspected that the Yungong Holy Land was injured, so he was sure to deal with it.

Only Shen Lang this variable!

To this end, the first thing he needs to kill is Shen Lang.

Just a little while, he continued to reinforce, completely blocked the Shenlang, and determined that he would not give him any chance to escape.

After waiting for the cold and autumn to fly a little further, it is determined that there is no time to rescue, he immediately shot directly!

As soon as he raised his hand, there was a fierce tearing space!

This style is very simple, it is like a stroke in the air, but in his field blockade area, it really achieves the degree of tearing space!

What's within this range, no matter what, but can't compete at all!

This is not only his personal strength, but also the borrowing of the power of heaven and earth, no matter how powerful the body, it will be shredded!

However, it is necessary to kill the Shen Lang, and the Shen Lang has disappeared!

For the Dragon revival, this is very unbelievable.

He has just confirmed all kinds of things. He can't avoid escaping. It is impossible to fight back. It is impossible for others to want to rescue.

How can it disappear?

As a result, Shen Lang suddenly attacked the mountain, and the Dragon Renaissance quickly shifted its attention and searched for the Flame Mountain below.

There are a lot of flames coming up from the mountains, and the height is different. He looks at the top, just like a strip of light, which is disturbed by the line of sight.

But his knowledge has completely enveloped the whole mountain. No matter where the sun is, confidence can be locked.

This is the all-round search, so there is no trace of it!

The dragon revival brow is locked, he can only think of one possibility, that is, the other side has the door of the three worlds of artifacts!

Legend has it that the gates of the Three Realms can travel through time and space. If he really owns it, he can directly shuttle to the other side from here, so he can disappear invisible.

If this is the case, then the distance is definitely far away, and it is too late to catch up.

But several other people are still there, and the other party is still likely to return!

What he needs to do now is to grab the Gao Hanqiu and other people together with several other people, and then he can wait for the bait to wait for the back.

However, just as he was preparing to attack the cold autumn, suddenly, Shen Lang appeared again, just in the place where it disappeared in front!

The dragon's revival just searched for God's knowledge, and he did not move, so the emergence of Shen Lang is still directly within his line of sight.

"Let you see and see my flames!"

After the emergence of Shen Lang, a finger was extended and a fingertip jumped a flame. When this sentence was said, the flame had already flown over the dragon revival side!

Before the Dragon revived, the successful blockade of Shen Lang was out of the pre-emptive attack, but even then, it was impossible to trap others, let alone people are ready now.

So he did not use the field again, but was prepared to kill the waves directly by other means.

"The pearl of rice grain, dare to shine!"

With his sneer, palms push!

Immediately there was a dazzling flame that flew out of his palm and went straight to the side of Shen Lang.

This group of flames is not only much larger than the flames emitted by Shen Lang, but also not an independent individual. It is actually attracting the flames that spurt into the air on the flame mountain, all coming to the waves!

This is equivalent to a locator, which attracts at least tens of hundreds of flames in different directions, such as a fire dragon, completely rushing past, and immediately engulf the sinking waves completely.

In the view of the dragon's revival, the flames of Shen Lang, even if the power is huge, in front of him, it is also a class of axe, a small skill.

But after his more powerful flame attacked the past, he did not feel that he could kill the Shen Lang.

He has drawn all aspects of the flames to the past, that is, to create a little interference to Shen Lang, and the real killings are still the hands of his tearing space!

Just now, Shen Lang was blocked watching him show and attack.

This time, it was Shen Lang to cope with a more powerful flame counterattack, and he had no time to take care of his attack.

At this moment, the flames of the flame mountain, all of which went straight into the sky, all changed direction and came to the waves.

Before these fire dragons have arrived, the flames released by Shen Lang have already corresponded to the larger flame!

According to the prediction of the Dragon Renaissance, his flame can directly engulf the flames of the deep waves, and then rushing over with more flames, so that Shen Lang has to defend his defense.

But in fact, when it was the meeting, the flames were too late to react, and they were swallowed up by the flames of the waves!

Earth fire.

The departure of Shen Lang just broke into the space of Tianshu, but in addition to avoiding the attack of the other side, it is also necessary to bring the fire of the earth out of the attack!

Chapter 2002 - Fury of the heart

He was placed in the space of the heavenly book. From the previous "full meal" to the present, it was only half an hour.

But in the space of heaven, this is equivalent to fifty hours in the past.

Fifty hours, certainly not enough to let the heart fire completely “digestion”, after all, it was swallowed before, it is a large piece of fire that is wide enough to reach dozens of miles!

But at least it’s a little time to relax and rest, not as if it is going to work.

Moreover, this guy’s intellect is limited, communication is limited, Shen Lang also needs to communicate with it in Tianshu space first, or else a little slow for half a second, it may have been killed.

Just disappeared for a few seconds, in the space of the sky, it has already communicated with the heart of the fire.

In order to make it better, Shen Lang even used a similar “exciting method”, saying that some people here would attack him with a powerful fire.

Attacking with the ground fire is also a surprise attack by Shen Lang!

Longmen has been developing in this flame world for thousands of years. Even if Longzhentian was not proficient in fire spells, he would definitely develop spells in this area.

For thousands of years, they should be very proficient in the use of fire-related spells.

Therefore, if Shen Lang uses fire spells to attack, then the opponent has a more powerful and more effective attack method, and will choose to use fire spells to counter him.

After all, the use of axe is the easiest way to provoke people to use professional means to face.

Before coming out, Shen Lang even thought about the attack of the Dragon Revival.

He just felt it, as if the other party could tear the space apart!

But for a time, he still can’t grasp the key, but he understands that it is very dangerous. If the attack of the ground fire is not effective enough, then he still has to be ready to retreat.

Safety first!

After the attack, everything is as expected by Shen Lang. His small flame can't enter the other's eyes. He directly counters him with a bigger fire group. He also stirs all dozens of hundreds of sizes. A fire dragon came over.

Shen Lang had already been commanded and arranged an attack on the ground fire, so at this time he did not need to worry about being swallowed up by the flames, nor did he have to worry about his flame attack being destroyed.

He has plenty of time to pay attention to the every move of the Dragon Renaissance!

He discovered that the Dragon Renaissance not only used fire spells to counter him, but also continued to use the previous one!

This can not help but secretly feel up, the dragon revival is still not the average person, they live in this **** environment, there are thousands of years of blazing revenge, so there will be no luck.

The flames of the showdown, the dragon rejuvenation must feel the ability to press, the attack of Shen Lang is a small witch, not enough to see, but still do not believe that this can kill him, or use his more powerful means.

Shen Lang is also continuing to make good plans. If the attack on the ground fire is not enough, then he still has to hurry to hide in the space of heaven!

The recent use of the geocentric fire has helped to absorb the flame of the environment. It is a help, but it is also feeding it.

The real role of combat is only the time before the thief.

The effect of that time was still good. All the spells of the thieves and grasses were attacked and all burned clean.

When it was said that it was too late, the scene was in the blink of an eye. After the two sides released the flame, they actually did not care.

The Dragon Revival is the second wave of direct hand of God, while the Shenlang is a defense.

At a critical time, it's time to watch the fire!

