

First Strong 2091

Chapter 2091 - Strong enemy

Shen Lang is idle and idle, the reason is five days, because after five days, easy to wait for others, have completed the promotion of a realm!

Gao Hanqiu personally, with no cost, the efficiency is naturally very high.

So easy and unreasonable has been promoted to the realm of the Great Immortal, for him personally, of course, is a big gain.

According to the normal cultivation method, he may not have the opportunity to enter the realm of Daxian within 20 years.

However, the cultivation of successors has made him far-sighted, considering the problem will be considered from a general direction.

The arrangement of this ancestor did not elaborate on the original, but anyone could think of it. He has more responsibility than others!

Now, in addition to the three of their ancestors, the one who has been promoted by him, even if Tangcheng has been able to survive, it is troublesome to have foreign enemies.

Or the sects of Tangcheng, if there is a sacred ancestor of Daxian, or even the peak of Daxian, and revenge, he can't cope.

Therefore, when he was promoted to the realm of Daxian, he did not dare to be excited. Instead, he decided to take more time to cultivate and improve as much as possible to relieve a little pressure.

The other young disciples, with the help of Mo Feiliu and Xu Yuyue, have all raised a realm after they have saved a lot of resources.

The younger and lower the strength, the faster the upgrade.

Said to be “young disciples”, in fact, relative to Yang Baotian their third generation. It is the disciple of the fourth generation and the younger fifth generation.

Like the easy to be unfamiliar, and the red wind management that Shen Lang first encountered, according to the standard of ordinary people, they are also old and old.

Therefore, these surviving people of Qiu Lin Jianzong are now young disciples separated by several generations in the eyes of Mo Feiliu and Gao Hanqiu. From the surface image, they are also middle-aged and old-aged.

In addition to the easy to be unscrupulous, like the red wind that has been taking care of the tough front, it has also risen to the peak of the semi-Xianxian, and several others have been promoted to half a fairy. The others are under the half-sacred.

In general, although everyone has upgraded a realm, the average level has increased greatly, but the overall situation is still very weak, and the strength of the original Qiu Lin Jianzong is still very different.

But there is no way, and they can't continue to pull them up. Even if they have this ability in the cold autumn, they will now pay for their resources, and their own bodies will not be able to bear it!

In addition to the body, the state of mind is more likely to collapse, it is the deep wave, with the mood of the great gods of the past, and can not be continuously improved.

Now just give them more self-protection ability, how to cultivate in the future, or they must work hard.

The initial cornerstone has been completed, and the rest is reconstruction after the disaster.

In fact, they have already eliminated all the factions, and they can occupy a martial art.

But other sects are after all other sects. Jinwo Yinwo is not as good as his own kennel. This is with emotions, especially since it has just been destroyed, so it is still necessary to rebuild on the original site.

In fact, there are jobs for these comprehensions to deal with great efforts, and the speed of the craftsmen will be very fast.

These secular things are handled by Yi and others.

Gao Hanqiu invited Shen Lang and Bai Yu, including Mo Feiliu Xu Yuyue, or went to the back mountain abyss to rest.

It is safer and a good place to practice, but now they are only because they are quieter.

After all, the mountains are rebuilding, there will be all kinds of noise.

If it was all right, Shen Lang was going to leave the earth.

However, in the current situation, on the one hand, he needs time, integrates his mental strength, and brings his strength to a higher level. On the other hand, the dog **** has also been in the stage of healing and poisoning, and it is inconvenient to disturb him.

Another one, he and Gao Hanqiu Mou reverse the friendship. When he was weak before, people in the name of Qiu Lin Jianzong, let go out to cover him, and now Qiulin Jianzong became like this, of course, it is not good to leave.

Everything is being carried out in an orderly manner. Gao Hanqiu, Mo Feiliu and Xu Yuyue are paying a lot for the process of upgrading for everyone. It also takes time to recover.

This time, Shen Lang did not enter the space of Tianshu, but like Bai Xi, while maintaining cultivation, he could also pay attention to the situation on the mountain.

Because the Qiulin swords are rebuilding now, materials, artisans, etc. are needed, and it is not convenient to keep the mountain guards open.

Originally for him, it is to take care of it, not necessarily there will be any enemies coming. After all, there was basically no situation in the previous week.

But what I didn't expect was that on the seventh day, there was a situation!

The situation that can cause attention to the waves is of course a non-general power. If it is a general enemy now, it is easy to bring people to cope with it.

At this moment, there are several strong people who come here at high speed. From the speed of their coming, they can feel that they are at least the level of the great realm!

This is not to say that they can't deal with it, it is Mo Feiliu and Xu Haoyue can't deal with it!

More serious, this is not one, there are three at high speed!

Shen Lang's words are too late to say a word, and immediately fly out from the abyss!

Bai Hao discovered this situation and followed it to fly out.

Then there is the cold autumn.

After the cold autumn, the first arrival, he was slower because of the consumption before the retreat, but the speed is faster than the white, followed by Shen Lang.

Xu Haoyue and Mo Feiliu also felt that something was wrong, but they were slower when they discovered it, and the reaction and speed were slower, becoming the last two.

When Shen Lang and Gao Hanqiu appeared at the same time in Qiulin, the three figures have already arrived from the sky with the afterimage!

"Everyone is back!"

When Gao Hanqiu said this sentence, the field had completely controlled the surrounding area, and then with him a word, everyone was pulled together and quickly and uniformly sent to the next valley!

Just in that sentence, everyone didn't have time to react. I only felt that the sound came from the ear, and it seemed to go directly to the brain. Then I saw that I was out of control and flew as fast as everyone else.

So many different people in different places, doing different jobs, all pulled everything, and was sent to the valley!

Not to mention the craftsmen, it is easy to wait for others, but also amazed. For the strength of the ancestors, worship.

The cold autumn is still benevolent, and the people who feel the coming are powerful. In order to avoid more innocent people being dragged together, they will be sent directly and quickly.

When he was busy with all this, Shen Lang had already blocked the air!

This can also be considered to help the cold autumn, so that he has the opportunity to send people away, to avoid direct killing.

The three people who came here also stopped at the top.

The first person directly makes Shen Lang stunned!

Chapter 2092 - Goodbye old ghost

Count Dracula!

The person who came to the front was actually the Count of Dracula!

Although he had a long history with Count Dracula, but followed by Xu Yuyue to Qiu Lin Jianzong, he stayed.

After all, it is also a strong person, and Qiu Lin Jianzong also welcomes him to stay as a guest.

When he was not in the past, he and Xu Haoyue followed Mo Fei.

Later, when Shen Lang came to Qiu Lin Jianzong, they did not come back.

Then at the Yaochi event, and to the Yungong Holy Land, the Count of Dracula did not.

This point is understandable. After all, he is a vampire, and he is also a heterogeneous creature. It has nothing to do with this Tangcheng area, but in the face of those ancestors, he may be identified.

It is not easy to explain at the time.

So Shen Lang did not ask, instinctive thought he was staying in the Qiulin sword. Because basically there are other people, Gao Hanqiu did not talk about it.

This time, all the Qiu Lin Jianzong disciples were killed. The pictures he saw with the bluestones did not see Count Dracula, but he thought he died here.

Because the strength of Count Dracula is not as good as Xu Yueyue, probably the level between Daxian and Daxian Peak, it is impossible to confront the attack of the great god.

Of course, there is also a possibility that the Count of Dracula will not be with other disciples. When he finds a strong enemy and knows that he is not, he will not show up and run away.

He is not the person of Qiu Lin Jianzong, but the relationship of being a guest. Of course, he will not come out to sell his life. Besides, this is not to win, it is to close the disciple of the Hushan Dafa, but also choose to escape.

