

First Strong 2121

Chapter 2121 - These gangsters

Shen Lang wants to read the memory. Of course, there is no resistance from the wind, and it is completely compatible.

This is a matter of getting ready for a light car, and it will be done in a flash.

Feng Wuji does not know what Shen Lang has just done, just feels like she has entered her spiritual world.

After Shen Lang read it, it took a moment to integrate and searched for the information he needed.

Through the memory of Feng Wuji, he not only knew the appearance of Director Liu Shengwei, but also knew the gathering place of their temporary alliance.

This alliance is temporary, but it doesn't take a long time to make a specific number, so it is also a separate office. It is a temporary headquarters.

Among them, the official staff is partially fixed, and it is necessary to dock all kinds of information and coordinate the work of the monks.

The monks do not always have to be at the headquarters, that is, the ones that have one or two representatives.

Those big guys like the core will of course be more relaxed and can't ask them to stay at the headquarters all the time.

There are several core closed-door meetings, which are completely required to attend. Other daily, through group, video conferencing and other means of communication.

Feng Wuji is stationed at the headquarters, which is very helpful for her to understand the latest information.

So she knows a lot about the situation at that headquarters.

However, the usual communication is also the other staff, the main person in charge, Director Liu, that is, when the core meetings were held.

Today is different. I received an enemy battle book an hour ago. I was in a hurry for an emergency meeting. All the core personnel at the scene were present.

The core staff who were not on site also participated in the conference through video and immediately set off.

Liu Shengwei is still in the conference room at this time. This is the command department. Waiting for all kinds of intelligence information to be summarized, keep abreast of the latest changes.

At the most critical time, Feng Youji couldn't get in touch, and when he reconnected, he didn't report to him quickly, but he returned to the group in the group.

This makes Liu Shengwei very dissatisfied, did not get enough respect, how is this work going on?

And this is not just a question of his personal dignity. The information of Feng Jiji is too simple. Where is Shen Lang now? When do you come to the collection? What kind of combat plan do you know about the enemy?

These can't be separated from the organization to act alone!

Therefore, Director Liu has sufficient reasons to master all the situations.

After waiting for a while, Feng Wuji did not report to him alone, he took the initiative to fight.

As a result, the attitude of the other party is to make him very uncomfortable. Shen Lang did not want to come back to collect the meaning, and did not even mean to communicate with him.

This made him sternly say "command"!

This is actually a subtext that is already obvious: don't think that you are a self-cultivator, you can not put me in the eye, I represent more than just an individual!

As a result, the result of this sentence is that Feng Jiji directly hangs the phone!

It was so angry that he directly smashed the phone out!

“There is no reason! Nothing to do! No organization and no discipline!”

“What is he? It is not qualified to represent the Alliance! Today, if you report it, it will never appear!”

There are no other comprehensions in the conference room. The core big brothers, after the meeting, began to prepare for war. Not at the scene, but also trying to come over.

As for other levels that are not enough, even if they are staying in the temporary alliance, they are not eligible for this core conference room.

The other staff members quickly and carefully helped Liu to pick up the dropped phone.

“Director, what should be a misunderstanding, the wind girl is still very good at talking, she said that Shen Lang is back, it should be...”

“Do you mean that I am not good at speaking?”

Under the wrath of Director Liu, the staff who wanted to help the round field had a direct contact with the mold.

With such a sentence, plus he directly patted the table, the staff did not dare to speak, and other people were ashamed.

“The monsters of this group, if things have passed, you still have to shut them down in the electric cage!”

Liu Shengwei's low reprimand.

He showed up less, except for his self-confidence, but also because he did not want to see the faces of these comprehensions.

Of course, he will not be a younger generation, but those old people. Each of its own strengths is high, its age is large, and its age is old. He also has to be polite, and he should be an old man.

However, Shen Lang is only a young man in his twenties. His generation, age and identity are not as good as him. Even if he is strong, he dares not to put him in the eye!

So when he was just angry, he directly said the little ninety-nine in his heart.

The status quo of all countries is similar. The self-cultivation community plays by itself, and does not interfere with secular affairs. Everyone keeps the well water and does not commit river water. Once the conflict arises, it will inevitably use military repression.

But this is a hidden danger after all, and no country in power is willing to do so. If you have the power of absolute suppression, you will want to control the realm of cultivation.

There are some hidden departments, which are how to deal with them in secret research in the dark.

The same is true in the city of the river basin, with a team dedicated to the masters of psionics.

Of course, on the other hand, the realm of comprehension is the same. If they can control the national government, they are also willing to manipulate behind the scenes to achieve their goals.

This is manifested in foreign countries. Some politicians in small countries attach directly to the comprehension forces and are cultivated. Some rely on large-scale religions, and some support a large number of members through the gold dollar strategy, thus controlling the way of the parliament and indirectly controlling the country.

Even some presidents have their behind-the-scenes support.

What Liu Shengwei just said is both his heart and the voice of many authorities!

The self-cultivator is not good at the front, but if you really want to catch it, there are still many ways to design, poison, and smash. After catching it, they feel that getting a fully energized cage should make the comprehensible unable to escape. .

In his words, other staff members did not hear it.

Regardless of whether they support such an idea, Liu Shengwei dares to say that they dare not say it, because any self-cultivator can hang them, and no one wants to find death.

Just at this time a voice rang in the conference room.

“You are not talking badly, you can’t speak people.”

Suddenly there was a strange voice, and I directly got up with Director Liu. Everyone was taken aback and quickly searched for the source of the sound.

“It turns out that you think of everyone as a monster. Is it something to do with monsters, such as... have you eaten?”

“Who is he who is arrogant! What kind of ***** is true, aren’t you a group of monsters? A group of monsters who can’t see the light, now have the value of use, or else, do you also appear here?”

Director Liu shouted loudly!

Shen Lang doesn’t give him a face. After all, the strength is strong. Now, what is it that any cat and dog are willing to come to him?

Chapter 2122 - You are the cannon fodder

When Director Liu was screaming, other staff members have already reacted, and everyone quickly fired a gun!

They can participate in this war of comprehension, will it be ordinary people? Even if it is a civilian job, it is actually an elite choice.

Everyone has a tacit understanding. Just now, Director Liu can complain with them privately. This is no problem. It is when they are confident.

But definitely can't go out to this meeting room!

Not to mention the spread out, in this building alone, there are representatives of the various factions. If you know that you are being scorned as a monster, you will inevitably be confused!

Now that only one has sneaked into this conference room, it can still be controlled. Once it has all gone, it is impossible to control.

Therefore, you don't have to wait until Liu Shengwei orders, everyone pulls the gun directly and prepares for the killing!

The nature that comes is Shen Lang.

He read the memory of the wind, just to be able to locate it, and then transmitted it through the door of the Three Realms.

Because the whole process is very fast, when he came over, it was a few seconds apart, it was the time when Liu Sheng was thunderous.

The door of the Three Realms is transmitted, there will be space fluctuations.

But this must reach a certain level before it can be sensed. Although there are a lot of comprehensions here, but the strength is more general, even the most core ones, may just feel a bit abnormal, will not know the specific situation.

The people in the conference room are not self-cultivators, and they will not feel it at all.

After the coming, Shen Lang directly used stealth surgery and first hid it.

Stealth is an obstacle to the upgrade. It doesn't work for high-level powerhouses, but for them, it's more than enough.

