

## First Strong 2051

Chapter 2051 - Spiritual war

Shen Lang shook a blood and spit it into the throat!

At this time, he can't hope that Leiyuan will help, and he must deal with it himself.

Therefore, he resisted with perseverance, and guided the spiritual power of this second attack to the past and absorbed it into a god!

The dragon thought that this second attack could completely kill this human being, but he did not expect it to be still stunned.

This made it more and more angry and angry, and immediately another mental force nailed it!

Shen Lang must continue to guide its main attack, just leading the second attack, this is another one!

Needless to say, his head seems to have been opened with an awl once...

However, people's adaptability is so powerful!

When you first experience the pain of heartbreaking, you feel that you are dying.

But in the second time, I feel that there is not so much pain. After waiting more and more times, I can't even reach the degree of heartbreaking.

When Shen Lang just started to attack, he felt a splitting headache, but the latter has gradually adapted, and after the guidance, it has been a lot easier.

When the second attack came, he experienced a stronger feeling, and his head was opened by the awl!

He even thought that if the magic dragon just started to come up like this, it is very likely that he could not bear the coma.

With the severe pain in front, his nerves were numb a lot, and he was a bit more adaptable, so he sustained a second powerful attack.

The third powerful attack is still the same, but it feels a bit lighter.

Shen Lang did not dare to make the slightest intention. He has now become a single-minded one.

On the one hand, it is the conventional absorption of the main attack, the second is to guide the second and third attacks, and to maintain a high degree of defense to avoid direct bombing.

In such a situation, it is naturally miserable, and the pressure has reached a huge level, no less than the pressure of carrying a mountain.

The third attack can't kill the dry waves, and the dragon is even more impatient. This time, two mental attacks have been carried out!

Originally, its attack on Shen Lang, even if it felt swallowed, did not stop. It is worried that once it stops, it will be difficult to successfully hit the sinking wave.

Now being swallowed up, from another point of view, it is also a kind of containment. Once you lose your restraint, the opponent may be fully defended and may run away.

So it must maintain this containment, then launch additional attacks, and then not work together, then two more!

Two attacks came. For Shen Lang, in fact, it is necessary to bear three mental attacks at the same time.

This feeling is that the three strong players use the same mental power to attack him at the same time!

What is the feeling of the head being cut by the awl?

What is more uncomfortable than the head being cut by the awl?

That is the head is being cut by two awls at the same time!

Shen Lang has been unable to describe this feeling, it is simply to split the human spirit, the feeling of turning his head into three parts...

In this state, he still insisted!

This made him have to admire himself.

Of course, this also benefits from the previous confrontation with the light god.

That time, in front of the steps of the Temple of Light, he walked up step by step. Each step strengthened many mental pressures. The last step would take an hour or two.

Those hours were a huge torment and a huge test and temper.

The most important thing is that Guangming God has the power to directly kill him, but he did not do so. It is to increase pressure on one layer and wait for him to give up his surrender.

So Shen Lang is a little bit to explore the limit!

Now his realm is higher and his mental strength is stronger. Whether it is tolerance, attack power or limit, it is far different.

But the feeling of that kind of limit is still deeply imprinted in the depths of his consciousness.

Now that I have been hit hard, Shen Lang is still able to stand up, that is, I know how far it is.

When you have never experienced the danger of life and death, 50% will be scared. When 99% of the time has passed, and it lasts for 99 years, I feel the difference of ninety-nine, and then 70%, 80%, and even 90% of the difference can still be stabilized.

Such a mentality, so that even if his head is constantly being “cut open”, he still knows that he can’t die. He has not yet reached the end of the egg, and can continue to persist.

In addition to these heavy and uncomfortable, Shen Lang insists on one point and gains more points!

There are two aspects to this gain. On the one hand, experience is the experience. Whether it is the experience of mental attack or the experience of self-bearing, all aspects of change are cumulative and invaluable.

On the other hand, it is the \*\*\*\* of light.

That continuous attack, continuous absorption, is constantly being swallowed up for its own use. The attack that came from behind the road, although not continuous, can provide a lot of mental strength.

In this way, Shen Lang is equal to using life to squat, but it is also completing a process of this change.

The dragon is stronger, the spirit is higher, and it will not be endless!

The more it attacks, the less it will be, and the more it will absorb.

I don’t know for a few secondsCold cold autumn and snow is not snow, I found that the waves stopped in the air, one hand tower sword, but did not continue to harvest the dragon’s organs, began to feel a bit wrong .

After careful induction, I found that the expression of Shen Lang was very dignified and painful, and I was not enjoying anything.

In their experience, nature immediately understands that Shen Lang is definitely experiencing a spiritual attack!

The two men immediately rushed over.

These few seconds, for Shen Lang and the Devil, is a very long process, attacking and bearing each other, is a confrontation.

After discovering that the sinking waves can withstand it again and again, the dragon began to panic.

It doubts whether this human being is pretending to be able to withstand it!

After all, tens of thousands of years apart, it is far less than the original, and now it is the edge of the body to be finished.

Then I sense that the two of them have come over, the magic dragon has no way, and the last strongest smashing boat hits!

It didn't have a complete attack before, it was confident, it was underestimated, and because there were two enemies, you couldn't put all of them on, or you would kill one and kill it by the other two. That would be a loss.

But now there is no way, it must go all out to complete the strongest blow!

Shen Lang has just continued to fight with it. Although it is passive and defensive, it is also summing up experience and making more analysis.

At this moment, I felt that it continued to attack and weakened, and immediately realized the problem!

It will weaken as consumption increases, but it is slow, and now it suddenly weakens a lot, that is another possibility – concentrate more power and complete another blow!

Chapter 2052 - Occupation dragon

Realizing that the dragon is coming to a fierce, Shen Lang immediately changed the strategy!

From the beginning to the present, he has always been a passive defense. Although absorbing the mental power of the other party for his own use, it is also a reward, but after all, there is no active attack.

Now, when the other side wants to attack him, he immediately takes advantage of the other party's attack. After the pressure has been reduced, and the attack has not yet begun, the counterattack suddenly!

Shen Lang is still very clear. If you really want to be hard, his mental strength is not as good as that of the ancient dragon.

However, the previous fight was a process of change. The spirit of the active attacking dragon was constantly weakened, and he absorbed a lot.

Although there is no direct use of the Shenguang attack, it is the energy stored, but his own mental strength, full force to fight back, is enough for the other party to drink a pot.

The key is to withdraw some of the mental attacks and prepare for a stronger attack. Shen Lang seized this fleeting opportunity and directly released the strongest mental attack!

This is to rush before the other side of the storm, issued a storm in advance!

When this change occurred, the dragon also felt it immediately and realized that something was wrong.

However, from the beginning of the mental attack, it is pressing against the waves, and the Shenlang can only be stubbornly recalcitrant. It seems to be a state of hard support and can be smashed at any time.

So it didn't use too much defense at all, it was a double-layer attack again and again. Now it is to make the strongest blow. In order to ensure that the dry waves can be killed, even the conventional attacks are withdrawn, and naturally there is no distraction in defense.

It didn't even think of it. The long wave that had been barely supported, there was still room to counter it, and I didn't expect the counterattack to be so strong!

Therefore, when I feel the counterattack of Shen Lang, it still does not have the defensive resistance, but wants to hurry and grab the waves.

As a result, the spirit of the sturdy spirit has been shocked, and the world of the undefended dragon spirit has felt the tremendous impact of the devastating!