Because the surrounding fire dragons have already rushed over, the fire of the earth has engulfed the flame of the dragon's revival, and it has not attracted much attention.

But after swallowing the flames of the other party in one fell swoop, I felt the fire dragons coming around, and I was first provoked by the spurs of the waves, and I felt that my dignity was provoked!

Just like a fire, just like this flame, dare to attack it?

In an instant, half the distance between the two people, the heart of the fire, suddenly burst out of extraordinary brilliance!

The dragon revival that was tearing the space in front of the hand of God also saw the abnormality of the flame, but he did not care too much.

After all, now this is a different flame that has been rolled up together, and there will be a change after the superposition, which is entirely possible.

But he immediately shrinks his pupil!

The extraordinary brilliance of the glare of the glare, actually went straight to him!

This fire can come to him, it shows that his attack did not work, but the other side of the flame attack has the upper hand!

But the dragon revived did not care!

It's just a flame. They spend most of their lives in this flame world. The most popular and the least fearful is fire.

As for whoever loses and wins, what about?

He did not expect a fire to destroy an extraordinary young man with the door of the Three Realms.

The flame of the other side took the upper hand, but it made his heart more comfortable and relieved.

In this way, the other party does not have to worry about the injury, and will not rush to use the door of the Three Realms to send away!

When the other party thinks that he can counterattack success, his real killing has already arrived, and there are artifacts too late!

Facing the fire, his hand has been torn away in the air!

This hand brings a very powerful power, almost like a tearing space, that is, the flame will tear invisibly!

First of all, the heart of the fire, I felt the crisis, this is to divide it!

Originally it has been spurred by the spurs of the waves, and now it has been spontaneously attacked, and then such a powerful attack, immediately let it fierce out!

Suddenly, the geothermal fire quickly expanded.

Immediately, the dazzling fire, let the flames of the flame mountain that spurted into the air, let the numerous fire dragons that have been chased, all eclipsed.

This wave of flames, the powerful hard smashed on the dragon's revival tear!

In addition to the frontal impact on the torn, there is a flame that is separated from the surroundings, and it is swept around the dragon's revival.

At the moment, the heart of the fire under the outbreak, is not a small group, but not as big as the hills!

The result is that the power that seems to be able to tear the space is completely stunned by the fire of the earth, and the scattered flames have completely wrapped the dragon's revival.

With the realm of the revival of the dragon, if you want to escape at this moment, or change the attack, there is actually no problem.

But the key is that he has just been the second wave of attacks, and is the second wave of attacks under cover, confidence is completely no problem.

In his view, even a strong flame is completely broken.

Even after waiting for the flames that had spread around him, he still didn't pay attention to it, thinking that it was like his just a flame, which led the flames on the mountain.

The flame here, even if he is in it, can't hurt it in a certain period of time!

When I was wrapped in a flame, I suddenly realized that it seems different...

Chapter 2003 - Burning down

Shen Lang is at the rear, although he is ready to be ready for the flash, but it is also to save his life.

As long as his life has not been threatened, he will not throw away the fire of the earth.

And he is also alert to the situation in front of the whole God, the local heart fire encountered the moment of the tear of the hand of God, the anger rose and the sun wave also shot!

His shots were two-fold. On the one hand, they drove all the flames that were rolled around him, and all of them were sent together to the heart fire.

Now the heart fire is a pioneer, its attack is a flame, and these flames provide ammunition for it.

Regardless of the effect, Shen Lang sent this piece of support to its side, so that it needs to absorb the flame, without any distraction.

On the other hand, it is the support of the spiritual power of the heart.

This is mainly to play a role in cheering, but this must be done at this time, in case the guy does not care, he will not look good.

Have to say that his way is working.

Because there is no fighting experience in the ground fire, if it has not been detailed arrangements that he has previously instructed, it will only directly attack.

At the moment of the outbreak, I felt the all-round support of Shen Lang, and let it have no hesitation, and confidently confronted the past.

But the dragon's rejuvenation of the hand of God is really amazing!

It's not a living thing, but if it can still resist it, it must be torn!

It's just that it's a fire in the heart, so it's torn, it's frustrated, but it's not going to die.

The power of this enemy has not only inspired its fierceness, but also inspired its fear!

If you don't destroy this enemy, you may be killed!

It devours a lot of flames, makes it a little more intelligent, and naturally cherishes it.

So at this time, I was still smashing the tears of the hand of God, and I swept the past from the surroundings, ready to completely devour the dragon revival!

Not long ago, it absorbed the flames of dozens of miles. Now everyone's distance is only a few tens of meters, so there is no need to split up, just as the body extends the past.

The original small group of hearts and fires has now become a huge group, and then it has become a long strip, some are still confrontation, and some have already reached the Dragon Revival.

The Dragon Revival has never been against the Shen Lang, but he is a light enemy!

Good swimmers...

Just because the flame is too familiar, I feel that these are wrapped and burned, and can be easily controlled. The result is that the fire that has exceeded the scope of his understanding has been burned!

The power of the high-temperature devouring of the earth's fire is that the steel can melt instantly. The dragon rejuvenation is under the forefront, and it has to be fully defended. Try to separate itself.

In this way, the attack of the general hand of God is torn, and it is no longer possible to continue.

With his knowledge of the flames, he prepared to completely separate the surrounding flames into a space and then forced to retreat.

But now I find that I can't do it!

This flame has swallowed up his black robe and went straight to the skin.

Under the revival of the dragon, in addition to continuing to resist, it also directly descended from the air to the reservoir below!

In fact, at this time, it is already a bit instinctive.

In his realm, if you can't resist these flames, how can ordinary water be destroyed?

But this time there is no time to think about it, but instinctively feels how much water can help extinguish the fire. And he is equal to pulling the distance, not being attacked by the continuous flame, but also a correct choice.

But at this point his tearing energy is gone, and the heart fire does not need to fight so much pressure.

In its simple ingenuity, this is the help of Shen Lang, who has defeated the enemy.

But the enemy is dangerous. If it is not destroyed, it may cause the situation just now!

Therefore, it is frustrated despite its own damage, and it has completely swept the past!

The connection between the break and the flame of the dragon's revival is not only not achieved, but the whole heart is coming over. And the scope is not so big, it is narrowed down to a larger extent than a person, and he is completely surrounded by burning!

Suddenly, the dragon revived, which was still stubborn, the first layer has been completely burned!

And he is still falling down, still far from the falling water level!

I feel that the flame is strong and I don't know how many times. The dragon revives despair.

This is not his level of play, this is the enemy, but was burned by a group of wildfires.

But there was no time for desperation and anger, and he must find a way to get out as soon as possible.

Now that the body has not been burned, it is because it has been dealing with the flames for many years. It is far more resistant to fire than the average person, and because his strength is strong enough.

But according to this trend, burning from the epidermis to the inside is also a matter of time.

And this time, up to a few seconds!

Even if you plunge into the water, it makes no sense.

At this time, the dragon revival had a bold thought, and there was abandoning the flesh, and the soul left to escape!

In his realm, there is no flesh, and the soul can live independently, but there is a time problem.

Just like when Shen Lang encountered bleakness, she was a female sword ***** when she was alive, and she left a sacred god. I don't know how much time passed in the past. Finally, I couldn't hold it anymore. I had to find a companion possession.