Shen Lang originally sent it directly, of course, to beat the face of Director Liu, the phone was too unkind.

But after the arrival, he chose to wait and see for a while. If Director Liu is united as a country for the people, just because of the habitual bureaucracy, then he can still let go.

However, after listening to a few words, it is obviously not right.

This Liu Shengwei is not just an official, not just a proud attitude, but a different look!

At the time of the meeting, I would like to have a polite and respectful respect for everyone. In this backing, everyone is regarded as a monster, and I can't wait to go into the electric cage!

This is no longer a problem.

The tone and posture make the waves unsatisfactory, and Shen Lang will face him and look at his identity, and will not be embarrassed about him.

Deliberately coming from thousands of miles away is to let the other party know how to be good and know who is the real decisive factor in this battle.

But now Liu Shengwei's private confession of blasphemy is to make him angry!

He has come all the way, has been to many worlds, not to mention the heroes of the world, it is just a frog at the bottom of the well.

Like the **** of light, people in different worlds, directly plot the whole earth!

And it doesn't care about the power of national war on the planet. What is needed is the power of faith in billions of people. This may not be just one planet, there may be more in other worlds.

In other words, the whole earth, in the eyes of others, is just a field pasture that has been planted some seeds in the past and is waiting to be harvested in the future.

After seeing such a height, Shen Langzhen can generalize with their intrigue rights conspiracy?

It's not good to say that it will come out to maintain China, and it's just an old feeling. It's because I was born in Sis, because my relatives and friends are here.

Otherwise, the secular money power or something can't enter his eyes.

But he is so, other comprehensions can't escape this realm.

Everyone still has to compete for the territory and compete for resources. This time, the two camps abroad have been forced to come over. Everyone took the initiative to stand up, on the one hand for their own interests and on the other hand for the interests of the country.

But to be honest, it has nothing to do with the people.

The same is true for the government, but also for ourselves rather than for the people.

Because this is not a general war, the Light God teaches them that they really want to bloom in the country and will not harm ordinary people. In order to attract more faith, it will greatly support hospitals, education, charity and so on.

In order to influence or say "buy" believers, it is actually better than the official to ordinary people.

They grow bigger and affect those who are in power.

Therefore, this alliance, everyone stood up and defended the interests of both sides, but desperately only one aspect.

The result of the desperate sacrifice was also scolded as a monster!

It is to abandon the sense of belonging of the camp where the individual is located. Shen Lang also feels that Liu Shengwei is too much. And it's not hard to see that if he really has this decision-making power, he will not hesitate to execute it!

“So, the Alliance and the world’s monks, in your eyes, are just a group of used cannon fodder? If we can destroy the enemy, then the next step is to destroy us?”

The sound of Shen Lang floated in the conference room.

All the gunmen were concentrating on trying to identify where the sound appeared.

They all guessed that this comprehension person was invisible, but the hidden form was only in shape. In fact, I was still there. As long as they determined the specific position, they shot the invisible comprehension.

Liu Shengwei has just begun to be angry. After these few sentences, the mood has stabilized a lot. Seeing that everyone has already pointed at the gun, they are relieved.

Although invisible is not easy to find, but as long as you do not go out from the door, people are still inside. And even if you can really leave the wall, there will be movement.

At that time, all the bullets will be shot together, kill them, and you will be crowned with a spoiled name.

“Yeah! You are a group of cannon fodder. After you have finished using it, you must destroy all of you! Don’t you accept it? Are you hiding your face? Are you not looking at people? You have the ability to stand up and see if you guys are more Fast, or our bullets are faster!”

Liu Shengwei sneered, using the radical method to force this invisible comprehension to manifest.

If he is alone, he is daring to dare. This self-knowledge, he still has.

But now it’s not the same don’t need him to be hands-on, there are still six people on the scene, everyone is a double gun at hand!

Twelve guns!

Six well-trained elites!

To exaggerate, it is not a problem to kill a fly!

Although the enemy is a self-cultivator, if it is really those big brothers, will it be hidden in such a hidden way? I will rely on the old seller to drink him.

So he concluded that this is a young monk, because he is not qualified to enter the core layer, and when he was just in the meeting, he used stealth to hide in, and wanted to find opportunities to make a contribution.

Such a young monk is absolutely unable to shoot the shots of twelve guns!

Chapter 2123 - Don't dare to touch you?

“You have no respect for all the comprehensions, and you are also a monster. If you think about it, you are not worthy of the main thing here.”

The words of Shen Lang did not have feelings.

He was only going to hit his face, and some people found themselves dead!

“You also know that this is my main thing? What are you counting? Would you like a three-legged cat trick, do you think you are a dog? You guys, sooner or later, will be completely cleared!”

Liu Shengwei began to be a little impatient, waved his hand and signaled that everyone would quickly find out.

At this time, they saw a person sitting in front of a computer.

This conference room is the core security area and the temporary headquarters. The computer here is not only as simple as the minutes of the meeting, but also a collection of all intelligence and a bridge for encrypted communication.

There were staff members in front of every computer, but just under the enemy, everyone was shot and guarded, and it was guarded around Director Liu.

So now that Shen Lang is in shape, he is sitting directly in front of a computer.

“shot!”

As soon as I saw the appearance, it turned out to be a young monk, and Liu Shengwei immediately ordered.

“Shen Lang!”

Some of them are more eye-catching, and they recognize it. This is not a general monk, but a legendary character!

However, when the eye observation is transmitted to the brain, it takes a certain time and reaction speed to control the hand after the analysis.

Each of them is elite, but the first one is to obey the order. It has already been opened on the bullets. Some of them have turned their guns and fired when the enemy appeared. Some heard the instructions of Director Liu. The brakes were also shot.

For a time, at least five or six bullets smashed into the front of Shen Lang’s head!

But the strange situation appeared. All the bullets stopped at about one meter in front of the Shenlang, so they hung in the air!

It’s just this scene, it’s already shocking, but just after a moment, these bullets immediately lost a head, all in front of each of them, and also paused for about a meter.

Immediately, everyone’s palms began to sweat.

Although the bullets are in the air, they have no doubt that the bullets can accelerate again and can penetrate their heads!

This is Shen Lang!

This is the tearing of the fighters!

This is a dare to dare to smash the waves of others in the presidential palace of other countries!

This is a smashing wave that can annihilate the super behemoths of the cholera world!

This is the world's recognized first strong, the first super hero Shen Lang!

If you just saw it clearly, your mind will keep up, and they will never dare to shoot.

Now everyone has only one feeling – fear!

Liu Shengwei's feelings are much more complicated.

He also saw it clearly. This is Shen Lang. He has seriously studied it.

But is this guy not far from the horizon? A few minutes ago, Feng Jiji also excused because it was too far away to say that he had to go to Gang Rinpoche alone.

It can be seen that they are liar, that is, no discipline!

“What about Shen Lang? You don't dare to move me! If you move me, you will die!”

Liu Shengwei still has a little momentum in the end, even if it is a bullet a meter away, he still sat down proudly.

In fact, this is also a strategy. He is afraid that he can't stand up. If his legs are soft, then there is no momentum.

So now that there are still a few minutes of momentum, he simply let himself sit down in a high profile.

But even so, the bullet in front of it seems to be in the eyebrows, so that his eyebrows are a little hot and bloated.

Shen Lang knocked on the table.

“Don’t dare to move you?”