When its spiritual consciousness suffered a strong attack under the fragility, it almost stunned the past. The powerful attack immediately made its consciousness disorder. It was originally prepared to organize a storm that wanted to attack, and it was directly paralyzed!

Shen Lang's struggle with it has already absorbed a lot of experience, will not make the same mistakes, and will play the strongest attack directly in one step.

And he also made a backup plan, using the light as a backup energy!

Originally, these mental energy absorption and storage have become the form of the gods. For the time being, it is still inconvenient to call directly, and it needs to be better run-in.

But now that the strong enemy is in the front, the others can't take care of it. If you leave your life here, what is the use of leaving the gods?

Even if it is unstable, at a critical time, it must go up.

This attack by Shen Lang sums up not only the experience of the dragon, but also the experience of fighting the souls of the two gods of the dragon and the human race, and more importantly, the experience of confronting the gods of light!

His mental strength is not as good as that of the dragon, and it is even worse than the light of the gods. This is nothing to be afraid of.

But a powerful enemy can learn.

Shen Lang compares himself with the reference object. The light \*\*\*\* is stronger than the dragon. If you can learn the attack method of the light god, or its advantages, it may be helpful in dealing with the dragon.

Now, regardless of whether there is any effect, he is a way of attack that combines multiple experiences.

His mental strength is not as good as that of the dragon. It is only relative. The spirit of Shen Lang itself is much higher than that of the same level.

I can't say that I can't wait for work now, but it's a surprise to hit the other party.

Especially after a full blow, Shen Lang's awareness of the dragon that he was crushing was not only to suppress the situation, but also to force the other party to lose.

In the case of total suppression, he immediately absorbed the spirit of the other party at the fastest speed!

Although it still absorbs mental strength, it is not the same as it was just now.

The previous absorption was that after Shen Lang resisted the attack of the other side, he guided the mental power to the light of God and completed the absorption in the rush of the original light.

This is like a dam collapsed, while flood control while flood prevention, not only more dangerous, the effect is not so good, a little careless, the flood will run out of control.

Now he is completely suppressing the other's consciousness, and then actively absorb the spirit of the dragon.

It is like controlling the dam and manipulating flood discharge as needed.

The latter is not only more secure, but also better scheduled, better coordination, the overall effect will be much better.

And the dragon is bitter at this moment!

It had already gathered a lot of mental power, ready to give a fatal blow to Shen Lang, and the old nest was ended!

This is like preparing for a major flood. As a result, the reservoir has disappeared. These floods have turned into rootless trees without any support.

Because of this result, the dragon has a strong spiritual power, but can not play it out.

I want to fight back, but I have been firmly occupied by Shen Lang, and I don't give it a chance.

Nowadays, the situation has become that Shenlang has already controlled its spiritual world. It has great spiritual strength. If you go against the waves, the result is that you are absorbed by Shenlang!

Because the dam has been controlled, the flood channel has been opened calmly, and the flood has been infused, just filling the space inside the dam, and it is still flooding, and there is no chance of collapse.

More importantly, before it was attacking the waves, the main battlefield was the spiritual world of Shen Lang, and now it has been reversed.

In the spiritual world of Shen Lang, once there is any problem, even if it has not reached the level of collapse, it is also a broken injury.

For example, the confrontation before Shen Lang has been accompanied by a splitting headache. Every attack that is shackled in the back is subject to the uncomfortable feeling of being opened.

Now this question is the turn of the dragon!

Shen Lang absorbs its mental power, and its feeling is getting weaker and weaker, and it is the feeling of being evacuated. But if it's a strong counterattack and confronts the Shen Lang attack, it is a headache.

At this time, the two cold autumn and snow are not over.

They are all experienced people and will not be blind.

The situation of Shen Lang is obviously in a spiritual war, but the specific situation is not known to them.

If it is a normal battle, they can help directly by joining the battle. The battle in the spiritual world is not so simple.

In theory, they join in, and two or three attack one together, which can greatly reduce the pressure of the waves and help suppress the dragon together.

Just like the dragon and the \*\*\*\* of the dragon before Shen Lang, it is also the attack of the Terran \*\*\*\*\* and its defeat.

But the problem is that they were three together at the time, and now they are in the cold autumn, snow is not snow, they are going to join later!

Chapter 2053 - Spiritual blast

Before that, the strong man of the human race was the same as the demon dragon. The Yuanshen was possessed in the Excalibur, and the two were also confronted for tens of thousands of years.

It can be said that it is very understandable, and when Shen Lang comes in, he actually wants to win the Shenlang. It is only the last time Leiyuan's intervention, let him realize that it is impossible, then simply help Shenlang to kill the magic. The dragon is also fulfilling its wish.

I know very well about the magic dragon. The whole process of the scene is also very understanding. He has also been holding down the dragon. Therefore, it is very natural for him to help Shen Lang at a crucial moment.

Now there are two people in the cold and autumn, there is no such advantage.

They have no knowledge of the dragon, and they still have no understanding of the current situation of Shenlang and the dragon.

If you rush into their battle circle, on the one hand, it is easy to be directly ambushed. On the other hand, it is easy to disrupt the rhythm of Shen Lang and screw up the waves.

So after they came over, they did not act rashly, did not participate in the fighting in the spiritual world, but chose another way.

The physical battle!

The flesh and spirit are complementary, without the body of the soul, not the walking dead, but the direct brain death. Without the soul of the body, it can be regarded as a ghost, and the pure spiritual body that is not pinned will soon die.

So after the dragon was hit hard by the explosion, it thought about taking the body of Shenlang.

At this moment, the two of them can attack from the flesh and come to the side to help the waves.

To put it simply, it is to kill the magic dragon. Without the body, its consciousness will be paralyzed.

Just now, Shen Lang used to use a similar method, but the back confrontation did not come, and the towers of the tower and the sword of the king stopped.

Now the cold autumn and snow are not snow, it is two new forces, they have not been attacked by the spirit, you can directly attack the remaining organs and heads of the dragon!

Their two ancestors, not to mention one of the best, are also the strongest of these big sects. They used to make a full blow, and they didn't even touch the side of the dragon. It is undoubtedly very disgracing.

At this moment, with awkwardness and unwillingness, the cold and cold autumn once again swayed the sword, and the snow-and-snow mixed scorpion also danced!

Shen Lang can be successfully suppressed. In addition to summing up many aspects of experience, a big reason is the change of the mysterious energy of Yungong Holy Land!

He hasn't fully understood it yet, but after all, he has closed in the space of Tianshu, and the degree of change has been far better than that of the cold autumn.

One of the changes brought about by this energy is obviously the power of repression!

It is not that the weak can suppress the strong, but if the same, the situation is not big, it is normal to be stalemate, but now it can achieve the effect of repression.

Shen Lang just succeeded in taking the lead, seized the opportunity, and then firmly suppressed it.

The dragons are already very passive, and now they feel that the two of them are attacking its pure organs, and the impact is even greater.

When the originally broken vascular nerves are destroyed, when the organs are completely cut off, when the brain is also attacked, it is also a lot of impact on its spirit.

As a result, the dragon began to go crazy!

Externally, the remaining skeletons swayed, and whether they had any effect, they tried to end up with the cold autumn and the snow.

On the inner side, it has come together once!

It has already realized that, if you continue to squat, the other party will only gradually absorb its mental power, so that it will not only be unable to do it, but will help it in vain.

The two Terrans next to it are constantly attacking and there is no way to stop it.

