

## First Strong 2101

### Chapter 2101 - Secret

If the light is telling, whether it is a deep wave or a cold autumn, it is impossible to get a real answer from Nangong Shi.

Because their strength at that time was much weaker than that of Gao Hanqiu and Shenlang. When they entered, they suffered a huge impact and suffered minor injuries.

So there is no way to deal with a large number of monster attacks, but those monsters are also time-sensitive. When they hold for a certain period of time, they will automatically disappear.

At the beginning, the situation was very embarrassing, some died, and some were even heavier. Everyone thought that they had escaped and then began to search for a way out.

It turned out that it was trapped in a huge space and could not escape.

In the end, you can only stay in place. Everyone tries to recover from the injury. When they want a better state, they can have the ability to break open the wall and leave.

However, everyone's injuries are not light, and there are not enough drugs, resources, etc., can only rely on the practice of healing, the speed is not fast.

So, I recovered a little, and ushered in the second wave of monsters!

With the first experience, everyone is fully committed to defense and try to delay time.

The tactics also worked, and after the delay was reached, the monsters disappeared and disappeared.

But because I didn't destroy the monster, I naturally didn't touch the exit.

They then fell into such a situation. When there was no monster attack, they tried to cultivate as much as possible and healed as much as possible. When a monster attacks, it is desperately defending and fighting for the past.

The change occurred when someone died.

When I first came in, I was the most seriously injured. When I met the first monsters, I was dead.

At that time, there was not much touch for everyone. In this dangerous environment, anything could happen. If these monsters disappeared, it would be dead for a long time.

However, after having experienced experience again and again, when the injured person was attacked and killed by a monster, everyone's mind changed.

When I first came, I thought about being able to live first and then find a way out.

But now, it's been a while, and I'm sure there is no way out. With their strength, I can't make a way out.

And those monsters, which are regularly quantified, will be attacked.

That means that you must be prepared for a long battle.

When everyone came, there was basically no resource such as Dan Medicine Lingshi. After all, it was to find resources. If they didn't go back to death, they would lose the resources of the family.

On the other hand, there is no food!

Because, as expected, the expedition of the Yungong Holy Land will be up to ten days and a half, or die or live. At this time, they do not need to eat at all.

But now you are stuck here for a long time, food and resources are all issues to consider.

If you have food and resources, you can at least stay for a while. In this case, you will have more hope.

Therefore, when there is another death, some people start to think.

Divide and eat!

This proposal is said to naturally let everyone deny it as a demon outsider, a practice that annihilates humanity.

But the people who came up have continued to throw a few questions.

He did not die immediately. He did not have the resources to rescue the treatment. No one used his own strength to save him.

This death can not be saved, not because of cold blood, because because of realistic considerations, it will drag themselves down.

He is dead, unable to resurrect, and he is no longer a “person”, just a body.

As time goes by, like the people who died before, it will become spoiled, become worthless, and affect the environment.

If it is eaten in time, then he is a kind of resource recycling, and the residual value can help others to support for a period of time, which is also a continuation.

If everyone can't hold it and die one by one, then no matter who died before death, whether it is a corpse or a skeleton, it may be eaten by monsters...

After these were said, everyone was silenced.

I have already seen death, and I don't want to talk about anything noble; the environment is not good, and we are not allowed to behave in a right way. That is the act of self-denial.

So seeing death and not saving will not be a problem.

Further, the body turned into carrion, and finally was eaten by the monsters. There is no value at all. It is better to help everyone!

Under the circumstance of not seeing hope, under the one that may be the next wave of death, the principle of everyone is shaken.

The monk who made the wicked person took the initiative to say that if he was seriously injured by a monster, let everyone be polite. He would like to donate his body and contribute some energy to everyone!

Ever since, under the touch of special circumstances, contribution concepts, etc., everyone has defaulted and participated...

This is the hardest thing for the first time.

But as long as it starts, the second time is a matter of course.

Then, everyone began to change, from the beginning of mutual assistance, became full of people to beware! It is also the time to practice healing, but also to maintain the alert.

Anti-human companions, already more than anti-monsters!

Who knows if someone will be fighting and hurting you, waiting for you to end your life?

Who knows if you will end up when you are healing without healing?

People who participated in it enjoyed food and a little energy supply, but no one wants to become a food and become a supplement.

In such an environment, in the following period of time, everyone's mood has become very determined, even a bit extreme, and the degree of hardship has exceeded any previous period.

This will gradually restore their injuries.

Plus, once and for all, I will always absorb some experience. When dealing with monsters, I have been more calm.

This is of course a good phenomenon.

But on the premise that there is no way out, this is another bad phenomenon!

The injury recovers, becomes stronger, be wary of the partner, and less and less injured when dealing with the monster, which means no one is dead... and then...

After all, they have not yet found an excuse to crowd out someone.

But will it continue, will it be this step?

No one can guarantee!

If you really get to that step, it is really killing each other. In the end, it will definitely die one by one. If you have fewer people, you will be completely stunned by the monsters.

So, another phase began.

No longer complete defense delays, but try to kill monsters together and feed on monsters!

I have experienced the previous experience and I don't think it can't stand it.

At least psychologically no burden compared to physical discomfort.

Therefore, when you encounter each wave of monsters, everyone will fight for a while while fighting for the time.

And the environment is very strange, the number of monsters appearing every time is huge, their killing does not make the number significantly reduced, and there is still a large number of emerges every time.

As a result, a virtuous circle is formed. The monsters that appear on a regular basis both temper their combat power and keep them fighting, which is equivalent to giving them regular food energy.

They have nothing else to do, just like a day of blame, cultivation, blame, cultivation...

Chapter 2102 - 1 batch of people released

If you are in your own family, the status of respect, even if it does not lead to pampering, but will not practice hard.

Even if you are desperately trying to cultivate because you are afraid of death, the degree of “death” is not the same.

Here, or may be killed by a partner, or may be killed by a monster, or may be trapped here, it is a multiple life-threatening, it is a desperate practice of the limit.

In addition, there is no tour of the mountains, no social friends, no chess and paintings... no resources, only hard work.

This allows these old guys to maintain their vitality beyond age and expand the limits and maintain a high level of play.

Absolute time is also far better than outside cultivation. In the same year, time is completely spent on cultivation, which is comparable to two years and a few years outside.

After spending so many decades and more than one hundred years, they are actually letting them, and there are no rare resources for adventures. They rely on the special environment to practice hard, and they have reached the realm of great deity!

But this virtuous cycle also has a drawback.

In order to use these monsters as food and supplements, after the strength gradually became stronger, they still kept the rhythm of delaying time and waiting for them to disappear, and did not come once!

This is equivalent to when the pigs and sheep are raised, if they are all gone, what will they eat later?

This also led them to never come across the exit!

Nature has never reached the top of the cloud palace holy land, but has always been trapped in a certain layer of the giant building.

Because it has been too long, Nangong has forgotten the time.

Later, everyone is not hoping to go out, so the inertia of cultivation, day after day.

Nangong Shi and Fan Tianxing are together. There are still a few others on their level, and they have lived to the end. Lin Biaozi and others are no longer among them.

Then one day, there was a tornado!

Although they can't figure out what the situation is, in this space, it is really tired!

No matter what the unknown is, even if it is death, it is better than looking at it here day after day.

So everyone decided to take a look.

Because I don't know how long this thing will exist, although it is in batches, I still go in as soon as possible.