The dragon rejuvenation must be separated from the body, of course, it can be maintained, but there is no body, and no one is repaired.

However, compared with the dying of life, there is no body and repair, and it can be rebuilt. If others can help him find a strong body, don't start from scratch.

After Shen Lang saw the fire in a comprehensive package, he immediately communicated with it.

This is also the time before the Tianshu space has communicated with it, that is, when the enemy does not have the power to fight back, let him finish!

Now let's not let the fire continue, let it go to the volcano next to the energy.

The heart fire is not polite It just happened to be hit hard, the damage is also great, the flame is the most direct complement.

So in an instant, I got rid of the body of the Dragon Revival, and quickly passed through a lot of water and entered the volcano next to it.

The dragon revival is not enough!

He just prepared to give up his body and escaped. How suddenly did the flame stop burning?

What should we do now?

Needless to say, the body has been burnt and terrible, but it is still your own body, you can still control it. Compared with the complete state of the gods, it is more reliable to stay in this incompletely burned body.

As long as you haven't died yet, you can stay longer, and when you find the target, you can change your body.

But when he was stunned, when he just made a decision, he found out where his body was absorbed uncontrolled...

Chapter 2004 - War tactics

This dragon renaissance is so powerful that Shen Lang certainly cannot watch him burned to death by the earth, and it is too wasteful.

It is only his personal words that it is impossible to revitalize the dragon. It is to let the ground fire attack, and the result is not exact. He is ready to escape.

But the idea still needs to be there. Just like now, the successful use of the dragon's revival of the enemy of the earth's heart, so that the heart of the fire burned him hard to escape, this time Shen Lang can go to the ready-made cheap.

This is cheap and looks very simple, but it is not easy to succeed.

Because the dragon revival is too strong, even if it is burned by the heart of the fire, it has already suffered a great loss, but the real combat power will not be weaker than Shen Lang.

Therefore, Shen Lang must card this time point very well, advance to the place where the dragon revived, and prepare the tower of the tower, and at the moment when the heart fire has just left, it will not be prepared for it to earn its income. In the tower.

The dragon revival is still very vigilant. When I find that the body is attracted by the power, I immediately realize that something is wrong!

Needless to say, it must be that Shen Lang is dealing with him, but what magic weapon is used and what means is not important at this moment. He must break free!

Once you miss this opportunity, you probably won't be able to escape.

And now he still has a glimmer of life, that is to abandon the flesh, the gods escape!

Because I have just made this preparation, I will not be too late, and the Yuanshen can still escape.

He is also decisive, and he will immediately go out directly!

However, the tower is not an ordinary magic weapon. Shen Lang is ready to wait for him in advance. The attraction of this time is so strong that even the Yuanshen he just left, inhaled together!

In the last moment, he was a successful god, but he was not able to resist the physical body, let alone the **** of the past.

After Shen Lang's income from the Dragon's revival to the Tiantian Tower, he finally breathed a sigh of relief.

This most powerful enemy can be solved.

He didn't want to fight hard with the dragon revival, but he couldn't fight it. The secret tactic was to use the ground fire, paralyze, and then eradicate as fast as possible.

It was collected with the tower, which is a backup plan, which is conditional. If there are no conditions, then kill the first, so as not to lose the opportunity, then the endless trouble.

The collapsed flame mountain caused the reservoir to lose its support surface, and a large amount of water flowed into a large number of flames, causing large pieces of water and white smoke to rise.

But the two volcanoes only suppressed a part and did not completely extinguish.

However, the ground fire is entering the volcano, and the effect on the flame is even greater, which is better than the inflow of a large number of water sources.

Shen Lang has already had experience with it. It will stop when the flame is sucked dry.

Although he has solved the most powerful one, the other black robes are certainly not as powerful as the dragon revival.

But this is on someone else's site. After thousands of years, who knows how many talents have been trained!

If you have these few, then it is easy to do. If this is only a small part, are there other disciples of Longmen?

With this concern, it is not too late!

Before letting them act separately, it is to let everyone have more room to play.

After killing one, you can help other people to form two dozens and three dozens.

Of course, that is fair. There are four black robes on the other side. There are now two dozens. If they kill one or two, they can form three dozens, one dozen and one dozen.

If they win, they will kill the three cold autumns, and they can deal with Shen Lang with the Dragon Revival.

The current situation is that Shen Lang first killed the Dragon Renaissance, and the main combat power and the impact are all ground fires. He personally has no loss.

This will allow you to join the battle calmly and help others.

The place where Shen Lang is now is the height of the water level of the previous reservoir, but after flood discharge on both sides, it has now plummeted at least 100 meters.

As he flew up, the gods sensed it.

The opponents of snow and snow and the cold autumn are all black robes. Under such a time, their battles are far away.

The dog ***** had turned over under the ground and encountered a joint attack of two black robes.

It is the most embarrassing one at this time, because the body becomes huge, then it becomes a bright target!

Not to mention two enemies, just move and land, it will be in the eruption area of dozens of dozens of flames.

This causes, whether it leaps in the air or rely on the flame mountain, there are points to bind the feet.

So at this moment, it is also going to the other side of the mountain, and is ready to fight below.

Originally, Shen Lang also felt that the tactics of the four black robes had problems. The correct approach should be two dozens of attacks on snow and snow.

Because snow is not hurt, and it is a woman, it should be a relatively weak one.

Now seeing the left and right squats of the dog god, whether it is leaping or falling, a lot of flames are sprayed on it, so that Shen Lang sighs that their tactics are correct.

Now this environment is equivalent to giving the dog a lot of enemies out of thin air!

Although these enemies are dead, they will not chase him, but they are not afraid of things. And there are all kinds of flames everywhere in the mountains, and it doesn't matter if you can't chase them.

This is not enough to be fatal, even serious injuries are not possible, but the burning of the flames will still hurt and hurt, and there are some disturbances to the dog's natural psychology.

The same level of strong players, casually affected, may affect the situation, not to mention such a group of natural helpers.

Under the sense of God, Shen Lang people also flew over the top of the flame, then he chose to help the dog god!

From a tactical point of view, the dog ***** now equals two holdings. As long as there is no danger to life, it can still hold it. Shenlang should ignore it first.

Because whether it is to help snow or snow, or to help the cold autumn, you can achieve a two-on-one effect. Heli should be able to kill one faster, so two people can help.

But to help the dog god, it can only be divided into one opponent this becomes one-on-one, it may be a stalemate.

The decision of Shen Langhui is considered on the other hand.

That is self-esteem!

Gao Hanqiu, even psychologically, still regards him as a big brother, but in fact, people are now the founding fathers, the oldest of all the ancestors, and his strength is also very strong.

If you only deal with one, there is still a wave of help, even if you don't say anything, you will not feel psychologically good.

Snow is not the same as snow. Although she is a woman, she is not a fan of Xue Xue. She is not a "discipline of Yao Chi" and is "the head of Yao Chi." And her head is a level with other ancestors.

Yao Chi is a long-established ancient martial art. If she is dealing with an enemy and needs to help her, she will definitely feel hurt and self-respect.