At this point, the only thing it can do is to succumb to it!

And you have to do it right away, you can still do it. If you wait a little longer, you may not want to die.

In the case of flooding, it is that it continues to rush to the dam, and as a result, the other party controls its dam and guides flood discharge.

Now it is on the verge of smashing the floods and dumping everything, including its own dam, directly into the floods!

The local dragon is the dragon of the ancient hegemony.

Its first wave of failure was due to the light enemy and conservative, and did not kill the Shenlang in the first place.

The second wave of failure was due to the loss of the opportunity and the uselessness. Shen Lang exceeded its expectations.

But that's all based on what it wants to do.

To win this body, so I will be merciful, just want to wipe out the consciousness of Shen Lang, or suppress him to replace, and not want to ruin him.

But now it has realized that it is very difficult to achieve, and it will not be ignored, and directly play the same way, even if you are dead, you have to pull a back.

So this third wave of attack is immediately a devastating disaster!

The spirit of a dragon is self-destructive enough to completely destroy the spiritual world. It is almost like exploding a nuclear bomb in the spiritual world.

Shen Lang originally had the upper hand, and absorbed the spirit of the other party as fast as possible. However, under this spirit, it was impossible to resist!

That crazy spirit broke open is to destroy people and destroy themselves, ruin everything!

Even if he suppressed the world of consciousness of the dragon, what about it? Now even this must be blew!

If the power of Shen Lang is far better than the dragon, face such a spirit of self-destruction, or timely block the withdrawal, or come to refuse, all the spiritual power is swallowed, and naturally can be eliminated.

But now the Shen Lang, can push the dragon to this step, it is very rare, of course, can not be easily crushed.

Ever since, at that moment, the consciousness of Shen Lang was suddenly blank!

Too strong!

The power of the magic dragon's self-destruction is not something that Shen Lang can bear.

The former dragon was also defeated by the predecessor of the Terran, and it was the first to go with it, or else to complete the self-explosion of the gods, that is, including the Shenlang, all three must vanish.

When the last time Shen Lang was almost occupied and seized, Lei Yuan took the help.

But this time the situation is different. It is not the magic dragon that wants to occupy the spiritual world of Shen Lang, but the magic dragon blew itself, and Shen Lang is also in its spiritual world.

This situation is that Leiyuan wants to intervene to help, and it is not good to help.

It can fight back to the enemies who attacked the waves, but it can't push back the spirit that has already blew!

Shen Lang can be regarded as the biggest crisis!

Even if it was previously suppressed by the light \*\*\*\*\* to the state of sudden death, it did not force him to be absolutely perfect. He had a chance to escape. Not to mention the space of the heavenly book, it was the slower door of the Three Realms.

With the power of the \*\*\*\*\* of light, I really want to kill him, and I can't escape it...

Now this time, it is time to withdraw and return to the space of heaven, and it's too late...

Chapter 2054 - Dragon Ball

The cold autumn and snow and snow did not quickly destroy all the organs left by the dragon. When they attacked the brain together, they saw the sinking waves falling from the sky!

At the same time, the big skeleton supported by the dragon began to fall down directly.

They were not good at the dark, and they quickly flew over. The cold autumn caught the swell, and the snow was not caught by the scorpion tower and the sword of the king.

This situation has exceeded their expectations and frowned at a time.

The destruction of the ancient dragons was the most powerful of all ethnic groups at that time, and they paid all the costs together. Legends and history are simple words, but afterwards the rejuvenation of the various races and the rise of the Terran may actually be thousands of years or even tens of thousands of years.

This shows how powerful the dragons who once dominated the world are.

So to fight with the dragon, they both even took the heart of death!

The reason why I feel that the current situation has exceeded expectations, mainly because Shen Lang's expectations for them are too high!

In the cloud palace holy land, when everyone is suppressed as ordinary people, Shen Lang can also use the treasure. In that mysterious space, he can be up to seven days. It can even open the exit with a hard life.

The dragon revival that can be confronted with their two draws was killed by Shen Lang alone.

Including when you come here, when the poisonous smoke is filled, Shen Lang can go in and investigate.

All of this makes them very confident in Shen Lang. It seems that he is not sure.

Just like the fight with this dragon, their two life-strike blows, but they can't even get on the side, and are directly bounced off the outer edge of the realm of God.

However, Shen Lang, but can calmly go deep into the tiger's hole, using the magic weapon in the dragon's abdomen to trigger a huge explosion, the bombing of the magic dragon.

These made them feel that Shen Lang alone can kill the dragon. It seems that it is not an incredible thing. It is possible to happen to him.

Even if the situation of Shen Lang was found to be wrong, they just felt that if they came over to help, they should be able to get it.

Never thought that the sinking waves would fall!

Of course, this is just a trust in Shen Lang. In fact, from a rational point of view, this does not have any problems.

Looking at the present, Shen Lang is both dead and dead with the magic dragon...

However, both losses are the limit they can accept, and they must not be the same!

“Snow palm, please take care of the waves!”

In the rapid landing, Gao Hanqiu directly placed Shen Lang’s body on the ground, and said that he would fly directly with the sword.

Snow is not very tacit, and the concern of Shenlang in the cold autumn is definitely not to let it go.

He will do this, in the case of a stun in the dark, be sure to kill the dragon completely!

Only by killing the dragons can we guarantee the waves and guarantee the lives of the three of them.

There is no nonsense in the snow, and the swords of the towers and the swords of the kings have all been collected for the Shenlang, and then they are flying around in the sky, forming a red cloud-like protective cover around them.

Gao Hanqiu is a direct flying sword to the head of the dragon!

He doesn't know the current situation of the dragon, but if it is both defeated, he must take it and still haven't reacted, and quickly kill it.

The result is not equal to the long sword, the light is the sword, it has already caused the devil's bones to burst!

This situation made Gao Hanqiu a little surprised, and immediately received the sword.

Even the skull will be broken, indicating that it is dead!

That is, it just tried its best and wanted to go with Shen Lang.

It is already dead, what about the waves?

Gao Hanqiu worried about the safety of Shen Lang, but there was snow and snow protection there. He used to be the same, so he was still in the skull that was falling from the sky.

The dragon had stood before the explosion because of its powerful energy. Once hanged, the internal organs are all smashed, and many skeletons that have already been broken can not be maintained.

But because of the size of the head, there is a process of dumping, not so fast.

The sword of the cold autumn has already shattered many skulls. Now he is between the faucets, on the one hand to confirm that it is completely dead, and on the other hand, to harvest something.

brain!

All the way to see the keel, those who have long had no brain, weathered the powder. Now that this is a dead dragon, the value of this brain is still very huge.

He was directly rude, completely collected, and then found the inner dragon of the dragon!

Nedan is the essence of lifelong cultivation. Although there is not necessarily a certain proportion, the bigger the beast is, the larger the inner Dan will be.

However, the value of Nedan is not based on the size of the light, but also depends on the quality of the grade.

What is graded is generally divided into three aspects: race, strength level and degree of damage.

The values of different ethnic inners are also different. For example, the family of the red porpoise, the value can not be compared with the Qingqiu fox, and may even be poisonous.

Not to mention the level of strength, the beasts of the same race, the lower level is not as good as the high level, the king is not as good as the beast.

There are several aspects to the extent of damage. On the one hand, the damage of the body, such as being seriously injured, and in good condition, the value of the internal Dan is also different. The inner energy of the inner Dan will be output to heal the life-saving the output is much more natural. a lot of.