Fan Tianxing and Nangong Shi were in the same batch and then were transferred to the meditation domain.

Although the environment is foggy and invisible, it is finally a new environment.

They are also afraid that they will live in the same environment for a hundred or two years. They have become adaptable to the fog and have also explored a set of searches.

The result was that they both found a trace on the ground, followed the traces, and then, ten miles away, found the tiankeng and returned to the world.

For what reason, the “intelligent system” of Yungong Holy Land will open the entrance and exit, and let them go out, can not understand.

But from the time, it is to give Cui or clues in the Dragon Gate, leaving traces!

If you wait a little longer, you may have bumped into the group of Shen Lang, or you may have seen it in the huge building space.

At that time, they did not have the heart to analyze how the traces came from. Why can they come out, they can only leave the lively place and never want to go back.

After they came out, they had the feeling of seeing the sky again, and then went to the city where humans lived and heard about the current situation. This is to know that time has passed so long, and then return to the family, may not have known relatives.

So they didn't come back, until the news of the great change in Tangcheng in the past few days, this came back.

Combined with all the memories of Nangong, Shen Lang took over with their own exploration.

The secrets of other Yungong holy places are not really unknown. At least Nangong is true that their batch is true, or the same place he went with himself – not necessarily the Yungong Holy Land.

Of course, it can also be said that what is called, is not a cloud palace holy place, it is not important.

The time passed so long, the black robes of the Longmen should have forgotten, and they thought they were dead early. This wave was intended to bury a large number of ancestors. I did not expect to inadvertently guide them and let them come back alive.

From this point of view, there should be more than one coming out of Nangong Shi and Fan Tianxing. Lin Biaozi, who survived in a similar way, came out in the same batch of different time periods.

This makes Shen Lang a bit relieved and a bit disappointed.

Peace of mind is the holy place of the Yungong. He knows it. Even if he can connect to different worlds such as the spiritual kingdom, they don't want to come to the world, just like he wants to go to the gods and gods. It may not be found.

Disappointment is that there is no new area.

However, I did not expect too much, and it would be nice to be able to feel at ease.

The rest is awkward!

According to the memory of Nangong, Lin Biaozi, they should also be in the same batch in different areas. That would have been the same as the number of roads that survived, and it was "released" by the Yungong Holy Land.

Compared with Nangong, Lin Biaozi has to take care of two disciples. Later, he can help, and I am afraid that it will be more difficult in the early stage.

It is no wonder that they will be so cold-blooded, even the sects they created can be ruined without blinking, and many direct and indirect disciples are gone.

It is no wonder that they will be so deep in the cold and cold autumn, because all the negatives accumulated, all the unwilling to face, all blame the head of the cold autumn!

If it wasn't for the cold autumn to bring back this information and confuse them to go, then there would be no such thing. They are the patriarch and ancestor of Qiu Lin Jianzong, the predecessor of the high school.

Shen Lang is also not good at evaluating them.

He had been in the dead forest for a year and a half, and it's been terrible, let alone two hundred years. Moreover, the space of the huge building is large, but it is only ten miles long and wide, and it is far from the death forest.

That is really a prison.

Then he thought about it, and when they came out together, and they came out with them, Nangong did not know, how many people would eventually be?

These people have gone through two hundred years of hard work. At that time, Daxian and Daxian's peaks are now likely to become great gods!

This is a group of people who should have become historical figures. The sudden emergence of batches is also a big variable.

In particular, they have experienced a lot of inhuman things, and their temperament is very likely to become extremely extreme.

But this is just to think about it, if there is nothing directly triggering them, it should not be arbitrarily killed. As for whether it will impact the current world pattern, that is another matter.

Those ancient sects who can participate in the "Yaochi Grand Meeting" are of course rich in qualifications, but will the princes have a kind of relationship? Others desperately practice to the top of the strong, naturally should also have the right to speak!

Chapter 2103 - Back home

Shen Lang then spent a year in the space of Tianshu, completely blending and refining the spirit and vitality of Nangong.

This is simpler and easier than the magic dragon, and the weight is not that big.

When he came back, the outside world was only three or four days old.

Count Dracula is in a state of sleep.

There are a lot of fire spar in this place, which is also very beneficial to him, so it is very good to absorb the evolution of Fan Tianxing's blood here.

Bai Hao immediately reported to Shen Lang, saying that Gao Hanqiu came over and saw that he did not see, and did not ask.

Shen Lang now has no necessary problems, and he will come out with Bai Yu.

When he appeared on the top of the mountain, he couldn't help but be surprised.

I don't know if it is Mo Feiliu and Xu Haoyue have participated in the reconstruction. It is only a few days, Qiu Lin Jianzong has recovered to seven or eighty eight!

There are these monks who are hands-on, heavy boulder, girders and the like, no matter the handling and cutting, it is easy to complete, the craftsmen are purely craftsmanship.

On the whole, it is not easy to wait for others, and there are still many details that have not been restored.

However, if you don't pay attention to it like Gao Hanqiu, you will feel that it is ok. Shen Lang is not very familiar with it, and feels that it has recovered almost.

"I am ready to go."

Shen Lang directly told the cold autumn.

There is an accident here, he should be staying. However, the internal and external problems have been solved, and the initial appearance reconstruction has been completed.

Gao Hanqiu is a bit of an accident: "I don't have to be polite with me? Qiu Lin Jianzong is your home, you can stay..."

Shen Lang shook his head: "I am going back to my hometown."

"..."

High cold autumn is speechless.

Originally, he thought that Shen Lang would feel inconvenient here, because he made the respect of Shen Lang very respectful and upright, which would make him unnatural.

But when I hear that I have to go back to my hometown, I naturally understand what is going on.

This is not convenient to persuade.

“I also want to go back to my hometown to see.”

After the silence of the cold autumn, he sighed.

Shen Lang smiled and said: “You don’t have any good-looking things when you go back. The times are too far apart. Going back is just a play, maybe it will destroy the impression of the homeland that you have beautified in your memory.”

Calm autumn smiles.

For the native land of China, he really is a bit of a homesickness. At the beginning, everyone used the name of “lower bounds” and finally came to this “upper bound”, and naturally they must stand firm.

After that, I was completely accustomed to the rhythm of this side, and I have to go back, but I am really not used to it.

Now if you follow Shen Lang back, it is really a matter of visiting and visiting.

“Let’s go check it out, I am old, don’t say anything about the leaves, the memories of the early years are blurred, go back and see, it is also a wish.”

When Shen Lang saw that he said this, he was serious and asked again.

“Let’s put it here?”

“There should be no problem, I will not stay for a long time.”

Shen Lang nodded, fearing that something would go wrong here. After all, Lin Biaozi and Li Wei are still alive!

As for going back to Earth and wanting to stay for a long time, it is estimated that it is difficult.

Because the rules of space there are different, now they are in the realm of the gods, on the one hand may be suppressed by the strength, on the other hand is likely to trigger the robbery.

They have already passed that level. If you go back to Earth and come back again, it will be a tragedy if it is destroyed in the case of being suppressed.

“Then ask if Xu Haoyue wants to go back together.”

Shen Lang now does not need to find the door of space again, and then return to Earth through chaotic space. Besides him, other people are almost impossible to succeed, and they are lost in chaotic space at any time.

If you use the door of the Three Realms, one more and one less will be incidentally.

Called Xu Yiyue to ask, he was a little surprised.

How difficult it was to come before, he still remembers it clearly, can he still go back now? Can you come back later?