During the conversation, a folder on the table flew up directly, and the sly fan was on the face of Director Liu!

The sound of this “啪” is crisp and loud, and it is strong!

Liu Shengwei’s face was incredible. I didn’t expect Shen Lang to choose such a face to hit him!

Others secretly smiled, to the ability of Shen Lang, what else dare not?

Even if he is killed by Director Liu, in order to take care of the overall situation, he will not move him!

At this point, they have no one to say anything, safety first!

This is not someone else, it is a wave! With your fingers moving, their heads will bloom, and there will be nothing, and they will be given a crime on their own.

The folder also paused in the air, as if someone was holding it. When Director Liu slowed down and was about to open his mouth, he once again fanned it!

Still the same side of the face, or it is loud.

Director Liu’s face immediately became red and swollen.

“Don’t dare to move you?”

Shen Lang asked again, this time, the folder is like crazy, and it continues to fan up!

Because too much force and speed are too fast, the files inside are all falling off and flying out, leaving a folder with a plastic shell, which continues to fan down, and the face of Director Liu is fanned like a pig's head.

The key is half, a bit asymmetric, and looks even more weird.

“You, you... you wait... you have the ability...”

Director Liu has been guilty of guilt, others do not need to be close to hands, just like a folder into a fine one to beat him, and he does not say stand up, it is to shake the head dodge can not do.

The whole person was completely fixed in the chair and could not move!

At this moment, he still barely said the words, but because of the swelling of the half of his face, this is said to be arrogant.

“I have killed you if I have the ability? Do you think I dare not?”

Shen Lang finished for him. As the sentence came out, the bullets that had been suspended in the air and kept a distance of one meter from them also extended with the words.

When the last word was spoken, the bullets were only a few inches from their forehead!

The few staff members were originally shocked by the reputation of Shen Lang, and there was a bullet staring at them, so that they could not move.

But as the bullets approached, I couldn't help but instinctively want to retreat, or dodge. This is the instinctive reaction of the body, and it is difficult to control it.

However, they found that now the body can not do anything, so you can't move!

I can only watch the bullets come in. This is a very desperate thing.

And if it is the normal bullet speed actually can not see the specific, it has already entered the brain. Now it is clear to see the closeness of this inch, as if the slow-motion close-up in the movie is normal.

They can even guess that they can still feel the bullets open their heads and drill inside...

This picture is just thinking about it. It has been cold sweats and creeps in the back, let alone realizing it!

It's really better to die directly with a shot, but not for the pain and despair.

"Shen... Shen... Master Shen Lang, it's not our business! It's just the director of Director Liu, we are very respectful to everyone!"

"Right! We are just small staff members, usually succumbing to his arrogance! This beast is hostile to heroes!"

"Don't kill us, we are really embarrassed! We just don't know you!"

For a time, under the threat of the last inch of the bullet, everyone rushed to ask for mercy.

Chapter 2124 - public

Shen Lang didn't care about them at all. They were all set up. Just this pressure was mainly on Director Liu. I didn't expect Director Liu to be embarrassed. These people collapsed first!

In fact, they are really elite. If they are arrested, they will not reveal anything if they are tortured.

But this time is different. It is not an ordinary person, but a self-cultivator with super powers. It can directly stop the bullets!

This is already powerless to confront, and then discover that it is a deep wave, it is even more fearful.

After that, in the process of fanning Liu into a pig's head, they have been aiming at the bullets. Being shot in the air by a smashing bullet, the pressure is much bigger than being pointed by the gun!

Pointing at the gun, in fact, another need to shoot a gun, as long as it does not irritate the other side, the situation of the fire is relatively small.

But now that the bullet is suspended in the air, it is obviously controlled by the super power. If it is not controlled, the bullet will shoot directly.

Wait until one inch and one inch, and directly puncture their psychological defense!

Shen Lang killed Liu Director will not have anything, but compared to killing Director Liu, killing them is even more okay!

In other words, before killing Director Liu, it is very likely that they will kill them first to create a panic for Director Liu!

Then it's too embarrassing!

They are not afraid of death, but they cannot die like this.

So I immediately succumbed – to the world's first strongest person to plead for mercy, not shame!

This concept makes them not need to be stiff. Shen Lang is not a foreign enemy, and surrender does not involve surrender.

As for Director Liu, of course, I hope that Shen Langyi has a head and debt, and don't let them get tired.

“You guys! Grandson! If I wrinkle my brow, I don't surname Liu!”

Liu Shengwei yelled at his face.

He had just had a very guilty feeling, and he felt that he was going to die. But being beaten by these men, he is angry again, thinking about it is going to die anyway, it is better to have a good time!

Having said that, the bullet was in front of his eyes, and he kept his eyes instinctively closed.

At this time, a stench came out, and Director Liu directly urinated incontinence...

It's not that easy to scare people into urine. First, you need tremendous pressure from extreme fear, and secondly just have urine. And when you are nervous, you can't easily get out of the way.

But now this director Liu, that is, Shen Lang directly let him urine!

Shen Lang can directly control everything around him. In addition to imprisoning him, he constantly exerts pressure on his body, especially the bladder.

This is actually the same as hard to squeeze him out of the urine!

But in the other staff, they felt that he was being scared. It is Director Liu himself, who also thinks that he is nervous and nervous and not conscious.

"Oh, don't wrinkle your brows, but compare your eyes, but you are scared of urine. Director Liu is really courageous!"

The words of Shen Lang, let Liu Shengwei, who had a red face on his face, feel that the whole face is burning!

It was just a face-up, but now it's also a face.

Those few people were secretly glad that they were glad that they were begging for mercy. The bullets did not continue to shoot, or they might scare the urine...

"When you hit me, it will dirty my hands; killing you will waste the bullets of the country. Your problem, let your superiors handle it!"

The words of Shen Lang said that they all secretly breathed a sigh of relief.

To be honest, they still represent the official, Shen Lang is still giving officials, they will not really kill them!

But in the next moment, their faces have changed!

“The monsters of this group, if things have passed, you still have to shut them down in the electric cage!”

“What ***** is the true person, aren’t you a group of monsters? A group of monsters who can’t see the light, now have the value of use, or else, do you also appear here?”

“You are a group of cannon fodder. After you have finished using it, you will destroy all of you!”

“What are you doing? Will you be a three-legged cat trick, do you think you are a dog? You guys, sooner or later, will be completely cleared!”

Liu Shengwei’s words are played from the computer!

This is the conference room, which is also the headquarters. Naturally, there are related equipment. When recording, it will naturally open the record.

When there was no meeting, there was no command, especially when Liu Shengwei called Feng Jiji, of course, there was no monitoring or monitoring.

But now it is not only the voice is clearly transmitted, they also saw that on each computer, there is a large close-up of Liu Shengwei, the mouth shape can correspond to the sound.

This makes everyone fear!

Shen Lang didn’t know when he came, but even if he was invisible here, he even knew how to operate, secretly opened the monitoring, could have a sound, would not be so clear, and would not have a positive close-up.

how did you do that?

Monitoring the sound of the screen, etc., is the equipment here, interlaced like a mountain, a wave of comprehension, how can you know how to master? How do you cut these pictures and play them on your computer?

And... everyone thought of more possibilities!

Shen Lang pointed out, "All the screens that can be networked here are playing this. You secretly report all the departments to be copied, and they have already received them."

Even if they were ordinary people, it was felt that the atmosphere of the entire building was not right.