The dog ***** is a giant beast. There are not so many human self-esteems, and it is also a life and death friendship with Shen Lang. It does not feel that the face can't stand anything.

Chapter 2005 - Instant solution

The Shenlang people were at the top of the mountain and sighed directly.

“The dragon revival has been caught by me, are you still not going to stop?”

In this sentence, he deliberately spread out and let them be heard by the four black robes.

The psychological impact is also critical to the battle.

Shen Lang is not convenient to directly help the cold autumn, snow is not snow, but now strengthen this information once, can affect the psychology of their opponents, how much can help them.

And he himself is going to the dog ***** quickly.

At the time of the split action, both sides tacitly opened the battle line. But the four black robes are absolutely in the direction of the dragon revival.

Not only because the dragon renaissance is very powerful, but when it was under the ground, they all saw the dragon rejuvenation and one person could hold the other two.

And this young man has just been completely blocked. They believe that for the dragon rejuvenation, that is a small problem that comes to mind.

Therefore, after they separated from each other, they did not pay attention to the situation of the dragon's revival. Instead, they were full of confidence and wanted to destroy their opponents.

Instead, it is the cold autumn, the snow, the snow and the dog god. I am worried about the safety of the sun. I want to fix the opponent quickly, so that I can help in the past, but I have to pay attention to the situation there.

Now the voice of Shen Lang has spread.

Immediately let the cold autumn, snow and snow and the dog gods have a spirit!

Although they are distracted, they still have the main energy to face their opponents, and they cannot know the specific situation.

Now that Shen Lang has said that he has captured the dragon revival, whether it is true or psychological tactics, he can only prove that he is sure to be okay and win!

Don't worry about the safety of the waves, they can concentrate on dealing with the enemies in front of them!

The four gantry people have the opposite effect.

The strongest dragon rejuvenation, even turned over in the gutter, was defeated by a young boy?

They don't believe that they have been caught alive, but now that Shen Lang can make such a speech, he feels that he must have lost at least.

Under the sorrow, the gods immediately searched the past, and found that not only the large area of the dragon did not have the trace of the dragon rejuvenation, and even could not sense his existence!

If you can't see the trace, you may still be hiding it, or you may be far away.

But with their own people, a little trace is not felt, there are only two possibilities.

One is dead, the smashing of the smog!

The other one is imprisoned by magic weapons.

Compared with the result of the gray smoke, of course, I am more willing to believe that it was caught by Shen Lang...

Can the dragon revival be caught, is this kid more powerful than the others?

And now that he is vacant, is it necessary to come over and deal with them?

Such anxiety and tension directly affect their play.

This is a long time.

The three wars have undergone major changes and influences directly because of the words of Shen Lang.

Shen Lang himself has already come to the dog ***** quickly.

The dog ***** was originally left and right, but after listening to the words of Shen Lang, he immediately changed a way, no longer paying attention to the various flames rising from the sky, transforming into a huge force to pursue the two black robes!

It does not have such strong self-esteem, because Shen Lang has saved its life and knows the speed of progress since Shen Lang.

But it is also a ***** behemoth, a master of the world, or a face.

Therefore, I will not be able to look for opportunities slowly, even if I suffer from flame damage from my skin shell, I must also destroy the enemy!

The two black robes are also a bit flustered.

I can't figure out what happened to the dragon's revival. Shen Lang has directly killed it. If it really catches the dragon's revival, will they be opponents?

Originally, they have not combined this monster to clean up, and then a stronger sinking wave, very pessimistic!

So when the dog gods are crazy, the two of them are also overweight.

But the speed of Shen Lang came very fast, and not waiting for it, the sword of the king has already smashed out!

The long sword that suddenly extended to a few hundred meters seems to be very small, but the end of the swell wave is slightly moved, and the front can swing a large trajectory.

Seeing that the sword came to one of the black robes, he couldn't take the attack on the dog god, and quickly flew himself to avoid the attack range of the long sword.

In fact, he is a bit embarrassed in his heart. This sword extends so long, should it be as powerful as it should be? But you can't take risks.

At this time, Shen Lang had another hand, but with five fingers, he released five gods!

Because this light is absorbed in the Guangming Mountain and the apostles, the fixed belief of Shen Lang is limited, it is a consumable, and usually does not dare to squander.

But now these gantry black robes have different identities, and in order to be effective as soon as possible, they are also directly used.

The black robe is avoiding the long sword of a few hundred meters. In contrast, although it is also found to shine. On the one hand, the importance is not enough. On the other hand, the speed of Shenguang is too fast. If you do not succeed in predicting dodge, it is too late to see the light.

Therefore, he thought that his body armor could resist this light, and thought it was a fire spell attack.

I didn't expect the speed to be so fast, even if he wanted to strengthen the defense, it was too late; even more unexpectedly, it was just a slight ray that flashed far away, and even directly penetrated his body!

Whether it is a flame or something else, under such a distance, if it is hit, it can be completely resisted.

So now I was suddenly pierced, so that he was stunned for the first time, unbelievable.

And the sword he just evaded, now has come to the front!

Originally because it was so long, Shen Lang could follow it with a little movement, and his speed was very fast. After that, it has been shortened to a distance of several tens of meters.

So a sword that can just be avoided is now difficult to avoid.

The long sword crossed his legs. With the power of the sword of the king, I didn't feel it at all. I had already cut my legs flat!

Shen Lang approached, and quickly killed a black robe without the power to fight back. This allowed another black robe to give up attacking the dog ***** and chose to escape!

He has already believed this time, the dragon revival may be really over!

It is a pity that if he attacks desperately, he can still compete with the dog god. Once you give up the attack and choose to escape, it is blocked by the dog god's field instantly!

When he wanted to break through, the great mouth of the dog ***** had come over, and he instantly tore his body and swallowed it.

The dog ***** knows the sweetness, so after swallowing the opponent, he immediately turned and leapt.

The black robes were pierced through five holes and their legs were cut again. It was an instant hit, so that it was too late to escape. Then he was shackled into the air by Shen Lang. When the dog ***** opened his mouth, his legs fell into his mouth just right.

Chapter 2006 - Ambition excuse

Before the Shen Lang, he was very worried about the Dragon revival. He did not dare to miss the fleeting opportunity, but now the black robes are more sure.

So after he was seriously injured, he also banned the other party and he also went to the person.

When the dog ***** came over, he had quickly read the memory of the black robes and threw the upper half of the body down.

You don't have to wait until the dog ***** shuts up, it is a little later than the legs, and it falls into the mouth of the dog god.

“Good job!”

Shen Lang gave the dog ***** a little more face, and immediately praised it.

Although Shen Lang assisted in killing one, the dog ***** just swallowed one of himself and would not feel the face without light.

“Are you OK?”

It quickly narrowed the body, avoided the burning of the flame, and asked Shen Lang a sentence.

The strength of the dragon's revival before, when it was under the ground, can also be felt.

Shen Lang can solve it so quickly, and it is still worried that it will be a desperate attempt to kill.

“Don't worry! Let's go there.”

The thoughts of Shen Lang have been inducted. The snow-and-snow mixed-sky scorpion has completely encircled the black robes, and it seems that it should be stable.

The cold autumn has lived for hundreds of years, and it is not white. After coming over here, you must stand firm in this new world and fight with the monks here. You must really warm up.