However, looking at Shen Lang and Gao Hanqiu, he is completely confident.

“Lang brother, tall brother, I didn’t go long after I left, I won’t go back, stay here and watch!”

Gao Hanqiu left, Shen Lang also left, Count Dracula is still in retreat, and the white girl will follow. If he leaves again, then Mo Fei will flow.

He must help the autumn and winter guards of the autumn forest, and can not encounter another destruction!

He actually has a record, that is his mysterious tiger!

“Okay, then you will help the fly flow to look good, I will come back soon.”

Gao Hanqiu is not polite with him.

At this time, Shen Lang is in full swing.

“You go back to Qingqiu! I have to go to a place, it is not convenient to bring you.”

Bai Yan opened his mouth and then shook his head firmly.

“It’s not convenient to bring me, then I am here waiting for you to come back.”

Her identity, decided that he did not dare to ask Shen Lang to bring him, but as long as he will return, he can wait here.

If I go back to Qingqiu, there will be no chance in the future. She believes that Shenlang will not go to Qingqiu to find her.

“But I am not sure when to come back, and... will not come back here.”

Shen Lang uses “here.”

He will definitely come back when he returns, but he is not sure about the time, and when he comes back, he may not come to Qiu Lin Jianzong.

“You and Gao Laozu are leaving, I will help here, wait until you come back.”

The day is very clever. Since it is not easy to convince, it will stay in the name of helping the sword of the autumn forest.

This makes Shen Lang really bad to reject.

There was a line of Lin Biao before, followed by Fan Tianxing and Nangong Shi. These are the people who did not think of Gao Hanqiu and Mo Feiliu. Although they have nothing to do these days, who knows if there are any people who can't think of it. Come?

Xu Haoyue stayed, his strength is not weak, but if you come to the strong realm of the Great God, there is nothing for him.

This wave does not know how many new gods come back Any accidents can happen.

There are white pelicans here, and with the awakening of Count Dracula, Qiulin Jianzong can basically keep it.

“Ok.”

Shen Lang can only agree.

Then he and Gao Hanqiu went to Houshan, and did not announce this news with others, directly using the gates of the Three Realms and transmitting them back to Earth!

Shen Lang is already experienced, and has not explained the details with Gao Hanqiu.

This time, the place where he is consciously positioned is directly the Tianshan Jianzong!

If he is personal, he will choose to visit his parents in Pingxi, then fall in the rain, fall in the boat, Zheng Yumeng, etc., but with the cold autumn, of course, he should take him back to Tianshan, let him see the present. Tianshan Jianzong.

Gao Hanqiu is ready, but suddenly appeared in the Tianchi outside the Tianshan Jianzong, it is not known how many years have not seen the scene, let him like a dream!

Chapter 2104 - He is your ancestor

“This is... this is really...”

In front of the scene, for hundreds of years, in the consciousness of the cold autumn, sleep, I do not know how many times have appeared.

He has tried hard to remember every detail and let himself not forget, but as time goes by, the memory that is especially emphasized is blurred and unreal.

In short, he can't be sure of his own Tianshan Jianzong in his memory. Is it really the appearance?

At this moment, I saw the real Tianshan Jianzong. Actually, there was not much change, but in his eyes, it was familiar and strange, so that it was like dreaming every time.

“Yes, you are back.”

Shen Lang pointed and pointed him in.

After passing the Tianchi Magic Array, the passages that appeared, as well as the valleys in front, made the cold autumn fall.

“who?”

A disciple who guarded the gate of the mountain found that he had come in and screamed, and he had to trigger the opportunity to alarm the entire sect.

But immediately I feel that my body can't move.

“Not an outsider.”

When he saw the appearance of Shen Lang, he could not help but surprise.

“Big, big... the elders are back!”

Shen Lang nodded to him with a smile. He did not remember what the name of the disciple was. Of course, he did not need to introduce Gao Hanqiu to him.

Then he and the cold autumn disappeared and went straight to the secret valley.

Shen Lang is going to take him back to the teacher's door, so start from the outside and look at the valley, otherwise he can go directly to the sword.

There have been no changes in the peaks and the Tianchi. In the valley for hundreds of years, there must have been no small changes, that is, the big pattern has not been convenient. Many pavilions have been built later.

Especially after the Master League broke into and destroyed, many of them were rebuilt.

When the cold autumn looked at it, Shen Lang's knowledge had already taken care of the whole valley. The general disciple was practicing and sleeping. He didn't care, that is, the core.

However, he was a little surprised. Only Gao Li and Yu Zun were there. They were not in the valley.

"I am back."

Gao Li is the strongest of Tianshan Jianzong and is the original chief elder. If Shen Lang and Gao Hanqiu want to hide the traces, they are naturally undetectable.

However, this trip is not a thief, it is very natural, so the high is the first to discover.

When he was about to shoot and make a sound, he heard the words of Shen Lang appear in his ear, and immediately jumped up with excitement!

"It's still a bit different? Remember the cliffs over there? It helped me a lot."

Shen Lang laughed.

As the ancestors of the previous generations, the direct traces left by Gao Hanqiu have not existed, and the Qiu Shui sword left behind. Among the mountain walls, they were left in the early years. When the strength of the Shenlang was low, they still benefited a lot here.

It also directly summoned the Qiu Shui sword and cut off Zun Zun.

Gao Hanqiu nodded again and again, he is like a young man who has left home and is still excited. The whole person is excited.

Soon, Gao Li has already appeared in front of them.

“Master! You are back!”

Gao Li’s reverence for Shen Lang’s salute will not be because there are strangers beside him, and there will be any embarrassment.

Although he is a young man, Shen Lang is very young, but he is a teacher.

Shen Lang nodded: “Don’t alarm other people, let’s talk to your room first!”

At the end of the day, he had passed a message to him, and he was respected. Only if he is inconvenient to move, let him not move first.

And the three of them are immediately in the high-rise house.

“This predecessor is...”

It is sure that it is very reliable for Shen Lang to bring to the hinterland of Jianzong, and it is also recognized by Shen Lang, but it does not look light at the grade level.

Although on the surface, it is better to leave the country, but from the Shen Lang argument, he certainly respectfully called the predecessors.

Shen Lang haha smiled: “He is your ancestor.”

“...”

Gao is a little embarrassed, I don’t know why Master is making such a joke.

Gao Hanqiu has already understood it. Shen Lang used to talk about the current situation of Tianshan Jianzong. This should be the descendant of his descendants.

“I said last time, I found your high ancestor, he is still alive, this is the cold autumn.”

I heard the introduction of Shen Lang, and the whole person was shocked!

When Shen Lang came back, it was indeed said that he was very happy.

After all, Gao Hanqiu is not only the founder of Jianzong, but also his direct ancestor. Although not in the same world, whether it is the fairy world, the heavenly world, or the ordinary other world, as long as it is alive, it is a thought.

But he did not think that one day, Shen Lang would bring back the living cold autumn!

Seeing a historical figure who disappeared hundreds of years ago, even if he is a young man from a young age, he is still very shocked.

After a while, he quickly went to worship.

“If you don’t want to go to the high school, you can see the autumn ancestors!”

Gao Hanqiu has also looked at it, quite awkward.

The high age is not too light, it should be bigger than the easy, but the strength is just about the gods. This shows that this is the status quo of the earth.

Honestly, no matter whether it is a disciple or a descendant of a \*\*\*\* relationship, and has not lived together, it is really a matter of how excited and emotional, and that is false.