On the other hand, it is the damage of the pick. Just dying to pick it up, it is relatively well preserved. Without the flesh and the surrounding environment, the energy of Nedan will also be dissipated and decomposed. The longer the time, the worse.

Just like here, the ancient dragons and other ethnic groups have died, but it is impossible for Nedan to remain until now.

In the end, the damage is preserved, and the inner dan, which has been taken, is preserved. The speed of energy dissipation and decomposition will be greatly reduced, or even negligible.

Then look at the time, even if there are few missing, even if it is a few tenths of a year, it will be a huge difference if it is preserved for one hundred years.

The ancient dragons used to be the hegemon of the world. From the perspective of race and strength, the value of the inner Dan is undoubtedly high.

But the inner dragon of this dragon is still damaged. At that time, it was killed and killed. For some reasons, the body was not rotted, and the body was not corrupted. To the present, it may be the result of re-cultivation.

In short, its inner Dan is not comparable to when it was at its peak. But the difference is how much it is, and it is not clear, because it is not known for tens of thousands of years, but it can also be repaired and made up a lot.

Now it is the inner slain that has just been killed and immediately picked up, and the damage has been reduced to a minimum.

The inner dragon of the dragon is a little different from other beasts.

They are not small, even if they are not as large as the same organs, but they are not small. It is not a single one, but a big one.

But as they reach a certain level, Nedan will become more and more refined, and then a return to the real process, is getting smaller and smaller.

So especially crowned as – Dragon Ball!

Chapter 2055 - Suspected of the cold autumn

When Gao Hanqiu got the brain of the dragon and the inner dragon ball, this is the real relief, which confirms that the dragon is completely dead.

Otherwise, even if the skeleton is broken and the internal organs are gone, he does not dare to care.

The snow is not the same as snow. I don't dare to care about it. I have not only laid out the protective cover, but also used the attacking and squatting around to form an aggressive protective cover.

But in the absence of the attack of the dragon, her knowledge is also concerned about everything around.

Originally, it was to be careful to prevent the dragon from attacking, but it did not miss the high cold autumn.

When I saw Gao Hanqiu's own brain in the air, the inner marrow of the dragon, snow non-snow frowned.

Anyone will plan for themselves, in the face of strong enough interests, any other friendship can be put aside, it is the general forbidden trials.

It is even more difficult to bury the Long Valley, such as the ancient forbidden land that no one has ever explored.

She can't blame anything, maybe she will do the same.

But at this point, she still felt a little uncomfortable.

Because when they went to the Yungong Holy Land, the three of them came together, together with their disciples, and formed a small team of seven people with Shen Lang.

In the Yungong Holy Land, everyone also supports each other. Whether it is in the ordinary state or in the last place, Shen Lang has no exclusive enjoyment. All of them help them, including everyone else.

After the incident of Cui, everyone went to the black robes behind the scenes and came to the edge of the burial dragon valley together, and destroyed the gantry that had been plotting for thousands of years.

At the end of the day, everyone entered the funeral valley together, until now they also fought with the dragon.

In the snow and snow, the relationship between the three of them should be unusual and separate from the interests.

It is true that Gao Hanqiu's timely collection of benefits is correct. She does not even suspect that the cold autumn will be swallowed up. I believe she will share her.

But isn't the cold autumn relationship good with Shen Lang?

When Shen Lang's life and death are not clear, shouldn't you try to save people first?

The dragon is dead, and it won't run. Why is it rushing to search?

But even if it is a little uncomfortable, she did not say it, and let her not reveal anything.

This burial dragon valley is still a murderous place, there may be other dangers, and there may be a dragon.

Shen Lang has been seriously injured to this extent, and the two of them can no longer be guilty, or else they will only be here.

The cold autumn has been so searched, indicating that the dragon is really dead, snow is not a temporary relief, at least not found other dragons nearby.

She immediately collected the scorpion, kept the defense, and kept a warning to the cold autumn, and then began to check the damage of Shen Lang.

"How is the situation with Shen Lang?"

When the cold autumn came down, Xue Feixue revoked the defense and let him come to the side, but her own alert was even higher.

Defenses can not do without.

Gao Hanqiu's performance is close to Shen Lang, and even more so than her gentleman's friendship. If she can really ignore the life and death of Shen Lang, it is entirely possible to kill her!

This is a living ancient dragon, and this benefit is not small.

Divided into three, of course, not as exclusive as one person.

As long as she kills her and seriously hurts the stunned waves, it will not be a climate. Kill them all, the secret here is only known to the cold autumn!

“The body is not a big problem, but ... in terms of spirit, it should have been hit hard. I suspect that the dragon is with him.”

Snow and snow can only be checked briefly. The spiritual world cannot be casually explored. It can even disrupt the thinking of the other party, causing the other party to suffer another defeat, and then dragging itself down.

Gao Hanqiu nodded, this is the same as his analysis, the estimation is the truth of the facts.

“The dragon is dead. We can input mental strength and support him. It should be able to let him go.”

Snow is not snow and then said his own plan.

“Do not!”

Gao Hanqiu is a direct veto.

Xue Feixue gave him a deep look and did not say anything.

Gao Hanqiu secretly smiled. At his age, he has seen countless people. Can you not see the snow and snow?

“Don’t misunderstand. I want to save him more than anyone else, but we can’t infuse him.”

“Why?” Snow is not snowy.

When you generally emphasize that you are a good person, you will often be the time to attack!

She asked on the surface, but she did not dare to care about it.

Gao Hanqiu sighed: “Just their situation, it should be both sides fight. As you said, the dragon is finally playing the same game. And now the result is that the dragon is dead, but its mental power will be so easy to dissipate?”

Snow is not a slight glimpse, and I began to distract myself from this problem.

“Now he looks like this, it is very likely that all the spiritual power of the dragon, all poured into his spiritual world, he can not bear the impact of this shock!”

As soon as the cold autumn is said, Xue Feixue understands.

It is not necessarily the same as taking the other person out of the air and putting all the perfusion in the past so that the other party can not withstand the explosion.

The strength of the dragon is certainly not so easy to resolve. Shen Lang is now in this situation, and it is very likely that the dragon has poured all his mental power into him.

If this is the case, then now they are injecting spiritual power into Shen Lang, and it is not helping him but it hurts him.

Because he is not a lack of mental exhaustion, but too much bursting.

If you can really do it at this time, it will help him to vent, so that he can recover.

But for others, it is easier to help replenish than to help vent. Replenishment is an aid, and even if you can't absorb it yourself, you can guide absorption.

Catharsis is a careless problem, and it makes a big problem.

In this case, they can only guard against the waves, and it is not convenient to intervene more, so as not to cause more trouble.

But now Shen Lang looks like this, so they can't be assured.

Shen Lang is already in the realm of the Great God. It can make this strength coma. This is a very serious problem. This time it is the result of the battle of the Dragon. If you can't do it, you can't wake up again!

“Try it.”

During the cold autumn talk, the dragon ball that had just been taken out was taken out, placed in the arms of Shen Lang, and then his lips were opened, and some brains were fed into him.

Seeing this, snow is not snowy.

It seems that I am still accustomed to doubting human nature. I did not expect this high ancestor to receive the Dragon Ball and the Dragon Pith, which is also used directly for Shen Lang.

The reason for this is that there is no need to explain more.

They are not convenient to raise the spirit of Shen Lang, it will only make him more unbearable, and now it is to raise his body.

The body and the spirit are complementary. When the body is in a better and stronger state, the natural damage to the spirit will be stronger.