He and Lin Biaozi completely dismissed the view of the portal. The two sides in the sword law, mutual proof, learn from each other's strengths, and finally both sides are big advances, which also has the cooperation to create the end of Qiu Lin Jianzong.

Therefore, the high cold autumn is not only repaired higher than the Shen Lang, but also surpassed the Shen Lang in the sword.

I have met several times before, and I have not talked about them in depth. That is because Gao Hanqiu intentionally avoided it!

Shen Lang is the idol of his first half of life. The second half of his life is re-starting in this new world. The more difficult it is, the more he misses the days behind Shen Lang.

Therefore, this idol is more and more beautified, and he does not want to be subconscious, and does not want to be destroyed. It is normal for Shen Lang to reinvent the reincarnation and repair it as good as him. This is acceptable to each other.

However, in terms of swordsmanship, experience, insights, etc., he did not want to find that Shen Lang was not as good as him, and the natural subconscious mind avoided it intentionally or unintentionally.

For Shen Lang, the sword method is only one of the ways he cultivated. His focus in the later period of the past is to integrate the cultivation methods of all aspects of the parties and create the “Yin and Yang Bo Ruozhen”.

He is not a sword idiot, so he has not proved anything with the cold autumn.

As for this point, there is no suggestion that misunderstanding can be caused by Gao Hanqiu, Gao Hanqiu himself can not tell.

Fortunately, Shen Lang did not disappoint Gao Hanqiu. Like a place like Yungong Holy Land, when everyone has no way, Shen Lang can still take a step ahead of him, and let his infinitely beautified idol still remain perfect. .

But just after the wave has solved the strongest dragon revival, and then to share the enemy of the behemoth, the cold autumn will be under pressure.

He can't wait until Shen Lang solved the enemy of the behemoth, and then help him, then it is really shy.

So he has already played his real swordsmanship at the moment!

A seemingly unremarkable sword, but it contains the power to shock the sky!

The black robes who had a bit of disorder, also chose to escape, but they could not avoid the sword of the cold autumn, and they were crushed directly in the air!

It's not in two halves, nor in two paragraphs. The powerful swordsmanship is directly shredding the pieces around him...

Shen Lang was not polite with the dog god, and fell directly on its back, letting it take to the top of the mountain to meet.

He himself wants to concentrate on digesting the memory of the black robes.

In this respect, no matter which black robe, the gap with the dragon rejuvenation will not be too big. Because they are all here, there will be no other situation for a long time, except for the top secret of the Dragon Gate, which may be known only to the Dragon Revival, and everyone else is the same.

Shen Lang combed the history of his memory and had a better understanding of the Dragon Gate and the world.

Similar to the story told by Long Fuxing, Longzhen Tianxiang was looking for such a place all the way, used to be a hiding place to avoid the possible annihilation of the ancestors.

Later, I found that my body is hard to get rid of. Even if I can retreat here, I can't hope for revenge.

Therefore, I can only hope for the disciples in the back, and then I will start to go out and find talented disciples and re-create the Dragon Gate.

Longmen has strengthened hate education from generation to generation, so that every disciple does not shoulder the historical responsibility of revenge for his grandfather.

They also started their operations from generation to generation and completed many sabotage activities in the dark.

These historical deeds, in his memory, are a general memory. Hate education is useful, but it is still not enough.

What really makes them persevere is the ambition of possessing the world of flowers outside!

Master will tell them that if they can do it successfully, then all the good resources occupied by the major sects belong to them. Everyone can be divided into all the resources and sites of several martial arts.

The ancestors of these people have ruined their ancestors, and this is a revenge for the ancestors. This is not ambition, not evil behavior.

In other words, the obsession of the millennium hatred is actually an excuse to rationalize their ambitions.

This is not recognized in their mouths, whether they are foreign or their own, but in their own consciousness, they understand this very well.

It is not easy for Longmen to choose a disciple.

If you want to be talented, you can't be a disciple of the major sects. It's hard to find. If you find someone who is willing to follow, if you rely on it, you may have hatred in your heart. If you can't bear it for decades, you will sell it here.

Therefore, there are not many people in the gantry history, and they can grow very powerfully, and even less.

By their present generation, there are only five people.

Among them, the dragon revival is the contemporary head the other four black robes, his younger brother, and his disciples.

They did not teach their disciples, but cultivated counseling in secret. They exercised in their original environment and did not reach the level of the Dragon Gate.

In other words, even their disciples are also registered disciples. Only if they have enough strength and loyalty is enough, they can bring them back and become true gantry successors.

Knowing this, Shen Lang is also secretly relieved.

The dragon revives these five people, which are the core of the Longmen. They have been eradicated, and the registered disciples who are outside are insignificant. Because they don't know their specific identity, they have never been here, and naturally they will not have resentment against the hearts of the world.

As for the ambition to fight for the world, it must have been instilled.

But not to kill those who are ambitious.

After understanding the information of their gantry, Shen Lang focused on digesting the environment here, and then he was shocked!

Chapter 2007 - Secret of the sky

For this flame-like world, after Shen Lang came in, there have been various conjectures.

From the impact of the crack in the space, I feel that this should not be to another world, but may be a small world like the Universe.

I have not seen other creatures in the back. It also proves that these black robes are not humans or creatures in other worlds, or human beings hiding here.

Originally, there is no more suspicion in this regard, and now it is to understand the specific situation.

After all, the gantry can stand here for thousands of years, even if it is a helpless state, it must have something extraordinary, at least it will be better than a mountain outside.

Shen Lang just wants to see if he can get some resources. For example, it is full of flames, and there will be a lot of fire spar.

The result is now carefully digested in this aspect of the memory, but found a point that shocked him!

In the memory of this black robes, there is a shadow of the red porpoise!

There is only one head in the red porpoise, and Shen Lang can't be sure whether it was with the red porpoise outside the burial dragon valley.

But carefully analyzed the memory, it is a transaction again and again. Suspicion is likely to be those of the black porpoise, but only the king of the black porpoise!

Strictly speaking, it can't even be regarded as a transaction, but the King of the Black Dolphins once again gave up their gantry!

Shen Lang searched for memories in this area and began to have a clearer context.

This is the place of great murder – the funeral valley!

The burial dragon valley is not a valley. The murderous land is actually a small world.

In the Great Wilderness, you will be buried outside the Dragon Valley, and then continue to go deep into it, which is the “buried Dragon Valley”. The funeral dragon valley is actually a large entrance into this small world.

The red porpoise is active in the periphery and can also enter the funeral dragon valley.

Entering the funeral dragon valley, the first thing that comes to this is.

If you simply divide it, the side that Shen Lang has been to before is the periphery of the burial dragon valley, and here, it is the entrance to the burial dragon valley!

The place where they came in from the crack, the direction of the cold autumn, the snow is not the snow, that is, the area around the flaming mountain, and then the entrance to the “buried dragon valley”.

The direction in which Shen Lang went, continued deeper, and was the depth of the “buried Dragon Valley.”

The place of the legendary murderous land, where the sacred dragons were buried, was buried in the depths of the Dragon Valley.

Of course, the active part of the red porpoise is the real entrance to the burial dragon valley. There is a strong enchantment blockade and various dangers.