There was such a big thing here, their moods were not good, and Shen Lang did not ask the Count of Dracula.

So, just in the moment, I felt that there was a strong person to commit crimes, and I did not think that it would be related to Count Dracula.

However, it has been a week since they came back. If Count Dracula did not die here, but fled, it was normal to hear the news and come back.

What makes Shen Lang stunned is not his appearance, but his strength!

The evolution of Count Dracula is also very special. When I met again, it was much stronger than when I met in the dead forest.

But in the end, he is at most a level with Xu Haoyue, Mo Fei, and even weaker.

The speed that he just came over is definitely not what Daxian Realm can achieve!

If he has already reached the realm of great deity, then he should stand up here last time. He has joined Yang Baotian and others. Even if he can't beat Lin Biao's three, he can make the other party jealous and not be killed!

But now, in addition to the Count of Dracula, there are two other thin old men.

From the point of view of speed, it is also the strongest who has reached the realm of great deity. It means that these two old people are different from each other, and they are really old and very old.

"Count of Dracula, it turned out that you are back!"

Shen Lang smiled and made a greeting, undoing the realm of God, and then asked one.

"Where are these two seniors?"

Earl Dracula did not fight with Lin Biao before, and escaped alone. Although he was not loyal, he can still come back now. He is still a friend, and Shen Lang does not blame him.

Although I don't understand the identity of the other two, I can come back with him and I should be considered a friend.

So he took the initiative to cancel the field, this is the way to hospitality.

But at this time, the cold autumn that just sent people away, is eager to wait, staring at them not talking.

Just as they paused in the air, perhaps there was a reason to observe the situation, and naturally it also sensed the relationship between the Shenlang field.

Now that the field has been withdrawn, Count Dracula fell directly and fell to the side of Shen Lang.

“Shen Lang...”

Count Dracula is a bit embarrassed: “These two are enemies...”

Shen Lang slightly glimpsed.

The Count of Dracula came down, and the two still stopped in the air. Originally, he thought that the other party was holding it, and he needed the invitation of Gao Hanqiu to come down.

I did not expect it to be an enemy!

And he also felt the expression of the cold autumn, it seems that the cold autumn is recognized?

“what’s the situation?”

Shen Lang asked, and when Count Dracula sorted out the words, this time was not only white, but Xu Yuyue and Mo Feiliu also came up.

“The count is successful? Good!”

The attention of Gao Hanqiu is two people in the air, and the mouth is also a guest.

Xu Haoyue and Mo Feiliu also came over immediately.

Mo Feiliu as the lord, concerned with the enemy, Xu Haoyue and Count Dracula came together, naturally closer to a few points.

“You old ghost, it really succeeded! I am very happy! This is far from me.”

Count Dracula, while nodding his head with them, also sorted out the wording and briefly told Shen Lang about it.

“The last time I went to the mountains with the swordsman, I found a place suitable for my cultivation. I stayed there. For this period of time, I got a lot of evolution.”

“I came back a few days ago and I was going to see it everywhere. As a result, I heard the news of Qiu Lin Jianzong’s accident in the past few days, and immediately rushed back. The first time I met these two, they had a misconduct against Jianzong!”

Count Dracula said a few words quickly, basically it is to explain the cause and effect.

This makes Shen Lang once again surprised, even with his guess is not the same!

It turns out that Count Dracula did not stay in the Qiu Lin Jianzong, but stayed in the Zhoushan retreat!

It is said that he encountered an environment suitable for his cultivation, or he may have sucked the blood of a beast god. He stayed there waiting for the body to evolve.

This explains why he now has the equivalent of a great god. And from the cold autumn their reaction, this is not a fake, they all know.

The strength has gone up, and Count Dracula would like to go to other places to go alone, it is normal.

However, after hearing the news of Qiu Lin Jianzong, he was the first time to come back.

This is also a loyalty.

His doubts were solved. Instead of fleeing, he came back to help the boxing, and what about the two?

These two are also the strength of the great realm!

Listening to the meaning of Count Dracula is on his way back, and found that these two men are also coming to Qiulin, and they are revenge.

Then they just came back and forth, it is not a partner of the same company. Looking at his embarrassing appearance, it should be chased by these two enemies!

In a moment, I clearly understood the situation, and Shen Lang was a big man, and looked at the two empty hands.

It would have been a bit of a hassle if there were three strong enemies in the realm of the gods. Of course, he and Gao Hanqiu, together with the day, will not be afraid.

It's not the same now, plus an evolutionary Count Dracula, and the other side has only two.

Chapter 2093 - Not seen in 200 years

(Sorry, the leak is even more...)

Shen Lang is also a simple to deal with, and did not ask the other circumstances of Count Dracula.

At this time, two people in the air have already clashed with the cold autumn.

“Cold and cold autumn, it turns out that you are still alive and still alive, today I will let you Qiu Lin Jianzong pay the price!”

The other party can recognize the cold autumn, how much should be dealt with, Shen Langjing watching it change.

After the cold autumn came out, it was to save people, and then they paid attention to the two of them. They did not look at the past with the Count of Dracula.

Of course, this is also to see the identity of the other party.

“Fan Tianxing, Nangong Shi. It turns out that you two are still alive. We haven't seen it for two hundred years.”

At this time, the cold autumn certainly did not have time to tell their specific identity with Shen Lang, but from the name that was called, Shen Lang had already started Lenovo and had a general guess.

When he first came to Tangcheng, the first thing to find him was a son named Fan Wei. Later, I also had a deal with Fan, and Shen Lang taught them directly.

Later, I learned that the Fan family is a local family in Tangcheng, but there is still a gap compared with Qiu Lin Jianzong.

There is also a Nangong family here, which is a relatively moderate, even if there are several battles, there is not much special impression left.

However, this is also compatible. This Fan Tianxing should be an ancestor of the Fan family, and Nangong is the ancestor of the Nangong family.

Just like Mu Xiyang is a herd.

The “two hundred years” of Gao Hanqiu did not see, but revealed more information.

This Fan Tianxing and Nangong Shi, already do not know the ancestors of several generations, may not appear for a long time, even Fan family, Nangong family people, they think they are gone!

This is not impossible. When they cultivated to the peak of Daxian, or even the realm of Daxian, they have already opened a lot of the same door. For example, Mu Xiyang is also the level of Daxian, and Longyu is the peak of Daxian.

Therefore, they will not stay in the family and will not stay in Tangcheng. The resources here have not been able to support their development. If they continue to keep, they will only occupy too many resources of the family.

After a certain realm and age, they left Tangcheng, traveled the world, looking for various resources and looking for various adventures.

As for the development of their family in Tangcheng, the first-class second-rate, lose a little to win, to their realm, will not look in the eyes.

For example, Fan Wei and Shen Lang have frictions. Looking for family members to help, it is impossible for contemporary homeowners to participate. It will be a problem for young people.

The battles of the major forces for the construction of the site, in the eyes of Fan Tianxing and Nangong Shi, are also small things. This is something that often happens. They simply don't come back, so they don't care from the beginning.

Perhaps in order to facilitate free and easy, I will go straight to the name of the deceased.

However, if it is related to the survival of the family, then not only the family will manage, but their ancestors will not care!

Children fight, parents do not mix, but if the child is killed, the parents will certainly manage.

The struggle between the families, the ancestors will not pay attention, but if the family is destroyed, the ancestors will certainly manage.

The two of them now, in some way, know that the family was destroyed, and then they came back from afar.

The result was that he first came across with the Count Dracula who had come over, and then the two went after him to come here.