Then there were all kinds of noisy sounds coming.

At this time, the door of the conference room was opened, and someone rushed in, and the inside was still squatting.

"What kind of nerves do you have with Lao Liu! It's going to be awkward outside! If you think so, you can't say it, you can't play it publicly..."

When he came in, he stopped immediately, and the situation inside made him nervous.

There is no memory of the wind, and Shen Lang knows who this person is and is another person in charge. In addition to Liu Shengwei, there are several, who are responsible for the arrangement of different departments.

If this person just had no intentions, it would be equivalent to saying his heart. Liu Shengwei had a similar relationship with him before, but he also agreed, but he felt that this was only publicly said that it could not be spread out!

"again."

Shen Lang shook his head.

"You, you are... Shen Lang? Why are you here?" The man stuttered.

A computer flew directly to the past stunned him!

Shen Lang knocked on the table and said to the staff: “You also think we are monsters...”

“No, no, we don’t dare, we don’t have... they are Director Liu...”

“Don’t fight!” Shen Lang said coldly: “We don’t need your respect! You are just a group of villains. It’s better to be interested. I don’t bother you.”

During the talk, the bullets all landed.

A few of them are really relieved.

Being shackled, what counted! It could not match the smoothness of Shen Lang.

In fact, they just did not lie, perhaps because of complex emotions such as fear and jealousy, they also feel that the comprehension is like a monster. However, Shen Lang is greatly promoted in the international arena. It is different. They really regard him as a superhero.

“Go and guide everyone, let’s ask this director Liu who is scared!”

Chapter 2125 - Apologize

Director Liu, who had been urinating, had already lost face before several genres. Now I heard that Shen Lang wants them to bring all the others over and almost stunned!

After the door is opened, you can hear the more obvious noise outside. Many people are asking where Director Liu is, and have been to the conference room, and the background is the conference room.

So everyone is coming so fast!

At the speed of these comprehensions, they will soon be able to come over, just because this time just spread, not everyone has seen it, it takes a while to ferment.

The few staff members saw the bullets landing, such as Meng Da, quickly collected the guns, and then rushed out to scream and scream.

“Heroes! Director Liu who insults everyone is here!”

When I heard this, the monks who had come over had flocked.

In fact, those core dignitaries, even if they set off later, are one step ahead.

The young disciples of the various factions have not been involved in this place. It was just the time to be excited when I learned that the next verse and the information that Shen Lang came back.

Suddenly, this director Liu devalued everyone, treating everyone as a monster, cannon fodder, and clearing it after using it!

It's all fried!

If you don't want to go ahead, they will do it directly!

Even so, many people will not be destroyed on the way.

Shen Lang is completely familiar with all the situations, but he does not control anything.

Everyone else looks at people like this, and you are not allowed to vent it?

“Everyone please restrain! Master Shen Lang is here!”

“Master Shen Lang has already controlled Director Liu!”

“Director Liu has been beaten into a pig by Master Shen Lang!”

“Director Liu was scared of urine!”

Six of them screamed and screamed, and Liu Shengwei was as clear as possible.

Originally everyone's emotions surged and I heard that Shen Lang came back here, and I was even more excited.

"Shen brother!" Those big brothers, who had come to face with a calm face, heard that Shen Lang came back, excited about the past, excitedly called.

The conference room poured into a large number of comprehensions.

Everyone saw Shen Lang and also saw Director Liu.

Director Liu closed his eyes directly and did not go to see everyone. This is to let everyone come to visit him to scare the urine, and the face is gone!

But he found that the eyelids opened themselves and couldn't close their eyes!

And his chair turned a bit of peace of mind, let him face everyone, look at the legs, revealing a piece of scare.

Director Liu realized at this moment that there is something more terrible than death!

He really would rather kill him with a shot!

What makes him even more ashamed is that he has already done this, as if he was humiliated by the dawn, but others did not look at him!

Everyone came in and looked at Shen Lang first. The excitement of knowing greeted Shen Lang and said that he had not seen the excitement and expressed admiration. After completing this step, this began to spit on him!

Even the biggest shame, but also to be the foil of others!

The six people guided everyone in the spirit of sin and conviction, and criticized Director Liu, praised the power of Shen Lang and so on.

Shen Lang just smiles and waves, greets everyone, and then he signals everyone to be quiet.

It was originally noisy, and it was quiet in an instant, and the effect was more effective than the army.

This made the staff secretly amazed!

They work here, and they have seen how these comprehensions are unruly, except that they are stronger than them, their generations are higher than them, and they are between the self-cultivators, and no one will serve them, let alone them. people.

Now a wave of gestures, everyone is quiet, including those big!

This is prestige!

This is the sinking wave!

They couldn't help but secretly swear, Director Liu is simply looking for his own death. Why do you want to provoke the waves? Shen Lang is back in time, and things can be solved well. Isn't that the best result?

In order to satisfy the desire of the leader, in order to make a concert, the result is so out now that it is out of control.

But Shen Lang makes everyone quiet, not to talk about anything, but to pick up a video call.

After the previous here, he processed everything through the sacred armor and then sent it to the above departments.

This is the real meaning of "letting the superiors handle it" rather than a perfunctory one.

Now is to look at the attitude of the superior.

As soon as the video was connected, there was a majestic official inside, and immediately the face was snarled.

“What kind of ghost do you have in Liu Shengwei? Do you want to do it?”

Then through the screen, I saw something wrong inside.

“Mr. Huang, I am Shen Lang.”

Shen Lang has adjusted the camera to let the Minister Huang see all the things in the conference room.

All the comprehensions, just in the face of Shen Lang, are very excited.

At this time, they are all very tacit cooperation, all of them are glaring, even if they are across the lens, they can feel the anger that everyone can't resist.

Minister Huang also saw clearly that Liu Shengwei had been controlled, and the obvious news had already been fermented. This is what he is most worried about!

The legendary sinking wave has appeared, and it is a huge variable!

If Shen Lang directly announces the dissolution of the alliance on the spot, I can believe that everyone will follow his orders and leave the people directly.

If Shen Lang said that he would ignore this matter, then the people of Guangming and the true gods would directly set up direct positions in major cities in China, and other self-cultivators would not!

This is not a war on the other level. If the state forces want to win, there will naturally be no big problems, but it will inevitably have to pay a huge price!

Whether it is the safety of the lives and property of the people who may be affected, or the lives of the children, it may be a huge number!

Therefore, it is necessary to unite the realm of cultivation and let the comprehension community narrow down the war to a special extent.

In just one or two seconds, Minister Huang has already seen the situation and immediately said seriously.

“Comrades! I just received a video copied by Comrade Shen Lang and saw Liu Shengwei’s ugly face! I am very embarrassed and sad!”

“I am here to assure you that I will seriously deal with Liu Shengwei and those who have such bad ideas! And here, I solemnly apologize to everyone!”

Said Minister Huang stood up decisively and stepped back, so that everyone can clearly see from the video connection, he bent down and apologized to everyone!

Shen Lang nodded secretly, whether it was true or a show, the decisiveness and temperament displayed by the Minister Huang was different. This can quickly dilute the negative effects and regain the goodwill of everyone, at least to eliminate the sense of evil.

As for whether there is the same mind as Director Liu, he will not go deeper, and the people can’t stand the temptation!

If Liu Shengwei does not appeal to him, he will not come here, he will not know this, and there will be no current situation.