High separation is different, it is admired from an early age.

Before the cold autumn, I didn’t know that there was such a high person.

The emotions of the two sides are naturally different.

But no matter what, this is still back to the hometown, in his own division, and to see the offspring, or let him a little embarrassed and excited.

Because I am not familiar with it, the process of recognizing this pro is not too warm.

After the simple ceremony, Shen Lang proposed to worship the Tianshan Jianzong of the Tianshan Jianzong. After all, according to the custom, returning to the hometown is still to worship the ancestors, and after he returned this time, Will not come back in the future, it is necessary to worship and bid farewell to the teacher.

At that time, he represented the Tianshan Jianzong to explore the uninhabited sea prison, and finally came back safely, and he also needed to tell.

This form was arranged by Gao Li, and Shen Lang did not expand the news. This is really shocking and let him know.

If there are other people, such as Yan Zun, it is only a predecessor who has an old name.

Gao Hanqiu is the ancestor of ZTE of Tianshan Jianzong. His own cards are in very important positions, and many of his founders are his descendants.

However, anyway, it is a form, he is only worshiping his master, grandfather and so on.

When I saw his master and the cards of some of the brothers and sisters of the year, the eyes of Gao Hanqiu were wet. This is the person he really has emotional connections to and the characters he wants to see.

Nowadays, it has already been separated by heaven!

Chapter 2105 - Great changes in the world

Gao Hanqiu is very concerned about this environment and the sense of the ancestors of the Tianshan Jianzong history.

Shen Lang, on the other hand, has no feelings for the ancestors of the Tianshan Jianzong, and is more concerned about the people who have been here.

Therefore, when they were two ancestors, he also looked for the sage and asked about the situation of 裴圣奕扬 and others.

Seeing that Shen Lang is back, Yan Zun is very excited.

Although he did not have a lower body, Shen Lang also sought spiritual medicine from the Nantian family, continued his life, and carried forward the Tianshan swords.

“Great elders, it’s too late for you to come back! If you don’t come back, you may be in trouble!”

“What trouble is big?” Shen Lang laughed.

When he came in, he already understood the situation in the entire valley. All the disciples were seriously practicing what they had, and there was no sense of crisis at all.

Yan Zun took up the excitement and looked serious.

“The trouble has not come to us yet, but the whole world is already in trouble!”

Shen Lang feels that he is alarmist and his vision is limited.

How long has he left? It’s only a few months to add up. Can there be any worldwide trouble?

The biggest trouble is the invasion of the behemoth, which is no longer under the constraints of the Emperor. The annihilation of a batch, including the only charisma of the hurricane.

Another trouble is the light god. However, the avatar of the light \*\*\*\* was directly killed by Shen Lang, and the sentiment of the gods was also chased to the world of giant beasts.

Although he did not succeed in inciting the light god, but also was created by this respect, but the light \*\*\*\* can not come to the earth.

The last time he was also a avatar and arranged for the gods to come, after which there was no media of the Pope.

Yan Zun began to talk about the 151, and Shen Lang also took out the mobile phone, boot, charge, and network.

Yizun has always been in the valley of Jianzong, and the information he knows can only be through the network channel, and then the information brought back.

The limitations are obvious, but he tells them in person, but it can be described in more detail.

After the boot, Shen Lang also began to receive many messages from Feng Jiji.

The information channel of Feng Wuji is more extensive and constantly updated. However, for the sake of brevity, her message is as much as possible.

In addition to these, you can also access the latest information online.

With these three aspects combined, it took Shen a long time to get a general understanding of the changes in the earth over the past few months.

At the beginning, he publicly revealed the “super power”. At the UN General Assembly Headquarters, the Internet was broadcasted to the world, and it became the most famous superhero.

At that time, hundreds of millions of fans were harvested, and a certain proportion of them became a believer. They provided him with a lot of faith.

When he was on the mainland of China, he was still able to receive the power of faith.

But as time goes by, the power of faith is getting weaker and weaker.

He did not feel surprised at this point. Before, Bihaihuan created a momentum for him in the city.

To put it bluntly, hot spots need to be maintained.

The more people there are, the higher the level of civilization, the more ideas and entertainment activities, the harder it is to maintain the heat. Therefore, it is increasingly difficult to have a big religion. Consumerism and extremism are different. Because of the broad, varied, there is no single idol goal.

Shen Lang shows super power miracles, and he packs himself into a superhero. From another perspective, it is also a superstar.

Stars attract fans, they need heat, and the heat is continued by works, topics, and so on.

Even if he appears regularly, if you don't play new tricks, the heat and fans will gradually decline. Did not appear, except for a few loyal fans, others will be attracted by other heat.

Everyone will definitely remember him and will support him, but he will not reach the level of faith.

This is his original identity, but now I know that things are not that simple.

If you follow the laws of nature, even if he disappears, the heat will still intensify. After reaching the peak, it will maintain a period of high heat.

Coupled with the help of other aspects of the purpose, it will not be a sudden drop in heat in a few months.

The real reason is that others have the same kind of learning!

Originally, the world of comprehension has long been low-key, and the secular regime keeps the well water without breaking the river. Everyone understands in their hearts that it is really necessary to use spells and super powers to influence the normal society. The state must clean up the self-cultivators. As long as they are willing to pay the price, there is still no problem.

In the twentieth century, the situation changed. After the big killers such as intercontinental missiles and nuclear bombs came out, the self-cultivators were completely tempered.

In the 21st century, it is possible to accurately locate in meters, the range can be measured in one city, and it is useless even faster.

Besides, who is not directly out is a super strong, even if you can run ahead of time, your family, division? The monk ran away from the temple!

Therefore, there have always been mutual jealousy and peaceful coexistence.

Of course, including you in me, I have you. For example, the government promises to recruit, control and cultivate the self-cultivation. The same powerful self-cultivation forces will also influence the support of politicians in the form of chaebols and prestige.

The whole world is basically in such a pattern, only the big government is dominant, and the small country is being manipulated behind the scenes.

The fundamental reason for this pattern change in the past two centuries is the change in power!

The leap in technological civilization has led to the escalation of hot weapons, and the emergence of powerful repression of high-tech weapons.

On the other hand, it is the aura of aura and resources, which leads to the limited strength of self-cultivation, and it can be honored as a master when it comes to the real world.

The process of this difference.

Shen Lang was born, Shen Lang dared to provoke a superpower, relying on absolute strength!

When the nuclear bombs are not threatening him, when he can smash the presidential palace as he pleases, it is only a moment when he wants to kill the president and the commanders of the three armed forces. Naturally, the superpower is afraid of him.

And his positive exposure played a detonating role!

The self-cultivators and superpowers who were suppressed from being high-profile were enthusiastic about it. They felt that I had to be so arrogant, and I could be so powerful!

So began to appear in all parts of the world.

Those ordinary comprehensions and superpowers are naturally far less than the level of Shen Lang, but they do not have to provoke a superpower without going to the United Nations. Satisfied with being a dazzling hero in your own country, or just a local town.

The number of more, the difference between good and bad, is not a problem of showing off superpower. Laws such as looting and violence have also begun to appear.

In the era of mobile internet, a small and remote country can be pushed to the world as soon as it has a small eyeball.

The governments of various countries were already full of jealousy against Shen Lang and had to compromise. But my heart is uncomfortable. I naturally take the opportunity to do things, manipulate some media, and spread the vicious incidents as much as possible.

So soon, it led to the public's enthusiasm for the superpowers, turned into resentment and fear!