Clearly understand these, Shen Lang can not say anything.

All the factions had to take the opportunity to destroy the Qiulin swords, and Qiu Lin Jianzong had strength, which in turn destroyed the factions. Fan Tianxing and Nangong are two. If they have the strength, they will also destroy the Qiulin sword.

Therefore, only the difference in position is difficult to say right or wrong.

However, as his personal, of course, it is to help the cold autumn, and now look at the attitude of both of them.

“Cold and cold autumn! Two hundred years have not seen, you are not dead, but it is a big bully, and the next generation will be shackled, and the old and the weak will not stay!”

“You are the right way to live! Today, I am not only going to do the heavens, but also telling the truth to everyone, let everyone know your ugly face!”

Fan Tianxing and Nangong are two people. Obviously this anger has been lingering for a long time. Therefore, even when I was so old, when I saw the cold autumn, I was too angry.

For the two of them, Gao Hanqiu is very calm.

“If you are defeated, there is nothing to say. If it is not for us to come back in time, my Qiulin sword will be removed from the ground by your various factions. Don’t think so noble.”

“A good king is defeated! You have a fight, I know that you have no reason to say it!”

“In those days, we should have destroyed your Qiulin swords! Our family is kind, but it is a tiger-raising problem, so that this white-eyed wolf has become a big problem in Tangcheng!”

The style of the older generation still likes to say that year.

From the style of their speech, Shen Lang also saw a lot of clues.

These two people should also live in seclusion and practice, and generally less communicate with the outside world. Otherwise, they will reach the realm of the great gods, and they are fully qualified to deal with the ancestors of the great world.

If you have to move around, you should have known that the cold autumn is still alive and how strong it is.

It can be seen from the past that the past two years ago, Shen Lang should not break through to the realm of the great gods, plus various battles, it is estimated to be wounded.

“We are not coming out of thin air. It is after a long battle. It is because we have paid blood and sacrifices, so that you have some taboos before you finally have a foothold. It is not your heart.”

The face of Gao Hanqiu began to sink.

Because they talked about the past, and let him evoke the days of fighting alongside Lin Biaozi and others, entrepreneurship is difficult, and it is even harder to keep business. The hardest part of the time, the impression is more profound, and the look back feels better.

but now.....

“In turn, it’s not that I am thinking of it, I can already destroy your family, and wait until you come up to the wild?”

What he said is well-founded. When he was in the realm of great deity, he could definitely confirm that Tangcheng had no rivals. Fan Tianxing Nangong Shi did not appear. If at that time, Tangcheng was annexed, a little Not unusual.

At that time, Fan Tianxing Nangong was able to get back after the news, and it would not be an opponent. It would only be destroyed together.

“Ha ha!”

Fan Tianxing immediately sneered: “Your rely on these outsiders? With the invitation of some outsiders, killing and looting in Tangcheng, what other dog faces do you have?”

“The grievances of our Tang City don’t welcome you outsiders to participate in the fight. If you don’t know what to say, don’t blame us for being rude! If you think about it, we have nothing to lose!”

Nangong Shi was directly swept to Shen Lang, Bai Yu and Count Dracula.

Mo Feiliu and Xu Haoyue, they are not too eye-catching, just need to take words to live in the waves, let them not shot.

Chapter 2094 - Single pick

The way they are two is quite right. The current cold autumn is a realm of great deities. Naturally, there is a dignity to face.

If it is alone in a place like a forbidden place, then there is no need to say that as long as it kills the mouth, it will not be carried out anyway.

But now, in addition to his disciples, there are a few outsiders, and the two of them can still escape at any time. The chance of being scuttled is small, and it is a stigma that has been squandered for a long time.

They first said the words, that is, to force the cold autumn to single out with them!

Both of them have a realm of great deities. If they are singled out, they still have confidence. Now they are afraid of each other.

And their goal is Qiu Lin Jianzong, as long as they kill a few of them in the cold autumn, do not need to provoke these outsiders.

Now it is the grievances of Tangcheng that should not be called foreign aid.

Upon hearing this, Count Dracula immediately looked around.

He is a guest here, in loyalty, knowing that Qiu Lin Jianzong has an accident, naturally he has to come back to help. But now they are all good in the cold autumn. When it comes to outsiders, he is a bit tangled.

At this time, Shen Lang immediately smiled and spoke.

“The two probably didn’t figure out the situation.”

This obvious strategy can be seen by anyone, but Shen Lang is afraid that Gao Qiu Qiu will be able to agree when he is excited, so he will speak first.

“Well?” They kept a little bit of measure before they figured out the status of Shen Lang, and there was no direct offense.

“This time, the sword of the autumn forest was robbed, and most of the deaths were almost the same as destroying the door. As the same city of Tangcheng, your family and other forces did not stand up to confront... even if they blamed the outsiders.”

“This is the enemy of Qiu Lin Jianzong. No one can interfere with their internal affairs! Offend people, can you expect outsiders to help?”

Nangong immediately returned to the same argument.

“It’s true to say this, but if you come to the fire and rob, and prepare to remove the remaining disciples of Qiulin’s swords, it’s not right.”

“And, we were all here at the time. They didn’t say that we were outsiders, and we didn’t let these outsiders leave. If we are weak, then all of them will be scribbled and rooted.”

“Yes! From your point of view, there are no outsiders who are outsiders; from our perspective, we are all family, not outsiders!”

Xu Haoyue spoke up.

Originally, he was the younger brother of Gao Hanqiu. There was a cold autumn here, and there were still waves. He felt that there was no part of him to speak.

But just this wave, he felt it necessary to stand up and stand up. Shen Lang has already spoken. If he does not speak, is he still waiting for Count Dracula to speak with Bai Yu?

Shen Lang then smiled and said: “So, after all, it’s two of you who are afraid of us, right?”

The words of the first two people are all reasonable. It is so convincing that Fan Tianxing and Nangong are still thinking about wording.

But now that this sentence is spoken, it makes them very embarrassed.

They really are jealous of other people coming together. It’s hard to listen to it.

“These are not outsiders. They are not disciples of Qiu Lin Jianzong, but they are my brothers and friends of Gao Hanqiu!”

Gao Hanqiu spoke up. After Shen Lang and Xu Yuyue’s speech, he was also able to be more calm and have better wording.

“You want to destroy the Qiulin sword, my friends will not stand by and will go out to help the box. I am not embarrassed, I am very moved and very proud!”

This made Earl Dracula listen to my heart very warm.

“But Fan Tianxing and Nangong are suitable for you two old ghosts. I am here! You were not my opponent two hundred years ago, and still not my opponent!”

The sentence of Gao Hanqiu came out, and the faces of Fan Tianxing and Nangong Shi were even more ugly.

“It seems that you are not afraid of jokes in the world, and you must be bullied!”

“Oh, your various factions have come to join me in Qiu Lin Jianzong. It’s not too much to bully. My disciples have killed many of you, is it more bullying?”

In the cold autumn, I laughed and said with pride.

“Come on! Let’s fight alone! Since you have repeatedly said that you should bully more, you shouldn’t think about two hitting me? I will give you a chance to fight with me alone! Dare?”

At this point, Shen Lang did not intervene.

This attitude of Gao Hanqiu is an indication that it does not rule out other people’s help, but also has the strength and singled out.

As long as it is heads-up, Shen Lang also fully believes that they are not the opponents of Gao Hanqiu. If Fan Tianxing and Nangong Shi want to join the two together, then he and Bai Yu, Count Dracula can also be justified together.

Faced with ugly Fan Tianxing and Nangong Shi, they had to face this problem quickly.