As for the effect of Dragon Ball and Brain, in fact, the cold autumn and snow are not uncertain, after all, no one has seen it.

It's just here, they have no better things, and the dead horse is a living doctor.

Chapter 2056 - Distribution problem

This is not a general situation. It can be done in the cold autumn and snow and snow. In fact, it is very limited.

Shen Lang's body is not obviously injured and does not need them to help heal. As for the auxiliary help, I just gave the best that I have here.

Shen Lang can not smash the past, the final effect is to see his personal willpower.

Gao Hanqiu is still comforting Xue Feixue. He is very confident in Shen Lang.

For hundreds of years, Shen Lang was hit by the apocalyptic world, and it was the first to encounter the rule of the catastrophe. Everyone did not know whether he succeeded in flying or failed.

Unexpectedly, after hundreds of years, he turned out to be reborn and repaired... Although it is inconvenient to talk with snow and snow, but Gao Hanqiu personally admire.

Now the state of Shen Lang at this moment is not suitable for moving. If the physical turmoil has caused the negative impact of his spiritual consciousness, perhaps the details are big troubles.

For the time being, it seems that there is no danger. They are going to give Shenlang a little more time here to see if he can wake up.

In the absence of danger, it is a waste of time for two people to wait and do, and they are not bad at this time. So together, the cold winter makes snow and snow not to take the bone marrow and keel of the dragon.

Originally, they came in all the way, and they have already taken a small keel that is easy to carry.

Compared with the ancient skeletons, the value of this fresh keel is naturally more extraordinary.

The previous explosion was too powerful, and a lot of flesh and blood had been broken or even powdered. The remaining keel was also the main big bone.

Of course, these are not easy to carry, but there are still fresh bone marrows that can be taken, and they can also be taken or brought back with some broken pieces.

Snow and snow did not say anything, and directly agreed.

The average person who works, will be the physical strength of the man to distribute the manpower, the man is more energetic, take care of the lady.

But they are all people in this realm, and there is no distinction between men and women. There is no physical strength and coarse work.

This is a search for resources, in fact, it is a good job.

However, Xue Feixue has another thought. Before it would be suspected of high cold autumn, would people be wary of her?

Going to the keel in the cold autumn, let her keep the stunned waves, in case she took the dragon ball and ran it?

Although she will not do this, she is not sure whether others will think this way, but she does not want to be wary of others, so she is willing to collect the dragon.

Gao Hanqiu from all kinds of situations, especially seeing the suspicion of Xue Feixue just now, he is very pleased, I believe that snow and snow will not be against Shen Lang.

At this time, let the snow go to work. He is not skeptical. In fact, he gives the simple work to the woman, and he does the work of defense himself!

Although it is safe for the time being, there is a living dragon here!

According to Shen Lang, there is at least one dragon that is just as alive. It will be difficult to say whether there will be a third or fourth.

Now the situation of Shen Lang is not good, can not afford to toss, there are no enemy to fight, so he can not have the slightest care.

He seems to be watching the waves next to him, but in fact, the knowledge has been extended to more than a dozen miles. If there is any danger, it is necessary to find it in the first place.

Snow is not very good for snow, and the overall speed is very fast.

The keel was originally hard, just as it has been eroded for at least tens of thousands of years, and it has not been ruined in the murderous land of the burial dragon valley.

However, the previous explosion was too powerful, and it started from its body. It was the most impactful. Although it was not directly destroyed by flesh and blood, many of them were fragile and even brittle.

When the magic dragon finally hangs, there is no energy blessing, relying on the original hardness, and many are cracked and broken.

Because this is the enemy that has just been dealt with together, and Shen Lang is still unconscious, and can even be said to be a life and death, a spiritual problem, more certainty than a physical wound.

So she harvested it and there was no burden. In addition to collecting a large amount of bone marrow, some small keels were collected together.

When the treatment was finished, she returned to the side of Shen Lang.

She did not ask what to ask, because Shen Lang's appearance can be seen. If there is any good change, I will know it directly. I don't need to talk nonsense.

"High ancestor, I have collected all of them here, and I will hand them over to you."

She handed over a collection of storage bracelets, which was erased by the personal mark, and anyone could open it.

Gao Hanqiu is also not polite, "Well, I will take it together, wait for Shen Lang to wake up and then distribute it."

His sentence is also to make snow and snow free.

Because he just collected a wave, in addition to the most important Nedan Dragon Ball placed in Shenlang here, there is the most valuable brain, just to feed Shenlang a little, there are many.

This unified reception, then unified distribution, and also avoid snow and snow, thinking that he has the brain, she has bone marrow.

In fact, since entering the Yungong Holy Land, everyone has no big gains, so they have not faced the link of “dividing.”

Now there is really a need for this. If Shen Lang is awake, it is natural, and the three people will be directly divided... Perhaps, I will give the giant beast a share.

But now Shen Lang is like this, he is not in the mood, or is full of defense defense. I will look at the vicinity, according to Shen Lang before, it should be that there is something in the vicinity of the world, causing the other side Gradually resurrected without being completely dead. ”

“it is good.”

The cold winter nodded.

He now needs to guard against the entire environment around him, and he really has no time to take into account the specific situation.

High cold autumn and snow are not snow, because of the situation of the sinking waves, the mood is a bit heavy, feeling the time is very slow.

And Shen Lang is now completely forgetting the time...

After the magic dragon spirit blew himself, he was greatly affected. The spirit of the dragon has been stronger than him.

It is a normal infusion, and it will not be able to withstand the form of the gods.

And the self-destruction is in the same way, the effect is completely different, and the degree of harm is several times higher.

If there is no transformation of the mysterious energy of the Yungong Holy Land, even if the Shenlang reaches the realm of the great gods, it will still be directly turned over, and it will not last more than half a second!

Strictly speaking, he did not hold down after he came out, and broke through to the realm of great deity, which made him absorb the mysterious energy to a fast magnitude.

Coupled with the time of the Tianshu space, they have been at least one year longer than the cold autumn, so their changes have not been obvious, but the Shenlang has changed a lot!

It's just that the mysterious energy and the aura are different, and there is no direct manifestation of the strength soaring above, so the personal feeling is not obvious.

Now Shen Lang has two experiences. One is that when fighting with others, it is easier to suppress the other's consciousness. The other point is to bury the Dragon Valley, not afraid of the invisible and innocuous poison that makes the Red Dolphin King jealous. Substance.

Chapter 2057 - Shen Lang wakes up

When the magic dragon spirit blew itself, Shen Lang was transformed by the mysterious energy body, and realized a more obvious role!

Only at this time, Shen Lang has lost consciousness and has not realized the specific changes.

That is the perfect toughness!

Reflected in the body, he can withstand more damage than the same realm, water, fire, poisonous substances, etc. can fight.

It is also reflected in the spiritual aspect, that is, the self-explosion that exceeds several times of tolerance, and it still supports!

In essence, it is also a physiological transformation, which greatly limits the limits that his nerves and brain can withstand.

This is like pulling the body level of a semi-prestigious monk to the level of the realm of the great gods. Although his realm of cultivation, vitality and mana are still half-sex level, it is also impossible for Daxian, but the body may bear the great god. attack.

Of course, even if the limit is greatly increased, the huge impact is also difficult for Shen Lang to bear and directly lose consciousness.

However, the huge impact of this time, but it has a misunderstanding effect!