Chapter 2106 - Fisherman

When Shen Lang appeared, everyone shouted the "superheroes" in reality, and then quickly became a notoriety because of the chain reaction of good and bad.

When there is only one superman in this world, everyone accepts it and hopes that he is a just messenger who can escape from the law and the country.

When he is unfair, he can descend from the sky and save the crisis.

But if there are super people everywhere, in the communities, schools, and units where they live, it is possible that someone has super powers, which is scary.

What if you accidentally offended?

Other people can kill people with a punch, and the police can't control him!

Ye Gonghao's mentality began to appear...

Compared to saving the world, everyone still feels that reality is even more important. Everyone in your life may not encounter a worldwide catastrophe, but at any time there may be conflicts with superpowers who are mixed in ordinary people.

Under the intentional guidance, the voice of the protests became more and more fierce. Someone soon signed a signature of a million people, asking governments to monitor and manage all the superpowers!

Superpowers cannot surpass the law, and because of their danger, they must be monitored by the police!

This is the effect that the authorities in power need, the voice of the people, and the legitimate demands, reasonable and legal.

But as a result, it immediately formed a split!

Originally, a lot of people follow the trend, but they feel that they are very cool and very cool. Most of them are not evil.

But if there is no scenery for a few days, it will be excluded from the world, so it will be uncomfortable.

In particular, the effect of mobile internet, let a lot of show off video, Internet, live broadcast, etc., is to be famous. Now all of them have become evidence of exposure. The more widely spread, the more trouble they have.

Not to mention whether the police have begun to monitor the restrictions, just go out the door, from the neighbors to classmates and colleagues, to the passers-by on the street, all look at the monster-like eyes, all fears are far away, then people are very uncomfortable.

Those who are arrogant, naturally do not have to touch such a vision, they are also more cautious, and did not come out to sway.

What they will do is often some introductory, lower-powered, younger self-cultivators. They are relatively ordinary people, superpowers, and powerful ones worthy of showing off.

They also have more social needs and the largest number base.

Similarly, they will also fight back in reality and on the Internet.

Once separated, they will become more and more hostile to each other.

For example, in the public, the superpowers are found, and there are many ordinary people. There will be brave and bold people, or old people who are old and old, and stand up and criticize education.

If you encounter violence that is evil, you will naturally be tempered and you will be dissatisfied!

If you have encountered something that has never been done before, you will feel very wronged and unhappy. I have not done anything. Why do you condemn me as a mere connoisseur?

The scope of the split is the whole world. Even if there are many people in the local area who are peaceful and forbearing, there are many people who do not provoke things, but there will always be some conflicts.

When these conflicts emerged and spread on the Internet, they became the material that ignited the two factions.

Superpowers will feel that ordinary people are pressing hard and bullying too much; ordinary people will think that these superpowers are potential mobs.

Will be considered from the perspective of the other party, and will always be a very small part.

The more conditions that occur, the more chain reactions will be triggered. The contradictions have intensified, and everyone's division has become deeper and deeper.

It wasn't a matter of birding, but his first official superhero became the initiator.

So down, even if it is a fan of Shen Lang, I dare not speak casually for him. If there is a big base, there are still a few fans who can still reach the power of faith.

This is the real reason why Shen Lang feels that the power of faith has plummeted.

After the emergence of this split situation, I saw some of the big forces in the situation and started to work!

These young people who want to follow the wind and cool, said that it is a small squad of squadrons, and they are all raised. In the eyes of the real forces of the real world, it is simply a child's gadget.

Many of them have a thousand-year history and have long-lasting influence and control over many countries and regions.

In other words, there are more sophisticated means of manipulating public opinion and the public.

Especially the religion that has a wide range of believers!

The first thing that bears the brunt is the light \*\*\*\*\* that God has made and the gods have been slain by the waves.

On the same day, the Pope was threatened by the threat of Shen Lang, saying that they could destroy their light gods at any time, and then had to show up in person, endorsing Shen Lang in his identity, praising Shen Lang as a super hero against evil.

That is a very heavy stroke that pushes the reputation of Shen Lang.

Then the Pope figured out, he could not find the revenge of Shen Lang, but he could learn the kind of speculation of Shen Lang and promote the reputation of Guangming God!

But he did not have the first action, or should say that there is a situation of fragmentation, and there may be his shadow behind it.

After the chaos appeared, there was no movement to see the waves, and the light gods came out to fish.

Their set is to show miracles!

When there are evil superpowers in chaos – no one can also make a performance, the archbishop begins to debut, with the power of God, to suppress these evil superpowers, and then handed them over to the police.

For the ordinary C-class superman, the A-class or even the S-class archbishop, want to pack them, is completely easy, can be completed without moving.

Therefore, they are not swearing, super powers, etc., just mourning the spells of God, holding the signs of the gods, etc., in the eyes of ordinary people, this is completely suppressed by the power of God.

Originally they had a broad base of believers who believed or pretended to believe in the existence of God.

When these pictures are transmitted to the network through video, true belief and false belief will spread wildly. Because these superpowers prove the existence of reality, and now the archbishops easily suppress them, the archbishop is not a superpower, then this is the power of God So, it was originally affected by technology The weaker and weaker religions have burst into a new glory. After seeing one after another, everyone began to believe that God exists and will shelter the people.

The Pope and the bishops are undoubtedly the messengers and spokesmen of God in the world.

Ye Gong Hao Long spirit once again reflected...

Everyone will fear the superpowers around them, but for God, it will be strong and omnipotent, and will not be afraid, because God will not appear.

And God is forgiving. If you believe in him, follow him, do not break the law, do not do evil, you will not be punished.

Therefore, not only the believers who originally believed, but also the believers who did not believe, they also began to have respect for the Light God.

They have a long-term system and a deep foundation. The quantity and quality of the power of faith are far superior to those before Shen Lang.

Other sects do not let them be beautiful, but also begin to show miracles in the same way. The result is too much to punish evil and promote good, and the wicked are not enough...

Chapter 2107 - World war

The light gods take the lead, and other religions are also acts of following the trend.

And as an influential decent religion, of course, we must consider the reputation, so we will not openly commit evil, and the hype is limited.

On the whole, everyone is still in the scope of their main activities, and they are considered to be the form of keeping their own territory.

But after that, there is another true godism.

The true gods also have a large number of believers, and the believers are very religious, even fanatic, and their cohesiveness is very strong.

So after they started the activity, they immediately spread a large number of believers. Their clerics are more involved and more intensive.

Because the light gods began, they were aimed at those ordinary comprehensions, whether they were showing off or violently doing evil. Anyway, let the people fear, they would suppress it.

By the time the true gods reacted, they had lost their chances.

So they took a different approach and chose to “get started” for ordinary people!

Of course, this is not an attack, but a group for ordinary people.

For example, some poor and small countries often have plague diseases, and their clergy show miracles, and many people's diseases are quickly relieved.

This is in line with the political correctness of the whole world, and it is the willingness of the media of all countries to actively spread.

In addition, there are places like deserts that pray for the people and then get rain.

In fact, the routine is not new, but with the propaganda of technology, everything makes it look very realistic, or let many ordinary people get excited, I believe they really have miracles.

In addition, they have had countless devout believers. On the Internet, various fancy touts are forwarded, and this is directly helpful to ordinary people, so that more people have a sense of intimacy.

The result has evolved somewhat, and other religions have only participated in it, and the two sects that attracted the most attention.