In their experience, they will not guess the meaning behind this. But as far as the current situation is concerned, this is already the best scene that can be won.

I thought it was their one-sided force that pressed Qiu Lin Jianzong, and now it is the other side to force them.

The reason is already clear, the other party does not mind to go together, and there is still a chance to fight against the cold autumn, it is already the only chance of revenge.

just.....

Gao Hanqiu dare to speak like this. Is there a sure grasp?

Or they will be ready, first hit, once they want to lose together?

Nangong Shi and Fan Tianxing both quickly exchanged their eyes.

And soon the consciousness exchanged.

They all have a consensus, if you miss this opportunity, then there is no chance to take revenge!

Personal grievances can also be said to be open-minded, this is a family that has passed down the millennium! Whether it is prosperity or the fall, there are historical reasons and more are the factors of talent.

But now it has been directly destroyed by others, that is the great enemy!

Even with their age, they have no idea of the descendants of the present, and there is no direct emotional connection.

But this **** connection, this family's historical sense of responsibility, they have to do.

No revenge, no see the ancestral ancestors!

And to fight, there is only one solution, that is, to seize the opportunity of the cold and single autumn, kill the cold autumn!

If in the process the other person will help, will rescue, then you need another person to take the shot. Do not seek to be able to kill other people, at least to drag others to complete this cold autumn kill!

As long as the cold autumn is killed, the rest of the rest is not enough. These few outsiders are looking at the face of the cold autumn, and it is impossible to stay here forever. Later, the Qiulin swords will be removed from the roots. It is only a matter of time.

After they reached a consensus, they were immediately taken over by Fan Tianxing.

“Gao old ghost! We will come to war, look at the past two hundred years, you have to grow up besides being bullied, and what is growing!”

The two of them were in the air and did not come close.

When talking now, Fan Tianxing began to slowly descend to the top of the mountain. Nangong was also close to a little, but there was no direct landing.

Chapter 2095 - Enlargement stroke

They are also tactical. Nangong is to play the role of a plundering, and it is necessary to maintain a distance to look at the overall situation.

When necessary, he also has to shoulder the decisive evacuation.

After Fan Tianxing was down, Gao Hanqiu also went a few steps forward and was alone with him.

Xu Yuyue and Mo Feiliu two, the weakest two on the scene, they did not have a hard support, consciously retreated a bit, so as not to be caught as a hostage.

Shen Lang and Count Dracula did not move, and Bai Hao stood still behind him.

“Come on, see what I have grown!”

When Gao Hanqiu spoke, a sword appeared in his hand.

When Fan Tianxing was slowly landing, it seemed to be alert to them, but in fact it was already laid out in advance, and the field blocked him and Gao Hanqiu around!

Fan Tianxing is also conscious, and has not expanded the scope to avoid provoke them and give others excuses.

Just with the words of Gao Hanqiu, there is nothing to say, this is the battle between the two of them.

When Gao Hanqiu finished the sword, Fan Tianxing showed a strange smile!

In an instant, just in the field around them, it instantly became dark and dark, as if it was full of strange clouds, and even lightning and thunder!

And everyone watching the mountain, even if it is not within the scope of the field, can also feel it, it is extremely strong energy fluctuations, it seems that everything inside can swallow people!

Nangong is in the air, and it is also an enemy!

When they first realized the exchange, they had already quickly discussed a rough plan. When Fan Tianxing squats down, when he is arrogant and arrogant in the cold autumn, he will directly kill the killer!

For Nangong, it is necessary to prepare for the response.

Because Fan Tianxing is a direct enlargement of the move, if successful, the other party will be seriously injured. But if it is not successful, then his own end will be very miserable!

When the local situation changed, the sword of the cold autumn slowly lifted up, and slowly smashed out to the front!

The whole speed is so slow that everyone can clearly see it.

The situation at the scene is obviously that Fan Tianxing is manipulating the field, and the cold autumn is under control. The slow speed is also reasonable.

It may be a bit strange that it seems that the speed is very slow and it is also a weak and weak look. It seems that it is just barely completing the attack.

However, in this process, the natural environment, the lightning and thunder of the field environment, but did not attack the cold autumn!

Fan Tianxing can't just make an effect. He just sent a big move to kill me and live on the premise that the other party hasn't noticed it.

But this big move has the effect of sound and light, but it does not approach the high cold autumn.

In this way, everything seems to be a sword against the cold autumn.

Ever since, the sword of the Alpine Autumn looks like the gentleness of the Taiji sword practiced by the old people in the park, but when it is swept through the air, it suddenly bursts into the raging power of destroying the earth!

The piece of black that was supposed to be around them, including all the lightning and thunder, all rolled up. Just like a black cloud encountering a storm, it instantly scraped past.

Presented in front of everyone, it is like a gentle autumn and a sword smashing out, directly pulling the black curtain away, clear and clear.

In the next moment, all the pressures of the Uzbekistan fell on Fan Tianxing himself, and what contributed to it was a powerful sword!

When the other party comes up, it will enlarge the move. Can you know if you are cold and cold? Can you care?

This seemingly unremarkable sword, in fact, contains the essence of life, not only the stone and the shock, but also all the attacks of the other side, all wrapped up and retaliated.

When the sword appeared, Fan Tianxing felt that it was definitely wrong, but he found that it was clearly his control of the overall field, but at this moment he could not do whatever he wanted, as if he had been controlled by others.

More importantly, the field is integrated with him. Now the field is held by others, and he can't do it if he wants to evacuate!

What he can do is to rush to the full defense and let himself not suffer from the counterattack.

But the result is still beyond his imagination!

From his point of view, the slow sword is more dazzling than looking directly at the sun, and the eye-catching moment has already had endless power to the front, tearing up all his defenses.

Then he rushed into his body, not only the sturdy swords of the cold autumn, but also the attack power of his entire field, all poured back!

In his personal time, it is a long time like eternal, every microsecond is also an infinite enlargement, hoping to find any loopholes that can resist and can be evaded and can be evacuated.

But under the strong attack of the other party, it is impossible to do it at all!

At that moment, Fan Tianxing understood it. Gao Hanqiu is not a level with him, even more than a lot, it is much stronger than him, it is probably the peak of the gods!

This is the price of missing information. If they are as early as the cold autumn, they will be integrated into a higher circle in one or two hundred years. It will be found that even those ancestors with deep roots and great factions will give three points to the cold autumn, but not for the age and generation!

Fan Tianxing's just a blow, the reason why it will be regarded as a big move, is because all the attacks have been released at the moment of the field layout, which is similar to the array, so that all attacks are everywhere.

This is to make the cold and cold defense invincible, nowhere to escape, but once there is no attack success, then a force will also go away, and the consequences of counter-attack are also very serious.

His decisive and timely self-defense can minimize the harm of anti-phagic, but the sword of the cold autumn directly broke his defense!

The result is that on the one hand, he has to bear the spare force of the sword of Shen Lang, and the power of counterattack of his own attack must also bear all the positive.

In the next moment, everyone saw another strange picture.

Fan Tianxing suddenly expanded a large circle!

Then the body began to distort into a partially expanded partial depression.

This picture is actually an instant, but it has shown many different effects.

Everyone looks at a preset, as if in the next moment, Fan Tianxing will explode and die!

Wutian Blackland is gone, there is no lightning and thunder, and there is no violent storm. All of it seems to have been pushed into Fan Tianxing's body. At this moment, he is violent in his body!

"Let's be merciful!"

Nangong in the air shouted immediately and quickly.

Just after the two of them played against each other, the whole time was very short, but every one of them was not short-lived, and they felt that they were very thrilling.