In any case, Minister Huang’s current attitude has made a standpoint. At least no one will take the chicken feathers as an arrow, and there is nothing to dare to split the team.

Well water does not make river water, it is always the state.

“I also decided that I will release Liu Shengwei’s commanding powers on the spot. All the entire alliance will be handed over to Shen Lang. Shen Lang has the highest command!”

Minister Huang continued to increase his stance, and he also saw another one stunned on the ground.

Chapter 2126 - Shen Lang Meng

According to the traditional thinking of the Chinese people, it is ashamed to be profitable.

For example, if the interests are violated, reasonable and legitimate claims are often “public apologies, as well as symbolic one-yuan compensation” and “all compensation fees, all donated to charity”.

This aspect is what individuals feel, and on the other hand, it is the public opinion that forces you to do so.

As a victim, public opinion—especially a network paradox that anyone can speak, often requires you to be a “perfect victim”. If you make a claim, it is for a few bad money!

If the person is replaced, the person who is replaced will be extremely bad, and it will become an unscrupulous superior.

According to the normal process, Shen Lang should be the authority of the Minister, but even the highest command here is no longer Liu Shengwei, but also the organization to take over.

But now the Shen Lang, can not care so much!

To the public opinion of the world, he can broadcast live, not afraid of being talked about, let alone the internal scope?

Liu Shengwei's attitude toward the realm of cultivation is not a special case. Everyone else is also like this, but he said it and let Shen Lang know it.

Therefore, for another person, if you are not good, you will complain to the wicked and wear small shoes for the real world.

Shen Lang does not matter, but it is necessary to consider whether other people will be affected.

Especially at the moment of the current situation, don't make any demon moths, let's fix the things of tomorrow.

So he took the responsibility in this way.

This alliance was originally a temporary alliance of the Chinese comprehension community. Officially recommending the words of the lord, Shen Lang is the first choice – and the only one.

Just because Shen Lang can't be connected, no one else can control who. Like Joe, they lived a lot of age, and the status of fame has long since passed. This lord will not bring practical benefits to individuals and families.

This is to deal with the two camps abroad. The lord is the first bird, and will be given priority to fight.

And there are so many big names in the same class in the country. You have become an ally. Isn't that equal to pressing others? Even if everyone is superficial and amiable, will it not be uncomfortable in the back?

Therefore, these old rivers and lakes, even if they stand out, still maintain a little bit of glory, rather than form a common core circle, and no one is a sole proprietor, even the ally, the vice-owner.

Such concerns and balances have led to the lead of the official, becoming the dominant, and everyone accepts such a result.

But the words of Director Liu just spread out, everyone is angry, and they dare to treat everyone as cannon fodder as a monster, and may clean it at any time!

Now Shenlang stood out, and like the original Yuxianmen, not because of the age and modesty, to lead everyone, let this everyone have a very large cohesive force, fully support Shen Lang.

The unity that everyone showed, the momentum that came out of it, not only made all the ordinary people on the scene tremble, but also made the Minister Huang feel through the video.

At the end of the conversation with Minister Huang, Shen Lang made a few simple instructions at the scene.

On the one hand, Liu Shengwei and the other stunned one, let people take it down, how to deal with it, their superiors will follow the procedure.

On the other hand, it is a reminder of his previous concerns about the realm of comprehension.

Although there are many younger ones on the scene, the core is the experienced old rivers and lakes. I was reminded by Shen Lang that I realized that this is very possible.

If Shen Lang did not return, they were led to Gang Rinpoche, but they were caught off guard by themselves, and it was really a heavy loss.

Then let everyone inform their own martial art, all choose a reliable way to privately notify, instead of using public methods such as group, so as not to be mixed with the spies.

Many monks are nervous and excited.

In addition to these old predecessors who have traveled to the sea, there are basically no major wars, whether young or middle-aged.

Even if there are all kinds of actual combat, it is also a very small range of private discussions. This time, it is very likely that it will be a wide range of wars!

For them, it is not necessarily encountered for decades. Excitement is more than tension, and they can't wait to do them.

The meaning of Shen Lang, everyone understands.

First of all, this is still speculation that the enemy may not really be such a strategy. If everyone is as nervous as the enemy, if it does not come, will it be a joke?

Secondly, if you really come to sneak attack, then the other two camps must have secretly sent people to the country!

Even if there is no traitor, others will use various methods to mix into various groups. On the Internet, you want to identify and verify your identity one by one. It is not so easy in a short time.

Once it was noticed by the enemy, it was a stunned snake.

The news is only at the temporary alliance headquarters. Everyone is in a private way, and they can contact the family of their own divisions.

After sending other people away, Shen Lang left the core of the old generation.

Basically, I have traveled to the sea of innocence and come back alive, so even if they are not good friends, they are all acquaintances.

The atmosphere is also a lot more friendly.

The highest commander of Shen Lang's "Lord" is equal to personally holding a core meeting.

But this time, Shen Lang was also driving out other staff members.

He doesn't need to record, he doesn't need intelligence, and he doesn't need to report to his superiors. It's just their discussion!

Before the formalization, Shen Lang also checked all the computers, monitoring, and network through the Holy Glance. It was determined that the state was cut off and the live broadcast would not be taken out here.

"Okay! It has been completely closed. No matter whether they are technicians or ministers, they will not know the content of our closed meeting."

When I heard Shen Lang say so, everyone could not help but admire it.

"The sinking brothers are worthy of being young! For these modern technology gadgets we just don't know."

“Haha, you can’t say nothing, simple mobile phones and the like are still possible, but if you go deeper, you really don’t understand.”

“What kind of genius is the Shen brother? He can fly the plane and I am not surprised.”

Shen Lang smiled and interrupted everyone’s tout.

“I cut everything. In fact, there is no top secret information. We will not plot anything bad. Just give them an attitude – we know technology, and we don’t want to be monitored!”

This sentence makes everyone serious, and the old men are also a bit embarrassed.

It used to be because everyone was worried too much and didn’t take it too much. If you didn’t, you couldn’t change Mr. Liu’s ideas and attitudes at least, and at least let them be scrupulous.

“Shen brother, what else do you want to order, even though we all listen to you!”

Chapter 2127 - Treasure conjecture

Although Shen Lang is not trying to conspire, but leaving everyone to come, still have to discuss.

“Tomorrow’s battle, I can deal with them alone. But I want to ask you, you are all older people, more knowledgeable than me, I don’t know how much I know about Gang Rinpoche?”

The simple passage of Shen Lang is to change the mood of everyone!

In the previous sentence, let everyone feel at ease. He is so confident that he does not need them to go, even if they follow, there is no danger.

The second sentence makes everyone very comfortable. Yes, although there is no such thing as a genius, no one is so powerful, but everyone is older and more knowledgeable. This is still more than Shen Lang.

But the last sentence, let everyone be jealous.

After a moment of silence, I was still open to the most familiar Qiao Yuxian.

“I don’t want you to say, for Gang Rinpoche... I guess everyone knows less. Our Beihai Qiao family is already remote in the northwest, but the Gangrenboqi side is still farther away from the western border. what!”

“Yeah, since ancient times, everyone has often traveled to Kunlun to the Western Regions. It has been thousands of miles away, and few have gone southwest.”

“In addition to some sects there, we are really limited in our Central Plains.”

“Gang Rinpoche, from Lhasa, there are still two thousand miles in a straight line. It is far away.”