Everyone is fighting for not only attention, influence, but about believers!

The amount of believers and the devoutness of believers directly affect the development of religion, which affects the amount of resources.

Resources include secular money, political influence, and the collection of the power of faith – a very important resource.

If all parties are fighting at the starting line, then everyone will be surprised and try to lead others.

But now they have seized the opportunity, one is the first, the other is the one, and they become direct competition.

Whether it is a bright \*\*\*\* or a true god, they all want to expand this teaching through this once-in-a-lifetime opportunity.

At this time, it is unrealistic to want to annex the other party or other religions. However, it is possible to rob all of this influence and form a winner-take-all situation. In the long run, it will be possible to eat away other opponents.

For example, Shen Lang first stood up, that is, one person took the cake, and then everyone messed up the cake, and took away the cake, and the heat of Shen Lang plummeted.

Therefore, these two sects have become the direct competition of the same water and fire, almost reached the level of white heat.

Ming's means is to directly grab the other's chances, show signs of miracles in the other's believers' camp, and attract the other's followers.

The dark means, through the soft text and other means to strike the other side, such as revealing the other side is through the super power to forge miracles or something.

The result of the competition is that it has started to fight on many occasions.

They affect the sphere of influence of the whole world, and each has its own supporters of different countries. Therefore, it is not only the struggle between the two clerics, but also the struggle of the secular believers.

Coupled with the media, politicians, or other sects, other comprehension forces may be behind the scenes. They have evolved from competition to war!

In the past, there were many religious wars in the past. Until now, there are still some localities. They have not formed a large scale, only because the power of the state power has suppressed religion.

To put it bluntly, it is the nuclear bomber who has the world! It is really a massive weapon of mass destruction, and the most incompetent can still be destroyed, and it can destroy the earth.

But when Shen Lang ignored the superpower, it has already broken this repression.

Even the young comprehensions and superpowers can't stand it, let alone the powerful sects that have been strong for hundreds of years and thousands of years. They used to master the world's top power.

Under the influence of many factors, a large-scale conflict has formed, and religious war has swept the world!

It was only their two religions, but the conflict was so great that it could not be stopped, and the scope of the spread was also growing.

Many of them have nothing to do with them, and they have also been involved, including the state and various comprehension forces. Everyone started to support the team.

In the back, there are two teachings, which become two camps!

China has not been involved for a while. On the one hand, China has a strong enough national power. Since the founding of the People's Republic of China, it has not allowed religious interference in national politics.

The Guangming and the true gods have congregations in our country, but there is no strong entry from their church headquarters. In other words, the local bishops and the like are all controlled by China.

The country of comprehension also represents the East. There are many sects and branches. Even if there is competition between the two sides, the portal is quite deep, but on this kind of event, it is absolute unity.

Viewing the fire from the other side is a conservative plan adopted by all aspects of China. However, all walks of life have maintained a high degree of alertness, and must not let the war come over.

In business, there are often bosses playing in the second, but the result is often the death of the 3, 4, 5, etc., even if they can not eliminate anyone, will also maintain the original market in the process of fighting, and then Together with the silk market for others.

The current situation is also somewhat similar. After becoming the two camps, every move will involve huge amounts. Many small countries and small forces that have not participated in it will be eliminated.

Participating in the camp, it became a vassal, and may even be annexed.

Therefore, there is no foresight, no gloating, but strictly guard against the other side to play the title, and continue the war to their door.

However, there are many factions in the country. The small gates are small and can't participate in anything. The gates are responsible for shoulders, but this is a major event in the world, and it cannot be represented by them.

So there was an initiative some time ago. The domestic organization of a conspiracy alliance, everyone joined forces to form a powerful force, which can deter foreign forces.

This is also a requirement at the national level. After all, it is a big matter. Whether it is the country or the realm of cultivation, one side has been broken, and the domestic will be chaotic.

Moreover, even if everyone has a sense of crisis and a general situation, but in the specific implementation, it will always be "everyone sweeps the snow before the door", as long as there is no fire to his eyes, the sky collapses to make the top.

Such a special environment like the Tianshan Jianzong, even if the war of the two external camps spread to the country, will eventually affect, and naturally will not rush to the front – others will say that you are out of the limelight.

Therefore, it is also necessary to organize this alliance because of the requirements at the national level.

Chapter 2108 - Guardian

Tianshan Jianzong was also notified, this is not an invitation, and must be sent to participate.

Even if the situation is weak, at least one person must be arranged in the past.

Because of the relationship between Shen Lang and the Tianshan Jianzong, all aspects have shown great respect.

The Tianshan Jianzong also could not be perfunctory because of the relationship between Shenlang. After the elders discussed it, they went to the sacred and praised.

Before, Zun Zun had officially passed the position of the sovereign to the praise, so even if his strength is insufficient, his identity is sufficient.

As a long-time elder, the sacred sacred is enough for the ages, and the strength is also decent.

If you just have to deal with it, send a young disciple as a representative, give a hand and drum up, and understand the information is enough.

Now there is the third elder elder, and the new lord is going, no one can say anything. Can't you always have to go to the second high?

As for the great elders of Tianshan Jianzong, the great elders, Shen Lang, is almost the first strong in the country. Even the world's strongest is not an exaggeration. No one dares to ask him anything.

Highly, they will discuss this arrangement, and it is also a safe consideration. Because the reputation of Shen Lang is loud, the Tianshan Jianzong is also dimmed. If there is any problem, someone will challenge or attack the Jianzong.

Therefore, Gao Li and other elders must stay to guard, as for Yu Zun, it is inconvenient to leave.

Shen Lang's information from these aspects is also an understanding of the changes in the world over the past few months.

The recent information of Feng Wuji also mentioned this alliance.

In fact, all aspects have found her here, I want her to contact Shen Lang, I hope that Shen Lang can come out to preside over the overall situation.

If there is a deep wave, you will truly have an undisputed leader.

Otherwise, if other people are the ally, even if they have enough qualifications, they will not achieve the same effect.

The strength and fame of Shen Lang can be used to live in various factions. No one can challenge. You can also deter the two camps!

After all, even a person like Guangming God has to bow down when he sees Shen Lang.

And the wind has no analysis, everyone is actually a little worried, if there is no Shen Lang to host the overall situation, if the two camps together, then the Chinese comprehension is in danger!

This is not impossible, only forever benefits, no eternal enemies.

Their war is rooted in competition.

Whether it is competition or war, in the final analysis, it is for the benefit.

When the two sides pay the price of the fire, and the marginal benefits of the harvest become smaller and smaller, the cooperation opens the huge territory of China, which is completely a win-win situation to open up the blue ocean.

Huaxia is the third place in the world. The population is the world's number one. There are also countless mountains and rivers, and the heavens and the earth, including the roof of the world.

From business, to politics, to teaching, many aspects have always been a big cake.

If the gods of light and true gods cooperate to take up Huaxia, the future is to develop hundreds of millions of believers, which is undoubtedly a huge treasure.

But there is no way, Feng Wuji can not contact Shen Lang.

Therefore, on the other side of the league, you can only ask the wind to go, so that when Shen Lang returns, he can get in touch for the first time.

And Feng Wuji wants to get more up-to-date information, but also has to rely on the collective advantage, so he also promised to go.

The nature of war will not change, but the form of war will not be single.

In ancient times, it was necessary to defend against foreign invasions, and it was ok to hold the passage in the frontier fortress. It is very difficult for the whole team to climb over the mountains, so it is only the act of building the Great Wall. The cities and customs around the country are also the key points.