For thousands of years, there have been many trips that are not afraid of death. Only in the end has proved to be a dead end, so it will be an eternal name.

Longzhentian is equal to the accident to find a secret shortcut, bypassing the enchantment seal and directly entering the entrance to the funeral valley.

No one can think of the existence of human beings in the burial dragon valley. He does not have to fear that the ancestors will come over.

For thousands of years, the reason why the disciples of Longmen have to go through a lot of tests outside can only come in very few. This is also one of the keys.

Entering the secret passage of the burial dragon valley, this light is enough to set off an uproar, attracting countless treasure hunters.

The red porpoise is naturally the first active creature here, and perhaps the periphery and the entrance area are their living areas.

It may be that after the town of Longzhen came, it took up this piece and drove the red porpoise out.

However, the family of the red porpoise wants to enter the burial dragon valley and bring out the various ancient heritages, and it becomes the first to pass through their area.

The red porpoise itself has no interest or effect on various human magic weapons, remains, and the like.

I don't know if it started from Longzhentian, or where the ancestors of the belt started, and gave them advice on trading with the outside world.

Later, there was a porpoise that took things out from inside and traded resources with various ethnic groups in the wilderness.

The supply of the red porpoise is only a part of the benefits at the beginning, and it is a kind of confession to the back. Give a little “overpass” to ensure that it will not be stuck by the people of Longmen.

The gantry will also have the priority to pick things back.

However, Shen Lang estimates that the gantry is poor and has key points, so it is more symbolic trading. In fact, the demand is getting more and more refined. Many things will not let them know. .

Then Shen Lang was doubtful.

According to the memory of the ridiculous grass, the burial of the Dragon Valley is not only a problem that cannot be entered, but in this murderous land, human beings and even various living things cannot survive. Only the growth of the red porpoise originates from the creatures in the burial dragon valley. Can enter without death.

But now they are not dead, the gantry has been hidden here for thousands of years, and has not died for generations.

That is the legend of the murderous land that they know of the thieves. It has become a rumor of common sense, is it fake? Was it first intentionally released?

Is that going to be Longzhentian?

Longzhen Tianzang has been buried in this burial dragon valley. I don't want to be known. I don't want that shortcut to be discovered by more people. It will be possible to spread some scary information.

Moreover, in the ancient times, the burial dragon valley was the last battlefield relic of all ethnic groups and magic dragons, and no one wanted to touch the seal again. Therefore, there have been various legends of intimidation from ancient times.

If all the people and things are at the entrance to the burial dragon valley, they will be smothered by the power of the enchantment, or by the fierce power of concentration. If they cannot enter, they will not be able to prove this.

In the memory of Longmen, there is no deep burial in the Long Valley. However, the ancestral training contains one that cannot be visited.

This may also explain the problem, that is, the real murderous land, the environment that people can't survive, still in front!

Although there have been more than a thousand miles from this flaming mountain to the place where Shen Lang had been before, it may be a small part of the entrance to the entire small world of the Dragon Valley.

Thinking about it, the dog ***** has already taken the wave to the top of the flame.

The cold autumn of the sword is over. has also gone to meet the snow and snow, snow is not a snow, but they have come together.

“Shen Lang, thank you for your help!”

Although she caught a living mouth, Xue Feiqi still praised it sincerely.

If it wasn't for the delay and the elimination of the strongest dragon rejuvenation, it wouldn't be that he would let the news out to shock other people in the gantry, she would not be so easy to solve.

Shen Lang shrugged: “Snow Palm Gate, Gao Xiong, you take a look at the memory of this person. I just grabbed a memory, it is incredible...”

He does not care about the dog god, the dog ***** will not have such a big curiosity, just let it swallow two, it is already a great harvest.

High cold autumn and snow are not snow, I know that Shen Lang will say so, there must be his truth.

Snow and snow have to stay alive. Originally, there was such an idea. It will be unkind at this moment.

Chapter 2008 - Quest resolution

After the two of them read the memory of the black robe, they immediately frowned.

Shen Lang does not need to read it again. It should be similar, and the difference is the personal details.

“This place... is the burial dragon valley of the great wasteland?”

Snow is not incredible.

Shen Lang nodded. “I saw the red porpoise in their memory. When I went to the Great Wilderness some time ago, I went to the outside of the burial dragon valley and saw the red porpoise living there.”

Snow and snow and cold autumn should be common sense, and it is not necessary to go to the funeral valley outside.

After all, the great wilderness has been extremely far-reaching, and in a very wide area, resources are limited and dangerous. Generally, I don't want to run there.

The burial dragon valley is a murderous place in the legend. It is inaccessible and cannot survive.

Shen Lang is also brought by the day, or else it will not find it.

Considering that they may not have seen the red porpoise, Shen Lang first stated it and let them know better.

This is memory, not a confession, and it is not fake. The cold autumn and the snow are not believed to be snow, but it is just too surprising.

Now that Shen Lang says this, it is equal to confirming this information.

“It is old-fashioned that the burial of the Dragon Valley is a murderous place. There is no living thing inside, and it is impossible to enter. The red porpoise was later appeared. It is said to be the creature bred in the Dragon Valley. The only thing that can be buried in the Dragon Valley...”

Snow said that these words, she believes that Shen Lang is definitely clear, so this is only emphasized once.

The questions that are not mentioned later are very clear to everyone – why are people in Longmen alive?

“I just analyzed it. One possibility is that the ancestors were scary and avoided the ambitious descendants to explore, thus destroying the seal and causing the resurrection of the dragon.”

“But even if it is scary, there are definitely people who will have a lucky adventure. In the end, a consensus can be passed down. It must be someone who has paid the price of life.”

“There is a second possibility. Originally it was a murderous place, and the seal could not be opened. But after a long time, the seal has been loosened and the environment has changed. And here may be just the entrance, not yet deep. I’m buried in the Dragon Valley, so it’s just bad, but I can’t die.”

Shen Lang said his thoughts directly.

“It makes sense. The time will be extended to thousands of years and there will always be great changes.”

Gao Hanqiu attached a sentence.

This is not entirely to echo the Shen Lang, but he also has a personal experience.

For example, the hometown of his hometown, from the detailed description of Xu Yuyue, has been a hundred years since they left, and it has changed dramatically.

Ordinary people do not need to go through cultivation, through science and technology, can go to the world, can talk in a million miles, can kill a city, and even the population reached an incredible seven or eight billion.

For this history, he does not have an orthodox inheritance, and the affirmation of understanding is not sufficiently informative, but it cannot be changed for thousands of years.

Snow is not snow to see the waves, but also look at the cold autumn, did not speak for a while.

From her eyes, Shen Lang has seen a little.

She is thinking about the funeral dragon valley!

It can't be said that she is a personal ambition. She came to a fierce battlefield in the ancient battlefield, a place from a small to a big legend, and there is nothing at all. Anyone wants to explore.

Of course, even if it is ambition, there is no problem.

She is the head of Yaochi. Yaochi can be passed down to the present and is unbeaten. It also requires the means of tactics and ambition. It must be clouded and light, and it may have already been annihilated in the long river of history.