Everyone started to talk about it one by one, and it also makes sense.

In fact, looking at the map of China’s territory, it was not until the Qing Dynasty that it really ruled the plateau in the southwest. In an older age, the country’s population was not so much, and the imperial army was not that much.

Whether it is the Southwest or the Northwest, it is a place of bitterness and poverty. Even the enemy is difficult to deal with. Moreover, it is very uneconomical to send a wide range of taxes and send officials to the army.

For the imperial administration, for the comprehension of the realm, the famous mountain Dachuandong Tianfudi has already been enough. There are few developments to the northeast, and to the west and southwest, it is often to the Tianshan and Kunlun.

Shen Lang nodded.

“I also understand the limited. Normal analysis, I feel that Gang Rinpo is really remote, so I will guess, will it be a plan for you to change the tiger.”

Everyone is deeply convinced that this possibility is very big.

“But now it is not necessary to be ancient, and we are not sticking to the concept of the Central Plains. The reputation of the king of Mount Kailash is also spreading to the international community.”

“They will want to form a repressive pressure on us by stepping on our mountain of God. It is possible. But I also guess that there will be any mysterious treasures in Gang Rinpoche!”

Originally, because everyone did not know much about Gang Rinpoche, it was a bit embarrassing. It is possible to adjust the tiger to the mountains and the mountains and the mountains.

But now Shen Lang said that there will be no mysterious treasures, everyone can not help but feel the spirit!

Why did they go to the sea of innocence at the beginning, because their own sites have been dug up, and other people's sites, and even other countries' sites, are similar. So I want to go to the unknown world and see if I can hunt for treasure.

Now that I heard about Gang Rinpoche, there may be mysterious treasures, and of course I am interested.

“It makes sense! Several of their sects are also well-received. They will be regarded as the original shape of the gods in the legendary and mythical. Is it just because of the appearance?”

“There are many mountains that are higher than the Gang Rinpoche, but they have not been deified, and certainly have their reasons.”

“However, snow all the year round, the inability to climb, the pyramid-like world, the natural slogans... these are real.”

“This is a clue that religion uses to connect together, or an ordinary person's interpretation. Our practitioners should be able to see more of the things behind them!”

“Yes! No matter which ancestral ancestral home, it will go to the ancestors and go to the mythological point of view, but we are very clear, in essence, because the environment is very good!”

“When it comes back, the ancestors must have gone to a lot of places, and they will stop to cultivate the place of creation. It was originally a very good place to choose.”

Everyone likes this, they feel very reasonable, maybe there is really a treasure!

Because of the religious sacred place, plus security considerations, the government banned climbing, which has left it a mysterious veil until now, unlike many famous mountains and rivers have been developed.

The two major sects want to invade China, for the sake of profit, and maybe there have been detailed investigations of various places!

Another point is that Shen Lang did not say it directly.

That is the power of faith!

The light gods teach them all, there are ways to unite the power of faith. Other religions should be similar.

As the holy shrine of the religious gods, Gang Rinpoche is now mainly Z-bred Buddhism, and the Z people are the core believers. They are very religious for various reasons.

Often many people have to go to the pilgrimage once in their lifetime.

They are a group of people on the road together, pulling wood, tents, pots, etc. with small trucks, along the way is really to achieve the “five body cast” worship, no matter whether it rains or snows, step by step.

Sleeping outside the tent, cooking, liberation shoes are directly dozens of pairs of wear. When the most basic funds are used up, stop working and then continue.

Far away, it may be five or six thousand miles! A trip down, often more than a year!

In the past when there was no car, the oxcart, the human pull, the downhill after pulling over, stop and retreat to the place and then go to the past, almost one meter is not lazy.

Therefore, regardless of the concept and attitude of the people, whether or not they agree with this kind of behavior, at least can not deny this kind of piety and perseverance.

If it was before, Shen Lang would not care much about this behavior, but now it has different feelings.

The light gods – including the way to use the waves, are based on the base! The more the number of believers, the more there will be a certain proportion of devout people, the accumulation of less and more, the power of faith provided is not cheap.

This is also the reason why the Pope, after they came into contact with the Guangming Mountain, sent a ***** to the gods, even at the expense of being separated. It is now that the vast population of the earth can provide extremely abundant faith.

But the power of faith is not purely quantitative, and quality is also a very important factor. For example, the power of the believer's faith is far better than ordinary people.

These can be prayed by the five bodies and walked thousands of miles of pilgrims step by step. The firmness and piety of the faith is far from being comparable to burning incense and asking for a sign.

They alone can be worth a thousand people, 10,000 people!

Moreover, religious believers, often in churches, temples and other places of worship, will be very religious. These believers are so devoted to everyday life!

It is impossible to pilgrimage, or pilgrimage, and when it is idle, it will go to the mountains, the riverbed, and the verses on the stones and stone walls.

In short, Gang Rinpoche is likely to have a very powerful and powerful belief!

Chapter 2128 - Attack in advance

Shen Lang did not say it, of course, because the power of faith is also a secret. If anyone knows that everyone is doing this, there will always be chaos.

Of course he is still secret.

Besides, even if Gang Rinpoche may have a large amount of faith, it is also a religion of others. If you say it directly, it seems to be trying to figure out others.

If you directly move others to accumulate the power of faith in the previous year, and even bring a group of people to go, what is the difference between foreign invaders and foreign invaders?

Shen Lang does not have this intention, nor can he let others think that he has this intention.

He doesn't mind what others think, but he doesn't want to be stigmatized.

However, if this is true, you can't let outsiders get it!

He does not take it, but also assists the local religion to ensure that it will not be taken away by the Light God.

If you want to take it away, it will not only be a huge loss, but also make them even more powerful. It will be a process of change.

Thinking of this, Shen Lang suddenly moved.

Since the enemy may tune the tiger away from the mountain, why can't you act in advance?

If there is a treasure, and they have learned the information, the purpose is to plunder the treasure, it is impossible to wait until the Chinese monk gathers!

Even if one of them is eliminated, it is also one of their purposes. It is also possible to kill the local forces in advance, take the treasures in advance, and then ambush everyone!

This idea made Shen Lang slightly surprised. I didn't take this into consideration before. I feel that everyone will have a bright battle, and the time is agreed, that is, it will appear at the appointed time.

“Now, I and you all know very little about the situation in Gang Rinpoche. But our enemy, the information we know, we don’t know.”

“That should be prevented in case!”

Qiao Yuxian immediately reacted. “What do you mean... they agree tomorrow, but may actually rush in early? Even now it is already here?”

Everyone was also taken aback.

If there is any treasure resource there, and the other party knows the information, then there is really this possibility!

If someone else goes first, not only will the treasures be taken first, but they will be ambushed tomorrow. You can also go straight, leave them there, and go to attack the various base camps!

Everyone understands people, and when they think clearly, they look serious.

“Shen brother, your guess is justified. So I hope you will rush in advance! We will also rush as soon as possible!”

“Yes! Your speed is faster than us, you can pass ahead. We all come later!”

“We also inquire about it and see if we can have more detailed information.”

Shen Lang came here because of the temporary intention. If there is no Liu Shengwei’s attitude, he will not want to come to the lesson. It will really be tomorrow.

Therefore, he did not prepare anything at the meeting. Now he talks and analyzes and draws such a conclusion. He can’t sit still.