Nangong is suitable for Fan Tianxing. Naturally, it is necessary to understand more. Looking at the picture at the moment, it is more clear than others that what the next consequences will be.

Just now they have already exchanged, Nangong is right next to prevent others from helping the cold autumn, but also to meet the injured Fan Tianxing.

But the premise they expected is to kill the cold autumn!

At the very least, it must be both losers. In that case, he will leave with Fan Tianxing and, in the future, he will be able to destroy the Qiulin sword.

But the effect of the recent move is that Fan Tianxing was directly broken, and then even the defense is unable to defend!

This is almost the effect of spike! If you can't stop in time, then the next Fan Tianxing will die on the spot.

This also fully shows that the strength of the cold autumn has exceeded many of their expectations!

Nangong Shi and Fan Tianxing are not only the problem of two hundred years of friendship, but they are now on the same boat, and they are all devastated!

If there are two people, even if the other party has a few more unexpected players, they can still be hard. But if he is left alone, then there is really no right to speak.

Therefore, the discovery of Fan Tianxing's situation, Nangong appropriate decisively called out "death."

At this moment, the sword of the cold autumn has already been completed, but it still maintains the state of the sword pointing to Fan Tianxing, and can also feel it, and there is a strong sword to shoot in the past.

After Nangong was open, Shen Lang immediately took over.

"This is their life and death, if the cold autumn is under the mercy of the people, is it not to be countered by Fan Tianxing?"

Gao Hanqiu seems to be simple now, but also completely prevailed, but Shen Lang can not distract him. Strong enemies have a little distraction, and the result is likely to change.

Nangong is a little embarrassed, but he has to admit it with a hard scalp.

“Fan Tianxing is not an opponent of Gao Hanqiu. If he does not leave his mercy, he will be destroyed.”

“Do you come to friendship and study? If Fan Tianxing has the upper hand, he will not ruin the cold autumn?”

The counter-question of Shen Lang makes Nangong have nothing to say.

They had originally decided to turn over the cold autumn idea in a heads-up, but now they have failed.

“Let’s leave your hands on your hands!”

The time before their conversation was actually more than the time when two people played against each other. At this moment, Gao Hanqiu has completely determined the status of Fan Tianxing.

Fan Tianxing’s defense was broken by him, then attack and counterattack, but he may still be able to escape.

Therefore, just in the cold autumn, Jianqi continued to exert pressure, so that the other side did not have the strength to fight, and after a few seconds, the state has stabilized, and Fan Tianxing has only turned his back on innocence and powerless resistance.

Now he can calmly accept the sword, not afraid of the other party out of the moth.

“...Thank you.”

Regardless of the attitude towards the cold autumn, Nangong has to thank him for this.

Gao Hanqiu really has mercy...

But this relaxed attitude made him not optimistic.

If it is hard to give up, it can be said that it is not easy to do. Now that the other party is so relaxed, it doesn't seem to care, it shows that Fan Tianxing's current injury is even more serious than he expected!

Out of caution, Nangong Shi did not directly land in the past with Fan Tianxing, but maintained a wait-and-see attitude.

No matter how good or young, he can't put his own life into it.

If anything is wrong, Fan Tianxing can't be saved anymore, then he will of course be decisive and run away!

After the sword was caught in the cold autumn, everyone's eyes fell on Fan Tianxing's body.

There was a cold spot for a few seconds at the scene.

The result is that Xu Yuyue and Mo Feiliu also saw the situation of Fan Tianxing.

His body is still changing constantly, and occasionally there is a bulge and expansion, then dissipate and appear again.

There is no doubt that the body is still experiencing a violent impact, at any time on the edge of the explosion!

Everyone has a high degree of defense when they think about explosives.

This is a strong person in the realm of the great gods. Once there is a burst of fire, even if it is not a deliberate explosion, there will be no intensive attacks. However, if the power is radiated, it will still cause a strong impact on everyone.

Nangong has no first time to pass, and it is for this reason.

Otherwise, he was the first to be shocked.

“He just didn’t care for me, he just wanted my life. Unfortunately, Fan Tianxing did not grow any more, did not threaten me, but was forced into my own body.”

The cold and cold autumn is telling the story.

“The consequences must be clear to you. His best result is to maintain such a disordered state. It is a little irritating and may die.”

“...”

At this moment, Nangong has no chance to say a big word. Because this is mainly to force Fan Tianxing’s attack back into his body, the more dangerous it is, the more powerful his attack.

How do you blame others?

The silence is so that Nangong feels that every second is so long.

He is personally dying, and this is a bit of a face. But Fan Tianxing is always on the verge of death. Who can determine which one will poke?

So even if he took Fan Tianxing away, it was a very dangerous life.

And what reason does the other party have to let him take away the lost Fan Tianxing?

“It’s your turn.”

After the cold field, Gao Hanqiu took the initiative to open the battle.

Just what they want is the opportunity to fight alone, and now they are perfect in the cold autumn, and they are not afraid of the wheel battle!

Nangong is secretly smiling.

This is really a serious lack of prediction!

They didn't think that the cold autumn was still alive, thinking that the generation of the lords was strong, and even more than a few strong enemies.

It's only now that I don't say that the other few are just a cold autumn, and they are not able to get it.

Just Fan Tianxing has proved that this is a sneak attack, and the result is solved by the high cold autumn sword.

Nangong does not think that he is much more powerful than Fan Tianxing. If he takes the shot, even if he is more careful and pays more attention, it is estimated that he will support more than two strokes.

The overall result remains the same!

At this moment, he also profoundly understands that this time has been revenge hopeless.

Stay in the green hills at not afraid of no firewood.

The Fanjia and Nangong families, like all other factions, were all destroyed. They were the only ones left.

If it is also true here, it will be completely eliminated from history.

Have the strength to avenge, do not take revenge, then see the ancestral ancestors.

But now that the strength is not enough to avenge, the enemy's strength is more than expected, what needs to be done is to preserve the strength to see the aftereffects. If you go any further, it is to find a woman to give birth and re-cultivate the family to come out.

It is a long-term business. It takes a lot of effort to pull a martial art back.

But if you just want to spread the seeds out, you just have to open the branches and leaves, just need them to work hard.

The premise is to have a life!

"I am not your opponent."

Nangong is instantly recognizable!

Chapter 2097 - Kill me

"so what?"

Gao Hanqiu sneered: "You are not coming to the door to discuss, it is to seek revenge. Not my opponent even?"

This said that the old palace is hot and hot!

is not that right?

Originally, I was going to seek revenge. My family should not be destroyed. Even if I was desperate, I should kill each other!

But... hard work has no effect? That is white death!

He can live to a large age now, and he can have such strength. Naturally, there have been various tests of danger and life and death. For death, or fear, let alone white death.

But now that people are kicked in person, it's very shameless.

“Nan Gong Shi, you should understand very well that by now, we have no room for reconciliation.”

Gao Hanqiu sighed.

Nangong was slightly stunned and then smiled.

indeed!

If the factions do not unite to remove the roots of the Qiulin swords, the cold autumn will not destroy the factions.

Do not destroy the factions, even if they know that the cold autumn is still alive, but also the most is to learn and not live and die, you may be able to cooperate and win.

But now that there is a ***** enemy to destroy the door, it is impossible to be good.

Not to mention the discussion, even if it is a general enemy, after the high-cold autumn show reveals the strength, you can punish the big one.

But they can't!

Because they are vengeful, even if they admit that they are not as good as they are, even if they let them go, they will not be willing to give up, and they will find opportunities to seek revenge in the future.

And this goal of revenge is not just for the cold autumn.