With the strengthening of people, weapons, tactics, etc., the general roads and mountains cannot be defended, but huge rivers and rivers, such as the Yangtze River and the Yellow River, such as the Himalayas, are also natural defenses.

But in modern times, high-tech weapons can achieve global coverage, whether it is attack or defense, can be done remotely. The scorpions like the sea and the Himalayas only increase the difficulty and cannot reach the absolute defense.

But for the comprehension, all standards are different.

With the power of the world, even if science and technology develop into modern times, it is impossible to prevent.

That has always been another level of war.

In ancient times, such as the time before Shen Lang, I did not turn over the Himalayas to South Asia, nor did I go all the way to Central Asia and Europe, and did not travel across the sea to the Americas.

This is not a concept of “the place of heaven and earth”, nor does it mean that China is the center of the world, and it is not impossible.

In ancient times, there was the Silk Road, and there were sea roads in the back. When Zheng He went to the Western Seas, he was ahead of Europe for a long time.

Ordinary people and businessmen can do it, can the self-cultivator not do it?

To put it bluntly, it is because other regions have the same powerful comprehension!

The reason is very simple, and it doesn't matter.

Why is there no one living in the desert? Because there are no resources such as water sources. It is not impossible to live, and it costs a lot, including the extremely high mortality rate.

Therefore, deserts, Gobi, and ice fields are often places where criminals are exiled. The rich place is Jiangnan and the like!

The same is true of the world of comprehension. What everyone is pursuing is the abundance of the aura. No one will go where the aura is exhausted.

This is the case in China, as is overseas. Where the environment is extremely poor, it doesn't make sense to go there. A place with excellent environment will not wait until the Chinese monk explores, and the local will develop a self-cultivator.

There were no territory maps in the past, and there were very few routes. Everything had to be searched by its own carpet. Compared with the domestic, no matter whether it is going west or east, it will cost a lot of time, and the harvest is not necessarily.

Therefore, except for a small number of wanted, poor, etc., it is generally not going to be explored.

The same is true for the West and other places who want to come to China. Even if it comes, famous mountains and rivers, Dongtianfu, can you give it to you? Can you let your disciples be free?

Without sustainable resources, can you afford to support the disciples?

Therefore, what can really develop is to go to the lowest level of religion. On the one hand, the lowest level of ordinary people the distance of the comprehension is split, the reaction is not sensitive, and it is often the climate.

On the other hand, it is not enough to pay attention to religion unless it has become influential.

Now, the overseas comprehension forces, want to invade, must first be able to beat the local strong. Otherwise, just like tourism, it doesn't make sense.

Today's alliance is such a guard. They don't need to guard the frontiers, they don't need to stare at the customs, they just have to unite their strengths and then wait.

If their two camps will join forces, the normal steps, whether it is open challenge or private sneak attack, are to fight the local strong.

The Huaxia area is large and has a rich heritage. There are many martial art schools. It is not so easy to challenge. Today's alliance is both a deterrent to the outside world and a self-reliant target, waiting for the other party to come to the door!

Knowing all the conditions, Shen Lang will be relieved. Yan Zun is also worried, but at least from the latest information of Feng Wu Ji, there are still no signs of invasion, and everything is just vigilant.

#### Chapter 2109 - Alliance

Shen Lang immediately sent messages to them, but asked for temporary confidentiality. Don't tell anyone about what he has already returned.

The earth has encountered a crisis. When the country encounters a crisis, he will stand up, but after all, he does not want to be a firefighter.

When it is not a last resort, I still can't make it.

This time, I came back with a cold autumn, and with their two great realms, I don't know how long I can stay in the space of the earth.

Therefore, on the one hand, we must take care of the cold autumn, and let him have a wish, in addition to the Tianshan Jianzong, there is no other place to go.

On the other hand, you also need to spend time with your parents and a few girls.

If you encounter the catastrophe of space law, you have to leave. As for the things in the world, he only needs to show his face, or he can kill the core archbishops of both sects!

Feng Wuji, who received the information, was very happy and excited, and naturally would not say anything.

On the other hand, after Gao Hanqiu completed the ancestor worship, he followed the high and left for a while.

Shen Lang estimates that it should be a little bit of skill, pointing swordsmanship and the like, even if it has been away for hundreds of years, this is his hometown, Gao Li is a direct descendant, or it must be taken care of.

When I saw you, Shen Lang also briefly said about the current situation on the earth, and then suggested that the two should act separately.

He returned to Pingxi himself, and Gao Hanqiu was accompanied by Gao, and it was up to them to decide where to go.

Although Gao Li was enshrined as a teacher, the time for Shen Lang's real contact was limited. Shen Lang did not ask him more personally.

There is no one behind the family? In addition to high separation, is there any cultivation?

In these cases, Shen Lang did not understand. But Gao Hanqiu may understand that Gao Li should also make the situation clear.

In addition to the division, the personal situation is also going to go.

In addition, there are other relatives and friends, accompanied by high-altitude, basically no problem, and do not need to accompany Shen Lang personally one by one.

After the account, Shen Lang himself returned to Pingxi.

Shennan Han Fengying and his wife are all well, only to see their son can not help but cry.

They certainly know that their son's strength is no small feat, exceeding their expectations, and knowing that their distance from their son is getting bigger and bigger.

But the son is a son after all. Whether he is the chairman or the president, he is still a son in the eyes of his parents. The waves are still shocking and still sons.

The last time he had made a public appearance, he became a superhero in the world, and it once caused a lot of repercussions.

However, they have used the relationship, they can bridge the bridge, or they can find the bridges of Qiao Yuxian, and through the relevant departments, hide the information about Pinglang in Pingxi.

Therefore, whether it is domestic or foreign, for media reports, or with ulterior motives, Pingxi has not digged any useful information.

Presented, basically only a simple message: Shen Lang is a Pingxi person, disappeared before the college entrance examination, and his parents died because of the fire.

The local Yuezheng South has fully exerted the role of the local snake and alleviated the traces of the sun.

The purpose of doing this is of course to protect the waves.

Even if Shen Lang has made public appearances to the whole world, he can't let others dig deeper into his information, especially his parents are still in Pingxi.

Zheng Yumeng and Dorothy have always been low-key. The most representative of Shen Lang's appearance is Feng Jiji, followed by the falling rain and the canoe sisters can be contacted. Both of them are as stealthy as possible.

Therefore, it is also able to guard Shenlang parents in Pingxi.

Shenlang's parents know that their son's ability is great and they can save the world, but they are also worried that all the forces in the world will stare at him!

Moreover, Shen Lang's departure once again, they did not know why they went, but now they are worried about what is related to the behemoth.

On weekdays, they also become low-key, try to practice at home. Naturally, there will be no such thing as "Shenlang is my son", and there will be fewer street trips, so as not to recognize it in the case of Lisa's fellow villagers.

When I saw my son returning safely today, they were relieved.

In addition to the parents' situation, Shen Lang also learned about their situation. After all, Zheng Yuqing was still not used to coming to the country. He stayed abroad, chose to live with his children, and then rebuilt the house.

As for Dorothy, she still has no interest in the remote management of those superpowers and vampire families. If she really wants to leave her management, she just drops her hand.

They live on the opposite side of the day, guarding the Shennan couple, waiting for Shen Lang to come back.

Shen Lang did not say much about his situation, but he may not stay for a long time, still have to prepare in advance.