“That’s so decided, I will rush as soon as possible. As for you, I don’t do anything. I will go back and hold my home first! I can spare no effort to meet.”

Originally, he was sure to deal with it. You don't need them to go, let them go back and watch as they don't be attacked.

But I just talked about the "treasure", if you let others not go, others because he wants to swallow it!

The situation was urgent, and everyone did not have any more, so they were ready to leave.

To everyone's surprise, Shen Lang disappeared from the conference room directly!

But think about it, how did Shen Lang come here, everyone knows that it is normal to go without a trace.

After Shen Lang made the decision, there was already a plan in his mind.

He sent it directly back to Pingxi at the gate of the Three Realms.

In this case, he does have the ability to solve it alone. But in the future, you may not be able to stay on the earth. You must exercise some of their abilities!

Their realm is elevated to the level of Daxian, actual combat experience, resilience, etc., can not suddenly improve, that is, Shen Lang instilled the combat experience in the past, which is ultimately not self-training.

So he is prepared to bring them together. If the opponent is not strong enough, let them practice and he will stand next to him.

If there are benefits, of course, let them shine together.

Other big brothers need to go back and guard their own teachers, because the more famous the big faction, the more prominent the target.

Shen Lang is a lone ranger, and most of them find a few girls, but they do not have a fixed martial art headquarters, and it will not be so easy to investigate.

Therefore, his parents here, the outside world does not know, will not become the target of the attack, Tianshan Ice Palace and Tianshan Jianzong, it is not easy to search, the martial art level is not enough, including the home, will not become the target.

This will completely bring them all.

Shen Lang has another hesitation, that is, do you want to bring the cold autumn?

The high-cold autumn family is back to the provincial situation, this enemy is not strong enough, it is necessary to bring the past “fighting”, it is a bit overkill.

But if you don't know what's really there, you can't say anything. If you don't bring the cold autumn, it doesn't seem too good.

But just hesitating, Shen Lang already has a decision.

This is the earth!

The overall environment is far from being comparable to the mainland of Nakajima. A small Yuxianmen over there has more resources than a large group of people here.

The cold autumn is already mixed into the top god. For hundreds of years, I don't know how many good places I have been to. Even the ruins and the ruins of the Dragon Valley have been visited. Can you still see the undeveloped treasures of the earth?

It is Shen Lang himself, but it is not very big.

So, let him go shopping with peace of mind, and will not come back in the future.

Back to Pingxi, they are all waiting together.

Although he did not follow the Shenlang, but Feng Xiaoji has already learned about the general situation at the temporary alliance headquarters through the network.

For Shen Lang's personal safety, they are absolutely assured, and no one in the world threatens to get him. Just a little worried that he and the official are stiff.

The official is not a person, it is a huge system!

After Shen Lang came back, he briefly said the situation, said what they could not understand, and then said the arrangement.

All the women are inspired by the spirit.

Before the giant beasts attacked and the Shen Lang was absent, they all stood up and took part in the fight against everyone on the Pacific island.

Now, against the enemies of foreign countries, there is naturally no excuse.

Besides, this time there are sinking waves, they don't need to break through the tragic and strong, and my heart is very bottom.

Then I went to the parents to say a bit, if it was only a day or two, what was the delay? Or say hello in advance, they will not worry.

Then, Shen Lang took them a few and sent them directly to the Tianshan Jianzong!

Chapter 2129 - Step on the mountain

Transfer to Tianshan Jianzong, not to go back to confess what, but to borrow!

Gang Rinpoche is the main peak of the Gangdese Mountains. It is less than two hundred miles away from the border line, and more than a thousand miles from the Everest to the northwest.

Before Shen Lang had not been to, from Pingxi or other places, it was too far away.

He can transfer to the Tianshan Jianzong, although at least two or three thousand miles, but can also shorten a lot of distance. This is the closest place he can use to transfer the door to the Three Worlds.

So when it came to Tianshan Jianzong, he just paused at the gate of Tianchi, did not go in and say hello, and then went directly to the South Supersonic flight.

A few of them are brought into the space of Tianshu, which is convenient for “carrying”, and they can also take the opportunity to practice more.

The Emperor’s behemoth in the Tianshu space is the time to help them improve their retreat. They have already said it to them. This is not an enemy of imprisonment, but a friend.

For the remaining two or three thousand miles, Shen Lang uses the super-sonic flight of the sacred armor, which is a few minutes.

This is on the earth, much better than the mainland of the mainland. Not only can only the detailed maps be compared. Before the war of giant beasts, in order to grasp the latest and most comprehensive information, it is the invasion of all aspects of the network.

Therefore, it can also be positioned by military satellites. As far as possible, the shortest flight, flying over the basin and the great desert, flying over the Kunlun Mountains, leaping over the plateau, and finally reaching the Gangdese Mountains, and found the main peak.

Gang Rinpoche is very good looking, because it can be seen from a distance, as if a huge pyramid of ice and snow was placed on the top of the mountain, which is particularly eye-catching.

In the vicinity, Shen Lang also slowed down and did not fly directly to the top.

Shen Lang chose a good observation mountain to fall, and then brought the canoe and other people out of the space.

After they knew the destination, they had already done their homework. They had seen the pictures of Gang Rinpoche.

But when I saw this mountain in the near future, I still feel very shocked. It is the beauty of nature, and the solemn feeling brought by countless pilgrimages and followers.

Shen Lang has seen the world's inconsistency, and it will not be magical for everything. Whether it is the unsuccessful climb of Gang Rinpoche or the Everest with a higher altitude of two thousand, it is no longer the case.

When they observed, Shen Lang himself was surrounded by the gods, and they must be sure if they came here.

Because the borders to South Asia are less than two hundred miles apart, you can see the Himalayas directly.

The leader of the Guangming and the true gods is coming over, and does not need to fly through the customs, so it is not only eye-catching, but also very troublesome.

With their ability, it is faster to come directly from South Asia.

If the light is said to be in a straight line, it is only 500 kilometers from here to New Delhi, and there are 1,000 kilometers to Lhasa.

So they are most likely to come over the Himalayas.

For normal humans, the Himalayas are just a few steep scorpions. Just hold the fortress with a passage. You can climb anywhere. If you want to climb it, it will be dead.

But for the Pope of Constantine V, and the two gods of the true gods, it is not too difficult to cross the Himalayas with their realm.

Shen Lang searched for a while, did not sense the presence of the strong, a little relieved.

But he also discovered something new!

It is the pyramid area covered by snow on the top of the main peak. It seems that it is wrapped in a layer of something. It is the knowledge of Shen Lang and it is impossible to penetrate.

This has attracted his attention.

I thought of this possibility when I was at the headquarters of the Alliance. But before you see it, you can only be considered a guess.

Because no matter whether it is a picture or an image, it is impossible to convey something special.

But now people are not the same when they are near, the naked eye can see the peak of the giant pyramid, but the gods can not clearly sense.

To put it simply, it is like the pyramid area, surrounded by invisible protective layers. The past is directly blocked by the gods. Whether it is the ice wall or the peak, it is unclear.

This is not as clear as a telescope or even a naked eye.

In order to clarify a certain situation, Shen Lang took them a few quick flies and came to the bottom of the peak snow and ice area.

This is directly to the near, Shen Lang is also more concentrated in the spirit, the entire peak is completely inductive.

Then he flew in the air, flew around the circle, looked at all the conditions, and recorded all the details through the close-up of the G-3.

“Do you find anything?”