Gao Hanqiu will not be afraid of any revenge, but the other people in Qiulin will not be able to bear it.

For the two of them, after discovering that it is impossible to kill the cold autumn, perhaps they will retreat to the next, killing the other disciples of Qiu Lin Jianzong, leaving a commander of the pole in the cold autumn, which is also equal to revenge.

Just as they can't allow the door to be destroyed, Gao Hanqiu also does not allow the Qiulin sword to be destroyed.

If you want to avoid that consequence, you can only kill them all in advance!

This is awkward...

It is useless to ask for mercy!

The moment when Nangong is so sad, is also doing the final calculation – what else?

Preemptive and sneak attack, this is no use. Fan Tianxing has already used it, and can't get rid of the cold autumn, let alone a few of them are watching.

“just kill me!”

The sword of Gao Hanqiu is still in his hands, ready to attack.

Fan Tianxing has failed once, and Nangong will definitely learn the lesson. The next attack will definitely be more turbulent.

So he is not relaxed at all, ready to fight!

However, Nangong Shi was actually at this moment, said this sentence, and when he spoke, he gave up the defense and landed directly from the air.

Which is this?

But the next moment, Gao Hanqiu also reacted, this is to retreat. Proactively give up resistance, let him hinder the right path, but not kill.

In addition, you may be ready to escape at any time, ready to fight back!

This situation is to make him hesitate a little.

As an old guy who has lived for hundreds of years, I really want to kill people who have no resistance and generosity to die. It is really a bit tangled.

The order was extinguished on the same day, because the factions were in direct contact with the mold, and when he was most angry, he came over and took care of the roots.

But at this time, the situation has changed!

Nangong, which fell from the sky, suddenly solidified.

“You said so, then we are welcome.”

Shen Lang!

With Shen Lang’s understanding of Gao Hanqiu, I don’t wait to see him hesitate, I already know that it will be such a result, so decisive shot!

Regardless of whether the other party is helpless or disguised, he directly uses the realm of the gods and instantly imprisons the landing of the Nangong.

When talking, it was the right moment to bring Nangong to him.

“Count Dracula, go kill it, don’t really get mad at it.”

When Shen Lang was trying to catch Nangong, he also told the Count of Dracula by the way.

At the moment, Nangong is shocked and stunned.

He just retreated, and of course he still has a secret alert. How can he really be willing to die?

However, his defense was Gao Hanqiu. He did not expect that when he showed weakness and asked for death, Shen Lang would intervene.

But in the moment of the imprisonment in the realm of God, he realized that the strength of the other side was so powerful that he had no chance of rebellion in this field!

Just think about it, Fan Tianxing had mastered the opportunity before, and the result was that Gao Hanqiu could break his field. At this moment, I am passive, but I can't even move it.

How can Qiu Lin Jianzong have such strength?

How can Gaochunqiu know so many strong people?

What has happened in these two hundred years!

But at this moment, he can no longer be shocked and pondered. He feels that the moment is extremely sleepy, and even thinking is difficult to think.

After grabbing him, Shen Lang directly suppressed his consciousness!

Then he began to read his memory.

Shen Lang has another thought, that is, whether to take advantage of Nangong's mental strength!

This harvest is undoubtedly very fast and huge, although it is also subject to risks, but from a few dragons, let Shen Lang quite taste the sweetness can not help.

But he is still a little scruples, the magic dragon is the magic dragon after all, can also explain the non-family.

It is not enough to use the method of engulfing the strong people of the human race. It is really necessary to do this. It is either the enemy who wants to harm him like the elk before, or there is no way.

But now this is the enemy of the cold autumn, there is no direct threat to him...

The Count of Dracula over there, after hearing the words of Shen Lang, immediately agreed.

Immediately, his body had already arrived at Fan Tianxing, and before he did not react, he had already bitten the blood vessels of Fan Tianxing!

Immediately after the deportation of Count Dracula, Fan Tianxing's body changed at a visible speed.

The changes that were originally inflated, began to stop, and then the body became apparently aging and became dry.

This scene makes everyone very shocked.

Because everyone has never seen a creature like a vampire, this is a different kind of but it can also be regarded as a heterogeneity in the human race.

Xu Haoyue knows his identity. Of course, Gao Hanqiu also knows that they can understand, but Mo Feiliu knows nothing.

But whether they understood or did not understand, they were the first to see Count Dracula sucking blood.

Actually sucking people's blood, this has touched everyone's taboos, it is the behavior of the evil demon. In the case of the other party's explosive crisis, he can go so fast, sucking blood so fast, and directly draining Fan Tianxing...

These make everyone a little scared.

Xu Haoyue also sighed clearly. The other party's means is that he can't learn. It is no wonder that as long as the opportunity is given, Count Dracula can leap forward.

Except one person.

Shen Lang is not surprised, because he has not only seen Count Dracula earlier, but later has Dorothy, that is much more.

Just as he spoke, it was for Count Count Dracula to **** Fan Tianxing and absorb the energy, and naturally it would not be possible to explode.

Chapter 2098 - Broken

Count Dracula, all the eyes of the scene have attracted the past.

That scene shocked everyone.

Also included is Nangong Shi!

Nangong Shi has just been suppressed by this, but it is very sleepy, and even thinking is weak, but there is no direct fainting, and the eyes can also see Fan Tianxing.

Seeing the scene of the bloodstain of Count Dracula, he was sobered by many people.

Then when Shen Lang read his memory, he also saw the obvious changes of Fan Tianxing like other people, which made his heart stunned.

When I saw that Fan Tianxing soon became a dry corpse in the shape of a coffin and an old cousin, Nangong was not good for the whole person.

Even if he is dead, he does not want to die like this!

The fruit is too bad after this.

At this moment, although he was suppressed, there was still a hint of thought.

“Kill me! Just don’t let me die like this, any other way is good!”

His current state, to send ideas to Shen Lang, can’t be done, but because Shen Lang invades his mind and reads his memory, his just-initiated idea is equal to Shen Lang. Can be shared.

Shen Lang slightly glimpsed.

Before Nangong's words, there may be false pretense, but now that this is directly through the understanding of consciousness, it is able to know that this is his true heart.

In other words, Nangong is now a true death, as long as he is not killed by the blood of Count Dracula, he will be eye-catching.

“Are you sure? You are not afraid that I will give you a more deadly way to die?”

Nangong felt that the suppression was lighter, and he got this response, which made him a lot easier. He was afraid that the other party would not listen to his voice at all.

“I am sure that as long as this is not the law of death, everything else is good. The art is not refined, I am willing to gamble and lose, I am dead without complaints.”

Shen Lang has just been paying attention to the behavior of Count Dracula.

He was not surprised and shocked, but he was thoughtful.

All the way to the present, can he still be a pure young man?

Of course impossible!

According to the ethics of the earth civilization, he has murdered and set fire to countless people. Whatever the reason, he did it. It is not an exaggeration to say that the devil is the nickname of the bloodthirsty madman.

So now I'm still struggling with this. To put it bluntly, it's one of my own insinuations, or I haven't had a hurdle in the past.

To say something ugly, there is still some point!

The power to devour the human race is evil. Is it normal to devour the power of aliens such as beasts and dragons?

In fact, it is the same theory that I think that eating cats and dogs is brutal and rough, eating chicken, duck, fish, pigs, cattle and sheep is a matter of course.

All life and so on.

All divisions are nothing more than a division of human beings according to their own demands.

The same is true of other races. The dragons are also in the same way. They also think that the human race is just food.

The same is true.

A sword killed Fan Tianxing, is it really better than the blood of the Count Dracula?

Killing is more uncivilized, but in essence, there is not much difference.