However, Shen Lang also said that the ancestors of the ancient tribes were afraid that future generations would touch the seal because of their ambitions. If the resurrection of the dragons was made, it would be a curse.

Now that Snow is not directly speaking, is it just embarrassing?

Shen Lang immediately made up for it. Anyway, he is young now, without any burden.

"Since we have arrived here, and there is nothing wrong, do you want to go to the depths of Long Valley to see?"

After asking this sentence, Shen Lang continued to supplement his analysis.

“However, although the history of Longzhentian has been eliminated, it must be a character of the talents of the heavens. He can come here to take root, and he must have discovered that this is the funeral valley. It has been passed down for thousands of years now, and they also Did not explore in depth.”

What Shen Lang just asked is what Xue Feixue wants to say. She was trying to agree, and this paragraph, let her think about it.

In the memory just read, the rumor mouth has been passed down from generation to generation, and many of them do not understand the truth. But it is to warn that you can't go to the depths of the Dragon Valley, but rather let the porpoises go in.

The eyes of the three people looked at each other again.

The number is small, everyone is familiar, and the relationship is friendly. Shen Lang and Gao Hanqiu are reversible, so the problem of embarrassment can be put down soon.

Immediately, everyone entered a formal discussion.

Do you want to go to a funeral dragon valley?

Everyone came here and traced the traces of the black robe. That black robe may be a dragon rejuvenation, or it may be one of the other.

Up to now, they have already figured out their details. Shen Lang destroyed their dragon gates in the underground. In addition to the current living, the core that can enter this world has been completely eliminated.

This has come to this, it has been a great joy, go straight back along the way, it is best to seal the crack to hide, it is a solution to the problem.

The secret attraction of “burying the Dragon Valley” is too great!

In fact, Shen Lang is fine. He traded with the red porpoise and has already got some keels. He also helped the white owls get the two skeletons of the ancestors of the Qingqiu nine-tailed fox ancestors.

Coupled with the harvest of the Great Wild Five, the weapon he also got some, such as the restored sword of the king.

But the key is the cost issue!

He can't enter, and no one can live in a fierce place, he can't take the risk.

But now people have entered, and it proves that there is basically no problem, then exploring is the way to do it, and it will be tempting. Xuefeixue and Gaohanqiu, perhaps this is also the heart. If they want to bury the Dragon Valley alone, it will naturally take precedence. But now it is already here, and I still have a little confidence in myself.

Although there are three people of different ages and different identities, some of the concepts are consistent, for example... life first!

No matter whether it is the Yungong Holy Land or any other place, including this funeral dragon valley, you can't say that safety is the first. You can't go out to ensure safety.

Danger, injury, and setback are normal, but life is only once, and life must be given priority.

So now they have quickly reached a consensus, that is, try to explore. Even if you can't get anything, you can see it and get close to it. It is also an experience that has never been seen since ancient times.

Once you find the danger, no matter what the form of danger, as long as it may endanger your life, then retreat!

This is not the same as tracking black robes. One is a must, and the other is ok.

Chapter 2009 - Guar up

After the decision, everyone immediately acted.

When I entered this side, there was no specific direction. I could only choose one direction to look for.

Being able to find the Longmen here is actually not the right choice, but the Flame Mountain can be seen farther away and follow the direction.

Unless it is on the side of Shenlang, or on which side, it will be found.

Just like Shen Lang discovered that the sea of fire that has been dozens of miles away will also be the way to go.

Now there is an accurate goal. Therefore, their directionality forward can be more clear, and the detour is also based on the actual environment, and will not be aimless.

“Wait a minute, what should this person do?” When he was ready to go, Xue Feixue looked at the gantry black robes who were banned.

Her eyes looked at Shen Lang and Gao Hanqiu.

Shen Lang and Gao Hanqiu also looked at her and signaled her decision.

Here, like the Yungong Holy Land, in a special environment, there are some things that can be done cheaply and do not need to follow the rules of the outside.

However, it is good for everyone to be unaware of it. It is a bit embarrassing to say it directly, unless there are young people like Shen Lang.

Snow and snow did not hesitate a little, and said directly: “High ancestor, we are going to visit the big burial dragon valley. It may be very dangerous. It is best to go to the peak state...”

Upon hearing this, Shen Lang understood her meaning more and immediately told her to speak.

“The snow palm door makes sense. You still have injuries in your body. If you can’t recover more, my pressure will be even greater. Just help me, you directly absorbed his vitality!”

Shen Lang didn't mind being a villain. Originally he was not a famous person, and he had no moral burdens on his identity.

Gao Hanqiu and Xuefeiqi looked at each other, still slightly awkward.

If this is a single person, it can be done indifferently, but before people, it is still necessary to take care of the face.

"There is nothing wrong with it. If we lose, we will be banned by them. We may even deal with it more unscrupulously. For example, we have taken over your body, used your identity, messed up Yao Chi and Qiulin, and took the world. confuse."

"There have been two, just already swallowed by the Emperor's beast. People will not be so embarrassed, you are also welcome. Or you will eat the Emperor!"

Speaking of this part, snow is not snow and high cold autumn, there will be enough steps, immediately rude.

They all have extraordinary strength and can maintain their healing whenever and wherever they want. Therefore, in the holy place of Yungong, in addition to entering the palace, the suppression is like a mortal. Before and after going in, it is constantly healing.

Returning from the meditation domain, the same is true all the way to here.

The speed is not so fast, because the things carried are limited, there is not enough resources to make up, that is, Shen Lang gave.

To let Shen Lang give them support like a dog god, he is also willing, but their face of dignity should be taken care of, they will not accept.

Now is a good opportunity.

From the point of view of the fight, in addition to the strongest dragon rejuvenation, the other four have basically reached the realm of great deity. This is the core of the Dragon Gate.

Directly absorb the vitality of the body to repair the wound, the effect is undoubtedly much better than other resources.

This is like blood transfusion to blood.

When two people act together, they are better off putting their burdens on, and they can be more at ease.

For a person who has no resistance, the two super strongmen are acting at the same time, and the speed is very fast, and the black robe is directly divided.

Shen Lang and the dog ***** are guarding the law for them.

Shen Lang is further to let the holy armor analyze the air, flame, soil and other data, try to master some of the world's information.

And this is where the Longmen Dongfu is located. This is the place that has been verified and safe for thousands of years – at least for a short period of time it will be relatively safe.

Waiting to enter the depths of the funeral valley, this information will also be a reference data.

Of course, the two of them are not only absorbed into the vitality, but also have not let go of the mental power. After the completion of the corpse, they are thrown into the flame and burned.

These supplies do not allow them to fully recover immediately, but they can reach the level of 7788, all the time, and the rest of the time, there is sufficient supply, the recovery speed every moment. It's all faster.

Although it is very good for the individual, Shen Lang also said that if he does not do this, it will cause more trouble for him, so that they all have steps, but after all, there are still burdens, and when they go forward, two Individuals are silent.

Shen Lang did not have anything to look for. The dog ***** acted as a mount, and all three went to its back, and then under the command of Shen Lang, rushed to the depths of the Dragon Valley.

This journey has generally passed through the section they came to, and then passed through the Shenlang and the dog god.