A few of them are also very clear, this is not to visit. After arriving here, I also carefully observed it in all directions.

When I heard the inquiry from Shen Lang, the representative of the Canoe was answered.

“The top of the peak, the area covered by snow, seems to have something else that is directly protected.”

Shen Lang nodded with approval.

They are more knowledgeable than their peers of the same age, but they are far from comparable to Shen Lang. It's very good to be able to grasp the key points so quickly.

"I don't feel any signs of the enemy coming, but I don't include it."

Shen Lang stretched his finger.

They also understand the meaning of Shen Lang, and they have not searched for enemies nearby. That should be the enemy has not yet arrived, after all, everyone is also speculation, and there is no intelligence that the other party will arrive today.

But there is still a possibility, that is, it has already gone up!

Protecting the pyramid area of the peak, who knows whether it is the original, or the enemy?

If the Pope arrived, the cover of the mountain was a kind of protection for themselves. Even if someone came, they could not find it.

If there is any resources on the top of the mountain, it can be developed with ease.

"So, are we going to go up?" Dorothy was a little bit tempted.

She is now advancing with great strength, but she has not yet played the opportunity This time, it is even a hurry, it is a pack of Shenlang.

So, if you want to go straight, no matter what the danger, or what enemy, you can make a big difference.

"Not so good?"

The wind and the squad and the canoe looked at each other and they all had a hesitant attitude.

The two of them are much more mature and consider the issue more comprehensive.

Here are the holy sites of the gods of several religions. The South Asian countries do not say anything. At least the domestic Z zone still has to respect it. Religion, nationality and whatever are sensitive.

Shen Lang thought for a moment and made a decision.

“We don’t have any heart to destroy, the enemy is different. We must first understand the environment!”

Chapter 2130 - Unpredictable

The above situation, even the current Shen Lang can not detect, so he is a bit uneasy.

He really is not rushing to seize the heart, and if there are any rare treasures on it, it is necessary to know in advance to guard, what is not known, what is unclear, and it is not known to be taken.

As for being a predator, he does not care. If there is no way, he will not be taken away if he is taken away and destroyed.

The priority is to hold it so that it is not affected. If it is to be destroyed, then the fertilizer will not flow outside the field.

Shen Lang made a decision, and of course several of them did not object.

There is a more mature consideration in the rafting and the wind, but all the premise is to make reference for Shen Lang, not to help him make a decision.

After all, this is the name of the mountain, and it just feels magical. At this moment, everyone is going to wait.

Shen Lang has not only reached the bottom of the snowy pyramid, but also just turned around. For this peak of Gang Rinpoche, there is already more understanding.

At this moment, he does not need him to bring everyone together, but he is personally at the forefront.

The speed at which everyone rises is not fast. The snow and ice across the mountain, and the distance of tens of meters, everything is vivid.

Many high-definition photos of Gang Rinpoche can be seen on the network. The angles are good and the clarity is high. It is often taken by photographers on the helicopter.

But now their distance is completely clear to the naked eye.

In this way, you can see the mountain lines under the snow and ice, and at this height, the temperature is also below zero, in order to keep the ice and snow.

Shen Lang has just circled around the week. Now he is flying high, but he has a strange feeling. It seems that there is a special cold cover around it!

The pyramid-shaped area of the peak is covered with snow and ice all the year round. Everyone feels spectacular, but it doesn't feel amazing. After all, this is the altitude of more than 6,000 meters above sea level. It is very normal to have this temperature.

I felt so before Shen Lang, but now the more I go to the top of the mountain, the more I feel the speciality of this silk.

“what.....”

The rain fell a slight surprise.

She is a woman's pure yin physique, more sensitive to the chilly atmosphere.

The raft that often lives in the Tianshan Ice Palace does not feel it, and the rain falls to a slight difference.

However, even Shen Lang can not accurately grasp, how does she know the specific?

So I was only slightly surprised, but if I said anything, I might think that I thought about it.

Others did not think much about it. Shen Lang was aware of her surprise, which is like a testimony.

This also makes Shen Lang more curious and wants to go and see.

But he has another feeling, it seems that he went up to the peak and there will be no discovery!

This feeling was quickly confirmed!

Shen Lang directly stepped to the peak, and a few of them followed.

There seems to be a special chill around the pyramidal snow, and there is obviously a layer of what is covered in all the envelopes, but they did not have a little impact when they passed directly.

And it falls on the top of the mountain, and it feels like a few words – it's plain!

Of course, this is just the feeling of Shen Lang.

For the people who are in the canoe, etc., it is still a bit excited to stand on the summit of Gang Rinpoche, who has never reported the summit.

They have seen the peaks of the Tianshan Mountains. From the perspective of natural beauty, they should not be too shocking, or related to the special colors given by this culture.

Shen Lang continued to feel it carefully, still can still be aware of it!

The kind that can cut off the knowledge of the gods still exists. It is down to earth, and still feels a bit guilty below, not as clear as the naked eye.

And that special coldness is also there, and it seems to be even more intense.

“Do you feel that there is a special kind of cold here?”

Shen Lang said directly to Luo Yu, his feelings are very weak, I believe other people can not feel it.

The rain fell and nodded immediately.

Originally, she only had such a slight feeling. When she got here, she felt more chilly. But the peak is higher and there is no occlusion, and the temperature will be lower.

Now that I hear the words of Shen Lang, I understand that this is not her personal illusion, but it may be a bit special.

Others, although they don't have a clear feeling, try to find out if they can gain something.

Shen Lang squatted down and reached over the top of the peak.

The initial feeling just made him realize that this pyramid-like peak of snow all year round seems to be a whole!

So whether he is below, next to it, or to the top of the mountain, it is outside this whole. The layer of material that covers it covers the entire peak, not the outer layer.

Is there something special in this whole mountain?

If Shen Lang wants to "deeply understand", he doesn't even need to destroy it, because he still has the unknown shovel magic weapon that he got from the laks!

The small shovel is directly excavated without the soil or sand.

But he did not do this.

The savior is a match with the technique of the bandits, and if he wants to dig it now, even if it is well controlled, the peak should be dug up.

China has always had the saying of dragon veins. It is the direction of the study of Feng Shui. In general, the dragon of the dragon vein is not a kind of creature, but a mountain river.

Small to an ordinary mountain, river, as large as Tanggula Mountain, Kunlun Mountain, Himalayas, Yangtze River Yellow River, etc., can be returned to the Feng Shui Dragon.

Dragon veins, longan, dragon points... pay attention to a lot.

Shen Lang did not go deep into this aspect. However, from a shallow understanding, if the Gangdese Mountains are a dragon, then the highest main peak, Gang Rinpoche, is the dragon vein and the longan.

If it is to be destroyed, it may affect the Feng Shui pattern around the thousands of miles.

Since he is protecting first of all, he can't take the lead in destroying himself.

So at this moment, he is trying to blend in with the whole mountain!

He used the method of "Yin and Yang Bo Ruozhen" and the combination of nature and man, letting himself and the Gangrenbo Qifeng, and the pyramid-shaped peak to experience and merge.

Kneeling down and holding your hands is to deepen your feelings.

There is no use, Shen Lang is not known, because of the normal environment, he can be a combination of heaven and man, including the small fairy island in the world of the river city, but this peak is isolated by a special existence, this is Natural or artificial, I don't know for the time being.

And this is likely to be a hindrance to him.