This time, the Yungong Holy Land, and other ancestors also came out. Some of them have a day and two days. They are uncertain. In addition to the seven days of the sun, they count the five days of the cold autumn and the snow. The strongest.

The ancient ancestors who entered the Yungong Holy Land should be the same, some more and less, but in the end there have been great changes.

That is the role of time, a few years, ten years, decades... The effect is gradually highlighted with time, of course, with the subsequent cultivation, and so on, complement each other.

The effect of Shen Lang can be so good. There are two aspects. On the one hand, it is time. It has already changed one year.

Another key point is that he just caught up with the realm of breaking the gods!

That is a metaphor for the body. There will be no small changes. The mysterious energy is directly involved in it, and it has been greatly absorbed and transformed.

Now this time, his mental shock has reached the limit and reached a dangerous moment!

The mysterious energy, which would have required more time to slowly merge and change, naturally blended the past with the whole, constantly giving him promotion, giving him support so that he could withstand and not die.

In other words, it took a long time to absorb some of the energy of the fusion, because the crisis of sudden death was quickly and actively merged.

The combination of the previous two aspects, coupled with the fusion of this wave, not only let Shen Lang bear, but also let him accept these changes in energy, once again open other people far away.

Still using the dam to compare, the numerous dragons of the dragon have been concentrated, and their own dams have been destroyed and collapsed. All the floods have exploded into the “reservoir” of the sinking waves.

Shenlang’s “reservoir” could not withstand so many floods, and it’s just bursting around!

But the role of the mysterious energy is like letting the levees around the blast, not the smashing explosion, but extending out to the surrounding.

The result is that the original perimeter is one hundred, and it has become two hundred and three hundred... The final limit may be five hundred. But it has not been smashed, and it is soon to form a dam that has been reinforced for five hundred weeks.

In this way, although it takes a little time to calm down all the huge “floods”, there is actually no flood in itself. And the limit of strengthening and stabilizing will not be retracted.

Therefore, they waited for their heart and Shen Lang himself lost consciousness, but in fact it didn’t take long for him to wake up!

Because he is now taking the limit, he has stretched to such a large size, and has already taken all the spiritual power of the demon dragon.

Of course, he himself will still be very uncomfortable. These mental strengths will greatly affect and impact his personal, and there is also a big hidden danger at any time.

But for the time being, when the endurance is stabilized, his consciousness will be restored.

When the consciousness of Shen Lang recovered a little, I immediately felt any residue in my mouth, and some seemed to have already eaten it.

Although I don’t know the specifics, I can think of the supplements they gave him in the cold autumn, so I didn’t panic, let the body completely relax and absorb as much as possible.

While absorbing, he discovered another point. In addition to what he ate in his mouth, there seemed to be something in his chest that was emitting powerful energy that attracted him.

This energy directly affects the “spiritual storm” in his brain that has not yet stabilized!

It was a feeling of eagerness to bring it back, and the energy on the chest seemed to want to enter his body.

Shen Lang is just waking up at this moment. The consciousness is still a bit ignorant. Since I feel uncomfortable, I will try my best to absorb the energy of my chest and hope to ease it.

For a moment, he could not help but sigh...

He seems to feel the energy of his chest, completely into his body!

As a result, the “spiritual storm” that bursts into the mind seems to be gratified and stabilized.

This gives Shen Lang a feeling of complete relaxation.

From the beginning of the spiritual war with the dragon, he has not relaxed for a moment, has been a state of headache, and the back seems to be poked again and again, and in the end is completely lost consciousness.

It feels relaxed now, I feel very tired, I really want to have a good rest But his reason still exists, and I can't rest now.

At least you should first understand the situation, how is the magic dragon? What happened to them in Gao Hanqiu?

Therefore, even if the spirit is very exhausted, Shen Lang is still struggling to open a heavy eyelid.

The eyelids opened, and I saw the shadows of the cold autumn and the snow and the snow.

“Are you waking up?”

“Are you OK?”

The cold autumn and the snow are very excited.

They can't do anything else, but they still pay attention to Shen Lang. Whether it is the cold autumn of the guard defense, or the snow and snow around it, I have left a mind to be here.

Just one of his scorns is very small, but it falls in their ears, but it is a loud noise!

Gao Hanqiu took back his mind, and God stared at him. Snow and snow also came back immediately.

There are a few breaths in the back, but they are holding their breath. For a little change in Shenlang, they are carefully observed.

As a result, they were surprised to see that the dragon ball on the chest disappeared and seemed to have been absorbed into the body!

This makes them feel incredible, because it is not taken from the mouth, it is absorbed directly from the chest!

But in the end it is Dragon Ball, the huge dragon, and finally Nedan has been cultivated so small, but the size of human fists, naturally has an unusual effect.

They didn't mind that Dragon Ball was swallowed up by the waves, just worried that this would cause problems for his body. After all, the absorption of the body is only a small addition, it is gentle, completely inhaled, the power is overbearing.

Until they looked at Shen Lang and opened their eyes, they were long and angry...

Chapter 2058 - Retreat repair

Shen Lang looked at them, and the consciousness gradually became clear.

"What about the dragon?" he asked immediately.

Now his mental state makes him afraid to use his knowledge.

“Do not worry! You have already killed it.” Gao Hanqiu smiled and comforted.

Lang brother never let him down!

After hearing this sentence, Shen Lang was relieved, then stood up and looked at the situation around him. It was determined that it was not comforting him, but it was really dead.

“correct!”

Shen Lang immediately sighed: “I have encountered some keels before, cut with a sword, and can also collect some dried bone marrow, how the effect is unknown. Now this is fresh!”

“Do not worry, Gao Laozu has already charged me.” Snow did not snow and nodded.

“and also.....”

Shen Lang has not finished, Gao Hanqiu understands what he wants to say, sees his weakness, and waits for him to finish, he interrupts the initiative to make up.

“The brain and the inner Dan have also been taken.”

When he said this, he had hesitated in his heart and then added.

“The inner dragon of the dragon is a fist-sized bead, maybe it is a dragon ball. Just now we have no better way to help you, just put it on your chest and see if you can absorb a little energy, then.....”

It’s just two of them. There’s nothing so high-cold autumn, and he won’t mind if he gets it.

But now there is still a Yaochi snow snow is here, although this is considered to be desperately desperate, he should take it, but at least to make it clear, give people a confession, so as not to have a heart.

Shen Lang was a little surprised, and instinctively touched his chest: “I just felt that something has been absorbed into the body. Is that the Dragon Ball?”

Because after he made a sound, both of them were watching in the near future. At that time, they did not wake up, and the Dragon Ball disappeared.

So everyone understands and believes that he has not lied, it is really inadvertently absorbed, or that this thing can only be absorbed by him.

“This is what you got. It should have been given to you. If you absorb it, you will absorb it. You just need to pay attention to it.”

Gao Hanqiu can take care of her feelings. Snow is not snow, of course, it is immediately stated that she has no objection to the ownership of Dragon Ball.

Shen Lang nodded, and he did not have any feelings.

After thinking a little, he ordered another sentence.

“The scope of my exploration is wider than you. I think it is unlikely to be a holistic resurrection, but the environment here is special.”

“I have already caught up with the Emperor’s behemoth. It has also been attacked in the place where it is ten miles away. It is a poisonous grass. It is vaguely refined and poisoned the Emperor’s behemoth.”

“I sent it to the healing, and when I came back, I saw a semi-resurrection dragon with the same name here. But I have gone, I have not caught up, and then I searched for some heaven and earth essences there. This is my guess. evidence of.”