If the flame of the gods of light and the true gods will come to the country that will not spread for a long time, it will take some time to get someone to live in the absence of him.

Before, some of them reached the realm of half a fairy, and Dorothy was comparable to the peak of half a fairy.

Originally on the earth, this is already the top group, and the Pope is just the level equivalent to half a cent.

But combined with the latter situation, this is not enough!

For example, Tula elders, this is the same as Xu Haoyue, but also the old ghost hidden for hundreds of years. Not because of the relationship of the behemoths, they will not take the lead.

It is not known whether there is such an ancestor on earth.

And like the Light God, they came to God, and even God's avatar came to Earth. Although it was cut off, it will not be dispatched again, and it is not known.

Or the Pope has any secrets, they can communicate to the \*\*\*\* of light, borrow the power of the gods, etc., it will exceed the strength of half a cent.

The true gods did not directly deal with the before visiting the people who have no return to the sea, there may be, but Shen Lang is not familiar.

It's just that they can be as strong as the gods of the gods, and they certainly have the same powerful power. It is very likely that there will be other gods in the world.

And the actions of their two sects, one of them may be, in order to compete for the believers, the letter is numerous, in order to generate more faith!

Shen Lang must do this preparation.

Therefore, by the opportunity of a restful night, he began to help Zheng Yumeng and Dorothy ascended, and directly took them into the space of Tianshu.

Dorothy, like the Count of Dracula, evolved in a different way, and it was much simpler to carry.

When the dragon was in the past, most of the blood was absorbed by the snow and snow, so when she distributed the harvest, she was really unwilling to ask for more.

However, Shen Lang also received a little blood, which was prepared for Dorothy.

Chapter 2110 - Take them to fly

A lot of dragon blood, for the snow and snow, the magic weapon is a huge harvest.

For Dorothy, it is not so much, because her realm is still far away, she really can't bear all the dragon blood.

Before Shen Lang gave her the blood of the real dragon, it was obvious to her, but it has been proved that it was still being fooled.

It is only the blood of some beasts that cannot be the real dragon blood.

This time, it was the blood of the real ancient dragon that he personally obtained.

When the blood was taken out, Dorothy had a trembling feeling, just as the child saw a candy and his eyes could not be removed.

"This is the real dragon blood, and it should be able to make you evolve to a very high level."

"You don't have to worry about whether you can't bear it. Count Dracula has evolved explosively, to a realm that he couldn't imagine before."

Shen Lang gave her directly and gave Dorothy a reassurance.

Dorothy is also seriously taken over, and then immediately taken down, waiting for the changes in the effect of preparation.

For Shen Lang, in the relationship of all of them, they certainly do not need verbal thanks, just as they guard the parents of Shen Lang, Shen Lang will not give them a verbal thank you.

Then it was Zheng Yumeng.

Zheng Yumeng is the body of congenital pure yang, like the fire spar, the effect on her is very good. Before Shen Lang also made a lot for her.

But this time, Shen Lang also gave her a "eat dragon"...

The bone marrow of the dragon's bones, as well as the internal organs, are divided into parts for her to eat.

The property that the dragon can spurt fire, of course, is also the yang, which has great effect on Zheng Yumeng.

Zheng Yumeng also knew that this was a hard-won good thing. He quickly took it and then began to enter the state of cultivation.

Shen Lang is guarding them alongside.

His plan is to raise a few of them over the semi-Xianfeng peak and upgrade to the realm of Daxian.

This is actually a great danger. After all, they do not have a strong mental temper. Unlike Shen Lang, he can withstand the rapid improvement because of the strong heart of the previous world and the mental strength. They are all super strong.

They have been promoted to the semi-Xianfeng peak in a short period of time. In fact, they are all risky. It is even more dangerous to upgrade to the realm of Daxian.

This is why it is necessary to lengthen this time in the space of Tianshu, and then he personally guards and directly helps.

This is also the main reason why he did not raise the realm of his parents.

His parents are ordinary people, and their age is not small. Everything has already been fixed. He has the resources and the vitality to make them have the entry level of returning to the realm of the Yuan Dynasty. It is also a healthy body and longevity.

If you really want to continue to improve their strength, it is a very dangerous thing, the body will not be able to withstand, even if you can go past, this pass is very painful. In terms of spirit and heart, there is no way to help.

Therefore, Shen Lang later saw it. Everyone followed their own destiny. Parents had the fate and fate of their parents.

Just like living in a big house in Pingxi City, but there are no friends, can't do proper communication; no need to work, can not play what they are good at, in fact, lonely and boring.

For them to keep fit and prolong their lives, there is no problem, but forcing them to take the road of comprehension is to change their inherent destiny.

Now, for Zheng Yumeng, Dorothy, and Canoe, Shen Lang has not forced it any more.

To what extent can they go, how to go, and begin to follow their fate.

He has already carried too much, and if he is supported by his support, he will not be able to last long.

Shen Lang is both side by side and guards both of them. The situation of Dorothy is quite special. He can't directly help guide and the like.

However, he can still inject some spiritual power into Dorothy to help her better smash the past.

In Zheng Yumeng, he can help a lot.

However, in the absence of dangerous situations, Shen Lang did not intervene too much, and still instilled spiritual power into her. This was impossible to improve independently and independently. The others went on their own.

In practice, in addition to retreat, it is impossible to carry out in twenty-four hours. It is basically a day of cultivation time for one night.

The two of them spent the night, in the space of heaven, it was equivalent to a hundred days of cultivation. It is an absolute time, and there are nearly a thousand hours.

Such a long time, so that they have a significant improvement, Dorothy's evolution is not the same, Zheng Yumeng is a direct breakthrough to the semi-Xianfeng peak.

The resources of these dragons are far from being used for the level of half-sen, and even if they are improved, they can continue to be absorbed.

Shen Lang is giving them some dragon's marrow, internal organs, etc., and the whole process is around the spirit, creating the best cultivation environment.

In the morning, he first came out, letting both of them continue to retreat in the space of Tianshu.

As expected by Shen Lang, in the early morning, the rain fell and the canoe, including the wind, no one, has already rushed over.

They didn't say it yesterday, but they arrived in the fastest way.

They usually don't have time to stay here, but they still come to visit the Shennan couple from time to time. Everyone is familiar. This time, Shen Lang is back, and the atmosphere is naturally better.

However, Shennan and Han Fengying and his wife are not the same level of the year. They have also been trained in these years.

Although I don't know the specific events, I also know that my son and these beautiful "children and daughters" are big men and they are all concerned about the world.

So they all said that they would buy food, make a big meal, and have a reunion dinner.

This is the most simple wish of parents, but also to discuss the business with them.

Shen Lang has already understood the situation for all the situations. However, the information that is known to be limited and the wind is not limited is limited, and the Internet cannot find confidential information.

So now I'll talk to you or you can add a lot of detailed information, as well as the latest status.

For their worries, Shen Lang just said with a smile.

“Reassured, in front of us, all are chickens and dogs!”

When they heard this, they all felt a little funny, but they actually said it in their hearts.

Originally, the shape of this mountain rain is like, whether it is the country or the realm of cultivation, it is all waiting. But after learning that Shen Lang was back, they relaxed down yesterday.

Worry, in fact, is also worried about the waves!

He is the first strongman in the East, and even the world’s strongest. If the two camps want to enter China, if they want to dominate the world, they must first deal with the waves!

Hearing his words now, there is nothing more worrying about.

“Take you a fly first!”