There are dozens of miles there and there is no flame, and it is obviously abnormal. If it wasn't for the explanation of the waves, the two of them would think that this might be the destination.

It's already a thousand miles away from the Flame Mountain.

So I went forward a thousand miles, and everyone felt the change of the environment along the way!

The ground is red red scorched earth, but the flame is getting less and less!

There are few living creatures, including animal plants, but there are very few exceptions.

For example, there are toxic herbs such as the funeral grass that grows very stubbornly, and there is also a different kind of red porpoise.

However, the poisonous grass has been seen, and the red porpoise has not been seen at all.

Because they have left, they are living outside.

Perhaps they lived in this entrance area that year. There are at least two thousand miles, and it is also a very large area. After the days of Longzhen, they may have been expelled from them.

Shen Lang also detects the state of the environment through the Holy Grail, and the data of various changes are available.

For the time being, no deadly poisonous substances have been detected in the air It seems that the safe area has already been completed, and everyone is careful to guard, and then going deeper will be even more dangerous! ”

Shen Lang reminded me.

Everyone is also playing the spirit, the unknown danger is the most terrible.

Of course, the adventure is also wonderful because of the unknown.

Maybe the whole trip has nothing to gain, and there may be unexpected good things in the next moment.

There is no flame in the vicinity now, and the three people have come down, and each has their own way, which has also narrowed the body of the dog.

In this way, you can better defend each other, the dog ***** is reduced, and the area of the thunder is reduced.

In the unlikely event of any danger, it will not be endangered.

So far after going further, everyone was shocked!

Chapter 2010 - Disappearing earth

Everyone knows a lot, snow is not snow and high cold autumn, for the various places in the world, I have seen more than Shen Lang. Shen Lang has seen the world they have not experienced.

But now, all four, including the dog god, have been shocked.

Because on the way to everyone, the earth suddenly disappeared!

Yes, not the road disappears, but the entire land disappears!

Originally on the red red scorched earth, the front suddenly broke, like a knife-cut flush, and then the front became a void!

If the ground is broken, deep, and so on, it can be understood that such an environment is not uncommon, but the scope is large and small. But there was nothing in front of it. Going forward, going left and down, going down, nothing happened.

What do they think about a few, Shen Lang does not know, he himself has a very absurd association.

I feel that the whole world is like a program, a map of a game, the front is on the edge of the design, and there is no feeling of going forward.

If there is a thick or light fog in front, Shen Lang can understand. Just like the Cloud Palace Holy Land, the meditation, or connected to a more mysterious chaotic space.

But now the line of sight can be seen far away, and the gods can also sense it, but nothing can be seen except for this flat line.

“It looks like this is the limit.”

The cold autumn is a bit awkward.

For the burial dragon valley, everyone is very mysterious, but after all, it is too long, and even many people do not know that the burial dragon valley is in the wild. In this case, it is impossible to know more.

Judging from today's situation, the funeral dragon valley and the Golden Valley are the same as the forbidden land. The name is “Valley”, but it is far from being described by the valley.

Perhaps “a certain mountain” and “a certain valley” is a habit of taking place names in ancient times. If you don't say Zhoushan, it is such a Kunlun Mountain, and it is also extremely huge and extremely vast.

The memories they read were a bit fuzzy, and they knew that they were severely constrained, and they did not even come here personally.

Otherwise, they will not be surprised by Shen Lang, but they will first understand this situation.

Now looking at the endless void in front of me, the three people look at each other and then look at the dog god.

If there is no better way at this point, the dog ***** will be very good if he can have a good suggestion, or if he knows something.

However, the dog ***** is even more embarrassed. It does not read the memory, and there is no historical information here. Even if it happened in the funeral valley, and eaten the red porpoise, it does not know the specifics.

Now, let's say, of course, I don't know what to say.

“The Emperor, what do you think of the front? Do you want to continue exploring?”

Shen Lang half-joking and half-seriously asked.

Before everyone has already discussed it, life is the first, if you encounter the danger of hurting your life, then no matter what the benefits, decisively leave.

If the degree of danger is not too serious, then continue to go deeper and how much can be calculated.

But until here, there is no danger, and the environment is nothing to everyone.

Now that this is happening, it is a big problem in the sky.

More importantly, this is not showing danger or danger, but unknown!

Unknown is alert and hopeful.

Not to mention the well-known historical legends, the gantry that has been here for thousands of years, and still regard the depths of the burial dragon valley as a forbidden land that cannot be approached. These have reached the level of the great gods and have not yet explored.

It can be seen that this is not a reverence for the ancient legends, but the gantry dynasties. Someone has already paid the lessons of the cost of life.

The ancestors of the gantry in the outside world did not understand the inside story of the martial art. There were not many core disciples who could enter here. They could not take risks. The loss of one was the cultivation of decades and centuries.

However, in the face of the burial dragon valley in front of us, no danger has been found. It is hard to be reconciled to ask them to return home.

Under the entanglement, Shen Lang asked this sentence, and the cold autumn and snow are not two, but also seriously watched.

Their current thinking is the same. Since everyone is entangled, perhaps a simpler brain circuit will have a better suggestion.

“Go! Come here!”

The dog god’s answer is very simple.

Come here... What do you answer?

This is the most common of ordinary people, a very independent sense.

They are all super strong, can not be convinced by such a sentence.

“Go, not necessarily dead, but you will definitely see scenes you have never seen before. If you don’t go, you will be safe, but you won’t be willing to go back. You may not have a chance to come again next time.”

The dog ***** said a few more words.

What it says is actually its own idea.

Because it comes from the world of giant beasts, even with Shen Lang is not a world. Following the swell of the waves, that is to see the world, this situation is obviously unprecedented. In the past, there may be more rare worlds.

It said that going back, not from this funeral valley, but back to the world of giant beasts. So any environment it has never seen will be very happy to explore.

In addition to curiosity and curiosity, it is because its body is very powerful. With the help of Shen Lang, the retreat in the space of Tianshu has evolved to a higher level.

So, it also wants to see if there are more adventures.

Shen Lang understands what it means, a bit speechless.

But snow is not snow and cold autumn does not understand, they feel that this is very philosophical.

Leaving, although certainly safe, there will be no gains. It's a step away from exploring the remains of the ancient battlefield and burying the Dragon Valley.

And this is very likely to change the future of the sect, and it is also destined to be known as the history of the history.

Going, at present, there is not necessarily much danger. Even if it is not harvested, this first exploration itself will be a harvest.

“Go! Just as we said before, once you are in great danger, retreat immediately!”

Snow did not make a decision, and did not hesitate to support the dog god.

Gao Hanqiu is looking at Shen Lang, he should also have his own ideas, but instinctively want to follow the arrangement of Shen Lang.

“Grand brother, what do you think? I want to hear your thoughts.” Shen Lang asked with encouragement.

Gao Hanqiu is not his younger brother. He must respect the independent personality of others.

And it matters a lot!

“I am very old, even if it is still the peak, but Shouyuan will always come to an end. It may be that there will be no end of the day, and it will be dead.”

Gao Hanqiu suddenly felt a bit, and then seriously said: “In my lifetime, I can see...”

He originally wanted to say that he could see Shen Lang, and there was no regrets, but it was not convenient to say it and immediately changed his mouth.