Shen Lang quickly told the situation to them. He had just come over and had not said so much detail yet. He had already worked with the dragon.

“Understand! We will search for nearby places immediately, and we will be extra careful. We will not care about any poisonous grass!”

Seeing that Shen Lang said so many words, it has been very difficult, Gao Hanqiu quickly said that he would not emphasize the shackles.

“Okay. You continue, don’t worry about me, I will go find some medicine first!”

After Shen Lang finished talking to them, he disappeared directly.

Looking at this scene, Gao Hanqiu and Xuefei Snow are also relieved.

Shen Lang is under the guise of the devil, and the trauma is naturally very serious, so he is here, they must always pay attention to the waves.

If there is any danger, they must also protect the waves first.

So Shen Lang was sent away, and they had no worries. Whether it’s exploration or danger, just take care of yourself.

Shen Lang is saying to get some medicine. Although I don’t know the specifics, it may be effective to see the performance before Shen Lang.

When he was in the holy place of Yungong, he disappeared for a while and then returned from injury to recovery.

As for how Shen Lang did it and what he did, they would not ask more.

Of course, Shen Lang did not transfer to any place, but only to the space of Tianshu.

This is his secret, and it is not easy to explain, so I won’t say more.

Looking for medicine, it is an excuse, so as to avoid a lot of situation, people will doubt, the real reason, of course, still rely on time to heal.

In the space of the book, the dog \*\*\*\* is still in the state of healing, and Shen Lang did not bother it.

He can also feel that he is very weak, but this weakness is not physically, it is brain and consciousness.

It is also complementary, the brain is tired and the spirit is tired.

In this safe environment, Shen Lang calmed down and slowly tried to feel the changes in the body and understand how his current situation is.

The reason why he is eager to come in is because he is also very worried!

At that time, under the spirit of self-destruction, he could not defend, and he couldn't get out of it. It's too late to get into the space of heaven. This is the first time he has encountered such a dangerous situation.

After waking up, I didn't even dare to use God's knowledge, so he was worried that it was abolished.

Now try a little bit and feel how the world of spiritual consciousness is. Soon, he was amazed.

Although I feel that my mind is in chaos and the spiritual world is very unstable, it seems that all the spiritual powers that devote myself to the magic dragon have been taken over!

This is equivalent to trapping all the mental power in his spiritual world, but now it is a state of disorder. As long as he slowly combs and calms down these spiritual strengths, he can still use it for his own purposes.

What surprised him even more is that his spiritual world can withstand such a huge impact!

After thinking about it, Shen Lang thought of the mysterious energy of Yungong Holy Land. It can only be for this reason.

This can be regarded as a blessing in disguise!

Of course, this blessing is not so enjoyable. Now the huge and disorderly mental power is still the existence of a time bomb, and it may be ignorant at any time.

However, since it has not been seriously damaged, his spiritual world has been greatly expanded. It is still full of confidence in absorbing the spiritual power of these dragons. What is needed is time.

However, his current state, after going out, will only be a drag-and-drop role, and must be stabilized first.

Dragon Ball of the Dragon has been absorbed by him, but refining is definitely not that simple. The brain is also taken a little, and the effect is temporarily unknown.

Now I want to understand the reason, that mysterious energy has already stimulated the transformation, but it is not clear. Therefore, Shen Lang thinks that it is still necessary to make up for it to make his brain and nerves stronger and stronger, and to withstand the shackles of the spiritual world.

Therefore, he also took a drop of heaven and earth essence and swallowed it directly.

Like the dog god, I didn't dare to be the first time.

Chapter 2059 - Fusion absorption

Then Shen Lang also set a time, let the Holy A reminder, to avoid indulging for too long, and then began to guide the peace of mind.

His purpose is to calm the storm of the spiritual world, and whether it is the brain, the dragon ball, and the essence of heaven and earth, it is the supply of the body.

The body is strong enough, and the support for the spirit can be stronger.

These also do not require him to worry about it, because his cultivation of the "yin and yang wave if true", a very important feature is that it is not automatically cultivated all the time.

But the storm in the spiritual world is indeed a big problem.

Shen Lang originally felt that he had absorbed the spirit of the dragon before, and he had experience in dealing with it. If he continued, he should be able to face it better.

But in fact, let alone now that these spiritual powers are turned into light, it is not easy to contact.

After experiencing the spirit of the dragon, they are already ignorant, and they become very violent, all in a state of disorder.

In the analogy of the Great Flood, although the reservoirs are large enough now, they have been accommodated, but these floods have irregular collisions, whirlpools, and swells in the reservoir, and they are still likely to explode the reservoir at any time!

However, for Shen Lang, there is not much pressure.

Because the previous world researched the process of creating “Yin Yang Bo Ruozhen”, he actually experienced many similar scenes!

It is not that he has absorbed the spiritual power of others, but that he has studied different methods of practice, and some of them are completely different.

For example, Zhengyi, Quanzhen Dao, Maoshan Road, etc., each has its own characteristics, and the exercises are also different. However, their general outline is derived from the Taoist classics, the cultivation process is different, and the pursuit of the realm is convergence.

Therefore, if these breakthroughs are seen in the portal, they can mutually prove each other, complement each other and promote each other.

The same is true of the Confucian school of science and psychology, which is also under the general outline of the Four Books and Five Classics. Buddhism has a great multiplication, and there are various sects, Tantrics and so on.

In general, under the respective large systems, even if the difference is very large, the whole can still confirm each other.

But different systems, because the teachings of the ancestors are different, and the pursuit of goals is not the same, there may be huge differences, even if the final state can be unified, but in the middle of the process, it is possible of.

In addition to the major systems, there are many small systems that are not systematic, and these have their own unique features.

For example, Tianshan Jianzong, Shen Lang helped Gao Hanqiu become the ancestor of ZTE, taught him swordsmanship, gave him a sword and so on. But that is also a process of mutual recognition and learning. The practice system of Tianshan Jianzong also has reference value for Shenlang.

He wants to integrate all the strengths of the exercises and study the final “Yin and Yang Bozhengzheng”. In the previous process, he must learn a lot of exercises. Some of them have no way to see and communicate with him honestly, and more are secret. .

So he has to take more detours, learn from scratch, or know a little clue, and then he will realize the back.

This is also bound to the more twists and turns of the road that Shen Lang will pass through.

On this road, he has had many times, in order to integrate different exercises, resulting in such conflicts. Some are physical injuries, ignorance, and mental disorders.

But because of this relationship, he has accumulated experience that others do not have.

These experiences are usually used in peacetime, because he has come back again in this world, but he does not need to seriously study other exercises, and he will directly learn the ready-made “Yin and Yang Bozhengzheng”.

At the moment, these experiences are available.

On the one hand, let the understanding of the situation of the waves not panic, on the other hand, these successful experiences can help him deal with the situation at hand.

The experience of fusion before is of course not static, some are repression, some are abandoned, and more are integration.

Now these turbulent mental storms, Shen Lang wants to suppress it, it is impossible to do it. Of course, it is unwilling to give up. It is a huge loss.

The rest is a fusion, and the fusion experience is also the most.

The most common one is to disperse the goals and gradually integrate them.

This is essentially the same as the absorption and refining of various spirits.

With the strength of Shen Lang now, I want to directly integrate all the spiritual power of the dragon, which will undoubtedly be a dangerous act of snake swallowing.

So what should be done is to gradually take this bite apart and swallow it!