From another point of view, the absorption of all the energy of Fan Tianxing is to reduce waste, let Fan Tianxing's cultivation, help Count Dracula, and get another form of continuation.

So Shen Lang also quickly thought about it.

Either from the very beginning, this method has been abandoned. Now, there have been many times, and it is already wrong to entangle something. Anyway, he is also a mentality of not wasting, and is not an active act of hunting strong people everywhere.

When Nangong was in a position to express his helplessness, Shen Lang did not communicate with him any more and began to extract his energy. From spiritual strength to vitality!

When you look at the two bodies on the scene, you don't know what to say.

The Count of Dracula is simple and rude, and it is directly a very evil bloodsucker, sucking people to live in adulthood.

Shen Lang should be in a similar way. It should also be sucking out a single element, but it has not become a human being, not so terrible.

However, what else can you say?

This is not a good friend, this is the enemy coming to the door!

Do you have to pay so much for the enemy to fight for life and death? How to die is not death, **** is not to kill?

A few people at the scene, in fact, really no outsiders.

Shen Lang and Count Dracula are both hands-on, not to mention. Gao Hanqiu and Mo Feiliu are the veterans of Qiulin's swordsmen. They are all the wicked people who helped them to be in the early stage of Qiulin.

So no matter what, it should be grateful.

Needless to say, she is the servant of Shen Lang, who is completely following Shen Lang.

The rest is a Xu Haoyue. These people want to engage in the martial art of his older brother. He only hates that his strength is not strong enough to help directly!

He was very admired by Shen Lang, who is the character of Count Dracula, and he also knew it for a long time. Nothing surprised.

So, the next step is Mo Feiliu personally to deal with the body – although he is the lord of the Qiulin sword, but the generation is divided, the other is to talk with his master, he is the smallest one.

It is not only the maid of Shen Lang, but also the maid of Shen Lang, but even if he does not rush into the face of the waves, he is also a guest here, and his strength is stronger than him.

From the perspective of strength, he is also the weakest one! Of course, you need to do it.

Then the high cold autumn controlled the entire hill, and the leaves danced for a while. After the stop, all the disciples and craftsmen who had reached the valley were once again picked up and continued construction.

These deep waves look in the eyes, knowing that the cold autumn has just driven the intent of countless leaves.

Because of what happened, there will be a weak energy residue, so that the strong can also sense recovery, which is like “seeing the past.” If you have a long time, you can also sense it through the green hillstone, just like a signal amplifier.

He let countless leaves dance for a while, that is, to dilute all traces, like computer hard drives, CDs, writing new things, it is even more difficult to restore the original content.

This is also a little effort, is it really useful, you don't need to say this.

Then they went back to the abyss of the back mountain again Count Dracula immediately came back after knowing the accident of Qiulin, and it was also very grateful to Gao Hanqiu and others. .

Knowing that it is such a situation, he is not much to say.

He also said about his situation, he has been sleeping in Zhoushan, and only came out a few days ago.

As for the situation just now, everyone has seen it. It can be guessed, sucked up a big god, and should also need to sleep again to absorb this energy.

Shen Lang did not say much, but before the cold autumn is with him, knowing that he absorbed the spirit of the dragon, just absorbed the mental strength of Nangong, it is very likely that there will be a situation, but also the time to practice for him. .

Therefore, after they were placed in the abyss retreat, they were left with care, and he himself returned to the top with Xu Yunyue and Mo Fei.

This is their home martial art, they should keep their own, can not rely more on friends!

Chapter 2099 - Returning with the same batch?

Shen Lang actually has no big problems.

This situation is quite different from the situation of the dragon.

First of all, in terms of strength, Nangong is not comparable to the dragon, and secondly it is different in adaptability.

Nangong is a Terran in the end, and the practice of cultivation is different, but in the essence of vitality and spiritual strength, it is still the same, and it is easier to integrate.

Coupled with his complete suppression, the calm absorption is also much safer.

So now the high cold autumn resets them to the bottom, and Shen Lang is not in a hurry to absorb the fusion of these spiritual strengths and vitality, but to sort out the memory of Nangong!

Breaking into the realm of the Great God, it seems easy for Shen Lang, he has been pressing, it is suppressed from the Yungong Holy Land, and it will break through without control.

If you accidentally upgrade, it is very irritating to say it, too hateful.

But in fact, he is definitely a special case in the special case!

He has experience in his previous life, and he can avoid many detours. There are many shortcuts. It is sooner or later to promote the realm of the gods. Going to more places has gone through more dangers.

For others, this is still a difficult thing, and it will not be achieved if it persists.

Otherwise, those big-name factions with thousands of years of history have already disdained the giants of general resources and competition, but they often fail to reach the realm of the gods.

Judging from the standards of the Yaochi event, it is not bad for a martial art to have an ancestor to reach the realm of the great gods. It is very powerful to have two.

Gao Hanqiu also came out for a long time. Although there is no detailed explanation, it is very likely that the dialogue with Lin Biao will reveal that there is a spar under this abyss, and then according to the particularity of the spar, the flowers A lot of time, targeted absorption, only breakthrough.

Before he went to the ruins, he seized the energy core of the giant robot of the killing warrior, and also burned the infinite flame.

These days, in this Qiu Lin Jianzong, it is a bit unusual to see the realm of the gods.

Lin Biaozi may have left two hundred years ago. That time, it was because of the “cloud palace holy land”. In the end, it might be that the Longmen pit was in a dangerous place.

They may have been the peak of Daxian and Daxian at the beginning, and then they may have passed the danger of life and death in it, got what adventure resources, and finally cultivated to the peak of Daxian, and Lin Biaozi himself reached the realm of great deity.

Earl Dracula, originally not as good as Xu Yueyue, but so fast time, but also has the equivalent of the great realm of the realm.

But the vampires are still a little different, and their evolution is sometimes abrupt.

Just like in the dead forest that year, he was crouched for many years, maybe even for decades, for the beast of a golden giant. At that time, the help of Shen Lang was needed to kill the golden giant.

At that time, it should be a period of weakness in his life, and the gold giant absorbed the energy of the fire spar. He sucked the blood of the golden giant and completed the compensation of some vampire weaknesses.

When he met again, he came here with Xu Haoyue, and he was able to easily deal with such a fairy. That is to complete a mutation.

This time in the mountains, the specific encounters, but also did not elaborate, but after such a short dormancy, once again mutational evolution, completed the leap of strength, which shows that it is very suitable for him.

But there are still two, what is the level of Fanjia and Nangongjia, Shenlang is seen, and it is estimated how to be embarrassed, can be such a dragon peak, it is already a genius ancestor.

Today, when they came over, they both reached the realm of great deity, and they still had a fight with the cold autumn at least two hundred years ago.

It can be seen that in the past two hundred years, they have also encountered an adventure.

The ruins are in the millennium. They were not possible two hundred years ago. The burial dragon valley has not been visited until now.

The general forbidden land also has various resources, but it is not so easy to break through the realm of the gods.

The Cloud Palace Holy Land... It is said that there have been no real secrets for thousands of years, but in fact, the quest for falsification in the past is every decades.

When all the people who went there were not able to get back from Longmenkeng, and they were blocked and killed... In that case, it made every appearance look fake.

In other words, the Yungong Holy Land may not be a thousand years, nor may it be erratic. Maybe it will always be there, just because the black hand of the Dragon Gate has turned every previous true exploration into a fake. .

Just like this time, according to the normal process, everyone should not come back. If they can come back, they will be robbed by Cui or robbed. And Cui or will be revived by the dragon to annihilate them, which is recorded in history, is another large-scale exploration of the Yungong Holy Land, and proved to be false.