Even if there is a hundred times of time here, Shen Lang can't be delayed. I don't know if there is any danger outside.

After confirming, he will start executing immediately.

For these surging spirits, Shen Lang is divided into two. On the one hand, it absorbs the contact and directly uses it for its own use; on the other hand, it converts a part into a light reserve.

Now you don't need to worry about the surrounding environment, and you don't need to fight against the dragon. It's not a big deal for Shen Lang.

So double-pronged really want to calm the mental storm, it is not that simple.

The retreat of Shen Lang took 10 days directly!

Ten days later, his spiritual world has stabilized.

Although the two forces have absorbed a lot of mental power, compared with the energy of the magic dragon spirit, it is only a small part.

However, Shen Lang is an experienced way of using integration. In addition to being absorbed for its own use, it also stabilizes other mental storms as much as possible.

The current situation is his personal spiritual strength, reaching an unprecedented peak, and Shenguang has also reserved a lot.

And his spiritual world has also maintained a relatively peaceful, as long as there is no mental war before it happens, there will be no problem in daily basics.

But to refine all the spiritual powers for your own use, of course, it takes more time.

At this point in time, it has already exceeded the plan of Shen Lang. He originally planned to be a day, but later it was not enough, and it was pushed to five days, then ten days.

For ten days, it took two or three hours outside, and he was a bit uneasy.

On the other hand, for ten days, let him feed on the brain of the dragon and the essence of the heavens and earth, and absorb some of it, and the body state has reached its peak.

However, the Dragon Ball, after being absorbed into the body, became silent.

Shen Lang does not have time now. As long as the Dragon Ball is not upset, he will not provoke it. After all, this thing wants refining, and it is even more than all the spiritual power of the Dragon!

Immediately, Shen Lang appeared again in the burial dragon valley, or in the place where he disappeared.

Immediately after the appearance of the search, look around for two or three hours, there is no problem with the cold autumn and snow.

Chapter 2060 - Dig the world essence

Seeing the situation, let Shen Lang breathe a sigh of relief.

There is nothing wrong with the cold autumn and snow, and they are waiting nearby.

They didn't know when Shen Lang came back, so it was not convenient to leave, and before Shen Lang said, the Emperor's behemoth was injured and sent to heal, and he didn't have to worry about it and other impatient.

"how about it?"

Seeing that Shen Lang appeared again, their eyes looked over and got up and walked over.

Shen Lang nodded: "It is not so fast to recover all, but it does not cause any serious problems."

"We searched nearby, especially the red porpoise king touched the toxic smoke, but there is no world essence." Gao Hanqiu said a little embarrassed.

He believes in Shen Lang, and Shen Lang said that there is definitely something that will not be said.

But they were really searching hard before, more than two hours, enough for their carpet search, but nothing at all.

They also have confidence in their own realm. There is really no essence in the world. It is impossible to feel it at all.

Shen Lang nodded and then came to that place.

Here he has a triple impression, the first is the memory of the Red Dolphin King. The Red Dolphin King is trying to move a pair of keels. The result is that I don't know how to trigger it. It's probably this piece. There is a poisonous smoke, let it go quickly.

The second thing is that when I first arrived here, there was already a resurrected dragon in the vicinity. The ground also changed. There was a pit.

It is now the third, the pit is a lot bigger, it is obvious that the cold autumn and snow are not snow mining it.

“We have all looked for...”

Shen Lang took out the green hillstone and then carefully sensed it according to the previous method.

As before, it is still as transparent as it is to find the essence of the heavens and earth, just below the pit!

The two of them dig through the pit and found it, but because they didn't feel anything, there was no deeper digging.

According to normal understanding, if there is any natural treasure, it should be clearly sensed, that is, buried under the ground, and it will be more clear with excavation.

Because he couldn't feel it at all, he gave up after searching.

Shen Lang is because of the previous experience, let him be sure that there is something here, and to find out after the answer, naturally more clear.

And he also verified it, it really feels personal, it is not felt, if it is not the role of the green hillstone, before he turned the soil open, and did not find.

Now it is more clear, the small shovel has come out, directly and accurately dig the pit and shove it out.

The cold autumn and the snow are not watching the snow, and I didn't say anything.

They are more or less in their hearts, and they are still a little dissatisfied.

If it is just a person, you can also say that you may be unfamiliar with the environment of the funeral valley, and then confirm it. But this is the two of them who have checked it carefully, and even dig into the ground, and Shen Lang has to come over it himself. Is it too untrustful to them?

They also know that Shen Lang will not believe their words, they will not doubt that they are falsifying, but they will continue to search. This shows that they doubt their ability!

Even if they were extremely friendly to Shen Lang, they hoped that he would have nothing to gain. This made him face, but they did not lose face.

“It’s not normal to search. I almost missed it before. It’s here!”

Shen Lang pointed at the mound that had just fallen from a shovel, and then waved his hand in the sand between their two unbelieving eyes.

Soon, they saw a stream of water flowing in the water, but it was obviously not water, or even a feeling of flowing solids.

What is this thing, they are not known, and they do not feel very powerful energy.

“This is what you said... the essence of heaven and earth?”

Shen Lang remembered that they were in the huge building, opened a tornado or suffocating gas, and then they plunged into it, and then they were sent to the top of the huge building, and then went to the top of the cloud palace.

That is to say, they are both in the space of the Yungong Holy Land, and have not seen the essence of the fast and dynamic world.

“I have seen this thing in the holy place of Yungong. I don’t know the specific name. It is said that the ancestors who came out from the Yungong Holy Land in ancient times all got the essence of heaven and earth in the holy place of Yungong, and their strength rose.”

“So I will call this thing the essence of heaven and earth.”

“But there was only a little bit of it, and it was not such a big one.”

“If it was a coincidence last time, there is really something here, it should be able to prove that the dragon can be resurrected, it is related to this thing.”

“Of course, it is not appropriate to use the resurrection. At that time, there must have been no complete death, and then it was saved by this thing. For a long time, it has developed like a city.”

“Maybe give them a little more time, the skin and scales should grow again, the strength can be restored, and even become stronger.”

The cold autumn and the snow are not surprised.

Before Shen Lang said, they thought it would be a terrific heaven and earth essence of treasures. After all, that is to restore such a huge dragon to this extent.

Now looking at the things like a solid like liquid, there is such a miraculous effect!

Shen Lang controlled the essence of these heavens in the air and let them carefully observe them.

“This burial dragon valley is not a general place, a place of great murder, there are big murders and interests. Perhaps these two are examples, and there may be third and fourth.”

“But I feel that I have to meet so many conditions at the same time, and my chances are very small. The ancient dragons will not be huge in number. In the end, the burial of the Dragon Valley should be limited, not too many.”

“And at least tens of thousands of years, it’s just like this. I really want to restore scales. It may take thousands of years and tens of thousands of years. Maybe it will not live for so long.”

“So, this is also a matter of future generations. But if another one has already discovered it, it has already escaped. We should take care of it and kill it. Otherwise it may be a disaster!”

When they observed, Shen Lang said his position.

He wants to spend a lot of time in the burial of the Dragon Valley, and he is unwilling to do it without any goal. But he is willing to deal with the problems that have already been seen.

The cold autumn and snow are not snow, but also nodded to agree with Shen Lang.

They have another concern. They don't even dare to stay for too long. They can't stay here for too long, and they want to leave as much as possible.

“we.....”

When they were about to talk, suddenly everyone's face changed!

At this moment, they all felt the smell of the dragon!