All of this sorted out, and came to a conclusion: Since it is not so easy to have this adventure, Fan Tianxing and Nangong are two, is it the same as the Lin Biao's Yungong Holy Land?

The time to leave, the time to come back, are a bit similar. Of course, whether it was more than one hundred years ago or more than two hundred years ago, it was a great time. Back in a few years, coming back for decades, it is also a very wide range.

The reason that Shen Lang will be linked together is because Fan Tianxing, Nangong Shi and Lin Biao are the same. They are not very familiar with the status of the rivers and lakes in the cold and autumn!

Not everyone who reaches the realm of the Great God will be informed and accepted by the group at the Yaochi Festival. But with this strength, it is possible to be exposed, and it may be recognized by people. After a long period of interactive communication, it is possible to really enter the circle. When Gao Hanqiu has great power, Now many ancestors of various factions may not be a hundred years old, or half-sex, Daxian. Their former predecessors will not accept the high-cold autumn of the Qiulin of the district, but when they meet, the cold autumn is already the strongest looking up. After they became the head and elders, they were naturally more acceptable.

This may be a long process of decades. Lin Biao, Fan Tianxing and Nangong are suitable for them. They may not be in contact for a short time, but they will be slowly contacted and recognized for a long time.

However, they are not clear about the status of the rivers and lakes in the cold autumn. They all came to know that the cold autumn was still alive after the Qiulin swordsmen saw people. It is obvious that they did not touch the high-level circles.

It can also be counter-introduced that their return time is not long.

Then they may be the same place to go to the Cloud Palace Holy Land.

If there are five coming back, there may be a sixth, seventh...

Whether it is the real Yungong Holy Land, or whether it is the same Yungong Holy Land that Shen Lang went to, they must understand clearly!

Chapter 2100 - 0 years of memory

This is a kind of obsession of Shen Lang, and it is a bit horrible.

If it is confirmed that a group of people are coming back, it means that the place they went to can not be said to be safe, at least it is also worth taking risks. This is a route.

It is really related to the Yungong Holy Land. If such a group of people come back, it may bring great danger!

This danger is uncertain.

Because in the last time in the Yungong Holy Land, in addition to these past people, there are people who have encountered the gods of the gods, and what Weiner stars, and barbarians.

This shows that at least three worlds are connected, and the level of strength of those worlds is unknown.

If you think of it before, the Yungong Holy Land has only one chance to appear in the past few thousand years. There will be randomness in the entrance and exit, so it is not a big problem.

There are other world connections, and it is difficult to come to this world through the Yungong Holy Land.

But if it is not the case, but the normalization, or like the history of the Yungong Holy Land, how many times, once in a few hundred years, even decades?

Then the mortality rate is high and the possibility of being invaded will increase greatly!

Shen Lang feels that there is no sense of belonging to this world. His hometown is still China.

But to really say it, it will use “hometown”, which is itself a recognition of the new environment!

Regardless of whether he admits not to admit it, when he reaches the realm of the Great God, even if he can return to the Earth, he will not be as dull as he used to be.

This is not only the space rules are not allowed, he himself will not get used to the rhythm.

Just like people who work in big cities, they often miss their hometowns, and they feel that their hometowns and villages are wonderful.

It's also very gratifying to go home for the holiday of the Chinese New Year and return home to visit relatives and friends. But after living for a while, I started to get used to it.

Even if the home is not lacking in all kinds of material things, there is no shortage of online express delivery and take-out, but all aspects will still feel out of place.

The longer you leave, or the bigger the gap, the more you will feel out of place.

Want to understand this, Shen Lang also understands the generation of people in the cold autumn, why would rather be here to fight for the wasteland, and do not want to go back to their hometown.

Not reluctant, it is already gone!

His own situation is also very obvious, the earth will certainly be able to return, but will eventually slowly divest.

This is natural.

When the world of giant beasts invades the earth, or the gods of light conspire to rule the earth, Shenlang will have a sense of responsibility to defend the homeland. In essence, it is the same mentality that Fan Tianxing and Nangong can hear the family being destroyed.

If there is no accident in the Fanjia and Nangong families, will the two return to Tangcheng?

Impossible, even if they come back to serve them as ancestors, even if they come back and have the strength to unify Tangcheng, they have no such interest at all.

Therefore, from Yungong Holy Land to Cui or, from Longmen to the burial Longgu Dragon, Shen Lang does not recognize it, but in fact, he still recognizes the world, and invisibly regards himself as a member, and does not allow it to be destroyed. .

It is also until today that Shen Lang discovered that he would spend his time analyzing the relationship between Lin Biaozi, Count Dracula, and Nangong, who became the realm of the great gods. Only after they had any commonality and danger, did they realize this.

It just made him sigh a little and didn't feel too embarrassed.

After all, in this world, his high school age awakened, and then he embarked on the road of practice, began to say goodbye to his former classmates, and did not have college classmates, work colleagues and so on.

In the last life, he has seen thousands of miles.

Up to now, it has crossed many worlds, tried to make life and death adventures again and again, and even has time and space paradoxes.

What else can you not wear?

Lin Biaozi, they have left, and with the attitude of Gao Hanqiu, it is impossible to arrest him. So now, for the memory of Nangong, Shen Lang is very concerned.

In order to have ample time, after they left, Shen Lang simply confessed to the day, and regardless of the Count of Dracula, directly entered the space of heaven.

Now his strength is strong enough, he doesn't need to explain anything to others, and he can keep his own secrets.

In the space of Tianshu, he began to integrate and comb the memory of Nangong.

Nangong is at least close to the old guy of three hundred years old. He has a lot of memories, but his memory in the Nangong family has not helped the Shenlang.

However, because it may have been two hundred years away, this memory can't just analyze the recent memory, or it must go forward.

In general, it is also a little troublesome, but in the space of Tianshu, Shen Lang is not afraid of wasting time.

After some screening, he combed out a rough clue.

Similar to the analysis, they reached their peaks in the past, and it is impossible for them to make more progress in the family. They will also eat more resources, and the Tangcheng pattern has stabilized, so they have left.

When you are outside, you will get the information about the Yungong Holy Land Quest!

For the Tangcheng family, Kunlun, Yaochi and so on, are legendary big names, and they are not accessible. The legend of the Yungong Holy Land has also been heard, and naturally it cannot resist its attraction.

But they also have self-knowledge, knowing that they may not be able to come back alive.

At this time, regional connections have emerged! They contacted each other in the Tang City, and all of them formed an alliance. In the face of the dangers of outsiders and unknowns, there was more protection for mutual assistance.

At that time, the discussion was good. No matter what the gains were made, no matter how they were distributed, they would wait until they came back and decided. In this process, everyone must help each other.

The result was not only Nangong Shi, Fan Tianxing, but also the elders and ancestors of the other schools. They all went together, but they later died in different stages. The most critical memory is The Yungong Holy Land they visited was the same one they had been with Shen Lang.

From the memory of Nangong, it is very likely that it is the same!

When they entered, the memory of Nangong was a bit fuzzy, but it was not because of the long time, but when he was led by the road, he knew nothing and did not fully understand the route.

And the place they arrived was the same as the one they arrived at.

It's just that Nangong has no overview of the huge buildings, and the places that are trapped are not necessarily the one-story space of the huge buildings, but the environment is similar.

In their environment, they are constantly fighting the monsters that come out!

In the process, many people are dead. It may not be like Shen Lang. They completely destroy the monsters, or have time limits. They have never been full of monsters and presented exports.

This led to Nangong being trapped in a big cage that could not be separated, for a hundred or two years!
